

## Widow 209

### Chapter 209

After leaving the Leslie family's villa, Crystal received a call saying that the clothes that were given to her had arrived. She was informed to go back and take a look if she had time.

When Crystal returned to Flower Land, she saw that someone had indeed come in with a lot of clothes. Previously, Larry had said that he would send a few pieces of clothes over. Crystal looked at the clothes in front of her and was stunned.

"Miss Evans." The one who came this time was the principal designer, Judy. She was very enthusiastic about Crystal and said, "I have always wanted to see you. Now, I finally have the chance. I'm really grateful!"

If the show was ruined, she would have to bear the responsibility.

Crystal said, "It's just a piece of cake. There's no need to..."

Judy said, "The security here is too strict. I didn't bring many clothes. I'm not sure if you will like them, Miss Evans. Why don't you take a look first?"

Crystal was speechless.

She stopped talking.

that the mathematics studied by these rich people was different from what she studied.
