

## War God 781

### Chapter 781 - Conflict

"I want this crystal shell, isn't it just a king level high level battle skill? This < Nine-Layered Earth Splitting > is a king level high level battle skill, it is much stronger than that God of Wind's bullshit legs. "

Just by hearing the voice, Long Chen didn't need to look to know who the person was.

It was Situ Yu.

Hearing Situ Yu's voice, Su Yan's face revealed unhappiness, she immediately hid to Long Chen's side, his hand tightly holding onto the shell. At this time, Situ Yu walked in Long Chen's direction under the escort of a group of demon youths.

After walking to the front of Long Chen and the others, Situ Yu sized up Long Chen and Su Yan for a while, then laughed: "I was wondering who it was. So it's actually Little Princess Su Yan, and that legendary son-in-law of the Patriarch."

Through his perception of Situ Yu, Long Chen slightly narrowed his eyes.

"The rumors were indeed true. So this Situ Yu had indeed reached the ninth stage of the Earth Martial Stage, and his cultivation was already on the same level as Sanxue's. However, because he had just stepped into the ninth stage of the Earth Martial Stage, his true essence was still unstable.

In ten days, he would have to fight with an expert at the ninth level of the Earth Martial Stage. This difference was a total of two levels, and Situ Yu had a lot of trump cards, so Long Chen knew this would be troublesome. It was very likely that the battle ten days later would be an unknown.

It was very likely that the blood sacrifice was the only way.

Every time he used a blood sacrifice, it would cause him to be weakened for a long period of time. Just like the previous blood sacrifice, although his strength had recovered through the pill that nourished his soul, the Seven Colored Ganoderma, his martial spirit was not indestructible, if he used it frequently, even with the help of spirit medicines. If he used it more, his martial spirit might even collapse.

Naturally, the fewer people used the abnormal move of Blood Sacrifice, the better.

There were rules in this world, so for his Dragon Soul Transformation to be able to increase it by ten times was already enough to defy the heavens. The final form of the blood sacrifice was able to be raised by three levels, adding the fact that the Dragon Soul Transformation was already at the fourth level, if there were no limitations, Long Chen would already be unrivalled in the world.

In a battle ten days later, if Long Chen used a blood sacrifice, his strength would once again plummet. His Martial Spirit was injured, and unless absolutely necessary, Long Chen would never choose to use a blood sacrifice.

The reason why Long Chen was able to reach such a stage was because he had very little fear in his heart. Even though he knew that the other party was already at the ninth stage of the Earth Martial Stage, Long Chen was not afraid at all.

Situ Yu did not retract his aura, but rather released it without restraint, as if he wanted to let everyone know that he had already reached the ninth level of the Earth Martial Stage.

At this time, their group of people were standing in front of Long Chen and Su Yan with smiles on their faces.

At this time, Long Chen had not even handed over the Wind God Leg to the warrior, and Situ Yu had already threw a set of king level high level battle skills to him. He was a greedy being, but compared to Long Chen's Wind God Leg, the warrior naturally liked king level high level battle skills a little more, but he was not an idiot, even though the things were good, he might not be able to eat them, which was another aspect of the problem.

Thus, he wielded the high level king level battle skill as he observed the situation unfolding before him.

What Situ Yu meant was that he wanted to buy the crystal shell. His actions were extremely excessive, because Su Yan had already discussed this with the warrior, and the warrior had agreed.

However, Situ Yu attacked halfway.

Situ Yu's status in the demon race was still not comparable to Su Yan's, so his action of not giving face to was a little provocative.

"Situ Yu, what do you mean by this? "I clearly bought it first," Su Yan's initial bit of reverence towards this Situ Yu had now turned into disgust.

Especially, ten days later, he would fight with her most beloved Long Chen.

At this time, Situ Yu laughed after hearing this, and said: "Little Princess, you misunderstood, how could I dare to snatch your things? I only saw that some people couldn't even take out a high level king level battle skill, and were worried that he would embarrass the Demon race, thus waiting for others to buy the jade shell back was actually to give it to you, Princess Yan Er."

The other youths began to laugh as well.

"That's right, Princess Yan Er. I feel somewhat ashamed standing with someone who is stingy in even a high level king level battle skill like him, even if they don't want to take it out. How can someone like him be Princess Snow's son-in-law?"

"Nonsense, who said he could become Princess Snow's son-in-law? Don't you know that Master is an expert of the ninth stage of the Earth Martial Stage? Furthermore, Big Brother Situ Yu is still a young man and is also a disciple of our demon race. Who could be more suitable for Princess Suanxue than him? "

"Princess Yan Er, you should keep your crystal shell properly. Once Master becomes your brother-in-law, he will buy you more things, unlike some poor things!"

These people all despised Long Chen, so she looked at him nervously. He was afraid that Long Chen would feel sad, but when she looked at Long Chen, she saw that Long Chen had a face full of indifference, as if the group of people in front did not even exist. It was as if the person in front of his did not exist at all.

"Big brother, don't mind what they say!"

Who cares anymore, idiot? "Long Chen laughed helplessly, touched her little head and said:" Don't be angry, there are many puppies in this world, they always like to bark and bite people, if they bark and bite us, how can we bite them back, just look at them. "

Long Chen faintly smiled at his words.

Su Yan nodded: "I know what to do now." Then, she faced Situ Yu and the others and said: "I wanted to buy this jade shell myself. It's not my big brother giving it to me, but I want to buy it for my big brother!"

Then, she carefully took out a yellow secret scripture from her Cosmic Bag and said, "This is the reward my father gave me when I was ten years old. It is a high level king level battle skill called the < Wind Killing Nine Fingers >, a technique my father obtained a long time ago, and it is useless against me. Today, I will come to exchange for the shell with you, what do you say?"

The warrior could only nod his head continuously when Su Yan spoke sincerely in front of him, and immediately took the secret manual in Su Yan's hands that had a special meaning to her.

Then, he looked at the other secret scripture in his hand, which Situ Yu had thrown over to him, somewhat helpless.

"Give it to me." Su Yan took the secret manual, and without saying a word, he threw it towards Situ Yu. Situ Yu could only catch it.

When the warrior saw that he had nothing else to do, he immediately bade Su Yan farewell and hurriedly left. In his heart, he naturally had a good impression of this polite little girl Su Yan, as for that Situ Yu, he was just a playboy.

Because of the argument between Situ Yu and the others, the others stopped doing business and all looked over. He pointed at Long Chen and the others.

Situ Yu was originally very arrogant to begin with. He wanted to use a high level king level combat skill to humiliate Long Chen, but Su Yan took the initiative to take out an even more precious combat skill.

Furthermore, Su Yan planned to use this Jade Crystal Shell to give it to Long Chen in the first place.

At this time, Su Yan had placed his crystal shell on top of Long Chen's palm, and with a satisfied smile on her face, she said: "Big brother, you normally cultivate, I hope this can help you. This is in exchange for my father's birthday present, right? You must take good care of it. "

Seeing the serious look in the little girl's eyes, Long Chen nodded and said: "Don't worry, it will always follow me. Even if I die, it will follow me."

"That's good!" Long Chen's answer made Su Yan very satisfied. She felt herself to be lowly, but to her, it was already enough that she had something that belonged to her and could stay by Long Chen's side forever.

At this moment, they looked at each other, and looked towards Situ Yu one after another. Situ Yu had lost a lot of face this time, and without any indication, he was just left standing there like a clown, and easily won.

Situ Yu's face sank. Looking at the intimate look between Long Chen and Su Yan, the flames of jealousy in his heart burned fiercely, and he sneered: "Long Chen, don't be mistaken. The Patriarch is saying that he wants to betroth the Princess Suanxue to you, not Princess Su Yan.

Long Chen raised his head, and looked at Situ Yu, who had just reached the ninth stage of the Earth Martial Stage, and was a little restless. His gaze was calm as he asked: "A dignified Situ Yao Sect Elder's grandson, yet said such outrageous words, are you not afraid of losing your grandfather's face?"

What Situ Yu hated the most was Long Chen's fearless look. He was obviously stronger than Long Chen, but why wasn't Long Chen afraid? This made Situ Yu anxious to prove it to Long Chen.

Only by letting this brat realize his power would he be able to vent his anger!

"Long Chen, the duel is still ten days away. Could it be that you want the duel to start earlier today?" Situ Yu laughed coldly.

Long Chen knew that this fellow already had the urge to beat him up. But how could Long Chen be so easy to beat up?

Therefore, he smiled and said, "I don't have that kind of thought."

After saying that, he told Su Yan, and said: "Yan Er, let's go. The barking of the puppies here is too noisy, it's rare for us to be able to meet these puppies after resting here for a bit."

"Yeah, big brother, I hate them the most." Su Yan chuckled.

As they spoke, they left the place, completely disregarding Situ Yu's existence.

Situ Yu's insulting words made Situ Yu go insane with anger. That powerful aura exploded out of his body, and Situ Yu looked at Long Chen with a cold gaze as he roared in a low voice: "Long Chen, stop right there, if you're a man, then fight with me for a bit, don't just use your mouth!"

Unfortunately, Long Chen didn't pay attention to him and directly left.

"Trash, stop right there!" Situ Yu roared, and immediately, a gust of wind pounced towards Long Chen. and Su Yan's clothes were trembling from the impact.

"Big brother, what should we do?" Su Yan said somewhat panickedly.

Long Chen's gaze darkened, and said: "Go back. We'll know in ten days. Strength is our own, there's no need to fight to the death here."

Long Chen had already matured a lot, and no longer knew how to talk about trash, causing him to lose all reason.

Looking at this youth, Su Yan was in a bit of a trance. Although Situ Yu was much stronger than him, she had this misconception, as if Long Chen was undefeatable.

This allowed Su Yan to feel a lot more at ease.

"Okay, just treat them like little puppies barking, hehe."

Under Situ Yu's clamoring, the two of them left at their own pace.

The people beside Situ Yu also started to curse.

"What a piece of trash, after seeing the power of the Master, you think you can just run away like a turtle?"

"That's right, this Long Chen is a coward. Besides deceiving women, what other abilities does he have? A person like him cannot be considered a man. He is not worthy of the Princess Suanxue, nor is he worthy of the Sevenstar Monarch's inheritance. "

"All of this should belong to the Master. The Master is the real genius, what kind of dog stuff is this Long Chen? I called him the dog stuff, but he didn't even dare to turn around. Everyone look, haha."

The group of people were extremely happy as they started laughing.

However, Situ Yu's face still remained cold.

So many insults, when they landed on Long Chen's body, it was as if they had hit empty air, and did not cause him any reaction. The feeling of this punch hitting empty air made Situ Yu vomit blood.

"Long Chen! Ten days later, I will definitely let you have a taste of what it is like to be smashed to pieces, and I, Situ Yu, will obtain everything you have, including the inheritance of the Sevenstar Monarch! "

Situ Yu clenched his teeth and swore.

At this time, Long Chen had already returned to the inner city. After pacifying the little girl, Su Yan was ready to go train. At this time, Pure Snow walked over to him leisurely. She seemed to have heard the news today, and said a little worriedly: "Did you and Situ Yu have a conflict today?"

"A small quarrel is nothing." Long Chen said.

"I heard that Situ Yu has reached the ninth level of the Earth Martial Stage. Long Chen, what are you going to do about the battle ten days later?"

They all looked to be more nervous than Long Chen, but there was nothing much to be nervous about in Long Chen's heart. Although he knew that they were far from being Situ Yu's match in terms of True Essence, he was not worried.

"Random response." Long Chen said those four words that made Suxue speechless.

"I really can't stand you, you shouldn't have agreed to Situ Yu's request at the beginning, that guy was obviously plotting against you. Your goal was nothing more than to quietly cultivate the Sevenstar

Monarch's inheritance, do you have to fight for it now?" Sanxue looked at Long Chen with a slightly reprimanded gaze. This tone of her voice gave the feeling of a little woman complaining to her husband.

"A man lives to fight. You girls don't understand. If there are no other questions, then I'm leaving." Long Chen rolled his eyes and said shamelessly.

"You can leave. I'll see what you can do. If you don't get killed by then, my sister still needs you." Pure Snow was truly a little mad at Long Chen.

Did this fellow eat a leopard's gall bladder?

In ten days, it could be considered long or short. Even though people outside were already arguing about the fight between him and Situ Yu, Long Chen remained calm.

For the remaining time, he prepared to spend seven days to perfect the seven star body, and the next thing to do was comprehend the Monolith of the War God, and at the same time, wait for the start of the battle.

Of course, before the battle, he still had to feed Su Yan some dragon blood.

With the nourishment of Long Chen's blood, the little girl became even more spirited, and a strong life force burst out from her body. Even Bai Lan was extremely shocked when he saw this, he asked many times about what kind of pill Su Yan gave her, but Su Yan just refused to tell her, causing Bai Lan to roll his eyes in worry.

At night, Long Chen returned to the top of the ancient tree.

This time, he was prepared to complete the seven star body.

Within the ThunderClan, no one would have thought that in this dark room, the ThunderClan's Seven Scions were having a meeting that would decide the fate of their race. This was a meeting at the highest level of the ThunderClan, where all the Thunder Clan's Seven Scions, who were at the ninth stage of the Earth Martial Stage, were present, but they lacked the ThunderClan's Patriarch, Lei Ji.

All of them were over two hundred and fifty years old, and were indeed old antiques of the Thunder Clan. Amongst them, the Great Elder of the Thunder Clan's Seven Scions was already over four hundred years old, and if he could not break through to Heaven Martial Stage, his life would not be long.

Even so, this lightning clan elder named Lei Yuan was comparable to the Thunder Clan's current clan head, Lei Ji. Lei Yuan was the existence of Lei Ji's father's generation. When he was young, he made countless of meritorious deeds for the Thunder Clan, and was one of the heroes of the Thunder Clan.

This meeting, was initiated by Lei Yuan. He had gathered the seven members of the Lei Clan to come, but they were able to hide it from their clan leader, Lei Ji.

Everyone had already been silent for a quarter of an hour, Lei Yuan's hand gently knocked on the wooden table, producing a thumping sound.

"Everyone, I called everyone here, but I only managed to hide it from Clan Leader Lei Ji, so I believe that everyone knows what I am thinking. I wonder what everyone's thoughts are?" The aged Lei Yuan said with a hoarse voice.

Everyone looked at each other, no one said a word at first. Lei Yuan's gaze swept one round, and finally a tall and sturdy man said: "I have to say, this is the chance for our Thunder Clan to rise in power, to the point where we no longer depend on the demon race."

"Well said." Lei Yuan clapped himself, and very soon, the others began to clap as well.

"Since we have already made our decision clear, then I will say it directly, all these years, our Lightning Clan has been living under the shadow of the devil race, and we will follow them like servants of the devil race. Wherever the devil race goes, our Lightning Clan will go, and we will not only have had enough, but also have had enough of this life."

Lei Yuan's voice caused everyone to listen attentively.

"I think everyone can understand what I mean." Lei Yuan continued.

One of the men said, "Grand Elder, we really do understand. I agree with your view as well. I'll raise my hand here first. Where's the others?"

When this man raised his arm high, the others clenched their teeth and raised their hands as well.

Lei Yuan laughed, and said: "Since everyone is of the same mind, then I shall cut to the chase. The inheritance of the Sevenstar Monarch is our Thunder Clan's most important opportunity. No matter what Lei Ji does, this time we must first obtain the Sevenstar Monarch's inheritance, and then break away from the demon race, and search for our own strongholds in the Archaic Graveyard. As for Lei Ji, if we were to obtain the Sevenstar Monarch's inheritance and lead our entire clan away, and yet he still stands by the demon race's side, we do not need such a clan leader. "

In the entire Thunder Clan, only Lei Yuan was able to say such words.

"Without the Heaven realm expert, how would Thunder Clan survive?" One of the Elders said.

"Don't worry, Lei Ji won't be so stupid, the Thunder Clan is his root, how can he not come back? The important thing is that we have to do it first, make it quick, and when we break off from the demon race and even get the inheritance of the Sevenstar Monarch, he will stand on the right side of the table. As long as he stands in the right position, the inheritance of the Sevenstar Monarch will belong to him. "

Lei Yuan said, with a deep look in his eyes.

Indeed, in their eyes, the Demon race had the Demon God Emperor's inheritance overseeing them, the God race had the white lotus's inheritance overseeing them, and the Thunder Clan's patriarch, if he could obtain the Sevenstar Monarch's inheritance, would be able to become an existence at the same level as them.

"We, the seven sons of the Thunder Clan, do not have any selfish motives, I, Lei Yuan, have gathered all of you here today for the sake of the Thunder Clan. Clan Leader Lei Ji, aside from cultivating, is able to follow Bai Lan, but you cannot achieve great things by doing so. What we must do is to force Lei Ji to break the relationship between their brothers, and let him become a qualified clan leader of the Thunder Clan!"

Lei Yuan's meaning was the meaning of the other Thunder Clan's Seven Scions.

"Grand Elder, just tell us what to do. The chief really rarely thinks for the benefit of the entire race, so we'll listen to you. "

Lei Yuan shook his head: "I am already old, and cannot support the Thunder Clan. The Thunder Clan still needs Lei Ji to take charge, and the only thing I want to do before I die is to make Lei Ji vicious, break away from the demon race, and let our Thunder Clan become a demon too!"

Pausing for a moment, Lei Yuan continued: "I already have a plan in mind."

"When do we make our move? That Long Chen was training in the seven star body for the past few days, while Bai Lan and the Patriarch were watching by the side. "

Lei Yuan said: "I have already arranged the specific time, in ten days, when Long Chen and Situ Yu's battle begins, our Thunder Clan will give them a pleasant surprise."

Everyone was stunned and asked, "At that time, wasn't it the most crowded time? When the demon powerhouses came out together, how could they let us get our hands on them?"

Lei Yuan smiled mysteriously and said: "Have you forgotten our Thunder Clan's most valuable treasure? When all of their experts gather together, our 'Thunder Prison' will give them a surprise! "

## Chapter 783 - Dacheng

Other than the Seven Scions of the Thunder Clan, no one else knew about what had happened in the Thunder Clan. Even the higher-ups of the Thunder Clan, other than the seventh son, didn't know anything about this important meeting. However, the Thunder Clan's seven sons were able to grasp their emotions. The Thunder Clan liked to be a free race, and they didn't like the feeling of relying on others.

What Lei Ji and Bai Lan did not know was that, although they had a good relationship, the Demon and Thunder Clan's warriors at the bottom level did not get along well, especially the younger generation of disciples. The Thunder Demon and Thunder Clan's power was much greater than the Thunder Clan's, and within the Realm of Myriad Kingdoms, everyone believed that the Thunder Clan was an existence that relied on the Demon race.

Of course, Lei Ji and Bai Lan did not care about all these. However, in the Thunder Clan, other than Lei Ji, who did not know of this, the rest of them still had some grievances towards the demon race. After the appearance of the inheritance of the Sevenstar Monarch, not only were the eight elders of the demon clans moved, the seven children of the Thunder Clan and even everyone from the Thunder Clan were moved.

A storm was quietly brewing, unbeknownst to anyone.

Long Chen naturally did not know that right now, he was immersed in the cultivation of the seven star body. As long as he could complete this step, Long Chen would be able to reach the large success stage in the cultivation of the seven star body.

Long Chen had already reached large success in controlling the stellar nucleus in his heart. At this time, Long Chen controlled the stellar nucleus and allowed his perception to extend to the distant horizon. In the middle of the endless stars, there were countless astral qi.

Long Chen was going to be big this time.

At the side, Bai Lan and Lei Ji were completely shocked, because Long Chen had truly stirred up too many astral qi s this time, and had moved ten times more than he did before. With such a large number of astral qi s turning into a gigantic purple coloured space beast, a huge explosion sounded out in the sky as they dove down with a loud noise!

Such a huge purple astral qi, Long Chen almost couldn't control it. If he couldn't control it, it would be very dangerous, because that would mean that Long Chen would destroy the entire Cyan Wood Sky City. There would probably be a lot of people dying here too.

Fortunately, he was able to control it.

Bai Lan and Lei Ji heaved a sigh of relief. The foundations of the Thunder Clan and the Demon Clan were both here, if they were destroyed, the two of them would probably cry themselves to death.

Fortunately, Long Chen needed a long time to activate the astral qi, and it needed him such a high altitude to be able to do so. If he could summon countless astral qi during normal battles, then even Bai Lan would have to dodge it.

This purple astral qi released a sharp cold light as it revolved around Long Chen.

This astral qi, which was as huge as a star, alarmed everyone in the Greenwood Sky City. All of them looked at this place with burning eyes, as they knew that Long Chen was cultivating the seven star body and Bai Lan and Lei Ji was protecting him.

Within the Situ Family, Situ Yu stood with his hands behind his back, looking at the purple colored astral energy in the sky, his mouth revealing a cold smile, and said: "This seven star body, even if you succeed in your cultivation, so what? You and I lack three levels of true essence.

Over a thousand people were watching Long Chen.

Those who knew how terrifying astral qi were mostly in awe and fear of Long Chen. They knew that the seven star body needed to be forged using astral qi s, and from the gold eating qi, they could imagine how terrifying the astral qi must be.

No one believed that Long Chen would not feel any pain.

Long Chen knew the pain, but he could endure it.

At this moment, he used the control of his stellar nucleus and firmly grabbed onto the behemoth like astral qi. The astral qi gradually formed a huge sphere around him and wrapped around him.

Within this range, all of the branches and leaves were shattered into pieces. Even Bai Lan and Lei Ji had no choice but to move away from each other, as they were not willing to be accidentally injured.

"Brother Bai, this brat is making such a big ruckus. I knew that there are some reckless people who are in a hurry to make a move, the ball formed by the astral qi is so big, I'll just go to the other side." Lei Ji said.

Bai Lan stared at Long Chen nervously and nodded at the same time.

When the news of Long Chen obtaining the Sevenstar Monarch's inheritance spread out, they were worried that some people who were not afraid of death would come and disturb them.

Bai Lan had already released his words. If there really was someone who wasn't afraid of death, he wouldn't mind taking action.

However, the people who dared to take action tonight were only some ordinary warriors who did not know whether they were dead or alive. True experts, at least in the Heaven Martial Stage, did not come.

The experts of the Heaven Martial Stage were the absolute experts here. The number of Realm of Myriad Kingdoms here didn't exceed ten.

Under the protection of Bai Lan and Lei Ji, Long Chen was finally able to safely cultivate. Of course, this was also an extremely huge challenge for him, after all, he had to suffer an even greater torment than before within these seven days and seven nights.

Under the encirclement of the astral qi, countless astral qi surged towards him. If he wanted to furiously forge this sword, he would be able to complete the seven star body in the end. As long as he grit his teeth and endured for seven days and seven nights, he would have no problems.

Honestly speaking, there was no knocking at the door when training the seven star body, nor was there anything related to comprehension. The only thing he needed was patience and control, and for the second half of the cultivation, he only needed one of them, and that was patience.

He who suffers is a man of honor.

The suffering Long Chen had endured this time, was definitely the greatest in history.

Countless astral qi entered his body and crazily forged their way through, completely forging his body that she had previously successfully forged. Moreover, it was not just once, but two or three times.

Only after two rounds of forging could the seven star body finally succeed.

There were several times in the history of Long Chen who were unable to resist giving up. After all, it was not an easy task to suffer such terrifying pain continuously for seven days and seven nights straight. Many people had only been able to achieve the small success of seven star body, but were not able to achieve the large success of seven star body, and that was because many people were unable to stand up to it this time.

Long Chen also wanted to give up, but when he thought of Ling Xi, he persevered.

He had to persevere, time and time again, in order to finally succeed.

When "Xiao Xi" was in a daze, Long Chen was thinking about this girl. In that moment, he felt that his body was filled with power.

In the midst of countless struggling, Long Chen endured it again and again.

Below, many people were paying attention to this change. They also saw that the number of astral qi surrounding Long Chen was becoming fewer and fewer.

"Big Brother, you have to succeed!" Su Yan closed her eyes and prayed.

From Bai Lan's words, the two sisters had already roughly understood the situation, and knew that the astral qi would cause extreme pain. From Bai Lan's description, they knew how much pain it really hurt.

But what they admired was that Long Chen was able to persevere and survive.

"I didn't expect him to be able to endure such a painful thing. It has already been seven days. After this last night, he will be able to succeed." Looking at the astral qi which was getting smaller and smaller in the sky, Su Xue could not believe her eyes.

Seven days passed just like this.

"Yeah, big brother is the best, no matter how strong Situ Yu is, he will definitely not be Situ Yu's opponent in the end." Su Yan started to trust Long Chen blindly.

The last night passed, as they had hoped.

At this time, they had already reached high up in the sky and were standing beside Bai Lan and Lei Ji. These past few days, Bai Lan and Lei Ji had already killed quite a number of villains, but none of them had the strength to match up with them.

However, if they did not stop him, it would still affect Long Chen to a certain extent.

That gigantic astral qi was only the size of a human right now. Currently, Long Chen's body was covered with a thin layer of astral qi, and even this tiny bit of astral qi was gradually absorbed by him, before completely disappearing into Long Chen's body.

At this time, Long Chen's appearance was also revealed.

Previously, when the seven star body had reached small success, Long Chen's body was able to emit and emit strong qi, but right now, Long Chen seemed to be extremely restrained, as if he had recovered to a state where he did not cultivate at all. This was the large success of the seven star body, and only when Long Chen truly made a move, the power of the seven star body would truly appear on his body.

Long Chen closed his eyes to feel his body, he realized that the strength of his body was more than ten times stronger than it was when he was at the Small Success Realm. That boundless energy in his body filled Long Chen's body, Long Chen was confident that with his current body strength, he could be considered the strongest in the entire Archaic Graveyard, or even the top three.

Long Chen had truly completed the Northern Dipper Steps and the seven star body. Adding these two parts together, it would be the entire content of the Seven Glorious Starry Spell.

In the end, there was only one thing left of the inheritance of the Sevenstar Monarch, which was to control the '3000 star field'.

#### Chapter 784 - DECLARATION

"Lei Ji, do you still dare to let Long Chen test his strength?" Bai Lan pointed at Long Chen and said with a smile.

Lei Ji hurriedly shook his head: "I've already tried it last time, so it's now time for your Demon God Emperor Body. After all, you are both middle level Emperor level body tempering technique. Come and try your luck. "

The two of them refused each other, causing the Bai sisters to look at each other and smile.

"Forget it, he will be fighting with Situ Yu in three days. When the time comes, won't we be watching? I don't want to suffer. " Bai Lan said with a smile.

As he said that, he looked towards Long Chen and said: "I was just casually saying it back then, and did not expect that you would be able to completely cultivate this seven star body within a month. But since that Situ Yu had also reached the ninth stage of the Earth Martial Stage, defeating him would not be easy.

"Thank you for protecting us for the past few days, clan leaders." Long Chen nodded and said.

"No matter, mention your own son-in-law protecting you. This is a matter that is perfectly justified." Bai Lan said with a ridiculing smile.

This fellow was used to being disrespectful and disrespectful to his elders. His words made Suixue, who was beside him, very embarrassed. She originally thought that her little sister would be unhappy, but what made her curious was that Su Yan still looked at Long Chen sweetly.

"Why is this girl in such a good mood?" What did Long Chen say to her? " Suixue thought with some doubt.

After Long Chen finished with his seven star body, Bai Lan and Lei Ji left after a few more words of advice, and Long Chen and the Susu Su Yan sisters returned back to their place of residence. With three days remaining, he didn't want to waste it either. The Monolith of the War God was right before his eyes, and after Long Chen returned, he immediately immersed himself into the comprehension of the Monolith of the War God.

Three days later, they would have to fight Situ Yu who was at the ninth level of the Earth Martial Stage, so the two sisters didn't dare to disturb him.

"Elder sister, do you think that in three days, big brother's chances are high?" Standing under the pavilion at Long Chen's entrance, Su Yan muttered.

In order to not let her sister worry, Pure Snow said: "Don't worry, this Long Chen brat is so tenacious, he won't die no matter what, oh no, no matter what he won't lose."

"Big sister, you're lying. You clearly thought big brother would lose." Su Yan said as she looked at her with her big and clear eyes.

Pure Snow dryly smiled and said, "Don't make wild guesses, I don't think so. Also, look at how hard he's been working. He definitely won't let you down."

Yes, Long Chen did not relax for even a moment.

Three days passed by quickly. That day, Long Chen called Su Yan into the room, and there was no sound at all. When Su Yan came out, everyone asked: "Yan Er, why did Long Chen let you go in?"

"Today is already the tenth day. Big brother, give the pill to me to eat." He is still in the process of cultivating, but I feel that he has yet to reach the seventh stage of the Earth Martial Stage. "

Everyone was a little disappointed, but they quickly understood. After all, it was not so easy to reach the seventh stage of the Earth Martial Stage. The match was at noon. It was still early in the morning, so they weren't in a hurry. However, the location of the battle was already filled with people.

Situ Yu and the eight elders who were supporting him had already reached that place. This was an enormous platform. In the past, there might have been people living in the Cyanwood Heaven City. In fact, there were even martial arts training grounds. At this moment, there was already a huge platform filled with people.

This Martial Arts Practice Grounds was located in the outer city of the Cyanwood Heaven City. Today should be considered to be a grand day for the Cyanwood Heaven City. All of the people from the Cyanwood Heaven City should have arrived here. The news of Long Chen and Situ Yu's battle had already spread far and wide. This battle was not only related to whether or not Long Chen could become Bai Lan's son-in-law, it was more likely to be related to the location of the Sevenstar Monarch's inheritance.

Although everyone knew that Long Chen had already mastered the Big Dipper Steps and the seven star body, he definitely could not use the three thousand star domain that was the most important inheritance of the Sevenstar Monarch.

So, many people were envious of the 3000 star fields.

A human's greed was limitless, even with a super expert like Bai Lan overseeing them, they still could not extinguish the raging flames of greed in their hearts.

The Demon race, Thunder Clan, and ordinary martial artists formed three camps, standing on three different sides of the platform. On the demon's side, Situ Yu stood under the crowd of eight elders, and even the eight elders were standing, yet Situ Yu actually had his own seat, which was his treatment as a participant. Of course, it could be seen from this how much the eight elders valued this battle.

As long as they defeated Long Chen, the inheritance of the Sevenstar Monarch would not belong to him. It was very likely that after a struggle, it would fall back into the hands of the eight elders.

At this time, the eight elders of the eight great sects were talking to Situ Yu and most of them were praising him. After all, Situ Yu was already at the ninth level of the Earth Martial Stage, so his strength was not too far away from them. Furthermore, Situ Yu was still young, and his potential was far from being exhausted.

In a few years, he would definitely become another expert of the Demon race's Heaven Martial Stage.

Su Xue was also at the ninth stage of the Earth Martial Stage. Both of them were from the devil race, and in the eyes of the audience, Su Xue and Situ Yu, were the real match.

After Situ Yu's strength increased, even Situ Yao's position within the eight great elders had risen by a lot as well. Many clan elders had already started to form a closer relationship with Situ Yao, and with such a good grandson like Situ Yu, it was very likely that the future demons would all be Situ Yu, if Bai Lan was dead.

Of course, because Bai Lan had arrived at Heaven Martial Stage, he still had a very long time to live.

The demon race's side was rather lively. Under the encirclement of countless people, Situ Yu felt extremely proud, and the feeling of being surrounded made him feel really good. Even at the back, there were still some of his younger brothers flattering him.

"Master has the ninth stage of the Earth Martial Stage, so he will inevitably become a Heaven Martial Stage in the future. He is truly a rising star in our Demon race."

"Long Chen at the sixth stage of the Earth Martial Stage, has simply wasted that Sevenstar Monarch's inheritance for nothing. If the inheritance were to be given to the Master, the Master would definitely become the strongest person under the Patriarch. Such a young expert, even the nine great clans do not have such a character! "

"Of course, after the Master possesses the inheritance of the Sevenstar Monarch, coupled with that Divine Weapon 'Three Thousand Star Domain', even the God Clan's Wu Guangyu would not be a match for the Master."

Hearing these words, Situ Yu's heart felt extremely comfortable.

When he reached the ninth stage of the Earth Martial Stage, he knew that he was definitely going to win today. Furthermore, he had an important trump card in his hand, and that would be the Myriad Devil Spear!

An Elementary Royal Divine Weapon!

The demon race was quite lively, but the Thunder Clan was very quiet. The Thunder Clan's Seven Scions quietly stood together. Behind them were the higher ups of the Thunder Clan, and then there were the ordinary disciples.

As for those ordinary warriors, they were also quite busy at the moment. Their division was scattered, and whenever they met someone they knew, they would chat and fart without restraint. Their noise level was even higher than the demon race's side.

"What are you doing? Why hasn't it started yet? Didn't they say it was noon? Right now, it's almost noon, and Long Chen is still not here! "

"Then what does the person who received the Sevenstar Monarch's inheritance look like? It can't be that he doesn't dare to come anymore seeing how strong his opponent is! Such a person, what right do you have to have the Sevenstar Monarch's inheritance? "

"It's purely luck, why don't I have this kind of luck? I wonder if I'll be lucky today? "

At the beginning, it was just a noisy place, but very soon, the demon side also became noisy, except for the Lightning Clan. Today, everyone's face was very calm.

"What's going on? He still hasn't come?" Situ Yu used a somewhat impatient expression and looked in Long Chen's direction.

"Don't worry, take it seriously, this guy's willpower is astonishing, he has already cultivated the seven star body, his body will be astonishing. You better be serious, this kid is very strange. " Situ Yao whispered into Situ Yu's ear.

"I know." Situ Yu said somewhat impatiently.

These few days, Situ Yao had already mentioned about the seven star body by his ear several times. Situ Yu was annoyed when he heard it, if he did not reach the ninth stage of the Earth Martial Stage, he would never pay attention to this matter.

When Situ Yu's patience was about to disappear, Long Chen and his group finally walked over in front of everyone's eyes. Bai Lan and Lei Ji, the two clan leaders stood together.

As for Long Chen, he followed behind them.

Even after meditating for three days and three nights, Long Chen still had not reached the seventh stage of the Earth Martial Stage. In fact, he had already reached the final moment. However, due to time constraints, he could only come out first. Long Chen guessed that if he was given another ten days, he would definitely be able to reach the seventh stage of the Earth Martial Stage.

If he had the power of the seventh stage of the Earth Martial Stage, Long Chen would have felt slightly more relaxed.

And today, it would be an extremely arduous and arduous battle.

The people who thought that Long Chen would not fight all looked at the youth who made them jealous and envious. They thought that this youth would be terrified, but they never thought that he would have such a calm expression, as if the one who was going to fight was not him.

"Are you sure this is Long Chen? His strength is at the sixth stage of the Earth Martial Stage, but why does it not seem like he was afraid at all? "

"Maybe it's faked. To be honest, I am afraid that my life is in danger. "

"I heard that he had originally agreed to Situ Yu's challenge, but who would have thought that Situ Yu would reach the ninth level of the Earth Martial Stage one month later, and even made a promise not to marry the Princess Suanxue if he failed. Now, this brat is doomed.

Suixue was somewhat unhappy when she heard this. She said with slight anger, "The mouths of these people are really cheap. They don't know anything yet they still spout nonsense."

"That's right, they aren't good people. Big brother didn't offend them, so he just spouted nonsense."

Su Yan said somewhat angrily.

#### Chapter 785 - Demonification of the Yellow Springs Finger

However, she was pleased that Long Chen did not seem to be angry.

"Time's up. Let's go up." When he reached the foot of the platform, Bai Lan turned and said to Long Chen.

Long Chen nodded, before Situ Yu, he had already stepped onto the stage, walking at his own pace, step by step, until he reached the center of the stage, which was wide enough for Long Chen and Situ Yu to fight on.

As for Bai Lan and Lei Ji, they stood between Thunder Clan and Demon Clan, and weren't with their respective clan members. Su Xue and Su Yan stood behind them, and like that, there were a total of four groups of people.

Seeing this, the Thunder Clan's seventh son and the others all smiled. Everything was going according to their plan. In their plans, the patriarchs of the two clans, as well as the eight elders of the demon clans, stood just like that. Everything was in their plans.

As long as they stood together, the Thunder Prison would be able to cover them.

As long as they were trapped by the Thunder Prison, within that time period of time, even Bai Lan would not be able to escape. This way, the Thunder Clan would have enough time to take action.

Of course, no one knew about ThunderClan's actions.

Even the Thunder Clan's patriarch Lei Ji was still in the dark.

After Long Chen went up on stage, Situ Yu was already impatient, he laughed out loud, patted his chair, without saying anything, he rushed up the platform, and when he was still 20 metres away from Long Chen, the two of them immediately attracted everyone's attention.

The situation immediately became tense.

The ninth stage of the Earth Martial Stage was indeed very frightening for Long Chen. At least in terms of primeval essence, he was dozens of times stronger than Long Chen, so when Long Chen saw Situ Yu's ferocious and arrogant face, he gave up his idea. He switched to using Dragonsoul Transformation.

The Dragon Soul Transformation had increased the quality of his primeval essence by ten times. The standard of true essence had also reached the level of the seventh stage of the Earth Martial Stage. Although there was still a long distance between them and the other party, this difference was just right for the current Long Chen. Because among the eighth stage of the Earth Martial Stage, there were very few who could be his match.

The Dragon Soul Transformation showed everyone that there was something extraordinary on Long Chen's body. This Dragon Soul Transformation was sinister and terrifying, as if it was completely created to kill, and the bone spikes and scales shone with an intimidating light.

"This looks pretty good. It really feels like a wild beast, and can't be compared with us humans." Situ Yu looked at it and mocked.

Long Chen did not bother to pay attention to him as he could feel the power of his own body. After transforming into the Dragonsoul Transformation, the power of the seven star body and the body of the dragon, even without using true essence, his body would still be filled with an explosive power. At this

moment, Long Chen was lightly clenching his fist, and on his arm, streams of purple colored astral energy flowed out.

"This is the seven star body?" A look of envy and hatred appeared on Situ Yu's face, but very quickly, it turned into excitement and greed. He could feel that this seven star body was truly filled with extremely powerful energy, and he even had a feeling that he didn't dare to come into contact with Long Chen.

The reason he was so excited was because he knew that this seven star body would one day be his own.

Everything was his. One could only imagine, after letting him obtain this seven star body, what level of strength would he have?

So how did he know that in order to cultivate this seven star body, how much torture would he have to go through?

With just him, Situ Yu, who knew if he would succeed or not if he spent a year's time.

What he needed to do now was to snatch it from Long Chen's hands.

"Truth be told, I truly do not dare to believe that you actually dared to come here." Situ Yu continued to speak.

His contemptuous words could not cause the calm Long Chen to waver at all, and instead focused more on cultivation of the mental state. After experiencing the torment of the seven star body, Long Chen suddenly felt that there was nothing in this world that he should be afraid of, so even if it was Situ Yu who was at the ninth level of the Earth Martial Stage, he could still calmly face it.

A star chart formed from the purple colored astral energy circulated within Long Chen's body. His mind had already immersed himself in a state similar to stopping water. At this time, Long Chen had forgotten the level between the two of them and the disparity in strength. Only the opponent in front of him existed in his only world.

"What is he doing? Why does it feel like I'm in a trance? "

When the crowd heard Situ Yu's scornful words, Long Chen did not give any response. They all thought Long Chen was scared silly.

"What are you doing? If you don't dare to come, then don't come. What are you doing here without making a sound?"

Only Situ Yu understood that such a calm and peaceful Long Chen seemed to be unable to find a single chance to make a move. This made him doubt that towards Long Chen, this brat, his heart was already filled with hatred, thus, he no longer spoke. With a move, he charged towards Long Chen!

The battle was set ablaze in an instant!

"According to the White Clan Patriarch, this Situ Yu cultivates the Situ Clan's 《Heavenly Demon Transformation Art》, which contains the body tempering technique, movement techniques and three powerful fist techniques. The 'Heavenly Demon Transformation Art' is a low level Emperor level battle skill, it is most likely Situ Yu's trump card!"

On the way there, Bai Lan had already introduced a lot of things about Situ Yu to him, and also wanted him to be on guard. Even Feng Zhilin could use the battle skill of an Emperor thousands of handprints, there was no reason why Situ Yu would not know how to use it.

The fist technique of the 'Heavenly Demon Transformation Art' was called the 'Heavenly Demon Transformation Fist'.

However, on this first attack, Situ Yu did not use a Royal Level Battle Skill. To him, dealing with a measly sixth stage Earth Martial Stage just using an Emperor Level Battle Skill was too embarrassing.

Having instantly approached Long Chen, the ninth stage of the Earth Martial Stage granted him extraordinary speed. In terms of speed, he was about the same as his grandfather, Situ Yao.

"Demonic Finger of Styx!"

With a whistle, a yellow gust of air suddenly spiralled around Situ Yu's right index finger, as if it was the legendary Yellow Springs. At this time, the yellow whirlpool suddenly increased in size and pounced towards Long Chen. In the center of the Underworld, there was a black star. A large scale attack came from it, but in truth, the power of the Underworld Finger was at this black dot.

This was the true power of the Demonic Finger of Styx, and was also Situ Yu's fingertip!

This Demonic Finger of Styx was actually only a high level king level combat skill, it was not much different from Long Chen's Desolate Divine Seal. When Situ Yu unleashed the power of the ninth stage of the Earth Martial Stage, it could be considered to be completely unleashing the power of the Demonic Finger of Styx!

Using this Finger of Styx against Long Chen, he had obviously underestimated him. Long Chen's eyes were calm, when the other party had attacked him, his expression did not change at all, to the point where his body did not even move an inch.

This immediately caused a lot of noise!

"What's going on? This Long Chen actually did not resist, is he courting death? "

"He still did not resist even under the attack of the ninth stage of the Earth Martial Stage. Is this fellow's brain really rusty, or is he courting death in the first place?"

All sorts of discussions broke out.

Behind Bai Lan, Sanxue and Su Yan were also watching nervously. They could no longer resist and wanted to help, but Bai Lan stopped them in the end, saying, "Don't underestimate Long Chen too much, it's not certain who will win today.

Since Bai Lan was able to say something like this, then it proved that Long Chen still had a possibility of winning. Hearing this, the two Sanxue sisters immediately relaxed a little, and at this time, under Situ Yu's doubtful gaze, his Devil Transformation Underworld Finger gently tapped Long Chen's chest!

Situ Yu felt that he had struck his opponent, but what shocked him was that the star chart on Long Chen's body were actually gathering towards his chest. At the moment Situ Yu struck his opponent, his chest already gathered a large amount of purple energy, which fiercely turned into the shape of a beast, and the moment Situ Yu's Devil Refinement Finger pierced into Long Chen, the beast roared out in anger, and bit Situ Yu's finger!

"AHH!" Situ Yu let out a surprised cry. He hurriedly used his True Essence to rampage, and finally released the purple colored True Divine Spirit Qi, then was able to retreat in a sorry state. The might of

the purple colored True Divine Spirit came from Long Chen's seven star body, which was beyond his expectations.

And the power of Situ Yu's Demonic Finger was only able to send him flying, he had to retreat a few steps before he managed to stabilize his body. Under the resistance of the seven star body, the Demonic Finger was only able to give him a certain amount of force, it did not harm his body.

Long Chen's body, after being refined by the astral qi again and again, had become far more powerful than anyone else's. Even if he stood in the middle of the liujin region and was enveloped by the gold eating qi, he could not cause the slightest bit of damage to his body. This was the peak body tempering technique of the Realm of Myriad Kingdoms!

They had all thought that Long Chen would be killed in the first move, but who would have thought that it would be such a situation? Situ Yu had used all his strength to attack Long Chen, but Long Chen did not retaliate.

How strong exactly was Long Chen's seven star body that he could produce such an effect?

Long Chen looked at Long Chen in a daze. They knew that Long Chen had used the seven star body to block this attack, and from this, one could see how strong the seven star body was, which made them even more envious of the seven star body, thinking that if they could obtain the Seven Glorious Star Art's inheritance, they would definitely be invincible. How could they know, that the cultivation of the seven star body required such a terrifying torture?

There can be no success without suffering.

Chapter 786 - Breakthrough in battle

Long Chen had to go through dangers and endure pain again and again in order to have the strength he had today.

Seeing Long Chen's performance, everyone laughed, at this time, Long Chen had already started to emit his luster.

As for the people on Situ Yu's side, they were obviously so angry that their noses were crooked.

The most shameful among them all was Situ Yu. Previously, he had even said a lot of things confidently, but now that he thought about them, it was like a slap to his face. Although his fingers were slightly injured, to Situ Yu, his face seemed to be in even more pain.

"You're courting death by relying on the seven star body, the inheritance of the Seven Planets, will sooner or later belong to me, Situ Yu!" Situ Yu roared in his heart. At this moment, without saying a word, he rushed towards Long Chen with killing intent directed at him. Since a high level king level battle skill was useless, he had decided to use an emperor level battle skill to give Long Chen a taste of pain and defeat!

"Heavenly Demon Transformation Spell!"

As Situ Yu advanced, a violent black tornado suddenly swept past him, enveloping him within it. The black tornado roared, and suddenly transformed into a gigantic beast, pouncing towards Long Chen!

"Sky Demon Chaotic Dance!" This was one of the movement techniques of the [Demonic Transformation Technique], and was an Emperor Level movement technique. When Situ Yu moved, he instantly turned into a series of illusions, and even the current Long Chen was unable to clearly see where his body actually is!

An Emperor Level movement technique was obviously not simple. In the eyes of the crowd, the entire platform was filled with Situ Yu's figure, and there was no sign of Long Chen at all.

However, this type of movement skill was extremely useless to Long Chen, because Long Chen had Spirit Devouring Demon Pupils. As long as one was beneath the Spirit Devouring Demon Pupil, no illusions would be able to escape Long Chen's eyes.

The moment the Spirit Devouring Demon Pupil opened, Long Chen saw Situ Yu's body quickly moving in midair, and using a roundabout way to attack from behind him. The corner of Long Chen's mouth hooked into a cold smile, and at this time, a golden light suddenly appeared from within his right palm.

"Golden Emperor Heaven Shrouding Seal!" He threw a move behind him, and immediately, the huge golden seal flew behind him with a loud bang, striking fiercely. That Situ Yu, just happened to be at Long Chen's position.

"Boom boom!"

was originally prepared to attack Long Chen, but who would have thought that Long Chen would actually be able to find his position. In this critical moment, the vast and ice-cold power that came from Long Chen's Golden Emperor Heaven Shrouding Seal meant that this was definitely an Emperor level battle skill. Facing an Emperor level battle skill, Situ Yu did not dare to be even the slightest bit careless.

"Heaven Demon Transforming Fist, One Breath!"

At this critical moment, Situ Yu could only use the first move of the Heaven Demon Transforming Fist to fight against Long Chen. Under Situ Yu's instigation, millions of devil shadows appeared on his fist and in this tiny space, the group of demons roared as they exploded forth with a single punch, colliding against Long Chen's Golden Emperor Heaven Shrouding Seal!

Long Chen had seized the opportunity and let Situ Yu handle the situation in a hurry, but Situ Yu had won because of his dense True Essence!

The two Royal Tier Battle Skills clashed with each other and the entire city trembled. With an explosive sound, the two of them flew behind them and Long Chen suffered the most from the collision. He fell back more than twenty meters before he managed to stabilize himself and almost rolled on the ground.

Although Situ Yu was in a hurry, he was able to stabilize his body!

In this confrontation, the thing that shocked Situ Yu the most was, how did Long Chen know his location? He had sufficient confidence in the Heavenly Demon Dance.

"This kid's luck is really good. He could easily trick me into my spot. But next time, your luck won't be this good!"

From their previous exchange just now, Situ Yu had clearly seen Long Chen's true strength. He knew that in a normal match, Long Chen would definitely not be his match, so he was currently very excited in his heart.

Honestly speaking, Situ Yu was an opponent that was extremely difficult to deal with. At this moment, Long Chen was slightly injured, and the ninth stage of the Earth Martial Stage caused his blood and Qi to boil, making him feel extremely uncomfortable. It took a lot of effort for Long Chen to completely

suppress his body, and at this time, Situ Yu was already laughing maniacally again, rushing towards Long Chen!

Until now, it was Situ Yu who had taken the initiative to attack!

Long Chen realized that the difference between the two of them was just too great. The only thing he did not use now was the [Twin Prints Converge], but he knew that he would never be able to kill Situ Yu no matter what.

Therefore, he had to make a breakthrough.

Otherwise, today would be the end of the line.

Thinking to this point, Long Chen took a deep breath as he concentrated his attention on the Monolith of the War God's in the Great Void Realm. He was only a little bit off from mastering the seventh stage of the Earth Martial Stage, and that was why he came out here.

"Who said that I, Long Chen, am not allowed to comprehend Monolith of the War God in battle?"

If others were to know of his current state, others would definitely have a bad impression of him. This brat was simply too heaven defying, facing a battle where his opponent was far stronger than himself, he actually had to split his focus to comprehend the Monolith of the War God.

"In my current state, only Blood Sacrifice will give me the power to defeat Situ Yu, but I cannot use it. The Monolith of the War God is my only chance!"

Long Chen's gaze was dark. At this moment, Situ Yu was rushing towards him, preparing to kill him in one go, and prepare to snatch away his 'Three Thousand Star Domain' in the shortest amount of time possible. As long as they acknowledged him as their master, even Bai Lan would have nothing to say.

Half of Long Chen's mind was immersed in the Great Void Realm, but the other half was focused on Situ Yu. The fist techniques of the figure among the Monolith of the War God, combined with Situ Yu's current fist techniques, gradually overlapped each other!

"Die!" Situ Yu used the first move of the Sky Demon Transforming Fist!

"Big Dipper Steps!" Under Long Chen's display, a huge star disk appeared on the platform, with golden runes shining brightly on the blue star disk. When Situ Yu's Heavenly Demon Transformation Fist exploded with great power, causing the entire platform to shake, Long Chen had already appeared on another star on the platform, his speed was so fast that everyone was left speechless.

Even Situ Yu himself was stunned.

"This is the Big Dipper Steps?"

"Be it the seven star body or the Big Dipper Steps, both are very heaven defying. Long Chen's luck is really too good to have obtained this thing."

"Does he want to keep dodging like this?"

After dodging Situ Yu's attack for the first time, Long Chen actually continued on like that, and did not even make a single move. Thus, when everyone saw this scene, on the platform, Situ Yu angrily chased after Long Chen, insulting him, mocking him, and wanted to punch Long Chen to make him retreat, but what made him mad was that Long Chen was able to dodge his attacks just in time!

While he was dodging using the Big Dipper Steps, Long Chen was still meditating on the Monolith of the War God, and was also pondering over Situ Yu's fist technique. No matter what, Situ Yu was already at the ninth stage of the Earth Martial Stage, so his Earth Martial Stage fist techniques, as well as the profoundness behind his every move, were of great help to Long Chen.

Time gradually passed by, and that certain doubt was quickly cleared up in Long Chen's heart.

If it was a normal person trying to comprehend the Monolith of the War God, Long Chen would probably need a few more days. And under such a nervous situation, with the help and pressure of Situ Yu's attacks, Long Chen's comprehension speed was extremely fast!

At this time, Situ Yu was already completely unable to endure it any longer. He suddenly stopped his steps, and after using the movement skill, Sky Devil Chaotic Dance, he rushed towards Long Chen with a loud bang, instantly arriving in front of Long Chen!

"Let's call it a day!" Situ Yu roared, and immediately, the black tornado enveloped him completely. The berserk energy completely surrounded him, and countless demonic figures appeared around him, circling around him!

"Heaven Demon Transforming Fist, tribulation of three lifetimes!"

This was the second move of the Heaven Demon Transforming Fist, which had a total of three moves. Situ Yu only knew the first two moves, after all, he was only at the ninth stage of the Earth Martial Stage, not the Heaven Martial Stage. To him, he would only be able to comprehend the last move of the Heaven Demon Transforming Fist after entering the Heaven Martial Stage.

With one punch, Situ Yu created three fist marks. These three fist marks formed countless demonic phantoms, and from three directions, they instantly appeared in front of Long Chen. The Heavenly Demon Transformation Fist that this guy used, had already completely surpassed Feng Zhilin's thousands of handprints.

And Long Chen, was in a situation where there was no blood sacrifice at all!

Just as Situ Yu was about to use the Heavenly Demon Transforming Fist, the Monolith of the War God in Long Chen's Great Void Realm also practiced the seventh stage of the Earth Martial Stage technique to the very end!

Finally, he withdrew his fist!

The illusionary figure's retracted fist was at the same time as Situ Yu's punch. In that instant, it gave Long Chen a feeling of enlightenment, and he felt that a barrier in his heart had suddenly opened up. This refreshing and carefree feeling had allowed Long Chen's martial soul to experience a huge leap forward!

The profound mystery of the Monolith of the War God, in addition to the pressure during her battle with Situ Yu, allowed Long Chen, at the final moment, to completely understand the fist technique of the seventh stage of the Earth Martial Stage!

After that, as long as he absorbed enough True Essence, his Martial Spirit would solidify, and he would be able to reach the seventh stage of the Earth Martial Stage!

However, at this critical moment, Situ Yu's Royal Tier Battle Skills had already exploded towards Long Chen!

Under this fist, because Long Chen had stopped at the moment of enlightenment, he could no longer use the Big Dipper Steps to dodge it. Long Chen was also a bit helpless in his heart, there was a price for everything, the price of all this was that he could reach the seventh stage of the Earth Martial Stage during battle, and the price of all this was that he could not dodge Situ Yu's attack.

#### Chapter 787 - Tribulations of Three Lives

Therefore, Long Chen was preparing to use Reverse Time at the same time as his maximum resistance was unleashed.

With the Time Reversal, as long as Long Chen did not die, he could adjust the time in his body to ten breaths. Although it was a little troublesome and dangerous, it was the only way.

Previously, Long Chen had only relied on his Big Dipper Steps to dodge multiple attacks, which was very impressive, causing everyone to have a slightly different impression of Long Chen. Just with his strength at the sixth stage of the Earth Martial Stage, he was already able to last this long on this island, and even play around with Situ Yu for such a long time, which already proved his strength.

The only regret was that his cultivation level was too low.

No one knew that while Long Chen dodged with the Big Dipper Steps, he was still meditating on the Monolith of the War God.

But at the last moment, when Long Chen was stunned, it was as if he could not dodge it.

"Victory and defeat are about to be decided, Long Chen is going to suffer."

"Although his performance is impressive, his strength is too low. It's already quite good to have such a performance ..."

At this time, Su Yan and Sanxue also couldn't help but look at their father. They wanted to hear from their father that even in this kind of situation, Long Chen still had hope, but what they saw was the heaviness and doubt in their father's eyes.

"He's breaking through!"

Suddenly, Bai Lan said.

His words stunned Lei Ji, as well as Susu and Su Yan. Long Chen actually made a breakthrough at this critical moment?

Although his breakthrough was shocking, but the problem was, even if Long Chen had broken through, so what?

Before he could break through, Long Chen was probably already dead.

The situation was extremely urgent.

Even Bai Lan had been prepared to make his move, he would definitely not let Long Chen die by his hands.

The first move of the Heavenly Demon Transformation Fist was indeed terrifying, Long Chen frowned, at the moment his martial spirit was quickly condensing, after his martial spirit has evolved, he would be able to have the true essence to match his realm.

Just then, the little kitten from Great Void Realm said, "Brat, you keep levelling up. I'll help fiddle with this brat."

Little Cat's words made Long Chen feel a lot more at ease. If he let Situ Yu attack him, although he had the time to go against the flow, he didn't know what would happen to him. Therefore, at this moment, with Nightmare like Little Cat doing it, Long Chen was completely at ease.

But this time, the Heavenly Demon Transforming Fist had nearly drowned Long Chen completely.

Right at this moment, the fluffy body of the kitten appeared on Long Chen's chest. Situ Yu, who was using the Heavenly Demon Transforming Fist, was startled by the sudden appearance of this thing.

Suddenly, he saw Long Chen actually using the Big Dipper Steps, and appeared on his left side!

"Such a fast Big Dipper Step, you can dodge even this fast. However, can you really dodge this?" Situ Yu let out a cold laugh. At this time, he suddenly changed the direction of his attack, and headed towards his left. In his sinister gaze, Long Chen was completely smashed into pieces by him!

"What about the 3000 star fields?" The sky was filled with flesh and blood, but there were no 3000 star domains. This made Situ Yu a little dumbfounded, but what made him even more dumbstruck was, in the end, even the flesh and blood disappeared.

"What's going on?" Situ Yu was dumbstruck. He shook his head, suddenly became clear-headed, and saw that Long Chen was still standing at his original position. He had changed the direction of his attack earlier, and had actually hit empty air!

Situ Yu didn't know what was going on, but the people below them were even more confused. Why did Situ Yu suddenly show mercy and not kill Long Chen?

The people of the demon race, especially the eight elders, did not understand it at all.

"Situ Yao, what happened to your grandson? If he could have killed his opponent, why did he change his direction of attack?" The few clan elders angrily asked Situ Yao, they thought it was Situ Yao's arrangement.

"I also don't know what this brat is doing," Situ Yao said somewhat speechlessly. He was already on the verge of succeeding, but he was extremely excited.

Situ Yao also couldn't wrap his head around it.

At this moment, he suddenly saw a small black kitten disappear into Long Chen's chest. Situ Yao searched through his mind for a long time before finally thinking of the demon beast's information.

"This is Nightmare, it can create illusions. Xiao Yu must have been hallucinating because of it, fortunately, it was still young, so this time, it must have used up all its energy. Xiao Yu can now kill Long Chen."

Situ Yao promised.

Hearing that it was a nightmare beast, the few ancestors finally understood. No wonder Situ Yao had dodged for no reason just now.

However, what happened next stunned them even more.

"Long Chen actually broke through to the seventh level of the Earth Martial Stage?"

"Yes, his true essence is rapidly growing!"

Everyone exclaimed, who would have thought that Long Chen would actually break through to the seventh level of the Earth Martial Stage during this battle.

Only Bai Lan and the others laughed. Bai Lan was clear about Long Chen's strength, the only thing he was weak of was his true essence, and right now, Long Chen's true essence was already at the same level as the eighth stage of the Earth Martial Stage. There were even many types of Royal Tier Battle Skills, so why would he need to be afraid of Situ Yu?

Endless amounts of spirit energy gushed into Long Chen's body and was devoured by him. He knew that after transforming into her own dragon soul true essence, his own dragon soul true essence had gradually grown stronger.

"Motherf \* cker, this god is so tired. This kid's martial spirit is so strong, and after a while, I will lose all of my strength. Boy, I'll leave this to you. You have to avenge this god."

Returning to the Great Void Realm, the kitten called out.

"Of course!"

The corner of Long Chen's mouth curled up into an evil smile.

The strength of the eighth stage of the Earth Martial Stage appeared within his body. The increase in the strength of his true essence caused Long Chen to increase in many aspects, especially this kind of true essence, which allowed him to have the strength to drive the seven star body.

He lightly clenched his fist, and an explosive force ignited within his body.

Long Chen had never felt that such a strong day would actually come!

Rumble rumble rumble!

The true essence swirled within his body.

Situ Yu turned his head, and saw an intense light burst out of Long Chen's eyes. That fierce and bloody light, and the purple cold light that belonged to the astral qi in his body!

"He actually broke through?" Situ Yu was stunned.

But he wasn't afraid.

"His strength is low, so even if he broke through, he would only be at the seventh stage of the Earth Martial Stage. Situ Yu laughed coldly, his body sweeping out once again. Using the fighting technique of the Sky Demon Dance, he looked like he was charging towards Long Chen from countless directions!

"Heaven Demon Transforming Fist, tribulation of three lifetimes!"

Once again, there were three fist prints, which contained countless demonic phantoms that whizzed towards Long Chen to kill him. The countless demonic phantoms let out trillions of screams, disturbing Long Chen's state of mind!

In Long Chen's hands, the Scarlet Emperor Burning Heaven Seal appeared!

The strength of fire of Golden Crow, added to the strength of Scarlet Emperor Burning Heaven Seal and the strength of Long Chen's seven star body, a three layered power suddenly exploded outwards. Although Long Chen's true essence was still a grade lower than his opponent's, in terms of strength, there was already no difference at all!

The Scarlet Emperor Burning Heaven Seal, a large fiery-red seal spun with a loud bang, colliding head on with Situ Yu's attack. This time, under the support of Long Chen's seven star body, the might of the Scarlet Emperor Burning Heaven Seal had even covered Situ Yu's tribulation of three lifetimes. With a huge explosion, the flames swept towards Situ Yu!

"How can he be so strong?" Situ Yu realized to his horror that Long Chen's attack had still suppressed him. He frantically rotated his body, and only after producing a set of huge black winds, was the flames able to separate from his body, but the powerful strength still caused it to roll a few rounds on the ground. Even the clothes on its body were burnt black.

"How is this possible?"

Aside from Bai Lan, almost the entire Demon race would support Situ Yu. After all, in their eyes, Long Chen was an outsider, a person who does not flow with the rich and the foreign, and they would rather Situ Yu possess the inheritance of Pure Snow and the Sevenstar Monarch than have him be Long Chen.

Seeing Situ Yu completely suppressing Long Chen, how did Long Chen suddenly breakthrough during the battle and suppress Situ Yu instead?

"He's only at the seventh level of the Earth Martial Stage. If he's actually able to suppress the ninth level of the Earth Martial Stage in a direct battle, then is the inheritance of the Sevenstar Monarch really that heaven-defying?"

Everyone's heart was burning with passion.

"Situ Yao, Situ Yu won't lose, right?" The other clan elders' faces darkened. They had planned for a long time for today, and if Situ Yu actually lost in the end, then their entire bodies would be empty.

"Don't worry, Xiao Yu still hasn't taken out his Myriad Transformations Demon Spear. Once the spear is out, no matter how strong Long Chen is, how could he be a match for him?" Situ Yao remained calm and wasn't worried at all.

Just now, Situ Yu was just careless. With the Myriad Transformations Demon Spear out, how could Long Chen be his opponent?

The enormous difference in true essence was not something that could be easily made up for.

Amidst everyone's anticipating eyes, Situ Yu slowly stood up. He looked at Long Chen with venomous eyes, took a deep breath, and smiled.

"Sure enough, you're my biggest enemy. You didn't disappoint me." Situ Yu laughed as if he was not worried that he would fail at all.

"Take out your Myriad Demons Spear. I know you have it." Along the way, Bai Lan had told Long Chen about the Situ Family's most valuable treasure, and Long Chen knew that Situ Yu definitely had it.

"You even know that?" Situ Yu's face darkened, he moved both his hands, and a pitch black long spear with an endless amount of demonic figures revolving around it appeared in his hands!

#### Chapter 788 - Victory or defeat

Sure enough, this Situ Yu had the Myriad Transformations Demon Spear.

It was as if 10,000 demonic phantoms were imprisoned within that tiny Myriad Demons Spear. Countless demonic phantoms howled from within this spear, emitting tragic roars. Long Chen could feel an overflowing amount of power from this Myriad Manifestation Demon Spear.

This was a negative energy, sinister and terrifying.

Just a moment ago, he was forced back by Long Chen, causing him to lose everything. Now that he looked at Long Chen, the anger in his heart became even stronger, and the fingers holding onto the Ten Thousand Devil Spear released a cracking sound. It was clear how much strength he had used.

It was as if there was a black vortex around the Eternal Demon Spear, sucking in all the surrounding light. Situ Yu danced with the Myriad Manifestation Devil Spear. Everywhere the Myriad Manifestation Devil Spear went, the surrounding light rays would be absorbed.

Seeing this Myriad Transformations Demon Spear, Long Chen thought of the invisible whip that Feng Zhilin had used back then. The power of the two was estimated to be about the same. invisible whip was the most precious treasure of the wind race, but he never thought that the Situ Family would have such a similar weapon among the demons. From this, it could be seen that the power of the Thunder Clan and the Thunder Clan was much stronger than that of the Thunder Clan and the Thunder Clan.

If he did not reach the seventh stage of the Earth Martial Stage, Long Chen definitely would not be able to deal with this Myriad Transformations Demon Spear, but the difference now was, he had already reached the eighth stage of the Earth Martial Stage.

"Let's call it a day."

Holding the Myriad Transformations Demon Spear, Situ Yu walked towards Long Chen step by step, and very quickly, he was standing ten meters away from Long Chen.

Ten meters away, Long Chen could already feel the sharp and sinister aura of the Myriad Devil Spear.

In front of everyone's eyes, Situ Yu raised the Myriad Demons Spear in his hand and pointed it towards Long Chen. Within the Myriad Demons Spear, countless demons roared.

When Long Chen stretched out his palm, both the Golden Emperor Seal and the Scarlet Emperor Seal lit up instantly. The Myriad Transformations Demon Spear in front of him, Long Chen had already used the fusion of two Great Emperor Seals, which was currently his strongest weapon. Of course, Long Chen could still use even more powerful things against Situ Yu, but against Situ Yu, he did not need that.

Ordinary people would be able to tell that the fusion of these two Great Emperor Seals was a very strong Royal Tier Battle Skills. But when Bai Lan and Lei Ji looked at each other, they could see many expressions of understanding in each other's eyes.

"As expected, his current attacks have both metal and fire attributes. He should be combining the attacks of the Golden Emperor and the Scarlet Emperor together. A double-attribute attack, the power of its outburst is unimaginable. "

"Sure enough, he possesses the aura of the Five Emperors. He is someone chosen by the Five Emperors."

The two of them discussed in low voices. Apart from themselves, no one else could hear their conversation.

While they were talking, they didn't see that among the Thunder Clan's seven disciples, two of them were no longer in their original positions. One of them had quietly circled to the Demon race, while the

other one had stopped not far behind them. The two of them looked at each other, and each of them stood very naturally.

And at this time, the final battle between Long Chen and Long Chen had begun.

Possessing the Myriad Manifestation Devil Spear was the last time they would be able to kill Long Chen, and was also the chance to obtain his three thousand star domains. Situ Yu madly revolved all the True Essence in his body and poured it into the Myriad Manifestation Devil Spear, and at this moment, a violent black light exploded out from the Myriad Manifestation Devil Spear.

Situ Yu's mouth flashed with a sinister smile.

Suddenly, his body charged towards Long Chen, and in the blink of an eye, he was already ten meters away from him. The Myriad Demons Spear in his hand, under his crazy movements, exploded with a violent power, endless power transforming into a myriad of demon mirages, sweeping towards Long Chen. Immediately, Long Chen discovered that the entire world was covered by this kind of devil shadow, and amidst its endless laughter, only a single point of suffocating starlight could be seen, thrusting towards the center of Long Chen's brows!

Long Chen knew that this was the Myriad Transformations Demon Spear!

At this time, the two Great Emperor Seals in Long Chen's hands had already fused successfully!

"Devouring Blood Realm ..." Long Chen had been enduring and not using it, just in order to give Situ Yu a little surprise at this final moment. In the final confrontation, Long Chen had suddenly used his Devouring Blood Realm, and a blood-red colored space instantly spread out around him, including Situ Yu.

"Is this the power of a Domain? It should be a domain type ability. "

Once they were inside the Heaven Martial Stage, Bai Lan and Lei Ji were very sensitive to such things. It could be seen with a glance that the Devouring Blood Realm contained a type of power that belonged to a region.

"Long Chen has this kind of 'Domain' type Divine Powers, so through using and familiarizing himself with this domain's Divine Powers, he actually already has a certain level of comprehension and comprehension towards the 'Domain'. Once he reaches the ninth stage of the Earth Martial Stage and

touches the 'Heaven's Martial Extreme Wall', he would probably be able to enter the Heaven Martial Stage much faster than others."

Bai Lan and Lei Ji both had the same thought.

However, they did not say it out loud, because Long Chen and Situ Yu was still in the midst of determining the victor.

Two killing moves clashed with a loud bang!

"Scarlet Emperor Burning Heaven Seal!"

"Golden Emperor Heaven Shrouding Seal!"

This destructive power suddenly exploded out from the dark space formed by the Myriad Manifestation Devil Spear. After Long Chen reached the seventh stage of the Earth Martial Stage, the explosive power was even more powerful than the one he erupted with during his blood sacrifice to the seventh stage of the Earth Martial Stage. Back then, Feng Zhilin used the Royal Tier Battle Skills to complement his invisible whip, but now, Situ Yu only used the Emperor Level weapon, the Myriad Manifestation Devil Spear!

When Long Chen imbued his True Essence into it, and even the Devouring Blood Realm's sudden suppression, it exploded with a loud bang. An enormous wave swept towards Situ Yu, and the golden and scarlet colored power mixed together into a long dragon, directly piercing through the black hole formed by the Myriad Manifestation Devil Spear!

Rumble rumble rumble!

The entire platform exploded with noise. No one could have imagined that a battle between two juniors would trigger such a powerful force. For a moment, everyone's faces were filled with shock.

Long Chen's eyes were filled with the explosive power of the two Great Emperor Seals. Under the explosive power of the two Great Emperor Seals, even if it was the Eternal Demon Spear, it did not last long before it was blasted flying by Long Chen!

"Impossible!" He possessed the body tempering technique of the Emperor level and the Myriad Manifestation Devil Spear had also resisted many of the might of the two Great Emperor Prints, so Situ

Yu had not died yet. However, as the immense power of Long Chen collided with the spear, a lot of destructive power had already surged into his body, causing his body to be in a mess.

Bang! With the sound of an explosion, Situ Yu's entire body was covered in wounds, even his handsome face had more bloody wounds, at the same time he had sustained serious internal injuries. Although he did not die, it was not easy for him to recover.

In such a heavily injured state, not only did Situ Yu feel disbelief, he also felt an endless amount of fear.

"I lost? I lost? I lost to Long Chen at the seventh stage of the Earth Martial Stage?" Situ Yu's mind was blank. When he had used the Myriad Transformations Demon Spear, he had never imagined that Long Chen would emit such a strong attack.

This sort of attack couldn't have been dangerous to him before, but now it was!

On one hand, Situ Yu was holding onto the hopes of the eight elders, on the other, he also had his own face. He had many subordinates of his, and previously, Situ Yu had boasted about his overbearing reputation in front of his own brothers, but now, he had lost to Long Chen.

At this time, Situ Yu was too ashamed to meet others. He wished that he could find a hole to hide in, and at the same time, the hatred he had for Long Chen grew!

"Long Chen!" Situ Yu's heart burned with endless fury. He held the Myriad Transformations Demon Spear, and at this moment, the attacks from the two Great Emperor Seals still had not dissipated. Adding the power of the Devouring Blood Realm, the people outside had not seen the battle clearly yet.

"No, I haven't lost yet!" "Even if I lose, I won't die. I lost to him once just because I wasn't careful. I still have a chance to make a comeback!"

Although he was injured, he still had a lot of true essence in his body. At this moment, Situ Yu had completely poured all of his energy into the Myriad Devil Spear, causing it to erupt with endless power.

Through the Spirit Devouring Demon Pupil, Long Chen found Situ Yu's location.

"You think you can't die?"

In Long Chen's heart, Situ Yu was a dead man.

Big Dipper Steps!

Using the Big Dipper Steps, Long Chen instantly arrived in front of Situ Yu. He was standing two meters in front of Situ Yu, and when Situ Yu suddenly saw him, he immediately took two steps back in shock. His face was filled with hatred, but deep down he was panicking.

"Long Chen, die!" The Eternal Demon Spear was once again thrown towards Long Chen!

"Who died?" Long Chen's mouth curved into a smile.

This time, Situ Yu didn't think that he would lose. At such a close distance and not even a hint of response from Long Chen, how could he resist the power of his Myriad Manifestation Demon Spear?

However, Long Chen's smile, gave Situ Yu an ominous feeling.

It was at this time that he saw countless stars appear on Long Chen's body. These blue stars quickly gathered in Long Chen's hands, and ultimately formed into a magnificent blue divine spear that overflowed with light!

This incomparably shocking Divine Weapon was precisely the 3000 Star Regions that countless people coveted for!

Seeing the 3000 star fields, Situ Yu was completely stunned. This was what he had always dreamed of, the appearance of the 3000 star fields made him even crazier, and he used all his strength to thrust forward!

Without saying anything further, Long Chen swung his hand and the three thousand star fields turned into a blue light that suddenly clashed with the tip of the Myriad Manifestation Devil Spear!

## Chapter 789 - Ultimate Strength Thunder Prison

At this time, the Devouring Blood Realm covered the entire surrounding. The great might created by the attacks of the two Great Emperor Seals and the Myriad Demons Spear completely shattered the platform on the ground. The flying sand and stones unexpectedly flew into the air, blocking everyone's vision for a moment.

What no one knew was that Long Chen was actually holding onto the three thousand star fields, and was stabbing at the Eternal Demon Spear together with it. Situ Yu used his last bit of energy, wanting to completely annihilate Long Chen and obtain the three thousand star fields.

Ding!

A crisp sound rang out, and then, Situ Yu saw a scene that made him despair. His face suddenly became incomparably pale, because he had already seen, from the location of the spearhead onwards, the Myriad Demons Spear actually started to shatter under the attack of the three thousand star regions. The black spear head first exploded, then the spear body, and the emperor level godly weapon Myriad Demons Spear, started to shatter bit by bit under the three thousand star regions!

"Impossible!"

Situ Yu opened his eyes wide.

"Nothing is impossible. Die." Long Chen's starfield of three thousand stars immediately shattered his Eternal Demon Spear and then stabbed into his heart, piercing through it!

Long Chen kept the three thousand star domains, and that Situ Yu's heart had already been completely destroyed by Long Chen's explosive power. Even his innumerable organs had been minced into pieces by Long Chen.

At this time, Long Chen finally withdrew from the Devouring Blood Realm, and the surrounding movements slowly disappeared. Everyone could clearly see what was happening on the stage.

When Long Chen took out the Three Thousand Star Domain, in just a short span of time, many people had already felt that kind of terrifying and swift power from the Three Thousand Star Region.

Long Chen was currently unharmed. However, many sharp-eyed people were already able to see that a large hole had been torn open in Situ Yu's chest, and bright red blood was gurgling out from the wound.

Situ Yu's vitality quickly disappeared, and when everyone discovered him, Situ Yu was already dead.

Long Chen had always been a clean and ruthless person. The moment he had struck his opponent, he had been merciless and immediately destroyed Situ Yu's entire life force, not giving him any chance to turn the tables.

The more victory was within his grasp, the more he wanted to beat the opponent to death!

At the beginning, everyone thought that Situ Yu would be the victor, and that there was no other possibility. Long Chen breaking through during the battle was already considered shocking, but who would have thought that not only would he break through, he would even directly kill Situ Yu in front of all the demons.

In this battle, many people guessed that someone would die, they wanted to obtain the Sevenstar Monarch's inheritance, so they had to kill Long Chen, but no one expected that the one who would die would be Situ Yu.

At first, it was a brief moment of silence, but then the loud noise that shot into the sky exploded. The most serious case was the demon side, and up until now, they had never considered Long Chen as one of their own. They had also previously entrusted all their hopes on Situ Yu, but who would have thought that Situ Yu would actually lose.

"Xiao Yu!" In just a short moment, Situ Yao didn't expect that his own grandson would actually die just like that.

The hope that he had painstakingly nurtured for so many years, had died at the hands of Long Chen just like that, suddenly disappeared! How could Situ Yao endure this in his heart? He was stunned for a moment, and then his eyes were filled with madness and hostility. His gaze of hatred quickly exploded from his eyes.

"You're courting death!" Situ Yao let out a furious roar as he crazily charged towards Long Chen. In a short moment, he had arrived beside Situ Yu.

"Long Chen!"

Raising his head, Situ Yao's bloodshot eyes stared straight at Long Chen.

Seeing this, Lei Ji moved and asked: "This Situ Yao is obviously going to attack Long Chen, should I go up?"

When he saw that Bai Lan did not make a move, he asked this question.

Bai Lan smiled mysteriously and said: "It's fine, we'll just stay here. That Situ Yu is no match for him even with the Myriad Devil Spear, do you still need to worry about him?"

Lei Ji thought about it, and felt that it was true.

What Lei Ji did not see was that, a strange light flashed past Bai Lan's eyes, not because of Long Chen, but because other people's strange movements had caught his attention.

At this time, with Situ Yu's death, a huge uproar suddenly occurred. Many people rushed towards the center, wanting to see what exactly happened, especially the people from the demon race, who were filled with righteous indignation, filled with rage. Their faces were filled with angry expressions, and shouted that they wanted to tear Long Chen into a thousand pieces.

Even if it was the Lei Clan's side, they were not at ease. Everyone started heading towards Long Chen's direction.

The originally quiet scene instantly turned fiery hot.

"Elder Situ, kill him!"

"He violated the rules, actually killing the Master, and killing him!"

In the middle of the demons, seeing that Bai Lan did not make a move, all of them started shouting, immediately becoming angry, wanting to put Long Chen to death.

Seeing his own grandson's miserable state, Situ Yao had long been unable to control himself, the anger in his entire body had exploded, and after he completely cleaned up Situ Yu's corpse, he looked at Long

Chen coldly. At the moment when everyone was at the most nervous, he suddenly attacked, he did not care about Bai Lan and Lei Ji being present, and once he attacked, Situ Yao was the killing move, the third punch of the Heaven Demon Transforming Fist!

Situ Yao's strength was not much stronger than the current Situ Yu, but in the past hundred of years, his position among the demons was still very high, unshakable, and even his contribution to the demons was quite large. In the entire Demon God Holy Dynasty, Situ Yao's prestige was extremely high, other than Bai Lan, no other person had a higher prestige than him.

However, just as Situ Yao was preparing to make his move, something unexpected occurred.

At this moment, in the Thunder Clan, one was near to the Demon race, and the other was near to Bai Lan. There were two of the seven children of the Thunder Clan, the chief elder of the Thunder Clan.

The speed of that beam of glistening teardrop light was simply too fast; the moment it appeared, it instantly appeared in front of Bai Lan and the various clan elders of the devil race!

"What the hell!" The sudden release of something from the Thunder Clan had a very powerful destructive power. For a moment, the searing and exploding lightning rays caused countless disciples with weaker cultivations to scream out one after another. Under the influence of the thunder and lightning, even if they weren't struck, they were still struck until their skin split and flesh split!

In these two attacks, one of them aimed to attack the remaining clan elders, the other aimed at Bai Lan and Lei Ji. Without saying a word, Bai Lan had protected his two daughters without making any other movements, and as for Lei Ji, he already knew what this thing was the moment it appeared. At this moment, his face had turned ashen, but that lightning bolt was extremely fast, and it suddenly exploded into a cage of lightning, trapping Bai Lan, Lei Ji and the other two completely!

"Who released the 'Thunder Prison'? Who used the final strength of our Thunder Clan?!" At this time, Lei Ji's anger had reached its peak, he let out a heaven-shaking roar, and those people nearby, other than those protected by Bai Lan, all took a few steps back from the shock!

Many of the weaker Thunder Clan members spat out blood due to Lei Ji's anger.

The ball of lightning was not an ordinary bolt of lightning, but a fierce bolt of purple lightning. The violent electric snake constantly flashed in front of the four of them, swallowing and releasing endless rays of cold light. The scorching power caused everyone to hurriedly dodge.

Even Bai Lan and Lei Ji were trapped for a moment, let alone the remaining clan elders on their side. At this moment, the few clan elders were completely trapped, and as for the disciples beside them, they weren't like Suxue and Su Yan, who were protected by Bai Lan. Under the encirclement of the purple colored lightning, several of them directly died.

After all, they had seen that even the Thunder Clan's Patriarch had been imprisoned by their Seven Scions!

"What is the Thunder Clan doing?" Everyone present had the same question in their hearts. They were all dumbfounded, Long Chen today had already exceeded their expectations, and the Thunder Clan that had lived together with the demons for so many years had a pleasant surprise?

"Thunder Clan's Seven Children!" What are you doing? " There were a lot of people in the Thunder Clan who were not aware of this, but this was a conflict between Lei Ji and the Thunder Clan's Seven, and they were all super heavyweights of the Thunder Clan, representing the conflict between the two large factions of the Thunder Clan. The Seven were deeply rooted in the ThunderClan's victory, and Lei Ji's victory lay in his strength.

At this time, seeing that such a thing had happened to the Thunder Clan, even Situ Yao, who was on the platform, stopped his hands for a moment. At this time, among the demons, other than Situ Yao, the remaining sect elders were all imprisoned.

It was obvious that the Thunder Clan had used such a method at this time. They had used two out of the five Thunder Prison s to trap the patriarchs of the two great clans. They had paid such a huge price; they definitely had a goal.

Their goal, was undoubtedly the Sevenstar Monarch's inheritance.

At this moment, the seven members of the Thunder Clan stood in front of Lei Ji. They looked at him without fear, and facing Lei Ji's devouring gaze, one of the elders walked out, saying in a clear voice, "Patriarch, the Thunder Clan has been enduring under the pressure of the demons for too long, but you, as the Patriarch, are completely unaware of it. Thus, we did not expect you to today.

## Chapter 790 - Sky Devil Meteor

The sudden turn of events was out of everyone's expectations. At this moment, everyone's gaze was on the Lei Clan's Seven Scions, who were currently standing in front of Lei Ji, looking at him with shimmering eyes, waiting for his reply.

Lei Ji's face had always been ashen. After hearing what they had to say, Lei Ji gritted his teeth and suddenly shouted, "I'll spare your lives after receiving this' Thunder Prison '! "Otherwise ..."

As he spoke, he clenched both his fists tightly, and instantly, bolts of lightning twined in his arms. Rays of purple electric snakes flicked their tongues, and hissing sounds could be heard, as a terrifying aura erupted from Lei Ji's body. This was a type of domain's power, and once Lei Ji reached the first level of Heaven Martial Stage, he was able to begin to use the 'Domain'!

This terrifying aura caused the Thunder Clan's Seven Scions's expression to change. Without needing Lei Ji to reply, they could already tell what Lei Ji was thinking from his actions.

"Spread out! Don't get near their territory!"

At the same time, they looked at each other, and a sharp cold light exploded from their eyes. Then, every single one of them said nothing as they rushed towards Bai Lan and Lei Ji, in the direction of Long Chen.

The power of the Domain was mainly manifested in terms of suppressing its members, not attacking them. It was difficult for Bai Lan and Lei Ji to come out from the Thunder Prison, so they were also unable to attack them.

Looking at this scene, Lei Ji was so angry that he almost exploded. He roared a few times, but everyone in the Thunder Clan only feared this patriarch because of his strength. With regards to the seven sons of the Thunder Clan acting together, everyone else could only watch. After all, under the protection of the devil race these past few years, the Thunder Clan had been safe, but they had also lost their freedom, especially the disciples of the younger generation, who were often bullied by the devil race's disciples.

"Thunder Clan's Seven, you are courting death. Once the effects of the Thunder Prison have passed, I, Lei Ji, will definitely teach you a lesson!" Lei Ji's angry voice did not stop, upon hearing the Heaven realm expert's roar, everyone felt a chill run down their spines.

Lei Ji's face was filled with anger and unwillingness, but what exceeded everyone's expectations was that Bai Lan didn't have any expression at all. At this moment, he stopped Lei Ji with a smile and whispered into his ear, "Brother, don't be too agitated, we'll watch first."

Lei Ji turned his head, seeing Bai Lan, who was supposed to be even more angry and shocked than him, yet didn't change his mood over this matter, his expression still remained indifferent. It was only now that Lei Ji, who could do anything to him, had thought that Bai Lan, who could do anything, might have a solution of his own.

Thinking of this, he heaved a sigh of relief in his heart. However, he still said with a helpless tone, "Brother Bai, I've let you down this time!"

"I should be the one apologizing, they were right. The Thunder Clan and the Demon race were originally brothers, but I did not restrain my subordinates' actions, nor did I let them establish the correct view. Today is a good opportunity, letting our two races unite even more."

Seeing Bai Lan's smiling face, he finally understood what Bai Lan was thinking. At the same time, it was very likely that Bai Lan had already guessed what the Thunder Clan was about to do. Amongst the other races, Bai Lan was an existence that caused everyone to tremble in fear. Having such brains and scheming mind was also one of the reasons for his success.

"Brother Bai, I'll do whatever you say." Lei Ji thought for a while and said. His and Bai Lan's relationship had been deep-rooted since they were young. However, they had sometimes focused on themselves, thinking that any one of the two races could get along with each other. They never expected that there would still be many flaws and contradictions between them.

Hearing that Bai Lan had a solution, Lei Ji relaxed a lot. He looked at the Thunder Clan's Seven Scions, who were currently heading in Long Chen's direction.

Therefore, at this time, they had already encircled Long Chen and Situ Yao from seven different directions. At this moment, Situ Yao was looking at Long Chen, and then, he vigilantly stared at the other ThunderClan Seven as he continuously turned his eyes, and was thinking of a way to deal with them.

The current scene was because the Thunder Clan had exhausted two of their final strength, the Thunder Prison s, and successfully imprisoned the demon forces. Now that the seven children of the Thunder Clan had taken control of the scene, only Situ Yao was left standing outside the door.

"Situ Yao, you can go. Although the Thunder Clan's actions today were out of your expectations, we, the Thunder Demon Clan and the Thunder Demon Clan have fought together many times and can be considered brothers. We did not have any intention of killing them, after we obtain the inheritance of the Sevenstar Monarch, we will immediately leave. "

At this time, the leader of the Thunder Clan's seven sons, Lei Yuan said.

All they wanted to do was to obtain the inheritance and strengthen ThunderClan so they would no longer have to rely on the demons to survive. If they were to kill Situ Yao, how would they let ThunderClan off when Bai Lan escaped from the Thunder Prison?

Hearing that they did not dare to kill him, Situ Yao heaved a sigh of relief in his heart. His eyes quickly turned and thought of a solution, but at the same time, he stared at Lei Yuan and said: "Brother Lei Yuan, you have temporarily imprisoned my demon experts, so I alone am not your opponent. Therefore, I will not resist.

At this time, there were already people from the demon race talking about Situ Yao, but they did not dare to say it out loud. Furthermore, Situ Yu was not wrong, it was just that he wanted to keep his life, and more importantly, as the Patriarch, Bai Lan did not have any expression at all. He was just a clan elder, he did not need Situ Yao to die needlessly.

From start to finish, Bai Lan did not express any objections, and had even made everyone forget that this person was already at the second level of Heaven Martial Stage, and had even inherited the Demon God Emperor's legacy.

"Situ Yao, what request do you have?" Lei Yuan did not want to waste time, he just wanted to kill Long Chen and get the inheritance as soon as possible. After Long Chen dies, they would have the Sevenstar Monarch's inheritance in their hands, at that time, they would want to see if the Demon Clan would fight with Thunder Clan. If they fought desperately, there was a possibility that the Thunder Clan would perish, but the Demon Clan would not have a good ending!

The Thunder Clan was also betting on this. The Demon race did not dare to fight with their lives on the line at this time. After all, the Archaic Graveyard had three big powers. Wind God's lineage and Five Elements Alliance were not easy to deal with. If they started an internal conflict, the result would be annexation by the other two powers. At that time, the gains would not make up for the losses.

Situ Yao did not hesitate, and directly said: "This Long Chen took my grandson's life, I will personally kill him, but I will not take the Sevenstar Monarch's inheritance! If you don't let me kill Long Chen, today, I, Si Yao, will fight you to the death. Even the demons will fight you to the death! "

Situ Yao only represented his own interests, and dragged the entire Demon race into this, but Bai Lan did not say anything, so it did not count. What made everyone curious though, was that Bai Lan did not say a single word, and even when his precious son-in-law was about to be killed, he still had a calm and collected expression.

This made everyone unable to understand Bai Lan's thoughts.

Even his two daughters were half dead from anxiety, but Bai Lan was not anxious at all. There was another person who was the same as Bai Lan, and that was Long Chen. Similarly, Long Chen had a calm expression, looking at Situ Yao and the Thunder Clan's Seven, they both had the battle prowess of the ninth stage of the Earth Martial Stage. But it did not cause Long Chen's expression to change.

Lei Yuan said coldly: "Situ Yao, you better hurry up and finish this quickly, we don't have any time to waste with you. Also, with the Sevenstar Monarch's inheritance, if you bump into it, then it will only end with your life. You know that we have already reached this point, there is no path of retreat."

"Done!" You do not need ten breaths of time! "

The Thunder Clan's approval filled Situ Yu's eyes with excitement. The Sevenstar Monarch's inheritance was very far away from him, but to him, it was enough to kill Long Chen and take revenge for his grandson.

After he finished speaking, under everyone's shocked cries, Situ Yu directly charged towards Long Chen without a second word. He had originally planned to use this move to kill Long Chen.

"Sky Demon Transforming Fist, Sky Demon Meteor!"

This was the last punch of the set of fist techniques, the last punch of a low level Emperor Level battle skill, suitable for warriors at the third level of Heaven Martial Stage. However, Situ Yao's talent was not low either.

With an explosive sound, Situ Yao's fist suddenly pierced forward. That black light exploded into thousands upon thousands of fist silhouettes, condensing into a dot that was between Long Chen's eyebrows. On that dot, Long Chen saw a huge devil shadow moving towards him, engulfing him at this moment, and that bloody mouth instantly appeared in front of Long Chen!

Weng! \*

The surrounding space trembled for a moment under this punch. The Seven Great ThunderClan's disciples looked at each other in dismay. They were all shocked by this powerful force. They had no choice but to retreat a few steps in order to eliminate the impact of this attack on them.

"Prepare to fight for the inheritance of the Sevenstar Monarch, to prevent Situ Yao from cheating!" Lei Yuan secretly reminded the other Elders.

In their opinion, with this kind of fist technique, Long Chen definitely did not have any chance of surviving.

In front of everyone's eyes, he had turned into a beautiful blue spear that overflowed with vibrant colors. Under Long Chen's control, this spear imbued with all of his strength, and instantly exploded towards Situ Yao!
