

MY WIFE IS A HACKER CHAPTER 1011

Chapter 1011

Nicole was completely astonished. She did not expect Martin to have developed such a powerful device.

Martin, satisfied with Nicole's surprised expression, continued the introduction.

"There is a compartment under this red button. If you suffer a traumatic injury, press the red button and take out the fast-healing injection needle and jab on the wound; the speed of recovery varies with the severity of the injury."

"Can it really do that?"

Nicole looked at Martin in disbelief.

"I have tested it, and it is doable. The medication inside this injection needle helps regenerate and repair damaged cells so it can quickly heal your wound."

"This is also a feature that wasn't available in the first generation."

"So, what does this display do?" Nicole asked curiously.

"The display is one that monitors the wearer's body health values in real time, while showing the amount of antidote and restorative injection needles."

"This device is really fantastic. Martin, how did you come up with the idea of developing this device?"

Nicole was shocked after listening to Martin's explanation.

So far, this was the most powerful medical-type device she had ever seen, and it was also something that her organization needed very much, which could greatly improve combat capabilities and reduce casualties.

"It is the patients inside the emergency room that inspire me. Watching their pain, I empathize with them. If there was a device that could help them recover when they were injured, then they wouldn't have to go to the emergency room to experience at the edge of life and death."

At this point, Martin could not help but sink into a low mood.

Nicole then understood why Martin was so dedicated to experimenting in the lab; she admired him from the bottom of her heart.

“Martin, you’re a great man.” Nicole said with approval.

There were no other words that she could find to describe Martin.

“Is this device mass- producible?” Nicole asked the key question.

“Yes.I will produce it in large quantities once the formalities are done.”

“That’s really great.”

Nicole prepared to take The Beacon off her arm.

“Wear it, as I said, you will be the first one to try the first Beacon.It’s for you.”

Martin looked at Nicole with deep affection.

This was the best gift he could give her.

Seeing that Martin was serious, Nicole did not decline.She really liked The Beacon.

“Then I will keep it.”

“Let me know if you run out of injection needles,” Martin said.

“Can I buy more spares of the injection needles?” Nicole asked.

“Sure.It is just that it is not in mass production right now, so I can only package a tiny number here.But it is enough for you to use,” Martin said with a smile.

“It is so nice of you.”

This was something Nicole had not expected.

“Looks like your place is going to be my supply base from now on.” Nicole looked at him jokingly.

“No problem.I’d be more than happy to.”

Martin looked at Nicole with a smile on his face.

“But I would prefer that you never have to use The Beacon; that’s the truest part of me.”

Martin suddenly got deeply emotional.

“I certainly don’t use The Beacon lightly.After all, I’m that good.” Nicole joked.

“Martin, I want to talk to you about something.”

“I’m all ears.”

“Can I have a privilege when The Beacon is mass-produced?”

Nicole gauged his thoughts through his eyes.

“What privilege?”

Martin did not get what she meant.

“I have a friend who is a bodyguard and may need to purchase in bulk. You don’t have to worry about the money. I’m sure they will pay at your price, just that I hope you would sell them according to the quantity they need.”

Nicole looked at Martin with serious eyes. She wanted every mercenary in Zane’s organization to be equipped with The Beacon.

“This shouldn’t be a problem. I will supply as many as you guys want as long as the factory can produce it.”

Martin could not resist Nicole’s request. He would try to help her with whatever she asked for.

“I’m here to thank you in advance for my friend.”

MY WIFE IS A HACKER CHAPTER 1012

Chapter 1012

“Your friend is my friend, not to mention the fact that it was you who provided The Beacon’s production materials.”

“Oh, yeah. If you didn’t remind me, I would have forgotten about it. You will need a large quantity of the raw materials for mass production, right?” Nicole asked.

“Yes. I’m going to visit a few raw material suppliers today to have a look, and if they meet our standards, we will talk further about cooperation.”

“I will leave you to it. If you need my help, you are definitely welcome.”

Nicole left.

“Okay.”

Martin watched Nicole leave.

In the car, Nicole received a call from Harvey.

“Hello, Nicole. What are you busy with?”

Harvey’s voice came over the phone.

“I’m driving. What’s up?”

Nicole was still in the happy state of receiving The Beacon.

“Nothing major. I haven’t seen you since I got back from abroad and thought I’d call to say hello.”

Harvey obviously had missed her.

“Oh, since you have called, let me ask you something: did Ike contact you?”

Nicole remembered the foreigner.

“No. Why are you asking about him all of a sudden?”

Harvey was worried that Nicole would fall for Ike.

“Nothing. Just remembering that debut he made and thinking it was awesome.”

It turns out that Nicole was just interested in the manned flying car.

Harvey eased up.

“I’ve been looking at the information about manned flying cars lately and have a lot of ideas.”

“Since when are you interested in manned flying cars? I saw you had been talking to those CEOs quite a bit,” Nicole said sarcastically.

“Those are all necessary exchanges. Actually, I’m also optimistic about the prospect of manned flying cars. I would like to take part in it if I have the chance.”

Harvey shared the contents of the seminar with his grandfather after he returned home in order to see Nicole more often and have a common topic with her. He tried to convince Mr. Ellison to agree to his participation.

“You want in on this?”

“Yeah.It is dangerous for you to drive while on the phone.Besides, we can’t discuss in just one or two sentences.Is it okay to meet up at Peaches & Cream Cafe later?”

Harvey tentatively asked her out.There was no reply for a long time.

“Yes, send me the location.”

“Sent.See you in a bit.”

Harvey hung up the phone and flew downstairs, got in his car, and drove toward Peaches & Cream Cafe.

At Peaches & Cream Cafe, Nicole got out of the car and walked in.

This was a unique cafe, the interior decoration style of which was what Nicole liked.

“Hi, Nicole,” Harvey waved to Nicole as he sat in a chair in casual attire.

Seeing Harvey, Nicole walked over to him.

“There is something special about the way you are dressed today.”

It was rare for her to see him dressed so casually.Previously, he was all in a handsome suit.

“Is that so? I think you will feel more comfortable with me dressing like this.I see you all wear like this.”

Harvey was observant of Nicole’s usual attire.Nicole nodded and sat across from him.

MY WIFE IS A HACKER CHAPTER 1013

Chapter 1013

“Over on the phone earlier you mentioned that you wanted to be involved in the manned flying car project.Does your grandfather know about this?”

Nicole knew Harvey was one of the more brilliant next-generation successors in the family.But at present, Mr.Ellison still held a large part of the power in the Ellison family.

“He knew.After returning home, it was the first thing I told him.He has not agreed to it, but there are nine out of ten chances that he will agree.”

Harvey was still confident.He knew his grandfather’s keen business sense, and his grandfather could tell how good the future prospects of this project would be.

“That means your grandfather hasn’t made his position clear yet.”

Nicole saw it thoroughly, but she also knew that Mr.Ellison would not want to miss such a fantastic project.

“I have a feeling we will have some news soon, and when the time comes, I hope you can put in a good word for us in front of Mr.Harmon so that Ellison Group can have a chance to get involved.”

Harvey looked at Nicole ingratiatingly.

The manned flying car project was a massive project in recent years.

Nicole knew that Scott’s seminar was an open call for capital, and that he would not refuse capable companies to join.

Afterall, the more the number of investors, the lower the risk Scott would have to bear, and the higher the chances of success it will be.This would be a win-win cooperation.

“Has the Aegis Corporation project wrapped up?” Nicole asked him, as she had not heard the news of the project being completed.

“It’s not over yet, but it doesn’t require my constant attention anymore.The people under me aren’t paid to do nothing.”

Harvey was still confident in this regard.He had handed over the Aegis Corporation project to his subordinates.

This project, which was also originally for Nicole he was also involved in, was steadily progressing, and everything was going well.

“You must make sure nothing goes wrong, as the Aegis Corporation project is kind of a groundwork to get into the manned flying car project, understand?”

Nicole kindly reminded him.If the project in his hands was not doing well now, all the talks about taking part in the manned flying car project would be useless.

“Don’t worry.I didn’t completely let go of it.I understand what you meant.”

Harvey looked at Nicole with serious eyes to reassure her.

“Glad you know that.”

“Nicole, can I go with you when you guys are doing the R&D later? ” Harvey looked at her tentatively.

"I'm afraid that is impossible. Every drawing in the R&D department is confidential. Even if I want to take you in, the people over there won't. You should be clear about this."

"Okay."

Actually, he was just asking. It would be best if he could tag along, and even if he could not, he could still accept it.

The two sat at Peaches & Cream Cafe for a long time.

After their meeting, Nicole drove back to the Riddle residence, as she had not been back there since she returned home.

As the car stopped at the Riddle residence, she took one look at the house and walked inside.

"Mom, Dad, I'm home." Nicole called out to the people sitting in the living room.

"You're back, Nicole?"

Daniel was happy to see her. He had heard that she had gone abroad and did not know that she had come back.

Norah saw Nicole and smiled as usual. But Nicole feigned as if she did not see her.

"Where are Spencer and Samuel?"

"I think they're resting upstairs." Gloria said hesitantly.

"Mom, Dad, how have you guys been?"

Nicole walked over and sat on one side, looking at them with concern.

"We're great. We just haven't seen you in a long time and miss you a bit."

Gloria had deeply missed Nicole and said what was on her mind.

"I have come back to see you, haven't I? Just call me when you miss me next time." Nicole suddenly looked at Norah.

"Have your parents gotten better?"

"Much better, and they are still recovering. Godmom and I visit them at the hospital almost every day."

Norah was quick-witted in her reply, fearing that Nicole would take advantage of the opportunity to chase her out of the Riddle family.

MY WIFE IS A HACKER CHAPTER 1014

Chapter 1014

Nicole doubted what Norah said.

Recalling what happened the other day and studying Norah's current behavior.

Norah was clearly deceiving Gloria and is trying to leech off the Riddle family.

On the day the incident occurred, Nicole had walked past the inpatient unit when she remembered that Norah's parents had been injured.

After all, Norah's parents were okay, so she went to the service counter and asked about them.

The nurse on duty told Nicole that Norah's parents could be discharged, but their family did not agree, saying they were afraid of the after-effects and insisted on letting the two stay in the hospital for observation.

"Nicole, I think I saw you at the hospital the other day. Did you go to the hospital the other day?"

Norah's voice jolted Nicole out of her thoughts.

"Yeah. What is wrong?"

"I saw you and Dr. Wyance. You two seem to be very close."

There was nothing wrong with this statement, but Norah's tone could be easily misunderstood.

Daniel and Gloria looked at Nicole as if she had done something bad.

"Mom, Dad, why are you looking at me like that?"

Nicole asked them with puzzlement, wondering if it was because of what Norah had said.

"I didn't ask you before. But since Norah has mentioned it, I will ask: what is your relationship with Dr. Wyance?" Gloria looked at Nicole.

“Mom, what do you mean by that? Martin and I are just friends.” Nicole looked at Gloria with embarrassment.

“It had better be,” Gloria said.

Nicole understood Gloria must be overthinking things.

“Mom, Dad, Martin is Sebastian’s son, as you all know. Besides that, he is an incredibly good medical doctor. The reason I have been in contact with him so much is because of one of his experiments.”

Daniel was relieved after hearing Nicole’s explanation. He knew Nicole would do nothing that would cross the line.

“Norah, I see you have an interest in Martin, don’t you? Do you want me to introduce you to him some day?”

Nicole dug at Norah, reciprocating Norah’s deliberate action of picking a fight with her.

“No, no. I have heard a lot about Dr. Wyance.”

Norah quickly waved her hand and refused. She had heard that Martin was an experimental maniac.

“Is that so? By the way, I heard your parents seem to have recovered from their injuries, right?” Nicole wanted to test her.

The smile on Norah’s face faded instantly, her eyes moving in their sockets before she looked at Nicole and stammered.

“Huh? No, I asked the doctor earlier, and he said they still need to stay in the hospital for observation. I actually hope they can be discharged sooner, so that our family of three can be reunited again.”

Norah’s acting was so good that tears started to fill her eyes as she spoke.

Gloria was moved by her acting skills and held her in her arms.

“Is that so? But what I was told wasn’t quite the same as what you said. The nurse at the hospital said that your parents could have been discharged, and that it was delayed because the family didn’t agree.”

Nicole had no problem exposing her. She did not want to see Gloria continue to be fooled by Norah.

“You must have misheard. If they could be discharged, why didn’t I know?”

Norah was sophomoric and refused to admit it.

Daniel looked at Norah with suspicion.

Nicole looked at Norah and smiled.

Since Norah did not admit it, she would just help her to the end.

“It is okay.I have an acquaintance at the hospital.I will make a phone call to reconfirm it for you.If they can really be discharged from the hospital, that is a good thing, too.”

Nicole was about to make a phone call when Norah stopped her.

“Don’t bother.I’m going to the hospital tomorrow.If they are really ready to be discharged, that will be really great.I can just do the discharge paperwork for them and take them home.”

“Okay.Then I won’t ask for you.”

Nicole did not believe that she could not manage Norah.She had just exposed Norah with a few words and made Norah offer to go to the hospital and bring back her parents.

“Where are you living now after you return from abroad? How about moving back in?”

Gloria asked Nicole, digressing from the topic.

She was hoping that Nicole would come back to live with her so that the family could be together again.

Nicole glanced at Norah.

“No.I’m mostly at the Sea View Villa with my grandma.Besides, there are already three at home that need your care, so I won’t be back to cause more trouble.”

MY WIFE IS A HACKER CHAPTER 1015

Chapter 1015

Nicole had hinted Norah who was causing problems for the family, but soon she would move out.

Gloria knew what Nicole meant, and she did not continue to persuade her to move back in.

Nicole sat in the living room, uncomfortable facing them.

No one could guess what stupid things Norah would say next, so she glanced upstairs.

“I will go check on them both.”

She got up and headed upstairs.

Norah looked on with vicious eyes as Nicole went. She did not expect that Nicole would discover it and always make her life difficult.

On the second floor, there was a ruckus in Samuel and Spencer’s room.

Nicole pushed open the door and walked in.

“What are you doing?” Nicole’s voice rang out.

Samuel and Spencer turned back to look toward the door and were surprised to see Nicole.

“When did you get here? Come over and play together.” Samuel beckoned to Nicole.

“What is this game that you guys are playing?”

Nicole looked at the game on the monitor. She never played games, so she was unfamiliar with these things.

“It is a fun horror puzzle adventure game.” Samuel explained.

“Here, you try.” Samuel gave up his place for Nicole.

“I can’t.”

Nicole refused.

But Samuel’s enthusiasm was too much for her to resist, and she was made to sit down and then shown how to do it.

“Now, you try it. There is no problem for sure.”

Samuel was positive about Nicole’s ability to learn.

“Don’t blame me if I lose.”

Nicole thought she had better pre-empt.

“Don’t worry. I won’t blame you,” Samuel said heartily.

Then they tensed up as they watched Nicole play. Here's a run through."

"Jump!"

Spencer looked at the screen and was unconsciously immersed in it.

Nicole nimbly controlled the little yellow man of the game.

The little yellow man moved quickly and left the monster behind.

"The following level is difficult. We both played countless times but did not pass. You try."

Samuel had lost confidence in the table level.

Nicole controlled the little yellow man to a room where many gigantic monsters were eating on a rectangular table.

The little yellow man must climb on the table and dodge the attack of the gigantic monsters before coming to the edge of the table, and then jump onto the window on the opposite side.

Samuel and Spencer watched nervously as Nicole played.

"This level must be done the right way or being eaten by the gigantic monsters is inevitable."

"You try it first."

Nicole played, and after some attempts, before the little yellow man could move a couple of steps, it was grabbed and eaten by a gigantic monster.

MY WIFE IS A HACKER CHAPTER 1016

Chapter 1016

"It is a little tough."

Nicole could not help but sigh when she could not level up.

"I have tried this level countless times and haven't gotten past it yet. Otherwise, I wouldn't have let you try," Samuel said sarcastically.

Their laughter could be heard downstairs.

Norah was upset that they were so happy when Nicole arrived, so she said to Gloria, "I'm going upstairs to see what they're doing."

“Go ahead.”

Gloria was happy to see them all in one place and get along harmoniously.

Norah ran upstairs and saw three of them staring at a computer with bated breath.

“What are you guys playing?”

Norah’s sudden voice startled them, and Nicole failed the level again.

“I’m not playing again. What is this game?”

Nicole sighed and got up to leave.

“Don’t leave. You could level up in just a couple of tries.”

Samuel called out to Nicole to stay.

“You guys have fun. I’m leaving.”

Nicole walked downstairs.

Samuel gave Norah a reproachful look.

Had Norah not made a sudden noise, maybe Nicole would have leveled up.

“What are you doing here?” he asked.

“It was downstairs and heard that you guys seemed to have a lot of fun here, so I came up to take a look. Are you all playing a game?” Norah asked as she glanced at the computer.

“Yeah.”

Samuel did not feel like talking to her.

“I saw Nicole didn’t get past the level earlier. Can I try?”

Norah wanted to join them.

“Forget it. This kind of game is not for you. You’d better just play mobile games,” Samuel said sarcastically.

After getting snubbed, Norah left with exasperation.

Downstairs, Nicole would not stay and talk any longer.

After having a short chat with Daniel and Gloria, she was ready to head out.

It was at that moment she saw Norah coming back downstairs, and she reminded Norah, saying, "Tomorrow, if you need any help at the hospital, feel free to call me."

She was saying this on purpose.

"Okay."

Norah squeezed an awkward smile at Nicole.

Meanwhile, at Mr. Johnston Sr.'s residence, Henry was sitting next to his father.

"Dad, there's something I don't know if I should talk about."

Henry looked at Mr. Johnston Sr. in a predicament.

"You're old enough that you should know what should and should not be said. So just say it."

Mr. Johnston Sr. shot a glance at him.

"The raw materials prices have gone up recently, and our branch is cash-strapped. I went to the headquarters a few days ago to ask Jared for help. If we can get through this difficult time, the branch's revenue will definitely double. But Jared not only did not help but also lectured me about this and that. He did not charge a penny when he delivered raw materials to Martin. Now that his own family needs help, he stood by. What Jared has done is too much. If there is no more capital injection, our branch will be in a dangerous situation."

Henry told of all his displeasure at once.

"You said that Jared gave Martin raw materials. Was it Sebastian's son, the doctor?"

Mr. Johnston Sr. looked at Henry.

"Yes, it is Sebastian's son. I heard he is developing a medical device and seems to be ready for mass production. Dad, that's not the point; the point is that Jared would rather help outsiders than his own family. Don't you have to take care of that?"

Henry looked at Mr. Johnston Sr. with anxiety.

"I will find out the situation. If it is true that he did something wrong, I will order him to transfer funds to you right away."

“Dad, you have to help me out quickly. I can’t wait much longer.” Henry looked at Mr. Johnston Sr. with an anxious face.

MY WIFE IS A HACKER CHAPTER 1017

Chapter 1017

“Henry, why can you still not keep your cool when encountering problems at your age? You need to learn to control your emotions,” Mr. Johnston Sr. said.

“Understood.”

Henry did not dare to say more, since he had said what he wanted to say.

“Are you going to stay for lunch?”

Mr. Johnston Sr. in effect, told him he should leave when it was all said and done.

“No, the company still has a lot of things waiting for me to deal with.”

“Oh, then you get busy.”

Henry respectfully left.

At the office, Castor was still anxiously waiting for Henry’s return. As Henry pushed open the office door from outside, Castor immediately got up.

“Dad, is Jared willing to inject capital?”

“No.”

Henry sat down furiously in his chair.

“So, what do we do? We can’t get that money back now that we embezzled it, and we will be done for if Jared finds out about it.”

Castor was completely discomposd.

“Be quiet. Don’t I know how serious things are?” Henry chided. He was more worried than anyone else.

After easing up a bit, Henry looked at Castor.

“I have already mentioned this to your grandfather. When he sees Jared give so much raw materials to others for nothing, he will definitely get mad at Jared, and then he will have to send us the money.”

“Should I print out a copy of Jared’s account of the raw materials that were transferred out and send it to Grandpa?” Castor asked as a thought came to mind.

“Don’t worry about that. I reckon the family butler has already shown all the information to your grandfather.”

Henry’s mouth curled up in a smirk.

Upon receiving a call from Mr. Johnston Sr., Jared rushed over to meet him. Mr. Johnston Sr. said nothing on the phone, just telling Jared that he had something to talk to him about.

In the living room, Jared sat in the right-hand seat and looked over at his grandfather.

“What is it about, Grandpa?”

“I have passed the helm of the company to you for a while now, right?”

“Right.”

Jared looked at Mr. Johnston Sr., wondering why he asked that.

“How is the company doing now?”

“According to the quarterly financial statement, the company’s earnings have doubled from the same period last year,” Jared said matter-of-factly. He felt at ease now that it was for this reason that his grandfather called him over.

“I knew I entrusted the right person. The company is indeed doing better in your hands.”

Mr. Johnston Sr. praised him.

“It is mainly because you have laid a solid foundation early on.”

Jared was modest and did not take credit for it.

“There is something I want to get to know about.”

“What is it?”

“I heard you gave Martin a batch of raw materials from your company for free. Is there such a thing?”

Mr. Johnston Sr. looked at him with an expressionless face.

“It seems that someone has said something about me in front of you. But it is okay. This is something I was going to tell you after it had taken off, but it is also okay to tell you now. Here is the thing: Nicole approached me earlier and said that Martin was developing an advanced medical device, but he lacked raw materials and asked if I was interested in investing in it. After listening to her description, I thought it was an excellent product, so I gave Martin the raw materials for free, as an investment for his product.”

MY WIFE IS A HACKER CHAPTER 1018

Chapter 1018

“Now this product has been successfully made. It is called The Beacon, and it is in Nicole’s hands. I have seen it. Now the factory is ready for mass production, just waiting for the formality to be done.”

“This is a picture of The Beacon. Take a look first. I will bring Nicole over to show you later.”

Jared showed the picture of The Beacon on his phone to Mr. Johnston Sr.

“Is this the product you invested in?”

Mr. Johnston Sr. asked as he looked at the picture of The Beacon.

“Yes, there may be no way to explain it in one or two sentences, but you will understand when you see the product in person.”

Jared was confident about The Beacon, believing that the launch of The Beacon would generate buzz and orders would follow.

“If it is such a great product, ask Nicole to bring it over some day.”

Mr. Johnston Sr. spoke in a calm tone, revealing nothing of his thought.

“Okay.”

“The Johnston family is an extended family, and I’m sure you understand that the phrase ‘united we stand, divided we fall’.”

Mr. Johnston Sr. wanted the family to get along and did not like internal strife.

“I will take care of it as I see fit.”

Jared knew his grandfather well enough to understand what he was talking about.

“That is good.I won’t ask you to stay for lunch, as Nicole should be waiting for you at home.”

Mr.Johnston Sr.looked at him with a smile.

“I will leave then.”

Jared got up and politely said goodbye.

“Where are you?” Jared called Nicole.

“I’m at the villa.Have you had lunch?” Nicole asked with concern.

“Not yet.I’m on my way back to the villa.”

“You’re coming back to the villa? You are free in the afternoon?” Nicole asked him happily.

“Yeah.What would you want to eat? I will make it for you when I’m back.”

“It’s alright.Just tell me what you want to eat, or we will both probably starve to death when you finally arrive and cook,” Nicole said with a smile.

“Okay, then just cook whatever you like.I’m fine with it.”

“Okay, I will make it now and it will be ready by the time you get home.Bye.”

Nicole hung up the phone and walked toward the kitchen.

Jared said to Max with a smiling face.

“Check Henry’s branch office later and see what’s going on there.”

“Got it.”

Half an hour later, Jared’s car pulled up in front of the villa.

Jared got out of the car and walked into the house as Max drove off.He pushed the door open and walked in.

Without Nicole in sight, he took off his suit and walked toward the kitchen, where a plump figure was busy.

Jared quietly walked over and hugged her from behind.

“What are you cooking?”

“When did you get back? You walked like a ghost.”

Nicole’s heart throbbed for a second.

“Just got back.Can I help you with something?”

Jared liked the feeling of being busy in the kitchen with her.

“Get a soup bowl to serve soup later,” Nicole said.

“Okay.”

It did not take long for a bowl of fresh soup and four small dishes to be ready, and Nicole served him a bowl of soup.

“How about trying the soup I made for the first time?”

“This is the first time you have made soup?”

Jared looked at her with surprise.

“Yes, don’t you feel honored?”

Nicole looked at him with pride.

“It is my honor.Just that, is this soup really drinkable?” Jared asked, looking at the not-so-pretty looking soup.

“Ignore the appearance.This soup of mine doesn’t look pretty, but it still tastes good.Try it now.”

Nicole looked at him as if she was waiting for him to finish the soup.

MY WIFE IS A HACKER CHAPTER 1019

Chapter 1019

Jared took a sip from the spoon as if he had made a big decision.

The spicy white pepper mixed with fishy acidity almost made him throw up.He swallowed it with determination and then took a big bite of other food to stop the feeling of vomiting.

Nicole looked at him with delight as she saw him eating with gusto and thought he liked it.

"I knew you would like it. It was just as I expected. But you don't have to eat like people are going to grab it from you. It is all yours."

Jared was petrified upon hearing that.

'What? It is all mine? Isn't she really screwing me?' He hurriedly explained.

"Actually, you don't have to give me everything. You should drink it too, as I can't finish it myself."

He was almost crying, as he simply could not finish it all.

"It's okay. I don't like soup much. This soup is specially made for you. You work so hard every day, have some soup to replenish your body."

Nicole looked at him with a concerned face, not feeling Jared's helplessness at all.

"Specially made for me?"

Jared was dumbfounded, thinking this was the end of him.

"Yeah."

Nicole smiled happily at him, unaware of how hapless Jared was right now.

Nicole never drank that soup. She just ate the salad and other dishes as she kept refilling Jared's soup bowl, as if her eyes grew on Jared's soup bowl.

"No more filling. I'm done."

Jared hurriedly got off the table.

If he stayed any longer, he was afraid he would have to spend the entire afternoon in the toilet.

"Oh, then I will keep it for you to drink at night."

Jared almost wanted to go over and throw the soup bowl away when he heard this, but he could not do that, so he had to put up with it.

"Don't do anything now. If you're done eating, come over and sit down for a while."

Jared walked over to the couch.

Nicole put down her cutlery and followed him over to sit down.

“Is the first product that Martin made with you?”

Jared looked at her.

“Yeah.Do you want to see it?” Nicole asked, upon knowing what he wanted.

“Show it to me.”

Jared looked at her expectantly.

“Okay.”

Nicole took The Beacon out of her bag next to her.

“This is The Beacon.Take a look.”

While speaking, she handed it to him.

Jared took it in his hand and looked at it carefully.

“What does this thing do?”

Nicole then told Jared exactly what Martin had told her, and Jared nodded in surprise.

“I didn’t expect that Martin could make such a powerful device.”

“Are the paperwork done for the manufacturing of Martin’s product?” Jared asked.

“I don’t think so.”

“Has a product launch event been held?” Jared asked again.

“I don’t think so.”

Nicole had not heard Martin mention it.Jared frowned.

“How can such a great product not even have a launch event? What’s Martin been up to?”

“I heard him say that raw materials are increasing in price and suppliers are not easy to find.He is probably looking for suppliers all over the world right now.”

Nicole told Jared what she knew.

“Why are you suddenly so interested in Martin’s business?” Nicole asked in puzzlement.

“Anything valuable will arouse my interest. Isn’t the raw material for the pre-production of this device from me?” Jared mentioned the raw materials.

“Yes, I almost forgot if you didn’t remind me.”

MY WIFE IS A HACKER CHAPTER 1020

Chapter 1020

“The prices of the raw materials now are ridiculously high, and he will of course have a hard time finding major suppliers.”

Jared knew the market like the back of his hand.

“Indeed.”

Nicole seemed to have thought of something and looked at Jared with a surprised look.

“You have the raw materials, and Martin could have asked you to work with him. Why did I just think of that?”

Nicole sighed at her slow wit.

“You just said you weren’t busy this afternoon. Do you want me to contact Martin and we can meet somewhere to talk with him?”

Helping Martin was helping herself.

Only when The Beacon was in production could Zane’s organization use it to fight against The Raven better.

“Why not?”

Jared also has his own calculations.

Last time, Nicole asked him for help, so he did not think about cooperating with Martin.

But this time, Henry had complained to Mr. Johnston Sr., and he felt it was time for him to talk to Martin. It was going to be a win-win cooperation.

“I will ask him what he’s up to now.”

Nicole took out her phone and dialed Martin’s number.

“Martin, are you still out there looking for a supplier?”

“Yeah, what’s up, Nicole?”

“Have you found any?”

“I saw several of them this morning, and they were all booked out of raw materials. So, I still have to keep looking.”

Martin sighed dejectedly.

“Do you want me to introduce you to a major supplier?”

Nicole’s call was like a rain after a long drought, lifting Martin’s spirits again.

“Sure. Which company is it?”

“I will see you at Blue Whale Restaurant in a while. You will know then.”

Nicole hung up the phone and looked at Jared.

“Let’s go.”

At the Blue Whale Restaurant, Martin sat at a table, still guessing who the supplier Nicole was going to introduce him to.

“Martin.”

Nicole walked in and waved to him.

Martin waved his hand back at her, and then he spotted someone he knew.

“Jared?”

“Sorry to keep you waiting?”

Nicole and Jared walked over and sat down.

“It’s okay. I have just arrived.”

Martin shot a glance at Jared, then back at Nicole.

“I don’t think I need to introduce you two again.” Nicole said.

“Mr. Johnston.”

Martin was still a bit unnatural to see Jared.

Jared nodded.

Knowing Martin was an introvert, he took the lead to speak.

“Dr.Wyance, I heard The Beacon is ready for mass production, right?”
