

War God 981

Chapter 981 - Heaven's Path Immersion

"Actually, the number of acupoints formed by the body is related to one's own physique. Our Ye family is a Seven Killings Bloodline, and I have awakened three Seven Killings Bloodline. The number of acupoints is already three times more than the original number, so the number of acupoints is almost dependent on the number of primordial spirit. That's why I am stronger than anyone else in terms of cultivation of primordial spirit."

"In the Netherworld Palace, Seven Killings Bloodline can finally increase the number of acupoints by seven times. That is to say, when one cultivates to the highest level, such as God Slayer Ye Wushang back then, he would probably have seven hundred thousand acupoints. In the heart of True Martial Emperor Domain, among all the people who have reached the Divine Martial Stage, there are many that have directly formed 100,000 acupoints. The highest among them, the ones that have the bloodline that has already reached a heaven-defying level, directly forming 1,000,000 acupoints, and the moment they entered the Divine Martial Stage, they possessed a power that is a hundred times stronger than ordinary The First Stage of the Divine Martial Realm. You can imagine just how terrifying that talent is. "

The moment Long Chen started to consume the God Manifestation Pill, Ye Xuan slowly explained it to him.

"Does it have anything to do with constitution? "I wonder just how many acupoints this Primordial Blood Dragon will be able to form. I'm really looking forward to it."

The First Stage of the Divine Martial Realm, it was called the Stellar Realm. Astral acupoints were scattered throughout the body, and an endless amount of power was contained within.

After entering Long Chen's mouth, it had completely disappeared. Then, Long Chen felt that his own thoughts, thoughts, etc. These things seemed to have been forced out of his body.

The divine soul was where Long Chen's thoughts were based, where his memories were, and the martial soul, was where Long Chen controlled his body. The power and accuracy of his control was not enough, and in front of the Divine Martial Stage, Long Chen's soul was also fuzzy. When his soul also congealed into a formless ball, Long Chen suddenly felt that his eyes, ears, and eyes had all become clear, and the whole world had become much clearer. This was actually the clarity in his heart.

Under the influence of the God Manifestation Pill, his soul quickly condensed into a physical entity and gradually, Long Chen could roughly "see" it. In his sea of consciousness, there appeared a vague, white, fog-shaped human figure; this was his soul.

Long Chen's soul was still that of a person, which meant that he was still human. Only his martial spirit and the sword spirit in his dantian was already in the shape of a dragon.

In his sea of consciousness, his soul gradually condensed.

"Very good, I can already feel the existence of the divine soul in your body. For people who cannot use Divine Martial Stage, the divine soul has a type of perceptive power that will make others feel pressured. Later on, if you reach the Second Stage of the Divine Martial Realm, then the derived consciousness would actually come from the divine soul. To be more precise, your divine soul opened its eyes. "

"When your soul is strong enough and completely separates from your body, your soul and martial soul will naturally fuse together."

At this moment, within Long Chen's world, Ye Xuan's voice seemed to come from a very distant place.

Long Chen understood.

Being guided by someone on the side was truly a different feeling.

After about half a day, the white, fog-like little person finally became much more corporeal, turning into a little Long Chen. It looked similar to Long Chen, and at this moment, a mysterious power made this soul head towards the Mysterious Dragon Jade's Martial Spirit.

Long Chen's martial spirit was already that of a blood-colored Primordial Blood Dragon. Covered in an illusionary blood-colored fog, a man and a dragon met each other in the sea of consciousness.

For a moment, the blood-red Dragon Martial Spirit seemed to have opened its eyes. It looked at the soul and let out a roar that shook the entire Sea of Consciousness. It was not fear, but excitement that it had been waiting for a long time.

Without any suspense, the white spirit in the shape of a human and the dragon-shaped Blood Red Martial Spirit suddenly started to merge. It was without any suspense that the soul had completely merged with Long Chen's body, forming Long Chen's Divine Martial Spirit.

Everything was quiet before this, but to Ye Xuan, the pressure exerted by the newly formed Divine Martial Spirit seemed to be a little too great.

A kind of aura that made her tremble emerged from Long Chen's body. At this moment, those blood-red scales actually appeared on Long Chen's body, completely covering Long Chen within the blood-red scales and bone spikes. Ye Xuan suddenly felt that there seemed to be a super hegemony that came from the ancient times within Long Chen's tiny body.

Even if she had Fifth Stage of the Divine Martial Realm, which far surpassed Long Chen's combat strength, looking at Long Chen right now, Ye Xuan still had a kind of palpitation in his heart, which caused her to have no choice but to take a few steps back.

"It might attract some people's attention. I'll first seal off the surrounding area."

The Heaven's Path Immersion still had some movement, and normally speaking, the Heaven's Path Immersion would require someone to protect it, otherwise, if the little person was recruited, it would definitely be a tragedy to act during the Heaven's Path Immersion. Not only was the Divine Martial Stage interrupted, at this time, it was very likely that even a child at the first stage of Heaven Martial Stage would die from the disorder in Long Chen's strength.

Under Ye Xuan's manipulation, a slightly blood-colored light surrounded Long Chen, and gradually expanded until it reached a diameter of a few hundred meters, completely surrounding Long Chen and Ye Xuan. In the eyes of outsiders, the reason why the seven-colored pagoda didn't make any movements was because Ye Xuan had used a technique to directly block it.

Long Chen was currently concentrating on the fusion with the Divine Martial Spirit.

Once his soul fused with the Martial Spirit, Long Chen felt that the originally silent and lifeless Martial Spirit seemed to have regained its spirit, and it started to become real. The white colored spirit quickly fused with the Martial Spirit, and the originally blood-red colored Martial Spirit was now undergoing a huge transformation, the blood-red colored fog immediately enveloping it completely. Faintly, Long Chen could see many more scales on the body of the Martial Spirit, and after the blood colored fog dissipated, the brand-new and lively Divine Martial Spirit appeared in front of Long Chen's eyes.

"Is this myself?"

The Divine Martial Spirit was a person's very foundation. Even though Ling Xi's physical body had been destroyed back then, she had still relied on the Divine Martial Spirit's power to interact with him for a long time. Thus, it was true that the Divine Martial Spirit Long Chen spoke of was himself.

In front of him was a small, blood-colored dragon. This was definitely the appearance of an Primordial Blood Spirit Dragon, and this was Long Chen's first time seeing such a concrete Primordial Blood Spirit Dragon.

A set of information appeared in Long Chen's mind.

"999 million, 999 thousand, 999 thousand, 999 scales ... Is this the Primordial Blood Spirit Dragon?"

Although the little dragon in front of him was small, among its body, there were almost a billion scales. Even though it was small, in this small body, the bloody aura of slaughter made Long Chen shiver, let alone the Ye Xuan outside.

As the Divine Martial Spirit fused with each other, Long Chen gradually opened his eyes and a blood-red light shone out of them. In that instant, one could see a blood-red colored Divine Dragon dancing and tumbling within his eyeballs.

Ye Xuan took a few steps back.

Just as Long Chen was about to merge with his Divine Martial Spirit, a blood-colored divine dragon image coiled around his body, tightly entwining him. That sinister blood-red dragon head looked at Ye Xuan who was at the side, and even though the latter seemed to have suppressed it very low, that ancient pressure still caused Ye Xuan to sit down on the ground, his body covered in cold sweat. When Long Chen opened his eyes, that feeling of fear that came from the depths of his soul, had completely disappeared.

"Dragon God" Ye Xuan stood up, his pretty face was deathly white as he looked at Long Chen. Her two eyes trembled, the image of a divine dragon that appeared earlier had scared her quite a bit.

But when she realized Long Chen's identity, she was even more shocked.

"You are the legendary Dragon Fighter ... No wonder, no wonder ..." Although he was not a heaven defying level warrior, it was impossible for him to challenge someone beyond his level, and even at the eighth level of Heaven Martial Stage, he could already directly kill a practitioner of Divine Martial Stage.

Only the Dragon Fighter could explain such.

In the entire Three Great Imperial Domains, there were only a few legendary Dragon Fighter.

Long Chen's Divine Martial Spirit had just merged with him and was in the most critical moment of comprehending the heavenly dao. Seeing that Ye Xuan already knew his identity, Long Chen was not worried at all, his eyes became sincere and he said: "I hope that you can help me keep this secret, and don't tell anyone else."

Long Chen believed in Ye Xuan's character. She was definitely a trustworthy person.

Ye Xuan was still in a state of extreme shock. The pressure that the divine dragon had brought on her and his identity as a Dragon Fighter was simply too great a shock to her.

It took a while for her to recover. She shivered and said, "You ... don't worry."

BOOM!

Right at this moment, a huge movement seemed to have occurred on Long Chen's body. Ye Xuan knew that the Heaven's Path Immersion was about to begin.

"Help me cover up my movements!" In this critical moment, Long Chen said loudly.

He had a premonition that when he arrived at the Divine Martial Stage, it would cause a huge commotion. After all, just now, the fusion of the soul and soul had already formed the true version of the Primordial Blood Dragon Divine Martial Spirit with a billion scales. He still did not know what kind of Heaven's Path Immersion such a Divine Martial Spirit would trigger.

At this time, Long Chen's body underwent a huge change. The newly formed Divine Martial Spirit released a mysterious power, which seemed to be issuing a set of orders.

At the same time, another wave of energy shot straight to the clouds, causing the entire sky to tremble. The clouds to churn, an enormous power, the pressure of heaven and earth to descend, the so called 'Heaven's Path Immersion' was not far away.

Long Chen's Heaven's Path Immersion would definitely be different from others.

Chapter 982 - Super Divine Martial Stage

She understood that if Long Chen's identity was leaked, it would definitely cause a stir in the entire True Martial Emperor Domain, and would definitely bring him endless trouble, or even death. Therefore, this matter could not be revealed, and right now, she still had to help Long Chen, so as to continue concealing his intentions!

At this moment, something unexpected happened.

The change in the Divine Martial Spirit was something he expected. After a series of instructions on modifying the body of the Divine Martial Realm in the Divine Martial Spirit, the Primordial Blood Spirit Beast, which was suppressed by the Mysterious Dragon Jade, actually had some movement. The complete Primordial Blood Spirit Beast, was now split into ten parts and released from his sea of consciousness.

When one tenth of the ancestral dragon blood appeared, an incomparably huge change started to occur.

Rumble rumble rumble!

In a short period of time, that one tenth of his blood essence was split into tens of millions of pieces, which then began to disperse, fusing into every corner of his body. At the same time, his body underwent a tremendous change, and as if summoned by the dragon blood, the whirlpool that had already formed in the sky — which was also called the Heavenly Way, was actually expanding in scope and thickness!

In the air above the Ghost City, an incomparably huge whirlpool began to form. This whirlpool was around the same size as the one in this city, which could fuse 10 million people. At this time, everyone noticed this change.

The countless clouds churned and rumbled. In the midst of the gigantic clouds, there was a milky-white, pure energy, that would probably vanish the entire Ghost City if this power was released.

The milky-white energy that was wrapped in the clouds was the so-called Heavenly Dao, the power bestowed by the heaven and earth to warriors who had reached the Divine Martial Stage. This was the so-called Heaven's Path Immersion!

However, the rules of the Heaven's Path Immersion in front of him, were simply too huge, reaching up to ten thousand times that of an ordinary person!

A normal person's Heaven's Path Immersion would only have a diameter of around a hundred meters or so, but this thick vortex was thousands of times larger than its original diameter. Not to mention that in terms of thickness, this Heavenly Dao vortex was countless times thicker.

Everyone in Ghost City noticed such a huge commotion, even the few people in the middle cities could see such a huge and spectacular scene, not to mention the experts in the City Lord's Mansion and the people in the Nether Realm.

In the skies above the entire Ghost City, there was simply no one who was able to grasp just who it was that was receiving the Heaven's Path Immersion.

"Within the Ghost City, someone is about to reach the Divine Martial Stage?"

In the City Lord's Mansion, those powerful warriors of the Ye Family all came out and looked at the scene in front of them with incomparable shock.

"Impossible, absolutely impossible! The amount of Heavenly Energy in there is simply tens of thousands of times that of an ordinary person! How could there be anyone who can reach this level?! Could it be that he is going to open 90 million acupoints, nearing 100 million?" "What a joke, is there such a person?" Ye Xizhi looked at the person who spoke disdainfully, and said with a reprimanding tone.

"More than ten thousand times the Heavenly Energy, that's absolutely impossible. Even in the True Martial Imperial Palace, there wouldn't be such a person that's ten thousand times stronger than you, and it's even been something that hasn't happened since ancient times. Therefore, there must be a reason behind the accumulation of the powers of the Heavenly Dao. "

"What is it?"

"Such an enormous power is definitely not man-made. I think we should not act rashly. If we anger the Heavenly Law, the consequences will be extremely serious."

In this world, the Heavenly Dao was like a god that could not be offended.

This sort of unexplainable phenomenon was even more proof of the existence of the Heavenly Dao.

In the middle of Netherworld Army's training grounds, Su Mo and the other two had already left for the Nether Blood Sea. Here, the strongest was only the centurion, and seeing such a grand scene, the entire sky was covered by gray clouds, as if there was an additional ocean in the sky.

"Should we go up and take a look?" A dozen or so centurion gathered and looked at the scene in the sky in shock.

"Such a vast power is definitely not man-made. This power surpasses the power that each of us spent several thousand years cultivating. It's best if we don't rashly take risks."

When Motel and the rest left, they had instructed us not to act rashly, and only needed to obediently maintain the usual order. However, we should still use puppet birds to tell Motel about what happened here.

"That's right, you guys stay here and watch. I'll do it now."

Countless people were facing this colossal Heavenly Law Whirlpool that could frighten people to the point that they would piss their pants off.

At this time, Long Chen was directly beneath the vortex of the Heavenly Dao. Ye Xuan could only use his strong cultivation to stabilize himself next to Long Chen. She could already feel that there seemed to be an additional kind of power within Long Chen's body that caused his to tremble, or perhaps it was his bloodline. It was this kind of bloodline that suddenly appeared, causing the originally formed Heavenly Dao Vortex to expand another hundred times!

Originally, Long Chen could already withstand a hundred times the strength. Adding on to the ten percent of the ancestral dragon blood s, he could already withstand ten thousand times the strength while modifying his body!

Ten thousand!

This number stunned Ye Xuan completely.

Just a moment ago, she had told Long Chen that even if it was the True Martial Imperial Palace, the most talented person would be at least a hundred times stronger than him.

Ye Xuan felt as if he was dreaming, and it was such a laughable dream.

However, reality had told her that this was not a dream, so this youth had a real sense of fear. Ye Xuan could feel that because a surge of power had joined into his body, his body was undergoing a heaven-defying evolution.

Although there was no change in the shape of his body, Ye Xuan could feel that Long Chen's body was infinitely expanding, and what was different from Ye Xuan was that no matter how much larger Ye Xuan got, his body would still be in human form. However, Long Chen was actually walking in the direction of the Ancient Dragon God.

"As expected, you are truly worthy of being called the Dragon Fighter. The heaven defying aspects of the Dragon Fighter, are they being displayed at the beginning of the Divine Martial Stage?" It was because he was standing very close to Long Chen that he could feel it. When Long Chen's Heaven's Path Immersion was finished, no one would discover that he was the Dragon Fighter.

Ye Xuan had an important mission on his hands, and that was to help Long Chen hide the fact that he was a Dragon Fighter. With so many people watching, if word of this got out, it would be troublesome.

BOOM!

As Long Chen's body rapidly expanded, becoming incomparably hungry, at this time, a loud explosion sounded. Above his head, in the center of the cloud whirlpool, a creamy white energy completely descended from the skies, smashing down towards Long Chen.

In an instant, he was right before Long Chen's eyes.

At this time, Long Chen's entire body was covered with blood-red dragon scales, and the image of a divine dragon continuously appeared on his body. When the Heaven's Path Immersion arrived, Long Chen suddenly opened his mouth, and a roar that originated from the Primordial Era came out. At the same time, Ye Xuan saw the coiled blood-red colored divine dragon silhouette behind Long Chen, and it roared towards the sky. The strength of the Heaven's Path Immersion, seemed to have been sucked in, and the speed of its descent suddenly increased.

Rumble rumble rumble!

In the sky, the clouds were churning as the milky-white energy was being sucked away by the divine dragon.

Ye Xuan then used his own strength to cover up the image of the Divine Dragon. Fortunately, no one dared to come up and investigate in front of the might of the heavens, otherwise, his identity as a Dragon Fighter would be exposed.

"Look, the whirlpool seems to be decreasing."

"Like I said, this is just a phenomenon that will soon disappear."

If they knew that this power was actually absorbed by one person, they would definitely pee themselves from fright.

One person absorbed the energy of more than ten thousand The First Stage of the Divine Martial Realm.

The milky white energy entered Long Chen's body and quickly turned into Long Chen's own. This could be said to be a gift from the heavens.

Long Chen's body expanded rapidly, as if he felt that his current self could surround the entire Ghost City. With the addition of the dragon blood and Heavenly Energy, he felt that his body contained an endless amount of power that could allow him to instantly destroy the entire Ghost City.

In his mind, he was no longer alone, but a blood-red divine dragon.

Of course, on the surface, he was still alone.

As the Heavenly Energy gushed in, blood-red stars started to appear within Long Chen's enormous body. Between the stars, veins started to be built up, and in a short moment, an incomparably huge network formed within Long Chen's body.

"9,999,999 acupoints. I only lack one acupoint, which is 100 million. At the same time, there are 1,000,000,000 meridians!"

Compared to a real Primordial Blood Dragon, Long Chen was still lacking a lot. But compared to an ordinary person, the number of acupoints and meridians he had, and even his body's constitution, was more than ten thousand times that of an ordinary person's!

This was the true heaven opposing aspect of the Ancestral Dragon Fighter.

When the power of the Heaven Dao was completely channeled into Long Chen's body, under the transformation of Long Chen's Divine Martial Spirit, countless streaks of blood-red rivers flowed through the countless blood-red stars and blood-red meridians. In a very short period of time, this power that Long Chen called the 'Dragon Blood and Divine Energy' had already filled Long Chen's body.

Every single star was like the eyes of a dragon, and every meridian was actually covered with blood red scales. These one billion meridians, were simply like a billion blood red divine dragon, coiling within Long Chen's body, and these acupoints were their eyes.

Enveloped by this network were Long Chen's enormous internal organs. Under the nourishment of the ancestral dragon blood, every internal organ and muscle emitted a boundless vitality!

Although it looked very small on the outside, Long Chen's body was already as big as the entire Netherworld Army training camp!

Terrifying to the extreme!

"I never thought that the transformation of my Divine Martial Stage would be even more terrifying than I imagined!"

As he inspected his body, even he himself was shocked. He knew that this was all thanks to his 10% dragon blood.

"In the future, every ten percent of the dragon blood, the number of acupoints in my body, and the number of my bloodline will increase!"

Long Chen had a very strong premonition in his heart. That was, on the road to Divine Martial Stage, as long as he raised his cultivation realm, he would absorb one tenth of his blood essence!

When he breaks through the Divine Martial Stage and reaches the tribulation stage, he would truly turn into a dragon and become the body of an Primordial Blood Dragon!

Chapter 983 - Super Strong Dragon Body

Long Chen could already see that his body was in the shape of a dragon with a gigantic Primordial Blood Spirit Dragon body that could coil around the entire Ghost City. Within his body, there were nearly 100 million acupoints. Compared to ordinary people, they were 10,000 times more powerful. Not only the acupoints, but even the meridians were 10,000 times more powerful.

The numerous blood-red stars and the meridian network were like countless dragons coiled around each other, the veins were filled with dragon scales, it was Long Chen's, and the acupoints were the Dragon's Eyes. The pressure that belonged to the Primordial Blood Spirit Dragon on Long Chen's body, was being emitted by this eye.

Under the activation of the newly formed Divine Martial Spirit, his True Essence underwent a new level of transformation and became the Dragon Blood and Divine Energy.

Long Chen realized that he no longer needed the ability of Dragon Soul Transformation anymore, because his body was already in the state of Dragon Soul Transformation. However, looking at his appearance, Long Chen was still in his human form. The scales on his body gradually faded, and only when Long Chen used more strength or when others attacked him, the blood-red dragon scales on his body would appear.

He had to maintain the Dragon Soul Transformation skill at all times.

"In the past, what I couldn't compare with were the aspects of true essence, and now, just in terms of true essence, I am ten thousand times stronger than when I first entered the The First Stage of the Divine Martial Realm. This kind of true essence is equivalent to Third Stage of the Divine Martial Realm, which is also on the same level as Su Tian, and compared to Su Tian, my true essence is even stronger."

Long Chen had a clearer understanding of his own strength.

Right now, he was already in the state of Dragon Soul Transformation. Even though he looked like a human, he was actually in his strongest state.

"In terms of primeval essence, Su Tian and I are about the same level of cultivation when we first entered the Third Stage of the Divine Martial Realm, but Divine Martial Stage is not simply about primeval essence either. Third Stage of the Divine Martial Realm, celestial realm, can draw upon the strength of heaven and earth, a complete domain, is able to erupt with battle power beyond primeval essence, not to mention Fourth Stage of the Divine Martial Realm — — martial will."

"Moreover, there are many factors in a battle. My strongest attack right now is a third grade Divine level martial artist's attack. The other side might have higher level battle skills. These are all factors in fighting to the left and right."

All along, Long Chen had always been stronger than others in terms of combat skills and weapons, but now, it had been the opposite.

However, there was another aspect of Long Chen's body that other people could not compare to. That was his physique was even stronger than the nether beast s of the same level!

This was an extremely large increase in Long Chen's combat prowess!

Long Chen clearly remembered that when he absorbed 1% of the blood essence, there was a very long period of time where he could directly use his enormous power to ravage others.

Compared to humans, even if a human cultivated body tempering technique or an innate constitution, no matter what, within the same level, a demon's body would be much stronger than a human's. Just like the Purple Blood Dragon that Long Chen met in the Archaic Graveyard, it had a huge body and an extremely strong body. Even a Divine Martial Stage warrior who cultivated a body tempering technique that was below the third grade would not be able to contend against it physically.

If it was a god level demon, like the Golden Horned Silver Shark, their physical body would be even more terrifying. It was probably only a warrior who had cultivated a fifth grade god level body tempering technique would be able to fight against it, or even be inferior to it.

Beasts didn't have such a powerful ability to comprehend. They could only rely on the dual strength of their body and the power of their physical body, which was one of their fundamental forces. Because of this physical strength, the beasts could fight against the human race.

And at this time, Long Chen, after he had finished cultivating everything, he stood up slowly. A ruthless aura of a Primordial Autarch's exploded out from his body, and the terrifying aura on his body was like a super primordial beast awakening. The pressure that he felt on his body caused Ye Xuan, who had already cultivated the fifth stage of the body tempering technique, to unconsciously take a step back.

The vicious aura on Long Chen's body, the trembling of his muscles, and the explosive sounds of his bones all meant that even though it seemed like an ordinary body, in reality, contained an earth-shattering power.

"Don't move." Ye Xuan said as he leaned forward, his fair hands forming a fist, suddenly, a burst of powerful fist force formed, forming five different colored vortexes. With a hu sound, Ye Xuan's fist punched towards Long Chen's chest, instantly causing at least a hundred sounds of explosions in the air, and this pink fist, without a doubt, was filled with the power to shatter a mountain.

This was a mountain of the Three Great Imperial Domains, not a mountain of the Realm of Myriad Kingdoms.

BOOM!

With a dull thud, Ye Xuan's fist stopped at Long Chen's chest. She frowned slightly, then looked at Long Chen with a rebuking gaze, and said in a soft voice, "It really hurts."

Long Chen laughed. He knew that Ye Xuan was only using his physical body's power, so he allowed her to hit him. Before he had reached the Divine Martial Stage, even though Ye Xuan looked like a weak girl, her physical strength was no different to the terrifying gold-horned silver shark from before. But now, although she was not at his full strength, when he hit Long Chen, he was fine, but she was in pain.

After saying that, Ye Xuan slowly pulled back his arm and looked at Long Chen in shock. A palm-sized dragon scale quickly appeared at the place she had struck earlier, but now, it was gradually fading away.

"The body tempering technique I cultivate in, Divine level level 5, called the Nine Colored Exquisite Body. "When I release my strongest power, I can release nine colored lights. The Nine Colored Exquisite Body is not the Ye Family's cultivation technique, but something I obtained through hard work. In the Nether Realm, it can be considered one of the top five body tempering technique, so from now on I can deduce."

Ye Xuan took a deep breath, and looked up and down at the current Long Chen: "Dragon Fighter, you're actually so terrifying, with your current physical strength, you're even stronger than demons of the same level, you need at least a Divine Level 4 to be able to compare physically with him, and humans are even more so, I'm afraid only people who cultivate body tempering technique of the sixth tier, would be qualified to fight against you physically."

The close combat strength of the body would also become an extremely large reliance for Long Chen to rely on in the future.

At the same time, you have a powerful body that is equivalent to a sixth stage body tempering technique. Your current talent completely surpasses any human or demon, and can only be described with one word, perfect. Dragon Fighter, my whole life, it is really an honor to see a Dragon Fighter. " Long Chen's huge improvement caused Ye Xuan's mood to become extremely good, and when he spoke now, he also used a teasing tone.

Long Chen felt extremely excited.

"This power, it's really too strong."

Although the fist was small, every time it was swung out, it was like a claw that could wrap around the entire Ghost City like a Primordial Blood Spirit Dragon, flailing its tail at a time. With such power, after returning to the Realm of Myriad Kingdoms, it would not be difficult to destroy an entire country.

Within Long Chen's body, the physique of the Dragon Blood and Divine Energy could even drown the Ghost City if it turned into an ocean.

Only now did Long Chen find out about the experts in the Divine Martial Stage, and he also knew what those old monsters who had cultivated for thousands of years were training now. Every individual with a

profound strength or higher had so many primordial spirit, and this was not something that could be accumulated in a day and a month, unless it was someone like Long Chen.

From Heaven Martial Stage, Long Chen instantly leapt all the way to his Divine Martial Stage in a single day.

In a single day, such earth-shattering changes had occurred. He was now the first person in the entire history.

A hundred million stars were spinning non-stop, and the torrential waves of Dragon Blood and Divine Energy were like a river flowing through the meridians surrounding the dragon's scale, each and every giant internal organ was pulsating, erupting with a strong life force. Every internal organ, especially Long Chen's stomach, had the phantoms of countless demon beasts that Long Chen had devoured.

With each of Long Chen's slight movements, the hundreds of millions of muscle groups exploded into a series of explosions.

Long Chen's body could also be considered a Divine Martial Body, but it was even more so the body of an Ancestral Dragon.

"If it's possible, I can't take it anymore. I feel like I'm standing next to a super strong demon beast that can cover the sky," Ye Xuan said with a light smile as he checked the strength of his own body.

Concealment was also a very important method that Long Chen had at the moment.

With a slight adjustment, this human shaped body completely suppressed the Primordial Blood Spirit Dragon's movements, and shifted everything towards the inside. From the outside, Long Chen seemed to be more or less like an ordinary person who had just entered the Divine Martial Stage.

"We've finally reached the Divine Martial Stage." In the middle of Great Void Realm, Cat who was napping opened one eye and weakly glanced at Long Chen's current state. She immediately smacked her lips and said: "My ancestor dragon, my ancestor dragon, is still as abnormal as before. It's already so impressive, I really wonder, after breaking through the tribulation stage, what would happen if he inherited all of his blood essence? "

"However, the growth of an Ancestral Dragon is also very, very difficult. Every single Ancestral Dragon requires hundreds of millions of years before they can reach the highest level. Let's see just how fast your humanoid soul will allow you to grow."

Naturally, Long Chen could not hear these words.

The furry kitten turned over and picked up the God Crystals around it. It took a few bites and continued to sleep. The snot bubbles continued to grow larger and smaller as it breathed.

At this time, Long Chen had already concealed all of his movements.

After a long period of patience, Long Chen could truly say that he had achieved his goal, and everything was extremely close to him. After he rescued Ye Xuan, he would head towards the Nether Palace to search for the gigantic Universe Teleportation Formations, and through the Broken Star Sea, he would reach the Imperial Domain of Sword Soul. He knew that the Imperial Domain of Sword Soul was very, very large, but as long as he had this determination, finding Ling Xi was not a problem!

Chapter 984 - Revealing Strength

His dream was already very close to him, just like how he could complete it tomorrow.

"I am very curious, what is your current fighting strength? Can I experience the power of Dragon Fighter?" Ye Xuan was so excited that he looked like a little girl. To her, Long Chen was an extremely novel food.

Needless to say, Long Chen also knew that Ye Xuan would not leak the news that he was a Dragon Fighter.

"Then let's go and give it a try!" Long Chen's heart was filled with motivation. He had to find a place to release his boundless power, otherwise, he would not be able to calm down.

Of course, he knew that in terms of primeval essence, Ye Xuan was countless times stronger than him, and was an existence that he couldn't go against.

Eight hundred kilometers east of the city is a group of deep mountains. This is the heaven for Vicious Beasts. Normally, few people go there. Ye Xuan seemed to have the intention of comparing himself with Long Chen, as soon as she finished speaking, she seemed to have become an arrow that had left the bow, and instantly disappeared from Long Chen's sight.

Reaching the Divine Martial Stage, Long Chen regained his ability to fly.

However, he did not fly. With the current strength of his physical body, he could run even faster on foot!

"Little Gold!"

At this moment, it was scattered and lived in the ten chakras on Long Chen's left hand. When Long Chen summoned him, golden lightning suddenly exploded and wrapped around Long Chen.

"Although Xiao Jin swallowed a lot of Divine Crystals and attacked with all his might, which might be able to repel Third Stage of the Divine Martial Realm warriors with the same combat power as me, he has already reached his limit. The effect on my speed increase and refinement isn't too great."

However, when Long Chen recalled it again, it seemed that out of a hundred main cities, each one would have a Netherworld Stone. In addition, the prefectural city of the Netherworld, had the largest nether region.

"I really don't know. Does every Netherworld Stone have this Hell's Soul Chasing Thunder? If they do, then it would be wonderful."

At the same time, Long Chen had some ideas regarding the God Killing Inheritance, but of course, this was something that belonged to the Ye Family. If it was the Ye Xuan siblings who obtained it, it would be the most ideal, but they definitely could not let anyone else get their hands on it. Even that Ye Xizhi, would not do!

Whoosh!

After transforming into a bolt of golden lightning, Long Chen instantly disappeared from his original position!

His body leapt up from seven-colored pagoda, and directly rushed out of Ghost City. This speed was enough to make Dugu Jun feel embarrassed. This was the sprinting speed of the body, coupled with the

increase in Dragon Blood and Divine Energy and the tempering of the Hell's Soul Chasing Thunder. If the Hell's Soul Chasing Lightning grew stronger, the effect would be even more wonderful.

A gust of wind howled as it headed towards its destination!

Terrifying beast roars filled the deep forest in the mountains. But to Long Chen, as long as he slightly released his current aura, all of those fierce beasts would run far away as long as they weren't at the Divine level.

Ye Xuan had no suspense at all as he sat on top of a large limestone at this moment. With both of his hands on his chin, he suddenly revealed her cute side, while looking at Long Chen with a beaming smile, he said in a high-pitched tone, "You're slow, you're too slow to death."

Long Chen laughed lightly. Just as Ye Xuan finished speaking, the earth trembled, and all of the tall trees behind Ye Xuan were pressed down onto the ground. A huge vicious beast of the first grade of the Divine level crawled out, and that scarlet snake head and sharp claws bit towards Ye Xuan's head.

Seeing that Ye Xuan was about to be swallowed, the moment that Long Chen arrived, without saying a word, his figure flashed and he was already on top of that huge fierce beast. With a loud bang, the air trembled, and with a huge explosion, that fist accurately smashed into the head of that huge fierce beast. With a loud boom, the huge fierce beast fell onto the ground.

With a wave of his hand, Long Chen placed the beast's corpse in the middle of Great Void Realm.

Ye Xuan stood up, and smiled sweetly at Long Chen: "Who asked you to make a move, it definitely won't be able to move me."

What answered her was Long Chen's sound as he pulled out the sword floating blood.

When Piao Xie held Piao Xie in his hands, Ye Xuan had the illusion that the current Long Chen standing at the top was emitting a thick stench of blood, his originally handsome face now had a strange, blood-red demonic feeling.

Worse of all, Ye Xuan was sure that the Dragon Fighter's aura could suppress all other living beings. Even if Ye Xuan was much stronger, he would not have the advantage in terms of willpower.

"One Sword Piao Xie!"

With a whistling sound, the blood red light shone towards Ye Xuan.

At this time, Long Chen could finally be considered to have displayed the true full power of Killing, and fully displayed the profound meaning of this third grade Divine Skill.

"Dragon Slaying!"

A sword shot up into the sky, causing the earth to shake and the mountains to shake!

"Sword Chaos Demons!"

With a single move, the heaven collapsed and the earth shattered. The vicious beasts ran in all directions with miserable expressions.

"Billions of killing!"

When the last type of sword was used, blood-red colored sword light formed a ball shaped of space. It was extremely dense and completely covered Ye Xuan!

It had to be known that she was one of the few Fifth Stage of the Divine Martial Realm warriors in the entire Nether Realm. Even the Underworld Emperor and the Netherworld Palace Lord were only using Fifth Stage of the Divine Martial Realm, so dared to say that the battle strength Long Chen had displayed was on the level of a underworld general, and she was definitely not his match.

The battle had turned this forest into a complete mess.

Even the people from the Ghost City felt deeply shaken by this scene.

After being sent flying for the tenth time by Ye Xuan, Long Chen acted like nothing had happened and immediately crawled back up. He smiled and asked, "With my current strength, I'll go to the Nether

Blood Sea and save Ye Xuan a few days later, and I'll also help you guys out at the God Slaughtering Tomb, is that considered qualified?"

Ye Xuan pondered for a while.

"You're the only one who knows about the Demon Blood Red Lotus. I originally didn't want you to go, but there's nothing I can do about it." But you must promise me that you will listen to my arrangements and not act rashly. "

It could be seen that she was still very concerned about Long Chen.

"Understood." Long Chen nodded.

If you listen to my advice, go to True Martial Imperial Palace, and as long as your identity as a Dragon Fighter is announced, you will definitely receive great respect, and will instantly become an influential figure in the True Martial Imperial Palace. Of course, this is just speculation, and with your identity revealed, you might be directly killed, and your inheritance might even be taken. Frowning slightly, Ye Xuan continued to speak: "What I mean is that you have to cherish your own talent. Even though you are strong now, you are not strong enough, so you cannot take too many risks.

Long Chen could understand what she meant.

"Don't worry, if I had died, I would have died a few years ago when I was still unable to fight back. The current me, "Long Chen raised his head, and said confidently and resolutely," No one can kill me. "

As his strength and abilities increased, he was indeed qualified to say these words.

However, Long Chen still remembered what Ye Xuan had said about the True Martial Imperial Palace.

"True Martial Imperial Palace, that is the place where the highest level martial arts holy land in the True Martial Imperial Palace is held. It is a place where true geniuses gather, at the same level as the Sword Soul Imperial Palace Xiao Xi is at. Perhaps my challenge will be the greatest once I get there. "

At the same time, Long Chen still remembered one person, and that was Jiang Qing.

This was the person Feng Yangzi had asked Long Chen to kill in the Five Emperors Secret Realm, and he was in the True Martial Imperial Palace.

"Regardless of him, it's better if you meet me, Jia Xiaoxi. Back then, when the dynasty went back to attack me, although it must have been hidden from Little Xi, it would not be good if she knew about it."

To be separated from one's family was the greatest pain on earth.

"You have something on your mind?" Ye Xuan was a meticulous person.

Long Chen shook his head helplessly, and said: "Let's go back."

Ye Xuan did not say much as the two of them continued to chat. They arrived at the Ghost City and returned to the Zixuan Hall's City Lord's Mansion. "Something big happened in Ghost City."

"I saw it." Ye Xuan didn't want them to say much.

"Do you know why this is happening? It can't be that someone has not reached the Divine Martial Stage yet, and is activating it. "

When he said till here, his mouth grew big, because he saw that Long Chen, who was a Heaven Martial Stage more than ten days ago, had actually already reached the Divine Martial Stage today.

Long Chen smiled as he took over Ye Xuan's words, and said: "Do you believe that the commotion just now was caused by me entering Divine Martial Stage?"

Teng Long froze and looked at Long Chen with some contempt as he ridiculed: "Such a young age and you're thinking too much. What qualifications do you have to interrupt the words of our master? Quickly slap your own face a hundred times.

As he was speaking, Teng Long unleashed the pressure of his Fourth Stage of the Divine Martial Realm.

"My disciple, did you say you could beat him up just like that?" The originally gentle Ye Xuan had become incomparably ice-cold upon returning to this place.

Ye Xizhi could no longer sit still. She stood up, glared at Ye Xuan and said: "Ye Xuan, how dare you, the current patriarch of the Ye Family is still me. As a junior, although your strength is not bad, you do not have the qualifications to yell at the elders, do you?"

"Who's shouting?" Ye Xuan asked.

Her voice was not loud the entire time, and the one shouting was instead Teng Long.

Chapter 985 - Entering the Blood Sea

Ye Xizhi paused for a moment, and then, her words were stuck in Ye Xuan's throat. She could only look at Ye Xuan with fury.

and Ye Xuan, on the other hand, stayed in the martial arts hall. Ye Xuan was not one to fuss about other things, her main concern was also his little brother's safety, so he did not continue quarreling with Ye Xizhi. Instead, he brought Long Chen and left.

"This little girl, she really pisses me off!" Ye Xizhi sat down, his face full of anger.

Teng Long walked over helplessly and said: "That's right, who asked her to be so talented. "If this goes on, we won't even know if this position of Patriarch is yours or not."

The Ye Clan had over a hundred thousand people. The position of the clan head represented many benefits and status.

Ye Xizhi's face changed, and said angrily: I must obtain the God Slaughtering Inheritance, at that time, Ye Xuan will not be my opponent, my Ye Family does not need her, let's see how she can still be proud in front of me!

"Calm down, calm down." Teng Long waved his hand and said.

While waiting, time passed in an instant. After instructing many things and letting his subordinates handle the affairs of the Ghost City, Ye Xuan, Long Chen and the experts of the Ye Family prepared to head to the Nether Blood Sea.

"This kid wants to go as well?" When they reunited, Ye Xizhi said coldly.

"Only he knows the location of the blood-red demonic lotus. What do you think?" Ye Xuan ignored her and directly walked in front with Long Chen.

"Hmph, daring to go with me when I just arrived at Divine Martial Stage, you're just a mere cannon fodder." The middle-aged woman brought a group of Ye Family experts to follow Ye Xuan and secretly arrived at the Netherworld Army training camp. Every single one of the Ye Family's experts had Third Stage of the Divine Martial Realm of at least a few thousand years old, and every single one of them had strength that had experienced thousands of years of accumulation, all of them had reached the Nascent Profound Realm, which was not any lower than Long Chen's True Essence.

This group of people were also a powerful force.

In the Netherworld Army training camp, the people from the Netherworld Army were already waiting. Although they didn't know why, they still carried out Marshal Ming's words without hesitation.

"Mayor, this way please."

Therefore, Long Chen and Ye Xuan entered the Hall of Life and Death, passed through the Hall of Life and Death, and arrived at the Nether Battlefield. Most likely, the experts of the Ye Family had entered the Nether Battlefield when they were young, so they didn't need to cultivate nether energy.

After taking a deep breath, Long Chen, Ye Xuan and the others headed towards the Netherworld Blood Sea.

"I'll take you." Ye Xuan's soft fingers rested on Long Chen's shoulder. Her meaning was clear, she did not want Long Chen's strength to be revealed first.

It could be said that, after knowing Long Chen's huge secret, very few people not only did not covet him, they even thought about it so meticulously.

This scene caused Ye Xizhi and the others who were behind to secretly slander him.

"After fooling around with Su Mo for so many years, he was abandoned in the end, and now that you're flirting with this disciple, this little bitch really doesn't know shame!"

These were the words in Ye Xizhi's heart.

It was a pity that she was now the daughter of the previous patriarch. Her background was noble, but Ye Xuan had been born into a branch family, and was incomparably lowly of her own, yet she had such a beautiful appearance and talent that could make others yellow in age. When she saw Ye Xuan, she only felt hatred for him, especially when the previous patriarch had actually given her the important Red Lotus Jade.

With their speed, it would only take four to five days to reach the Nether Blood Sea. If Long Chen traveled directly now, his speed would probably be around the same as when he escaped with his blood. From this, it could be seen how much stronger he had become.

Among the Divine Martial Stage, there was an enormous difference of ten times the difference between the initial stage and the perfect stage. Long Chen's current true essence was already equivalent to that of Third Stage of the Divine Martial Realm, but he had actually already crossed four to five levels.

"Tell me, will they obediently let my brother go?" During the journey, Ye Xuan suddenly said.

Long Chen pondered for a moment, and said: "They said that they are cooperating, and their goal is only to use Ye Xuan, so that you can open the God Slaughtering Inheritance in front of them. As for the other things that you can use to threaten them with, Ye Xuan is not enough, after all, with Ye Xizhi, Ye Xuan's life is not important."

Thinking about it, Long Chen continued: However, God Slayer Ye Wushang, no one knows what kind of person he is, and no one knows what will happen after you use the Red Lotus Jade Pendant, the uncertainty here is too big, so in the beginning, they would still keep a tight watch, until you open the God Slaughtering Inheritance and you can go in.

Ye Xuan nodded.

"When the time comes, you will stay by my side and not wander around."

Long Chen was a bold person and would sometimes make some astonishing moves, so Ye Xuan was worried that he would suddenly take a risk. Whether it was Long Chen or Ye Xuan, both of them were roles that he had to protect.

Very quickly, Long Chen and the others had already arrived at the Nether Sea of Blood.

The boundless Nether Blood Sea emitted a kind of mental suppression, restricting everyone's movement. Even Ye Xuan felt a little uncomfortable coming here.

When he had used Blood Escape to leave the Blood Sea, Long Chen had already remembered the location of the Demon Blood Red Lotus.

At the same time, with Ye Xuan's divine sense that was able to scan five kilometers, they quickly found the location of the Red Goblin Lotus. The experts of the Su Family were all waiting for them there.

With this lineup, ordinary nether beast could only choose to flee far away. Even the overlords of nether beasts like the Golden Horn Silver Shark had to flee far away. It could feel that between these two groups of people, there was some power that made its heart tremble.

That sort of power was simply capable of killing him with a casual wave of its hand.

"We're here."

Sensing the existence of the Su Family, the Ye Family gathered together, while Long Chen and Ye Xuan were separated. In the Ye Family members' hearts, the only use of Ye Xuan was to restrain the Emperor of the Underworld, Su Zhen.

They never thought that in order to suppress Su Zhen, the only person who could do so on scene was Ye Xuan!

After sinking down the Unholy Blood River, his line of sight started to weaken, but in Long Chen's current body, this kind of light was more than enough, it was as bright as day. In terms of bodily functions, no one present could compare to Long Chen, not even the Su Family members who possessed the purple fire Phoenix bloodline.

Amongst the Su Family's troops, the three leading them were the three powerful members of the Su Family, Old Mo Su Zhen, who had a smile on his face, the Su Family's patriarch, Su Yang, who was serious and solemn, and Su Mo, who had his head lowered in silence!

Behind them, there were nearly twenty Third Stage of the Divine Martial Realm practitioners, of which Su Tian was one of them. Currently, in Su Tian's hands, there was a long purple rope, which was extremely tough and durable, and ordinary divine swords would find it difficult to split apart.

Locking ropes were treasures that Netherworld Army used to catch large super ferocious beasts like nether beasts. It was extremely precious and normally would not be used.

The other end of the Locking rope was wrapped around Ye Xuan, who was standing in front of Su Tian.

Finally seeing Ye Xuan, Long Chen checked once, and let out a breath of relief. The other party didn't do anything to Ye Xuan, and only trapped him, but Dugu Jun was different. Long Chen remembered all of the five great underworld generals here back then. They were the ones who killed Dugu Jun, and of course, the last one to do so was the Old Demon Su Zhen.

Long Chen would not let any of these people off.

Ye Xuan was still dressed as he was before, but he was a bit dispirited now, and his mental state had clearly suffered a huge setback. It was obvious that Dugu Jun's death had made him feel very uncomfortable, and for him, he had brought all of his clan members here to share the inheritance of the God Slayer with the Su Family.

In fact, Ye Xuan was wrong.

Since the Su Family had already discovered this place, even if they did not have Ye Xuan to protect this place, the Ye Family had no choice but to come and cooperate with them. After all, the Ye Family also wanted to obtain the inheritance, and they did not want more people to know about it.

Both sides stood still.

Su Zhen went straight to the point as he smiled and said, "Little miss Ye, open the door to the Red Goblin Lotus. I, Su Zhen, swear on my own dignity that as long as you open the door and allow us to enter, I will return Ye Xuan to you."

"No!" You want to go in first? You wish! With just a mere Ye Xuan, you can be considered to have a share! " Ye Xizhi snatched the words away and said quickly.

Su Zhen smiled merrily. He did not look at him, but chose to see Ye Xuan's decision.

His meaning was obvious, Ye Xuan was the one who had the true power. After all, the Red Lotus Jade Pendant was in Ye Xuan's hands.

"Listen to him, your ancestor's inheritance, the Red Lotus Jade, is in your hands. This kind of inheritance can be obtained by whoever enters first. This kind of senior will definitely set up countless tests. If the Su Clan wants to enter, they only want to ensure that all of them can enter." Long Chen thought for a while and reminded his.

Ye Xuan also had the same intention.

Therefore, she nodded and said, "Senior Su is a person who has been famous for thousands of years. Naturally, you will not act shamelessly on this small matter. However, you must guarantee that when my younger brother was handed over to me, he was unharmed. Otherwise, with my strength, if I do not play according to the rules, I believe that the Su family will suffer a great loss as well. "

Ye Xuan and Su Zhen were both supreme experts of the two teams, they were really ruthless. If they ignored everything, other than the two of them, the Ye and Su Families would be completely annihilated. At the very least, there would be a lot of casualties.

Both sides knew the benefits of this.

"Don't worry, I've already told you that we're cooperating today." Su Zhen said with a smile all over his face.

Immediately, the people from the Su Clan stepped aside, allowing the Ye Clan to walk to the side of the blood-red demon lotus, while they stood to the other side.

"Sis!" Ye Xuan was pushed to the front by Su Tian. He looked at him with a little guilty conscience and said, "I'm sorry."

"None of your business." Ye Xuan said with a pained heart. She floated lightly and his purple long skirt danced with the water as he walked up the Lotus Stage. There was indeed a groove in the center of the Lotus Stage.

Without saying a word, Ye Xuan took out the Red Goblin Lotus from his chest and placed it there.

Chapter 986 - Slaughter Maze

The withered Red Demon Blood Lotus didn't seem to be anything special.

Only the groove in the middle of the lotus throne had a divine light surging within. Seeing this groove, Ye Xuan's heart was slightly shaken, as expected, this shape was exactly the same as the Red Lotus Jade Pendant in her hand. There was no doubt that this groove was designed for the Red Lotus Jade Pendant.

At this time, Long Chen and the others were also a little nervous, everyone was staring at Ye Xuan's movements without blinking. Everyone was very curious, what would happen next?

If something unexpected happened, there would likely be a chaotic battle.

Thus, everyone had actually made their preparations.

First, it was quiet for a period of time, before the red lotus jade pendant gradually fused with each other. At the final moment, suddenly, the entire red lotus jade pendant was set ablaze, wrapped in a blood red flame. As the blood red flame soared into the sky, Ye Xuan's figure flashed, and instantly appeared beside Long Chen, looking at the red demon lotus with a calm expression.

During the process of the Demon Blood Red Lotus's burning, a burst of killing intent that would cause hearts to palpitate came out from this direction, this killing intent was even more terrifying than the killing intent of the entire Blood Sea, everyone's faces instantly turned pale, especially Ye Xuan's, who directly spat out a mouthful of blood, and his face became pale.

Long Chen was also a The First Stage of the Divine Martial Realm, but when this enormous killing intent descended, his performance actually surpassed by a lot of Third Stage of the Divine Martial Realm. It could be said that, even if this kind of killing intent could affect another person's will, it did not have much effect on him.

He was an Archaic Blood Spirit Dragon, and that was the true killing ancestor.

Seeing that his brother was injured, Ye Xuan's face immediately changed, but fortunately the killing intent was not man-made, and disappeared in a flash. Of course, the fear from before was still firmly engraved in everyone's mind.

The Red Goblin Lotus was burned up in a short period of time. Everyone guessed that the Red Lotus Jade Pendant was still at that place and was about to snatch it when a red light flashed and the Red Goblin Lotus appeared in Ye Xuan's hands once again.

The other people that were about to snatch it had unlucky looks on their faces.

Actually, even if they were to snatch it from him, it would be useless. The Red Lotus Jade Pendant was an inheritance, and without it, one wouldn't be able to use it even with the Red Lotus Jade Pendant. Otherwise, Su Mo wouldn't have wasted so much effort. With his relationship with Ye Xuan previously, and the Red Lotus Jade Pendant he borrowed from him, Ye Xuan would have definitely agreed to it.

After the return of the Red Lotus Jade Pendant, the experts of the Su Family had already shifted their attention back to the place where the Red Goblin Lotus was previously at. According to the agreement, they should have entered the mausoleum first, then returned it to Ye Xuan.

Just at this moment, the water of the Nether Blood Sea suddenly trembled, and a round, blood-red formation suddenly appeared under everyone's feet. This formation was very large, and was enough to cover everyone present within it.

"Miniature Teleportation Formation? to get all of us in there? "

When this thought had just appeared in Long Chen's mind, a huge suction force suddenly appeared, causing his body to distort for a moment. Then, he appeared in another place, and from his senses, all of the people who were previously by his side, including Ye Xuan, had all disappeared.

At least, it was not within the radius of one Li of Long Chen's Spirit Devouring Demon Pupil.

Long Chen did not know what the others were like, but he had already been brought to another place. This should be a small Qiankun world, and the Nether Battlefield was originally a small Qiankun world.

"Damn it, Ye Xuan!"

Long Chen quickly thought of something bad, and that was that initially, the Su Family had decided to return Ye Xuan to them first. Now, if everyone was brought here, Ye Xuan would also come in.

No matter what, it was very dangerous.

In this God Slaughtering Tomb, Ye Xuan's strength was far inferior to others. If he and Su Tian were to separate, then it would be very easy for something to happen to him.

Long Chen's brows deeply knitted together.

"Grandpa Lonely is already dead. If something happens to Ye Xuan ..."

Not only would Ye Xuan feel excruciating pain, even if it was Long Chen himself, it would be unforgivable. The more he was in this kind of situation, the more he needed to calm down. Long Chen took a deep breath, and sized up the environment that had suddenly appeared.

"Let's not think too much about it first and try our best to save him first. That God Slayer Ye Wushang, since he brought everyone in, his personality cannot be measured by common sense, and since he is known as the God Slayer, he probably worships killing."

Therefore, Long Chen was sure that the next step would be Ye Wushang's trials. Only the person he acknowledged the most would be able to obtain the items left behind by Ye Wushang.

God of Slaughter!

Beneath the bloody palm, millions of lives were trembling in hibernation.

This was Ye Wushang.

After arriving at this environment, the killing intent that filled the sky, made Long Chen even more unaccustomed.

Long Chen looked carefully, and saw that the blood-red ground was flowing, it was actually formed completely from blood. But what was different from the Nether Blood Sea was, if Long Chen did not use a lot of strength on his body, it would be difficult for him to step into the blood pool, and standing on the blood surface, he felt that it was similar to a teleportation belt.

Not just the ground, even at a height of a few hundred meters above the ground, there was such a wall of blood. The walls on the left and right of him, were similarly such walls of blood, Long Chen took out Piao Xie and attempted to stab at these walls with Piao Xie, but discovered that the wall was unexpectedly, incomparably hard. With his current strength, if he used even a bit of strength, he would obviously be able to pierce through it.

"I have no idea how thick this wall is. Even if I were to pierce through it, due to the nature of the fluid, it would immediately return to its original state. That is to say, my body is unable to pierce through the wall formed by the blood!"

Long Chen carefully observed his surroundings as he pondered.

Whether it was long or short, in a short period of time, Long Chen discovered that this was actually a maze, and it was even an extremely huge maze. As to how big it was, Long Chen did not know, but within a radius of one kilometer he used his Spirit Devouring Demon Pupil to observe, there was not a single person within.

"Cat." Long Chen asked when he was in doubt.

The kitten woke up from its deep slumber and looked around powerlessly, saying, "So it's inside the mausoleum. Then let's continue forward. Maybe there'll be a surprise deeper in."

"What is it?" Long Chen couldn't stand this guy's posturing the most.

"Don't bother this god with sleeping, this is a maze set up by the master. If all of you enter, the master might announce the rules of the game soon."

He turned pale with fright and promptly raised his arm. Right at this moment, there were several silk-like rays of light that drifted toward Long Chen's palm. On the palm of Long Chen's hand, they twisted together and finally formed a round disk.

"What is this?" Long Chen's eyes were wide opened, his face full of shock.

These fans were divided into two sides in total, some of them were red, some were purple, some were red, and some of them were red. The most important part, however, was that each fan actually had a person's name on it.

The names of Long Chen, Ye Xuan, Teng Long, Su Tian, Su Zhen and the others were all in the circular light array. The parts of the array that were glowing red represented the power of the Ye Family, a total of sixteen people. The glowing blue area had a total of twenty people.

Before, everyone in the red transfer array had already entered.

"Is this the game the kitten was talking about?"

Recently, Cat was becoming more and more mysterious. Long Chen was too lazy to ask him, but he was still a little calculating.

"Even Ye Xuan's name is here, what does this mean?"

Just as he said that, the circular light array released a few rays of light, condensing into a sentence in front of Long Chen, these words were blood-red.

"The first game, the slaughtering maze."

"In the killing maze, within a radius of a hundred miles, the gamer is unable to use his or her divine sense to freely kill. Within two hours, the ten people who are still alive can enter the next game. If there are more than 10 survivors within the specified time, kill them all. Once the game is completed, we will then move on to the next game. "

"In the Killing Maze Game, the person who kills the most will be rewarded with one of the God Slaying Ye Wushang's great treasures: Nether Emperor Armor."

After understanding all the information, even Long Chen who possessed the strength he had now couldn't help but suck in a breath of cold air.

"This Ye Wushang's thoughts are indeed not ordinary. Ye Xuan and the others are his direct descendants, but from the looks of this game, they don't seem to be selfish either.

To Long Chen and the others, this was a test of life and death. But to the master of the mausoleum, this was just a game. He was happy to see it, but in order to live, in order to obtain the thing called 'Nether Emperor Armor', Long Chen and the others would definitely have to pay a great price, even their lives!

The deeper he thought about it, the more Long Chen was shocked!

"We must become ten within two hours! Only then will we have a chance to live!"

Out of the ten people present, each side had three experts from the Fourth Stage of the Divine Martial Realm. They would definitely be able to survive, and that would take up six of the spots.

Chapter 987 - Emergency

With the remaining four slots, if he were to unluckily meet those powerful warriors from the Su Family, Long Chen would be done for. After all, in this complicated maze, he had no way of using Blood Escape.

Even though he had become much stronger, at Su Mo's level, the current him was at least hundreds, and thousands of times stronger than him in terms of primordial spirit. The same realm as Divine Martial Stage could be split into two levels. Su Mo, however, was a practitioner with perfect The Extreme Level of Martial Arts.

To Long Chen, this Slaughter Maze game only had a slim chance of survival, so there was no need to even mention Ye Xuan who was bound by the opponent!

Long Chen's face was ice-cold, his heart was trembling, it could be described as overturning rivers and seas. The more he thought about it, the more terrifying this game was.

Those who came here were the elites of the Su and Ye Families, and they were the entire strength of two first-rate families. If only ten people survived, that would mean that both families would lose more than ten martial artists. If more than ten Third Stage of the Divine Martial Realm s were lost, the Su and Ye Families would definitely not have their current status.

Regardless of whether it was the Su Clan or the Ye Clan, they were both fatal blows!

Ye Wushang was the Ye Family's ancestor!

The only turning point would probably be in the God of Death's inheritance. However, if both sides fought, there would always be a loser side. The loser side would go out and the matter would definitely be announced, and whether or not the Ye Family or the Su Family obtains the God Killing Inheritance, they would become homeless dogs, hunted by the warriors of the entire Nether Realm, or even other residences!

There were only ten spots left to live, and time waited for no one. Under these circumstances, everyone would definitely be extremely anxious, especially if they couldn't use their spiritual sense. If he could use his spirit sense, the warriors on both sides, especially Ye Xuan could see the movements of all the warriors.

However, Long Chen thought of an even more important problem, and that was Ye Xuan's safety!

This made him extremely worried.

"Ye Xuan is too weak. Previously, the Su Family did not dare make a move, but it's different now. There aren't many chances for them to survive, and everyone will go crazy, losing their human form, and even warriors from their own families can kill them, not to mention Ye Xuan. Furthermore, the person who kills the most, will be rewarded. "

Although Long Chen did not know what a Nether Emperor Armor was, it had been turned into a great treasure by the game's owner, or perhaps by Ye Wushang himself. Other people must have heard of the rumors of the Nether Emperor Armor. For this precious treasure, which is also a part of the inheritance, everyone would definitely kill this red eye!

Who would think about the life of a little Ye Xuan when they were killing red-eyed?

Moreover, in this chaotic maze, who knew who killed who?

The moment he thought about how Ye Xuan was in an extremely dangerous environment, Long Chen felt a chill on his back. His eyes reddened a little, and the billions of divine dragons in his body roared.

"I have my advantages. In this game, I have my greatest advantage, and that is the Spirit Devouring Demon Pupil!"

The Spirit Devouring Demon Pupil could see the movements of souls within a kilometer radius. Anyone who came here would not be able to escape Long Chen's eyes! As for the divine intents of others, they could no longer be used in this killing maze.

This also proved that Ye Wushang was strong. Even though he had died for many years, he actually also had this kind of ability, to the point where Ye Xuan and the others couldn't even use their consciousness!

"I must use the Spirit Devouring Demon Pupil to find Ye Xuan before he gets killed!"

This was a very heavy task!

There was already no time to hesitate, Long Chen instantly increased his speed and ran around randomly in this place. The Spirit Devouring Demon Pupil had no way to see the entire maze, only able to detect the existence of life, so he could only change his position to see if he could have the luck to run into Ye Xuan.

"Nothing must happen to him!" The moment he thought of Ye Xuan, Long Chen's eyes turned blood-red. This was his own good brother, if only something were to happen to him and Dugu Jun ...

Long Chen's body released a furious Primordial howl, which was incomparably trembling.

After he had searched for a while, no one had noticed, but at that moment, he suddenly discovered that there was a movement on his palm. He raised his arm, and on his palm, in the middle of the circular light array, a name, Ye Yu, suddenly darkened until it completely disappeared, leaving behind a grey, fan-shaped area.

"In other words, this person called Ye Yu, with her Third Stage of the Divine Martial Realm and profound strength, has she already been killed? It's only been a short while, but someone has already died. From this, it can be seen just how terrifying this killing game is. For the sake of that one chance to survive, many people have gone crazy.

This was the first game.

If the games in the future were this terrifying, how many people would be able to survive?

To be honest, Long Chen did not care about the rise and fall of the Su and Ye Families, he was too lazy to care about the lives and deaths of Ye Xizhi and the others. The only thing he cared about was the safety of Ye Xuan and her sister.

"They must be fine!" Long Chen clenched his fists.

If you meet that Su Mo, although you have reached the Divine Martial Stage, you have to die for sure. " Cat rolled her eyes and said.

"If you don't speak, no one will treat you as a mute."

Long Chen snorted, and continued walking.

"A good heart cannot be repaid! This god is truly wronged!" Cat's eyes were filled with resentment.

It was not easy to walk on this flowing ground. At the same time, the thick smell of blood and the hair-raising aura around him had never disappeared.

Long Chen watched the circular light array on the palm of his hand as he moved. Fortunately, Ye Xuan's name was still lit up at this time, which meant that Ye Xuan was still alive, and Long Chen reckoned that the current Ye Xuan was also urgently advancing forward. In fact, Ye Xuan was more worried about his own brother's safety.

Their powers were not at their peak, and they struggled to survive. Su Zhen Su Mo, on the other hand, would definitely fight for his.

As he was advancing, Long Chen was already within the range of the Spirit Devouring Demon Pupil and he had encountered two people. They shouldn't be Ye Xuan, so Long Chen did not think of any way to get close to them. Although he wanted to kill people and get the Nether Emperor Armor from the Su Family, for Ye Xuan's sake, he could not waste any time.

At the same time, as time passed, more and more people died, and so far, three of them were dead. Among them, two of them were Ye Family's Third Stage of the Divine Martial Realm Warriors, and these people were more or less the same as Long Chen on the primordial spirit, or maybe even superior to Long Chen.

Long Chen had a very strong sense of crisis.

"Ye Xuan, you must persevere on."

After circling around the blood-red wall, Long Chen used the Spirit Devouring Demon Pupil to identify whether he knew these people. In that quarter of an hour, because of the relationship with the Spirit Devouring Demon Pupil, he had met with the most people, a total of seven people. Among them, the strong Teng Long and the Su Family's patriarch Su Yang had all appeared within the vicinity of the Spirit Devouring Demon Pupil before.

Seeing that more and more people were dead, Long Chen became anxious. Luckily, the name Ye Xuan was still there.

"Hu!"

At this time, Long Chen trembled, because two people had simultaneously barged into his Spirit Devouring Demon Pupil's range.

Long Chen was ecstatic, "It's Ye Xuan and Su Tian!"

Although it was just one Li, it was not easy to circle around this maze. Long Chen turned into a golden flash of lightning, instantly disappeared, and rushed towards the front, between the two walls, the width was around ten to twenty meters, which was enough for people to fight against!

A mile away, although the other party was moving, Long Chen had the Spirit Devouring Demon Pupil, which made their targets even stronger. In a certain corner, Long Chen's body instantly charged out, and in front of him, the two of them were so scared that they retreated two steps. When they saw Long Chen's appearance, both Ye Xuan and Su Tian had different reactions.

After seeing Long Chen, Ye Xuan's expression immediately paled, while his face revealed an ecstatic smile.

"Long Chen, quickly leave!"

Ye Xuan didn't actually understand why Long Chen had come. With Long Chen's strength, even though he had obviously entered the Divine Martial Stage, in this place, other than Ye Xuan, the weakest thing he had was Third Stage of the Divine Martial Realm. It was an existence that could instantly kill the two of them.

If Long Chen fell into his hands, he would only become his subordinate's ghost.

Su Tian kept Ye Xuan as a hostage to threaten the Ye Family. This way, if he were to encounter the Ye Family members, he would have a trump card in his hand, which would increase his chances of success. Furthermore, Ye Xuan was currently trapped by him, so killing Ye Xuan was only a matter of time.

Therefore, he did not kill Ye Xuan in a hurry.

However, Su Tian had forgotten one thing, in the Ye Family, other than Ye Xuan and Long Chen, the others did not care about Ye Xuan's life.

Meeting Long Chen could be considered as his good luck.

In Su Tian's opinion, not only was his luck good, it was also extremely good!

"Since you've delivered yourself to my doorstep, do you still want to run? There isn't even a door!" Su Tian laughed sinisterly, using one hand to pull Ye Xuan, he rushed towards Long Chen.

Unexpectedly, Long Chen didn't run, but stood at his original position with an ice-cold expression. There wasn't the slightest change in his expression.

Ye Xuan panicked, and roared again: "Long Chen, run! You are not his match! "

He somewhat understood Long Chen's personality. He knew that at this moment, even though Long Chen clearly knew that he was not his opponent, he would absolutely not take a step back. This was Long Chen, there was nothing that he could fear!

Chapter 988 - Su Tian's Nightmare

Even though Ye Xuan was extremely anxious and struggled with all his might, trying to struggle free from the Locking rope on his body, it was all in vain. Even if he used all his strength, he could only leave deep trails of blood on his body.

At this time, Su Tian had already rushed in front of Long Chen's eyes.

"My daughter, Su Xue, was killed by you, right?" When it was right in front of Long Chen, Su Tian's face was extremely sinister, his eyes blood-red and filled with hatred. This news was naturally told to him by Su Zhen.

The person who killed Su Xue was none other than his Su Family's ancestor, Su Zhen, but Su Tian, that idiot, was still kept in the dark.

"Ye Xuan, he also has a share of Grandfather Dugu's death, right?" Facing the coercion of an expert like Su Tian, not only did Long Chen not take a step back, he instead asked calmly.

Ye Xuan was startled, he saw a hint of bloodlust in Long Chen's eyes, the current Long Chen was emitting killing intent, as though a huge beast was crawling in front of them. The immense pressure made Ye Xuan forget about the original pressure in the killing maze.

"Didn't you hear me? I told you to scam, you were no match for him, there was no need to die for me, I'm begging you!" Ye Xuan did not answer Long Chen, but hysterically shouted.

Now that Su Tian had stopped moving, he still had a chance to escape. Ye Xuan knew that Long Chen was extremely fast. Even though they were separated by ten meters, there was still a chance for him to escape.

"I'll take it as it if you don't say it."

What surprised Su Tian and Ye Xuan the most was that not only did Long Chen not escape, he had instead walked step by step towards Su Tian, because Ye Xuan was still in his hands, so Long Chen had no choice but to be cautious. Even though he was faster than Su Tian, but Su Tian had the Locking rope in his hands, Long Chen did not understand this thing, so if he accidentally caused Ye Xuan to lose his life, all his previous efforts would have been for naught.

"Truly courting death!"

Su Tian had lived for more than a thousand years, but he had never seen a person like Long Chen who didn't know if he was dead or alive. As one of the underworld general s, he had killed countless geniuses, and Long Chen could only be considered as one of them.

With a cold snort, Su Tian held Ye Xuan in one hand and made a seal with the other. In an instant, a dark green handprint appeared in Su Tian's hand and transformed into a dark green light array that frantically rotated.

"Death God Heart Meridian, Demon Slaughtering Formation!"

This was the battle skill of the Netherworld Army, and was also something that Su Tian was well versed in back then. Now that it was displayed with a single hand, it was many times stronger than when it was with Su Xue, who knew how many times stronger than when the Demon Slaying Formation released its terrifying power in an instant. The dark green colored aura rushed towards Long Chen, and in an instant, it arrived in front of Long Chen.

With a rumbling sound, Long Chen was completely submerged.

In this space that was only around ten metres wide and over a hundred metres tall, the range of Long Chen's mountain rampart was not big, the Demon Slaying Formation could directly cover it. With normal The First Stage of the Divine Martial Realm, even if it was for the second stage, it would probably be smashed to a pulp by Su Tian's move.

"Long Chen!" Ye Xuan's eyes were bloodshot, tears flowing out, this killing game, was truly terrifying.

"Hahahaha ..." Su Tian laughed loudly, he reached out his palm, looked at the name Long Chen, and laughed: "I, Su Tian, have also finally killed one of them, and five have already died. I will try my best,

and maybe still have a chance to obtain that legendary ultimate treasure, the Nether Emperor Armor, with the Nether Emperor Armor, I won't even have to fear the attack of the Palace Chief!"

The Palace Chief he spoke of, was Fifth Stage of the Divine Martial Realm. Compared to Ye Xuan and Su Zhen, those who had cultivated Nine Heavens Thunder Tribulations, he was more than ten times stronger.

From his words, one could deduce the value of Nether Emperor Armor.

Su Tian was waiting for Long Chen's name to disappear, but he realized that something was wrong. Wasn't his disappearance too slow? Right at this moment, a streak of golden lightning exploded out from within the Demon Slaying Formation. A figure instantly rushed in front of Su Tian, and a blood-red longsword hacked towards the Locking rope!

Clang!

It was clearly a rope, but it let out a sound of metal rubbing against metal. Su Tian felt the tiger's mouth shake, and the Locking rope almost slipped out of his hands.

Long Chen withdrew his attack in time. If he had used his full strength, he should have been able to cut off this Locking rope, but Ye Xuan was also one of the parties that had to endure his attack.

was also a difficult opponent to deal with, and was unable to save Ye Xuan in the short term, so Long Chen could only retreat a few steps and avoid Su Tian's attack.

After Long Chen dodged to the side, Su Tian's face revealed an expression of astonishment. He looked at Long Chen who was completely unharmed and said: "You actually didn't die, and furthermore, how can The First Stage of the Divine Martial Realm have such power!"

Under Long Chen's concealment, he could not see any power on Long Chen's body that was practically more majestic than his.

Long Chen was not discouraged by the first failure of his opportunity to rescue his. Just now, he had exposed a bit of his strength, but luckily, he did not reveal his whole strength. At this moment, he stared straight at Su Tian, and taunted: "A dignified profound practitioner, actually doesn't even have the

courage to fight me, and still needs to rely on hostages to threaten me?" Long Chen pointed his finger at him, and said: "You, aren't worthy of being a martial artist."

The strength that Long Chen displayed was indeed shocking, but it was still within the range that he could endure. Every single warrior was proud, not to mention Su Tian, who had thought himself to be far superior to Long Chen. As one of the underworld general, over a thousand years, Su Tian had established his own great dignity.

"Hey kid, I can only say that you're a newborn calf and aren't afraid of a tiger." Su Tian let out a cold laugh. He suddenly let go of the Locking rope that was entangling Ye Xuan, but his palm struck directly into Ye Xuan's lower abdomen with lightning speed, causing Ye Xuan to fly backwards as he vomited a mouthful of blood. Any kind of attack from a Third Stage of the Divine Martial Realm practitioner would have been able to take his life.

Lying on the ground, both of Ye Xuan's hands were tied, he could only use his legs to slowly crawl back up, his mouth full of blood.

"Hurry up!" He stared straight at Long Chen and screamed his lungs out.

Long Chen laughed and then released Ye Xuan. This was a huge mistake, even if he had injured Ye Xuan, as long as he did not die, as long as Ye Xuan was not under Su Tian's control, everything would be fine.

In the face of Ye Xuan's heart-wrenching scream, Long Chen only made a gesture, and his palm lightly pressed down on Ye Xuan, indicating for him to calm down, and at the same time said: "How miserable do you want him to die?"

this, was naturally referring to Su Tian.

Ye Xuan did not say anything. He did not understand what Long Chen meant, and could only look at him imploringly. He wanted him to escape first.

"You still don't understand me. In this brother's time of crisis, even if I, Long Chen, die, or don't have any chance of survival, I won't be able to take a step back."

Seeing Ye Xuan, who was concerned about him in the face of death, Long Chen thought of the little wolf. This youth who had accompanied him up the mountain of blades and down the sea of flames without saying a word first.

Today, Ye Xuan had the qualifications to make Long Chen treat him like this.

Although, compared to his relationship with the little wolf, Ye Xuan was still a lot worse.

"Well said." Su Tian laughed, rubbed his fists together and walked towards Long Chen, and said: "You're still asking me how miserable it is for me to die? I think it's because you're going to die so miserably! Little girl, you will never know the exact extent of the difference between each level of Divine Martial Stage, not to mention how far is the difference between you and me? Fourth level? Level five? "

Laughing loudly, Su Tian looked at Long Chen with pity. His enemy was right in front of him, he did not have any patience, his feet moved, he instantly appeared in front of Long Chen!

"Divine Palm of Beiming!"

The large amount of Dragon Blood and Divine Energy suddenly rotated and condensed in his hands. The ice-cold aura turned into numerous sharp thorns, and the bone-chilling, icy palm emitted a piercing sound as it rumbled, pressing towards Long Chen's chest.

In Su Tian's opinion, with such an attack speed, it was simply impossible for little Long Chen to dodge.

When the Divine Palm of Beiming struck the body, there was no sound, the sinister cold Qi would enter the body and destroy the organs inside it. If the Qi was not strong enough, it would cause one to die instantly.

"Long Chen!" Seeing the Divine Palm of Beiming imprint on Long Chen's chest, Ye Xuan became dumbstruck, and tears uncontrollably flowed out.

"I think you're still cocky." Su Tian laughed, even if it was a practitioner of Third Stage of the Divine Martial Realm, they would not be able to survive after being struck by the Divine Palm of Beiming. Long Chen was already dead, if they were hit directly, they would definitely die.

"Are you scratching me?" It was at this moment that Long Chen, who had his head lowered, suddenly raised it. The moment he raised it, Su Tian felt an archaic overlord level fierce beast awaken before his eyes. Within its blood-red eyes, countless dragon silhouettes roared.

Pow!

Long Chen waved his fist, causing the Divine Dragon Body to produce crackling sounds. The billions of Divine Dragon Bloodline roared loudly in his body, the Dragon Blood and Divine Energy rolled, Long Chen's fist was so fast that he could not see clearly, and when Su Tian was still unable to react, Long Chen's fist had smashed into his chest, ruining it. His bones were shattered, and fresh blood squeezed out from his pores, splattering everywhere!

He quickly crawled back up, but at this moment, his entire face was already filled with shock. In the midst of his stupefied gaze, Long Chen walked towards him, step by step.

Ye Xuan had the same expression on his face but what was different from Su Tian's despair was that hope had suddenly blossomed in his eyes.

"Impossible, impossible!" Su Tian felt like he was dreaming.

"Purple Flame Phoenix!" Amidst his shock, he immediately activated the Purple Fire Phoenix Physique, and purple flames burned fiercely on his body. Both his physical body and his primordial spirit had increased by quite a bit, and the image of the purple fire phoenix, which was filled with deterrence, flashed on his body.

With this power, Su Tian felt a lot more at ease.

He had already realized that Long Chen was a difficult opponent to deal with.

However, there was still a storm raging in his heart. He never thought that a practitioner of The First Stage of the Divine Martial Realm would have such a powerful body.

Beneath the Divine Palm of Beiming, he was completely unharmed.

"Don't be in such a hurry. There's more surprises ahead."

Long Chen appeared beside Ye Xuan in a flash and placed Ye Xuan in the middle of the Great Void Realm. Only after he was made absolutely safe did Long Chen look towards Su Tian.

Now, he could feel at ease in killing them!

Chapter 989 - Purple Flame Domain

In Su Tian's eyes, the current Long Chen was like a devil walking out of a nightmare. But the current Long Chen did not have them, and only when he had made some big movements, could Su Tian see the scales on his body. However, this kind of Long Chen, whether it was in terms of aura or true essence, gave Su Tian an incomparably huge pressure.

It was as if in front of him was an enormous, enormous beast that blotted out the sky. With every breath he took, his gigantic internal organs would churn, overturn the seas, the earth would shake, the sun and moon would change, and the starry river would churn.

"This is not human, this kind of body, only Spirit Demon Race can have this kind of body, Long Chen, could it be that you are a Spirit Demon Race?" After the purple fire phoenix condensed, that illusory feather formed a pair of gigantic purple wings behind Su Tian. With a flash of the purple fire wings, it turned into a purple blaze.

"Do you think I want to?" Long Chen declined to comment.

"No matter what you say, your realm is still only The First Stage of the Divine Martial Realm, so you cannot be a match for celestial realm. The me now, as a one with the world, being able to utilize the energy of heaven and earth, you are fighting against the heavens and earth!"

At this moment, two purple flames condensed into two illusory claws made of purple flame above Su Tian's palms. Following Su Tian's movements, the claws seemed to be like a vortex, attracting all the Emperor's spirit energy in the air and forming a huge and blazing domain beside Su Tian.

"This is my domain. Within my domain, everything that I can control is under my control. I am the god of this region!" The current Su Tian seemed to have merged with the world, with every movement and movement, the energy of the world was being channeled by him.

"Die!"

Su Tian roared out explosively, and his body charged explosively towards Long Chen. The energy of that endless region, was thoroughly dispersed, and all of them were suppressed on the top of Long Chen's head.)

"Purple Flame Domain!"

Instantly, the raging purple flame surrounded Long Chen, making it impossible for Long Chen to escape. The blazing flame possessed a strong burning ability, crackling and popping sounds, countless images of Flaming Phoenix rose from the flames and surrounded Long Chen. In such a domain, if Long Chen only had The First Stage of the Divine Martial Realm, he would immediately be burned to death. Even if he was very strong, his fighting strength would also be greatly affected.

"You will never understand the power of celestial realm!" Su Tian laughed out loud.

At this time, Long Chen had already been completely engulfed by the flames.

According to Su Tian's estimations, no matter how strong Long Chen's body was, he would not be able to withstand the burning of the flames.

Now, he would probably be burnt to a crisp. Under the effects of the Purple Flame Domain, as long as he applied more force and attacked, Long Chen's body would definitely be smashed into smithereens.

"You're thinking too well!"

From within the purple flame domain, a burst of Sword Qi burst out, instantly arriving in front of Su Tian, who smiled as he walked out.

"It's over." The dragon-shaped sword soul roared and the image of the blood-colored dragon started to twine around the sword.

"How is this possible!?" Purple Flame Domain, return! " Su Tian's flames made him feel extreme panic. Therefore, he could only choose to do this, and keep the Purple Flame Domain to a distance of only one meter, this domain only came with him. No matter where he went, he would always follow him, and this would also increase his defensive capabilities to a certain extent.

"Yes, it's over. Nirvana Purple Flame!" Su Tian laughed sinisterly, and the purple flame wings behind him suddenly contracted, wrapping him up. After that, they abruptly released, and a dense purple flame sprayed out, with countless phoenix images hidden within. Countless amounts of Emperor's Qi were swallowed into Su Tian's attack. With a flick of the Nirvana Purple Flame, his attack instantly increased by several times!

This was the power of celestial realm. Not only would it bring the domain to its peak level, it would also be able to become one with the world, and it would be able to call upon the powers of the heaven and earth at any time to strengthen itself.

Long Chen closed his eyes.

The attacks that had caused the earth to tremble and howl seemed as if they were nothing at all.

"Dragon Slaying."

The sword came chopping down.

In the midst of the blood-red sword light that fell like a waterfall, there was a hidden image of a blood-red dragon. With a whistle, this sharp sword energy instantly rushed towards Su Tian, and that sudden burst of power, in Su Tian's opinion, was like a volcanic eruption, which instantly destroyed him!

The blood red Sword Qi split the Nirvana Purple Flame into two halves and the purple flame domain into two halves, which then turned into a ray of red light and shot into Su Tian's body.

Su Tian let out a miserable scream that shook the heavens and earth, his eyes were opened wide, as he looked at Long Chen in disbelief.

"You're the first."

Long Chen kept Piao Xie.

Behind Su Tian's head, a few drops of blood floated out and sprinkled on the ground, fusing together with the blood.

Pa la, Su Tian's body instantly split into two halves from the middle.

He had been cut into two neat halves by the Dragon Slaying blade.

Even Divine Martial Spirit who was in his brain was instantly sliced into two halves by Long Chen, and disappeared into the air, dead.

After Su Tian died, before Long Chen could even get a hold of his ring, the wall of blood suddenly opened its mouth and swallowed Su Tian whole.

Long Chen was startled for a moment, then raised his hand. Within the circular light array, Su Tian's name quickly disappeared.

"Seven people have already died."

This game seemed to give people goosebumps.

Long Chen immediately took Ye Xuan out of the Great Void Realm. With Long Chen's permission, he was able to see everything that was happening outside. When he came out, he looked at Long Chen with a look of disbelief, and said in shock: "You, when did you become so strong?"

You don't need to worry about that, as long as you are not my opponent now. My current mission is to let you leave this place unharmed. The rules of this game are too cruel.

Taking out Piao Xie, Long Chen broke the Locking rope on his body first, but Ye Xuan had already suffered from several injuries, his face was pale white, luckily Long Chen also prepared some pills, and only after giving it to Ye Xuan, would his condition improve, but it was not suitable for battle.

"It's a good thing he didn't kill you before. Otherwise, with your strength, you would've definitely become the first victim after coming to this killing maze."

This is the world of the strong. I had thought that you and I were on the same level, but who would have thought that you would be so abnormal, I really don't know if you have always been hiding your strength, and whether you are this strong or why Su Tian, that is a Third Stage of the Divine Martial Realm, an expert who is one with the world, has trained for nearly two years before obtaining the current primordial spirit. "

"You don't need to worry about that. All you need to know is that I have the strength to guarantee your survival."

Long Chen did indeed have that kind of strength. As long as he activated the Spirit Devouring Demon Pupil, even if he met Su Mo Su Zhen, he would be able to dodge him by a wide margin before the other party could approach him.

Su Tian's death was definitely felt by many people, and when every single one of them saw Su Tian's name go dark, they would probably guess who had killed him, but no one would ever guess that it was Long Chen.

However, Long Chen and Ye Xuan who had just arrived at the The First Stage of the Divine Martial Realm were actually still alive. Everyone had to praise their luck, this was definitely due to luck. Of course, that Ye Xuan who was fumbling around in the maze, even giving up the chance to obtain the Nether Emperor Armor, just to find her little brother, would probably be the same as Long Chen, who was constantly looking at the circular light array in his hands, praying for Ye Xuan's name to not dim down.

After a while, Ye Xuan recovered some of his strength and barely managed to accept it. Of course, he still had countless doubts in his mind.

"The person who killed the most could actually obtain Ye Wushang's Nether Emperor Armor. Although this game is dangerous, to them, if they could get their hands on a Nether Emperor Armor, they would be willing to kill as many people as they want."

Ye Xuan said somewhat sorrowfully.

"How powerful is the Nether Emperor Armor?" Long Chen asked.

Ye Xuan knew that he was an outsider and thus did not know about the legends in the Netherworld Army. He patiently explained, "This is one of the most pinnacle treasures in the legends of the Netherworld Army, and belongs to Ye Wushang personally. This is a treasure he himself obtained while traveling the world, and I heard that it was obtained from the True Martial Imperial Palace. Nether Emperor Armors are the highest quality armor in the entire Nether Realm, they are our ancestors. "

"This is its status. As for the effects Legend has it that the Nether Armor was created with ten thousand different precious materials, took hundreds of years, instilled countless strength, and with this

Nether Emperor Armor, even if it was me, I could obtain ten times, or even hundreds of times more energy. My attack, can probably directly jump two levels, to deal with a martial artist with the perfect Second Stage of the Divine Martial Realm, if my sister were to obtain it, it would be even more heaven-defying, and I think that I can deal with the Palace Chief of the Netherworld. It can be said that among my sister and Su Zhen, whoever obtains the Nether Emperor Armor, they will have the ability to kill their opponent."

"Of course, there is a limit to the Nether Emperor Armor, and I heard that when the Sixth Stage of the Divine Martial Stage is worn by powerful people with unparalleled golden body or higher, their effects will decrease, and under the Sixth Stage of the Divine Martial Stage, the Nether Emperor Armor can be considered to be an unparalleled armor, an item that countless Netherworld Army dreams for."

"And the most important thing is, the Nether Emperor Armor's strongest point is its defensive power. Even if I wear it, no matter if it's Su Zhen or the Palace Chief of Nether Palace, it will still be difficult to kill me."

Speaking to here, Ye Xuan raised his head and said: "Although the inheritance in this killing maze is terrifying, and there will be a lot of deaths, but since the rewards are Nether Emperor Armor, I think Su Zhen, Ye Xizhi and the rest will go crazy looking for people to kill, and even our own people will not be spared, but my sister is definitely not such a person, she will definitely worry about my safety, so for us, it is very disadvantageous."

Chapter 990 - Nether Emperor Armor

Saying this, Ye Xuan became worried.

"I've decided." Long Chen suddenly clenched his fists.

"Decide what?" Ye Xuan said somewhat absentmindedly.

"From now on, you can stay in my Great Void Realm." Anyone who could stay in the Great Void Realm of Long Chen could be considered to be someone that Long Chen trusted deeply.

"What?" Ye Xuan seemed to understand a little of what Long Chen meant. Before he could agree, Long Chen had already pulled him in.

"If I want to obtain the Nether Emperor Armor, since it belongs to you two siblings, wouldn't it be a huge loss if I let someone else take it?" Long Chen said with a smile.

He did not have any selfish motives, it was purely for Ye Xuan and the others.

"I have such a strong dragon body. The additional strength of Nether Emperor Armor and its defense will only affect my performance, it's not something that suits me. What I need now is a strong offensive skill and a super divine weapon that can surpass Piao Xie! If we can obtain the Nether Armor and gift it to the two of them, it can be considered as repaying our gratitude. "

After all, Ye Xuan had contributed most to reaching the Divine Martial Stage.

Moreover, this foolish woman ...

Since she was his master, no matter what, he couldn't let her suffer a loss.

"What?" Long Chen, you're not joking with me, right? " Under the immense pressure, Ye Xuan was a little incoherent.

"You'll know whether it's a joke or not just by watching." As Long Chen finished speaking, a smile hung at the corner of his mouth as he looked towards one side of the maze. There, a figure quickly rushed out, and immediately afterwards, he saw Long Chen.

Previously, the sounds of Long Chen and Long Chen's battle had attracted his attention, and Long Chen had noticed him a long time ago. His memory was good, and he knew that he was a member of the Ye Family.

He looked like a middle-aged man, slightly older than Su Mo. With a head full of white hair, he had a tall stature, a strong build, a sharp nose, and a very elegant looking man. In his hands, there was a moon-white long spear, which emitted a white mist, and he had a power that was even more shocking than Piao Xie.

Upon seeing Long Chen, his eyes were filled with surprise and malevolence at the very first moment, but he quickly covered it up and smiled like he was bathed in spring breeze.

"You are a direct disciple of Ye Xuan, your name is Long Chen, right?" The man kept his weapon and walked towards Long Chen. As he walked, he said: "You are really lucky to have met me. With your strength, if you had met the Su Family, you would have been done for."

After he finished speaking, he was already standing five meters in front of Long Chen, as he stopped in his tracks.

My name is Ye Gufeng, and I can be considered as a cousin of Ye Xuan. My relationship with her is also good normally, how about this, you're too dangerous by yourself, I'll take you with me, see if I can meet Ye Xuan, and then hand you over to her. Ye Gufeng said with a smile.

"Thank you, Ye Xiwen." Long Chen cupped his hands together in thanks.

"For me, it was a simple matter." Ye Gufeng casually waved his hand and pointed out a path for Long Chen, then said: "Let's go this way, there were traces of a battle here just now, I wonder who is fighting here, if we were discovered, it would be troublesome."

After he finished speaking, he approached Long Chen, who was less than a meter away from him. From the looks of it, he was not prepared at all.

However, Long Chen did not seem to be aware of this danger at all. Walking together with Ye Gufeng, their eyes looked straight ahead, as if they were not prepared for Ye Gufeng at all.

Ye Gufeng laughed.

"This kid still hasn't realized that the reward is a Nether Emperor Armor!"

Just at this moment, his forefinger suddenly stretched out, and with lightning speed and spear size, he thrust it towards Long Chen's head. At such a close distance, even if the opponent had Second Stage of the Divine Martial Realm, without any defenses prepared, he would still be directly killed by Ye Gufeng.

What's more, a little rookie with only The First Stage of the Divine Martial Realm?

Pch!

Ye Gufeng was dumbstruck. He felt that his finger had actually been blocked by an extremely huge force, and when he focused his eyes, that little newbie had actually grabbed his finger with his hand, and the little thing he looked down upon, was actually tightly holding onto his finger with a smile on its face.

Just what was going on!?

Ye Gufeng did not react in time, with Long Chen's strength, how could he see through his scheme? In such a short period of time, in such a short distance, he grabbed onto the form of the middle finger.

Ye Gufeng tried his best to pull.

It was a pity that Long Chen's hand was like a huge pair of pincers. When Ye Gufeng tried to pull it out, it caused bone-piercing pain. It was only at this moment that he felt that this smiling young man was actually frightening to such an extent.

"What do you think this is?"

Long Chen raised his right hand. In the middle of his palm was a circular light array, and as the light array revolved, in the red area, Ye Gufeng suddenly saw his name.

Pch!

In an extremely short period of time, Long Chen released his fingers and appeared in his hand out of thin air. Then, in an instant, under such a close proximity, it directly pierced into Ye Gufeng's heart, and fiercely twisted, causing a large amount of blood to gush out. Long Chen's strength had already completely destroyed the functions of his body.

His vision grew dim.

Ye Gufeng's eyes were still looking at Long Chen's other hand. As his vision grew dimmer, he saw that place where Ye Gufeng's name was written. Those three words, became dimmer and dimmer, until it completely disappeared.

"Divine Martial Spirit, you want to escape too?"

Long Chen swept his gaze across and saw a white little person sitting on the tip of his sword. Even if it was only the Divine Martial Spirit, it was still possible for him to survive. Long Chen did not want to leave himself any trouble.

"Spare me, spare me!" Ye Gufeng's Divine Martial Spirit cried and knelt towards Long Chen. He really did not understand why Long Chen was so terrifying.

"You wish!"

The sword tip turned, and the Divine Martial Spirit was immediately destroyed by him. The huge force immediately dissipated, but was absorbed by the blood wall, and even Ye Gufeng's corpse had to be swallowed in. Long Chen's eyes were sharp, and directly cut off one of Ye Gufeng's fingers, which was how he obtained Ye Gufeng's ring.

From within the ring, Long Chen took out that silver spear.

"It's also a third-grade Divine level spear, but it's useless against you." Within the Great Void Realm, Ye Xuan who had seen all of this, seemed to have understood why Long Chen said that he wanted to obtain the Nether Armor.

A dignified practitioner of Third Stage of the Divine Martial Realm, although she was only in her initial stage and her combat power was not even a tenth of Dugu Jun's, who was at the level of an expert at the Great Circle, yet she was so easily deceived to death by Long Chen. It was indeed possible for Long Chen to have obtained the final Nether Emperor Armor.

This was only the first reward.

It was very possible that the further one went, the more rewards one would receive.

It was a pity that Long Chen had always used extremely powerful weapons at the lowest level of realms. Right now, when his boundless power was channeled into Piao Xie, he could no longer endure and if his strength were to advance by another level, Piao Xie would probably explode.

From this, it could be seen how much Long Chen's strength had improved.

Before, his true essence was thousands of miles away from Ye Xuan's.

Long Chen's circular light array, Ye Gufeng's name, had already disappeared at this time.

"It's already eight people dead, of which I killed two, this killing maze is so huge, although Su Zhen, Su Mo and the rest are very strong, it's not easy to find someone to kill. Right now, the person who kills the most is probably only two or three, if that's the case, because of the Spirit Devouring Demon Pupil's relationship, I have a huge chance of obtaining the Nether Armor!"

Thinking about it, Long Chen laughed.

Without a second word, he quickly moved forward in the slaughtering maze. Only if someone entered his one mile radius, and at the same time, was not a practitioner with Fourth Stage of the Divine Martial Realm above that level, Long Chen would give them a try, even if they were martial artists with perfect Third Stage of the Divine Martial Realm.

Amongst the Third Stage of the Divine Martial Realm, the Ye Family had a total of three Perfection Warriors, and the Su Family and Su E, were estimated to have a total of six of them. Other than them, there were also a dozen or so initial stage practitioners whose strength were on the same level as Ye Gufeng.

Only warriors with perfect celestial realm and above would have the strength to fight Long Chen!

Long Chen's sudden increase in combat strength to this extent had already numbed him. From what he had known since he was young, normal people wouldn't be this abnormal!

A purple figure quickly flew past the killing maze. Her long skirt danced in the wind, and occasionally, there was white, revealing her soft skin that was like mutton fat jade.

Ye Xuan was already sweating anxiously, her eyes stared straight at the circular light array in his hand, his speed was extremely fast, as he moved forward crazily in the killing maze.

"Ye Xuan, and Long Chen, please do not let anything happen to the both of you! Please do not!"

If they were to die, this would be a huge blow to Ye Xuan.

Even though Ye Wushang was the Ye Family's ancestor, he did not give the Ye Family any convenience. It could be seen that this legendary God of Slaughter treated lives like grass and did not even put the lives of its own people in its eyes.

After flashing past an intersection, Ye Xuan had already sensed the presence of someone in front of his. She instantly rushed over, and in an extremely short moment, Ye Xuan, who was dressed in long robes, appeared in front of the martial artist.
