Chapter 118

Crystal asked Mr. Liu, who was driving, to stop at the shopping building where Harold had taken her last time.

Although Debbie was a shrew, she had never seen the world before. When she saw the bright and beautiful men and women, the tall buildings, and the bright and clean windows here, she couldn't help but feel a little embarrassed. She said, "No wonder everyone likes to come to the city." Ever since she took the Evans family's money, she had been a big customer in the town of Sunshine Village. However, the town was not comparable to a big city. She thought that she had seen a lot, but now she felt that she was like a dog, out of tune with those well-dressed city beauties.

Mia looked around and said, "What kind of clothes... are they wearing? How can they be called clothes? Are they out to seduce men in such revealing clothes?"

Crystal didn't say anything and went into the shopping mall. Debbie quickly followed her and said, "I want to buy two sets of clothes first!"

Before she came here, she deliberately wore her most expensive set of clothes, but there was still a sense of poverty that made her unable to raise her head. She had to change her clothes immediately.
