Chapter 1481: Mantis stalks the cicada, unaware of the oriole behind (1)

Li Moying didn't say a word as he waited for Luo Jiyun to continue.

Luo Jiyun continued, "Third Senior Sister's ability and knowledge are much stronger than mine so I thought what she said would definitely not be wrong. Whoever knew that we had just reached the location of the marking on the map when an accident happened. A seventh tiered magical beast pounced out from the forest, charging directly towards Third Senior Sister...."

He raised his head and took a look at Li Moying cautiously.

"Our abilities could not match up and the two of us were not the seventh tiered magical beast's opponent so Third Miss just turned around and escaped. In order to save her, I followed closely behind. But I'd not expected Third Senior Sister to not choose her way properly and actually ran all the way into the central region! I had totally not considered too much at that time so even though I knew it was the central region, I had no choice but to enter this place at that life threatening moment."

"Later on, we were fighting as we were escaping for our lives and unknowingly, we reached the side of this cliff. I didn't look where my feet were and fell down immediately. Luckily Third Senior Sister didn't fall down as well but that seventh level magical beast was still pursuing after her so I wonder if she has escaped or not?"

Speaking to this point, Luo Jiyun seemed to recall something as he turned his head towards Li Moying.

"Eldest Senior Brother, when you... came over earlier, did you see Third Senior Sister? She... I wonder how is she right now? Later after we go up, can you go and save her?"

Li Moying swept a glance at him as the depth of his eyes was deep and cold.

"You've already turned into this state and you still want to go save her?"

Luo Jiyun continued, "Eldest Senior Brother, I know Third Senior Sister had been disrespectful towards Sister-in-law on several occasions and she was indeed too much but she is after all Master's daughter so if she were to die in the Cloudy Qilin Mystic Region, what would happen if Master blames it on us?"

Li Moying gave a cold laugh, "Even if she died here, she can only blame herself for it! Can she blame anyone else?"

Luo Jiyun advised again, "Furthermore, Third Senior Sister has a piece of treasure map in her hands and we haven't got time to go search for the treasure so if we saved her, Eldest Senior Brother you wouldn't end up with nothing as well...."

Li Moying narrowed his eyes as he stared at him coldly.

Luo Jiyun felt a chill running down his spine from his stare as he sweated profusely speaking in fear and trepidation, "El... Eldest Senior Brother?"

Li Moying was so angry that he laughed as he looked at Luo Jiyun with a look which seemed as though he resented him for failing to meet his expectations, "I really want to split open your head to see if it's filled with water inside? You've been sold and yet still helping the seller to count money?"

"Ah?" Luo Jiyun revealed a blank expression.

Li Moying burst out laughing, "How could anything ever happen to Murong Fei? She intentionally lured you over and caused you to fall down the cliff! What could have happened to her? She'd probably gone off to celebrate somewhere! As for what treasure map, it's just a lure to hook you yet you're still thinking of going to search for some treasure? You'd better first try to think of a way to get out of here!"

Luo Jiyun still didn't quite understand what happened as he stood in a daze and after pondering over it for a while, he started to become clear on what had happened.

"You.... what you mean is that... Third Senior Sister lied to me? Why would she lie to me?"

"This is very hard to say. From the looks of it, there's a ninety nine percent chance that she's trying to lure me over to save you! Now that both of us are stuck in the central region, if we can't get out, who will be the biggest beneficiary?"

Li Moying said to this point and his brows suddenly creased as he felt alarmed.

He suddenly recalled that when he came down to save him, he had left Huang Yueli alone on the top of the cliff!

Whereas it had not been the first attempt which Murong Fei tried to kill Huang Yueli. Yet now Li'er was all by herself....

Chapter 1482: Mantis stalks the cicada, unaware of the oriole behind (2)

This absolutely gave her the chance to take advantage of the situation!

Could it be that Murong Fei's target was actually Li'er?

Li Moying instantly became anxious as he raised his head up towards the mountain and shouted, "Li'er, are you there?"

The fog around the cliff was very thick and he couldn't see the situation on the top of the mountain so his heart was pounding hard.

Luckily not too long later, Huang Yueli's voice was heard coming from the top.

"I've been waiting for you guys! Have you found Junior Brother Luo? The fog is getting thicker and the sky is turning darker too. It's too dangerous in the central region because we don't know what will happen at night. While the sky hasn't turned dark entirely, hurry and get up here!"

Her voice was emitted from such a high place and although it sounded a little blurry but he could still tell that her condition was quite well. Her tone was peaceful, not sounding like she was being pursued by someone.

Li Moying heaved a long sigh and immediately frowned again.

Looked like Murong Fei's target wasn't Huang Yueli? Then why did she do that?

The more he thought, the more uneasy he got as he turned back and looked at Luo Jiyun, "How is it? How much have you recovered?"

Luo Jiyun had a despondent look on his face, apparently he had not recovered from the shock from being cheated by Murong Fei.

He had a kind character, always assuming that all of them were from the same Sect and Murong Fei was a lady so no matter how jealous she was, she couldn't possibly breed hatred from love, or even harming one's life....

In the end, he was just too naïve.

Hearing Li Moying words, he suddenly recollected his senses as he replied in a hurry, "I've recovered about twenty percent of my Profound Energy, only... my legs still wouldn't move... it might be hard for me to climb up... Eldest Senior Brother, why not you go up first. The day is indeed turning dark and little Sister-in-law is not safe alone by herself."

Li Moying's brows lifted and he was just about to say something.

Suddenly he felt a burst of intense Profound Energy fluctuation attacking from behind him.

Luo Jiyun's expression changed abruptly as he cried out in shock, "Eldest Senior Brother, behind you!"

Li Moying's reaction was extremely swift as he immediately turned around, evaded, pulled out his sword and stuck out, all at one go!

The Amethyst Light Sword suddenly flashed past and struck the sneaky magical beast which had charged an attack behind his back!

"Ga Ga—!! Ga Ga—!!"

Miserable shrills were heard amidst the sinisterly bitter wind.

After Li Moying had seen the situation in front of him clearly, his pupils suddenly contracted.

This time, the magical beasts which flew upwards from the bottom of the valley had at least seven to eight of them as they all had pitch black forms. Other than the seventh tiered magical beast that resembled an eagle, which had been killed by him, there were several other different shapes of flying magical beasts, most of the species which he had never seen before.

Moreover, in this batch of magical beasts, the lowest tiered was sixth tier and the highest had already reached eighth tier!

In actually fact, if there was only one eighth tiered magical beast, he wasn't afraid.

But now there were so many magical beasts which surrounded them. Moreover from the saturation of the fog below the cliff, it was unknown to how many other magical beasts were there hiding there....

This situation made Li Moying feel an immense feeling of crisis!

Luo Jiyun was scared out of his wits as his complexion turned pearly white while his entire body started to tremble.

“These.. these magical beasts would gather.... gather over the minute they sense Profound Energy fluctuations. I met one when I first fell down and was almost killed by it! It must have been that magical beast which you killed earlier which caused the intense fluctuations which is why so many of them were attracted over.....”

These magical beasts’ eyes were all drooling as though Li Moying was some scrumptious meal.

Chapter 1483: Mantis stalks the cicada, unaware of the oriole behind (3)

Li Moying faced so many high levelled magical beasts but he wasn’t the least flustered. The expression on his face turned graver as he started to work up the Profound Energy throughout his body, accumulating the power while waiting, like a taut bow.

The magical beasts seemed to sense the dangerous imposing manner which was extruding from him as they didn’t dare to make any unnecessary movements momentarily.

Both sides were at a standstill for a period of time and Luo Jiyun almost forgot to breathe as his heart was beating so fast that it almost jumped out.

Suddenly, the magical beasts seemed as though they had observed enough and losing their patience, they cried out “Ga Ga” several times and all of them pounced towards Li Moying at the same time!

Dark shadows in the sky were about to drown Li Moying’s body completely in a blink of an eye!

Under the enclosure of the huge wings from those magical beasts, Li Moying’s body seemed so tiny, as though it would be crushed to dust any time!

Luo Jiyun was so scared that he daren’t look, faltering as he shut his eyes.

But at the next moment, he heard miserable cries from the birds, ringing throughout the entire valley!

Luo Jiyun hastily opened his eyes as he saw bolts of lightning descend from the sky, turning the dark sky as bright as broad daylight! All the lightning converged into a piece of blue purplish lightning as it carried a powerful aura, gathering into a huge light ball in Li Moying’s hands.

Luo Jiyun’s heart was alarmed as he trembled in fear while looking at that light ball. Just looking at it alone, he was able to sense the shockingly terrifying energy contained in it.

Those flying magical beasts which were charging towards him sensed danger and their speed suddenly decreased as it flapped its wings hovering still in mid-air, as though it didn’t know if it should continue or proceed ahead.

However, Li Moying didn’t give them any chance to hesitate as the light ball in his hands had accumulated a vast amount of energy in an extremely short span of time!

Following that, his eyes were like electricity as he gave a sharp shout, throwing out that light ball towards that group of magical beasts!

The light ball shot to the front at an extremely swift speed, shocking those magical beasts so much that it all dispersed while escaping, but it was....too late for it to escape now!

The light ball had exploded in the middle of the magical beasts and the thunder attributed energy which was contained in it exploded in an instance!

A “Boom” sound reverberated and followed that were sharp cries and miserable shrieks from those flying magical beasts, as well as....

Luo Jiyun sniffed and somehow felt that he smelled the fragrance of roasted meat.....

Among the eight flying magical beasts, the two which were in the front were instantly heavily injured as it shrilled in shock while it fell into the valley.

Although the remaining six were slightly injured but they were all awed by Li Moying’s move as all of them scurried backwards in shock, not daring to get any closer.

But although they had all temporarily retreated, they did not leave at all, merely hiding in a slightly further place as all of them kept a watchful eye on Li Moying. The greed in their eyes had not lessened, instead it increased!

Evidentially, the huge thunder attributed energy which Li Moying lured had shocked them but on the other hand, it also attracted their lust!

Such powerful and pure energy was something which these magical beasts had hoped for in a long time!

Although it was dangerous but with such a huge temptation in front of their eyes, which of them could bear to leave like that?

Li Moying frowned slightly on seeing these magical beasts covetous lust in their eyes, he knew that things were not going to go well.

Earlier the energy which he had attracted was much stronger than before and later on there would be even more magical beasts which were attracted by it. In order to push them back, he would need to erupt an even stronger energy, which would continue to lure new magical beasts.....

If this continued, when would there be an end to it?

Chapter 1484: Mantis stalks the cicada, unaware of the oriole behind (4)

He immediately turned his head back and said to Luo Jiyun, “Alright, stop staying in a daze. Take this opportunity now when they don’t dare to approach us, we must leave immediately!”

Luo Jiyun understood that the situation was in peril and immediately nodded his head, “I understand!”

Actually many wounds on his body were still in extreme pain and his meridians were full of holes so he could not muster up his Profound Energy at all.

But he also knew that if they don’t leave now, they would definitely end up as the magical beasts’ food later on.

So he forcibly summoned up his breath as he clenched his teeth, trying to prop up that broken body of his and follow Li Moying to leave this place.

However, he had just moved a little distance when he couldn't help but gave a miserable cry as his entire body profused with sweat, falling onto the ground!

Luo Jiyun had already tried his utmost best to get up but certain things were just not curbed based on his own determination. The bones in his feet had already been broken into several segments and he was totally unable to work up his Profound Energy, so no one would be able to use their strength to move like that.

Luo Jiyun's expression turned deadly pale, "El... Eldest Senior Brother, I really cannot move... you'd better go on up first. I... I cannot drag you down!"

Li Moying frowned, "What silly things are you saying?"

"Rea... Really! Those magical beasts are coveting Eldest Senior Brother, your Profound Energy which is why they gathered around here. Perhaps after you left, they would automatically disperse. Those magical beasts would not be interested in a half dead cripple like me so rest assured!"

Luo Jiyun knew that he was definitely a goner and didn't want to drag Li Moying down so he intentionally said this. But in actual fact, anyone knew that if he continued staying here, he would absolutely die.

Just at this moment, Huang Yueli's anxious voice was heard from the top of the cliff.

"Moying? Moying?? How are you now? Why are there such terrifying cries coming from below? There's such strong thunder attributed fluctuations as well? Are you being attacked?"

Luo Jiyun looked at Li Moying's expression which had instantly turned worried and gave a ghastly smile, "Eldest Senior Brother, quickly head up! Little Sister-in-law is still waiting for you up there! When these magical beasts get tangled with you, then you'd really not be able to leave! Who will take care of little Sister-in-law?"

He knew that for Huang Yueli, Li Moying would definitely not allow himself to die here, so.....

"Shut up!"

Li Moying called out sharply to stop him from continuing.

Following that, he shot up like an arrow as he unleashed the Immortal Binding Rope from his waist, which Huang Yueli had stuffed to him, as he tied it around Luo Jiyun's waist.

Luo Jiyun looked at his actions in a daze, "Eldest Senior Brother, this... this is...."

Li Moying narked, "Stop moving around, I'll get your Sister-in-law to pull you up!"

"Ah?" Luo Jiyun was puzzled beyond words.

Li Moying had already raised up his head as he shouted to the top, "Li'er we're fine. Jiyun is seriously injured and he totally can't move. Use the Immortal Binding Rope and pull him up first!"

“Ah!” Huang Yueli’s shocked voice was heard and immediately after, “Alright, secure him tightly and pull the rope three times consecutively! I’ll then start pulling him up!”

Li Moying’s movements were very fast and within a few breaths of time, he had already tied Luo Jiyun into a rice dumpling. After checking the knot on Luo Jiyun, he pulled the rope consecutively for three times.

Luo Jiyun originally couldn’t move and now that he was tied up so securely, he felt as though he was like a piece of pork belly which was waiting to be butchered by others.

His expression turned slightly green, “El... Eldest Senior Brother, are you certain that little Sister-in-law is able to pull me up?”

Chapter 1485: Mantis stalks the cicada, unaware of the oriole behind (5)

Li Moying gave him a hard stare, “Stop acting silly, your Sister-in-law is a fifth stage realm practitioner! How heavy are you? Is she not able to pull you?”

Saying that, Luo Jiyun’s body was lifted up by a chunk and the speed was swift. Furthermore it was very stable. Apparently the person who pulled the rope had a lot of strength, with remaining energy leftover.

His body kept on rising up, bit by bit.

Right now, he was no longer concerned about his own safety as he turned to look at Li Moying.

Just one look and his expression changed abruptly!

Because those few flying magical beasts which were hiding in alertness far away had actually crowded around him again and furthermore, several new magical beasts appeared in the middle of the sky.

“Eldest Senior Brother, you... you’d better let Sister-in-law let me down and pull you up first! You’re in this state, what will happen later...”

Li Moying swept him a glance and with a biting cold tone, “Go up! Don’t drag my leg! I naturally have my own means to get out of danger!”

“But....”

Luo Jiyun wanted to say more but Huang Yueli’s speed in pulling him up was very fast as his body was lifted yet another distance again.

The distance between him and Li Moying was pulled away fast, almost to the point of not able to see each other’s figures any longer.

In the thick fog, he could only see Li Moying facing that group of magical beasts yet again and the cold but aloof expression on that good looking face was filled with a thick murderous intent!

Following that, he continued to rise up and could no longer see Li Moying anymore.

Not long after, Luo Jiyun went past the thick fog and could see the peak of the cliff indistinctly.

Out of his expectations, Huang Yueli was not the one who tugged at the rope tightly but she was seated by the side of the cliff as her hands propped up her cheeks, using a pair of watery large eyes staring anxiously and in anticipation towards the bottom of the cliff.

By her side was a small sized pinion mechanism and there was a piece of magical beast crystal core which was supplying the energy.

The rope which was tied onto Luo Jiyun was linked to that mechanism as he was pulled up bit by bit.

Luo Jiyun gasped with his mouth wide open, thinking to himself that it was no wonder that the speed of his ascent was so uniform. So.... This was indeed the ability of an Armament Master!

Huang Yueli looked at his figure and gave a shrill of joy, "Junior Brother Luo, you've successfully gotten out of the perilous situation! That's great!"

But following that, her vision swept below Luo Jiyun as her heart thumped hard, revealing a disappointed expression, "Where's Moying? He still hasn't come up?"

Luo Jiun heard her question and his heart pounded wildly as the scenario of Li Moying's chilly expression while facing that group of magical beasts appeared right in front of his eyes.

He simply could not imagine that if he was in Li Moying's position, what kind of outcome would that be. He would probably have died without a full corpse by now?

But the person who was covering a retreat below... was Li Moying.

Would Eldest Senior Brother be able to successfully come through?

Luo Jiyun usually believed in his Eldest Senior Brother a lot but today, he didn't dare to guarantee that Li Moying would be able to win!

Gazing at Huang Yueli's little face which was filled with anticipation, Luo Jiyun's throat seemed to be stuffed as he totally couldn't make any sound at all.

He really didn't know how he should answer this question.

Should he tell Huang Yueli that Eldest Senior Brother had thrown himself into a precarious situation in order to save him and the chances of survival were very limited? Just how much of a shock would that be to his little Sister-in-law?

Huang Yueli saw that he didn't reply and somehow had an ominous premonition as her lips pursed up.

She was just about to ask again but at this moment, something happened!

She suddenly sensed a strong wind rising from her back and a burst of intense and sharp Profound Energy was casted towards her direction swiftly!

Chapter 1486: Mantis stalks the cicada, unaware of the oriole behind (6)

Huang Yueli's attention was entirely placed on Luo Jiyun who was on the cliff and had not expected anyone to suddenly attack her from behind!

She had originally still maintained a bit of alertness but after staying on the top of the cliff for such a long time, she had not met with any danger hence there was a silent consent that it was absolutely safe at the top of the cliff.

At the current moment, to be attacked suddenly really could be said as she was caught totally unprepared!

However, her experience in battles was especially abundant and her response time was also extremely swift!

At the critical moment, she swiftly evaded to the right side as she rolled onto the ground, avoiding the fatal strike which was casted towards her back!

Huang Yueli rolled onto the ground for a moment and immediately got up, thinking of counter-attacking.

But by the time she turned around to look at the person, she realised that the person did not follow up with the attack but instead turned around heading towards the small mechanism which she had refined, attempting to cut the rope using a curved knife in his hand.

“Stop it!” Huang Yueli’s eyes turned wide as she called out sharply, gathering her Profound Energy and casting it towards the other party!

However, that person came prepared and his actions were extremely swift. Before Huang Yueli could arrive in time, his long sword blade had already fallen onto the rope!

A “Plop” sound was heard!

The long sword was swept with Profound Energy as it slashed heavily onto it! Even the ground was driven a deep mark as dust and mud flew everywhere!

Luo Jiyun also realised that something had happened on the top of the cliff but he was helpless right now.

Li Moying had tied him up tightly into a bundle to prevent him from falling and he was totally immovable. Of course, even if he wasn’t tied up, he was no different from a cripple so he couldn’t help Huang Yueli anyways.

Seeing that the other party wanted to cut off the rope, Luo Jiyun was scared witless that his heart almost jumped out from his mouth.

He witnessed the blade of the knife falling down towards the rope and shut his eyes tightly, awaiting the drop into the valley! Visit web novel. live If You like manga , comics

He had not expected that after Li Moying expended so much work but yet he was still going to die here!

But out of his expectations, Luo Jiyun waited for a while but had not felt the gravity pulling fall. On the contrary, he was lifted up by a distance again!

Luo Jiyun hurriedly opened his eyes and saw the masked man who had struck also dazed on the spot, apparently not expecting this rope to be so durable. A fifth tier upper grade Profound Weapon knife slashing down so hard and it actually... didn’t break off?

Huang Yueli took the opportunity while the masked man was in a daze to take out a large quantity of Thunder Flame Balls, throwing it towards him!

The masked man was shocked by the sudden obstruction and didn't manage to respond in time. By the time he was aware of the danger, it was already too late.

Huang Yueli's secret weapon exploded consecutively in front of him. He evaded to the left and right but was still bombed several times. With many injuries on his body, he had no choice but to retreat continuously!

Huang Yueli immediately rushed upwards towards the mechanism.

At this particular moment, she only had one thought in mind which was to pull Luo Jiyun up immediately!

Although the Immortal Binding Rope could resist against Profound Weapons which were fifth tiered and below, but the Profound Weapon in the masked man's hand was a fifth tiered upper grade weapon. The Immortal Binding Rope could still resist against one or two slashes, but if the number of slashes increased, it would still break off!

So she made a prompt decision immediately!

Huang Yueli bent down and stretched out her arm to grab the Immortal Binding Rope while infusing her Profound Energy into it!

After that she used her strength to swing the rope, swinging up the rope into the sky!

The masked man's eyes flashed past a shocked look as he cried out in alarm, "It's bad! Quickly stop her! We can't let her pull Li Moying up!"

Chapter 1487: Mantis stalks the cicada, unaware of the oriole behind (7)

Hearing that, Huang Yueli's heart faintly felt a sliver of puzzlement.

Li Moying? Why would they mention Li Moying? The one she was pulling up, wasn't he Luo Jiyun?

However before she could give it any further thought, she sensed another burst of Profound Energy attacking from her right back! It was directed at the fatal spot of below her ribs!

This move was extremely meticulous. If she didn't let go of the Immortal Binding Rope to block this move, then she would be struck in the ribs, and this would definitely cause haemorrhage! This was a fatal spot concerning her life and death!

But if she was entangled with the person, that would give the masked man a chance to continue slashing the rope.

Luo Jiyun was originally seriously injured so if he were to fall down from such a height, there was no way that he wouldn't die!

This person apparently thought that he was very smart as the moment he drew out his sword, he opened his mouth and talked.

“Miss Bai, withdraw your hand! For a man, giving up your life really isn’t worth it! You have such a bright future in front of you so why do this!”

This voice sounded extremely familiar and Huang Yueli’s mind seemed to ignite a spark as she seemed to have guessed the identity of that person.

The movements in her hands paused for a moment and the strength used to swing the rope seemed to have weakened.

The person who came felt delighted as he thought that his threat had developed some use so the move he struck out wasn’t that vicious. After all, his motive was to kill Li Moying and not to kill Huang Yueli!

He revealed a smile on his face but before he gave a broader smile, he saw Huang Yueli bent down.

The person looked at her in surprise.

Huang Yueli’s finger drew an arc on the ground and coincidentally drew out a series of array patterns as she softly cried, “Break!”

While the person’s face was still in a daze, he felt the earth which he was standing on suddenly loosening as he sunk downwards directly. His body lost balance and he landed head first onto the ground.

“You...”

The person tried his best to steady himself on his feet.

But in this way, it hindered a chance for battle.

Huang Yueli re-established her strength as she started swinging the rope once again. Luo Jiyun’s body was swung out of the pathway along with the rope, drawing out a half moon arc in mid-air before he crashed heavily onto the ground not too far away!

At the same time, Huang Yueli rushed towards him immediately!

She knew that Luo Jiyun would not have any battle strength now and if the person who tried to stop her from pulling him up wanted to kill him, it was as easy as lifting a finger!

So Luo Jiyun required her full protection right now.

Huang Yueli stretched out her hand and patted heavily onto Luo Jiyun’s back and the rope on him loosened.

Whereas Huang Yueli herself had retrieved her Icy Jade Zither from the Sky Phoenix Ring and her fingers lightly plucked at the strings as she began to play!

The urgent zither sounds rang continuously as though silver bottles broke abruptly, intimidating the will of the people!

But just at this moment, the person on the side suddenly stopped his attacks as he used an extremely astonished tone crying out, “What’s going on? It’s not Li Moying??”

The masked man heard that and stopped as he gazed behind Huang Yueli.

“He really isn’t! What’s going on? How come Li Moying didn’t come up but instead he sent this trashy Luo Jiyun up instead? Could it be that he’s still at the bottom of the cliff?”

Speaking of that, he seemed to have thought of something as he couldn’t help but laughed out loudly, “That’s right, I know already. Li Moying is definitely still at the bottom of the mountain and he should have met with trouble so he can’t come up! Could it be that we don’t even need to lift a hand and he directly died down there?”

Chapter 1488: Utterly shameless (1)

Huang Yueli heard their tone and voice and her heart jolted as the tune that she was playing on the zither suddenly paused for a moment as it was totally messed up.

She bluntly stopped as she stared at the duo in shock.

“You... you are Leng Yi Feng!! And Li Lingchuan! You... the both of them, since when have you colluded together?!”

It wasn’t anything strange for either one of them to want to scheme on Li Moying but now the both of them are actually taking action together?

How could this be possible? Celestial Light Sect and Green Cloud Sect’s relationship was at loggerheads!

After the two men’s identities were exposed, they exchanged glances and directly stopped hiding as they removed the disguise used to conceal their identities.

“You’re deserved to be called Miss Bai, your eyesight is really extraordinary. We’ve been exposed in such a short amount of time.” Li Lingchuan originally wanted to be the mastermind behind the scenes but whoever knew that Huang Yueli had exposed his identity in such a short while. He was extremely unreconciled as the words he said were full of spunk.

Leng Yi Feng pursed his lips as his expression was chilly, not saying a single word.

Huang Yueli stared at them in a biting cold stare, “It indeed is the both of you! I was just suspecting why Junior Brother Luo would suddenly run into the central region for no apparent reason and even got trapped with a serious injury. Someone must be behind all these! I’d not expected you two to be the culprits! Li Lingchuan, no matter what, you’re Sect Master Murong’s beloved disciple, how could you be like Murong Ni, becoming a traitor of the Sect!”

Li Lingchuan laughed, “Traitor? Your words are too harsh! Murong Ni was a lackey for Green Cloud Sect which is really called the Sect’s traitor. I’m merely cooperating with Mister Leng. No matter how I see it, we’re merely benefiting from each other’s relationship.”

Huang Yueli didn’t wish to hear his denial and bluntly asked, “Stop all these rubbish talk. What do you want to do by luring me and Moying over? Do you want to take Moying’s life?”

Huang Yueli had seen plenty of internal strife in the Sect and originally suspected that there was something fishy behind all these. Now on seeing Li Lingchuan’s stance, her heart swiftly analysed and deduced around eighty to ninety percent of the cause and effects. [Read comics on our webnovel.](#) [live](#)

Not waiting for Li Lingchuan's answer, she continued, "Let me guess, Junior Brother Li made a move this time, could it be for Moying's Young Sect Master's position? I've never expected that a mere Celestial Light Sect's Young Sect Master status will make you betray the Sect, coming out with such an underhanded method! A sect like Celestial Light Sect in Sky Emperor City isn't even considered as third rated! It's only trash like you who treat it so importantly!"

Li Lingchuan's thoughts had been seen through by her as his eyes widened in disbelief.

Right before this, he knew that Huang Yueli's innate talent was outstanding and she had unparalleled beauty but he had not expected Huang Yueli's thoughts to be so profound or that her foresight was so sharp!

Those shameful thoughts couldn't mask her eyes at all as she easily saw through it, without any concealment.

This feeling seemed like he was stripped of all his clothes in the bustling city and made to run around naked, which made him both angry and embarrassed.

Furthermore, under Huang Yueli's deep and chilly gaze, Li Lingchuan uncontrollably shuddered as he suddenly felt an icy sensation in his heart.

At that moment, he had an illusion that the person he was facing... was Li Moying himself! Huang Yueli's imposing manner which radiated around her was totally not any lesser than Li Moying!

After being dazed for a moment did Li Lingchuan regain his senses as he cried out in a dishevelled state, "How daring of you! Celestial Light Sect is merely a third rate Sect?"

Chapter 1489: Utterly shameless (2)

"That's right, there's no way that Celestial Light Sect could be compared against those super powerhouses or hidden sacred grounds which had been around for several hundred thousands of years. But can ordinary people go to that level of powerhouse? Celestial Light Sect in South Sky Region is considered as a first rate powerful Sect! To be able to obtain Celestial Light Sect, it will allow me to ride over all the practitioners in South Sky Region for my entire life!"

As Li Lingchuan spoke, a malicious glint flashed past his eyes as his expression was filled with irreconciliation!"

"Based on my innate talent, I'm originally a first rate peerless genius in South Sky Region! If it wasn't for Li Moying who blocked my way, obstructing my future, how could I possibly only be a direct disciple? The position of Celestial Light Sect's Young Sect Master should be mine! You wretched lass really don't know how high the sky is or how thick the earth is, how dare you look down on Celestial Light Sect?"

Huang Yueli secretly rolled her eyes back as she gave a sneer, "Who's the one who is speaking arrogantly? And who is it who doesn't know how high the sky is or how thick the earth is?"

Hearing Li Lingchuan say out such utterly shameless words, she lost all her strength to even ridicule him.

Based on her status and innate talent, she naturally knew just how much Celestial Light Sect weighted. It really wasn't anything in the entire Soaring Heavens Continent and only a short-sighted man like Li

Lingchuan would not want to heighten his own ability. Instead he was fighting to obtain the reins of such a small sect, putting it as his final aim.

This was the difference between the two men's foresight and level.

Of course, what she found the funniest was that Li Lingchuan actually thought that Li Li Moying was obstructing his future!

Li Moying couldn't possibly be interested in such a small benefit that was not even a housefly in his eyes!

Li Lingchuan met her disdainful sight and his heart started fuming with anger!

It was exactly this kind of gaze which was like Li Moying's that looked down on him which made him feel extremely infuriated and ill at ease!

"Wretched lass, you're rather sharp tongued but do you think I'm on the same level as that trashy Fang Shaoning and I can't do anything to you? To be honest, I totally cannot be bothered about your little bit of ability. Now that Li Moying isn't here, it just takes a finger for me to kill you! If not for Master Leng today, I'd let you understand what it means by a loose tongue may cause a lot of trouble!"

Huang Yueli didn't place his threat on her mind at all as she frowned and looked towards Leng Yi Feng.

"Master Leng, you're not Celestial Light Sect's people so why are you here to join in the muddy water? What advantage can you gain from colluding with this Li fellow to scheme against Moying together?"

Leng Yi Feng appeared to be rather embarrassed.

Why scheme against Li Moying? Of course it was to win Huang Yueli over!

But under this sort of situation, for him to confess in front of Huang Yueli was just.....

Li Lingchuan, on the other hand, didn't have any qualms, "Why is Master Leng willing to help me? Of course it's because he wants Li Moying to die! Can't you tell that Master Leng had always been secretly admiring you? Li Moying is so overbearing and if he doesn't die, how could he possibly snatch you over? It's all femme fatale your fault which caused Li Moying's murderous disaster! It's not me who caused him to die but you who brought him such a fatal crisis!"

He intentionally said that as his eyes stared at Huang Yueli tightly, wanting to see her shocked, frustrated and frightened expression!

Unfortunately, Huang Yueli wasn't someone who would be scared off by mere words and she didn't show any reaction at all. Instead, she laughed coldly, "So that's the case, now I understand everything! A traitor who helps others and a toad who lusts after a swan! Just based on the two of you, and you actually want to kill Moying? Haven't you ever considered that once he returns from the cliff below, what kind of horrible death would you end up in?"

When Li Lingchuan heard that, he immediately started laughing, "Ha ha ha ha, this is really funny! Are you still dreaming that Li Moying could still come back?"

Huang Yueli's lips curled coldly as she didn't say a word.

Li Lingchuan complacently said, "You totally don't understand the situation below the cliff. No matter how capable Li Moying is, it is hard for him to get out of the perilous situation! Otherwise no matter how precipitous this cliff is, it would merely take a quarter of an hour for him to climb up. Why is it that he still hasn't climbed up till now?"

When Huang Yueli heard that, she suddenly felt uneasy.

That's right, since she pulled Luo Jiyun up to expose Li Lingchuan and Leng Yi Feng's identity, it had already been one hour but Li Moying still hadn't appeared. Instead the lighting bolts in the sky were falling one after another, more and more concentrated....

Her vision shot towards Luo Jiyun and upon seeing his ghastly expression with his forehead filled with sweat, his eyes bore a hopeless expression.

Li Lingchuan also noticed him and immediately laughed, "Look, my beloved Fifth Junior Brother obviously knows the situation down the cliff. When you came up, Li Moying must have been tangled with those magical beasts down the cliff isn't it? Aren't those magical beasts' abilities much stronger than your imagination?"

Huang Yueli frowned slightly, not quite believing in Li Lingchuan's words.

However, Luo Jiyun's trembling body had already verified Li Lingchuan's words.

Li Lingchuan continued, "To tell you the truth, I have a Cloudy Qilin Mystic Region's map in my hands! It's stated very clearly on the map that below this cliff is the central region of the mystic region! It is filled with dangers here and there are various high levelled magical beasts. It's even rumoured that there are many other traps so even if a ninth stage realm practitioner falls in, he can forget about leaving this place alive! Although Li Moying's innate talent isn't bad, but he's just in the seventh stage realm. How could he possibly leave that place?"

Saying that he turned towards Luo Jiyun, "Have I said it correctly? Fifth Junior Brother?"

Luo Jiyun's expression flushed white and he looked as though he was about to cry, choking as he spoke, "Lil... Little Sister-in-law, I've done you wrong! It's all because I'm so dumb that I can't even figure out such a simple trap. Not to mention that I've been schemed, I've even dragged Eldest Senior Brother down for coming to save me! We.... We had been tangled with ten over high levelled magical beasts earlier and he personally stopped those magical beasts in order to let me come up first! Now.... now...."

Hearing Luo Jiyun's words, Li Lingchuan laughed so much that he couldn't stand straight!

"Hear that, what I said wasn't wrong eh? Li Moying... he's definitely dead!"

Huang Yueli's expression was gloomy as her lips were tightly pursed. Her eyelids drooped down and she didn't say a single word, not knowing what she was thinking about.

Li Lingchuan continued, "Miss Bai, now that things have come to such a pass, Li Moying is already dead! There's no point for you to keep tangling on this! We only want Li Moying's life and not to harm you at all so you need not be so tightly strung."

He turned back and gestured towards Leng Yi Feng's direction, "Look at that Master Leng, he's one talented person! You probably don't know about this right? Master Leng is a ninth grade talented peerless genius and he's not only Green Cloud Sect's eldest disciple, he's even a direct descendant of the Leng family! His status is much higher than Li Moying's! Why don't you just follow him instead! Woman, isn't following any man the same? As long as the other party is powerful enough! It's your honour that Master Leng wants a second hand good like you!"
