

War God 811

Chapter 811 - Blue Lotus God Sword

"Your opponent is me." Long Chen stood thirty meters behind Feng Zhilin, and looked at this woman with a dark expression. At this moment, he was already in the state of the Dragon Soul Transformation. That thick murderous aura, which contained both bloodlust and killing intent, was being emitted from his body. The state of the Dragon Soul Transformation had allowed him to become a natural born combat machine.

"Long Chen!" Compared to Su Xue, Long Chen was the one Feng Zhilin hated the most!

When Long Chen appeared, Feng Zhilin had already forgotten about Pure Snow.

He had been searching for Long Chen for a long time now, and everyone knew that Long Chen and Wu Guangyu did not have any Divine Traversal Talisman. As long as they could kill Long Chen here, they could get his inheritance from the Sevenstar Monarch.

The young Nine Clan Martial Arts Competition s were passed down from their ancestors. When fighting, they would use all of their strength, and there was no need to talk about life and death. This was the rule of the Martial Arts Competition.

So, they did not have the Divine Traversal Talisman, and as long as the battle was not over, they could choose between life and death in this place. This was also why Wu Guangyu had used the goading method back then, so that Long Chen did not have any Divine Void Symbol s either!

In actuality, the reason Wu Guangyu came here was to kill Long Chen. It was just that he did not manage to find Long Chen and had instead met with Susu, which was why he made a move against his.

At this moment, Long Chen appeared. He and Feng Zhiling looked at each other, both of them extremely excited.

At this time, Feng Zhiling threw Wu Guangyu aside and rushed towards Long Chen without saying a word. This was already the second time the two of them were fighting, last time, Feng Zhilin lost to Long Chen and lost to him.

"Help me block this Long Chen, I, Ma Shan, will go over!" Long Chen was related to the inheritance of the Sevenstar Monarch, Wu Guangyu knew that he could not be a child's play, so he could only settle the matter quickly. When he came over to fight Long Chen, Feng Zhilin had already stopped Long Chen, if he let him escape, it would not be worth it.

"Long Chen, you finally appeared. You finally dared to appear?" Feng Zhiling smiled coldly. The coldness on her face was about to turn into ice.

"Nonsense." To Long Chen, Pure Snow was still under Wu Guangyu's attack. He was too lazy to even talk to this crazy woman, and after saying those useless words, Long Chen had already rushed towards Feng Zhilin without a second word!

"Golden Emperor Heaven Shrouding Seal!"

"Scarlet Emperor Burning Heaven Seal!"

When Long Chen executed the two Great Emperor Prints at the same time, he used Quintessential Essence which was comparable to the ninth stage of the Earth Martial Stage, to display this move, it was ten times stronger than the time he displayed it in the Seven Planets Star Tomb. The last time he used it, he relied on his blood sacrifice.

The golden Emperor Seal and the fiery red Emperor Seal instantly fused together and suddenly exploded!

This attack was like Feng Zhiling's nightmare!

She never thought that Long Chen was actually strong to this extent.

However, she had also reached the ninth stage of the Earth Martial Stage!

"I have already reached the ninth stage of the Earth Martial Stage. Do you still want to injure me with the same attack?" Feng Zhilin roared, her movements were extremely fast, when Long Chen unleashed the fusion of the two Great Emperor Prints, she had already unleashed her Royal Tier Battle Skills thousands of handprints, together with the invisible whip, suddenly numerous destructive whip images surged towards Long Chen crazily!

A total of five hundred shadows of the whip mixed together. Coupled with the fact that her strength had increased by one level, the current Feng Zhiling's attack was now much more powerful than before.

"It's an old trick."

Long Chen laughed in his heart as he pushed out the two Great Emperor Seals in his right hand, instantly colliding with the opposing thousands of handprints's and invisible whip's attacks. The battle between Feng Zhilin and Long Chen, instantly surpassed the battle between Wu Guangyu and Susu, causing Wu Guangyu to frown.

"This Long Chen, is he that strong? Can he block Zhilin's thousands of handprints and invisible whip? "

Not only did Long Chen block it, he also merged with his Great Emperor Seal, directly forcing Feng Zhiling to retreat. The immense power of the shock not only made Feng Zhiling stumble back, but he also forced Feng Zhiling back a few steps!

"Has he really become stronger?" She knew that it was because Long Chen had the legacies of the Sevenstar Monarch and the Monolith of the War God that he was able to quickly reach this realm.

"Three Thousand Phantom Shadow, Wind Thrust!"

This was the first time she had used her killing move in front of Long Chen. Her Wind Thrust was a lot stronger than the previous Feng Liu and the three thousand illusions quickly fused together, quickly condensing into a sharp green long thorn in front of Long Chen!

The long spikes stirred violently in the air, causing the surrounding space to tremble!

"If you don't have a Divine Void Symbol, go die!"

"Is that so?" Feng Zhiling had never been seen by Long Chen before. After the fusion of the two Great Emperor Prints in his right hand directly shook her away, the bright stars on his body gathered in his left hand in an instant. In his left hand, a dazzling, starlight '3000 Star Domains' was formed!

Left hand spear, right hand seal!

After the two Emperor Prints had been released, Long Chen did not pause for even a second. He channeled all of his true essence into the three thousand star fields on his left hand, and instantly shot explosively towards Feng Zhilin!

The same scene from before, when Long Chen fought against Feng Liu was now played out again!

After reaching the ninth stage of the Earth Martial Stage, Feng Zhilin's strength was not much stronger than Feng Liu's, her wind spikes instantly shattering under the tip of Long Chen's Three Thousand Star Domain. Long Chen instantly rushed forward, and the majestic three thousand star domain stirred up the astral qi, and in an extremely short period of time, pierced right in front of Feng Zhilin!

In that instant, Feng Zhiling could not say a single word. She hastily retreated, her face filled with shock, and the current Long Chen was like an ice-cold demon. The sharp point of her spear in her three thousand star domain, was incomparably bright.

"Let me show you the power of my spear!" Long Chen laughed sinisterly, before Feng Zhiling could resist him, the three thousand star domain suddenly stabbed into Feng Zhiling's chest!

Feng Zhiling suddenly felt a pain in one of her most sensitive parts, and then the Divine Void Symbol went berserk. The power immediately transported him out of the city.

When she was surrounded by the white light, Feng Zhiling's whole body collapsed. She knew that the clothes on the left side of her chest definitely had a small hole in it, and there was a trace of numbing pain in her chest. She knew that it was because the spearhead from Long Chen's Three Thousand Star Domain had lightly touched her sensitive areas, causing her to bleed profusely.

"Long Chen!" Feng Zhiling was so angry she almost fainted. Anger and shyness burned crazily in her heart, making her expression unsightly. However, when she thought about going out, many people came to watch her. She couldn't help but turn her face back to normal.

"If I have the chance, I will definitely skin you alive, Long Chen!" Feng Zhiling suppressed the anger in his heart. At this moment, she discovered that she was already outside the city.

She quickly used her hand to gently block her left chest. A wave of pain told her that there was a thumb-sized hole in her clothes. If she didn't block it, it would leak out.

A white light flashed, and everyone nervously looked to see who it was. The white light disappeared, revealing Feng Zhiling. At that moment, everyone had a different reaction.

Bai Lan and Lei Ji laughed once more at each other's misfortune. Lei Ji laughed: "Brother Bai, if the next person who appears, and is not one of us, doesn't that mean that the remaining top eight will have three spots in our Thunder Clan?"

"Isn't that nonsense?" Bai Lan laughed.

"No, I was just bragging." Lei Ji laughed, and said with a loud voice.

If even these words were spoken directly, then it showed just how shameless they were. This was because the current Wind God's lineage's expression was even uglier.

Out of the four players, three had already come out.

After Feng Zhilin reached the ninth stage of the Earth Martial Stage, Wu Lian reckoned that his strength would at least reach the top four this time around. He never expected that this time, she had actually come out as well.

Who would bring out Feng Zhiling?

Was it a metal spirit, or the demon race's princess, Sanxue?

Feng Qing's expression became even uglier. The members of the Wind God Clan quickly came to Feng Zhilin's side, and only after seeing that Feng Zhiling was not hurt, did they heave a sigh of relief. The patriarch of the God Clan asked calmly: "Zhilin, who beat you out?"

Feng Zhiling had some respect for this woman.

"Long Chen!"

"Long Chen? It's him again! " Feng Qing's face turned ugly, his eyes filled with killing intent.

"Is it him again?" Wu Lian was silent for a moment, then said: "Looks like we still underestimated this kid. He probably has the strength to enter the top three. The next thing to do is to pay more attention to

this brat, and take him very seriously, the Sevenstar Monarch's inheritance is still in his hands, Zhilin, what's the situation inside? "

Feng Zhiling clenched her teeth, continuing to block the spring light that leaked from her chest, and said: "Originally, I was with Guang Yu to deal with Pure Snow, but when Long Chen suddenly arrived, I split up to face Long Chen, but I didn't want to lose to him."

Wu Lian suddenly laughed and said, "When you came out, there were already nine people. There's still one more person, but Long Chen and Guang Yu both don't have any Divine Void Symbol, so they should have already started fighting. "

Seeing Wu Lian smile, Feng Qing thought for a while, then laughed, "The rest should have probably already gone into hiding by now, so let Guang Yu and Long Chen fight inside. With Guang Yu's strength, we can definitely be at ease with the Seven Planets."

"Don't say too much, we'll just wait and see." Wu Lian said.

"Yes." Feng Qing nodded.

At this time, Feng Qing suddenly noticed Feng Zhilin's hand gesture, which was blocking his chest. He asked anxiously: "Zhilin, are you injured?"

Chapter 812 - Five-Colored Altar

"Nope." If others knew that the most sensitive part of her chest had been pierced by Long Chen's spear, she would probably lose all her face, and even lose Wind God's lineage's face.

Seeing Feng Zhilin's face, Feng Qing felt at ease because he did not seem to be injured.

Bai Lan and the others had also heard their conversation.

"Long Chen and Wu Guangyu are fighting inside right now?" Bai Lan frowned, if that was the case, they could not see the situation, so they were a little worried.

"Brother Bai, what should we do?"

"Just watch." Bai Lan thought that this was the only way.

If they really fought, even if the victor was decided, no one would know. Most likely, they would have to wait for the next person who possessed the Divine Void Symbol to come out to find out the victor.

At this moment, Long Chen had already killed Feng Zhiling and pulled him back into the 3000 star domain. Beneath the tip of the spear, there was a faint drop of fresh red blood, and Long Chen knew where this blood came from.

Under Long Chen's control, that drop of "blood's smell" was sucked into his body, turning into a trace of his true essence. He hadn't used this ability for a long time.

The day that the divine ability was awakened again, it would be even more shocking.

When Long Chen quickly killed Feng Zhilin, the battle between Wu Guangyu and Susu Xue had already stopped. This was because Wu Guangyu took the initiative to retreat, and after taking more than ten steps back, he directly ignored Susu and faced Long Chen. It was the first time Long Chen saw the heavy expression in Wu Guangyu's eyes.

"Half a year ago, when you first came to the Archaic Graveyard, you were still far from being my match. It had only been half a year, and you have already caught up to me, Long Chen?" After meeting a true opponent, Wu Guangyu had actually calmed down.

Long Chen gave a slight signal, and at this moment, Su Xue had already circled around Wu Guangyu, and only now did Lei Wen arrive. Just now, very far away, Long Chen had seen a scene that stunned him, where he directly killed Feng Zhiling with lightning speed.

"Princess Snow, are you alright?" Lei Wen looked at her for a while. Although Su Xue was very tired from the beating, she was not injured, which meant that Long Chen still had time.

"I'm fine. Long Chen and Wu Guangyu were currently in a confrontation.

"From the looks of it, they are going to fight here. They don't even have Divine Void Symbols, they might be enemies or enemies." Lei Wen said in a daze.

"If it's a battle of life and death, without the presence of Father and the others, it would be extremely troublesome." Suddenly, she asked excitedly: "Lei Wen, you should know how many people have already been killed and sent out. I know Lei Wu had already left, and Wu Guangyu had also killed two of the Five Elements Alliance's men. Adding Feng Zhiling, there was a total of four of them! "

"Four?" Lei Wen's eyes lit up. He counted in his mind and said softly, "Long Chen has already killed four, and there are still two people from the God Clan that have killed one Jinshi. In other words, there are already nine people."

"Nine people?" Su Xue had already come to a decision. She said to Lei Wen in a low voice: "Wu Guangyu's strength is extraordinary, we absolutely cannot let him fight here. Lei Wen, attack me immediately and activate my Divine Void Symbol.

However, his thoughts were different from Pure Snow. He said in a soft and candid tone, "Princess Snow, don't joke around, your strength will at least enter the top four, and you even have hopes of becoming the champion. I am just here to join in the fun of it, it is fine if you attack me, but if Uncle Bai and my father find out that I have attacked you, they will definitely eat me."

She and Lei Wen were already very familiar. On one hand, she was a girl and should be protected, and on the other hand, Sanxue was indeed a little stronger.

Long Chen was currently confronting Wu Guangyu at this time, so he naturally did not know what Sanxue and the others were thinking. Wu Guangyu was his sworn enemy, so Long Chen was prepared to fight him to the death at this place.

The two young geniuses of Realm of Myriad Kingdoms were watching each other.

After the little wolf was snatched away, Long Chen had already waited for half a year and this day had finally come.

At the same time, for Wu Guangyu, it was a hard to come by fighter jet.

After obtaining the inheritance of the Azure Lotus Emperor, he was publicly acknowledged as the strongest existence, and Long Chen's appearance and rise had challenged his position.

No matter which direction it was looked at from, Long Chen was still an enemy.

"This, is the 3000 star field huh." Wu Guangyu sized up the weapon in Feng Zhilin's hand. Then, he gradually extended his palm.

"Then let me show you that the 'Azure Lotus' is the legacy of the Emperor of the Azure Lotus. The 'Azure Lotus' is the divine sword." As Wu Guangyu said this, the blue lotus pattern within his palm gradually began to emit a green glow, which was different from the coldness of Long Chen's three thousand star region. This green lotus's radiance was extremely gentle, and was filled with the aura of life, the green light was gradually changing like flowing water, and in the end, a one meter long green sword edge appeared in Wu Guangyu's hand. This three foot long green blade was long and thin, simple, and did not have the magnificent appearance of the three thousand star region.

The Blue Lotus Divine Sword, was a weapon of the same level as the three thousand star fields in Long Chen's hands.

With a slight movement, the azure lotus on the sword rippled with ripples. It was extremely beautiful, but also extremely terrifying.

Suddenly, Wu Guangyu's expression turned cold, and the Azure Lotus Divine Sword pointed straight at Long Chen.

"The so-called Sword Fighter has an innate sword soul, which has one more than an ordinary person's soul. Once I reach Heaven Martial Stage, the sword soul will evolve into a sword embryo, and at that time, I can use the Blue Lotus God Sword as a guide to create my own life sword embryo. Realm of Myriad Kingdoms, other than a few of you who are at the second level of Heaven Martial Stage, no one will be my match. "

"Sword Fighter is a branch of the Soldier, all the Soldier you have seen before are just formless. Once I condense the life sword embryo, you will understand that only the Soldier is the most suitable person to use weapons, and people like you who are born without a weapon spirit can only use punching and kicking. If you want to use weapons, you are still far off."

"Intrinsic Sword Embryo?" Long Chen seemed to have heard that the Soldier s in the Three Great Imperial Domains were different from the ones he had seen before. He seemed to have heard Shao Yu say that this Wu Guangyu seemed to be a real Sword Fighter.

Regarding the Soldier's cultivation system, Long Chen was still completely at a loss. However, this was not important, what was important was that he was also proficient in using the 3000 star fields.

"Cut the crap, let's do it." Seeing Long Chen's blank look, Wu Guangyu really didn't want to say anything to him. He directly picked up the Blue Lotus God Sword and prepared to attack Long Chen.

Just as Wu Guangyu was about to attack, Long Chen suddenly shouted, "Wait!"

"What? Are you afraid?" Wu Guangyu stopped. With Long Chen's temperament, he should not have said such a thing.

At this moment, Long Chen was looking behind Wu Guangyu in a daze. Wu Guangyu also hurriedly turned his head around, but he realized that there was nothing behind him.

"What is he looking at?" Wu Guangyu's face was full of doubt.

He didn't see anything, but in Long Chen's field of vision, in the midst of the ruins behind him, an illusionary five-colored altar suddenly lit up. This five-colored altar had a diameter of around ten meters, and when it erupted with five colors of light, it looked extremely illusionary.

"What is this thing? Why would it appear here?" Five-Colored, could it be related to the Five Emperors? " Long Chen calmly thought about it. He never thought that such a thing would suddenly appear before his duel with Wu Guangyu.

The others followed his gaze, but did not know anything. Wu Guangyu then asked with a gloomy face: "Long Chen, is it necessary to do such a small trick at this time?"

"You can't see it?" Long Chen realized that it was as if other people did not have any reaction to this strange phenomenon.

"What are you talking about? There's clearly nothing behind me! " Wu Guangyu said strangely. He looked at Long Chen for a while, and finally realised, Long Chen was probably messing with him.

The five-colored altar was still shining in Long Chen's eyes.

"What is this five-colored altar?" "Why can't I see it myself?" Long Chen was dumbstruck. He turned around, and was about to ask Sanxue and Lei Wen if they could see it, but Sanxue's actions made Long Chen puzzled.

She directly smashed Lei Wen's Divine Void Symbol to pieces.

With a hu sound, Lei Wen left the place, and became the tenth person to leave this place.

Of the eighteen, ten had already left.

Wu Guangyu was stupefied, he quickly reacted and ridiculed: "Long Chen, I never thought that you would be so timid, to actually use such a method to stall for time, your plan is already a success, but let me tell you, in the upcoming battles, if you really have something up your sleeve, sooner or later we will run into each other, when that time comes and you try to play such a silly trick, I will only look down on you."

After he finished speaking, Wu Guangyu immediately turned around and walked out. If he took action at this moment, it would be considered a violation of the rules.

Long Chen did not waste any time, he had truly seen the five-colored altar, but at this time, the five-colored altar had already disappeared.

Long Chen noted down the location.

"Right now, we should stay here. There will only be people coming in later to pick us up. Dad and the others have been here many times and are very familiar with this place. With them leading us, we'll be able to leave soon." Pure Snow said in a low voice.

Long Chen nodded his head, he did not say much and went around the five-colored altar, but he still could not find any clues.

"This is really strange. Why can only I see that five-colored altar? Could it be that there is something different between me and others?" This Bewildering City really has a secret. "

While Long Chen was thinking, Bai Lan and the others had already come in to pick him up.

Chapter 813 - Wu Lian

At this time, the five-coloured altar had already disappeared from Long Chen's sight.

After Long Chen looked around with suspicion for a while, Bai Lan and Lei Ji had already arrived in front of him. At this moment, Bai Lan and Lei Ji's faces were brimming with smiles, Bai Lan walked forward and patted Long Chen's shoulders, and said: "Good boy, your performance is really not bad.

Long Chen secretly memorized the situation at the five-colored altar, and after conversing with Bai Lan for a while, everyone left the Bewildering City under Bai Lan's lead. Long Chen deliberately remembered the way they walked from the outside to the place they came from. The way the Bewildering City walked was very strange. It was a straight line, but he had to walk in a curved line to be able to walk out.

"We can rest for a bit tonight. From tomorrow onwards, it will be the second round of the battles. Tomorrow is the eight-to-four decisive battle. As usual, we'll use the drawing of lots to decide who our opponents will be." On the way, Bai Lan explained to Long Chen and Susu.

The two of them had already entered the top eight, along with Wu Guangyu and the five people from Five Elements Alliance.

"In the Five Elements Alliance, most of them have the strength of an ordinary ninth stage Earth Martial Stage, about the same as the Lei Wen and Lei Wu brothers, and the only one who stands out is the gold spirit. It's not easy to defeat this child. If Wu Guangyu and Jin Ling were to meet again, the result would be better, and if any of you were to meet one of them, it would be quite troublesome. "

"Indeed, Wu Guangyu and the Golden Spirit are both difficult characters to deal with. Earlier, I used all of my powers, but I was still no match for Wu Guangyu. Pure Snow said with fear still lingering in her heart.

"Long Chen, you?" Amidst the conversation between the three of them, Long Chen was the one who had been silent the entire time, and thus attracted their attention. At this time, Long Chen was thinking about the five-colored altar, and asked: "What are you thinking about?"

Long Chen laughed and said: "I just want to think about some matters regarding cultivation. After going through so many battles today, I have some new insights."

"You're a monster." The Thunder Clan's Patriarch looked at this fellow helplessly. Long Chen's performance today was truly heaven-defying. That Divine Void Symbol was actually unable to stop his strength.

Very quickly, the people from the three great forces gathered once again. Long Chen opened his eyes and looked over, the people from Five Elements Alliance looked at the people from the other two great forces with hatred, but the Wind God's lineage and the Wind God's lineage looked at each other with hatred. At this time, the person with the most vicious gaze was Feng Zhiling. Long Chen looked down from her charming and cold face, and in between, she gently used his sleeves to cover his chest.

Long Chen immediately understood that there was probably a small hole in her hole. If he did not hide it, it would probably leak out in the spring.

"One day, I will kill you!" From Feng Zhilin's words, Long Chen could tell that she was referring to him.

Towards this arrogant and unruly woman, Long Chen had already bullied her more than once, the more she got angry, the more Long Chen wanted to tease her, but right now, he reached out his hand and rubbed it towards Feng Zhilin, and seeing Long Chen's hoodlum gesture, Feng Zhilin's face darkened.

"You're just a woman, how can you be so arrogant in front of me? If I didn't have Xiao Xi and see other women as boring, I would have already done you in." Long Chen curled his lips and thought.

If Feng Zhiling heard what he was thinking, she would die of anger.

At this time, the first round of battles had already ended. Long Beard Man walked to the middle of the crowd and chuckled as he looked at the eighteen young experts.

"Eight people, there are still six Divine Void Symbol left. Come, come, return all of them to this old man." Long Beard Man's body quickly turned around, and the Divine Void Symbols on the foreheads of the five young Five Elements Alliance Rankers, as well as Pure Snow's, were all immediately withdrawn.

Otherwise, if the Divine Void Symbol was still here, the following life and death battle would not be fair.

"The first round of the battle was very successful. Hehe, those who should have stayed have all stayed behind, and those who should not have stayed have all left as well." Of course, after this, there will be a fierce battle of strength. Only when one side admits defeat, or if the other side dies, can the battle continue, but, if there is someone who can completely suppress the other side and instantly kill the opponent, then we will not care, haha. "

Long Beard Man was like a madman, swaying right in front of everyone's eyes. He was the only Ranker outside of the nine clans, for this competition, he was the notary, so he had to arrange everything for the competition.

When the Long Beard Man was speaking, regardless of whether it was the warriors or the strong warriors, they were all observing Long Chen, the newly emerged Ranker.

"His strength must be at the eighth stage of the Earth Martial Stage, yet he has such combat power. This is truly surprising."

"Not bad, this kid can quickly kill Feng Zhiling. There will only be two young people with this kind of strength, Jin Ling and Wu Guangyu, I wonder if Jin Ling has such strength."

"Nonsense, Jin Ling is a disciple personally trained by the Jin Zu. After obtaining the true inheritance of the Jin Zu, he has already cultivated the cultivation technique of the Jinshi to its peak, and he can even learn it from the other four clans. After all, no matter how strong Long Chen is, he is only at the eighth stage of the Earth Martial Stage, and is one stage weaker than them."

"Tomorrow is the battle for the top four. Let's wait and see. No matter what happens, it's all nonsense."

In the eyes of the masses, Long Chen felt a gaze that caused one's heart to palpitate. Looking towards the direction of the gaze, Long Chen saw the owner of the gaze.

God Clan Patriarch — Wu Lian.

Half of her face was wrapped in a white veil, and only her eyes were exposed. However, looking at this part, Wu Lian's appearance was probably even younger than Bai Lan. It must be an enchanting beauty who gave birth to such a handsome young son like Wu Guangyu.

Her gaze very quickly swallowed all of Long Chen's attention. In her eyes, Long Chen discovered a snow-white world, with many white lotuses blooming before his eyes.

"Don't look." Suddenly, Bai Lan stretched out his hand and blocked Long Chen's view. Only now did Long Chen recover from the shock, and his back let out a cold sweat.

"If you want to deal with Wu Guangyu, you have to be careful of this woman. She isn't an easy opponent, and even I'm not necessarily her match. The strongest warrior in the Realm of Myriad Kingdoms, should be her." Bai Lan whispered into Long Chen's ear.

"The number one expert?" This was out of Long Chen's expectations. He had originally thought that the strength of Wu Lian and the other two, who were at the fourth level of the Earth Martial Stage, should be around the same, but since Bai Lan had said such words, it meant that she was indeed very terrifying. After hearing this news, Long Chen lowered his head and did not look at Wu Lian and the others anymore.

However, in his heart, killing Wu Guangyu was one of his decisions. Long Chen was one of those people who would never rest until he achieved his goal, so he was here, and he was about to enter the Three Great Imperial Domains!

At this time, Long Beard Man was preparing to draw lots for the top four battles tomorrow. He took out a box from his Cosmic Bag, smiled and said, "There are only eight people in total, it's very simple. There are a total of eight balls, and on each ball, there are one, two, three, four and four numbers. Each number has two balls.

Long Chen and Susu looked at each other for a moment before walking forward. At the same time, the five people from Five Elements Alliance and the God Clan's Wu Guangyu also surrounded Long Beard Man.

Everyone stared at their opponent gloomily.

Amongst them, those from the Five Elements Alliance were the most proud because they had the largest lineup, a total of five people, which was five times more powerful than the Wind God's lineage.

Looking from another point of view, there were a total of five that had been kicked out of Five Elements Alliance, and he had the largest number of people.

"Alright, children, let's start drawing lots." Long Beard Man laughed comically. His face was brimming with a wretched smile as he stared at Su Xue. Under his smile, the tense atmosphere eased up quite a bit.

"Who's going first?" In the Five Elements Alliance, one of the warriors said.

"Of course it's Boss Jin Ling!"

Jin Ling was not polite either. It was all a matter of luck, and there was nothing special about it. Thus, he first reached into the box and took out a small wooden ball. This wooden ball had a carving that represented the number one.

This meant that Jin Ling had drawn number one, and he would be the first to fight tomorrow.

"I hope you guys get number one too." The gold spirit smiled at Long Chen and Wu Guangyu, then retreated. After the rest of the Five Elements Alliance made their move first, the four Five Elements Alliance s drew a total of four numbers: two numbers' two 'two', one 'three' and one 'four'.

This meant that there would be two or three battles within the Five Elements Alliance. They were the two who drew the number two.

There were only five of them left, so that was normal. They were considered lucky enough that they didn't get to participate in the internal battle of the two teams.

In this wooden box, there were only three wooden balls left: one, three, and four.

Long Chen and Pure Snow heaved a sigh of relief. This meant that the two of them would not have any internal battles.

Of the three of them, it would be dangerous to draw a gold spirit, but it would be much more dangerous to draw the other two. At this time, Wu Guangyu did not even look at Long Chen, and directly took out a wooden ball from the wooden box. Long Chen actually hoped that he could draw one, but unfortunately, he could draw number three.

The face of the Five Elements Alliance disciple who went against Wu Guangyu immediately became deathly pale.

This meant that, between Long Chen and Susu Xue, there would be one person who would want to fight the metal spirit. Sooner or later, there would be a fight, so Long Chen did not say anything.

Chapter 814 - Belief

"I'll go first." Pure Snow smiled like a beautiful flower. She stretched out her slender hand and took out a wooden ball from the wooden box. The only good thing was that she had obtained number four.

This meant that the ball left inside was number one.

Ever since Long Chen had injured Feng Liu, everyone had already increased Long Chen's strength to that of the Golden Spirit Wu Guangyu. And in the decisive battle to the fourth place, Long Chen would be able to fight against the metal spirit. The two opponents with great potential would create sparks during the first day of battle, causing everyone's heart to burn with passion. Tomorrow would surely be an exciting battle.

"Long Chen?" Jin Ling was also slightly surprised. Her lips gradually curved into a smile, and with a face as cold as a knife, she said, "I said that we would meet again, I didn't expect it to be so soon. Coincidentally, after taking care of you, I would have to concentrate on fighting Wu Guangyu on the last day. "

"I've thought too much about you. Try your best to preserve your life tomorrow." Long Chen said indifferently, and then came back to Bai Lan's side together with Susu.

"Then let's just watch and see." Not to mention anything else, Jin Ling also brought the Five Elements Alliance's team back. Honestly speaking, other than the fight between Jin Ling and Long Chen, the other two matches had already been decided, so there was nothing much to see in the internal battle of Five Elements Alliance.

"You have always been very lucky, why are you so bad today?" When Long Chen returned, the Thunder Clan's patriarch Lei Ji pounded on his chest as he said with a smile.

"This can't be considered bad. Tomorrow, we will easily beat the crap out of him and make him cry for his mother." Long Chen said with a faint smile.

Ling Xi's departure really made his personality quieten up by too much.

In the past, he would always have the personality of a rogue in the wind and dust. As the constant killing became more and more quiet and cold, but recently, Long Chen realized this point and started to open his eyes. Since he could only look away, his mood would naturally be better.

Turning his head back, Mo Xiaolang was still standing beside the Wind God's lineage. Seeing Long Chen looking at him, Mo Xiaolang's lips curled into a faint smile, and within the smile, there was encouragement and respect.

"Get rid of all these people. Our next target is the Three Great Imperial Domains!"

Mo Xiaolang, the only person who accompanied Long Chen up one step at a time!

When Long Chen was still in White Yang Town, they had already known each other!

Between brothers, just a glance was enough.

"How did you learn to boast?" Suxue looked at Long Chen with a somewhat rebuking gaze.

"Not that I've learnt it, but this is my true personality. You've been blinded by my previous appearance." Long Chen grinned and said.

Why is my mood so good?

That was because, in the end, he would only be able to pass those last few trials and would have to go to the Imperial Domain. Without even needing more time, just two years later, Long Chen would be able to

step into the legendary Three Great Imperial Domains, and the day he would meet Ling Xi, wouldn't be too far away.

At that time, Long Chen would definitely give him a great surprise.

The more he thought about meeting with her, the more excited Long Chen became.

The thing he was looking forward to was right in front of him. His originally calm state of mind also gradually recovered. The arrogant and despotic personality had slowly circulated in his bloodline. This did not mean that he had become childish again. His methods were still cold and ruthless, and had only changed his mindset.

If, because of his usual actions and words, he thought that he was an impulsive young man, being so arrogant that he didn't know it, then he was completely wrong.

After experiencing so many things, Long Chen's thoughts and enemies, were already something that few could understand.

"Alright, tomorrow at noon will be the start of the battle. Today you guys are tired too, let's find a place to rest first and then we'll rush here tomorrow." Let's return to the Greenwood Region. "

Bai Lan was very satisfied with today's result, and said while smiling.

The people from the Wind God's lineage and the people from the Five Elements Alliance also gradually left. In the ruins before, the environment was so bad that no one wanted to stay in this place.

Following the thunder demon lineage's team, Long Chen returned to the Greenwood Region. The so-called Everlasting Battlefield was not really that big, and they quickly returned to the Greenwood Region. After Bai Lan cleared a space, the night quietly fell, and everyone started a bonfire here, making some beast meat.

"Relax well tonight. Starting tomorrow, whether or not you can obtain the final glory for our Thunder Clan. The result of obtaining the Yellow Emperor's key will depend on your performance." Bai Lan instructed.

"Dad, don't worry. I'll definitely work hard. At least the top four won't be a problem." Pure Snow smiled sweetly.

"He's only in the top four, and he's so unambitious. Can he be considered my, Bai Lan's, daughter?" Bai Lan raised his eyebrows and pretended to be angry as he asked.

"Alright, and besides, I know that you have completely placed your hopes on me. I will already give you face by entering the top four." With Long Chen here, I will be able to rank in the top four. " Pure Snow said in a spoiled manner.

"So disappointing." Bai Lan scolded.

After a while, Long Chen found a place at the edge of the cave to cultivate. He never wasted any time, and seeing Long Chen being so serious, Su Xue blushed a little. Cultivating was boring, and not everyone could do it like Long Chen did.

Even for a genius warrior like Sanxue, who had reached the ninth level of the Earth Martial Stage at such a young age, the mere mention of the word "cultivation" made his feel dizzy and nauseous. However, Long Chen had never encountered this problem before.

Belief was the foundation of a person's strength.

Because Long Chen had absorbed the Primordial Blood Dragon's inherited blood essence, his potential was invincible. However, there was another important reason why he was able to reach this step, and that was faith.

Because of his perseverance, he never knew how tired he was.

Back then, if Ling Xi had not left, and if he did not let Ling Xi use the Nine Celestial Spirit Fruit, the current Long Chen probably would not even be able to cultivate to the Earth Martial Stage. It was the strength of faith that allowed him to persevere and endure.

Honestly speaking, Long Chen had never been afraid of Jin Ling and Wu Guangyu, it was his own confidence. It wasn't that he was stronger than his opponent. It was just that the conviction in his heart

was incomparably strong. Many times, there would be subtle differences in the difference in their strength. People who persevered even more would be able to obtain victory.

"Xue'er, what about you, Long Chen?" Looking at how Long Chen was cultivating, Bai Lan suddenly said.

"It's nothing? Just work hard and be abnormal. "I've never seen a person like him. He trains every day and never stops. He's in a hurry to go reincarnate." Pure Snow was speechless.

"Not to be reborn, but to prove oneself." Bai Lan said as he nodded his head deeply.

"Huh?" Su Xue didn't understand what Bai Lan had said.

Bai Lan caressed her silky long hair, with eyes full of doting, he said: "Making him your fiancé is also just to protect him. I originally wanted to make you two match, but that guy's heart seems to belong to someone else. This trial of the Sea of Love, whoever falls in first will suffer more. This brat is a wanderer, sooner or later he will disappear in front of you.

"Father" Bai Lan's words were indeed profound, but Suo Xue understood what he meant. She nodded and said, "Don't worry, I don't have any interest in this rogue. It's just that my sister is a bit attached to him, and I've only gotten close to him a few times."

"That's good." Bai Lan laughed, then went to do some other things.

The bonfire burned, but the young girl's mind was silent.

"Is he a wanderer?" Looking at the figure of Long Chen in the black, Sanxue became somewhat lost in thought.

For Long Chen, he had just reached the eighth stage of the Earth Martial Stage, so he still needed to properly consolidate his strength. Today's battle had lost a lot of true essence, and he needed to slowly recover to deal with tomorrow's battle.

Tomorrow, at noon, he would face the metal spirit.

However, there was another matter that troubled Long Chen.

"Cat."

"Little kid, what are you calling this god for!" The kitten crawled out from the Great Void Realm.

"Today, when I was in the center of the Bewildering City and was in a confrontation with Wu Guangyu, I saw an illusionary five-colored altar behind him. Did you see that?" Long Chen asked in a low voice.

"I saw it. It is indeed a magical place. I'm guessing that this is a hidden restriction. Only when it's special can you use some special items to undo this restriction and reveal some good stuff or a space."

"Is that so? The five-colored altar most likely had something to do with the Five Emperors. I need to go over and take a look. Otherwise, wouldn't this discovery be wasted? You must know that it is indeed strange that I am the only one who can see that five-colored altar. "

Cat pouted and said, "Can you leave? Bai Lan and Lei Ji were worried that you would get killed, and that they would protect you. If you go to the Bewildering City, if you meet any people from the Wind God's lineage or the Wind God's lineage, they would kill you in the blink of an eye. "

"Then why don't you go?" Long Chen laughed.

This was his goal.

"What's the benefit? If there's no benefits, I won't do it. " The kitten's face became serious as it spoke.

"Hurry up and get out of this old man's way. What benefits can this state of yours bring you? I'll get you a female cat to let you feel good about it." Long Chen threatened in a low voice.

The kitten's tail retracted, and its hair stood on end. Unable to posture, it could only stagger and say, "Okay, I'll go with this dream demon body of mine. It's still young, so it's not suitable for me to do things in the room. But when I grow up, can't you treat this god shamelessly?"

As she spoke, tears welled up in the kitten's eyes. Such a pitiful and adorable appearance would normally make any woman fall for it.

"Rest assured, when your weapon becomes usable, I will capture all 3000 beauties in the harem for you. No strong ones, only beautiful ones." Long Chen laughed.

Chapter 815 - Black Robe

"That's great. This god will go as well." The kitten cackled, and its black body quickly disappeared into the darkness, heading towards the Bewildering City. He was more knowledgeable than Long Chen, so Long Chen reckoned that he could understand what was going on with the five-colored altar.

However, just as Cat moved, the Great Void Dragon Symbol on Long Chen's chest actually appeared from within his flesh and blood, forming a true talisman. It stuck onto Cat's body and followed him. All of Long Chen's belongings and the Great Void Realm all left together.

Only then did Long Chen remember what Cat had said before. Its soul was imprisoned in the Great Void Realm, and even if it occupied the other bodies, it could not stay more than a hundred meters away from the Great Void Realm.

"Don't worry kid, you're now the number one master of the Great Void Realm, as long as you think about it, this Great Void Dragon Symbol will be back to your chest in no time. I'm attaching the Great Void Dragon Symbol to my body now, if I'm in danger, I'll inform you through the connection between you and the Great Void Dragon Symbol, and you can instantly take back the Great Void Dragon Symbol. By then, I can hide in the Great Void Realm."

Long Chen was originally a little depressed, but after hearing Little Cat's words, he suddenly understood.

"That's good news. In the future, if there is anything that I cannot do, let this fat cat do it. If you are in danger, I can send it back with just a thought. Then ..."

With a thought from Long Chen, the Great Void Dragon Symbol actually truly appeared in front of his chest in an instant.

Before Long Chen even had the chance to rejoice, Cat came out from the Great Void Realm and scolded at Long Chen.

"Damn you, I, this god, told you to take it back when I was in danger. I didn't tell you to take it back now!" It wasn't easy for this god to run three hundred meters before he was summoned back again. This god is f * cking done! "

Seeing that the kitten was so anxious, Long Chen couldn't help but laugh. However, since he had to do something today, he couldn't offend the little guy. Therefore, Long Chen hurriedly begged it to spare him.

After a bit of self-examination, Cat finally calmed down and said: "Since you are the first one to commit an offense, I'll forgive you today. This god won't argue with you, you ant!"

With that, the kitten left again.

After an experiment, as long as Long Chen focused his mind, he could sense the existence of the kitten through the Great Void Dragon Symbol that was connected to him in the shadows. He could even grasp its position, his surroundings, sound, etc.

"How amazing! In this way, wouldn't I have a pair of eyes and ears that can move around at any time?" Long Chen thought excitedly.

This was indeed a good thing.

Long Chen was just about to start cultivating when Sanxue suddenly walked over to his side and disturbed Long Chen. She had an apologetic look on his face and said a little bashfully: "I didn't mean to disturb you, I just wanted to remind you that you probably don't understand that metal spirit very well, right?"

Before Long Chen came here, he did not know that there was still a metal spirit in the Five Elements Alliance, thus he nodded and asked: "What's special about him?"

Su Xue thought for a moment and said in detail, "The gold spirit is the last disciple of that old man from Five Elements Alliance. Firstly, his original Golden Battle Body has already been opened to the third and final level. However the Golden Body wasn't his strongest. At the same time, his Gold Eyes of Destruction has already been activated to the highest level. Being able to unleash another extremely powerful attack, can probably be considered his trump card. "

"Is that all?" Long Chen looked like he did not care.

"You're looking down on your enemy." Seeing Long Chen's indifferent face, Su Xue was a little nervous, "Not only that, through the relationship with the Jin Zu, he managed to learn the battle skills of each and every clan of the Five Elements Alliance. He also knows a lot of famous battle skills even among the Five Great Clans. You'd better pay attention. "Tomorrow's battle is a matter of life and death. If my father fails to rescue me ..."

Long Chen knew that this lady was worried about him. He laughed and said: "I have remembered what you said, I have to admit that he is indeed an opponent. However, to meet me, Long Chen, can only be considered bad luck."

"..."

She rolled her eyes at Long Chen, her demeanor looked extremely seductive. At this moment, she said in a serious tone, "What's even more important is that the Five Elements Alliance is deeply rooted in it. It has a history of countless years, and there are tens of thousands of mysterious treasures in the clan.

"A treasure?" In Long Chen's hands, there was the '3000 star fields' that the Sevenstar Monarch had left behind. He believed that under his 3000 star fields, any treasure would turn into ashes.

Treasures are divided into divine weapons and magic treasures. The only thing I'm afraid of is that the metal spirit will have some miraculous treasures that will be hard to guard against. You can't underestimate your enemy tomorrow. As she spoke, Sanxue was about to leave. She had come to remind Long Chen, but Long Chen's indifferent attitude made her a little angry.

"Pure Snow." Long Chen raised his head and called out to her.

"What is it?" The moonlight was clear and cold. The silvery white moonlight dyed her skin, revealing her absolutely beautiful figure and her fair skin in front of Long Chen's eyes.

This instant of beauty caused Long Chen to suffocate. His blazing gaze made Suxue feel a little uncomfortable, and her face flushed slightly. She quickly asked, "What exactly happened to you?"

Long Chen shook his head, and said with a smile: "Thanks for everything just now, I have actually remembered everything. Tomorrow, I will perform well and will not disappoint your expectations."

Only then did the angry look in Suixue's eyes disappear. She nodded and smiled sweetly, "Okay, I'll wait and see. Also, I'll cheer you on tomorrow."

This way, Long Chen would be able to sense the scenery around it, and even hear the sounds. At this moment, the Great Void Dragon Symbol had already fused with the kitten's chest, and Long Chen had an illusion that the kitten's body had already become his own; the kitten's eyes had become his eyes, and his ears had become his ears.

The only difference was that he couldn't control the kitten's movements.

At this time, Cat had already entered the Bewildering City in the darkness. Long Chen had remembered the route to the center of the city from outside the city. Little Cat, who looked carefree but was actually very attentive, also noticed it, as with its small body, it didn't disturb anyone, and immediately entered the Bewildering City.

The Bewildering City in the middle of the night was especially eerie and terrifying. A cold wind blew through the city like a monster, and Long Chen could even feel that the kitten had grown a few times bigger and shivering.

Roughly a quarter of an hour later, the kitten that knew the route had already reached the center of the city. This was the place where Long Chen had defeated Feng Zhiling before.

After making sure that there was no one around, the kitten finally reached the place where the five-colored altar had appeared from.

"How is it? What did you find?" Long Chen realized that he could actually converse directly with Little Cat through that slight connection he had with the Great Void Dragon Symbol. Of course, these words weren't directly said out loud. What Little Cat felt was only the thought of Long Chen.

"Go, don't bother uncle. I just arrived." The kitten said impatiently.

This five-colored altar probably made it even more confused. At this moment, it was wandering around, trying to figure out what was going on.

"Five colors. I presume that it was those five emperors who set it up. They once said that there was a Five Emperors Secret Realm. Boy, do you think that this is the entrance to the Five Emperors Secret Realm?" The kitten guessed after playing with it for a while.

Long Chen thought for a moment and confirmed: "That place is called the eternal battlefield, and is the center of the Archaic Graveyard. The place you are standing, is probably the center of the entire Archaic Graveyard, and there is even such a strange phenomenon, which presumably means that there is no doubt about it. The entrance to the Five Emperors Secret Realm, requires five keys, and even if we know that it is the entrance, it doesn't seem to be of any use at all."

The kitten nodded and said, "Moreover, the five-colored altar hasn't appeared yet. I don't know when it will appear, but I'll stay here and observe for a while. I'll go back at daybreak if there's nothing else."

"Alright."

Long Chen nodded, he had initially observed the situation with Little Cat for a while longer, but when he could not find anything, he focused on his own cultivation.

Time gradually passed, and Long Chen was immersed in his cultivation. Suddenly, he felt a terrifying sense of danger, and immediately lifted his mind from cultivation. Long Chen had already felt the situation with Little Cat, but Little Cat did not tell Long Chen to retract his Great Void Dragon Symbol yet, but he could feel that Little Cat was already hiding, and was extremely nervous at the same time.

"What happened?" Long Chen immediately looked over there, and through that feeling, the eyes of the little cat became his own. At that moment, he quickly looked in the direction that shocked the kittens, where the five-colored altar was originally, where six strange black robed men stood. Their robes were very wide, and their hats were very big, covering all of them.

"It's them?" Long Chen was shocked.

These six people were undoubtedly the six people that Su Yan had described. Forget about the Su Yan of that time, even the current Long Chen was unable to see just what these people looked like.

He could only feel a terrifying pressure, even more so for Bai Lan, emanating from their bodies. Cat was hiding very far away, they had not discovered Cat yet, but even so, Long Chen could still feel that Cat was currently trembling.

Chapter 816 - Secrets

These six black-robed men's sudden appearance caused Long Chen's hair to stand on end. Even though he was not at the scene, he still felt a sense of fear. He held his breath, afraid that his actions would disturb the kitten and cause it to move.

However, thinking about how he seemed to be able to control the Great Void Dragon Symbol and make Little Cat come back, Long Chen no longer had any qualms about it.

"I want to see what you bunch of mysterious black robed men are up to."

The kitten in the Bewildering City felt relieved when it heard that Long Chen had stopped cultivating. It carefully hid its body, the kitten itself was not afraid of these people, it was only that it was currently occupying the body of the Demonic Beast, the Demonic Beast, and its nature was still present. When faced with the threat of a strong Ranker, it would naturally tremble.

At this moment, Cat tried its best to control its body and stabilize itself. Then, it stared at the group of people to see what they were doing.

There were a total of six people standing apart from the five-colored altar. At this time, one of them took a step forward, and without saying a word, his hands began to move in a complicated manner.

Very quickly, he took a few steps back. Then, Long Chen saw that the five-colored altar that had already disappeared, actually started to appear again, and it was still in that misty state. The five-colored altar lit up for a short while, then completely disappeared.

The appearance of the five-colored altar was exactly what Long Chen had expected. It seemed like these people already knew about the five-colored altar like the back of their hand.

Long Chen carefully observed everything. It was at this time that he suddenly saw the hand of the person who had cast the technique previously. His hand that appeared from within the long black sleeves was actually a pair of claws covered in purple scales.

There were neat scales and sharp claws. Numerous dark purple light flowed within them, giving off a soul-stirring might.

"Could this person be a Beast Fighters? But, if he was not fighting, why did he transform into a beast spirit body? "

This doubt flashed across Long Chen's mind.

After the five-colored altar disappeared, under Long Chen's expectation, they started to talk. The conversation seemed to have no one else, because Long Chen could obtain more information from it.

Long Chen was waiting for them to talk.

The voice of the man who cast the spell from before sounded a little like it came from the depths of hell. It didn't seem to belong to a human at all.

"The entrance to the Five Emperors Secret Realm will open a month before the Archaic Graveyard closes. After they finish holding this childish competition, it's time to throw the last Mysterious Emperor Key out. "

"Where should I put it?" The same sinister voice came from another direction.

"Since it's a Mysterious Emperor Key, let's leave it at Tianshui City's side."

"Tsk tsk, after waiting for so long, this Five Emperors' Treasures is finally going to belong to us. Even if these damned Five Emperors were to die, they would have to place such a great restriction so that my clan won't be able to obtain this treasure!"

"The Archaic Graveyard that has been activated many times has failed. This time, we have to wait until the time comes!"

As he spoke till here, the six of them looked at each other and smiled. Through the moonlight, Long Chen seemed to be able to see that their faces were a little different from ordinary people.

"Who is it!"

One of the men looked in the direction of the kitten. Long Chen was shocked, and did not dare hesitate as he immediately summoned her Great Void Dragon Symbol back. Because he was relatively close, in a short moment, the Great Void Dragon Symbol had fused with Long Chen's chest, and at the same time, the little kitten had also entered the Great Void Realm.

Before this, they had indeed noticed some movement from Cat's side, but Long Chen reckoned that when they couldn't see Cat anymore, they would think that it was just an illusion. After all, from what they knew, in the entire Archaic Graveyard, there definitely wouldn't be anyone stronger than them.

"Who are these people? How could he be so powerful? Everyone gives me the feeling that they are even more terrifying than Bai Lan and the rest! "

The stronger a person was, the more terrifying they would be.

Furthermore, from their conversation, Long Chen heard an even more shocking piece of news. It was that the goal of those black-clothed men were actually the Five Emperors' Treasures.

"This Archaic Graveyard is indeed being controlled by someone. The one controlling it should be them. Furthermore, they have the keys, so the reason they did not take them in should be because the Five Emperors had set a limit for them. With their strength, they could not even take them away. "

"You're right," At this moment, Cat had already come out of the Great Void Realm. She let out a breath of air and said, "Luckily, you reacted quickly, otherwise, this god would have been chopped into pieces by those monsters."

"Cat, if that's the case, would it be dangerous for us, and Bai Lan and the others to fight over that Five Emperors' Treasures? Would it be a waste to have all of them killed in the end?"

Cat rolled her eyes and said: "How would I know. Wealth comes from danger. To be honest, if you want to go to Three Great Imperial Domains, without the Five Emperors' Treasures, you would lose a lot of opportunities. No matter what, we have to fight for the Five Emperors' Treasures. According to what they have said, there's still five months left, so we cannot be anxious. "

"That makes sense." Long Chen's conviction could not be defeated just because of this matter.

"By the way, do you know their identities?" asked the kitten.

"I don't know. I'm waiting for you to answer my questions." Long Chen said while smiling. Although the pressure was great, he had experienced any kind of immense pressure.

"Let me tell you the truth, they are the demon race from the Desolate Imperial Domain. Furthermore, they are the descendants of the demon race that killed the Five Emperors in the Middle Paleogene, so don't think that they are only humans. In fact, they are all demon beasts, and very powerful among the emperor level demon beasts.

Six super Demonic Beasts? No, it should be called a Demonic Beast.

"So it's them," Long Chen only now understood, this way everything could be explained. So the descendants of these Goblin Beasts were coveting the things left behind by the Five Emperors, which was why they designed this game of Archaic Graveyard, allowing the experts of Realm of Myriad Kingdoms to search for treasures.

Their goal was to get the people of the Realm of Myriad Kingdoms to take the things out, and in the end, they would reap the benefits. If this matter were to spread out, it would definitely cause those who were still coveting the Five Emperors' Treasures to be scared out of their wits. Most likely, Bai Lan and the rest wouldn't even dare to go back inside the Five Emperors Secret Realm.

However, Long Chen thought of something else.

"If I were to leak out this information and cause everyone to panic, no one would dare to go to Five Emperors Secret Realm. It is likely that after the Spirit Demon Race finds out, their plan will fail and they will kill everyone in Archaic Graveyard in one go."

This was a major event, and he absolutely could not act rashly.

Wind God's lineage and Five Elements Alliance have nothing to do with me, but Bai Lan and Lei Ji have treated me with kindness, at that time, I will have to secretly inform them, and let them be mentally prepared. "Su Yun said in a low voice.

"Don't worry too much." "Since your Realm of Myriad Kingdoms's old seniors have placed restrictions on their treasures so that they can't obtain them, then those five old fellows might have already guessed

what the situation is like. If you can obtain the Five Emperors' Treasures, then you might be able to leave safely.

Long Chen thought about it carefully, what Cat said seemed to make sense, so he nodded.

"Just put this matter at heart for now. From what Su Xue said, that gold spirit is quite strong. I can't be careless when dealing with him tomorrow. "

Time passed in the blink of an eye as he quietly cultivated. Soon, the sun rose again the next day.

When it was almost noon, and no one bothered Long Chen at the start, when they were ready to go, they finally arrived in front of Long Chen. After saying that, everyone headed in the direction of the Bewildering City.

"Are you ready?" Bai Lan asked.

"It's bound to be a success." Long Chen smiled confidently.

"That's good. I'll be depending on you today."

Amongst the group, the one who was the most confident was actually Long Chen himself. As for the others, they were a little worried about Long Chen's battle, since Jin Ling was famous for being a martial arts fanatic, and had never lost a single battle.

Long Chen had met him in the first round, so it could only be considered bad luck.

The Nine Clan youth Martial Arts Competition was the most important competition in Realm of Myriad Kingdoms, although it was held in Archaic Graveyard and there were not many people watching, but the three powers were still quite cautious, before the time could, the people from the three powers were already gathered here.

Feng Liu had already been sent back to the Huge Liujin City to chat with them, so there were fewer people in the Wind God's lineage. As the saying goes, enemies meeting each other caused one's eyes to turn red, and Long Chen shamelessly injured Feng Zhilin, causing the moment Feng Zhilin saw him, her

face would naturally reveal an extremely cold expression, and dense killing intent emitted from her body.

Compared to Feng Zhilin, Wu Guangyu was even more favoured. His mother was a supreme expert of the God Clan, so from a young age, he had always been free to do whatever he wanted. Of course, Wu Lian strictly requested for his cultivation, so in the cultivation direction, Wu Guangyu was still very strong. From cultivation all these years until now, Wu Guangyu had not lost a single time.

The domineering manner that Long Chen used to deal with Feng Zhiling caused him to be wary.

"In the end, only after you pass the trial of the metal spirit can I properly teach you a lesson. Of course, if you can't even pass the trial of the metal spirit, then you don't have the qualifications to be my opponent."

From Wu Guangyu's gaze, Long Chen could see what he was thinking about.

Chapter 817 - The path of beast martial arts

It was not the time for them to fall out with the god race yet, so Long Chen let the little wolf stay there for the moment. Once the young Martial Arts Competition dies, Long Chen and the little wolf will leave together.

After arriving there, Xiao Lang and Long Chen looked at each other but did not say anything. Long Chen's gaze found the gold spirit in the Five Elements Alliance, and currently, the gold spirit was standing together with the old man from Jinshi. Today, the metal spirit's entire body was shining with a metallic luster, giving off a feeling of sharpness, as though it was exposed.

Today was a peak battle between Long Chen and the Golden Spirit, it had nothing to do with the Wind God's lineage. At this time, the people of Five Elements Alliance were all targeting the Demon race's side, and they all looked over provocatively, one by one. Jin Zu, who was above the five great patriarchs, was sizing up Long Chen at this moment, and after the other demons had taken their positions, the Jin Zu cleared his throat and said: "Brother Bai's eyes are still as vicious as usual.

His words were said in a sarcastic tone, implying that the Demon race did not have any real strong youths. This Long Chen had only tricked them using her beauty.

Bai Lan did not care about these thoughts. He smiled lightly and said: "Senior Jin can also marry your daughter to Long Chen, but your daughter is probably already over five hundred years old. I wonder if Long Chen will do the same?"

Saying that, he started laughing out loud. Not only did he laugh, the people from thunder demon lineage could not help but laugh too. Even though Bai Lan was not young, he had spent most of his early life training diligently, which resulted in him coming late for a girl, and even for two daughters in a row.

However, Jin Zu was not angered by Bai Lan's retort. He chuckled and said: "That's no good, let alone my daughter not having such young looks and capital to attract this little kid, the people of my Five Elements Alliance also do not want to do this kind of thing, our young experts were all groomed and not lured back. If it's seduction, there are many beauties in my Five Elements Alliance, but the beauties of my Five Elements Alliance, only belong to my young man in my Five Elements Alliance."

Regarding his words, Bai Lan smiled and declined to comment. He looked around and suddenly shouted: "Long Beard Man, are you here yet?"

"This old man is here too!" Very soon, he had reached the center of the crowd and chuckled: "Everyone, sorry about that, this old man was late. I nearly died to a woman's stomach last night, so I came today."

"Can you stop talking nonsense?" When Long Beard Man was saying something interesting, Wu Lian interrupted him with a stiff tone. Although this woman was covered in a veil, her figure was of the first class. Her entire body was filled with the temperament of a mature woman, and there was a fox-like charm hidden deep within her ice-cold eyes.

Her situation was the same as Bai Lan's, and she only had children after quite a while.

For example, the leaders of the five clans. Amongst the young generation of Five Elements Alliance, most of them were their grandchildren.

As long as they reached the Heaven Martial Stage, they would basically have a lifespan of 500 years. If they cultivated even more, there would be even more, and those strong Ancient Rankers would all become terrifying existences. The Rankers that Long Chen was looking at right now, compared to the experts of the Five Emperors type, were basically nothing.

Under Wu Lian's scolding, Long Beard Man immediately shut his mouth and looked at Wu Lian with an innocent expression, as if she deserved a beating. After waiting for Wu Lian's gaze to turn even colder, he then stopped and said: "Since everyone is already gathered, it's already noon. Everyone from the three great powers, please retreat."

After leaving, Su Xue told Long Chen to be careful, and then she followed the others to retreat. The rest of them gave Long Chen and the gold spirit a vast space to fight, and they could freely fight in the desolate area.

In this land, the only person still standing beside Long Chen and Jin Ling was the Long Beard Man. As a notary, he had another duty, and that was to save the person who admitted defeat. If he did not go all out at that time, as someone of the same level, he would definitely be able to see through it.

However, there were still many notaries that had died in battles in the past few years, so once they confirmed that they were not a match for the opponent, they had to admit defeat as soon as possible, otherwise, they would really die here.

I'll explain to you two first, if you are sure that you are not my opponent, then just give up, and don't endure until the very last moment. If I fail to rescue you guys, either you die, or you lose your arms or legs, you can't blame me, and you can't blame the other party either! This is a rule set by your ancestors of the nine great clans, it was not brought up by my Long Beard Man ~ "

After reminding the two seriously, Long Beard Man backed off with great interest. He was about thirty meters away from the battle, a distance that would allow him to instantly reach there, and it would not affect their battle at all!

Everything was ready.

Long Chen had always been a straightforward person, so when Long Beard Man finished his words and left, he had already transformed into Dragonsoul Transformation in a short moment.

Blood-red dragon scales covered his body, making him look majestic.

"The path of the Beast Fighters is only at the end of the road. Only the path of the True Martial and the Way of the Military are prevalent in the Imperial Domain, which is why the Imperial Domain has the two Imperial Domain s, the True Martial Emperor Domain and the Beast Soul Imperial Domain. Since you are a Beast Fighters, you are destined to never rise in power. You need to give up on the beast martial way in order to truly become an expert. "

Before the battle, Jin Ling suddenly said after seeing Long Chen's body.

The reason was very simple. First, if the Beast Fighters refined the beast spirit, then using the beast spirit as a strength, in the end, it was not a great path, and second, the Desolate Imperial Domain in the middle of the Three Great Imperial Domains had an endless number of demon race, would they allow their own clansmen's beast souls to be refined? The reason was very simple.

Even the people of Imperial Domain of Sword Soul and True Martial Emperor Domain did not dare to refine such a high level beast spirit. After all, the number of people and territories of the Desolate Imperial Domain s were more than the other two Imperial Domain s combined.

Of course, numbers were not equal to strength. In the Imperial Domain of Sword Soul and True Martial Emperor Domain, the number of super strong warriors would not be less than the opponent.

In everyone's eyes, Long Chen was actually just a Beast Fighters.

Of course, who would know, that he was actually a one in a million Dragon Fighter, and one at its peak?

Jin Ling's words merely allowed Long Chen to understand a little about the Imperial Domain. The words that were said about the Beast Fighters did not make Long Chen feel discouraged in the slightest, after all, he was not the Beast Fighters in the first place.

At this moment, he faintly smiled and declined to comment on Jin Ling's words. Instead, he directly said, "Let's fight. We still have three more battles to fight. We can't let others wait for us."

For Long Chen to be able to remain so indifferent in such a disadvantaged situation, Jin Ling, this cold cultivation machine, was slightly moved. He was different from Wu Guangyu, Wu Guangyu's face was filled with arrogance and desire, but this metal spirit only had one word, it was fighting and killing. If their strengths were equal, then the metal spirit would actually be even more terrifying.

Hearing Long Chen's words, Jin Ling went silent for a moment, then moved, suddenly rushing towards Long Chen!

"Die!" This golden spirit was like a huge beast, and its roars continuously resounded in Long Chen's ears.

"Whoa!" His body had the power of the third stage of the Golden Battle Body. In fact, when the Golden Battle Body was activated to its final state, the Golden Spirit's body turned into a bronze color, appearing to be extremely hard, and at the same time, there were golden symbols and rays of light circulating inside of it.

"The third stage of my Golden Battle Body is definitely not worse than your seven star body!"

"Then let's give it a try." Long Chen's seven star body, was forged using a astral qi. He had experienced so much pain, so his seven star body was naturally strong!

However, the gold spirit was not weak, and on his fist, Long Chen could even vaguely see the gold eating qi!

"Do you understand now? The reason why I was able to reach the third stage of the Gold Battle Body Realm is because I had previously forged and trained in the gold eating qi, and I endured endless pain to reach my current level. My master once said that in terms of physical strength, there are few in the Realm of Myriad Kingdoms who are my match. "

It seemed that this gold spirit was also a madman who could torture him for the sake of raising his strength. The power of the gold eating qi was similar to that of the astral qi s, and when it suddenly erupted from's fist, it created a terrifying attack power.

However, Long Chen's seven star body, with the system's cultivation method and the blue stellar nucleus, was still one level higher than the gold spirit's golden body!

At this time, Long Chen stood still and suddenly threw out a punch. The astral qi condensed into a purple dragon and circled around his arm, with a loud bang, the purple fist force and the golden fist force clashed together, causing the entire ground to shake!

BOOM!

The huge impact brought the sharp power of gold eating qi into Long Chen's body. Long Chen gritted his teeth and endured, using his own true essence to melt the gold eating qi.

However, the situation with the metal spirit was much worse ...

Chapter 818 - Five Clan Talents

, who had inherited the heritage of the Sevenstar Monarch, was blessed by the heavens. He successfully trained in the seven star body, and in the area of the body tempering technique, Long Chen had forcefully suppressed the famous metal spirit which was known for its combat abilities.

At this moment, the metal spirit was directly sent flying. It rolled a few times in the air before stumbling and landing on the ground. When he landed, one could see that the arm he punched out of was covered in wounds of varying sizes.

At the same time his gold eating qi entered Long Chen's body, Long Chen's astral qi also entered his body. A large number of astral qi possessed a destructive power even greater than that of the gold eating qi, so the metal spirit had already suffered light injuries in the beginning. Only by wounding his internal organs and bones could he truly suffer a serious injury.

"The seven star body, as expected, is not simple." They all looked at Long Chen with jealousy and resentment. In the eyes of the people in the Five Elements Alliance, they were the true descendants of the Five Emperors, and everything that happened in the Archaic Graveyard should already belong to them, including the fact that the Sevenstar Monarch was once the subordinate of the Five Emperors, so his legacy should belong to the Five Elements Alliance as well.

Big Brother Jin Ling's body is something that he trained himself with the gold eating qi, he did it without much effort, but was able to win by a small margin like Long Chen, it is nothing at all, it can only be considered as his good luck.

When he saw that the metal spirit had actually suffered a physical loss, he shook his head and laughed bitterly: "The hard work of this little disciple far surpasses everyone else, and far surpasses Long Chen. It's just that he doesn't have the luck of this Long Chen, if he had a chance, no matter it's Wu Guangyu or some other Long Chen, he would be left far behind."

The reason why they said that was because they didn't know how difficult it was to cultivate seven star body, especially to the level of Long Chen. Furthermore, they also didn't know how Long Chen climbed all the way from a small fry to his current level.

If one were to talk about working hard and risking his life, it was unknown how many times stronger the seemingly calm and tranquil Long Chen was compared to Jin Ling.

Of course, this was just the first battle, so it couldn't really be considered as a victory. To Jin Ling and Long Chen, this was just a small test.

"It's great, come again!" The stronger the opponent, the more excited Jin Ling was. At the moment, he was looking at Long Chen with his flickering eyes, his body exploding forth like a tornado, madly rushing towards Long Chen.

The Golden Spirit was not an idiot. This time, he had used his true combat skills, fighting against Long Chen head on.

You received the inheritance of the Sevenstar Monarch, you have the seven star body. I will admit that I am no match for you in terms of combat ability, but there is not much difference between us, and the cultivation and breakthrough that I have in regards to the combat skills of the five clans is sufficient for you to have a taste. "Su Yun said with a smile.

He was originally a member of the Jinshi, but under the training of the Jin Zu, he had even learned the battle skills of the Five Great Clans.

Of course, to these strong warriors, being forty years old could be considered as being a young person. At least in terms of appearance, there was a huge difference between Jin Ling and other people in their twenties.

Long Chen's real age was only twenty years old.

Thus, in reality, he was much more heaven-defying than Jin Ling and the others.

At this time, the Eighteen Martial Veins and the nine great acupoints were all activated. On the left and right hands of the metal spirit, true essence was rolling, and the true essence in his left hand was rolling up like a burning flame. And on his right hand, true essence was as cold as ice!

This was clearly a Fire Clan and Water Clan offensive skill, but he was using it at the same time. Moreover, it had two completely opposite attributes.

This move of his was more or less the same as the Five Emperor Prints. The Five Emperor Prints were left to Long Chen by previous generations, and the way to use this mixture of fire and water was probably figured out by the metal spirit itself.

"Crimson Light Nine Heavens Fist!"

"Icy Nine Prefectures Seal!"

Moreover, what was even more abnormal was that this Crimsonbright Nine Heavens Fist and the Cold Nine Prefectures Seal could clearly be seen as an emperor level battle skill, and were both comparable to the existence of a thousands of handprints like Feng Zhilin. In Long Chen's opinion, these two originally kinds of attacks were nothing, but just when they were attacking Long Chen, they had fused together!

"He used a killing move the moment he attacked?"

In front of Long Chen's eyes, the fist image had turned into a surging red fireball, and the Cold Nine Prefectures Seal, was like an ice mountain, crashing towards Long Chen!

The power of fire and water was fused together under the control of the metal spirit. These two attacks were superlative attacks, but the metal spirit had a powerful body. This degree of power still wasn't enough to injure his body!

Long Chen squinted his eyes, the gold spirit was not his final opponent, so against the gold spirit, Long Chen did not want to use his strongest move, it was a gift for Wu Guangyu. Although the water and fire mixture was strong, but don't forget, in terms of using the mixed combat skills, Long Chen had even more powerful attainments!

He merely extended his right hand, and on the palm of his hand, the golden Golden Emperor Seal and the cyan Green Emperor Seal shone at the same time. The two types of energy merged together, forming two shining seals under Long Chen's hand.

"Emperor Qing Qing Tian Ji!"

"Golden Emperor Heaven Shrouding Seal!"

Compared to the other party's attacks, both the Emperor Qing Qing Tian Ji and the Golden Emperor Heaven Shrouding Seal were stronger. A shocking showdown erupted at this moment as all sorts of violent powers surged in the place. The mixed power was the explosive power, and when the two Great Emperor Seal merged together, there was a huge explosion!

"Break!" Long Chen was no longer in a passive position. He crazily unleashed his own strength, allowing the explosions of the two Great Emperor Seals to reach the highest levels!

Rumble rumble rumble!

Regardless of whether it was dust or strength, under Long Chen's powerful pushing force, they all flew towards him with a loud bang. Although the Crimsonbright Nine Heavens Fist and the Cold Nine Region Seal were powerful, the metal spirit was not one of the Five Emperors, and his fusion could not even compare to Long Chen's!

In the previous physical battle, Long Chen had forced his opponent to retreat! Although the physical body was one of the strengths that the metal was most proud of.

And now, with the fusion skill's power, Long Chen had once again defeated the metal spirit. Moreover, this fusion skill was also one of the skills that the metal spirit was proud of.

He knew that Long Chen was not easy to deal with, but he did not expect that Long Chen would suppress him at his most prized point, which caused him to feel a huge sense of defeat.

"Impossible!"

Not only Jin Ling, but the others didn't expect this outcome either. Long Chen was still able to stand indifferently in the distance without the slightest injury, but this time, the Jin Ling rolled a few rounds on the ground. The injury had already spread to his body, making him covered in dirt and blood.

In the previous match, the metal spirit had suffered a crushing defeat.

However, even though he was dripping with blood, the unyielding him still stood up strongly. Not only was there no fear in his eyes, there was also an unprecedented burning passion and seriousness.

"It seems that this child is excited. Not bad, he has indeed found a real opponent, one that can make him go crazy." After seeing Jin Ling's performance, not only did Jin Zu not lose his temper due to disappointment, he said somewhat happily.

Hearing his words, the others heaved a sigh of relief. They had thought that the Golden Spirit Group had lost.

Long Chen was also looking at this guy. He had a premonition, according to what Pure Snow said, this guy should have other cards up his sleeves. In terms of physical body and fusion battle skills, the metal spirit was indeed very heaven-defying. It was just that Long Chen had just suppressed his opponent at every turn.

At this time, Jin Ling was like a wild beast, crazily rushing towards Long Chen.

"You, not bad. You have the qualifications to make me risk my life!"

Jin Ling's eyes had already turned blood-red. His body possessed powerful healing abilities, and those wounds quickly healed on their own. Only a few bloodstains remained on his bronze skin. Huangfu was made of metal.

This Golden Spirit was truly proficient in the battle techniques of various races, and there were many Royal Tier Battle Skills that he could easily use, and he could even fuse them together easily. Of course, this was already his limit. Metal, wood, water, fire, and earth, the five clans' Royal Tier Battle Skills, could be used by even the metal spirit. This caused the onlookers to gasp in shock.

It had been a long time since such a genius had appeared in the Five Great Clans.

Other people might not even be able to grasp a single Royal Tier Battle Skills until they reach the Heaven Martial Stage. But this metal spirit, she had completely grasped it all, and what she was most proficient in was the Jin Zu's technique!

"Earth Nine Palace Steps!"

This movement skill had the effect of Earth Escape, allowing the metal spirit to freely travel through the soil. Of course, it was only on the surface of the limited ground, which made it so that his killing moves

would come out from the ground. It was extremely shocking, and also extremely difficult for him to resist.

Facing Jin Ling's crazy attack, Long Chen only displayed one thing, which was the Big Dipper Steps. He did not take the initiative to attack, as he had always been using the Big Dipper Steps to dodge, and the Big Dipper Steps were much better than the Nine Palace Steps. A huge star disk appeared at Long Chen's feet, and the stars within it were constantly spinning.

Chapter 819 - Metal Terminator

"Coward, this Long Chen can't be completely out of skills, why does he only know how to dodge?"

"That's right, it can't be that he has exhausted all of his strength, right? "He really isn't a man. What's the point of him dodging while Big Brother Jin Ling fights against him?"

"This Long Chen is very cunning, in the nine clan Martial Arts Competition, he is actually so cunning, he must be even more cunning normally, no wonder he could obtain the inheritance of the Sevenstar Monarch, he must have thought of a lot."

"Shut up. It's a good thing to be able to think in the middle of a battle. Only idiots would fight with their lives on the line." Seeing that the others were blabbering endlessly, Jin Zu scolded them and made them stop their discussions to focus on the battle.

"Take out your 'Three Thousand Star Region'. Just with this Big Dipper Steps, you are unable to completely dodge my attack." During the battle, Jin Ling's hoarse voice could be heard. Under his attacks, the earth shook and the mountains shook. Sand and stone flew everywhere, and the two figures flew through the air, dazzling the audience.

Long Chen did not answer him.

"A golden light!"

All of his energy was focused on the tip of his finger, and his finger, which was originally a bronze color, suddenly became golden. This was one of the most famous Royal Tier Battle Skills in the Jinshi, as his movements were extremely quick and quick, killing someone invisible. Among the Royal Tier Battle Skills

that Long Chen had seen before, the speed of the burst of this golden light was the fastest, it instantly appeared in front of Long Chen the moment it was released!

"That's right!"

Long Chen tried his best to move but he still used the Big Dipper Steps. The speed of the finger light was too fast, so Long Chen was only able to travel a small distance away from him.

If there was even the slightest deviation, his head would have been penetrated!

In a short period of time, it was indeed extremely thrilling.

Long Chen was also shocked in his heart. That golden light looked very small, but in reality, it was extremely powerful, and just by sweeping past his face, it had already left a red scar on his face.

Of course, Long Chen could control his own blood and speed up his recovery process. With such a small wound, it wouldn't take too long for it to heal.

The moment that finger of golden light was unleashed, it directly exploded behind Long Chen. The enormous energy swept outwards, and at the same time that a huge pit was smashed open, that enormous power also shook Long Chen's body forward. And right in front of Long Chen, was the location of the metal spirit!

"Die!" This situation was exactly as Jin Ling had expected.

He could control that finger golden light, and even if he couldn't hit Long Chen, he could make Long Chen's Big Dipper Steps stop, or even head in his direction. But at this moment, Jin Ling's pair of golden eyes suddenly lit up!

"Gold Eyes of Destruction, Terminator Golden Ring!"

Long Chen had long heard that this Gold Eyes of Destruction with a gold spirit had already evolved to an even higher level. At this moment, his eyes suddenly erupted with two thick gold lights that were filled with golden symbols, and the two gold lights quickly merged together in front of his eyes, instantly

forming a golden wheel full of symbols. This golden wheel was completely made of the Gold Eyes of Destruction's energy, but it was just like a real golden wheel.

After the Terminator Golden Ring appeared, it quickly flew towards Long Chen!

Rumble rumble rumble!

In the process of advancing, the Terminator Golden Ring's suddenly expanded, turning crazily like a meat grinder, instantly enveloping Long Chen within. In a few seconds, the Terminator Golden Ring would completely destroy Long Chen and grind him into minced meat!

The Golden Battle Body and Gold Eyes of Destruction were both inherited abilities of the Jin Zu. Only those with Bloodline would be able to awaken. Just like the wind race's Three Thousand Phantom Shadow, the Wind Thorns that Feng Zhiling and the others used previously were evolved from the Three Thousand Phantom Shadow.

"Long Chen, be careful!" Watching Long Chen being destroyed by the recoil of the finger of golden light, the people on the side of the thunder demon lineage were a little worried, especially Suixue, who was extremely nervous. Her face had already turned pale white, as if she was the current Long Chen and in danger.

Even Bai Lan, who had always been full of confidence in Long Chen, had a change in expression. His eyes looked towards Long Beard Man, and luckily, Long Beard Man's eyes were also extremely focused. If Long Chen were to admit defeat, Long Beard Man would probably make a move since he was the closest person to him.

The moment the Terminator Golden Wheel appeared, everyone tensed up. This could be said to be the most powerful attack of the metal spirit. Furthermore, it had been used in perfect time and seized the perfect opportunity.

Everyone was looking forward to how Long Chen would deal with him.

Long Chen also saw the Faded Golden Wheel of Destruction in front of his eyes. To others, this was a suffocating attack, but to him, it was not scary at all, and as he watched the Faded Golden Ring get closer and closer to him, three thousand stars suddenly appeared on his body. These stars quickly gathered in his hands, and in front of everyone's shocked eyes, a bright, colorful, glittering lance appeared in Long Chen's hand!

"Metal Terminator Wheel?" Without saying a word, Long Chen channeled all of the True Essence in his body into the three thousand star fields. Instantly, above the three thousand star fields, astral qi surged, forming a purple colored flow that circulated around the three thousand star fields!

"Scram!" With an explosive shout, the 3000 Star Domain in Long Chen's hand twitched, and the blue light from the long spear turned into a beam of blue light.

BOOM!

An earth-shattering explosion sounded as the three thousand star field clashed with the metal spirit's Terminator Gold Wheel. This explosion was right in front of Long Chen's eyes, but what made everyone dumbstruck was that Long Chen directly held the three thousand star field and sent the Terminator Gold Wheel flying!

His strength was simply too great. This move added the power of his physical body and also the power of his primeval essence, in addition to the Three Thousand Star Region's mysterious weapon, the Terminator Golden Wheel flew off course in another direction. It was completely unable to hit Long Chen, but was almost able to hit Long Beard Man.

Long Chen's somewhat forceful attack caused the crowd to yell out like tidewater. The people from the Five Elements Alliance were all dumbfounded, they thought that this move was enough to kill Long Chen, how could they have known that such a thing would happen?

Just by using the 3000 star fields, he was able to send the final move of the metal spirit flying?

"It's just luck, I received the inheritance of the Sevenstar Monarch, if it's true strength, ten thousand Long Chen's would not be a match for big brother Jin Ling!"

"That's right. Even if he won against Brother Jin Ling with his weapon, he still wouldn't be a good man!" Within the Five Elements Alliance, the juniors spoke out.

"Shut up." Luck was also a part of strength, so if word of what they said got out, it would be really embarrassing. That was why Jin Zu and the five great clan leaders immediately shut them up.

On the other hand, on the Wind God's lineage's side, everyone was looking at each other. That Feng Qing elder's brows were slightly knitted, and said: "This Long Chen, looks like he isn't simple.

"That might not be the case. Jin Ling has not been defeated yet, since the Jin Zu values this position so much, he will definitely give his disciple some good stuff. Long Chen might not even be able to pass." Wu Lian said.

"Is that so?" Feng Qing nodded his head, the other party's words made sense.

At this time, Feng Zhiling said: "If we are to fight, then Big Brother Guangyu, please kill him and quickly seize the inheritance of the Sevenstar Monarch. This guy is truly annoying and does not deserve to have the inheritance of the Sevenstar Monarch."

Wu Guangyu and the others looked at each other, and he said: "Looks like Little Sister Zhilin's hatred for him was not just by a little bit."

Feng Qing spoke up from the side: "That's only natural, the Monolith of the War God and Sevenstar Monarch's inheritance were originally fine, but they were taken away by this brat's schemes. Back in the ruins, it was also him who beat up Zhilin, and he was even injured."

"Sister Hailin, are you hurt?" Wu Guangyu was shocked, he had never heard of this before.

Feng Zhilin subconsciously touched her chest. Then, even though it had already healed, every time she looked at that place, she would think of Long Chen and felt very conflicted in her heart. This had a huge impact on her unparalleled cultivation determination, which was why she was so worried about killing Long Chen, so she could be at ease.

"I'm not injured." Feng Zhiling blandly said.

The more passionate Wu Guangyu was to her, the more naturally she grew cold and indifferent. This was what she was proud of. In terms of strength, although she was not the pinnacle of Realm of Myriad Kingdoms, but for the strongest in the young generation of Realm of Myriad Kingdoms, wouldn't he be prostrating herself beneath her skirt?

While they were speaking, Long Chen and the metal spirit continued to battle. Before Long Chen took out the Three Thousand Star Domain, the battle had become even more violent, it was previously a

metal spirit's attack, but now, it was Long Chen's attack instead. Long Chen's Three Thousand Star Domain, every single one of his moves, contained an earth-shattering power, and the metal spirit was instantly forced to retreat step by step!

"It's time to take that out!" Sensing Long Chen's valiant strength, the golden spirit had no choice but to admit that Long Chen was an extremely difficult enemy to deal with. He initially did not want to take out that thing, but now, he was forced to do so.

This was the thing given to him by the Jin Zu, the one he was supposed to use against Wu Guangyu at the very end. He didn't think that he would have to use it even when facing Long Chen right now, but he had no other choice because if he didn't use it, he reckoned that he wasn't Long Chen's match!

He was clearly only at the eighth stage of the Earth Martial Stage, yet his true essence was at the ninth stage of the Earth Martial Stage. Furthermore, he had cultivated three or more types of Royal Tier Battle Skills, and there was also that heaven-defying three thousand star field!

"That's right, it is indeed very powerful, but you have already used all of your trump cards, but you still haven't seen my Gold Spirit's hidden cards!"

Despite the crisis, the genie had no intention of worrying.

Chapter 820 - Golden Emperor Armor

After using the Terminator Golden Ring once again to force Long Chen away, the metal spirit had already used his trump card!

A golden light suddenly flashed!

Long Chen stopped, he saw that in front of the gold spirit, there was a set of gold coloured armor floating, this was the most gorgeous set of armor Long Chen had ever seen, all the components seemed to be made of gold, but in reality, it was a type of metal that was countless times rarer than gold. On the surface of the armor, there were countless dense golden runes. Each rune shined with a golden light, forming a helmet, breastplate, chain mail, military boots, and so on.

This power simply surpassed the power that the metal spirit currently had, and it could even be several times stronger. Long Chen even felt that the power of this armor was close to the power of the Heaven Martial Stage now!

If it was a Heaven Martial Stage Ranker wearing this armor, he would probably have twice the power of the first stage of Heaven Martial Stage. As for the metal spirit, it was the ninth stage of the Earth Martial Stage, so when used, one could not use all the power of the armor.

The treasures were divided into two types, one was called a Divine Weapon and the other was called a Magic Treasure. This set of armor clearly belonged to the series of treasures, and was also an extraordinary item within the Jinshi.

"It's actually the Golden Emperor's armor!"

"The Jin Zu is truly generous, to actually give the symbol of the Clan Leader of the Jinshi, the Golden Emperor Armor, to the Golden Spirit to use!"

"I never thought that it would actually take out the Golden Emperor Armor. If the Golden Spirit uses this armor, it can at least increase her fighting strength by a few fold. Even if Long Chen has the ability to transcend the heavens, he's completely done for!"

"If I use this Golden Emperor Armor, this metal spirit might even be able to compete with Wu Guangyu, who obtained the inheritance of the Azure Lotus Emperor!"

With the appearance of the Golden Emperor Battle Armor, everyone, despite their esteemed status, had no choice but to start discussing among themselves like commoners.

"Father, the Jin Zu gave the Golden Emperor Armor to the Golden Spirit, Long Chen."

"Don't worry, Long Chen's expression hasn't changed. If he's really not a match, then at most he'll lose, there's nothing to worry about, I've already told him about this point, he definitely won't lose his life just because of this battle." Bai Lan comforted Pure Snow, and said softly.

"Is that so?" Su Xue's anxious heart finally calmed down, but seeing that the gold spirit had already donned the Golden Emperor Armor, and her entire body was shining gold, not only in cultivation but also in defense, and had raised her cultivation to an extremely high realm, Su Xue could not be at ease.

She knew Long Chen's temper, he would definitely not admit defeat unless he achieved his goal, which meant that under the Golden Emperor Armor, he would very likely lose his life!

"Father, you have to be careful. If Long Chen is no match for him, you have to save him no matter what!"

Bai Lan rolled his eyes at her and teased: What's wrong? You haven't even married yet and you've already turned your arms around? "

Su Xue's face reddened, she turned and stuttered: "Don't speak nonsense, I just feel that Yan Er is very reliant on him, I cannot let him die like this. Before we came here, I promised Yan Er that I would ensure his health."

"Don't worry, I'm fine." Bai Lan nodded.

In her heart, she had always felt that her father was a very reliable man. Therefore, since he said this, she could finally be at ease.

To be honest, Long Chen had a headache.

At this time, after wearing the Golden Spirit Armor, it was as if the amount of true essence one could use had increased by several times. More importantly, this armor was incomparably hard. It had already imperceptibly increased the defensive strength of the Golden Spirit.

If Long Chen didn't have such a sharp weapon like the 3000 star fields, it was very likely that he wouldn't even be able to injure the opponent!

"Golden Emperor Armor? It's one of the most precious treasures of the Jinshi, Metal, Wood, Water, Fire and Earth. I estimate that there are a total of five sets of this armor.

Looking at the Golden Emperor Armor, Long Chen started to think, Long Chen was also thinking of a way to deal with the Golden Emperor Armor, the two of them stopped fighting with tacit understanding. The Golden Spirit put on the Golden Emperor Armor and only took a short period of time, and very quickly, he merged with the power of the Golden Emperor Armor, looking at Long Chen as though he was a golden war god, excitement filled his eyes.

"Although I defeated you with the help of an external object, you still caught the external object. The 3000 Star Regions suppressed me, and the external object was also a part of the battle. If that's the case, then you can't blame me!"

Before the golden spirit and Long Chen, there wasn't any enmity, only a conflict of interest.

If it was an enemy, Jin Ling would have directly charged towards Long Chen without any hesitation.

"I'm not saying anything. If possible, let's fight!" It had already been a long time. This was the first battle, but he never would have thought that it would be so exciting, going through so many ups and downs.

It wasn't until Jin Ling took out the Golden Emperor's armor that he locked onto victory.

However, looking at Long Chen's expression and how he did not seem to be afraid, who knows if he had other tricks up his sleeve?

"Your performance today forced me, Jin Ling, to respect you. However, if I respect you, then the final victor will be decided!" After wearing the Golden Emperor Armor, other than a divine ability like the Gold Eyes of Destruction, as long as it used its true essence to display a battle skill, the Golden Spirit would be able to display an even greater strength!

This kind of power was several times stronger than normal!

After a brief pause, the two young masters began fighting again. With the Golden Emperor armor, Jin Ling's strength had increased by several times!

"If this continues, I won't be able to do anything." Long Chen was very calm. In every clash, he discovered that although the metal spirit had become stronger, it was not at the point where he could not handle it. It could be said that the metal spirit at the ninth level of the Earth Martial Stage was still unable to fully control the power of the Golden Emperor Armor.

"Since that's the case, Devouring Blood Realm!"

At this moment, the blood red space instantly covered the entire area. Bai Lan and the others had long seen Long Chen's Devouring Blood Realm, so they did not feel it was strange. However, the people from the Five Elements Alliance and the people from the Wind God's lineage had faces full of surprise.

"Within this sacred art, there is actually the shadow of a 'Domain'. This is definitely not simple," Wu Lian said as she furrowed her brows.

The metal spirit, who was surrounded by the Devouring Blood Realm, was shocked to discover that in this blood-red space, there was actually a way to draw in the blood and devour the blood's energy. This caused him to be extremely shocked, and he quickly used his true essence to suppress the boiling blood energy.

"How can this be? How could there be such a divine ability?" Jin Ling was shocked.

Along the way, Long Chen had basically become a sacred art that he had to use in every battle. It could be seen how powerful the power of the Devouring Blood Realm was, and how he used the Dragon Soul Transformation at the same time.

With his increase in strength and the decrease in enemies, Long Chen had won in the end!

The use of the Golden Emperor's armor required one to use their own true essence to draw upon the strength of the Golden Emperor's true essence. The amount of true essence that one had in their body would eventually be able to draw upon, and the metal spirit would have already used half of its true essence to suppress the blood energy.

Basically, his improvement was only twice to three times stronger than before!

It could be seen that the Devouring Blood Realm was the nemesis of the Golden Emperor Armor!

At this moment, the metal spirit also realized that he could only use twice as much power as before. Just when he was about to lose his belief, Long Chen, with the three thousand star domain in his hands, used the seven star body and the Big Dipper Steps, and charged towards him!

This time, Long Chen released all the power in his body. The seven star body shined and the 3000 star fields flowed with an oppressive light, the Big Dipper Step was fast and illusionary, the continuous attacks were like a torrential storm!

"Crimson Light Nine Heavens Fist!"

"Icy Nine Prefectures Seal!"

Jin Ling was shocked and hurriedly used this ultimate move. Compared to the last time, the power was much stronger!

Long Chen still did not use his ultimate move, combining the three Great Emperor Seals. At this moment, in his hands, the Golden Emperor Seal and the Scarlet Emperor Seal suddenly lit up!

"Scarlet Emperor Burning Heaven Seal!"

"Golden Emperor Heaven Shrouding Seal!"

However, in the midst of the clash, the metal spirit did not have much energy left. If not for Devouring Blood Realm, he would have been able to defeat Long Chen with a single move, but now, it was not the case, Long Chen had used one hand to create two Emperor Seals. His left hand shot out, and directly inserted into the range of the two great attacks!

"Break!" The 3000 star fields in his hand suddenly turned into a long whip, suddenly extended, and directly lashed out at the golden spirit that didn't have enough time to react, of course it landed on the Golden Emperor's armor, immediately a sharp sound of metal rubbing against metal came out, that ear-piercing sound made many people cover their face!

The golden spirit cried out in pain and immediately retreated. Although Long Chen's 3000 star field had hit the Golden Emperor Armor, he still felt faint pain!

"How is this possible?"

He really couldn't understand what was going on with the Devouring Blood Realm.

At this time, Long Chen held onto the 3000 star domain, and once again transformed into the long spear. At this time, he was already very close to the gold spirit, the long spear in his hand instantly turned into a gigantic illusion, piercing towards his opponent!

Under Long Chen's attack, Jin Ling retreated slowly, it was such a waste, he didn't dare let the Three Thousand Star Domain stab his Golden Emperor Armor. If the Golden Emperor Armor was destroyed by Long Chen's Three Thousand Star Domain, he wouldn't know, after all, the Golden Emperor Armor was not his, if it was broken, he would be the sinner of the Jinshi!

The power of the 3000 star fields was truly terrifying!

Long Chen shouted softly and his body changed. The sharp tip of the spear instantly pierced right into the eyes of the metal spirit!
