

Wild Fire 1121

Chapter 1121 - Wraith King

Luyang hung up the phone, and his men reported that the fire was buried.

喝 He drank the stealth potion, entered the angel camp, and led the two angels in the middle of the camp out. After detonating the fire thunder, he got fragments to help Shen Yiyi raise the spirit of the Holy Spirit to level 7.

The next 8th and 9th levels are also the same as those of Han Ying. The only difference is that Shen Yiyi finally recruited a holy sword angel, a holy light angel and a unicorn.

It was already late at this time, and Lu Yang let the Fire Thunder Army move freely. He took Shen Yiyi to the Black Cross City and found a hotel to rest.

The next day, Lu Yang led her out of the city and entered the deep mountain along the east side.

The Black Cross City is named because it is located 2 kilometers away from the city. There is a Black Cross Cemetery, which is full of undead monsters, and there are ranks. It is a very good upgrade area.

When Lu Yang brought Shen Yiyi to the cemetery, there were a large number of players upgrading. People from all countries had it. Because they were defeated by the Brotherhood of Iron and Blood, the original Black Cross Guild had been dissolved. Joined the three guilds of God of War I, Pope I, and Sad Fan Qiufeng, and the rest became casual players.

At the same time, because this place is remote and few players are willing to come over, so there are very few robbery problems. Therefore, even if Lu Yang and Shen Yiyi appeared, they did not cause much sensation.

“Hey man, do you want to form a team? You are missing a mage and a cure.” A player asked Lu Yang beckoning.

She Shen Yiyi looked to Lu Yang.

Lu Yang smiled and said, "Okay, team up together."

The advantage of having fewer people is that no one grabs the monsters, but there are also corresponding problems. Lu Yang lent the flying carpet to Jin Buhuan and temporarily has no ability to pass through the endless black cross graveyard of monsters.

The 18 people who originally formed the team were a little surprised. The headed player ran to Lu Yang with a smile, and said, "Two are good. I can't think of two. I'm a traveler. I'm the head of this temporary team. Welcome. Two joined. "

Lu Luyang said, "My name is Qianqiu Bandai. This is my sister. I will live my entire life."

The traveler is an Egyptian player. Hearing the names of the two, he looked surprised, saying, "The two are Chinese players."

Lu Yang nodded and said, "Yes, is there any problem?"

Traveler said: "Of course there is no problem, but you have to be careful. After the defeat of the Nine Star Alliance, the Spanish players and * here are not very friendly to Chinese players."

Lu Luyang said, "Thank you for telling me, where are you going?"

Traveler said: "We are all level 135 players, ready to go to the level 140 map, where are you going?"

Lu Luyang said, "Our goals are the same, let's go together."

"That's great." The traveler said, "Rest assured that we will protect you in my team, and I will introduce you to your companions."

The traveler brought Luyang and Shen Yiyi to know the players one by one. Of the remaining 17 people, 6 were in a studio with the traveler, and the remaining 11 were casual players, and there was also a Spaniard.

The Spanish player is called Gerrard, and he is a warrior. He said to Lu Yang unpleasantly: "It is best not to hinder."

Lu Lu smiled and said, "Don't be so angry, I didn't mess with you again."

"Hum." Gerrard snorted, glaring at Lu Yang and stopped speaking.

Gao Shen Yiyi wanted the theory angrily, but was stopped by Lu Yang. He sent a message to Shen Yiyi, saying: "The task is urgent, there is no need to reveal your identity."

Zhi Shen Yiyi had to give up.

Lu Yang changed back a set of conventional spell equipment, even the demon heart did not wear it, as they teamed up to fight monsters.

After the traveler added Lu Yang to the group, he saw that the names of Lu Yang and Shen Yiyi were hidden, which made him a little surprised, but he didn't say much and took the initiative to fight against the shield.

Lu Yang made a fire output in the back, and the group quickly advanced to the 140-level area of the Black Cross cemetery.

It wasn't long before Wu Ke arrived here, but Lu Yang found that there were many players in the 140-level area, a large part of which were from Russia and Spain.

Lu Luyang said to Shen Yiyi: "Put on the heart of the Holy Spirit and watch out for sneak attacks."

The traveler also felt very surprised, walking to Lu Yang and saying, "Be careful, these people may have to deal with you."

Lu Yang nodded and asked, "Let's upgrade in a place with few people."

"Yes." The traveler shouted to the crowd, "We change places to upgrade, there are too many people here."

18 people followed the traveler to a corner where no one was, but Lu Yang didn't follow him. He smiled and said to the traveler, "Dude, stop acting, you're exposed."

The traveler stood in embarrassment, looked back at Lu Yang, and said with a smile, "What do you say? How can I not understand?"

Lu Luyang said: "I just feel wrong. Why did anyone so inviting me to join the group so well? It really has a conspiracy."

"Why, what do you mean?" The traveler asked.

Lu Luyang said: "It's also my fault. They all say that they are out of the house and their wealth is not white. I and my sister are outfitted by you."

Lu Yang's equipment is obvious to people who know that it is high-level equipment of superior gold or higher. Shen Yiyi is even more obvious of the excellent gold suit. Travelers and others are just a group of more than 130 players. It is just a 130-level gold-level suit, which is easy to understand by their attention.

Several players in a team with the travelers frowned and looked at Lu Yang. One of the women shouted, "What are you talking about? This way, you are strange. The travelers wanted to attack us. We already had an attack. Why wait here? "

Lu Yang said: "Because they only have 6 people, how have they played 14 people, but here is different, look around, he just spoke so loudly, apparently telling his comrades, all come out, I will come together. It's solved, and it saves effort. "

The twelve casual people looked at the traveler, with a look of suspicion on their faces.

The traveler covered his face helplessly, but when he took his hands off his face, he put on a proud look. Haha laughed and said, "Sure enough, brothers, come out, Look at this clever guy, what ended us. "

I stood not far away, and more than 20 people came over, including Russians, Spanish, and Turks.

Lu Yang understood it and said, "It turns out that you are the remnants of the six waste presidents of the Nine Star Alliance. I didn't expect to be doing this."

The traveler was furious, referring to Landing Yang and cursing: "What the **** are you to insult us and kill him."

A few killers hiding next to Lu Yang suddenly appeared, but they were about to launch an attack, but were blocked by a holy sword angel.

"Holy Light Slash"

The holy sword angel waved easily, with more than 1 million damage, easily killed a few thieves.

残余 The remnants of the Nine Star Alliance are stunned.

"You, who are you?" The traveler asked in a daunt.

Lu Lu sneered and said, "You don't deserve to know, go away, I'm not interested in killing you."

He didn't want to reveal his identity, otherwise he would have killed these people by hand, but these people are not low-level, they do n't need the heart of the devil, they will not be able to kill at half-a-day, and they may be counter-kill. With the heart of the devil, they immediately reveal the stuff The impact on him is even greater.

Travelers and others were really afraid of this sudden 80 million-blood archangel, and they turned around and ran away as a last resort.

“You wait for me, I won't just let it go.” The traveler shouted a few kilometers away using a big horn.

Lu Yang sneered, and took Shen Yiyi to continue to fight monsters inside, replaced the two people with equipment, the speed is very fast, just no one here, the two quickly advanced to the 160 map.

The sacred demon cemetery is the name of this map. Lu Yang looked around, and there were 160 level zombie demon everywhere.

Corrupted Demon (Elite)

Level: 160

Qi and blood: 0000

Lu Luyang said to Shen Yiyi: “Put a curse and clean up all the mobs on the map.”

“Follow the order.” Shen Yiyi Mengmeng saluted, took out his staff, and chanted a spell in his mouth.

“Holy Spirit Mode”

“Holy Light”

With Shen Yiyi as the center, all non-necronomical creatures within 2000 meters of the surrounding area will not be harmed, and all necrotic creatures will be heavily damaged.

“8019868” (critical strike)

“8190286” (Critical Strike)

Uh ...

With Shen Yiyi’s 9th-level spirit, wearing a full set of dark gold-level equipment, the magic damage has exceeded 1.2 million, and the Holy Light magic killed the spirit creatures by an additional 2 times the damage, plus crit damage, hitting more than 8 million It’s normal.

In just a few seconds, the necrotic creatures on the field are dead.

Ji Shen Yiyi looked at Lu Yang in surprise, and said excitedly, “Brother, I’m terrible, haha, these were all killed by me.”

Lu Luyang also lamented that this unique magic really has a great use at some time. He can’t kill the monsters here to do such damage, but he did not expect that Shen Yiyi’s magic of the light can.

“It’s really good, wait for me.” Lu Yang took out the goblin robot to build a sentry tower.

He said to Shen Yiyi: “Let’s fight the monsters. Come back when the magic is gone. Raise the level as soon as possible.”

“Oh.” Shen Yiyi happily ran to fight monsters. This continuously moving curse-proof spell can be turned on at any time as long as there is magic.

Lu Luyang waited. After the sentry tower was built, he sent a message to Han Yu and said, “Come to me.”

The light flashed, and Han Yu flew to Lu Yang.

Lu Yang called back Shen Yiyi and said, "Let's go and kill the shards of God's heart."

He walked along the main road of the demon cemetery. After entering the central area, at the entrance of a necropolis, three undead monsters stood there.

The undead demon Habbs is a giant four-hoof demon with a fearful face.

Undead Warlock Rain, is a huge skeleton mage.

The undead warrior, General of the Underworld, is a skeleton holding a giant axe.

Lu Luyang said, "Three of us killed one each."

This can't be done with fire and thunder. If you use it, it will take three hours, but it is better to hit it directly.

Lu Yang's three are god-like people. They are extremely easy to fight. In less than half an hour, the three lords die.

宇 Han Yu returned to the space with the Divine Heart Shard to upgrade.

Lu Luyang said, "Cancel your contract with the three-headed dragon."

Han Yu said for a moment, "Brother, do you want to change the summoned beast?"

Lu Yang nodded and said, "There are stronger summons here, or dragons."

Han Yu reluctantly cancelled the three-headed dragon contract.

Luyang picked up an item dropped by the three lord monsters on the ground-Bone Dragon Horn.

He picked up the horn and blew it hard. When the melodious horn sounded, the earth trembled suddenly.

Suddenly, a crack appeared in the necropolis, and a huge 80-meter-long bone dragon flew out of the ground.

Lu Luyang said to Han Yu, "It's him. Sign a contract with him."

宇 Han Yu precisely launched a contract with the bone dragon that just flew to the sky. The light flashed and the bone dragon just opened its wings and became Han Yu's pet.

Frozen Ice Bone Dragon King-Enqi (Rare Elite)

Level: 137

Qi and blood: 0000

"So cool, brother Han Yu, what skills do you have, let's talk about it." Shen Yiyi asked anxiously.

Han Yu said: "Attack power is 1.87 million, with skill Frost Dragon Breath and Forbidden Frozen World."

Jian Shen Yiyi said to Lu Yang: "The curse summons beasts, so strong."

Lu Yang shrugged his shoulders and said, "The necromancy is attacking high, let's go and catch this summoned beast."

There are 3 top-level summoning beasts in the Demon God's Cemetery. The first one is the Frostbone Dragon King and the second one is the ghost spirit.

Unlike the Frostbone Dragon Net King, the ghost spirit will be a profession that uses physical attacks. His special skill is hitting blue. If he is hit by his ultimate skills, even Lu Yang's magic will be destroyed. more than half.

The ghost attacker's range of attack skills, constantly playing blue, makes the player miserable, and his own attack power, defense power and health are very high, is a very difficult role.

The third summoned beast is the Dark God, an exclusive magical attack, and possesses a forbidden spell of death beating rays.

Lu Luyang and Han Yu took all three summoned beasts and said, "Continue to upgrade."

Continue to walk in along the central area of the Devil's Cemetery. In a humble location, there is a cemetery half-open.

陆 When Lu Yang and the two approached a flash of light flashed, the coffin cover in the cemetery flew up, and a 170-level giant skull king appeared in front of Lu Yang.

Wraith King (Lord Level)

Level: 170

Blood: 0000000

"Humans, you broke into my territory." The Wraith King stepped towards Lu Yang, his sword in his hand glowing bloodthirsty.

Lu Luyang said: "Be careful, I'll pull the monsters, you are responsible for the output."

“No problem.” Shen Yiyi roped.

Lu Yang’s mouth spelled out.

“Flame Demon Mode”

“Blazing Fast”

“Blazing Heart Flame”

Qi Li opened three skills, after Lu Yang hit the Wraith King, he turned and ran.

“122000000”

The Wraith Emperor watched his wounds anger, chased him towards Luyang, and yelled, “Damn, I want to kill you.”

Qi Shen Yiyi aimed at the Wraith King, and read the spell in his mouth.

“Holy Light Verdict”

A stout light struck the Wraith King’s body.

“198765684” (critical strike)

Wu Shengguang’s damage is 2 times the attack. If Shen Yiyi has a half body suit, his attack power is higher.

Chapter 1122 - Heart of Death Level 8

The Wraith King did not shift the target because of Shen Yiyi's attack, but continued to kill Lu Yang, because Lu Yang's feet carried a trail of flames, which caused a lot of damage to Wraith King every second.

"Slow down with the ice bone dragon king." Lu Yang shouted to Han Yu.

"Summon Bone Dragon King" Han Yu read a spell, a huge bone dragon up to 50 meters in length appeared in the sky.

"Ice Dragon Breath"

The giant bone dragon sprayed a mist of ice on Wraith King's body, forcing its movement speed to be reduced by 50%, so that Shen Yiyi, who was watching aside, opened her mouth wide.

This is a level 170 monster blame. It can be slowed down by the player's skills, which has subverted his previous perception.

In the game, everyone knew one thing, that is, the official instructions, all control skills halved the boss, not effective for the lord.

But now the bone dragon king summoned by Han Yu can reduce the movement speed of the lord monster by 50%, how can he not be surprised?

Of course, this is the reason why many players do not read the full official manual. In the supplementary items of the official manual, players who possess high-end artifacts can stun monsters.

Lu Yang is trying to escape. The movement speed between him and Wraith King is not too different. He cannot run out of the attack range of Shen Yiyi and Han Yu, so he needs to run around the circle. This requires certain skills. Once a mistake occurs, Will be spiked by Wraith King.

Suddenly, he felt as if he was behind him and looked back. The Bone Dragon King had slowed down successfully. The Wraith King was surrounded by a layer of frost and could not catch up with him.

“Good job, keep the dragon’s breath, I stun him with a forbidden spell.” Lu Yang pointed his right hand at the Wraith King.

“Meteor Fall”

A huge group of fire meteors descended from the sky. In the middle of the body of the Wraith King, he fell to the ground and a dizzy symbol appeared on his head.

“Lava Eruption”

“Lava Eruption”

Uh ...

Luyang continuously uses the skills to spread the lava around the Wraith King, which can cause him to suffer nearly a million damage every second.

“Order the ghost war to attack melee.” Lu Yang said.

Han Yu issued an order, but the huge ghost warrior jumped behind the Wraith Emperor lightly like an ape, and chased the Wraith Emperor with two long knives.

The most problematic problem for the Wraith King Emperor is that when the blood volume is reduced to 50%, he will activate the range stun skill, which is an unavoidable stun skill that dies when he hits.

I want to kill the Wraith King, the best way is to hit the blue, empty his blue, which is why Lu Yang asked Han Yu to bring the ghost war.

On the subject of magic, Lu Yang's mana value is millions, which is more than that of the Wraith King. He can't bear the blue attack of the ghost warrior, let alone the Wraith King.

"Retreat from the Magic"

The Ghost Spirit combined two long knives into one, slashing into the back of the Wraith King, knocking out three-quarters of its magic value.

"Retreat from the Devil"

The ghost ghost battle will be divided into two long knives, one in each hand, and slashed wildly against the back of the Wraith King. Within 10 seconds, the Wraith King's magic value is cleared.

"It's beautiful," Lu Yang said.

Now the Wraith King is a super soldier. He has no magic value, can't catch up with Lu Yang, and has no long-range attack skills. He can only be attacked by them at will.

After 10 minutes.

The Wraith King fell to the ground and burst out with Han Yu's materials to upgrade the heart of death.

The light flashed.

Han Yu flew back from the space of death in excitement and said to Lu Yang: "Brother, my heart of death is at level 8 and I have a necromantic **** skill. Every time I kill a monster, there is a chance to summon it. Fight for me. "

Lu Luyang said, "This is a magical skill."

"Brother, wouldn't you say that I have a chance to kill the lord." Han Yu asked in surprise.

Lu Yang nodded and said, "Yes, that's what it means. It is very likely that when you kill the lord, you summon the lord. This necromancer has all the skills before his death, but the summoning time is only 30 minutes. The chance is also Less than 1%. "

"The odds are too low." Han Yu said.

Lu Yang said: "The odds are low for the lord, but high for the elite, about 5%, and the duration is 2 hours. I will take you to a place to ensure that you will like it."

In the last life, when this skill first came out, everyone scolded it as garbage, but no one expected that a player with a heart of death killed a monster called Necromancer by accident.

The Necromancer has only one skill. He passively loses the aura of blood. If he is within 10 meters of him, he will automatically lose blood.

Normally, this skill is very rubbish, because passive blood drop aura only drops 1% per second, but this skill has a benefit, it can be superimposed.

Each additional Necromancer adds 1%. The Necromancer of the previous life summoned 3 Necromancers in a hidden map. In the later period, the Lord of Seconds is just like playing.

If the duration of this necromancer is only 2 hours, and the distribution of high-level lord monsters are separated by more than 2 hours, the necromancer will almost bring a small guild into a super guild.

Lu Yang takes Han Yu and Shen Yiyi to the place where the necromancer gathers, which is just below a hidden grave in this demon cemetery.

带着 He led them along the path to the middle area of the lower right corner of the cemetery, and found the tomb with a faint purple light.

"Brother I'm afraid!" Shen Yiyi hugged Lu Yang's arm pitifully.

Lu Lu laughed and said, "You little girls, you like to watch ghost movies, but you're losing money now."

Up to now, Lu Yang can't understand how the brain circuits of these young girls are structured. I like to watch ghost movies. When I watch it alone, I watch it when a group of people are watching it. If I am scared, I must watch it.

Qi Shen Yiyi looked embarrassed.

Lu Yang laughed and asked her to hang Han Yu. She led the way in front of her. This tomb didn't look terrible. It was just a simple room with dozens of purple souls.

Necromancer (elite)

Level: 160

Qi and blood: 0000

Lu Luyang said to Han Yu: "Turn on the necromantic **** with a hash arrow, and leave the rest to me and Shen Yiyi."

"Oh." Han Yu fired a hash arrow, with the imprint of necromancy falling on dozens of necromancers.

"Flame Storm"

"Holy Storm"

Uh ...

Lu Yang and Shen Yiyi opened the skills together and easily killed dozens of mages. After the death of many necromancers, a gray-brown light emerged from the body of a necromancer, and he resurrected and stood up. Behind his name, an extra Han Yu's name appeared.

“Yes, it succeeded for the first time, and we went looking for it, and when we emptied it, we could hit three or more.” Lu Yang said.

Chapter 1123 - Million years of injustice

Han Yu nodded.

Lu Luyang took them and their team to fight monsters, cleared hundreds of necromancers, and Han Yu got 3 necromancers.

Maybe the rules of the system, or there may be only a maximum of three, Han Yu did not play the fourth, but this is enough.

Lu Luyang said, “Let's go, let's find the material of the 9th level heart of death.”

The material location of Level 9 Death Heart is in the level 0 map. The black cross graveyard is a map that can always reach level 200.

Official history, the final boss of the Black Cross cemetery is the seven deacons under the death seat, and the ultimate lord of the 200-level regular map, but these seven deacons are all demigods, even if Lu Yang gathered all holding 9-level artifacts. Players come and fight, but they can't.

To kill these seven deacons, at least one person must have an artifact-level shield, and the remaining 99 people must have legendary or higher equipment. The position and the consciousness cannot be worse. If there is a mistake, the deacon cannot be killed.

七 These seven deacons are wild monsters. If the number of deacons exceeds 00, their health will be doubled, that is, the number can only be limited to 00 or they will not be able to fight.

Of course, there were other ways to fight these 7 deacons in the last life, such as raising the level of the guild to level 7, so that players can start training skills and increase their attack and defense, but that is a longer time later.

If you want to learn to practice, the level of the guild must be raised to at least level 5, but now the Brotherhood of the Iron Blood is only level 3, and it is still far away to upgrade to level 4, let alone level 5.

“Dididi”

The voice of the intercom sounded. Lu Yang picked it up and it was Padu who called. He pressed the intercom and asked, “What’s the matter?”

Padu said a little sadly: “Chairman Lu Yang, I’ve done something in India?”

Lu Lu asked: “What’s wrong?”

Padu said: “A large number of special legions under Tianlong are unwilling to fight for Corley and me. I cannot convince them.”

天 After Tianlong went to jail, the dragon guild collapsed. Except for hundreds of thousands of extremely loyal players, as Karina and Salman went to the central map for development, the rest of the absolute part remained in the original main city of Tianlong.

At present, these people have set up small guilds by themselves. Some simply do not even set up guilds. Some elite players have set up small studios to specialize in selling equipment and money.

Only copies of nightmare difficulty were given to dark gold equipment. Now players are struggling to upgrade from level 30 to level 40. The profits of these people are still great.

try {mad1 ('gad2 ');} catch (ex) {} Lu Yang knew this thing well at Tu Feng, he said to Padu: "Do n't be discouraged, you and Cory's side How many people have gathered? "

Padu said: "The elite of the original old part of Tianlong has gathered more than 500,000 points. The curse-proof wizard group is better. Shaqi has some reputation and gathers about 20,000 people."

Lu Yang thought for a while and said, "In this way, I will give you a total of 100 million US dollars with Coley, Baqiang, Dalvey, and Karp. You will use it to build a 30-storey game that can hold 100,000 people. Large studios and accommodation areas, I will send them over in the near future, the supervisors and the people who send the money. You put up the shelves first, have high wages and high benefits, those who do n't have money, do n't they who do n't have money? "

"It makes sense," Padu said excitedly, "Thank you, boss."

Lu Lu said with a smile: "You're welcome, you help me, I will do my best to support you, don't let me down, continue to work hard, tell others the news."

"Yes," Padu said immediately.

Luyang just hung up the phone. It didn't take long for Collie and Karp to call one after another. Lu Yang stopped answering one by one and opened a special space. He simply told Collie about their requirements.

"Brother, there is a ghost monster in front of you, isn't it what you are looking for?" Shen Yiyi patted Lu Yang and pointed at the super-dead in front.

Lu Yang looked forward. A black undead standing more than 30 meters tall. The lower body was like an awl, without feet, but the upper body was a human form.

Ten thousand years of injustice

Level: 0

Qi and blood: 30000000000/30000000000

Lu Yang said: "I pulled him to run, Han Yu, you let the necromancer follow behind the unjust soul."

"Oh." Han Yu said.

Wannian has a lot of unjust skills. Normally wanting to kill the past is tantamount to foolish dreaming. He has only two long-range skills. Each of them has Lu Yang's skills at this level.

Lu Yang dares to hit him at this level because Lu Yang knows that a place cannot pass through for thousands of years.

"Blazing Heart Flame"

Lu Yang's right-hand staff pointed at the wrong soul for ten thousand years, and a white flame hit the head of the wrong soul.

"22000000"

The two blood-red eyes of the unjust soul immediately stared at Lu Yang, screaming, and rushed towards him.

"Blazing Fast"

Lu Yang turned and ran.

The location where Wan Wannian's injustice stands is at the gate of the Necropolis, level 0 map. Opposite the Necropolis, there is a huge broken windmill.

The windmill is 45 meters high, and the fan blades are 5 meters high, a total of 60 meters high. Although the windmill is broken, it is still rotating.

On the opposite side of the windmill, there is a huge tower, 60 meters high, which is the tower of the Necropolis.

Lu Yang ran to the windmill in a fiery rush, just as a fan blade fell, he grasped the fan blade with his right hand, and went up as the fan blade rotated.

Wan Nian's evil spirit chased behind Lu Yang. His moving speed was not as fast as Lu Yang's, but his speed was also limited. As the fan blades continued to rotate upward, Wan Nian's evil spirit quickly chased him up, at a distance of 30 meters from Lu Yang Stopped.

"Human, let me die." Wan Nian grieved roar, and a black light appeared in his hand Flying towards the landing sun.

Lu Luyang watched the light come over, he did not dodge, because, at this time, the fan blade just turned to the top.

"Blink"

Lu Yang said a spell in his mouth, and the light flashed. He flew over a distance of 00 meters in the air, appeared behind Wannian Soul, and then quickly threw out the escape dagger.

With Lu Yang's fall, a blue light swirled and flew towards the tower, landing precisely on the platform on top of the tower.

"Escape the Dagger-Activate"

The blue light flashed on Lu Yang's body where he was falling and appeared on the platform.

"Damn." The evil spirit turned and chased after landing Yang.

"Lava Eruption"

Lu Yang released his skills continuously, turning the surrounding 50 meters in front of the tower into a sea of fire.

Wan Nian's evil spirit quickly chased below the tower. He was only 30 meters tall and 30 meters shorter than the tower. Therefore, he could not see Lu Yang standing on the top of the tower, but the sea of fire below caused him millions of seconds per second. Harm, which made him angry.

"Soul Storm"

"Desolate Song"

"Dirge"

Uh ...

A series of 2 range skills were shot. From the perspective of Lu Yang, the soul skills around the tower were violent and surrounded the tower, but none of them could hit Lu Yang.

"Han Yu, use your necromancer to stop him by the halo." Lu Yang shouted immediately after seeing that the scope of 10,000 years of injustice was gone.

Han Yu pointed with one hand, 3 necromancers quickly came within 0 meters of the ten thousand years of unjust souls, relying on the superposition of the aura, killing 3% of the ten thousand years of unjust souls every second.

Chapter 1124 - Blessed land

After 5 minutes.

Wan Wannian fell to the ground.

System prompt: You killed ten thousand years of unjust souls

Lu Yang went to Wannian's injustice, picked up a black crystal ball, handed it to Han Yu and said, "Good luck, this is the entropy ball of the physics department, and it is also one of the top semi-artifact accessories. Unexpectedly burst out here."

Injustice Soul Ball (Demigod)

Level: 180

Power: +100000

Description: Every time you kill a lord monster or a player, you can get 1 damage, up to 500,000 damage.

Han Yu was shocked and said, "This thing is so powerful?"

Lu Yang nodded and said: "Semi-God-level equipment, all attributes, take him, I will take you to the camp step by step to the sky, specifically to kill and upgrade attributes."

"Um." Han Yu said excitedly.

Lu Luyang said, "Go upgrade the heart of death."

“Oh.” Han Yu has already picked up the material, only he can get it from the wrong soul, other people can't.

After a flash of light, Han Yufei returned to the Temple of Death. Within 1 minute, he returned to Lu Yang and said excitedly: “My heart of death is at level 9 and I have learned a skill called death and decay. Every second Can cause 1% blood and blood damage to creatures within a range of 5000 meters. “

Lu Luyang smiled and nodded, and said, “Yes, I'll take you somewhere.”

He took out the teleportation scepter, and took Han Yu and Shen Yiyi to the city of blessings. Just after landing, the three used camouflage coats and mingled with the crowd.

Put on a mount, and the three walked along the street to the outside of the city. There are too many players in the city, and the mount cannot run even if it wants to run.

As the three were approaching the door, several Indian players were talking around.

“It's going to be unlucky now, and those people won't spare him.”

“Who made him so loyal to Tianlong before, now Tianlong is finished, and those guilds that he was bullied by before will definitely seek revenge on him.”

“Hey, this is a great show. I really want to see what Marousa looks like now. Think about it. He was so arrogant before.”

Uh ...

Lu Luyang, Han Yu and Shen Yiyi looked at each other.

“Brother, who is Maroussa? Haven't heard of this person?” Shen Yiyi whispered.

Lu Yang sighed and said with emotion: "This man is a little bit old. He used to be the most powerful player of Tianlong. The commander of the First Army was a special professional player himself, and he made great contributions to Tianlong."

"Why didn't we see him when we played against Tianlong?" Han Yu asked.

Lu Luyang said, "Malosa has committed a taboo as a subordinate."

"What taboo?" Shen Yiyi asked.

Lu Luyang said, "You shouldn't care about your boss's affairs."

"The woman Karina is not a good thing. Originally, there was a girlfriend beside Tianlong. When Tianlong first started, this woman and Malosa and others helped Tianlong together and gave Tianlong a lot of help.

Afterwards, Tianlong slowly won over one enemy after another, and his strength became stronger and stronger. Similarly, the temptation became more and more. This Karina appeared.

Karina, who was dressed up in flames at the time, lay in the arms of Tianlong on the first side of seeing Tianlong, making Tianlong unable to extricate herself with her extreme beauty.

Wu Tianlong then abandoned his original girlfriend and chose Karina, which made a lot of old players such as Marosa very angry.

The most angry of them was Marosa. He pointed at Tianlong's nose and scolded him. He told Tianlong's ex-girlfriend more than a year's contribution to Tianlong in front of everyone, and swore Karina. pause.

As a result, instead of tolerating Malosa, Tianlong became extremely angry, thinking that Malosa should not expose his short in front of so many people.

On the same day, Denon suspended Malosa from his duties and sent him out. He never called back to the headquarters, and then Karina became Denon's financial steward. Salman and others took the place of Malosa. .

In this way, no one speaks for Malosa, Tianlong has been winning, and Malosa is forgotten to the corner.

But Tianlong has forgotten him, but the players of the original guilds in India did not forget him. In the early years, it was this Malosa who helped Tianlong lay a third of the map. Many guild presidents suffered heavy losses.

Now that Denon is finished, it is estimated that these people began to find the earliest players of Denon and other players such as Marosa to start liquidation. “

This kind of thing is the most common in any country and any boss. There are a few people who can resist the beauty of the United States. Confused wife, how can it be better than a sixteen or seventeen year old girl. How can I compare with those women who have undergone professional training and beautifying their personality.

Once a boss or boss of a guild can't hold it, the result is often to halve the root of a guild.

Wu Tianlong is like this, even if he looks down on the low caste player, if he did not find Karina, or his original wife and Marosa, etc., Lu Yang is not so easy to win.

At the very least, someone will tell him that the city of the Holy Spirit must be taken down, and even if a cooperation treaty is signed with the Nine Star Alliance, he must first take the city of the Holy Spirit into his hands while he is not ready.

In this way, how could Lu Yang have the opportunity to break into Tianlong's hinterland. If Lu Yang did not go in, Tianlong's funds would not be a problem. He could calmly arrange his men to participate in the defensive battle, and he could easily suppress those low caste players make them unable to rebel.

After all, Salman, Aishwarya, and others all came up after Karina. As the chief financial officer, Karina knew that she was not standing right, so she naturally gave the seniors who had a good relationship with Tianlong's predecessor to Cleaned up.

In the final analysis, Tianlong's final defeat was all his fault, but these things should not let loyal players like Malosa to bear the consequences.

Ji Shen Yiyi nodded a little head and said, "Tianlong really deserves it, but Marosa is too pitiful."

Han Yu said, "Yeah, brother, players like Marosa, we should talk about it, he should not bear the consequences for Tianlong."

Lu Luyang said, "I have this intention."

He said to an Indian player in a conversation next to him, "Where is Marosa now?"

The Indian player glanced at Lu Yang and said lazily, "Why should I tell you."

Lu Yang threw a gold coin and asked, "Where?"

"Oh, uncle, you are such a good person." Indian players bowed charmingly and pointed at the Dongcheng Gate. "It is just outside the gate of the blessed place on the 130-level map. It is estimated that we are almost done now. More ambush them. "

Lu Luyang said, "Let's go to the land of blessings."

Shen Yiyi and Han Yu nodded, and the three walked out of the city gate, riding their horses all the way across the Wangye Grassland and entering the blessed land.

Chapter 1125 - Malosa

Blessed land.

In official history, this is a place of exile, a giant prison dedicated to the demon creatures.

The reason why He is called a blessed place is to hope that through this prison, these demonic creatures can gradually change their minds.

When Lu Lu ran with Han Yu and Shen Yiyi all the way, there was not even a mob on the road, but on the contrary there were scattered potions falling to the ground.

“It looks like it really hits, we speed up.” Lu Yang said.

Han Yu and Shen Yiyi nodded.

The three of them continued to move forward and came to a barren red land. In front of them, the two groups of players were facing each other.

The number of people in one group is about several thousand, while the other is only a few hundred. In terms of equipment, the one with a few thousand is better, and the one with a few hundred is worse.

However, the actions of these hundreds of people were very unified and coordinated. Under the leadership of the middle commander, they rushed to the left and killed, but the thousands of people could not be wiped out for a while, and even if someone died, they would immediately use skills to save them .

“It seems that the side with few people is the Maroussa side, and that headed General Ghost Face is Maroussa.” Shen Yiyi asked.

On the less-popular side, there is a player who is more than 2 meters tall. His face is like a ghost in hell, with brown hair more than 1.5 meters, slender and full of explosive power. He holds a serrated machete in his hand. It looks very powerful.

Lu Luyang said, "That person is Marosa."

"What profession is he and how did he grow up like this?" Han Yu asked.

Lu Luyang said, "Yaksha."

Yaksha, this is a very powerful race, just like Huaxia's White Snake Swordsman, a race unique to India.

Race characteristics are somewhat similar to Shaman, but the movement speed is second only to the wolf guard, but the attack is not as good as the shaman's violent slash. In the night, they have stealth ability, and some are like the night elves.

There is no particularly outstanding skill in the whole, but because he has no characteristics, it has become his biggest feature. This is a profession that can run remotely like the Wolf Guard, and can also be responsible for siege and defense.

Lu Yang did not know the side that attacked Maroussa. Looking at the composition of their guild, Lu Yang was a bit surprised.

"These people are well equipped, and there are more than 20 forbidden curses." Lu Yang said with a frown.

Shen Yiyi and Han Yu looked at the crowded side at the same time. Both of them had participated in many large-scale guild battles with Lu Yang, and they understood the meaning of the curse mage for a guild.

If there are only a few forbidden mages, they won't care, but 20 forbidden mages are gathered at one time, which is a combat power that can sneak into a main city.

When Lu Yang went to war, there were 20 forbidden mages attacking the main city in the rear. That main city was absolutely unstoppable, which is why the official did not allow a teleportation formation to be established immediately after a successful siege.

“What shall we do now?” Han Yu asked.

Fighting ahead, even if Han Yu showed Lu Yang’s identity, it can be said that the role is 0. Players on both sides will not buy it. Maybe they will want to attack Lu Yang. After all, thieves are everywhere, and no one can guarantee that he will not be attacked by thieves.

Lu Luyang said, “Let’s go in hiding and see what’s going on.”

He took out the stealth potion and distributed it to Han Yu and Shen Yiyi. After the three of them drank, they sneaked inward.

Jinjin does not exchange stealth potions made by special abilities. At this level, it will not be discovered.

The three of them avoided the skills on both sides, and slowly approached the central area where the two sides fought. Soon, they came not far from the guild leaders with many people.

“Malosa, I don’t think you will have today, ha ha ha ha ~!” Guild president Yi Fan asked with a smile.

Malosa is fighting and retreating. Hearing Irfan’s words, he sneered and said, “Irfan, forgot how I taught you that year?”

“Huh, without Tianlong, you still have something. Now that Tianlong is in prison, I want to make you die better. Every day I enter the game, I will kill you again.” Irfan yelled, as if remembering it happened.

“Malosa, I know you can’t bear this account, just right, we can kill you every day, and the garbage under your hands, haha, without Denon, you are a group of garbage.”

Uh ...

A few guild leaders took turns spraying Maroussa, which made Marosa and his players extremely angry, but they were helpless like that.

Without Tianlong's protection, they are really a group of rubbish. Lu Yang's Iron Brother Brothers can't wait to see them, and Padou and Karp will never use them, because they used to be the dragon's ties, who knows whether they will Rebellion?

如今 Nowadays, those enemies who have been pursued and killed by them have united to hunt them down, but Tianlong has gone, they really have nowhere to go.

An account has been practiced from level 0 to level 130, which was completed in more than 2 years, and let them practice again. In the past two years, they have been discouraged, and some people have to lose the secondary ban and hide Occupation is even more difficult for them to accept.

I can't even accept it now. If Ifan and these people gather together to hunt them down every day, they won't be able to upgrade or even fight with their equipment.

Malosa didn't know what to do. The players who belonged to him were because of Karina's affairs, and he was unlucky with him.

Wu Tianlong had a problem. He wanted to help these brothers earn money to support themselves or not be bullied, but now it seems that he does not have this ability.

“If the tiger is fierce, it will be in the mountain forest. If a powerful elephant falls into the hunter's trap it will not be able to break free. It seems that my destiny is like this.” Said.

“Boss, what shall we do?”

“Can't die any more. If you die a few more times, all the equipment will be lost, and the level will be dropped.”

Uh ...

Maloosa was even more miserable listening to the words of the players around him.

At this time, an archangel, a frozen bone dragon king, a sky-eater, and a ghost warlord appeared in the sky.

“Hello ~!”

“嗷 ~!”

Uh ...

Four summoned beasts with nearly 100 million blood fell in front of Maroussa and others at the same time. Suddenly, the four summoned beasts roared in unison and rushed into the crowd of Irfan and others.

The defensive power of these summoned beasts is far beyond what Irfan and others can afford. In an instant, the four summoned beasts killed Irfan and other guild leaders, and the Frostbone Dragon King used the curse to freeze the world. Seconds dropped most Indian players.

In a blink of an eye, the enemy standing in front of Maroussa and others was killed!

Malosa looked at the scene in stun, looked around, and said, “Who summoned these, which friend helped, please come out and see.”

Ji Shen Yiyi and Han Yu showed their figures and stood 10 meters away from Maroussa.

“Thank you both,” Malosa said in a cold sweat.

Chapter 1126 - Current situation

“You don’t need to thank the two of us, we need to thank our elder brother.” Shen Yiyi said.

Malossa’s expression changed. He heard the voice of Huaxia from Shen Yiyi’s words. Looking at the two, Marosa could confirm that the two in front of him were Huaxia.

“Who is your eldest brother?” Malosa asked cautiously.

Han Yu smiled and said, “You are very smart. It looks like you have guessed some. Come with us, our elder brother is in the forest not far ahead.”

Malosa was a little hesitant, and the men behind him also looked confused.

“Boss, it will not be Lu Yang.”

“No, why did Lu Yang come to such a place, maybe Liang Yun or Zhou Tianming, they may want to recruit us.”

“Don’t meet them.”

“Shall we see each other?”

Uh ...

His opinions were various, but most of them rejected the Jagged Brothers League, which made Malosa frown.

Han Yu, holding his arms, asked with a mockery: “Why, at that time, Maroussa who helped Tianlong lay a third of the map, is he even afraid to see him now?”

Malosa was furious, and said, "What's scary, a game, the big deal is just to lose the equipment, what am I afraid of."

Han Yu shrugged his shoulders and said, "Please."

Maroussa took a deep breath and said, "I know you're stimulating me. I'll tell you first, I'm not fooled by you, but I want to tell the person behind you. Don't have anything against us. Thought, we will not join the Jagged Brotherhood. "

After he had spoken, Maroussa looked behind him again, and his opponent said, "Freedom to fight against monsters, I'll see that person. What's the matter, wait until I come back."

He looked at each other under his hands.

Malosa said to Han Yu, "Lead the way."

宇 Han Yu indifferently turned around and walked with Shen Yiyi into the forest not far away. After a while, the three came to a big rock.

Lu Yang was standing next to the big rock, and when he saw Marosa, he smiled.

Maroussa was dumbfounded. He guessed that Han Yu and the two of them belonged to the Jagged Brotherhood, but he thought that the highest of them was Zhou Tianming or Liang Yun's men, but they did not expect them to take him to Lu Yang Before.

Malosa was completely unprepared to meet Lu Yang. Seeing Lu Yang smile at him, he was panicked.

怎么 "How are you," said Marosa subconsciously.

Lu Lu smiled and said, "Jiu Yang, Marosa."

“Do you know me?” Marosa asked in surprise.

Lu Yang nodded and said, “I know the things between you and Tianlong very well. Tianlong abandoned the original girlfriend and chose a more beautiful one, which led to a conflict between you and Tianlong. After that, you will not be Denon reused. “

Uh ...

Lu Yang simply said what he knows. These things have not yet been revealed at the beginning. It was only when the last day Tianlong took tens of millions of Indian players to defeat a European guild.

At the time, Tianlong was very strong, with tens of millions of players over 130, and the number of European guilds opposite him was several million fewer.

At the time of the actual battle, as many as the tofu block, Tianlong was killed by various types of the European Association.

At this time, players only found out that Tianlong was so vulnerable. The reason was that two-thirds of the group of people who accompanied Tianlong to fight him were eliminated by him.

Lu Luyang was very impressed by the incident at the time, and let him know that as the guild president, the most taboo is to fire those players who follow him to fight the world, which will cause the entire guild to collapse.

现有 With the existing player group of the Brotherhood of Iron and Blood, it is very easy to find hundreds or even thousands of people like Xia Yuwei, Sun Yu, and Jiang Ze.

Wu Ke Lu Yang never thought about dismissing these people, nor did he even think about reducing their rights. Instead, he was still increasing their power and decentralizing more rights.

In the current Jagged Brothers League, Lu Yang is a shopkeeper. Everything is handed over to the 33 vice presidents. Among them, the main ones are Zhuojiu, Tianyao, White Lion, and Zhou Tianming. Great right.

These vice presidents can also put down their bodies. They are all from ordinary players. They are willing to treat those ordinary players with the most sincere attitude, which makes ordinary players have a sense of belonging to the Jagged Brothers Alliance.

And the relatives of these people, Lu Yang turned them into guards again, and gave them artifacts and high wages. Because of this, the Brotherhood of Iron and Blood did not have any mess, internal unity and unity, and it was so powerful. Combat effectiveness.

Malosa did not expect that Lu Yang knew so much about him, and he didn't even pay attention to many details, which made his eyes widen in astonishment.

“How do you know?” Maroussa asked.

Lu Luyang said: “I have been following you for a long time. Originally, I thought you would be a big obstacle for us during the national war, but I did not expect Tianlong to put you idle.

Later, I thought that when I arrived in the New World, Tianlong would learn his lesson. I did not expect that he still idled you. It was because of you and players from the same faction that I dared to fight against Tianlong so early. Otherwise, I might have to delay for a while. time. “

Malosa was a little excited, but he took a deep breath and said, “President Lu Yang, thank you for what you just said, it made me feel a lot better, but I'm sorry, I can't join your guild.”

Lu Yang shook his head, stopped him from speaking, and said, “You listen to me first.”

Malosa asked, “What else do you have to say?”

Lu Luyang said: “I know you are a high caste You look down on people who abandon high castes like Coley and Paddu, and look down on low castes such as Davy and Kapu.”

Malosa nodded, he hated the traitor the most, and looked down on the low caste.

Lu Yang went on to say: "But you haven't thought about it, because your despise may make the tens of thousands, or even hundreds of thousands of players who accompanied you to play the game, suffer the disaster?"

"The calamity? Exaggerated," said Malosa.

Lu Luyang said, "Let's say that. Have you ever thought about it, what are the first things you should do after the establishment of the guild by Coley and Padua?"

Malosa shook his head. He was just a smart tactical commander, not a conspirator.

Lu Luyang said, "He will kill the large-scale organizations that Tianlong still stays here for the first time, on the one hand, it shows his loyalty to me, and on the other hand, it is mainly for venting to players of low castes."

Malosa suddenly opened her eyes.

"They dare?" Malosa said angrily.

Lu Yang said, "Why don't they dare? I give money, give things, give everything support, and Padua and Karp have money and equipment in their hands. In order to build a trustworthy and loyal guild, they must Kill you guys. "

Malosa was stunned. He wanted to shake his head to express disbelief, but there was no way. He knew that everything Lu Yang said was very reasonable.

Chapter 1127 - Demon knight

“What do you want?” Marosa asked, staring at Lu Yang.

Lu Luyang said, “Not what I want, but what do you want now?”

Malosa understood, he said with a mockery: “You want me to join the Brotherhood of the Iron Blood?”

Lu Luyang said: “Yes, on the one hand, you are indeed a personal talent, and I hope you can join us, on the other hand, I have no reason to stop Padu and Corley from killing those players.”

Once Karina and Salman come back, these people will stand up, either for morality, or for money, or for the country, and fight against the Brotherhood of the Iron Blood.

If Lu Yang does not solve these hidden dangers in advance, he will not be able to open up, and he will not dare to fight the enemy too much.

Malosa bowed his head and pondered. Eventually, he gritted his teeth and said, “I can promise you, but you have to make sure that I am on the same level as Collie and Padua.”

Lu Yang shook his head and said, “They have worked hard for the Brotherhood of Iron and Blood. It was they who helped me defeat Tianlong. How could I make you have the same level as they did before?”

“What do you want me to do?” Maroussa asked.

Lu Luyang said, “Let me see your ability and prove it to me. I should give you and Collie the same level.”

Malosa said, “Well, I will do what you say, and wait for my news.”

Lu Luyang said, “You can go.”

Malosa left.

Han Yu asked curiously, "Boss, will he agree?"

Lu Yang smiled and said, "If he doesn't tolerate it, if he doesn't agree, then the millions of players that Dragon will stay here will be endlessly chased by Coley and Patho until they join the iron blood. Brotherhood or exit the game. "

Ji Shen Yi stared out star-like eyes and said, "Brother is so cool."

Lu Lu laughed and said, "Let's go."

The three of them changed into mounts and walked along the road. While on the road, he called Tu Feng's phone.

"I just met Marosa and he decided to join the Jagged Brotherhood." Lu Yang said.

Wu Tufeng was a bit surprised. He was responsible for collecting Marosa before, so he immediately knew who Lu Yang was talking about.

"Boss is terrific, such people can subdue." Tu Feng said.

Lu Yang smiled and said, "It's just telling him all the pros and cons, let him decide for himself, this person is not stupid, knowing that surrendering us is the best ending."

"What do I need to do?" Tu Feng asked.

Lu Yang said: "When there is news from Maroussa, I will let him contact you. It will be up to you to decide how many legions will be arranged. As for whether he can be the vice chairman, he will be required to recruit at least 30 More than one legion. "

“No problem, but what about Padu and Cory? After all, it was Cory who was destroyed by Maroussa and people, and this time Maroussa recruited mainly those who were ready to attack by Padal and Cory. Will it make them conflict?” Tu Feng asked.

Lu Yang laughed and said, “It’s best to have such emotions. I’m just waiting for them without them. The significance of finding Maroussa is to let them fight each other. No one on the two sides has the upper hand. After all, we have no ability to rule. Only Indian players can rule themselves, so no one can prevail on either side.”

In this way, Lu Yang will be easy to control, otherwise it will easily lead to a situation that is too big. With the increasing strength of Coley and Padua, Lu Yang will soon have the ability to get rid of Lu Yang. Lu Yang does not want to just kill Tianlong. Then came another Dragon.

With Maroussa, the two sides are already enemies. The two sides will never compromise with each other. They will fight each other, so that Lu Yang can be sure of nothing.

Xu Tufeng said: “Okay, I know how to do it. The boss will leave it to me to do it. If there is a problem, I will find you again.”

Lu Lu smiled and said, “You can help me more and more, yes.”

The meaning of stinging him is very obvious. Lu Yang, the wicked man, can’t do it, and it is easy for Padu and Corley to create a gulf against him. The best way is to let Tu Feng do it.

The name of Xun was Lu Yang’s encounter with Maroussa, who considered him a personal talent and took the initiative to associate, and Marosa was willing to climb Luyang.

But he took people into the Jagged Brotherhood. In the conflict with Cory and others, Tu Feng leaned towards Maroussa, and when Maroussa was strong, he preferred to Corly and others. Dissatisfied, you can find Lu Yang’s complaint, and Lu Yang re-centered and coordinated. This is the best way.

Lu Yang closed the interphone, and continued to take Han Yu and Shen Yiyi to the depths of the map. This time he was going to take them to the city of liberation.

Your blessed place has a good name, but it's actually surrounded by a place dedicated to imprisoning a race.

The demon knight family, originally a demigod race, the patriarch is a demigod monster destroyer knight.

The demonic knights can use psychic skills to summon the **** war tigers. They ride on the war tigers to conquer everywhere, and every where they go, they will slaughter without leaving alive.

In the most powerful force, the demon knight swept through a third of the map of the New World. For this reason, the demon knight was jointly surrounded by several races in the New World.

At the beginning, the Demon Knight used the advantage of fast movement speed to destroy all the units under joint siege.

But later, these races were not broken step by step, driving the demon knights to the blessed land. When the battle was finally ended here, 99% of the demon knights were killed, and only 1% of them were still alive in this land. on.

The major races originally wanted to destroy the demon knights, but due to the interests, the demon knights survived.

Then they recuperated in the land of blessings, and built this city of liberation. After hundreds of years of gestation, this race began to gradually recover.

When Lu Yang was on the road, he was bored to tell Han Yu and Shen Yiyi about the demon city. After half an hour, they came to the front of a huge black city.

The city walls on both sides are not magnificent and some are worn out. Some demonic knights have just been refreshed at the door. Many Indian players are playing monsters.

Demon Knight (Elite)

Level: 140

Qi and blood: 0000

The appearance of the demon knight is a red humanoid demon wrapped in armor, holding a meteor hammer, riding a black **** war tiger, each attack, throws out the popular hammer, causing no harm to Indian players Minor injuries.

“So handsome.” Shen Yiyi said.

The Indian players at the entrance of the gate immediately lifted their eyes and turned to Lu Yang’s direction. All three used camouflage coats and were ordinary people.

Dozens of Indian players at the gate looked at Lu Yang for a few moments, and then continued to fight monsters without seeing them again.

Lu Luyang said, “Let’s enter the city, don’t let them conflict.”

Han Yu and Shen Yiyi nodded.

The city gate is very large, more than 50 meters long. This is for their knights to charge. Indian players fight on one side. When Lu Yang walks by, the two sides do not conflict.

After entering the door, Lu Yang took Han Yu and Shen Yiyi along a path without people, and did not have too much intersection with those people.

“Brother, the players over there didn’t even think about attacking us.” Shen Yiyi has been paying attention to the surrounding situation.

Han Yu also looked around curiously and said, “It’s really strange, we are so well equipped, they shouldn’t even care?”

Lu Luyang said: "India players are like this, don't bother with them, very few people have that kind of thought."

Lu Yang's rank is high. He is also observing silently, no one is determined, and continues to lead them towards it.

Chapter 1128 - Rise of Ashura Guild

The three of them attacked monsters all the way and moved forward, and soon came to the level 150 monster area, which is the middle position of the outer city area where the demon knight is located.

There are tall houses everywhere. They are the residence of the demon knights. Their houses are similar to European medieval architecture. They are made of bright black obsidian and look very beautiful.

In the central part of the city, there is a fountain. Behind the fountain is a government hall. A group of demon knights are standing there. They are not riding **** and fighting tigers, but everyone's body is riding a fighting tiger. Demon Knight is as tall.

Big Demon Knight Elite Guardian (boss)

Level: 150

Qi and blood: 00000

Lu Yang said to Han Yu, "You two stay here. From this map onwards, there are a lot of elite guards. Killing them has a great chance to drop the spirit beast. I will call a group of players over. Follow you and experience to upgrade."

"Brother be assured." Han Yu said.

Both of them have top-level summoning beasts, and they both have a level 9 **** heart. It is not difficult to fight monsters.

Lu Luyang left two people and flew back to the city of thunder using the scroll. She sent a message to Mu Yu: "Sister, fly to the city of thunder, I'll wait for you at the gate of Dongcheng District."

"Oh." Mu Yu replied.

When Lu Yang came to the gate of the city, Mu Yu's little girl ran over and saw Lu Yang screaming, "Brother, I'm here."

Lu Luyang smiled. Every time he saw Mu Yu's lively appearance, he expressed his inner joy, saying, "Let's find a place to hide and change our clothes."

He, the chairman of the Jagged Brothers Alliance, has been standing here for a long time. Fortunately, Indian players dare not provoke Lu Yang, and no one came forward to challenge him.

When Lu Yang was about to leave, suddenly, a player walked in front of Lu Yang and blocked the way. Lu Yang wanted to take the initiative to avoid and wanted to go left, but the other party blocked the way again.

Lu Yang looked at the other person. He found that this man had a poker face, without a smile on his somber expression, and asked, "Are you doing anything?"

"Are you President Lu Yang?" Poker asked.

Lu Luyang said, "It's me, what's the matter?"

Poker said, "I have something to tell you, can you add a friend?"

Lu Yang was a little surprised. An ordinary player in India who wanted to add his friends was either bold or really had something, which made him interested, and said with a smile, "Of course, I can add you."

He clicked to add a friend, an option frame appeared in front of him, and Lu Yang chose the poker face in front of him.

System prompt: You have sent a friend request

Poker's face was a bit surprised, and he chose to accept, saying, "I can't think of President Lu Yang talking so well, it scared me."

Lu Lu asked with a smile: "What's the matter."

Poker did not speak, but typed and said, "Chairman Lu Yang, there is an Indian guild that wants to call us to resist you internally in the name of the country."

Lu Yang frowned, and also sent a message in reply: "Which guild?"

The name of the poker face is icy iron armor, saying: "It is the Indian Association-Ashura, located in the central part of the New World."

Lu Lu asked: "They are so far from here, why did they come here?"

Icy Iron Armor said: "President Lu Yang, you still do n't know, now that you and Liu Jie next to you have become the public enemies of the New World, the major guilds have reached an agreement in private and are ready to unite and destroy you two. Each. "

Lu Yang laughed. He felt this was a bit interesting and asked: "How do you know, who are you and why do you tell me this?"

Icy Iron Armor said: "This is not a place to talk. Can I go to a safe place, I will tell you in detail."

Lu Luyang said, "Of course you can, follow me."

He brought the cold iron armor and Mu Yu to the purple dream song in the city. He randomly found a quiet room. After sitting down, he asked, "Can we talk now?"

The cold iron armor nodded and said, "That's what happened. Just three days ago, the president of the Ashura Guild and 16 vice-chairmen sneaked into the city of thunder, and started lobbying for the small guilds here, hoping to defeat you. , Re-establishing an Indian-dominated guild, I have a video here. "

Lu Yang's e-mail clanged, and the video of the cold iron armor had been transmitted. It was the president of the Ashura Guild and more than 10 vice-chairmen, as well as a dozen other presidents of the guild. Asura's president impassionedly published the idea of overthrowing the Jagged Brotherhood and establishing a new guild.

他们 "They want to build a super guild formed by dozens of guild leaders?" Lu Yang's face showed a hint of irony.

"You also see that this is an unrealistic thing, right." Icy Iron Armor said with a mockery.

Lu Yang laughed, he somewhat understood the purpose of the cold iron armor to find him, and asked: "What do you think."

Icy Cold Iron Armor said: "To be honest, I don't like you, because you are a Huaxia person, and you have defeated our strongest guild in India, and let us sweep the dignity of the world.

But on the other hand, we thank you, because you helped us to kill the **** guild of Tianlong, and let those garbage of the high caste know that if we ignore us, there is never a chance of success. "

Lu Yang nodded He can understand the meaning of icy iron armor. At this stage, most Indian players have this attitude towards him.

Icy Cold Armor's expression became a little excited, saying, "But we are not fools. Those **** of the high caste think that they have run away a dragon, they can replace it?"

United our little guilds to fight against the Jagged Brothers Alliance, even Tianlong can't win, how can we win?

Even if we can attack one or two of your main cities while you are at war with other guilds, when you take it slow, aren't we the unlucky ones? "

Lu Yang said: "You are right. With your strength, it is not enough to shake the Jagged Brotherhood. Even if you have millions of people, your equipment, professional mix, and battlefield command are not enough to support you and me. As long as I release the arrogant wolf guard, it will be enough for you to suffer. "

The icy iron armor shook his head and said, "Even if we have equipment, we will defeat you in the future. The Ashura Guild came in. The original promise was nothing more than a piece of paper. He directly defeated our union guild. Will a dragon come? "

Lu Lu applauded and said, "You see clearly."

The cold iron armor said with a ridicule: "It is only self-knowledge, so this time I came to President Lu Yang, I just want to tell you, help, and get rid of this group of people's ideas in advance, otherwise we are still injured Low caste players. "

Lu Yang thought for a while and said, "This is not easy to do."

Chapter 1129 - Eliminate internal problems

of the Resurrection's Raging Fire Law, except for internal troubles. According to Lu Yang's idea, it is enough to end them directly. A strong attack will break up their guild, and naturally will not This problem appears again.

But now the cold iron armor came to him, Lu Yang naturally could not use this method, but in other methods, the best is Huairou.

Lu Yang shook his head and asked, "Do you have any good ideas?"

“I don’t know what to do before I come to you.”

Lu Yang said, “So, tell me who are the guild presidents who want to fight with us. How about I let people chase them down to make a difference? It’s better than letting most players follow. Be better.”

“I think that’s a good idea. I can give you a name.”

After speaking, he told Lu Yang about the names of more than 10 presidents.

Lu Yang said, “You go back first, and when I hear from you, I will find someone to handle this.”

Icy Iron Armor stood up and said, “Come to President Lu Yang. We just want to play the game safely and make money. Everything else has nothing to do with us. I hope you will be merciful and not hurt other Indian players.”

Lu Yang said, “Rest assured, I’m not a murderer.”

The icy iron armor bowed slightly to Landing Yang and took out the teleporting scroll to leave.

Mu Yu said, “Brother, what are you going to do?”

Lu Yang said with a smile: “Let’s get out of town first.”

He took out his camouflage coat and became an ordinary Indian player. Mu Yu also became an Indian girl, but his face was covered with a veil.

Leaving the hotel, the two changed their mounts and ran out of the city. While on the road, Lu Yang took out a phone call to Tu Feng, and said the guilds that the cold iron armor wanted to rebel with the Asura Guild. Over again.

“Let me check these dozens of guilds, and first confirm that what the cold iron armor said is true. Don’t try to kill someone with a knife. If it is true, hunt down the presidents of these guilds.” Lu Yang said.

“Okay.” Tu Feng hung up the phone and immediately sent undercover agents.

There are currently only 100 Indian players employed by Tu Feng. Their responsibility is to search for information inside India, and they mainly rely on informants.

Tu Feng asked them to check the dozens of Indian guilds. When they searched, Lu Yang had brought Mu Yu to fight all the way to the foot of Tianlei Mountain.

Here is a 140-level map. At the entrance of the mountain, a 30-meter-high white-haired giant is holding a huge lightning hammer and blocked in the middle of the road.

Thunder Slave Owner

Level: 140

Qi and blood: 60000000000/60000000000

“It looks amazing.” Mu Yu said.

Lu Yang laughed and said, “I blame it. Let’s kill him.”

Both of them have the ability to fight the lord monster, and the Thunder Slave Master is now looking at scary people, a total of six skills, of which five are melee, the only long-range attack is flying out of the hammer.

Lu Yang flickered and escaped the dagger. He was not afraid. He raised his hand and hit a thunderous slave with a burning heart flame.

“Human, I am going to kill you.” The Thunder Slave Lord roared, striding towards the landing sun and chasing after him.

“Blazing Blaze”

“Flame Path”

After launching two skills, Lu Yang turned and ran. At the gate of the valley, there was a large platform enough for Lu Yang to run in a circle.

Mu Yu releases his skills in the back. His Wrath of Thunder God is the same as Lu Yang’s Blazing Heart Flame. The two of them joined together, and after less than 10 minutes of playing, the lord fell to the ground.

A glittering purple-blue sphere fell to the ground.

Thunder Orb

Description: Can raise the heart of Thor

Lu Yang picked it up and handed it to Mu Yu, saying, “Go upgrade.”

Mu Yu returned to the Thunder God Temple, and when he returned, the heart of Thunder God reached level 7.

“Brother, I learned a skill called Tian Lei Luo. After launching the skill, all enemies within 100 meters of me will be injured by mines with the same intelligence as my intelligence, very strong.” Mu Yu bouncing Said.

Lu Yang laughed and said, “It’s not bad. This lightning skill is the same as my fire sword, but you are more powerful.”

“Will I be able to help the leader alone, and my brother will not have to work so hard in the future.” Mu Yumengmen asked.

Lu Yang’s heart was soft. Of all her brothers and sisters, Mu Yu and Han Ying were the most intimate, rubbing her little head and saying, “Of course, you can help your brother more in the future. “

Of all the artifacts, Lu Yang only knows how to upgrade the artifacts of the heart, and he does not know where to upgrade the totem artifacts and godlike artifacts after level 6.

After all, time has passed too long, and in addition to the heart of the demon, other artifacts of the heart are also found in his usual research, but totem artifacts and godlike artifacts, too far away from him, he did not pay attention.

And there are only 21 artifacts in his hand. He can only rely on these 21 people to leap at the present level to blast the falling beast, and as for how much he can explode, he has no idea.

Mu Yu knew that Lu Yang was in a hurry to upgrade his players. He also wanted to share the burden for Lu Yang. He patted his small breast and said, “Brother, let’s go on, look at me.”

Lu Yang laughed, took Mu Yu to Tianlei Mountain, climbed the winding mountain path, and came to a cliff position.

System prompt: you found the opposite cliff

This cliff is about 150 meters away from the opposite cliff, Lu Yang said, “Jump from here.”

Mu Yu also has a level 10 escape dagger and a long-distance flashing gem. Both of them flash into the air at the same time, then launch the escape dagger and jump to the opposite side.

Just after landing, Tu Feng called and said, “Boss, I’m sure, the cold soldiers didn’t lie to you. These dozens of guild presidents do have the idea of uniting Ashura to attack us, and the launch time is near term.”

Lu Yang said: "Then you're welcome, chase down their chairman."

"Yes," Tu Feng said.

...

Thunder City, 130 dark moon marshes outside the city.

Hundreds of players are scattered in this area to fight monsters and upgrade, but these people are not fighting alone, but a whole guild.

They are all very well equipped, and it looks like a well-developed guild is working together.

The mage standing in the middle of them was loudly directing the players around to coordinate the battle. This man was called Disha.

"Strike that boss hard, attack with all your strength, he's going to die soon."

"Attack Do mobs on both sides, don't let them gather together."

...

Five minutes later, the boss was killed and Desha proudly walked to the boss' body and picked up the equipment on the ground.

"Yes, we got another gold class, let's continue." Disha exclaimed.

"Hey, boss, how long do we have to play here, I can't wait to attack the Brotherhood of Iron Blood." A player beside Desha who looked like the head of the army said charmingly.

Disha said: "I'm in a hurry too, but Ashura they just reached an alliance, it will take some time to attack."

At this time, among the thieves of light and darkness, looking up at the dim light, suddenly showing his figure from the light, he stood beside Disha's side, and smiled and said to the frightened Disha: "So anxious, I will send you a Process. "

The cold light flashed, the dagger passed through Di Sha's neck, and the thief with 130-level dark gold-level equipment. When he hit three times the critical strike and ignored the defense, the mage would die.

Chapter 1130 - Calming Indian players

"Someone is attacking, everyone is careful." The vice chairman yelled, but before his voice fell, three thieves appeared behind him, and three daggers crossed his neck almost at the same time.

Vice president dies!

"Kill them, boss's equipment." I don't know who shouted, a group of people rushed over, but before they ran to look up in the dim light, hundreds of 130 thieves wearing dark gold equipment showed their figures. A sentry tower appeared not far away, with nearly a hundred lights on, and Rose Rain rushed with the Forbidden Mage.

"It's the Iron Brotherhood."

"It's their spell-casting mage."

"How could it be the Iron Brotherhood."

Uh ...

"Everyone defend, beware of the enemy's sneak attack." A leader shouted, the stunned players reacted and gathered together.

Luo Luosi asked coldly, "Is it these people?"

I looked up at the shimmer and nodded. He smiled and looked at the leader and the hundreds of players behind him, saying, "Don't panic, I'm not here to kill you."

The head of the regimen was panicked and didn't know what to do. He knew Luo Siyu in front of him. When Lu Yang and Tianlong battled, the beautiful Luo Siyu took more than 10,000 forbidden spells to attack Indian players. He was unforgettable. .

At that time, these friends who were together, he also said that it would be nice to be able to marry a wife like Luo Siyu, but now that I really met, Luo Siyu rushed over with the forbidden mage, which made him completely Overwhelmed.

"What the **** do you mean, why kill our chairman and vice chairman?" The head asked.

Looking up to Weiguang said: "According to reliable information, your chairman and vice chairman want to join us in the Asura Association of India in the central part of the New World to attack us, so from now on, the Brotherhood of Iron and Blood will hunt your president and Vice president.

And you, from now on, I will give each of you one day to withdraw from this guild, and you will also convey the news to your guild. From tomorrow on, if I meet you again, I am still in this guild and will enter Hunting List of the Jagged Brotherhood. "

The leader of the puppet and the hundreds of players behind him were stunned. They were just a bunch of ordinary players. They were thinking about upgrading the game. When did they ever want to fight with the Jagged Brothers Alliance?

"Don't you lie to us, why did they do this?" The head asked in disbelief.

Looking up at Weiguang said: "If there is no evidence, what the Brotherhood of Iron and Blood will do to kill you guilds. Well, that's all for you. You decide that the oldest three and seven will stay, and the rest will follow me to kill other guilds. "

“Yes.” Everyone nodded.

The light flashed, and the group changed their mounts, ran into the forest, and continued to chase after the next guild leader.

On the other side, not only is it looking at the glimmer and Luo Siyu are hunting down, Coley, Padu, Dalvi, Baqiang and Kapu are also hunting down with the newly formed guild players.

Lu Luyang gave them money and property, and they had many special occupations, and soon returned to their previous peak.

A total of five people, divided into five teams to hunt down in India’s main cities. At one time, the entire Indian region was caught in a panic. Many people thought that the Brotherhood of Iron Blood wanted to wash Indian players in blood and plunder their money.

In order to eliminate the panic of ordinary players, Tu Tufeng deliberately clarified the matter on the World Channel and official forums, which gradually stabilized the mood of Indian players.

From the morning to the night, the dozens of presidents’ guilds were all destroyed. A large number of players quit the guilds. They did not even have a place to hide.

She hid in Luyang’s main city and was hunted down in the city. She hid in the village. Luyang’s men would choose to slaughter the village. They eventually returned to the old continent and went offline to rest.

The other side.

Asura quickly learned the news. A dozen vice presidents and the president were sitting together chatting.

“It’s finished, our plan failed.”

“Damn, I didn’t expect such a detailed plan we had made, but it would be discovered by the enemy.”

“What now?” A vice chairman asked.

“There is no way, or according to the previous agreement, we will join the other guilds to attack the guild of the Jagged Brotherhood and Liu Jie, we must first remove these two Chinese people.” The chairman said. The chairman said.

“It’s better to do this, although this time they did not do what they should do, but we can create some rumors on the Indian official website and discredit them.”

“Yes, this is a good idea, as long as it provokes the anger of ordinary players, it is very good for us.”

Uh ...

Soon, news on the Indian official website appeared that the Brotherhood of Iron and Blood was desperately oppressing Indian players and robbing Indian players of assets. For a while, Indian players who did not know the truth began to produce angry emotions.

I did n’t wait for them to produce a few more minutes, and Padua, Kohli, Karp, Dalvi, Baqiang and others have rumors on the Indian official website and told the original story.

“The vast number of Indian brothers and sisters We can no longer be used by those unscrupulous high castes. We have our own thoughts and our own ideas. Asura does this because he wants to occupy The main city of India in the northeast region, but if you think about it, if Asura is occupied, what is the difference between him and Tianlong, what will our lives look like? “

Darvi’s words on the official website, won the praise of the majority of ordinary players in India, a situation that might have caused riots to hundreds of millions of Indian players, so simply resolved.

Tu Feng lamented: “Boss, the money you gave to Davy is really for nothing.”

Lu Yanggang helped Mu Yu reach the level 9 material of Thunder God's Heart. While Mu Yu returned to the Temple of Thunder to upgrade the equipment, he said, "The people of the Ashura Guild want to play this set with me. They are still a little tender. Indian players have subsided. We don't need to pay attention. Now what we should pay attention to is the overall dynamics of the New World. How can I feel wrong? "

Tu Feng said: "Our spies in the New World have just released less than three months and have achieved very little, but generally have a superficial understanding. Now all the guilds in the New World have feared us and Liu Jie. We are discussing the unity. It is estimated that the super guilds in Germany, France, Saudi Arabia, North Africa and Spain, which are closer to us and Liu Jie, will wage war against us and Liu Jie. "

Lu Luyang said: "It looks like we need to do some more preparations. It's unclear what special professions these guilds have. Don't be attacked by the enemy."

Xi Tufeng said, "Okay."

Chapter 1131 - Lightning tower

Lu Yang closed the intercom and continued to take Mu Yu to the depths of the map, but his expression frowned unnaturally as he walked.

"Brother, is there something wrong?" Mu Yu asked.

Lu Yang said, "Fortunately, we are occupying the Northeast region too fast, which has caused the major consorts in the New World to have deep jealousies against us and want to fight us together."

Mu Yu was a little surprised and said, "Are all the guilds in the New World?"

Lu Yang first nodded, then shook his head and said, "Not all, but now the major forces have reached an armistice agreement. They will not engage in internal fighting until they defeat Liu Jie and me, but even if they are willing to come, they can finally participate. Only a dozen guilds that are closer to us are attacking, and the others will not come. "

Mu Yu felt distressed at Lu Yang and said, "Brother, can I help you?"

Lu Yang smiled and said, "Don't worry, as long as we hold the tiger mouth and the sky sword fortress, there will be no problems, and this time you can help a lot."

Mu Yu's eyes brightened and he asked, "What to do."

Lu Yang said, "It's only after the thunder heart reaches level nine. Let's go. Let's kill the last lord and get the material of thunder heart level nine."

"Oh." Mu Yu was full of motivation.

To be honest, Lu Yang's heart is actually very worried. There are too many players from various countries coming to attack this time. No one can guarantee how many people have the enemy's air force and how many teleportation scepters.

Once an enemy flying player flies past the canyon or the sky sword fortress across the gorge, build a sentry tower near any village in the city, and teleport in with a large number of players, then he will be out of luck.

Lu Yang has to guard against this problem, but this problem cannot be defended, especially when the enemy sneaks in the middle of the night, Lu Yang can mobilize the player to defend for a period of time, but can not let the player defend for a month.

But he doesn't have a very good solution now, the only thing he can do is to strengthen the defense of the tiger mouth and the sky sword fortress.

Level 9 Thor's Heart is one of the best defenses. When he reaches level 9, he will have the ability to build magic formations.

The two chatted while walking up and walking up. Two hours later, they saw a level 180 semi-god.

Thunder Flash (Demigod)

Level 180

Qi and blood 100000000000/100000000000

The appearance of the Thunder Flash body is a huge magic symbol with a height of 10 meters, which means thunder and lightning. According to the official introduction, they are the closest magic elements to Thor, and one of them was favored by Thor and grew into a Thunder Flash.

Mu Yu watched the flash of thunder floating at a distance of 1 meter from the ground, and opened his mouth and said, "Brother, it looks so hard. So much blood is still thunder."

Lu Yang smiled and said, "It's easy to hit. Don't be afraid of him after eating this."

He took out the special magic exemption that Jin does not exchange for refining. This kind of magic immune potion can last up to 30 minutes. He made 6 bottles without Jin changing, showing his rarity.

"Even this kind of thing can be made." Mu Yu said in surprise.

Lu Yang said, "All the top professionals in the game are on our side, so it is not so difficult to play."

A top pharmacist with the ability to mutate is the best way to solve all high-level bosses, especially the bosses who only know the Thunder Master.

"Hit it." Lu Yang drank the potion, and raised his hand to hit the lord with a burning flame. Mu Yu drank the potion immediately and struck up with Lu Yang.

In the case of immune spells, in less than 20 minutes, the lightning flash was killed on the ground, and the upgrade material of the thunder heart was dropped.

Mu Yu returned to the Thunder Temple with the materials to upgrade. When she returned, she said to Lu Yang, "Brother, I have an additional magic skills. I don't know what to use."

Thunder Team

Describes setting a Thunder Array on the target, which can increase the power of Thunder spells by 30 places.

Lu Yang saw the introduction of the skills sent by Mu Yu and said with a smile, "I want this skill. I will take you to a place."

He took out the telegraph scepter and took Mu Yu to fly to the location of the Consortium of Realms and met Prince of Realms.

"Oh? I feel the power of Thor's heart in you." Prince Wanjie looked at Mu Yu in surprise.

Mu Yu's eyes brightened and he said, "Yes."

Obviously, this is a hidden task.

Prince Wanjie said excitedly, "Great, I finally found you. I once saw Thor's deity. Before he was dying, I promised him that if someone in the future would raise Thor's heart to level 9 or higher, he would I'll give him a helping hand, you say, what do you want? "

Mu Yu looked to Lu Yang.

"Ask him for a drawing of a lightning lightning tower." Lu Yang said.

Prince Wanjie ignored Lu Yang at all and only looked at Mu Yu.

Mu Yu had to repeat Lu Yang's words.

"Although I shouldn't give you this thing, but since you want it, I can only promise you." Prince Wanjie handed a drawing to Mu Yu.

Blueprint Lightning Defense Tower (Dark Gold)

Level 200

Distance 500

Damage 5000000-5000000

This is the best blueprint in the hands of Prince Wanjie. Higher-level blueprints are not sold here, but this one is enough for Lu Yang to keep the tiger mouth and the sky sword fortress.

Lu Yang returned to Tianjian Fortress with Mu Yu and the drawings, handed the drawings to Mu Yi, and said, "You study by yourself, then follow me to the top of the Tianjian Fortress to arm."

"Yes," Mu Yi said.

This drawing can be made by learning forging.

The three came to the city head of the Tianjian Fortress. Lu Yang pointed at the empty platform in front of the central gate of the city wall and said, "Every 2 meters, build one."

Mu Yi looked at the wall of 500 meters in length, scratched his head and said, "Many, a lot."

Lu Yang leaned next to the gate of the city and lay down leisurely and said, "I'm done, I'll see you next."

Mu Yi has a black line in his forehead and can only start to arrange the lightning lightning tower according to Lu Yang's requirements. The manufacturing method of the lightning tower is very simple. Although the items used are made of rare red crystal steel ingots, the Iron Brotherhood never lacks this material.

It takes about 10 minutes for Mu Yi to make a lightning tower. The shape of the tower is like a spiraling Tesla coil with a height of 5 meters. There is a round head with a diameter of half a meter on the top of the coil. This is where the lightning is emitted. .

"The power actually has 5 million injuries, which is too strong." Mu Yi made one and said with emotion.

Lu Yang smiled and said, "What is it, girl, put a magic array."

"Okay." Mu Yu said in a spell, a magic formation appeared under the lightning tower, the formation was a five-pointed star, and five people could stand.

Chapter 1132 - Joy game

Lu Yang said: "There are five people standing here, passing lightning spells to the lightning tower at the same time, as long as the magic value is maintained, the lightning tower can increase 0 magic damage."

"So strong." Mu Yi said.

Mu Yu raised her face and said proudly, "I'm terrific."

Lu Yang smiled and said to them, "Well, now you two are serious about doing this, I'll go to Tianyuan God City to find the **** to negotiate."

Tianyuan God City, the only unified main city in the New World before level 160, is currently gathering all the guilds in the New World that have the main city.

Lu Yang walked into the lobby of the Angel Kiss Hotel, and led by the waiter to the private room No. 01. It was exactly a dozen guild leaders who sat in the room.

"It's quite homogeneous." Lu Yang sneered.

The dozens of people who came here were six German guild presidents such as One Step, Steiger of Germany, 4 guild presidents such as Renault of France, and several small guild presidents.

"If we don't come again, aren't we going to be killed by you." One step Dengtian said sharply.

Lu Yang smiled, walked to his seat, and sat down leisurely, saying, "What does this say, when did I say that I would destroy you?"

Steiger is a young man of about 0 years old. He is tall and straight. Even when he is sitting, he feels like a hero. He said to Lu Yang, "Sir Lu Yang, your success has caused us fear."

Lu Yang said: "I have no way to let Tianlong swallow me up."

"It has nothing to do with us," Renault said. "We are only concerned about ourselves. We hope you don't cross the border."

Lu Yang spread his hands and asked, "Where is the boundary?"

Stepped up to the sky and said, "You are not allowed out of the Tiger Fortress."

Lu Yang smiled and said, "You mean you can only hit me, you can't come out and hit you, right?"

"We won't attack you," said Steiger. "We don't need to ask for trouble on a map as large as the New World."

Renault said: "You take care of you, we take care of our own, we don't delay each other."

Lu Yang sneered, stood up and overturned the table, and said, "Well, who are you, who are you? Are you qualified to say these things to me, just because of you rotten garlic and want to restrict me? Believe me or not today Come out and kill one of you. "

One step Dengtian and Renault and others had blue and red on their faces, and each stood up and stared at Luyang, one step Dengtian and gritted his teeth and cursed, "Then you don't blame us, you are welcome, we will unite and kill you and Liu Jay. "

Lu Yang snorted and said, "Think about how to protect yourself."

He turned and left the room. Today he is here on a routine basis. The New World must set off a **** battle. He is in the Northeast region and will definitely participate in this **** battle.

Since he had the opportunity to unify the New World, why didn't he go to unify. If he waits for the strength of others to let others unify, wouldn't he be unlucky?

System Tip: Arena Happy Players has been opened, please players to experience

Lu Yang raised his eyebrows and was a bit surprised when he heard this system prompt. He muttered to himself: "Happy gameplay? Isn't this a gameplay that was only introduced in the third year of the last life? How come?"

Happy gameplay. This is the most interesting experience player in the game. Players can choose any profession to enter the arena to fight monsters, and get rewards according to the number of monsters.

The chosen profession has no blood bottle, blue bottle, nor collision. All depends on the strength and luck of the player. Whoever has good luck and who has strong strength can persist for longer, and who gets better equipment .

Lu Yang I liked this gameplay very much. This can greatly reflect the player's personal level and can also get a lot of good things.

Among them, the spirit beast dew is the main output item, which can be released one year in advance. Lu Yang guessed that it may be that the summoning beast is not popular enough yet, and the official feels that the money is too little.

This time Lu Yang guessed right, the spirit beast has been released for so long, but the player's enthusiasm for calling the beast is very low. On the one hand, the good beast is not available, and on the other hand, the spirit beast is too little. Beasts, seeing qualifications is not enough, there is no Spirit Beast Lotion available to wash.

Therefore, the official has increased the production of spirit beasts through two aspects. The first is to dig treasure maps to get more beasts, and the other is to increase the player's performance through various official mini game tasks. enthusiasm.

Once the spirit beasts are washed out, the official making money officially begins. First, the spirit beasts have 16 skills, but each spirit beast has a maximum of 6 skills, usually only one to four, and can have 6 All of them are Need summoners.

Some of these skills are magical, some are aggressive, some are healing, and some are defensive.

However, each type of summoned beast carries only one type of skill, and each type has dozens of skills. To increase the attack power of the summoned beast, you need to have more skills, and you want to have more skills. , You need to play a book for the summoned beast.

In addition, the qualification and growth of the summoned beast are particularly good. The skills that can be carried are not helpful to the attack, which also requires writing.

Another is a summoning beast with special skills. To make them stronger, you also need to play books, and you need to buy a summoning beast skill book. Now there are places to buy on the official channel, usually a skill book. The prices range from 100 to 00 credit points.

It is foreseeable that through this item alone, the official can earn more than 500 billion credit points. This is only a preliminary estimate. When it is time to make money, it may earn more. After all, this is a population with more than 0 billion people. game.

Tianyuan God City, the southern arena.

“This game is great, I like it.”

“Hey, just a blue tube, I’ll try again, I feel I can hit the level.”

...

There are already a lot of people in the arena all come to experience the new game, everyone who has played, like this.

Lu Yang found a machine, which is like a large game machine. Lu Yang chose to try the game and spent 1 copper coin to buy a water mage profession. The light flashed and Lu Yang was teleported to an ancient castle at night. among.

System prompt: player Lu Yang enters the castle, the game starts in seconds

2

1

Start

From around the dark castle, a lot of chicks were brushed out.

Lu Yang had a black line on his forehead. In the previous life, he vowed about this setting. How could there be a group of chicks in such a hidden and horrible environment.

Chapter 1133 - Lu Yang's Grievances

Lu Yang's mouth spelled out.

“Water brake”

Balls of water polo were released from his hands, hitting the chicks that were approaching in front of him.

System prompt: you killed a chick

System prompt: you killed a chick

...

Killed 5 in a row. When the 6th chick died, a dagger fell on the ground.

This is a setting of the game. Monsters will drop items, and players will randomly match the dropped items to attack monsters.

He picked up the dagger, stopped releasing magic, and fought with the chicks close together. The chicks had less blood and could kill one with just two swords.

Killed 20 in a row, the light flashed.

The system prompts: You have raised a level.

Lu Yang picked up a magic cloth that fell from the ground, put it on his body, and continued to fight.

There are a total of 100 chicks, how much equipment can play the full screen player luck, Lu Yang killed 20 and got two pieces of equipment, which is considered bad luck.

When he killed 50, a bunch of small magic healing potions and a skill book dropped on the ground.

Lu Yang picked it up and looked excited with an expression on his face.

Water Dragon Wave

Type: Water

Distance: 0 yards

Cost: 100 magic

Description: Deals a lot of spell damage to all targets within 0 yards.

Lu Yang ran into the right angle of the wall on the left side of the castle. Everyone has different understanding of the game, but they can find the most suitable way to open the game level.

The way Lu Yang found was relatively simple. He hid in the corner and surrounded the chicks. He didn't kill the chicks. When the time came, when the second wave of monsters came, let the chickens grab the monsters. it is good.

"Oh ~"

The remaining 50 chicks swarmed Lu Yang around the corner, but only 5 chicks could attack Lu Yang, but only these 5 chicks made Lu Yang uncomfortable, and each chick attacked The power is 6 points, his magic short coat armor is 4 points, his own defense power is 1 point, each time he is attacked, he will drop 1 point of blood, 5 points is 5 points of blood.

Lu Yang's own health is 60 points, and the blood bottle in his backpack only has 2 bundles. He needs to hold these chicks for 0 seconds.

It is also considered Lu Yang's good luck. If he does not get a magic cloth, Lu Yang will not be able to do so. Now it depends on the waiting time.

0 seconds

20 seconds

10 seconds

...

0 seconds

System prompt: The second wave of monsters starts to attack

The light flashed, and a large number of horned deer were brushed out of the castle. After they appeared, they gathered toward the location of the landing sun, but they could not break through the 50 chicks in front of them, and they could only passively stand behind the fifth row of chicks. Not long after, 100 were gathered.

“Water Dragon Wave”

Lu Yang’s mouth read a spell, and his right hand pointed at the center of the deer herd. A giant water dragon with a diameter of 0 yards suddenly got out of the ground, and a lot of water bombs hit the deer.

“-86”

“-72”

“-81”

...

The horned deer has only 80 points of blood. In this attack, more than 60 deer were hit and killed more than 40.

Lu Yang flashed a golden light.

System prompt: You have raised a level

Lu Yang breathed a sigh of relief and was promoted to level. His defense increased by 1 and his blood increased by 10. The chicken beat him no longer bleeding, and he didn't need to eat the blood bottle anymore.

The horned deer burst out with a flashing skill book and several accessories. Lu Yang was not in a hurry and continued to wait in place. After 5 minutes of persistence, he brushed out a third wave of monsters.

“Crunchy ~!”

100 scarecrows came behind the horned deer herd.

Lu Yang waited for them to gather and chanted in his mouth.

“Water Dragon Wave”

After a ray of light, 60 scarecrows were left with blood, and after another ray of light, 60 scarecrows died.

Lu Yang was released twice more, and the remaining 40 scarecrows were also killed, leaving only 40 deer and 50 chicks, as well as a large amount of copper coins and several pieces of equipment.

The scarecrow will drop copper coins, and the role of copper coins is to buy things. In the castle, there is a duke, where he can spend money to buy mercenaries, skills books and some powerful equipment, or special items, such as escape daggers.

“Water Dragon Wave”

Lu Yang threw his skills among the chicks and deer on the left and killed dozens of chicks and horned deer. He ran out of the corner and picked up 10,000 coins and 2 spells +1 along the way. Ring.

The chicks and herds behind them followed closely.

Lu Yang is not in a hurry. It takes 5 minutes to brush the monsters. He just waited for the monsters. It took only minutes to play the monsters. He still has 2 minutes.

After running out of the castle with the strange group, Lu Yang ran around the square for a small circle, and quickly ran back to the corner. He didn't look at the ground objects, as long as they were dropped, they were picked up.

By the time the chicks and deer herds came back, Lu Yang had already picked it up and looked at the copper coins. There were 20,000, which surprised Lu Yang. If 20,000, he could do a lot of things.

System prompt: The fourth wave of monsters starts to attack

Lu Yang opened his backpack and learned the skill book flashes and water. The fourth wave of monsters is a level 4 skeleton monster with an attack power of 15. He didn't wait for the monster to approach.

“flicker”

A flash of light flashed, and Lu Yang jumped out of the mob's encirclement. He quickly ran towards the castle, went up to the third floor, and found the Duke of the castle in the hall near the fireplace.

“Friend, can I help you? I have a lot of things to sell here,” Duke Iris greeted gracefully.

Lu Yang said, “Open the purchase.”

An inventory appeared in front of him. There were hundreds of things in it. He didn’t watch the others. He directly clicked on the mercenary item and chose to hire an archer.

“Twenty thousand coins, thank you,” said Duke Iris, smiling.

Lu Yang delivered 20,000 copper coins, the light flashed, and a beautiful archer appeared next to him, holding a curved bow.

Archer

Level: 0

Qi and blood: 100/100

Attack: 50—50

Defense: 10—10

Special Skill: Slow Arrow

This is a mercenary who can give him a weapon. There is no time limit. Daguai can raise the level. He does not share Lu Yang’s experience. He is the best Daguai partner.

“唧唧”

The chicken walked up the stairs. Lu Yang stood at the door and waited for the chicken to surround him. Using this method, although it may be a bit trickier, the equipment of this game has durability. If the durability is consumed, , The equipment will disappear.

Lu Yang used this method to fight monsters. He persisted until the 10th wave, and the equipment on his body would be broken by the chickens. Therefore, he could get 20,000 bronze coins in the third wave in exchange for an archer. Good promotion.

“Water Dragon Wave”

The light flashed, Lu Yang fired his skills, all 50 chicks around him were killed, a burst of golden light lit up, the archer upgraded to a level, became level 2, and his attack power rose to 60 points.

“Water Dragon Wave”

Another burst of light flashed, 40 deer were all resolved, the light flashed, the archer was upgraded to the level, and the attack power became 70 points.

Lu Yang looked at the objects on the ground, and to his delight, two bottles of deer blood and root antler burst out.

He took these two things to Aris in surprise and said, “I want to sell these things.”

“Deer blood and antler, friend, you met the right person, I will give you a good price.” Iris handed Lu Yang 50,000 copper coins.

Lu Yang shook his fist vigorously, and he was lucky enough to give him so much money. He said, “I want to exchange for an archer.”

“No problem,” Iris said.

The light flashed, and an additional archer came out of Lu Yang. He named the archer No. 2 and the former was No. 1. The second archer had the same level as the first archer. The creatures summoned this time are of the same level as the creatures summoned before.

System prompt: The fifth wave of strange attacks begins

Lu Yang brought the two archers to the doorway below, and saw that the monster was a skull monster. The 5th-level small skeleton moved slowly and held a bone stick in his hand.

Skeleton Monster

Level: 5

Qi and blood: 100/100

Attack: 20—20

Defense:-

Lu Yang didn't need to use magic, and said to the two archers around him, "It's up to you."

Archers No. 1 and No. 2 opened their bows at the same time, both attacking at 90 points. At a rate of 1 shot per second, the two arrows killed a skeleton monster. Before the skeleton monster rushed to a distance of 0 meters, they were all destroyed. Killed.

The light flashed, and Lu Yang and the two archers rose to level 4 at the same time. Lu Yang looked on the ground and found a skill book summoning water.

Summon Water Elemental

Type: Water

Distance: Close

Cost: 50 magic

Description: Summons an element of water. Attack power and health are affected by intelligence.

Lu Yang chose to study, and read the mantra in his mouth. A water element as high as him appeared next to him.

Water element

Level: 4

Qi and blood: 200/200

Attack: 50—50

Defense: 20—20

Lu Yang's magic damage is now 5 points, which means 1 mana, which is equal to 10 attack power, 40 health, and 4 defense.

In this game, the player's attribute points cannot be increased by themselves, but there are skill books for increasing attribute points in the game. Each price is 1,000 copper coins, and 1 attribute is added.

Lu Yang just killed that wave of skeleton monsters and only gave 1,000 copper coins. Taking into account the remaining 150,000 copper coins before, a total of only 160,000, can only increase 16 attributes.

“This exchange is still very suitable.” Lu Yang returned to the third floor of the castle and found the Duke Iris. “I want to exchange the attribute points.”

“One thousand coins.” Iris said gracefully.

Lu Yang chose intelligence, spent 160,000 bronze coins, and exchanged it 16 times. Immediately, his intelligence increased to 19 points.

The attributes of the water element around him immediately increased.

Water element

Level: 4

Qi and blood: 760/760

Attack: 190-190

Defense: 76—76

This attribute was invincible in the early days. Before level 10, no monster can move him, and the duration of the water element is 5 minutes, and the cooldown of the summon is 1 minute. Daguai.

He left two archers and walked into the basement of the castle with the element of water. The basement is another strange area. According to his memory, there are many high-level monsters in the underground passage that can burst out of equipment.

System prompt: You have entered the underground passage

The light flashed, Lu Yang looked to the left and right, not far away, there were five or six zombies standing among a pile of rocks, eating the body of a miner.

Zombie

Level: 10

Hit points: 00/00

Attack: 50—50

Defense: 10—10

Lu Yang uttered a spell in his mouth, summoned another element of water, and the two elements of water rushed towards the zombie together.

“Hello ~!”

The zombie found the water element, slowly moved over, and met on both sides. During the attack, the zombie hit the water element without breaking the defense, while the two water elements attacked twice, they could drop a zombie.

In less than 2 minutes, all the zombies were killed on the ground, dropping a level 5 bow and arrow, and the attack power was 6 points.

Lu Yang put it in his backpack and continued with the water element, killing the zombies all the way, picking up the ore when he saw it.

Iron ore, copper ore, silver ore, and gold ore are randomly refreshed in the pit. Each ore has a different grade. If you can get a few more gold ore with good luck, he will have the confidence to clear more levels.

System prompt: You have dug a piece of copper ore

System prompt: You have dug a piece of iron ore

...

System prompt: The sixth wave of monsters came to attack

Lu Yang did not care about the situation above, and continued to fight with the water element. It is very simple for the two archers to defend the sixth wave monster. The really difficult one is the tenth wave monster, and the others are garbage.

After walking 100 meters forward, Lu Yang's eyes brightened, he saw a piece of silver ore, and the shining silver light made him extremely excited.

Quickly came to the silver ore and dug it out. A flash of light flashed from his body. He rose to level 5 and looked at the archer's health, almost still full of blood.

Tu Feng called and said, "Boss, one step up to the sky to come and inquire again, what should I do?"

Lu Yang asked, "What news did he inquire?"

Tu Feng said, "With regard to the reasons for our large-scale purchase of spiny beasts, Pei Zicheng asked us what to do."

Lu Yang sneered and said, "Let Pei Zicheng tell him."

"The truth?" Tu Feng was a little surprised.

Lu Yang said, "To be honest."

“OK.” Tu Feng had no doubts about the execution of Lu Yang’s order.

Lu Yang asked, “What are the calculations of those who want to besiege our guilds in the New World?”

Tu Feng said: “As of now, these people’s alliances are very loose, but they have a lot of air professions, some are not easy to deal with. In addition, there are magic free professions there, I’m afraid our defense must be consolidated. . “

Lu Yang asked, “How many people are there?”

“The seven guilds together have 10,000 people,” Tu Feng said.

Lu Yang said: “This 10,000 people is enough to threaten us. It is to consolidate. Your multiple rows of archers, Templars, and thieves are responsible for defending the city. There is a lightning tower defense, and ordinary mages don’t need much. “

“Yes,” Tu Feng said.

Lu Yang closed the talker. He had his own thoughts on this war. In fact, he now wants to kill one step to the sky. It is very simple, but because of the joint attacks of various countries, he must be careful to deal with these people. Can’t beat Liu Jie.

According to the information he has received so far, eight super guilds, including Germany, France, North Africa, and Saudi Arabia, attacked Liu Jie from two directions.

On Lu Yang’s side, 7 super guilds such as South Africa, Italy, Turkey, and the United Kingdom attacked him in one step.

Lu Yang thought that there was absolutely no problem with the defenses of the two fortresses, so he only had to rest assured that the spirit beast was exposed.

System prompt: you sent a gold mine

Lu Yang looked down and did not expect to be able to dig out gold ore, which is in his hands.

“Luck is really good, still a quality of 20 or more.” Lu Yang said excitedly.

500 yuan at 1 point and 20 yuan at 20 points are equivalent to selling 10,000 copper coins. He put the gold ore in his backpack and kept searching.

Until the eighth wave, Lu Yang found 2 gold ore and 6 silver ore, including more than 0 other iron ore and copper ore, and returned to the Duke of Aris.

“Friend, these are all things I need urgently. I can give you ten thousand gold coins.” Iris said.

Lu Yang took the gold coins, opened the purchase dialog, found the bow and arrow option, selected one of the 10,000 gold coins, and bought two 10-level bows.

Bow Through Clouds (Gold)

Level: 10

Attack: 0-0

Lu Yang returned to the door and handed two bows and arrows to his archers No. 1 and No. 2, both of whom rose to level 10.

Mercenaries' upgrade experience is much less than player experience, so their upgrade is faster.

The archer is exactly 10th level. After replacing the bow and arrow, the attack power is increased to 180 points, so that he can continue to fight without having to stay here.

He glanced at the ground and exploded a book on water skills, namely "Corrosive Water", "Big Wave" and "Water Wall".

Giant Wave is the same skill as Giant Wave Master. It is equivalent to the chicken rib skill here. It has no meaning. The role of the water of corrosion is to spread acid water on the ground. When the target moves at a speed of 15, it will cause 50 per second A little hurt.

The effect of Water Wall is to add a water shield to the target, which can resist 10 damage for 15 seconds.

Lu Yang felt that his skills were pretty good. He learned everything. The rest of the items contained only some accessories and equipment. After picking it up he did n't see anything good, so he sold it to Airi. Duke of St. Louis received 20,000 gold coins.

"Friend, I suggest you can buy some defense towers now to help you defend, how about it?" Iris said with a smile.

Lu Yang also responded with a smile, "No, never."

This is a pit. The defense tower is a large pit, or a bottomless pit. Even in the previous life, Lu Yang is full of resentment.

In the last life, Lu Yang had a chance to break the highest record, but he initially chose the road of the defense tower, I believe the tower can hold the castle for him.

At the beginning, the defensive tower relied on the attributes of high defense and high attack. With the strength of the tier 1 defensive tower, it resisted the attacks of the level 5 monster and the level 6 monster. The boss in the first level of level 10 was killed by him, and the price paid was only a defense tower.

At that time, Lu Yang thought that he had found the key to customs clearance, and built a large number of defense towers. When Lu Yang did not expect, starting from the 15th level, there were monsters that specially attacked the siege. This monster hit the tower. It's like cutting tofu with a knife.

Chapter 1134 - Death Magic Robe

A level defensive tower could not carry 8 mobs and attack 8 times at the same time. Lu Yang did his best to protect the defensive tower.

The monster who knew how to siege was able to carry it, but there was a self-explosive mob behind, which made Lu Yang right.

He blew himself up. Six of the eight defense towers he built were blown up in a split second. At this time, he knew that he couldn't fight longer distances. When he started blindly, he got expensive deer Blood and antler and 6 gold ore.

Later, he never had that luck again, so he always had a deep grudge against the defensive tower. In any case, he would never make a mistake again.

"Hello ~!"

A sudden roar emerged from outside the castle.

System prompt: boss is coming, please be prepared

Lu Yang couldn't wait to see what Iris was selling. He ran down to the castle and saw a turquoise giant three-headed snake rushing towards him.

Three-Headed Snake King (boss)

Level: 10

Qi and blood: 10000/10000

Attack: 200/200

Defense: 10

Lu Yang was sighed, how long has he not seen such a small boss, and replaced it with his own body, just a skill can seconds this three-headed snake king.

“Summon Water Elemental”

Lu Yang said in his mouth that the first water element and the second water element had just disappeared because of the time. Now he was surrounded by the third water element, including two he summoned now. Water element.

He ordered two water elements to resist the front. After he rose to level 7, his intelligence was 2 points, and the attributes converted to water elements were 920 points of blood, 92 points of defense, and 20 points of attack power.

The three-headed snake king bit on a water element and killed more than 100 points of blood, while the water element on the three-headed snake king killed 220 points of blood.

Attacking two water elements together can kill 440 points of blood. Counting the attack of two shooters, the three-headed snake king can drop 700 points of blood per second.

Lu Yang stood by and waited, also participating in the attack. Soon the three-headed snake king had blood. If he is a novice and sees the water element is so easy to use, he will desperately raise the level of the water element and his intelligence. .

However, Lu Yang has played before. He knows that the water element is also a pit, or a giant pit. As a summoning creature, although the water element is under the blessing of Lu Yang's intelligence, it can resist, fight, and have a good health. But this The thing is afraid of dispelling skills.

Once you have the dispel skill, the water element will be spiked directly. In this game, there will be a water element every 16 waves.

In the previous life, I didn't know how many people were pitted by the water element. I thought that this thing would allow him to carry it for a while, but I didn't know that the player could carry it. Only the player himself, all the tricks and skills were wasted.

System prompt: you killed the three-headed snake king

Lu Yang shook his head, came to the three-headed snake king, was about to pick up items on the ground, but surprised Lu Yang, there was a golden piece of equipment on the ground!

Death Magic Robe (Legendary)

Level: 0

Defense: 0-0

Intelligence: +10

Stamina: +10

Strength: +10

Special Skill: Magic Aura

Increase magic recovery speed by 0

Lu Yang was pleasantly surprised. He never thought that he was so lucky today that he could hit the magic robe at the beginning.

The dying magic robe. In the game of the last life, the best magic robe of the mage is the best because the robe can be upgraded. As long as it is beaten to a sufficient amount, he can upgrade 1 level. With each level, the attributes are improved a lot, and the robe can be upgraded up to level 5. At the highest

level, the defense power is 00 points, which is higher than the average strange attack power, and has additional attributes and auras.

Generally speaking, you want to explode this after 20 waves of monsters, and most people have never exploded from beginning to end.

"It's luck, it's Yuqin." Lu Yang wore a robe on his body with emotion, and then he quickly ran back to the Duke Iris and asked, "What good defense equipment?"

"Hey, man, how about raising the level of the water element. I have a skill book here?" Iris said enthusiastically.

"Get out of here, I'm going to improve my defense. Are you real, come to pit me." Lu Yang cursed.

Iris had a black line in his head and said, "Please pick it and see which one do you like?"

A purchase box popped up in front of Lu Yang, with a variety of equipment on it. Lu Yang didn't have much money on hand. He bought a shield with level 5 defense 5-5, two rings with defense 2-2, and two defenses. 2-2 bracelet, a 2-2 hat.

The staff was thrown aside by Lu Yang, so he stood at the entrance of the main gate of the castle, waiting for the next wave of strangeness to come.

System prompt: The 10th wave of monsters arrives

The boss and the tenth wave of monsters are separated, otherwise the player is apt to resist, Lu Yang looks at the monsters from a distance.

Elf Archer

Level: 10

Qi: 00

Attack: 40—40

Defense:-

“Kill him.” The first archer who ran to Lu Yang shouted, pulled his bow and arrow, and according to Luyang Yang was an arrow.

“嗖”

A sharp arrow hits Lu Yang’s body.

System prompt: Your lost magic robe proficiency is 1/500

Then, a sharp arrow hit Lu Yang’s body, and Lu Yang wandered into becoming a hedgehog and becoming a larger hedgehog.

System Prompt: Your Death Magic Robe Proficiency Level 2/500

...

Lu Yang forbids the water element and the archer from playing monsters, so just carrying the 100 strange bows and arrows standing there waiting.

Less than 1 minute.

System prompt: Your dying magic robe has been upgraded to level 2 and your dying magic robe proficiency is 1/2000

After 2 minutes.

System prompt: Your dying magic robe has been upgraded to level, your dying magic robe proficiency is 1/5000

After another 2 minutes, the monsters started to appear. The 11th wave of monsters appeared. They were a group of orc warriors in the physical profession. Lu Yang secretly rejoiced. If it was the 11th wave of monsters that played out and passed away, he would upgrade the equipment. So easy, there are only 8 people walking around him, how can it be compared with the 100 people shooting arrows at the same time.

Lu Yang ordered the archers to shoot the following orcs. The half-orcs with only 400 blood were very easy to kill and began to die in large numbers.

After another minute.

System prompt: Your dying magic robe has been upgraded to level 4 and your dying magic robe proficiency is 1/10000

Lu Yang continued to wait until the half-orcs were killed. By the twelfth wave of monsters, his dead magic robe had risen to level 5.

Death Magic Robe (Legendary)

Level: 5

Defense: 00—00

Intelligence: +100

Stamina: +50

Strength: +50

Revelation Aura +150

Lu Yang is infinitely blue, and because of his increased intelligence, his water element is also much stronger. He is finally relieved and can be invincible in a short time.

However, the dying magic robe does not make Lu Yang truly invincible. He said that if he resists the 20th wave monster, he will start to lose blood. When the 0th wave monster, only this robe, he even resists the mobs. Can't carry it.

But if you can see 20 waves, you can reward a spirit beast. Lu Yang quickly killed the 12th wave monster. He left two archers and returned to the underground passage to continue mining.

Whenever the ore in the backpack was full, he went back to sell the ore, and by the way cleared the mobs. At this stage, less than the boss, two archers and a water element are enough to resist.

By the time of the 16th wave, Lu Yang's gold coins had reached 200,000, and he chose to redeem the staff.

Magister's Staff (Excellent Gold)

Level: 15

Physical attack: 10—10

Intelligence: +15

Stamina: +10

Stamina: +10

Increase Spell Damage: +0

What Lu Yang wants is this staff. If he wants to win the battle, he must be strong in the future, otherwise he will definitely not be able to resist this wave.

System prompt: The 16th wave monster starts to attack

A large number of orc shamans refreshed on the map. When they saw Lu Yang's water element, they raised their claws.

System prompt: Shaman releases and dispels your water element

A white light flashed and the water element was spiked.

There was a self-deprecating smile on Lu Yang's face. He had experienced such a situation personally in the last life. He was desperate at that time, not to mention how uncomfortable it is now. In retrospect, he was still worried.

Think about it. When you bet everything on one thing, if you fail, you say how great the blow is.

Without the element of water, Lu Yang used his skills to attack and cooperated with two shooters. He still quickly cleaned up the shaman, especially when Lu Yang had a dying magic robe, he was not afraid to be attacked, and he did not lose blood at all.

This was the case for the next 17, 18, and 19 waves. Until the 20th wave, Lu Yang finally encountered a boss that could hurt him.

Night Stalker (boss)

Level: 20

Qi and blood: 50000/50000

Attack: 400-400

Defense: 50—50

Skill: Shockwave

One of Lu Yang's most annoying bosses, the night demon's attack power is already very strong, and it also comes with a shock wave skill, which is completely unlivid.

If the player does not have sufficient preparation in this level, it is basically unbearable. First of all, the player's 00 health can be destroyed from the shock wave. This is a magic attack and currently has no magic defense.

Fortunately, this game player cannot add points by himself, otherwise a mage will add intelligence, and a shock wave will come to an end.

Lu Yang's method of playing the boss is still the same. He summoned the water element to be responsible for resisting the monsters. Just when he met, the night demon did not hit the water element. According to the landing sun, it was a shock wave.

Lu Yang now has more than 400 blood. After resisting the attack, he immediately took blood medicine. Fortunately, the night demon no longer hit Lu Yang, but the water element.

Minutes later, the night demon dies and drops a long bow with 100 points of attack power. Lu Yang gives it to Archer No. 1.

System prompt: you get a bottle of spirit beast

It's enough to hit here Lu Yang is enough. He recorded the clearance video here and handed it to Tu Feng, saying, "There is a video of me clearing the customs, and my commentary, sending To the 200,000 players, the 100,000 people still don't let people know. "

"Okay," Tu Feng said.

The 100,000 people Lu Yang refers to are the 100,000 Iron Brother Brothers Trumpet led by Han Ying and Mu Feng. They are now at level 110 and can play this game.

Regarding this video, Lu Yang's play is not advisable, but he chooses water system mage, summons water elements, starts by corners and other small tricks, summons archers to help, go to underground tunnels for mining, and build defense towers to Resistance to the 20th wave of monsters is no problem.

After Tu Feng released the video, the players of the Iron Brothers League immediately acted and all ran to do this task. On the other hand, he stepped up to the sky and immediately received the message from Pei Zicheng. He did not want to attack Lu Yang and ordered his close friends to do this task. .

Lu Yang withdrew from the game. This task is mainly to expose the spirit beast. Nothing else is good. He does not need to waste time here. Although such a good start is a bit wasteful, he now needs a higher-end one. Equipment, these have no meaning to him.

Chapter 1135 - New World 3rd All War

According to the agreement, the one-step ascent, South Africa, Italy, Turkey, and the United Kingdom attacked Lu Yang in one step. Now the one-step ascent to the sky has slowed down, while several other guilds have not reduced their speed and are still preparing for the battle.

Lu Yang didn't take them seriously. Their main attack is the Tiger Mouth Fortress. Nowadays, there are more than 2,000 lightning towers on the Tiger Mouth Fortress, which are divided into three rows. Under each lightning tower, there are thunder. The mage controls the magic formation.

Don't say that it came in, even if you want to walk within 500 meters, it is a big problem!

Lu Yang is not worried about the tiger fortress now. He is worried whether Liu Jie will suddenly launch a surprise attack on him. According to past practice, Liu Jie does not play cards according to the rules, even if he is attacked. In the future, he is likely to reach a settlement with several of the people who attacked him and attack others.

It is even possible to launch a two-line war to sneak attack on the Tianjian Fortress. Once the Tianjian Fortress was attacked down, Lu Yang would be unlucky. How could Tianlong be pitted by him and how he would be pitted by Liu Jie.

Therefore, Lu Yang personally came to the Tianjian Fortress and ordered Tu Feng to drop a large number of new spies on Liu Jie's side, so that any action of Liu Jie's regiment units was under Lu Yang's control.

"Boss, is it too expensive to do this?" Tu Feng asked while looking at Lu Yang.

Lu Yang was standing in the gate of the Tianjian fortress and looking at the information in his hand, he said, "It's best to kill Liu Jie without spending money. If I can, I want to send someone to Liu Jie."

Tu Feng laughed and said: "I'm afraid there are difficulties. According to the information here, the people who came to attack us this time totaled 5 million, and the defense was not enough."

Lu Yang shrugged his shoulders and said, "Yeah, that's okay. I can only deal with these 5 million people first. How many bottles of spirit beast?"

Tu Feng said: "Now Mu Yu, Han Ying and Han Yu have hit a total of 10,000 bottles, and the merchant has bought 50,000 bottles."

Lu Yang said: "Yes, waiting for 2 days is enough to wash 200,000 babies."

Tu Feng nodded, just about to speak, but with a stunned expression, said: "Boss, our enemy is here, a total of 500,000 people, are gathering one step to the sky."

Lu Yang smiled and said, "It's interesting, what are they doing? Are you ready to attack today?"

Tu Feng said: "Should not, there are many things that need to be coordinated, and the earliest attack will be tonight."

Lu Yang nodded and said: "The possibility of them attacking at night is really high. After all, we are in the evening during the day, and when we arrive at night, they are during the day."

Tu Feng said, "Will you let your brothers work overtime tonight?"

Lu Yang said: "Leaving 100,000 on duty, the rest are resting normally, and it is good to have players online at night to participate in the defense."

Tu Feng immediately arranged to go.

Lu Yang said to the muddy wine around him: "We must be optimistic about the Tianjian fortress and be careful of the enemy's sneak attacks at any time."

Zhuo Jiu said: "Boss rest assured that there is absolutely no problem with me."

Lu Yang nodded. He believed in the strength of the muddy wine, took out the teleportation scroll, and flew to the tiger mouth fortress. The white lion in charge of the city was discussing with Xu Cailiang, White Tiger, White Wolf and others on the gate.

"Boss, you're here." Everyone saw Lu Yang arriving to salute.

Lu Yang motioned them not to be too restrained and asked, "What's the situation now?"

The White Lion said: "Just before Tu Feng called, I immediately sent a spy to investigate and found that the group had already settled down in Tiantian City, which had stepped up to the sky, and had no idea of attack for the time being."

Tu Feng said, "I just got their offensive plan here. It was divided into four batches of offenses. The first is Turkey, the second is South Africa, the third is Italy, and the fourth is France. After that point, launch an attack. "

Lu Yang smiled and said, "This is an offensive attack based on jet lag. It's quite fun."

"Boss, how about we rush out now and take a step to the sky to prevent him from resting normally?" Bailang asked.

Lu Yang said: "This method is fine. In this way, I send 100,000 people with lofty sentiments to go first, and you take 100,000 people behind. It is up to you to attack or retreat."

"Yes." Bai Lang went down and shouted.

The white lion looked at the map and said, "Boss, I suggest that it is best to send a forbidden mage group, and first bang against the main city that ascended to the sky, let them know how powerful we are, lest they be too arrogant at night."

Lu Yang readily agreed, called Hei Yan, and said, "Gather the curse banterers immediately."

Hei Yan asked, "Is it all members?"

Lu Yang said: "All members."

"Okay." Hei Yan took the phone and called to his men. Soon, Luo Siyu, Sha Qi, and Xia Yuwei all gathered the members of the curse-in-law group, with a total number of 80,000.

Luo Siyu brought 10,000 people from the members of the original Heiyan and Kang Bangyunyi. This is 10,000 people. There are 10,000 people under Shaqi. With the reputation of the goddess, Xia Yuwei gathered 20,000 in the area of the original Jiuxing Alliance Forbidden Mage.

Half an hour later, the personnel assembled under the Tiger Mouth Fortress, and Lu Yang scratched his head. He found that his strength seemed to be too strong.

“It looks like we can confront the enemy head-on!” Lu Yang said.

The white lion and the lofty others nodded.

Xia Yuwei said: “I will lead the team personally, just to do a publicity, it is good to have this.”

Lu Yang said, “It’s OK, it’s up to you, Hei Yan cooperates with Yu Wei.”

“Okay.” Hei Yan said to Xia Yuwei, “Sister Yu Wei, I must listen to you.”

Hei Yan was originally a child has a good relationship with Xia Yuwei.

Lu Yang said, “I’ll go with you and take a look. You fight on the ground, and I look in the sky.”

Everyone has no opinion. Those who can fly to the sky now, except Lu Yang, have flying professions, but there are many flying professions on Lu Yang’s side, especially the Phoenix Army and Fire Raven Army.

Lu Yang shouted that Germany would not taste the corpse, and he brought 5,000 fire crows and 500 fire phoenixes behind him. A total of 500,000 people walked out of the tiger fortress.

There was a half-day distance from the Tiger Mouth Fortress to Tongtian City, and they caught up with the fighting on both sides. The original empty map was even more empty, and only monsters ran on the map.

After three hours.

With pride and extreme movement speed and Lu Yang’s Druid Flying Corps, they first arrived outside the city of Tongtian.

Because of Pei Zicheng's relationship, One Step Dengtian had already taken precautions. In the city, One Step Dengtian said to the remaining several guild leaders, "Rest assured, this city is very strong and Lu Yang cannot get in."

Chapter 1136 - Special Tibetan Barracks

"It's all up to you. We just let the members go off to bed. We won't wake up at night," said Kerem, president of the Turkish Blue Moon Association.

"This **** *dared to attack us. In the evening, we can never spare him." Daniel, the president of the Italian Ironwing Association, scolded.

More than 500,000 players have taken a break from the offline, and only 1.5 million people who can take part in the defense can participate in the defense, but Lu Yang did not fall in. Therefore, he is not afraid to fight against Lu Yang in one step.

Under the city.

A sentry tower was built with lofty sentiments, the light flashed, and Luo Siyu, Xia Yuwei, Firestorm, and Thunder Cloud arrived with 400 forbidden mage ahead of time.

These people are mages who really understand the curse. Flame Storm and Lei Yun are masters who took the initiative to come after Xia Yuwei was officially elected as a goddess. Lu Yang investigated. One was German and the other was American. They were all innocent.

Both families work in China as engineers, working for Huaxia people, and both have completed their studies in China.

Just after landing, Lei Yun summoned a lightning-powered chariot full of flowers, and elegantly said to Xia Yuwei, "My goddess, please get in the car."

Xia Yuwei said, "How many times have you said that, don't call me that, and what do you do with a bunch of flowers on the chariot? It's not bad."

Lei Yun smiled, but did not take Xia Yuwei's words seriously.

"President Yu Wei, please get on my chariot." The flame storm also summoned the chariot.

Xia Yuwei glanced at it, this chariot was normal, and stepped up, making Lei Yun's smiling expression instantly turn into jealousy.

"Goddess, that, I ..." Lei Yun still spoke, Xia Yuwei looked back at him and said, "If you don't change your name, I won't get on your tank again."

Lei Yun was stunned, and the flame storm secretly gave him a proud expression, which made Lei Yun more depressed, but the forbidden mage following him laughed. This scene was too familiar to them, and Lei Yun, who was clever by himself, could never get Xia Yuwei's favor, instead, was the silent payment of the flame storm.

"Okay, okay, I'll change it." Lei Yun said depressed.

The light flashed.

Lu Yang appeared beside Xia Yuwei.

"Boss," Xia Yuwei greeted.

Just now, Lu Yang saw it clearly in the sky. She found that Xia Yuwei became more and more intelligent. There was no way. In the place where the masters of the iron blood brothers are lined up, there is no true ability. It is impossible to control the people below, and it is impossible to let them. Others at the same level deserve it.

Xia Yuwei is not as good as White Lion and Zhou Tianming in terms of tactics, warfare, personal abilities, and overall situation, but just one point, Xia Yuwei is beautiful, just beautiful, or the most beautiful beauty. As a result, Xia Yuwei's side There are the most masters.

Xia Yuwei didn't need to do anything, just looking at someone can make that person fight for her. This level has exceeded Lu Yang's imagination.

When she first became the official goddess, Xia Yuwei also often chatted with Lu Yang to find a way to balance various people. Lu Yang could teach everything, and now it looks good.

All the 00 people he brought were actually those who knew how to ban curse, and the 297 people still respected the two members of Firestorm and Thundercloud. The organizational framework had been formed, and the fighting force had begun to take shape.

"Be ready to release the curse and throw it into the city, don't hit the wall." Lu Yang said.

Just now Lu Yang flew over the city to see this one-step city that climbed to the sky. There are areas on the city wall to avoid the forbidden curse. One third of the players standing on the city wall are paladins, and they always use shields to resist magic. If they attack the city wall, There's no point.

Below the city wall, there are nearly 10,000 Tibetan barracks, each of which has 500 players hidden. It is certain that these people are in these Tibetan barracks. If they continue to use a forbidden bomb, it is possible to destroy several Tibetan barracks.

Xia Yuwei shouted: "The forbidden army is ready, the target city wall is 20 meters behind."

400 forbidden mages began to spell.

In the gate building, one step up to the sky and the guild leaders such as Kerim and Daniel sneered at the same time.

"He wants to siege the city by curse, his play is out of date." Kerim said sarcastically.

“This time we are going to make him look good. If it wasn’t for siege, now I want to bring out our siege weapons and destroy these people.” Daniel said arrogantly.

The siege weapon they were referring to was a heavy catapult developed by Italy and the United Kingdom. It was fired 500 meters away from the gate and projected 10 flame rocks at a time, injuring 5 million points.

Step by step Dengtian smiled and said: “We will bear him for a while now, and in the evening, we smashed the tiger’s mouth in World War I. At that time, Lu Yang could only let us slaughter.”

One step to the sky, I feel very good recently. I got Lu Yang’s secret recipe for rapid upgrade. He also had a way to break the main town of the Jagged Brothers Alliance. He even had the opportunity to divide the territory of the Jagged Brothers Alliance. He felt that he had really been lucky recently.

Just as a few of them looked proudly under the gate, all of a sudden, the sky was overcast with old players. When the dark clouds appeared, one step up to the sky and the faces of Daniel and others changed at the same time.

“No, Lu Yang is not going to fight the city, but the Tibetan barracks inside the city.” Daniel shouted.

“Get out of the city and chase away these forbidden mages. You must not let the Tibetan barracks be attacked by the enemy. The Tibetan barracks below the city are filled with stone throwers.” Kerim said anxiously.

One step to the sky, he quickly called his men and said, “Forbidden Spell Masters, Forbidden Spell Counterattack, Along, Ahu, and Axiong, you each took 100,000 people and rushed out of a city gate to drive Lu Yang away.”

The 100,000 people who had already assembled immediately followed the requirements of one step to the sky, set out from the three gates, and besieged here at Luyangyang.

Lu Yang was flying on the flying carpet to watch in the sky. He frowned. It stands to reason that if he did not leave the city at the beginning of a step in the sky, he made up his mind and relied on the wall defense.

The area of Tongtian City is very large, but the wall is several kilometers in diameter. He is more than enough to defend, and there is no reason to charge out.

Moreover, he rushed out after hitting the opponent's Tibetan barracks with a curse, and Lu Yang felt there was something wrong, especially the few very large Tibetan barracks.

"German doesn't taste the corpse, and they bring me the Phoenix Army Corps and Fire Crow Army Corps to hit me with these giant Tibetan barracks. I suspect there are other things in it." Lu Yang said.

De Bu, who was standing behind him and flapping his wings, tasted the corpse and said, "I'll go there, there must be something wrong."

He screamed, and rushed to the Tibetan barracks behind the city wall with 5,500 people, 400 level 10 cursed mages, and released the curse, killing nine tenths of the blood of the Tibetan barracks, leaving only the last One-tenth.

Chapter 1137 - Glory Duel

A large number of molten bombs fell from the sky, and the health of the Tibetan barracks dropped rapidly, and it was on the verge of explosion.

"Kill them fast, you can't let them break the Tibetan barracks," Daniel shouted.

One step to the sky shouted, "Gosha shooter group, kill me these flies."

The Goshawk Shooter Regiment is the most elite shooter team in the world. It has the highest level 15 and excellent gold equipment of the same level. Everyone has a gray squall eagle, which is very powerful. The total number of attackers is 10,000. Its name is Goshawk.

"Furious wind battle eagle, the shooter team follow me." Goshawk roared, launched the wind elf, rushed to the Tibetan barracks with thousands of shooters around him, raised bows and arrows, and shot the German corpses and others.

The archer has a range of 100 meters, and the druid's melting ability is 70 meters. If the Fire Ravens and the Phoenix Legions want to continue to attack the Tibetan barracks, they must bear the bow and arrow.

De Bu tasted the corpse and looked up at Lu Yang, asking, "Boss, do you still fight?"

Lu Yang said, "Hit, in any case, you have to shoot this Tibetan barracks down. I want to know what's inside."

"Yes." De Bu yelled at his opponent and yelled, "Continue to attack, don't be afraid of death, and avoid bows and arrows."

The Fire Phoenix Legion and the Fire Raven Legion immediately spread out to dodge, and insisted on setting up a Tibetan barracks, but they wanted to reach the Tibetan barracks after all, they needed to stand within 70 meters, and soon they were killed by a large number of bows and arrows and gale war eagles.

However, the blood of the Tibetan barracks was also getting less and less. When the Fire Raven Legion was all killed and there was only one Phoenix remaining, the Tibetan barracks only had one last drop of blood.

"Kill him, you can't let him fight the Tibetan barracks again." Daniel shouted in horror.

The goshaw showed a sneer, and an arrow hit Germany without tasting the corpse. Instantly, Germany did not taste the blood of the corpse, and then, thousands of bows and arrows shot at him densely.

"Lao Tzu fights with you." De Bu tasted the corpse, knowing that he would die, and roared, headed down, and hit the Tibetan barracks.

"嗖 嗖 嗖"

Dozens of sharp arrows shot Germany's body without taste, Germany's eyes closed, and he lost consciousness, but smiled at the corner of his mouth, because he knew that he had succeeded.

There is a rule in the game. If a player in the sky falls and hits a person or a building, it will force 1 point of blood. The Tibetan barracks has only 1 point of blood left, and he hits it.

“boom”

As he thought, Germany's dead body hit the Tibetan barracks, causing the Tibetan barracks to collapse, revealing the true face of Lushan.

“A stone thrower!” Lu Yang had a look of anger on his face, and he looked coldly at Step Dengtian and Daniel and others, and said, “You have a good abacus, and you want to use a stone thrower to sneak into my tiger's mouth. “

Steps to the sky and Daniel and others had blue and red on their faces, all angry and unable to control themselves.

“Damn, the sneak attack plan was found.” Korim scolded.

“Damn it, kill him,” Daniel growled.

Stepped up to the sky and said to Lu Yang, “Although you found it, we will also knock down your tiger fortress. You will wait for us tonight.”

The slinger's speed must be extremely slow, only one tenth of the player's speed. In order to reduce the walking time in the city, they put the slinger in the Tibetan barracks behind the city gate, but did not expect to be exposed.

Lu Yang snorted coldly and said, “One step into the sky, you remember, I won't spare you. Tonight I will let you know that you want to hit me, but it is just a lunatic dream.”

Now that he knows that the opponent has a trebuchet, Lu Yang naturally wants to change his style of play. Now the trebuchet is one of the most difficult items to defend in the game. With him, the city wall is like tofu.

Lu Yang can imagine that if the opponent used a catapult to attack the wall, it would take less than a week for his wall to be broken.

Normally, the time for a super guild to wage war, but one week or more than a week later, they will be difficult to operate. For more than two weeks, if a super guild does not reduce its staff to participate in the war, the guild will be in debt and three weeks will be bankrupted and liquidated.

If Lu Yang uses humans to fill in, he can defend the tiger's mouth, but this is not appropriate, and he has a better way.

"Pride, take your 100,000 Wolves Guard, divided into four parts, rushed into the British map, and gave me a hard shot at the British." Lu Yang said.

"Yes." Pride and his 100,000 people are running on the map with one step of chasing the troops. Compared to the speed limit of pride and others, the three main lions and tigers under the command of one step, chase after all. No.

"Damn, it's fast." The mad lion scolded.

"What shall we do?" Liehu asked.

"We should have returned. The boss only let us run away. Now that the mission has been completed, chasing may be ambushed by the enemy." War Bear said.

Crazy Lion said: "I can't catch up, while moving at a speed of 650, all are driving chariots, moving at a speed of 50, hell, there are so many top-level equipment."

One-fifth of the 400 forbidden mages have chariots. When the enemies came, they all got on the chariots and ran. There was a plain, a plateau and a hill between Tongtian City and the Tiger Mouth Fortress. On flat ground, it's only been 10 minutes, they can't see people.

"Counting their luck, but their luck will be maintained until tonight, and at night, I must compete with Bai's Sanxiong." Lie Hu said.

As soon as the words fell, around them, suddenly there was a dense crowd of Jagged Brothers players, numbering 100,000.

"Who wants me to compete?" The White Wolf rode the Fire Lion King and came out arrogantly.

"White wolf?" Lie Hu asked in surprise.

The white wolf sneered and said, "You just want me to compete?"

The fierce tigers brought a total of 100,000 people out, but they looked around, and the number of enemies was similar to them. Moreover, the white wolf was ready to work, and the formation was set.

The cold sweat on Liehu's face flowed down, and he stared at the white wolf and cursed, "An ambush in the dark is a master."

The white wolf laughed sarcastically and said, "In this way, I will give you a chance. You will personally challenge me and win. I let you go and lose, so don't blame me."

The fierce tiger has always wanted to fight with the white wolf, but it was so real that he was timid at the game, especially because he had to fight against the white wolf on behalf of 100,000 people, which made him even more disturbed.

"Who are we going on?" The fierce tiger looked at the lion and the war bear.

Both shook their heads at the same time.

The mad lions and war bears are also scared in their hearts. This is not a one-on-one heads-up, but a heads-up that determines the fate of 100,000 people. Once they lose, the 100,000 people will lose their equipment and experience. Up.

Chapter 1138 - Behind the sneak attack

The fierce tiger was depressed, and the two men had been clamoring to defeat the White Lion and the White Tiger before, but now they followed.

The white wolf stood in front of the team and waited for a full 2 minutes, but found that the enemy had not sent anyone out, and said boringly, "Do n't waste your time, okay, I have precious time, I 'll give you the last minute. I'm announcing the offense. "

Xia Yuwei behind him has ordered the 400 forbidden mage who came with the team to occupy the best attack position. Although the forbidden spell was released, each of them has 2 secondary forbidden spells.

The fierce tiger looked at the mad lion, then looked at the war bear, and said, "I have no confidence in defeating the white wolf. He is the top 100 singles player in the world. If you dare to fight, you will go up."

Mad Lion said, "I can't."

War Bear said, "I can't."

Lie Hu said, "Since we can't do three of them, let's fight together. 300,000 people go together. What can we do?"

Zhan Xiong said, "I'm looking for the boss to rescue. I believe it will arrive within half an hour. We can fight once."

Mad Lion said, "Okay, then fight."

The fierce tiger pointed at the white wolf and cursed, "We are not stupid idiots. Let's see how high we are in the battlefield, brothers, ready to attack."

The white wolf rolled his eyes at the fierce tiger for a while and scolded, "Don't dare to fight, say dare, you wait for Lao Tzu, I must kill you today."

The 300,000 people behind White Wolf laughed. They all knew that their boss was awesome. However, the other party didn't dare to fight, but mocked White Wolf's IQ.

Xia Yuwei also laughed lightly. She knew that White Wolf is not a brainless stupid person. On the contrary, he is also an excellent battlefield commander, but he is a tactical master and a strategic dwarf.

"Forbidden spell masters are preparing, aiming at the enemy's seventh to nineteenth rows and chanting." Xia Yuwei shouted.

The seventh to nineteenth rows are the most chaotic positions of the enemy. Because of the pursuit, the formation of the lion, the tiger and the bear is gone. The fast hunters and thieves rush to the front, and the soldiers and healing are behind. And most people come together.

After 10 seconds, without waiting for the trio to launch an attack, the cloud of curses in the sky shrouded.

"Ice Storm"

"Meteor Fire Rain"

"Space-Time Cutting"

"Landslide"

...

The white wolf saw that the enemy formation was in disorder and shouted, "The whole army is attacking."

"Kill ~!"

Three hundred thousand people rushed into the team of three lion, tigers and bears from all directions. Suddenly, the three's team was torn into pieces.

Shaqi stood in the distance with 80,000 forbidden mages and muttered to himself, "It looks like we don't need our shot."

Dahlway said, "The boss said that we should be strangers. Don't act for now."

Saki looked at the situation in the distance and exclaimed, "The failure of Tianlong is indeed an inevitable thing. This is just a game. People in the Brotherhood of Iron Blood can command the player to this level. I dare not imagine."

Dahlwei chuckled. "Soon, we will have this ability too. The boss has given us money to build the building."

Shaqi had some hopes. It was a 30-story-high game studio. His position had been designated as vice chairman, and in the building, he was also called deputy general manager.

"Hey, I didn't expect me to have the opportunity to be one person under 10,000 people. Sitting in that office must be very comfortable." Shaqi said.

Dalv said happily, "You are the handsomest. I like how you sit in your office in a suit."

She is really grateful to Lu Yang now. A low-caste person can get such love and have such a life. All these are given to her by Lu Yang, and she cherishes it.

“We have to work hard to give back to the boss,” said Davy.

Saki nodded.

When the ambush battle was fierce on the other side, on the other side, no one noticed that the lofty army and the mad wolf army had bypassed all the main cities that had stepped up to the sky. From the 140-level map, they slanted to the British players. The middle ground between the gathering place and the South African player gathering place.

That was a place where players from the three countries were unwilling to go. The reason was that in order not to cause unnecessary misunderstandings, the three parties did not go there to upgrade, but it gave them the opportunity to enter the two countries easily.

“Brothers, come and run, we must get enough time for the boss, Brother Brothers is our home, absolutely no one is allowed to destroy him.” Shouted with pride in the team channel.

“Kill ~!” 100,000 people shouted in unison.

If there is a vested interest in the Jagged Brothers Alliance, then the mad wolf army is definitely the most advanced person among vested interests.

Their second and third transfer certificates were given by Lu Yang for free. Their equipment was also made by Lu Yang to help them type out. Their skill books were also exchanged for guild points, and their guild points. They are murdered. Every time they kill, they take on the easiest job. They use their professional advantages to sneak in the enemy’s weak areas behind them.

Lu Yang was raising these 100,000 people, so he was forced to pay them, and they did not need to pay them. The trophies obtained during each war could be exchanged for tens of thousands of credit points. Seeing the fact that the Brotherhood League is fighting a big battle almost every month, they make money too easily.

In the Jagged Brothers League, some people may be dissatisfied with this guild, but they will definitely not be them. On the contrary, if someone wants to disadvantage the Jagged Brothers League, these 100,000 people are the first to disagree.

Two hours later.

The running enthusiasm got the battle report from the white wolf. They successfully killed 300,000 people of the lion, the tiger and the three bears. But one step up to the special legion and the rest of the main forces to participate in the battle. With the help of the spell mage, he easily left the battlefield, and at the same time defeated the main legion that reached the sky but was unable to attack the enemy's sky.

After three hours.

Tu Feng sent news that players from Britain, Turkey and South Africa have assembled outside the city, with more than 3 million people.

Four hours later.

Pride was discovered, and Daniel and Kerim were astonished.

"Damn, you can't let these 100,000 people enter our realm. Our players are here. The defensive force in the city is very empty." Daniel said in horror.

"We must send someone back to defend, or our home city will be lost," Kerim said.

Stepped into the sky and said dumbfounded, "You can't go, you're gone, how can this fight be fought, who will fight it?"

Daniel and Kerim and others bow their heads and meditate.

One step up to the sky and then said, "The purpose of Lu Yang is to force you to go back. You must not be fooled."

Chapter 1139 - Luyang Tucheng

“But what if we don’t go back to the main city and lose it?” Daniel asked.

He stepped up to heaven and thought for a moment, saying, “In this way, you will go back to 200,000 people each and stay in the main city. No matter which main city they attack, you can live on defense.”

“How can this be, the other party is the crazy wolf legion, the elite army under Lu Yang.” Kerim said.

One step up to the sky said: “Don’t you still have cooperative guilds and affiliated guilds, and cooperative studios, let them out, help defense.”

Daniel said, “This is the way.”

“You can only do that,” Kerem said.

Several guild presidents who participated in the offensive nodded in approval and issued news, ordering their men to return to the main city and defend the main city.

But what they don’t know is that this kind of situation is what Lu Yang likes to see. Just when he came to the area of the Italian Iron Wing Guild with lofty sentiments, Lu Yang received the information from Tu Feng.

“Since they don’t want their own main city, I’ll do them well.” Lu Yang sneered on his face.

Ironclad City.

The Iron Wings Guild is the closest main city to the Blue Moon Guild in Turkey. The two main cities have a two-hour horseback ride.

When Lu Yang and the Wolf Team appeared, on the city's head, Andrea, the vice chairman of the Ironwing Guild, just launched a defense with 200,000 and tens of thousands of affiliated guilds and studio masters.

"Damn, this group of old Chinese people, I must let them all die here." Andrea stared angrily at the distant pride.

Plenty of lofty sentiments but not indifferent, he said with a smile: "Build a sentry tower."

Five blood wolf fighters behind him, at the same time took out the goblin robot to build a sentry tower in the forest at the rear, each 0 meters apart.

"Strange, what are they doing?"

"Why not attack?"

"I do not know."

Andrea and others are anxious, but dare not go out to fight in the city. Everyone knows the strength of the crazy wolf legion, and the commanding ability of the lofty heroes. They don't think that they can fight the crazy wolf army.

If you want to destroy such enemies, unless they actively want to fight against you, once they are torn apart by the crazy wolf legion, they will be madly killed.

"Forget it, let's wait here."

"They dare to fight, we just beat him, they don't want to fight, we will stay with them, as long as the offensive begins there, I don't believe they can go back, 100,000 people," Andrea said.

On the other side, Daniel and Kerim's men have rested and are gathering outside the city. As a step to the sky, the total number is 4 million.

"Lu Yang, I must break into the tiger's mouth and defeat you with my own hands." Daniel shouted angrily.

Four million people have completed the team, following the orders of Daniel and Kerim, towards the tiger fortress of the Iron Brotherhood.

Just as they advanced, the tower was completed.

The light flashed.

Lu Yang appeared at the same time with 500 forbidden mages including Hei Yan, Roth Rain, Fire Storm, Saki and Thunder Cloud.

"Not good, it's Lu Yang." Andrea was dumbfounded.

"Damn, they actually used the New World Teleport Scepter."

"Report to the boss, we can't keep it."

"Damn, you can't do this."

...

The armored city was in a panic.

“Well, with 200,000 people, I want to hold the fortress and let me die.” Lu Yang uttered a spell, turned into the form of flames, and started to run quickly and quickly.

“Remnant Flame”

A red-gold flare flew across the battlefield and flew over the city head, landed in the center of the crowd, and became a human figure.

“activation”

With a human shape as the center, a violent explosion occurred, and all within 5 meters was shrouded in fire.

“2598764” (critical strike)

“248986” (Critical)

...

After the fire, players within 5 meters fell to the ground and were killed by Lu Yang’s skills, and Lu Yang appeared on the wall.

“Oh, **** it is Lu Yang, kill him soon.” Andrea shouted.

“kill him.”

“He has a demon heart.”

...

Around Italy players frantically charged towards the landing sun.

Lu Yang rushed around facing him with a sneer and groaned in his mouth.

“The Ninth Hell”

The fierce flame centered on Lu Yang and ignited all creatures within 5000 yards.

“2578966” (critical strike)

“2178986” (Critical Strike)

...

For non-anti-riding and anti-war occupations, the blood was instantaneous, and after 1 second, all died. Andrea was a Paladin himself. He looked at this scene in stun. This attack by Lu Yang was eliminated. He has more than 180,000 players.

“Oh my God, how is this possible?” Andrea collapsed.

“This must be false, it can’t be true.” Said an anti-riding invincible.

“Iron Armor can’t hold it.”

“Damn, this lunatic.”

...

At the end of the city, there were only less than 2,000 anti-riders, and their invincible time was only 2 minutes, but they had no attack power, and they had no way to kill Lu Yang in the face.

“Offensive, killing Lu Yang, can not let him leave alive.” Andrea shouted frantically.

There are many invincible punishment rides around him, this is his last attacking profession.

“Kill.”

“Fight it, kill him.”

...

Just as the city of Andrea and the punishment riders launched their charge towards the landing sun, the city was down.

“Iron brothers, kill ~!” Hao Wanwan roared, and personally led the 100,000 crazy wolf army to attack the iron armored city.

Lu Yang watched Andrea with a sneer, facing the jumping attack of the punishment rider, throwing the escape dagger in his hand, and disappeared in front of the last punishment rider before jumping to him.

The next second, Lu Yang appeared under the city, and his ninth **** skills were still not turned off. All players in the city were killed if the non-defense class did not adhere to 2 seconds.

Lu Yang walked a distance of 50 meters from below the city wall, but at this time, his magic value was empty.

“Unfortunately, the magic value is still not enough.” Lu Yang ate a spiritual gourd elixir, restored half of the magic value, replaced the flame chariot, and advanced toward the safe area in front of the main city.

When he first arrived in the safe zone, nearly 200,000 people were just resurrected. When they saw Lu Yang, they instinctively launched an attack toward Landing Yang.

“kill him.”

“Let’s go together.”

...

Lu Yang smiled coldly.

“The Ninth Hell”

The flames rose again, and nearly 200,000 people were struck again.

Hei Yan, Lei Yun, and others who chased after were originally worried about what happened to Lu Yang. After all, this is the New World period, and they are all over 10 levels. Masters are rarely able to stop, but when they saw Lu Yang, they took this When the crowd was seconds, they all showed embarrassing expressions.

“Er It’s so embarrassing, I don’t think we have much effect.” Lei Yun said to the flame storm.

The flame storm shrugged and said, “I share the same feeling. Now we can feel the culture of the Jagged Brotherhood. The boss is too strong, and it really brings infinite self-confidence. This is Nima’s trip.”

Heiyan laughed and said, “Just get used to it, just get used to it.”

“What to talk about?” Lu Yang asked back.

“Some emotions about the boss’s strength,” said the flame storm.

Lu Yang said: “No emotion, look at it. After this time, my skills will be weakened.”

“Is he the ninth hell?” Hei Yan asked.

Lu Yang nodded and said: “Stop this, leave 10 forbidden mage, keep skills here, and sent 10 people to destroy the teleportation array, and the rest followed me into the main city secret. Tao, seize the main city. “

“Yes,” the crowd said.

Chapter 1140 - More sneak attacks

There are 500 players deployed by Andrea in the secret road of the city’s main government. They are regular professionals. At this time, they already know the above situation.

“What to do, Lu Yang is coming in.”

“The 180,000 people above didn’t stop him, and we can’t stop it either.”

“What can I do?”

...

The temporary commander in the secret road shouted: “Silent, everyone remembers that even if we die, we must die in the secret road. We must not let Lu Yang easily cross us to seize the main city. Don’t forget that they cannot occupy immediately Yes, it takes 2 hours. “

The crowd then reacted.

“Fight with him.”

“Death to the end.”

“Even if he dies, he won’t succeed.”

...

In general, as long as Daniel returns with his special legion, this battle will be won.

Andrea wanted to send a message to Daniel as soon as he was resurrected after his death, but as soon as he was resurrected, he was given a second spike by Lu Yang’s curse and ninth hell. He only knew that this ninth **** in Lu Yang had no cooling time.

“Boss, send someone back soon, our Iron City will be lost.” Andrea was resurrected next to Dante City and immediately called Daniel.

Daniel was half way along with the army of more than 1 million people and Kerem and others, and he was stunned at the news.

“How is that possible? You are 200,000 people, why did you lose as soon as you return? Isn’t there more than 100,000 enemies?” Daniel asked, not too panic because he knew it would take 2 hours.

Andrea said dejectedly: “It took 100,000 people over with lofty sentiments, but he built a sentry tower and teleported Lu Yang.”

“What about a Lu Yang?” Daniel asked. He also had players with God’s heart in his hand, or level 6. He didn’t feel how strong God’s heart was.

Andrea said: “Lu Yang killed us 200,000 people by himself. He released a skill called the ninth hell, and he didn’t know what was going on. As long as he turned on this skill, we stayed on the wall. All the tens of thousands of people died, and the others that did not die were fighting and riding. “

“How is it possible, who can kill hundreds of thousands of people at once?” Daniel asked.

Andrea said silently: “That’s it, and more than that, this skill seems to have no cooldown time. We just resurrected in the safe area. After Lu Yang came, we put another ninth hell, and we were all dead again. . “

Daniel opened his eyes suddenly and asked, “What about the main city?”

Andrea said: “Has been captured by Lu Yang, you should come back quickly, otherwise the city’s government house will be lost after 2 hours. Now we can’t even go back to the security zone of Ironclad City. If you do n’t The Legion sent back will definitely not win the 100,000 Luyang. “

Daniel sighed in his chest, not to mention being depressed, cursing: “How did you direct and how did you do that?”

Andrea was also depressed. He said, “It’s not that I blame me. Lu Yang brought us a skill and it took us all seconds. If you don’t believe you ask other people, I haven’t even had time to command.”

If this matter really counts, it’s really no surprise to Andrea. When it comes to the art of conducting, Andrea is also a master in the last life, otherwise he wouldn’t be sent back by Daniel and only 200,000 people defend the city.

At that time, Daniel thought about it. As long as he was under the tiger mouth fortress, he could teleport Andrea at any time, but the reality gave him a loud slap, and Andrea who was given his high hope, even Lu Yang’s face was blocked.

But what he didn’t know was that Lu Yang was holding a 9th-level demon heart, and a 160-level demigod suit, and the total body damage was more than 1.2 million, and 75 ignored the magic resistance. This is for ordinary players. Said, it is already a god-level existence, and they can be dropped by any skill.

“Damn, what should I do now?” Daniel asked, looking at Kerim and Step into the sky, and the British blood butcher.

Stepping up to the sky and others are also helpless.

“It shouldn’t be, how could Lu Yang have such a powerful strength.”

“There must be something wrong here. Could it be that Lu Yang used special items like scrolls?”

“It’s very possible, but there’s no guarantee he will have only one of them,” Daniel said.

“You wouldn’t want to go back,” asked Deng Tiantian.

Daniel said, “Is there any way I can’t go back? Do you want me to watch my main city fall one by one?”

Kerim, Blood Butcher, and others were speechless. Who can watch the hard-built main city be taken away by the other party, even if it is not taken away, as long as Lu Yang sells the city’s items, Daniel cannot bear it? Up.

“In this way, you go back to 500,000 first, how about leaving 500,000?” Asked Deng Tiantian.

Daniel said, “Well, then I’ll take a bet and see if Lu Yang still has a scroll.”

He issued an order to his subordinates. All 100 legions in action stopped at once. Among them, players of 50 legions took out the city scrolls and flew back to the main cities of Dante and Augustus.

Han Fei, who was hiding in the space not far away, saw this and immediately reported the news to Lu Yang, Tu Feng, White Lion and others in the simulation group.

Lu Yang sneered and said, "I just came back to 500,000 people. I really look down on me."

Tu Feng asked, "Boss, what are you going to do next?"

Lu Yang said: "Order, Han Ying and Han Yu are ready to participate in the war."

"Yes." Han Ying and Han Yu were playing spirit beasts in the wild, heard Lu Yang's request in the simulation group, and flew to the tiger mouth fortress to prepare.

Both of them have a level 9 **** heart, Han Ying is the heart of destruction, Han Yu is the heart of death, and everyone has the power to slaughter the city alone.

"The enemy sent 500,000 people back, and we immediately withdrew. You divided the team into three, 10,000 people went to the city of the soul, 10,000 people went to the city of the border sea, and 40,000 people rushed into the emperor." City, but do n't rush past it immediately, go around the city and pass by. "

The City of Souls is a main city of the Blue Moon Guild in Turkey. The Iron Armor City is 2 hours away, but it is less than an hour in front of the Wild Wolf Legion. The edge sea city is the closest to the City of Souls in the Blue Moon Guild. One of the main cities of the Great Emperor is the most important main city of the Italian Iron Wing Guild.

Lu Yang took out the teleportation scroll and flew back to the tiger mouth fortress. His mission has been completed and he will wait for the next teleportation.

The Italian player lurking outside the city saw the Brotherhood of the Iron Blood leaving, and immediately reported the news to Andrea, and Andrea reported to Daniel.

Daniel learned that when Lu Yang returned to Dante City immediately after his return of 500,000 people, he was so angry that he scolded: "Follow me, be sure to surround this group, destroy them, and kill them."

“Yes.” Andrea responded quickly and set off from Dante with 400,000 people. Of these 400,000 people, 100,000 were special regiments.

“Why, the enemy ran away?” Asked Deng Tiantian.

Daniel nodded and said, “Korim, you have to be careful. According to my reports, the 100,000 people who are arrogant and mighty are heading for your soul city.”

“What?” Kerem was startled.

Daniel said, “Don’t worry, I’ve let my half a million people chase after me. If they dare to hit the city of souls, I will destroy them.”

Kerrim was relieved, but he still said, “I have too few defensive personnel, and I want to transfer back 100,000 people to participate in the defense.”

Stepped to the sky and sighed, saying, “Okay, take it home.”

In Kerim, the last 100,000 people teleported back to the City of Souls. Today, the total number of players attacking the Tiger Mouth Fortress has changed from the initial 5.5 million to 4.9 million.

But one step to the sky felt that Lu Yang would not give him so many people the opportunity to attack the fortress. As they continued to move forward, the other side, with great pride, successfully led 60,000 people to the city of soul.

“Build a sentry tower,” said with pride.

In the dense forest outside the city, five sentry towers were built, and then, the light flashed, and Lu Yang appeared under the sentry tower with another 5 forbidden mages and 500 people. Two sisters Han Ying.

Pride said to Lu Yang: "Boss, there are 400,000 chasers behind us, and we can reach the soul city in about an hour."

Lu Yang asked, "What about the defense on the city?"

"There are about 100,000 people," said Pride.

Lu Yang sneered and said, "You take 10,000 people to the city of the border sea, and give it to me here."

"Yes." Wanqing Wan turned back to the back, and rushed towards the city of the border sea with 10,000 people.

Lu Yang said to Han Ying around him: "Using skills to infinite purgatory."

"Observe." Han Ying smiled playfully and turned around to summon the gray-winged fallen angel, Sky Devourer, and Hell Ares.

The Turkish player in charge of the guard standing on the city wall was watching the city vigilantly, and suddenly a player shouted.

"Oh my god, how could there be a gray angel."

"Look at everyone, there are angels flying over there, gray."

...

In the shout of the defender, the 6th Army Commander Calvani frowned and looked at the player's finger. Sure enough, a gray-winged angel was slowly flying towards the city wall.

"Destroy him," Calwani said.

“why?”

“Not like an enemy.”

“Yeah, this angel has no name.”

...

Players disagree.

Calvini yelled, “Shut up and listen to my orders, as soon as the opponent approaches within 100 meters, attack immediately.”

“Yes.”

...

The archer reluctantly opened the bow and arrow and aimed at the fallen angel, but the fallen angel did not reach within 100 meters at all, but stopped at a position of 200 meters. At this time, a player found that, under the angel, stood A woman with green hair.

“Who is that?”

“Huaxia’s face?”

“Not good. It’s the enemy. It’s the Brotherhood of Jagged Brothers.”

...

With their voices, the mad wolf warriors came out of the forest, each of them was in the form of giant wolf, glaring at the city head and fangs.

In front of the ten thousand wolves, there were also a three-headed, hell-fighting **** of war and a ferocious bite-eater.

“Who is this woman, and why are all beasts around him?” A player on the city asked.

“I don’t know, we’ll defend the main city, and the anti-war and anti-riding are ready for the shield. This woman has a problem,” shouted Captain Calvani.

Han Ying heard Calvani’s voice 200 meters away, a smile on his face, and a spell in his mouth.

“Boundless Purgatory”

At this moment, the entire sky became fuchsia, and numerous purple rays fell from the sky.

“1758686” (Critical)

“1758968” (critical strike)

...

Calwani is a mage. Facing such a high amount of damage, he only persisted for 1 second and fell to the ground.

“Iron Brotherhood, kill ~!”

Lu Yang roared and rushed towards the gate with the mad wolf legion. At the same time, the God of War and the Devouring Tiger and Fallen Angel rushed towards the gate.

“Earthquake”

“Earthquake”

...

On the ground below the city wall, a rumbling sound was heard. A huge soil **** with a diameter of 80 meters passed directly from the ground to the top of the city wall.

Calvini was killed on the ground in the first place, there was no way to command, and the city was like an armored city, except that it was invincible and it was all dead.

When Lu Yang rushed to the top of the city with his team, he encountered almost no resistance, and the resurrected players in the safe area of the city just rushed over.

“The Ninth Hell”

Lu Yang launched his skills in the sky, killing all 100,000 people, so that these 100,000 people did not understand how he died, and he was resurrected three times in a row, only to find that it was Lu Yangfang’s skills, and he dared not resurrect in the city. , Hiding in the city of the edge of the sea.

After Calvini’s resurrection, he contacted Korim depressively, saying, “Boss, I failed, and the city of soul was broken by Lu Yang.”

“What?” Kerem was frightened and asked, “Why did you fall so fast?”

Calvani said: “We encountered a fuchsia flame, and we didn’t resist for 2 seconds, and we were all killed.”

“It’s **** Lu Yang again, he set fire to kill all our players in the city of souls.” Kerim said to Daniel and Budeng Deng and others.

“How can this happen?” Said Deng Tiantian.

“Don’t worry, I’ll send someone to help you, and I’ll take back the city of souls,” Daniel said.

One step up to the sky, he was relieved, and now he was really afraid that Kerim would also take someone back. That would be awful. He said, “Yes, with Daniel’s protection of 400,000 people, there won’t be any problems behind everyone.”

“Thank you,” Kerem told Daniel.

Daniel was about to agree, but heard news from his men.

“Sir, Mr. President, Lu Yang’s 40,000 crazy wolf legion has rushed to the city of the Emperor and is storming the city of the Emperor.”

“Asshole,” Daniel was furious, and said to Kerem, “I can’t send someone to help you, you’ll send someone back soon.”

He sent a message to Andrea, saying: “Immediately take 400,000 people to the city of the Emperor, and there must be no problem there.”

“What’s going on?” Kerim asked.

Daniel said, “Lu Yang divided the lofty troops into two parts, one went to the city of the soul, and the other went to the city of my emperor. You know, that’s my main city.”

“Isn’t it enough to divide your team into two parts?” Asked Deng Tiantian.

“Do I dare, what if Lu Yang still has the special scroll of fire in his hand? Lost the city of the emperor, can you compensate me?” Daniel asked, staring up into the sky.

One step to the sky, he still has a lot of loans unpaid. Where can he help Daniel, and he does not want to repay Daniel, their alliance is only against Lu Yang, before they almost fight.

“You take care of it yourself,” said Deng Tiantian.

Daniel knew that he would say so in one step, and sent a message to Andrea, saying: “Immediately teleport back to the city of the emperor and fight against him outside the city. He is never allowed to bring people into the city.”

When Kerim saw Daniel saying that, he could only sigh, and just as he was trying to find a way, his men sent him a message that made him panic.

“Boss, outside the city on the edge of the sea, met the mad wolf legion of the Iron Brotherhood, the number is tens of thousands.” Calwani said.

“Damn it, the army stopped moving,” Korim shouted.

The players of 1 million Kerem have been suspended one after another, and several vice presidents led by them have asked, “Boss, what should we do?”

Stepped to the sky and rushed and said, “You can’t transfer too many people.”

“I know, with 500,000 people transferred, Barrama and Trimy each returned to the city of the soul and the city of the sea with 25 legions to participate in the defense,” Kerem said.

“Yes.” Baraja and Trimy each promised to go down, found 25 legions of each, and flew away using teleporting scrolls.

Originally, only 4.9 million legions were left, another 500,000 were missing, and only 4.4 million were left, which made it a helpless step.

“Damn, 1.1 million less. I am now skeptical of slaying the tiger fortress.” The blood butcher said.

Looking at the hundreds of trebuchets behind him step by step, he said, “The main means of siege still rely on these things, and the others are not the main ones. As long as the trebuchet is still we have a chance to win. “

Everyone nodded.

“Keep going, don’t be delayed by this incident, I believe Lu Yang has no ability to mobilize our people back.” Deng Tiantian said.

The blood butcher sighed. He felt that his next goal was himself, but he did not say that he was still advancing with the large army.

Soul City.

Suddenly 250,000 people returned to the city, causing a lot of loss to the Iron Wolf Brothers’ mad wolf legion. Fortunately, Lu Yang was in the city and launched the ninth **** to rescue them, but Lu Yang also knew that the enemy began to order large troops to return to the city.

“Withdraw, it doesn’t make sense to stay here, you take someone into the mountains, and when the lofty sentiments come back, I go back first.” Lu Yang left a message to the deputy head of the crazy wolf army, using teleportation himself The scroll flew back to Tiger Mouth Fortress.

He quickly came to the west wall, and Xia Yuwei, Liang Yun, White Lion, and Tian Yao were waiting for him there.

“Boss.” Everyone said hello.
