

War God 801

Chapter 801 - Final breakthrough

"Go to hell!" Without saying a word, Feng Zhilin whipped the invisible whip in her hands towards Long Chen.

Under her rage, her movements were extremely quick, of course, Bai Lan and the others could totally block it, but Bai Lan and the others did not help, after all, they could totally block such a small attack.

The invisible whip was scared witless by Long Chen just now, but it was not scary anymore. With the seven star body and Long Chen's own perception, he reached out and grabbed the invisible whip!

Pah! -

The strength of the invisible whip could not be underestimated. Although Long Chen had grabbed hold of the invisible whip, a few small scars appeared on his palm. Of course, these scars were nothing big to him.

As he held onto the invisible whip, Long Chen let out a cold laugh, and suddenly exerted his strength. Feng Zhilin instantly cried out in alarm, and his entire body was pulled by Long Chen, flying away as an irresistible force came from Long Chen's arm!

"Since when did this brat's strength become so strong?" The invisible whip was the treasure of the wind race, so she naturally could not let go of it. She was tightly holding it, and just as she was worrying, Wu Guangyu grabbed onto her waist from behind.

"Idiot." When the opponent's power reached its maximum, Long Chen lightly released his hand, and immediately, Wu Guangyu and Feng Zhiling fell together. Of course, they did not actually fall, but they were still in a sorry state.

"Scram!" Feng Zhilin's temper was not small, it was the first time she was hugged like this by Wu Guangyu, her whole body was hot and dry, in front of a large crowd, her face was thin, and she immediately pushed Wu Guangyu away.

Wu Guangyu stood up, her eyes cold, but he did not say anything. However, from his eyes, it could be seen that he was still quite angry at Feng Zhiling for not giving him face. He just didn't show it.

The geniuses of the Wind God Clan and the Wind God Clan were all easily toyed with by Long Chen.

Long Chen's performance today was simply too heaven defying. The eyes of the youths from the Thunder Devil Clan and Thunder Demon Clan were filled with admiration.

"Long Chen, how is it?"

"Big Brother, are you alright?"

Compared to Feng Zhilin's cool and prideful look, Pure Snow was seductive and sexy. On the other hand, Su Yan was extremely refreshing, right and left, the two sisters stood beside Long Chen and asked him how he was doing. Long Chen's face was filled with concern, for him to be able to enjoy such blessings, it was extremely enviable for the bystanders.

The three of them got along harmoniously. Compared to Wu Guangyu and Feng Zhiling, there was a huge difference between the two of them, which made Wu Guangyu very angry.

"Alright, stop embarrassing yourself. See you on the Everlasting Battlefield." Feng Zhiling did not teach Long Chen a lesson, nor did she snatch back what belonged to her. Naturally, she was extremely unreconciled, but even if she dared to disobey Feng Qing's orders, she did not dare to disobey Wu Lian's orders. She knew how terrifying this woman was.

Therefore, they could only stare at Long Chen hatefully before leaving with dejected expressions.

Very quickly, the people from the Wind God's lineage left the Cyanwood Heaven City. After they left, Bai Lan ordered the other people who were watching to return.

For a long time now, the people of the Thunder God and the two races had always been quite hostile towards each other. In the Realm of Myriad Kingdoms, the two races were known as the representatives of justice, and to the people of the Realm of Myriad Kingdoms, they instilled the thought that the two tribes of the Thunder God and the Thunder God were evil. But today, Long Chen had actually made them eat such a big turtle. And most importantly, after being humiliated by Long Chen again and again, they could only bear with it and leave. This kind of feeling was simply too great for them.

His good impression of Long Chen also gradually rose.

They suddenly discovered that this young man who had suddenly risen to prominence also had a very cute side to him. Even if there were two princesses surrounding him, the others would not be so interested.

Under Bai Lan's orders, they gradually left, leaving only the members of the Thunder Clan and the Thunder Clan present.

If she stayed here, she would most likely make her move. Long Chen, oh Long Chen, you are not simple at all, up until now when I have been fighting with Wu Lian, I have only seen you being the only one who has angered her. " Bai Lan didn't seem to have that kind of nervous atmosphere at all, and said while chuckling.

Other than him, the others all had heavy expressions.

Lei Ji continued to speak: "Wu Lian is quite a scary woman, she is definitely a genius and a pervert. Don't think that she is a girl, in terms of temperament and methods, there are not many people who can compare to her. Long Chen, you made her watch you, it's best if you don't leave us two, otherwise it will be really troublesome."

"Is this woman good here?" If even Lei Ji had such a high evaluation of him, then Long Chen would definitely remember it.

Of course, he would do it again.

Mo Xiaolang left again, only knowing that he was safe. Furthermore, he had also obtained a lot of benefits. Now, all he had to do was seriously cultivate and strive to break through to the eighth stage of the Earth Martial Stage.

"Father, that Wu Guangyu is at the ninth level of the Earth Martial Stage, and he also has a divine weapon of the same rank as Big Brother — — Divine Sword 'Blue Lotus'. Today, Big Brother has made them angry, so when you guys go to the eternal battlefield, will he kill Big Brother?" Su Yan had always been thinking about this question.

This was indeed a problem.

Although the clan elders knew that Long Chen was strong, he was evidently stronger. With their vengeful nature, when they fought in the Everlasting Battlefield, if they had the chance to do so, they would definitely not let Long Chen go.

Bai Lan smiled as he looked at Long Chen. He needed Long Chen to answer this question.

Long Chen revealed a smile and said: "Yan Er, don't worry, they are all idiots. No matter how strong they are, they are not your big brother's opponents. "Pa, pa, pa, pa, pa!"

Su Yan burst out laughing as the worry in her heart disappeared. Smiling, she scolded, "Big brother is so bad!"

Speaking till here, everyone should return, but Long Chen had thought of a new cultivation method, and that was to use a domain 'to train himself. After he told Lei Ji and Lei Ji his thoughts, they were all very willing to help.

Lei Ji laughed: "Brother Bai, you are so abnormal, if he were to release his' Domain ', it will be enough to crush you to death. Let me do it, under my control, you can at least practice your fist arts. There are still twenty or so days left. From today onwards, I will use my 'Domain' to assist you in your cultivation. "

"Then, I will have to thank the Lei clan head." Long Chen said gratefully.

"Don't, don't be so distant, just call me Thunder uncle. Anyway, you are going to marry Old Bai's two daughters." Lei Ji said with a smile.

"..." Long Chen was a little speechless. He knew that Lei Ji was joking, so he did not take it seriously.

If we don't give them a chance to show our might, they would think that we are truly easy to bully. However, the conflict between the two powers, one day, will be resolved, and that will be the Everlasting Battlefield for over twenty days. You are currently not Wu Guangyu's opponent, so for the sake of our Thunder Demon Clan's glory, you must work even harder these few days. "

Long Chen nodded, then asked: "Then where is the eternal battlefield?"

"The Archaic Graveyard is divided into five main regions. If the Archaic Graveyard is a circular region, then the Five Great Regions are fan-shaped areas. This is a desolate area, it has nothing to do with metal, wood, water, fire, and earth, but it's not a big area. Our young Nine Clan Martial Arts Competitions are all held here." Lei Ji explained.

Long Chen finally understood.

In the next moment, Long Chen and Lei Ji mixed in. Under the suppression of his "Domain," Long Chen indeed found a fast cultivation path.

Twenty days passed in the blink of an eye.

Very quickly, Long Chen had already treated Su Yan's injuries for the final time. After today, Su Yan had truly recovered.

However, the person who had wounded her was still a mystery.

Who were these six mysterious people? They were so powerful, and how did they come to the Archaic Graveyard? What was their purpose here?

What kind of power operated the Archaic Graveyard?

Everything was an unknown number.

Long Chen knew his own goal, he wanted to go to the Three Great Imperial Domains, but where was the passage to the Three Great Imperial Domains?

In the blink of an eye, half a year had already passed since he had arrived at Archaic Graveyard.

There was still half a year until the closing of the Archaic Graveyard. If Long Chen was unable to find the passageway during this half a year, he would have no choice but to return.

Of course, he would never be willing to go back.

"Big brother, Yan Er has already recovered. Are you going to leave?" Su Yan pulled at the corner of his clothes, her eyes glistening with tears.

"Who said so? The Archaic Graveyard is still half a year away from closing." Long Chen patted her pink cheeks and laughed.

"Yeah yeah, I thought you were going to look for Big Sister Ling Xi." Su Yan said with a beaming smile.

Although he did not want to leave, Long Chen had to make a trip to the Everlasting Battlefield, and this was already the day to set out. A portion of the elites from the Thunder Clan and Demon Clan stayed behind to guard the Greenwood Sky City, while the others followed Bai Lan to the Everlasting Battlefield.

Because Su Yan was young and inconvenient, she was also left behind in the Greenwood Sky City. Because Suxue was going to fight, so she was with Long Chen, accompanied by the three clan elders of the devil race and a few members of the Thunder Clan's Seven Scions.

At the same time, Long Chen also saw Thunder Clan's two participants.

Chapter 802 - The Everlasting Battlefield

The two Lei Clan participants were a pair of brothers. They were both Lei Ji's sons, and were a little older than Long Chen, although they were only in their twenties, they were already close to forty years old.

By the time they reached the ninth stage of the Earth Martial Stage, they would have a lifespan of nearly five hundred years. Therefore, even though they were already forty years old, they could still only be considered to be of the younger generation. And this time, the age limit for the nine clan young Martial Arts Competition s was also below forty years old.

Generally speaking, being under fifty years old is the best time to cultivate. After being over fifty years old, if one did not break through the Heaven Martial Extreme Wall and reach Heaven Martial Stage, it would be difficult to reach Heaven Martial Stage in one go. For example, for the elders of the eight great sects, it would take a very long time to reach the ninth stage of the Earth Martial Stage, but they have already lost the chance to break through to Heaven Martial Stage in a short time.

The ninth stage of the Earth Martial Stage was their final strength. On the path of cultivation, one could only advance and retreat, and with their daily cultivation, they could only maintain their own strength and not regress. As for improving, it would require a lot of fortuitous encounters.

For example, Long Chen's inheritance was a fortuitous encounter. It was only because Situ Yao saw the opportunity to see the Heaven Martial Stage that he would give it his all.

At this time, two tall and muscular youths, who looked to be around twenty years of age, stood in front of Long Chen. These two men were not twins, but they were around three or four years younger. However, their cultivation bases were both at the ninth stage of the Earth Martial Stage. As the sons of Lei Ji, it wasn't strange for them to reach the ninth stage of the Earth Martial Stage at this time.

Amongst the other races, there were some who had reached the ninth stage of the Earth Martial Stage before the age of forty. However, even though they were both at the ninth stage of the Earth Martial Stage, there was a difference in strength between the two of them, and the two men in front of them, without a doubt, had received Lei Ji's teachings, regardless of whether it was in terms of cultivation or fighting strength, they had both reached an extremely deep realm.

The man who looked slightly taller and thinner, was the older brother of the two brothers. At this time, he smiled at Long Chen and said: "I'm Big Brother Lei Wen, Lei Wu and I were training outside during an interview a few days ago and we just returned a few days ago. We brothers only heard about your great name a few days ago.

The taller and more muscular man also laughed heartily: "That's right, just the seventh stage of the Earth Martial Stage was able to kill two experts of the ninth stage consecutively, and even break through the encirclement of the Thunder Clan's Seven Scions. Hearing your legend, we two brothers admire you very much. "

"Thank you brothers for your praise." Lei Wen was quite similar to Lei Wu, he was the type of person who was easy to get along with.

"Don't praise him anymore, be careful that he is arrogant, and he will suffer a crushing defeat in the Everlasting Battlefield." Pure Snow laughed coquettishly on the side. She was wearing a black gauze dress. It was sexy and alluring. A large area of snow-white skin was exposed on her chest. It was really eye-catching.

Looking at the tempting Pure Snow, Lei Wen looked at Long Chen with envy and said: "I really envy you, such a beautiful girl like Gu Xue is my brother's dream, I never thought that you would be taken advantage of."

These words caused Suixue's face to turn red, and her plump earlobes to turn red.

After saying that again, under the lead of Bai Lan and the others, Long Chen and the others set foot on the road to the eternal battlefield. Behind Long Chen, the little girl Su Yan blankly watched him leave, her shining eyes filled with tears.

It had been a full three months since he came to this Greenwood Sky City, and in these three months, Long Chen had undergone an incomparably huge transformation. As for how much he had improved, only he knew. After walking in from a nameless place, when he came out, Long Chen had already become a big shot who was famous throughout the entire Archaic Graveyard, especially during the conflict with the Wind God's lineage.

The Everlasting Battlefield, at the center of the Five Great Regions. Under the watch of Bai Lan and Lei Ji, over a dozen people flew in the direction of the Everlasting Battlefield. Those who could participate in the battle, other than Long Chen, were basically all at the ninth stage of the Earth Martial Stage.

The speed of each person's movement was very fast. They advanced forward through the quiet forest one by one. It was difficult for ordinary warriors to see their figures clearly. They could only feel shadows passing by.

No matter if it was the demon beasts or the spirit medicine, they could not stop the people's footsteps. After all, for ordinary spirit medicines, people like Bai Lan basically looked down upon them, and true treasures would not casually appear in the forest. As for powerful demon beasts, Long Chen had never encountered them before.

Along the way, there were quite a number of small demon beasts, but those demon beasts with some intelligence would immediately flee after smelling the auras of Long Chen and the group of Rankers.

Along the way, Bai Lan and Lei Ji walked at the very front, with Lei Ji's son following closely behind his father's footsteps. At this time, Lei Wen came up behind Lei Ji and asked softly, "Father, Brother Long Chen has trained for more than twenty days under your 'Domain', but has he managed to break through the eighth level of the Earth Martial Stage in the end?"

Lei Ji laughed as he walked: "What do you think?"

Lei Wen was startled. He smiled bitterly and said: "How would I know about this. In the late stage of the Earth Martial Stage, the more difficult it was to break through, and even if I had a Monolith of the War God, I reckon that it would be difficult. Long Chen had to increase his profound strength by several levels consecutively in a short span of three months, I really don't believe that when I went from the seventh stage to the eighth stage of the Earth Martial Stage, I had to use almost three years of time. "

Lei Ji said: "Idiot, just because you can't do it, doesn't mean others can't. It's not like you don't know the power of my 'Domain'. Under my full strength, he was able to endure for more than twenty days without even furrowing his brows. Such a person, do you think he's far from success? "

Lei Wen seemed to have thought of something and thanked his father. The two brothers looked at each other with a hint of admiration in their eyes.

Long Chen was still advancing forward while being escorted by the crowd. Although his Innate True Origin was not as strong as the others present, he had the advantage of being in the seven star body. Using strength from his legs on the ground, Long Chen's speed would not be slower than anyone else.

As time passed, the Aeonian Battlefield would arrive very soon. Long Chen raised his head and looked forward. He had a feeling in his subconscious, and that was that the Little Wolf's aura was getting closer and closer to him. This time, Long Chen was going to completely rescue the Little Wolf, and at the same time, there was also a very precious present that he wanted to give Wu Guangyu.

In Long Chen's heart, he had already engraved the death penalty on Wu Guangyu.

When he first entered the Archaic Graveyard, Wu Guangyu snatched away the little wolf, and almost killed Long Chen. Long Chen would never forget this grudge, it was because he lacked strength back then, and now it was his time to make a comeback.

"Long Chen, are you confident in dealing with that Wu Guangyu?" Pure Snow suddenly asked from the side.

Long Chen looked at the enchanting youth, and laughed softly: "It's still too early to say all this, you can just watch. However, what is the pattern of a young Martial Arts Competition of the nine clans like this?"

"

Previously, Long Chen had been busy with cultivation, but this was the true method that he needed to ask about.

"Within the nine clans, each clan sends out two young experts who are no more than forty years old. The nine great clans have a total of eighteen people. But this time, the Martial Arts Competition would only decide on a champion, and only the champion was the most important, otherwise, even if he won the second place championship, he would still not be able to win. Only the champion would be able to get one of the places in the Five Emperors Secret Realm that the Long Beard Man held onto the Yellow Emperor's key. To any clan, any power is saying that a single entry can affect the final destination of the treasure. "

"So that's how it is. Of the eighteen people, how did they decide on the first place? A one-on-one match?" Long Chen asked.

"That's not it. There are a total of two rounds. The first round requires 10 people to be eliminated. The last 8 people will then begin their 1st-1v1 match."

Long Chen asked: "Then how do we eliminate those ten people? What is the pattern for the first round?"

From the start of his cultivation to now, Long Chen had experienced many competitions. What was interesting was that many battles were also divided into two rounds.

"This first round, rather than calling it a competition, it would be better to call it a game." As she spoke to here, her expression became heavy and her willow-leaf-like eyebrows lightly knitted together, giving her a sense of beauty.

"How can it be considered a game now? "Is it dangerous?" Long Chen asked.

"The danger is indeed very dangerous, and to us, the first round of the competition is extremely disadvantageous. The people from Five Elements Alliance made the rules for the first round, and they benefit the most from it." Pure Snow disdainfully said.

She paused for a moment, then continued, "At the center of the Everlasting Battlefield, there is a desolate, nameless city, and this is a vast expanse of ruins. In the beginning, eighteen of us were arranged to enter this ruin, but this ruin has a natural maze, even those who are familiar with it would get lost, we were split up and sent to that place, and in this huge city, we would meet randomly, and random battles would occur, and the battle would inevitably end with a victor and loser, until the final eight of the ruins, and the first round would be over."

Long Chen was shocked, and asked: "Little girl, are you saying that ten people must die in this first round?"

"Of course not." "No one is willing to let others kill us, so when the game starts, we will have a kind of Divine Void Symbol planted on our bodies. This is a type of magical rune, a type of protective shield that protects our entire body, as long as our body experiences an attack that surpasses the limit of what we can handle, the Divine Void Symbol will instantly activate and send us out of the ruins. If there are no accidents, there should not be any danger."

Chapter 803 - Divine Void Symbol

"Divine Void Symbol?" Long Chen slightly noted it down.

"The advantage of this battle is that there won't be any casualties, and in many places, it's very obvious, think about it, in Five Elements Alliance, there are a total of five races, which means there are a total of ten of them, and as long as they meet in the ruins, they will form an alliance, becoming allies. In the end, all ten of their Five Elements Alliance's people will come together to sweep the other people away, how can we be opponents?"

"In the Wind God's lineage, there are characters like Wu Guangyu that they are wary of, or maybe they are a little afraid of, but our situation is different, so after we arrive at the ruins, we have to first learn how to endure, be low-key, and maybe even get the chance to become one of the top eight."

It would be a good idea to trap the eighteen of them in a place with a natural maze. Long Chen knew his current strength, so he was quite confident. He wasn't afraid of this war of ruins.

"Your strength is a bit stronger than mine, so you have to hide well. If I lose to the united Five Elements Alliance and that Wu Guangyu, the hope of the demons will be in your hands." Traces of worry were enveloped between Pure Snow's coquettish eyes.

"Alright, it hasn't happened yet. Don't worry, your father said that he would look at me this time. You go and make some soy sauce so that others can admire your beauty." Long Chen said with a slightly mischievous smile.

"You're so annoying!" Pure Snow stared at him with a slightly rebuking look.

Long Chen stopped smiling and continued to ask: "The remaining eight people will probably fight two or three battles, a total of three battles, and finally decide on the champion and runner-up, right?"

"You're right. Even if you make it into the top 8, you'll still have to go through three battles, one battle after another. How long you can last at that time will depend on your luck and your strength."

Eight in four, four in two, and then it would be the victor of the battle. Long Chen calculated, if he was lucky enough to meet only one opponent in the middle of the ruins, then he would probably have to fight four consecutive battles.

Under Bai Lan and Lei Ji's watch, nothing happened on the way, and very quickly, Long Chen already felt that he was about to leave the Greenwood Region. That Everlasting Battlefield, was located in the center of the Five Great Regions, outside of the Greenwood Region.

Roughly seven or eight days later, they finally arrived at the Everlasting Battlefield.

"According to the rumors, the Eternal Battlefield is the place where the Five Emperors lead the experts of the Realm of Myriad Kingdoms to fight against the invaders. It is said that there are countless corpses here, a sea of bones, but these are just rumors. Lei Wen and Lei Wu were currently advancing by Long Chen's side. Lei Wu happily explained to Long Chen among them, since he didn't feel nervous at all like when the great battle was about to start.

Although the Bone Sea does not exist, the battle that caused the five emperors' deaths still exists. The mysterious invaders who fought against the five emperors had long since known of their identities. They are the people of the Three Great Imperial Domains. To us, the Five Emperors War is an intense defense battle. However, to the vast Three Great Imperial Domains, it can only be considered a small interlude. "

Long Chen did not go to learn about this secret passage. It was only now that he found out that the great battle that had occurred in Middle Paleogene was actually like this. Long Chen had thought that it was an internal conflict, so it turned out to be an expert from the Imperial Domain.

To the Realm of Myriad Kingdoms, the Imperial Domain was just too strong, so even now, the Realm of Myriad Kingdoms was still under the control of the Imperial Domain and the Five Emperors had already fallen. This meant that the Realm of Myriad Kingdoms had actually lost that battle that year, right?

With this, Long Chen became even more suspicious of the mysterious people that appeared in the Archaic Graveyard, suspecting their identity. Who exactly were they? What was his purpose in coming here?

All of this was a mystery!

After a while of travelling, as he wished, the Everlasting Battlefield finally arrived. After passing through layers upon layers of forests, what appeared before Long Chen was a barren land. This kind of desolation was actually a type of desolation, the environment wasn't bad, but it was filled with desolation, and there was no signs of human habitation.

Waves of cold wind swept through this barren land. In the sky were grey clouds that were pressed down at a very low level. In front of him were grass that seemed to be almost withered, and sand filled the sky in the distance.

This was the Everlasting Battlefield.

In the air, Long Chen smelled a bloody scent, and there was also the smell of rusty steel. He did not know if this scent came from somewhere else, or if it had been here since the beginning, and had existed here for countless of years.

The Five Emperor Prints in the palm of his right hand trembled a little, as if he had arrived at a familiar place. Through the Five Emperor Prints, Long Chen felt as if a blurry picture had appeared in his mind.

In his mind, there was naturally a vast battlefield, and the outline of the battlefield was exactly the same as the scene in front of him. In his mind, there was naturally a vast battlefield, and the outline of the battlefield was exactly the scene in front of him.

In the center of the group of people, there were a dozen or so flickering figures. Among them, there was a person holding a Star Spear, who was covered in resplendent starlight, this person was without a doubt Sevenstar Monarch, and as for the others, they were one of the other Seven Monarchs. Above the Seven Monarchs, there were also five figures bathed in five-colored light. These people were presumably the famous Five Emperors from back then.

The Five Emperors of Metal, Wood, Water, Fire and Earth were incomparably lofty in the Realm of Myriad Kingdoms. They were almost equivalent to the ancestors of the humans in the Realm of Myriad Kingdoms.

This picture flashed past Long Chen's mind. Long Chen only glanced at it once, and then it completely disappeared, before he could clearly see whether it was really the Five Emperors or not. However, when the picture disappeared, Long Chen took a quick glance, as if he had seen the enemies of the Five Emperors.

It was a group of black-clothed people approaching from the horizon. A terrifying, murderous aura was emanating from their bodies.

Long Chen's body trembled, he remembered that Su Yan was previously injured by the black clothed man, could it be that the black clothed man was the one who appeared in Middle Paleogene? Are they the mysterious invaders? Why did they appear here now?

Long Chen felt that he had caught on to the inklings of the situation.

He felt a bit of unease. Especially when he saw that the enemy of the Five Emperors was actually also a black clothed man. After all, he was not his opponent's opponent. Those black-clothed people at least had Lei Ji's strength.

Their existence was like a thorn in Long Chen's flesh.

"The Archaic Graveyard's games were probably planned by them as well. Why would they plan such a game? "What is his purpose?" Long Chen could not understand no matter how hard he tried.

If this game comes to the end, they will definitely appear. The final treasure of the Archaic Graveyard is the legendary Five Emperors' Treasures, and now we are also fighting for the Yellow Emperor's key. Could it be that these people's goal is related to the Five Emperors' Treasures? "

This time, Long Chen was only guessing, and not sure.

At this moment, he had already thought of many things while he was still in a daze.

"Long Chen, what are you thinking about? Let's go, the place where we and the other three forces are gathered is outside of the ruined city. The other two forces are relatively close, and tomorrow is the start of the war in the Eternal War. Su Yan whispered into Long Chen's ear.

Long Chen laughed and followed the group.

"Oh right, Long Chen, how come I have never seen this cat before?" Looking at the fluffy kitten, Sanxue's heart was suddenly hit. At this moment, her eyes flashed with maternal care and concern, and she looked at the kitten on Long Chen's shoulder.

"Uh, I picked this up on the way here as a pet. If you want it, I'll give it to you as a gift." Long Chen said while laughing.

"Really?" Pure Snow's eyes quickly lit up. Her eyes shined as she stared at the black fur of the little kitten, Nightmare. She softly said, "My darling, hurry and come to elder sister's embrace."

Women never had any resistance against cute pets.

The kitten stared at him, and under the enticement of the other party, he did not have any power to resist, and immediately rushed to her chest, without saying a word, he extended out his hairy claws and grabbed towards her ample bosom. When it was about to get its hands on, Long Chen's hands were quick, and pulled it back.

"Stinking brat, what the hell is this? This god almost touched this beauty's MiMi. You've ruined my good fortune, you're asking for a beating!"

In Long Chen's palm, the kitten glared at Long Chen with its large eyes, baring its fangs and brandishing its claws as it threatened. It was a pity that Nightmare only knew illusions, his strength could not even be compared to ordinary Spirit Demon Beasts, and he could not leave Long Chen's hands.

"You perverted cat, if I don't discipline you, you'll embarrass me." Long Chen laughed as he stuffed the little kitten into the Great Void Realm. Although the little kitten was unwilling, it wasn't as strong as Long Chen.

"Bastard, you must be jealous of me!" No matter if it's a human or a demon beast, I will gladly accept them. Today, this beauty has come to my doorstep to deliver herself to me for my blessing, yet you acted to stop me, you despicable vile person, you should be hacked to pieces! "

Sanxue looked at Long Chen and Cat in shock. Although the kitten was only a cat, it could speak human language. This was already surprising. What was even more unfathomable was that this lecherous cat ...

Chapter 804 - Gathering of the Ruins

She felt embarrassed to look at Long Chen again, and changed the topic, "That, that cat, should be that Innate Demonic Beast, right? When you were dealing with Situ Yu, I had seen it before, it was actually very scary, until you reach the seventh stage of the Earth Martial Stage, it would be very difficult for your Martial Spirit to resist its illusion powers. Furthermore, your Innate Demonic Beast is still in its infancy, so it will definitely become stronger in the future."

Long Chen curled his lips and said: "I don't have any hopes of this perverted cat."

"Hehe, but to be able to speak human language, normal Heaven Stage beasts cannot do it. I wonder if this Nightmare will one day become a king level demon beast, when it becomes a human form, it will definitely be very cute."

She said, "Oh right, Long Chen, I heard that when you came to the Archaic Graveyard, you had a demon wolf by your side. At that time, Wu Guangyu stole your demon wolf, but that demon wolf is now at the ninth level of the King level?"

After Long Chen became famous, the things that happened before gradually became known by everyone. The vow that he made with Wu Guangyu to kill him back then was also spread out, and many people already knew about it.

"That is indeed the case. That demon wolf cannot be said to be my pet, but my brother. " Long Chen lowered his head, and said with a gloomy look on his face.

"In Wu Guangyu's hands, since it would obediently stay by his side, it should have been tamed. It lost a brother for nothing ... Sorry, but my words made you sad." As she spoke, she noticed that Long Chen's face wasn't well to look at.

Long Chen smiled. This was a sneer, a cold laugh. Long Chen said: "It's alright, in a few more days, Wu Guangyu will regret it."

The murderous intent contained in this smile caused her to panic a little.

Long Chen's confidence, was something that she could not comprehend.

"You must be careful. I believe you will succeed!" The girl said with determination, her eyes flashing with a strange light.

"But the most important thing is to survive." Then she added.

Long Chen raised his head and looked forward. In front of him, a ruined city had appeared, and buildings were scattered everywhere. This city should originally have been extremely large, and should have been twice the size of the Greenwood Sky City, but this place was completely decayed and was already stained with rust.

The Huge Liujin City, the Greenwood Sky City, and the Tianshui City were all related to the elements of the Five Great Regions. However, these ruins were the most normal type of city.

From afar, a decaying smell could be felt.

In the direction of the city, everyone quickened their steps, and soon, they arrived at their destination. After passing through the city, there was another wilderness. In this wilderness, two powerful auras soared into the sky. There were two groups of people currently standing in that position.

These were undoubtedly the people from the Wind God's lineage and the Five Elements Alliance.

The young Martial Arts Competition of the nine clans was a grand occasion that was held in the nine clans. It was held in the Realm of Myriad Kingdoms in the past, and this time, because the Archaic Graveyard was opened, there was also a free expert, the Long Beard Man.

In the past in the Martial Arts Competition, there were at least a hundred thousand spectators, but this was the most grand occasion in the Realm of Myriad Kingdoms. Many people were proud to be able to attend such a grand event, and even more people were proud to be able to do so.

The geniuses of the Realm of Myriad Kingdoms couldn't be compared with those that Long Chen had met in the past.

But this time, because it was related to the Yellow Emperor's key, not only did the nine clans not spread the news, they had also restricted outsiders from entering the Eternal War Battlefield. This time, Martial Arts Competition should have sent many people to attend.

Ten people from the thunder demon lineage and more than ten from the Wind God's lineage. As there were a total of five clans, the number of people from the Five Elements Alliance had increased, reaching a total of over thirty people.

Amongst the nine clans, the gods and devils were the strongest, and within the Five Elements Alliance, each clan's strength was similar to the Wind and Thunder Tribes. When combined together, their strength had already faintly surpassed the Wind God's lineage and the thunder demon lineage.

At this moment, when the enemies met, many sparks flew.

Long Chen's mood was extremely calm. He looked forward and followed Bai Lan and the others' footsteps, directly heading to his own position, and at this time, there were already many people who curiously focused their gazes on Long Chen.

The people of the Wind God's lineage, Wu Guangyu, Feng Zhilin and the rest all arrived one after another. Their hatred for Long Chen was naturally incomparable, and the young man in the Five Elements Alliance who had received the Sevenstar Monarch's inheritance was also somewhat curious about the sudden appearance of the man in front of them, causing Feng Zhilin to be humiliated.

Theoretically speaking, Long Chen could not be considered to be a member of the Nine Great Clans.

The youths of the nine great clans all understood those who were on the same level as them. The fact that Long Chen could stand here could be considered as him standing out in the world.

In this group of eighteen, there would only be one or two people whose strength was not even at the ninth stage of the Earth Martial Stage. Even if they did not reach the ninth stage, they would still possess powerful techniques, such as Feng Zhiling, the combination of invisible whip and thousands of handprints.

And, after more than 20 days, who could guarantee that Feng Zhiling did not break through?

After all, Long Chen was not the only person who was improving in this world.

Long Chen's only perception was on the little wolf. At this moment, Long Chen was conversing with the little wolf through the spirit beast language.

"Big brother!"

"You must be anxious, the time is almost right. You should stay here, and wait for me to deal with some of the obstructions. We brothers will once again rule the world."

The wolf cub was overjoyed, "Alright, I'll wait for you then!"

Long Chen had been walking forward the entire time, and no one knew that he had been communicating with the wolf cub. This Communication Spirit Beast Language was taught to Long Chen by Little Cat, so ordinary people really wouldn't be able to hear it.

The three major powers all arrived at their respective positions. They stood there facing each other. Actually, they were all standing on flat ground with no place to stand at all. Everyone was standing.

When the thunder demon lineage arrived, their numbers were not even equal, and there was an even more important person, which was the witness to the competition. At the same time, he was also the one who gave out the prize, the Long Beard Man.

Judging from the name, this fellow's beard must be very long.

And more importantly, he was an existence at the second level of Heaven Martial Stage.

The people who came to the Archaic Graveyard, Long Chen estimated that there were a dozen or so people who had reached the Heaven Martial Stage. There were two of them, the Wind God's lineage, two of them.

And there should only be a total of four powerhouses at the second level of Heaven Martial Stage, Wu Lian, Bai Lan and this Long Beard Man. The remaining one was the old man from Five Elements Alliance.

Long Chen's eyes swept across the crowd of Five Elements Alliance's troops and quickly spotted the old man that was in the middle. Previously, on the Star Plate, whether it was the old man or the Long Beard Man, neither of them were seen by Long Chen. Long Chen had already heard the information of this old man before. The strong warriors of the Heaven Martial Stage were able to live for a very long time, but this old man was actually already seven or eight hundred years old. He was an old monster that had existed for a long time in the Five Elements Alliance, and his reputation was very high.

The few generations in the middle, because of their weak cultivation, had already lost their lives over five hundred years ago.

This old man originally had long, golden hair, but due to his age, his golden hair had already turned white. His golden pupils had lost their luster and had become muddy, but if he were to underestimate this old man, then he would be completely wrong. This guy had lived for so many years, but he must have had his own methods.

The battle experience must be quite astonishing as well.

In theory, Bai Lan and Wu Lian each had their own legacies from the Seven Monarchs. Although they were both at the second level of Heaven Martial Stage, in terms of fighting strength, they should be stronger than the other two.

Of course, this was only a theory. Long Chen didn't know the actual details either.

The Thunder Demon Clan and the Thunder Demon Clan were the last to arrive. Before this, both the Wind God Clan and the Five Elements Alliance had been at loggerheads, and none of the three powers were willing to give up.

Long Chen had already mostly understood the people in Wind God's lineage, but he had used the corner of his eyes to size up the people in Five Elements Alliance. Although there were a lot of people in Five Elements Alliance, they were all lacking in talented people like Bai Lan. This proved that their potential had been used up a long time ago. They did not want to think of Bai Lan, so it seemed like there was still room for growth.

Behind every clan leader, there were two disciples who were not weak. They were all under the age of forty, and as for their strength, there were very few who were not at the ninth stage of the Earth Martial Stage. In terms of realm, Long Chen could be considered to be the lowest.

Of the nine great clans, none of them were weak. Although the Holy Martial Empire was also known as one of the Ten Great Saints, compared to the power of the nine great clans, they were not on the same level.

"Among these ten young warriors, the strength of their experts is even stronger than Sanxue's. The weakest is probably a little weaker than and Lei Wu. None of them are easy to deal with."

Long Chen secretly thought.

Among the two great forces, many people were looking at Long Chen.

He was, after all, the man who had recently made the announcement.

"That is Long Chen? From the aura, he is weaker than the other participants. Are you sure that he is the one who snatched away the Sevenstar Monarch, and the one who killed the two youngsters who are rumored to be at the ninth stage of the Earth Martial Stage? "

Chapter 805 - Long Beard Man

"Absolutely true. However, we do not know whether or not his strength can reach that level."

To the people of the Five Elements Alliance, Long Chen was undoubtedly new. The ten experts that Five Elements Alliance was participating in, were all staring at their opponents like tigers stalking their prey. In terms of numbers, Five Elements Alliance had actually already won.

The Jinshi was the head of the Five Elements Alliance and the only one left behind was an old man who was at the second level of Heaven Martial Stage. At this moment, the old man named 'Jin Zu' looked in Bai Lan's direction and said with a low voice, "Brother Bai Lan, it's been many years but you're still graceful."

Bai Lan smiled and replied, "Brother Jin is the same. The older you are, the more confident and confident you are."

The Jin Zu chuckled, glanced at Long Chen, and said: "Brother Bai Lan's luck is still as good as always, just that amongst the younger generation of the demon race, it seems like they aren't very hardworking, to actually need to use outsiders to fill in the gap. If the demons do not have enough people, they can come to our Five Elements Alliance to participate."

Jin Zu just said a few polite words and then, it turned to the next sentence and it was already filled with ridicule and laughter.

Bai Lan's expression did not change, he solemnly pushed Long Chen and said: "Brother Jin is mistaken, this is my son-in-law, Long Chen. As for his strength, Brother Jin will soon find out."

The Mysterious Golden Soul was a relatively famous treasure in the Jinshi. When they used this Gold Eyes of Destruction, even if they were to use the Mysterious Golden Soul, they would be able to increase their strength by several times. However, such an important thing was taken away by Long Chen, they wouldn't even be able to beat their chest and stomp their feet in time. At this time, Bai Lan said this with a laugh, causing everyone's face to darken.

Jin Zu wanted to mock Bai Lan, but he didn't think that he would be turned into a soldier by Bai Lan. He snorted and said: "This thing called the Mysterious Golden Soul, it is only temporarily in the possession of a certain thief. In a few days it will return to the hands of my Jinshi, if you don't believe me, you can ask the two geniuses of my Jinshi. Especially my direct disciple — the metal spirit! "

Just as he finished speaking, a young man appeared in a flash and stood beside Jin Zu. This man's body was similar to Jin Zu, both were relatively skinny, with bronze colored skin, and short golden hair that was inch long stood erect like steel needles. His golden eyes were like stars in the sky, releasing a dazzling light.

In fact, the Jinshi was famous for being able to refine their bodies, and many of the men in their clan were even stronger than the Lei Clan. However, the young man named Jin Ling was not like that, his gaze was cold like a piece of cold metal, and from his eyes, one could not see any emotions.

"This guy's strength is also at the ninth level of the Earth Martial Stage. As the direct disciple of the Jin Zu, he must have a lot of tricks up his sleeve. In terms of killing intent, he is probably no less than me, this point is a little more terrifying than Wu Guangyu. Although Wu Guangyu's talent is extraordinary,

his battle experience is still inferior to mine, and in terms of character, he is not as tenacious as this young man called the Golden Spirit. "

Long Chen thought in his heart.

The intent of the Jin Zu was clearly so that Long Chen and the Gold Spirit Needle could face each other. The Gold Spirit glanced at Long Chen and said to the Jin Zu, "Master, my opponent is not him. My opponent is in the god race. "

After he finished speaking, he retreated a few steps, directly retreating behind Jin Zu with his head lowered, not saying a word.

"What should we do? "My disciple doesn't put your son-in-law in her eyes at all. This child has been disobedient since he was young, and doesn't like to lie. I can't control him either." The old man chattered on.

Long Chen and Bai Lan looked at each other and smiled, then ignored this old fool.

Forget about old age, he still spoke so much, as if he was afraid that no one would be able to see him.

He did not put Long Chen in his eyes, and Long Chen did not feel anything about it either. The reason why he had only joined Martial Arts Competition now, was partly because of Bai Lan's favor, partly because he wanted to kill Wu Guangyu for revenge, and partly because he wanted to enter Five Emperors Secret Realm.

His and Jin Ling's target was obviously Wu Guangyu, who was publicly acknowledged as the strongest.

Wu Guangyu's strength was originally on the same level as the metal spirit. In addition, Wu Guangyu had received the inheritance of the Azure Lotus Emperor, so he possessed a high level Emperor level super divine weapon, the Divine Sword 'Blue Lotus'.

The three factions looked at each other without saying anything. However, the smell of gunpowder in the middle was getting stronger and stronger. Long Chen immediately retreated to the center of the crowd and waited for time to pass. Seeing Long Chen close his eyes and had a calm heart, the Lei Wu and Lei Wen brothers immediately asked, "Brother Long Chen, are you not worried at all?"

In their view, Long Chen had offended a lot of people. Not only had he snatched away the Jinshi's Mysterious Golden Soul, he had also offended the Wind God's lineage, so he should be very nervous.

Long Chen laughed and said: "It's just a death, there's nothing to be nervous about. In any case, even if I, Long Chen were to die, I would have to drag a few along with me. "

The two brothers felt their blood run cold when he said this.

Lei Wen was startled, and then he laughed: "Brother, you are truly generous, you are the role model for us to learn. Let me say this, tomorrow we will go into the ruins, and if we meet there, we must take care of each other. If the four of us from the Thunder Clan and the Demon Clan are lucky, and get together, then it would be great, no matter who it is, the four of us together will be invincible."

"Of course." Long Chen said with a smile.

In any case, he could not kill anyone in the battle tomorrow, Long Chen had her Spirit Devouring Demon Pupil, but no one could actually find him, so for the first round of the battle, he went in and wandered around, and after ten people came out, he successfully levelled up. However, Sanxue and the Thunder Clan brothers were inside, so Long Chen naturally couldn't ignore them. At a critical moment, he still needed to take action.

"In that case, the four of us have made an agreement." Lei Wen laughed.

Time slowly passed. However, the crowd present were all people who possessed extraordinary patience. Thus, they did not find it troublesome to wait.

"The Long Beard Man should be arriving in more than two hours. The Divine Void Symbol should be given to us by him, as long as we distribute the Divine Void Symbol and carry it with us, we can enter." Beside Long Chen, the graceful and elegant Pure Snow whispered into Long Chen's ear.

"Is the Divine Void Symbol very valuable?"

"Of course, only the Three Great Imperial Domains has its own Symbol Master s and alchemists, and only the Symbol Master is able to draw Runes, our Realm of Myriad Kingdoms's Runes were all passed down from the Three Great Imperial Domains, of course some of the simpler runes, the people here would also be copying them, and this Divine Void Symbol has life-saving abilities, only the people from the Three Great Imperial Domains can make it, it's extremely valuable, if the nine great clans did not give the Long Beard Man enough, the Long Beard Man would not have given the Divine Void Symbol away." Pure Snow explained.

"If you wear this Divine Void Symbol, as long as your body suffers any injuries that exceed the limit of what it can bear, it will automatically burn. It is indeed a miraculous thing. But, can the warriors of Heaven Martial Stage use it? "

Long Chen knew, the stronger one was, the more important his life would be. If he could use this Divine Void Symbol, then wouldn't those strong warriors be able to get a lot of Divine Void Symbol and never die?

"Of course not, only those under the ninth stage of the Earth Martial Stage can use it. If it's a Heaven realm expert with strong power, one direct attack would be able to completely destroy this Divine Void Symbol, and then injure the other party." Pure Snow said.

Everything had a balance, just like this Divine Void Symbol.

The only thing Long Chen had ever seen that was not bound by the rules was Sun Devouring Demonic Wolf!

In theory, this abnormal Mo Xiaolang could continue to be swallowed. The more he was swallowed, the stronger he would become!

Every time it was swallowed, it would evolve in all directions.

After talking to Suixue for a while, everyone looked forward to the scene. Finally, a warrior dressed in plain clothes appeared on stage. He was also an old man. His hair and eyebrows had turned gray. He had a gray beard that was half a meter long, and was groomed even more neatly than his hair. With his rosy, round face and brilliant smile, he was full of joy.

Ha ha, I've made you all wait for a long time. It's all because that woman is too good at twisting. She makes my waist and back ache, and my legs feel sore as I walk. One of them, the old man named Long Beard Man, chuckled.

Everyone's faces darkened. Long Beard Man had a good reputation in the Realm of Myriad Kingdoms, he was a reclusive ranker who played games, he had a straightforward personality and loved drinking and sex. He was still very lively at his age, which made people very envious.

"The Bai brothers are still so handsome and extraordinary. Brother Jin's might is not inferior to his age, and there's also that little woman from the martial arts family. He really is more and more attractive. Can I go? To be able to serve a woman of the Wu family, even if the elderly is dead, he is still willing. "

Once he got here, the Long Beard Man was jumping up and down and talking non-stop. In the end, his gaze burned as he looked at the God Clan Patriarch Wu Lian, and said while clicking her tongue.

"If Senior Zhang Xu is willing to become our God Clan's guest elder, other than me, there will definitely be a lot of beautiful women who are willing to serve you." Wu Lian said in a bland voice.

"Really?" Long Beard Man's eyes lit up as he said, "But this old man thinks that they have no taste. In this world, only the young lady from the martial arts family can enchant me."

As the son of Wu Lian, Wu Guangyu really couldn't bear to listen any further. He shouted angrily: "Old bastard, control your mouth. With your appearance, you're just a toad wanting to eat swan meat?"

Chapter 806 - Life and Death

With regards to Wu Guangyu's angry words, Long Beard Man was not angry at all. He laughed mischievously, looked around and said: "Since everyone is here, let's begin. All eighteen of you, stand out. Let this old man have a good look at just how dazzling the young talents of the nine clans are this time. "

After the Long Beard Man finished speaking, eighteen people who wanted to participate in the Martial Arts Competition walked over to the front of the Long Beard Man after asking their patriarch for a bit. Long Chen, along with Su Xue and the Lei Wen brothers, along with the four people from the Wind God's lineage, aside from Feng Zhilin and Wu Guangyu, there was also a man and a woman. The man was a young Ranker from the wind race, and judging from his age, he should be around the same as Lei Wen, while the woman was a member of the God Realm.

To reach the ninth stage of the Earth Martial Stage before the age of thirty was actually quite difficult. Basically all the elders of the eight great sects before the demon race were over a hundred years old. When they first reached the ninth stage of the Earth Martial Stage, they were probably over fifty times stronger.

Wu Guangyu and Feng Zhilin were an unmarried couple, while the other man and woman, were holding hands together. Presumably, they were already married. It was the woman from the god race who married the man from wind race.

This man and woman, their cultivations were both at the ninth level of the Earth Martial Stage. Adding Wu Guangyu and Feng Zhilin into the mix, the strength of this side was also incomparably strong, and on the Five Elements Alliance, ten people under the lead of Jin Ling walked over, each of them were basically at the ninth stage of the Earth Martial Stage, with an extremely formidable lineup.

"Aiyo, the quality of the contestants this time is very high. At the very least, it's much higher than the previous contestants." Long Beard Man looked at the eighteen people in shock, his gaze swept across everyone one by one. When he saw Feng Zhiling, his eyes shone with a brilliant light, and started to criticize Feng Zhiling in a low voice. He knew that Wu Guangyu was about to attack, so he set his gaze on Su Xue.

Su Xue's body was even more graceful than Feng Zhilin's. Long Beard Man couldn't move his eyes away when he saw it, but Su Xue was very smart. She laughed lightly and moved behind Long Chen, causing him to not be able to see anything.

"Eh, this kid?" Only then did Long Beard Man look at Long Chen, and said with great interest: "Could it be that this brat is the Long Chen that was previously spread widely? The one who received the inheritance of the Sevenstar Monarch? "

"That's me." Long Chen cupped his hands.

The Long Beard Man was a strong Ranker, and he was the host of the Martial Arts Competition. There was no benefit in offending him.

Wu Guangyu was very rude to this old fellow, but Long Chen was actually very courteous. In an instant, he obtained Long Beard Man's goodwill, which caused the Long Beard Man to nod his head in satisfaction: "Not bad, not bad, work hard."

"Stop bullshitting, hurry up and take out the Divine Void Symbol." In the god race, the god race chief Wu Lian said with a cold voice.

"Um ..." At this time, Long Beard Man suddenly became bashful, and said: "I had prepared eighteen Divine Void Symbols before, but after coming to Archaic Graveyard, I gave two of them to a good friend of mine."

"What!" Bai Lan and the others had a bad expression on their faces. This Long Beard Man was crazy, doing things never did things reliably, they never thought that the Divine Void Symbol that was related to the Martial Arts Competition, would actually be able to be gifted out.

"Long Beard Man, how can you be like this? There are eighteen of us and you only have sixteen Divine Void Symbols, don't you want two of us to be unable to participate? Our quota has already been set. Who is willing to withdraw?" Wu Lian said with an ugly expression.

"No matter what you say today, you must take responsibility for this matter. Otherwise, the strength of our three tribes will not let you off!" On the side of the Five Elements Alliance, the Jin Zu also spoke with a face full of displeasure.

Five Elements Alliance had a total of ten people participating in the battle. If there were to be a reduction of two people, it was clear that both the God and Demon Clan would not be willing to do so. In the end, it was very likely that the one being reduced would be the Five Elements Alliance.

"About that, why don't we use a competition format? Using Divine Void Symbols would be such a waste!" Long Beard Man said embarrassedly.

"This is definitely out of the question. A sudden change in the competition format will greatly affect the result. Who would be willing to suffer such a loss?" Bai Lan frowned, and said indifferently.

At this time, the Long Beard Man had no other choice, but the higher ups of the three major forces were all angry. This Long Beard Man was not proper, Wu Lian would not bother with him, but such an important matter like the Martial Arts Competition, yet he treated it as she wished, which clearly showed that she did not place the three major forces in his eyes!

The three great powers did not allow for the five emperor's key to be taken away by the other powers, especially the Long Beard Man. If it wasn't for the fact that he was willing to give the Yellow Emperor's key, the three great powers would have already attacked him secretly.

Among the experts of the second level of the Four Great Heaven Martial Stages, the weakest ought to be this Long Beard Man.

Among the eighteen people, those people were confident enough that they could enter the top eight. They believed that they would definitely not be injured or die, so they didn't need to use the Divine Void Symbol. Presumably, the God Clan's Wu Guangyu wouldn't use the Divine Void Symbol, right? He has the inheritance of the Azure Lotus Emperor. Amongst the eighteen of them, who would be able to give him a fatal injury? "

"No way!" Although she knew that her son was definitely the strongest, this loss, he could not eat. Why did everyone have Divine Void Symbol s, while her son Wu Guangyu did not?

Wu Lian was against it, and the people from the God Clan was naturally against it. However, at this time, Wu Guangyu waved his hand and said: "The Divine Void Symbol is useless to me, I do not need it, I can without it, but I have a condition."

The Long Beard Man found hope and asked, "What are your conditions?"

Wu Guangyu found Long Chen's figure in the crowd and laughed softly: "There are sixteen of them, so there must be two people that don't have any Divine Void Symbol. One of them is me, and the other one is someone I hope is him, Long Chen!"

Wu Guangyu's intention was very obvious. He wanted Long Chen to have no Divine Void Symbol and then kill Long Chen in the midst of the ruins. After all, if there were any Divine Void Symbol, then he wouldn't be able to kill Long Chen.

She quickly looked at Wu Guangyu with hatred and said, "This won't do, isn't it unfair. What you, Wu Guangyu, want is to make a move against Long Chen in the ruins, and seize the inheritance of the Sevenstar Monarch. That definitely won't do!"

Wu Guangyu laughed coldly, "Why not? The victor is the king, and the loser is the bandit. This is a rule passed down from the elders, even the patriarchs of the clans cannot take action, so the weak should be killed. Could it be that Long Chen has already admitted defeat to me, Wu Guangyu? "

Pure Snow froze for a moment, then scolded, "You despicable scumbag!"

Her man was scolded, Feng Zhiling was furious. This girl was as good-looking as her, and women were jealous. She was basically her most important imaginary enemy, so she said sarcastically: "Who is

despicable?" Without real strength, he only knows how to play tricks. Only you, Sanxue, would like this kind of soft footed shrimp, if it was me, then this useless man would have long been dumped by me! "

What Feng Zhilin said angered Su Xue, but it made Long Chen smile. Long Chen laughed and laughed for a while, attracting everyone's attention, then said: "Don't you think that saying those words is funny? Of course, in the Seven Planets Star Tomb's palace, the things that happen between us, don't you think it will be a beautiful memory, Feng Zhilin?"

Long Chen's words caused endless questions to appear in everyone's heart. They all started to guess what exactly happened between them, the most painful one being Wu Guangyu, Feng Zhilin was his fiancée and also the woman he coveted. What did Long Chen mean? He even thought about when Feng Zhiling came out from the Star Tomb, his clothes were all messed up ...

"Don't listen to his nonsense. This scoundrel is only a trash who knows how to talk." Thinking about what happened that day, she wanted nothing more than to kill Long Chen now. However, she knew that the angrier she was, the more others thought that Long Chen was telling the truth.

Thus, she could only use a calm tone to speak.

Wu Guangyu was skeptical, but when he thought about how Long Chen's strength was weak back then, and how Feng Zhilin did not seem to be ruined like before, he felt a little more at ease.

"Forget about those trash. Long Chen, I'm asking you, if you don't use Divine Void Symbol, would you dare to or not?" Wu Guangyu immediately used an ice-cold voice to suppress the voices of the other people. He didn't want to be seen as a man with a green hat, it would be even worse than death.

Everyone's eyes were focused on Long Chen.

Long Chen quietened down. He did not think about it, and directly said one word: Dare.

Haha, the two of you are brave geniuses, you have solved the crisis for me, I will not treat you unfairly, following that, I will stick the Divine Void Symbol up for the others. "

The moment Long Chen agreed, the Long Beard Man immediately started, his speed was extremely fast, like a gale wind sweeping past everyone. When he returned to the place where he was originally standing, what he saw, besides Long Chen and Wu Guangyu, was that on everyone's foreheads, there was an additional dark yellow symbol, which flickered lightly, and a type of energy that protected their entire body appeared, then slowly faded away.

"The feeling of this Divine Void Symbol is not bad. It's like it is covered with a layer of armor. But Long Chen, you really did not take the risk just to fight for it."

Su Xue felt her own body, then spoke to Long Chen concernedly, her eyes filled with worry.

Chapter 807 - Killing the enemy in one move

"Don't worry, it's not certain who will win." Long Chen laughed indifferently.

"He's really too confident. I wonder if this guy has reached the eighth stage of Earth Martial Stage and refused to say it. He likes to make people worry.

At the side, Lei Ji nudged Bai Lan and said: "Brother Bai, is it alright for Long Chen to do this?"

Bai Lan smiled and said: "He knows his limits, but he's worried about him."

There was a natural maze in the middle of the ruins, although there was no mist inside, it was very difficult to determine directions. Ordinary people would not even be able to walk out of it, let alone go to the designated areas to meet up with the other people.

Under the Long Beard Man's instructions, Long Chen walked into the ruins from one of the directions. At this point of time, he could no longer see anyone else, but the ruins had attracted his attention, and there were ruins everywhere, old and dilapidated. The houses around were all very tall, and upon arriving here, Long Chen discovered a force restraining him, preventing him from flying.

If they could fly, the people of Five Elements Alliance could quickly gather.

Long Chen temporarily called this place Bewildering City.

"As expected, there is a natural maze here. Even if I walk straight ahead, I will still deviate. Moreover, the surrounding environment seems to be very different, but in reality, there are many similar places that cannot be marked here."

In other words, since they had arrived in Bewildering City, they could only rely on their luck to wander around.

"This little maze is not too difficult for this god. However, your Spirit Devouring Demon Pupil can see everyone within a one kilometer radius, so you can do it yourself. You don't have to trouble this god anymore." The kitten said arrogantly.

"Cat, can you tell how this ruins used to be?" Long Chen said as he carefully looked at his surroundings.

"Err ... in order to save you, I don't have much mana left. I can't find out about this ..."

Long Chen knew that this fellow only knew how to brag, and did not hold much hope for him. Instead, he continued to advance through the ruins while looking around.

The only person Long Chen wanted to kill was also Wu Guangyu, so he was in no hurry.

"If there's anything strange about this Bewildering City, the people from the nine great clans would have flipped through the entire place long ago. However, I still feel that it's a little strange." The Bewildering City was located in the center of the entire Archaic Graveyard. In such a special location, it should be a very important place.

Using the Spirit Devouring Demon Pupil, Long Chen was able to see the other seventeen warriors one mile ahead of time, and they were all filled with killing intent. If he saw them, he would probably be fighting to the death, and with the Divine Void Symbol, the crowd would definitely not show any mercy when they fought, but Long Chen did not wear the Divine Void Symbol at all, so he was still in danger.

This Bewildering City was even vaster than the Cyanwood Heaven City. Furthermore, they had yet to find the direction, so it would not be easy to meet someone here. However, as time passed, the group would eventually meet someone else.

Long Chen did not plan to take the initiative to attack, so two hours after he entered, he used the Spirit Devouring Demon Pupil to see a young man from the water tribe, but he did not make a move, but instead went around him. Although he had offended the Jinshi and took their Mysterious Golden Soul, it was better to have less hatred towards them.

After more than an hour, the battle had begun. Long Chen could faintly hear the sounds of fighting coming from afar.

"Forget it, let's go and help Soo Xue and the rest first. Don't let others gang up on us, especially the people from the Five Elements Alliance, there are more than a dozen of them."

After making up his mind, Long Chen headed in a certain direction, the direction constantly changing, just like when he was in nine nether regions, he couldn't find the right direction. However, Long Chen had his Spirit Devouring Demon Pupil, so even if he walked around randomly, he could still find the person he needed to find.

After about an hour, Long Chen could hear the sounds of battle close by. Using the Spirit Devouring Demon Pupil's senses, he felt a familiar aura.

"It's a brother of the Thunder Clan." He had already noticed that there were two people surrounding Lei Wen right now. Two of them were at the ninth stage of the Earth Martial Stage against one at the ninth stage, so Lei Wen was sure to suffer a great loss.

Without a second word, Long Chen appeared behind the two of them. From the looks of their hair, one of the young warriors from the Five Elements Alliance was from the Fire Clan while the other one should be from the Wood Clan. Fire Clan warriors were good at fire type attacks, but the Wood Race warriors had powerful life combat technique and other kinds of mystical techniques.

They were both experts at the ninth level of the Earth Martial Stage, and the two of them were attacking Lei Wen. Under their siege, Lei Wen was already in great danger, and after being struck a few times, it was blocked by the Divine Void Symbols. If the Divine Void Symbol exploded, he would be teleported out.

Lei Wen was facing Long Chen head-on, so he was the first one to see him. On the other hand, the Fire Clan and Wood Clan warriors did not see him. His eyes revealed a look of pleasant surprise, but he quickly covered it up.

He wanted Long Chen to ambush him when he was unaware of his existence.

Long Chen laughed coldly and used the Big Dipper Steps. Like a light whirlwind, he quickly appeared behind the Fire Clan and Wood Clan experts.

In a short span of an instant, three thousand star domains formed in Long Chen's hands. At the moment they formed, Long Chen had already directly thrust the three thousand star domains in his hands toward the other party's back, without his opponent being able to react in the slightest!

It was at this moment that the Fire Clan martial practitioner finally reacted. Under extreme shock, he suddenly turned his head, and just happened to see Long Chen as well as the sharp 3000 star field!

"Cheap Shot!"

The Fire Clan warrior could only use a short period of time to thrust his finger forward, and a fiery sword qi instantly shot out from his fingertip, colliding with the tip of the spear in the Three Thousand Star Domain. He was a warrior at the ninth stage of the Earth Martial Stage, and his true qi was a cut above Long Chen's, so he firmly believed that he could break open Long Chen's precious Three Thousand Star Domain!

"Is that all?" His three thousand star fields immediately turned into a ray of starlight, passing through the opponent's palm and piercing into his body. At this moment, his Divine Void Symbol suddenly emitted an intense light, and after Long Chen's three thousand star fields pierced into his body, he was teleported out.

Defeating the enemy with one move.

Long Chen's performance was simply too stunning. The experts of the wind race and Lei Wen all stopped and Lei Wen asked dumbfoundedly, "Brother Long, have you really reached the eighth level of the Earth Martial Stage?"

Long Chen laughed, and did not reply, the Big Dipper Sword beneath his feet continued to spin, pouncing towards the Wood Race expert, seeing his comrade killed, the Wood Race expert's heart was filled with shock, he never thought that Long Chen would actually be this strong, and at this moment, he was only one person, and the other side only had two, so he could only choose to escape.

"Despicable person, to actually sneak attack, my Five Elements Alliance will not let you go, just you wait!" The Wood Race youth fled at high speed.

"You want to escape?" Long Chen did not attack, he knew that the other party's figure had almost disappeared. When Long Chen activated the skill, Blood Escape, burning a small portion of his True Essence, and instantly rushed to the back of the Wood Clan youth!

"If you don't kill me now, you'll definitely regret it when I find a chance!" After escaping from Long Chen's grasp, the wood clan youth was somewhat excited. At this distance, Long Chen basically could not catch up to him.

Suddenly, a strong and sharp aura emanated from behind him.

"How is this possible?" The wood clan youth hurriedly turned around, and a blue light flashed through his forehead. He felt his vision becoming more and more blurry, and when he regained his senses, he found that he was already standing outside of the Bewildering City.

"Mu Zhong, you came out too? Did the brat called Long Chen and Lei Wen work together to kill you? " At this time, the Fire Clan youth that Long Chen had killed earlier said angrily. Behind him, were the experts of the Five Elements Alliance. Amongst them were the Patriarchs of the five clans as well as important figures such as the Jin Zu.

Not long after the battle started, four out of ten people from the Five Elements Alliance came out. Two of them were killed by Wu Guangyu while the other two were a little confused.

The Fire Clan youth had been eliminated by Long Chen's sneak attack, so he was extremely unreconciled. After coming out, he immediately went to his seniors and asked them to scold Long Chen for being despicable.

"I, I don't know ..." Mu Zhong didn't even have the time to react as he spoke in a daze.

"What's going on?" The chief of the Wood Race walked out of the crowd and said.

"I don't even know who killed me. Long Chen and Lei Wen were standing together, and I had already escaped when I suddenly felt a powerful aura behind me. I turned around, and a blue light pierced through my forehead." Mu Chong said dazedly.

After he finished speaking, everyone looked at each other in a daze. The Fire Clan youth said with some disbelief, "Blue Light, isn't that the 3000 star fields? Long Chen caught up to Mu Chong, and killed him in one move? "

This was probably the truth.

Of the four people, two were killed by Wu Guangyu, and two were killed by Long Chen. Did this mean that Long Chen was an existence at the same level as Wu Guangyu?

Chapter 808 - Wu Qingrou

The people from the Five Elements Alliance looked at the two races with ill intentions. Among the Five Elements Alliance, other than the Golden Spirit, the others were all relatively balanced. There was no outstanding disciple like Wu Guangyu, but they were definitely superior to the strongest disciple in the Demon race, Sanxue.

Everyone suddenly realized that they had underestimated Long Chen.

"That brat clearly has just reached the eighth stage of the Earth Martial Stage, yet he has such combat strength?" The patriarch of the Jinshi said with an inexplicable emotion.

On the Thunder Demon's side, Bai Lan and Lei Ji looked at each other and smiled. Long Chen did not disappoint them. At this time, Lei Wu, who was standing beside Lei Ji, looked a little embarrassed. He was surrounded and killed by the Golden Spirit and a young man from the Water Clan. This was the only result of Five Elements Alliance's victory.

"Father, I ..."

"Don't blame yourself. It's just bad luck. You'll have to work even harder in the future." Lei Ji interrupted him and said.

"I wonder how Xue'er is doing. There's still no news of her." Bai Lan asked with some concern.

"Brother Bai, we have Divine Void Symbol, there is nothing to worry about." Lei Ji laughed.

"Alright!"

After Long Chen put away the three thousand star domains, Lei Wen gulped down a mouthful of saliva and said in a respectful manner, "Thank you for your kindness, brother. Before, I thought that you were on par with me, but I never expected that those rumors were true.

In fact, Long Chen was much stronger, if he had transformed into the Dragon Soul.

This was what Long Chen relied on.

Before coming to the eternal battlefield, Long Chen had successfully completed the final breakthrough, and raised his strength to the eighth level of the Earth Martial Stage. After arriving at the Archaic Graveyard, he had chased after them all the way from the third stage of the Earth Martial Stage, and consecutively stepped across five levels.

This Bewildering City had a total of ten people going out. In just six short hours, five of them had already gone out. The first round of battles usually ended very quickly.

However, the further they went, the more people would hide. After all, no one wanted to put in more effort. He didn't want to be killed like this.

The longer they stayed in the Martial Arts Competition, the more important it would be to them. This was related to their honor and their cultivation in the future.

There are a lot of people in Five Elements Alliance, so it's easy for them to join up and bully people. However, there is a Wu Guangyu in the God Tribe, so no one will get a good result from meeting him.

After Long Chen withdrew his three thousand star fields, he brought Lei Wen along. The two of them advanced together, but naturally, they advanced blindly, and wanted to see if their luck was good when they encountered other people.

Usually, if others did not take the initiative to attack, Long Chen would not take the initiative either.

With the Spirit Devouring Demon Pupil, everything was very convenient, and very quickly, Long Chen encountered several groups of people. All of them were from the Five Elements Alliance, and normally, they were all moving by one or two people. Under the Spirit Devouring Demon Pupil's observation, Long Chen cleverly avoided them.

"Strange, after walking for four hours, I actually haven't met a single person." Lei Wen still didn't know what had happened, but it seemed as if nothing had happened to him at all.

Long Chen smiled but did not speak. Suddenly, his eyes narrowed as he said: "There's a fight over there, let's go take a look."

The two of them went over there very quickly, but when they got closer, Long Chen realized that the one fighting was not Pure Snow, but rather the people of the Wind God and Five Elements Alliance. At the same time, there were two other people attacking one of them. The two people from the Wind God's lineage were not Feng Zhilin nor Wu Guangyu, but another older couple attacking one of the young experts from the Jinshi. It was not the Golden Spirit Realm, but the other one with a smaller name.

When the two great Rankers of Wind God's lineage took action, they quickly pushed the teenager into a dead end. When they were close to failure, the teenager exploded with a roar, "Brother Jin Ling, avenge me!"

This roar would probably travel a long way.

Under the desperate attacks of the two Wind God experts, the youth quickly ran out of life, turning into a streak of white light. Under the assault of the Divine Void Symbol, he instantly left the place.

The two fighters, a man and a woman, let out a sigh of relief and smiled at each other. The woman from the god race laughed and said, "We finally made a little contribution and took away a kid from the Jinshi. Brother Liu, our cooperation is really good."

"Naturally. With little sister Rou Er's help, we can work together. How could a small Jinshi martial artist be our match?"

With that, Feng Liu held onto the lady's hand with his other hand and held onto her full chest with his other hand.

"So annoying, Brother Liu. Let's go first. If this brat calls Jin Ling over, then we're done for. That crazy Jin Ling, only Young Master Guang Yu can deal with him."

Feng Liu could only helplessly nod. "Alright."

Just then, Feng Liu's eyebrows twitched. Wind race had the ability to sense the wind, so the change in wind speed caught her attention.

"Where are you sneaking to? Get out here right now!" With an explosive roar, it charged towards Long Chen and Lei Wen.

Long Chen did not want to touch them yet, there was always a deal to settle, and he and Wu Guangyu's previous hatred had nothing to do with Feng Liu, but now the situation had turned out like this.

"Brother Lei, just stand there. I'll try it myself."

Lei Wen was eager to give it a try, but Long Chen did not let him.

"Just you alone?" Lei Wen asked in astonishment.

"If I can't handle them all alone, how am I going to deal with Wu Guangyu, who has the inheritance of the Green Lotus Emperor?" Long Chen laughed, and without hesitation, he walked out from the darkness and appeared in front of Feng Liu and Wu Qingrou.

"So it's you?" Feng Liu laughed and continued to speak: "My little sister Zhi Lin would like nothing more than to flay your skin and pull your tendons, God Clan's Young Master is also going to put you to death. Since you're still here, it means that they haven't found you yet, but since that's the case, let me help them get rid of you."

Wu Qingrou also smiled and said, "I'm sure Young Master would be grateful to us, right?"

At this time, Lei Wen was still hiding there. They thought that Long Chen was only one person. Long Chen had not reached the ninth stage of the Earth Martial Stage yet, let alone killing him when he was still at the ninth stage of the Earth Martial Stage.

As for Lei Wen, the reason why he was at ease with him was because, on one hand, he was very curious about how strong Long Chen actually was. On the other hand, he was relieved because Long Chen had killed two martial artists at the ninth level of the Earth Martial Stage.

Feng Liu and Wu Qingrou sized Long Chen up from head to toe, and Feng Liu said: "Little Sister Rou'er, I'll deal with this little fellow myself. At least we are all quite old and can't surround and kill him."

"Then Brother Liu, you have to be careful." Wu Qingrou said sweetly in a soft voice.

"Don't worry!" With a beauty watching him, it was time to show off. After Feng Liu said this, she ran towards Long Chen in big strides!

"Three thousand phantoms!" The moment he made a move, Feng Liu used the three thousand illusions that Long Chen was very familiar with. This Feng Liu's True Essence was several times stronger than Feng Zhilin's from before.

A total of three thousand images instantly filled up Feng Liu's surroundings. Under Feng Liu's control, these three thousand images swarmed towards Long Chen!

Actually, there was a rumor that the Sevenstar Monarch was actually the ancestor of the wind race. However, all the cultivation technique he cultivated in were lost to him, and the only ones that were related were the Three Thousand Phantom Shadow and the Three Thousand Star Domain.

Long Chen's three thousand star fields could turn into three thousand star points, and each star point could transform into a new weapon. If these three thousand star fields were to fall into the hands of the people from the wind race, they would be able to unleash an even more terrifying power, and this was also the reason why the wind race was so interested in these three thousand star fields.

Of course, the fact that the Sevenstar Monarch was the ancestor of the wind race was also spread by the wind race himself. Whether it was true or not, no one knew.

The Three Thousand Phantom Shadow was the wind race's innate ability, only people with the wind race's bloodline would be able to awaken it after reaching the Earth Martial Stage. It was pretty much the same as the Gold Eyes of Destruction in Jinshi. If he could use it well, he could basically become a trump card in the game. Feng Liu had already used it at this time, showing just how strong his determination to kill Long Chen was!

The three thousand star fields instantly enveloped Long Chen. Feng Liu did not believe that with Long Chen's strength, he could escape from the three thousand illusions.

Very quickly, Feng Liu was stunned, because he was completely unable to figure out where Long Chen was. Those three thousand illusions, were actually even able to block his own line of sight!

"Where did this kid go?" Feng Liu was dumbstruck for a moment, then suddenly recalled his three thousand illusions. Previously, he had only used a few of them to fight with Long Chen, but Long Chen quickly disappeared.

"Brother Liu, he's heading towards you. You have to be careful!" Wu Qingrou, who was standing in the crowd, hurriedly said.

Since she was outside, she could naturally see that Long Chen had already followed the three thousand phantoms and instantly rushed to Feng Liu's side!

"What?" Feng Liu was shocked, when she recalled the 3000 star regions, he had already seen Long Chen's figure in his panic. The current Long Chen was completely different from before.

These were not the most important thing. The most important thing was that Long Chen's left hand was still holding onto a long spear that was flowing with light and shining with a blue light. This spear was like the most beautiful work of art in the world.

Chapter 809 - Thorn Wind

However, a fierce cold light and killing intent burst out from the tip of the spear!

"3000 star fields!" Feng Liu's eyes revealed a greedy light. At this time, Long Chen's speed had already surpassed his imagination, but he was still not afraid!

"Phantom attack, Wind Thrust!"

Under Feng Liu's control, three thousand illusions gathered before Feng Liu's eyes in an extremely short period of time. A total of three thousand illusions gathered in a small space, and eventually formed into a green colored spike that was around half a meter long. This sharp spike erupted with terrifying energy, causing the surrounding space to distort slightly.

Sou! The power of the three thousand illusions combined together, forming a mockery that pierced towards Long Chen. The power of this attack, was already equivalent to Feng Zhilin's thousands of handprints, and only an Emperor Level battle skill could unleash such power.

"Wind Thrust?" At the same time, he condensed his True Essence into the 3000 star region, and immediately, a terrifying power exploded forth from the 3000 star region. With Long Chen's sudden thrust, a streak of blue light instantly collided with the sarcasm!

It had to be said that Feng Liu's sarcasm was extremely strong, but in front of the same kind of True Origin, Long Chen who had a high level Royal Grade Divine Weapon, she was at a much lower position.

"Break!" With a light shout, that ridicule turned into mockery in front of Long Chen. Long Chen's footsteps sped up on the ground, turning into a mirage once again, and after breaking through the ridicule, his three thousand star regions had already arrived in front of Feng Liu. The long spear that had erupted with purple astral qi, in front of Feng Liu's shocked eyes, had instantly pierced into his eyeball!

"In any case, you won't die. I'll let you have a taste of your eyes being pierced." Long Chen laughed, the long spear piercing through the opponent's body, would meet with a strong resistance, and that was the power of the Divine Void Symbol, but under Long Chen's powerful attack, the Divine Void Symbol suddenly exploded, and directly teleported Feng Liu out of the Bewildering City.

In a short period of time, Long Chen had directly killed Feng Liu!

This was why Long Chen was so powerful now. After transforming into the Dragon Soul Transformation, to be honest, among the eighteen people, there were only a few that could compete with Long Chen, and even Pure Snow and Gold Spirit barely qualified to do so. As for Wu Guangyu, he was Long Chen's ultimate mortal enemy, after all, Wu Guangyu had all of them, or maybe even more!

"Brother Liu!" Long Chen's swift killing moves made Wu Qingrou freeze for a moment. In that moment, Feng Liu had turned into a ray of white light and left.

The current Long Chen had pressed the sharp point of his spear from the three thousand star fields to the ground. He turned around to look at Wu Qingrou, and a faint smile hung at the corner of his mouth.

Wu Qingrou suddenly realized that this man was simply like a devil. Everyone had underestimated him before. Such a person was incomparably ruthless when fighting. He was absolutely a young genius that was difficult to deal with!

"You actually, actually" Wu Qingrou took a few steps back. Her strength was not too far from Feng Liu's, and Long Chen had easily killed Feng Liu, then thought that she was definitely not a match for him. If the two of them worked together, they might still have a chance, but there was no chance of that now.

"Long Chen!"

Wu Qingrou had the thought to escape. If they were to be killed by Long Chen in one go, it would really be too embarrassing after they leave.

"Do you want to leave?" Wouldn't it be better if I sent the two of you back together? " Long Chen laughed. As he was speaking, he suddenly withdrew his Three Thousand Star Region and walked toward Wu Qingrou one step at a time.

"We don't need the 3000 star fields?" Wu Qingrou was stunned. She knew that Long Chen had definitely underestimated him, and this instead provided her with an opportunity to counter attack. Thus, she did not run away, but circulated her true essence, and prepared to fight Long Chen with the boundless true essence in her body.

Without a three thousand star domain, Long Chen was simply no match for him!

But is that so?

Long Chen suddenly rushed forward, and a Star Plate appeared at his feet. In an instant, a red figure gently transformed towards Wu Qingrou.

"Such a fast speed and mysterious movement technique. Is this the Big Dipper Steps?" Wu Qingrou did not dare to be careless, she channeled all of the energy in her body. Just as she was about to make a move, Long Chen was one step ahead of her!

Instant acceleration!

On Long Chen's right palm, the green coloured Emperor's Seal that was immersed within suddenly lit up, and at the same time, the gold Emperor's Seal also lit up!

"Emperor Qing Qing Tian Ji!"

"Golden Emperor Heaven Shrouding Seal!"

The two Emperor Prints were used at the same time, and immediately, two destructive seals attacked Wu Qingrou instantly. This was Long Chen's most powerful attack, and adding to the fact that he was already at the ninth stage of the Earth Martial Stage, the effects of this move was extremely terrifying. Under Long Chen's attack, Wu Qingrou's attack had not even started, and the huge attack had already directly smashed his Divine Void Symbol to pieces, while at the same time causing her to spit out a mouthful of blood!

Wu Qingrou had already been sent out of the city, but in that small moment, she was actually still injured. Long Chen's attack, was so powerful that it exceeded the reaction time of the Divine Void Symbol, and instantly exploded!

As a result, in that instant, Wu Qingrou was already injured!

Of course, this didn't matter. After being blown out of the city, Wu Qingrou had already lost the qualifications to participate.

The power of the space had sent Wu Qingrou out of the city. Under the bombardment of the two Emperor Prints from Long Chen, her chest was aching faintly, and her internal organs were severely injured.

"He is wearing a Divine Void Symbol and is even injured by Long Chen, how is this Long Chen so powerful?" Wu Qingrou's heart was filled with terror. When she opened her eyes, she discovered that the elders of the two clans were all watching her. When they saw that Wu Qingrou was injured, everyone was even more shocked.

"Even Qingrou was injured, then Long Chen!" Everyone looked at each other in a daze, most of their faces extremely ugly.

"What?" "What is it?" Wu Qingrou was shocked, she endured her injuries and immediately started searching for Feng Liu, but she could not find any trace of Feng Liu.

"Where's Brother Liu?" "Where's Brother Liu?" Wu Qingrou said anxiously.

At this moment, the patriarch of wind race was standing beside her, his face dark and cold as she said: "I have already sent people to send Liu'er to Huge Liujin City to recuperate, his eyeball has been punctured, and needs some royal grade medicine to fully recover, I have already let him consume it, as long as his recovery is not serious and you are injured, you can go to Huge Liujin City to take care of him."

"What?" Wu Qingrou's face was lifeless. She remembered that Long Chen's three thousand star fields had directly stabbed into Feng Liu's eyes and that had already transformed into Long Chen's body. The terrifying force had already surpassed the reaction time of the Divine Void Symbol.

"I originally thought that only Guang Yu could make his attack power surpass the Divine Void Symbol, I never thought that Long Chen could also reach such a stage!" Remembering that not only had two of his opponents been eliminated, but both of them were also injured, Feng Qing's chest burned with an incomparably strong and flourishing fury!

By the side, Wu Lian's face, because of the veil, still could not be seen, but her mood was definitely not any better. At this moment, she said: "There are already eight people out, there are still two people who will be coming out."

Feng Qing's gaze turned cold, and he said: "Two people? Long Chen did not bring any Divine Void Symbol, which is enough for Guang Yu to kill him. This brat must be killed, otherwise there will be many variables. "

"You're right."

Two of Wind God's lineage's young and outstanding disciples were injured, and one of them still needed to use royal medicine to heal his wounds.

In just a short while, five of them had already come out. Long Chen had killed two, Wu Guangyu had killed two, Feng Liu and Wu Qingrou had jointly killed one.

The one from thunder demon lineage also came out.

Only the god race was still complete, but he didn't expect two to appear at once, and they were both injured!

"Long Chen!"

Whether it was the wind race or the god race, they all wanted to eliminate this variable called Long Chen. His sudden rise in power was too fast, and had already caused the people of the Wind God Clan to feel fear.

Amongst everyone present, only Bai Lan and Lei Ji were still smiling.

Long Chen still did not know what had happened outside. All he saw was that Wu Qingrou's last drop of blood had sprayed onto his hands.

"He's actually injured?" Long Chen was curious.

"My attack has already touched the limit of the Divine Void Symbol's defense."

After thinking about it for a moment, Long Chen more or less understood what was going on.

At this moment, Lei Wen was looking at Long Chen in a daze, and his chin almost dropped to the ground. He thought that Long Chen was very strong, but didn't expect it to be this strong.

"Brother Long" Lei Wen walked in front of Long Chen while trembling slightly.

"Chest augmentation? What breast enlargement? I don't have a breast." Long Chen said something that made Lei Wen spit on the ground.

"You!"

Long Chen laughed, and just as he was about to move away, he suddenly sensed that someone was coming. He turned his head to look, and saw that the person who had appeared from the ruins and was looking at him with a serious expression, it was the Golden Spirit of the Jinshi.

Alone, he released a huge amount of killing intent and stared straight at Long Chen.

Walking to a spot twenty meters in front of Long Chen, he coldly said: "Was that brother of my Jinshi killed by you?"

"I only killed the wind race and the people from the God Clan. As for the person you're talking about, it was that handsome guy from wind race." Long Chen spoke the truth.

"Alright!" After Jin Ling said this, she prepared to leave.

"What? You don't want to fight?"

Jin Ling turned around, narrowed her eyes, and said: "You, are very strong, I will leave you in the final battle and openly defeat you!" You and Wu Guangyu are both opponents for my metal spirit! "

A cold aura was emitted from this guy's body.

"As you wish." Long Chen said with a smile.

Chapter 810 - Black Yarn

Jin Ling did not plan to fight with Long Chen at this time. What he liked was to defeat Long Chen in public, and not now.

Lei Wen and Long Chen saw that Jin Ling's figure was getting further and further away, and looked at each other. Lei Wen laughed helplessly: "This Jin Ling has been nurtured by the Jin Zu since she was young, and barely shows her face, but her fame is truly great. I heard that because of the shadows of her childhood, she has an extremely ruthless nature, and knew how to endure."

"Is that so?" Long Chen nodded.

In fact, in his mind, the real lunatic was himself. If not, he would not have climbed from being a small figure all the way to where he was today. Compared to the White Yang Town from before, this Realm of Myriad Kingdoms was simply too big, even a single Holy Martial Empire had a population of trillions. The ten thousand territories basically exceeded the countries of the Canyang Kingdom, and had a population of trillions.

And Long Chen's current strength, was actually one of the most outstanding young experts in this trillions of people. Furthermore, he had not even cultivated for two years, and his cultivation speed had already surpassed some of the super geniuses of Imperial Domain.

His potential surpassed everyone else's. If he wanted to become a truly invincible expert, he would only need enough time.

After arriving at Bewildering City, Long Chen had already taken care of four people by himself, so he reckoned that the first round of the battles would soon be over.

"Right, I forgot to tell you guys something." After walking for a long distance, Jin Ling suddenly turned around and said.

"What do you want?" Long Chen nodded and asked.

"I thought I saw Wu Guangyu and Feng Zhilin chasing after a girl before. That girl must be your Demon race's Su Xue, tsk tsk, her figure is really good."

After saying that, the metal spirit turned and left the place.

"Suxue was discovered by them. She's on the run?" Lei Wen's face had a worried look. He looked at Long Chen and said: "Luckily there was a Divine Void Symbol, but we still have to go save her."

Without saying a word, Long Chen had already activated his Spirit Devouring Demon Pupil and began searching the vicinity.

Although he had the Divine Void Symbol, he was still worried. It was just like when he was dealing with Wu Qingrou just now, he felt that under his level of power, even the Divine Void Symbol were no longer effective.

So, he had to find Pure Snow as soon as possible. If Pure Snow was also injured by them, then it would not be worth it.

Long Chen's creed, as long as it was someone beside him, they would feel that he was not allowed to be hurt.

"Going this way?" Lei Wen was startled for a moment, and then immediately followed Long Chen. At this time, Long Chen was quickly shuttling through the surrounding area. His Spirit Devouring Demon Pupil could cover a kilometer in radius, and if he found him, he would very quickly catch up.

The two of them quickly walked around Bewildering City.

"I have already killed the other two members of the god race. If I can meet the people from the Five Elements Alliance, I can kill a few more and let this first round of battle end prematurely. If they are still chasing after Sanxue, then that is fine too."

Long Chen's mind raced as he thought of this idea.

However, the later they reach the stage, the more people would hide, and Bewildering City was very big, it would not be easy to meet one person.

"What is this?" All of a sudden, Long Chen saw a piece of black colored gauze from the ground.

"This is Pure Snow's clothes, she tore it off herself. She wants us to go save her?" Long Chen quickly came to an understanding that Sanxue was tearing her clothes off bit by bit and sprinkling them all over the place, definitely so that Long Chen and the others could find her when they passed by.

After walking forward a distance, Long Chen once again saw a small piece of black cloth.

"In this direction." With a cold gaze, Long Chen quickly rushed in the direction which Sanxue had pointed out. He had a feeling that the place he was going in, was the center of the entire Bewildering City.

"So fast?" Seeing that Long Chen's speed was getting faster and faster, Lei Wen sorrowfully realised that the speed at which he was using his limit was actually still not as fast as Long Chen's.

Sanxue wasn't really far from them, and under the guidance of Sanxue, Long Chen quickly approached a kilometer away from them. Within that radius, his Spirit Devouring Demon Pupil instantly discovered Sanxue and some other existence.

Feng Zhilin stood to the side, using the invisible whip in his hands to help Wu Guangyu from time to time. After receiving Bai Lan's true inheritance, the combat skills that Sanxue trained in were mostly the inheritance of the Demon God Emperor, so before Wu Guangyu received the inheritance from the Azure Lotus Emperor, the strength of the two of them were equal. At this time, Wu Guangyu had not taken out the divine sword 'Blue Lotus', so it was difficult to differentiate between the two of them.

If not for Feng Zhiling's invisible whip harassing her from time to time, Sanxue would have been able to maintain her distance.

At this time, the two women were fighting with each other, while Sanxue was fighting with Wu Guangyu, she was also angrily staring at Feng Zhilin.

Feng Zhiling was holding onto the invisible whip, it was impossible to see its body, so it was hard to guard against its attacks. Feng Zhiling coldly smiled, and the invisible whip in her hand twitched as she said: "Wretched girl, always going against me, I think I will beat you to death this time!"

One invisible whip was pulled out, and it was impossible to figure out its trajectory. For a moment, Sanxue was in a passive state, not only did she have to face Wu Guangyu's calm and stern attack, but she also had to prevent Feng Zhilin's sneak attack.

"Hiding behind a man and launching a sneak attack, what do you have to be proud of? "Feng Zhilin, if you have the guts, then fight me fair and square. With your strength, even ten more people wouldn't be a match for me, Su Xue. You haven't even reached the ninth stage of Earth Martial Stage, yet you still have the nerve to clamor in front of me!" Sanxue's face was filled with anger. She retreated miserably under Wu Guangyu's attack, while cursing coldly to Feng Zhiling.

"Who said I don't have the ninth stage of Earth Martial Stage? Guang Yu, move aside. I'll deal with this slut! " The two of them could be considered the two most outstanding female Rankers in Realm of Myriad Kingdoms, which was why they hated each other so much. The most hateful thing was that not only did they discover each other's strength and status, they even had strength that could be compared with their own.

"Don't mess around, you can't deal with her yet." What Wu Guangyu said was the truth. Since Pure Snow had obtained Bai Lan's direct disciple, Bai Lan was far stronger than her, so in terms of strength, Feng Zhilin and Susu were still a far cry from each other.

"Wu Guangyu, back off!" Feng Zhilin was so angry that his chest was moving up and down, Wu Guangyu was her fiance, yet he was speaking up for someone else, it was simply too infuriating.

Wu Guangyu's eyes flashed with a cold light, but it quickly disappeared. When Wu Guangyu first saw Feng Zhiling, he was extremely shocked, and only gradually realized that Feng Zhiling's temper was very bad. However, in the Realm of Myriad Kingdoms, it was very difficult to meet a woman who was even more beautiful and talented than Feng Zhilin, and the more Feng Zhilin scolded, the more arrogant he got, the more he felt the pleasure of conquering her. Thus, there were many times when Feng Zhiling was very rude to him, and he was still very happy to enjoy this feeling.

However, in this Archaic Graveyard, after a long time of being together, Wu Guangyu realised that he could no longer tolerate this woman's temper.

Wu Guangyu did not even listen to Feng Zhilin's request, and immediately attacked Sanxue even more violently. At this moment, her sweat was flowing down, and her slightly wet clothes were sticking to her body. The faintly flickering of her skin color and astonishing curves greatly coveted Wu Guangyu.

He gradually realized that it seemed that Pure Snow was much more wonderful than Feng Zhilin. It was a pity that Pure Snow was Long Chen's woman, while Long Chen was someone both Feng Zhilin and Wu Guangyu wanted to kill.

Looking at Pure Snow's beautiful figure, Wu Guangyu started to slow down his attack. He realized that he was somewhat unwilling to kill this woman, even though he had Divine Void Symbols, he couldn't bear to do so.

Feng Zhilin could tell that not only did Wu Guangyu not dodge, his attack had also slowed down. This instantly ignited the anger in her heart.

"Who said I haven't reached the ninth stage of the Earth Martial Stage? I will use my Earth Martial Stage's ninth stage strength to show you. Wu Guangyu, I'll say it again, scram!" After finishing his sentence, Feng Zhiling rushed over to him.

"Are you done yet?" Wu Guangyu turned around and looked at Feng Zhiling coldly.

"You dare to talk to me like that?" Feng Zhiling was stunned. She knew this man still liked her, so she would usually tolerate his temper. But now, he was this rude? Was it because of this woman in front of him?

In response to Feng Zhilin's questioning, Wu Guangyu didn't care at all, he continued to attack Su Xue. The more he looked at Su Xue, the more he was immersed in her charm, and was unable to extricate himself.

"Feng Zhiling is mine, and so is Pure Snow!" How could someone like Long Chen have a woman like Pure Snow? Everything is mine! "Having the inheritance of the Azure Lotus Emperor gave Wu Guangyu enough confidence.

Feng Zhiling's impolite treatment made him feel fresh in the beginning, and he even enjoyed this kind of feeling. But as time passed, he grew tired of her, and it was likely that after obtaining her heart, a woman like Sanxue would be gentle and attractive, attracting even more to Wu Guangyu.

Therefore, his possessiveness was slowly taking shape in his heart. He had decided to put this Suixue into his own account as well.

Wu Guangyu's opponent caused Feng Zhilin to swallow deeply, and her eyes started to become bloodshot. The power of the ninth stage of the Earth Martial Stage exploded from his body.

Just as she was about to attack together with Wu Guangyu to besiege Su Xue, a sense of danger suddenly came from behind her.
