

## Widow 187

### Chapter 187

This morning, Crystal told Harold that she would be looking for Marcus to compensate for the medical expenses. She asked for seven dollars, but after that, Harold made Marcus lose seven million dollars.

“He’s quite fond of you.” Larry suddenly said, “I’ve known Harold for more than 20 years. It’s the first time I’ve seen him pamper someone.”

“...” Crystal said, “Why do I feel that your words are not right? You don’t like Master White, do you?”

Larry’s expression was indescribable. “Luke told me that Harold wouldn’t allow you to watch the drama and I felt that he had gone too far. Now it seems that you should pay less attention to this kind of thing. I don’t want to lose my life. Why would I like this kind of person?”

Crystal thought for a moment and said, “Sometimes, Master White is really bad.”

Larry thought that she had never seen him doing something worse.

“I want to thank you.” Larry said, “If it weren’t for you, the show last night would have been ruined. The top management of their company would like to treat you to a meal. They would like you to pick some new products that haven’t been released yet.”

If other girls heard this, they would definitely stare at her in excitement. A new product that hadn’t been released yet! The new products that have been released were sold out in an instant. If she put on a new product before it was officially released, she would be popular in the circle.
