

Widow 467

Chapter 467

The person who was “very likely” to fall for the trap in Mavis’s mouth was leaning against the chair and tearing mutton for Crystal.

Everyone who attended the drinking party was full of motives. No one was serious about eating, especially when it was a whole roasted lamb. Crystal was the only one who ate it. She was full, but when she saw that there was still a lamb leg left, she felt that it could not be wasted and decided to eat it herself.

Harold’s movements were quite agile. The small silver dagger in his hand moved very smoothly. He easily removed the meat on the bone.

However, Crystal overestimated her appetite. She couldn’t eat more than half of it. It was Harold who helped her finish it. She leaned against the side and picked up the golded room card. She asked Harold, “Why did he give you this?”

Harold glanced at her. “You can’t tell?”
