

## Widow 68

### Chapter 68

Crystal had thought that this person was familiar. When she heard Danny's name, she finally remembered why he looked so familiar.

Danny and Antony looked very similar to Daxton. Compared with Antony's handsome face, Danny was much calmer. Especially his eyes, they were like a deep pool, making it hard for others to see his emotions clearly. It was hard to tell whether he was happy or angry.

Antony had warned Crystal before that Danny and Marcus were very hostile to her. When she entered the family tree, both of them had not come and had made their attitudes clear. Thinking of this, Crystal quickly lowered her head, afraid that Danny would recognize her and make trouble for her.

She had heard a little about Danny's deeds. He skipped levels and graduated from the Vine School at the age of twenty-one. Then, he entered the Evans family's company and started from the bottom. Until now, he was the second in command of the Evans Group. His abilities were obvious, and his character was extremely similar to Daxton's. He was a pure profit maker. Only interests could make him tempted.

Looking at how she reacted, Tim couldn't wait to replace Crystal to please Danny. It was rare for Danny to have someone he liked. How could Crystal not grasp the chance? She didn't know that it was a shortcut that could change her life!

suddenly looked up at him. His eyes
