

Wild Fire 101

Chapter 101 - Orc Lord

“What’s the matter,” Lu Yang asked by pressing the speaker.

“Master, we have collected 8 sapphires, I have been waiting for you to go online.” Liquor Qingfeng said.

“It’s fast enough.” Lu Yang said, he thought it would take two or three days to get together with the strength of the old man.

“Our guild is doing its best for your business. The late boss told us that what you want must be gathered as soon as possible.” Liquor Qingfeng said.

Lu Yang was a little silent. He knew that what Liefeng Qingfeng said was a bit exaggerated, but it is undeniable that Chi Mu really did his best to complete his request.

There are more than ten types of gems in “Second World”. Even if the Ever Night Forest is opened, they may not give sapphires. They can send so many the next day. Obtain gem fragments.

“Thank you, Brother Twilight for me.” Lu Yang could only answer this.

Liquor Qingfeng deliberately persuaded Lu Yang, but he knew that Lu Yang would still not agree, so he stopped talking about it and said, “Where are you? I can’t get out of the copy right now. I will send someone to send past.”

“I’m at the bank,” Lu Yang said.

“Wait for 2 minutes.” Liquor Qingfeng immediately sent his men to take out the gems from the guild warehouse and gave them to Lu Yang.

Sapphire: Intelligence +6

Lu Yang put these 8 sapphires in the warehouse, and now he only needs to upgrade the equipment to set the gems on the equipment.

However, the place he went to was special, and someone needed to block him. He called Xiao Liang's intercom.

"Boss, look for me." Xiao Liang said happily.

Lu Yang asked, "How are you playing with the Orcs?"

"Boss, I'm about to tell you, I found out that a cave-shaped half-orc who is larger than a half-orc warrior was brushed out of this cave. I'm hitting him. What is this?" The picture was sent to Lu Yang's information bar.

Lu Yang opened it and looked surprised, and said, "Brother, are you still alive? This monster is a half-orc lord. He can fly axe and can penetrate bu * rocks."

Xiao Liang said dejectedly: "Don't mention, I was just kicked out of him by bu *. Fortunately, when he chased me too hard, he hit the wall with an axe, which led to the collapse of the cave hall entrance. What about him. "

Lu Yang was happy. He didn't expect Xiao Liang's character to be so good. Generally, when the lord-level strange brush attacked in the cave, it would cause the cave door to collapse, so that the player could not run out and had to fight with him. , But often the boss boss wins.

Now Xiao Liang is so lucky that he ran outside the cave hall in advance, so that he would output through the wall, but it is easier. The boss wants to pierce the landslide rock he made, at least half an hour.

"Boss, what are you doing to me?" Xiao Liang asked.

Lu Yang said: "You hit first, I'll wait for you to finish."

"Oh." Xiao Liang said, "Boss, I'll open a synchronized video for you."

Soon, there was a picture of Xiao Liang's output in front of Lu Yang's eyes. He stood outside the cave rock in the cave hall to release poison, and inside, the orc lord could only slam the rock desperately.

"How much blood does he have," Lu Yang asked.

"There are still 100,000." Xiao Liang said.

Lu Yang calculated it and said, "No problem, you can kill him within half an hour."

Xiao Liang didn't have much self-confidence. When he heard Lu Yang's words, he immediately became full of confidence and continued to release the poisoning technique.

30 minutes

20 minutes

10 minutes

...

Soon, the blood of the half-orc lord had only 10,000 points left. However, at this time, the collapsed rock had been cleared by the half-orc a large piece, and Xiao Liang could already hear the boss cutting the last rock in front of him. .

"Boss, what should I do?" Xiao Liang asked nervously.

Lu Yang said: "Don't be afraid, you can poison him first."

Xiao Liang came out with a firm confidence, and continued to release the poisonous mist. After another 3 minutes, the Orc Lord suddenly broke through the rock with an axe, but at this time, the Orc Lord couldn't hold it anymore, and was not willing to roar. He died on the ground.

"Boss, I succeeded." Xiao Liang said excitedly.

Lu Yang was also very excited and said, "Look at what's going on. You killed the boss boss."

"I forgot." Xiao Liang patted his head and hurried to the half-orc lord, and found a total of 1 warlock skill book summoned three **** dogs and a weapon black blood knife on the ground.

The Black Blood Knife is of silver grade and wears a rank of 10, however, the attributes of the weapon are very general, and the damage is only 10-30 points.

"Boss, I'm so unlucky that I exploded a junk weapon." Xiao Liang said depressedly.

However, Lu Yang shook his head and said, "Brother, you are out of luck, but luck is too good. This is a black blood knife. If you give your snake venom to level 9, it will evolve into black blood. It is a set of equipment with Black Blood Sword and Black Blood Armor. After the collection, it is almost invincible within 30 levels. "

"So good?" Xiao Liang asked.

"Of course, when did I lie to you, boss?" Lu Yang said.

"Then how can I upgrade?" Xiao Liang asked.

"I have the boss to upgrade you, you come back to the city first, I will take you to another place to upgrade, by the way I will introduce you to three people, my cousin and cousin." Lu Yang said.

“Then I will come back.” Xiao Liang picked up all the items dropped by the boss and flew back to the city.

Lu Yang looked at the time. The three brothers Han Ying played in the game for almost an hour. He should have a general understanding of the game. He formed a group among his friends, including Han Ying, Han Fei, and Han Yu. All my brothers pulled in.

“How are you playing and how do you feel.” Lu Yang asked.

“Lu Yang, this game is so fun. The buildings in the original game can be made so majestic.” Han Fei was very excited, and then he said, “But this game is too difficult to upgrade, how to play it? There are so many people, one strange brush comes out, and seven people rob me, even if I turn on the free mode, I can’t rob the monsters 100% and exhaust me. “

Han Ying and Han Yu also share their feelings ~ www.mtlnovel.com ~ Han Ying said: “Melee is better, I and Han Yu team up to upgrade, weird brush out, usually because we did n’t wait to release our skills, we were blamed. People robbed, we attacked just to blame others, we have no experience at all. “

Lu Yang laughed, and he guessed the three would react in this way.

“Also.” Han Ying said indignantly, “Lu Yang, why is there an organization called a guild in this game to take people to level up? Except for the people in their guild, we will kill us when we go in. It is too bullying . “

“Which guild were you killed by them?” Lu Yang asked with a frown, and there was a bit of evil in his body, and he dared to bully his brother. He didn’t mind letting the guild see his strength.

Han Yu said proudly: “Of course it’s gone. Instead, my sister and I killed many of them. Now they are too many. My sister and I have to run out. As for their names, they seem to be called Wanjiangtang. “

Lu Yang knows this guild, which is currently a medium guild in the game, with a size of 20,000.

“You all return to St. Gall’s city first, don’t continue to conflict with them for the time being, I will take you to raise the level first, and then we will go to clean up this gang.” Lu Yang said.

Han Ying and Han Yu did feel a little depressed. They told Lu Yang that the clouds were light and windy. In fact, they were chased all the way back to the holy city to survive.

“We’ll be back here,” Han Yu and Han Ying said together.

Chapter 102 - Go to hidden map

Han Fei’s head is relatively clever. He just researched the game’s ranking list and found that Lu Yang, ranked 11th.

“Brother Lu Yang, isn’t you the first on the ranking list?” Han Fei asked.

Lu Yang said, “Yes.”

“Your level is so high, it is 3 levels higher than the second place.” The three sisters Han Ying said together, the three found that Lu Yang turned out to be so strong.

Lu Yang said with a smile: “Of course, otherwise, my brother, how can I take you to upgrade, come soon, wait for me to take you to upgrade the level, you can choose to make money or kill, like a role like Wan Jiantang, you alone They can tremble as they can kill. “

In this life, Lu Yang didn’t want to let Han Ying’s third sibling be a killer anymore. He wanted to give the third sibling a normal life, maybe from here.

Xiao Liang was the first to arrive at Lu Yang. He saw Lu Yang leaning on the railing of the square and ran over immediately, saying excitedly, “Boss, I’m here.”

For several days in the Orc Hall, Xiao Liang has a lot to say to Lu Yang, especially in terms of equipment.

He put the weapons, equipment, and skill books that he had hit in the past few days in front of Lu Yang, and said, "Boss, this is my gain in the past few days."

The half-orc hall's explosion rate is very low, but he has killed the half-orc warrior several times in the past few days, and today he has also killed the half-orc lord once and obtained a lot of equipment.

Lu Yang looked at it and found that there are really a lot of good things, black iron shields, silver shoulder armor, bronze daggers, and several skill books worth a total of five or six thousand dollars.

However, how could Lu Yang want his younger brother's things, he said, "What do you do for me? I keep it for selling. These things sell more money than your dad earns for a month. I believe you're old. Dad won't stop you from playing games after seeing the money. "

In the past few days, Xiao Liang did not go to help sell vegetables and play games at home every day. He was not complained by his parents. Hearing Lu Yang said, Xiao Liang's eyes showed a longing look, but Xiao Liang immediately shook his head and said: That's not okay, boss. I can't ask for these things. These things are the same as you gave me. I don't know where you are without you, and I can't go there. I can't sell them. "

Helpless, Lu Yang took out ten gold coins from his backpack and said, "Look what is this?"

"10 gold coins?" Xiao Liang was shocked and asked excitedly: "Boss, where did you get these 10 gold coins for 10,000 yuan?"

Lu Yang smiled and said: "These gold coins were originally the boss. I prepared for you to convince your parents. Since you earn it yourself, I will not give it to you."

"Ah?" Xiao Liang couldn't respond.

Lu Yang patted his shoulder and said, "I am your boss, and of course I have to consider it for you. You don't have to think about it for me for the time being, my boss has a way to make money."

"Oh." Xiao Liang put all the equipment in the backpack, but he thought more firmly that he must be a person who can help the boss in the future, and he can't always let the boss help him.

"Rest in peace, the three little guys will be here immediately." Lu Yang said.

Soon, Han Ying's three siblings appeared in Lu Yang's field of vision. He waved his hand to signal the three to come and introduced Xiao Liang and the three to each other.

When the third sister Han Ying knew that the black armored soldier was the Xiao Liang in front of her, the third sister was shocked again.

"The first and second ranks took us to upgrade together, it was amazing." Han Fei said.

Han Yu said to Xiao Liang, "Thank you Xiao Liang for helping us."

Xiao Liang scratched his head and said, "I just run for the boss. You don't need to be kind to me."

The three siblings were at a loss for a while.

Lu Yang held Xiao Liang's shoulders and said, "Don't bullshit, you are my brothers just like them."

He went on to say: "Tomorrow Xiao Liang, you can come to my house and everyone will know each other. Now everyone will follow me and we will upgrade. There are too many people working **** this game. As long as we are a little lazy, we will be easily caught. exceed."

"Okay." Xiao Liang and three brothers Han Ying immediately became serious.

Lu Yang first took four people to the smithy, bought four pickaxes, and then came to the holy city transfer point.

“Here are four gold coins, each of you is holding one.” Lu Yang said.

“Gold coins!” The three sisters Han Ying just saw how hard it is to get the money in this game, and they all looked surprised when they heard Lu Yang’s words.

“Lu Yang, why are you giving us so much money, let’s not.” Han Ying said.

Han Fei and Han Yu nodded together.

Lu Yang said: “This money is not for you. It was given to the NPC when it was teleported. We went too far. The transfer fee required a gold coin.”

The four looked surprised at the same time.

“Where is it? I want a gold coin?” Han Ying asked. She just saw a tyrant in the game who wanted to buy a gold coin for 800 yuan.

Lu Yang said: “Sarros City, remember for a while don’t be wrong.”

Xiao Liang and Han Ying’s three siblings couldn’t help but swallowed. For the first time, they used a gold coin to go to a map.

“Be assured, boss, I will not press the wrong.” Xiao Liang said, he was the first to choose the delivery location ~ www.mtlnovel.com ~ white light flashed and flew away.

Three sisters Han Ying also chose to fly away and Lu Yang flew to Sarros last.

The city of Saros, level 20 on the map, is the closest to the orc empire among all the cities of the nine human empires.

In the last war between humans and orcs, the town of Saros was the main battlefield. After the human soldiers repelled the orc army, the soldiers who should have enjoyed glory were attacked by the necromancer.

Although they killed the undead wizard, they found that the undead wizard had released the undead magic on countless soldiers who died. It will not be long before these great fighters who once defended human peace will become zombies and attack humans.

In order to prevent this tragedy, the Terran Union Army at the time built a huge underground maze outside the city of Saros, placed these dead soldiers in the maze, and sealed the underground maze with a megalith.

This was the end of the incident, but the human army mingled with the human traitors worshiping the undead. When they built the underground palace, they secretly built a secret passage leading to the interior of Saros.

Later, after the construction of the underground palace was completed, these spies were accidentally discovered and directly executed, which led to the secret being hidden.

The reason why Lu Yang knew this place was because when the human race and the orcs started the war in the last generation, a large number of human players gathered in the city of Saros, and then the players discovered the secret and authentic existence.

At that time, the number of full-service players reached more than one billion. Even with a huge map such as "Second World", it was still impossible to hold so many people. After the players went online every day, they all struggled to grab other players on the level 20 map. .

This player accidentally entered the secret channel, and found that it was all strange, and no one had snatched it from him. He was excited to bring some brothers to upgrade here.

In less than half a month, their ranks stood out among everyone, on par with the presidents of major guilds, and caused countless guesses at the time.

If a few of them can keep concealing forever, they are likely to exceed the ranks of the presidents of major guilds at this stage. Unfortunately, after these ranks are high, they are too high-profile and provoke a high-level thief.

One night, the thieves hid behind them and wanted to kill them, but the brothers went away together. The thieves kept behind them without finding a chance. The high-level thieves had a stealth technique. The brothers thought that no one was following them. Go into the hidden map.

As a result, the brothers were all killed by the thieves that night, and the upgrade site was also said by the thieves.

Lu Yang knew this hidden place because it was too sensational at the time. He said to Xiao Liang and Han Ying, three brothers who were curiously looking at the map, "You closed your friend's application and hide your own on the ranking list. first name."

The three siblings are all novices Xiaobai. I don't know why Lu Yang did this, but they didn't ask.

Suddenly, a sharp tweet came from above.

Sister Han Ying looked up, and a two-meter-long, ocher-colored falcon flew over them.

Falcon

Level: 20

Qi and blood: 2800/2800

“Strange 20?” The three sisters Han Ying hurriedly posed a dodge gesture, they were only level 1. If the Falcons found them, they would be dead.

Xiao Liang also hurriedly put on a defensive posture, and came to Lu Yang in one step, ready to open the shield at any time. He couldn’t beat the level 15 orc, let alone the level 20 falcon.

Lu Yang patted Xiao Liang’s shoulder and patted Han Fei’s shoulder again, saying “Don’t worry so much, this bird won’t fly down.”

The bird’s name is Desert Falcon. It is a unique monster outside the city of Saros. It often flies over the walls, but they never attack the players in the city. Once they land to a certain distance, they will be attacked by Saros. Attack by archers in town.

“I’m scared to death.” Xiao Liang said with a look of horror after laying down his shield.

The third sister also breathed a sigh of relief, Han Fei asked nervously, “Brother Lu Yang, why are all the strange here 20 level?”

Han Ying and Han Yu both looked at Lu Yang in surprise.

Lu Yang said with a smile: “Don’t be surprised, now I take you to the upgrade place, it is strange that it is level 20.”

“Ah?” The third siblings were a little dazed. They looked at their levels, and they were all 0.

Xiao Liang guessed that Lu Yang would not take them to a low-level map upgrade, saying: “Don’t be surprised, when the boss took me to level 15 to upgrade, I was also level 0.”

Sister Han Yingsan is even more surprised. Although they have not played the game, they also know the distance between 0 and 15 or 0 to 20.

“Brother Lu Yang, what are we going to do?” Han Fei asked.

Lu Yang said, “I’ll tell you where you go, and let you close your friend application and hide the ranking list. This is also the reason. It will make your upgrade very fast, and you may be disturbed by others. You just hide your identity.”

Then the three came to understand.

After the three people including Lu Yang were closed, they took Xiao Liang and Han Ying three sisters all the way from the central square of Saros to a residential area on the east side of the city.

The residential area is not large, there are only more than 30 households. On the side of the middle house of these people, Lu Yang stopped.

The location of this house is very special. His side is almost next to the city wall. It seems that the gap left is to prevent the house from using the city wall as the wall. In fact, this place is the entrance to the secret passage. Only when you get closer can you find that one can walk in sideways.

Lu Yang said to Xiao Liang behind him: “Go forward from here. The seventh stone is the entrance to the secret passage. Before you enter, open the defensive posture. If you blame too much, open the shield wall.”

“Okay.” Xiao Liang checked the equipment and potion.

Lu Yang said to Han Ying’s three siblings: “After you and Xiao Liang enter, the three of you wait for my notification before entering, you know?”

“Okay.” Three sisters Han Ying said together.

“Very well, we started to upgrade.” Lu Yang beckoned and took them to the corner.

Xiao Liang walked in front, and walked sideways into the middle of the house and the city wall. Just after the seventh stone slab, the slate suddenly separated from both sides, Xiao Liang fell off instantly.

Lu Yang looked down from above and found that Xiao Liang just landed on a high platform that could only hold 6 people at the same time. The platform was three meters high, and a stone step on the west side of the platform led to the ground.

On the ground, there are countless black-green zombies.

Zombie

Level: 20

Qi and blood: 2600/2600

The space below is very large and you can't see your head at a glance, but as long as the eyes can see, all are zombies.

Originally, these zombies were walking with no purpose. Suddenly, there appeared light above, and the sound of Xiao Liang jumping down, made hundreds of zombies around him aim at him at the same time, and ran towards him madly. .

Xiao Liang was startled, and hurried down two steps to get stuck in the middle of the stairs, set up a shield, and taunted the 10 zombies who had rushed up.

The staircase can accommodate two people walking at the same time, Xiao Liang can only get stuck in one position, but he can't get stuck in the other position.

In order to prevent zombies from occupying the platform, Lu Yang immediately jumped down and stood beside Xiao Liang, stuck in another position.

“Boss, don’t stand here, it’s too dangerous.” Xiao Liang hurriedly made a mockery of the strange in front of Lu Yang.

The zombie’s attack power is very high. Xiao Liang’s blood and blood are falling fast. Fortunately, Lu Yang is stuck. Otherwise, if he is surrounded by three sides, 6 zombies attack together and Xiao Liang will die.

At this point, the zombie group had already accumulated under the stairs, and the first zombie rushed over was stuck by Lu Yang and Xiao Liang, and did not rush to the high platform.

This is the first time that Lu Yang has encountered such a situation. He watched the two zombies in front of him smashing Xiao Liang’s shield frantically at the same time. , They won’t hit me for the time being. “

Immediately after the landing, Yang Ying said to the three siblings Han Ying above: “You three jump down.”

“Oh, okay.” Sister Han Ying swallowed and hurried to jump down. It was the first time they saw such a realistic picture.

Lu Yang said: “Don’t be afraid, you three team up. Han Yu scatters the strangeness in front of you, and strives to hit every strangeness.”

“I’m only level 0, so I can’t attack them.” Han Yu said dumbly, he didn’t understand why Lu Yang let him attack.

Lu Yang looked at the zombie in front of him and said, “Attack now, don’t hesitate.”

Han Yu didn’t dare to delay anymore, and quickly took out his bow and arrow to start the scattering mode.

Scattered 20 bows and arrows at a time and landed on the zombie, forcing only 1 point of damage. However, this also attracted the attention of the zombies, and more zombies ran towards this side.

Lu Yang saw that the number of zombies was almost the same, and shouted to Xiao Liang around him: "The group laughed, pulled the hatred, and watched my brother, I will perform a miracle for you."

Xiao Liang was spurred by Lu Yang's words, and immediately launched a group of ridicule, attracted the strange hatred to his body for 10 seconds, and opened the shield wall at the same time.

"Lord of the Great Fire, please accept the faith of your humblest servant, and ask you to grant me to burn all fire ..."

The violent fire element emerged from Lu Yang's body. The top of the maze was overcast with clouds. After 10 seconds, a gap appeared in the clouds. A house-sized fire meteor suddenly dropped from the air with a long fire tail. .

The top of the maze is only 5 meters high from the ground ~ www.mtlnovel.com ~ The speed of the meteor landing is fast, and the surrounding area on the ground is extremely empty, with only countless zombies.

When the meteor hit the ground, the golden-red aperture erupted sharply, and Xiao Liang and Han Ying's three siblings were stupidly in place.

The system prompts: You have gained 1416 experience points (among which, you have 1275 experience in cross-level fighting)

The system prompts: You have gained 1416 experience points (among which, you have 1275 experience in cross-level fighting)

...

Countless system prompts flew from the call bar of Han Ying's three siblings. At the same time, the three of them flashed countless golden lights at the same time.

once

twice

...

It didn't stop until eight times.

Xiao Liang saw Lu Yang use this skill for the first time and was stunned in the spot, even pulling the monster forgotten.

Lu Yang shouted: "Quickly mock."

The zombie in front of him is unstable and has a tendency to relocate.

Xiao Liang then reacted. After several consecutive attacks to stabilize the monster's hatred, Lu Yang released the Fire Wall and Pyroblast to kill all the remaining 6 zombies in front of him.

At this time, Lu Yang looked back at his three siblings and asked, "How many levels are there?"

Han Ying looked at Lu Yang in disbelief and said, "Eight levels."

Chapter 104 - Special bug

"How is this possible?" Xiao Liang asked in surprise.

Han Fei and Han Yu also looked at Lu Yang in shock. When they were playing outside just now, they knew how difficult it was to upgrade the game.

Originally, they thought that Lu Yang would take them to upgrade, and they were very happy to be promoted one or two levels a day. However, Lu Yang actually took them from 0 to 8 at once.

Han Fei opened the ranking list. He remembered that when he looked at the ranking list just now, except for Lu Yang and Xiao Liang, who reached the 11th level, the others had the highest level.

Sure enough, the first place on the ranking list is the 11th level of Lu Yang and Xiao Liang, including 8th level of talents such as Xiongba, Old Man, Black Blood, and Bloodthirsty Domineering.

Han Ying and Han Yu also opened the ranking list. The three of them checked together and found that when they reached the 500th place, they were only level 7.

“We actually entered the top 500?” Han Fei said in surprise.

Lu Yang said with a smile: “Now you understand why I asked you to close friend applications and hide rankings.”

The three nodded together, and they understood that suddenly when they appeared on the ranking list, there would be countless people applying to add their friends to inquire about their location or find them to join the gang.

Xiao Liang asked excitedly: “Boss, how did you do that, this place is upgrading too fast.”

This upgrade speed is completely beyond the scope of normal games, but it seems so reasonable.

Lu Yang smiled and said, “It’s not unusual, it’s just that their level is too different from the strange level.”

This is a famous bug of my life. According to the rules of the game of “Second World”, the higher the level difference between players, the more experience they have.

For example, levels 0 to 1 give 10% more experience, levels 0 to 2 give 20% more experience, and so on, the maximum experience increases by 100%, which is level 10.

If the leapfrog exceeds level 10, the calculation is based on level 10. This empirical formula was originally written down, but when I was planning the design formula, I made a mistake and accidentally changed the experience given by level 20 to 1000%, which is 10 times. experience.

When they discovered this problem, the planners did not choose to correct it, but they did not take it seriously. Who can believe that a player can kill the level 20 monster at level 0.

There is a rule for grabbing monsters in the game. This is not the first time a player attacks a monster. This monster is owned by that player. If the damage of other players is much higher than that of the first player, the experience and explosion of the monsters The equipment is owned by other players.

Again, this bug is only for level 0 players, and the calculation formula for players above level 0 is still the usual calculation method.

In other words, this loophole can only be used once, and if you want to do this, you can only use another loophole in the game. If the first player attacks the target first, and the second player's skills are strange for an instant, then The strange experience is still owned by the first player.

This rule is designed to prevent the bully from bullying the trumpet, and also to prevent the trumpet from being upgraded with the trumpet. However, in the past, there was a high-level fire method to use this loophole. Take the trumpet to the level 30 strange map upgrade and use its Powerful explosive power, a strange screen for a second, and the trumpet instantly rose from 0 to 20.

However, this spell can only be completed by the fire spell, and the fire spell wants to achieve such explosive power, only forbidden curse.

The cooling time of a forbidden spell is several days. It is a gang's strategic skill. Once used, the gang is in a weak period during this time. Therefore, the official found that this problem has not been corrected.

Lu Yang can't take Han Ying to go to the level 30 map. Xiao Liang can't resist the attack of the level 30 strange. In this level 20 hidden map, it is currently the best choice.

"Brother Lu Yang, the speed of this upgrade is too cool." After Han Fei responded, his face was full of excited expression.

The same is true of Han Yu, and Han Ying's usual indifferent face is not so calm.

Lu Yang said: "In the future, I will always take you here to upgrade, the upgrade method just now, only this time, there will not be so much experience in the future upgrade, you must be prepared."

"This time is enough, we are already much better than others." Han Ying said contentedly.

Han Fei and Han Yu both nodded in agreement.

Han Fei said, "Brother Lu Yang, I'll help you pick up equipment."

After more than a hundred zombies were killed, a lot of things exploded on the ground. Level 20 zombies exploded all equipment from level 12 to level 20 and skill books below level 10.

"Don't go." Lu Yang shouted quickly.

However, at this time Han Fei had already jumped off the high platform and ran to a zombie with explosive equipment. He was about to reach out to pick it up and looked up at Lu Yang's words.

At this moment, the zombie who had been killed suddenly woke up, reached out and grabbed Han Fei.

Han Fei's alertness is very high. When he heard something moving around, he lowered his head to look at the **** hand grabbed by the zombie.

At the same time, the surrounding zombies have also recovered, one after another grabbing at Han Fei.

Han Fei was startled, but he was not afraid, but a step back to avoid the **** hand of the zombies under his feet, and then used lightning-like figure to dodge a few consecutive zombies from the sparse zombie to get up easily Come out ~ www.mtlnovel.com ~ ran a few steps on the steps.

Lu Yang immediately let out a man who asked Han Fei to run up the stage. He said: "These zombies have to be resurrected twice before they are killed. Don't you run away?"

"Oh, I see." Han Fei was afraid after a while.

Xiao Liang's eyes brightened, and he said, "Boss, your cousin is very powerful. Where did he learn from it?"

Han Fei's heart, he forgot about the recklessness just now, and said proudly: "My father taught us, but my dad's best is the flying knife, but my brother is better than us."

Mentioning this incident, Han Fei was depressed again, causing Lu Yang, Han Ying and Han Yu to laugh.

"It's another family tradition." Xiao Liang looked at Lu Yang silently and said, "Boss, how are they like you, they are all family traditions."

Lu Yang talked to Xiao Liang about the problem of his physical condition once and said with a smile: "My dad and his three fathers are comrades-in-arms, and they have fought in Southeast Asia."

Xiao Liang came to understand this, and said a little embarrassedly: "Boss, can you teach me some simple kung fu, I feel my technique is too bad."

In the previous copy with Xia Yuwei and others, Xiao Liang clearly felt that his approach to spirits and breeze was not on the same level, and even Zhang Zibo and others were better than him. He wanted to help Lu Yang. Do not want to be a drag on Lu Yang.

Chapter 105 - Secret passage

Lu Yang said while standing on the ground, "If you have this idea, you can come to my house tomorrow and I will teach you."

"That's the answer," Xiao Liang said excitedly.

Han Fei said, "Brother Xiao Liang, if you want to learn, I will be your companion."

"Thank you so much." Xiao Liang was even happier.

Lu Yang watched as Xiao Liang and Han Fei became more and more harmonious, and he was very happy. He hoped that his brothers could become brothers to each other.

Soon, Lu Yang was filled with a wall of fire on the ground. The zombies were burned to death without waiting for them to climb before Lu Yang. After being resurrected again, the zombies could no longer climb.

However, the experience given by these two times is very small. The zombies resurrected for the first time are only half of the normal. Lu Yang and Xiao Liang joined the team again, raising the average level of the team. When 5 people split the experience equally, the experience was It became only more than 100 points, and the second resurrection was reduced by half, to only more than 50, but even so, they have gained more than 20,000 experience both times.

Lu Yang said, "Go down and pick up the equipment. These zombies will not be re-painted or resurrected within 15 minutes."

"Okay." Han Fei could not wait, the first one jumped off, Xiao Liang followed closely behind.

Picking up equipment is the most exciting time, because you don't know what the properties of the dropped equipment are, and only pick it up to know what grade it is.

Not long after, a few people picked up the explosives, of which there were really a few pieces of black iron and bronze equipment.

Han Ying happily ran to Lu Yang and said, "Brother Lu Yang, there is a Warlock's Summoning Little Ghost Skill Book. I now learn to summon young ghosts."

During the talk, Han Ying beckoned, and there was an extra black skin around him, with two little ghosts with curving small horns on his head. This is the primary beast of the warlock, which can help the warlock fight monsters, but the magic damage is only 50% of the warlock.

Lu Yang said: "It's not bad, but the little ghost is not a high-level summoning beast. I will give you a book summoning hellfire after a while, then you will know how powerful it is to be a warlock. "

Xiao Liang blinked, took out a skill book from her arms and handed it to Han Ying, and said, "I have a summon **** three-headed dog here. You learn this summon first, the output of this is better than the little ghost a lot of."

"Where did you get this book? This is a good thing." Lu Yang said.

Xiao Liang scratched his head and said, "Boss, you forgot, I burst out by killing the Orc Lord."

Lu Yang thought about it and said, "I forgot."

He went on to Han Ying: "Take this book to learn first, this three-headed dog will greatly improve you."

Han Ying took a bit of embarrassment and said, "Thank you Xiao Liang."

Xiao Liang was blushed for the first time when he was called by his brother, scratching his head and saying, "You're welcome, it's the boss who helped me out."

Han Ying clicked to learn skills, and then she clicked to summon the **** three-headed dog. A purple six-horse star array emerged from her feet, and there were many strange symbols on the formation method.

Five seconds later, a black space portal appeared in front of him.

“Hello ~”

A black-red **** three-headed, three-headed, nearly two-meter-long, jumped out of the portal.

“So cool.” Han Fei said.

Han Ying looked at the attributes of the **** three-headed dog, and said in surprise: “Brother Lu Yang, this baby is so good. He has three magics of fire, ice, and arcane. He has more than 60 magic injuries and 156 defense points. More than 800 blood. “

Xiao Liang said in surprise: “It is higher than my attributes.”

Lu Yang said: “In the early days, the melee class is better than the spell class class. This **** three-headed dog is one of the most proud summoners of warlock players.”

Han Ying said, “Lu Yang, will my baby be able to fight against you for a while?”

Lu Yang said with a smile: “Yeah, with the **** three-headed dog, my brother is much easier.”

Han Ying suddenly showed a happy expression.

Lu Yang then said: “Let’s go, let’s explore inside, there are still many strange things in it.”

“Okay.” Xiao Liang said with his sister Han Ying.

With a good beginning, everyone seemed very happy. Although Xiao Liang and the three siblings still had some fears about the unknown in front of them, Lu Yang was around, making them feel extra relieved and confident.

Walking down the room where the high platform is located, there is a black promenade in front, with wooden supports on both sides of the promenade, and the walls on both sides are all yellow dirt.

The torch in Lu Yang’s hand had the longest irradiation distance of only 10 yards. For safety reasons, Lu Yang used the fire wall technique as lighting and released a fire wall technique to the area within 30 yards of the promenade.

A 2 * 2 fire wall emerges from the ground, the flame is more than half a meter high, and it illuminates the surrounding area of 20 yards.

There are hundreds of zombies in the area around 5 yards behind the fire wall.

“So much more!”

“How zombies exist in sections.” Han Fei said curiously.

“It’s not the zombie segmentation, but Han Yu’s Scattering Arrow just attracted this position farthest.” Lu Yang raised his staff to release the wall of fire on the ground.

The promenade has a width of 10 yards. Lu Yang successively released the fire wall technique, forming a sea of fire with a width of 10 yards and a length of 20 yards in front of him.

He said to Han Yu: “Run in to release the scatter arrows at the zombies, and then run back quickly, remember not to die.”

“Look at me.” Han Yu looked confident, and quickly ran to the zombie group, releasing a continuous release of scatter arrows towards the back of the zombie group.

His level was only 8 and the zombies were 20. When Han Yu came to the 10-yard recovery in front of the zombie group, the first row of zombies discovered his existence and roared towards Han Yu.

Han Yu didn't panic. While continuing to release the scatter arrows, he continued to walk forward. After the zombies came to him, he used his body skills to get rid of the zombies for several consecutive flashes. At this time, he moved the 50 yard area in the promenade. All the blame inside were pulled over.

The dense running and roaring sounds and the infiltrating appearance of the zombies made everyone feel cold, but the group of people in front of them was not afraid at all.

Lu Yang looked at the approaching zombies, and before they were about to run into a distance of 30 yards, a scream of a bird suddenly appeared behind them.

Han Ying and Han Fei looked up at www.mtlnovel.com ~ and found a big red bird appeared on top of Lu Yang's head.

“Blazing Bird”

Lu Yang kept his hands in his hands, and the fiery red flaming bird swooped away at a distance of 30 yards.

As it happens, when the Blazing Bird flew to the position, the first 6 zombies seemed to actively hit the Blazing Bird.

“boom”

“484” “472” “411” ...

Six consecutive 400-odd damage appeared from the zombie, and then the zombie stepped on the wall of fire, and another wave of 400-odd damage appeared.

With such a high output, even the 20th-level fire method cannot be achieved, not to mention that other people's fire wall technique can last for less than 1 minute, while Lu Yang's fire wall technique can persist for 2 minutes.

This is all the effect of the upgraded demon heart. With the demon heart, Lu Yang's output can no longer be defined by ordinary fire.

The zombie group walked into the wall of fire and suffered such high flame damage, combined with the damage of the Blazing Birds, which caused the zombie group to die on the ground without waiting for Lu Yang.

System prompt: You have gained 161 experience

...

Countless experiences suggest that business is floating from their conversation bar. Xiao Liang and the three sisters Han Han thought that Lu Yang would be slower to fight monsters after he could n't use the meteor drop. As a result, Lu Yang's monster speed was not at all slow. Slow, this excites Xiao Liang and Han Ying.

Chapter 106 - Black iron ore

When Lu Yang upgraded, the outside world was also undergoing tremendous changes.

In the first 6 days of service, the total number of "Second World" players exceeded 300 million, and the number of domestic players exceeded 70 million.

Even for an online game with hundreds of servers, 70 million active users are considered top online games. For Second World, these 70 million people play games on the same server.

With so many population bases, exquisite game interfaces, and holographic projection modes that cross the ages, players have completely conquered the pursuit of games.

in the afternoon.

In a domestic e-sports team, dozens of top gaming teams announced their entry into the game formation association, the most famous of which are the WE team and LGD team established in the early 20th century.

Among the guilds that have been formed, Bloodthirsty Batian and Xiongba also announced an additional investment of 50 million in the game to hire elite players and develop gang construction.

Xia Yuwei, Zhang Zibo, Zheng Yuan and others are also recruiting players at this time. They have recruited more than 2,000 people, but when they saw this news, they knew they were going to suffer.

Sure enough, in less than half an hour, a large number of senior players have been recruited, and a large part of them withdrew from the guild. More than 2,000 people were left with less than 1,300 in a flash.

“This group of people have problems, what are they running, I’ll give them money and they all run?” Zheng Yuan cursed.

When Zhang Zibo looked at Zheng Yuanqi, he didn’t fight in one place. When recruiting people, Zheng Yuan put on a high expression, and his attitude was quite arrogant. At that time, he felt bad. So many guilds appeared at the same time. Conditions are basically the same, these people are not to blame if they don’t run.

“Can you converge a little in the future, who will come to our guild like you?” Zhang Zibo said.

“You blame me?” Zheng Yuan said, staring.

“I don’t blame who you blame. Several high-level players have said they can’t get along with you.” Zhang Zibo said.

“Who, you tell me the name.”

Xia Yuwei watched the quarreling tendency of the two and came to the two with a cold face, motioning them to shut up.

“Zheng Yuan, this game is about to enter a troubled world. When you recruited people just now, you were really proud. We want to develop. We can’t rely on us alone. We must have our sincere help.”

Zheng Yuan held up his hand and said, “Okay, okay, can I stop talking?”

Xia Yuwei frowned and said to Zhang Zibo, “Forget it, let’s continue to recruit people.”

Lan Yu looked at Xia Yuwei and Zheng Yuan, and lamented, she opened the friend bar to find Lu Yang, and sent a message in the past.

“Master, are you there?”

Lu Yang just finished killing more than 100 zombies in front of him and responded to the message and asked, “What is it?”

Lan Yu said, “Master, we have trouble recruiting people.”

Lu Yang asked: “How?”

Lan Yu briefly told Lu Yang what happened just now.

“In this way, even if the guild recruits people, it will not be able to form a fighting force.” Lan Yu said: “I don’t care about money, but I feel that if this goes on, the guild will not be competitive at all, and will be broken up by other guilds at that time. Sister Yu Wei must not be able to bear it. “

Lu Yang guessed this would be the case, saying: "No one can control this matter. Your sister Yu Wei hasn't responded yet. When he is recruited by Zheng Yuankeng, he won't have a high game, he will know what to do." Lu Yang said.

"How do I feel you are gloating." Xiao Lanyu said dissatisfied.

Lu Yang said, "However, I just feel that your sister Yu Wei is too high. When Liu Bang hit the world, he still knew Corporal Li Xian, but the head of your family always kept his face cold. Under the same conditions, you have who would look at her face or Zheng Yuan's face?"

Lan Yu was dumb speechless by Lu Yang, and only sighed, "Okay, then I have to take out all the New Year's money that has been saved for so many years. If there is a problem with Sister Yu Wei, I will help her immediately."

Lu Yang can think of Lan Yu's cute appearance now, but he shook his head helplessly. In this regard, he couldn't help Lan Yu and Xia Yuwei. With Zheng Yuan in there, even if he didn't get any help, he might still let the other person think you have a bad intention.

He closed the chat box and looked in front of him. At this moment, the monsters were killed. Xiao Liang and Han Ying were picking up equipment.

"Boss, the explosion rate here is too high. I have made a piece of black iron equipment." Xiao Liang said excitedly when he returned.

"There are 2 bronze ones, and there are 7 skill books." Han Fei said.

Lu Yang said: "Maybe we are here for the first time, luck is better, everyone has learned everything that should be learned in the skill book, we continue to go inside."

"Okay." Xiao Liang and Han Ying's three siblings divided the skill books, and learned everything they could learn, and left it to Han Ying for custody.

The corridor of the secret passage is long, and it is full of zombies. Lu Yang killed three batches of zombies and walked to a wide area. He led the team to the east and walked to a small bridge.

The width of the bridge allows two players to walk side by side at the same time. It is exactly the width of a fire wall. The bridge is not very long, only 5 yards away. There is a small platform behind the bridge. Near the wall behind the platform, there are A huge silver-white ore body ~ www.mtlNovel.com ~ Boss, what is this? "Xiao Liang curiously knocked at this ore body.

"This is what I am looking for." Lu Yang took 4 pickaxes from his arms and handed them to the three little ones, saying, "Xiao Liang and Han Ying's **** three-headed dog is stuck on the bridge, your three sisters. My brother learns to mine like me. If he digs black iron ore, he will give it to me. "

The secret passage itself is a huge mine. In this mine, whether it is the wall around the plane or the ore crystal in front of the eye, you can mine iron ore, copper ore, silver ore, gold ore, and black iron. ore.

Among them, black iron ore is one of the materials that Lu Yang is looking for to upgrade the equipment. However, mining is a technical task, and you can't get the ore by simply wiggling the pickaxe on the ore mountain. If you encounter a fool Players can't dig a ore for an hour.

The reason why Lu Yang knew how to mine was because his guild was too poor in the last life. In order to survive, he often took up his brothers and stayed in the mine for a long time. He remembered that time, it was really nostalgic. .

Sister Han Ying has not mined before, but the three learn very fast, and they feel that mining is very fun. They accompanied Luyang to dig for an afternoon and a half night, until Han Zhong urged them, Lu Yang stopped. .

"Let's go back to the city first and store what we hit today. In addition, Xiao Liang went to the auction house in Saros and sold all the hits in the past few days to a credit point for your parents." Lu Yang said.

Chapter 107 - Equipment upgrade

“Okay.” Xiao Liang said excitedly, “Parents must be surprised to see me take the money home.”

Han Fei asked curiously, “What is so valuable.”

Xiao Liang also didn't shy away from Han Ying's three siblings. He said, “It's not a valuable thing, it's just hitting a level 10 silver weapon and several kinds of black iron equipment. It can sell a total of five or six thousand dollars.”

“So much?” Sister Han Ying asked in surprise at the same time.

Lu Yang said: “The most valuable thing he hit was the black blood knife. I didn't let him sell it. The weapon was equipped with orbs and armor. The three can be sold together for a minimum of 50,000 yuan.”

Sister Han Ying's three brothers felt that their heads couldn't turn around, and their dad didn't make 50,000 yuan a month when he was in business.

“Brother Lu Yang, are we able to sell the equipment we got today?” Han Fei asked.

Today they got a total of 2 black iron-level equipment, 4 bronze-level equipment, and 8 skill books, but they have learned 6 of them.

“Including the skill book, these things should be sold on the market for 10,000 yuan, the price of equipment is about 5,000 yuan, and the price of the skill book is also about 5,000 yuan.”

“Then we didn't spend 5,000 yuan just now.” Han Yu's eyes were unbelievable.

Han Fei said depressed: “I wouldn't learn it if I knew it, I would sell it well.”

Lu Yang leaned on the shoulders of both of them and said, "My silly brothers, I didn't plan to sell these things, and the equipment was all worn by myself. I will give you a set of equipment first, and then bring your basic skills. They are all equipped so that a few of you can upgrade here."

Lu Yang went on to say: "I told you this today, not to let you pay me back or anything, my brother just wanted to tell you that you can also make money in the game like Xiao Liang, and make a lot."

Han Fei and Han Yu are still a little ignorant. Han Ying bears the pressure of life earlier. He understands Lu Yang's meaning.

"Lu Yang, thank you," Han Ying said.

Lu Yang patted Han Ying's small head and said, "I'm your brother, this is all I should do."

Compared with the life-threatening assassination of Liu Jie in his last life with him, what he did for the three siblings was just a little bit.

"Okay, let's go back to Saros and get off the assembly line first. Don't let my master wait, right." Lu Yang said.

Han Fei said excitedly: "As soon as I went out, I told my dad, let him also play this game, he must play better than us."

Han Ying said, "Forget it, Dad is a stubborn old man, let him listen to you, next life."

Lu Yang couldn't help laughing, indeed, Han Zhong is a very stubborn person. With his skill, if you want to make money in Southeast Asia, you can make a lot of money, but that money is illegal. He never bump.

Chatting all the way, Lu Yang took the team back to the entrance of the secret passage. It has been 10 hours since they entered, but there are not too many strange brushes in the passage. After easily killing, Lu Yang took. They jumped out of the high platform and came to Saros.

Sister Han Ying chose the original underground line to rest, and Xiao Liang went to the auction house to sell things.

Lu Yang counted his harvest. After 10 hours of mining, he got 20 black iron ore, 29 copper ore, 25 iron ore, 4 silver ore, and 1 gold ore.

Each piece of ore has quality, and when the player sells it to the store, the price varies depending on the quality.

Lu Yang sold copper, iron, silver, and gold to the store and obtained 1 silver coin. This is the effort of the four of them for more than 10 hours. It can be seen how difficult this game is to get money.

If the quality of the gold ore is high enough, it can be used for other purposes, but the quality he obtained is only 3 points, far below the required standard, and Lu Yang also sold it.

The rest of the backpack is black iron ore. Lu Yang looked at the quality. Among them, the highest quality ore has 42 points and the lowest quality also has 17 points. Lu Yang has good luck this time. If the quality is below 10 o'clock, This ore cannot be used.

Generally speaking, 20-point quality black iron ore can be used to upgrade the equipment once. His black iron ore can be used to upgrade the equipment 8 times, and 8 intellectual gems are enough for him to wear a magic fire staff.

However, if you want to upgrade your equipment, you still need the same level of jewelry. Lu Yang came to the jewelry store in Saros and bought 16 rings with +1 damage and 16 bracelets with +1 damage. 64 silver coins.

With these things, Lu Yang finally had enough materials for the upgrade, and he could finally put on the magic fire staff.

Thinking of the attributes of the magic fire wand, Lu Yang couldn't help getting excited. He uttered a spell in his mouth, and a red-red magic circle appeared at his feet. A flash of red light appeared, and Lu Yang appeared in the demon temple.

He came to the Altar of the Demon God, and placed the Staff of the Flamer, 2 pieces of black iron ore with a quality of more than 20 points, 2 rings of intelligence +1 and 2 bracelets of intelligence +1 in the altar.

Lu Yang also took out the fate dice from his backpack. This is a special item he opened from the Pandora's Box. The role is to throw three fate dice together for more than 10 points. His luck will be in the next half hour. Increase within 10 points.

Upgrading equipment is not 100% successful. If it fails, all equipment and upgrade materials will be destroyed. That is, if Lu Yang fails to upgrade the arsonist staff, the arsonist staff will be completely gone.

A large number of players in the past life have summed up a point of view with countless painful experiences. Only the lucky points exceed 10 points, and the success rate before building to level 10 is 100%. If the lucky points are lower than 10 points, the success rate of building will gradually decrease. The lowest is only 10%.

Lu Yang threw the fate dice in his hand to the ground. After the landing, the dice spun quickly. After 30 seconds, the three dice hit each other and stopped.

3, 6, 6

System Tip: Player Lu Yang turns the Destiny Dice to 15 points, and within the next 30 minutes, lucky +10

Lu Yang shook his fist, and he knew his luck would be good. After retracting the dice, Lu Yang clicked on the altar to start forging.

Normally, equipment upgrades are performed in the forge furnace, but the demon altar also has the function of the forge furnace.

The arsonist's staff, 4 jewelry, 2 ore quickly merged into the demon altar. After a burst of red light, the arsoner's staff reappeared in the demon altar.

System prompt: Equipment forging is successful

Lu Yang took the arsonist's staff and looked at it.

Lu Yang shook his fist. All he wanted was this slot +1. He took an intellectual gem from his backpack and embedded it in the slot. The intelligence of the arson's staff became 16 points.

He equipped the arsonist's staff on his body, and the intelligence value of the body became 172 points. The wearing requirement of the magic fire staff is 200 intelligence. As long as he has 28 intelligence, he can wear it successfully.

Lu Yang resisted the excitement, put on his clothes and put them in the Altar of the Devil this time, as well as jewelry and black iron ore.

After 30 seconds, the clothes were successfully upgraded. Lu Yang also inlaid intelligence gems on the clothes ...

After half an hour, Lu Yang upgraded 6 times, and set up 6 gems on his body with upgraded gems ~
www.mtlnovel.com ~ At this time, Lu Yang's intelligence reached 202 points, and he finally reached the equipment of the magic fire staff Requirements.

He hurriedly took out the magic fire stick from his backpack.

Lu Yang swallowed and tried to put the equipment in the weapon column.

System prompt: equipment successfully

Suddenly, Lu Yang's hand released a staff with a red glow. The top of the staff was a long hexagonal red crystal. The handle of the staff was also made of red unknown trees, as if this handle It's just like the branches of a tree, with no trace of cutting.

Lu Yang glanced at his attributes. At this point, his intelligence reached 213 points, and his spell damage reached horrible 382 points.

It usually takes 12 seconds for Lu Yang to burn a zombie with the fire wall. Now, it only takes 8 seconds, which is one-third shorter than before. In this way, Lu Yang can upgrade in the secret channel. Speeded up by a third.

Chapter 108 - Elite Corpse King

Not only that, in the future, the output of Lu Yang can be used by 5 people alone. No matter what copy, he can take the team to the past. It won't take long for his team to have one step ahead of the others. The guild elite is more powerfully equipped, so that he can truly envelop the turbid wine into his team.

"Boss, I'm level 10." Sun Yu suddenly sent a message.

Lu Yang said, "It's very fast."

"Boss, you haven't worked hard to upgrade recently, beware of your apprentice over you." Sun Yu made a proud expression.

The longer you spend time with each other, the more Lu Yang can feel Sun Yu's closeness to himself, and only this little apprentice can speak to him so heartlessly.

“Really, then you have to work hard. Tomorrow, my upgrade speed will double when we upgrade together.” Lu Yang said.

“Ah?” Sun Yu blinked. Before Lu Yang took them, it was the fastest time for them to upgrade. Now Lu Yang said that the upgrade speed was twice as fast as that time. Sun Yu asked in surprise: “Boss You did it. “

Lu Yang said: “You will know when you meet.”

In fact, Lu Yang’s level is approaching level 12. He will have a great chance to rise to level 13 tomorrow.

“I won’t tell you anymore, boss, I have to go to bed.” Lu Yang said, he sent a screenshot of his experience to Sun Yu to tease the young apprentice.

“Dizziness.” Sun Yu looked at the picture sent by Lu Yang for a while, raised his head and looked at the muddy wine dumplings and fur **** around him and said, “You go offline first, and I will practice the level.

“It’s 12 o’clock, and practice again tomorrow.” Mao Qiu said.

“Is there something wrong with Lu Yang?” Zhuo Jiu Qing asked with concern, and now the bloodthirsty domineering order has made all the players know, and countless people are looking for Lu Yang, although they get along briefly. However, people such as the muddy wine dumpling and Mao Qiu felt that Lu Yang was very vindictive. If Lu Yang was in trouble, they decided in private that they would help Lu Yang even against the bloodthirsty domineering.

Vulcan M16, Yeyue listening to the wind, and the mad knife outside also looked at it with concern.

Sun Yu said, “It’s not that. The boss told me that his upgrade speed will be twice as fast as when he took us. I’m afraid he will fall too much, so I’m in a hurry to upgrade.”

“Can it be faster?” Turbid wine said in a surprised manner.

“Yeah, I don’t know what the boss has found. He just sent me a screenshot just now, and his experience is almost level 12.” Sun Yu said, he shared the picture with the turbid wine dumpling and others .

“Come on, brothers, I’ll practice for another two hours,” said Zhuoji Qingping.

“I also practice more.” Mao Qiu said.

“I also practice more.”

...

The five people who choose to cast muddy wine all choose to practice for 2 more hours. Before they reached level 10, they thought that killing level 15 trolls had the experience of leapfrogging. It was not difficult to upgrade. At level 11, the experience required is actually 200,000, which is twice as much as the experience at levels 9 to 10.

Several of them still thought that they could catch up with Lu Yang soon. At least, when Lu Yang was at the end of the 12th level, they could just reach the 12th level, and they could copy together.

As a result, Lu Yang is now at level 12 and the upgrade speed can be doubled. They are both masters and dignified.

On the other side, Lu Yang didn’t know that because of his stimulation, Zhuoju pouring and other people worked harder to upgrade than the last life. He took off the helmet and just opened his eyes, just to see his sister Han Ying was busy Meals.

“Brother Lu Yang, come and eat. I have already made dinner.” Han Ying said happily when he saw Lu Yang take off his helmet.

Lu Yang went to his father’s bedroom first and saw Master Han Zhong lying down. He asked, “My master, how is he?”

“My dad couldn’t keep his body, and went to rest first.” Han Ying said.

Lu Yang lamented that while fighting against his enemies, Master wanted to take care of the three sisters Han Han. He persisted for half a month, and the hard outsiders couldn’t imagine it.

“Then let’s eat, just as I tell you about the skills in the game.” Lu Yang said.

Sister Han Ying and his three brothers all showed happy expressions, listening to Lu Yang explaining the knowledge in the game while eating. Until the middle of the night, the three talents went to bed reluctantly, urged by Lu Yang.

late at night.

On the sofa, Han Fei turned around and couldn’t sleep. He had never been exposed to games before, and he was fascinated by the first contact.

He turned his head to look at Lu Yang who was laying the floor on the floor, and whispered, “Brother Lu Yang, tell me about the game again.”

Han Yu didn’t fall asleep, and Wen Yan got up and asked, “Brother Lu Yang, I want to know.”

Lu Yang stuck his hands behind the trouble and looked at the ceiling. “Well, let me tell you one of the most important rules of the game.”

“What rule?” The two asked together.

“The rule is to have a good mental state, so that you can play 100% of your strength in the game and all sleep well.” Lu Yang said.

Han Fei and Han Yu were disappointed on the sofa and had to listen to Lu Yang’s words to sleep.

Early the next morning.

At 6 o'clock, Lu Yang got up from the bed and saw that Han Zhong was taking Han Ying's three younger brothers to exercise.

"Get up," Han Zhong said.

Lu Yang nodded and watched the exercise of the three siblings. For a while, Lu Yang couldn't help recalling that he was rescued by Han Zhong to Southeast Asia and exercised with the three siblings every day.

Han Zhong saw Lu Yang watching him teaching Han Ying's three siblings to exercise, and said with a smile: "This is a routine morning exercise. There is no special exercise here. For the time being, I can only let them perform some physical exercises. Don't try it together. "

Lu Yang said, "Master, I have a special exercise method here, and you can help me see how it is in a moment."

Han Zhongyile, he guessed it was Lu Yang's father taught his army to exercise, but it was much worse than his, but he was afraid of hurting Lu Yang's self-esteem, and said, "Well, I'll take a look. "

"Ok."

Lu Yang was not polite, came to the middle of the living room, and began to exercise with his special forging method at the Southeast Asian Society.

As soon as the so-called expert knows if he shoots, Lu Yanggang shows his hand, and Han Zhong's expression of indifference becomes severe.

The expressions of Han Yingsan's three siblings have also changed. Exercises like Lu Yang are no different from self-harm. They don't understand why Lu Yang needs so much.

Lu Yang didn't stop. He persisted for two hours. Finally, Lu Yang couldn't hold it anymore, and Tong Tong fell to the ground.

Three sisters Han Ying rushed to help Lu Yang, but Lu Yang and Han Zhong shouted in unison: "Don't move."

Sister Han Ying looked at Lu Yang and looked at Han Zhong.

Han Zhong frowned and said, "The last step is very critical. Everything will be done by Lu Yang's willpower. If he can't stand up with his own willpower, the effect of his exercise today will be greatly reduced."

Lu Yang's whole body was extremely painful, but he still admired and smiled at Han Zhong. In his previous life, Han Zhong also gave Lu Yang this action.

The exercise of the previous few days has made Lu Yang's whole body painful and difficult. Today, he can persist for two hours to the limit.

He tried 4 times in a row and didn't stand up by himself, but on the 5th time, Lu Yang growled with a roar, went into the bathroom and started to wash.

Han Fei asked curiously: "Dad, is this set of actions by Brother Lu Yang good for the body?"

Han Zhong thought for a long time and said, "Tomorrow, Han Fei and Han Yu will exercise with Landing Yang, and Han Ying's method will not change."

"Ah?" Han Fei and Han Yu both showed frightened expressions. They both felt cruel when they watched Lu Yang's exercise just now.

Lu Yang heard their conversation in the bathroom and said, "There is another benefit to using this method of exercise. Your body in the game will become more and more sensitive, and your PK will become more and more powerful. "

Han Fei and Han Yu both expressed joy, saying, "Really, Brother Lu Yang."

Lu Yang said, "Of course, otherwise, if I look back and show you a video, you know that I'm not telling lies."

He has recorded the video of his heads-up troll Shaman Woggins and the Skeleton Tyrant, as well as one man and five men who killed black blood and one man who killed eight bloodthirsty bullies. The elites are used as instructional videos.

"Then we must study hard." Han Fei and Han Yu said together.

Han Ying asked curiously, "Dad, why can't I learn."

Han Zhong gave a pity glance at Han Ying. Among these children, he felt most sorry for Han Ying. He was a little girl, but had to endure such suffering.

"In the future, what I teach you conflicts with this exercise method." Han Zhong compiled a lie.

After Lu Yang finished washing, he came out of the bathroom and said, "I'll go out to buy food first, and we'll join the game when I come back."

Farewell to the Han Zhong family, Lu Yang went out of the house to the food market to buy enough food for 5 people for 3 days, and then returned home.

At this point, the three siblings also finished training, and Lu Yang took the three to enter the game again.

The screen flickered.

Lu Yang and his three siblings appeared in Saros. As soon as the three siblings opened their eyes, they were dazzled by the bright red light.

After the three of them adapted, they discovered that this was the light from Lu Yang's staff.

"Brother Lu Yang, your weapon is so cool." Han Fei said.

Lu Yang was also dazzled by his staff. He turned off the appearance and said, "Okay, this is my new staff."

"I feel this weapon is very powerful." Han Yu said.

Lu Yang said, "In a moment you will know how high the damage of this weapon is."

He scared the secret passage with his three siblings. After one night, a lot of zombies gathered under the high platform. Lu Yang counted more than 20.

"Open strange." Lu Yang said.

Han Yu stepped forward, fired a scatter arrow, and gathered all the zombies around him. Lu Yang immediately released the fire wall technique in situ. After a short time, an 8 * 8 sea of fire formed on the ground.

"-544"

As soon as the zombie stepped into the sea of fire, an injury figure jumped out of his head.

"So high?" Han Fei said in surprise, he remembered that Lu Yang's fire wall surgery hurt less than 400 points yesterday.

Han Ying and Han Yu also showed surprise expressions.

Suddenly, a bird's song appeared, and a big red bird appeared on top of Lu Yang's head. Lu Yang pointed at the zombie group in front of his hand.

“Blazing Bird”

The big red bird suddenly dived into the zombie group.

“-602”

...

Twenty zombies were attacked at the same time. The zombie group that had been greatly damaged in the flames was hit with less than 1,000 blood. They took three more steps in the sea of fire and all died on the ground.

System prompt: you have gained 131 experience

...

“It’s too fast.” Han Fei said, this speed is not much worse than the meteor drop.

Lu Yang took a look at his experience. At this time, the distance to level 12 was 30,000 experience. This is just a problem of 2 waves of zombies.

“Let’s go inside ~ www.mtlnovel.com ~ There are a lot of maps in it, the more we go the more we go inside,” Lu Yang said.

“Okay.” Three sisters followed Lu Yang closely.

The four killed all the monsters all the way to yesterday’s position. Near the bridge, the position 60 yards in front was a three-way intersection, and the left side was the entrance to the second floor of the secret passage.

Lu Yanggang took the three sisters and walked the intersection on the left. Suddenly, a heavy iron chain came from a distance.

Lu Yang immediately stopped and listened carefully.

“What’s wrong,” Han Fei asked.

Lu Yang motioned the three to keep silent, and in the empty secret passage, when the three were not talking, there was only the roar of zombies.

“Wow!”

Another sound of an iron chain walking on the ground, Lu Yang looked at the middle of Sanchakou and said, “Follow me.”

After speaking, Lu Yang walked excitedly towards the middle. The sound of this iron chain sounded so pleasant to Lu Yang, because only the corpse king would have this voice.

Sure enough, Lu Yang killed monsters all the way to the middle of the intersection. In an open area with countless zombies, Lu Yang saw a black body, which was 2 taller than a normal zombie, and was more than 2 meters tall Corpse King tied with fine steel chain.

Corpse King (Elite)

Level: 30

Qi and blood: 90000/90000

Chapter 109 - Blazing Storm

“So high? It’s boss.” Han Fei asked.

“Yes, the name of the boss is Corpse King. They used to be centurions of the human army. They were powerful. They were afraid of breaking out of the underground palace after the plague. Inside, however, these steel chains could not bind them at all, but they were used as weapons after they broke free.” Lu Yang said.

“Can I resist?” Xiao Liang was still eager to go to the King of the Corpses, and was a little worried when he heard what Lu Yang said.

Lu Yang said: “Of course you can’t carry it, the elite corpse king has more than 1,000 attack power, you are not enough for him to hit 2 times.”

“Ah, it’s so high.” Xiao Liang asked, “then hit.”

Lu Yang said, “Simple, look at me.”

He replaced the arsonist’s staff and began to set up a fire wall in the passage. The passage can only have 8 zombies in parallel. He put 4 fire walls to fill the passage in parallel.

After releasing 8 rows of fire walls in a row, Lu Yang walked to the position of 10 yards from the first zombie. This is the limit distance. The zombie walked forward and found him. He replaced the magic fire staff.

“The Great Lord of Fire ...” Lu Yang uttered a spell, and suddenly burst out with a violent fire element.

“Boss, you have to use a curse!” Xiao Liang said excitedly.

Han Fei and Han Yu also boiled their blood, and the meteor released by Lu Yang yesterday left an indelible impression on them, all three staring closely in front of them.

The zombie group also felt the irritable fire element, and numerous zombies roared uneasily, but they did not know where the fire element came from.

After 10 seconds.

Dark clouds were over the zombies, and a huge fire meteor suddenly burst out from the dark clouds.

“boom”

Fire meteor was in the center of the zombie group, and a large number of zombies were injured. More than 130 zombies in the middle were smashed into the head and died on the spot.

...

After more than 130 system prompts, Lu Yang's golden light flashed to level 12. At the same time, the zombie group locked Lu Yang, and the remaining 200 zombies rushed towards Landing Yang at the same time. In the middle of the zombies.

Lu Yang flickered back to the position 2 yards behind the fire wall. With a spell in his mouth, a big red bird appeared from above Lu Yang's head.

“Blazing Bird”

Lu Yang pointed at the open space with his hand, and the Blazing Bird dived down. When the Blazing Bird flew to the place, the first batch of zombies just entered the attack range and were hit by the Blazing Bird.

Lu Yang's mouth kept spelling, and the Blazing Birds were released one by one. Many zombies were killed by Lu Yang without waiting for the fire wall. When they entered the fire wall, they almost reached the third row. Burned to death in the wall of fire.

"Hello ~"

The Corpse King roared and walked to the entrance to the open area between the passages, just 30 yards away from Lu Yang.

Lu Yang stopped looking at ordinary zombies. The magic fire staff pointed at the corpse king's head, and 5 layers of burns landed on the corpse king accurately.

"Pyroblast"

A huge fireball blasted towards the King of the Dead with a whistling wind. A "slap" made the Pyroblast hit the King of the Dead's head.

"1284" (Critical Strike)

The King of Zombies was attacked and roared, and charged towards Landing Sun, but all zombies were in front of him, and the zombies that ran into the front stopped.

Lu Yang knew this would be the case. He continued to release Pyroblast, hitting the corpse king's head one by one at a rate of 0.5 seconds per round.

Pyroblast has a knockback effect. The King of Zombies is an elite monster. Although it cannot be beaten back, the King of Zombies is stiffened. The front zombies are constantly dying in the sea of fire. Walked in front of him to block his way, resulting in the Corpse King can only stop in place and must not move.

"It turned out that the game can still be played like this." Han Yu said with a little understanding.

Han Ying also nodded, both of which were long-range attacks. The two of them saw Lu Yang's output as having a subversive feeling to the game.

Soon, the blood of the corpse king changed from 90,000 to 40,000, and the ordinary zombies were almost dead. There was no zombies in front of the corpse king, and they gradually approached the landing sun.

When the distance between them was only 20 yards, the corpse king roared and rushed to Lu Yang with a phantom.

"Not good, the Corpse King is charging." Xiao Liang shouted.

"Don't come over." Lu Yang drank Xiao Liang, and at the moment when the Corpse King was about to hit him, he flickered at 30 yards behind the Corpse King. At the moment of landing, Lu Yang used a moving dummy, under his feet. Suddenly a fire broke out, scorching hot and running towards Xiao Liang.

The Corpse King missed a shot, turned his head and prepared to launch a second charge interception against Lu Yang, but just to release the skills, the movable dummy taunted the Corpse King, and the Corpse King immediately aimed at the movable dummy, taking a while The afterimage fluttered over.

“噫”

The corpse king rushed to the dummy, raised a thick steel chain with a thick thumb in his hand, and whipped the dummy, smashing the dummy.

The corpse king searched for Lu Yang again, just to see Lu Yang ran to the position 10 yards in front, and he chased towards Landing Yang.

"Xiao Liang taunts." Lu Yang turned on the fierce speed. Level 2 of the fierce speed made Lu Yang move 50% faster than the corpse king. He ran 20 yards around Xiao Liang, and the corpse king just arrived. Xiao Liang was around.

Xiao Liang did not hesitate to face the Corpse King and immediately released the taunting skills.

The corpse king turned to look at Xiao Liang, and just about to raise his whip, Lu Yang suddenly threw an iron hand [Lei] and hit the corpse king.

“Xiao Liang stepped back to me.” Lu Yang raised his staff and aimed at the corpse’s head. The corpse’s charge and interception cooling time were both 30 seconds. Lu Yang chanted a spell, and Pyroblast hit the corpse one by one. Head.

“Hello ~”

The Corpse King roared and ran towards the Landing Sun, but without the charge and interception skills, Lu Yang’s Pyroblast every 0.5 seconds, the Corpse King struggling to walk up.

When the corpse king came 10 yards in front of Lu Yang, Lu Yang hit 20 blasts and killed 20,000 points of blood.

The corpse king looked at Lu Yang, suddenly raised the chain in his hand, and yanked the chain towards Landing Yang at a distance of 10 yards.

Lu Yang knew that the Corpse King still had such a skill, and suddenly moved sideways to avoid this attack, and continued the Corpse King’s Pyroblast attack.

When Xiao Liang and Han Ying’s three siblings saw the corpse king throwing out the chain ~
www.mtlnovel.com ~, they were so tense, but did not expect that Lu Yang would just escape so easily.

“This killing the boss is so exciting.” Han Fei said.

“Yeah, it was so exciting to kill the boss.” Han Yu also beamed his eyes.

Lu Yang heard the conversation between the two. Although he didn’t speak, he couldn’t help getting excited. He believed that with the skill of the two, it would not be difficult to kill the boss in the future.

The corpse king seemed to foretell his death, his face was getting more and more embarrassed, and the iron chains were drawn one by one towards the landing sun, but Lu Yang could always easily escape and immediately hit back with Pyroblast.

Ten seconds later, Lu Yang faced the arm raised again by the corpse king. He was not ready to dodge, but suddenly pointed at the corpse king with his left hand.

“Flame Shock”

A blast of flame exploded from the corpse king’s face, and stunned the corpse king for 1 second. When the corpse king reacted and wanted to throw the chain, Lu Yang hit another inflammation on his head.

With a bang, the dead king’s raised right hand stopped slowly, then, as if losing all his strength, he fell to the ground, and at this time, two skill books fell from the dead king at the same time.

Lu Yang flickered in front of the Corpse King, picked it up, and looked excited.

“Flame storm, I finally got you.” Lu Yang said.

Chapter 110 - Secret Passage Level 2

Xiao Liang and three sisters Han Ying ran over and looked curiously at Lu Yang’s skill book.

“Boss, what skill is this?” Xiao Liang asked.

Lu Yang sends the effect of the skill book to everyone.

“Firestorm”

Type: Fire Spell

Cost: 65 mana

Cast time: 3 seconds

Distance: 30 yards

Description: Releases a fire storm with a diameter of 8 yards to the designated location, causing 164 fire damage and generating a burning effect on the ground for 3 seconds. It deals 22 damage per second. The flame storm has a 20% chance to stun the area. Within goals.

“It looks nothing special.” Han Fei didn’t understand why Lu Yang was so excited just now.

“It takes 3 seconds to read ahead. The enemy ran early.” Han Yu didn’t understand. He was a hunter, and it felt easy to hide from this trick.

Lu Yang said, “Look.”

A dense element of fire emerged from him, a flash of white light, and Lu Yang suddenly appeared not far from five zombies that rose from the sea of fire, and he smashed the ground with his staff.

“Flame Storm”

A flame storm with a diameter of 8 yards burst suddenly at the feet of the zombie, with a height of 5 meters.

“584”

A number of damage numbers emerged from the zombies, accompanied by a stun symbol for 2 seconds.

The resurrected zombie blood was only over 800. After being attacked by the flame storm, it was burned to the ground by the fire wall in one second.

“Boss, can you flash fire and make you stun?” Xiao Liang asked in surprise.

Brother Han Yingsan looked at Lu Yang in surprise.

Lu Yang walked back to the four and said, “Can you still hide?”

Han Fei sighed: “The flame storm and flash can still be used together, this can’t be avoided.”

Lu Yang asked with a smile: “What if I use the Blazing Bird again?”

Xiao Liang and his three siblings were stunned at the same place at the same time. If Lu Yang cuts into the battlefield with flashes, first stun the enemy with a flame storm, and then attack with a flame bird, with Lu Yang’s current 300-odd wounds. The two skills themselves have more than 200 damage, and can deal more than 1,000 damage.

Xiao Liang is an 11-level anti-war, with 2 bodies and 3 resistance points, plus a piece of equipment, the total blood is just 900 points. If it is other non-defense occupations, even with silver equipment, the blood is only 1000. about.

Xiao Liang said, “Boss, who is dead in this series of tricks?”

The three sisters Han Ying nodded and agreed with Xiao Liang’s statement.

Lu Yang said, “Now you understand why I am so happy.”

With the magic fire staff, and these two group attack skills, Lu Yang will no longer be afraid of any gang, even if the opponent has a lot of people, he uses this set of combos to attack, how much the opponent comes to die.

Xiao Liang and the three sisters Han Ying nodded.

Lu Yang picked up another skill book from the ground-Fire Wall, and he clicked directly to learn. In this way, the arsonist's staff completely withdrew from Lu Yang's equipment sequence.

He handed the arsonist's staff to Han Ying and said, "This is for you. Although this weapon does not hurt you very much, it has fire wall skills. You can use the fire wall to burn monsters when I'm not here."

Han Yingxin took the staff with pleasure, even if it was a level 5 black iron staff, there was no arsonist's staff high on the wound, let alone Lu Yang gave this weapon a +6 intelligence gem, which was not at all Lu Yang said that.

"Thank Brother Lu Yang." Han Ying said.

"You are my sister, what are you polite to me?" Lu Yang looked at the equipment on the ground and said, "Let's see if there are any other good things, pick them up."

More than 300 zombies exploded a lot of equipment and skill books. Xiao Liang and Han Ying three sisters watched the bright equipment in the distance and ran over. Picking up loot is something that everyone likes to do.

Lu Yang looked at all this with a smile. After they finished picking up, Lu Yang led the team back to the Sancha intersection, killing monsters all the way to the right channel and came to the second floor of the secret channel.

As soon as he entered the second floor, Lu Yang was surrounded by a crowd of zombies, and there were more than 200 people.

“Brother Lu Yang, this place you are looking for is so good, we can definitely rise to level 10 today.” Han Fei said in surprise.

Xiao Liang said: “I also have a chance to rise to the 13th level.”

“Of course.” Lu Yang said as he released the wall of fire. “This is a place to upgrade.”

He remembers that there are three layers of secret passages, and the number of zombies in each layer is very large, which is enough for him to bring Xiao Liang and Han Ying three siblings to level 15.

Moving on, Lu Yang saw another huge ore crystal in the middle of the second floor.

“The three of you continue to mine, and you sell the other ore, black iron ore to me.” Lu Yang said.

“Okay.” Three sisters Han Ying took the pickaxe to the ore body and began to mine.

Lu Yang continued to burn monsters. When he didn't need Xiao Liang's help to fight against monsters, he asked Han Ying to give Xiao Liang his pick, and Han Ying was responsible for guiding the strangers around.

In this way, Lu Yang was on the second floor of the secret passage with Han Ying and others for a day, and Xiao Liang and Han Fei and Han Yu also dug a day of ore.

At night, Lu Yang and Xiao Liang both reached the level of 80 and 80%, and Han Ying's three siblings reached the level of 10.

“Well, let's get here tonight.” Lu Yang said.

“Don't continue.” Han Feiyi said endlessly.

Lu Yang said: “Play again, be careful your dad hit you.”

Han Fei and Han Yu looked at the time and found that they had been online for more than 10 hours, and they panicked.

“It’s over, Dad will be angry.” Han Yu said anxiously.

“Will dad hit us a while?” Han Fei looked anxious, not knowing what to do.

Lu Yang couldn’t bear to tease the two of them again, and said, “Nothing will happen. I’ll tell the master, these days I will let you indulge.”

“It scared me.” Han Fei and Han Yu said together, and they couldn’t help but pat their chests.

Lu Yang said, “Xiao Liang came to the house for a while, and you got to know each other.”

Xiao Liang said, “Boss, otherwise I live in your house at night. I had the money in my parents’ card number yesterday. They were so happy ~ www.mtlnovel.com ~ I immediately agreed to continue playing the game. And no longer restrict my freedom. “

Lu Yang knew this would be the case and said, “You can come, but there is no place in the house. You can only live in the living room with me, Han Fei and Han Yu.”

“It’s okay, I don’t care.” Xiao Liang said.

“Okay, come here, you exit the game first, I’ll organize the items.” Lu Yang said.

He sorted out the black iron ore. He had good luck today. The total amount of black iron ore hit more than 30 pieces, 26 pieces are useful, enough for him to upgrade 16 times.

Lu Yang flew to the demon temple with a spell, piled black iron ore on the open space next to the altar, and then he quit the game.

Sister Han Yingsan has been offline to start cooking, and Lu Yang also came to help, and when Xiao Liang came with his luggage, the food was just finished.

Lu Yang introduced Xiao Liang to his three siblings and Han Zhong. After learning that Han Zhong was the master of Lu Yang and his three siblings, Xiao Liang couldn't help but want to learn from Han Zhong.

Han Zhong said, "Tomorrow you will do basic exercises first. If you can survive it, I will accept you as an apprentice."

Xiao Liang did not expect that Han Zhong really agreed, and said excitedly, "I will work hard."

In this way, Lu Yang already had another member in some crowded homes, but this life did not make Lu Yang feel pain, but instead made their hearts stronger and stronger, and each other close.
