

Widow 396

Chapter 396

Although Edna was born with great charm, people often judge a book by its cover. The upper part of her cheongsam outlined her well-maintained figure, which fully demonstrated the mature beauty of a woman. She was like a cluster of peonies, hot and flamboyant, charming and moving.

Edna looked in the mirror and was very satisfied. "I went to the foreign show to bid on a few dresses. Now it seems that I have no need for them."

Seeing this, Selena immediately said, "Edna, when the time comes, you will definitely be the most attractive of them all and make Flora die of anger."

"I'm already so old. How can I be the most attractive person?" Edna tidied up her hair and said, "As long as you can suppress Flora, that's enough."

"I'm not going to mention what happened back then again, but she took the initiative to send an invitation to provoke me..." Edna sneered, "I must show her how powerful I am then."

Anaya asked, "Mrs. Mcadams, is there anything you're not satisfied with?"

Edna felt it and said, "It's a little tight at the waist area... Is it because I've gotten fat recently? No, I've been losing weight... You did it according to my previous data, didn't you?"
