

My Wife is a Hacker by Summer

Chapter 781

□ □ □

Chapter 781

Jared came over, stood beside Nicole, and wrapped his arm around Nicole's waist to declare sovereignty when he noticed what

happened here "Excuse me. My girlfriend is tired, she needs a rest. Enjoy yourself, Mrs. Holder"

He did not want the Holder family to say anything unbecoming. So he made an excuse and took Nicole with him.

Since this was the host's home. Nachele could only watch Jared take Nicole away She clenched her hands, much to her chagrin.

"Damn it. Jared is so mindful."

But Nachele had tested Nicole and was sure that not only did this young lady have no feelings for Lloyd, but she also resisted

him. Nachele looked back at Lloyd helplessly with this thought in mind

Lloyd was devastated and ashamed of himself. Sensing the stare from others, he could not withstand it, so he turned around to leave silently

Nachelle saw her son's disappointment. She did not stop him but left with him

By this time, Jared had taken Nicole to the balcony. Nicole looked at Jared's gloomy expression. She put her hand to his forehead to smoothen his frown." Mrs.

Holder just wanted to talk to me. I've already refused. Why still this face?"

Jared's expression eased up slightly, but still seemingly jealous. "I won't allow anyone to covet my woman

Nicole could not help but blush. "Why are you getting more and more anless recently? Who is your woman?"

Jared stepped forward and wrapped his arms around her, drawing her directly into his arms and forcing her to look up at him.

"Who else but you?"

Moonlight, along with the gentle breeze, scattered on Nicole's face. As if Jared was enchanted, he could not resist but kiss her

on the forehead

Nicole's heart fluttered, and she slowly closed her eyes.

Amid this amorous moment, a sharp voice sounded suddenly

"Are you here, Jared?"

It was Chloe, whose voice came at an inopportune moment, a nuisance to both Jared and Nicole

Nicole suddenly came to her senses and pushed Jared away

Chloe came to the balcony just in time to see Nicole pulling back from Jared with a bashful face as if the two had done something unseemly.

The sight of this made Chloe feel terribly jealous. 'I can't believe Nicole is already such a flirt at this young age I couldn't even make Jared give me a second look while she got away with him so easily.'

"What are you doing here?" Jared asked in an icy voice after they were interrupted

'L' Chloe stood startled, holding two glasses of wine in her hands She wondered if she had said something wrong Otherwise,

Jared would not have been angry with her

Feeling wronged, she subconsciously glanced at the glasses in her hands and decided to go forward "I brought you a glass of wine

Nicole's keen eyes glimpsed at the wineglass, and her gut feeling told her that something was amiss, but she could not tell what

Jared grabbed the wineglass but did not bother to spare Chloe a glance. "You can leave now.'

Chloe did not expect Jared to even say such a thing to her. Her eyes welled up, and tears fell instantly.

“I-I get it.” Chloe could not take this humiliation and left.
