

War God 721

Chapter 721 - Crazy Ideas

Just like this, at this moment, even Long Chen was not able to see that Feng Zhiling was holding something in her hands. What they saw was Feng Zhiling slightly bending her fingers, but they did not know that there was something inside!

In addition, invisible whip could be considered a type of weapon, and it was even an Elementary Emperor level weapon! This was the highest level weapon that Long Chen had ever encountered. The reason why it was able to send the Mysterious Golden Soul flying was because the invisible whip contained a strong power.

The Mysterious Golden Soul immediately flew past the Monolith of the War God and fell behind it!

All of a sudden, no matter if it was the people from the wind race or the other ordinary warriors, all of their attention was placed on Feng Zhiling and the invisible whip, and they had all forgotten about this Mysterious Golden Soul. As for Jin Xiong and Jin Ba, it was not because they did not want to look for the Mysterious Golden Soul, but because at this moment, they were completely terrified of the Royal Divine Weapon, the invisible whip!

With such powerful strength coupled with their almost invisible bodies, even if they had the golden armor, they wouldn't be able to withstand it at all!

"Die!" Feng Zhiling let out a cold smile, and suddenly changed her body. In that instant, tornado after tornado formed around her, forming three thousand illusions, densely packed together, and completely surrounding the two great Jinshi Rankers!

Feng Zhiling's three thousand phantoms were countless times stronger than Feng Xuan's three thousand phantoms from before. Each one of these three thousand phantoms had the strength of at least the sixth stage of the Earth Martial Stage, and were comparable to the current Long Chen! and Jin Xiong would normally have a chance to break through with such powerful strength, but Feng Zhiling was hidden within these three thousand illusions and could use a deadly move against them at any time!

Jin Xiong and Jin Ba's eyes revealed a terrified look, their faces were miserable and bitter, and when they found out that Feng Zhiling actually had a invisible whip, they had completely lost the courage to fight! In the face of death, they chose to surrender. At this moment, the two brothers hurriedly said: "Feng

Zhilin, our Jinshi and wind race have not reached this degree of strength yet! With this invisible whip, we admit that we are not your match, we admit defeat! Please remove 3000 Phantom Shadow, our Jinshi doesn't need this Monolith of the War God, we'll just treat it as a gift to you! "

The two of them were around the same age, yet they wanted to live. They also wanted to save their lives, and they wanted to save their faces. These words sounded good, but they were actually quite disgusting.

"Feng Zhiling, do you agree or not!" Seeing that Feng Zhilin did not speak, Jin Xiong immediately shouted, but just as he finished speaking, he suddenly let out a painful cry. What could be seen was that the skin on his waist suddenly split open, and under the golden armor, a deep wound had appeared!

Jin Xiong's expression immediately became painful. The injury caused by the invisible whip was not just a superficial wound; the invisible whip's power directly penetrated into Jin Xiong's body, destroyed his body, and twisted his internal organs into a complete mess!

"Big brother, are you alright?" Jin Ba's face immediately revealed an expression of concern, but the moment he said those words, he let out a miserable cry and pounced forward.

He was just like Jin Xiong, screaming in pain!

The strength of invisible whip was truly terrifying!

"Brother, let's go all out, I can't let the two of us join forces, and still can't break through that little girl's three thousand illusions, she only borrowed the strength of invisible whip, her true strength is still not our opponent!" Jin Ba said in a heart-wrenching voice.

The two of them recovered from their pain and focused all of their attention on the fight!

"Feng Zhiling, you have such a vicious personality. We've already admitted defeat, but you still refuse to let us go. Then don't blame us brothers for being impolite!" No matter what, they had the strength of the eighth stage of the Earth Martial Stage. Once they used all sorts of battle skills, every single one of the three thousand afterimages would be annihilated in their hands, but very quickly, they would be able to form a new three thousand afterimages!

In terms of true essence, Feng Zhiling was no worse than them!

As for Feng Zhilin's invisible whip, it was very hard for them to dodge, the two brothers had their backs facing each other, under the bombardment of Feng Zhiling, they leaned on each other, and although the invisible whip was invisible, when it cut through the air, it would still make a little sound.

This way, they would have a chance to ease up a little. However, in the end, they would die at the hands of Feng Zhiling this afternoon!

Shock and hatred appeared in their eyes. They already had at least three wounds on their bodies, and these wounds were burning in pain, so much so that it was difficult for them to heal. A lot of their blood was flowing out from their bodies.

"Die!" Feng Zhiling's cold voice came out from the three thousand phantoms, each of them producing a sound like this. Countless cold voices, caused a certain degree of damage to the Jinshi brothers.

"AHH!"

"AHH!"

After being distracted, the two brothers were once again hit by Feng Zhilin, and this time, Jin Ba's head was hit, causing a blood colored scar to appear on his face, while the invisible whip smashed directly onto his ear. Even with the powerful Golden Battle Body, his ear was still deaf, and the right eye exploded under Feng Zhilin's attack!

This scene was extremely disgusting!

"Brother!" Jin Xiong endured the pain in his body and looked at Jin Ba with concern. One of his eyes and ears were already crippled under Feng Zhiling's attack.

"Feng Zhiling, you're so vicious at such a young age, you bitch!" The two brothers were going crazy, using their last trump card, fighting against the three thousand phantoms with their lives on the line, one by one the three thousand phantoms disappeared from their hands. Just the three thousand phantoms were not enough to stop the two brothers of Jinshi, but with invisible whip among them, it was different!

Everyone was staring blankly at this scene.

Towards this wind race princess, they were completely convinced.

Everyone's eyes were fixated on the battle, they had actually forgotten about the Mysterious Golden Soul and the Monolith of the War God. Compared to invisible whip, Mysterious Golden Soul could not be considered to be an important treasure. The uses of Monolith of the War God and invisible whip were different, but if wind race was able to obtain it in the end, then their statuses would at most be similar to invisible whip!

And at this time, the clever Long Chen quietly moved to the back of the Monolith of the War God and quietly placed him in the middle of his own Great Void Realm when everyone was forgetting about the Mysterious Golden Soul!

When he finally obtained the Mysterious Golden Soul, Long Chen's violently thumping heart finally calmed down a little. He was very careful throughout this entire process, afraid that if Feng Zhilin was discovered, he would immediately send an invisible whip over, and he would be done for!

With regards to the invisible whip, Long Chen would probably lose his life if he were to take one of them lightly.

Towards the might of the invisible whip, Long Chen was also impressed. Of course, he admired Feng Zhiling's young age. She was just a girl, yet she had such great strength. What was even more rare was that she had such a vicious personality.

It could be said that this Feng Zhiling was a terrifying person!

Before her power reached its peak, Long Chen did not want to fight with her.

He quietly placed the Mysterious Golden Soul in the Great Void Realm. Feng Zhiling's performance was simply too eye-catching, clearly making it so that no one was willing to shift their eyes away from her. That was why Long Chen was able to successfully snatch the Mysterious Golden Soul.

The location where the Mysterious Golden Soul had fallen was at least four hundred meters away from the Monolith of the War God. After obtaining the Mysterious Golden Soul, Long Chen looked at the Monolith of the War God with greedy eyes.

There was no craziest, only the craziest!

The appearance of the Jinshi gave Long Chen a huge chance, if he did not seize this chance, he would hate himself for it in the future. In any case, he still had a chance to go against the flow of time, and even the most terrifying three times of blood sacrifice.

Everything was fleeting. Only strength was a man's true ability!

Jin Xiong and Jin Ba were screaming and desperately fighting with their lives on the line. The further they went, the weaker their ability to resist became. Even Long Chen could tell that after a little while, these two brothers would definitely die under Feng Zhiling's hands!

And Long Chen must definitely obtain his Monolith of the War God s within this period of time!

Under the Xue Yi's power, the Monolith of the War God had actually almost completely loosened up. What Long Chen wanted to try was to use his strongest attack to attack the Monolith of the War God, hopefully that would completely loosen up the Monolith of the War God!

He only needed one chance, if the Monolith of the War God was able to loosen up, Long Chen would be able to instantly throw it into the Great Void Realm. If it failed, and made such a huge sound, everyone would definitely realize, forget about Feng Zhilin, even the Xue Yi and the other wind race warriors, they would not let Long Chen continue his attack!

Regardless of whether he succeeded or not, Long Chen had to leave after bombarding the Monolith of the War God.

Long Chen held his breath, and suppressed the true essence in his body to the lowest level. As if he had entered a state of death, Long Chen drew closer and closer to the back of the Monolith of the War God.

Everyone's eyes were focused on the battle, so basically no one paid attention to the back of the Monolith of the War God. At this moment, a person was slowly approaching!

Four hundred meters, three hundred meters, two hundred meters, one hundred meters. Very quickly, Long Chen arrived at the area controlled by the wind race, and was only thirty meters away from the Monolith of the War God. On the other side of the Monolith of the War God, the closest thing to the Monolith of the War God was only a few meters away.

Chapter 722 - Seizing the Monolith Map

Then, twenty meters, ten meters, by the time he was ten meters away, Long Chen had already stopped moving forward. Fortunately, there were still quite a few steel buildings around, so Long Chen hid inside one of them while holding his breath, and looked at the Monolith of the War God not far away with some nervousness.

Especially the aura that belonged to Martial Arts.

On the other side, Feng Zhiling had started a massacre of the Jinshi's brothers!

Long Chen calculated the time, and at this time, the blood-red scales started to spread over his body, and very quickly, it covered his entire body. He stood behind the Monolith of the War God, and when he looked at it, his eyes gradually turned blood-red.

Under the cover of the Monolith of the War God, no one was able to notice Long Chen.

Long Chen had a considerably sharp Spirit Devouring Demon Pupil that could accurately control everyone's movements. Long Chen could immediately sense whoever discovered him.

Using the Spirit Devouring Demon Pupil, Long Chen could feel the specific location of the wind race Warriors. The person who killed Shao Yu stood at the side of the Monolith of the War God and was the closest to Long Chen among all the warriors.

really wanted to kill him and take revenge for Shao Yu. But he knew the importance of Monolith of the War God, if he missed this chance, he would never have a chance to obtain Monolith of the War God, and this enemy, as long as Long Chen was strong, he could kill him anytime!

Thinking to this point, Long Chen temporarily cast him aside from his own mind, and completely focused his attention on the Monolith of the War God!

When Feng Zhilin and his opponent had reached their final moments, just as Long Chen was about to make his move, the wind race Ranker who was standing by the side of the Monolith of the War God suddenly turned her head and walked towards Long Chen. Coincidentally, Long Chen was just about to make his move, so he instantly saw that this blood red Ranker had appeared in his field of vision!

Long Chen didn't know why he suddenly turned around. This was simply too much of a coincidence, and the only thing he could say was that his luck was way too bad!

Sure enough, after he found Long Chen, the warrior opened his mouth and was about to scream!

Long Chen had exceeded his expectations yesterday, and killed a brother of his. He had a very deep impression of Long Chen, and now that Long Chen had suddenly appeared behind the back of the Monolith of the War God, how could he not be shocked?

"Damn it!" At this critical moment, Long Chen did not care about anything. He had a sudden flash of insight and this warrior was standing right in front of the Monolith of the War God, Long Chen shouted coldly, the flames on his right hand surged and the Scarlet Emperor Seal in his palm suddenly lit up!

"Hu!"

The Devouring Blood Realm activated, enveloping the entire area within the blood colored space. At the same time, he had also suppressed the enemy's actions. Long Chen suddenly raised his right hand, and the gigantic flaming seal instantly charged towards the warrior!

"Scarlet Emperor Burning Heaven Seal!"

He had originally planned to use this move on the Monolith of the War God, hoping that it would allow the Monolith of the War God to loosen up. But when this person suddenly appeared and discovered him, Long Chen, without thinking of anything else, decisively attacked him with the Scarlet Emperor Burning Heaven Seal!

It could be said that from the time Long Chen appeared to when he was using the Scarlet Emperor Burning Heaven Seal, it was just too sudden. The warrior never expected that Long Chen would actually appear in such a place, and Long Chen's Scarlet Emperor Burning Heaven Seal immediately pounced in front of his eyes!

"Save ..." He remembered that his own brother had died under this one move of Long Chen's. For a moment, he was so frightened that he forgot to resist.

BOOM!

"Die!" Under Long Chen's all-out attack, the Scarlet Emperor Burning Heaven Seal directly struck the warrior, and then, her body was directly brought towards the Monolith of the War God. Separated by the warrior's corpse, the remaining power of the Scarlet Emperor Burning Heaven Seal, all of it smashed onto the Monolith of the War God, the tyrannical power directly smashed the warrior's body into pieces, and Long Chen's palm directly imprinted onto the Monolith of the War God.

Rumble rumble rumble!

The Monolith of the War God let out a loud noise and started trembling!

Long Chen exploded his full power, causing an extremely strong attack. Only then did he realise how correct his decision was in his rush, and with that, not only did he take revenge for Shao Yu in a short period of time, he even directly struck the Monolith of the War God!

Although the power of the Scarlet Emperor Burning Heaven Seal had dropped a lot due to the attack reaching warriors, Long Chen could feel that the Monolith of the War God had already started to loosen up. Whether it could be kept by the Great Void Realm would depend on Long Chen's luck!

When Long Chen activated the Scarlet Emperor Burning Heaven Seal, it could be said that everyone noticed the movements of the Monolith of the War God. Everyone turned around and looked at the direction of the Monolith of the War God in shock, only to see that at the side of the Monolith of the War God, there were pieces of flesh and blood-red flames!

Even Feng Zhiling was attracted by this commotion.

At this time, just as she was about to use her last technique and kill the Jinshi Brothers, she didn't know that the Monolith of the War God s had made a move. She was extremely arrogant, and only waited for the Jinshi Brothers to be killed before putting away the Monolith of the War God s.

"Someone is behind the Monolith of the War God!" Xue Yi exclaimed, she rushed in front of Feng Zhiling and rushed towards Long Chen. The speed of the eighth stage of the Earth Martial Stage was unimaginable!

Using the Spirit Devouring Demon Pupil, Long Chen had already seen that other than Feng Zhiling, all the warriors from Xue Yi and Xue Yi had surrounded him!

"Let's go all out!" Long Chen immediately faced the Monolith of the War God and used it. He could only pray that the Great Void Realm would store the Monolith of the War God inside!

"Damn it!" There seems to be a little more to go, just a little more! " Long Chen helplessly felt that his luck had not always been very good. If he had not encountered that warrior and suddenly discovered him, perhaps he would have brought the Monolith of the War God with him. Right now, he was only missing that tiny bit, and it was exactly that tiny bit, that made Long Chen unable to take the Monolith of the War God away!

He had taken such a huge risk to himself, but in the end, he had failed. It was a huge regret!

Seeing that the others were about to surround him, he had no chance to escape after a few moments. Long Chen knew that he should give up at the moment, he was just about to use Blood Escape!

"Kid, let me give you a hand!" Just at this moment, Cat's words seemed to bring Long Chen a chance to live!

Long Chen hurriedly took back the Monolith of the War God again. This time, with the help of the kitten, a powerful suction force exploded from the Great Void Realm, and rays of black light exploded out, wrapping around the Monolith of the War God and causing it to instantly shrink before being engulfed by Long Chen's Great Void Realm!

The Monolith of the War God vanished in an instant!

Long Chen's blood red figure appeared in front of everyone.

Everyone saw Long Chen, and Long Chen saw everyone too!

The Xue Yi closest to him was less than ten meters away! The other martial artists also surrounded him in a semicircle!

When the Monolith of the War God disappeared, everyone knew that it was brought along with it. While Feng Zhiling and the Jinshi's brothers were attacking, he sneaked into the Monolith of the War God and took it away while it was still in chaos!

The people of wind race were completely enraged!

But after seeing Long Chen's appearance, they were a little dazed. This was because they could feel that the aura coming from Long Chen's body wasn't very strong, and the strength of his True Essence was around the fifth stage of the Earth Martial Stage!

And in the wind race, the weakest was a powerhouse at the sixth stage of the Earth Martial Stage, and even Feng Zhiling's three thousand phantoms, every one of them had the strength of the sixth stage of the Earth Martial Stage!

Just by casually coming out, he was already able to kill Long Chen. That Monolith of the War God was actually obtained by such a weak person?

"Who is this?" In Xue Yi's mind, she was puzzled from the beginning as well.

After the Monolith of the War God was taken, she was shocked, but when she saw Long Chen, she was stunned. Such a weak person, how could she dare to hit a Monolith of the War God? Also, where did his ring come from?

Not many people could recognize Long Chen at first glance, but Feng Zhilin was one of them!

Although she had never seen Long Chen before, she had already heard of Long Chen's name twice.

And the second time, he had killed the people from wind race before they entered the Black Gold City!

This kind of mysterious youth actually appeared in front of her and stole her Monolith of the War God. Feng Zhiling didn't get angry at the start, but was actually very curious.

But very quickly, her expression changed as she remembered that Long Chen possessed an escaping art that could escape in front of God Clan's Young Master!

"You're courting death!" The invisible whip in his hands turned into a long snake, and instantly pounced towards Long Chen. If this invisible whip was to gather Long Chen, it would definitely shatter Long Chen into pieces!

"Blood Escape!" The moment he received the Monolith of the War God, Long Chen immediately turned into a streak of bloody light and fled from this place. This ray of bloody light was something that not even Feng Zhilin's invisible whip could catch up to!

When Long Chen ran away, everyone knew how serious the situation was!

The Monolith of the War God was actually taken away by this mysterious brat?

Feng Zhiling's invisible whip did not stop him?

What was going on?

Everyone was stunned, the only lucky thing was that Feng Zhiling had killed two of their brothers, they had to thank Long Chen, because they knew that Feng Zhiling would definitely go back to chase Long Chen!

As expected — —

"If you can escape from Wu Guangyu's hands, you might not be able to, but Xue Yi, I'll leave these two trash to you, Divine Wind Escape!"

He then turned into a gust of wind and crazily chased after Long Chen's blood escape which had disappeared into the horizon!

Feng Zhilin's speed was originally very fast, and with this Divine Wind Escape, his speed would instantly reach the level of Long Chen's blood escape technique. However, Long Chen's blood escape technique was only able to travel five kilometers, whereas Feng Zhilin's was able to freely use it!

Chapter 723 - Escape successfully

What happened just now was too sudden. Other than Feng Zhiling using her Divine Wind Escape Technique, the rest of the people were still staring blankly at the scene.

First, Long Chen suddenly appeared and took the Monolith of the War God away. Originally, they thought that Feng Zhilin would kill this reckless and strange fellow, but they never expected that Long Chen would actually be able to perform a miraculous escape technique and escape from here.

Long Chen had been to this place before, and had even killed people from the wind race before using the Blood Escape to leave. Amongst the Black Gold City, there were only a few people who were from the wind race, and everyone was familiar with them, hence, they knew who Long Chen was.

"It's actually this kid!"

"Didn't he escape yesterday? He didn't expect to dare to come back! Right, behind that Monolith of the War God, there was flesh and blood splashing out.

After searching for a while, the experts of the wind race soon confirmed the identity of the person who was killed. Without a doubt, it was the person who killed Shao Yu yesterday.

"This brat's character is terrifying, he can really endure it. He actually dared to come here with such low strength, and he even succeeded in dodging our eyes. In the end, he was even able to safely escape under Palace Head Lin's attack!"

"He hasn't fled yet. Princess Lin has already caught up to him! Princess Lin has the invisible whip and the Divine Wind Escape Technique. It is not that simple for that brat to escape from her hands! "

"It's best if Princess Lin is able to kill him. Otherwise, with his personality, various mystical abilities and Monolith of the War God s, if she can make him strong, that would be a terrifying situation!"

"That's true. Eh, he came from that direction, the Mysterious Golden Soul!"

Everyone was shocked, other than the Xue Yi who was trying to trap the Jinshi Brothers, all the other wind race Warriors started heading towards that direction. Sure enough, there was no sign of the Mysterious Golden Soul at that big area behind the Monolith of the War God.

Everyone had mixed feelings.

They all knew that Long Chen had not only taken the Monolith of the War God, but also the Mysterious Golden Soul.

When they heard that the Mysterious Golden Soul had also been taken by that brat, the Jinshi Brothers who were originally rather grateful to Long Chen also clenched their teeth in anger!

"Big brother, what should we do? The Mysterious Golden Soul was lost for us! "

"What else can we do? We are lucky that we didn't die this time. That bitch Feng Zhiling is already chasing that little brat. We are just looking for death if we continue!" [Let's get out of here while Feng Zhiling is gone!]

The two of them were already on the verge of death, it was still unknown whether they could escape from the hands of the Xue Yi.

The Black Gold City was in chaos!

Using the blood escape technique, Long Chen narrowly avoided Feng Zhilin's invisible whip. Blood Escape brought with it a pleasant sensation of speed. This feeling of breaking through the sky was quite pleasurable!

What was even better was that after his own gambling and killing himself, both the Monolith of the War God and the Mysterious Golden Soul were in his hands. The Monolith of the War God amongst them could increase his cultivation speed tenfold, and the Mysterious Golden Soul could even help Long Chen cultivate to become a Golden Emperor Heaven Shrouding Seal!

Of course, cultivating Golden Emperor Heaven Shrouding Seal was still difficult!

Long Chen was in an extremely agitated mood. It could be said that he hadn't been this agitated for a long time. Before coming to the Five Emperor Prints, he had obtained the Five Emperor Prints, and after coming to the Archaic Graveyard, he had even obtained the Mysterious Golden Soul and Monolith of the War God!

"It's too early to be happy. That little girl has already caught up!" Cat's voice scared Long Chen to the point that he broke out in cold sweat. Of course, in this state, it was impossible for him to have cold sweat.

Long Chen was able to travel five kilometers in an instant.

Under normal circumstances, in order to guarantee his safety, Long Chen would have used Reverse Time to make himself escape with blood once. But this time, he clearly felt that Feng Zhilin had almost caught up to him!

He turned around and saw the crazy wind coming towards him at an incredible speed!

"Cat, what should we do?" From great joy to great sorrow, Long Chen's mood dropped to the bottom of the valley. He never thought that this Feng Zhilin would actually possess an extremely strong escaping technique, and had directly chased up to her!

With Feng Zhilin's power, Long Chen who had lost his Blood Escape was not her match!

The situation became extremely urgent in an instant!

Seeing that Feng Zhilin was about to arrive, the kitten said, "Don't panic, you have a way to escape. As long as you do as I tell you, first of all, you will drip your blood into the Mysterious Golden Soul and it will recognize you as its master!"

Without a word, Long Chen took out that golden stone, controlled his own blood, and dripped it into the Mysterious Golden Soul.

"Your bloodline possesses a bloodline power that is even more powerful than the Jinshi. Now that the Mysterious Golden Soul is under your control, you can use your own bloodline to attack the blood the Jinshi has left in the Mysterious Golden Soul. Follow my instructions, the Mysterious Golden Soul will recognize you as its master!"

Long Chen nodded his head, even though it was the first time, his comprehension had always been extraordinary. Following the instructions of the kitten, Long Chen very quickly knocked down the blood vessels left behind by the Jinshi, and completely controlled the Mysterious Golden Soul, causing Long Chen to instantly feel as if it became a part of his body! He could use the Mysterious Golden Soul as an arm!

Within the Mysterious Golden Soul, there was a very powerful and majestic golden energy.

Long Chen's state of mind instantly felt as if he was submerged within a golden ocean.

"Is this the power of metal? Just as Long Chen was immersed in the power of metal, he immediately felt a sense of extreme danger. The moment he opened his eyes, after he had fused with the Mysterious Golden Soul, he discovered that the girl who was wearing a veil was already standing ten meters in front of him. Long Chen looked at her with curiosity.

Looking at this terrifying girl, Long Chen took a deep breath.

"Don't be afraid of her, the majority of the liujin region's surface is made of metal sand, as long as you control the Mysterious Golden Soul, you can quickly escape from the underground below the metal sand. Although this girl is strong, her speed underground is definitely inferior to yours!"

Little Cat's words allowed Long Chen to finally have some confidence. After having his moves, he felt much more relaxed. Finally, there was a sliver of hope to survive.

On top of that veil, a pair of bright eyes stared fixedly at Long Chen. It could be seen that she and Long Chen seemed to be extremely interested in him.

"The Monolith of the War God and the Mysterious Golden Soul have both been taken by you." Feng Zhiling's beautiful voice sounded.

"You're right." Long Chen nodded indifferently.

"You're not afraid of me? You know that I can casually take your life." Feng Zhiling asked, surprised.

"You're right." Long Chen continued to speak indifferently.

"Can you say anything else?" There was a hint of anger in Feng Zhiling's voice.

Although he could not see, Long Chen knew that she was holding the invisible whip in her hand. If she was to twitch right now, Long Chen would really be finished.

"You're right." What made Feng Zhilin cough blood was that Long Chen still said that.

This made Feng Zhiling silently look at Long Chen for a while, no matter how calm she was, she could not control herself when faced with such a weird person like Long Chen.

However, Long Chen was a little special. On one hand, it was because Long Chen's strength was too low, but he was still able to complete such a difficult mission, and on the other hand, it was because of the relationship between Long Chen and her fiancée, God Clan's Young Master Wu Guangyu.

"I heard you swore to kill all of Wu Guangyu." Feng Zhiling said.

Long Chen smiled faintly, went silent for a while, and said in the end, "You're right!"

"Are you really not afraid of death?" Feng Zhilin's voice was cold, this Long Chen, really made her feel like she was going crazy!

"You're right!" Facing Feng Zhilin whose eyes were gradually turning cold, Long Chen still said those words.

"I was looking forward to seeing if you had that potential, but now I don't. I'm curious as to how you're going to escape my killing move. I'm very, very curious, so go die!"

As she spoke, she waved her hand!

An invisible force broke through space and charged towards Long Chen!

"Mysterious Golden Soul!" Long Chen had already made his preparations long ago, and at the last moment, he immediately controlled the Mysterious Golden Soul and flew into the hard ground filled with metal grains.

"Wanting to flee underground is too naive." With her supreme strength, she broke through the metal ground and bombarded it again and again, allowing her to move forward quickly in the metal ground. However, she was quickly shocked to discover that Long Chen's speed had exceeded her imagination!

"How could it be so fast, could it be because of the Mysterious Golden Soul? The ground is filled with metal sand, which is extremely hard. It is precisely because of this metal sand that the speed at which I can break through the ground is limited, but this Long Chen seems to have no restrictions at all! "

Seeing Long Chen being like a fish in water, quickly leaving in front of his eyes, Feng Zhiling who was initially cultivating to the state of mind, suddenly had an indescribable anger and craziness appear in his heart!

No one had ever angered her to such an extent, Feng Zhilin had never thought that Long Chen could actually escape right under her nose. What she was most proud of was her speed, in terms of speed, even the God Clan's Young Master was not able to make her convinced, so in terms of speed, she was very confident, confident that even if the Monolith of the War God had already entered Long Chen's' ring 'realm, she would still not be in a hurry.

She knew that it wouldn't take long before she could take out the Monolith of the War God. But when Long Chen escaped underground quickly, she finally realised powerlessly that she couldn't catch up to Long Chen!

Chapter 724 - Fifth Stage of the Earth Martial Stage

Even if Long Chen were to use his blood escape technique, she would be able to guarantee that he would be able to catch up to him.

"Damn it!" Long Chen had already disappeared from her sight. Feng Zhilin stopped and waved the invisible whip in his hands, causing all the dirt in front of him to fly out and form a large piece of space in front of her!

Many of those hard metal grains were even more crushed by her blows!

"Damn it, die!" The furious Feng Zhilin was like a wild beast going crazy underground. Beside her, the sand and stone were dancing in the air as she used her invisible whip to pull out a huge subterranean space.

But no matter what, Long Chen still escaped!

"Long Chen, I will definitely take out the Monolith of the War God. Just you wait, I don't believe that you will continue to stay in this underground space for the rest of your life. If you come out, I, Feng Zhilin, will definitely tear you into eight pieces!"

The angry roar echoed throughout the subterranean space.

The Monolith of the War God, was an important opportunity for Feng Zhilin to break through to the ninth stage of the Earth Martial Stage, and was also the key to wind race's prosperity. The clan leader of wind race, Feng Qing, had handed this important mission to Feng Zhilin, and even gave her the invisible whip, hoping that Feng Zhilin would use it well, and accumulate some capital for his future!

For Feng Zhiling, this was an easy task to complete. Unfortunately, her pride had completely ruined this one!

"Long Chen!" Feng Zhilin finally quieted down, looking at the direction Long Chen disappeared in, her eyes bloodshot.

"A person who hasn't even reached the fifth stage of the Earth Martial Stage can actually make me, Feng Zhilin, suffer a setback."

Her cold laughter echoed in this underground cavern.

Of course, Long Chen couldn't hear her laughter, but he could imagine the smelly expression of Feng Zhilin, who was left far behind him. She completely did not place Long Chen in his eyes, but he did not expect that Long Chen would actually snatch the Monolith of the War God away.

In the end, he still succeeded.

Long Chen relaxed a lot in his heart.

"Outside, I'm probably still worried about being scared. With this Mysterious Golden Soul, I can cultivate here and freely travel through the ground. Once I've made some achievements, it will not be too late for me to leave this place. "

Only after thinking about it here, did Long Chen finally stop after walking for at least fifteen kilometers. Along the way, he changed directions several times, and it was impossible for Feng Zhilin to find him in the underground world. Furthermore, in order to hide from others, he had already dived a good distance downwards, so even deities would find it hard to find him.

Just like Feng Zhiling, Long Chen opened a space in the ground that was large enough to accommodate dozens of people. This space was filled with metal sand, and the deeper he went, the more metal sand he found, and the denser the metal aura was.

"This is a metallic world, and I have the Mysterious Golden Soul. Cultivating the Golden Emperor Heaven Shrouding Seal here would be much easier. This should be the most suitable place to cultivate Golden Emperor Heaven Shrouding Seal. "

Looking at this cultivation grounds that he had created, Long Chen was very excited. There was no need for him to worry about any danger here. Furthermore, he had the natural resources to cultivate them.

Furthermore, it is true that I am now strong enough in terms of combat skills. Once the Scarlet Emperor Burning Heaven Seal is released, as long as it is not a Royal Level battle skill, then I will not be its opponent, and my weakest point is my realm. Let's first try and see if I can level up in this realm!

When he had just arrived at the Archaic Graveyard, Long Chen had already broken through to the fourth stage of the Earth Martial Stage. With the Monolith of the War God, if he could gain some insights from above, Long Chen should be able to reach the fifth stage of the Earth Martial Stage very quickly.

After all, Monolith of the War God was said to be able to increase a person's cultivation speed tenfold!

"Let's study the Monolith of the War God first." As the owner of the Great Void Realm, he could see everything happening in the Great Void Realm, especially such a huge being like the Monolith of the War God. In other words, the others could use ring to store the Monolith of the War God, and if they wanted to observe, they could only take the Monolith of the War God out from the ring. But Long Chen was different, they could directly look at the Monolith of the War God in the Great Void Realm!

The Monolith of the War God was placed in an independent space within the Great Void Realm, surrounded by the gray void energy. The void energy circled around the Monolith of the War God, and like a veil, it wrapped around it, and when the Monolith of the War God disappeared in the clouds, it gave it an even more mysterious feeling!

The Monolith of the War God now completely belonged to him, so Long Chen was a lot more at ease. In this safe place, he sat down cross legged, and his mind was completely focused on the Monolith of the War God. After his first experience, the words on the Monolith of the War God quickly evolved into an illusory figure in Long Chen's eyes!

This illusory figure very quickly started to fight with the Earth Martial Arts, and also started from the first stage of the Earth Martial Stage. Although it was only the first stage of the Earth Martial Stage, Long Chen did not let it go, the solid foundation was to climb to a higher level, and as long as his foundation was solid to the extreme, even the fifth stage of the Earth Martial Stage could still be broken!

Following the movements of the shadow on the Monolith of the War God, Long Chen also tried to imitate it. The simpler fist techniques had reached the illusory figure's hands and gave it a mysterious feeling. Long Chen who was learning while cultivating had improved a lot faster than before.

If there was a deeper comprehension, then it would be even more abnormal!

The more Long Chen immersed himself in it, the more he felt touched in his heart. The senior martial artist that left behind the Monolith of the War God, although she died, she did not give up on that kind of untiring pursuit, it was a kind of valiant life force that could not die!

This kind of state of mind and thoughts were compatible with Long Chen's. Long Chen was also a rebellious person, so the benefits brought to him by the Monolith of the War God was undoubtedly very large.

From the first to the fourth stage of the Earth Martial Stage, Long Chen was consolidating his foundation. The Monolith of the War God had given him a lot of ideas, and a lot of changes that he hadn't noticed in the past had been noticed by him.

In the past, if Long Chen wanted to cultivate the fifth stage of the Earth Martial Stage, he would need to research a secret manual first. But now, if he did not, he could completely follow the figure in the stone tablet, and follow his movements, improving during the process of his fist arts practice!

The important feeling was right. Once a God possessed a Martial Spirit, it would naturally grow longer. At that time, both the body and the true essence would also increase to a certain degree!

Long Chen was completely immersed within. He had reached a state where he had forgotten himself, and in this underground space, no one would disturb him. Even Cat did not say a word as she watched Long Chen slowly raise his strength.

In subterranean space, a crazy figure was not only exhausted from practicing the fifth stage of the Earthen Martial Arts.

Time slowly passed. Under the detailed guidance of the Monolith of the War God, on the fifteenth day, the situation finally changed. At this moment, an endless amount of earth vein spirits were rushing towards Long Chen. Wherever the wind from the fist went, the earth vein spirits were swept up, and every single punch he made, moved in a profound trajectory, as if even space itself was distorted. Occasionally, there would be a small ripple that would hit the surrounding ground, and cause the entire ground to shake!

Rumble rumble rumble!

The earth vein spirit had completely surrounded him!

Long Chen quickly sat down cross-legged. When he withdrew his last punch, he had already completed the fifth stage of the Earth Martial Arts, and his martial spirit had finally undergone a change!

In his sea of consciousness, the mist swirled towards the dragon-shaped Martial Spirit in the center. After Long Chen completed the fifth stage of the Earth Martial Arts manual, the dragon-shaped Martial Spirit had become more corporeal, and there were even faint traces of dragon scales on its body.

This dragon was almost lifelike.

RUU!

More and more dragon soul true essence appeared in his body as they were transformed into dragon soul true essence. With the growth of the Martial Spirit, the meridians in his body became thicker and stronger, allowing him to be able to contain even more True Essence. In the nine big chakras, the volume of the pellets became many times larger, because of the increase in the size of the dragon soul true essence, the color of the pellets became a lot more condensed!

Time passed bit by bit.

Finally, Long Chen stopped cultivating. This meant that he had completely reached the fifth level of the Earth Martial Stage. From the third stage of the Earth Martial Stage to the fifth stage, in addition to his Dragon Soul Transformation skill and the Five Emperor Prints, in the Archaic Graveyard, Long Chen could already be considered to be at least a mid-ranked warrior.

Everything calmed down, Long Chen stood up, and felt the movements inside his body. This feeling of being full of power, gave Long Chen full of confidence. It was more accurate to say that he was full of confidence in the Monolith of the War God. In just fifteen days, he had allowed Long Chen to directly break through a level.

The Monolith of the War God would only make Long Chen more and more powerful.

Chapter 725 - Golden Emperor Heaven Shrouding Seal

However, Long Chen thought about it, since he had already reached the fifth stage of the Earth Martial Stage, then there was no need to rush to cultivate the sixth stage, after all, there was still a need for a certain period of relaxation, and during this period of time, the most suitable thing for Long Chen was to cultivate his Golden Emperor Heaven Shrouding Seal.

He had just reached the fifth stage of the Earth Martial Stage and he did not stop for a moment to start training the Golden Emperor Heaven Shrouding Seal. This was all to see whether or not he could take Ling Xi's capital away in the future with his powerful enemies surrounding him!

"Cat, if I were to use this Mysterious Golden Soul as a primer and use it to cultivate my Golden Emperor Heaven Shrouding Seal, without this Mysterious Golden Soul, how am I to get out of here?"

If not for the Mysterious Golden Soul, with Long Chen's strength, it would be extremely difficult for him to run deep underground, which was why he raised this question.

"Don't think too much, the Mysterious Golden Soul is used to cultivate Golden Emperor Heaven Shrouding Seal, it doesn't disappear, but instead exists in your body in another way, that isn't a metal attribute warrior, this Mysterious Golden Soul has no other uses for you, hurry up and cultivate, but in a martial arts aperture, you have to increase the power of fire and metal, the pain that you have to endure is not something an ordinary person can endure!"

With Little Cat's assurance, Long Chen's courage grew by a lot. He no longer had any worries, and after calming down for a period of time and consolidating the fifth stage of the Earth Martial Stage, he began to cultivate his Golden Emperor Heaven Shrouding Seal.

Scarlet Emperor Burning Heaven Seal and Golden Emperor Heaven Shrouding Seal. If these two types of hand seals were combined and merged together, how terrifying would the final explosive battle strength be?

Long Chen was looking forward to it. Of course, the huge obstacle in front of him was how to cultivate the Golden Emperor Heaven Shrouding Seal successfully!

Long Chen was very familiar with the cultivation method of the Scarlet Emperor Burning Heaven Seal, and Golden Emperor Heaven Shrouding Seal also had the same logic.

The Scarlet Emperor Burning Heaven Seal was a type of fire, while the Golden Emperor Heaven Shrouding Seal was a type of metal. As the saying goes, metal is not afraid of fire, metal and fire are complementary, the conflict between the two was not too big, so Su Yun reckoned that the success rate would be a little less, and if it was water and fire, it would be more troublesome.

"You can do it, boy. Your body can withstand this kind of conflict. The key thing is whether or not you can endure it. Endure that you are a dragon within men, resist that you are a smelly insect." Cat grinned and said.

Long Chen was too lazy to bother with him. Within his control, the Mysterious Golden Soul floated before his eyes, and Long Chen took a deep breath.

"Begin."

This was the palm of his right hand, and on his palm, there were traces of the Five Emperor Prints. Amongst the Five Emperor Prints, only the color of the Scarlet Emperor Seal was bright, and when the Mysterious Golden Soul approached his hand and placed on her palm, the golden Golden Emperor Seal actually shone with light!

Long Chen realized that it was already very difficult to control the Mysterious Golden Soul. Under the devouring ability of the Golden Emperor Seal, the Mysterious Golden Soul was quickly stuck to his palm. Under the devouring power of the Golden Emperor Seal, the Mysterious Golden Soul actually melted into a golden liquid and fused into the Golden Emperor Seal!

A ball of golden liquid passed through the Golden Emperor Seal and appeared in the martial arts aperture on Long Chen's right palm. The martial arts aperture was originally occupied by the power of Long Chen's Scarlet Emperor Seal, but after the power of the Golden Emperor Seal came in, the two of them started to fight for territory!

The power of metal and fire began to fight from the very beginning, and the result of such a struggle was that Long Chen felt pain. This made him break out in a cold sweat. Under such a state, a painless twitch could already be considered as a strong willpower, what kind of cultivation was this, even wanting to fuse the two types of powers into one martial arts aperture?

When the metal element first arrived, it received a heavy blow, and an unending stream of power could be instilled into the Golden Emperor Seal. The Mysterious Golden Soul that Long Chen had obtained was at least a treasure that was several times more powerful than the Blue Demon Flame, so for a moment, the metal element was still able to endure.

On his right arm, blood-red flames and golden rays of light appeared at the same time. The two types of forces competed against each other on his arm, fighting for their respective territory, killing to the point where they couldn't even fight. However, Long Chen's face had already turned pale from the pain, as he found it difficult to even control his own arm!

What he needed to do was to use the cultivation method of Golden Emperor Heaven Shrouding Seal s in the battle between the two parties. First, he needed to successfully cultivate the Golden Emperor Heaven Shrouding Seal, and then, he needed to maintain his right arm in a calm state.

"The heavens will descend upon us, and we will suffer first!" His willpower had always been far stronger than other people his age. Even when his arm was completely covered by the two types of force, Long Chen still clenched his teeth, and used his tyrannical martial spirit to control the True Essence in his other eight major acupoints to suppress the two types of powers.

This was the first step he needed to accomplish. After achieving this step, the pain he would have to endure wouldn't be so great. The boundless True Essence directly separated the power of fire from the power of metal, and in this period of time, even if Long Chen risked his life, he still had to successfully cultivate the Golden Emperor Heaven Shrouding Seal. Otherwise, it would be quite troublesome if it were to drag on!

With the support of the fire of Golden Crow, the fire attribute power in the martial arts aperture was terrifying. How could he be willing to let its territory be occupied?

However, under the control of Long Chen, it had to stay put no matter what.

Although he had temporarily suppressed the two powers, he knew that it wouldn't be for long!

"Let's go all out!" Long Chen let go of his hands and feet, and devoted all of his heart and soul into training the Golden Emperor Heaven Shrouding Seal, reaching a state of forgetfulness. He forgot his pain, forgot torture, and what remained was only fighting spirit!

"Gold, is a symbol of sharpness and toughness, a symbol of ice-cold slaughter!"

Amongst the five elements, metal and fire both possessed an intense attack power. This was the reason why such an intense confrontation occurred. It was as if two ancient giant beasts were competing with each other!

With the experience he gained from cultivating the Scarlet Emperor Burning Heaven Seal back then, it was much simpler for this Golden Emperor Heaven Shrouding Seal to cultivate, especially in this subterranean space, where a dense metallic aura was present everywhere. Right now, under the attraction of the Golden Emperor Seal, the metal sand in the ground, had a faint air current gather around Long Chen's body. A single grain of sand had a bit of air, and the air current formed from the countless metal grains was even more terrifying.

The metal attribute energy was rapidly growing in Long Chen's body.

Using the Mysterious Golden Soul as a guide, and the power of the underground metals as the main fighting force, under Long Chen's painstaking effort, the Golden Emperor Heaven Shrouding Seal and the Scarlet Emperor Burning Heaven Seal slowly formed in Long Chen's hands. In Long Chen's hands, one red and one golden, respectively shone brilliantly.

The flames on the left were overflowing, the Mysterious Golden Soul on the right erupted with resplendent golden light, and the two kinds of primers revolved around the pellet in the center, but Long Chen's true essence kept them separated!

The Golden Emperor Heaven Shrouding Seal finally succeeded!

This meant that today, Long Chen had already completed half of the task, and the other half was to fuse the two types of energy. This was a process that required careful coordination, and in the process, Long Chen would slowly release his own true essence, allowing the two types of berserk energy to come into contact with each other. When they were completely familiar with each other, the next time they officially met, there would be such a huge conflict, and they could even fight side by side.

"To fuse two types of powers, it would take me quite a bit of time. I would need at least half a month's time," Long Chen calculated.

This fusion required a tenacious patience, and at the same time, a perseverance that allowed him to endure pain. Although the two types of energies were formed, the berserk energy was still there.

"It seems like I can only endure this!"

Under this underground ground, Long Chen allowed the two types of energy to begin a long process of merging. Days passed, and under Long Chen's perseverance, the two types of energy quickly fused together.

Roughly after some time, when Long Chen had quietly withdrawn his true essence, the blue devilish flame and the Mysterious Golden Soul, were obediently revolving around the pill in Long Chen's martial arts aperture.

At this point, the Golden Emperor Heaven Shrouding Seal's cultivation could be considered as complete.

Long Chen could feel an even more terrifying power within his own palm. If these two powers were to fuse together, the resulting attack would naturally be unimaginable.

After finally completing the mission, Long Chen felt like he had reincarnated.

"The path of cultivation is extremely difficult. No one can succeed so easily. No matter what he did, clenching his teeth and insisting was the way to go! For example, right now, didn't my strength become much stronger than before? "

Fifth stage of the Earth Martial Stage, and two Emperor Prints.

With this kind of strength, it would allow Long Chen to be unstoppable under the seventh stage of the Earth Martial Stage.

"Next, should I continue cultivating in the sixth stage of the Earth Martial Stage or should I leave first? Other places do not have such a good place of cultivation, but if I do not use it, it would be difficult for me to comprehend it more thoroughly."

Chapter 726 - The Last Altar

Long Chen organized his thoughts.

"My identity has already been found out, and I am also carrying a great treasure. I reckon that for the sake of the Monolith of the War God and the Mysterious Golden Soul, not only will the people of wind race and wind race look for me, they would also want to kill me and seize the treasure. If others hear the news, they wouldn't let me, this weak person, off for nothing. Although my strength has increased by a lot now, there is still a big gap in front of the strong and powerful experts of the peak of Realm of Myriad Kingdoms. I should still cultivate until the sixth stage of Earth Martial Stage and then go out? "

Long Chen was just about to make this decision, but Cat interrupted him and said: "Brat, enough is enough. Do you think this place is really safe?"

"Is there still danger?" Long Chen was startled, and asked.

"Do you know where the gold eating qi of the liujin region came from?" The kitten said.

Long Chen recalled that when he met the gold eating qi, it seemed to have come out from the ground.

"A thousand meters below the surface of the earth, is a sea of gold eating qi. The gold eating qi will constantly erupt upwards, causing what you call a natural disaster. Your position is quite close to the gold eating qi, although it is not close, it is not far from it either. When I saw that there were no movements from the gold eating qi previously, I was relieved to see that you were training here, but in the past few days, there has been a lot of movement below, and I think that it will erupt in spew in no time. Even if you have the Mysterious Golden Soul under you, it will not be easy to hide it! "

"Damn, why didn't you say so earlier!" Long Chen was a little speechless, luckily he was lucky and succeeded in cultivating the Golden Emperor Heaven Shrouding Seal, otherwise, when he was cultivating, when the gold eating qi came, he would probably be shattered into pieces.

If that's the case, then Long Chen naturally would not dare to stay here any longer, he nodded and said: "Since it's like this, I will leave, the Archaic Graveyard is so big, and I have this Spirit Devouring Demon Pupil, if they wanted to find out that I'm not that simple, and I have the treasure called the Mysterious Golden Soul, as long as I'm in the liujin region, even Feng Zhilin will not be able to catch me."

After making his decision, Long Chen used the Mysterious Golden Soul to head towards the top of the earth. He stayed in the ground for close to a month, wondering what would happen above.

Coming out from the underground, Long Chen discovered that it was night outside. This Archaic Graveyard did not know where he was, but since they had come over from the Star Plate, it looked like this Archaic Graveyard was in another space, but there was also sun and moon in this place, and also daylight and night, which were exactly the same as the Dragon Sacrifice Continent, thus Long Chen guessed that this place was also one of the Dragon Sacrifice Continent.

He vaguely remembered hearing someone say that the Archaic Graveyard was a land with no one between them.

"There's a scent of blood in the air. There's someone nearby!" Just as he came out from underground, Long Chen realized this point. In reality, many people knew him, and all of them knew how his Dragon Soul Transformation looked like. This included Feng Zhilin, so Long Chen was not afraid of being hunted down.

Long Chen looked around, only to see that he was still in the middle of the liujin region, and he did not know the specific location, but it was different from the flatness beside the Black Gold City, it was filled with steel that was like a forest, a real steel jungle. One thick steel strip after another pierced out from the ground, pointing towards the endless sky!

In front of him were countless densely packed steel jungles. These steel jungles had existed for a long time, and there were patches of rust all over the place. The smell of blood and rust mixed together in the air, causing one to feel nauseous.

Long Chen immediately used the Spirit Devouring Demon Pupil to observe the situation within the surrounding half a kilometer. This steel jungle was an extremely rare technique, every steel rod was at least 10 meters tall, blocking Long Chen's line of sight.

He turned his gaze in all directions and finally spotted the source of the smell. There were more than 20 people here, and they were currently engaged in an intense battle.

"Any place that fights and fights to such an extent, don't tell me there's something good there?" Since they met, Long Chen naturally wanted to take a look. He held his breath and quietly went closer, those twenty odd people were all immersed in killing intent, and very few people noticed Long Chen who suddenly appeared in the corner.

"Even so, so many people died on the ground?" Long Chen shockingly discovered that there were more than thirty corpses arranged on the ground. It seemed that a lot of things had indeed appeared here, which was why so many people had gathered here and started a massacre.

Long Chen looked carefully, and his gaze swept past the group of people who were frantically slaughtering their enemies and landed behind them. Behind them, was an empty steel entrance, filled with darkness and profoundness.

From the outside, this steel cave seemed like the entrance to a mausoleum. This place was known as the Archaic Graveyard, since there was the word "tomb", then this cave in front of him should be a mausoleum.

In the Archaic Graveyard, a mausoleum meant a treasure.

"What would that be?" Long Chen was a little curious, his gaze turned towards the people fighting, to see if he could get any information from them.

In this group of people, most of them were at the sixth and fifth stage of the Earth Martial Stage, and most of them were already injured. They knew that it was hopeless to fight, so they retreated far away to watch the battle between the two, and the two sturdy warriors in the middle were currently fighting with all their might, and their strength was at the seventh stage of the Earth Martial Stage!

In the Archaic Graveyard, the seventh stage of the Earth Martial Stage could already be considered strong.

After all, the number of warriors at the eighth stage of the Earth Martial Stage was not many.

Two warriors of the seventh stage of the Earth Martial Stage were fighting with all their might.

"Who do you guys think will be able to get the seventh spot?"

"From what I see, that man wearing black clothes probably has a higher chance of winning. He came from the back and didn't go through any battles, so her combat strength is still better preserved."

"I think the other one is stronger. After all, he had already defeated a seventh stage Earth Martial Stage cultivator earlier.

"We're the last person on the list. There's nothing for us to do anyway. An entrance to a mausoleum actually appeared here. Who would have thought that this mausoleum would actually contain such a treasure? "

"I don't know, but there are seven star altars in the tomb. Even those experts fought over them. In this mausoleum, could there be the inheritance of the Sevenstar Monarch? "

"Dream on, the inheritance of the Seven Monarchs is something that we can see too. Back then, it was only because the God and Demon race obtained the inheritance of the Demon God Emperor and the white lotus that they had such a grand power today. With such a high level inheritance, how could we, the contestants, have the chance to experience it? Haha."

One of them laughed.

There were dead everywhere, and only he could laugh.

Long Chen carefully looked at the nearby situation. The two people battling in the middle were at the seventh stage, so it was likely that they were fighting over the right to be the last to enter the mausoleum. According to them, there were seven altars inside, but right now there was only one place with a blue fluorescent light. This should mean that the other altars had already been extinguished after someone had entered.

"Is this the inheritance of the Sevenstar Monarch?" Long Chen was also somewhat suspicious. He had heard Shao Yu say that Five Emperors' Treasures were only things from legends, and might not be in the Archaic Graveyard, but the inheritance of the Seven Monarchs actually existed. Although Long Chen did not know what the Sevenstar Monarch was like, but to be able to become one of the Seven Monarchs, they must be the peak experts of the Heaven Martial Stage.

The Archaic Graveyard was indeed filled with treasures. A Monolith of the War God had just appeared and Long Chen had snatched it away from him. When he came out of the ground just now, he met a place that could possibly be the inheritance of the Seven Monarchs.

Long Chen quickly decided that he needed to go in and take a look. There was still one more spot left anyway, so there was no need to waste it. Furthermore, Long Chen had already reached this realm, so the two of them were both at the seventh stage of the Earth Martial Stage.

Just as the two were fighting to the point where there was no way around it and the spectators were also looking forward to the benefits, Long Chen walked out from behind the steel jungle.

"Here comes another one who wants to take advantage of me."

"What kind of joke is this? This little brat, with his appearance, what kind of things can he pick up?"

They were waiting for the outcome of the two seventh stage Earth Martial Stage s, and the best outcome would be both of them being injured. There would only be one survivor between them, then no one would have a chance, and at this time they did not dare to directly enter the mausoleum, because if that was the case, they would most likely be surrounded and attacked by the two seventh stage Earth Martial Stage s!

They were all warriors at the sixth level of the Earth Martial Stage and were able to discern Long Chen's strength from the small details. Seeing that Long Chen was only at the fifth level, they did not place Long Chen in their eyes and continued to watch the expert at the seventh level of the Earth Martial Stage battle.

However, what caused them to be stunned was that this youth unexpectedly ignored everyone. With unwavering eyes and an unchanging expression, he directly bypassed the two martial artists and headed towards the entrance of the mausoleum.

This strange young man had attracted everyone's attention, including the two warriors at the seventh stage of the Earth Martial Stage. They were stunned for a moment, and then the two of them quickly separated. The reason why such a tragic battle had erupted between them, was because of the last chance to enter, and Long Chen brazenly walked in, was this a joke?

That skinny black-clothed martial practitioner instantly stood horizontally in front of Long Chen, and said: "Brat, step aside, don't waste our time, or you'll be courting death!"

Seeing that the Black clothed warrior was going to deal with Long Chen, the other warrior at the seventh level of the Earth Martial Stage eased his tension. He was waiting for the Black clothed warrior to kill Long Chen, then fight against the warrior at the seventh level of the Earth Martial Stage.

To kill a warrior at the fifth stage of the Earth Martial Stage basically did not require any effort, so they did not think too much about it.

"This young man is really a fool, right? Even we don't dare to fight in these two battles of the seventh stage of the Earth Martial Stage. He actually foolishly ran over. Isn't this just courting death?"

Everyone started to discuss and look at Long Chen's reaction.

And at this time, facing the Black clothed warrior's question, Long Chen said nothing and he quickly responded, which was that he had transformed into the Dragonsoul Transformation. Every time they fought, Long Chen would basically challenge him to a battle at a higher level, so the Dragon Soul Transformation was something that he had to do!

Killing people above his level had long existed in Long Chen's blood. To this day, he basically had not fought with warriors of the same level anymore. Warriors of the fifth level of the Earth Martial Stage were simply not his match.

After his Dragon Soul Transformation, Long Chen's body quickly became covered with blood-red scales. The flowing true essence in his body had already completely turned blood-red!

The nature of his primeval essence had risen to around ten times its original size.

Long Chen's True Essence quickly went from the fifth level of the Earth Martial Stage to the sixth level of the Earth Martial Stage.

This was still the liujin region, a territory of the Jinshi and the wind race. A month ago, a great event happened in the Black Gold City, and a youth called Long Chen walked into everyone's eyes. The first thing he had to do was with the God Clan's Young Master. In this matter, Long Chen was a complete

tragedy, but the most striking thing was that he was able to safely escape after attacking the God Clan's Young Master.

The second matter was extremely shocking. This youth called Long Chen, who only had the strength of the fifth stage of the Earth Martial Stage, was able to snatch the Monolith of the War God under the encirclement of the experts of Jinshi and the wind race. He was even able to safely escape under the pursuit of the talented young lady of the wind race, Feng Zhilin!

It could be said that not only had Long Chen offended the god race, he had also offended Jinshi and the wind race as well. Currently, the people of Jinshi and the wind race were desperately searching for Long Chen, and in reality, the news had spread rather quickly within the Archaic Graveyard.

This state was extremely special, so those who had heard of Long Chen's deeds immediately recognized him.

Instantly, their eyes revealed expressions of greed!

Long Chen's appearance, made them think that he was focusing on the appearance of the Monolith of the War God!

Monolith of the War God s were a type of mystical treasure that could increase the speed of cultivation by ten times!

Many of them had already stagnated to the point where they could no longer progress, and Monolith of the War God was the hope for every single one of them to become a peerless expert!

Seeing Long Chen, everyone's heart started to boil. There were some people who didn't recognize Long Chen, who roughly understood what was going on after seeing the other people's performance.

"Long Chen, it's him, Long Chen!" It was unknown who shouted, but this shout had ignited the fuse that was present at the scene!

The person closest to Long Chen was the Black clothed warrior at the seventh level of the Earth Martial Stage. Originally, he wanted to casually take care of this troublesome Long Chen, but just as he was about to make his move, Long Chen had already turned into a Dragonsoul Transformation, revealing his identity.

It could be said that in their hearts, Long Chen had instantly become a huge treasure that was even more attractive than the mausoleum. Long Chen's strength was not enough to protect such a treasure!

Those who dared to come here, who were not crazy people. The fact that Long Chen carried such a great treasure meant that no matter where he went, he would be hunted by these kinds of people, because he was like a moving treasury. Who would let this treasure go?

In this Archaic Graveyard, every single treasure was a chance to survive and become strong. They were also a chance to roam the world once they left the Archaic Graveyard!

In this Archaic Graveyard, there was only one theme, and that was kill!

Realizing this point, Long Chen was no longer naive.

The first person that rushed over to him was the Black clothed warrior at the seventh level of the Earth Martial Stage. After discovering Long Chen's identity, he reacted the fastest, immediately following was another practitioner at the seventh level of the Earth Martial Stage. Long Chen had underestimated their greed, not only these two Rankers, those warriors at the sixth stage of the Earth Martial Stage, actually started to charge forward without caring for their lives!

Long Chen's eyes quickly turned completely cold.

"Are you looking to die?" If others did not harm him, he would not take the initiative to hurt them. But if others had the intention to kill him, no matter who it was, Long Chen would not be polite. Back then, Shao Yu had taken the initiative to speak a few sentences with Long Chen, and Long Chen had directly saved his life twice!

But now, all of their eyes revealed bloodthirsty light, they were trying to kill Long Chen!

Since that was the case, Long Chen would not be courteous.

The first one to welcome Long Chen was the black clothed man. He originally wanted to deal with Long Chen the fastest, putting Long Chen's corpse into his Qiankun bag before escaping far away. If he could succeed, then he would be awesome. But what surprised him was, Long Chen actually made the first move!

With a sou sound, Long Chen first extended his right arm!

BOOM!

Instantly, the entire metal sand table shook, a golden flow of air flowed into Long Chen's hand, forming a golden whirlpool in front of his palm. In his hands, the golden Emperor Seal suddenly lit up and began to emit a resplendent light. That tyrannical golden light directly caused many martial artists to be unable to open their eyes!

"What is this?" The enormous aura Long Chen emitted instantly surpassed his imagination. At this moment, Long Chen's body was emanating a kind of sharp power, like a sword blade whose blade was bursting with cold light. Everyone could even feel that their own skin seemed to have been pierced by countless needles. The piercing pain caused many people to be stunned.

In the crowd, Long Chen released a dazzling light, it was as if he was the sun!

"Golden Emperor!"

With a flip of his hand, Long Chen turned it around. Suddenly, a golden seal appeared in his hand, and under Long Chen's control, this golden seal flew away!

"Heaven Shrouding Seal!"

Golden Emperor Heaven Shrouding Seal!

BOOM!

The golden seal suddenly soared into the sky, completely covering the sky. Everyone suddenly had the feeling that the sky had been completely blocked as the golden light covered the entire sky!

At first, they were shocked, but then a terrifying pressure came from the Golden Emperor Heaven Shrouding Seal, causing them to feel like their knees were trembling. As for Black clothed warrior, who

was being affected by the Golden Emperor Heaven Shrouding Seal, it was even harder for them to move!

"How is this possible?" He cried out in alarm!

But right at this moment, under Long Chen's indifferent control, the Golden Emperor Heaven Shrouding Seal suddenly pressed down, and like a golden mountain peak suddenly smashing down, bringing along a trillion jin of power, it all pressed down towards the Black clothed warrior.

"Heaven and Earth Tyrant Fist!" The Black clothed warrior clenched his teeth and used his strongest move. However, he quickly discovered to his despair that the strength of that Earth Tyrant Fist, was not Long Chen's opponent at all. Long Chen's Golden Emperor Heaven Shrouding Seal, directly destroyed his fist, directly pressed down onto his body!

BOOM!

When the Golden Emperor Heaven Shrouding Seal pressed onto the metal ground, countless of steel jungle were immediately destroyed by Long Chen. The strength of the Golden Emperor Heaven Shrouding Seal not only crushed the Black clothed warrior into a meat patty, it also killed a few warriors beside him!

However, the allure of the Monolith of the War God was just too great. The people at the back did not care about their lives, and rushed towards the front!

"This Archaic Graveyard is actually so bloody, then I, Long Chen will just directly become the King of Slaughter. If people don't offend me, then I won't offend them. Now that they know my identity, in order to prevent this matter from being spread out, I can only be rude. "

Long Chen did not want to enter the mausoleum. The experts of the wind race and the Jinshi were surrounding the mausoleum, if he did, he would die.

Therefore, even if he was forced into a corner, he could only go all out!

"Devouring Blood Realm!" While everyone was still in shock at Long Chen's strength, Long Chen had already used the Devouring Blood Realm. Under his display, the blood-red colored space instantly engulfed the surrounding area. The dozen or so people who were still alive, including the warrior at the

seventh stage of the Earth Martial Stage, all discovered that there was a terrifying suction force in the surrounding area!

"What is this?" By this point, their faces were already filled with terror, and the greed from before had long since disappeared. They had truly realized that this youth was able to accomplish such an impossible feat. How could he possibly be a simple character to obtain the Monolith of the War God?

The powerful might of the Devouring Blood Realm made everyone panic. In the middle of the Devouring Blood Realm, the dozen or so people looked like they couldn't see anything, like headless flies, flying around randomly.

However, that panic made him retreat, and in the end, the panic knocked down his greed. In front of death, even Monolith of the War God no longer seemed that important, and he wanted to escape, but regrettably, there were a lot of people blocking his way, and even if he wanted to escape, it would not be that easy.

Chapter 728 - Legacy of the Sevenstar Monarch

Once Devouring Blood Realm came out, everyone was in a state of panic!

And right at this moment, the warrior at the seventh level of the Earth Martial Stage suddenly felt a dense, cold aura of death approaching him, he desperately tried to spread out, and even directly killed a warrior who was blocking his way with a palm. But regrettably, Long Chen's Desolate Divine Seal still hit his back!

That was why Long Chen was able to take care of the two of them so easily. Otherwise, it would have taken a lot of effort on his part.

Two warriors of the seventh stage of the Earth Martial Stage had both died in the hands of Long Chen. When the last person was hit by Long Chen's palm, he actually cried out miserably on the ground a few times and then completely breathed his last. When the crowd saw this scene, they all sucked in a breath of cold air.

From this, it could be seen that not only was Long Chen not weak, he was also extremely terrifying!

"Flee!"

Every heat produces these emotions.

But it was already too late, after Long Chen had experienced so many things, because of his own kindness, he had been through many dangerous situations, and this time, he would not make such mistakes again. Under his control, the power of the Devouring Blood Realm increased, and only when the warriors at the sixth stage of the Earth Martial Stage used at least half their True Essence, would they be able to prevent their blood from rioting irreparably!

Their strength instantly fell by half!

Long Chen's strength was already much stronger than theirs in the first place. In the face of their weakened state, he was like a wolf entering a flock of sheep, decisively and coldly slaughtering his enemies. In the Dragon Sacrifice Continent, just the Realm of Myriad Kingdoms's side had trillions of people.

Survival of the fittest.

Since others wanted to offend him, he had the right to do so in order to protect his own life and allow himself to live well.

Many of them wanted to escape, but the result of running away was that they died even faster. More than ten warriors, without exception, died in the hands of Long Chen in the end, one or two of them even pretended to be dead after being severely injured, unable to escape the fate of being killed by Long Chen. Under the influence of the Spirit Devouring Demon Pupil, no one could pretend to be dead in front of Long Chen.

Only after there was no more life in a radius of one kilometer did Long Chen calm down. He glanced at the miserable situation he was in, shook his head, and turned around to enter without saying a word.

This was an entrance to a tomb made of steel. It was surrounded by hard steel, and it was unknown what material it was made of. However, it was much harder than normal metal and could even be used to forge weapons.

The surrounding people were already dead, and as Long Chen walked inside the steel cave alone, the sound of his footsteps could be heard, along with a deep echo, a dense and cold aura revolving around him. The atmosphere in the cave was so solemn.

Not far in front of him was a disk with a diameter of around one meter. The surface of the disk was glowing with a light blue light, and from afar, it looked like a star hanging in the sky.

When Long Chen got closer, he realized that there were a total of seven such discs. It was just that the colors of the other six discs had dimmed down.

"No wonder they said that it might be the inheritance of the Sevenstar Monarch, because there's a total of seven discs ..." Long Chen muttered. He walked to the only disk that was lit up, and carefully looked at the disk that was shining with a blue light. On the disk, there were seven dark blue lights moving around, it looked like the stars were changing.

"Who cares about the inheritance. We'll just go up directly. There are already six people inside. Who knows what good stuff there might be. They've already snatched it all away." In the Great Void Realm, the kitten stuck out its waist and reminded Yue Yang.

Hearing this, Long Chen nodded his head, and without saying a word, he stood on top of the disk. Suddenly, the disk's light became extremely bright, and a warm stream of starlight completely wrapped around Long Chen, making him feel as if he was bathing in a hot spring.

From the "teleportation circle", it could be seen that this should be a Universe Teleportation Formations, and it was very likely to be one-time use. Beneath the teleportation circle, Long Chen felt his body twist as he moved towards another world. That world should be a small universe.

"This mausoleum looks very simple, but if there's actually a small universe inside, it might actually be the Sevenstar Monarch's inheritance." Long Chen guessed.

Thinking about it here, Long Chen looked forward to it. If it was really the Sevenstar Monarch, then the importance of the Sevenstar Monarch's inheritance would be above that of the Monolith of the War God. Other than the Five Emperors' Treasures, it could be considered the most amazing treasure in the Archaic Graveyard.

But the condition was that he had to defeat the other six!

Which two people were actually here? Was there even a powerhouse at the eighth stage of the Earth Martial Stage among them? If it was the seventh stage of the Earth Martial Stage, Long Chen would be able to barely handle it while they were at their peak condition, but if it was the eighth stage of the Earth Martial Stage, Long Chen had no confidence that he would be able to handle it. To him, the eighth stage of the Earth Martial Stage was simply too strong, especially for someone like Feng Zhiling, who still possessed an Emperor level divine weapon.

While Long Chen was still carrying these thoughts, within the distortion of space, he suddenly reached his destination. After he left, the last disk had completely dimmed down, and the passage from the Archaic Graveyard to this little world should have completely closed.

He raised his head, and looked up at the endless starry sky. This feeling was similar to the one he had when he had first arrived at the Star Plate, the bright and resplendent Milky Way swept across the sky, and there were shining stars everywhere. Countless stars revolved, drawing a beautiful and dazzling trajectory.

But Long Chen stepped on the ground.

This planet was not very big. Since Long Chen could see the obvious range of the plane of the planet, he guessed that if he were to expand the area of this planet, it would only be as big as the Martial Imperial City, and since this planet existed in this vast and boundless starry sky, the only thing he could see was the glowing blue sand on the ground. There was nothing else on the planet.

Looking at this vast stretch of starry sky, Long Chen was sure that the place he came to most likely contained the inheritance of the Sevenstar Monarch, if not it would not have such a magnificent scenery. Long Chen had to admire his good luck, of course, this did not mean that he could obtain the inheritance of the Sevenstar Monarch, but six people had already been here for a very long time.

Long Chen used Spirit Devouring Demon Pupil s, and the range of his vision was enough to cover ten percent of the planets. Just as he was about to use Spirit Devouring Demon Pupil s, he discovered a weak soul not far away, who seemed to be on the verge of death.

"He almost died. Was it because of the conflict?" Long Chen pondered in his heart. After he slightly adapted to the small planet's gravity, he then headed towards the dying soul that he had just discovered. The Spirit Devouring Demon Pupil could prevent him from being discovered by the enemies.

When he approached the person who was dying, Long Chen discovered that there were three deformed corpses beside him. Which meant that out of the six people who came in, one was seriously injured and the other three were completely dead. Only two of them were still alive.

Who were the two people who were still alive? Were they their opponents or partners?

Long Chen urgently wanted to know this question, and coincidentally, that person still had one breath remaining, so Long Chen quickly walked in front of him. At this time, this person was lying on the ground, using an incomparably weak gaze to look at the sky. Long Chen noticed that his body had a deep whip wound, and it was this bone-deep scar that caused him to be near death.

Seeing the Long Chen that suddenly appeared, a small look of confusion flashed across his eyes. Perhaps it was because he remembered Long Chen's smile in the end, and couldn't help but let out a bitter laugh.

"Can I ask you a question?" Long Chen asked directly.

If the other party didn't agree, he could only use Soul Controlling Technique. After using Soul Controlling Technique, he could still obtain specific information.

"Yes." Before that person died, he no longer had anything to worry about. His injuries made it difficult for him to even nod, so he could only move his lips and gently spit out a single word.

"Who injured you?" Who were the two remaining people and what were their strengths? Does this place have the inheritance of the Sevenstar Monarch? " Long Chen asked a series of questions.

That person tried his best to explain, "Feng Zhiling is the Sevenstar Monarch!"

After saying the name, Long Chen's face immediately changed. He knew about the two important pieces of information. Ninety-nine percent of the people here inherited the Sevenstar Monarch's inheritance, but the most troublesome thing was that Feng Zhilin was here, not only Feng Zhilin, even the Xue Nv beside her was probably by her side, they all had the strength of Earth Martial Stage level 8, and it was not just them, and among the four of them, only one of them was still struggling on the brink of death, the remaining three were all dead, and from Feng Zhilin's perspective, the Sevenstar Monarch's inheritance would definitely be his.

"Friend, I beg of you!" The man gathered his last bit of energy and said.

"Speak." Long Chen nodded and said.

"Kill me." he said firmly.

Long Chen knew that he no longer had any hope of surviving. If he continued to struggle on death's door, he would only suffer even more, so he might as well just die cleanly.

Long Chen frowned, and in the end, he nodded his head. In the man's eyes of relief, Long Chen ended his life, and left this place, while looking at the blue planet beneath his feet, he gritted his teeth and said, "Since it's such a coincidence, since the both of us are here, I can take away the Monolith of the War God, let alone the inheritance of the Sevenstar Monarch!"

Chapter 729 - Encountering a Powerful Enemy

"Little Cat, do you know where the inheritance of the Sevenstar Monarch is located? This entire blue planet is filled with blue sand and nothing else." Long Chen asked suspiciously.

However, now, in order to revive you in the White Poplar Town, I used up most of my energy. Before, when I took away the Monolith of the War God, I also used a portion of my power, so I am powerless to do anything about this inheritance! "The little kitten said unhappily.

Long Chen pursed his lips.

Trash talked a lot.

Long Chen was too lazy to bother with him anymore. On one hand, he was carefully preventing Feng Zhiling and Yue Yang from walking into his vicinity of Spirit Devouring Demon Pupil, and on the other hand, he was carefully observing his surroundings for any movements. He wanted to see if there was anything special about this planet so he could find out where the inheritance was.

Long Chen knew, even if he made great progress, he did not want to meet Feng Zhilin. If he could obtain the inheritance while avoiding her, that would be for the best. As he walked, Feng Zhilin and Xue Yi had

once entered the range of one kilometer around Long Chen. Upon sensing their existence, Long Chen immediately left the area far away, until he left his opponent's side.

"That was close. If they knew I was here, it would have been another tough battle, and in this blue planet, I have nowhere to hide. If I fought with her, even if I could survive, I would probably need a long time to recover."

Long Chen said with a lingering fear in his heart.

It was not that he was afraid of Feng Zhilin, but to be honest, Long Chen was not afraid of her at all, but what he couldn't deny was that the other party was truly stronger than him, and the Xue Yi was an unfathomable existence, it was already impossible for Long Chen to take on one of them, let alone two at the same time, that would be even harder than ascending to heaven.

After avoiding Feng Zhiling, Long Chen continued his search here, and slowly searched the entire planet. The planet wasn't very big, so Long Chen had traveled a lot of distance, and after approximately half a day, he could already confirm that he had already traversed the entire planet's area, and every inch of land. However, what made him curious was, besides the blue colored sand in the surroundings, it was still sand.

"Then where is the inheritance?" Long Chen thought somewhat powerlessly.

However, he was not anxious in his heart, because he did not receive the inheritance and neither did Feng Zhiling. In the process of searching, Long Chen had met them several times, and every time they had just entered his one mile radius, Long Chen would immediately leave and try to stay as far away from them as possible.

"Forget it, since I'm here, I might not be able to leave without obtaining the inheritance. The inheritance must have existed, whether I can obtain it or not, first, it depends on luck, and second, on a person's perception ability. In this aspect, I do not believe that I am worse than Feng Lin!"

Long Chen had never lacked patience. If he could not complete the task in one day, he could endure for ten days or even a hundred days. He believed that if he continued to think like this, the legacy of the Sevenstar Monarch would never escape his grasp!

One of the Seven Monarchs, what good thing would he leave behind?

Long Chen was very much looking forward to the outcome of the battle. He could roughly understand that the things left behind by the white lotus were not ordinary things either.

Starting from where he was, Long Chen started a new round of searching. This time, he was even more careful, and even thought about many things, but up until now, he had not found anything special about this blue planet. Besides the blue colored sand, there really wasn't anything else.

"Could it be that this mysterious thing is underground?" Long Chen frowned as he thought about it.

On the other side, Feng Zhilin, who was wearing a white veil and a long skirt, walked indifferently in front like a fairy. Behind her, followed a gentle and graceful woman, but deep down, there was a charming Xue Nv. which meant she was Feng Zhiling's Xue Yi.

"Xue Yi, tell me, we have already circled around several times, why haven't we seen anything, could it be that we have missed something?" Feng Zhiling sounded a little impatient.

"There must be some legacies left behind by the Sevenstar Monarch. Don't worry, those people who came here have already been killed by us, we have enough time to slowly excavate them." Xue Yi said patiently. She was old, and not as impatient as Feng Zhiling.

"Is that so?" Feng Zhiling suppressed her irritation. It was precisely because the inheritance of the Sevenstar Monarch was too important to her that she valued it so much.

"The Monolith of the War God was lost from my hands, so I let the wind race lose a chance to revive. But now, the Sevenstar Monarch's inheritance is only one step away from mine, I have to obtain it this time, as long as we can obtain the inheritance of the Sevenstar Monarch, then our wind race will be able to stand out and break away from the restrictions of the god race! I will become the greatest person in the history of the wind race! "

Suppressing her excitement, Feng Zhiling continued to walk forward. The efficiency of their search was a little higher than Long Chen's.

"Xue Yi, I don't know why, but I keep feeling uneasy in my heart. We won't be unable to obtain the Sevenstar Monarch's inheritance, right? This is the chance for my wind race to rise again! " While walking, Feng Zhiling suddenly said.

"Foolish child, don't think too much. You only have so many thoughts because you care so much. After you obtain the inheritance, you won't think as much. You are the hope of the wind race!" Xue Yi looked at this child lovingly.

"Yes." Feng Zhiling gently nodded her head, her snow-white chin drawing a beautiful curve.

The two of them continued onward, and very quickly they reached the place where they first came to this small planet. At the beginning, they just waited here, and directly killed off the four people who came later. They originally wanted to wait for the last person to come in, but that person still hadn't arrived, so they left first to look for the inheritance.

Unexpectedly, even after two hours had passed, there were still no gains.

"Strange, there's still one more spot. Why hasn't anyone entered yet?" After coming here, both Feng Zhiling and Xue Yi had a puzzled look on their face. Logically speaking, this place should only be so big, if they were to come here and wander around, it would be very easy for them to meet other people. But why has it been so long, why haven't either of them met them?

They did not understand this either.

At this moment, they passed by the corpses of other people with no expression on their faces. At this moment, Feng Zhiling stopped in her tracks. She looked at one of them and felt a bloody aura coming from him.

"What's the matter, miss?" Xue Yi stopped and asked curiously.

Feng Zhiling didn't answer. Her eyes narrowed as she lowered her body and pulled the clothes off the dead body's chest. There, she found a red handprint!

"We didn't leave behind this palm print. We don't have the habit of using our palms. Someone came here and even added a palm to his chest!" Feng Zhiling said coldly.

"Oh? Looks like someone has already entered, and it's a smart person at that. Xue Yi said in a cold tone.

"Xue Yi!" At this time, Feng Zhiling shouted.

"What's wrong?" Xue Yi saw that Feng Zhiling's expression was a little strange, and immediately asked with concern. The current Feng Zhiling's expression was a little sinister, but at the same time there was excitement on her face, causing Xue Yi to be worried. Feng Zhiling had a strange personality since she was young. What was she thinking about now?

"Long Chen, it must be Long Chen! Even as a ghost, I won't forget his aura! It must be him! This palm was left behind by him, so he must have taken the last spot. This guy is good at concealment, and he probably already knew that we were here, so he hid while searching for the inheritance! "

Feng Zhiling seemed to be growling softly, which showed just how much hatred she had for Long Chen in her heart. In her entire life, she had never felt defeated before, but this time, she did try. Long Chen with his incomparably weak strength, actually stole her Monolith of the War God, it was like giving her a slap on the face of Feng Zhiling!

In the entire Realm of Myriad Kingdoms, amongst the billions of people, Feng Zhiling was an existence of the highest level. Compared to those people in the Holy Martial Empire, her position was simply way superior.

"Impossible, how could there be such a coincidence? Miss, did you sense wrongly, you anxiously wanted to take revenge on Long Chen, that's why you had such an illusion? Wasn't he using the Mysterious Golden Soul to escape underground? You knew we were here, but he still dared to come over. Is he really that brave? "

"That's right, he is not very bold. If he is not, will he be able to take away my Monolith of the War God?" Feng Zhiling stood up with a cold smile on her face.

The mighty wind gently blew against her veil, revealing her peerlessly beautiful face. Unfortunately, such a beautiful face actually revealed such a sinister expression and monstrous killing intent.

"Alright, even if it really is such a coincidence, if it really is him, you should be happy because not only is the Sevenstar Monarch's inheritance yours, the Monolith of the War God should also belong to you once more." She knew that Long Chen's strength was only mediocre. The reason why he could snatch Feng Zhiling's Monolith of the War God was mostly because of his own luck, that's all.

I have to kill him first. I will definitely kill him, then I will look for the inheritance. Xue Yi, listen to me, we will join forces and kill him in the shortest amount of time! Feng Zhiling gritted her teeth.

Chapter 730 - Snow Symbol

The first time she fell in Long Chen's hands, she would definitely pay ten thousand points of attention to this second time. It was precisely for the sake of being able to safely kill Long Chen!

"Do it!" On this small planet, if we know of his existence, even if he has any tricks up his sleeve, we can still catch up to him! " Thinking about that, Feng Zhiling made his move without any hesitation!

"Wind!" Under the sweeping gale, Feng Zhiling was lifted up into the air. Her long skirt fluttered in the air, and her fair thighs faintly appeared, flowing with a sparkling luster, like the most beautiful jade in the world.

His long hair fluttered in the wind.

"Truly a stubborn girl. However, it is precisely because of this that she is so young, yet already so terrifying." Xue Yi nodded helplessly. Following Feng Zhilin, the two of them disappeared from where they stood at an extremely fast speed.

Their method happened to be in this very small place, and they were able to restrain Long Chen's Spirit Devouring Demon Pupil. Long Chen's Spirit Devouring Demon Pupil was only able to cover a distance of one Li, but to them, it was actually just a moment's work. With their current speed, if they were to head in the right direction, with their speed, Long Chen would probably be discovered before he could even react.

However, he discovered that although the ground looked ordinary, it was actually even tougher than the liujin region's surface. Even harder than the liujin region's surface, if he wanted to break through the surface, there would definitely be a huge commotion, and at that time, he would definitely be discovered by Feng Zhilin and the others. Furthermore, he discovered that even if he used all his strength, he might not even be able to break through the surface!

"What should I do?" Long Chen crawled on the ground as he lightly tapped the ground with his powerful finger. Suddenly, he felt a hollow echo come from the ground, shocking Long Chen.

"This small planet exists strangely in this space, and its underground is actually hollow. This is actually a hollow planet?" Long Chen was a little speechless. After making a few discoveries, his mood began to rise, and he began to verify his thoughts. The sounds of knocking on the ground became louder and louder, and he listened attentively.

He discovered that the area ten meters underground was actually empty. Up till now, he could not be sure if the entire planet was hollow or not, but at least, it was completely empty within a radius of a few kilometers. If there really was an inheritance of the Sevenstar Monarch, Long Chen felt that it should be inside.

Thinking of this, his mood became incomparably excited.

The entire planet did not have any big movements, which meant that Feng Zhilin and the rest probably did not notice this strange place. Long Chen being the first to discover this meant that he was able to find the inheritance even faster. This was a heavenly good thing, but the problem that laid in front of Long Chen, was, how was Long Chen going to break through this barrier?

The toughness of the blue ground was beyond his imagination. Long Chen was sure that if he did not use his most powerful technique, the ground would not even be able to crack open.

If the ground was broken, it would attract Feng Zhiling and the others.

Long Chen's strongest skill was the Five Emperor Prints, and up till now, regardless of whether it was the Scarlet Emperor Burning Heaven Seal or the Golden Emperor Heaven Shrouding Seal, he could only use them a few times. However, if he used the two seal as one, he only had one chance to use it.

"Forget it. I can't bear to let go of a child. I have to give it my all!" Long Chen clenched his teeth, and was about to make his move, but right at that moment, two strong figures suddenly appeared within a one mile radius of Long Chen. Long Chen was shocked, and jumped up from the ground, preparing to escape, but then he realised that Feng Zhilin and Xue Yi had already rushed to a place only one hundred metres away from him. In that range, it was enough for them to discover Long Chen!

Long Chen realized that he couldn't escape at all, and could only helplessly stop in their tracks. Indeed, in the beginning they were a little off course, but after discovering Long Chen, they instantly turned around.

"Long Chen!" With a swoosh, Feng Zhilin, who was wearing a light green dress, stood ten metres in front of Long Chen as the Xue Yi followed closely behind her. The two of them were not surprised at all when they saw Long Chen, but their faces were filled with anger and hatred.

Long Chen felt that it was weird, he did not leave any evidence, how did they know he was here?

When he was truly at odds against Feng Zhiling, Long Chen seemed indifferent, because only by being calm could he resolve the crisis on his own. This was from Long Chen's experience, when facing a strong enemy, if he lost his courage, he would suffer a crushing defeat. However, if he persevered, he might be able to get a chance to live.

"You must be very curious as to how I found you, right?" Feng Zhiling tried to suppress her excitement, but her voice was filled with pride.

"Of course it's strange. I don't seem to have left any traces, do I?" Long Chen was curious, he had been walking carefully along the way, without leaving a single footprint behind. How did Feng Zhilin find him?

Feng Zhiling generously told him this.

"When you came here, you hit one of them." Feng Zhiling blandly said.

It was no wonder they were able to find out that every single one of them had something that they had overlooked, and so it was the same for Long Chen. Previously, he had asked for information about Feng Zhilin from the person's mouth, but that person begged Long Chen to kill him, so of course Long Chen did as he was told.

However, now was not the time to regret.

"Did you bring the Monolith of the War God?" Feng Zhilin lifted his chin, looking down at Long Chen.

Such an important treasure, how could I keep it by my side? Regardless of whether you believe me or not, I have exchanged the Monolith of the War God with other people into treasures. If you do not believe me, you can try and find out whether I have any 'ring' on me!

ring had the power of spatial seal, and this power was much stronger than the one in the Cosmos Sack. At such a close distance, with Feng Zhiling's power, it should be easy to find her.

Sure enough, Feng Zhiling discovered that Long Chen did not have any ring on him.

An even more infuriated feeling suddenly emerged in his heart. Under normal circumstances, such a person would have to bow and bow before her, but why would a person like Long Chen appear in front of her? Even if Feng Zhiling was standing in front of him right now, he did not seem to be affected at all? After hearing that Long Chen did not have any rings, Feng Zhiling felt like he was being toyed with!

Her breathing gradually accelerated, and her full chest slightly rose and fell. Undeniably, this Feng Zhiling was the same as the Xue Yi behind her, had a proud figure.

Long Chen's mouth curved into a smile.

He seemed to be very relaxed, but in reality, his heart was ice-cold. If nothing unexpected happened today, he would probably go all out.

"Miss, don't be too anxious, let me try to test him and see how strong this brat is, maybe he is just trying to scare you, I have seen this kind of person, his state of mind is not bad, but it doesn't match up to his strength, don't let him affect Miss's state of mind." Xue Yi went to Feng Zhiling's ear and reminded him softly.

"Is that so?" Feng Zhiling was not an idiot, after hearing Xue Yi's words, she slowly calmed down. That's right, Long Chen was far from being their opponent.

"If that's the case, I will capture him. Until I find out where the Monolith of the War God is, I won't believe my wind race's methods, and I won't be able to force him to speak!" Feng Zhiling said calmly.

After being reminded by Feng Zhiling, she felt much better.

The more immersed she was in anger, the more she would fall into Long Chen's trap.

And at this time, Feng Zhiling tacitly agreed with Xue Yi's words, she quietly retreated a little, staring straight at Long Chen, preventing him from escaping. The Xue Yi had an ice-cold expression as she stepped forward to size Long Chen up. Until now, she really could not see anything special about Long Chen other than the strange changes in his body.

With your strength, to make my Young Miss so angry, it can be considered capable, but people like you usually do not have a long life, if you can reveal the location of the Monolith of the War God, I do not mind begging our young miss to take your life, but if you do not say it, there is no doubt that you will die, with my, Xue Nv's means, we will definitely cause you to die a miserable death.

Xue Yi paused for a moment, then said: "Don't not doubt it, what do you think it is?"

As she spoke, she took out something that resembled a snowflake from nowhere, and the moment it was taken out, the surrounding temperature immediately dropped by a lot. Xue Yi held this item, and showed it in front of Long Chen, and said: "This is my, Xue Nv's, snowflake talisman, as long as I plant this in your body, you will be like a mortal being dropped into a world of ice and snow. Your entire body's meridians, bones, and blood, will have to be frozen for seven to four to nine days before you can completely die. I didn't scare you. You can try if you want. Tell me, where is the Monolith of the War God? "

The last sentence was Xue Yi's true goal. She wanted to ask about the whereabouts of the Monolith of the War God without using any bloodshed.

However, Long Chen would not be scared by such a small trick, he was calculating the strength of both sides.
