

## **Weaponsmith 3021**

### Chapter 3021 Join Hands (3)

As expected, the two demon tribe practitioners hesitated for mere moments and then responded!

“Damnit, that human fellow must have regained consciousness and escaped!”

“How Is that possible? When one lands on the Toxic Swamp, there is a 99% chance of caving into it. Let’s not forget that this swamp often gives off ptomaine. Humans can’t take that poisonous qi at all!”

“Since this person escaped, doesn’t it show that his innate talent is really not bad? We must quickly find him!”

The two quickly reached a consensus and started to search around the surroundings.

From this stance, it wouldn’t take long for them to find Huang Yueli’s hiding place.

Huang Yueli couldn’t help but frown. Turning around to take a look, she tried to find a route which she could secretly escape.

But unfortunately, behind her was a vast, dark forest. There was no way to see the situation clearly.

Furthermore, Huang Yueli was unfamiliar with this. She was worried that there would be other demon tribe practitioners around. For a moment, she didn’t know where she could escape to.

Just as she was hesitating, a familiar voice suddenly rang from her back.

“Quick, follow me!”

Huang Yueli abruptly turned back and saw a familiar person. It was the human Spiritual Alchemist that she met in the light sphere.

This person was well-dressed when they were teleporting. He looked like a rich, young master who was particular about his dressing. But after experiencing several near-death situations, his image was rather disheveled. There were bruises on his face and his clothes were very crumpled. The stench on him was comparable to Huang Yueli’s.

“Don’t go into a daze. Quickly follow me! Hurry!” The Spiritual Alchemist urged.

Huang Yueli instantly followed behind him.

No matter what, this person was a human, and he looked much more reliable than those two demon tribe practitioners.

Alas, while they were slowly moving, the demon tribe practitioners had already chased up onto them.

“There’s someone here! I have already caught a whiff of their scents!”

“That’s right, that’s the smell of the ptomaine from the Toxic Swamp!”

As they spoke, they quickly headed towards the target and ran towards them!

The human Spiritual Alchemist couldn't help but curse. "Damn it! The demon tribe indeed are abnormal beings. Their sense of smell is so acute, they're just like dogs!"

The two of them didn't expect the remnant smell on them to expose their whereabouts.

"Human, stop running! You're already on our demon tribe's turf, and you're still thinking of escaping? You'd better surrender obediently. At least you will suffer a little less!"

"Tsk tsk, there are actually two living beings! That's great, let's catch both of them! This is a surprise reap!"

The demon tribe practitioners revealed malicious smiles and hurriedly chased after the two of them.

The Spiritual Alchemist had gained some basic understanding of the forest's topography and led Huang Yueli to weave through the forest, trying to shake off those two pursuers.

But the demon tribe practitioners' speed was extremely swift. Moreover, they had a natural in-born innate talent where their vision remained clear in dim or total dark situations. This was something that Huang Yueli and the other human could not match.

Seeing the pursuers closing into them, Huang Yueli simply stopped.

"Alright, let's stop running since we can't outrun them anyway! I think your cultivation's not too weak as well. Why don't we join hands and kill them!"

The human Spiritual Alchemist was stunned but instantly smiled.

"Great, just what I was thinking! Let's show them how powerful humans can be!"

Chapter 3022 Join Hands (4)

Huang Yueli was surprised that the human Spiritual Alchemist agreed so readily.

But she didn't have time to think too much since the enemy had almost chased up to them.

"Alright, then I'll attack first. Take note to protect yourself and support me by attacking from the side!"

Saying that, Huang Yueli's right hand lifted and a burst of True Phoenix Fire flew out from her palm!

The demon tribe practitioner who ran first was caught off guard and was hit. He gave off a miserable cry. Apparently, he was badly injured.

Huang Yueli didn't expect a casual move to have such destructive power and went into a short blank.

The human Spiritual Alchemist chased up to her and he asked when he saw the situation. "That's the True Phoenix Fire, right? The demon tribe is most afraid of this! True Phoenix Fire has a purification function and the demon tribe's soul and spirit can't take the might of the purification. Burn him a few more times! These two demon tribesmen are Earth Devils, and their abilities are much higher than ours!"

Hearing that, Huang Yueli didn't dare to slack and immediately summoned a large amount of True Phoenix Fire to attack the demon tribe.

Although she didn't understand the situation on the battlefield against the demon tribe, she knew that there was a ranking of abilities in the demon tribe. They were also segregated into ordinary devil soldiers, Earth Devils, Sky Devils, and Devil Overlords.

Earth Devils were equivalent to God clan and the human race's Heart Profound Realm top exponents. Whereas she and the human Spiritual Alchemists were only in Dream Profound Realm. Just based on cultivation alone, it was impossible to match the enemy.

Luckily, Huang Yueli's True Phoenix Fire could obviously curb the demon tribe. Moreover, her god grade innate talent in controlling the flame was several times more in displaying the might of it! Hence, they were totally not losing out in the battle.

The human Spiritual Alchemist followed tightly behind as he also launched attacks at the two Earth Devils.

When he struck, Huang Yueli was astounded and saw him in a new light.

The air was filled with Earth attributed energy. Under his control, it instantly caused an intense tremor, giving off a strong aura.

One had to know that Earth attributed energy was commonly used to treat. In terms of defense, it's not bad. But for attacks, there was no way to compare it with fire or thunder attributes.

However, this gentle Earth attribute had such invasive power in the hands of the human Spiritual Alchemist!

Before the demon tribe could react, several land parcels had arched on the ground suddenly.

A few thick tree roots popped out from the ground like whips and swept towards the two demon tribe practitioners at an astonishing speed.

They jumped up in a fluster, wanting to avoid this powerful attack. But they had just retreated several steps back when they heard the cracking sounds in the air from their backs once again!

Another few tree roots swept towards their backs from the reverse direction!

The two devils hurriedly changed their direction once again.

However, no matter how hard they tried, it seemed to be useless.

The location that they were in right now was a vast forest that was not lacking in trees. No matter which direction they ran in, there would be trees next to them.

The human Spiritual Alchemist summoned innumerable tree roots, chasing behind them tightly and attacking them on the left and right.

Just when the two devils managed to hide a little further and prepare to counter-attack, they were suppressed by Huang Yueli's True Phoenix Fire.

Huang Yueli and the human Spiritual Alchemist had tacit cooperation. Initially, they were not used to it. But later on, their cooperation increasingly became more well-coordinated.

Under their continuous attacks, the injuries on the two demon tribe practitioners grew from bad to worse. In the end, they finally lay dead on the ground.

Chapter 3023 After All, We're Both Men (1)

"Great, we've finally succeeded!"

The human Spiritual Alchemist felt a surge of pure adrenaline and wanted to dash forward.

Huang Yueli pulled on to him. "Be careful. What would happen if they aren't dead, or if they're just pretending to be dead?"

She used her True Phoenix Fire and thoroughly burned the two demon tribe practitioner's bodies once again. Both of them lay on the ground, totally not moving at all.

Only then was Huang Yueli relieved. "Looks like they're really dead!" She turned towards the human Spiritual Alchemist, cupped her hands in salute, and spoke in an earnest tone, "Luckily you're around today. Otherwise, I wouldn't be able to deal with these two Earth Devils on my own at all!"

The Spiritual Alchemist smiled and said, "That's just a small matter, and there's no need to say thanks at all! I'm also saving myself by saving you! This place is the demon tribe's control area and those devils are everywhere. It wouldn't be easy for me to return to Blessed City on my own, so if I have a companion, it will be advantageous to me."

Hearing that, Huang Yueli smiled as well. She was rather fond of this human Spiritual Alchemist. Not only was his ability decent, but he was also a straightforward person which she appreciated a lot.

She thought for a moment and asked, "Earlier you mentioned that we have landed on the demon tribe's control area? What place is this exactly?"

The human Spiritual Alchemist said, "I'm not too sure as well. But yesterday night, I studied the stars in the sky and gauged that we are a few hundred miles away from Blessed City. If we were to travel on the official channel, we will be able to reach in a few days. But now, it wouldn't be easy for us to find the way out under the eyes of the demon tribe..."

Huang Yueli couldn't help but frown, "How could this be? The light sphere which we teleported in was already at Blessed City's city walls when we came out from the void space, wasn't it?"

"When the light sphere shattered, the impact was too great. It deviated from the designated route and floated to the demon tribe's side. Additionally, when we fell, we met with the time when the demonic qi happened to be dispersed, so we floated along with the flow of the demonic qi for a couple of days. That's why we were thrown to the current location."

When Huang Yueli heard that, she asked in surprise, "So, it has already been a couple of days since we have been attacked??"

"That's right." The human Spiritual Alchemist nodded.

Huang Yueli was astounded.

To her, being unconscious for such a long time was an extremely rare occurrence. Especially after her soul trace had merged as one with the Sky Phoenix Ring, with the aid of the god relic, her willpower was much stronger than ordinary practitioners. So ordinary poison gas basically did not affect her at all.

She didn't expect this demonic qi to have such a great impact on her!

Thinking of this, Huang Yueli attempted to call Little Wang Cai in her mind.

However, she didn't receive any response. The Sky Phoenix Ring was silent, without any sound at all.

This made Huang Yueli extremely worried. But with the human Spiritual Alchemist around, she couldn't enter the Sky Phoenix Ring to check. So she could only endure with

it.

"Right, there's something..."

Huang Yueli wanted to continue asking questions, but the Spiritual Alchemist shook his finger.

"This is not a good place to talk. The sky is starting to turn dark, so we should leave this place first. I've found a few relatively safe places in the surroundings. Let's spend the next few nights there."

Huang Yueli nodded her head and was about to leave when she saw the human Spiritual Alchemist walking towards the two Earth Devil corpses. He bent down and took a small dagger out.

Chapter 3024 After All, We're Both Men (2)

"What are you doing?" Huang Yueli asked curiously

The human Spiritual Alchemist's expression was more astounded by her. "You don't know? Wait, are you one of the Lower Realm practitioners who had just arrived in God Realm?"

Huang Yueli instantly turned awkward. The other party said it in a way that made her seem as though she was very ignorant...

The Spiritual Alchemist continued to explain, "I'm doing this to collect the demon tribe's devil stones. If we bring the devil stones back and hand them over to the allied armies, this acts as proof that we've killed the demon tribe. It is used to accumulate military merits."

Speaking of this, he paused for a moment. Immediately after, as if he was worried that Huang Yueli couldn't understand, he asked, "Do you know what are military merits?"

Huang Yueli paused for a moment, "Ughh, this... I think I've heard of it before..."

The Spiritual Alchemist was speechless. But he dutifully explained, "The so-called military merits means the practitioners from the allied armies kill those devils from the demon tribe or come out with some kind of contribution and are awarded with a type of points. When the military merits are accumulated to a certain level, our military ranks will be raised. For example, the Emyrean Fox Clan's old man that we met during teleportation holds a military rank of Divine Lieutenant. It's not easy to reach that rank and one might even need 100,000 military merits. Of course, military merits can also be used to exchange for cultivation methods and Spirit Armaments that are collected at the allied armies headquarters."

Huang Yueli nodded but she wanted to continue asking as she still had some questions on her mind.

However, the human Spiritual Alchemist had also turned over. He was preparing to take action on the corpse so she could only keep the question to herself.

The sharp dagger slit a slight cut on the area between the demon tribe practitioner's brows and pushed the sharp knife down a little. Then he prised it upwards.

This smooth action only took a couple of seconds and a light blue devil stone lay in his palm.

He dug out the other Earth Devil's devil stone and kept the dagger away.

"Here, one for each of us! The military merits for killing Earth Devils are worth a lot. A low-class Earth Devil is worth 500 military merits!"

Huang Yueli took the devil stone and said, "Thank you."

The Spiritual Alchemist's way of handling things increased her favorable impression of him.

Although they indeed killed the two devils together, it was extremely reasonable to split up the military merits equally.

But Huang Yueli was like a novice. If the other party wanted to cheat her military merit, it wasn't an especially difficult matter. However, the Spiritual Alchemist didn't have any bad intentions at all. He even suggested splitting up the military merits and wrapping up the work to dig out the devil stone.

Huang Yueli kept the devil stone and followed the Spiritual Alchemist around the forest for a long time.

They finally reached a tree of great height when the night turned dark.

The Spiritual Alchemist pointed at the tree and said, "This kind of tree is extremely tall and the treetop is extremely level. Let's spend the night on top so that we can avoid being attacked by most of the spirit beasts' attacks in the forest. Moreover, the demon tribe also can't find us. We just need to be careful of the flying spirit beasts."

While he spoke, he had already started to climb upwards.

Huang Yueli borrowed a little wind attributed energy and hugged onto the trunk. A short moment later, she had already climbed on top of the tree.

It was just like what the Spiritual Alchemist said. The treetop was distributed with densely packed leaves and was extremely level. Moreover, this tree was much taller than the other trees. Standing on top and looking at the surroundings gave her a feeling that she was looking down on other things below.

In the middle of the treetop, the Spiritual Alchemist had already tied up a piece of space.

Chapter 3025 After All, We're Both Men (3)

Huang Yueli walked over and sat cross-legged on the ground.

"I didn't expect you to find such a suitable campsite. Looks like you've accumulated a vast amount of experience during experience learning."

The Spiritual Alchemist smiled and said, "Actually, I'm also a practitioner who ascended from the Lower Realm."

"You're also a Lower Realm ascender?" Huang Yueli asked in surprise.

If it was in Soaring Heavens Continent, Huang Yueli would be able to find a campsite very quickly. But she didn't understand anything in God Realm, so she could only slowly find her way out.

Whereas for this Spiritual Alchemist, he knew the surroundings like the back of his hand. He totally didn't look like a greenhorn at all.

The Spiritual Alchemist nodded his head and gave a brief explanation. "I just entered the demon tribe's control area a couple of months ago. That's why I know a little about this place."

Huang Yueli had some doubts but since it was the other party's private affair, it wasn't very nice for her to ask too much about it.

She remained silent for a moment, then started to ask the question which was burning on her mind. "Right, earlier when I was at the swamp, I overheard those two devils saying this area seems to be called the Toxic Swamp... what place is this? Do you know anything about it?"

The Spiritual Alchemist thought for a moment and said, "The Toxic Swamp is an area which is in the deeper end of the demon tribe's control area. But the swamp is very big so we should still be around its exterior. Otherwise, we won't just meet with only two devils!"

Huang Yueli asked again, "Those two devils also said that the demon tribe had incited the attacks because there's this Lord Ruize who is advancing into Sky Devil end-phase. They're already attacked Blessed City continuously several times. This time, we were ambushed because the demon tribe wanted to find god clan practitioners to offer to Lord Ruize. As for the two of us... we're being victimized." "So it's like this... Sky Devil end-phase practitioners are equivalent to Human Race's Dao Profound Realm end-phase. They are considered to be top-rated exponents. One person can eliminate a thousand or more ordinary practitioners. If he really succeeds in advancing, the humans will suffer even greater losses..." The Spiritual Alchemist sighed with a pensive mood.

Whatever he said was very normal. However, Huang Yueli suddenly felt uncomfortable.

Unknowingly, the Spiritual Alchemist suddenly got nearer and nearer to her.

Now, they were seated next to each other and the other party was still leaning closer to her.

Huang Yueli didn't like to have such close interactions with anyone. She instantly frowned and said, "Don't lean so close to me while you're talking."

His lips curled slightly and suddenly revealed a devilish smile.

"The treetop is a little cold. The wind tonight is cold and windy. We should come closer to warm ourselves up. Tonight, let's sleep under the same blanket!"

This sounded rather ambiguous but Huang Yueli wasn't angry at all. She rolled her eyes at him and said, "No need. I'm not used to getting so close to anyone else."

“Why? Are you shy? We’re both men, after all, so what’s there to be shy about? Or are you really a young lady in a man’s disguise?”

The Spiritual Alchemist had an evil smile. When paired with that handsome and slightly feminine look, the setting sun rays filled it with a charming feel.

Even for Huang Yueli who was used to Li Moying’s out-of-the-world handsome countenance, she couldn’t help but take a couple more looks at him.

Everyone loved to look at beautiful things.

The Spiritual Alchemist detected Huang Yueli’s gaze and his smile turned even more confident. He inclined forward and inched closer to Huang Yueli.

Chapter 3026 After All, We’re Both Men (4)

“Now that I’ve taken a careful look, you look rather scholarly. Although your complexion is a little tan, it’s rather smooth. Moreover, the bridge of your nose is rather straight. You have big eyes and your lashes are very long... are you really not a young lady?”

The Spiritual Alchemist chuckled and stretched out his hand towards Huang Yueli’s face.

Seeing that his fingertips were almost about to touch her face, a “slap” sound suddenly rang.

The Spiritual Alchemist was given a tight slap on his hand and he could only retract his hand. He hid in a corner and said aggrievedly, “What’s wrong? We’re both men, what’s the problem with touching you?”

“Are you certain that we’re both men?” Huang Yueli’s brows lifted with a playful expression on her face.

The Spiritual Alchemist suddenly felt a little fuzzy from her intense gaze.

Why is this person’s gaze so strange. Did he get it right?

The human Spiritual Alchemist felt rather uneasy, but he checked his own dressing. After he found that there was no flaw, he was finally at ease.

His lips curled into a smile. “Certain... Originally, I was rather certain, but hearing you say that made me a little uncertain again. Could it be that you’re really a young lady?”

Huang Yueli looked at him and asked slowly, “So what if I am?”

When the human Spiritual Alchemist heard that, he was apparently rather excited. His body leaned towards Huang Yueli and the lips hanging on his lips grew even more alluring.

“If it is... then why don’t we travel around the demon tribe’s warzone together for some time. After all... a couple who has such tacit coordination like us is very hard to find, isn’t it?”

Huang Yueli looked at his handsome face and found it amusing. “What do you mean by that?!”

“Think about it. The two of us coordinated so flawlessly when we were fighting the devils earlier! Your True Phoenix Fire can suppress the demon tribe’s attacks and your damage is also top-notch. My Earth attributed defense is outstanding, and it could also be used to attack when it’s necessary. We can even

kill those Earth Devils who have even outstanding cultivations than us easily! Isn't this wonderful tacit coordination?"

"Ohh... you're right." Hearing that, Huang Yueli couldn't help but nod her head, admitting that what the Spiritual Alchemist said was right.

The Spiritual Alchemist saw her somewhat agreeing to him and continued to persuade further. "Moreover, you're a Spiritual Armament Master and I'm a Spiritual Alchemist. We're both holding occupations that God Realm lacks. If the two of us were to join forces, we can settle most issues on our own. It would be easy to rake in money as well. Just based on this, don't we complement each other?"

Huang Yueli nodded and said, "What you said is right, it's so logical! So, you're trying to hit on me?"

The human Spiritual Alchemist smiled and said, "I'm already so obvious and you only just realized?"

Huang Yueli lifted her eyes and looked at his eyes slightly.

She had no intention to conceal her gender any longer so when that pair of beautiful eyes turned, the bright and sparkling eyes which moved one's heart were filled with an irresistible charm.

The human Spiritual Alchemist's eyes lit up. "I'm right, you're indeed a gorgeous beauty. Have you decided to join me in the demon tribe's war?"

Huang Yueli looked at him with a half-smile. "It's fine to partner up to roam about the demon tribe's warzone. But it's a no-no if you're trying to hit on me!"

"Why can't I?" The Spiritual Alchemist asked gloomily, raising his hand to touch his near-perfect face.

Chapter 3027 After All, We're Both Men (5)

He self-professed that he was handsome and suave. Moreover, he was even a Spiritual Alchemist with an extremely high innate talent. In terms of cultivation in martial arts, his cultivation was also top-notch among the younger generation.

As he was especially good-looking, he only needed to reveal a slight smile to attract girls' attention easily.

Why wasn't he able to seduce a female Spiritual Armament Master who was dressed as a man?

Huang Yueli shot a glance at him and said amusingly, "The main reason is I'm already married and my husband is much more incredible than you! The next reason is... aren't you asking the obvious? You're also a woman, but you're trying to seduce me?"

"You..." The Spiritual Alchemist's eyes widened. "Y, yo, you... You can tell??"

Huang Yueli shrugged her shoulders. "I've seen through you long ago. When we were inside the light sphere, I could already tell that you're a young lady."

The Spiritual Alchemist tried to come near to her several times and her attitude was also so ambiguous. She couldn't tell that she was also a woman, Huang Yueli would have already sent her flying with a slap! She had never been merciful towards sleazy men with ill intentions.

It was because she was also a female and she didn't look as though she bore any ill intentions. She was just playful so Huang Yueli didn't show any reaction nor expose her.

The Spiritual Alchemist didn't expect her identity to be exposed, so she couldn't say a single word for a moment.

### **d III O.**

After a long while, she pouted and said dejectedly, "Why did this happen? You saw through my disguise earlier than me? No wonder you're not interested in me at all."

Huang Yueli rolled her eyes at her and said, "Why? Are you saying that if I didn't see through your disguise, then I should be interested in you? That's right, you indeed have decent innate talent and ability and you're even a Spiritual Alchemist. But as compared with my husband, you're too far off! Not to mention in terms of innate talent or ability, even in looks, you also lose out to him!"

The Spiritual Alchemist blinked and asked in astonishment, "So, you... you're really married? How can that be? How old are you?"

God Realm's practitioners would usually get married later than Soaring Heavens Continent's practitioners.

It was considered early if they got married when they are a few hundred years old. Many people would normally wait until they weren't able to advance any further in their cultivations before they would consider marriage and give birth to leave a bloodline for their families.

Huang Yueli said, "I was already married when I was in the Lower Realm."

"Low... Lower Realm!! You got married really very early! Did your husband ascend to God Realm with you?" After the Spiritual Alchemist asked, she felt that it was a pretty dumb question and mumbled to herself, "Oh my, what was that for. You already mentioned that your husband's innate talent was very high. Since you said that, he should have ascended long ago, right?"

"Umm, right. He came to God Realm more than a year ago. I teleported this time because I was intending to go to the Continent where he's in to look for him. But I didn't expect such an accident to happen..."

Thinking of Li Moying, Huang Yueli felt sweet. All the series of dangers that caused the anxiety and security instantly vanished, and she gave off a sweet temperament.

The Spiritual Alchemist blinked and was a little stunned.

Even though Huang Yueli's disguise did not disappear, she naturally gave off a peerless beauty's aura.

From the looks of this, if she was dressed in women's clothes, she should be very beautiful.

Seeing Huang Yueli giving such a blessed smile, the Spiritual Alchemist pouted.

"Sigh, I'm so envious of you. My husband just can't be compared. We're already married, but he's still engaged in ambiguity with other young ladies!"

Chapter 3028 After All, We're Both Men (6)

“What? How could there be such a scum! You can’t condone him! Ughh, wait, you... you’re also married?”

Huang Yueli voiced out in indignance but in the middle of her speech, she suddenly felt that something was amiss.

She was extremely surprised to hear that the Spiritual Alchemist was also married.

Other than her and Li Moying, she had never met any other genius practitioners who were married this early at such a young age. She didn’t expect to be able to meet another pair!

The Spiritual Alchemist took a look at her and said delightfully, “Getting married is nothing, I even have a son!! My son is so handsome and smart, and his innate talent is so high!”

“What??” Huang Yueli’s jaw almost dropped onto the ground.

Usually, her actions would stun everyone, and no one could keep up with her pace. It was the first time she was so stunned by someone that she couldn’t say a word.

The young lady in front of her wasn’t much older than her. Forget the fact that she was married. Did she say that she even gave birth to a child?

Huang Yueli felt as though she had lost.

After a long while, she finally found her voice, “Are you tricking me?”

“Why would I trick you for?” The Spiritual Alchemist said unhappily, “We’ve seen through each other’s identity and we will be fighting alongside each other in the demon tribe’s battlefield next. What advantages would I derive from tricking you? Moreover, I can just not tell you this sort of thing. There’s no point lying to you, is there?”

“This... this seems so! So, where did your son go? Why are you here alone in the teleportation array at Flame Square City?” Huang Yueli asked curiously.

The Spiritual Alchemist heaved a deep sigh. “My son’s with his father! I saw my husband sharing a bed with another woman and got angry, so I ran off by myself!”

“What?? How can he do that? He already has such a talented and beautiful wife like you!” Huang Yueli’s eyes widened like full moons.

When she heard that the Spiritual Alchemist’s husband was ambiguous with other women, she assumed that the other ladies were pestering her husband.

After all, if he was able to subdue such a valiant lady, her husband shouldn’t be any ordinary person as well. He should be similar to Li Moying and it was normal to be pestered by other people.

But now, when she heard that the man was lying on the bed with the third party...

Scum, that man was thoroughly a scum!

“Isn’t that so? He can even do this kind of thing, I’m going to ask for a divorce!!”

At the same time, a man came searching for his wife and he was in the campsite on Blessed City's frontlines.

"Achoo—! Achoo—! Achoo—!!!"

A man dressed in a green robe pinched his nose and his eyes had turned red from the series of sneezes. "What's going on? Did I catch the flu bug?"

As one of the top-notch genius practitioners in God Realm, his physique wasn't something that ordinary practitioners could compare with. He had never been sick since young.

Luckily, he stopped after a few continuous sneezes.

He had stopped for moments in the campsite nearby, at a position which was not much different from where Li Moying was earlier.

But he didn't force his way into the defense line. Instead, he walked straight into the camp.

Hearing his subordinates reporting, Jing Shaoyuan walked out from his tent with a livid look.

"Why are you here? Moreover, you say that you also want to enter the warzone to search for someone? What day is today?"

"Also?" The azure robed man acutely picked up the crucial point in his words. "What do you mean by that? Did someone else come by today?"

Jing Shaoyuan's brows rose. "That person is famous! Cloudy Qilin Clan's god grade genius, have you heard of him?"

Chapter 3029 The Chosen One (1)

"Cloudy Qilin Clan's god grade genius?" The azure robed man was stunned and frowned slightly. "You're referring to... Li Moying?" "That's right. You've also heard of his name, haven't you?"

The azure robed man nodded. "Not only do I know who he is, but I've also even seen him when I was in Cloudy Qilin Continent."

Jing Shaoyuan took a look at him and said with enlightenment, "That's right. You Emyreal Dragon Clan is on best terms with the Cloudy Qilin Clan. How could you possibly not know who he is?"

The other man didn't say much. Instead, he asked, "What is Li Moying doing here?"

"He said the same thing as you. He said that his friend was attacked by the demon tribe while he was teleported to Blessed City. He doesn't know if that friend had fallen into the warzone... surely you guys are not searching for the same person, right?" Jing Shaoyuan asked curiously.

"Impossible!" The azure robed man thought of something and his expression turned slightly ghastly, "I'm searching for my wife!"

"Why? Your wife finally can't stand a stinky and bad-tempered husband like you and decided to divorce you? That's worth a celebration!" Jing Shaoyuan said gloatingly, "She's the chosen one! There's only one

in every thousand years but yet your Emyreal Dragon Clan is so stuck-up to her. Tsk tsk, there are plenty of men who want to marry her... hey, what are you doing?"

The azure robed man retracted the long sword in his hand and said expressionlessly, "I will not divorce my wife. If you continue to spout rubbish, don't blame me for being merciless!" Jing Shaoyuan gave him a spiteful look. "I can't stand you! Why did you turn into such a hen-pecked man? You weren't like this when you were young!" The azure robed man rejected replying to this kind of senseless question and asked, "Li Moying has already entered the warzone? When did he go in?"

"Around two hours ago! I even fought with him," said Jing Shaoyuan.

The other man's brows rose. "Really? What's the result?"

"I didn't expect his ability to be much stronger than what I imagined. God grade genius's innate talent is indeed extraordinary. Even if his cultivation is lower than mine, he is able to suppress me." Jing Shaoyuan said and added unwillingly, "But it's mainly because I belittled him. Next time I encounter him, I will definitely let him experience the genuine unique skill from the White Tiger Clan."

The azure robed man grinned and said, "So it means you lost? I told you this long ago. God grade geniuses versus heaven grade geniuses is a whole world of difference! But you are not convinced."

"I just underestimated him!" Jing Shaoyuan re-emphasized through gritted teeth once again.

The azure robed man didn't expose him but said, "We will know the truth on who is stronger during the God Realm Tournament that will be held six months later! Alright, I'm rushing for time. Let's discuss this in the future. I have to go to the warzone to search for my wife."

"Why are you in such a rush? She's the Chosen One! There's no way you will lose her!" Jing Shaoyuan said indifferently, "Tell me first. Have you ever crossed hands with Li Moying when you were in Cloudy Qilin Clan? Who is more powerful, you or him? He..."

The azure robed man frowned. "So what if she's the Chosen One? They are also mortals and they will be injured or will die if they meet with danger! Quickly move aside, or are you prepared to fight with me?"

"... the Chosen One? What's that?"

In the forest, Huang Yueli's eyes widened as she looked curiously at the human Spiritual Alchemist, who was dressed as a man.

Earlier, they had just mutually exchanged introductions.

Chapter 3030 The Chosen One (2)

Huang Yueli just found out that this Spiritual Alchemist was called Xia Yunxi and she came from the Veracious Wyvern Continent.

Huang Yueli especially tried to recall those among the twelve ancient god clans but there didn't seem to be any branch with the surname Xia.

In this case, did it mean that Xia Yunxi wasn't a member of the god clan?

But from her age and power, her innate talent was definitely extremely outstanding. Ordinary humans rarely had this kind of innate talent.

Huang Yueli asked the burning question on her mind and Xiao Yunxi laughed as she explained, "Actually, I have special abilities because I'm the Chosen One!"

"Cho... Chosen One?" This was the first time Huang Yueli heard of this term so she continued to ask, "What's the Chosen One mean? What kind of special ability do you have?"

Xia Yunxi didn't hide any information and said frankly, "In God Realm, we are referred as The Chosen One. But when I was in Lower Realm, we call this special ability witchcraft. Those who possess magic are specialized in treatments. Our methods are different from ordinary Spiritual Alchemists, so strictly speaking, we are not Spiritual Alchemists. Other than that, the Chosen Ones have the capability to foresee the future."

"Capability to foresee the future?"

Saying that, Huang Yueli was suddenly enlightened. "No wonder... when we were in the light sphere, you mentioned in advance that we will meet with danger. You also guessed that the two of us will be sacrificed by those Empyrean Fox Continent's practitioners and that's why you came to remind me about it! And you're able to roam freely in this forest, is it because you can foresee the future, and you're able to detect the dangers beforehand?"

As Huang Yueli spoke, she suddenly frowned. "That's not right. Since you can foresee the future, why did you teleport along with us?"

Xia Yunxi smiled bitterly. "Your guess is roughly there. But the Chosen Ones aren't as incredible as what you have imagined. Generally, I will only know what's going to happen immediately. If I want to predict more important matters or if the time frame is very far away, I will need to set up a ceremony and exhaust a large amount of magic before I can predict it accurately. Usually, I won't especially predict the future. Knowing too much isn't a very good thing..."

Hearing Xia Yunxi's explanation, Huang Yueli finally understood what was going on.

Although she was the Chosen One, she was a human after all. Usually, she needed to eat and sleep, and also live her life. She couldn't possibly just foresee every single thing.

Moreover, if she had to predict what she was going to have for dinner today, or what present her husband would give her for her birthday, there would be no meaning in life anymore!

"I see..." Huang Yueli nodded while in her thoughts. "There are indeed talented people everywhere in God Realm! I didn't even hear of people with special abilities like the Chosen Ones before this!"

Xia Yunxi didn't feel that her power was extraordinary in any way.

"God Realm emphasizes greatly on power. Even for the Chosen Ones, if they don't have sufficient solid battle power, they would end up being used as a tool by others." What Xia Yunxi said matched what Huang Yueli had in mind. She nodded with a smile and said, "What you said is true. It's most important to raise our abilities!"

The two of them clicked with each other and not too long later, they became close friends.

Huang Yueli thought about how frank Xia Yunxi had been but she didn't explain her situation clearly. So she hurriedly said, "Right, Yunxi, I forgot to tell you. I'm actually part of the ancient god clan, the Sacred Phoenix Race. I didn't mean to hide it from you intentionally, but..."

"Of course, I knew that you're from the Sacred Phoenix Race!" Xia Yunxi interrupted.
