

War God 771

Chapter 771 - Open rivalry and covert warfare

If Bai Lan was not willing to work hard, Long Chen would probably be in danger, but Long Chen was not worried for the time being, after all, Su Yan still needed him, and as long as Su Yan still needed him, he would not give up on Long Chen. He would also help Long Chen deal with all the trouble.

Soldiers come and block; men come and go. There was nothing to be afraid of. When the news spread, Long Chen became even calmer.

The most depressed person was most likely Situ Yao, because he did not leave yet. He was resting a few miles away, and upon hearing the news, his face changed, and he punched the tree trunk, his face turning extremely sinister!

"Chen Yang, this idiot, actually roared this out! Damn, it won't be easy to obtain the inheritance of the Sevenstar Monarch. Even if the two great clan leaders don't have any thoughts, the seven sons of the Thunder Clan and the eight elders of the demon clan, who wouldn't have any thoughts? "

"Today's plan was a complete failure. I never thought that Susu Xue would actually be on top of it. I never thought that Long Chen actually didn't die! Damn it, I, Situ Yao, am completely screwed this time! "

At this point, almost everyone in the Greenwood Sky City had moved out. Their only goal was Long Chen, the Sevenstar Monarch's inheritance, and the eight elders of the devil race, as well as the seven children of the Thunder Clan, they ran the fastest. The position of the seven children of the Thunder Clan in the clan was about the same as the eight elders of the devil race, as they were the peak characters of the ninth stage of the Earth Martial Stage.

In the Thunder Clan, only Lei Ji knew that Long Chen had the inheritance of the Sevenstar Monarch.

There were a total of thousands of people, and they were headed towards where Long Chen was. He did not even need to think to know how big of a commotion there would be.

"What should we do? Everyone will be jealous of the Seven Monarchs's inheritance, including the eight great elders. Now that everyone knows about it, what should we do? " She could only look at Long Chen helplessly. She had thought that Long Chen was only strong in pill refining, and did not expect him to be so strong as well. Long Chen's final move, even she, Su Xue, was a little afraid.

"Go down, don't worry!" Long Chen's face did not change. Since things had gotten to this point, he could only do what he wanted. He had originally thought that the journey to the Cyanwood Heaven City would be a smooth one. He had never expected that the events that had occurred in the two days he had been training here would actually occur.

The speed at which he fell was extremely fast. Before anyone had even lost track of his descent, Long Chen had already landed in the air above the city. In the darkness of the night, everyone had seen the appearance of the youth.

There were thousands of ordinary martial artists, and under the urge of greed, they didn't care about anything anymore. They worked together, and even the demons and the Thunder Clan wouldn't be able to stop them. However, they lacked strong martial artists, so they didn't dare to act rashly.

Long Chen looked over, and saw that there were many heads moving around, all of them staring at Long Chen with greedy and passionate gazes. Not many people were salivating over the exquisite body of the beauty beside Long Chen.

In this group, the powerhouses from both the Demon and Thunder Clan quickly gathered, forming two teams, one standing on Long Chen's left and one standing on his right. Among them, the eight elders from the Demon Clan and the elders of the eighth stage of the Earth Martial Stage were all present, so the situation of the Thunder Clan was basically similar.

When she heard Long Chen's name, she immediately rushed out. Only then did she see Long Chen and her sister standing together, the two of them were a perfect couple, the man was mighty and graceful, as if they were a match made in heaven. Su Yan's heart ached, and he suddenly felt a little sad. But she still clenched her teeth and walked towards Long Chen.

"Big brother!"

When Long Chen heard Yin Ling'Er's clear voice, he finally saw the little girl Su Yan. Thus, he smiled and said: "Why is Yan Er here? Big brother is in a bit of a hassle."

He didn't want to trouble these two girls with his own matters.

"No, at this time, if I were to leave, if they were to become reckless, Yan Er, don't go either." Looking at the postures of the surroundings, she knew that these fellows were definitely jealous of Long Chen's

Sevenstar Monarch's inheritance. It was only because he, Suxue, was still standing here and Bai Lan had not appeared yet, that was why they were able to hold back. If even she had left, then those people would have already rushed up to fight for it.

Su Yan nodded obediently. She could also tell what the situation was, so she hurriedly protected Long Chen and looked at the others with vigilance.

The two daughters of the Demon Clan Chief were all protecting an outsider. This scene looked quite strange, and from the eyes of these two beauties, everyone could see their seriousness and decisiveness, some of the young men immediately became incomparably jealous and envious. These two princesses were their dream sweethearts, yet they were all protecting Long Chen right now, what was going on?

Therefore, among the eight elders, one of them immediately stood up and looked at Long Chen and said loudly: "Little friend Long Chen, I heard that you have obtained the inheritance of the Sevenstar Monarch, but do you know that the Sevenstar Monarch's inheritance is one of the most precious? When placed in the hands of someone with power, it can help them establish their own territory and protect their country, and if you fall into the hands of a weak person, it will only result in a blood storm, leading to the death of countless people. You are still young, so the relationship between you and the princess is not bad.

These words were said grandly, but they only had one meaning, and that was to hand over the Sevenstar Monarch's inheritance.

Hearing the old man's words, everyone else began to curse in their hearts. Of course, except for the demons. This kind of inheritance like the Sevenstar Monarch could no longer belong to anyone, but to a single race. No one amongst the eight great elders could monopolize this inheritance, unless they were like Situ Yao who had plotted to seize it while everyone else did not know about it.

Long Chen's eyes did not look at the old man, but instead went past him and landed on Situ Yao, who was behind him. Right now, Situ Yao's attire and expression and movements were no different from those of the other clan elders'.

Long Chen possessed the Spirit Devouring Demon Pupil, so he was already very familiar with the aura of Situ Yao's soul. He was 80% sure that Situ Yao was the man in black from before.

Of course, this matter could only be suppressed in his heart. After all, right now, Situ Yao was probably even more angry than before. Furthermore, the eight elders of the eight great sects had openly asked for the inheritance of the Sevenstar Monarch.

Other than the demon race, the people of the normal martial artists only dared to curse in their hearts. Before this chaos broke out, they didn't dare to make a move. As for the people of Thunder Clan, the Seven Scions of Thunder Clan, they were very silent after arriving here.

In fact, the Thunder Clan seemed to be attached to the demons. Even at this time, they were probably following the lead of the demons.

However, they must have their own thoughts.

Everyone was looking at Long Chen, waiting for his decision.

"Don't worry, uncles. My father and uncle Lei aren't here yet, so it won't be urgent if we wait for them to come over. After all, they are the leaders of the two clans, right? For such a huge matter like the Sevenstar Monarch, only the Patriarch can decide!" Sanxue was very smart. She knew that the decision to go to the patriarchs of the two clans was the right one. Whether it was the eight Elders or the seven sons of the Thunder Clan, there was nothing left to say.

Amongst the elders of the eight great sects, the old man's face darkened, and continued: "Patriarch, you have to take care of everything, this kind of thing, we will do it on behalf of the clan. In order to prevent any problems that might arise, and cause some innocent casualties, Long Chen, the inheritance of the Sevenstar Monarch, you should hand it over to us, the elders, as soon as possible."

Everyone understood that Long Chen was the savior of Bai Lan's daughter, and he had to continue to save his. Once Bai Lan arrived, he would probably be done in, but Bai Lan had always been unfathomable.

Pure Snow froze for a moment, and revealed an enraged expression. Just as she was about to continue, Long Chen stopped her because he already felt that Bai Lan and Lei Ji were actually already nearby.

Looking at their expressions, Long Chen knew that they would have no worries today. Bai Lan had completely let Long Chen cultivate in the air these past few days, so he had probably known this would happen since long ago. However, they were currently watching the fun from the sidelines, and did not seem to have any intention of coming over immediately. At this moment, these two fellows were pointing at the people in the field, discussing something and occasionally letting out vulgar smiles.

Long Chen found out that even though they were nearby, they were not discovered by anyone. It could be seen how powerful the methods of the Heaven Martial Stage were.

At this time, the eight great elders were waiting for Long Chen's answer. Their eyes were filled with threat, and the general meaning was very obvious, if Long Chen was not willing to hand over the Sevenstar Monarch's inheritance, they would take it and keep it for him.

Long Chen looked at them coldly, and waited for everyone to get impatient before he slowly said: "Who said I have obtained the inheritance of the Sevenstar Monarch, do you know what happened just now? It seems that there is a fellow who wants to kill me while handing over Chen Yang, but was killed by me instead. Some people try to play some tricks before they die.

Long Chen immediately went back on his words. They didn't have any evidence anyway, so who could explain themselves clearly?

Chapter 772 - Unforgiving

However, the eight elders of the eight great sects present were not so easily fooled, especially Situ Yao, who knew the complete truth. When the old man who spoke previously saw that Long Chen actually went back on his words, the eight elders of the sect looked at each other and made their decision. Without further ado, they could only rob him forcefully, if Bai Lan appeared later, who knew what would happen?

Therefore, the eight of them looked at each other, and started to take action one by one. They surrounded Long Chen directly, not caring about the fact that Sanxue and Su Yan were still beside them. The eight of them moved from eight directions, and each one of them were at the ninth stage of the Earth Martial Stage.

The only one that they could only deal with was Su Xue. However, they didn't dare to do anything to her.

"Attack!" The eight martial artists instantly moved at a speed so fast that it was practically an eye-opener for everyone. Especially those ordinary martial artists, they were even prepared to get a piece of the cake. Now it seemed that there was no hope left.

They did not expect these little fellows to be so shameless. At this moment, they were so angry that their faces were flushed red.

"Big brother, be careful!" Su Yan reminded Long Chen.

She didn't know that with Long Chen's strength, he could even kill someone at the eighth level of the Earth Martial Stage.

However, Long Chen was not anxious at all, because he saw that Bai Lan and Lei Ji finally could not endure it any longer. When the eight elders made their move, Bai Lan and Lei Ji's figures had suddenly appeared in front of Long Chen, and with a light wave of Bai Lan's hand, an invisible wave of light spread out in all directions. This invisible wave of light directly blew the eight elders away, and they staggered on the ground for a while, almost falling down.

Their faces were filled with shock, and when they looked over, it was indeed Bai Lan.

Bai Lan did not seem to give them any face. After all, they were working hard for the Demon race, so it was fine that Bai Lan did not help them, but why did he make a move to stop them?

At this time, the eight elders had gathered and they coldly looked at Bai Lan and Lei Ji who had indifferent smiles on their faces, feeling somewhat angry in their hearts. One of the clan elders took a few steps forward, and under the puzzled gazes of the other disciples, he directly asked Bai Lan: "What did it mean to be the Clan Leader just now? Our clan elders only wanted to increase the power of one of the Seven Monarchs by passing down another legacy to the demons. Why is the clan leader actually making a move against us? "

Just as he finished speaking, the powerhouses of the other demons started to discuss with each other. They too wished that the demons could obtain a share of the Sevenstar Monarch's inheritance.

Situ Yu was hiding within the crowd of demons. He was originally waiting for good news from Situ Yao, but he never thought that such a huge thing would happen. By the time he arrived, Situ Yao had already returned to his original attire and was standing together with the other clan elders.

Situ Yu thought for a long time, and only after hearing what Long Chen had to say, did he finally understand what exactly had happened. It was definitely when Long Chen was cultivating, that Suxue had actually accompanied him by his side, and then, his grandfather's plan had failed. Isn't this too exaggerated?

Previously, Situ Yu had thought that Chen Xu would be able to kill him, but he didn't expect Chen Xu to be dead, and then let Chen Yang take action. Chen Yang was at the eighth level of the Earth Martial Stage, the same level as him, Situ Yu.

"This Long Chen is actually so abnormal? If he is able to kill Chen Yang, he might even be able to tie with me, but I am only a tiny bit away from the ninth stage of the Earth Martial Stage.

At this time, everyone was looking at Bai Lan with puzzled eyes.

Another clan elder said, "Patriarch, could it be that because this boy is Princess Yan Er's savior, the Patriarch is going to protect him? The inheritance of the Sevenstar Monarch and the life of a mere daughter must be well aware of who is the most important Clan Chief. If we were to lose our Elder because of 'private matters', I'm afraid we won't be able to convince you! "

This person's words were extremely sharp, causing a lot of people to resonate with him. The devil race had risen up because of the Demon God Emperor's inheritance, and the inheritance of the Sevenstar Monarch had allowed the devil race's strength to reach an unprecedented level. If Bai Lan were to give up the Sevenstar Monarch's inheritance because of his daughter, others would definitely have an opinion on him.

This sentence caused Su Yan to be so angry that she wanted to cry. It was her first time discovering that these uncles who normally treated her very well, were actually so detestable now. They wanted to use his life in exchange for some Sevenstar Monarch's inheritance.

"Bastard!" She was just about to argue her point, Long Chen told her not to speak, he knew that Bai Lan would have a way to resolve this, because although the other party was aggressive, Bai Lan still maintained a faint smile on his face.

Everything was probably within his control.

It was only then that he remembered that Bai Lan was a warrior at the second level of Heaven Martial Stage, and possibly even the most powerful warrior in the entire Realm of Myriad Kingdoms.

It was only then that everyone remembered that Bai Lan's dotting gaze was famous, and he looked young, but was already a few hundred years old. All these years, he had immersed himself in the martial way, and only after he had married twenty years ago and given birth to two daughters, did he treat his two daughters very nicely, and even the place that his two daughters occupied in his heart was even more important than the entire Demon race.

And the eight elders, were actually willing to sacrifice his daughter because of the Sevenstar Monarch?

However, he could not do so. After all, he was still the Clan Leader of the Demon Clan, and was informing all the races which had multiplied from generation to generation.

Therefore, when everyone was trying to force Long Chen, Bai Lan started laughing loudly. He stretched out his hand, pulled Long Chen to his side and after looking around him once more, he said mysteriously: "Are you all joking with me? Don't you know that the inheritance of the Sevenstar Monarch is ours? "

Bai Lan's words made everyone confused.

"I wonder what Clan Leader means?" The few elders asked doubtfully.

"You guys are really a bunch of stupid pigs. You don't even understand such a simple question?" In the midst of everyone's stupefied gazes, Bai Lan allowed their hands to be held together as he said, "Alright, taking advantage of today's many people, I will announce this matter. From today onwards, Long Chen will be my son-in-law. This Long Chen is a member of my Bai Family, and also a member of the demon race. The Sevenstar Monarch's inheritance now recognizes him as its master, so tell me, isn't this equivalent to being the inheritance of the Sevenstar Monarch?"

Bai Lan's words stunned everyone present.

Under Bai Lan's powerful strength, Long Chen basically did not resist at all and tightly gripped with Susu's soft fingers. Soo Xue could feel that she also had the intention to struggle, but Bai Lan did not allow them to struggle. Just as the two were still at a loss, Bai Lan's gentle voice sounded by their ears.

"Don't move, this is the only way to not kill anyone. For the time being, I don't want any internal strife between the demon race and the demon race. You guys can just pretend to sacrifice yourselves."

Since it was an act, Long Chen did not mind it too much. He could only cultivate the seven star body within the city and had to stay here to let Su Yan live for a hundred days.

Long Chen did not want to make it difficult for Bai Lan either. After all, he was the leader of the clan and everything had to be done in the interest of the demon race.

Su Xue also understood what Bai Lan meant, but he was arranged to be together with an unfamiliar man just like that. Not only that, but under the gazes of so many people, Su Xue's heart rate sped up, and a redness appeared on his face.

The only one whose heart was broken was this little girl, Su Yan. In front of her, she saw Long Chen and Sanxue being pulled together by her father, and immediately, she felt as if the whole world was collapsing.

"Big brother and big sister!"

Seeing them together, Su Yan suddenly felt like crying. She didn't know why, but she felt very sad.

However, no one paid any attention to her.

"Clan leader, you ..." The clan elders were rendered speechless by Bai Lan.

Indeed, they kept saying that they were thinking for the sake of the demon race, so Bai Lan was very straightforward now and directly made Long Chen the son-in-law of the demon race. This was similar to a woman becoming a wife, even Long Chen became a member of the Bai Family.

In reality, everyone knew that the most precious '3000 Star Regions' had already accepted Long Chen as their master. Unless they killed Long Chen, they simply could not change the owner of the '3000 Star Regions'.

Moreover, there was a very important question. If the '3000 star fields' were to change owners, then who would be the one to take over these 3000 star fields? Amongst the eight Elders, no one was willing to submit to anyone.

Therefore, it could be said that Bai Lan's move directly suppressed the words of the eight elders.

"What is it? My Bai Lan's daughter, you can disregard her life. My Bai Lan's son-in-law, you want to kill him, too, but let me ask you this: Does the Demon race need the Sevenstar Monarch's inheritance, or does one of you covet it? Do you really think that I, Bai Lan, is a soft persimmon that anyone can pinch as they please? "

After making sense of the situation, he would naturally not show mercy and let everyone teach him a lesson!

Chapter 773 - Situ Yu's dirty tricks

Bai Lan was an expert of the Heaven Martial Stage, and now he had already occupied the right place. What was going to happen next was for everyone to have a tragedy. Long Chen suddenly felt that Bai Lan's body had suddenly erupted with an extremely strong and abnormal imposing aura, and a domain type energy similar to that of the Devouring Blood Realm was acting on this space, causing all of the demon race members to be completely enveloped by this "domain".

Long Chen was dumbstruck. This was the territory of the Heaven Martial Stage, and within this "domain," Long Chen felt that this Bai Lan was simply a divine existence. Although this "domain" did not affect his body, from the pale complexions of the others, he could tell just how terrifying this "domain" was.

At this moment, all of their expressions were extremely ugly. Under the effect of Bai Lan's 'Domain', they were all frantically circulating the ninth stage of Earth Martial Stage's true essence, but they lifelessly discovered that even with their combined strength, they were actually unable to resist such power. They all retreated, staggered, and in the end, spat out a mouthful of fresh blood!

The eight elders looked at each other, revealing expressions of shock!

They did not expect Bai Lan to be strong to this extent!

It had been a long time since they had seen Bai Lan make a move, they had already gradually forgotten how strong he was. It was only then that they understood that even though they were just a little bit away from Heaven Martial Stage, Bai Lan was still able to easily kill all nine of them. This was the difference between Heaven Martial Stage and Earth Martial Stage.

The Earth Martial Stage only comprehended the very bottom of the 'Martial Arts', but the Heaven Martial Stage had already reached an even higher level.

A level that the Earth Martial Stage could not comprehend at all.

After casually injuring the eight elders, all of the devil race members sucked in a breath of cold air when they saw this scene, and blankly looked at Bai Lan who was in the middle of the group. At this time, Bai Lan's ice-cold eyes swept across all of them, and his ice-cold voice resounded in everyone's ears: "Remember this, the Clan Leader of the Demon race is me, the one who decides is in my hands. I, Bai Lan, have worked hard for the Demon race in my entire life, and my contributions to the Demon race are more than ten times more than all of you combined! From today onwards, whoever dares to touch

Long Chen, no matter where you go, I can take your life. No matter if you are at the first or ninth stage of the Earth Martial Stage, you will still be killed by me. "

Bai Lan's words caused everyone to shrink back a few steps.

This fellow usually looked kind, but when he truly went berserk, he was actually this scary. No one dared to threaten the authority behind the words he had just said, so if anyone dared to touch Long Chen, then he would really attack, regardless of whether you were an ordinary person or one of the eight elders of the Demon or not.

After he finished speaking, Bai Lan withdrew his 'Domain '. At this moment, everyone had relaxed as they panted heavily. Just a moment ago, it was as if a mountain peak had been pressed down on top of each of them.

Right now, the eyes she was looking at Bai Lan with were already filled with terror.

Long Chen was also a little speechless, he did not expect that once Bai Lan did not go berserk, it would be fine, but once he went berserk, it would truly scare people to death.

She did not dare to look at Long Chen, and could only glare at her father in anger. Suddenly, she noticed that Su Yan's complexion was not good, so she immediately hugged Su Yan, and asked softly: "Yan Er, what's wrong?"

"Big sister, is big brother going to become my brother-in-law?" Su Yan asked somewhat sluggishly.

Seeing her own sister's eyes crumble, Sanxue was shocked. She hurriedly said in a soft voice, "Yan Er, don't think too much, this is father's plan to protect your big brother. I have only just met Long Chen, how is that possible? Don't think too much!"

"Is that so?" Su Yan shook his head and said, "But I see that you seem to like it ..."

"Bullshit, that's impossible. "It's an emergency right now. I'll explain it to you when I get back, okay?" Pure Snow anxiously said.

"Yes." Su Yan nodded. She looked at Long Chen and pursed her lips. It was unknown what she was thinking.

At this time, Bai Lan's gaze landed on one of the clan elders; the one who had previously said he would sacrifice Su Yan.

"Huang Zhong, what do you think of what I said?"

Huang Zhong was shocked. He took a deep breath before looking at Long Chen and Suixue, and said: "Huang Zhong doesn't have anything else to say, but we are all waiting for Long Chen's and Princess Suanxue's wedding wine. Hopefully, Patriarch will not disappoint us.

There was a hidden meaning within Huang Zhong's words. Long Chen and Sanxue's matter was too sudden, so they needed to see the truth, and that was marriage.

Bai Lan started laughing out loud. He was unbridled, and then he looked at the rest of the people, and asked: "Anyone of you have any objections, just stand out and say it. Is there anyone who is dissatisfied with me, Bai Lan? "

Whether it was the ordinary martial artists, demons, or the Thunder Clan, they were all completely silent.

However, just as Bai Lan was about to bring Long Chen away, a voice suddenly sounded from within the crowd of demons.

"I refuse to accept this!"

Situ Yao's expression changed, he could hear that the voice was actually Situ Yu's.

Sure enough, under everyone's strange gazes, Situ Yu walked out from the crowd with his eyes red. His entire body was releasing an evil aura, walking in front of the crowd and boldly looking at Bai Lan.

"Oh, little guy, what can you not accept?" Situ Yu's actions caused Bai Lan to feel a little curious. At the same time, Long Chen was also very curious how this guy had so much guts.

In actuality, Situ Yu's heart had already been tormented to the extreme. Even Situ Yao didn't dare to speak in front of Bai Lan, but he was still unconvinced.

However, he was not an idiot. After following Situ Yao for so many years, he still had a lot of schemes, and right now, he had some ideas that allowed him to take a risk.

Therefore, when Situ Yu raised his head, he looked at Long Chen with provocative eyes and said: "The Princess Suanxue is the ninth stage of the Earth Martial Stage, and is the most outstanding young disciple of our Demon race. Only the most outstanding man among the demons is worthy of her, and not a mere sixth stage Earth Martial Stage of soft leg shrimp! I remember that the Patriarch once told me that when I reached the ninth level of the Earth Martial Stage, he would betroth Princess Suanxue to me. Now that he has reneged on his promise, how can I let him marry someone else? "

For Situ Yu to dare to say such words at this time, he truly had the guts to do so.

Long Chen originally thought that he was only a fool, but he didn't think that he actually had such a crazy and bold side as well.

Therefore, he replied with a question: "First, let me answer your question. Long Chen is not trash, everyone knows, he killed Chen Yang who was at the eighth level of the Earth Martial Stage, his true combat strength is far from the sixth level of the Earth Martial Stage. Secondly, have you, Situ Yu, reached the ninth stage of the Earth Martial Stage? "

After the first sentence was said, Bai Lan did not immediately tell him to scram. He really couldn't stand for Suo Xue being married off by Long Chen, so Long Chen snatched the position in his fantasies away from him. He had always wanted to marry Su Xue, the enchanting beauty, and become Bai Lan's son-in-law. He even had the chance to practice the Demon God Emperor's secret scripture, but now that this position had been occupied by Long Chen, how could he be convinced?

Was the unparalleled beauty in his dreams going to moan under Long Chen's crotch?

When he thought about this, Situ Yu's heart almost exploded, so he boldly stood out, exceeded everyone's expectations.

After experiencing the initial nervousness, he quickly entered into a meditative state and answered Bai Lan: "I can answer these two questions. First, who saw with their own eyes that Long Chen actually killed Chen Yang with his true strength? Maybe he had done something shady, so how could such a villain be fit to be the chief's son-in-law? How could he be worthy of having a Princess Suanxue? As for the second problem, I, Situ Yu, have not reached the ninth stage of the Earth Martial Stage yet, so it seems like I won't be too far away.

Bai Lan became silent. Looking at this young man, he laughed helplessly, and thought to himself: "This little guy really has a plan. Not bad, he did indeed receive Situ Yao's inheritance, and he openly provoked Long Chen in front of everyone, questioning Long Chen. I want to establish Long Chen's image, and the only way is for Long Chen to fight with him. This is probably his goal. "

Thinking about that, Bai Lan laughed and asked: "Situ Yu, then according to what you think, what do you think should I do to convince you?"

Situ Yu was waiting for Bai Lan's words, but he didn't know that all of his thoughts were known by Bai Lan.

Therefore, Situ Yu boldly said: "It's simple, since Long Chen has the strength to kill Chen Yang, who is at the eighth level of the Earth Martial Stage, and let him fight with me, if he can win against me, doesn't that mean he is indeed qualified to be the Patriarch's son-in-law? "Amongst the young men of the devil race, I am the strongest, and if Long Chen is able to defeat me, then everyone will be convinced of the strength of the other young men of the devil race."

When Situ Yu established his position on the positions of all the young male disciples, it immediately caused a lot of empathy. Bai Suxue was incomparably beautiful, and amongst the demons, there were few young men who had never had feelings for her.

Thus, everyone started to support Situ Yu.

Situ Yu laughed complacently at his own intelligence.

Chapter 774 - Monthly Challenge

Tonight was definitely his most quick-witted, and also his most mighty time. This was because he could make everyone feel fear from Bai Lan's words.

At this moment, Bai Lan was still smiling as he looked at the young man, not saying a word. After a while, when Situ Yu still felt a bit of goosebumps in his heart, he said: "Who is it that decides whether or not you, Situ Yu, have the qualifications to be my son-in-law?"

Hearing that, Situ Yu regretted.

Of course, Bai Lan could ignore him, but from now on, even if Long Chen married Bai Suxue, there would probably be a lot of people who would despise his strength. This was the difficult part of Bai Lan's problem, because he did not know how strong Long Chen was, so the other party's provocations could only be dealt with by the young man himself.

Long Chen knew that he would let his decide.

Would Long Chen accept's provocations or not?

At this time, Situ Yu mustered up his courage and continued: "If some people do not have confidence in themselves, they can extend the competition's duration by a month, and after a month of hard work, they might actually be able to obtain great benefits."

Some people he was talking about were naturally Long Chen.

Long Chen hated that Situ Yu didn't immediately beat him up. But the problem was that when he was fighting with Chen Yang earlier, using the fusion of the two Great Emperor Prints had already consumed a lot of True Essence. Now that he was fighting with Situ Yu, he would inevitably suffer.

And after a month, Long Chen's seven star body would probably have matured. Therefore, under the gaze of the masses, Long Chen concentrated his gaze and looked at Situ Yu without showing any signs of being inferior, as he said indifferently, "In a month's time, I, Long Chen, will accept your challenge. If you want to challenge me, then just say it. If you bullshit so much, I will only look down on you. "

Situ Yu's face darkened, but luckily, Long Chen was finally fooled. Hearing Long Chen's words, he was already extremely happy in his heart, and he forced out the excitement in his heart, smiling: "So that means you actually agreed to it? But, as expected, you have guts. Then, in a month, let's see how strong you, Long Chen, are, and whether you are qualified to have a Princess Suanxue. If you lose, I think you won't even have the face to marry a Princess Suanxue, right? "

Situ Yu's words were crafty, directly grabbing onto Long Chen's weak point. If Long Chen really lost, under the looks of everyone, he might really be unable to bear the psychological pressure to marry Su Xue. This was Situ Yu's goal. Didn't Bai Lan say that Long Chen was his son-in-law before, so the inheritance of the Sevenstar Monarch was handed to him by the Demons, but if Long Chen was not their son-in-law, then wouldn't he be able to make a move on him?

This move was neither afraid nor ruthless.

Even if it was the eight elders, they couldn't help but admire Situ Yu at this time. This matter could only be done by him, the others were not suitable, after all, none of the others had the strength to fight against Long Chen.

Even Situ Yao was secretly laughing.

Now, everyone was looking at Long Chen to see how he would reply. If he lost a month ago, would he still have the face to marry Bai Suxue?

Long Chen did not have a single emotion. He looked at Situ Yu indifferently, as if Situ Yu was an insignificant matter, and said indifferently: "As you wish, if I were to lose to you, I will not marry Bai Suxue. I'll give you the chance, Situ Yu. "

"Very good, I will give you a quick talk, everyone can hear what you, Long Chen, has to say now." Situ Yu was incomparably excited. Under the witness of the masses, he was already completely safe. In a month, all the glory would belong to him, Situ Yu.

This was an agreement between Long Chen and himself. If Long Chen lost, even if it was Bai Lan, he wouldn't be able to say anything. Even if it was Bai Lan, he wouldn't be able to do anything to Situ Yu.

At this time, seeing that Long Chen actually agreed, and admiring Situ Yu's ability, everyone started to look down on him.

"This Long Chen is too stupid, he was tricked by Situ Yu just like that."

"The Patriarch wanted to protect this Long Chen, but didn't expect this Long Chen to be a fool himself. To actually agree to Situ Yu's words, he is truly a complete idiot."

"You guys just watch. In a month, this Long Chen will definitely lose to the Master. At that time, he will cry."

"That's right, I see that the inheritance of the Sevenstar Monarch might as well be given to the Master. After all, the Master is truly suitable for the inheritance of the Sevenstar Monarch, and only someone with talent and strength that is truly worthy of the Princess Suanxue."

Everyone began to discuss with one another.

Hearing these words, Bai Lan did not care at all. At the same time, he sized Long Chen up and asked with interest: "Are you sure?"

Long Chen said: "I do not have confidence, but other people have already come to bully me, if I do not agree, am I still Long Chen?"

Bai Lan saw a kind of tenacious and undying spirit from this youth's body. He suddenly felt a bit absent-minded, and felt that with this youth's personality, he would definitely do some shocking things in the future. Even Bai Lan, would probably receive rewards for helping Long Chen today.

"That's right." Bai Lan very willingly gave him a word of praise, and after he finished speaking, he said to the rest of them: "That's all for today, go back now."

Under Bai Lan's orders, everyone left one by one. As they left, they talked about what had happened today, and discussed about it the most, which was the decisive battle in one month!

Imperceptibly, everyone was looking forward to the battle one month later. After one month, what would happen?

At that time, how would the inheritance of the Sevenstar Monarch belong to him?

"Hmph, let the inheritance of the Sevenstar Monarch stay in your hands for a while longer." In the hearts of countless people, this was what everyone was mumbling about.

After they had left, only the two great clan leaders, as well as Long Chen and Sanxue Su Yan remained.

Lei Ji had not spoken the entire time. At this moment, he looked at Long Chen and said: "Work hard for the next month, I think that Situ Yu might really be able to break through to the ninth stage of the Earth Martial Stage. If that's the case, it'll be troublesome."

"Yeah, why did you accept this challenge?" Pure Snow said worriedly.

Lei Ji shook his head, and said: "Little girl, you don't understand, but for a man, he has to accept this challenge.

After he finished speaking, Lei Ji did not stay any longer and directly left. After he left, the four of them looked at each other, not knowing what to say.

Bai Lan suddenly laughed, and said: "Alright, stop being so boring. I was just casually talking about getting married, whether or not you guys want to marry me is your own business. "You guys continue chatting, I'm leaving."

However, halfway through, he suddenly turned his head around and said: "You can be at ease when you're going up there cultivating. I'll let you watch over everything. You only need to focus on cultivation and finish refining the seven star body as soon as possible. Understood?"

"Understood, thank you, Patriarch." Long Chen's eyes revealed an expression of gratitude. Honestly speaking, this Bai Lan was very good to him. Furthermore, Long Chen liked Bai Lan's personality very much. Long Chen had always had a grudge against people who repay him for his kindness. This Bai Lan was good to him right now, he would definitely repay him in the future.

Only then did Bai Lan finally leave, leaving behind Long Chen and the two sisters. Beneath the dark night and the high winds, the three of them felt a little awkward.

After saying that, she quickened her steps and ran to her own courtyard.

Only then did Long Chen feel that Su Yan was a little sad. He looked at Suixue and she stared at him, saying, "I've told you this a long time ago, to let you keep the distance between me and my sister. Now that she's sad, you can decide for yourself.

After she finished speaking, she also left, leaving Long Chen here alone.

Long Chen suddenly felt that women were indeed troublesome to deal with. He still wanted to study the Seven Glorious Starry Spell more, but it seemed that he had to finish off Su Yan this little girl now.

After walking into the hut, Long Chen lightly knocked on the door and asked: "Yan Er, can you open the door?"

After a while, Su Yan whose eyes were a little red and swollen finally opened the door, not daring to look into Long Chen's eyes.

Long Chen sighed, he could not bear to hurt this little girl, and anything that happened could not be forced. If Long Chen did not explain it to her clearly, it would only make her sad for a long time.

"Big brother, what are you doing?" Su Yan asked in a daze. Long Chen had barged into her room just like that.

But, he is the elder sister's

"Big Brother, you should go out." Thinking about it, Su Yan immediately said.

Looking at the little girl's nervous expression, Long Chen laughed helplessly, and said: "Don't be nervous, sit properly. I'll tell you a story, do you want to hear it?"

Su Yan was stunned for a moment, then hurriedly nodded like a chick pecking rice grains, and said: "Alright."

Long Chen pursed his lips. After pondering for a while, he finally managed to tell his everything about himself and Ling Xi, little by little, as if it was just a memory. Long Chen didn't know why he suddenly said it out loud, but it was actually to a little girl that he actually said it, and it was basically because during the process, he had a very carefree feeling.

As for Su Yan, the little girl, she was already sobbing silently.

Chapter 775 - Myriad Demons Spear

Following closely behind Situ Yao, Situ Yu walked into the center of Situ Yao's residence. Along the way, Situ Yao didn't say anything, so Situ Yu was a little nervous. Although he was very proud of what he had done today, he didn't know what the older generation would think.

At this time, Situ Yao finally turned his head to look at him. In Situ Yao's eyes, Situ Yu saw a trace of praise, and he relaxed a little. He knew that Situ Yao was quite satisfied with his performance tonight.

"Unfortunately, I didn't know that Susu Xue actually followed Long Chen up, and the Broken Armor Arrow didn't take Long Chen's life either, which caused him to have the Sevenstar Monarch's inheritance. Now, everyone knows, we want to obtain the Sevenstar Monarch's inheritance, it is truly difficult, but it is even more difficult."

Situ Yu was also depressed because of this matter. Although he managed to salvage the last bit of opportunity he had, it was truly too difficult to rely on this chance to obtain the inheritance of the Sevenstar Monarch.

"Grandfather, do you think there's any possibility? If I defeat or even kill Long Chen after a month, the Patriarch will bestow his Sevenstar Monarch's inheritance to me. After all, all of the elders of the eight great sects want this inheritance, so no one can subdue anyone. Situ Yu tried to guess.

"That's a good idea, but if you want to accomplish it, you need to deal with a lot of unexpected things, and the Patriarch won't let you kill Long Chen as you wish, but that Long Chen was clearly an impulsive person, and might even be able to kill him that day. Your performance tonight was extremely good, and exceeded my expectations, but you have to guarantee that you will be able to kill Long Chen as fast as possible in a month's time." Situ Yao said with a deep look in his eyes.

Situ Yu laughed and said, "Don't worry Grandfather, I have recently come to the edge of the ninth stage of the Earth Martial Stage. If you help me a little during this period of time, I can definitely reach the ninth stage of the Earth Martial Stage a month ago and obtain the same realm as Grandfather!"

To be able to reach the ninth stage of the Earth Martial Stage at such a young age, he could already be considered an absolute genius. If Situ Yu were to continue cultivating like this, it was possible for the Situ Family to have an expert from the Heaven Martial Stage within ten years, and even reach the level of a Clan Chief at the second stage of the Heaven Martial Stage in his lifetime!

"Are you sure that you can reach the ninth stage of the Earth Martial Stage in one month?" Situ Yao asked in surprise.

Long Chen is at the sixth stage of the Earth Martial Stage. Although I don't know what kind of strange method he use to actually be able to kill Chen Yang, I am already much stronger than him right now, not to mention that I will be at the ninth stage of the Earth Martial Stage in a month's time. At that time, I reckoned that I would be able to kill him in one move. Situ Yu said as he looked at Situ Yao with anticipation.

"You mean, you want the Myriad Devil Spear?" Situ Yao smiled and said.

"The Ten Thousand Devil Spear is the strongest weapon in my Situ Clan, the only primary weapon of the imperial clan. With the Ten Thousand Devil Spear in my hand, I can definitely kill Long Chen the moment I attack. The Myriad Manifestation Demon Spear has become hundreds of millions of bodies, which is something that little Long Chen can resist. " Situ Yu said complacently, at the same time he looked at Situ Yao with anticipation.

"Long Chen is only at the sixth stage of the Earth Martial Stage, and his true essence is causing him to be far from being able to use the 'Three Thousand Star Domain'. If the 'Three Thousand Star Region' were to act out, I naturally wouldn't let you take the Ten Thousand Devil Spear, which is not something that can compare to this Legendary Weapon. But since Long Chen can't use the 'Three Thousand Star Domain', then take this Ten Thousand Devil Spear."

"Thank you, Grandfather!" This grandson will definitely work hard, kill Long Chen, and snatch the 'Three Thousand Star Region' for grandfather to use! " Situ Yu said with incomparable excitement.

The grandfather and grandson duo looked at each other and laughed. Their laughter was filled with unbridled madness.

"Grandfather, since it's like this, then we won't waste anymore time. I'll go cultivate and try my best to reach the ninth stage of the Earth Martial Stage in the shortest amount of time. I'll then give everyone a pleasant surprise!"

In one night, Long Chen told Su Yan everything he knew, and that telling Su Yan that this was not his goal was actually just to find someone to talk to. In one night's time, he had already resolved all the worries in his heart, and at this time, Su Yan had also understood Long Chen as a person. It couldn't be denied that she felt that she had a good impression of Long Chen, but his good impression of Long Chen was insignificant in regards to their previous relationship.

So tiny that even Su Yan herself could only hide it deep within her heart, and didn't dare to take it out again.

She had already shed a lot of tears, but she still couldn't help but go comfort Long Chen, and said: "Big brother, you don't have to worry. With your abilities, you will definitely be able to find Big Sister Ling Xi.

Long Chen laughed helplessly, he did not know why he would tell a little girl this, so he said: "Yan Er, I have only told you about this matter, you cannot tell others, just let them laugh at me."

"Of course not, this is a secret between us, hehe" Su Yan snorted, and said a little happily. To her, Long Chen had only told her but not her elder sister. To her, this was already enough.

"The reason why I told you all of this is because I don't want to make you sad. If I was still alive, one day, I would have left you, this place." Long Chen said to her clearly.

He did not want the little girl to miss him for too long one day when he suddenly disappeared.

"Mm. Alright." Su Yan nodded her head obediently and said.

Su Yan was already very satisfied with Su Yan being able to understand so. After explaining everything to her, seeing that Long Chen and Sanxue had understood everything, the little girl would probably not feel sad anymore.

Actually Long Chen didn't know, that at this moment, she was feeling even more sad, it was just that she didn't explain it clearly.

Yan Er, I still need to duel with Situ Yu in a month, I will be going to cultivate. In a few days, I will be feeding you blood and drinking it, haha. "

"Brother, are you sure you won't leave me within a hundred days?" Su Yan asked nervously.

"That's for sure, because that's my promise. I think that Situ Yu, that brat, wants to kill me, so even if it's for you, I can't die in his hands."

"Really?" Su Yan laughed happily again.

After chatting for a while longer, Long Chen finally left the place. At this time, the sky was completely bright, and the things that happened last night quickly circulated in the entire Greenwood Sky City. Along with the arrival of the many warriors, this news gradually spread throughout the entire Archaic Graveyard, and it was estimated that in a few days, all of the experts in the Archaic Graveyard would know that this youth called Long Chen had obtained the inheritance of the Sevenstar Monarch, and then become the son-in-law of the Clan Leader of the Demon Clan, Bai Lan.

At that time, Bai Lan would probably be envied and hated by the other Patriarchs. After all, getting the inheritance of the Sevenstar Monarch so easily was something that anyone would be envious of.

During the day, the sun would appear and the light of the stars and moon would be suppressed. Long Chen also could not absorb astral qi s to cultivate the seven star body, but during this time, he would be able to consolidate his knowledge on seven star body and other astral qi s.

In the following month, the seven star body and the Monolith of the War God were Long Chen's main attacking directions. The most perfect state was that not only had Long Chen completely mastered the seven star body, but he was also able to comprehend the Monolith of the War God and reach the seventh stage of the Earth Martial Stage. That way, no matter what methods Situ Yu used, Long Chen would be able to defeat him.

As he progressed seriously, the night gradually arrived and the stars filled the sky as they once again appeared, scattering all over the green colored land. Long Chen took the opportunity to arrive at the top of the ancient tree at this time, and this time, he did not need Pure Snow to accompany him, because Long Chen knew, that Bai Lan was already protecting him in the shadows. Bai Lan was the strongest warrior in the Archaic Graveyard, and with his protection, Long Chen could have no worries at all.

This Bai Lan was indeed good to him.

This kindness, Long Chen firmly remembered it in his heart.

Sitting on a leaf at the peak, Long Chen silently started to circulate the Seven Glorious Star Incantation. Very quickly, starlight filled the air, completely enveloping his body within the starlight.

"The astral qi's destructive aura is much scarier than the gold eating qi, and what I want to do is to absorb the astral qi into my body, let it hone its own body, and transform the astral qi into its own strength, allowing its own body to obtain absolute strength, thus forming the seven star body. This seven star body is a middle level Emperor level battle skill, it is extremely powerful!"

However, the more powerful the battle skill, the more difficult it would be to cultivate in it, and the more powerful the battle skill, the more powerful the battle skill, the more difficult it would be to cultivate in it.

Advancing forward bravely was the true reason!

Therefore, Long Chen was not afraid in his heart!

With Long Chen's body, how could he withstand the astral qi?

He would have to rely on the Seven Glorious Stars for this. The Seven Glorious Starry Spell, the Seven Glorious Starlight that Long Chen had cultivated earlier, was not completely useless. Using this Seven Glorious Starry Spell, Long Chen was able to activate the astral qi in the middle of the starry sky.

Chapter 776 - astral qi

In this space, no one would be able to get close to Long Chen. After all, the astral qi were simply too terrifying.

As for Long Chen, his entire person was bathed in the astral qi. Although the astral qi was terrifying, Long Chen was familiar with the Seven Glorious Star Art's method of controlling the astral qi, which could allow it to enter his body bit by bit.

And the most important thing was the blue stone that Long Chen had obtained from the Starry Sky Ancient Tomb. It looked similar to a heart stone, and at that moment, Long Chen had taken it out from the Great Void Realm.

"This thing is a stellar nucleus from a giant meteor. stellar nucleus is the root of every star, and my seven star body, if it wasn't for the stellar nucleus entering my body, I would never be able to cultivate it. This stellar nucleus is the real key. And the first thing I need to do is to fuse the stellar nucleus into my own heart. "

In Long Chen's hands, the blue galaxy was currently floating. This stellar nucleus was actually the heart of the entire planet. Long Chen had fused it into his body, and at this moment, it had fused with his heart, turning his body into a small planet. Using the power of the stars to contain and the astral qi s to forge himself, Long Chen used this river of stars to further control the astral qi.

Accurate control of the astral qi s was the key to whether Long Chen could use them to refine his body!

At this moment, the Seven Glorious Star Quintessential Essence gushed out of his palm like a stream of water, enveloping the blue stellar nucleus. The blue stellar nucleus swam about on the Quintessential Essence, and rays of deep blue light emitted from the runes on the surface of the stellar nucleus.

Under the contrast of the light released by the Runes, Long Chen's face started to shine with a blue light.

"It should be fine." The Seven Glorious Star Quintessential Essence was from Long Chen's body, so Long Chen could take it back anytime he wanted. At this time, the blue stellar nucleus began to melt within Long Chen's Seven Glorious Star Quintessential Essence and quickly melted into Long Chen's Seven Glorious Star Quintessential Essence. Only the deep blue symbols remained, and when they surged within Long Chen's Quintessential Essence, it was like a small boat in the ocean.

"It's time." Long Chen calmed his mind, and then slowly moved the Seven Glorious Star Innate True Origin towards his heart. When it touched his heart, the True Essence actually turned into something like liquid, and gradually fused with Long Chen's body.

Long Chen instantly felt a scorching energy fuse into his body. After the blue power fused into his body, it quickly surged towards Long Chen's heart. Very quickly, the blue power completely surrounded Long Chen's heart.

"Is the stellar nucleus starting to fuse with the heart?" Long Chen waited in anticipation. What he saw was that the symbols on the stellar nucleus had already attached themselves to Long Chen's heart, and the blue energy followed the symbols and gradually fused with Long Chen's heart, becoming one with it. As time passed, Long Chen's heart gradually turned blue, making his heart look like the stone it used to be.

Long Chen felt a strong power surge into his body. This was a scorching and boundless power, similar to the power of the stars that Long Chen understood.

In reality, under the corrosion of the Primordial Blood Dragon's bloodline, even the bones in Long Chen's body had completely turned blood-red. At this moment, only his heart was turning blue, as if it was the brightest star in the night sky.

The fusion of the stellar nucleus and Long Chen's heart made Long Chen feel as if he already had the power to control the stars. The millions of stars in the sky above his head, however, was incomparably clear in his heart. Long Chen also felt that he seemed to be one of them.

That stellar nucleus had practically turned him into a human-shaped planet.

"The next step, is to use this stellar nucleus's power to attract the astral qi in the sky down, and from there on, train your body bit by bit.

The fusing of the stellar nucleus would not be dangerous, rather, it was extremely smooth. The deep blue symbols were already attached to Long Chen's heart, providing him with an unending stream of star power.

This power allowed Long Chen to have a slight grasp on the stars in the sky.

At this moment, he was preparing to use it to attract the astral qi, but what he did not expect was that right after he used the stellar nucleus's power, a change had occurred in his body. As his heart beat, the deep red colored blood surged through his entire body, and then, it returned to the center of his heart.

This was a rebellion that belonged to the bloodline!

How powerful was the Primordial Blood Spirit Dragon's bloodline? How could it allow such a small Sevenstar Monarch to pass down its bloodline, and such a small stellar nucleus occupy the most important heart of the bloodline?

As a result, within Long Chen's body, the Primordial Blood Spirit Dragon's bloodline became angry, and the endless blood-colored dragon surged towards the part of his heart at the same time. Long Chen suddenly felt his blood boiling.

Before Long Chen could even react, the blood colored Divine Dragons had all fused into his heart, and countless Dragon Marks instantly appeared on his heart. His originally blue heart, under the coverage of these blood colored Dragon Marks, actually completely changed into a blood red color in a short amount of time.

The mysterious runes originally belonging to the stellar nucleus still existed, but they had been dyed red by the Primordial Blood Spirit Dragon.

Long Chen could feel that the star power that was originally a stellar nucleus still existed. Under the support of the blood red energy, it became even stronger than before, but what made people speechless was that others were unable to see the power of the star from Long Chen's body.

It was as if the Golden Crow's soul had entered Long Chen's body. The originally golden fire of Golden Crow had turned red, and under the Primordial Blood Spirit Dragon's bloodline occupation, there could only be one kind of color left in Long Chen's body, and that was blood. Whether it was the fire of Golden Crow s or the stellar nucleus s, both were eventually covered in blood.

When the changes in his body completely succeeded, Long Chen did not think too much about it. He immediately activated the stellar nucleus's power, and with the Seven Glorious Stars' true essence as the guide, he attracted the astral qi in the sky.

Under the control of the stellar nucleus, Long Chen's perception spread out through the starry sky, reaching all the stars in the distance. The astral qi, on the surface of those planets, was a dark purple gas that surrounded those stars, and this gas had a terrifying destructive power. Like the gold eating qi, it looked like it was made up of countless densely packed, freely moving little blades.

Whether or not he could trigger the astral qi required a very long period of time to be tested, so Long Chen did not succeed in the beginning. The sky was filled with countless stars, and the only thing Long Chen could do was to continuously try.

However, Long Chen's situation was a bit special. That was that his martial spirit was dragon-shaped, not human-shaped, and not just that, his martial spirit and perception were all greatly affected. This also meant that Long Chen's communication with the astral qi was also different from that of an ordinary person.

After around four hours, Long Chen had already lured a few astral qi towards his direction. There were very few of these astral qi, but they had already started moving at a speed much faster than what the Seven Stars Art described. This thread of astral qi was not many, and it was not even enough to surround Long Chen. Long Chen carefully guided it from the endless void to his front of his eyes.

This purple gas, under Long Chen's control, was still constantly changing its shape in front of him, as if this gas possessed intelligence. At this moment, it was constantly twisting, like a bird and beast, and even like a fish and shrimp demon beast in the middle of a large lake in a large river. It changed its appearance a lot, and every one of its appearances was filled with malevolence.

"This Greater Thousand World is really mystical. Even this astral qi seems to have regained its consciousness." Long Chen sighed inwardly.

Actually, there were only two tricks to cultivating the seven star body. Long Chen had already arrived at such a high place, and had successfully merged with the stellar nucleus at the same time. Then, he only needed to do two things to complete the seven star body.

The first was to control and precise control of the astral qi, so that it could temper its muscles, bones, blood vessels and internal organs without harming itself, strengthening every part of its body, and the second was to endure. Those who were able to control the seven star body, were definitely people with astonishing willpower, and could only endure the torture of the astral qi time and time again, forging their own bodies.

In the past, there had actually been many people who had obtained seven star body. Sevenstar Monarch was not the creator of this technique, but many people had suffered too much because of it, resulting in them not succeeding in the end. Even if they succeeded, it took a lot of time to master it.

Long Chen wasn't very confident either.

However, he knew that his willpower was much stronger than others. If he only relied on patience and control, he wouldn't be afraid.

Chapter 777 - Variables

"I can't drag this on for another month. There are only three months in this city, and within these three months, I have to completely make a joke of myself getting what I want. Otherwise, how will I find the God Clan's Young Master and bring the little wolf out?"

There was progress whenever there was pressure.

The little wolf was still in the hands of the God Clan's Young Master. Long Chen wondered what kind of torture it would suffer.

The muscles here were the toughest, and they weren't as fragile as the organs on his body, so he could give it a try first. If one had to know that the seven star body had finally matured, Long Chen would still need to use this astral qi to refine his own brain and heart, so that place was the most dangerous place.

Therefore, the left arm was the safest.

As for why Long Chen did not choose his right hand over his right hand's arm, it was because he still had the Five Emperor Prints on his right hand's palm.

That sinister astral qi approached Long Chen's arm. Before it even got close, it already had a kind of sharp aura, as if countless blades had cut its arm, and a burning sensation immediately emerged from its arm.

Long Chen paused for a bit, then continued to control the astral qi. At the same time, a large amount of Seven Stellar True Essence surged out of his nine great martial cavities, completely wrapping around Long Chen's arm.

Although Long Chen was very bold, he knew that he could not be anxious enough to eat hot tofu. His movements and control were extremely slow, and even though it was slow, if he was able to succeed, his final speed would be much faster than others.

The fastest person in history to cultivate the seven star body took more than forty days, to say nothing of ordinary people, there were even people who could cultivate it in a year or two, and the pressure Long Chen gave himself was actually completed within a month.

Although it was a difficult task, but in order to win against his opponent in a month's time, Long Chen had to do this.

"There's still a month's time, and there's also a lot of variables, yet this Situ Yu is so bold, he might not have no hidden cards in his sleeves, but if Situ Yao wants him to win, he will definitely give him a lot of good things. I can't be careless, and from what he's said, is he about to step into the ninth stage of the Earth Martial Stage?"

Long Chen could not lose this battle.

Therefore, he gritted his teeth tightly.

At this time, that terrifying astral qi gradually approached Long Chen's arm under the encirclement of Long Chen's Seven Glorious Stars. In the last moment, this astral qi was like a wild beast, and directly pounced into Long Chen's arm!

If not for the fusion of Seven Planets true essence, this astral qi would probably have completely crushed Long Chen's arm at this time. At the very first moment, Long Chen felt an intense pain. However, Long Chen did not transform into the Dragon Soul Transformation, this was his body's cultivation. If he used the Dragon Soul Transformation, those dragon scales would appear, and he might not be able to obtain the basic cultivation.

Only by fusing the astral qi and the Seven Stellar Zhen Yuan could Long Chen's body be refined, not damaged. However, the pain that the two of them gave Long Chen was actually the same. He tightly clenched his teeth, preventing himself from crying. At this moment, the astral qi and the Seven Glorious Star Essence had already completely entered his arm, and as if there were countless blades stabbing into Long Chen's arm, the burning pain made Long Chen feel like he was about to use the stellar nucleus to control the astral qi and throw it away.

However, thinking about the decisive battle that would happen in one month, Long Chen clenched his teeth, and did not choose to do it. Although the pain was excruciating, it had not reached the extent where he could not endure it from the start. Long Chen knew that the longer he endured, the greater the progress he would make.

In the midst of this intense pain, Long Chen couldn't leave the astral qi. He had to control the astral qi and let it enter another part of his body. At the same time the astral qi forged Long Chen's body, it fused with Long Chen's body and turned his body into a battle body filled with the sharpness of the astral qi!

When the real seven star body was completed, Long Chen reckoned that her entire body would be covered with astral qi, one could imagine how strong his body would be.

Amongst the inheritances of the Sevenstar Monarch, this weapon was the most famous one, the '3000 Star Regions'. And below the 3000 Star Regions, the most famous one among the Sevenstar Monarch s was the seven star body.

This little bit of astral qi, was only enough for Long Chen to train a tiny bit of his arm, but he had to spend a total of two hours. Long Chen tightly clenched his teeth, and after enduring for an entire hour, the astral qi was finally exhausted, while Long Chen also felt that on that small piece of his left arm, there was actually purple colored astral energy swallowing and exhaling.

It had been a very long time since Long Chen had cultivated the body of a True Martial Devil before he had reached the Earth Martial Stage, so this time, the training had directly raised a small portion of his physical body by an innumerable amount. One could imagine how terrifying the level of his physical body would be if he were to complete the entire set of seven star body.

The worst inheritance of the Sevenstar Monarch, the Big Dipper Steps, was now the trump card of Long Chen.

After the astral qi was exhausted, Long Chen heaved a sigh of relief. When he recalled that feeling just now, he felt a chill down his spine, but he had to admit that the strength of his arms had increased by a lot.

Although the feeling just now was so terrifying that Long Chen couldn't even bear to think about it, in order to continue becoming stronger, Long Chen knew that he couldn't just give up halfway. Once he treated this feeling of pain as a normal pain, and even felt numb, then that would be the time when he would truly succeed.

"I can't relax or think back. I can only continue to face them!"

There was still some time before daybreak. Long Chen clenched his teeth, and continued to use his senses to sense the endless starry sky, to comprehend the existence of astral qi. This time, it was much easier than last time because it was the first time after all. And this time, the astral qi that Long Chen had activated, was at least ten times stronger than last time!

From this, it could be seen just how much determination Long Chen had!

Only at night would he be able to attract astral qi, but these attracted astral qi would not disappear during the day. Long Chen was prepared to spend one day to digest these ten times used astral qi. The process of digestion was to allow these stars to refine his body and then merge with it.

A large ball of purple colored astral energy descended from the sky. Under Long Chen's control, these astral qi began to revolve around Long Chen, and these purple colored astral qi gradually turned into a ball, completely enveloping Long Chen within this purple colored astral energy.

To make such a terrifying attempt on his second try, it could be seen how tenacious Long Chen's temperament was.

In the same place, Bai Lan and Lei Ji stood with their hands behind their back, looking at Long Chen who was currently training. At the start, they were still chatting happily, but when they saw that Long Chen had actually attracted so many astral qi, the two of them were stunned.

"This guy is too crazy, he used two hours worth of time for that little astral qi just now, making it so that it would be too painful to die. I thought he would stop by tonight, but after resting for a while, we can continue again tomorrow, I didn't think that he would actually be so reckless in agitating so many astral qi, does he still think that the astral qi's body is not painful?" Lei Ji said, puzzled.

Bai Lan was also shocked. Just as Long Chen was about to be completely surrounded by the astral qi, he saw the look in Long Chen's eyes. His eyes were calm and persistent, yet there was not a single trace of fear in them.

"Hey, old brother, how much do you think this Long Chen can use this astral qi for?" Lei Ji touched Bai Lan's elbow, and said with interest.

"What do you think?" Bai Lan did not answer, but asked instead.

"I feel like 10% is fine, 10% is the amount he measured just now. Judging from his previous situation, 10% should be his limit. In another hour, he will definitely not be able to hold himself back." Lei Ji said with certainty.

Bai Lan laughed and said: "Since that's the case, I bet that he'll be able to digest it."

Lei Ji was stunned, and said: "You old fogey, you overestimate him, right? No one would be able to do this, even us? That astral qi, even I am extremely afraid of it, let alone that brat. "

Bai Lan said: "I like the short bet, since you want to bet 10%, then I will bet everything, what about it? "Do you have the guts to bet with me?"

Lei Ji laughed, and said: "There is no reason why I would not dare to, with the boundary of half, even if it's more than half, you can win. If it's not even half, then I will win.

Bai Lan had already thought about it, and at this point he said directly: "I am also clear on how much family you have, what I am interested in, are all treasures passed down to your ancestors, and can't be

given to me. Since that is the case, let's bet, whoever loses will yell 'I, Lei Ji, am a big idiot' in the sky above the Verdant Wood Sky City tomorrow. What do you think?"

Lei Ji punched Bai Lan and said angrily: "Motherf * cker, you bastard. You're already so old, are you still playing with this kind of child's thing?"

Bai Lan swayed a few steps, then laughed: "Who said it's little doll's thing? I'm going to ask you, do you dare to do it or not?"

"Do you dare to say that you, Bai Lan, are a big idiot in front of all the demons?" Lei Ji laughed instead.

"Then why not?" Bai Lan said with an indifferent expression.

"In that case, let's bet then. You better prepare well. Tomorrow at noon, tomorrow at noon, this kid should be able to refine half of it."

Chapter 778 - Demons

How could Long Chen have known that there would actually be such a bored old fellow betting on something like this. In his current world, the only thing left was to surround him and tell the spinning astral qi that the tree leaves Long Chen was sitting on had already been shattered by the astral qi. Everything nearby had already been shattered, thus Long Chen could only use his True Essence to hover in midair.

With Bai Lan's protection, Long Chen was not worried that anything would happen to him.

Under the encirclement of the astral qi, Long Chen felt like he was being surrounded by countless blades. Long ago, Long Chen had merged with something called the Thunder Flame Bead, forming a Thunder Flame Battle Body. That feeling was also quite a terrifying one, but compared to the astral energy from the heavenly bodies, the pain from fusing with the Thunder Flame Bead was nothing.

In the past two hours, Long Chen had endured it with all his might.

However, this was his personality. The more difficult something was, the more he wanted to challenge it, even though the pain from before was still fresh in his mind, Long Chen had activated so many astral qi, his goal, was to completely refine all of these astral qi!

In fact, in the next seven to eight days, Long Chen had already decided to stay here and cultivate the seven star body. This kind of willpower was something that no one could ever imagine.

Going against hardships was Long Chen's most tenacious quality.

At this time, Long Chen had completely closed his eyes, not caring about the influence that the astral qi s had on him.

Then, he controlled the astral qi and split them into pieces. Without even thinking, he headed towards his own arm. With the previous experience, although he knew that it would still hurt, Long Chen had a lot of experience!

Very quickly, the astral qi possessed them!

Pain!

Infinite pain!

As if countless knives were slicing his arm, Long Chen could only grit his teeth and at the same time, control even more astral qi to rush into his arm, controlling the movement of the astral qi in his arm, strengthening his skin, flesh, bones and blood vessels.

Under the astral qi's forging, Long Chen's flesh and bones were continuously strengthening. This was already enough for Long Chen, so he stubbornly endured.

"We can only succeed if we endure it!"

Sometimes, he was such a person.

Time slowly passed. Under the constant gritting and perseverance, Long Chen's face was already ghastly pale and his forehead was covered in sweat, but he did not stop his steps. Right now, his arm was filled with entangled purple astral energy, and these astral qi were like ferocious beasts, roaring non-stop from his arm.

Every roar represented the destruction and reconstruction of Long Chen's body.

Time slowly passed, and Long Chen's arm gradually strengthened, an hour quickly passed, and those astral qi had also disappeared by 10%. At this time, the distant Lei Ji was already dumbstruck, and said in shock: "This brat's tenacity, was truly unexpected, the astral qi just now, has probably already made him in extreme pain. This time, not only did he trigger so much astral energy, she has truly refined another 10%. If we finish it, it'll probably be another night. "

"Just watch and see. This boy has given us so many surprises. If he did not have this mentality, how could he have obtained so many things with this weak strength?" Many times, luck is not the key factor. Rather, it is the person who can grasp the opportunity. "

Before, he had always thought that Long Chen was just lucky, but from today on, he had a whole new level of respect for him.

Time continued to pass, and under the astonished gazes of the two, the number of astral qi around Long Chen gradually decreased, becoming fewer and fewer. By the time the day arrived, the number of astral qi was only four fifths left, and by the time noon arrived, it would probably only be one-half of the original number.

At this moment, Bai Lan and Lei Ji's faces were filled with shock. Even Bai Lan had only casually said it before, he did not think that Long Chen would be so abnormal.

But, Long Chen was just that abnormal.

Very soon, under the numb gazes of Bai Lan and Lei Ji, the afternoon had arrived. Lei Ji's expression was currently very conflicted. It could be seen that the current Long Chen only had half of the original astral qi.

"Go ahead, brother, don't be polite with your brother." At this time, the seemingly young Bai Lan burst out laughing as he spoke.

"You just wait and see. There will be a day when I will return today's humiliation to you." Lei Ji said in a flustered manner. As a man, it was difficult to keep up with his words, since he had lost the bet, Lei Ji was naturally willing to accept his loss. As a result, his body quickly disappeared from Bai Lan's sight, and before long, a rumbling sound came from below.

"I, Lei Ji, am a big idiot!"

At first, they were incomparably stunned, thinking that someone was playing a joke on Lei Ji and was insulting him. After hearing it clearly, they realized that it was Lei Ji himself who said the words.

Although they didn't understand why Lei Ji would say that, they still couldn't help but laugh.

Lei Ji lost a lot of face this time, but he was someone who could let go of this issue, and very quickly, he returned to Bai Lan's side. Bai Lan's sneering and petty appearance made Lei Ji flustered and exasperated, but looking at Long Chen, he was still absorbing the astral qi s to forge him.

"Does this kid not know what pain is?" Lei Ji said somewhat speechlessly.

At least I know that whether it's Situ Yu or Xue'er, they won't be able to learn this seven star body no matter how long it takes. Especially Xue'er, she definitely won't be able to endure this kind of inhumane torture, so girls are afraid of pain, and this aspect is indeed quite a bit weaker. "

Lei Ji laughed, and said: "You still dare to say that Xue'er and Yan Er are not all spoiled by you? Their talents are not bad, but their actual combat skills are far weaker than all the other young experts. If you let Xue'er participate in the 'Nine Clan Young Martial Arts Competition' this time, my guess is that the chances of victory is very small, and this battle is extremely dangerous, how would you be willing?"

Bai Lan suddenly smiled mysteriously and said: "Who said I wanted my daughter to participate in this competition? "For the sake of the chance to obtain the Five Emperors' Key, it is not worth it to send my daughter to death. There are other people who would be willing to participate in that battle."

"Who do you think it is? Old ghost, don't keep me in suspense. " Lei Ji asked doubtfully.

"Far in the horizon, so close." Bai Lan said.

Only now did Lei Ji know that the person he was talking about was Long Chen.

"There's about three months more, just enough time for this kid to save my darling Yan Er. With his innate talent and temperament, as well as treasures such as the legacies of Monolith of the War God and Sevenstar Monarch, what kind of level do you think he will grow to after three months?" Bai Lan said.

"Three months? If he can make it through the trial in a month, then it would be considered as his strength. I think that Situ Yu's talent is also very good, and would probably reach the ninth level of the Earth Martial Stage. "

"Everything is unknown." Bai Lan said.

As time passed, their expressions became more and more unnatural. By the time night fell, Long Chen had already completely used up all of the astral qi in the previous group.

At this moment, Long Chen finally recovered from the intense pain. His face was pale, the intense pain had not lessened at all from start to end, and it had become more and more terrifying as time passed, but Long Chen managed to endure it in the end.

Gritting his teeth and persevering, he succeeded.

It could be seen that his right arm was completely different from the rest, at least in terms of weight and density, it was already more than ten times stronger. Compared to his left arm, Long Chen felt that his right arm simply didn't have any strength left at all.

On the skin and flesh of his left arm, although he looked the same as before, it could be seen from the purple coloured Supreme Qi that whether it was on the skin and flesh outside, or the bones and blood vessels inside, his arm had been strengthened to a great extent. Long Chen only needed to refine his entire body using the astral qi s once, and then, move a large number of astral qi s and soak himself in the water for seven days and seven nights before he could finally finish forging the seven star body.

From these steps, it could be seen how difficult the seven star body was.

Bai Lan was right, if it was Suixue, he would not be able to cultivate this seven star body in two years. Even Bai Lan and the others did not think that they could compare to Long Chen in this aspect.

Looking at Long Chen's left arm from afar, Bai Lan and Lei Ji were both a little stunned.

"What a powerful body. This seven star body, it's terrifying after all. I estimate that after cultivating it, it's even more terrifying than your Demon God Emperor's body."

Bai Lan nodded his head, and said: "The cultivation method of the Demon God Emperor's body is not so complicated, so what you said is very possible. Although both of them are middle level Emperor level body tempering techniques, there would still be a gap between them. Seven Monarchs is also one of the strongest in the Seven Monarchs, especially the Divine Weapon '3000 Star Regions'."

"That powerful?" Lei Ji did not know much about the specific strength of the Seven Monarchs.

"That's natural, ah, look at Long Chen, he actually activated the astral qi again!" Seeing Long Chen's actions, Bai Lan was stunned this time. Isn't he too monstrous?

"What?" Lei Ji was also stunned, he looked towards Long Chen, this brat Long Chen was luring the astral qi!

"Oh my god, he just rested for a moment. Is there really such a terrifying person? Was his flesh made of iron? Or is his heart made of iron? "

Bai Lan shook his head, and said: "This brat is a monster, he is really too cruel to himself, those who are ruthless to themselves, are usually the most terrifying."

Chapter 779 - Little Cheng

Amidst Bai Lan and Lei Ji's speechless expressions, Long Chen once again activated the astral qi s that were even more numerous than before. This time, he forged his left arm again, and only then did he start to forge his right hand's arm.

Bai Lan and Lei Ji's eyes were filled with a numb expression. They already felt admiration for this young man.

"If this goes on, he won't rest until he completely refines the seven star body a month ago. Furthermore, during this time, he will definitely take the time to meditate on that Monolith of the War God."

Lei Ji said somewhat speechlessly.

"Just watch and see. One month from now, this kid will give us a pleasant surprise."

Bai Lan said with a smile.

As the days passed, Long Chen's performance had simply exceeded Bai Lan and Lei Ji's expectations. In their eyes, the current Long Chen had already completely become a super monster. They knew exactly how much pain astral qi would cause when he forged his body, but from Long Chen's appearance, it seemed like this pain didn't exist at all.

It was just that after Long Chen had experienced it too much, he was already numb. After almost ten days of forging, the pain was still painful, even to the point of piercing his bones, but it was already a very normal thing for Long Chen. After this session of training in the seven star body, not only did his body become stronger quickly, at the same time, his willpower had become much stronger than before.

After ten days had passed, Long Chen's arms, thighs, and other parts of his body had all been forged once by the astral qi. In the beginning, it was slightly easier to forge his arm, but at the start, it was the same for his thighs as well, since they were all muscles and muscles, but the body parts of his body had five viscera and six organs. These organs were actually extremely weak and Long Chen had to make himself pay full attention to them.

In less than ten days, Long Chen had to go feed Little Miss Su Yan's blood. This time, Long Chen was already prepared, so he was not in a hurry to do so. After he finished, Long Chen immediately returned to the peak of the ancient tree. Because he had completely used up all of his astral qi last night, during this period of time, Long Chen had meditated on the Monolith of the War God, from the sixth stage to the seventh stage of the Earth Martial Stage, it could also be considered a huge leap. After all, every three levels were a large scale, from the sixth stage of the Earth Martial Stage to the seventh stage of the Earth Martial Stage, it was actually a medium to high level evolution.

However, with the Monolith of the War God, as well as the leap that Long Chen had taken during this period of time, combined with his extraordinary Heaven's One Aperture and his Dragon Martial Spirit, Long Chen's comprehension of the seventh stage of the Earth Martial Stage was also extremely fast. There were still more than twenty days left, and if he did not cultivate the seven star body, Long Chen would definitely be able to cultivate to the seventh stage of the Earth Martial Stage.

After all, he was already numb to the pain, so he wanted to successfully cultivate this super strong battle body in one go. Not only would he forget the pain to cultivate, but he would also have tears streaming down his face.

When night fell, Long Chen used the stellar nucleus and activated it once again. After so many forgings, Long Chen's forging speed had already increased a lot, so this time he directly used a huge set of astral qi s. The astral qi whistled as it descended from the sky, like a gigantic space beast, it pounced towards Long Chen!

"Change!" Under Long Chen's control, these astral qi were bound by him and gradually transformed into a huge spinning purple colored balloon. The balloon surrounded Long Chen and the astral qi were like countless small purple blades that had assembled together, shattering the surrounding trees.

Not far away, Bai Lan and Lei Ji had long been full of admiration.

"If he keeps doing this, sooner or later the old tree will be shaved clean." Lei Ji laughed.

"The astral qi is incomparably sharp, and even we don't dare to approach them lightly. With Long Chen's activation of this many astral qi, he should be able to refine all of them within a few days." Bai Lan said as he estimated.

The two of them did not have much to do at the moment, because Long Chen's inheritance was more important and the matter had already spread to the outside world, so they could only stay here and feel at ease.

Otherwise, it was possible for Long Chen to suddenly be killed while he was cultivating.

Previously, wasn't Chen Yang also trying to assassinate him?

In the midst of his endless torture, Long Chen clenched his teeth tightly. Time passed day by day, and after three days, Long Chen's body was completely forged, the only thing that remained was his head, the most precise part of his body, and also the weakest part. If he was not careful in forging, there was a possibility of him dying.

As long as he could finish this step of forging, even if he had reached the small success stage of seven star body, if he wanted to reach the large success stage, then he would need to agitate a huge number of astral qi s to completely envelop himself within them. It would take seven days and seven nights of bathing before Long Chen could finally succeed.

Now, Long Chen was working hard for the Small Success Stage.

At this juncture, Bai Lan and Lei Ji were already prepared. If something were to happen to Long Chen, they would definitely save him the first chance they got.

At the critical moment, Long Chen slowed down his pace. When he saw that the astral qi was running into his brain, Long Chen discovered that he was about to faint from the pain. Luckily, he persevered on, clenching his teeth, finally waking up.

By the time Long Chen had finally gotten used to it, he had actually cultivated for close to ten days and ten nights already. His seven star body, on the other hand, was only half a day away from the day that he needed to feed Su Yan the dragon blood.

Long Chen had already made good use of the time, so there was no need for him to rush. As he headed in Su Yan's direction, Long Chen was also observing her own seven star body at the same time. At this moment, Long Chen felt like he was like a planet, the stellar nucleus was his core. His body was also forged harder by the astral qi than any other planets.

This was not just the toughness of it, the strength of the seven star body manifested itself in many aspects. At this time, Long Chen's entire body was releasing a purple aura, this aura was completely emitted from his body, as though there were countless small blades hovering around his body, full of terrifying madness. Looking from afar, the current Long Chen was like a purple star floating in the sky, this star was filled with an endless explosive power!

Of course, Long Chen could also take away the purple qi and change his body into its original form. This could also be considered a form of camouflage, but if one looked carefully, they would be able to see that there were some purple dots on his skin.

Seeing that Long Chen had already reached the Small Success Stage in the seven star body, Bai Lan and Lei Ji were already speechless. They walked to Long Chen's side.

Actually, Long Chen had already discovered them on the first night. He had Spirit Devouring Demon Pupils, so long as it was a creature not too far away, they would not be able to escape his eyes. He knew that Bai Lan and Lei Ji were here to protect him, but Long Chen had never met them.

"Kid, use your combat body to give me a punch and let me see what kind of advantage the Initial Stage seven star body has over my Thunder Clan's Initial Level body tempering technique and Heavenly Thunder Combat Body!"

"Alright!" This Lei Ji was a straightforward person, Long Chen actually quite liked his personality. Thus, after he said the word "good", his body flashed, and instantly rushed to Lei Ji's front. At this moment, the muscles on Lei Ji's body tensed up, and suddenly, blue tears began to flash on his body, entangling his entire body.

Because of the tense state of his body, the dense lightning did not use any of the power of the Heaven Martial Stage. Lei Ji only used his body to block one of Long Chen's punches.

Long Chen clenched his teeth, he roared and punched out, and immediately, the purple Qi exploded out from his fist, taking the form of a space beast, and instantly pummeled Lei Ji's body!

Pow!

Lei Ji flew out.

Long Chen was also sent flying at the same time, he felt as if he had hit an iron wall, his fists were red and swollen, his arms were numb and he trembled slightly.

He immediately looked in Lei Ji's direction. At this moment, Lei Ji had retreated quite a distance in a sorry state, and with a rumble, he crashed into a huge tree branch, deeply burrowing inside. The lightning glow on his body immediately caused the tree branch to become charred yellow.

At this moment, Long Chen could clearly see that on Lei Ji's chest, at the place where Long Chen's fist landed on, smoke was curling up.

Seeing this, Long Chen was completely confident in himself. This was only an initial stage seven star body, but to a certain extent, it was already superior to the Heavenly Thunder Combat Body. Previously, when Long Chen made his move, he was not prepared, so Lei Ji suffered a loss.

What Long Chen feared the most was that even though he had punched until his fists were bleeding profusely, Lei Ji was fine. Looking at it now, it did not seem to be the case, the strength of his seven star body had still surpassed their expectations.

Chapter 780 - Shell

"Not bad, not bad!" When Bai Lan saw his good brother in such a sorry state, he immediately laughed out loud. At this time, Lei Ji walked over with a face full of misfortune, and said helplessly: "It's only at the initial stage, and it's already even better than my Heavenly Thunder Battle Body. If it's at mastery, then I probably won't even dare to test you with the Demon God Emperor's Body, right Brother Bai?"

"Don't provoke me, I won't be fooled." Bai Lan laughed. He knew that Lei Ji was more likely to receive a punch than him, how would he be fooled?

With regards to the strength of Long Chen's seven star body, they could be considered to have complete respect for it.

"Since both of you are doing this, I will take my leave first. There is still half a day left, Yan Er still needs me." Long Chen bade farewell to them, and returned to her courtyard. In the past few days, Su Yan had already recovered a lot, so she was basically immersed in cultivation as well.

Seeing that Long Chen had actually returned, the little girl Su Yan was obviously overjoyed. However, she knew that there was no hope between her and Long Chen before this, so she still chose to bless him.

Girls tended to be precocious, and today, Little Miss Su Yan was fourteen years old, which meant that she was not young at all.

In this exquisite courtyard, Long Chen and Su Yan chatted for a while. When it was almost time, Long Chen let him consume some more dragon blood, which helped him extend his lifespan for another ten days. After a hundred days had passed, Su Yan would be able to completely recover.

After he was done, Su Yan asked: "Big brother, I heard that you spent the last few days cultivating that seven star body, did you succeed?"

"I've already reached the small success stage. In ten days or so, I should be able to reach the large success stage." Ah, fairy, it's only ten days away from his arranged battle with Situ Yu.

"Is that so? "Then you must quickly finish the training, I heard, I heard ..." Speaking till here, Su Yan was a little hesitant, but he did not dare say it out loud.

"What's wrong?" Long Chen asked.

Under Long Chen's gaze, although Su Xue was afraid that Long Chen would lose his heart, she still said it out loud. "I heard that Situ Yu has already reached the ninth stage of the Earth Martial Stage, and after reaching the ninth stage, his strength will definitely increase by leaps and bounds. If you were to fight against him, I'm afraid,"

Long Chen squinted, and thought in his heart: "I have already reached the ninth level of the Earth Martial Stage? It looks like Situ Yu's talent is even scarier than Feng Zhiling, if I had a invisible whip like Feng Zhiling, the resulting fighting strength would be even more powerful than Feng Zhiling's, even if I cultivate seven star body to the large success stage, will I be able to deal with him? "

"Big brother, how about we cancel this battle? I feel like those people are plotting something. I think they want your Sevenstar Monarch's inheritance. " Su Yan said worriedly.

She treated Long Chen as one of her own people, and the others, in her eyes, were only outsiders, even if they were the other demons.

Long Chen smiled, and said: "Yan Er, you don't have that much confidence in big brother. Let me tell you, big brother will not lose no matter what, and even more so, he won't lose to Situ Yu.

Su Yan was a little confused by Long Chen's confidence, so she asked. "But big brother, the difference between the ninth stage of the Earth Martial Stage and the time before the sixth stage of the Earth Martial Stage, is really very big, isn't it?"

"No matter how large the distance is, it is not an insurmountable chasm.

Long Chen said with a smile.

Su Yan seemed to understand.

After twenty days had passed, Long Chen only needed seven days and seven nights to completely cultivate the seven star body to the large success stage. Furthermore, he had not met Su Yan several times already, so Long Chen was not in a hurry.

"Big brother, it's still early. Since you can't move the astral qi, why don't you accompany me for a walk around? It's been a long time since I've gone out after coming back with you. Those ordinary warriors have gathered in my outer city, they will sell whatever they got from the Archaic Graveyard.

Seeing the little girl's excited expression, Long Chen could not bear to disappoint her, so he could only nod his head. Moreover, for the past twenty days, his nerves had been stretched taut, and he was enduring the inhuman torture. Now, there was only one mission left, and it was time to reward himself and let him rest a little.

The Verdant Wood Heavenly City was divided into two parts: the outer city and the inner city. The inner city was occupied by the demons and the Thunder Clan. There were a total of more than eight thousand ordinary warriors who had come to the Archaic Graveyard, and over a thousand of them had come to the Greenwood Sky City. Furthermore, as the news of Long Chen obtaining the inheritance of the Sevenstar Monarch spread, more and more mysterious people who wanted to fish in troubled waters were coming over.

The number of people in the Cyanwood Heaven City also increased.

However, this was the territory of the Thunder Clan and the Thunder Clan, so most people could only stay here for a month.

Of course, there were some things that he did not need, so this led to many transactions that took place in some cities. In addition, in the outer cities of the Greenwood Sky City, there was a special street that was used to trade goods.

brought Long Chen to walk around the outer city for half a circle before finally arriving at the center of the street. Long Chen looked around, only to see that there were a lot of booths there, many warriors were casually sitting there, waiting for people to come knocking on their doors. Many warriors also looked over there one by one, and only when they saw something that they needed did they start to talk to their owners.

As the daughter of the demon clan leader, Su Yan actually didn't need these things. However, she had the personality of a child, and wanted to make things more lively, so she brought Long Chen to walk around in circles.

"Waa, big brother, what's this? It's so beautiful!" Along the way, Su Yan kept sighing in admiration. What the Archaic Graveyard left behind were the treasures left behind by countless experts of the Middle Paleogene, many of them were already extinct, that was why Su Yan was so surprised.

Along the way, the young girl's bell-like smile and pretty appearance attracted many people's attention. Many people could recognize their identities, Su Yan was still alright, she had come to these places often, but it was the first time Long Chen had come here, and many people were looking at Long Chen at such a close distance.

Long Chen possessed a treasure like the inheritance of the Sevenstar Monarch.

This was enough to make him the focus of everyone's attention.

After all, the people in the outer city now and the people in the outer city twenty days ago had already changed a lot. There were still some who had just arrived, and some of them were only at the eighth level of the Earth Martial Stage, but none of them dared to make a move on Bai Lan. Bai Lan had already spoken, so who would dare to touch Long Chen, who was Bai Lan?

The top three rankers of the entire Archaic Graveyard.

Therefore, even if they saw that Long Chen, this fat sheep, was right in front of their eyes, the others wouldn't dare to move. They could only look enviously at Long Chen, this youth with the rich harvest of treasures and beauties, with eyes full of jealousy and envy.

"Eh, big brother, what's this?" At this time, Su Yan picked up something that looked like a shell from a warrior's stall, or perhaps it could be said that it was a shell, but this shell was extremely beautiful, smooth and bright, just like a piece of beautiful jade.

"Little princess, don't just look at this shell, it is actually from the body of a king level demon beast. However, there are no such demon beasts in the Realm of Myriad Kingdoms, and only the ocean can see it. This jade shell looks simple, but it has the ability to concentrate on one's spirit and nurture the martial spirit. The owner of the stall saw that Su Yan had her eyes on the item and immediately said that.

"Oh, does it really have the effect of calming the mind?" Su Yan was a little curious, she flipped through the shell for a long time, before nodding in satisfaction, and asked: "This shell, how do I exchange?"

The warrior quickly replied, "There's no need for anything else. I only need a high level king level battle skill. The princess is the daughter of the Infernal King, so she must have a lot of battle skills. She can just give me one casually."

Although a small jade shell was rare, it didn't have much of an effect. This martial artist actually gave a high price for a high level king level combat skill. This was a bit too much.

Su Yan did indeed have a lot of battle skills, but most of them were unique to the demon race and could not be passed on to outsiders.

Long Chen saw that the little girl really liked this shell, so he took out the Wind God Leg manual from the Great Void Realm that he previously obtained from the Wind God Cult leader, and said: "This is a king level middle level offensive skill, your jade shell, although it is rare, it is not worth to be a king level high level battle skill. If you think you can take this Wind God Leg, you can have it."

The warrior was a little disappointed. When he saw the princess appear, he had only wanted to try his luck, but the truth was, he had also predicted that she would have a mid-grade king level battle skill. After all, his strength was also at the fifth stage of the Earth Martial Stage.

"In that case, this jade shell ..."

The warrior knew that he could not make things difficult for the little princess, but Long Chen had at least taken out a king level intermediate technique, and it was a relatively rare leg technique, so he was extremely satisfied. Just as he was about to agree, a golden cloth binding cultivation technique suddenly smashed into the warrior's hand, releasing an arrogant voice.
