

## Widow 221

### Chapter 221

Crystal said, "At that same age, I'm watching cartoons while you're studying the mathematical olympiad. That's why you can't differentiate Winnie bear and Doramon. I think you're even more pathetic."

Harold asked, "If I can differentiate them, can I get an award?"

Crystal replied, "No, you can't."

Harold said, "But studying the mathematical olympiad can win me a lot of awards. I have a lot of certificates. Do you want to see them?"

Crystal was extremely angry. "I've also received many stickers during my time in the kindergarten!"

She had only been in kindergarten for a year and it was with the help of the head of the kindergarten.

"You're better than me." Harold was at a disadvantage. "I don't have stickers. Can you share two with me?"

Crystal asked in confusion, "Why don't you have a stickers?"

Harold said, "Because I didn't go to kindergarten."

Crystal was speechless.
