

War God 851

Chapter 851 - Three thousands of handprints

"The Feng Family has thousands of years of history, and has a rich foundation. Be careful, if you are not a match for me, I will save you no matter what. Don't worry, for Yan Er and Xue'er, I will not let anything happen to you." Bai Lan reminded.

Long Chen remembered it.

He walked up a few steps, making Bai Lan and the others retreat, and directly said to Feng Qing: "Old bastard, come out, let me see how much strength you have left, you aren't going to use all of your strength on a woman's stomach, right? Such an old man, why aren't you taking a break! "

Feng Qing hated it when others called him old.

Although he looked very old, he was actually a lot younger than Bai Lan and Wu Lian.

The gap between the first stage of Heaven Martial Stage s and first stage of Heaven Martial Stage s was just this wide.

"You're courting death!"

Previously, Feng Qing had even thought of taking care of Long Chen in the midst of the Five Emperors' Treasures s, but he didn't expect that this hateful brat would actually insult him like that! This person was definitely going to die.

A gust of wind surged, sweeping past Feng Qing's body. Since it was called the wind race, it definitely had a certain level of control over the wind.

The wild wind howled.

Under Long Chen's and Feng Qing's instructions, Wu Lian and the two people on Bai Lan's side all retreated a distance, but in order to prevent Wu Lian from making a move, Bai Lan was constantly staring at Wu Lian.

This was Long Chen's own idea.

Long Chen didn't say anything unnecessary. In a very short instant, he had already displayed his power and completed the Dragonsoul Transformation. Of course, in the eyes of outsiders, this was only the beast spirit transformation.

Such a heaven-defying increase in the beast spirit transformation had never been seen before.

As the Dragon Soul Transformation took place, those blood-red dragon scales tightly wrapped around Long Chen's body without leaving a trace of emptiness. A natural baleful aura exploded from Long Chen's body, forming a strong contrast with Feng Qing's celestial body.

However, Long Chen's temperament was extremely cold.

And Feng Qing, who seemed to be an immortal, had already been triggered by Long Chen to become angry.

"Feng Qing, an age, yet he was angered by a little kid, affecting his performance. "Don't be so embarrassing, okay?" Behind Feng Qing, such a faint and cold voice sounded.

Wu Lian's words had jolted Feng Qing out of his stupor!

"What a difficult kid to deal with!" Feng Qing was shocked, and regained his composure. Agitation is the devil. He was already an age, this logic must be clear.

The anger gradually disappeared and was replaced by coldness.

In front of Long Chen's eyes, Feng Qing's body gradually floated upwards. Long Chen seemed to see that he seemed to have already merged with the surrounding space.

"Is this the power of the Heaven Martial Stage?"

The Heaven Martial Stage was more suitable to fight in the air.

Especially Feng Qing, that endless sky was where he flew.

Long Chen, on the other hand, was much more sparse in the air battles.

"Die!" Feng Qing laughed coldly, his body instantly turned into a gust of wind, rushing towards Long Chen!

The speed of the Heaven Martial Stage was this terrifying!

Of course, it was possible that Feng Qing's speed was faster than others, which was why he was like that, since he was an expert in the field of wind, such speed, was even faster than Long Chen's full speed. Of course, not including the blood shield!

"Shadow Shift!"

This was the Royal Tier Battle Skills that Feng Qing had displayed from the very beginning, it was obviously a combat skill with an identity. Just as the name stated, Form Displacement Shadow, Feng Qing's body shifted in front of Long Chen at an extremely fast speed, and he could actually see his figure clearly!

"thousands of handprints!" With a hu sound, Feng Qing rushed behind Long Chen, and a wave of thousands of handprints exploded outwards!

The moment he made his move, he immediately sent two Royal Tier Battle Skills. It could be seen that Feng Qing was determined to kill Long Chen no matter what, without delay!

As long as he slowed down, there might be a lot of problems!

As expected, the power of the Heaven Martial Stage gave Long Chen a lot of pressure. A cold light flashed in his eyes as Long Chen instantly took action!

The three thousand star domains in his hands pierced outwards and under Long Chen's display, the three thousand star domains exploded forth with rays of starlight. There were hundreds of starlight in total, and they were like sword auras that instantly clashed with Feng Qing's thousands of handprints!

RUU...!

The three thousand star fields were like a natural born galaxy, flowing with a resplendent light. The thousands of handprints, on the other hand, was invisible and extremely powerful!

In terms of True Essence, Long Chen was actually more or less the same as Feng Qing. The only difference was that Long Chen was a Earth Martial Stage while Feng Qing was a Heaven Martial Stage.

The biggest advantage of the Heaven Martial Stage was his control of the surrounding space. He had the suppressive power of the 'Domain'. For low level warriors, this was the 'Domain' of the Heaven Martial Stage.

Only, Long Chen had only comprehended a little, so he could only execute this tiny bit of an attack. If he was able to unleash the full power of this high level emperor level combat skill, Feng Qing would definitely lose!

At this time, the thousands of handprints and Long Chen's Formless 3000 Domain Spear Arts were equally matched!

"Is that all you've got?"

Feng Qing laughed coldly!

"Domain!"

His Domain, had once displayed it to Long Chen, so Long Chen had a fairly good understanding of the first realm of the Heaven Martial Stage, which meant that he had already come into contact with Lei Ji's Domain countless times before!

Under the suppression of this 'Domain', whether it was the circulation of his true essence or the movements of his body, they would all be greatly affected!

Sure enough, the Heaven Martial Stage's territory attacked during the process of Long Chen killing him!

Long Chen felt that his usage of battle skills had already been greatly affected. Slowing down on the moves in his hands, Feng Qing's attacks immediately swept towards him, about to submerge Long Chen!

"Do you think that you have this 'Domain'?"

Long Chen also had something similar, and it was the Devouring Blood Realm!

Under Long Chen's instructions, that Devouring Blood Realm expanded in an instant, completely enveloping both him and Feng Qing. Feng Qing's True Essence was instantly suppressed, and the amount of strength he was able to unleash had also decreased by quite a bit!

On one hand, the circulation of true essence was slow. On the other hand, they were directly suppressing true essence!

Overall, Long Chen's Devouring Blood Realm was a bit better than the Heaven realm experts of a whole level!

Feng Qing's advantage instantly became his disadvantage!

"Is your 'Domain' only so powerful?" Feng Qing had long seen Long Chen's move, so he was prepared.

A fierce wind was raging!

The yellow sand howled!

"Reverse it, reverse it!"

Under Feng Qing's control, the might of his "Domain", which originally came from all directions, was now crazily surging. It was as if Long Chen was in the middle of a stormy sea, like a small boat!

"I had indeed underestimated the power of this Heaven Martial Stage previously. It seems that when Lei Ji used his domain to suppress me, he did not go all out."

Long Chen thought with a cold expression.

Naturally, Lei Ji viewed him as one of his own people. Using his own domain to allow the suppressed Long Chen to erupt, it was obviously impossible for him to do what Feng Qing did and use his own attacking methods!

Not only did this affect the circulation of Long Chen's true essence, it also affected the forward movement and piercing of Long Chen's starlight!

"Three thousands of handprints!"

Just as the thousands of handprints was about to suppress Long Chen, Feng Qing suddenly made a killing move. He seized the opportunity and chased after them, using the same method and yet using the enhanced version of the thousands of handprints.

The thousands of handprints was an early level Royal Level combat skill, and these three thousands of handprints, from the looks of it, should be middle level Royal Level combat skills. It was also Feng Qing's trapping skill!

Amongst all the battle skills that wind race possessed, this was the strongest attack!

Feng Qing had used the domain reversal to disrupt Long Chen, so now was the perfect opportunity. Although Long Chen had said that Feng Zhiling did not die in his hands, how could he believe it?

The power of the three thousands of handprints was not as simple as just the three times power of the thousands of handprints.

Behind Feng Qing, one after another, illusory handprints began to vibrate!

"Break!" The attacks of the three thousands of handprints, which were at least ten times stronger than the thousands of handprints, were suddenly unleashed!

For a moment, space trembled. In Long Chen's current field of vision, the dense and dense mass of palm prints pounced at him. This thousands of handprints had already locked down Long Chen's surroundings!

"Die!"

At the last moment, Feng Qing was excited. It was like a child getting what he wanted.

It looked like the thousands of handprints was about to drown Long Chen!

Without a second word, Bai Lan and Lei Ji pounced over, they could not let Long Chen die, but when Bai Lan stared at him, Wu Lian had already started staring at him.

"You want to interfere?" Wu Lian let out a light laugh, and her clothes fluttered as she thrust out her sword. Immediately, a sparkling and translucent white sword light pierced right in front of Bai Lan, blocking his path!

Bai Lan's expression changed, his movements became much slower due to the white sword light, but at this time, Long Chen was already facing the opponent's attack, and under the opponent's suppression of "Domain", he seemed to be at the end of his strength!

However, from Long Chen's gaze, he did not see the feeling of defeat.

As a result, he was less worried, and there was even Lei Ji to help!

Three thousands of handprints s were indeed powerful!

This thousands of handprints made Long Chen think of his Imperial Seal. Every time the thousands of handprints was broken by his Imperial Seal, even if it was these three thousands of handprints, it had to be the same!

"Boom!"

He flipped out his palm, and four different colored lights shone resplendently on his palm.

"Scarlet Emperor Burning Heaven Seal!"

"Golden Emperor Heaven Shrouding Seal!"

"Emperor Qing Qing Tian Ji!"

"Profound Emperor Seal of the Sky!"

The fourth layer of the Emperor Seal was released at this moment with a loud bang!

Red, gold, green and black colored Emperor Seals suddenly burst out at this time. Under Long Chen's control, they mixed together and exploded in the direction of the three thousands of handprints!

The first time the four seals were fused, Long Chen had a feeling that he was really unable to control them. The power of these four seals was definitely above the three thousands of handprints's, and they had reached the pinnacle of a middle stage Royal Level battle skill!

A loud explosion resounded!

The might of the fourth layer of the Emperor Seal clashed against the three thousands of handprints with a loud bang!

This was the first time Long Chen had tried fighting such a strong opponent.

It had to be said that after reaching the ninth stage of the Earth Martial Stage, he already had the strength to fight against the experts of the first stage of the Heaven Martial Stage.

This meant that his strength had already entered the top levels of Realm of Myriad Kingdoms. One must know that there were less than twenty Heaven realm experts in total, and for ordinary Rankers, they would definitely not come if there were an important opportunity like Archaic Graveyard!

Chapter 852 - Five Emperors Secret Realm

No one would have thought that Long Chen would be able to unleash such a strong power when he was defeated!

BOOM!

In the midst of the huge explosion, Long Chen flew backwards. The power of his four Emperor Prints was strong enough to firmly hold on to Feng Qing's three thousands of handprints and let him retreat safely!

In this exchange, Feng Qing did not take advantage of anything. You have to know, he had actually used all of his trump cards!

At this time, Long Chen had already retreated to Bai Lan's side, while Feng Qing was forced to retreat by the four seals that were Long Chen, and also retreated back to Wu Lian's side.

This meant that the battle was already over. The result was that they were evenly matched.

To others, this was an incomparable shock.

"How can this young man improve so quickly!" At only the ninth stage of the Earth Martial Stage, he can retreat Heaven realm expert! "

"Truly a heaven-defying monster. I now understand why Wu Guangyu lost, and even died in his hands."

The surrounding Heaven realm expert began to discuss in a low voice.

He had thought that after using the Three thousands of handprints, even if Long Chen didn't die, he would at least be severely injured. How could he have guessed that this brat would actually be completely unharmed?

"Again!" Under his shame and anger, Feng Qing let out a roar and moved forward once again.

"Forget it." Behind him, Wu Lian shouted softly. She only said that one sentence in a soft voice, but it caused Feng Qing to have no choice but to stop his actions and stand respectfully behind this woman. At this moment, Wu Lian didn't know what he was thinking, but his eyes that were like white lotuses looked at Long Chen, and only after a long while did he turn around and say: "This youth's fighting strength, can already be compared to the Heaven realm expert, and is qualified to enter the Five Emperors Secret Realm. I, Wu Lian, have nothing to say."

Letting Feng Qing take action seemed to be purely a waste of time. For Long Chen to be able to retreat safely in one strike, that would be something that could happen countless of times. Therefore, Wu Lian did not pester them too much and wanted to kill Long Chen. It was just that he did not know how to dispel the hatred in his heart and wanted to get rid of Long Chen as soon as possible.

Since he could not do it now, there would be a lot of opportunities after he entered the Five Emperors Secret Realm.

Wu Lian did not want to continue.

The people of Five Elements Alliance and the Long Beard Man were all eyeing them covetously. To go against Bai Lan here, there would not be any good results.

After he finished speaking, Wu Lian first headed in the direction of the Bewildering City, passing the others. The people from the Five Elements Alliance looked at each other, coldly snorted, and followed behind them. The lone Long Beard Man walked over to Long Chen and chuckled: "This brat is really strong, he even forced Feng Qing to retreat. Look at his old face, hehe."

"Long Chen, go." Bai Lan didn't seem to like this talkative Long Beard Man very much, he directly told Long Chen before heading towards the Bewildering City with Lei Ji, leaving behind a trace of cold light in the Long Beard Man's playful eyes.

"The Five Emperors' Treasures is mine. "Realm of Myriad Kingdoms, he's mine too!" Long Beard Man laughed coldly and followed up with the rest of the people.

The group of ten headed towards the center of Bewildering City.

Back then, the Purple Blood Flood Dragon had said that when the Five Emperors Secret Realm opened today, there would be two spots for each of the Five Emperors' key, and two of them would be allowed to enter.

Long Chen relied on the position of the Long Beard Man.

"Long Chen, later on, share a key with your Thunder uncle and I will share one with the Long Beard Man to prevent him from playing any tricks." When he was near the center of Bewildering City, Bai Lan said softly.

"Long Beard Man is not a good person?" Long Chen asked.

Honestly speaking, he had a pretty good impression of this Long Beard Man.

"There's no good person or bad person to speak of. In front of the Five Emperors' Treasures, the only people you can believe in are me and Lei Ji. We are old brothers from a hundred years ago. " Bai Lan said solemnly.

Long Chen nodded.

Yes, there were times when one had to be on guard against people around them, or a tragedy would happen. Back then, Bai Yang Town's Bai Family gave Long Chen a vivid lesson. If it wasn't for the Bai Family, I wouldn't have come here right?

Following the group's progress, Long Chen had already returned to the original place. In that vast and empty space, Long Chen's line of sight first shifted to the place where the five-colored altar once appeared. At this moment, that place was empty. There was no five-colored altar, and it was possible that time wasn't up yet.

The others didn't know what was going on. They all stood apart from the five-colored altar, looking at their surroundings.

"Lady Zixue said that today, right here in this place, one could use the Five Emperor's key to open the Five Emperors Secret Realm. Where is the entrance to the Five Emperors Secret Realm?"

Bai Lan lowered his head, looking all around for something.

"That's right, where is it? Will we be fooled! " Lei Ji swayed his body as he looked around.

"Long Chen, what do you think?" Everyone was pondering. After a while, Bai Lan turned and asked Long Chen.

"Perhaps the time is not up yet. It is not yet noon. The results will naturally be revealed after two hours." Long Chen smiled and said.

His mind was thinking about the five-color key.

What's the relationship between the Five Emperor's key and the five-color key? What did the five-color key in his hands have to do with the treasures inside the Five Emperors Secret Realm?

Long Chen couldn't even guess at these questions.

The Five Emperor's key was of the same color, while the five-color key had gathered five different colors onto one of the keys. Could it be that there was some sort of secret within?

"Will I be able to use my Five Emperors Secret Realm with just my five-color key?"

Long Chen quickly denied this thought, but even so, there was nothing else he could do. Everyone was present, so who would let Long Chen enter?

"That makes sense." Bai Lan nodded his head once, then patiently waited just like Long Chen.

Time passed quickly.

Everyone was waiting for the address in the middle as the atmosphere became more and more heated.

The three great forces, along with the Long Beard Man, were like water and fire in front of the true Five Emperors' Treasures.

Legend has it, what is the ultimate treasure left behind by the Five Great A powerful warrior of the Divine Martial Realm s?

No matter what it is, as long as one obtains the Five Emperors' Treasures, with no accidents, they can build up the Realm of Myriad Kingdoms's greatest strength as time passes. unifying Realm of Myriad Kingdoms, and even becoming another A powerful warrior of the Divine Martial Realm would probably not be a dream.

Thus, everyone was envious of him.

Soon, time came.

Everyone's eyes were focused on that empty area. At that moment, the five-colored altar reappeared. There were a total of five colors, and each color was a one-fifth fan shape. At this moment, the five colors were spinning, emitting a dreamlike light.

"Let's go." Bai Lan said, and then approached the five-colored altar, and very quickly, the ten of them stopped beside it.

"What should I do?" someone asked.

"Take out your keys." Wu Lian said as she took out a Five Emperors key from the ring. Feng Qing immediately stood beside him, as if he was worried that Wu Lian would abandon him.

The others also did not stop. One by one, they took out their respective Five Emperors Key.

Bai Lan placed the key in his hand into Lei Ji's hands, told him to be careful, and then walked to the side of the Long Beard Man.

"It's alright. Whether it's you or that little friend Long Chen, it's all the same to you." The Long Beard Man said with a smile. His smile was exceptionally bright.

The five Five Emperor Keys had all come out.

"Next, I should transfer them to this five-colored area and step into the colored area with the key in my hand."

It was unknown who said it.

Everyone understood this point.

This was a critical moment. No one knew if there would be any mistakes, so it was unlikely that there would be any deceptive moves. No one dared to try any of them, unless they wanted to die.

After hearing what Lei Ji said, everyone looked at each other, and without saying a word, they directly went up. Long Chen followed Lei Ji and walked towards the center of the cyan colored area.

Almost at the same time, everyone took their positions.

Long Chen could feel that the Cyan Emperor's key in Lei Ji's hand was emitting two gentle rays of light, enveloping both him and Lei Ji. Many people were bathing in the light from the Five Emperor Key. Long Chen stepped on the five-colored altar, and followed the five-colored altar to spin together, and very quickly, the five-colored light had already completely enveloped them. The rotation speed of the five-colored altar became faster and faster, and in that short moment, it was as if Long Chen and the rest were thrown to another world.

"Phew ..."

Long Chen only felt a gust of wind howling past his ears, his mind went blank for a short period of time. When he finally regained his senses, a desolate aura of death had already surrounded him.

In just a short moment, Long Chen had sensed that he had already left the Dragon Sacrifice Continent and arrived in a new world. This was a small universe world, and also the Five Emperors Secret Realm of legends.

Before he even opened his eyes, Long Chen was sure that this was the Five Emperors Secret Realm.

At this time, the two of them quickly arrived beside Long Chen. It was Bai Lan and Lei Ji, and after arriving at the Five Emperors Secret Realm, they immediately sat together with Long Chen, just in case something happened.

"This is ..." Bai Lan, Lei Ji, and even the others all sucked in a breath of cold air when they saw the scene around them.

That wave of death aura made Long Chen feel a little creepy. He opened his eyes and saw the scene in front of him, which also made him suck in a breath of cold air.

The first thing was the sky. The sky was completely gray, and the dark gray clouds were pressing down very low. It felt like there was something above them, a heavy atmosphere filled the air. Other than the breathing of the crowd, there was no other sound.

One grey shadow after another began to circle the heavens and earth.

The howling gray tornadoes swept past the surroundings, bringing with them the aura of rotting bones and flesh. This gust of cold wind caused everyone to feel their hairs stand on end.

In this instant, the gazes of Long Chen and the others shifted from the sinister looking sky to the area before them!

Chapter 853 - Dark Bone Tower

The ground in front of them was a field of ash white like the ocean and it filled the field of vision of Long Chen and the others. When they took a close look, they immediately sucked in a breath of cold air, because this gigantic ash was none other than the bones in front of them.

Countless white bones formed into a dense and cold sea of bones in front of everyone's eyes.

This was a sea of white bones, and there were all sorts of bones. Many bones had already rotted away, and could even be crushed with a slight touch. There were even more human bones, but there were also the remains of many huge monsters.

Such a huge sea of bones was like a sea of blood, shocking everyone.

"This ... How can there be so many corpses in this endless sea of bones? How many people died here?"

"Is this Five Emperors Secret Realm? How did these people die? Who has the ability to kill them? "

"Could it be because of the battle at the Middle Paleogene back then, and the people that died? "There are still so many demonic beasts!"

Seeing this scene, even the famous figures in the Realm of Myriad Kingdoms had expressions of shock. With so many corpses, if there were so many powerless people to kill them, they wouldn't have been able to kill this many. In the end, they might have died from exhaustion ...

At this moment, they were standing on this vast sea of bones. If they used even a bit of strength, the bones underneath their feet would shatter.

Crack! Crack! Crack!

It had been a long time since there was anyone around, and with their slight movements, there were quite a few dried bones that were crushed into dust.

Everyone immediately floated up and waved away the ashes.

Standing on this sea of bones, he had a nagging feeling that something was wrong.

At this moment, Long Chen, Bai Lan and the others were gathered together, and the atmosphere at this time was extremely delicate. It was possible that the Five Emperors' Treasures was right in front of them, so they quickly made themselves forget about the skeleton sea, and focused on finding the Five Emperors' Treasures.

The sea of bones was vast and endless.

"What should we do? "Where to?" Beside Bai Lan, Lei Ji asked. The same question was also asked by some of the powerhouses.

"Look in that direction!" At this time, someone said something. Everyone looked in the direction he pointed, and a black shadow that stood in the middle of the world appeared in their line of sight. Because it was far away, for a time, they could not see clearly what the black shadow that stood in the middle of the world was.

"Let's go!"

The black shadow was very likely to be in the center of this bone sea. Five Emperors' Treasures would only be in this kind of place.

After Bai Lan said this, everyone rushed to the black shadow, because they did not know if there were any other dangers from the Five Emperors Secret Realm, they did not run too fast. The people from the three big powers were still gathering, and did not disperse.

If everyone started to move quickly, the second stage Heaven Martial Stage would lose everyone very quickly.

The demons' group separated from the others, still heading in the direction of the shadow, to prevent others from launching a sneak attack.

"From now on, everything has to be careful."

The three of them looked at each other without saying anything.

From time to time, there would be some huge skeletons. Without a doubt, these belonged to the Spirit Demon Race, and there were many corpses among them that were even larger than Mo Xiaolang's body. This meant that these were all emperor level demon beasts.

At this moment, everyone was staring at the black shadow in the sky.

As the group approached, the black shadow became more and more clear. From a distance, this black shadow looked like a black skeleton that connected the heaven and earth. When they got closer, they discovered that it was a tower, a tower entirely made of black bones.

Standing at the center of the Five Emperors Secret Realm was a dark black bone pagoda.

"This bone pagoda seems to be formed from countless piles of bones, but there are other changes that make it into a true pagoda."

Long Chen looked at the Dark Bone Tower carefully.

Without a doubt, this was the center of the Five Emperors Secret Realm. It was very possible that the items left behind by the Five Emperors were here.

Up until now, nothing related to the Five Emperors had appeared.

Even Wu Lian and the rest could only follow the current speed and did not dare to rashly pounce forward. This was perfect, but in the group, if one person was in a hurry to advance, the rest would definitely not be willing to fall behind.

Suddenly, Long Chen felt a thick and profound aura of the earth vein spirit on the bone sea in front of him. It was not only in front of him, but also on his left and right.

Just as Long Chen felt this, someone on the other side exclaimed: "Feng Ling Yuan!"

"It's actually a Feng Ling Yuan, quickly take it!"

The ones who spoke were the people from the Five Elements Alliance. They walked in the middle and immediately rushed forward.

The two from the Wind God, were on the left side, while Long Chen and the others were on the right. To their right, there were still many auras of the so-called Feng Ling Yuan.

When the Five Elements Alliance made his move to fight, Long Chen and the others did not delay either. The three of them immediately rushed to the right side, and Long Chen headed to the place closest to them where there existed a so-called Feng Ling Yuan, and there were no conflicts with the people of the Five Elements Alliance.

After rushing over, Long Chen discovered that deep within this sea of bones, there was an object glowing yellow. Very quickly, he held the Feng Ling Yuan in his hand.

Something that could make Five Elements Alliance and other Heaven realm expert want must not be simple.

After obtaining a piece of Feng Ling Yuan, there were no other auras at the side. In the distant Feng Ling Yuan, if one wanted to fight for it, one would definitely fight with the people from Five Elements Alliance, so there was temporarily no need for this. Long Chen and Bai Lan quickly gathered together, and Bai Lan also obtained one Feng Ling Yuan.

"What is this?" Long Chen asked quickly.

"The amount of Heaven and Earth aura in the Feng Ling Yuan is more than ten times more than that of the Emperor Crystal, but the Feng Ling Yuan are relatively rarer. Because it was very easy to absorb, the more simple ones were the earth attribute earth vein spirits. Hide this Feng Ling Yuan well, and when you get to Heaven Martial Stage, there will be benefits." Bai Lan said softly.

"Oh right, Long Chen." At this time, Lei Ji interrupted and said: "You previously needed wood attribute treasures, so this Feng Ling Yuan, is probably equivalent to earth attribute treasures. A total of four, are you useful?"

What Lei Ji had just said was exactly what he was thinking.

Within the Great Void Realm, Little Cat said lazily, "If that's the case, then you can try it. After gathering all five of the five attributes of the Five Emperor Prints together, you will be able to unleash the full might of the Five Emperor Prints.

Since the little kitten encyclopedia already said so, Long Chen accepted the Feng Ling Yuan that Lei Ji and Lei Ji brought over without thinking. Now was not the time to train in the Yellow Emperor Sky Movement Seal. The Five Emperors' Treasures was more important, it depended on whether there was time after this.

When Long Chen and the others completely gathered the surrounding Feng Ling Yuan, the other people also stopped.

They probably got quite a few Feng Ling Yuan.

Compared to the Five Emperors' Treasures, the Feng Ling Yuan was just a small matter. No one would waste their time fighting over such a small gain. Therefore, they tried their best to arouse competition. After everyone gathered the Feng Ling Yuan, they looked at each other, and then headed towards the Dark Bone Tower together.

The Dark Bone Tower was getting closer and closer in front of everyone's eyes.

Long Chen suddenly felt a dangerous aura. There was definitely something in front of the Dark Bone Tower that was preventing everyone from advancing. The Five Emperors would not allow others to enter this Dark Bone Tower as they wished.

As he got closer and closer, Long Chen carefully counted and found that there were a total of seven levels to the Dark Bone Tower, and each level was extremely huge. The final layer of the tower was directly inserted into the clouds, and on the first level of the Dark Bone Tower, there seemed to be a pitch-black door. The door was eerie like a black whirlpool. It was also like a pitch black mouth.

A dense, cold aura of death was released from the Dark Bone Tower. It was unbridled and allowed Long Chen and the rest to have extraordinary strength, but they did not dare to approach.

In the battle for the Five Emperors' Treasures this time, the last hope was still the second stage of Heaven Martial Stage.

Amongst them, Wu Lian seemed to have always been the strongest person in everyone's eyes. Even in the Five Elements Alliance, there were some who avoided this woman who never spoke.

If she had comprehended the first level of the Dao of the Sword and was able to unleash three times the strength of her attacks, it was very possible that she would be invincible against cultivators of the same level.

Very quickly, they were only about a hundred metres away from the Dark Bone Tower. Long Chen took a careful look at the Dark Bone Tower, which was made up of black bones.

Long Chen was not confident that he could breach the tower from the outside. He rushed into the Dark Bone Tower.

He could only leave through the main door.

There were no bones within a hundred meter radius around the Dark Bone Tower, but it was a spacious area. At this moment, Long Chen and the rest were resting in this empty area, slowly descending.

The moment they landed on the ground, a murderous aura quickly surrounded them.

Just then, Long Chen and the rest looked at the pitch black door, only to see that in front of the door, there was actually a row of bones. These bones stood neatly, their bones were black, moreover, they were wearing complete black armor, only that the armor was very old, and looked to be filled with history.

Even though countless years have passed, this black armor was still incredibly sturdy.

When Long Chen and the others arrived, the black armor on the skeleton suddenly lit up with a bright light. Under the helmet, green flames lit up in the empty black eyes.

Chapter 854 - Killing the Bone Devil

"Bone Devil." Bai Lan said as he took a step back to protect Long Chen and the rest.

"The Bone Devil's battle strength, in terms of strength and speed, can reach the level of the Heaven Martial Stage. Long Chen, Lei Ji, you guys must be careful as much as possible, don't let the Bone Devil surround you, and at the same time prevent others from attacking."

"The first stage of Heaven Martial Stage?" Long Chen was overwhelmed with shock.

He could indeed feel a majestic and cold power emanating from the two rows of black-armored skeletons. Their strength had indeed reached a very strong level. At least Long Chen knew that if the other two or more people attacked him together, they would definitely be threatened.

"There are a total of 20 or so Skeleton Demons. The three of us can gather together. Don't worry, at the same time we can prevent others from launching a sneak attack."

At this point, sneak attacks could find out. After all, they wanted to get their hands on the Five Emperors' Treasures, and their biggest opponents were the people beside them.

As long as he killed the people around him, the chances of him getting the Five Emperors' Treasures would be very high.

Therefore, even if he hadn't entered the Dark Bone Tower yet, he still had to be very careful.

Long Chen, Bai Lan and the others all retreated to the right side, avoiding the others.

Long Chen's gaze landed on the door of the Dark Bone Tower, which was a pitch black abyss. No one could see the door, and no one knew what would happen after entering.

"In a while, fight as you move towards the big gate of the Dark Bone Tower, you cannot be the first person to try, and don't let others take the first place, this Dark Bone Tower has seven floors, it is very

likely that the Five Emperors' Treasures will be on the last floor. So for the time being, I don't need to show off. "

Since they had arrived here, Long Chen and the other two had the same rank, and there was no difference between seniors and juniors. Of the three, Bai Lan was the strongest, and the two of them agreed with what he had said.

It was not yet the final moment, and there was no need to take the risk.

At this moment, the eyes of those Bone Demons lit up with dark green flames. The power that had been sleeping for countless years began to awaken in their bodies. There were more than twenty Bone Devils in total, and their power had actually reached the first stage of Heaven Martial Stage. If such a strong expert was placed in the Realm of Myriad Kingdoms, it would definitely be a terrifying power.

Only by bringing these Realm of Myriad Kingdoms's strongest powerhouses together, would they have the power to defeat them.

The Bone Devils that had just awakened turned their bodies. Their bones had not moved for countless years, and the slightest movement caused cracking sounds to ring out, along with the clanging sounds of the black armor. These sounds caused one's scalp to go numb.

Being stared at by these dark green eyes, Long Chen felt his scalp go numb.

A total of more than twenty Skeleton Demons separated and looked towards Long Chen's three directions. The Long Beard Man among them was relatively close to the people of the Five Elements Alliance and were directly categorized as a part of the Five Elements Alliance.

In the blink of an eye, over 20 Skeleton Demons split up and rushed in three different directions!

Amongst them, about five of the Bone Devils went to Feng Qing and the other two, and a total of six came to Long Chen. On the Five Elements Alliance's side, there were more than ten of them.

On the Five Elements Alliance's side, including the Long Beard Man, there were two warriors at the second level of Heaven Martial Stage.

Long Chen no longer had the mind to care about the others. At this time, a total of six skull demons rushed over. After the first time they weren't used to the situation, that Bone Devil immediately entered a state of mind. Its body was as light as a swallow, and its speed was extraordinary.

Underneath the black heavy armor, within the black bones, was a dark green flame. This flame burned brilliantly on their bodies, emitting an icy-cold aura similar to that of the Underworld Devil Ancestral Flame.

The six Skeleton Demons howled through the air, their speed so fast that the naked eye couldn't see them.

"I'll stop the four of you. After you finish your opponent, come and help me!" Instantly, Bai Lan made his decision!

That was why he said that. On the other hand, if Long Chen and Lei Ji were to come together with the two Skeleton Demons, it would be very difficult for them to endure. After all, the Bone Devil's strength and speed was already at the first level of Heaven Martial Stage!

Bai Lan and Lei Ji immediately nodded in agreement!

This was not the time to be brave, but to choose the best way to fight!

"Domain!"

Immediately, Bai Lan activated the second layer of Heaven Martial Stage's domain, and a strong surge of domain power appeared around Long Chen. Long Chen and Lei Ji did not have much of an impact, but the moment the six Skeleton Demons rushed in, they immediately encountered a strong resistance, which immediately caused their speed to drop by one fold!

"Attack!"

After Bai Lan activated his domain, he immediately let out a cold snort.

At this time, the six skulls demon roared sinisterly, wielding its broken blade and spear as it rushed towards Long Chen and the others. They used a pure and strange kind of power, when instilled into the blade, they could immediately create a terrifying green blade light!

At the critical moment, without saying a word, Long Chen turned into Dragonsoul Transformation, instantly increasing the power of his True Essence by ten times! Boundless blood-red True Essence surged in his body. At this time, Bai Lan had already successfully cut off four Bone Devils, and only let two of them go. Without saying a word, the two Bone Devils immediately charged towards Long Chen and Lei Ji!

Against Long Chen, it was a Bone Devil with a spear!

Under its command, a dark green ray of light pierced towards the tip of the spear!

It came whistling over!

In the eye sockets under the helmet, dark green flames were blazing. This corpse had been dead for countless years, and there was no expression in its eyes!

Whoosh!

The stars of the three thousand star domains quickly gathered in front of Long Chen, and turned into a spear!

Long Chen crazily ran a few steps forward, the Star Spear in his hand quickly thrust forward, and countless of starlights gathered together instantly, clashing with the Bone Devil's spear!

Ding!

With an ear-piercing explosion, the spearpoint of the 3000 star fields and that of the Bone Devil stabbed together!

This move of Long Chen's used the spear dao of the Three Thousand Domain Spear Arts. Long Chen's incomplete version of the Three Thousand Domain Spear Arts already possessed many aspects, the only thing that he did not possess, was the power of the Domain!

If the 3000 Domain Spear Art could have the strength of a domain, it could explode with several times the strength, or even dozens of times the strength.

The 3,000 star field was a high level Royal Grade Divine Weapon. In terms of material, it was countless times tougher than the Bone Devil's long spear! In the battle of equal strength, Long Chen's three thousand star domains had instantly shattered the Bone Devil's spear!

Ding!

With another ear-piercing sound, the black skeleton spear broke apart, turning into tiny pieces that splashed outwards!

"Die!"

Long Chen's three thousand star fields continued to charge forward, directly plunging into the Bone Devil's body! But he quickly discovered that the tip of his spear had pierced through the armor, not hitting the Bone Devil!

"This thing only has bones, the 3,000 star field is useless against it!"

Long Chen finally thought of it.

Not only were the three thousand star domains useless, even Long Chen's Devouring Blood Realm were useless against it, because it did not have any blood at all.

However, Long Chen had already prepared his moves a long time ago. After the three thousand star domain was emptied, his other hand, which was also his right hand, now had three Emperor Seals fused together, and directly pressed onto the Bone Devil's chest, just inches away!

Bang!

Under the forceful suppression of Long Chen's three thousand star regions and the final killing of the three Great Emperor Prints, the Bone Devil immediately broke apart! The dark green energy instantly vanished into the air, which meant that this Bone Devil was completely dead!

On the other side, Lei Ji had more or less settled down his opponents, but facing the Four Skeleton Demons, Bai Lan didn't seem to lose at all, and he could even suppress them. Of course, if he wanted to kill the Four Skeleton Demons, it would still take a while.

"Uncle Bai, one more!"

With Long Chen splitting one of them apart, the pressure on Bai Lan decreased greatly. With his combat power at the second level of Heaven Martial Stage, he was definitely able to deal with these three Skeleton Demons!

Although this Bone Devil was very powerful in terms of strength and speed, it had lost its chance long ago. Using the same method, Long Chen could directly kill the other Skeleton Demon using the same method as before!

As for Lei Ji, he had already dealt with the other party long ago, and after dealing with the other party once again, Long Chen saw that Bai Lan had the strength to completely defeat the Three Skeleton Devil in a short amount of time.

On the Five Elements Alliance's side, there were a total of twelve Skeleton Demons, of which the first stage of Heaven Martial Stage allowed everyone to fight a Skeleton Demon at their maximum strength. In fact, each person's strength was not too far off from the first stage of Heaven Martial Stage.

This way, the pressure on Jin Zu and Long Beard Man would be much greater, thus, after Long Chen's side finished his opponent, the fight on their side would still be untenable.

The Five Elements Alliance's performance was obviously not as good as Long Chen and the others', but the situation on the other side made Long Chen feel surprised, there was a total of five bones. Feng Qing was able to handle one of them alone, while the Bone Demon Kong had strength and was lacking in other aspects, so he was not Feng Qing's match.

Under the White Lotus Divine Sword, the Bone Devils were not her match in one move. The Four Skeleton Demons, each one of them could not even withstand two of Wu Lian's strikes, and had their heads chopped off!

After this Bone Devil's head was chopped off, the dark green flames on its body were directly sucked out. The dark green flames quickly disappeared from the world, proving that they were already dead.

On Wu Lian's side, they would even be able to finish their opponent faster than Long Chen and the others. After Bai Lan finished the opponent in his hands, Wu Lian rushed straight for the Dark Bone Tower's dark door without saying a word.

Feng Qing, who was behind him, also acted like a small follower as he immediately chased after him!

What was placed in front of Wu Lian was that black whirlpool. Long Chen, Bai Lan and the rest looked at each other and followed along! No one knew what this black vortex was, but Wu Lian was extremely warring. Without saying a word, she shot a snow-white sword beam straight towards the black vortex!

Whoosh!

Chapter 855 - The First Beauty

The black clouds above the door churned and swallowed Wu Lian's sword aura completely, not a single ripple could be seen.

"This is the Five Emperors Secret Realm, there are already Bone Devils here as guards. In this aspect, the Five Emperors shouldn't be in any danger." Long Chen reckoned that as long as he rushed in, he might be able to enter the tower.

When this thought had just appeared in Long Chen's mind, Wu Lian, who was standing in front of the whirlpool, wore a long flowing robe as sword qi danced in the air. She had already rushed in directly, and her snow white body was directly submerged within the black whirlpool.

"Wu Lian, it's dangerous!" Feng Qing cried out in alarm. By the time he had said it, Wu Lian had already entered. He gritted his teeth. If he did not go in, the demons and the Five Elements Alliance would not mind taking his life.

"This woman is really bold." Bai Lan let out a cold laugh. With a slight wave of his hand, the three of them directly entered the clouds. That black and sinister looking black fog was actually just like a gentle white cloud: gentle and comfortable, and directly swallowed Long Chen into a warm environment.

Suddenly, the surroundings became ice-cold.

Long Chen opened his eyes. At the first moment, he, Bai Lan and the others quickly leaned against each other to prevent others from attacking. However, that Wu Lian obviously did not make her move at this time.

After confirming that there was no danger, Long Chen turned to look around. This was a vast expanse of empty space, and should be the first floor of the Dark Bone Tower, this first floor was extremely spacious. On the walls of the tower, there were dark green lights, and the opposite lights, seemed to be coming from the horizon.

Hundreds of dark-green lights surrounded Long Chen.

These dark green lights were simply not enough to illuminate the entire place, but with their line of sight, Long Chen and the others could see that the inside of the tower was extremely spacious and there was nothing inside. Wu Lian and Feng Qing were standing around ten meters away from Long Chen. They had just come in and reacted to the situation!

"There's something there!"

Bai Lan said. After the three of them heard this, without saying a word, they started to head towards the direction that Bai Lan had indicated, the place where the item appeared should be in the center of the first floor of the Dark Bone Tower. During their journey, Long Chen had already seen clearly what Bai Lan had heard, that it was an identical five-colored altar as the five-colored altar outside.

The five-colored altar here looked more real than the five-colored altar outside. It was more solid, more real.

When Long Chen and the others were moving, Wu Lian and Feng Qing did not stay idle either. The two forces had a total of five people, and they quickly arrived beside the five-colored altar.

The five-colored altar rotated, but no clues could be seen.

"Quick, look!"

It was unknown who said it, but when Long Chen looked over carefully, he discovered that above the five-colored altar, the five-colored light had actually separated from the five-colored altar, and floated up, condensing into a few multicolored little words.

Coming to this Five Emperors Secret Realm, this was the first time he had seen something related to the Five Emperors in this Dark Bone Tower.

"Five out of ten?"

"Does it mean that only five out of ten people can enter?" The five of them quickly thought of this.

This five-colored altar had a total of five areas. Did this mean that only one person could enter each area? As long as one set foot inside the five-colored altar, one would be able to enter the next level?

And the people of the Five Elements Alliance and the Long Beard Man, had they lost their qualifications to deal with the Bone Devil because they had spent a bit more time?

After clearly seeing these four small words, the five of them didn't say anything and directly walked towards the area closest to them.

According to their understanding, once they stepped foot in this place, they would be able to enter the next level!

There were a total of five people here, a total of five areas that were just right. Between Bai Lan's and Lei Ji's protection, Long Chen prevented them from sneaking an attack on him at all times.

At this time, the five of them were very close, at almost the same time, they stepped onto the five-colored altar, they originally thought that they could occupy one of the colors, and entered into the second level of the Dark Bone Tower, but just at this time, the five-colored altar released a strong resisting force, directly sending Long Chen and the rest flying!

However, this power should have come directly from the Five Emperors, so it was gentle and did not harm Long Chen and the others.

"What's going on?" The five of them looked at each other. Didn't they say that the top ten would be ranked in the top five? The five of them went up, but why was there no movement?

"Could it be that we have to wait for everyone to come in and kill them before we can enter?" At this time, Long Chen's mind turned and said.

"It's very possible!" Bai Lan frowned.

If that was the case, there was no doubt that it was very cruel.

Amongst the ten of them, there were still four experts at the second level of Heaven Martial Stage. If Long Chen wanted to achieve a good result, both he and Lei Ji would be able to survive, then he had to die at the second level of Heaven Martial Stage.

Of course, if one were to die in the second stage of Heaven Martial Stage, it would be even harder than ascending to the heavens.

Among them, Five Elements Alliance was the strongest and Wu Lian was the strongest. In that case, it would be a problem for Bai Lan to protect himself, let alone.

"This is troublesome." The three of them looked at each other, then quickly pulled away from Wu Lian.

Without question, Long Chen would definitely become the target of Wu Lian and Feng Qing's attention. When enemies meet, their eyes would turn red, and this would be the best chance to kill Long Chen!

Just as the two groups of people were leaving, the people from Five Elements Alliance and the Long Beard Man came in. They were a lot behind, so they were extremely anxious when they came in, but when they saw that Long Chen and the rest were still here, they heaved a sigh of relief.

Without even sizing up their surroundings, they immediately arrived beside the five-colored altar. At this time, Long Beard Man didn't dare to stand together with the people from Five Elements Alliance.

Perhaps, they had already created a conflict just now.

The Long Beard Man was not a member of the nine great clans. He was alone and excluded from the competition. This was also the reason why the nine great clans forced him to give up the Yellow Emperor's key.

When the Long Beard Man obtained the Yellow Emperor's key, he had initially been surrounded and attacked by the nine great clans. At that time, he was in a hurry and thought of a way, so the nine great clans were willing to let him go. After all, in the Realm of Myriad Kingdoms, the powers of the nine great

clans were enormous. Even if a warrior had a strong power, without background and background, it would still be difficult to accomplish anything.

"Five out of ten?" At this moment, everyone saw these two words.

"Only five out of ten can enter?" In next to no time, they recovered from their shock. This was undoubtedly a very bloody and cruel method.

He could still trust those of his own faction, but he absolutely could not trust those of the other powers.

In an instant, the people of Five Elements Alliance and the rest of the Long Beard Man also spread out. Everyone looked at each other, at a loss for words, and did not take the initiative to attack.

The entire place had suddenly become very quiet. Even the breathing of the crowd could be clearly heard.

After it had been quiet for a long time, there would eventually be someone who couldn't endure it any longer. That Feng Qing had been staring at him this entire time, and everyone could see his intentions of taking advantage of this opportunity to kill Long Chen.

Seeing that the people from the Wind God's lineage were interested in the people from the thunder demon lineage, the people from the Five Elements Alliance and the people from the Long Beard Man cleverly chose to stay silent.

Just at this time, Feng Qing acted on his own and spoke to the Long Beard Man: "Zhang Jue, didn't you want to obtain my wind race's Shadow Shift? If you join us, and help us kill Long Chen, then this Phantom Shift will be yours. "

At the side, Wu Lian's face did not change, but she did not say anything, but her eyes that were hidden behind her veil stared straight at Long Beard Man, obviously wanting to see what Long Beard Man was planning to do.

If Long Beard Man was willing to join in, Wu Lian would have to deal with Bai Lan, and Feng Qing would have to face him with the strength of the second level of Long Beard Man, it should be easy for him to kill Long Chen.

"It's best if we can catch this kid." Feng Qing added.

At this time, everyone was waiting for Long Beard Man's decision.

Since the Five Elements Alliance saw that it was none of his business, he naturally wanted to let them all die. That way, the people from the Five Elements Alliance would be able to directly enter the next level without having to fight.

Thus, the situation became delicate.

Long Beard Man did not say anything. He had a smile on his face, but the depths of his eyes showed that he was hesitating.

"Big Beard, you're too weak. It's best if you don't wade in this muddy water, lest you lose your life." Bai Lan was also afraid that this person would attack Long Chen, which was why he said that.

His words had directly hit the heart of the Long Beard Man.

Once he was alone, the worst thing he could do was to take the initiative and attack as the leader. Once Long Chen and the people from thunder demon lineage had been cleaned up, he would definitely be next.

"Brother Feng, this movement transformation is only an Emperor level movement technique, that Long Chen brat is extremely powerful, I do not have the confidence to kill him, you should at least request for someone else skilled!" Long Beard Man said decisively.

It was better to leave this matter alone as soon as possible.

"Speak, if you have any conditions, we can fulfill them all." Feng Qing did not give up, and said with a low voice.

Long Beard Man laughed and said: "About this, if you take off her veil and let me take a look, maybe it can be. This martial arts woman, not only is his strength the strongest in the world, he is also rumored to be the prettiest girl in Realm of Myriad Kingdoms. I am very curious, to what degree is his beauty?"

It was actually very difficult to determine who was the better of the best after reaching the top.

However, even if they were women who looked exactly the same, their temperament, cultivation, and the way they dressed made them seem like two different people.

Chapter 856 - Conspiracy

This Wu Lian, other than a face that she could not see, was without a doubt a woman who was perfect in every aspect.

Compared to Ling Xi, she who had a child, was filled with the charm of a mature woman. Her every move and gesture was filled with boundless charm, and although she looked cold, this coldness was more like a type of flame.

Of course, her child had already died in Long Chen's hands.

After Long Beard Man finished speaking, the others were waiting for Wu Lian's reaction!

"How dare you!" Feng Qing raised his eyebrows and cursed.

In the Realm of Myriad Kingdoms, Wu Lian was known as the white lotus, a Holy Maiden. Even if she had a son, she was still a Holy Maiden. Wu Guangyu's father was a mystery, but there was a rumor that Wu Guangyu's husband was a lucky yet unfortunate man, rumored to be a famous beauty in the Realm of Myriad Kingdoms. His strength was not strong, but he knew how to recite poems and act extremely coquettishly.

Her goal was to nurture an extraordinary descendant to inherit her legacy.

Unexpectedly, Wu Guangyu was killed by Long Chen!

Beneath Wu Lian's calm and ice-cold exterior, there was a power that was similar to a volcano!

At this time, when she heard Long Beard Man's words, without saying a word, she waved the white lotus with the divine sword in her hand, and a snow-white sword light shot directly towards Long Beard Man!

"If you hear this next time, die!"

That cold voice filled everyone's ears!

That snow white sword light caused Long Beard Man to dodge in a sorry state, but at the same time, he had also resolved his own danger. This way, Feng Qing would definitely not let him help his again.

From this, it could be seen how arrogant Wu Lian was.

From start to finish, she had never taken off her veil.

Long Chen and the other two looked at each other and heaved a sigh of relief. For now, the danger that Feng Qing had caused was over.

Because of this situation, no one dared to make a move first.

Just then, the Jin Zu suddenly spoke out, "Martial wife, my Five Elements Alliance will work with you to get rid of the others. How about that?"

Five Elements Alliance, a total of four people. Including them, a total of six people!

For the Jin Zu to initiate an alliance with Wu Lian, it was undoubtedly a huge crisis!

Therefore, when facing a Five Elements Alliance that was about to join hands with Wu Lian, Long Chen and the others were still very calm.

On the other hand, the Long Beard Man was not calm. Wasn't the other party clearly showing that he was going to exclude his? If they were to go against Bai Lan, when Bai Lan and the others die, it would be his turn.

Previously, Long Beard Man had rejected Wu Lian's request, and now, Wu Lian would definitely not allow him to join their alliance either.

Under certain circumstances, scheming and scheming was a method to win.

Without saying a word, Long Beard Man had already made a decision in his heart, he stood up and stood by Bai Lan's side and coldly said: "If you all want to cooperate and bully people, then I, Zhang Jue, will not be able to watch. If I were to die fighting, I would have to stand together with Brother Bai Lan. "

Long Beard Man being able to join could be considered equal to being in the second stage of Heaven Martial Stage, but in the first stage of Heaven Martial Stage, there were still two people who were inferior.

Of course, with the Long Beard Man joining, the originally defeated Bai Lan's side would have the strength to resist. At the very least, the true victor would be decided by the powerhouses at the second level of Heaven Martial Stage!

Of course, this sort of temporary alliance was in reality extremely weak. Once they obtained their own goals, they would quickly turn hostile.

"If the two Heaven Martial Stage s were to attack you together, would you have the confidence to hold on?" Bai Lan asked.

Lei Ji frowned, and replied first: "I am not sure, but at least I can hang on. If I were to die, I would definitely have to drag him down with me."

Long Chen thought for a moment, then nodded his head. He had many things he could rely on to allow himself to live on, and if it really did not work, he could use the first level of Blood Sacrifice to reverse the situation and kill the other party.

Of course, Blood Sacrifice, this abnormal ability could not be used as he wished, especially since Long Chen was at the moment of his breakthrough to Heaven Martial Stage. If he were to use Blood Sacrifice, after his level has dropped, in order to recover to his original level, it would still be a little difficult to perfectly recover, but he would also miss out on some opportunities to reach Heaven Martial Stage on himself.

Five Elements Alliance's sudden decision brought the situation to an extreme.

They were separated into two groups, looking at each other.

"Bai Lan, leave it to me." Wu Lian's words caused a huge commotion between the two sides.

"If that's the case, then I, Jin, will meet this famous Long Beard Man." Jin Zu grinned, his face filled with fear, looking extremely terrifying.

The only one left was a warrior at the first level of Heaven Martial Stage.

Wu Lian glanced at Long Chen, and said: "Feng Qing, Lei Ji is your old rival, you are responsible for holding him back, but the three from Five Elements Alliance, I humbly request that the three of you work together to capture Long Chen, and then let me take the blade, how about it?"

Why didn't they agree to the request of the dignified Celestial Clan's Patriarch? From Wu Lian's cold words, one could tell how much hatred she had towards Long Chen.

"The god-race leader invited us, and we went through fire and water, and we won't refuse!" One of the fire clan leaders said.

In a short period of time, they had already divided their opponents.

Three people surrounded and attacked Long Chen together. With their strength, they were indeed able to capture Long Chen alive!

"Long Chen, you ..." Bai Lan was shocked, he knew that this situation was extremely bad for Long Chen.

"Don't worry." I have a way to protect myself. They won't be able to kill me and they won't be able to capture me alive either. If they were to arrange a battle like this, the only result would be a stalemate. Long Chen said softly with calm eyes.

Bai Lan and Lei Ji had nothing to say, even though they felt that Long Chen was already very good, but if he really was surrounded by the first three Heaven Martial Stage, would he really be able to live?

Wu Lian didn't even give them time.

After they had made their arrangements, the six of them had been divided into four groups, each of them searching for their own opponents to attack!

Wu Lian was very smart, her first sword was aimed straight at Long Chen, her sword light could not be blocked by Long Chen at all, so Bai Lan had to block in front of him. And at this time,, who was in wind race, was already trying his best to separate Lei Ji from Long Chen!

Long Beard Man was originally not too close to and the others, but now that Jin Zu was standing right in front of him, the two of them did not make a move.

The three clan leaders of the Five Elements Alliance grabbed this opportunity and rushed towards Long Chen!

The patriarchs of the three tribes of fire, water and wood were dressed in red, blue and green robes. They looked very old and very easy to recognize.

Long Chen had always been in the state of Dragon Soul Transformation, which was also his most powerful state!

The three great patriarchs surrounded Long Chen from three directions!

"Everyone, domain!"

If the first layer of domain between the three great Heaven Martial Stage s were combined together, then its power would be as strong as the second layer of Heaven Martial Stage. If Long Chen was suppressed, he would very easily be captured!

"You want to trap me? "In your dreams." Long Chen sneered, he used up only one twentieth of the True Essence in any Blood Escape, and instantly broke through their encirclement, arriving at the other side of the Dark Bone Tower. Adding on his original speed, he disappeared in the blink of an eye.

"You guys should chase after me. Whoever catches up to me will be rewarded. I'll give each of you a slap." Long Chen's laughter resounded in front of him.

"Stinking brat!" The three great Patriarchs shouted angrily and chased after him. In the darkness of the night, they drew three trails in the air.

The surging true essence stirred up their robes.

Seeing that Long Chen was not surrounded, Bai Lan, Lei Ji and the rest heaved a sigh of relief. At the same time, Wu Lian had placed her hopes on the three great patriarchs.

In the second stage of the Four Great Heaven Martial Stage s, only Bai Lan and Wu Lian had obtained the inheritance. With Bai Lan's fighting strength, even if Wu Lian was able to defeat him, it would probably take a very long time. Unceremoniously speaking, if Wu Lian was in first place, Bai Lan would at least be second!

The Demon God Emperor was a powerful existence in the Seven Monarchs!

On the other side, Lei Ji would never lose to Feng Qing no matter what. They had fought countless of times, and both of them knew each other's trump cards.

As for Jin Zu and Long Beard Man, they did not make a move at all. At this moment, if either side were to make a move, the other side would definitely do the same.

"It's best if you don't move. Otherwise, I'll make sure you die here today." Jin Zu raised his eyebrows and said haughtily.

"Hehe, I already know that you're counting on the three Clan Chiefs to catch Long Chen, but I'm guessing that they won't even be able to catch a hair on their heads." Long Beard Man laughed out loud.

"A coward who only knows how to run is not considered a hero." Jin Zu gave Long Chen a look of rejection.

However, Long Chen did not only know how to escape.

After using the blood escape technique to pull apart the gap between them, Long Chen unleashed his full speed. With the help of the seven star body, he was even faster than the other three by a bit.

Long Chen started to play cat and mouse with them.

"We have to separate them." Long Chen thought.

"Let me try." In the Great Void Realm, the little kitten was very excited. Its little head peeked out from the Great Void Realm, and the one who was closest to Long Chen the most was the Patriarch of the Water race.

Nightmare's illusion techniques were used on him.

At that moment, his eyes saw Long Chen suddenly change directions and charge towards the other side.

"This way, quickly chase it!"

Chief of the Aquatic Clan immediately changed his direction, but the other two clan leaders were still heading towards Long Chen, so they were very suspicious of Chief of the Aquatic Clan's actions.

"You're next." Cat grinned and successfully got the other chief to change directions and split them up!

"Little Cat, good job." A cold light flashed through Long Chen's eyes, and then, it suddenly reversed!

"Die!"

Chapter 857 - Who is the opponent

The three people of the Five Elements Alliance were all experts of the first level of the Heaven Martial Stage, and their speeds were incredibly fast. In just a split-second, the illusion of Cat's Dream Demon had undergone a tremendous change in the direction they were heading towards.

Long Chen grasped the opportunity very well. When the three great clan leaders changed their direction, he turned back and charged towards one of the clan leaders!

This was the Fire Clan Chief!

Before he could understand why his two comrades had to change directions, Long Chen had already charged towards him. The two of them were not far away from each other to begin with, but this change made them clashed together in an instant!

Long Chen was prepared to kill them all, but the Fire Clan Patriarch would need a bit of reaction time!

By the time he turned his head back, the fourth layer of Emperor Prints had already condensed on Long Chen's palm.

A massive force rushed towards the Huo Clan Patriarch. After the four different colored seals mixed together, they exploded, forming a massive impact force!

"Profound Emperor Seal of the Sky!"

"Golden Emperor Heaven Shrouding Seal!"

"Scarlet Emperor Burning Heaven Seal!"

"Emperor Qing Qing Tian Ji!"

The four great Emperor Seals shot out at the same time, exploding forth!

As the Patriarch of the Fire Clan panicked, he punched out with a loud bang and collided with Long Chen's Four Great Emperor Prints. Of course, he used the power of his domain, so the power of his domain actually had a certain degree of resistance and complexity against Long Chen's attacks, as though he was controlling everything in the space around him!

Even so, because Long Chen was prepared, and he wasn't prepared, the power of Long Chen's Four Great Emperors still directly blasted him away!

"Break!"

A huge wave of energy exploded from Long Chen's body, engulfing the Fire Clan Patriarch and causing him to fly back close to fifty meters in a short amount of time!

The power of Long Chen's Four Great Emperor Prints was simply too strong, and during this period of time, it was actually difficult for the Huo Clan's patriarch to change his body. He knew clearly that he had landed on the five-colored altar, but he had no choice.

The speed of his retreat was simply too fast.

Furthermore, Long Chen's sudden attack on him had already caused some of his internal injuries. The blood and Qi in his body was currently churning, and he almost vomited a mouthful of blood.

The main reason was that Long Chen's sudden attack was simply too quick and violent!

"Flame Mountain, pay attention to the ground below!" When the Jin Zu saw this scene, he was immediately shocked. He thought that the three great patriarchs would definitely be able to defeat Long Chen, but who would have thought that Long Chen would actually be able to counterattack.

He didn't know what was going on with the five-colored altar, so the Jin Zu made him pay attention. Unfortunately, the Fire Clan Patriarch couldn't control himself and fell directly onto the altar!

Long Chen did not think much about it, he knew that the altar would definitely force him to move.

At this time, a shocking scene occurred. The Fire Nation Patriarch fell into the altar. With a flash of light, his body disappeared.

"What's going on?"

"He actually went in?"

Long Chen was the closest to the five-colored altar, so without a word, he immediately used his Blood Escape to charge to the altar, and escaped into the center of the altar, which was a red area. The leader of the Fire Clan had entered that golden region.

Sure enough, under everyone's gaze, Long Chen immediately escaped inside, and disappeared within the five-colored altar.

Previously, when the five of them were moving together, this five-colored altar still couldn't be entered. He never thought that he would actually be able to enter the Five Elements Alliance after its people and its people arrived.

At this moment, everyone understood that they had misunderstood.

"The ten people will enter the fifth stage. So, it's not that we want everyone to fight here with only five people left, but after everyone arrives, the five people who will be the first to enter the five-colored altar?"

Only now did everyone understand.

There were only five spots in total, but only three remained. Long Chen and the Fire Clan Patriarch each took one!

At this time, they no longer had time to pay attention to their opponents. Wu Lian and Bai Lan who were still fighting, as well as Jin Zu and Long Beard Man who were in confrontation, had already rushed towards the five-colored altar at the first possible moment.

In just a short moment, an extremely terrifying confrontation had taken place. The Second Level Warriors of the Four Great Heaven Martial Stage s had engaged in a frenzied fight above the five-colored altar, and four people were fighting for three spots. This showed just how dangerous it was.

It was difficult for the rest of the first level Heaven Martial Stage s to enter this circle.

For a time, all sorts of moves flew around in a daze.

Whoosh!

While they were fighting, everyone rushed towards the five-colored altar. With a few whooshes, they were still competing in speed, and the four of them turned into four beams of light, heading towards the five-colored altar. In the process of advancing at full speed, they were also defending against the attacks of others, while attacking others!

RUU...!

Countless explosive sounds!

On the five-colored altar, there were a total of five regions, and all five regions were rotating at the same time. It was not certain who would enter that region, but they could clearly see which region Long Chen and the Fire Clan Patriarch would enter. Therefore, the four of them were currently fighting over the remaining three areas.

Jin Zu and Long Beard Man had met unluckily in the middle of one of the regions, causing the two of them to immediately attack in unison. It was extremely difficult for the two of them to control their own bodies, and in the midst of an explosion, the Long Beard Man had charged into the remaining area, while in the midst of a moment of carelessness, the Jin Zu had arrived at the five-colored altar, in a golden area.

This was where the Fire Clan Patriarch had entered.

Five out of ten people had already entered the five-colored altar.

Those who did not enter were Jin Zu, the two from Five Elements Alliance, as well as Lei Ji and Feng Qing.

The people who remained were originally depressed, but right at this moment, they saw to their shock that the Jin Zu had been directly swallowed by the golden region!

There were four people left.

"You can still enter?"

The remaining four people were momentarily stunned. After being stunned for a short period of time, they immediately reacted!

They had misunderstood earlier. Ten to five didn't mean that only five people could enter, so what exactly did that mean?

At this critical moment, no one had thought it through clearly.

As long as they could enter, the first thing they thought of was to enter immediately.

Among them, Feng Qing rolled his eyes.

"If ten people enter the fifth stage, could it be that only two people can enter the first stage of the five-colored altar, and only one person who wins can enter the next stage?"

"That Long Chen just now, seems like he entered a red area!"

As he thought of this, Feng Qing didn't say anything else and directly rushed towards the red colored area. He was already relatively close to the red area, and with a speed so fast, he immediately dived into the five-colored altar.

The others, on the other hand, did not think that far, and all casually rushed into one of the colors, the only one that was more tragic was Lei Ji, the one that landed on the golden area, so he was directly ejected. In the empty first level, there was only one Lei Ji left.

He was stunned for a moment, and then he realized that two people had already entered the golden area. He calculated, and it seemed that the only area that no one had entered was the one that Bai Lan had entered previously.

Thinking up to here, he didn't think too much, and plunged head first into that area. As expected, his body was also submerged within the five-colored altar.

It was only here that everything finally quieted down.

Quickly, a wave of scorching hot flames surrounded him. Long Chen was startled, and immediately pushed his True Essence open, creating a sphere of space amidst the burning scarlet flames.

The sphere was not large, but it was able to separate the temperature. The temperature of this flame was extremely high. Even if Long Chen had the seven star body, if it was burned directly, his body would probably be completely destroyed within a short period of time.

"Where is this place?" Long Chen looked around.

The surroundings were all flames that burned endlessly. If the little wolf came here, it was possible to devour the flames too, so Long Chen could see the situation in his surroundings. But Mo Xiaolang wasn't there.

Long Chen sent it to protect the Demon race. Although nothing much should happen to it, it was still better than taking a risk with Long Chen here.

These endless flames were indeed a bit strange.

Only then did Long Chen remember that he was entering the red area inside the five-coloured altar. Did this mean that in other areas, there were other scenes, such as all of them being water?

And why was he here?

Very quickly, Long Chen had an answer, and an illusory voice suddenly sounded beside his ear.

"The 10 will enter the fifth floor, everyone will have an opponent, finish or defeat their opponent and you will be able to enter the second floor, the Dark Bone Tower."

This ethereal voice seemed to come from an extremely far distance, yet Long Chen was able to clearly hear these words.

"Everyone has their own opponent. If I can solve or defeat him, then that means I can pass the test. Who is my opponent? Was it something from the Dark Bone Tower, or were it the Heaven Martial Stage's experts? "

Once he thought to that point, Long Chen immediately activated the Spirit Devouring Demon Pupil, looked at his surroundings, and his eyes quickly shrank back. This was because he already saw that not far away from him, there was a familiar person who was quickly approaching his side!

Chapter 858 - Yellow Emperor Sky Movement Seal

He, too, was enveloped in these endless flames.

This person was the of the wind race, and was also Long Chen's old rival.

"My opponent is actually him?"

The corner of Long Chen's mouth flashed with a cold smile.

In the blink of an eye, he had already rushed to Long Chen's front. Long Chen used his True Essence to create a space with a diameter of only two meters, but that Feng Qing used his Domain to completely open up a space with a diameter of several tens of meters. That space of his instantly surrounded Long Chen.

"Long Chen!"

Actually, Feng Qing's eyes flashed with excitement.

We were destined to meet again, and there was no clear victor before. But now, it's just the two of us here, and the victor is the only one who can go out. If you want Zhilin's life, then I want yours too!

With that, he rushed towards Long Chen!

The power of that domain immediately suppressed Long Chen, preventing him from escaping!

This was a huge opportunity!

If he did not succeed in killing Long Chen here, with the speed of his progress, perhaps the chances of success in the future would be even less.

"thousands of handprints!"

Over a thousand handprints rumbled and charged towards Long Chen. The thousand handprints condensed into a physical form and turned into a gigantic illusory palm. The boundless energy directly shook the surrounding flames away!

Facing Feng Qing's attack, Long Chen's mind was actually preoccupied with other things.

"That ethereal voice doesn't seem to have a time limit, right? Since that's the case, I can play cat and mouse with this Feng Qing. After all, with my fusion of the Four Great Emperor Prints, I can't just kill Feng Qing directly. "

Long Chen did not want a narrow victory, but a one hit kill.

The fusion of the Four Great Imperial Seals was not something that could be killed in a single strike. Thus, he had to increase his strength. That was the final fusion of the Five Emperors Seal.

There was no time limit here, and there was only one opponent. He was a very good expert at cultivating the Yellow Emperor Sky Movement Seal, and he already obtained four Feng Ling Yuan. If he did not cultivate now, then he would have no time to cultivate the rest of the time.

"You want to kill me? Let's see if you can catch up to me now, Old Demon Feng."

Just as Feng Qing was about to attack with all he had and wanted to suppress Long Chen, he suddenly laughed out loud.

Blood Escape activated.

In the midst of the blazing flames, Long Chen had instantly traveled more than a kilometer. In these endless flames, without Long Chen's Spirit Devouring Demon Pupil, it would be even harder to find someone than ascending to the heavens.

Even if Feng Qing went crazy, he wouldn't be able to find his. In this kind of blazing environment, where Feng Qing only had flames left, without a Spirit Devouring Demon Pupil, he would still be at a disadvantage. He could only wait until Long Chen's strength increased to find her.

"Long Chen, if you're a man, then don't leave. If you have the guts, then fight me head on!"

In the midst of the raging flames, Feng Qing's flustered voice came out!

"This idiot." Long Chen laughed and continued to distance himself from his.

It had to be said that Feng Qing was an existence that stood above billions of people in the Realm of Myriad Kingdoms, the stately monarch of the The Heavenly Wind Holy Dynasty. His strength was at the first stage of Heaven Martial Stage and was extremely powerful. He was an extremely difficult opponent to deal with.

Only, the current Long Chen already completely had the qualifications to fight against someone at this level.

An opponent who knew how to endure was the most terrifying opponent. Feng Qing was flustered and exasperated, yet Long Chen refused to come into contact with him.

"Speaking of which, what happened to Feng Zhiling?" "Everything is fine, why did it suddenly disappear?"

Long Chen pondered over this matter for a while.

"Cat, how far can your perception extend in this endless flame?" Long Chen asked.

"What's wrong, brat? Is it time to ask for this god's help again?" This god will first explain to you that this god's position is high and mighty. If you want help, then you have to first ...

"Tell me, how far is it?"

Long Chen interrupted him and said calmly.

Cat, this guy really had a cheap mouth. If he boasted too much and too many words, he wouldn't be able to change his habit for the time being.

"Um, a hundred meters can still be used!"

"Trash." Keep an eye on that old fellow, I will cultivate the Yellow Emperor Sky Movement Seal here, as long as he gets close, you can notify me. "

In reality, Long Chen had already moved a lot of distance away. To be able to find Long Chen amidst the blazing flames, it could only be said that Feng Qing's luck was too good. Under normal circumstances, he would never encounter such a thing, unless Long Chen made a sound of his own initiative to attract Feng Qing over.

During the process of cultivation, Long Chen could not use Spirit Devouring Demon Pupil, so he could only have Little Cat come and take a look, just in case. Although Little Cat had a cheap mouth, it was still quite reliable.

Long Chen once again shifted quite a bit of distance away. After determining that it was very difficult for Feng Qing to find him, he sat cross-legged in the midst of these endless red flames.

The Feng Ling Yuan was the shadow of Long Chen's Yellow Emperor Sky Movement Seal.

This Feng Ling Yuan was similar to the Emperor Crystal, but it stored a lot more than the Emperor Crystal. Furthermore, all of them were pure earth attributed energy. It took many years of accumulation for them to be able to form such a large Feng Ling Yuan.

It was only in this kind of place where no one could reach that many Feng Ling Yuan were formed.

At this time, Long Chen was sitting cross-legged and he used his Quintessential Essence to form a sphere, like a ball floating on water, following the flow of the flames, moving according to the flow, changing his position. This way, it would be even more difficult for Feng Qing to find him.

Under Long Chen's control, the four Feng Ling Yuan gradually formed together.

A Feng Ling Yuan with a diameter of around ten centimeters appeared in Long Chen's hands. Long Chen had the experience of cultivating other seals, so even though the Yellow Emperor Sky Movement Seal was difficult, and fusing the five seals was even more difficult, Long Chen was still much stronger than before. With his and the ninth stage of the Earth Martial Stage's True Essence, he was able to control the five powers.

"Phew ..."

Time gradually passed by. During Long Chen's silent training, Little Cat reminded him once, and Long Chen promptly changed directions. At that time, he opened his eyes and saw that the old fellow, Feng Qing, was about a hundred meters away on his left.

With his speed, he could arrive in an instant.

Helpless, he did not know Long Chen's direction.

"Old man, it's almost time to take care of you."

Long Chen snorted coldly, he shifted his position, but did not stop the cultivation of the Yellow Emperor Sky Movement Seal. He was currently training in the most perfect state of the Five Emperor Prints, so the difficulty of the training was indeed higher than before.

When the Five Emperors combined their powers, the five types of power would form a perfect conflict. At that time, the resulting explosion would be even more powerful.

"Whoa!"

With a burst of energy, Long Chen slowly stood up. He opened his eyes and revealed a satisfied smile.

He opened his right palm, revealing a total of five Imperial Seals, and they all lit up.

"The Five Emperor Prints have succeeded, it's time to take Feng Qing's life." Long Chen's eyes flashed with a cold light.

Feng Qing didn't need him to find him, he would just come looking for him himself.

Somewhere three kilometers away from Long Chen, the current Feng Qing was currently using several gusts of wind from his palm to blow away the surrounding flames. His face was filled with anger, and his gaze was bloodshot as he roared, "Long Chen, get out here right now!"

"You cowardly turtle, where did you hide?"

The furious Feng Qing even felt like he was going crazy.

Long Chen slid like a loach. In this sea of flames that affected their vision, he could not be seen at all and had long run off to who knows where.

Staying here for so long and not successfully defeating his opponent, if that happened, even if he succeeded in killing Long Chen and passed the test, when he left, he would probably only be ridiculed by others.

At this moment, Feng Qing suddenly felt a large movement in front of him. A rumbling sound was transmitted towards him!

"Old bastard, come and die!"

This was clearly Long Chen's voice.

"Die? Hehe, I can't hold it anymore. Are you finally going to fight with me? The Heaven Martial Stage is indeed the Heaven Martial Stage, he can completely suppress your Earth Martial Stage, and was able to push me back, was purely my carelessness, did you think you are self-righteous? "

Feng Qing was filled with excitement. Finally, when he had reached this point, without saying a word, he created a huge gust of wind and swept towards Long Chen!

The territory of the Heaven Martial Stage was stirred like mad!

After a short journey, Feng Qing was already able to see the youth standing calmly in front of him amidst the blazing flames.

A terrifying calmness could be seen on this young man's face.

This caused Feng Qing to be shocked in his heart. Could it be that this young man had a new reliance to rely on?

Then, Feng Qing laughed.

"Feng Qing, ah, Feng Qing, you are really living more and more. You have lived for hundreds of years, yet you are actually frightened into such a state by a twenty year old youth. If you were to speak of this, you would definitely be laughed out of your wits by others."

His eyes suddenly turned cold.

Long Chen knew that this fellow was just beside him, but he couldn't find him. With just a few words, he was able to lure the other party over.

Feng Qing was already impatient. He used his own domain to open up a space with a diameter of tens of meters. As long as there were no flames, it would be the domain of his domain.

The first level of Heaven Martial Stage, the Domain, was also only the first level.

"This time, don't even think about escaping."

With the Heaven Martial Stage's martial soul, she had instigated all of the power of the Domain, causing Long Chen to feel as if he was stuck in a quagmire. His movements became inconvenient, and he even found it difficult to move, let alone fight.

"Is that all you've got in your domain?"

Long Chen never forgave others. In order to kill Feng Qing, he had to use the Dragon Soul Transformation. At this time, his body was gradually covered with scales, and in a short moment, Long Chen had become a blood red killing machine.

"Devouring Blood Realm!"

Chapter 859 - Killing Feng Qing

As long as the opponent used a domain to open up a space, Long Chen would fill up her own Devouring Blood Realm. That blood-red colored space immediately filled Feng Qing's field of vision, and even blocked a portion of his line of sight.

Closing the door and beating the dogs was Long Chen's way of fighting!

"It's this strange space again, but what can it do to me!"

Feng Qing had no choice but to use his Innate True Origin to suppress the blood aura, causing his output of True Origin to decrease. However, he believed that Long Chen had definitely been affected greatly as well.

"Die!"

Without saying a word, Feng Qing's three thousands of handprints had once again charged towards Long Chen. In this space propped up by a domain, there were already three thousands of handprints that covered Feng Qing!

Rumble rumble rumble!

Countless handprints rushed towards Long Chen. With the help of the Domain, it was as if they carried the might of the heaven and earth!

"Another move like this?"

Whether it was the thousands of handprints or the three thousands of handprints, Long Chen had already faced them several times, so he knew this kind of attack very well.

"It is indeed the Three thousands of handprints, but can you block it?" Regarding Long Chen's doubts, Feng Qing just laughed it off.

In this narrow space, the combination of the three thousands of handprints would produce even more power!

"Three Thousand Phantom Shadow, Wind Thrust!"

At the same time as he used the Three thousands of handprints s, Feng Qing also used his clan's sacred art. Three thousand phantoms formed a sharp wind spike, mixed in with the three thousands of handprints s, releasing a sharp and vast power from within!

"This old geezer's Wind Thrust is actually much stronger than the others."

Long Chen's eyes were calm, as if the person facing this attack was not him.

"Let's see how you'll deal with it this time. Do you want to mix the four attacks together?" Feng Qing let out a cold laugh, and sent his destructive attack rumbling towards Long Chen!

At this time, Long Chen heavily exploded out with a beam of cold light!

An Emperor Seal after another appeared on his palm. Soon, four Emperor Seals lit up on his right palm.

Every single attack of the mixed martial skill was only an ordinary low-level Royal Armament. However, when mixed together, they did indeed have a very powerful might. "Woosh, woosh, woosh, woosh, woosh ~ ~ ~"

"Is it really that move?" A flash of joy appeared on Feng Qing's face.

He knew that if it really was this move, he was 100% sure that he would be able to kill Long Chen!

"Die!"

With the power of the Heaven Martial Stage, he used a crazy burst of power!

"Is that so?"

Long Chen laughed coldly!

"Yellow Emperor Sky Movement Seal!"

Immediately, the five different colors instantly mixed together. These five different seals, at this time, actually formed into a gigantic multicolored palm, which appeared on top of Long Chen's palm!

"Five Emperors in One!"

Long Chen roared, and frantically waved his right hand, that enormous multicolored palm, as if it had come from the heavens, grabbing towards Feng Qing!

Along the way, the endless three thousands of handprints that crashed into Long Chen's colorful palm shattered one after another. These multicolored palms possessed an endless amount of power!

The power of the fusion of the five Imperial Seals was far, far greater than that of the four Imperial Seals from before. This was the final power of the fusion of the Five Emperor Seals!

"What!"

Seeing the colorful palms that covered the sky, Feng Qing's face changed greatly!

"Only someone in the ninth stage of the Earth Martial Stage would possess such immense power!"

That enormous multicolored hand exploded with bright rays of light, and in a short instant, it had covered the area in front of Feng Qing, completely destroying all three of his thousands of handprints!

"Wind Thrust!"

This ridicule was Feng Qing's last hope!

The sharp wind spikes were directly aimed at the rainbow palm. Although the wind spikes were small, they possessed a strong piercing ability that allowed it to penetrate the rainbow palm and pounce towards Long Chen!

The moment Long Chen's three thousand star domain appeared, the remaining wind spikes that did not have much power in them were immediately shattered!

And the rainbow coloured palm, its huge hand seized Feng Qing, and directly grabbed him!

"No!"

The Five-Colored Palm possessed devastating power. Being surrounded by this power meant that one was destined to die.

"Remember, I did not kill Feng Zhiling, but you, Feng Qing, I did. If you have the guts, then turn into a ghost and come find me. "

Long Chen laughed and retreated far away.

BOOM!

With an explosion, the power of the Five Emperor Prints shattered the dying Feng Qing who could not rest in peace.

Feng Qing, dead!

The dignified patriarch of the wind race had died in the hands of Long Chen, this rising star.

That enormous The Heavenly Wind Holy Dynasty would also be in great turmoil because of Long Chen's death. If Wu Lian had not died this time, she would definitely include him in her map after they leave this world.

This woman had toppled the masses for hundreds of years, and even now, she still possessed an endless charm. She was a woman that countless people thought was impossible to reach.

However, she also had a terrifying heart.

Long Chen felt that she was the most difficult person to deal with on this Five Emperors Secret Realm trip.

"Should I enter the next stage to kill Feng Qing?"

Just as this thought had appeared in Long Chen's mind, he suddenly realized that his body was already moving.

It was still dark here. There was only a dim yellow path ahead of them. It led to the endless dark abyss in front of them.

"Where is this place?"

When Bai Lan and the others appeared, they too had the same thought.

They were standing at the beginning of the path, surrounded by endless darkness. With their eyesight, it was difficult to see anything else.

There was only a dim yellow path in front of him. It seemed to lead somewhere.

"This is the second level of this Dark Bone Tower?"

Everyone looked around at their surroundings.

Time gradually passed, and the people who appeared were Wu Lian, Bai Lan, Jin Zu, and Long Beard Man. In the competition, they did not reach the same level of strength. With the strength of the second level of Heaven Martial Stage, they easily defeated their opponents and arrived at the second level of the Dark Bone Tower.

Because they had bumped into Bai Lan, Lei Ji was basically not injured at all. He was still staying in this world that was filled with water, and upon Bai Lan's arrival, he reckoned that they would all be taken out of here after Five Emperors Secret Realm ended.

Only the strong had the right to stay.

When the four of them came in, it proved that four of them had already been defeated. Amongst the four of them, three of them were from the Five Elements Alliance, so Jin Zu's expression was rather unsightly right now.

Fortunately, none of them managed to kill him at the last moment.

"The remaining opponents should be Long Chen and Feng Qing."

Just at this time, the Long Beard Man spoke out based on what the crowd had said.

"Enemies meet each other, the other's eyes are red. Of these two people, one will definitely die. Who in the world can survive?" This was none of his business, which was why he was laughing.

Bai Lan and Wu Lian looked at each other.

This was also a war between them.

The two of them were both quiet people. At this moment, they didn't say anything and patiently waited.

"Long Chen met Feng Qing, that would be troublesome. If it was anyone else, they would not risk their lives to fight him. But Feng Qing..."

Time passed bit by bit. No one had expected that a battle would last for such a long time. The victor had yet to be decided.

"Looks like this Long Chen brat really has some ability. It was him earlier who threw the Fire Clan Patriarch into the five-colored altar."

"Who would have thought that the top ten would have such an intention?"

Long Beard Man chattered non-stop.

"A person has appeared!"

At this moment, a ripple of energy gathered behind everyone. Everyone quickly turned around and saw a tall and handsome youth with bright and clear eyes appear.

"Long Chen!" Surprise was revealed in Bai Lan's eyes.

Astonishment was in the eyes of all four of them.

This youth had actually defeated an expert from the Heaven Martial Stage in a fair battle.

There was a huge gap between the Earth Martial Stage and the Heaven Martial Stage.

Long Chen did indeed have a heavenly method to defeat Feng Qing!

Bai Lan did not say a word, in order to prevent Wu Lian from making a move, he immediately protected Long Chen.

Their group consisted of five people at the first level of Heaven Martial Stage and they had actually lost against each other earlier. A youngster in the ninth level of the Earth Martial Stage was brought to the second level at the Dark Bone Tower and together with the others in the second level. From this, one could see the heaven defying aspect of Long Chen.

"Long Chen, where's Feng Qing?" Wu Lian lightly activated her cherry lips, and her cold voice seemed to say without a trace of emotion.

"Let me kill him." Long Chen said unhurriedly, without a single emotion on his face.

"Hiss!"

Everyone sucked in a breath of cold air.

Out of ten people, the first to die, was actually Feng Qing.

They were already dead. This meant that they were in big trouble. With the death of the first person, it wouldn't be long before other people die.

Fortunately, those first stage of Heaven Martial Stage were no longer present. Aside from Long Chen, all the other experts present were at the pinnacle of Realm of Myriad Kingdoms.

Hearing the news of Feng Qing's death, Wu Lian did not seem to be surprised at all.

Under the white veil, it was impossible to see her expression clearly.

Her figure was graceful, her eyes were beautiful, and her teeth were white. She exuded an ethereal aura. This woman was truly like a fairy. However, there was always a hint of gloominess on her body. Compared to her, Ling Xi was much more adorable.

"Let's go and see what's at the end of this path." Jin Zu was also not in a good mood. He snorted coldly, and after waiting for his men to finally arrive, he strode forward.

Before, there was still one more person. No matter what, they could not continue forward.

After Jin Zu left, Long Beard Man immediately followed, and the others also began to move. In order to avoid Wu Lian's sneak attack, Bai Lan protected the side, and leisurely walked at the back.

"You really killed Feng Qing?" Bai Lan asked in a low voice.

"It's time to kill him." Long Chen said.

The current Long Chen was different from the past.

"I really don't know how heaven-defying you'll be when you get to Heaven Martial Stage, kid." Bai Lan was speechless.

"Soon."

Long Chen also felt that it was about time.

At this moment, something happened up ahead.

Chapter 860 - Old Cow Eating tender grass

"Bone Devil?"

Long Chen and Bai Lan raised their heads, and sure enough, many dark green flames lit up in the dim yellow colored path ahead. In the dim yellow colored long path, every once in a while, about ten meters, there would be a dense, cold Bone Devil standing there.

When Wu Lian and the rest approached, all the Bone Devils within a hundred meter radius woke up. Immediately, a murderous aura rose from within the place.

"So many Bone Devils?"

Long Chen was slightly shocked.

By the time Long Chen looked over, there were already more than a dozen Bone Devils awakening. The road seemed to be extremely long, could it be that they were going to advance forward all the way until the Bone Devils were killed?

"Everyone, don't move first!"

Jin Zu's gaze darkened, he swept his gaze across the other people, and said: "Of course, if we meet so many Bone Devils, we can dodge them as fast as possible, but it will be very risky, and will also awaken all the other Bone Devils, at that time, the pressure everyone will face will be greatly increased, in any case, we are not in a rush, and have no treasures, so we might as well slowly move forward, the four of us will team up, and slowly kill them until all of the Bone Devils are cleared, what about it?"

Jin Zu's idea was to have everyone work together.

"Indeed, before any benefits appear, we don't need to do anything." Long Beard Man stroked his beard and nodded slowly.

The four people they were talking about, naturally did not place Long Chen in their eyes. In their eyes, Long Chen was just someone who had good luck. If there was a real crisis, Bai Lan would not even be able to protect himself, and Long Chen would only be a burden to Bai Lan.

At this moment, the two of them were asking for Bai Lan's and Wu Lian's consent.

Bai Lan was usually calm, and smiled as he nodded his head. As for Wu Lian, he snorted coldly, and directly rushed towards the Bone Devil.

Of course, she did not directly break out of the encirclement, but killed the Bone Devil that was attacking her. Therefore, she could be considered to have indirectly agreed to Jin Zu's request.

Everyone looked at each other and followed.

"Be careful of this Wu Lian, her killing intent towards you, although she was trying to conceal it, is still revealed. Now that I'm here, she isn't willing to fight me to the death and let others reap the rewards. That's not what I'm going to do to you, but if there's even the slightest chance of that happening, she definitely won't let you off! You always stay close to me. "

"Don't worry, she won't be able to touch me." The corner of Long Chen's mouth raised slightly, looking at the swaying body in front of him that was displaying all sorts of wonderful killing techniques.

Her raised buttocks drew a beautiful curve in the air.

As if she had felt Long Chen's gaze, at that moment, Wu Lian turned her head around. In that instant, Long Chen saw snow-white sword radiances in her eyes.

With a "hu" sound, the White Lotus Divine Sword cut through the neck of a Bone Devil. That Bone Devil's head flew off and the Black Armored Bone Devil collapsed to the ground.

"This woman, she really doesn't think about killing me at all times. With her status, being able to endure this much is truly inconceivable. It also indirectly shows how terrifying she is."

At the moment when Wu Lian was constantly paying attention to Long Chen, Long Chen was also sizing her up without restraint. This kind of method of not retreating in the slightest caused the hatred and disgust in Wu Lian's heart to gradually rise. Wu Lian was no longer a young lady. She was a high and mighty Holy Maiden, someone no one dared to offend, yet Long Chen dared to look at her in such a manner.

Wu Lian was so angry that she laughed instead.

She knew that Long Chen was angering her.

To Long Chen, the assassins that were hidden in the shadows were much more terrifying than battle that came from the light, so he was always paying attention to Wu Lian's killing moves!

"Are you interested in me?"

When Wu Lian killed the Bone Devil, she brushed past Long Chen and Bai Lan with a sway of his body. A delicate fragrance brushed past Long Chen's nose. It had to be said that even though Wu Lian wasn't young anymore, the smell off his body was like that of a young married woman, and her eyes were captivating like that of a young married woman.

"Are you interested in me?" "Would you like me to eat some tender grass?"

Long Chen sneered, and said without a trace of politeness.

To tell the truth, the more powerful one was, the less important age was. Wu Lian was already at the second level of Heaven Martial Stage, and had lived for more than a thousand years. If she was not killed, the current her could only be considered to be at the peak of her life. If her cultivation could not advance even a single step, then she would probably age around seven hundred years.

This was a powerful expert.

Of course, Long Chen's current vitality was also incomparably strong. He didn't dare estimate his own lifespan, but with the ancestral dragon blood, his vitality would definitely be much greater than others'.

"Humph!"

Wu Lian snorted, the white lotus god sword in her hand pierced past Long Chen and directly struck a Bone Devil not far behind him.

Just then, he had thought that Wu Lian was angry from embarrassment and wanted to kill Long Chen.

"You'd better not let me catch you. I will make you regret coming to this world alive." With that said, Wu Lian floated like an immortal before she finally left.

Long Chen squinted his eyes.

"I relied on Bai Lan's protection to safely live through the Second Stage of the Four Great Heaven Martial Stage s. As a result, it affected Bai Lan from seizing the treasures, let alone obtaining the Five Emperors' Treasures."

There would definitely be a lot of things happening next, which gave him a headache.

Wu Lian, this woman, was like a ticking time bomb buried beside him, it was unknown when she would make Long Chen lose his life.

"However, this woman has a cold and gloomy temperament and her figure is first-rate. Even if it's Pure Snow, she seems a bit immature compared to her."

Although Sanxue was sexy and enchanting, she was still an inexperienced girl. It would be better if Wu Lian, who was already a wife, couldn't see her face clearly, but this woman was emitting an enticing aura from her bones. Her every move made people's mouths dry.

Long Chen was a silkpants since young, and had seen many women. To be honest, before Long Qinglan died, many of the girls in the brothels, as well as the ladies in the rich families, had also played around with him. However, once he stepped into the cultivation world, he discovered that compared to the cultivation world, the women in the mortal world were much less fragrant.

However, his heart was firmly tied up by Ling Xi. No matter how beautiful the other women were, they would not be as beautiful or as moving as Ling Xi.

There were quite a few Bone Devils on this dim yellow path.

Every ten meters or so, there would be a Bone Devil. As long as Long Chen and the others could get within a hundred meters of the Bone Devil, they would wake it up.

If they were to advance slowly, the Bone Devils they would encounter wouldn't be too much of a problem, but if the five of them were to advance at full speed without sparing their lives, and all the Bone Devils were to awaken, everyone would definitely suffer an unprecedented attack.

Even if it was the second stage of Heaven Martial Stage, their greatest endurance would be four. Moreover, after they fought for so long, the True Essence in their bodies was also being consumed greatly. After roughly two hundred meters of journey, everyone was somewhat breathless.

Such a design actually had the intention of testing their willpower.

However, the fact that they were able to join forces was purely a matter of profit. If something really needed to be fought over appeared, then they would definitely start a life or death battle.

"Let's keep going."

Everyone looked at each other in dismay, but they still stubbornly persisted.

They already knew that Five Emperors' Treasures were not so easily obtainable. This was only the second floor of Dark Bone Tower, and if they wanted to reach the seventh floor, how long would it take for them to reach it?

"There is still a month until Archaic Graveyard closes. Which is to say, we still have a month left to challenge this Archaic Graveyard." After killing the Bone Devil, Bai Lan spoke at the same time.

In this period of time, Long Chen had truly seen their true strength.

With his current abilities, even if he fused with the Five Great Emperors Seal, it would still be difficult to harm them, especially Wu Lian and Bai Lan who had the legacies of the Seven Monarchs.

"What's up ahead!"

After about five hundred meters, at almost the same time, everyone saw a simple and crude wooden house at the end of the dim yellow path!

This dim yellow path led directly to this simple and mottled wooden house. What did this mean?

This meant that what everyone wanted was likely to be in this wooden hut. Even though it wasn't a Five Emperors' Treasures, it was very likely to be an important treasure!

In front of him, there were still around a hundred meters of distance, and about ten or so Bone Devils.

The moment he saw the hut, Long Chen thought of something, and immediately said to Bai Lan: "Go, I can save myself for a while!"

What he was worried about was that Bai Lan wouldn't take the initiative to attack because he was worried for his safety.

If it was like this, Long Chen would also feel bad. After all, Bai Lan had already helped him a lot, how could he have the face to become a burden.

Hearing Long Chen's words, Bai Lan did not hesitate. Almost at the same time, a powerhouse of the second level of the Four Great Heaven Martial Stage s rushed towards the wooden house!

"Roar!"

Upon sensing their presence, the pitch-black Bone Demons all held long spears and long blades in their hands as they charged towards them! They seemed to be protecting the things in this wooden house, which was why they were acting so berserk!

When they attacked, their attacks were also much sharper. If Long Chen did not use the fusion of five Emperor Seals, he would not be able to fight against three or more Bone Devils at the same time!

With five people working together, he was indeed the weakest of them all.

Long Chen was also nervously staring at them. Not until the critical moment, he did not want to act rashly, but he had already completed the preparation for the blood escape.

The Bone Devils blocked everyone's path!
