

War God 731

Chapter 731 - Crazy Blood Sacrifice

His opponent was an expert at the eighth level of the Earth Martial Stage, a bit stronger than even the twin brothers from back then. With Long Chen's current situation, he had no chance of winning against her. Even if it was the Devouring Blood Realm, it seemed to be of no use to her.

"What's your decision?" After asking, Xue Yi added.

Long Chen's expression did not change at all. Xue Yi's words did not scare him, and he said indifferently: "The Monolith of the War God has already been sold. I don't know where it is.

"You!" Xue Yi's face became gloomy, as a great beauty filled with charm, her face immediately became gloomy, and did not seem to match at all.

"Xue Yi, don't waste time talking to him. Kill him as soon as possible, kill him as soon as possible, so that she won't cause too much trouble. If you continue talking to him, I'll attack you!"

Feng Zhilin's cold voice came from behind Xue Yi.

Xue Yi shook, her gaze changed. She knew that Feng Zhiling was afraid of Long Chen, and couldn't wait to kill him, so she did not waste her breath, and decisively said: "Yes, Young miss, please wait for a moment!"

At this moment, it was as if two snowflakes had appeared in her originally black eyeballs, and appeared in the place where her pupils were originally at. That ice-cold aura was emitted from her body, and it seemed like there was a vast expanse of white snow surrounding Long Chen.

This woman was known as Xue Nv, so her attack was also related to snow.

RUU...!

Sounds rang out. As she waved her fingers, blades like snow constantly appeared from her body. These were all attacks condensed from true essence, they were filled with lethality!

Long Chen's expression changed. Seeing that the other party was attacking, he did not say a word, and immediately fled behind him. He did not even use Blood Escape, and this one had only moved thirty meters before the Xue Yi chased after him with her attack!

Long Chen was not really escaping after all, he was just pulling a distance away from Feng Zhiling. It could be seen that the Feng Zhilin who was holding the invisible whip was definitely much stronger than the Xue Yi. She was the first to make a move, but Long Chen didn't feel that much pressure.

After running for over 30 metres, Feng Zhilin did not move, but Long Chen could take advantage of this time to deal with the Xue Yi. The eighth stage of the Earth Martial Stage was simply too far away for him but Long Chen still decided to give it a try!

At most, he was only at the sixth stage of the Earth Martial Stage, but facing an expert at the eighth stage of the Earth Martial Stage, it was obvious how crazy he was!

"Want to run?" "Go to hell!" The Xue Yi quickly caught up, her face was gloomy, the snowflakes danced around her body, under her control, the countless snowflakes suddenly condensed into a beautiful white peony flower in front of Long Chen!

"Peony of Snow!"

Bang! With a loud noise, the peonies made entirely out of blades, suddenly rushed towards Long Chen, the blades that filled the sky blotted out the sky and blotted out the sky, Long Chen's gaze was calm, he used all of the True Essence in his body, all of the True Essence in his body moved, and rushed towards the peony made of snow blade!

"Scarlet Emperor Burning Heaven Seal!" This was the best way to deal with the Xue Yi's attack. In terms of combat skills, Long Chen, this emperor level battle skill, was definitely able to restrain his opponent. However, in terms of primeval essence, the difference between him and the Xue Yi was not just a little bit!

Under Long Chen's instructions, that fiery red seal, which was burning with blood-red flames, suddenly collided with that snow-white peony flower, and waves of tremors occurred. Under Long Chen's extraordinary flame temperature, many of the snowflake blade pieces completely melted, but even more snowflake blade pieces directly shattered Long Chen's Scarlet Emperor Burning Heaven Seal, and rushed towards him!!

The first time he used the Scarlet Emperor Burning Heaven Seal, it had already consumed less than half of Long Chen's true essence. The consumption of the Five Emperor Prints was great, but at this moment of life and death, Long Chen did not think too much, and used another Scarlet Emperor Burning Heaven Seal, releasing one more move, before blocking the first attack of the Xue Yi. However, the immense force still sent Long Chen flying, falling onto the ground of the star, he only felt his entire body brimming with blood, and he nearly vomited a mouthful of blood!

It could be seen that the power of the eighth stage of the Xue Yi was not just for show. Long Chen had even used a Royal Level battle skill, so the other party could very well have just casually used one technique.

Long Chen was terrified in her heart, while the Xue Yi was even more so terrified in her heart. She had long known that Long Chen would possess an emperor level battle skill, but looking at the power of the Royal Tier Battle Skills today, it seemed even stronger than what she had imagined. She was an expert of the eighth level of the Earth Martial Stage, yet Long Chen was able to withstand one of her attacks.

Honestly speaking, Xue Yi was only using a casual move, but in reality, even if it was the seventh stage of the Earth Martial Stage, it would still basically be difficult to resist her attack!

With Long Chen's strength, he could only barely beat the average warrior at the seventh stage of the Earth Martial Stage. For example, the two warriors who were already at the end of their tether just now, if they were to join any of the nine great clans, with their families' support, it would not be an easy feat for them to kill the two with just the Royal Tier Battle Skills.

Long Chen got up from the ground with gratitude and looked at Xue Yi with a shocked expression. However, the Xue Yi, after being slightly shocked, praised him: "Brat, you're really not bad, you've greatly exceeded my expectations. However, if you don't talk about the location of the Monolith of the War God, I won't be polite next time. "

Long Chen laughed, pointed to his crotch and said: "Stupid woman, the Monolith of the War God is here, will you reach your hand in?"

His words were extremely shameless, and with her age, she had seen quite a few men's Xue Yi. Feng Zhilin, who was behind her, had an even colder expression, but in her eyes, Long Chen was simply a complete scoundrel.

"Compared to Wu Guangyu, this lowly person isn't even scum. I really don't know how someone like him is qualified to live in this world." Feng Zhiling thought gloomily.

The Xue Yi was stunned. Seeing Long Chen, who was slightly injured but was still not afraid, killing intent appeared in her eyes. He said coldly: "I won't reach my hand in.

Long Chen grinned and said: "Looks like you're a violent woman. It seems that your husband or lover must be miserable, huh?"

"Brat, you're courting death!" In the beginning, she was the one who told Feng Zhiling not to be angry, but now, she could no longer control herself and had already left. Not caring about anything else, she charged straight at Long Chen, and this time, she prepared an even bigger attack!

"Has he finally lost his reason?" In the depths of Long Chen's eyes, a glint of success flashed through his eyes.

Coming here and encountering the two of them, his luck could only be considered bad, but no matter how bad his luck was, Long Chen would not accept his fate.

If the result was death no matter what, Long Chen didn't mind giving it a try, because even if he gave it a try, he might still win!

Long Chen's previous words had also caused the Xue Yi to lose all reason.

When Xue Yi lost her reason and rushed towards Long Chen, Long Chen was already prepared to make his move.

"At this distance, Feng Zhiling probably won't be able to save her." Long Chen thought to himself in his heart, then he activated this forbidden skill that even he himself did not dare to frequently use!

Long Chen's original realm was at the seventh stage of the Earth Martial Stage. But this time, Long Chen's goal was to completely kill Feng Zhiling and the Xue Yi, so he wasn't stingy at all.

He did not use the first level blood sacrifice. Instead, he directly used the second level blood sacrifice!

With the support of the Dragon Soul Transformation skill, he would be able to obtain the eighth stage of Earth Martial Stage true essence in a short period of time, and the price would be that after Long Chen finished using it, his cultivation would fall back to the third stage of the Earth Martial Stage.

That was the realm he had just arrived at in Archaic Graveyard.

But Long Chen did not regret it, because if he did not, he would have died here today. Rather than dying now, it would be better to see if he had a chance to live in the future!

Most importantly, in this place, as long as he killed Feng Zhilin and the Xue Yi, it might mean that the Sevenstar Monarch's inheritance would belong to him. As long as he obtained the Sevenstar Monarch's inheritance, Long Chen would not need to worry about not being strong enough.

The third stage of the Earth Martial Stage was just the third stage. Long Chen would be able to endure it even at that time, let alone now!

Thinking about that, Long Chen used the second layer of Blood Sacrifice without any hesitation, which was the most powerful reason why he dared to speak to Feng Zhiling like that!

As the Xue Yi attacked Long Chen and prepared to kill him off with her final move, Long Chen's expression was calm. At this time, she suddenly opened her arms wide, as if she was completely defenseless, and was prepared to die.

"Is this kid courting death?" A puzzled expression appeared on Xue Yi's face. Long Chen opened his arms and closed his eyes, completely ignoring the attack of her, an expert of the eighth stage of the Earth Martial Stage.

Feng Zhiling, who was not far away, also showed a puzzled expression.

What was Long Chen trying to do?

Very quickly, they knew what Long Chen was about to do. Just as Xue Yi approached Long Chen, blood-red flames suddenly appeared on his body, and this blood-red flame quickly engulfed Long Chen's entire body. The blood-red flames shot into the sky!

This was not the most important thing. The most important thing was that as the blood-red flames burned, countless blood-colored dragons roared and swam above Long Chen's head. And during this process, the True Essence in Long Chen's body was quickly rising!

"Not good, this guy is actually getting stronger!" Feng Zhiling was shocked!

Chapter 732 - Killing Xue Nv

"Xue Yi, be careful!" At this time, Feng Zhilin had already realised that something was wrong. Long Chen's strength was normal, many people had the ability to squeeze out their potential and use it to increase their own strength, but for a method like Long Chen's, that could increase the strength of their True Origin by tens of times in a short period of time, she, Feng Zhilin, had never seen before!

In her eyes, Long Chen was definitely a madman, there were too many mystical parts on his body. That rapid blood escape and the current method of combusting true essence was truly terrifying to the extreme!

Long Chen's True Essence, in a short period of time, had already risen to the same level as the two of them!

The Xue Yi beside Long Chen was also stunned. At this time, a vast and terrifying energy came from Long Chen's body, this energy was filled with the smell of blood and slaughter. In terms of nature, it had already suppressed the true essence in the Xue Yi that had the characteristics of snow!

At this time, Long Chen's body had faint dragon markings on it, his eyes were completely filled with the color of blood, as if he was a super ferocious beast from the Primordial Era. Prostrating in front of Xue Yi's eyes, those ice-cold eyes, and bloodthirsty eyes, made Xue Yi feel that he was trembling a little!

"I can't be scared. This brat is definitely trying to scare me. How could he have such powerful strength? I must be mistaken!" At this time, Feng Zhilin had already warned her to be careful. In order to prevent herself from being capsized, Xue Yi hurriedly unleashed an even more powerful attack towards Long Chen!

This tiger's body was ten times stronger than the peony flower from before. The white tiger roared and pounced towards Long Chen with a loud bang. Its body was much larger than Long Chen's, as countless snow blades rushed towards Long Chen!

At this time, the flames on Long Chen's body slowly weakened, but at this time, Long Chen's true essence had already risen to the eighth level of the Earth Martial Stage, and that explosive force filled his body, so much that it was about to squeeze his body until it exploded!

Long Chen had never been able to possess such a terrifying power. At this point, he finally understood the difference between him and Feng Zhiling, and also keenly understood just how lucky he was to be able to survive their hands!

At this moment, he could feel the boundless power emanating from his body. He felt as if there was an ocean within his body! Endless power exploded out from his body as it overflowed into his meridians. Long Chen anxiously wanted to release this power, otherwise, he would directly explode and die!

And at this time, the Xue Yi's attack had already reached him!

"It is the first time in my life that I have such power. I will execute you two women. It is not because I am ruthless, but because you two are too tight!" Inside Long Chen's body, countless divine dragons were roaring.

Long Chen raised his head and looked at the world-shaking white tiger that was pouncing towards him. The corner of his mouth revealed a cruel smile, and at this moment, the Scarlet Emperor Seal in his hands suddenly burst out with violent light, and a blood-red flame instantly enveloped Long Chen's arm. This was a fire of Golden Crow, although its color was the same as Long Chen's blood sacrifice fire, it was actually different!

The fire of Golden Crow and the Blood Sacrifice Flames fused together and rushed towards the Scarlet Emperor Seal in the middle of the Five Emperor Prints. The Scarlet Emperor Seal released an unprecedented light as Long Chen formed a seal with one hand and struck out with a loud sound.

In the midst of everyone's shocked gazes, a omnipresent Scarlet Emperor Burning Heaven Seal was suddenly released. It was the same move, but the power of the Scarlet Emperor Burning Heaven Seal was ten times stronger than before. Even its size had increased by dozens of times!

The seal that seemed to cover the entire sky suddenly smashed down, and countless blood-red flames suddenly converged, turning into the images of blood-colored dragons that shrouded towards Xue Yi!

"How is this possible!" The power of Long Chen's attack, could only be obtained by someone at the eighth stage of the Earth Martial Stage, and that also included the power of the fire of Golden Crow. Adding on to that, the Scarlet Emperor Burning Heaven Seal was originally an Emperor Level battle skill, and under this competition of attacks, the Xue Yi would be defeated without any suspense!

Long Chen's majestic Scarlet Emperor Burning Heaven Seal directly shattered Xue Yi's white tiger, and directly melted it into water. Then, with countless of remaining energy, it was as if a huge palm from the sky had descended, and directly grabbed onto the flirtatious Xue Yi!

"No!" This woman's face revealed a terrified expression. The flames that soared to the sky immediately burnt her clothes clean, then her snow-white body was gradually burnt into black ashes!

All of this happened too fast. Feng Zhiling was not able to come in time to save the Xue Yi.

This was Long Chen's smart point, he had humiliated Xue Yi from the beginning. After knowing that Xue Yi had lost her reason, she was lured away from Feng Zhiling by Long Chen by at least fifty meters, and a distance of fifty meters was just a matter of time to Feng Zhiling, so she did not care, they only thought that Long Chen had many strange methods, how could Long Chen have known that Long Chen had such a method to raise his True Essence?

It was precisely because all of these things were unexpected that the current Xue Yi was completely under Long Chen's control!

If they were to join hands, Long Chen believed that even if he were to use a double sacrifice of blood, he might not be able to defeat them, so he calculated their strengths, separated the two of them, and then used his life to kill one of them. Only by killing one of them would Long Chen have enough time to deal with the other, since the blood sacrifice he was currently able to sustain for a short period of time.

To be merciful to the enemy was to be cruel to oneself!

Although that Xue Yi was also a great beauty, Long Chen was not interested in her. Therefore, when he was trying to control the Xue Yi, Long Chen didn't even think about it.

Such a great beauty had actually been killed by Long Chen using the Scarlet Emperor Burning Heaven Seal!

Naturally, before her death, she had a look of disbelief on her face. She had lived for so many years, had fought and fought so many life and death battles, and she had even lived like a fish in water. How could she have imagined that a mere junior would have such heaven defying means to kill her before she could even react?

What no one knew was that wind race's famous guest, Xue Nv, had actually died in her hands in her tomb. This was probably the biggest death toll out of the nine great clans since they entered the Archaic Graveyard. The brother of the Jinshi from before, because Feng Zhilin went to chase after Long Chen, they successfully escaped.

Feng Zhiling could only look on helplessly as the Xue Yi was in Long Chen's hands.

In that instant, she felt as if the sky was about to collapse.

Feng Zhilin was not even twenty years old, so she was very familiar with her. In the process of her growth, this woman had always existed, even though Feng Zhilin did not think highly of her, it was undeniable that in the wind race, she was indeed a person, and in Feng Zhiling's heart, she also had a little bit of a position.

But under her carelessness, Long Chen caught her off guard and killed her.

First, he had unexpectedly taken away the Monolith of the War God, and then, he had unexpectedly killed Xue Nv. The name Long Chen had already been firmly engraved in Feng Zhiling's mind, so the hatred Feng Zhiling had for him could no longer be described with words.

She never thought highly of Long Chen and only felt that he was a sacrifice in the hands of the God Clan's Young Master's Wu Guangyu. But now, every time Long Chen firmly suppressed her, her heart was even higher than the heavens.

"Long Chen" looked at the young man shrouded in blood-red flames, and Feng Zhiling felt that his body was about to explode. The same surging Innate Qi was rolling about crazily in her body like an ocean under a storm!

An invisible whirlwind appeared around her body, instantly engulfing the entire planet. On this small planet, the entire planet was engulfed in endless gales!

The veil that was covered over her face was directly blown away by the wind, revealing her exquisite face. There was no doubt that the reason why Feng Zhilin was betrothed to God Clan's Young Master was not because of her extraordinary strength and position, but also because of her exceptional beauty. In the entire Realm of Myriad Kingdoms, this kind of beauty could be considered to have toppled all living things.

What was lacking in beauty was that this young lady's face was filled with killing intent. Her eyes had already turned blood-red and her body was covered in blood, a dense aura of slaughter exploding out from her body. It transformed into gales of wind that surged towards Long Chen's body!

Long Chen lifted his head and looked at the young girl who was flying crazily in the air. He knew that he had completely angered her and this was perfect, because right now, Long Chen was going to take her life!

These energies were at the eighth stage of the Earth Martial Stage. Long Chen knew that he did not have much time left, and if he did not quickly fight against Feng Zhiling, once all these energies were exhausted, no matter how lucky he was, he would not be able to live!

Chapter 733 - Royal Tier Battle Skills thousands of handprints

This was the first time that he was facing this kind of heaven's pride expert, who was the most outstanding in Realm of Myriad Kingdoms. Long Chen felt extremely excited, and his whole body's blood was boiling!

"This Feng Zhilin is definitely much stronger than the Xue Nv just now!" The more he fought with stronger opponents, the more Long Chen's blood boiled!

"I must kill him in the shortest time possible!" Long Chen sneered, when Feng Zhiling attacked him, he also attacked Feng Zhiling!

At this moment, a great battle broke out!

"Do you think I don't know? The strength in your body doesn't belong to you at all! No matter where you got your power from, if it's not your power, you won't be able to perfectly use it, but I'm different! " Feng Zhiling's cold and confident voice came from the front. At this time, the berserk tornado had already completely concealed her. She used a powerful movement technique and changed directions, making it difficult for Long Chen to catch her.

Her guess was right, if she could guess that Long Chen's power had a time limit, then it would be perfect. She could directly shake him off, and when Long Chen's power ran out, she could casually take Long Chen's life, but she could not guess. Under the hatred of Xue Yi's death, Feng Zhilin chose to fight Long Chen head on!

RUU...!

Violent gusts of wind madly surged, the blue sand of the entire blue planet quickly rolled, revealing the hard blue ground. It was unknown what material this blue ground was made of, it wasn't metal, but it was much harder than normal metal!

"Three thousand phantoms!" At the very first moment, Feng Zhilin used the special ability of the wind race, and instantly, a fierce wind began to surge, as countless afterimages appeared in front of Long Chen, making him unable to differentiate between the real and fake. The speed of the three thousand afterimages were too fast, and Feng Zhilin's speed was even faster, it was hard to tell which one was Feng Zhiling!

But what Feng Zhiling did not know was, to Long Chen, this was not an obstacle at all, because he had the Spirit Devouring Demon Pupil. As long as Feng Zhilin still had her soul, Long Chen could use the Spirit Devouring Demon Pupil to accurately grasp her position!

Every single one of them had the combat power of at least the sixth stage of the Earth Martial Stage. Killing one shadow after another, they seemed to have no fear of death as they rushed towards Long Chen, completely disregarding their own safety, wanting to kill him!

Long Chen waved his fist, basically, he could kill a large group of 3000 illusions with a single punch, but the 3000 phantoms never stopped. If Long Chen went on like this, his movements would only be restricted by Feng Zhilin!

Amongst the countless three thousand illusions, Feng Zhilin's eyes were filled with a crazed blood color, ruining her devastatingly beautiful face. She rushed towards Long Chen with the invisible whip in her hands.

Long Chen already knew that she was holding onto the invisible whip. Although the invisible whip was invisible and invisible to the naked eye, it was definitely there. The aura of an Emperor Level Divine Weapon could not be hidden from Long Chen's senses, and Long Chen's Spirit Devouring Demon Pupil could prepare to grab onto Feng Zhilin's movements!

Right at this moment, under the protection of three thousand illusions, Feng Zhilin approached Long Chen. Without saying a word, she seized the opportunity, and the invisible whip became like a long snake, charging straight towards Long Chen!

Long Chen already knew that she was going to move!

He had already thought of a solution!

"Devouring Blood Realm!" Feng Zhilin was also surrounded by Long Chen's Devouring Blood Realm. When the eighth stage of the Earth Martial Stage unleashed the true essence, it was actually quite terrifying. Feng Zhilin was a martial artist at the same level as Long Chen, and her true essence had already reached the critical point of the ninth stage of the Earth Martial Stage. However, she had no choice but to use a large amount of true essence to suppress the boiling blood energy in her body!

"What's going on?" Feng Zhiling was shocked. She couldn't understand how this strange red space could affect her blood. There were many strange magical powers in the world, but they could affect the blood of enemies. How could such a heaven-defying magical power exist?

If Long Chen's cultivation was stronger than his opponent's by two to three levels, no matter how many enemies there were, Long Chen would be able to completely absorb their blood through the air. The Primordial Blood Spirit Dragon was indeed worthy of being known as the dragon of blood and slaughter. It could be imagined that if Long Chen reached the peak of his power, if he was using the Devouring Blood Realm, as long as it was within the boundaries of the Devouring Blood Realm, wouldn't all living beings be turned into corpses?

That was probably what bloodshed and killing meant.

In the ancient times, in the Dragon Sacrifice Continent, every single one of them were heaven-defying existences. This was already the case for the dragon of blood and slaughter, not to mention the dragon of time and eternity — — Great Void Cosmic Dragon!

The sudden appearance of Long Chen's Devouring Blood Realm caused Feng Zhilin to not be able to react for a moment. At this moment, her invisible whip was being lashed towards Long Chen, but Long Chen's sudden appearance of this Devouring Blood Realm caused her control of the invisible whip to go awry. The invisible whip grazed past the top of Long Chen's head, not harming Long Chen in the slightest.

"What kind of strange method is this? It can actually make my blood boil and make me lose control of myself?" Feng Zhiling's mind was in a mess. At this time, she could only use her true essence to suppress the boiling blood energy. Otherwise, if the blood energy broke through her body, she would really die!

The amount of true essence that he could use immediately decreased significantly. It had to be known that invisible whip required a large amount of primeval essence to be able to use. Now that her primeval essence had decreased, her battle strength would naturally decrease as well!

The Devouring Blood Realm had achieved Long Chen's original goal!

The moment Devouring Blood Realm unleashed his power, Long Chen had already pounced towards Feng Zhiling. Victory or defeat would be decided in an instant, and using this chance, Long Chen unleashed a Golden Emperor Heaven Shrouding Seal!

Compared to the Scarlet Emperor Burning Heaven Seal, the Golden Emperor Heaven Shrouding Seal's characteristic was its speed and sharpness. It was like a sword that was unsheathed, and it immediately pierced towards Feng Zhiling. When the Golden Emperor Heaven Shrouding Seal was unleashed from Long Chen's hand, it was not at all inferior to the Scarlet Emperor Burning Heaven Seal, and in terms of attack strength, it was even stronger!

Seeing this Golden Emperor Heaven Shrouding Seal, and recalling that it was precisely on this kind of method that the Xue Yi had died at, Feng Zhilin's expression changed slightly. Long Chen's terrifying method had already left quite a few shadows at the bottom of her heart, and she had to admit that Long Chen was indeed the only opponent that she had met that had shocked her heart in all these years!

"Where did his power come from? Is he able to have that power forever? Perhaps this is his true strength." Feng Zhilin's mind was in a complete mess, but that enormous hatred still forced her to fight Long Chen head on, and not push her aside first. Let's see how long Long Chen's power could last.

"Can you use the Royal Tier Battle Skills?" After Long Chen used his Golden Emperor Heaven Shrouding Seal, Feng Zhilin let out a cold laugh. She temporarily put away her invisible whip, and then immediately began her own movements. In the air, a violent wind blew, and Feng Zhiling floated in the middle of the wind!

Boundless true essence circulated within her body. Beams of light green light circulated around her body.

Right at this moment, Feng Zhiling stretched out her arms and opened her palms, her arms moving up. Right at this moment, Long Chen saw that during the movement of her arms, countless afterimages were actually formed, and circles of light enveloped Feng Zhilin. He felt that on Feng Zhilin's shoulders, there seemed to be countless arms growing!

The densely packed arms were arranged on Feng Zhiling's shoulders. They looked like a pair of wings on her back, and on each of these arms was a majestic flow of true essence!

Just then, the True Essence erupted, and all the True Origin surged towards Long Chen!

"thousands of handprints!"

There was a total of a thousand arms, and on each arm, there was an attack of a wind seal. In total, there was an attack of a thousand attacks combined.

When Feng Zhilin used the thousands of handprints, Long Chen knew that his own Golden Emperor Heaven Shrouding Seal was not enough to take his opponent's life. Feng Zhilin was indeed much stronger than the Xue Yi!

The two Emperor level battle skills clashed in the air!

Thousands of densely packed handprints collided with Long Chen's boundless Golden Emperor Heaven Shrouding Seal! The wind and metal attacks clashed with a loud bang in the air, and immediately, the sharp sounds of friction assaulted each other! Long Chen could feel that there were a total of a

thousand hand prints that had directly struck his own palm, and almost shattered his own Golden Emperor Heaven Shrouding Seal completely!

This time, they were actually evenly matched!

Golden Emperor Heaven Shrouding Seal s were powerful enough, but wind race's famous battle skill, thousands of handprints s, was not weak either. With a thousand handprints, it completely dispelled Long Chen's attack! He had thought that her thousands of handprints would be able to break Long Chen's attack, and at the same time, injure him. He hadn't expected that it would still be so far from being able to completely shatter Golden Emperor Heaven Shrouding Seal!

With a whoosh, Feng Zhilin dodged the aftermath of the Golden Emperor Heaven Shrouding Seal!

One of them was in the sky while the other was standing on the ground. The two of them faced each other as their eyes flashed with a cold light!

Long Chen had already noticed that the clash between the two just now had caused a huge pit to burst open around three metres deep. If this pit was more than ten metres deep, they should be able to see the secret of the Sevenstar Monarch's inheritance.

But Long Chen deeply furrowed his brows.

The Golden Emperor Heaven Shrouding Seal's power was not enough for him to kill Feng Zhiling, and of course Feng Zhilin could not kill him either. But the problem was that Long Chen's True Essence could not hold on for much longer, so once Long Chen did not kill Feng Zhiling, Feng Zhilin could easily kill him.

Naturally, he could not obtain the inheritance of the Sevenstar Monarch either.

Chapter 734 - Double Stamp Integration

So, he only had one more chance, if he could not kill Feng Zhiling with that one attack, then he would be finished. If he could kill Feng Zhiling, then he could succeed, and even obtain the inheritance of the Sevenstar Monarch.

Because Long Chen had just learned the last move, he was not very familiar with it. He was not sure if he could execute it, but from the looks of the situation, he only had this one chance.

Regardless of whether or not he would succeed in the end, he needed to make one last attempt.

Since that was the case, Long Chen became extremely calm. His Devouring Blood Realm was still able to firmly control the other party. Feng Zhilin, who had just recovered from the attack from Long Chen's Golden Emperor Heaven Shrouding Seal, looked at Long Chen blankly with eyes filled with shock. Long Chen's heaven-defying performance had already caused her to feel traces of panic.

But soon, this trace of panic was drowned by her cold blood.

Although he gives me a lot of experience, after all, he's not from the Nine Great Clans, so he doesn't have the qualifications to be compared to me. "Feng Zhiling took a deep breath, and a crazed expression appeared on her beautiful face, her blood-red eyes staring straight at Long Chen.

As Long Chen stood on the ground, his expression was very calm. Compared to Feng Zhilin, he was much calmer.

At this time, Feng Zhilin took out the wind race's emperor level divine weapon — — invisible whips. Although Long Chen couldn't see the invisible whip, he could feel its existence.

"Does this Feng Zhilin have any other methods?" Long Chen's eyes narrowed.

At this time, Feng Zhilin looked at him with a cold expression. The corner of her mouth hooked up into a faint smile, and she only said one word to Long Chen, and that word was — Die!

Feng Zhilin's movements were extremely fast, and what surprised Long Chen was that she actually used the thousands of handprints once again. But this time, she used the invisible whip, and a dense cluster of palms appeared behind her back, but this time, it seemed like each of her palms had a handful of invisible whips!

thousands of handprints, 500 on the left and 500 on the right, but the 500 thousands of handprints on the right were swapped for countless shadows of whips! This was not a normal whip shadow, but an invisible whip. A whip shadow of an invisible whip could already injure and kill the Jinshi brothers who

were at the eighth stage of the Earth Martial Stage seriously, and if these five hundred whip shadows were to come out, Long Chen would probably not even be left with anything.

This was Feng Zhiling's most powerful attack!

In the whole of wind race, only she knew this move, because this was a killing technique that she had invented herself. Generally speaking, even an ordinary ninth stage Earth Martial Stage would have died to her move, Feng Zhiling's move, this was the move that she was the most proud of, and also the ability she had to compete with other types of young experts!

thousands of handprints plus invisible whip, such a terrifying creation, could only be unleashed by a genius like Feng Zhiling!

It had to be said, she was indeed a genius!

Long Chen raised his head. His entire sky was already covered by the shadows of the whip. The most terrifying thing was that these whip images were still formless, and Long Chen could only feel their power, but not see their shadows! The afterimages of the whip were actually illusions!

Facing such a terrifying attack, Long Chen actually closed his eyes. He was not seeking death, it was just that such a powerful attack would disturb his state of mind, and at this time, Long Chen was already preparing to release both his Golden Emperor Heaven Shrouding Seal and Scarlet Emperor Burning Heaven Seal at the same time!

This was his strongest attack!

Of course, this kind of fusion was filled with danger and uncertainty, it was also the first time Long Chen used it, so he did not know if he could succeed, nor did he know if he could withstand Feng Zhiling's terrifying attack!

Everything was going all out!

Under the endless shadows of the whip, the True Essence on Long Chen's body surged for the last time. He charged all of his True Essence into his right palm, and in that tiny little martial cavities, what filled it was the power of the eighth stage of the Earth Martial Stage!

BOOM!

Long Chen felt that this martial cavities were about to explode. Inside the martial cavities, the Blue Magic Flame and the Mysterious Golden Soul were rotating, and under the control of Long Chen's Martial Spirit, the Blue Magic Flame and the Mysterious Golden Soul were being imprinted with a connection with the Five Emperors in the palm at the same time. Among the Five Emperor Prints, the Scarlet Emperor Seal and the Golden Emperor Seal suddenly lit up at the same time, and their light was even more explosive than before!

BOOM!

The blood red flames and the violent golden light had occupied their respective sides. In the beginning, the two energies were fighting for their own territories, but under Long Chen's control, it was extremely dangerous, and the two energies maintained a certain degree of balance!

In the middle of Long Chen's palm, an Emperor Seal appeared. This illusory Emperor Seal had two layers, one was a blood-red fire Emperor Seal, the other was a golden metal Emperor Seal. Under Long Chen's clenched teeth and perseverance, the two Great Emperor Seals started to vibrate, and at this time, they actually started to merge!

The power of fire and metal had fused together at this time, and Long Chen's arm was trembling. Only he himself knew how great of a power he had controlled on his palm at this moment!

BOOM!

The fusion of the two Great Emperor Seals, under Long Chen's control, blasted towards the front. And at this time, Feng Zhilin, that thousands of handprints combined with the invisible whip, was attacking the future!

"He even has such an attack!" At first, Feng Zhiling couldn't see anything strange about the fusion of these two seals. At most, his attack power had doubled, but he soon realized that he was wrong.

Their two strongest attacks clashed in the air with a loud bang!

Such a powerful attack already exceeded the scope of the eighth stage of the Earth Martial Stage.

It was as if Long Chen's entire person had been completely drained, and he could only watch the result in a daze.

This was his last struggle.

The invisible whip's power and the combined power of the two Great Emperor Seals clashed. The invisible whip's power was equally great, and five hundred of the handprints could be considered as nothing. The other five hundred were the true strength of the invisible whip! In the beginning, when the power of five hundred invisible whips forced Long Chen's two Great Emperor Prints to retreat, they started to attack Long Chen's side. Seeing this, Feng Zhilin laughed, this meant that Long Chen's attack was not his opponent, but very quickly, she could not laugh anymore!

At this time, the energy released by the two Great Emperor Seals merged with each other suddenly exploded under the stimulation of the other party. The two Great Emperor Seals were very close to each other before, but now that they had erupted, the power was simply unimaginable.

Under this explosion, the entire planet moved a certain distance to the side. From this, it could be seen how powerful this explosion was.

RUU...!

The deafening sound kept exploding beside Long Chen's ears. Previously, Feng Zhilin was laughing, but now, Long Chen was laughing, even though the invisible whip was powerful, but the power of Long Chen's two Great Emperor Prints that were merged with his own power was even more powerful. The powerful explosive force swept towards Feng Zhilin, instantly extinguishing it!

When the power of the two Great Emperor Seals disappeared, the planet's trembling stopped. This final clash had completely blown the planet's surface apart. Countless blue smoke and dust swept towards the sky, blocking Long Chen's line of sight.

Long Chen was already powerless to look at Feng Zhilin's situation, because his own situation was already quite troublesome. After finishing the two Emperor Prints, Long Chen had burnt two stages of true essence, and the energy that he had erupted with, had already been completely used up without leaving a single bit behind. But now that the time for the blood sacrifice had passed, the true essence in

Long Chen's body had rapidly declined, and very quickly, he was only left with the third stage of the Earth Martial Stage.

If it was only true essence, Long Chen could completely fill it with the blood of several demon beasts. But it was different now, he was a martial artist. And the key to the Martial Stage was the Martial Spirit.

Originally, her fifth stage Earth Martial Stage's martial spirit had already begun to reveal its dragon's scales, but at this moment, the dragon's scales that gradually appeared, were quickly fading away. His martial spirit was now in a state of injury, and Long Chen instantly felt a dizzy sensation.

This kind of injury would lead to the same effect, which was that his martial spirit could only control the power of the third stage of the Earth Martial Stage. Only by recovering his martial spirit, would Long Chen be able to recover the power of the fifth stage of the Earth Martial Stage.

Previously, he didn't dare to use the Blood Sacrifice because he didn't know what would happen to his martial spirit if he regressed. Now, he finally knew that his martial spirit would be injured.

Fortunately, his martial soul wouldn't degenerate, returning to its original appearance.

The Martial Spirit relied on Long Chen's comprehension to evolve, Long Chen's comprehension to 'Martial Spirit' still existed, it was just that the Martial Spirit was injured.

His head was spinning and his body was weak. Long Chen was weak to the extreme. He gave him a great sense of crisis. He quickly asked, "Little Cat, what's wrong with me? Can my Martial Spirit recover?"

The little kitten was actually the person who understood Long Chen's situation the most. It knew the abilities of the Primordial Blood Spirit Dragon and knew Long Chen's situation. But now, it seemed to know.

"For you, this should be a good result. If your Martial Spirit has degenerated, it will be very troublesome. You will lose that part of your comprehension and need to start over from the beginning. However, if your Martial Spirit is injured, you can recover your Martial Spirit through nurturing its spirit medicine!"

In other words, Long Chen could recover his cultivation by finding a medicine to nurture his martial spirit.

This kind of spirit medicine suddenly made Long Chen think of Ling Xi. When he was with Ling Xi just now, when Ling Xi was on the verge of death, it was because Long Chen had found a medicine to nourish her divine soul that allowed her to live.

This Martial Spirit and the soul were inextricably linked. Moreover, they were both a type of soul. A medicine that could nourish the soul could actually also nurture a Martial Spirit. The reason is the same.

"I really don't know. Little Xi has recovered to her peak state. Exactly what rank is her strength? Back then, she honestly said that she was very lazy and that she wasn't interested in learning anymore. However, after she recovered, she felt that she was very strong!"

Long Chen suddenly thought of this.

Of course, now was not the time to think about such things. After using the fusion of the two Great Emperor Seals, Long Chen was already at the end of his wits.

Long Chen was almost dead, then was Feng Zhilin still alive?

After thinking about this, Long Chen felt a chill in his heart, he immediately used the Spirit Devouring Demon Pupil and looked towards Feng Zhilin's direction. If Feng Zhilin was still alive, he reckoned that the next person to die would be him, Long Chen.

When the Spirit Devouring Demon Pupil was used, Long Chen became a little nervous.

He was afraid that he would see that Feng Zhilin was still alive and kicking. After all, she was born in the wind race, and her clan's background was simply too strong for Long Chen.

At this time, Long Chen was already extremely weak.

His heart was racing with tension.

Instantly, Long Chen was stumped for words, the result that appeared was somewhat out of his expectations. Opposite of them, Feng Zhilin was indeed still alive, but Long Chen wasn't too worried, because he could sense that the current Feng Zhilin had sustained serious injuries. She most likely did not have much fighting strength like Long Chen.

The power of Long Chen's two Great Emperor Seals was extremely strong, but the combination of Feng Zhilin's invisible whip and her thousands of handprints was also stronger than the power of an ordinary Royal Tier Battle Skills. Under the power of the two Great Emperor Prints' fusion, she was still barely able to withstand the power, but the immense attack still caused her severe injuries!

At this moment, Feng Zhiling's face was deathly pale. All the meridians in her body were broken and cracked. Wounds of varying sizes appeared on her body. Her clothes were all messed up by the strong wind, and her snow-white skin was exposed. At this moment, she slowly got up from the ground, so much so that she couldn't even stand steadily.

Long Chen's condition was much better than hers, he had just exhausted all of her Quintessential Essence, and his Martial Spirit was injured, but Feng Zhilin was already injured all over, and in the last exchange, she had exhausted almost all of her Quintessential Essence.

Long Chen only had the strength of the third stage of the Earth Martial Stage, so he didn't dare to act blindly without thinking.

The blue colored dust in the air dispersed very quickly, and Long Chen and Feng Zhiling were in a confrontation again. At this time, Long Chen had exhausted all of his energy, and had returned to his original form, withdrawing his Dragonsoul Transformation. This was the first time Feng Zhiling had seen this handsome yet determined young man!

It was precisely this person who killed Xue Yi, who was at the eighth stage of the Earth Martial Stage, and even severely injured a proud son of god like her.

Feng Zhiling's attitude toward him had gone from contempt to fear. This youngster clearly only had the power of the third stage of Earth Martial Stage, but his face was still calm and indifferent, without any flaws. This made Feng Zhiling have to think that he still had many special methods, and if he wanted, he could instantly transform into an extremely strong state!

The two of them faced each other for a moment, both of them thinking about how to kill the other. But at this time, their gazes were attracted to a place between the two of them!

In the clash of their last move, there was a violent explosion as the violent explosion reached underground, directly blasting a huge hole in the blue hard ground. Long Chen and Feng Zhilin saw at this time, that in the deepest part of the huge pit, a hole of about one meter was pierced through, and in the middle of the hole, a bright starlight was revealed!

Long Chen's and Feng Zhilin's faces both changed, as they might have thought that this was the inheritance of the Sevenstar Monarch, which meant that the two of them did not have much power, and did not dare to casually clash with the other, but when it was possible for the inheritance of the Sevenstar Monarch to appear, the two were no longer calm.

Because his strength had decreased, his speed had decreased by a lot, but the opponent's Feng Zhilin, was also moving now, so even though she was severely injured, even the slightest movement would be extremely painful, but in order to win, for the inheritance of the Sevenstar Monarch, she had clenched her teeth and fought with Long Chen!

"Three thousand phantoms!" Under the pain, Feng Zhilin clenched her teeth and used her remaining true essence to form a shadow, rushing towards Long Chen. Her Three Thousand Phantom Shadow's speed was much faster than Long Chen's, and before Long Chen could react, the shadow's power had already struck his arm!

Fortunately, after being injured, Feng Zhiling's power had decreased by a lot, and this shadow did not have the power to kill Long Chen, so it knocked him down to the ground. This way, Feng Zhilin would have enough time to get in front of Long Chen and hide in the cave!

"F * ck!" With Feng Zhiling taking the lead, Long Chen felt a bit stifled. He immediately jumped up and used all his might to kill the illusion, and without saying a word, he immediately headed towards the cave. He followed closely behind Feng Zhilin, and Long Chen also jumped down fiercely!

A feeling of having missed.

Suddenly, Long Chen stood on a material object. He felt as if he had stepped on a wooden board that was suspended in the air, and he sank down suddenly.

After arriving here, Long Chen immediately looked around him. He saw that the thing he was stepping on, was actually a small scale Star Plate, this Star Plate was exactly the same as the one that Long Chen came to Archaic Graveyard with, only its diameter seemed to be around ten meters. The golden runes were rings after rings, extending outwards from the center of the ring, just like ripples on the surface of water.

What shocked him was that within this blue planet, there was actually another starry sky. Of course, this starry sky was only of a small scale, and the stars that were shining in the distance in Long Chen's eyes, were most likely just some huge blue gems.

Within the blue planet was a small planet.

And at this time, the moment Long Chen had landed on the Star Plate, it had begun to move, as if it was moving toward the center of the planet. Just as Long Chen had imagined, the entire planet was actually hollow.

Immediately afterwards, Long Chen saw that not far ahead, there was another star disk, and on it stood Feng Zhilin. When he saw Long Chen jump in, this void actually formed into a star disk beneath his feet, Feng Zhilin revealed an expression of hatred and disgust, but at the same time, also had a hint of fear.

There was no doubt that this was the legendary grave of the Sevenstar Monarch, and the fact that she came here together with Long Chen meant that Long Chen wanted to compete for this inheritance with her. The inheritance of the Sevenstar Monarch was something even more important than the Monolith of the War God, and the Monolith of the War God was taken away by Long Chen.

To her, Long Chen had already become a terrifying person.

The serious injuries on her body right now were caused by Long Chen. She originally thought that she would die under Long Chen's hands, but luckily, Long Chen seemed to have lost even more of his strength.

Two star discs, one in front and one behind, quietly moved in this starry sky. The star discs beneath Long Chen's feet quickly caught up to Feng Zhilin's star discs, and the two star discs moved in the same direction, travelling side by side.

Long Chen was looking at Feng Zhiling in fear, and Feng Zhiling was also looking at him with hatred.

"I'm curious, how much combat strength do you have left?" Feng Zhilin's gloomy voice came towards Long Chen.

Long Chen laughed blandly: When we get there, you can give it a try.

Feng Zhilin was even more unable to see through Long Chen's calm appearance. At first, Feng Zhilin thought that Long Chen was pretending to be calm to coax her, but then, Long Chen's strength suddenly increased dramatically, and he killed Xue Yi. At the same time, he had also injured her, so she knew that Long Chen really did have the qualifications to be calm like that.

That was why Feng Zhiling frowned and didn't dare to do anything to him.

"Just who is this youth, he can even block the strength of my thousands of handprints! Could it be that only Wu Guangyu can take care of him? " Feng Zhiling lowered her head in thought.

She was severely injured, and knew that if she were to make a move, her injuries would probably worsen. If she could not kill Long Chen, but instead exposed her current weak state, then that would be even worse.

The two of them were already at the end of their road, but they were both worried that the other party would see through them, so Feng Zhilin didn't dare to act rashly, while Long Chen didn't dare to do anything.

The truth was, if they really started fighting, if Feng Zhiling ignored her injuries and fought to the death, she would definitely be able to kill Long Chen, but she would definitely be severely injured.

The two of them didn't speak any further. They followed the star tablet, shuttling through the endless starry sky.

The inside of this blue planet was not very big, and from a distance, Long Chen could see a blue speck of light in front of him. This speck of light became bigger and bigger, and before long, it became completely visible in Long Chen's field of vision.

Chapter 736 - Bronze Door

What appeared in front of Long Chen and Feng Zhilin was an ancient tomb in the middle of the starry sky. This ancient tomb was extremely huge, although it was a tomb, but its extravagance was similar to that of a real palace. The tomb had already been constructed countless of times, but what was different from the Iron City outside, was that the ancient tomb was still beautiful and magnificent, as though it had been recently constructed!

On this ancient tomb, there were seven strong stars!

Until now, Long Chen was completely sure that this was one of the legendary Seven Monarchs's ancient tombs.

A vast aura came out from the starry sky ancient tomb, surging towards Long Chen and Feng Zhilin. Long Chen was extremely shocked. Merely this aura from a senior warrior already made Long Chen respect him.

Under Xing Pan's lead, Long Chen and Feng Zhilin got closer and closer to the starry sky ancient tomb, and the two became more and more nervous, because not only did this mean that they would have to endure the Sevenstar Monarch's trials, they also had to worry about the enemy's attacks!

Very quickly, in Long Chen's field of vision, there was only this enormous ancient tomb in the starry sky left. At the entrance of the tomb, there was a huge blue platform, and these two discs were already heading towards the blue platform at the same time.

At the end of the platform was the huge and ancient door of the ancient tomb.

Long Chen and Feng Zhilin were both nervous, while observing the Starry Sky Ancient Tomb, they also observed their opponents with fear in their eyes, to prevent them from launching a surprise attack on them.

To Feng Zhilin, the most important thing was the inheritance of the Sevenstar Monarch, as for killing Long Chen to avenge the Xue Yi, this was only one of the methods to obtain the inheritance.

It was only because the two of them had basically lost their ability to fight that the scene became so strange.

Very quickly, the Star Plate came into contact with the blue platform. Long Chen and Feng Zhiling moved at the same time, they all rushed to the blue platform, and rushed towards the ancient tomb in the starry sky at the same time!

Although Feng Zhiling was injured, she had a strong advantage in terms of realm and true essence. She instantly surpassed Long Chen and rushed to the bronze tomb's door, but very quickly, she became stupefied. The bronze tomb's door was extremely heavy, and it was tightly shut.

His palm struck the door, but there was no movement from the bronze door. It did not even shake, and not even a speck of dust fell. However, Feng Zhiling took two steps back because of the pain. It was clear how solid and solid this bronze door was.

"What a tough door!" Feng Zhiling took two steps back, and said in shock. If she was in her best condition, she could still try to attack the door, but now was not the time. Moreover, Feng Zhiling remembered that normally, tombs of this level couldn't be opened by brute force.

At this time, Long Chen stood behind Feng Zhilin, and carefully sized up this huge bronze door. He did not fight with Feng Zhiling, and even at this time, the expression on his face was still rather pure. It was as if he was unaware of his current environment.

The temptation of the Sevenstar Monarch's inheritance, was enough to make everyone in the Realm of Myriad Kingdoms go crazy!

Feng Zhilin turned around, and looked at Long Chen coldly, then warned him: "If you take another step closer, even if I don't want to risk my life, I will still kill you!"

The reason why he didn't kill her was because Feng Zhiling was afraid that if he attacked her, her injuries would get worse!

The inheritance of the Sevenstar Monarch was not easy to obtain. First, one had to obtain one of the seven spots among the many experts who had discovered it, and this could only be considered as having passed the first stage. Next, one had to fight with seven other people on that planet.

It was hard for ordinary people to imagine that a true legacy would be underground.

Long Chen thought of this earlier than Feng Zhilin, but Long Chen was afraid of bombarding the planet, which would cause too many ripples, so he did not dare make a sound.

And the third stage was this bronze door.

This bronze door looked simple. When Long Chen raised his head, he found that this door had a kind of majestic pressure. In the middle of the door, it seemed to be a vast and endless starry sky.

The entire door seemed to be made of ordinary bronze, but in reality, no one knew what material it was made of, not even metal. On the bronze door, there was nothing at all, the only thing that existed was the seven metal pieces that did not seem to be arranged in a regular pattern.

At this time, Feng Zhiling had also noticed these seven semicircular iron blocks, and while looking at Long Chen warily, she tried to touch these iron blocks. As expected, she found that although these dark and heavy iron blocks couldn't be picked up, they could still be moved around the bronze door!

"Could the seven iron blocks be hinting at the seven stars represented by the Sevenstar Monarch?" Feng Zhiling furrowed her brows. According to her thinking, it was very possible that the Seven Planets' star array formation could be opened by the Seven Planets, but the problem was that she didn't know how the Seven Planets' array was arranged in the starry sky. Furthermore, the Seven Planets' trajectory seemed to change almost every day, so who knew how it was arranged?

After thinking for a while, Feng Zhiling casually arranged it a few times, but to no avail. At this time, she turned her gaze towards Long Chen, and asked: "Do you know what arrangement the Seven Planets are in the sky?"

She had only asked casually in the beginning, but did not expect Long Chen to actually nod his head at this time.

From the situation just now, it seemed that Long Chen was not his opponent. As long as he helped her open the door, then she would definitely be able to kill Long Chen with heavy injuries the moment he opened the door!

Thinking to this point, she immediately took a few steps back, and said to Long Chen: "Come, don't play any tricks on me."

In fact, she was already preparing some tricks.

Long Chen actually didn't know how the Seven Planets God was arranged, but Cat did. At this time, Cat said to Long Chen: "Kid, you've opened the door, aren't you afraid that she will take the opportunity to kill you? "Even though she was injured, the gap between the two of you is no longer ordinary."

Long Chen secretly laughed, and said: "Don't worry, I have a way, you just need to instruct me."

He knew that this brat had many tricks up his sleeve, and would not be hurt by Feng Zhilin, so he told Long Chen about the Seven Glorious Stars' arrangement in the sky today. Long Chen followed Cat's instructions, and grabbed the first piece of iron, and moved it to the first position.

Seeing the light coming from the metal, Feng Zhiling's eyes lit up.

"Do you think you can test them one by one and then make all the iron pieces light up?" Just as this thought appeared in Feng Zhiling's mind, Long Chen turned around and told her what she was thinking.

Feng Zhiling smiled gently and said, "You are the one who should be looking down on the king."

"What kind of gentleman are you?" Long Chen glanced at her proud twin peaks. This woman was Wu Guangyu's woman, although he was not married yet, his beautiful body would probably belong to Wu Guangyu after they were married.

If you make a mistake, all the previous efforts will go down the drain. If you do not believe it, you can try it, and at that time, no one will have a chance to obtain the Sevenstar Monarch's inheritance!

After a short while, the second piece of metal lit up, and went on to the third, fourth, and very quickly all the way to the seventh. Long Chen did not make a move, he turned around and looked at the nervous Feng Zhilin unrestrainedly, and said: The seventh piece of metal fell, and the seven stars are arranged properly, and the bronze door will naturally open, and the Sevenstar Monarch's inheritance will also appear. However, only I know where the last piece of metal will appear, but, if I lose the value of using it, someone else would make a move, right?

Feng Zhilin paused, her plan had already been seen through by Long Chen.

Long Chen knew that she was going to kill Long Chen the moment he opened the bronze door, then charge in to take the Sevenstar Monarch's inheritance.

"If that's the case, you can try to figure out where you want to place the last piece of metal. Otherwise, we'll probably have to stay here forever. I can stay for that long, but what about you?" Long Chen did not touch the seventh piece of metal, but indifferently looked at Feng Zhilin.

"What do you want to do?" Feng Zhiling said coldly.

She was not afraid of Long Chen, and could tell that Long Chen was also at the end of his rope. She was only worried that he would suddenly come up with some strange trick.

"Stand back twenty steps and I'll put down the last piece of metal." Long Chen raised his head, his gaze making contact with Feng Zhiling's cold gaze in the air, the smell of gunpowder becoming stronger and stronger.

"Sevenstar Monarch is one of the Seven Monarchs, his inheritance is probably not something that can be obtained just by going in there, once he goes in, it will depend on how strong he is, and as for the bronze door trial, only this brat can solve it, I will let him live a little longer, once we enter to fight for the treasures, it won't be too late for me to kill him, and in this ancient tomb, he won't be able to escape even if he has wings!"

With these thoughts in her mind, Feng Zhilin finally thought of something. She nodded and immediately retreated 20 metres, although she was heavily injured, in truth she could easily cross those 20 metres. When Long Chen opened the bronze door, it would depend on Long Chen's luck.

Chapter 737 - star chart

Without saying a word, Long Chen took a deep breath, and moved the last piece of metal to the position specified by the kitten.

As expected, after a moment, the metal released a blue glow, and just as the glow lit up, the entire bronze door erupted with intense light, the power of the stars directly blew Long Chen away, and behind him, Feng Zhilin, who had wanted to take action, was also blown away by the power of the stars!

That intense light made Long Chen almost unable to open his eyes. His eyes could only observe the bronze gate that seemed to form a starry sky through the gaps between his fingers. In this starry sky, the seven stars were the most dazzling!

This was the Seven Planets!

Right at this moment, the starry sky suddenly disappeared, and at the same time, the two bronze doors disappeared. Without thinking, Long Chen directly exploded out with his strongest speed, directly rushing into the tomb that was just inches away from him, and Feng Zhilin also followed closely behind.

"Long Chen, die!" At this time, the big door opened, Feng Zhiling was already prepared to fight Long Chen.

Only by killing Long Chen would she be able to obtain the inheritance of the Sevenstar Monarch with a peace of mind.

However, just as she was about to enter the ancient tomb, she suddenly felt a powerful force attacking her, directly suppressing her. However, just as she was about to enter the ancient tomb, she suddenly felt a powerful force, immediately suppressing her.

Long Chen had the same experience. After entering the Ancient Devil Realm, he discovered that there was a strong power in the space that restricted his movements.

Behind him, Feng Zhiling couldn't move either.

Doubt could be seen in their eyes as they surveyed their surroundings. In the end, he wasn't killed by Feng Zhilin, which made Long Chen heave a sigh of relief.

The floor was made of smooth glazed stone, and streams of blue light flowed about on the surface of the almost transparent stone. The surrounding walls were the same, and above their heads was a stretch of blue starry sky, which seemed to be completely focused on the ceiling of the palace. Stars floated above, and the sea of stars churned and churned. Those were either blue, purple, or even red stars. They were all extremely beautiful.

"What the hell is this place? What is restricting my movement?" Long Chen was only around two meters away from her, but she was unable to cross the two meters distance. At the moment, she could only move her body slowly, and it would probably take her an entire day to cross the two meters distance between them.

Long Chen was also wondering, this type of force was not gravity, but if it was gravity, then Long Chen would feel as if he was being crushed, but with his current strength, if he did not want to move, he would feel very relaxed.

Both of them could not move, which just happened to give Long Chen some time to recover.

"This is the power left behind by the Heaven realm expert with regards to the 'Domain'. I believe that this little fellow called the Sevenstar Monarch wanted your juniors that came in to break the power of this domain. After that, you can obtain the inheritance and escape. This depends on your perception and not your strength. Right now, you and this girl are at the same starting line, and neither of you can touch the other. It's a fair competition, so try your best! "

Cat told Long Chen.

"What is the Heaven Martial Stage's' Domain '?" Long Chen asked.

"When you get to Heaven Martial Stage, you will naturally understand. In short, in your human cultivation system, the core of the three Martial Realms and Earth Martial Stage is the 'Pulse of the Earth'. It will be the energy to fuse the Earth Martial Arts and the core of the Heaven Martial Stage will be the 'Domain'. It should be easier for you to understand, because you have the Devouring Blood Realm, which is a type of 'domain'. Simply speaking, what the Earth Martial Stage controls is the power of the earth, and what the Heaven Martial Stage controls is the sky, the power of the entire world, and the combination of you and the world. This is not just a type of land, the Heaven realm expert is able to use his martial soul and control the surrounding space to a certain degree.

The path of martial arts was incredibly marvelous.

Compared to the Earth Martial Stage, the Heaven Martial Stage needed more comprehension, because the Heaven Martial Stage controlled the world. The Heaven realm. From this name, one could roughly imagine the cultivation of the Heaven Martial Stage.

The Devouring Blood Realm was a kind of domain type sacred art, and the domain that the Heaven Martial Stage cultivated was a type of fusion and control of the surrounding world. Since there are nine stages in Heaven Martial Stage, then the strength of the domain should also increase along with the increase in strength.

Of course, this was all in the future.

Long Chen's current plan was to break through the domain left behind by the Sevenstar Monarch. Little Cat had already said that as long as he broke through this domain, he would be able to obtain the inheritance of the Sevenstar Monarch.

With so many obstacles, it could be seen how difficult the Sevenstar Monarch's inheritance was.

Fortunately, at the moment, they were being tested for their intelligence. If they were truly fighting, the current Long Chen was not her opponent.

Long Chen's gaze changed, and so did Feng Zhiling's. Feng Zhiling didn't have a kitten, so she didn't know much at first. She just wanted to use what she had left to get rid of the pressure.

At this time, Long Chen had already realised that the only movement he could make was to raise his head. This made him guess that the key to breaking through this domain was above his head.

When Long Chen raised his head, he could already see this stretch of resplendent star chart. This star chart gave him a powerful shock, as if he was just a tiny living being under this starry sky.

If it was in terms of perception, Long Chen didn't think that he would lose to Feng Zhiling. Although the other party was a warrior at the peak of Realm of Myriad Kingdoms, Long Chen was not inferior in the slightest. Although he was born of a relatively low background, it was precisely because of his astonishing perception and potential that he possessed his current strength.

Seeing Long Chen looking at this starry sky, an intoxicated look appeared in his eyes, Feng Zhiling was not an idiot. She quickly thought: "This kid seems very confident. Now that he's looking at the thing above his head, he should already know that he can't break this suppression by relying on brute force. Is the method to break this suppression on top of his head?"

Very quickly, Feng Zhiling realized that he couldn't move at all, but he could still raise his head and look at the resplendent star chart case.

"Could it be that within this star chart, there is a hidden secret to breaking the suppression?" Thinking up to here, Feng Zhiling quickly cast aside all other emotions and focused on the star chart case.

"I wonder what this guy got out of. His abilities are sometimes high and sometimes low, and without my wind race's foundation, how can he be compared to me in terms of comprehension? I have read over ten thousand battle skills, read over a variety of cultivation methods, read countless of notes cultivated

by my predecessors. In terms of comprehension ability, this kid will not even be able to catch up to me!
"

Thinking to this point, the only thought left in Feng Zhiling's mind was to look at this star chart.

Long Chen didn't look at her, he was completely immersed in the star chart.

"What secret is there?" Long Chen's interest was slowly aroused, and he solved many difficult problems. This was his preference. He was very confident in his own perception, so he wasn't in a hurry. If he was anxious, how could he comprehend the true meaning of this star chart?

"Such a vast star chart must be special. Where is it?" Long Chen's gaze moved a little bit as he concentrated on the starry sky above his head, completely unaware of the passage of time.

Very quickly, a day had passed.

After the day had passed, Feng Zhiling did not notice at all, she had already started to become anxious. If not for Long Chen still maintaining that position and watching from the sidelines, she might have given up long ago.

The inheritance of the Sevenstar Monarch was fighting between the two of them, and it didn't have to be said that it was superior, as long as it could defeat the other party, it would be enough. Therefore, when she saw that Long Chen was still researching patiently, she forced herself to use all her strength to find out what was happening within the star chart.

Long Chen however, was completely in the process of revolving the stars.

One was interest, while the other was forcing himself, the difference between the two of them was quickly revealed. When Feng Zhilin was already burning with anxiety, Long Chen had already noticed something strange about the star chart.

The movement of all the stars was irregular, but among these endless star chart, there seemed to be seven stars that hung far off in the north. Their trajectory was actually the same.

"These seven should be the Big Dipper, right?" Long Chen asked as he focused his gaze on the seven Big Dipper. The Big Dipper was like a ladle hanging in the middle of the sea of stars in the north.

The more Long Chen looked at the circulation path of the Big Dipper, the stranger it felt. He temporarily put aside the other stars and focused all his attention on the Big Dipper. Time slowly passed, and the trajectory of the Big Dipper was firmly engraved in Long Chen's mind.

Vaguely, he felt that the circulation path of the Big Dipper had some sort of profound rule inside. Long Chen, however, was not clear on what exactly this rule was, he only felt that it was not bad.

Time slowly passed. Long Chen was completely immersed in this profound circulation path, and his eyes gradually shone with the blue colored starlight. When he saw that Long Chen was actually in this state, Feng Zhilin became extremely anxious!

She knew, Long Chen had definitely entered into a meditative state. If this continued, perhaps he would truly be able to comprehend something.

"Impossible. With his perception, how can he compare to me?" Absolutely impossible! " Feng Zhiling thought anxiously.

At this time, Long Chen was already close to success.

In a showdown between the two, this seemingly unimportant state of mind decided the victory or defeat of the two.

Chapter 738 - Big Dipper Steps

"The circulation of this Big Dipper actually implies a movement technique?" Long Chen thought somewhat excitedly in his heart.

Indeed, from the circulation of the Big Dipper, he gradually saw a movement technique. The movement technique that belonged to the Sevenstar Monarchs. Without a doubt, it was an Emperor level movement technique. In the entire Archaic Graveyard, there were probably only a few people who possessed Royal Grade movement techniques, and this movement technique came from the Sevenstar Monarch!

The name of this movement technique was: Big Dipper Steps!

"Is a movement technique the key to breaking through this domain?" Long Chen thought suspiciously, he had only figured out the way to go and had not truly studied that movement technique yet.

In next to no time, he thought of the crux of the matter.

"This suppression domain was left behind by the Sevenstar Monarch. This Big Dipper Steps was also left behind by the Sevenstar Monarch. Perhaps this movement technique can really break through this domain. At the very least, I can move freely in this domain!"

As long as he could move freely here, it was enough. Long Chen could use the Big Dipper Steps and leave this place to go deeper into the Star Tomb to obtain the true inheritance of the Sevenstar Monarch.

Thinking of this, Long Chen became extremely excited. He finally found a way to win.

Feng Zhilin was standing behind him, so Long Chen could not see her expression nor understand her current state. However, Long Chen was confident in himself, he knew that with Feng Zhilin's personality and comprehension ability, he shouldn't be able to find the Big Dipper Steps thing as quickly as him.

Thinking about it, Long Chen immersed all of his energy into practicing the Big Dipper Steps, observing the trajectory of the stars in the sky.

This process was actually quite long. Long Chen had to spend a total of five days before he was able to read out the Northern Dipper Steps' mental cultivation method from the trajectory of the stars.

In these five days, most of his depleted primeval essence had been recovered, but he could only stop at the third stage of the Earth Martial Stage. There was too much primeval essence, and Long Chen's current injured martial spirit was still uncontrollable. He reckoned that Feng Zhilin had recovered a lot of her strength by now, she had a strong foundation, and from young, she had consumed many times more spiritual medicines than Long Chen had. With this, she had hidden a lot of the medicinal properties in her body, and adding that she seemed to know some life combat techniques, her injuries from before, should already be mostly healed.

She would probably be able to recover to her peak state in a month or two.

If one was to carefully sense her surroundings, they wouldn't be able to find a way out. Feng Zhiling chose a different method, which was to recover her strength, and even though her body couldn't move, the true essence within her body could still circulate. Through the circulation and nourishment of the true essence, Feng Zhiling was able to stimulate the remaining medicinal properties within her body, so that her injuries could recover.

If the power of this "Domain" disappeared, if Feng Zhiling wanted to kill Long Chen right now, she could only wave her hand and do it successfully. The difference between the third and eighth stage of the Earth Martial Stage was simply unimaginable.

When Feng Zhilin was very young, she was probably at the third level of Earth Martial Stage. With her talent, she was already around the same as a portion of Imperial Domain.

One of them was focused on training the Big Dipper Steps while the other was recovering from his injuries after a long period of time. Who would succeed in the end?

Time slowly passed.

Long Chen could not see Feng Zhilin, but Feng Zhiling was able to see every single movement Long Chen made, for the past ten days, Long Chen did not make the slightest movement, as though he was dead, completely immersed in the image of the star chart above his head. The only thing Feng Zhilin thought was that there were starlight flashing from time to time in Long Chen's eyes.

Feng Zhilin could clearly see that Long Chen's leg had slightly moved once, and instantly, her face revealed a shocked expression. She clearly knew that Long Chen's current body only had the strength of the third stage of the Earth Martial Stage, so even she couldn't move, so how could Long Chen do it?

There were many things she did not know.

"Sure enough, after I completely master the Big Dipper Steps, I'll be able to move freely in this 'Domain'." Long Chen secretly thought that during this period of time, he had been researching the movement skill of the Big Dipper Step. Only after he completely mastered the mental cultivation method, did he prepare to give it a try. The initial training was extremely difficult, because Long Chen's body could not move at all.

However, Long Chen decided that since the Sevenstar Monarch had already set up this trap, then there must be a way to solve it. Thus, he did not give up, but grit his teeth and tried. In any case, he had

nothing to worry about in the Archaic Graveyard, other than the fact that Xiao Lang was still at the God Clan's Young Master and did not know whether he was dead or alive, he had nothing to worry about.

Furthermore, under the suppression of this "Domain", Feng Zhilin simply could not move against him. Even if she had a strength that far exceeded Long Chen's, what use would it be? Furthermore, if Long Chen possessed the ability to move, but she, Feng Zhiling, did not, what would happen?

With Long Chen's viciousness, he definitely would not let her off.

After trying again and again, Long Chen finally completed the first step, and that was to move his leg a little. Although it was just a small movement, to him, it was very important, because it meant that as long as he mastered the Big Dipper Step, he would be able to move freely in the 'Domain'!

At that time, wouldn't Feng Zhiling be ravaged by him?

At that time, would the inheritance of the Sevenstar Monarch still be able to snatch him away?

Long Chen forcefully controlled the excitement in his heart. As long as he was calm, he would be able to walk even further, thus Long Chen calmed himself down and carefully practiced the movement skill he had experienced millions of times in his heart. He tried again and again, hoping that he could make more movements in this narrow space.

Looking at Long Chen in front of her, Feng Zhiling revealed a terrified expression. She was extremely anxious in her heart, but when she looked at this youngster, she suddenly felt a sense of fear, and an indescribable sense of powerlessness.

In her opinion, no matter what aspect Long Chen was in, he was completely inferior to her. But why was it that when Long Chen went, he miraculously surpassed her every single time?

He was clearly a very ordinary youth. In Feng Zhilin's heart, he had already transformed into a devil, and when they came to this 'Domain', Feng Zhilin was still very confident in herself, thinking that in terms of comprehension, she would definitely surpass Long Chen. However, the moment she saw Long Chen's actions, she was struck by a new blow!

If Long Chen could act normally here, would she still be able to live?

Absolutely not.

Therefore, Feng Zhiling looked at Long Chen in panic, her heart was already trembling, and the only thing she could pray for, was that Long Chen would not succeed.

However, the more she thought about it, the closer Long Chen got to success.

"This Big Dipper Steps is indeed worthy of being an Emperor Level movement technique. Previously, I thought that under the pressure of this 'Domain', my cultivation speed would become very slow. Now, it seems that it is precisely under the pressure of this domain that I could possess such cultivation speed."

If Long Chen was allowed to directly learn the Big Dipper Steps, it was unknown how long it would take for him to learn it. However, under the suppression of this domain, walking was extremely difficult for him, and being able to practice the Big Dipper Steps at the slowest speed was extremely beneficial for Long Chen to gradually master this Emperor Level movement technique.

Very soon, in front of Feng Zhiling's terrified eyes, Long Chen was already able to move his body even more. First was his step, then his arm, until finally, Feng Zhiling had given up all hope.

After another ten days, Feng Zhilin's injuries had basically recovered. In this 'Domain', she was using all the True Essence in her body, so she should be able to move her body a little. This was already the maximum amount of movement, but the Long Chen in front of her, was currently crazily cultivating a movement technique in this 'Domain'!

In these ten days, Long Chen had never turned his head once, but this had brought about an even greater terror to Feng Zhilin. She knew that the moment Long Chen turned back, it would definitely be her doomsday.

The relationship between the two of them killing each other had now been completely reversed.

In the beginning, Long Chen had been a helpless prey in the hands of Feng Zhilin, but now, Feng Zhilin felt that he was a powerless lamb, while Long Chen was the most terrifying wild wolf. He was currently resting, and there would always be a moment when he would rush over fiercely and take her life.

Feng Zhilin was extremely clear of Long Chen's character, she knew that this youth was definitely not the kind of person who would show mercy to beautiful women. Previously, Xue Nv could already be considered to be an absolute beauty, but Long Chen had directly used the Scarlet Emperor Burning Heaven Seal to turn him into meat paste!

Thinking of the same thing that would happen to her, Feng Zhiling turned pale with fright.

This was the most miserable time of his life. Back then, she had never thought that this youth would be so terrifying, but now, she had witnessed it. Everyone laughed at Long Chen for saying that he would not let go of the God Clan's Young Master and fight him to the death. Feng Zhilin had also previously mocked Long Chen for not knowing how high the sky was and how deep the earth was, but now, Feng Zhilin knew that this Long Chen might really have the qualifications. If God Clan's Young Master did not kill Long Chen at that time, he would definitely attract a lot of trouble in the future.

The starlight above his head shot down and shone onto Long Chen's body. Long Chen's body vaguely revealed faint starlight, as if he was currently a member of the stars. His body rapidly changed in the hall.

Chapter 739 - True Men

Even my wind race's movement technique didn't have this kind of change in speed. There are a total of seven different positions, which means that he has seven lives. This movement technique should be of the Royal grade, and this Royal grade battle skill is definitely something that the Sevenstar Monarch left behind!

Thinking of this, Feng Zhiling gritted her teeth. She and Long Chen had arrived here at the same time, but she didn't expect that the one to finally obtain this movement skill was Long Chen. If she knew this would happen, she wouldn't have given up previously and would have spent a lot of energy to treat her injuries.

Although she was using her true essence, and could move her body out of the domain's range in a few days, Long Chen seemed to have taken a shortcut. As long as he used the Big Dipper Steps, he would be able to move freely.

The reason he did not touch Feng Zhiling was because Feng Zhiling was already in his possession. Long Chen wanted to rely on the existence of this Domain to completely master the Big Dipper Steps.

Only by mastering the Northern Dipper Steps would Long Chen be able to move freely in this 'Domain'.

Long Chen could definitely quickly change his body in these seven positions. Any normal battle skill, under the effect of his movement skills, would be hard to hit, such as Feng Zhiling's invisible whip!

Although invisible whips were fast, Long Chen's transformation speed was not fast either.

Royal battle skills were naturally superior to others in many ways.

In this 'Domain', Long Chen had spent an entire month before he finally managed to completely cultivate the Big Dipper Steps. He knew that if he didn't have the pressure of this 'Domain', it would probably take even more time to cultivate this Emperor Level movement technique.

In this period of time, Long Chen had yet to turn his head around.

Feng Zhiling's emotions were already on the verge of collapse. Long Chen already had the chance to kill her half a month ago, but why hadn't he made a move even now?

Or was he thinking of something even more cruel?

Thinking of all the things she had heard, Feng Zhiling sucked in a cold breath. Amongst them, the thing she was most afraid of was Long Chen raping her. She was a woman, moreover a devastatingly beautiful woman, while Long Chen was a man, he was hot-blooded, Feng Zhilin had humiliated him before, but now that Feng Zhiling was in front of him, without any power to resist, how could Long Chen let go of such a beautiful lady?

Thinking of what might happen, Feng Zhiling felt nervous.

At this moment, the body that seemed to already have seven bodies, suddenly stopped in its tracks. He suddenly turned around, and two bright starlight shone from his eyes onto Feng Zhiling's body. It landed in her terrified eyes.

These two rays of blue light quickly disappeared. Long Chen's face was as dark as water, standing in front of Feng Zhilin, from his eyes and expression, it was impossible to tell what he was thinking, but Feng Zhilin had a bad premonition, because she knew that this Long Chen was even more terrifying.

Having fully circulated her Zhen Qi, Feng Zhiling moved his lips with all his might and finally said a few words: "If you are a man, then kill me!"

To be honest, she wasn't afraid of death, but she was afraid of being insulted.

Hearing her words, Long Chen did not have any expression on his face. This woman, Long Chen had initially thought about how to deal with her. Killing her was obviously the most direct decision, but for Long Chen, it didn't seem to be enough. Honestly speaking, he did not have any hatred towards Feng Zhilin, but the one he hated was Feng Zhilin's fiancée, God Clan's Young Master Wu Guangyu!

The wolf cub was still in his hands, and it was unknown whether he was dead or alive!

Every time he thought of this, Long Chen would become anxious.

As a result, he could not easily take this woman's life. Seeing Feng Zhilin's panicking look, Long Chen made up his mind, and very quickly, he had his own plans.

Cultivating the Big Dipper Steps and breaking the suppression of the "Domain" on himself, Long Chen was able to move around freely. This meant that he had absolute confidence in winning, so at this time, Long Chen didn't need to worry about any tricks Feng Zhilin could use, any accidents happening.

A cold smile flashed by the corner of his mouth, and then, he walked towards Feng Zhilin. When he sensed the heavy and bloody aura on his body, as well as that horrifying expression on his face, Feng Zhilin gave up all hope. She was worried about something that was going to happen in the end.

"Don't come near me!" It took a lot of True Essence for Feng Zhilin to be able to say a few words, but what made her despair was that Long Chen was able to easily walk in front of her, and at a distance of half a meter away from her, he lowered his head and looked at this beautiful young girl.

"Come to this Archaic Graveyard, everyone is fighting within the rules of this place. Originally, there was no enmity between us, but since you and I are fighting for the same thing, and I have taken the initiative, I will not let you go. All of this can only be blamed on your luck." As Long Chen spoke, he stretched out his right hand's finger. Under Feng Zhilin's terrified and pleading eyes, he placed it lightly on her face and gently caressed it.

Feng Zhilin suddenly felt as if he had been electrocuted, it was caused by fear. The current Long Chen, was like the most terrifying demon of all time, standing in front of her. The cold sensation on her face made Feng Zhiling's scalp tingle.

Seeing this insufferably proud woman was scared by him to such an extent that she was about to cry, Long Chen was a little pleased in his heart. He still had a cold and detached expression on his face, and his eyes were firmly staring at Feng Zhilin's eyes. Then, his slender and powerful fingers gradually slid down from Feng Zhilin's face, from her slender white neck to her collarbone, and then lightly pulled on the front of her light green long dress.

"No!" Feng Zhiling knew what Long Chen was going to do, so she said it out of fear once more. Tears were already flowing out of her eyes.

However, Long Chen was not coaxed by her pitiful appearance. He clearly remembered that when this woman killed someone, she did not frown at all. In his heart, this woman lived a devil, she only had a beautiful shell, and did not have the qualifications to be compared to Ling Xi at all.

Under Feng Zhilin's despairing gaze, Long Chen slowly used his strength. A long skirt was gently pulled down by his fingers, and as Long Chen slowly moved it, his snow-white skin was exposed to the air, inch by inch.

Only after a good quarter of an hour had passed did Long Chen finally manage to take off her long skirt. A naked and proud snow-white body was just placed in front of Long Chen, in the middle of the empty hall. Long Chen didn't have any expression at all, his eyes were like a devil's when he looked into Feng Zhilin's eyes. His cold gaze gave Feng Zhiling a huge shock, usually, she was used to behaving like a noble person, slaughtering people as she pleased, causing everything to go according to her will. All these years, many innocent people had died under her merciless attacks, but at this moment, she felt that she was a powerless woman, that her life and death, as well as her own, were all under Long Chen's control.

If she could move, she would already be trembling.

It was the first time in her life that she had shown her body like this in front of an unfamiliar man. If she still had the strength, she would definitely be thinking about how to tear Long Chen's body into a thousand pieces.

Long Chen's gaze was like two flames, moving around her body, from his proud face to the proud snow-white twin peaks, all the way down to the place that Feng Zhiling cared about the most. Under his gaze, she actually felt that her entire body had a shameful heat in it, and that her entire body was weak and powerless.

It was the first time in her life that she had experienced such a feeling. It was given to her by a man she wished she could tear to shreds.

At this moment, Feng Zhiling's face was covered with tears, and her eyes were swollen and red. She knew that Long Chen had already stripped her naked body of her clothes, and then even more terrifying things would happen. At this point, she was already numb to her despair.

Just then, Long Chen approached her. The heat coming from his body made Feng Zhiling tremble. Very quickly, Long Chen appeared beside her ear, his face was right in front of Feng Zhiling, and looking at Long Chen's still calm eyes, Feng Zhiling did not dare to look him in the eye.

"With such a young age, your figure is not bad, but it's a pity that you have to give Wu Guangyu a free ride."

In Feng Zhilin's ears, Long Chen said these words.

Hearing this, Feng Zhiling confirmed his conjecture. He wouldn't let Wu Guangyu get off easy, of course he would let Wu Guangyu get off easy.

Long Chen was too close, and Feng Zhiling was naked right now. When the hot air he breathed out landed on her ears, she immediately went soft. The strong male aura from the other party had completely overwhelmed her. Of course, this was just a physical collapse, not a mental collapse. In Feng Zhilin's heart, there was only one word to describe her hatred towards Long Chen! Long Chen stole too many of her things, and even killed Xue Yi!

He even took advantage of when Feng Zhiling was being suppressed by the Domain to take off her clothes!

What was even more hateful was, what would he do next?

There was no need to think about it, Feng Zhiling already knew that she was confident in her figure. No man could still maintain their rationality under the temptation of her body, and Long Chen's current calm expression was merely an act.

At this time, Long Chen moved a few steps away.

Feng Zhilin closed her eyes with difficulty. She did not dare to look with her eyes, so she reckoned that Long Chen was going to start soon, and knowing that she was unable to resist, she would not beg for

mercy. Otherwise, she would look down on herself. However, what she had never expected was that her first time would actually be delivered here, in the hands of such a mysterious man.

Chapter 740 - Seven Glorious Stars

"I thought it would be Wu Guangyu's, haha." Feng Zhiling laughed sarcastically.

There was no response for a long time.

Didn't Long Chen want to start? After sensing carefully, he realized that Long Chen was already behind him, causing Feng Zhiling to be startled. He angrily scolded: "Why is this fellow's hobby so eccentric! "This is the first time for me, could it be that he wants to go from the back ..."

Thinking of this, a heart-wrenching pain stabbed at her buttocks. Feng Zhiling immediately cried out in pain, but she didn't shout out. This was because when she didn't use her true essence, she couldn't even change the shape of her mouth.

What exactly was Long Chen doing?

When Feng Zhilin suffered that intense pain again, she still couldn't understand it. Very quickly, she understood that Long Chen had used a knife to carve two large red words on her buttocks!

"Long Chen!"

That's right, Long Chen was very quick, in a short moment, two blood red words appeared on Feng Zhilin's pure white buttocks, bright red blood flowed down from her tender skin, Feng Zhilin's face twitched intensely, she really did not understand what Long Chen was doing!

Didn't he covet his own body? Why did he not violate her, and instead cut wounds on her?

The current Feng Zhilin simply didn't know that Long Chen had already engraved his own name on her body. When the two large words "Soaring Dragon and Phoenix" were completed, Long Chen looked at his work with satisfaction, and the corner of his mouth revealed a mocking smile: "I really don't know what kind of expression Wu Guangyu will have when he sees these two buttocks of yours."

After he finished speaking, he started laughing loudly, his laughter resonating throughout the entire empty palace hall. This laughter, accompanied with Long Chen's figure, gradually disappeared within the palace, as he went to look for the Sevenstar Monarch's inheritance.

The empty star chart left only Feng Zhiling standing there naked. She was completely confused and did not know what had happened. After much difficulty, she finally managed to clear her mind.

"He has already stripped me of my clothes, so why didn't he touch me? Is his purpose only to leave scars on my face? "

"What is his purpose?"

Although her thoughts were cleared up, there were still many questions appearing in Feng Zhiling's mind. Below her, there was still a burning pain, such a shameful place like this was actually scratched by Long Chen so unrestrainedly, Feng Zhiling had the urge to die, but she knew she could not die yet.

It was only after Long Chen had left that hatred and anger that shot to the sky appeared in her heart.

Previously, when Long Chen was here, she only felt fear. After Long Chen left, she knew that Long Chen was going to that Sevenstar Monarch's inheritance. This thing that originally belonged to her, ended up in Long Chen's hands!

"Long Chen, Long Chen!" Feng Zhiling nearly went crazy because of this name. No one had ever made her this miserable! First, he snatched away her Monolith of the War God, then killed her Xue Yi, then humiliated himself in this way, and lastly, stole away the most important inheritance of the Sevenstar Monarch. Long Chen was like a bane to her!

However, Feng Zhiling didn't admit defeat. She gritted her teeth, her eyes bloodshot.

"You didn't kill me today. After I leave this place alive, if I catch you again, I will definitely make you suffer the most miserable torment in this world!" In Feng Zhiling's heart, roars of anger came one after another.

The stinging pain on her butt was just like Long Chen's mockery, allowing Feng Zhiling to return to reality.

She could only revolve her true essence and use it to rebirth her flesh, allowing her buttocks to heal. However, even if it healed, there would still be traces of it left behind. When others looked at it, they could tell that something had happened to her buttocks.

On the other hand, there were some scars on her scarless skin. This made Feng Zhilin's hatred for Long Chen even more intense!

Long Chen obviously knew that if he let Feng Zhiling go today, if he were to meet her in the future, if he wasn't her opponent, he would definitely be hunted down by her like a torrential storm, and might even lose his life. Back then, many people did not kill Long Chen, and only later on did disaster befall them.

But Long Chen was different.

He could suppress Feng Zhiling today, but he would no longer be afraid of her the next time. This was the pressure he gave himself, and he would lose today. The next time he met her, Long Chen would give her an even bigger surprise. Furthermore, he believed that the two words that he had left on Feng Zhilin's buttocks would cause him to go crazy when Wu Guangyu saw it one day. Long Chen looked forward to that day very much.

"The next time we meet, it will be time for me to get back at you all for the little wolves and settle the scores as well," Long Chen said as a cold smile hung on the corners of his mouth.

Whether it was the Monolith of the War God or the Seven Planets God's inheritance, they were both not Feng Zhilin's. Feng Zhilin thought that Long Chen had stolen her treasure, but Long Chen felt that it was different, as this was something that only those with fate could obtain. Feng Zhiling was not able to obtain it, it could only mean that she did not have that luck.

For example, just now, when they had entered the 'Domain', the two of them had been at the same starting point. Long Chen had chosen to comprehend the star chart left behind by the Sevenstar Monarch, and Feng Zhilin chose to use brute force to break through the 'Domain' after recovering from her injuries.

It was only because she was useless, and wasn't trying to snatch her Sevenstar Monarch's inheritance from Long Chen. Even if Long Chen didn't come here, she still wouldn't necessarily be able to obtain the Sevenstar Monarch's inheritance.

Long Chen had now passed through the star chart's great hall and was walking towards the depths of Star Tomb, where there was something that was attracting him.

The cultivation technique that the Sevenstar Monarch cultivated in the past was a Royal Tier Battle Skills, called the "Seven Glorious Stars Arts". The movement technique that Long Chen cultivated, the "Seven Glorious Stars Steps", was a movement technique from the "Seven Glorious Stars Arts". At the same time, the "Seven Glorious Stars Arts" also included a general outline, and a body tempering technique, called the "seven star body"!

The Seven Glorious Stars Technique was split into two, the 'seven star body' and the 'Big Dipper Steps'!

Right now, Long Chen was just going to retrieve the seven star body's secret scripture.

Originally, there were only a few offensive moves, or body tempering, and movement techniques. These were all independent existences, such as 'Soulcatcher claw 'and' catkin with wind Art ', but after reaching the Emperor level, many offensive skills were all compatible. For example, the 'Seven Glorious Stars Art 'that the Sevenstar Monarch cultivates, contained a set of general principles. Relying on these general principles, Long Chen was able to cultivate a set of Seven Glorious Stars and then use these kinds of Zhen Yuan to display a set of body tempering technique and a battle skill!

Of course, this was not all that was passed down in the Sevenstar Monarch!

Long Chen knew that in the deepest part of this Star Tomb, there was something that still belonged to him. That was the true treasure that the Sevenstar Monarch had left behind!

The Big Dipper Steps and the seven star body were both part of the Seven Glorious Star Arts. Both of them were Royal Level Battle Skills, and the seven star body was the most famous Battle Skill in the Sevenstar Monarch. Its reputation was even stronger than the Big Dipper Steps of the same level! This seven star body, was a middle level Emperor level body tempering technique!

If Long Chen was able to learn this technique, in Archaic Graveyard, there would be no one whose body strength could compare to his!

At this time, Long Chen walked into a pitch black tunnel with excitement. Of course, the moment he stepped into the tunnel, he noticed that the walls all lit up, and the blue fluorescent light made the tunnel seem like a path for the stars.

Long Chen was startled for a moment, and then he immediately walked in. He had already passed all the tests, and in the Star Tomb, there were no longer any other dangers, so Long Chen headed deeper in without worry.

On top of the platform, there was a dark blue stone that was slightly larger than a fist. This was an irregular stone, and only after Long Chen approached the stone, did he realize that it looked exactly like a human heart.

Even the size was similar to a heart.

It was so much so that this dark blue stone, which was half transparent with brilliant blue light flowing on it, actually started to beat like a heart, making Long Chen feel as if it was already a living being.

Long Chen's face revealed an excited expression. As expected of a Royal Level Battle Skill, just his appearance alone was enough to instantly kill all of Long Chen's other Battle Skills other than the Five Emperor Prints. The battle skills that he had learned from the very beginning were all recorded in his book. How could there be such a thing as a piece of stone?

Moreover, it was a magnificent blue rock that was similar to the heart.

On the translucent blue rock, there were seven bright stars. Long Chen's gaze was attracted by the stone heart, as if there was a space inside that was as large as the stars.

"Sevenstar Monarch, the inheritance of one of the Seven Monarchs is indeed terrifying! No wonder the god and devil clans were able to reproduce to their current state after obtaining this inheritance! Furthermore, this is not the most important treasure that the Sevenstar Monarch left for me! "

Including the 'seven star body' and 'Big Dipper Steps', the 'Seven Glorious Stars Mantra' was only a part of the Sevenstar Monarch's legacy, and the more important part was that behind the blue stone, a deep blue door appeared. The door was ajar, and rays of bright starlight seeped out from within the crack in the door.

Long Chen kept the blue colored heart stone and looked at the blue coloured door dumbfoundedly!

"What could it be here?"
