

Weaponsmith 761

Chapter 761: Who else is still in the array? (4)

“Wh... what trickery is she playing? Why did she stand up in the middle of the array?”

“This isn’t the point right? The main point is... how is it possible for her to stand up??”

“I cannot understand these two questions!”

In reality, they had never seen anyone who could stand up in the array in the middle of the assessment. Once everyone had selected a position, they would not move around anymore.

Moreover, the pressure at the beginning was rather weak so moving around was still possible but with increasing pressure, to even sit properly at the original position already utilised the entire body’s Profound Energy to resist against the coercion from the outer world.

At this point of time, even if one wanted to stand up, the spirit was willing but the flesh was weak, so it’s just impossible to do so!

Because of this reason, seeing Huang Yueli standing up made everyone surprised.

However, this was not the most shocking matter.

After Huang Yueli stood up, she walked directly towards the center of the array. Her footsteps were not very stable and her breathing was rather coarse, looking as though she was on the verge of falling any moment.

When everyone saw her, they secretly broke out into cold sweat on her behalf.

But she went against expectations and not only did she not fall, she walked right into the core area of the array.

“Heavens, what on earth is she trying to do?” Tang Jinghua asked with his eyes wide, realising that he totally didn’t understand what she was trying to do, “The centre area of the array’s pressure is ten times stronger than the surroundings! Has her brain gone into convulsion? She actually.... actually dared to walk right into the centre area?”

“What on earth is she trying to do? Is she not intending to take part in the assessment anymore? Once she reaches the centre area, she will not be able to last longer than one breath of timing and will be ejected immediately!”

“What does this mean? Is she looking to torture herself?”

.....

Not only those on the stage had noticed, even those examinees on the public square had already noticed this abnormal scene.

“Hey, isn’t that Bai Ruoli from South Yue Kingdom? What is she trying to do? Could it be that the centre area’s pressure is much weaker?”

“I’m not sure but she could actually stand up. Earlier under that pressure, I couldn’t move an inch at all!”

“Heavens, she’s not taking part in the assessment properly, what is she thinking of?”

.....

It was unfortunate that no one would ever understand what Huang Yueli was thinking about.

When she had just entered the array for the assessment, she had actually made up her mind.

She was a nine stage realm expert in her previous life and although after her rebirth, her soul was weaker but as compared to normal practitioners, her willpower was absolutely shocking. Pressure from eight stage realm and below were not able to cause any impact on her.

So this round of assessment did not pose any difficulty to her.

However long she wanted to persist, she would be able to do so.

But in this round, she had actually intended to handle it just like the previous two rounds.

When there’s only ten or more people left, she would actively smash her number plate and be ejected.

To be able to get a ranking of ten or more place wasn’t too high or too low which was just nice.

After the assessment had started, the others used their might to suppress the surrounding’s powerful pressure. Only Huang Yueli casually chose a place to sit down and if it wasn’t for the fact that the disturbance wasn’t good, she was prepared to find a stone to lean against and sleep for a while.

From the beginning, everything was normal.

But following the increasing intensity of the Profound Energy, when the pressure had reached the level of fourth stage realm, she suddenly felt her sharp pain in her chest!

A strange restless feeling was emitted from her dantian.

Chapter 762: To advance.... here? (1)

The fire attributed Profound Energy within her suddenly became chaotic and impetuous and kept colliding around in her dantian.

Initially Huang Yueli didn’t think much of it. She only thought that her state of mind wasn’t very good as she had underestimated Celestial Light Academy’s array which affected her internal Profound Energy and caused it to be agitated.

She corrected her mindset and straightened her back as she displayed the standard cross-legged meditation posture and at the same time, activated the << Nine Phoenix Transformations>> cultivation method.

However, things were quite different from what she had imagined.

The rampaging Profound Energy within her did not stop but instead, the fluctuations became more and more intense!

It got so intense that a large amount of sweat started to trickle down her forehead as her face started to flush red, as though she was not going to make it any longer.

The situation looked very unfavourable but in Huang Yueli's eyes, a sense of joy flashed past!

The reason was because Huang Yueli had already understood the unusual fluctuations of her Profound Energy was not because that she was unable to take the pressure from the Profound Energy by the array, but because.... this was the sign that she was about to advance!

When Huang Yueli had advanced to second stage realm more than a month ago in South Yue Kingdom, the amount of Profound Energy at accumulated within her body and allowed her to breakthrough directly to second stage realm nine level!

However due to the limitations of the Flame Spirit Physique, she had reached a bottleneck and had been unable to advance to third stage realm directly. Instead she had stopped at second stage realm nine level.

According to <<Nine Phoenix Transformations>> hints, it was necessary to collect a large amount of medicinal herbs, Magical Beast Cores and Spirit Jades before she could continue to advance.

She was already very familiar with this pathway.

Previous two times, she had tried various sorts of methods but yet was still unable to advance. Only when she followed <<Nine Phoenix Transformations>> cultivation method as recorded, then would she be able to break through the bottleneck.

Which was why Huang Yueli totally didn't expect that she could..... actually..... under the condition that she had not collected all the medicinal herbs and under such a location.... To suddenly advance?

What on earth was this?

Huang Yueli's mind raced as fast as a lightning fire stone where a bold guess suddenly came to her mind in an instant!

This time after she had advanced not too long later, an accident had happened as Zuo Fangping pursued for her life, as she got seriously injured.

At that time, the Profound Energy in her body had totally been used up and even her meridians had been damaged to a certain degree.

Subsequently, to save her, Liu Buyan let her soaked in medicinal baths for seven days.

Huang Yueli's medical knowledge was very limited as she was unable to find out clearly what bath had Liu Buyan soaked her in and what were the requirements.

She could only subtly felt that Liu Buyan had used all fire attributed medicinal herbs and unknowingly, and had used a type of deviant flame – Heartwood Spirit Flame, to heat up the medicinal bath.

Thinking back now, that medicinal bath was very exquisite. She gauged that the medicinal herbs and proportions were similar to the <<Nine Phoenix Transformations>>. With a certain degree of duplicity, it had caused a certain effect to her Flame Fire Physique!

Including the fact that she was already on her last breathe, it could be said that it was a blessing in disguise.

In the art of cultivation, to break then to establish could bring about several folds of effect out.

Huang Yueli's luck apparently wasn't too bad. The medicinal effect from that medicinal bath had been accumulating in her body, pushing her to the verge of advancement.

The only thing was Liu Buyan's prescription wasn't as effective as << Nine Phoenix Transformations >> so Huang Yueli could only go nearer to advancement but had not immediately achieved the response.

Chapter 763: To advance.... here? (2)

However, the medicinal effect had laid in the dormant state, waiting for an opportunity where she could perfectly breakthrough.

And now, the opportunity had appeared.

Within Celestial Light Academy's array was an increasing coercion of Profound Energy which kept pressurizing Huang Yueli. The Profound Energy in her dantian was led by the pressure from the outside world and started to stir.

As the intensity of the pressure got stronger, the effect on her Profound Energy became more obvious.

When the pressure in the outside world had increased to fourth stage realm, she could clearly feel that the Profound Energy within was continuously trying to break through the bottleneck, struggling, clamouring as though it was about to break out at the very next moment!

There was no other possibility about this feeling. She was going to advance!

This matter had happened so suddenly, completely out of her expectations.

But Huang Yueli was very clear that if she missed this sudden opportunity to breakthrough, then it would be very difficult for her to meet with another!

To her, the wisest choice was to take full use of this opportunity and in a spurt of energy, breakthrough to the third stage realm!

Huang Yueli had decided on the spot and started to initiate the cultivation method to attack the meridians in her body to seek a breakthrough.

But the Profound Energy had rotated a few rounds and after several rounds of trying to breakthrough the bottleneck, several times.... It was just that little bit before she succeeded but eventually she was still unable to advance successfully.

This feeling was akin to a drowning person and had already seen the surface but as he tried his best to move forward but no matter how much he tried, he didn't have enough energy to swim to the shore.

This feeling.... was extremely unnerving!

Huang Yueli was experienced and had already analysed where the problem lay.

The intensity of the array.... was still not enough! Which made her fell short of success.

She needed even more Profound Energy to attack the bottleneck and needed stronger pressure to agitate her meridians and dantian. The intensity of the array right now.... was not enough, simply not enough!

Huang Yueli was unable to wait for the intensity of the array to slowly increase and decided immediately to stand up.

She knew the array eye's position was where the pressure was the strongest, so.... she had to make her way there!

Huang Yueli stood up shakily ad she proceeded towards the centre area of the array.

In actual fact, to resist against the pressure itself was no difficulty to her but with the Profound Energy in her body banging against her dantian with no way of suppression, the feeling was extremely uncomfortable and that led her face to flush as her sweat beads kept sprouting.

At the moment when she walked towards the centre area, she unavoidably walked past Bai Ruo Qi.

Bai Ruo Qi's current predicament was extremely bad.

Even though she had cheated and chosen a position with the least pressure, but as her cultivation was way below the other people, at this moment, she was unable to persist any further!

Bai Ruo Qi was unable to see how many people were left in the array but she could more or less feel it and knew that the array didn't have much people left. So if she were to give up at this point of time, she would probably get rather good results.

She didn't want to persist any further and retrieved her number plate from her sleeve.

However, just at the moment she smashed her number plate, she suddenly heard footsteps coming from behind her.

Why would there be footsteps.... in this array?

For that one moment, Bai Ruo Qi though that she was having hallucinations!

But these footsteps were very light, but very stable. Slowly, slowly walking towards her direction... until it had brushed past her.

Bai Ruo Qi forcefully opened her eyes as she turned around to take a look.

Chapter 764: To advance.... here? (3)

Under Bai Ruo Qi's blurry gaze, she seemed to have seen a white figure.... Which she found extremely familiar!

How could it be her??

Bai Ruo Qi thought that she was going insane.

Huang Yueli had always been on the boundary of the array, and she had seen it with her own eyes!

Moreover, Bai Ruo Qi had thought that she understood her third sister's cultivation very well. When they were in South Yue Kingdom, she had just broke through to second stage realm not long before and following that with her serious injury, she probably cannot even be compared to a normal second stage realm first level practitioner!

Now that the pressure had already reached fourth stage realm's intensity and Huang Yueli was not like her hiding at a blind spot where the array effect was at its weakest so by right this wretched lass should not be able to last that long. So how was it possible that she was still in the array?

Moreover, she was still continuing to move! Towards the centre area!

This was just an impossible thing. At this crucial juncture, to be able to last more than a breath's timing was already very difficult. Who on earth would take things so hard and move towards the position where the pressure was at its strongest?

But no matter how much disbeliefs Bai Ruo Qi had, Huang Yueli's figure was already swaying right before her eyes.

Besides that, Huang Yueli was really walking to the centre of the area where the coercion was the most powerful, where the pressure was the largest at the array eye position!

Bai Ruo Qi almost screamed out in shock.

She stared wide eyed, watching Huang Yueli settling down at the array eye and as she sat cross-legged, her sight congealed slightly striking out a standard posture for meditation cultivation.

"You....."

The minute Bai Ruo Qi opened her mouth, suddenly the intensity of the array lifted yet another level!

She was unable to resist any further as she could only see black and her mind went into a state of dizziness.

By the time she regained her senses, she was already ejected to the outside of the array.

Bai Ruo Qi rested for a little while and when she regained her senses, she could only feel her entire body covered in sweat.

Earlier at that instant when the intensity had once again increased, it had already reached a fourth stage realm third level practitioner's Profound Energy intensity. This strong pressure was enough to make her feel extremely awful.

At that moment when she was ejected, she almost threw up.

Bai Ruo Qi held her chest as she looked at her surroundings.

The public square was filled with examinees who were ejected from the array and there was really no sight of Huang Yueli here!

That wretched lass was really still inside!

Could be it that the figure which she saw earlier.... Was really her?

How could that be possible? When she was ejected, she herself had already felt so awful that she felt like dying. If that wretched lass was really still in the array and in the centre position of it, just how strong was the pressure there? This was certainly not something which a second stage practitioner could handle!

However, as every minute and second passed by, another three to four people were ejected and within this group of people, there was still no sight of Huang Yueli.

There were a few people whispering in discussion from behind.

“That Bai Ruoli from South Yue Kingdom is still inside and have yet to come out! She is actually able to take such a huge pressure? The intensity in the array should have at least reached fourth stage fifth level already!”

“How is she able to handle it? I saw it earlier that she stood up from the boundary of the array and walked towards the centre area!”

“What? Isn’t the pressure in the inner portion of the array much higher? She still dare to walk towards the inside??”

“That may not be necessary. We are only guessing that the pressure on the inside is much higher. But in actual fact, it may not be true.”

Chapter 765: To advance.... here? (4)

“Then where is she right now?”

“No idea. The range of this array is just too big. With us standing on the outside, we’re not able to see what’s the situation in the centre of the array! Otherwise, I’d also like to see what’s her situation right now!”

The crowd started to discuss at the outside of the array but could only make wild guesses.

Originally, everyone’s main point of concern was the number one genius Song Yaru. But unconsciously, the centre of discussion slowly focused onto Huang Yueli.

Her performance was simply too outstanding and simply too abnormal!

The intensity of the array had already increased to a limitation which could make anyone devastated but not only had she persisted, she had actually walked right into the centre of the array?

Another quarter of an hour went past again and there were only a few practitioners left in the array as they consecutively were ejected outwards.

The antepenultimate person to fail was Lu Zicheng.

When he was ejected, his face was shockingly pale, no difference from a corpse.

He had given all he had got, even his family’s cabala, risking his life to obtain a good result in this round.

When he was ejected, the array's pressure had reached a fifth stage realm's intensity!

Lu Zicheng thought that his performance was extremely good as he was self-contentedly struck up a conversation with a few examined whom he was familiar with.

"How was it? How long did I persist in this round? I said long ago that this assessment of willpower is my speciality and I will definitely be able to crush the crowd."

"Young Master Lu, you're just too strong! The difficulty of this round of assessment is so high and yet you are still able to get into the top three, you're really....."

Before his companions could finish their flattering, Lu Zicheng's face fell.

"Top three? You mean to say I'm ranked third?? Besides Song Yaru, who else is still in the array? This is not possible? Xue Jingchuan, Fatty from Wang family, Situ Yu..... aren't they all ejected already?"

Lu Zicheng enumerated the renown talents of their generation in Sky Cloud City and without any exception, these people had already been ejected out of the array and had been eliminated.

As for the remaining few, he simply could not recall who else was stronger than him!

"It's Bai Ruoli... Bai Ruoli from South Yue Kingdom!"

"What? That lass from the small countryside? How could it be her? This absolutely cannot be true!"

Lu Zicheng's eyes turned wide as though he was unable to handle this blow that he had lost to a practitioner from a small place!

But at the next moment, something made him even more astonished had happened!

Another human silhouette was ejected from the array as that slender figure glided in the sky falling on the side of the array.

"That Bai Ruoli had finally came out.... her willpower is actually so outstanding. If it wasn't for Sky Cloud City's genius Song Yaru, then....."

The words had stopped abruptly as that person was dumbstruck.

"Hey, what's wrong with you?" His companion beside him felt something was amiss as he ushered him.

"That... that....." He didn't regain his senses for quite a while.

"That what?"

His companion impatiently turned his head around and following his gaze and at the next moment, he too turned petrified.

"The person who was ejected, was..... Song Yaru? Then how about Bai Ruoli?? Surely it was impossible for her to be more powerful than Song Yaru. Since she isn't out yet, could it be that she had died inside?"

Everyone started discussions, making wild guesses that Huang Yueli had probably gotten into an accident.

Otherwise there was no explanation on why the talented young lady Song Yaru, which her family had groomed so carefully, was not able to be compared to her!

Even the examiner felt that something was amiss and worried that something had really happened. So he sent someone to ask for further instructions from Vice Principal Ling to pre-terminate the assessment and enter the array to rescue her.

Chapter 766: Beyond Imagination (1)

But Vice Principal Ling's reply was, "You're not allowed to terminate the assessment. Just proceed as per normal and no matter how much time is needed, let that lass inside smash her own number plate to wait for her to be ejected!"

The examiner was filled with suspicions and he really wanted to say that since that lass inside was possibly the top ten examinees in this assessment, so she's considered as a talent as well. It would be a waste if she really died!

But he was unable to rebuke the Vice Principal.

In actual face, those few who were sitting on the stage could see much more than those below. Moreover, their gazes were all filled with acrimony and incisiveness.

Huang Yueli's situation in the array had long entered their minds and very quickly, they made a judgement.

"From the obvious external fluctuations of her Profound Energy, this lass.... Surely she wasn't going to advance here right?"

"To be able to advance in the middle of the examinations, she is really an outstanding genius! Not only is her power of comprehension shocking, moreover and had an exceeding psychological mentality! This lass.... has a bright future ahead of her!"

The crowd exclaimed in admiration as they set their sights focused onto Huang Yueli.

At the present moment, Huang Yueli had already broke out in deep sweat.

When she reached the centre area and steadied her sitting position, she started to initiate her cultivation method.

From the inside towards the outside, the Profound Energy within her body viciously collided against her dantian and meridians whereas the array's Profound Energy kept coercing her, pressurizing her from the outside to the inside.

Two powerful energies kept fighting against each other, as though it was trying to tear her entire body's meridians apart entirely!

Intense pain followed closely as it seeped into every inch of her bone marrow, so intense that it was enough to make anyone die on the spot!

But this pain made Huang Yueli overjoyed because this represented that... she was about to advance immediately!

Very soon, the lacerating pain kept rising and after it reached a peak, it completely spread apart!

Intensive and overbearing yet scorching and rampaging fire attributed energy passed through her body!

The pressure from the Profound Energy surrounding Huang Yueli had been completely suppressed at this moment as the entire array's fire attributed energy were all absorbing towards her as a centre of attraction.

This absorption speed was extremely fast as the atmosphere in the array could be seen visibly to a certain extent as it twisted.

Very quickly, the fire attributed Profound Energy had been stripped completely by her!

This bit of energy for her was not enough!

In this way, she could only continue to absorb the energy from the vast space outside of the array but in this way, the balance of the array would be completely destroyed and the entire array was on the verge of collapse.

The examinees outside the array had all gone into a blank as they stared wide-eyed and turned tongue tied, watching the strange phenomenon appearing right before their eyes.

That array which had bounded so many of them, torturing every single one of them to their last breath was vibrating violently at this very moment.

Blinding blue rays kept flashing past on the outer area of the array as the array patterns was visibly appearing.

On the centre top portion of the array in the sky appeared a large red coloured cloud, several meters in length, like a ball of raging fire suspending over the crowd.

This was the physical state of a congealed fire attributed Profound Energy!

At this moment, this red cloud was continuously attacking the top portion of the array as though it was trying to dash into the array's inner area!

Those on the stage could no longer sit still as one after another, they subconsciously stood up from their seats.

Everyone's sight were dead set on the stage below, as they concentrated on the petite figure in the array.

Chapter 767: Beyond Imagination (2)

"Impressive, so impressive... from the abnormality of the heavens and earth, it looks like this lass is going to break through not a small level but a large realm!"

“Right. Only when there’s an upgrade of realm would there be such obvious changes in the Profound Energy. This lass had already a second stage realm’s power, so that is to say.... She’s now trying to... break through to... third stage realm??”

When Tang Jinhua said these, he felt that his voice was quivering.

Th... This matter had gone way beyond his imagination!

This lass looked like she wasn’t even fifteen yet! But she was already going to break through to third stage realm even before she had reached the marriageable age?? What kind of innate talent was that?

Even if it was Celest Light Sect’s geniuses, under various resources, not many were able to advance so quickly! As for this lass... she grew up in a small place like South Yue Kingdom!

This innate talent.... Even Bai Liu Feng at that year wasn’t comparable to her.

However, when Vice Principal Ling heard these, he shook his head.

“Look at the large red cloud above her head, the boundary is so huge. When normal practitioners breakthrough to third stage realm, they could never achieve this might! Not only is she going to advance to third stage realm, after her advancement, her power....is probably extraordinary!”

“We had never expected that in this batch of students, the Celestial Light Academy was actually able to attract such a peerless talent!”

At this moment, Huang Yueli had almost lost her consciousness.

She could no longer feel the changes in the outer world or even hear any sounds.

All her senses were kept within her body and all her Profound Energy were concentrated in her dantian.

Under the oppression of the Profound Energies, the continuous rejections, oppression followed by rejection again... it resembled a heart’s rhythm, contracting and expanding.....

Suddenly, Huang Yueli slowly opened her eyes as the red cloud above her head continued to attack the top of the array.

She stretched out her finger and struck a hand sign towards the array’s eye and the array instantly disappeared.

A large amount of fire attributed Profound Energy rushed down from the sky and gushed into her body.

Huang Yueli seemed unable to take such a huge strike and immediately spat out a mouthful of blood!

At this moment, the Profound Energy crashing within her body suddenly restrained itself towards her dantian and subsequently grew smaller and smaller, gradually turning into a light spot, floating on the top of her dantian.

Following the formation of the light spot, the rampaging Profound Energy in her body slowly settled down.

Huang Yueli grew delightful as she knew she had already advanced successfully to become a third stage practitioner!

The light spot in her body was the mark of a third stage practitioner – Spirit Embryonic Form!

Because the Profound Energy in her dantian had formed into a spiritual form, so the Profound Energy in her body could attach itself to the spirit. No matter if it was the pureness of the Profound Energy or the storage of the amount of Profound Energy, there was a sharp rise.

As the third stage realm was also the Spirit Profound Realm, compared to second stage's Defensive Profound Realm practitioners, the leap in the difference of the power could not be out on the same level.

Profound Energy was still on the rise expanding, moving upscale. Now long after she had advanced to third stage first level, she advanced to third stage second level and immediately after that, third stage third level.....

However, just as she had broken through to third stage third level, the speed of the increasing Profound Energy suddenly slowed down.

After that, it grew slower and slower....

Just on the verge of breaking through to third stage fourth level, it suddenly came to a halt.

Chapter 768: Beyond Imagination (3)

Huang Yueli's eyebrows rose in surprise.

This situation had never happened before. Previously, whenever she broke through the Flame Spirit Physique's shackles and advanced, she was always able to raise to an entire large realm.

The first time she advanced from an ordinary person to first stage realm nine level.

Second time was from first stage nine level entering to second stage realm nine level....

But now, she was not able to advance directly to third stage realm nine level but had stopped at third stage realm third level.....

She attempted to initiate <<Nine Phoenix Transformations>> cultivation method to absorb the fire attributed Profound Energy from Heaven and Earth but all the surrounding Profound Energy had already been drawn totally by her. So at that moment, only sparse energy was collected.

Besides that, she felt that her body had hit a bottleneck.

Within this short period, it would be difficult to continue upgrading to another level at one go.

Huang Yueli was disappointed but after thinking, she felt that it was understandable.

Her advancement this round was an accident. Under the double effects of Liu Buyan's medicinal bath and Celestial Light Academy's array, the breaking and establishing rebound effect was her coincidental advancement to the third stage realm.

But this situation was obviously not perfect. According the <<Nine Phoenix Transformations>> recorded requirements, the standard operation was definitely not the same, so some flaws were to be expected.

Looked like she could not afford to be lazy this time if she wanted to perfect the ninth transformation in <<Nine Phoenix Transformations>>, then she would need to collect all the medicinal herbs recorded and find a suitable timing to go into closed door cultivation before she could fill in the remaining portions to make it complete.

As for now, she could only accept this imperfect ending.

Huang Yueli kept her frustrations away as she slowly walked out of the array boundary.

Outside the array, plenty of people were waiting for her appearance as the gazes all held different emotions. Some were envious, shocked, jealous, unreconciled.....

But above all and without exception, there was a sense of reverence, hidden in the innermost part of the heart!

It was because when the fire cloud appeared earlier, the examiner carelessly slipped his mouth, "Heavens, this is the sign of breaking through to third stage realm! This lass... she's about to breakthrough to third stage realm! This is simply a miracle!"

Third stage realm!

She was actually going to breakthrough to... third stage realm!

At that moment, even the cold and aloof Song Yaru who felt that she was a cut above the others was also dealt with a huge blow as her expression turned extremely ugly.

This young lass from the small country didn't look very outstanding. Even though her results in the previous two rounds were still alright, but as compared to her, the cream of the crop, she could not be comparable at all!

Why... did she suddenly become so strong. Not only had she crushed herself in the third round of assessment, she also managed to advance in the middle of the assessment!

Third stage realm... this was third stage realm!

Even Song Yaru herself felt that it was impossible for her to breakthrough to third stage realm before she was seventeen.

But this fourteen year old lass had actually did it!

Under the complicated gazes of the crowd, Huang Yueli didn't make any noise and quietly walked to her original position.

She had originally not intended to show off but now that it's already clear for all to see, then it was really nothing at all!

The crowd's investigative glares could not affect her any single bit!

Huang Yueli turned her slights onto the examiner and said, "Mister Examiner, I should be the last one to leave the array right? Now that the third round of assessment should have come to an end, please announce the results of the assessment."

Chapter 769: The fake cannot replace the real (1)

The Examiner recovered from his shock when he heard what she said, as he remembered his duty.

“Oh, right, right, the assessment results! The third round of the assessment results are out and your performance have exceeded my expectations. Especially Bai Ruoli who had persisted in the array for an entire four hours, she had already broken our academy’s entrance examinations record!”

“With this comes your ranking after consolidating the three rounds of assessment marks.....”

The examiner directed some people to post the results on the ranking board.

Without a doubt, Huang Yueli had directly rose to the first place while Song Yaru could only settle for second place.

This ranking was not the least bit apprehensive and no matter how unresigned Song Yaru felt, she could only accept this result.

Bai Ruo Qi stared at the ranking board and saw her own ranking rose to the twentieth place as she let out a smile.

Although Huang Yueli actually advanced during the middle of the assessment and she even advanced to third stage realm which made her gnashed her teeth with hatred almost to the point of fainting on the spot.

But at the very least, she had successfully enrolled into Celestial Light Academy!

As long as she could enter this number one school in South Sky Region, when she was going to learn the cultivation methods in future, she would be able to enjoy various resources and she would be able to raise her cultivation by several levels!

Perhaps she might even surpass Huang Yueli one day!

“With this, I hereby announce the name list for those who have been officially enrolled.....”

“Wait a minute!”

An elderly voice cut into the examiner’s words.

Vice Principal Ling led the few management staff on the stage and walked slowly to the public square. The examiner cried out in shock as he hurriedly rushed over to welcome them.

The examinees on the public square began discussing in whispers.

Although they didn’t recognise the others, but Vice Principal Ling had announced the assessment rewards earlier so everyone knew who he was. The vigor of the few elders beside him were comparable to Vice Principal Ling so they were definitely important people in the academy as well.

Why did they all appear here suddenly? Had the assessments all been completed?

Vice Principal Ling lowered his heard, told the examiner something and passed him a slip of paper.

The examiner nodded his head as he walked to the front of the stage.

“Vice Principal Ling had personally verified this assessments enrolment name list. Everyone please remain silent and listen to the announcement of the result.”

At that instant, everyone quietened down.

“The first place of this time’s examinations is Bai Ruoli who is from South Yue Kingdom. She will be getting the following rewards for the first place: One piece of fourth tier lower grade Profound Armament, twenty thousand medium grade spirit stones and besides that, a hundred star coins. Other than that, due to Bai Ruoli’s outstanding performance, Vice Principal Ling decided to make an exception and enrol her directly as a core student!”

Once it was announced, a hustle of bustling stirred.

Song Yaru too, enviously looked towards Huang Yueli.

Celestial Light Academy’s regulations was newly enrolled students could only start from an ordinary student. At most they would be given a prospective core student qualification and would enjoy some extra resources. But to officially enrol as a core student, they would need to wait until the first semester’s examinations.

The last person who had broken the exception to be upgraded to a core student was Celestial Light Academy’s famous number one talent Bai Liu Feng!

Now that this little lass had gotten the same kind of treatment, it really made others envious and jealous.

“Second place is Song family’s Song Yaru. The rewards that she will be getting is....”

As expected, Song Yaru was not accepted directly as a core student, but was only given a prospected core student quota.

“Third place.....”

Very soon, the one hundred examinees who had been recruited was announced.

Those who were recruited were delighted while those who had been eliminated were filled with despair, an obvious difference.

Bai Ruo Qi was the only one who had a blank look.

Because she discovered that she actually didn’t hear her own name.

Chapter 770: The fake cannot replace the real (2)

What on earth was going on?

Looking at her surroundings were either overjoyed or disappointed people. As for Bai Ruo Qi, besides uncertainty, there was still only uncertainty.

She had already been recruited, wasn't it? She was one of the top ranking examinees in all three rounds and after the last round, she had even managed to be ranked twentieth!

Celestial Light Academy's enrolment examinations had always been fair and with her ranking, it was impossible to be eliminated!

But.... why didn't she hear her own name?

Bai Ruo Qi was at a loss for a moment when she suddenly thought of a possibility.

That was right, earlier when the first round of assessment had ended, the examiner had already announced that she was pre-selected and even gave her a quota for prospective core student!

So that probably meant that she didn't occupy a quota among the one hundred new students which was why her name wasn't called out.

So she was actually pre-selected!

Right, that should be it!

The examiner only gave the examinees a very short amount of time before he hastily continued, "Now that the assessment results have been announced, those practitioners who had not been recruited, please leave Celestial Light Academy immediately. As for those who had been recruited, congratulations to all of you. From now onwards, you're a member of the Celestial Light Academy! Later on, an upper class student will drop by and show you around the school grounds, followed by bringing you to where you will be staying. Will the new students who have been recruited please line up according to your examination number plates and follow me over here."

After the examiner completed his words, he walked towards the inner zone of the academy.

Those new students who were lucky to be selected recollected their senses from their delightfulness and hastily ran over.

As for those who were eliminated, no matter how unreconciled they were, they didn't dare to be persistent as they drooped their heads and prepared to leave.

Bai Ruo Qi looked left and right and joined the new students team.

The examiner stopped in his footsteps as he tallied the total number of people when he suddenly frowned.

"What's the situation now? Why is there one more person? I've made myself very clear earlier, the examinee who had not been selected must leave Celestial Light Academy immediately! Why is there someone who still lingered around and refused to leave? I'm giving you one last warning, if you don't leave now, then I'll treat the case as intentionally creating problem!"

After the examiner completed his sentence, he paused but no one left on their own accord.

This time, even those new students were amazed. What kind of place was Celestial Light Academy, there's actually someone who tried to bluff their way through? What was stored in their brain? Isn't that person's guts just a little too big!

Bai Ruo Qi was sneering in her heart.

There's someone who is so pigheaded! The examiner had already said it till this and that person still refused to leave!

She really wanted to see how this person can fake his death through!

The examiner's brows creased as he commanded, "Everyone take out your number plates and let's verify the total!"

Bai Ruo Qi had never considered that the person who should be chased out was in fact herself.

Very calmly, she took out her number plate.

The examiner checked the number plates one by one and when he swept past Bai Ruo Qi's number plate, his face immediately sunk.

"So it's you! Number sixty three Bai Ruo Qi, how dare you not listen to orders and leave Celestial Light Academy, what are you trying to do? What place do you think Celestial Light Academy is? All unrelated people are not permitted to enter the academy grounds!"

Bai Ruo Qi was showered down by a scolding as she went into a daze.

She blankly stood on her original spot and after a while, she regained her senses.

"Mis... Mister Examiner, you're mistaken! I am one of those who had been pre-selected! Not someone who is unrelated!"

The examiner replied coldly, "Really? But I don't recall seeing your name on the enrolment name list."
