

Widow 293

Chapter 293

Because Jared's family background was not much better than Anaya's. He was well-educated, but he was a b*stard. Relying on his good looks, he hooked up with rich girls everywhere. He was known as the "rich boy" because he got a lot of money from the girls after cheating them.

After Alan left the hospital, he changed his department and went to study finance. This was originally a compromise he made to his family in order to be with Anaya, but it became a big joke. The identity of the Shamus Family's young master was spread throughout the school. Countless people exclaimed that Anaya had chosen a terrible boy over a rich boy. For the sake of Jared, a fake rich second generation, she gave up the real rich second generation.

Anaya was thick-skinned. When Alan was in the hospital, she didn't even ask about him. After knowing his identity, she hurried to him and ask for a reconciliation. Even though Alan knew very well about her love for money, he still couldn't help but agree to her request.

However, what was even more shocking was that Anaya had asked for one million as soon as Alan had agreed to be with her.

This sentence was like a butcher's knife hanging over Alan's head. Finally, it fell down, dripping with blood. So Alan ended his first love on that day.

After learning about this, Ariel went to Anaya's studio at that time and made a scene. It could be said that the whole city knew about it. If the head of the Shamus family hadn't stopped her and thought it was shameful, Miss Ariel would have published it in the newspaper so that everyone in the country would know how shameless Anaya was.
