

Weaponsmith 1651

Chapter 1651: The fight for the peerless genius (8)

Under the astonished gazes of the crowd, that huge and luxurious flying ship flew above everyone's heads.

The flying ship lowered slightly and a silhouette flew downwards, landing right in front of Li Moying.

The man had a head full of white hair and he was holding on to a walking stick in his hands as though he was so old that he almost couldn't walk.

But when Cheng Zhenbo and Feng Bozhong saw him, their expressions changed and bowed slightly as they cried out, "Elder Guo!"

Even Li Moying and Huang Yueli were astonished!

Because this Elder Guo's name was Guo Zhenqing, someone whom the both of them knew. Fifteen years ago, he was already one of the famous ninth stage realm peak practitioners from Splendid Violent Heavenly Palace!

This old man's character was extremely arrogant and they had not expected that he appeared at this place. Could it be that he was here to recruit Li Moying as well?

Li Moying and Huang Yueli exchanged glances as they both had the same helpless thought in their minds: Originally they were thinking of sneaking into the city to grasp the situation of Sky Emperor City first. Whoever knew that.... they had just entered the city and had thoroughly become famous!

This was what's known as causing a sensation in the martial arts circle, startling a great number of people!

Among the crowd, there were apparently even more people who recognised Guo Zhenqing as their discussions became even louder. Furthermore, even more people now looked at Li Moying as though they were looking at a monster.

"Elder Guo from Splendid Violent Heavenly Palace! Soaring Heavens Continent's Sky Chart ranking number twelve!"

"This is one of the top exponents behind the scenes in Sky Emperor City who wouldn't reveal himself easily! He actually came here as well, surely it can't be that... he's also here to recruit that what Master Li right?"

"Surely not right.... Impossible right? Elder Guo's backing is one of the Seven Sacred Lands Splendid Violet Heavenly Palace! Seven Sacred Lands.... Just what kind of place is that? Even if it was a peerless genius with ninth grade talent, he also had to pass through various assessments like ordinary practitioners before he could join them!"

"Unless.... This Master Li is a ninth grade upper talented genius!"

“Hah! What kind of joke is that? Can you even believe the things that you said? Ninth grade upper talent’s genius, in the past one hundred years, there were only two, Mu Chengying and Huang Yueli!”

“But... earlier when that President Cheng praised Master Li, he seemed to have mentioned that his innate talent was comparable to Sovereign Mu!”

“What? How is that possible? Anyway I’m not going to believe in that! Elder Guo must have another motive in his trip here! Splendid Violet Heavenly Palace had never actively recruited any genius before!”

The crowd refused to believe which was understandable.

Seven Sacred Lands were different from ordinary large powerhouses. All of them, without any exception, had ancient inheritances and the number of top exponents under their wings had accumulated since ten thousand years ago! Just a mere immature genius was commonly seen so how would they even treat him as something?

Plus the Seven Sacred Lands sang their own praises of their statuses, they wouldn’t possibly lower their heads to go beg anyone!

Not to mention Li Moying, who was just a newbie who had just entered Sky Emperor City!

However, different from the surrounding ordinary practitioners, Cheng Zhenbo and Feng Bozhong were silently anxious because they were very sure that Guo Zhenqing’s motive was ninety nine percent the same as theirs!

Those so-called “peerless” geniuses, in Splendid Violet Heavenly Palace’s eyes, were indeed just like that.

But, Li Moying was different!

Just twenty over years old and had already broken through the ninth stage realm stage, just what kind of innate talent was that? It was a shocking piece of news, which made one frightened to even think carefully along this line!

That year when Mu Chengying broke through to the ninth stage realm, he was almost nearing thirty years old and that had already caused a huge commotion throughout the entire Soaring Heavens Continent!

Chapter 1652: The fight for the peerless genius (9)

But Li Moying was much faster than Mu Chengying by such a large margin, completely leaping upwards in one shot!

It was imaginable that it would take at most five to six years for him to promote into ninth stage realm peak, perhaps even surpassing the once number one top exponent Mu Chengying!

After some time, what would his achievements be?

Would he become the first practitioner to break through the tenth stage realm and ascend to God Realm, after so many years since the fast change of Heaven and Earth during ancient times?

This kind of genius had already surpassed everyone's imagination and in front of him, even the Seven Sacred Lands weren't able to sit still!

Feng Bozhong and the others felt the anger within! But they didn't dare to say it!

Seven Sacred Lands statuses were very high in Sky Emperor City and the strength of their ability was something which the people outside the city could hardly imagine, hence he was someone whom the both of them could not afford to offend!

Moreover, since Splendid Violet Heavenly Palace's people were here, they would definitely have no chance anymore so they could only watch with their eyes open as Guo Zhenqing abduct them away.

Guo Zhenqing was a man who was even more particular than Feng Zhenbo and the others hence he didn't personally go up to fawn on Li Moying, instead he brought along two sidekicks.

A young man behind him took quick steps up ahead as he cupped his fist into the other hand and said, "Master Li, I am Wen Yikai, a direct disciple from Splendid Violet Heavenly Palace."

He paused for a moment, waiting for Li Moying to express a shocked and adoration look.

Whoever knew that the crowd around them were already gasping in shock and astonishment but Li Moying merely casted him a look which was cold and distant, not knowing if he had heard what he said or not.

Wen Yikai's expression turned slightly ugly as he had not expected that Li Moying to actually be that conceited!

No matter how strong Li Moying's innate talent was, but he was after all a direct disciple of Splendid Violet Heavenly Palace. In the future when Li Moying joined their Heavenly Palace, he was considered as his Senior Brother! How could he not give him face in such a manner?

Wen Yikai was infuriated but he remembered that he was acting on Guo Zhenqing's instructions, to treat this peerless genius with extreme deferential treatment hence he forcibly controlled his own temper and continued to speak to him in a pleasant countenance.

"Master Li, my Master had passed by today and heard about your matter. He had always been interested in young men with great innate talent and wanted to have a chat with you, so I'd like to trouble you to come over with me to meet him!"

Splendid Violet Heavenly Palace sung their own praises of their statuses so the words which they say out were unlike Soaring Heavens Merchant Guild to be so mercenary, outright and straight.

They had not even said anything about recruiting Li Moying under their wing.

But whoever present would have understood that this was Splendid Violet Heavenly Palace's way of expressing their good intentions towards Li Moying!

For a moment, everyone was filled with envy.

"Heavens.... Elder Guo had really come for this Master Li!"

“To make Splendid Violet Heavenly Palace’s Elder come over to recruit him personally, just what backing does this man have!”

“Don’t know, I really don’t know! This is the first time I’ve seen this man appearing in Sky Emperor City! If he was some old man in Sky Emperor City, he wouldn’t absolutely be some intricate nameless youngster which no one could recognise! So today must be the first day that he had entered the city!”

“First day entering the city and he already attracted Splendid Violet Heavenly Palace’s attention! Just what kind of innate talent does he have? Really when one is compared to another, one would die from it!”

“Great innate talent, and able to join one of the Seven Sacred Lands, this Master Li’s future is limitless!”

When Wen Yikai heard these discussions, he somehow felt slightly imbalanced inside.

Speaking of that, he himself was had ninth grade lower innate talent and that year, he had begged shamelessly, passing several rounds of assessments before he was able to formally become a disciple to Guo Zhenqing as his Master but now Guo Zhenqing actually came over personally to take Li Moying as his disciple?

This young lad looked very young, with his hair not fully grown yet.

Chapter 1653: The fight for the peerless genius (10)

Other than being exceptionally good looking which would make any ladies who saw him going weak in the knee, there didn’t seem any other exceptional part about him?

Could he really be more powerful than himself?

Wen Yikai silently decided that in future after Li Moying became his Junior Brother, he would ‘take good care’ of him, to let this fellow know just how deep the concrete details of Splendid Violet Heavenly Palace was, and that he wasn’t the only genius there!

Wen Yikai was planning these in his mind but by surprise, he suddenly heard Li Moying’s cold and distant voice ringing from above his head.

“Master Wen, I appreciate your Master’s kind intentions but I have no interest to meet with him, please leave!”

Wen Yikai went into a blank, “..... what did you say?!”

He simply felt that he must have heard wrongly!

Because this matter should absolutely not have happened!

An Elder from one of the Seven Sacred Lands came here personally and even sent his beloved disciple under his wing to introduce themselves. To any young men in Sky Emperor City, it was an utmost glory!

Even if the recipient was a ninth grade talented genius, that person should regard it as an honour and immediately run over to fawn on them with jolting buttocks.

Wen Yikai had not expected that there would be anyone who would reject the meeting!

Li Moying's gaze brushed past Feng Bozhong and the others and he calmly replied, "We've delayed our journey for quite some time and I understand all your intentions but I've also made things very clear, I will not lean towards any of your forces."

When Wen Yikai heard what he said, he suddenly came to realise the truth.

It really wasn't him having any hallucination but this so called peerless genius had water in his brain, otherwise he was really crazy!

"Do you know what you're saying? Did you think Splendid Violet Heavenly Palace can be compared to the Feng family, that kind of small powerhouse? This is one of the Seven Sacred Lands! Do you know just how many Elders in the ninth stage realm do we Splendid Violet Heavenly Palace have? How many ancient historical inheritances that we have? How many exclusive cultivation resources?"

Wen Yikai raised his voice.

He felt that if Li Moying didn't had any issue with his head, then he must be a country bumpkin who had just entered the city and wasn't sure of what's going on, to actually put Splendid Violet Heavenly Palace together on the same level as Feng family that kind of forces!

However, even after he exhausted his shouting to advertise, Li Moying still wasn't moved at all as his brows rose, "So what about that?"

Wen Yikai's eyes turned wide, "So what about that? Do you know that is the opportunity which so many practitioners had dreamt of?"

Li Moying replied indifferently, "Splendid Violet Heavenly Palace is indeed extraordinary but it doesn't suit me. I can only apologise as a reply!"

Saying that, he held Huang Yueli's hand in his and calmly replied, "Goodbye" as he prepared to leave.

Everyone had an extremely astonished gaze as they stared fixedly at his silhouette, watching as he carefully held his fiancée and brought her into his arms evading the crowd.

No one dared to believe that Li Moying had really rejected the good intentions from Splendid Violet Heavenly Palace!

Even though Guo Zhenqing was just standing not too far away, he did not even head over immediately to meet him!

Wasn't this just a little too arrogant! Not even placing a ninth stage realm peak top practitioner, who did he thought he was? What kind of status did Elder Guo had, for him to treat him with such disdain. Under his rage, he might even just kill him with one strike!

As expected, the crowd's mind had just flashed by this thought when they saw Guo Zhenqing's figure moving.

A blurry bright silhouette flashed past and he immediately stopped Li Moying in his tracks.

“Lad, you’re indeed bold! Do you know who I am?”

Guo Zhenqing’s face was filled with wrinkles but his eyes were exceptionally bright with an imposing glint.

Chapter 1654: Who will win (1)

Just as Guo Zhenqing was talking, he silently unleashed the Profound Energy within his body.

Strong suppression enveloped the entire region.

“Pfft!”“Pfft!”“Pfft!”

The weaker practitioners around them had immediately thrown up blood and fainted!

Li Moying’s expression remained indifferent as though he had not suffered much suppression.

The influence on one’s Profound Energy suppression was first determined on one’s cultivation and then followed by the intensity of their meridians.

The more stable the foundation and more tenacious it was in talented practitioners, the more they were able to take the suppression from practitioners who were of higher cultivations than them.

Based on Li Moying’s current god grade innate talent, even if a powerful practitioner from God Realm descended, it would be difficult to use suppression to cause him any harm, moreover Guo Zhenqing was just a ninth stage realm peak practitioner?

The number of practitioners who were throwing up blood around them were increasing and quite a number of them could not withstand the suppression from such a peerless top exponent hence they had all fallen onto the ground twitching as they foamed at the mouth.

If it was any other Sect’s forces, on seeing so many practitioners around them being affected, in order not to cause too much of a chaos, they would definitely have stopped by now.

However, Guo Zhenqing didn’t even bother to cast a look at those weak ones as he had once again increased the degree of his Profound Energy, directly casting towards Li Moying’s direction!

The life and death of those “weak” surrounding them was of no concern to him at all!

Seven Sacred Lands.... Was just this overbearing and conceited!

Li Moying’s expression met Guo Zhenqing’s vision coldly.

He knew for sure that Guo Zhenqing would make a move to test him. Part of the reason was because he couldn’t accept Li Moying’s rejection whereas on the other hand, which was the more important reason, it was definitely to test his potential!

After all, that rumour regarding Li Moying’s innate talent was just too ridiculous!

Unless he witnessed it with his own eyes, otherwise anyone would have their suspicions.

Li Moying narrowed his eyes slightly as numerous thoughts flashed past his mind swiftly.

If he were to exhibit his potential right here now, it was possible that Guo Zhenqing would not be willing to let him off even more so! But if he had to pretend to not go up against him and lose in a sorry state.... Even if it was just a pretence, based on his conceited pride, it was totally unacceptable!

While Li Moying was thinking it through, Guo Zhenqing had increased his Profound Energy's suppression by another notch!

Even a ninth stage realm practitioner like Feng Bozhong found it hard to sit or stand still.

Just at this moment, Guo Zhenqing suddenly let out an exclamation "Hmm" as his vision shifted from Li Moying to his side.

Li Moying's heart jolted as he turned around to look at Huang Yueli.

He saw this young lass having a slightly pale expression but she was still standing firm on the ground, totally not falling down or throwing up blood.

"This young lady....." Guo Zhenqing suddenly opened his mouth!

If Huang Yueli was a ninth stage realm practitioner, this expression could only be said to be just passable, and not attract Guo Zhenqing's attention.

However, the Profound Energy fluctuations from her apparently meant that.... she only had a mere fifth stage realm later stage cultivation!

Honestly speaking, based on her age, to be in the fifth stage realm already wasn't bad at all but just based on cultivation alone, in Sky Emperor City, she was only considered to be middle class and below.

The surrounding practitioners who had the same cultivation level as her had all fallen down twitching and fainted. But although she was in the centre of suppression, she still remained standing properly.....

This innate talent.... was indeed shocking, probably not too far off from the man standing next to her!

When Li Moying saw Guo Zhenqing's bright eyes, his heart silently sighed!

This round things weren't going so well. No matter if he moved or not, none of them were going to be able to leave!

Chapter 1655: Who will win (2)

Li Moying took a side step and blocked himself in front of Huang Yueli.

On one hand, it was to obstruct a large part of Guo Zhenqing's Profound Energy suppression while on the other hand, it was to block the investigative vision which this old man had landed onto Li'er.

"Elder Guo, you're looking for my fiancée, what may we do for you?"

Guo Zhenqing met Li Moying's cold gloomy eyes and went into a slight blank, ".....your fiancée?"

It was now that he finally recalled that it was once mentioned in the report regarding Li Moying's data, that this astonishingly peerless genius had already gotten engaged at such a young age!

But Guo Zhenqing totally didn't bother to take notice of his fiancée's biodata at all.

From what he thought, if Li Moying indeed had that kind of rumoured innate talent, then even a top talented lady in Sky Emperor City would only be suited to be his concubine, what more for a young lass who had popped out from some countryside?

After Li Moying had entered Splendid Violet Heavenly Palace, the Sect would definitely arrange for other ladies with much outstanding innate talent for them to engage in double cultivation.

A country lass from the South Sky Region was not even qualified to be his bondmaid!

But if Li Moying really liked her that much, taking her in as a servant to warm up his bed wasn't impossible.

With this first impression which lasted in his mind, Guo Zhenqing totally wouldn't admit that Li Moying had a fiancée so naturally he wouldn't go take notice of what her innate talent or cultivation was at!

It was right until he met her in person that he realised that.... he had thought wrongly!

Furthermore it was extremely ridiculously wrong!

Based on fifth stage realm cultivation to easily deflect a ninth stage realm practitioner's suppression, that kind of innate talent was at least ninth grade upper talent and above! There wouldn't be a second in the entire Sky Emperor City!

No wonder Li Moying was in such a hurry to tie her down, so.... he wasn't silly nor was he indulging in her female charms but he had already long knew that the young lady beside him was the only one whose existence was compatible with his!

(Li Moying: What on earth do you know? This Young Master here is indulging in her female charms.....)

Guo Zhenqing was instantly excited!

What was called cake dropping from the sky? This was it!

He had not expected that he came because of Li Moying alone but he had discovered two peerless geniuses at one go instead!

The more fortunate thing was these two were a couple and their relationship was really good. As long as he could settle Li Moying, he would definitely be able to take in this young lass into his wing as well, which was killing two birds with one stone.

To take in two ninth grade talent disciples.....

If it really went according to his way, Guo Zhenqing would probably wake up from his dream while laughing!

Thinking of this, Guo Zhenqing totally discarded the stance of a Seven Sacred Land Elder and kept away all the Profound Energy which he had unleashed. His wrinkled face revealed a smile as he took a step upwards and his attitude instantly became unusually amiable and kindly.

“Master Li, Miss Bai, which powerhouse do you intend to lean towards? Which area does Splendid Violet Heavenly Palace make you dissatisfied? Or could it be that you have other conditions? Feel free to speak your mind and let’s discuss it! Why must you keep people at a distance of one thousand miles away the minute you voice out?”

When Guo Zhenqing said these, those practitioners who had not fainted all opened their eyes wide as their chins all fell onto the ground.

This, this, this... just what situation was this?

Why had Elder Guo who had always been cold, aloof and arrogant suddenly had a change of face?

Hearing this tone, he seemed to be getting into Li Moying’s good books? Just what was wrong with this?

Li Moying had totally not hesitated to reject his recruitment so shouldn’t Guo Zhenqing be throwing a rage and killing him with one palm strike? Why was it that he actually smiled instead?

Chapter 1656: Who will win (3)

Li Moying knew clearly that Guo Zhenqing had taken interest in his Li’er for sure.

This old man’s sight isn’t too bad, but unfortunately he had misjudged the scenario wrongly.

Li Moying shook his head without any hesitation, “Elder Guo, we really don’t wish to raise any conditions but we just merely don’t want to join Splendid Violet Heavenly Palace...”

Guo Zhenqing frowned, apparently not believing in what he said.

“Mister Li, we are upright people so we won’t say unclear things! You and your fiancée have arrived in Sky Emperor City, certainly to seek more chances and to seek a breakthrough in your way of cultivation! Based on your innate talent, to breakthrough, you’re merely lacking in cultivation methods, inheritances and various resources and all these.... are exactly our Splendid Violet Heavenly Palace’s forte!”

“Although among the Seven Sacred Lands, we Splendid Violet Heavenly Palace had always been the lowest key clan, but in terms of inheritances and resources, we are in no way inferior to the other few families! Moreover I can guarantee that you and your fiancé will obtain Splendid Violet Heavenly Palace’s full support, choosing freely from any cultivation method or resources which you want!”

The minute he said that, it caused another bustle.

The conditions which Guo Zhenqing had raised actually wasn’t much different from Cheng Zhenbo but the amount of money involved was miles apart.

Soaring Havens Merchant Guild’s inheritance and resources, were after all limited.

But Splendid Violet Heavenly Palace as one of the Seven Sacred Lands, the number of inheritances which they helmed were as vast as the deep sea, innumerable.

Many ancient cabala which seemed to have been lost from an outsider’s view, could all be found in the Scripture Depository.

However, in such a large powerhouse, inheritances were also hard to obtain as the management was extremely strict. Even for direct disciples, it was necessary to use the Clan's contributions to exchange for it.

Now Guo Zhenqing actually made the promise of choosing freely as they wished, just what kind of concept was that?

Even if he was Splendid Violet Heavenly Palace's Elder, not everyone had this kind of authority! If this went out, it would make all the practitioners in Sky Emperor City envy them to death!

Everyone assumed that when Li Moying heard this condition, he would definitely not hesitate any further and agree to it immediately.

This was a rare opportunity which could not be found easily and once they've missed it, how would there be a second time?

Even if Li Moying really didn't want to incline towards any forces but he would surely change his mind at this time right?

Even Luo Jiyun, Mo Yi and the rest also felt that Li Moying would nod his head!

Whoever knew that when Li Moying heard that, the expression on his face did not change as he resolutely shook his head.

"Elder Guo, I've already made things very clear! No matter what conditions you offer, it's impossible for me to join the Splendid Violet Heavenly Palace!"

"You....."

Guo Zhenqing also couldn't breathe!

As Sky Chart's twelve ranked top exponent, he didn't have many opponents in the entire Sky Emperor City so whichever practitioner saw him wouldn't shiver in fear and trepidation, treating him like an Emperor?

How many years had it been since he had automatically expressed any good intent towards anyone?

Whoever knew that he had already got off his high horse and yet Li Moying actually refused to give any face to him?

On hearing the surrounding's whisperings, Guo Zhenqing's old face couldn't hang on any further!

"Good, you're indeed a peerless genius who had appeared once every ten thousand years, indeed conceited! A pity, no matter how high your innate talent is, your wings have yet to grow and you're being too arrogant! Since you refuse to listen to my kind words, then don't blame me for being nasty!"

Guo Zhenqing couldn't take his loss of face as his expression changed and the Profound Energy in his body suddenly gathered in an instant as he abruptly struck out!

A ninth stage realm practitioner's penetrative and overbearing Profound Energy suddenly struck out towards Li Moying!

Chapter 1657: Who will win (4)

Momentarily, intense Profound Energy fluctuations forced the surrounding practitioners to keep on retreating.

Bursts of shrill cries filled the sky and a flash of striking bright light enveloped with shocking power rushed towards Li Moying!

This burst of turbulent surge of Profound Energy was like flood waters. Not only was it extremely overbearing, it also blocked off Li Moying's up, down, left right, all directions as it all charged towards the position which he was standing at.

The minute the bursts of energy closed in around him, Li Moying would be wrapped in between the Profound Energy causing instantaneous injuries all over.

Guo Zhenqing had a cold smile on his face as he stared intently at Li Moying, just waiting to see his dishevelled look after he was struck!

However, Li Moying merely casted a slight glance at him and his right finger pointed upwards as he lightly pointed in mid-air!

A word came out of his mouth softly, "Break!"

Following his action, Guo Zhenqing's burst of Profound Energy actually burst in accordance with his command as an intense explosive sound was heard in mid-air, causing the surrounding few blocks of houses nearby to suffer from the explosion!

Whereas Li Moying himself who was standing in the middle of the Profound Energy storm was totally unharmed.

On the contrary, Guo Zhenqing suffered the backlash from his own Profound Skill which hurt his chest as his blood started churning, almost throwing up blood.

"You.... you... how is this possible??"

Guo Zhenqing stared at him with his eyes wide open fixedly, totally unable to believe what he had just seen!

He had intentionally shown off his might in front of Li Moying, to let him see his own ability hence when he made a move, he had used the Profound Skill which had set a name for himself, something which he was most proud of – River Convergence Sea Palm Strike!

But Guo Zhenqing's motive was still to take him in as a disciple hence he didn't want to cause any serious damage to Li Moying so he only used thirty percent of his energy.

But even so, this move was still exceedingly powerful because this was Splendid Violet Heavenly Palace's exclusive god grade Profound Skill which was passed down from an ancient inheritance!

Ordinary practitioners from small forces, even if their cultivation reached ninth stage realm ninth level, they wouldn't have any resistance against this kind of astonishingly destructive power.

Whereas Li Moying was only at ninth stage realm first level where his ability was miles apart from Guo Zhenqing! Furthermore he came from a small Sect in South Sky Region, hence he couldn't possibly have seen any kind of god grade Profound Skill.

How could he possibly have such precise sight to be able to see through the only Achilles' heel in just a flash of thought, and even pinpointed it exactly in just one move?

How would Guo Zhenqing ever know that Li Moying was not some ignorant young lad from a small Sect, but he was the most knowledgeable Big Demon Lord in the entire Soaring Heavens Continent!

Just Guo Zhenqing himself, he had already been beaten hands down by Mu Chengying so just how much skills did he had, how would Li Moying possibly not know?

But in the eyes of those who didn't know the truth, this scene was just simply too shocking!

A newly arrived freshman in Sky Emperor City, actually didn't suffer any losses under Guo Zhenqing, and even easily blocked his turbulent move?

This kind of genius... was simply unheard of!

Guo Zhenqing's elderly face started to be filled with an embarrassing red shade, feeling that his face was thoroughly lost!

At the same time, he valued Li Moying's innate talent even further as his thirst to take him under his wing grew.

He gave a slight cough as he covered up and said, "This young lad, your... power of comprehension is indeed not bad at all, and your innate talent has passed by me! How about taking a few more strikes to try it out?"

His skillful words made the surrounding practitioners reveal an enlightened look.

"So.... Elder Guo was just testing Master Li's ability! That palm strike had probably not even used fifty percent of his strength, no wonder he could take it on so easily!"

Chapter 1658: Who will win (5)

"Elder Guo really gave a lot of thought into this!"

"That Master Li is able to get such nurturing from Elder Guo, it's really his blessing for three lifetimes!"

Under everyone's praises, Guo Zhenqing finally found back some face as his expression seemed slightly better.

He fiddled with his beard as he put on an unfathomable look and said, "Master Li, have you thought it through already? If you haven't, then I will continue to show you my moves!"

Huang Yueli looked at his pretence and couldn't help but laughed out.

Luckily the bustle from their surroundings overpowered her voice hence Guo Zhenqing didn't notice it at all.

Huang Yueli shook her head as she was also shocked by Guo Zhenqing's thick skin! In the past she had always thought that this old man was especially pretentious and from the looks of it now, it seemed that it was really so.....

But from his stance that revealed his unwillingness to forgive, could it be that he really intended to forcibly bring her and Li Moying away? Now was the sounding out phase which was still ok, but if they really started to fight, just based on her and Li Moying's current ability, no matter what they wouldn't be able to fight with a ninth stage realm peak practitioner!

Adding on to the fact that Splendid Violet Heavenly Palace's flying ship had stopped right above their heads.....

Looked like they had to think of an idea to get away.

Just as she was racking her brains, she suddenly felt a tug on her sleeve from behind.

Huang Yueli turned around and saw Luo Jiyun moving close up as he whispered, "Lil Sister-in-law, you.... you'd better hurry and persuade Eldest Senior Brother!"

Huang Yueli went into a blank, "Persuade him? Persuade him on what?"

Luo Jiyun frowned, apparently not expecting that Huang Yueli would be that dazed.

"sigh! Lil Sister-in-law, why are you also.... do you guys know or not, Splendid Violet Heavenly Palace's recruitment, what does that mean?"

"I've heard of the practitioners in Sky Emperor City mentioned that Splendid Violet Heavenly Palace is one of the Seven Sacred Lands but they are one of the top forces in the entire Soaring Heavens Continents! All the geniuses who are able to join the Seven Sacred Lands treat it as an honour and every ten years when the Seven Sacred Lands recruit disciples, many geniuses from everywhere all rushed over, just fighting and hoping to gain a quota!"

"Now Splendid Violet Heavenly Palace's Elder actually personally came over to invite Eldest Senior Brother, wanting to take him in as a disciple! Moreover from his tone, it seemed that he seems to be one of the top rated top exponent in Sky Emperor City! Why wouldn't Eldest Senior Brother agree to it? What is he still waiting for? If he misses this town, then he won't come across this shop anymore!"

Luo Jiyun tweaked his ears and scratched his cheek as he was so anxious that he kept stomping his feet.

He was really feeling anxious for Li Moying!

This was the Seven Sacred Lands! Moreover the minute he joined them he would become an Elder's direct disciple, freely choosing from the cultivation methods or resources!

Who could offer better conditions than these?

Luo Jiyun really couldn't understand what his own Eldest Senior Brother was still hesitating about?

Even the usually composed Mo Yi couldn't sit still, as he lowered his voice and asked, "Third Miss, why does Master refuse to go to Splendid Violet Heavenly Palace? This Elder Guo is really very sincere....."

They really couldn't understand...Li Moying came to Sky Emperor City, wasn't it for the sake of formally becoming an apprentice to a master to cultivate?

Why didn't he just follow the flow and joined Splendid Violet Heavenly Palace?

Huang Yueli didn't know if she should laugh or cry. She had some dealings with Splendid Violet Heavenly Palace in her past life so did she need them to tell her about their condition?

She helplessly said, "Can all of you have some confidence in Moying... he definitely has some arrangement of his own so you need not worry."

A mere Splendid Violet Heavenly Palace had made them so unperturbed already. If they found out about the ultimate place which they were going to end up at, the legendary number one Sacred Lands in every practitioner's heart – Blue Profound Sect, wouldn't they be so shocked that they would faint?

Chapter 1659: The most sacred land among the Sacred Lands (1)

By now, Guo Zhenqing had already lost his patience.

The surrounding practitioners didn't know but he understood it very clearly. Li Moying was young and had lofty aspirations with excellent innate talent hence it was reasonable for him to be this conceited!

Towards this kind of peerless genius, he could only use absolute power to convince him totally!

Hence Guo Zhenqing didn't hesitate any further as he gave a light cough, "Mister Li, this old man is going to strike again!"

He had decided that this time round, he must absolutely display his absolute power to let Li Moying understand his incredibility!

Whoever knew that his words had just fallen when a resonant neigh was heard! Immediately following that was the sound of the fluttering of wings.

Guo Zhenqing had already extended his right hand halfway as he stopped in mid-air, entirely stunned!

Because in the entire Sky Emperor City, powerhouses which had special authority to fly in the skies could be counted with one's fingers but amongst them, the only one who didn't require a mechanism to operate the flying ship but insisted on using flying beasts to pull the ship was...

The fluttering of wings sound got nearer and nearer, and also more and more distinct.

The flying beasts which pulled the boat were entirely white Ink Crown Snow Condors. Other than the ink coloured crown, tip of wings and tail feathers, the other parts of it were of pure snow white colour.

Every Ink Crown Snow Condor's wings extended to at least twenty meters long and when so many of them extended their wings, it hid the sky and covered the earth, hiding a large portion of the sky above everyone's heads, causing a part of the region to turn dark.

Ink Crown Snow Condors were genuine eighth grade magical beasts. Not only were they flying speed extremely swift, their attack power was also shockingly incredible!

Ordinary ninth stage realm practitioners might not even be able to escape from an Ink Crown Snow Condor alive!

But such valiant flying beasts were just like ordinary horses right now, being reared as they were sheathed with ropes to pull the ship.

Furthermore, it wasn't just one or two but an entire fleet of thirty six of them!

A large majority of practitioners had never seen this stance as their eyes widened like full moons with their mouths agape, staring blanking into the sky, all assuming that their conscious weren't clear and they had developed hallucinations.

But when the trio Guo Zhenqing, Cheng Zhenbo and Feng Bozhong saw that flying ship above everyone's heads, they were so frightened that their legs almost turned into jelly!

"This is... This is Sovereign Mu's Snow Cloud Sky Ship!"

There was only one in the entire Sky Emperor City who used Ink Crown Snow Condors to pull the flying ship and that was.... Blue Profound Sect's Sovereign Mu, number one top exponent in Soaring Heavens Continents Mu Chengying's personal use flying ship!

In the past whenever this flying ship appeared, numerous practitioners would be frightened out of their wits as they knelt down onto the ground but this flying ship had not appeared for the past fifteen to sixteen years hence those ordinary practitioners who had just entered the city had not recognised it.

But for those top exponents who had established themselves for a long time, it was impossible for Guo Zhenqing and the others to not recognise it.

Just what was going on? Could it be that the unparalleled peak practitioner that year had reappeared in Sky Emperor City??

Guo Zhenqing and the others looked at one another in dismay as all they could see from each other's eyes were shock and surprise.

This was impossible right? Didn't they all say that Mu Chengying had entered Qi Deviation when he was in closed door cultivation and there was an eighty percent chance that his bones had turned into ashes?

Even Huang Yueli widened her eyes in surprise.

She was the most familiar with this flying ship because this was the most complex ninth tier Profound Armament which she had refined personally.

Snow Cloud Sky Ship required eighth grade magical beasts to pull the ship absolutely not because it was glamorous but because the internal structure was just too complex and if it had to be operated with mechanics, then it would simply be too heavy!

Chapter 1660: The most sacred land among the Sacred Lands (2)

In order to maintain the best condition of the flying ship, they decided on using Ink Crown Snow Condors to pull the ship.

In this way, not only would it lessen the weight, it would also raise the flying speed to a new limit! In a flash, it would reach a hundred miles!

This was one of the most delighted words of Huang Yueli's and only Blue Profound Sect had the ability to tame so many Ink Crown Snow Condors to materialise her concept.

Huang Yueli raised her head and observed for a moment then tugged Li Moying's back as she whispered, "Why had the Snow Cloud Sky Ship appeared here as well? Have you asked Blue Profound Sect's people to come for reinforcement?"

Li Moying nodded his head and lowered his voice as he leaned towards her ear, "Splendid Violet Heavenly Palace's Old Man Guo has his sights on us and earlier his disciple had ran away secretly, apparently to look for reinforcements. If we don't have any reinforcements, then we can forget about leaving! If we were really captured to Splendid Violet Heavenly Palace, then things would take a difficult turn....."

Huang Yueli looked at his slightly frowning face and she couldn't help but burst out into laughter.

No wonder Li Moying was at a loss.

If the two of them were forcibly brought back to Splendid Violet Heavenly Palace, then ultimately he would still require the Four Great Guardians to pick them up, then they would totally not be able to keep low key at all.

The worst of it all was that Li Moying's identity would be exposed sooner or later and if his capture to Splendid Violet Heavenly Palace's matter was exposed, it would be the only stain towards his entire wise times. If this was known to anyone else, they would probably laugh their tooth off, it was really damaging to the number one top exponent's pride.....

Li Moying stared at his black bellied little fox in his arms, "You're still laughing!"

He really couldn't wait to take a bite off her. Her own fiancé was stuck in a difficult position and yet she was still gloating over his misfortune? She was really a little thing with no conscience!

Huang Yueli stopped laughing, "Who asked you to be so genius? Now you're finally famous eh?"

Li Moying pinched her gently at her waist, "My genius fiancée's contributions wouldn't go unnoticed as well!"

Under everyone's awestruck gazes, the Snow Cloud Sky Ship slowly landed above everyone's heads.

It was until now that a few practitioners finally recognised the huge totem at the bottom of the Snow Cloud Sky Ship.

"Take a look quickly! That's.... the emblem of Blue Profound Sect! This is Blue Profound Sect's flying ship? No wonder.... no wonder it's so eye-catching!"

"Heavens, isn't Blue Profound Sect very mysterious and rarely appeared in Sky Emperor City? Now it actually appeared with great fanfare in the city entrance? What big matter is happening?"

"Could it be... could it be.....surely it isn't like what I'm guessing right?"

“What is your guess?”

“Could it be that Blue Profound Sect has the same idea in mind with Splendid Violet Heavenly Palace, just to recruit that Mister Li??”

“Impossible, this is absolutely impossible! What kind of place is the Blue Profound Sect? That is the most sacred land among the Sacred Lands! Even ninth stage realm peak practitioners can forget about joining them easily and Sovereign Mu had never personally recruited anyone before! How would he personally send anyone over for a genius?”

“But... if it's not like this, why would Blue Profound Sect's flying ship suddenly appear at this place?”

Everyone's vision started to float uncontrollably towards Li Moying.

Everyone kept on pondering in their minds, guessing just what was his background!

Why did he attract so many powerhouses' attention on the first day of his entry to the city, moreover the backing just got bigger and bigger!

Now even the Blue Profound Sect was alarmed!

Just at this moment, a ramp was slowly released from the side of the flying ship and a man's silhouette appeared in mid air!

Guo Zhenqing and the others shivered all over as they immediately turned their gazes towards that figure.
