

## **Weaponsmith 1831**

### **Chapter 1831: Probe (3)**

Finding trouble privately for the young disciple Li Moying was one matter, when it came to really coming to the door to challenge the Number One Sacred Land, that was a different matter.

“Clan Leader Leng, do be frank and if there’s nothing else, This Guardian has many other Sect affairs to deal with so I do apologize for not being able to give you a good reception.” Cang Po Jun placed the teacup heavily onto the table, as he spoke in a chilly tone.

This attitude was extremely arrogant.

Before Leng Weiming could say a word, the Elder from Seven Stars Palace couldn’t suppress himself as he spoke out loudly, “Guardian Jun, no matter what we are considered as someone with a reputation from various large powerhouses so isn’t your words a little too discourteous! Blue Profound Sect’s disciples have killed someone and yet still being so arrogant?”

Cang Po Jun gave a cold laugh, “Elder Pan’s words are really interesting. I am Blue Profound Sect’s Guardian whereas you are Seven Stars Palace’s Elder, so since when have our statuses become equivalent? This Guardian invited you guys in to have some tea and that’s already courteous enough! You guys are the ones who are hemming and hawing, wasting so much time!”

Equivalent to the same Elder level character from the Seven Sacred Lands, Cang Po Jun totally didn’t even think much of Elder Pan as he even said it outright.

Elder Pan was so agitated by these words that he almost jumped out of his seat!

“You.... you.....”

Actually when Mu Chengying’s ability was at its peak, Blue Profound Sect was even more conceited and wilder than what they were now! This was the Number One Sacred Land’s confidence and air of arrogance.

But now that Mu Chengying had disappeared for such a long time, some of them were finding it a little hard to adapt, feeling that without Mu Chengying, Blue Profound Sect’s total ability wasn’t comparable to their Seven Stars Palace, so how could they continue to be so arrogant?

He almost wanted to challenge Cang Po Jun but he took a deep breath and managed to control his temper before sitting back at his original seat.

Cang Po Jun saw this and he couldn’t help but sigh with lament. His Sovereign’s ability was just too valiant! Even after disappearing for so many years under the situation where his life and death was unpredictable, for a ninth stage realm peak practitioner like Elder Pan to still have restraining fear of his ability just from his fame alone which didn’t make him act recklessly....

A person who managed to live like this had really reached his limit.

Elder Pan’s anger had not yet quelled as he spoke out in an eccentric tone, “It’s not that we’re hemming and hawing, it’s obviously Blue Profound Sect which had the intention to cover up for the person who committed the crime! This matter is already clear enough. Leng family had an Elder who had been killed

some days ago and the murderer is your Sect's newly accepted direct disciple Li Moying! He even dares to kill Elders from other large powerhouses, he's simply gone too far in bullying others...."

Before Elder Pan could finish his words, he was suddenly interrupted by Cang Po Jun.

"Elder Pan, when have you betrayed Seven Stars Palace?"

Elder Pan suddenly went into a blank, "What? I am totally loyal towards Seven Stars Palace, how could I possibly betray the Sect!"

Cang Po Jun replied coolly, "Really? From your tone, This Guardian thought that you have already turned towards the Leng family and joined them! Since the person who died is an Elder from the Leng family, how did you find out about this? And on what basis do you have to sprout rubbish right here?"

"You....! Alright, then I'll let Clan Leader Leng tell you himself!" Elder Pan was stuffed for words as his face flushed crimson red, turning his head back fiercely towards Leng Weiming while throwing a vicious look at him.

Looking at his cowardly expression, the minute he entered Levitation Sword Palace, he was so scared that he wasn't able to speak a single word clearly. It was no wonder that Leng family's forces had been dropping badly.

Leng Weiming had actually started to regret coming over because no matter which Sacred Land, he totally could not afford to offend any one of them.

When the deities fought, the ones who suffered a calamity were the little imps like them.

But he understood this logic too late and now he was already stuck in a difficult position.

#### **Chapter 1832: Probe (4)**

Under Elder Pan's coercive look, Leng Weiming could only brace himself to open his mouth.

"This... Guardian Jun, the matter happened like this. Our family's Elder Leng Fugui was murdered by someone a few days ago. We found this corpse and suspected that this matter had something to do with your Sect's Li Moying, so we'd like to ask Blue Profound Sect for an explanation regarding this."

Leng Weiming was shaking in fear and trepidation as he immediately shrunk back to his seat the minute he finished his speech.

Elder Pan was thoroughly upset by this. This fellow had obviously become terrified after he saw Cang Po Jun and his words were just too weak so who would bother about him at all?

Elder Pan immediately spoke out, "What suspect! He is killed by Li Moying! How could an Elder from a large powerhouse die for no reason? Aren't you guys going to hand over the murderer!"

Cang Po Jun revealed a cold smile, "Elder Pan's words are really interesting. You're saying that that person was killed by Young Master Li but does that really mean that he killed him? What proof do you have?"

"Proof? What proof do you need? Everyone knows that Li Moying and the Leng family had a feud! He's the one who obviously nurses a grudge against the Leng family and intentionally created trouble, simply

because he was relying on the fact that he's a disciple from Blue Profound Sect so he could kill anyone recklessly! He's simply a villain who has moral turpitude!"

Elder Pan started off with a round of abuses the minute he opened his mouth, casting out various malicious accusations towards him.

"I have personally seen Elder Leng's corpse. The bones on his body had been crushed into dregs and his meridians had all been broken but yet he didn't die immediately. He struggled for four hours on the ground before he finally breathed his last! This method of killing someone is simply too cruel and Li Moying is simply devoid of conscience! I am here today, to help the entire Sky Emperor City get rid of the venom!"

Elder Pan's aggressive look was just like an envoy of justice, just as if Cang Po Jun didn't immediately tie Li Moying up and handed him over to them, he would become one of those evildoers.

Cang Po Jun's expression was extremely gloomy.

Elder Pan's words had insulted the entire Blue Profound Sect, and he even splashed dirty water onto his Sovereign whom he respected the most.

In Cang Po Jun's mind, Li Moying was the greatest existence in the entire Continent and no matter what he did, he was absolutely right. Even if he did casually kill someone, that was something which should have been done so who was this clown Elder Pan to judge?

A loud resounding "crash" was heard as the main hall exploded.

Cang Po Jun smashed an arabesque designed porcelain teacup heavily on the ground as he stood right up.

"Elder Pan, please use your words carefully! This is Blue Profound Sect, not some place where you can behave atrociously at will or where you can speak freely without thinking! This Guardian allowed you into this hall is considered as giving Seven Stars Palace enough face but now you're maligning our Sect's disciples openly, do you really think Blue Profound Sect is that easy to bully?"

Cang Po Jun's ability originally overpowered Elder Pan and now that he was in a rage, it made one even more terrified.

Elder Pan subconsciously took a step back but his lips were still extremely tough.

"I am standing on the 'righteous' side. It's only just and right to pay one's life for murder! Guardian Jun can't win me in words and is unwilling to hand out the murderer, are you intending to use your power to threaten me? Too bad, we Seven Stars Palace isn't someone who you can threaten easily!"

Cang Po Jun gave a cold laugh, "What a joke! A mere Seven Stars Palace, actually dares to challenge Blue Profound Sect? Aren't you thinking too highly of yourself! You've insulted our Sect's disciples and this guilt cannot be forgiven. On account of Seven Stars Palace and Cloud Ocean Sect's relationship with our Sect, we will forgive you this once so why don't you hurry up and scram?! Men, send the guests out!"

His astute and arrogant attitude seemed as though he wasn't chasing away some Elder from the Seven Sacred Lands, but rather a beggar who came up to beg for alms.

## Chapter 1833: Probe (5)

Cang Po Jun waved his sleeves as an indication for the attendants to come in and chase those people out.

Elder Pan was shaking from anger, "Guardian Jun, aren't you going overboard!"

"Why? Elder Pan doesn't bear to leave? Surely you're not waiting for This Guardian to send you off personally?" Cang Po Jun spoke icily.

Elder Pan got a little timid under Cang Po Jun's pressurizing aura.

For the past hundreds of thousands of years, a restraint existed within Soaring Heavens Continent, obstructing many powerful practitioners from breaking through to tenth stage realm and merely remaining at ninth stage realm peak cultivations.

But precisely because of this, it caused many ninth stage realm peak practitioners to have a huge disparity in terms of ability.

The Sky Chart was used to weigh this kind of disparity and Mu Chengying who was on the top of the chart, was able to kill everyone who was in the chart below him.

Cang Po Jun was ranked number six and his ability was extremely strong so Elder Pan admitted that he was not his opponent, hence his imposing manner immediately stood at a disadvantage.

Just as Elder Pan was being hesitant, a middle aged man seated next to him, who had remained silent throughout, suddenly stood up and walked right towards a spot which was not too far away from Cang Po Jun.

"Guardian Jun, what do you mean by this? Is this the way that Blue Profound Sect treats their guests? Could it be that Sovereign Mu isn't around so you guys have lost the basic manners on how to treat your guests?"

The middle aged man who had two short stashes of moustache spoke in a slow and steady manner and the imposing manner coming from him was even stronger than Elder Pan!

"Vice Sect Master Yue, I should be asking you what's your meaning of all these? You guys just came for no apparent reason, saying that our Sect's direct disciple had killed someone. You even came with such an overbearing look, why? Are you intending to capture him personally? Do you treat this as your own place Cloud Ocean Sect?"

Cang Po Jun still bore the icy cold expression but in his heart, he already felt that things were not going very well.

This middle aged man's backing was very huge, he was the Vice Sect Master of Cloud Ocean Sect and ranked number right on the Sky Chart. He was also considered as one of the top experts and although he and Elder Pan's individual abilities weren't comparable to his, but if they joined hands, Cang Po Jun would definitely not be their match!

From their looks, it seemed as though they were set on probing clearly if Mu Chengying was really still alive!

Li Moying's innate talent was outstanding and there were high hopes for him to become the second Mu Chengying. Anyone with brains would surely understand that this kind of peerless genius was the Sect's biggest fortune. He had just killed someone out of convenience so how would they possibly hand him over to other powerhouses to be punished just over such a small matter like this?

Don't say that Blue Profound Sect was the Number One Sacred Lands, even if it was an ordinary powerhouse, they wouldn't possibly do such a stupid thing like this.

Unless.... They were left with no choice.

So these people used the handle of capturing Li Moying, their main motive wasn't for him but for the sake of forcing out the mastermind Mu Chengying!

From what they saw, if Mu Chengying was still alive, he would absolutely not allow anyone to bully his people under his watchful eyes!

If he was unable to protect the genius disciples under his wing, how was he able to claim that they were the Number One Sacred Lands?

Whereas if Mu Chengying continued to keep silent like this, that would only mean that he was really dead or some accident had happened while he was cultivating. So even if he wasn't dead, he wasn't able to come out!

Those large powerhouses which were getting to stir would have no need to be worried about him then!

Cang Po Jun's mind was racing fast but his face revealed a smile of ridicule.

"Interesting, just based on you two's ability, do you really think that you can do whatever you wish in Blue Profound Sect? I'm not the only one in Blue Profound Sect who is at ninth stage realm peak!"

#### **Chapter 1834: Probe (6)**

When Vice Sect Master Yue heard that, he gave a cold laugh.

"I also know that Blue Profound Sect has extraordinary ability and the Four Great Guardians are all strong exponents in the Sky Chart. Other than that, there are several Elders who are in ninth stage realm peak and there are even some Grand Elders who are living in seclusion. Just based on the two of us, of course we naturally wouldn't dare to challenge the might of the Number One Sacred Land."

Cang Po Jun's gaze congealed as he cried out sharply, "Since you know these, still not going to scram!"

Vice Sect Master Yue suddenly laughed out loudly, "Guardian Jun, you've misunderstood our intentions! Of course just me and Elder Pan alone do not have enough qualification so we're not here alone. It's just that we walked much faster so we couldn't help but came over to visit Guardian Jun first!"

"What do you mean??"

Cang Po Jun knew that something fishy was going on as his forehead creased tightly.

"What I mean is....."

Before Vice Sect Master Yue could speak out, an attendant came running in while falling from outside the hall.

His face had evident injuries, as though he had been beaten up. The minute he entered the door, he knelt onto the ground.

“Guar... Guardian Jun, things are not wise! The door.... Many people came to our door, from various large powerhouses and they... they, they all.... all said they’re here to ask you, to hand over Young Master Li...”

“What?” Cang Po Jun’s eyes widened in shock, “Who else came over?”

“There’s.... two Elders from Celestial Heavens Gate, Sky Devil Sect’s Young Sect Master, Splendid Violet Heavenly Palace’s Elder and also.... My... Mythical Flame Palace also sent someone over....”

The more Cang Po Jun heard, the deeper his heart sunk as the grave look on his face could not be concealed any longer.

The other six clans from the Seven Sacred Lands.... Had actually all arrived!

Moreover, every clan sent out their top rated top exponent who were in ninth stage realm peak!

No wonder they had no fear and assumed that they were definitely able to force Li Moying out, to probe Mu Chengying’s actual situation.

So many clans had arrived at the same time, even if Blue Profound Sect gathered all their ninth stage realm peak practitioners to meet the enemies head-on, they might barely be able to win all of them.

But it was not possible for them to start a battle with the six Sacred Lands at the same time!

Otherwise even if they managed to defeat them, it would definitely draw out an even bigger trouble, moreover it might expose the truth related to Mu Chengying’s inability to leave the closed door cultivation!

In this way, the Six Sacred Lands would act without restraining fear and dispatch their troops in full force and by then, it would really be Blue Profound Sect’s greatest catastrophe.

So this time, Blue Profound Sect was really in a place where they could not advance nor retreat.

Cang Po Jun’s mind was in a turmoil and he had not yet come out with a plan, but those various large powerhouses top exponents who were at the door could not wait as they walked in by themselves.

“Guardian Jun, we really haven’t met for a long time! Your cultivation seemed to have advanced yet again!”

“Levitation Sword Palace is really the same as a decade plus ago, it didn’t change much since the time Sovereign Mu went into closed door cultivation.”

“Guardian Jun, how have you been?”

The few top exponents walked in as they all exchanged humble greetings with Cang Po Jun, with a polite and modest attitude.

But Cang Po Jun's back was already soaked with cold sweat completely.

He was very sure that they were being modest because they weren't afraid of him or afraid of the Blue Profound Sect, but..... rather they were secured in the knowledge that they had a strong backing!

Exactly because they had the confidence, hence they resorted to using this kind of peaceful measures before using force. Actually in these peoples' hearts, they had already confirmed that Mu Chengying had already died in a disaster!

Of course Mu Chengying was not dead, but had successfully reincarnated.

But his current ability as compared to that year then was really too big of a difference. Even Cang Po Jun himself was much stronger than the current Li Moying

### **Chapter 1835: Probe (7)**

Cang Po Jun was feeling uncertain but there weren't any signs on his face as he cupped in fist in the other hand as a greeting to the various large powerhouses.

"Each of you are rare visitors. It's really rare that you have made time to grace our Blue Profound Sect which really brings light to our humble Sect, please have a seat....."

He spoke slowly, attempting to draw a little more time.

Because Cang Po Jun had already sent someone to go to the rear hall to ask Li Moying himself while he was with Leng Weiming and the others.

Now that things have developed to such a step, it wasn't something which a Guardian like him could deal on his own, so he could only see what plans Li Moying had in mind.

This time round, was the greatest crisis which he had encountered since he had started acting on behalf to handle the Sect's matters so that left him with no choice but to handle it prudently!

...

Huang Yueli ran all the way from the corridor to the front hall when she suddenly stopped in her tracks.

Cang Po Hun then managed to chase up to her while huffing and puffing heavily.

"Grand.... Grandmaster Huang, aren't your body movements a little too incredible, even I can't chase up to you! You really have no intention to invite Sovereign out, but want to handle the Leng family's matters by yourself?"

Huang Yueli narrowed her eyes slightly as a grave expression appeared on her elegant face.

"I originally had this intention but it looks like this matter isn't something which I can handle on my own!"

Cang Po Hun went into a blank, "What do you mean?"

"We have met with a huge mess!"

Huang Yueli pointed to a distance not too far away.

Strong exponents from the Four Sacred Lands were just entering Levitation Sword Palace's front hall.

They moved swiftly with full determination, all having thoughts of slapping Cang Po Jun's face and to expose Blue Profound Sect's secret so naturally they wouldn't have noticed the two people who were hiding in the corner.

Cang Po Jun took a look and his expression immediately changed.

"Celestial Heavens Gate, Sky Devil Sect, Splendid Violet Heavenly Palace, and even... Mythical Flame Palace! Why has it become like this, the six other Sacred Lands other than Blue Profound Sect have all sent their ninth stage realm peak Elders over! What... what are they intending to do?"

Huang Yueli couldn't help but give a cold smile, "Looks like someone can't wait any longer!"

"Wait? Wait for what?"

Huang Yueli swept him a glance, "Can't wait for your Sovereign to die faster!"

Cang Po Hun was so angry that his face turned red, "Damn it! These people... they indeed don't have any good intentions! Sovereign had been in closed door for so many years and have no longer dabbled in the worldly affairs, Blue Profound Sect is also much lower keyed as compared to that year! They still dare to come create trouble for us now? What has Sovereign stopped them from doing?"

Huang Yueli spoke in a low voice, "That's exactly the thing which I am unable to understand."

She had a feeling that this matter isn't as simple as it appeared.

Although on the appearance, it looked as though the six large powerhouses had come challenged the Number One Sacred Lands for their own benefits, but after Mu Chengying had gone into "closed door" for so many years, in actual fact, Blue Profound Sect no longer had the essence to control the entire Sky Emperor City.

It was actually not necessary for them to work out with such great fanfare just to be so insistent on certifying Mu Chengying's current state.

Not knowing why, Huang Yueli suddenly recalled that the last time she saw several clans from the six other Sacred Lands gathering today, was in the Northern Ice Fields.....

So many of them worked together to set up the Ten Directional Nightfall Formation to attack her, just to obtain the God Relic Sky Phoenix Ring.

Plus the fact that she heard from Ye Xing Hua while she was in the Armament Guild Headquarters on the matter where many unidentified ninth stage realm peak top exponents all forced President Jiang to his death.....

So many ninth stage realm top exponents definitely had their own origins, and they would definitely not appear out of nowhere for no reason.

The highest probability was naturally from various Sacred Lands.

These few matters, was it related or not?

## Chapter 1836: Full of loopholes (1)

“Grandmaster Huang, Grandmaster Huang? Please hurry on and snap out of your daze!”

Huang Yueli was lost in her thoughts but Cang Po Hun was already unable to hold on.

“Grandmaster Huang, later on a fight might break out in the front hall. So many ninth stage realm peak practitioners making a move at the same time is extremely dangerous, I must hurry up to help Big Brother now so can I trouble you to please ask Sovereign out from his closed door and leave Levitation Sword Palace together with him to a place a little further away.”

Saying that, Cang Po Hun was about to rush into the front hall.

Cang Po Jun was alone in the front hall and facing so many same levelled strong practitioners with the same kind of abilities like him, it was imaginable just how much pressure he was suffering from, so Cang Po Jun was in a hurry to back him up.

Huang Yueli pulled on to him hurriedly, “Wait, Guardian Hun, don’t be in a rush yet!”

“Ah, what time is it now! Let me go quickly!” Cang Po Hun cried out urgently.

Huang Yueli shook her head and her speech was still in a not too fast or too slow pace, “Dashing out like this, how much use will it do? Could it be that you really intend to fight with these few people? If you really fought, just based on the two of you, how are you intending to defeat so many first rated top exponents?”

Cang Po Hun replied anxiously, “Then what should we do? Now the question isn’t whether we want to fight or not, but rather there’s no choice! What if they insist on us handing out the Sovereign, then we will definitely reject it so in the end the result will probably end up in a battle! All of them already pressed on and dropped in so today’s matter definitely will not end up easily!”

He was extremely anxious but Huang Yueli still remained extremely calm as she replied calmly, “Just based on the two of you who can’t settle this, so this matter will still need your Sovereign to settle.”

Cang Po Hun shook his head furiously, “Grandmaster Huang, this subordinate knows your good intentions and Sovereign doesn’t like to hide behind us but based on your current cultivations, it’s after all no longer the same as that year! Ninth stage realm peak practitioners first rated top exponents aren’t someone who you can go up against right now! It’s best that you’d better hurry on and leave first so as long as the two of you aren’t hurt, in future when Sovereign breaks through, you are still able to return the favour.”

Huang Yueli looked at his earnest expression as she shook her head not knowing if she should laugh or cry.

“You, can you listen to me first? When have I ever said that I wanted to fight? What I’m saying is to do reparations! Reparations do you understand?”

Cang Po Hun’s face was still blank, “Reparation? It’s already at this stage, is it still possible... to do reparations?”

“Of course! But, this required a bit of skill.....”

Huang Yueli looked left and right and after certifying that no one was eavesdropping on them, she leaned close beside Cang Po Jun's ear.

"Hurry to the rear hall and ask Moying to come out from his closed door, the secret knocking code which I've set with him is....."

The young lady's delicate fragrance's breathing was so close that Cang Po Hun lost his senses for an instance.

"Hey, are you listening? What I'm saying is very important, you must follow exactly what I said! No mistake must happen!"

Huang Yueli noticed that he was absent-minded and frowned as she reemphasized what she was saying.

Cang Po Hun's senses came back as his ears turned red.

But Huang Yueli didn't notice his abnormality but grabbed tightly of time as she continued speaking, "When he's out, tell him....."

As Huang Yueli spoke on, Cang Po Hun's eyes grew wider and wider.

"... Have you understood what I said?" Huang Yueli asked when she finished with her instructions.

Cang Po Hun's eyes revealed an overjoyed look as he hurriedly nodded, "I understood it, understood it clearly! Grandmaster Huang, you've really got the way! In this way, those old tortoises will probably be scared to their deaths!"

Huang Yueli's lips curled up, "They deserve to be frightened to death alive, who asked them to come and be tortured on their own? Alright, let's stop with the gibberish, hurry on and pass my message!"

### **Chapter 1837: Full of loopholes (2)**

Cang Po Hun turned around but took a few steps out and on seeing that Huang Yueli still standing on the spot, he stopped again.

"Grandmaster Huang, aren't you going along with me?"

Huang Yueli shook her head, "I'm afraid that before you have passed my message, the front hall will have already broken out in a fight! I'll head over first and drag some time. Hurry on and leave, there's not much time left!"

"But....." Cang Po Hun's brows creased worriedly.

What was wrong with her? Huang Yueli actually was preparing to go in like that?

Now that the main hall gathered so many people and they were all ninth stage realm and above practitioners, a majority of them were ninth stage realm peak first rated top practitioners! Even Cang Po Hun himself was worried that he wasn't able to take on such enormous pressure.

Whereas Huang Yueli was still in the sixth stage realm but she was actually thinking of entering like this?

Moreover, as the main person involved in Leng family's Elder's murder, she only needed to enter there and she would become everyone's target.

For those young practitioners who met with this scene, if one didn't have a strong heart, they might just possibly faint from seeing this alone.

However, Huang Yueli hadn't even waited for him to finish his words when she merely waved her hand at him and instructed him, "Hurry up! We're all depending on you!"

Saying that, she slipped away into the front hall, so fast that even Cang Po Hun wasn't able to stop her in time.

...

Front hall of Levitation Sword Palace.

After the two parties exchanged humble greetings, Cang Po Jun still remained calm and collected, only instructing the attendants to serve various powerhouses' Elders tea.

The few of those Elders couldn't sit still and after exchanging glances at each other, Elder Pan stood out yet again.

"Guardian Hun, since everyone is here already, regarding the matter which I mentioned earlier, shouldn't you give us an explanation?"

Cang Po Jun gave a cold humpf, "Elder Pan, what on earth are you trying to convey?"

"I have obviously made it very clear earlier! Your Sect's direct disciple Li Moying resorted to vicious and merciless methods, killing an Elder from the Leng family for no apparent reason. Will Guardian Jun please hand him out quickly! You keep on hemming and hawing, unable to make up your mind, are you trying to conceal the culprit who had committed the crime?"

With so many ninth stage realm peak practitioners standing up for him, Elder Pan's confidence became apparent and when he spoke, his voice was much louder as he bore a victorious look.

Not only him, the others also started to chime in.

"Clan Leader Leng is just too pitiful, his family's power isn't quite enough and now even after his Elder had been killed, he had no way to claim back the injustice!"

"So what if it was a direct disciple from the Number One Sacred Lands? Can he murder other practitioners from other powerhouses at will? Isn't there any Heaven's law at all?"

"That's right, quickly hand over the murderer!"

The group got agitated and some unleashed the Profound Energy within them in anticipation, attempting to strike Cang Po Jun into awe with their abilities.

Cang Po Jun's expression turned a little uneasy because in front of so many same graded practitioners, it indeed left him with heavy pressure.

He worked up his cultivation method before he could barely make it seem as though he wasn't affected at all.

“You all... are you trying to coerce Blue Profound Sect to hand over our men? Do you really think that Sovereign is in closed door seclusion and you can act at will in Blue Profound Sect?”

Elder Pan laughed, “Guardian Jun, these words are a little too much. Sovereign Mu is above us and we are all respectful of him but when Sovereign Mu was young, he acted openly and candidly. Now that the disciples under his wing did such a matter, he will definitely deal with this fairly, isn't that so?”

Fairly my a\*s!

Sovereign had always been most defensive towards his own men even if they were in the wrong. When he was still in his peak condition, if anyone came over in such a pressurising manner, he would immediately go on a killing spree, totally not caring who was in the right or wrong so there was no way that he would even allow these bunch of trash to say such exaggerated statements right here?

### **Chapter 1838: Full of loopholes (3)**

Alas, it wasn't the same now as it was before.

In a place like Soaring Heavens Continent, whatever one with ability said was all correct but the moment they lost the absolute advantage, they had no choice but to be controlled by others.

Cang Po Jun was feeling so vexed in his mind but there was no way he could rebuke them.

Elder Pan saw that he had nothing to say to that as he placed his hands behind his back and moved forward one more step.

“Anyway, we are here to request for the severe punishment of the murderer on behalf of all the practitioners' safety in Sky Emperor City! Of course, we do not dare to not respect Sovereign Mu. If Sovereign mu dares to guarantee personally that Li Moying didn't kill anyone, we can only accept it as well. But if even Sovereign Mu has no way to guarantee that, then we can only request your Sect to handle this in an open and just way, to hand out the murderer!”

“That's right, based on Sovereign Mu's reputation, as long as he says a word, we naturally will not dare to defy it.”

“That's right, Sovereign Mu has always been fair and we are all convinced by him.”

Cang Po Jun spoke out icily, “You all obviously know that.... our Sovereign is still in closed door seclusion and he cannot come out to handle this sort of matters!”

“Then there's no way to settle this then!” Elder Pan naturally knew that this was the conclusion and a delightful smile appeared on his face, “We are all convinced by Sovereign Mu, but not you Guardian Jun! If Sovereign Mu doesn't come out, then we can only trouble you to hand Li Moying over! Otherwise... don't blame us for being discourteous!”

When he finished saying that, he took another step forward.

At the same time, all the ninth stage realm peak practitioners present all started to rouse as some stood up while others stood at their original spots, but all of them had accumulated their powers and were just waiting for action as they were fully prepared for battle.

Cang Po Jun clenched his fists as he raised his aura to the highest point!

Cang Po Yu and Cang Po Hun went off separately to pass the message and had not come back yet so there was only him alone here. It could be said that if he was slightly careless, he would die a horrible death.

But he must exhaust all his energy at all costs! He absolutely could not allow Sovereign to suffer even a little bit of danger.

“Clap clap clap! Clap clap clap!”

Just at this perilous moment, a crisp clear clapping sound was suddenly heard from the main hall’s entrance.

Originally the main hall’s atmosphere was already so tense to the extreme that even the air seemed to have congealed. The tremendous pressure dissipated and disciples and attendants who had slightly lower cultivations had already silently collapsed onto the ground.

But this string of clapping sound instantly broke that strange silence.

Everyone’s heart jolted as they subconsciously turned their heads, as they looked towards the door.

But following that, everyone revealed a shocked expression.

Because standing at the door wasn’t a peerless genius whom they had assumed but a young lady with exquisite beauty who looked like she was fifteen or sixteen years old. Her posture was graceful and charming and a pair of watery big eyes seemed to be sparkling, which made her look extremely pure and cute.

Moreover she wasn’t just young, her cultivation was only at the sixth stage realm which was incomparable to those present.

“You.... Huang....”

Cang Po Jun had never expected Huang Yueli to actually run to the front hall at this moment!

He tried ways and means to make Huang Yueli and Li Moying leave as far as possible, but whoever knew that not only had she not left to hide, instead she ran over by herself? What on earth was going on? Didn’t Cang Po Hun convey his message?

Cang Po Jun’s cold sweat dripped down but he suddenly had an idea as he barked out sharply, “Do you know what place is this? Is Levitation Sword Palace a place where an ordinary disciple like you can walk in casually? The Sect’s Elders are discussing matters and yet you just barged in like this, how should you be punished? Not going to get out right now!”

#### **Chapter 1839: Full of loopholes (4)**

Cang Po Jun tried his best to stare at Huang Yueli, attempting to use his gaze to convey the anxiety in his heart to her.

But Huang Yueli seemed as though she didn’t feel anything. Not only had she not bolted away, instead she gave a faint smile.

“Guardian Jun, I’m so sorry for offending these few Seniors right here. But everyone came over to Blue Profound Sect, isn’t it because they want to meet my fiancée? He’s now in closed door cultivation and isn’t convenient to meet guests so surely I need to come out and explain a few words for him right?”

“Huang.... Young Miss Bai, you... what are you trying to do! This matter has nothing to do with you at all.....”

Cang Po Jun was so anxious that he almost wanted to cough out blood!

What time was it now and Huang Yueli actually dared to jump out like this!

She was indeed very talented and intelligent but... this wasn’t sixteen years ago! Did she really think that she was still at ninth stage realm peak?

Cang Po Jun wanted to make her leave quickly but he couldn’t say it out clearly. He hemmed and hawed for half a day, almost choking himself to death!

But before he could finish his words, Leng Weiming had already seen Huang Yueli’s looks clearly as he cried out.

“Bai Ruoli! This lady here is Bai Ruoli, Li Moying’s fiancée!”

“What? She’s Li Moying’s fiancée??”

“What’s the situation? Li Moying is hiding in the Sect now daring to come out but his fiancée came running to the front hall directly?”

“Tsk tsk, he’s really the legendary number one young and smart talent and he indeed has luck with women. This young lass is really a young beauty... but too bad her brain isn’t working very well. She still dares to come running out right now, isn’t her guts a little too fat?”

The few Elders stared at Huang Yueli in shock, as they sized her up from head to toe.

They had all heard that when Li Moying came to Sky Emperor City, he brought along his fiancée but the number of people who recognised Huang Yueli was very limited.

Many of them only focused on Li Moying’s fame so who would place their emphasis on the young lady next to him? Splendid Violet Heavenly Palace’s people knew a little but they had not expected that her actual innate talent was actually on the same level as Li Moying.

Elder Pan slapped his thigh hard as the smile on his face became even more apparent.

“So you’re Li Moying’s fiancée! Clan Leader Leng, I heard that when Li Moying killed the Elder, his fiancée was just by his side, is that so?”

Leng Weiming had already shrunk himself into a ball by now.

The larger the commotion escalated and the more important characters who appeared at the scene, Leng Weiming had already started to regret coming to Blue Profound Sect, simply couldn’t wait to make himself disappear completely!

Earlier he was just too shocked hence he shouted out Huang Yeuli’s identity.

Whoever knew that when Elder Pan asked him a question, everyone's attention immediately gathered around him again.

Leng Weiming spoke out in fear and trepidation, "Yes... yes that's the case....."

"Then good! Let's capture this young lass first! I heard that Li Moying pampers his fiancée dearly and if he doesn't come out, we will... heh heh heh, such a delicate young beauty, she's really not commonly seen....."

Elder Pan's wrinkled face revealed a wretched smile.

Cang Po Jun's expression immediately changed as he shot upwards in front of Huang Yueli, blocking her behind him.

"Elder Pan! Please mind your own status! Are the female disciples in Blue Profound Sect someone who you can tease?" As he was saying that, he hinted to Huang Yueli to leave immediately, "Bai Ruoli, still not leaving! How dare you defy this Guardian's orders!"

Elder Pan's words had scared Cang Po Jun badly.

#### **Chapter 1840: Full of loopholes (5)**

He suddenly recalled that Elder Pan was Sky Emperor City's famous lecher, dirty old man!

If Huang Yueli really fell into the hands of these people and suffered from any injuries or violation, Sovereign would be extremely furious!

Cang Po Jun didn't know why Huang Yueli had to run over to create more trouble!

He blocked himself in front of Huang Yueli now so that she could gain some time for herself. If these top exponents were bent on catching her, he was unable to go up against them just based on his own effort.

Cang Po Jun was burning with anxiety but Huang Yueli wasn't the least alarmed at all.

These people didn't recognize her but she was able to recognise at least half of them because in her past life, she had some dealings with various large powerhouses' Elders.

Her feet didn't move and she stood behind Cang Po Jun, blinking her large eyes curiously.

"What's the matter? From these few Seniors' meaning.... You're all here for Moying?"

Elder Pan's sight drifted wantonly around her delicate, pretty face as he gave a wretched laugh, "Young Miss Bai, what you said is indeed correct. Li Moying killed Leng family's Elder and stirred an uproar among the masses! It's only right to pay with one's life for murder and today with so many top exponents here, he's a goner for sure! But if you're willing to help him redeem his sins, we can also consider letting him die a less painful death, heh heh....."

"Elder Pan, what do you mean by that? Do you really think that everyone is dead in Blue Profound Sect?"

Cang Po Jun's expression changed abruptly when he heard that!

Li Moying's temper, allowed others to insult himself, but if it was insulting Huang Yueli, that could not be done!

If Elder Pan's words were to be heard by Li Moying, it was highly possible that Li Moying would take action against him regardless of the consequence!

However, based on Li Moying's current ability, dealing with an Elder Pan was already barely manageable, not to mention that Elder Pan had so many other helpers... this matter, how could it be reconciled?

Moreover, as Li Moying's subordinate, his Mistress being insulted was akin to a heavy slap on his face.

Huang Yueli's expression turned a little ugly but she didn't throw a temper, instead she was all smiles as she opened her mouth.

"In this case, the few of you are really here because of Li Moying! I've never expected that Blue Profound Sect's face to be that big! He's merely a direct disciple but able to attract so many large powerhouses' Elders to come pay him a visit. Looks like Blue Profound Sect's direct disciple's status in Sky Emperor City is getting higher and higher....."

The few Elders present originally were beaming with high spirits.

But on hearing Huang Yueli's words, they immediately became embarrassed.

Huang Yueli's meaning was evident, meaning they were shameless enough to come right here just over a small matter.

But according to the way she put it, it sounded as though so many powerhouses' Elders, all added together, were around the same as Li Moying's Blue Profound Sect's direct disciple status!

"You... wretched lass, what do you mean! What status do we have, how could it be possible that we're all here because of Li Moying? We're willing to come to Blue Profound Sect, just because...." Someone couldn't stand it and almost revealed the truth directly.

Elder Pan quickly coughed slightly interrupting him, "Cough cough, Elder Zheng! There's no need to entertain their gibberish, we'd better hurry on to settle our proper business!"

"Oh, right, right!" Elder Zheng hastily hushed, as he wiped off the sweat on his head awkwardly.

But the other Elders all gave a shocked and surprised gaze towards Huang Yueli.
