Chapter 1221 - Broadcasting fees arrive

Lu Yang looked at the others and asked, "Whoever wants to trade with me, I'll trade with him."

Lu Jie, Kerim, and others are all full of doubts. According to past experience, Lu Yang is a sly fox. Every time they are deceived by Lu Yang, this time Lu Yang obviously re-exercises his skills. Let them have doubts again.

Alice covered her mouth and smiled slightly, and said, "President Lu Yang, since you like this place so much, that little girl will make a decision without permission. How about it here?"

Lu Yang smiled and said, "It depends on everyone here, in case someone grabs it."

Alice laughed, and stared at Lu Yang with a wink, as if to say that you are really naughty, she glanced around the scene and said, "It looks like no one wants to **** here with you, so it's so fixed From Tianyuan Shencheng to Taohua Island, they belong to the Brotherhood of the Iron Blood. "

Lu Yang shrugged and said, "Yes."

Liu Jie cleared his throat and said, "Since this is the case, I choose to be in Sixiang City."

"We choose the Scarlet Desert."

Lu Yang looked at them coldly. The Scarlet Desert was diagonally above Taohua Island, and the Sixiang City was below Taohua Island. The two super empires were equal to sandwiching Lu Yang in the middle.

At the same time, Liu Jie and Gelgar both stared at Luyang Yang with great expressions of provocation. Just as the three parties were out of control, Alfonso broke the silence.

“Then I’ll be closer to the brothers Galga, and I will choose Seven Star City.” Alfonso said.

The eight presidents, including Gerga and Kerim, collectively looked at Alfonso. There was no fraternal relationship between them, not only brothers, but also deep hatred.

The Kingdom of Spain, where Alfonso is located, is in the eastern mountainous region of the New World, and is closely connected with the G-8 of the Group of Eight. There is currently only one passage between the two countries. On one side of the passage, there is a fortress built by Gherga. The main city built by Alfonso.

In other words, Gail stepped up to hold Alfonso’s throat out of the eastern mountainous region and into the hinterland of the Central Plains of the New World, forcing Alfonso to be helplessly trapped in the eastern mountainous area and unable to come out.

Lu Yang knew this clearly and said to Alfonso with a smile: “I said for him, welcome, I believe that the four of us can have fun.”

Alfonso didn’t wait to speak, Gaddafi stood up and said, “I’m going to Huolin City.”

“Haha.” Alfonso laughed and said, “It looks like some of us are really good brothers.”

Lu Yang laughed, but everyone around him sneered. Who knew that Gaddafi had vengeance against Liu Jie since the old continent. This is the strongest guild in the new continent ready to fight against each other.

Liu Jie and Gelgar both felt bad. Originally, the two wanted to jointly deal with Lu Yang, but did not expect Alfonso and Gaddafi to join in, and became three to two, but they became weak. The party.

Liu Jie and Gelgar looked at each other and returned to their seats to think about how to solve the immediate problem. The presidents of many of the strongest guilds looked at the two, apparently, they were already connected.

Lu Yang dragged Gaddafi and Alfonso to sit together, and the three chatted.

“Let’s join forces, how about it?” Alfonso asked with a smile.

Lu Yang asked: “What conditions?”

Alfonso said: “Apart from other conditions, what about the three of us who first joined forces to drive Liu Jie and the Group of Eight out of the northern part of Tianyuan God City.”

Gadafi smiled and said, “I agree.”

Lu Yang smiled and said, “Okay, that’s it. Let’s kill them first and join hands to monopolize the entire northern area of Tianyuan God City.”

Cadafi and Alfonso each whispered a whisper. The three alliances not only locked the northern area of Tianyuan God City, but also the entire northern region of the New World. The three alliances were equal to the three equally divided northern regions.

However, this alliance is destined to be empty talk. The three of them are absolutely impossible to become allies. On the contrary, they are more likely to become enemies.

Gadafi borders with the super guilds of North Africa, France, and Germany. The four of them are in a daze and they can come to Luyang at any time. It can be said that one family and four families are moving. Although he and Gadafi are far away, But they can become enemies at any time.

As for Alfonso, Alfonso has only time left to unify the entire eastern region. If he were to leave the eastern mountainous area, the first thing he would look for was Lu Yang’s trouble.

Lu Yang’s geographical position is too superior. Overall, Lu Yang attacked Alfonso from top to bottom. On any map, Lu Yang was an attacker from top to bottom. Alfonso It was the defensive side from bottom to top, which hurt him.

The two of them formed an alliance with Lu Yang. They also said these words at the same time. The two did not have any sense of stagnation. Obviously, they had planned for a long time. The two profit from it.

Lu Yang wasn't stupid, so he didn't fall for this. He promised to say casually that the alliance between the strongest guilds or the strongest guilds nearby was nonsense.

While he was perfunctory for two people, his telephone rang.

"Dididi"

Lu Yang picked it up and looked surprised, his phone call turned out to be the official Global Vice President of the Second World.

"Well, my face is big enough." Lu Yang muttered to himself, he stood up, found a corner where no one was, and pressed the connection button.

"Hello Lu Yang, this is Lopeji." Lo Peggy, the big bald head, said to Lu Yang with a smile, he and Lu Yang had met at the awards ceremony of the finals.

Lu Yang said with a smile: "Why did you call me in person? I am flattered."

Lopegy laughed and said, "I'm here to send you money."

"Send money?" Lu Yang asked with some experience.

Lopegi nodded and said, "Yes, it is to send you money. Since last year, the official officially signed a broadcast contract with television stations in various countries and major online media. It has been exactly one year so far. Fee. "

Lu Yang smiled and said in surprise: "We still have a broadcasting fee."

Lopegi laughed and said, "Of course, not only, but also a large sum, guess how much."

Lu Yang said with a black line in his forehead, "How can I guess?"

Lopegi said excitedly: "Only your family's broadcast fee is 330 million euros."

Lu Yang was dumbfounded and said, "So much?"

Lopegi said: "Of course, after tax deduction, give me a card number, I will directly call your card."

"Okay." Lu Yang sent a card number to Lopegi, and the other party immediately called Lu Yang for 330 million euros and 2.541 billion credit points.

"You have done well in the past year, man, continue to work hard and look forward to your new year's performance." Lopegi sent a message to Lu Yang and quit the game.

Lu Yang looked at the extra money on the card in amazement and had no idea what to say. Even if he didn't lack money, the extra money in the game was enough for him to do a lot of things.

He returned to the banquet, Alice and others had completed the map allocation of the New World, and everyone was dancing and communicating happily.

Alice saw Lu Yang come over and said with a flattering voice: "President Lu Yang, you really don't give face to the younger sister, I take the initiative to add you, you don't agree."

Lu Yang smiled and said, "I'm much younger than you. You don't bring this."

Alice was startled and said, "I hate it, and surely I've investigated people and know their specific age."

Lu Yang said with a smile: "Thank you for your help this time. After that, I will thank you for the opportunity. Today I have to go first. There is something urgent."

Alice didn't keep Lu Yang too much, said: "Well then, I hope we will have the opportunity to cooperate in the future, believe me, you will get a lot of benefits from me."

Lu Yang smiled and left, he didn't want to be unhappy with this woman. For Lu Yang, this woman was a bit scary.

Once a woman with a very beautiful identity and culture has dropped her dignity to do that kind of thing, it is very scary and powerful, and she can ruin the world in half.

There are many such women in the history of China. How many princesses of nobles and nobles put down their bodies to do such things, and the country was almost destroyed by them.

Lu Yang left the hotel, glanced back and found that Alice was standing on the balcony on the third floor and looked at him. He smiled at Alice, used the transfer token to fly to the safe area, and found a hotel to rest.

Although the King of Hell in this life did not destroy the Tianyuan God City, the ghost knows that there is a second King of Hell in prison. If anything, the safe zone is the most unlucky place, and he died here in his life. Are to be laughed at.

System prompt: Neuron connection is broken

You exited the game

Lu Yang quit the game. At noon, he came to the cafeteria outside. Most of the Jagged Brothers players were eating here.

The huge and beautiful buffet cafeteria, no, it should be said to be a hotel. It is the favorite place for every Jagged Brothers player to come here to eat every morning, noon, and evening. Dozens of dishes, dozens of desserts and several Ten drinks made them linger.

When Lu Yang entered the cafeteria, Xia Yuwei and Zhuo Jiu and their vice-chairmen had already started to eat, but many vice-chairmen did not get together to eat, but with their brothers.

No way, it's no longer the little guild of the past. Everyone has a group of brothers who are willing to work hard for them. They usually have to level up and level up together online. When they eat at noon, they can take the opportunity to talk about their work in the afternoon. , Or gossiping about something that promotes feelings.

So far, one of the best things about the Jagged Brothers Alliance is that the vice-chairman has nothing to do, just like an ordinary player. When you eat at noon every day, you don't care if you are a person who advocates a higher life. At this time, you are a Ordinary players.

The matter was brought up because of the demonstration Lu Yang gave them. At first, a player got married. The two were worried about whether they should invite Lu Yang to come. In the end, they sent an invitation.

On the same day, Lu Yang really came and gave the two of them a certificate of marriage. Later, when they ate, there wasn't any shelf. If they had to fight with their brothers, they would fight. When he was punished for singing, Lu Yang sang.

Just as Lu Yang is their neighbor and their friend!

Tianyao and Liangyun didn't know how to get along with their subordinates. When they saw Lu Yang, they all understood it. Therefore, every time they went to the cafeteria, this place became the happiest place of the Brotherhood of the Iron Blood.

Regardless of whether it is the boss or the subordinates, they all gather together to eat and chat, and there is no humility. When Lu Yang came here, except for some people who greeted him, more people walked away with a smile and ignored him. .

Lu Yang still asked the waiter to find the two vice-chairmen of Zhuojiu and Tu Feng among a group of people. Recently, Tu Feng was the God of Wealth, and the various medicines in the guild were taken from Tu Feng.

Land reclamation, even if there is a game given by Lu Yang, the players' advancement is not smooth. Sometimes a lord can card for a whole day, or even a week, and one potion is used every hour. Counting it down, only one vice chairman will consume tens of millions of bottles of medicine a week, and a bottle of medicine is worth 1 yuan, which means that a vice chairman will use tens of millions of credit points a week.

This is the case where the Brotherhood of the Iron Blood has trained senior pharmacists and a large number of players to collect potions. Lu Yang guessed that Tu Feng has distributed potions to them today. These people thank Tu Feng.

"Boss, you are here." Zhuo Jiu asked with a smile.

"Boss." Tu Feng also stood up, his face a little embarrassed.

Lu Yang patted his shoulder with a smile, and said, "You two go and inform the other vice presidents, let's go to the bread room and have a small meeting."

"Okay," said Zhujiu, and he patted his brother next to him. "Come on, find another vice-chairman."

"Oh." A group of people ran away.

Lu Yang turned his head and went up to the third floor. When he sat down, he called the chef and ordered a few dishes. As soon as the dishes came here, more than 30 vice-chairmen of the muddy wine arrived.

"Boss." The muddy wine led them in.

Lu Yang motioned them to sit down first and said, "Eat first, it's a trivial matter."

Xia Yuwei was holding a **** in her mouth, and said, "What are we going to do with small things?"

Lu Yang said with a smile: "The official global vice president Lopegi just called me and said that this year's global broadcast sponsorship costs me a total of 330 million euros."

"What!" Xia Yuwei's **** was dropped, her eyes brightened, "330 million euros?"

They were all excited about the turbid wine and Tu Feng.

"Boss, a windfall."

"So much money, you're rich."

...

All excited.

Lu Yang said with a smile: "Let me tell you how this money is used. First of all, we are opposite the studio building and the dormitory area. I am going to buy it."

He stepped into the prison one step at a time, and his studio building was empty. Lu Yang thought he had bought it in full. Later, he learned that the loan was all sold out. The court went back to the studio building. , Ready to auction, he just bought it, ready to use it for newcomers.

Tu Feng asked, "Boss, who is it for?"

Lu Yang said: "The professional players recruited this time, the 30,000 people in Zhuojiu, you have them come over after the year."

"Yes," said Zhujiu excitedly.

Tianyao and bitter love for half their lives looked at Zhuojiu jealously. This is not only an honor, but also a real big benefit, which is equivalent to that Zhuojiu can direct 30,000 people in a building.

“The muddy wine is going to heaven now.” Habitually laughed and said for a long time.

The turbid wine turned red, and he did not expect to have such a loss. The 33 people who commanded the 100,000 people in this building were very satisfied, but this time it was not comparable, this time he had a An all-weather combat force can always be on the battlefield with him.

Lu Yang said, “You don’t need to envy him. When he’s done there, it’s you.”

The crowd then recovered their envious look.

Lu Yang went on to say, “I do n’t think I will spend too much money to buy that area. It is estimated to be a few hundred million. The second is that I am going to give benefits to the players’ brothers. This ca n’t be done with more money. If you work in the studio, let’s get a cotton jacket for everyone. “

“Cotton jacket?” Everyone was puzzled.

Lu Yang said, “Cotton jackets with the exclusive pattern of the Jagged Brotherhood, from me, everyone wears such clothes to work, we have to become more cohesive.”

Tu Feng asked, “Uh, what’s the budget?”

Lu Yang said: “You just look for good fabrics, and in terms of colors, follow the advice of experts, and also open a suggestion post in our guild, ask what color clothes you like, and finally tell me in summary.”

“Yes,” Tu Feng said.

“As for the third purpose, I plan to increase the investment in living materials in the game. With our current ability, fighting is not a problem, but some problems have arisen in the logistics.” Lu Yang saw Tu Feng’s face a little embarrassed and said: “This is not a problem for Tu Feng, but I didn’t expect the guild to develop so fast. This requires us to expand our logistics.

Starting today The number of forging, tailoring, leather making, refining, scrolls, moire, and gems has doubled, telling the brothers in the guild that after one week, the Iron Brothers players can buy with points. I do n't need to spend any more on the items. Of course, there is a limit. They are not allowed to sell our stuff. I ca n't stand it. "

Everyone's faces showed an excited look. For this item alone, the 330 million euros were basically used up. There were too many players in the Iron Brotherhood, but there was also a benefit to this. Even higher.

"Boss, our Iron Brotherhood will fight at least twice as much as other guilds." White Wolf said.

"Hey, the next time there is war, we have to fight for it."

Tian Yao said with a smile: "We need to limit the number of people participating in the war, otherwise the command will not come, haha."

Everyone laughed.

Lu Yang laughed and said, "Eat."

This money really helped Lu Yang a lot.

Chapter 1222 - Archbishop's Bloodline Fruit

It is conceivable that these super guilds must have all the money. I am afraid that Tianlong in the prison can share the money, but no one can throw money into it like him.

Isn't it 330 million euros? Lu Yang doesn't care at all. It is used to provide benefits to the guild players.

Noon that day.

After having lunch, Lu Yang brought Tu Feng to the court and learned that Lu Yang and his party were here to buy the land. The court was so happy that he called the bank quickly, and the bank was also very excited. No one in the studio was willing to accept it, because right next to Luyang, they wouldn't come unless they wanted to fight Luyang.

"Chairman Lu Yang, you are really a high-flying festival. You can buy it, it really solves the annoyance of our bank." The president personally gave Lu Yang a smile.

Lu Yang said with a smile: "Let's say okay, just this time, you dare to set me up this month later, I won't clean up this mess for you."

The governor wiped his sweat and said, "Of course, of course, I blame me for being cheated by Zhang Hong at that time. Later, I knew that his name was One Step Ascension. Isn't this your enemy, but it's too late."

Lu Yang patted him on the shoulder and asked, "How much is it?"

The governor said quickly: "Not much, absolutely not much, no matter how much it costs, we won't make that money, 70 million."

Lu Yang was happy. I didn't think the president was really interesting. He directly cut the price by 40%, which is equivalent to giving him a 40% discount. This price should have been the starting price of the auction house. It has not been two months. The auction was estimated to have been given to him by the governor as Shun Shui.

"Count on your sincerity." Lu Yang inherited the relationship and said, "Let's go, let's go through the transfer formalities."

“Well, okay.” President Le Bianer took Landing Yang to go through the formalities. When Lu Yang brought Tu Feng back to the studio, he looked at Yuan Yibo, who was across the road from the studio, and said, “This is us. Yes, find cleaning and clean up, and follow-up other things, all left to you. “

“Yes.” Tu Feng went to work happily.

Lu Yang returned to the game city, entered his room on the 33rd floor, put on a helmet, a flash of light flashed, and he appeared in the hotel of Tianyuan God City.

“Brother, something went wrong, you come over and take a look, smiling and bullying.” Lan Yu called and said.

Lu Yang is happy, the little is the cute queen, her real name is Chu Xiao, and her name is Xiao Xiao. After she knew Lan Yu, she stuck to Lan Yu. She could n’t wait to sleep with Lan Yu. Become a sister.

Lu Yang knows that this sticky little guy has a real temperament, but this character is too human, and sometimes it’s okay to look at the roots of the teeth she hates. This time, someone was packing her up, and Lu Yang was quite happy.

“Who is so powerful, and he can clean up and smile.” Lu Yang asked.

Lan Yu said, “You are still laughing. Xiaoxiao is really bullied. The bad guy hits her chest every time he attacks. Xiaoxiao is crying.”

An unhappy expression appeared on Lu Yang’s face, saying, “Who is so brave, where are you?”

“The gate of Peach Blossom Island.” Lan Yu said.

“I’ll be here.” Lu Yang came to the teleportation array and chose Peach Blossom Island, a flash of light flashed, and he appeared in the security zone of Peach Blossom Island.

“Summon Flying Carpet”

Lu Yang slowly rose into the sky and flew towards the gate. At this time, Peach Blossom Island had been occupied by the players of the Brotherhood of Iron and Blood, and 50 to 60 million people gathered here, although compared to hundreds of millions of These players are nothing, but Jagged Brothers players wear the same guild badge on their chests. On average, every 10 people can see a Jagged Brothers player, which is very scary.

In particular, more and more Jagged Brothers players are gathering here. It is estimated that by night, more people will wear badges, including those from India, South Korea and the Nine Star Alliance area.

Peach Blossom Island has limited carrying capacity, and guild players will eventually have conflicts with ordinary players. Lu Yang has previously demanded strictly. If anyone dares to bully scattered people based on the identity of the Jagged Brotherhood, he will be fired regardless of position.

The Jagged Brothers Alliance relied on scattered players, and it will never do bullying. This is what Lu Yang has always insisted on, but this does not mean that Lu Yang allows the scattered people to bully the Jagged Brothers Alliance unscrupulously, or with such humiliation. Way bullying.

Soon, Lu Yang came to the gate of the city. When he didn't reach the place, he saw a group of people under the city wall on the left side of the gate. One of them was from the Brotherhood of Iron and Blood. There were many people, at least several hundred. There are only five people on the other side.

Chu Xiao was standing in the middle of the venue, crying, beside her was the blue feather carrying her, looking at the five people in front of her angrily.

“Boss is here.”

“Chairman is here.”

...

Lan Yu looked up, and Lu Yang stood on the flying carpet and slowly fell to the center of the field, beside her.

“What’s going on?” Lu Yang asked.

Chu angrily pointed at the opposite boy and said, “He bullied me, ah ~~~!”

As soon as Lu Yang heard this cry, she knew that laughter was bullying, but how could you listen to it?

Lan Yu said: “The five of them accused Xiaoxiao of the private practice leveling, and the two sides quarreled and looked for Xiaoxiao to single out. Later, when they singled out, they were standing in front of them and playing hooligans when they attacked.”

“I, I, I didn’t!” A young man with a bright-eyed face opposite Xiaoxiao smiled with embarrassment and said, “I, I, I didn’t mean it.”

“You did it on purpose, how could you let me see anyone?” Xiaoxiao cried.

Lan Yu took advantage of this time to send the video clip to Lu Yang, in this clip, the opposite priest attacked with the Holy Light Ball skill, which made Lu Yang interested.

Those who can release the Holy Light Sphere are skills that can only be released by the Archbishop-level priest who turns three times. This trick can summon 6 Holy Light Spheres at the same time and rotate around the Archbishop itself. Body defense.

However, this ball also had a shortcoming in the previous life. It was called a hooligan ball because the position of the ball was fixed, but in the game, the height of people was different.

Some people are one meter nine and others are only one meter six. This results in that when the light ball is hit, it is an abdomen for some people and a chest for some people.

Lu Yang looked at Chu Xiaoyi’s height of one meter six, and looked at the other person’s one meter eighty-eight head, and said, “Little brother, this thing really can’t blame you.”

The opposite guy was relieved immediately. When he saw the chairman of the Jagged Brothers Alliance coming, he was really taken aback and thought that these brothers were about to die, but now it seems that Lu Yang is a reasonable person. people.

“I didn’t do it on purpose, that is, ...” The guy wanted to say that Chu Xiao was short, but couldn’t say.

“You tease me and say I’m short, you bully, ah ~~~~” Chu Xiao burst into tears.

In the boy’s collapse and embarrassment, the four brothers behind him also looked helpless. Obviously, they were all well-taught children. There was no way to dispute this.

“Chairman Lu Yang, this, this ...” The guy didn’t know what to say.

Lu Yang smiled and said, “You saw it too. You bullied my sister like this. You can’t count it like that.”

“I, I apologize,” the guy said.

“No,” the cute queen cried.

“I, I apologize in person, my school is in the East China Sea, and I’ll take a taxi here,” said the guy.

“Let’s also come, we apologize together,” said one of the four little guys behind him.

The other three nodded quickly.

Lu Yang Yile said, “You think about it, it’s very difficult for you to leave alive when you come here. It’s easy for these little fairies to eat you.”

Chu smiled unwillingly and said, “Come here, I want you to apologize in person.”

“Come here, come here.” The guy quit the game quickly, and a few little guys discussed and decided that five people would come together.

“I’ve acknowledged being beaten and scolded. The girl did not bully us. It was because we read it too much. Moreover, when the fifth child just fought, it was a bit unkind.” The old dormitory laughed unkindly.

The other three brothers laughed.

Guan Qingfeng, who was called the fifth child, said silently, “A few of you are still laughing, I’m dead, it’s over.”

“It’s okay, some of our brothers will accompany you.” Boss Zhou Hu said, holding his shoulders.

“Just, carry it together.” The second, third and fourth dormitories said together.

...

On the other hand, in the studio, Chu Xiao, who was bullied, was crying and crying. He wiped away tears while convening more than 20 sisters.

“I was so humiliated for the first time in my life. I can’t forget it.” Chu Xiao said with gritted teeth.

“Smile and laugh, let’s say how to pack up five of them.” The good sister Luo Shen asked, this is another little fairy, which was found by Chu Xiao. Rich second-generation girl, likes to play games, and is very responsible. At present Head of a mage regiment under Chu Xiao.

Chu smiled with a small fist and said, “I want to make them look good.”

The girls nodded together. After Chu Xiao waited for a few girls to think about Guan Qingfeng, he gave him a fat meal. How and when, the five brothers in Guan Qingfeng’s dormitory had arrived at the studio building. Doorway.

Just getting out of the car, Chu laughed that more than 20 girls were about to embrace them, but when these little fairies saw Guan Qingfeng's face clearly.

"Okay, so handsome!"

"Handsome guy, the first time I saw such a handsome person."

...

More than 20 girls were instantly in full bloom, and then swarmed into the backup hallway of the studio alone.

"噫"

Guan Qingfeng slammed his back against the wall of the corridor. He looked in horror at the beauties in front of him, and asked in a pinch: "That, that, that, what, sisters, who is the lovely queen. "

"Do you think we're old?" Chu smiled angrily, and stared at Guan Qingfeng, less than 10 cm away. "I'm the cute queen, let's say, how do you want to apologize."

"I was wrong." Guan Qingfeng collapsed. At first he thought he had come to suffer at most. How could this be like this? It was more painful than suffering.

"It's over when it's wrong."

"Can we calm us in one sentence?"

...

With more than 20 girls yelling, Guan Qingfeng felt that a hundred chicks were screaming in his ears.

“I’m really wrong. You say what I want to do, what I can do.” Guan Qingfeng begged for mercy.

The cute queen grabbed Guan Qingfeng’s clothes and touched it, uh ~~ , it feels good. Looking at Guan Qingfeng’s beautiful face up close, the cute queen’s face shows a smirk expression.

“Hey hey, you can apologize, then you are like this ...” The cute queen said her request.

“Ah ~ !!!” Guan Qingfeng quickly covered his clothes and said, “No, no.”

“You can’t help coming here, sisters, come on.” The cute queen beckoned, and more than twenty girls rushed up.

“No.”

“this is not OK.”

“pants.”

“My pants.”

...

In a blink of an eye, Guan Qingfeng had nothing, and looked at the lovely queen with tears in her eyes and said, “Sisters, I was wrong, so I can’t do this.”

The cute queen smugly looked at Guan Qingfeng’s shoulder, and said with a look over her face: “Well, my sister is very satisfied today, so let me go.”

After speaking, he also pinched his pectoralis major muscles. Well, it feels good.

Guan Qingfeng swears that he was touched by a woman like this for the first time in his life.

As a good teenager, I have studied hard since I was young, because IQ has always been a high-level jumper, even if I have just completed a master's degree, I am only 18 years old.

He hasn't touched a woman very much, where he has seen such a girl as Chu Xiao, but this is the strange thing that Guan Qingfeng's inexplicable heart produced.

"Well, can I join the Jagged Brotherhood?" Guan Qingfeng asked blurtly.

"It's up to you?" The cute queen was about to take her sister away, and asked a contemptuous smile when she heard this sentence.

"Of course, I am a priest with the blood of an archbishop. I also know where the fruit of the archbishop is produced." Guan Qingfeng said unconvinced.

The cute queen's eyes were all bright, and she ran back to Guan Qingfeng, who was still bare, and said, "It's true, how much can burst out there."

Guan Qingfeng couldn't stand the look of the lovely queen, saying, "Can you let me put on my clothes first? I'm so uncomfortable."

The cute queen covered her mouth and laughed, then turned around and said, "Okay, okay, I don't want to see you, put it on."

Guan Qingfeng looked at Luoshen and other girls, Luoshen and a group of girls turned around with a smile.

Guan Qingfeng quickly put on his clothes, and he was relieved. "You turn around, I'll tell you where that place is."

Chu Xiao turned around and said, "Don't say anything, I'll take you to the boss. One yard is one yard. The news must be valuable. You can talk to the boss after you talk."

Guan Qingfeng thought right, and nodded. As Chu Xiao went to the 33rd floor, Chu Xiao called Lu Yang and talked about it while he was on the road. Lu Yang was thinking about how to give muddy wine. The team got a three-turn pastor team.

Lu Yang knows that there are three places where the blood of the priest can be dropped for three turns, but he does not cooperate well with the team of Zhuo Jiu. If there is a blood of the Archbishop, he can cooperate with the Divine Knight of Zhuo Jiu. Less than.

In the last life, the blood of the Archbishop has always been the main blood line snatched by the major guilds. The reason is that their skills have a lot of damage reduction effects. If there is a way, they can get a lot of blood of the Archbishop. It is easier to use than 1 million people.

He pressed the elevator switch. The exclusive elevator took Chu Xiao and Guan Qingfeng to the 33rd floor. After coming out, he searched in black and white routinely, and the two entered Lu Yang's office.

"Boss, I brought someone." Chu smiled and sat at Lu Yang's desk with a grin.

Lu Yang had a black line on his forehead and looked at Chu Xiao and said, "Sit down, but not without a chair."

"No, this is comfortable sitting." Chu Xiaojiao.

Lu Yang shook his head. This is all that Lan Yu used to look at Guan Qingfeng with a sigh. The guy was a little restless, but his eyes were more on Chu Xiao's body. Chu Xiao's free and easy look made him appreciate it. .

"Sit down and talk," Lu Yang said.

“Well.” Guan Qingfeng calmed down and sat on the chair in front of Lu Yang, saying, “Hi Boss Lu Yang, I’m Guan Qingfeng.”

Lu Yang asked, “You and Xiaoxiao said that you know where you can burst out a lot of fruits of the archbishop, is it true?”

Guan Qingfeng said calmly: “It’s true, we burst out three from there. I used one and sold the remaining two.”

“Then why don’t you continue to sell? This is higher than selling the news to me.” Lu Yang asked with a smile.

Guan Qingfeng shrugged his shoulders and said helplessly: “That place is very special. With our ability, we can only attract three monsters. The follow-up monsters are all twelve standing together. We can’t fight it.”

“Where?” Lu Yang asked.

Guan Qingfeng said, “It’s near the gate of Taohua Island It’s not far from the battle between me and the lovely queen. The moat there is not a shallow current, but there is a knot in it. Industry, you can go in every 10 days. “

Lu Yangmeng clapped his hands and said, “It was originally in this place. I said that I could not find a place by looking for books in the library.”

A group of players hired by Lu Yang are studying game books, including the underground palace of Taohua Island. The official record is that a dead **** buried him here, as well as the treasures collected during his lifetime.

One of them is the seed of the Archbishop’s Blood Vessel. After thousands of years, the seed of the Blood Vessel has become a big tree, and the fruit on the tree is the Archbishop’s Blood Vessel, which can be found in the palace, except for pangolins.

As a result, these rats ate the fruit of the Archbishop's blood, and became strange weird pangolin warriors of the Holy Light system. Some of them also transformed into human forms, and possessed the same ability of holy light cultivation.

Lu Yang has seen someone explode on the forum in the last life. A guild found a large number of archbishop blood, and then quickly opened up their guild to pass the 140-level copy. Unexpectedly, the entrance to this underground palace was close at hand, but he did not expect .

Chapter 1223 - Ice Dragon

Lu Yang said: "According to the market price, if you are right, this news is worth 1 million credits, but I know that the use of this archbishop's blood is really special, and I will give you an additional 1 million, a total of 2 million to buy you Message. "

Guan Qingfeng was stupid. He never thought that he could earn 2 million credits by moving his mouth. Although his family was good, the 2 million was too much for him.

"This, this is too much." Guan Qingfeng scratched his head and said embarrassed.

Lu Yang smiled and said, "If it's true, he's worth the price."

Guan Qingfeng thought for a while and said, "President Lu Yang, thank you for willing to spend so much money on this news. I have another request. I want to join the Jagged Brotherhood."

Lu Yang said: "Of course you can, but you must be able to pass the Jagged Brotherhood's membership examination. As for the later you want to join a specific army, such as the smiling and smiling legion, you also need to pass the test set by smiling and smiling."

Guan Qingfeng's eyes lit up and he said, "I must work hard."

Chu Xiao squinted and looked at Qingfeng, and said, "I'm not hiring, just leave after talking."

Guan Qingfeng made a sound, said goodbye to Lu Yang, and left under the guidance of the black sword.

Chu Xiao didn't leave. She looked at Lu Yang proudly, and said, "Brother, say okay, you have to give me the blood of these archbishops and not to others."

Lu Yang said: "Come down and see how you look, no girl at all."

Chu smiled proudly and shook his head, saying, "This is called free and easy, you don't understand."

Lu Yang was speechless. It is estimated that this girl didn't get mad at his dad at home. With such a daughter, she really liked and distressed him.

"Well, how about I change you with a better bloodline?" Lu Yang said.

"Change?" Chu smiled a little fox smile, and said, "I'm not trading at a loss, let's talk about it first. How do I change it?"

Lu Yang said with a smile: "The ice mage's bloodline, 1,000 people, can't be changed."

"Snapped"

Chu smiled and patted the table, saying, "It's a word, never regret it. I'm gone."

The little girl ran away like a gust of wind, for fear of Lu Yang's remorse, while running, she thought, this time it made a lot of money.

The blood of the ice master, everyone who has seen the last global competition, knows that the blood of the ice master is the ultimate output, with 1,000 people, enough for her small team to do things.

Unlike other people, Chu Xiao could not gather more than 10,000 people who can gather around to change jobs. His guild is mainly dominated by players at night and weekends.

Lu Yang looked at this Chu Xiao's back and laughed for a while, put on a game helmet, the light flashed, he appeared in the hotel of Tianyuan Shencheng, just entered here, and the maliciousness in the chat box below made him look There was a sneer on his face.

[World Channel] Ranwu Tianzun: The Brotherhood of the Iron Blood is bullying and leveling, and the lovely queen of Lu Yang bullies the voice of heaven and his four brothers at the gate of Taohua Island. The evidence is conclusive.

[World Channel] The Gate of the Sky: Lu Yang came out to explain that the guild formed by the San Xing Brothers Alliance would definitely not bully the San Xing, but now it is more bullying.

[World Channel] The Rain of Autumn: The Trash Brothers Alliance of the Garbage Association knows that more people bully less people, and what kind of scattered society is a group of garbage.

[World Channel] Wuguang: The essence is finally exposed. It is not the same as the bloodthirsty domineering of the year. They are a kind of garbage in nature.

...

Swipe the screen! Completely swipe the screen! A large number of people who did not know where they came from, slammed the Jagged Brothers in the game.

Within the guild, there were also chaotic sounds.

“What the **** is going on, who will explain it, if we bully others, we will resign.”

“Cute queen is too **** to do this, and urges to fire the cute queen.”

“Sully the guild’s reputation, the boss quickly fired him.”

“This guild is really bad. It’s boring and boring. It’s better to retreat.”

...

Lu Yang sneered and sent a message to Tu Feng in the group of vice-chairman level, saying, “Today, all the people who spread rumors and troublers inside the guild have me written down, and another batch of low-level spies should be cleared out. “

Tu Feng said with a smile: “Relax, boss, with my current strength, it is very easy to monitor them.”

Tu Feng didn’t take it seriously. He now has a department under his hands, with more than 500 people, who specialize in this area of work.

Zhuoju said, “Whose guild used such low-level methods to deal with us. It doesn’t look like Liu Jie made it.”

Tian Yao said: “Haha, it looks like people who don’t know us. Bacheng is the five presidents of the G8 who have not seen our strength.”

“It’s possible.” Xia Yuwei said.

“Agree with +1” White Lion said.

...

Lu Yang said with a smile: “You can lead the team with peace of mind. I’ll take care of this.”

He sent a message to the cute queen and said, "Pull me, you and Guan Qingfeng into a special space, and I will handle this."

The cute queen was dumbfounded and didn't know how to solve it. When she heard Lu Yang's words, she quickly established a special space and pulled Guan Qingfeng in.

The light flashed, Lu Yang appeared in a special office-like space, Guan Qingfeng and Chu Xiao were both there. Seeing Lu Yang coming, Guan Qingfeng hurriedly walked in front of Lu Yang and said, "Chairman Lu Yang, this It's not my job. "

Lu Yang smiled and said, "I know you didn't do it, but other guilds were maliciously vilifying us. The transaction will continue, but you and your four brothers need to jointly issue a statement."

Guan Qingfeng scratched his head, and said with a crumpled face, "I thought about it, but this life is hard to write, and smiles at Chu too ..."

Chu angrily looked at Guan Qingfeng and said, "I blame you."

Guan Qingfeng blushed, speechless.

Lu Yang smiled and said, "So, if you don't want to damage Chu's reputation, maybe you need to damage your reputation, would you?"

"I do." Guan Qingfeng said immediately.

Lu Yang told Guan Qingfeng some remarks and said, "You still have to discuss with your four brothers, and then come and tell me."

Guan Qingfeng said: "There is no need to discuss it. I have no opinion. This is a mistake made by my brothers and me and we should take it upon ourselves."

He clicked on the World Channel.

[World Channel] Voice of Heaven: Please listen to me, I am the client. This incident started because of me and it is up to me now.

The course of the matter is definitely not what those people in the channel say. The actual situation is because a female player who pursued the Jagged Brothers League failed, but the trouble of deliberately finding it was not intended to be used by people with heart. Here, I told the Judge Brothers Sorry, sorry to that female player. I am not qualified to pursue you. Sorry to President Lu Yang. You are a great president. I believe the Brotherhood of Iron and Blood will be more and more brilliant under your leadership.

In Lu Yang's embarrassment, the last two sentences were not what he told Guan Qingfeng, but he himself added. After this speech, after Guan Qingfeng said it once, his four brothers posted it again, and they also attached There are screenshots of five of their brothers. Then Guan Qingfeng spoke every 2 minutes, and posted a post on the forum to explain the matter.

World Channel.

"Fuck, it really is another wave that wants to stigmatize the Brotherhood of Iron Blood."

"Which grandson did it, remember those people's names and ask them to settle accounts."

"Iron Brotherhood has been standing upright since its inception and has never bullied scattered people. This is known to everyone. It is really pediatric to want to use this to break down the Iron Brotherhood."

...

Who would n't hire a brush? Lu Yang brushed it back. The story ended completely. The total cost was less than 100,000 yuan. The turmoil in the guild also subsided. Those who had previously said nonsense were kicked out of the guild.

[Guild Channel] Lu Yang: At any time, the players of the Brotherhood of the Iron Brothers are not allowed to bully others, this time they have given us a lesson, any point of loopholes will become the truth of others attacking us.

Nowadays, although the Iron Blood Brothers Alliance has developed into one of the ten strongest guilds in the New World, we still have to keep our heart and not become a **** like the bloodthirsty bully and the black blood, everyone remember!

In a few words, the cohesion within the guild suddenly increased.

“It’s all those **** hostile guilds. We can’t see our brothers in the blood.”

“Boss, let’s say, when are you going to beat them, we will do them.”

“Destroy the trash.”

“Listen to the boss.”

...

Lu Yang laughed and looked at the chat box in the guild. He sent a message saying: “During the new year, no one is afraid to mess with the Jagged Brothers. At this stage, we have the largest number of people online every day. The enemy dares to use some sneak tricks Disturb us. Don’t take it seriously and work hard to upgrade your equipment. “

“Keep making copies.”

“Together.”

“Avenger Nightmare copy, missing a few cures, speed comes.”

...

A large number of players continue to play copies.

Lu Yang became angry and looked like Tianzun. He walked out of the hotel, came to the teleportation array, flew to Taohua Island, changed to an ordinary mount, and he came out of the city alone. At this time, the game happened to be late at night. Today, while no one was paying attention, he used a stealth potion and walked along the wall to the moat Guan Guanfeng said.

Under the moonlight, the clear flowing water made people see no problems, and Lu Yang stepped into the moat water.

System prompt: You found the ancient map

The light flashed, and Lu Yang appeared in a magnificent and magnificent palace. The ceiling of the palace looked more than 200 meters high. The surrounding ground and surrounding walls and ceiling were covered with huge night pearls and luminous gems. Day.

In front of Lu Yang, there is a city wall with a height of 50 meters in the distance, but it has been damaged, exposing the mottled wall inside.

“Kakaka”

In the sound of footsteps, twelve humanoid pangolins with golden armors came out and looked around for patrol.

Holy Spirit Pangolin (elite)

Level: 140

Qi and blood: 10000000000/10000000000

Lu Yang scratched his head. He knew why Guan Qingfeng's five brothers couldn't beat him. The elite of the Holy Spirit series, he had seen elsewhere in the last life.

The biggest feature of the holy spirit monster is that it is blood fierce, not ordinary fierce, but very fierce, to what extent you fierce him, he can be full instantly.

The blood volume of 10 billion is terrible enough. The melee plot is strange, and the blood must be double resistance. Even if Lu Yang's attack ignores most of the magic resistance, he can come to a team of pangolins at once. If 10 men are found, they will not be able to kill them unless they are all holding artifacts.

Lu Yang summoned a sentry tower in situ. After 20 minutes, the tower was completed, and he flew back to Tianyuan City using the teleport token.

Before there was no Ice Master, he was not going to wasteland here. It was too much effort. He might as well get the fruits of the Ice Master, and then return here to fight the Holy Spirit pangolin.

He texted Debu to taste the corpse and asked, "Where did you fly?"

Level 190 map of the Frozen Wasteland.

De Wu tasted the corpse and looked around helplessly. He could barely see the road except the snow in the sky. He didn't dare to fall underground. There were 190 elite monsters and lord monsters everywhere.

"Boss, I'm in the Frozen Wasteland, it's terrible here." De Bu tasted the corpse's expression of a broken cry.

Lu Yang smiled and said, "Have you seen a mountain?"

De Bu tasted the corpse and said, "The snow is so big that nothing is around."

Lu Yang said, "Fly up, fly all the way, through the clouds."

"Oh." De didn't taste the fierce fluttering wings, and flew straight towards the sky. Soon, he flew into the clouds and continued to fly for 20 minutes. If the clouds were not unwrapped above him, if there were no Lu Yang, he would have given up long ago, but Lu Yang said that he continued to fly at night.

He continued to fly for 20 minutes. Suddenly, De Buwei found that the clouds above were gone. He even penetrated the clouds. He was excited and looked around, but he was stunned.

"Oh my God, there is such a place." De Bu tasted the corpse looking at the top of a mountain pulled up from the clouds directly in front of him, and it was very flat, and on the top of this flat mountain, there were a lot of ice sculptures.

"Boss, I saw a big mountain, and there are many ice sculptures on the mountain."

Lu Yang was waiting for the phone and said quickly: "Don't go near the ice sculptures. Those things will be resurrected. Stay away and build a sentry tower on the mountain peak. I will come over here."

"Oh." De Buqi carefully flew to the edge of the mountain, found an open space and built a sentry tower.

Twenty minutes later, the sentry tower was completed. A flash of light flashed. Lu Yang appeared next to the sentry tower. He patted De Bu taste the corpse next to him and said, "Nice, well done."

Since the beginning of the year, Lu Yang has ordered De Buwei to wait for a dozen phoenix druids to fly to all directions of Tianyuan God City. De Buwei was the first to fly to the place.

De Bu tasted the corpse excitedly and said, "Just help the boss."

"Go back." Lu Yang said.

Dewu tasted the corpse, bowed slightly, and flew back to Tianyuan City using the teleport token.

Lu Yang looked to the top of the mountain. The top of the mountain was very wide and very flat. The whole high mountain was ice, and the top was actually a big ice block.

Each of the ice sculptures in the front was sealed with a dead ice dragon.

Official history records that they were the earliest Old World Expeditionary Forces. Tens of thousands of years ago, the Nine-series Holy Dragons found that their ancestors were missing, and their life information was very weak. This made the Nine-series Holy Dragons collectively angry, nearly a hundred Thousands of dragons woke up from all over the world in search of dragon ancestors.

Eventually, they found the New World's teleportation formation, where the last breath of the ancestors was left. The sacred dragons of each department decided that except for a few sacred dragons staying on the old continent, the remaining sacred dragons entered the new world and looked for dragons. Ancestor.

There were 500 sacred dragons in the nine continents and more than 100,000 high-end dragons. They were confident that they could push the new continent, but they did not expect that the monsters in the new continent were far more powerful than they expected.

When they followed the information left by Longzu all the way to the north, the team was severely damaged. Eventually, on the cliffs of this extremely cold place, the entire army was overwhelmed.

It is not someone else who killed the dragon, it is the monster who has been finally killed by the 200-level god-level ice system, and has become the dragon ancestor of the necromancer.

Looking at the land and ice sculptures like crystals, Lu Yang recalled that legend and was deeply shocked by the story.

There is no screaming cold wind, and there is no snowflake falling in the sky. Although there is ice and snow on the ground, when you step on it, you can feel the hardness of the ice below.

100 meters away, the first ice sculpture stands. It is an ice dragon with a height of 80 meters and a wingspan of more than 100 meters.

High Ice Dragon (Elite)

Level: 200

Qi and blood: 50000000000/50000000000

If Lu Yang arrived here at the 200th level, it would be very easy to kill these ice dragons, and the ice mage fruit dropped by the ice dragons, although some precious but the price is also Not like this at the 140th level, so valuable.

When all the members are at level 200, 90% of the players have completed the bloodline conversion. Therefore, even if the bloodline fruit is precious, it will not be sold. Moreover, players have found that every bloodline has his strength, even in the The output is not as good as the ice-based blood veins, and in other aspects, there are places stronger than the ice-based blood veins.

In a 200-level copy of 100 people, if you want to get through the copy, the output of pure occupations is definitely not more than 20, more than 20, this copy will be difficult to pass, he needs strong control of the fire department, the permanent outbreak of the lightning system and In order to fight the past with the cooperation of various other professions, some copies are also specifically immune to ice spells, and the ice can't go.

In addition, pure ice masters only output violence, and their viability is the lowest among the masters of each department. Therefore, when the blood of the ice department is at level 200, a fruit is worth only 500 credit points.

At level 200, what is really valuable is the sacred dragons on the next map after these ice-based dragons. The items dropped from the sacred dragons at level 200 are quite valuable, and there are synthetic level 200 dark gold weapons. Unfortunately, Lu Yang doesn't make sense to kill those sacred dragons. The biggest possibility is that they can't be beaten. Even if they have been beaten, the materials are now useless. It is better to kill these higher dragons to burst out the blood vessels.

Chapter 1224 - Tianhe burst

He sent a message to Little Fireball, his black cousin, and said, "Fly to me with the Legion of Fire and the staff is not enough to ask your brother to help."

"Oh." After the little fireball replied, immediately gathered the Fire Thunder Legion of 500 people.

This legion has always been under the hands of Hei Yan, and was only recently divided into the hands of the small fireball by Lu Yang. The small fireball has a New World teleportation staff, which is one of the 4 teleportation gems that Lu Yang obtained last time.

One of the other three gave Liangyun's cousin ruthless ice, and a cold little girl who is currently playing under the turbid wine. She is responsible for the ice master, and has learned about Landing Yang for a period of time. It is very good. Although the master is not up to the top, the top 500 domestic companies can still reach it, and she still has a lot of room for improvement.

Lu Yang sent a message to Zhuojiu: "You and Merciless Bing each took 50 ice mage management teams to me."

"Okay," said Muddy.

Soon, within 10 minutes, a burst of light lit up beside the sentry tower, and small fireballs and Hei Yan first appeared with 500 fire-thunder mages.

"Boss, here we are," Hei Yan, Roth Rain, Thunder Cloud, Flame Storm and Little Fireball bowed together.

Lu Yang said, "Except for the small fireball, go back."

"Yes." Hei Yan had a lot of work in their four hands, and nodded in response, leaving in a ray of light.

"Boss, what is it?" Xiao Huoqi asked excitedly.

Lu Yang said to him with a smile: "Command your 500 fire-miner mages, bury mines around them in one place, and bury 300 mines at a time."

“Yes.” The small fireball also took the heart of the 9th level demon god, and led the team in the direction of Lu Yang’s finger, starting to lay mine 50 meters away from the first ice-level high-end dragon.

“Fire Thunder”

“Fire Thunder”

...

There are a total of 500 fire-thunder mages around Lu Yang. Among the many occupations of the Iron Brotherhood, the status of fire-thunder mage is currently the highest, higher than the Tauren Legion and the Berserker Legion, because they have fewer people, but they are equipped with Equipment is top-notch.

Over the past six months, there have been more than 50 Ziyan suits refreshed. In addition to the magicians who have the heart of the artifact, the remaining 30 Ziyan suits have all been given to the Mage Fire Thunder, even if there is no Ziyan suit. The 140-level dark gold mage suits brushed out a while ago were also given to fire thunder mages, and their gem levels were 14 intellectual gems, and each person’s intelligence was above 429200.

Fire Thunder damage is pure damage of intelligence multiplied by 1, regardless of magic resistance, each Fire Thunder Master can put 300 mines, 500 people put together is 150,000 mines.

Together, these fire thunders can cause nearly 75 billion damage, which is equivalent to giving the dragon a second, which is too worthwhile for Lu Yang.

When Mage Fire Thunder buried the mine, not long after, the muddy wine and ruthless ice brought 200 ice mage to the sentry tower.

“Ice high-level dragon.” Zhuojiu saw the huge dragon body at a glance, and said excitedly, “Boss, these are not the monsters that burst into the blood of the ice master.”

Lu Yang nodded and said with a smile, "It's them, that's fine."

Merciless ice stood beside the muddy wine, and the little girl who did not love to speak also showed an excited look, saying, "Great, our ice mage unit can be formed."

Lu Yang said with a smile: "The first 1,000 can't be given to you. I agreed with Chu Xiao, and exchanged 10,000 blood of the Archbishop for him with 1000 Blood of the Ice Master."

Zhuoju said: "How many can be, even 100 can play a big role on the battlefield."

Lu Yang said: "Rest assured, you can't hit as many as you can. There are still about 10,000, there are a lot of ice dragons here."

"How do you fight?" Zhuzhuo asked a little excitedly.

Lu Yang said, "Blow them up with a fire thunder and you're done."

After half an hour, 500 people put out the fire thunder. Even with muddy wine, when they saw 150,000 fire thunder densely packed in a small space, they felt scalp tingling.

"Neighing"

Lu Yang made a sharp hissing sound, leaving a remnant flame in place, flying into the sky as a fire phoenix. When flying to a height of 100 meters, he leaned down and rushed towards the location of the ice-type high-level dragon. Passed.

Fly forward at a height of 10 meters above the head of the ice dragon, along the way, whenever Lu Yang flew 10 meters in front of an ice dragon, the body of the ice dragon began to melt, and when Lu Yang moved forward When flying 1000, all the hundreds of ice dragons behind them were resurrected.

"Ang ~~~"

Five hundred or six hundred ice dragons hissed, and the fastest one had completely released the frozen state. Yangtian roared and rushed towards the landing sun.

Lu Yang was not afraid, and stood there waiting. When the first ice dragon came in front of him, the last ice dragon he led was also activated, and five or six hundred ice dragons were crowding together. He rushed over.

Just when a recent ice dragon was about to reach 50 meters in front of Lu Yang, Lu Yang said a spell.

“activation”

He instantly turned into a reddish light across the crowd and returned to the original position. Just after landing, he felt a little dizzy in his head. The long distance still made him feel a little discomfort.

“Boss, are you okay.” Zhuoju asked.

Lu Yang looked back at Binglong and said, “I’m okay. Master Menglei prepares and detonates with my orders.”

“Yes.” 500 people, including Xiaohuoqiu, showed nervous expressions.

1000 meters

800 meters

600 meters

...

100 metres

When the ice dragon group reached a distance of 50 meters, Lu Yang shouted, "Let it go."

"boom"

"boom"

...

A huge mushroom cloud rises above everyone's heads, and the five or six hundred ice dragons rushing to Luyang are all drowned by the mushroom cloud. When the black cloud dissipates, everyone looks forward, and a huge ice appears in the place where the thunder was set off. The pit, inside the pit, is full of the skeletons of the ice-series high-level dragons and countless items, the most prominent of which are the three-blooded fruits of the ice-based mage, and hundreds of skill books.

Tianhe Burst

Type: Ice spell

Cost: 100,000 magic

Distance: 100 yards

Description: Inflicted 201986 damage. The target will not be able to return blood for the next 1 minute. The skill cooldown is 5 minutes.

"Boss, there is a Tianhe burst." Zhuo Jiu shouted excitedly holding a book.

Lu Yang said, "Skill books and bloodlines have come to me."

Collected by everyone, a total of 592 fruits of the Ice Master and 101 "Tianhe Burst" skill books were obtained.

"Unfortunately, the explosion rate of this skill book is too low." Zhuo Jiu shook his head and sighed.

Lu Yang said with a smile: "It is good to have these, this skill is range damage, and it plays too much in the battle."

Chapter 1225 - Slaughter Blood

"Tianhe Burst" is the first choice to restrain the blood of the Archbishop. Regardless of your ability to add blood, you can't add blood after you have won this skill, including taking medicine, mixture, slow recovery, and instant blood. invalid.

It will be very easy for Lu Yang to bring hundreds of ice masters who know "Burst of the Sky" to kill the archbishop.

He shouted, "One more round and continue to mine."

"Oh." The small fireball and ruthless ice excitedly led the team to bury the mine. Lu Yang also joined the mine-buying team, but when the mine was buried here, the second war between the scattered people and the guild was officially in the game. The curtain opened.

Scarlet Desert.

"Well, Liu Jie's group of **** didn't let us fight the beasts for the leveling, brothers, fight with them. The benefits can't let them take them all."

“Fuck them, fight.”

...

Four Elephant City.

“The Group of Eight is too bullying. Depending on the number of people, they have to rob all the beasts and kill people indiscriminately. Brothers, fight with them.”

“Kill people, kill them.”

...

Seven Star City.

Back to the dream forest.

Source of the Seven Rivers.

...

From Tianyuan Shencheng to all the surrounding 130-level maps, billions of casual players are angry, and they are extremely angry.

More than two billion people have reached level 120 and above. What kind of concept is this? This is equivalent to eight times the total number of the top ten Supreme Guilds in the game.

What kind of place is Tianyuan Shencheng, but any map that can be accessed by transmitting tokens, and the transmitting tokens have been sold by elites of major guilds, becoming worthless, almost a token.

Once these people are angry, it is an unimaginable thing, especially these people have a 120-level gold or higher suit.

Level 130 players will lose blood even if they are wearing dark gold suits and are attacked by level 120 gold players. Even if the number of drops is limited, there are many things that are scary.

Especially when there are many mages and thieves, it is even more terrifying!

The scarlet desert, an area under Liu Jie's charter level, three peripheral players are watching the field. Suddenly, dozens of ice-blue rays are flying crazy on them.

"180940"

"202960"

"201820"

...

From hitting to death, it took a total of 5 seconds. In these 5 seconds, some people are responsible for controlling and others are responsible for harm.

After a burst of ice-blue light, 10 thieves showed their figures, and one of them, one of them, cursed: "Let you grab the beast, I wo n't fight, or let you fight, brothers follow me and continue to kill . "

...

This scene also appeared at several other entrances. After the exposed thieves were invisible, they continued to look for targets, while the mages of the brigade were gradually gathering together.

Liu Jie, who fights in this map, has more than 1,000 people. He is a brigade, and more than 300 of them upgrade at the same place. Suddenly, they are feeling strange in the sky.

“Second Forbidden Charm?” A leader-like man frowned and looked at several mages, cursing: “Who put the Lesser Forbidden Charm in a hurry, and stopped quickly, trying to kill us?”

Several mages shook their heads one after another to say that they did not do it.

The leader suddenly froze. Suddenly, his face became weird, and he shouted, “Run away, someone is attacking us.”

“what?”

“how is this possible?”

...

No one believes more than 300 people. They have played for a long time on this map. In the name of the guild, no one dares to mess with them.

“Run fast, run quickly, this is not a secondary curse, hurry.” The leader was anxious, shouting and scolding.

“It’s too late to run now.” A group of space mages suddenly appeared around him, reading the spell in his mouth.

Countless magics came down, at the same time, the spell over his head ended, countless fireballs and frost fell into Liu Jie’s hands. Although hundreds of players all had dark gold-level equipment of level 130, they did not have Survived 30 seconds.

Not only is Liu Jie here, this is the case for all parties. At the beginning, the major guilds have not taken it seriously, but when the scattered players from the original fear of the grand guild, until they find that they are together, the grand guild is unbearable. In a single blow, they started insane revenge.

Tu Feng is most sensitive to this sense of smell. When he first discovered the problem, he immediately called Lu Yang and said, "Boss, I suspect that there will be a second large-scale casual riot, and there have been mass killings in the game. Chartered guild players."

After the second batch was buried, he frowned and asked, "What's going on? Why did such a problem suddenly occur?"

Tu Feng said in detail: "If I didn't guess wrong, the cause of this riot is Nianbei ..."

On the other side of the phone, Lu Yang patted his head, and he suddenly reacted. Why did he forget the turmoil? In the official biography of the last life, the history of the riot was called the beast riot.

The reason is very simple. The cause is still official in the Second World. With the restoration of order in various countries, the number of global players has decreased. In order to increase the online rate, the official reward for this year's beast has increased a lot.

Defeating the Year Beast with firecrackers will not only get money and experience, but also a chance to get gems, drawings, pet eggs, rare items and blood vessels.

At this stage, a good bloodline in the game is worth tens of thousands, and a good pet egg can also be worth thousands of dollars. If it is a rare treasure, such as a gem of a new land transfer scepter, the value is also tens of thousands of yuan, and it is rare. Officials have opened the explosion rate for any of the mounts that can attract the attention of local tyrants.

In this way, all players want to brush the beast of the year, but at the last Alice meeting, Lu Yang and the other 9 strongest guilds and dozens of super guilds jointly divided the map around Tianyuan God City.

After the major guilds determined their territory, they boldly began to rehearse and level up, kicking casual players out of the refreshing point of the beast and firecrackers, and also killing casual players wantonly.

In the beginning, casual players did not dare to provoke the Super Guild and the top 10 strongest guilds. However, people's hearts are greedy and jealous, especially jealous. When a certain player brushed the beast to obtain a rare pet egg, a certain player brushed the beast to obtain a rare bloodline, and a certain player brushed the beast to obtain a new world teleportation gem, the fire of jealousy of the casual player has replaced their fear.

The first thing that casual players think of is not desperately fighting with the strongest guild, but secretly brushing the beast, but when they are chased down by major guilds and killed and robbed their equipment, these jealous little flames are in The safe area gradually gathered into a group of raging fires, and eventually, the situation of Kashihara was formed.

I remember that at the time of Tianyuan God City, all players with guilds were afraid to enter the city. In any place that NPCs could not see, such as bookstores, pet stores, pharmacies, and equipment stores, there were all scattered players. Someone in the guild went in and was killed instantly.

Each store in Tianyuan Shencheng is very huge and there are many, but there are more scattered players. Every store is full of people. Outside of Tianyuan Shencheng, scattered players catch the few guild players and hit them. kill.

This is a chaotic battle. The entire Tianyuan God City has been ruined because of this war. The most hateful thing is the Nian beast. The fight here is fierce. The system prompt bar is still brushing out the Nian beast. Things, oil on fire.

Later, a studio specifically asked the major guilds, and each guild suffered heavy losses and hardly survived.

Lu Yang said to Tu Feng: "Immediately order all Iron Brother Brothers players to retreat to Peach Blossom Island, including players in dependent countries."

"Yes." Tu Feng immediately did.

Tu Feng is most aware of this kind of casual anger, because he was a member of the San people at that time. No big guild could be spared from the big riot in Huaxia. Hard hit any super guild as a budding bird.

[Guild Channel] Tu Feng: Anyone who is not in the copy of the Jagged Brothers Alliance will immediately go to Taohua Island, and the Guild will organize activities uniformly.

...

It was issued 10 times in succession, and all were issued in red letters, which represented Tu Feng's attention to the incident, and also attracted the curiosity of the Iron Brother Brothers players, asking about the reasons one after another.

[Guild Channel] Lu Yang: From now on, if the Iron Brother Brothers players are not in the copy, do n't leave Taohua Island. In the copy, do n't go outside the copy. Items should be delivered by the same group of thieves. The riot in Tianyuan God City is happening, ten Hundreds of millions of casual players are killing people with guilds. Don't provoke them at this time.

All members of the Jagged Brothers Alliance, including the Fire Knife, Black Notes, and Roth Rain, have experienced the riot of the year, and they know how powerful they are. However, the first time was under restraint.

On the side of the dependent countries, the vice presidents such as Karp, Li Wenxing, Padu, and God of War I sent news and inquiries.

Lu Yang specially opened a special space to recruit them all.

"Sir President, I don't understand the meaning of player riots, is it strong?" Karp asked.

Lu Yang thought for a while and said, "You can understand it this way, it's like the massacre of a low caste that has been oppressed for a long time against a high caste. This riot is equal to hundreds of times before you."

Karp took a breath and said, "I can ask all Indian players to go to Peach Blossom Island."

Lu Yang said: "At present you are in the south of Taohua Island, Li Wenxing goes to the north, and Jiuxing Alliance goes to the east."

As for the west side and the main city area, Lu Yang gave them to Tian Yao, their vice-chairmen.

"Do n't have a big conflict with casual players. If they want to come in, let them in. But if someone dares to make trouble everywhere, kill them on the spot. Our Brotherhood can coexist with casual players, but they will never be left to them. Bullying." Lu Yang said.

"Yes," all the vice presidents said together.

Soon, the players of the Brotherhood of Iron Blood took action. From the teleportation point in Peach Blossom City on Peach Blossom Island to the major areas in the city, the players of Brotherhood of Iron Blood were maintaining order. A collection of scales acting together.

Some of the original scattered players in Taohua Island wanted to take the opportunity to make trouble, but they saw that tens of millions of players from the Iron Brother Brothers returned to the island without bullying the scattered people, and they all gathered together to act, and most of them did not dare to mess. Everyone who wanted to provoke or win a treasure was killed out of Taohua Island.

On the World Channel, someone immediately scolded the Brotherhood of Iron and Blood to find fault, but unfortunately, if the words didn't stay for 1 second, they were overwhelmed by the words of others.

"Damn, there is no way to create confusion here in the Iron Brotherhood." Among the large number of players in the Peach Blossom Island safe zone, a player in full body black said angrily.

These people are not others. They are members of the Thorn Birds organization. Since Luyang accepted the town **** king, they have always wanted to find a chance to teach Lu Yang a lesson.

"The whole Tianyuan City is in chaos, and there is insufficient guidance for public opinion." Another man in black said with a natural heart in his hand.

...

Lu Yang didn't know if anyone wanted to trouble him, because he was now staring at a special strange daze on the top of Hanbing Mountain.

Under the ice sculptures of many ice dragons, a humanoid with a height of only 10 meters is holding a machete, without armor, exposing his purple skin, step by step towards the location of Lu Yang's mine.

Follower of God · Eternal Night (Rare Lord)

Level: 200

Qi and blood: 75000000000/75000000000

Lu Yang sighed with excitement and said, "The little fireball and all fire thunder mage are prepared. He enters this area and blows him to death."

The little fireball froze and asked, "Boss, just one lord, let 150,000 thunder explode together."

Lu Yang said: "Yes, 150,000 thunder, just bomb him, you must kill him. Rare lords are more precious than some demigods, and must not let him run away."

"Yes." The little fireball nodded with 500 fire-thunder mages.

Lu Yang stared at Yongye, watching him step by step towards the minefield, but just one second before he was about to step into the minefield, Yongye turned around and walked back toward the road when he came.

"I, I ..." Lu Yang even scolded the country.

Xiao Huoqiu looked back at Lu Yang and asked, "Stop it, boss."

“I’ll lead him back.” Lu Yang would never give up the baby lord, and he spelled it out in his mouth.

“flicker”

A flash of light flashed, and Lu Yang jumped to a position 50 meters away from the lord in an instant, with one finger pointing to the lord.

“Flame Shock”

The instant magic slammed into Yong Ye’s head.

“Ignorant mortals, dare to anger the servant of the gods, you, **** it.” Yong Ye turned back and said scornfully, rushing towards the landing sun.

“Escape The Dagger”

Lu Yang threw out his dagger and jumped into the middle of 150,000 fire mines.

“Use your blood to scrub this ice field.” Yong Ye launched a charge towards the landing sun.

“Ice Guard”

Lu Yang’s body turned into a huge piece of ice.

“嘭”

Yongye slammed into the ice cube where Lu Yang was located, just as he was about to launch a shield to break the ice cube.

“boom”

A huge mushroom cloud rose.

System prompt: You killed Yong Ye

The smoke dissipated, and small fireballs and ruthless ice and others looked at Lu Yang curiously.

In the middle of the field.

Lu Yangzheng laughed and held a fruit, his face was full of irresistible excitement.

Little Fireball came to Lu Yang curiously and asked, “Boss, what blood burst out.”

Lu Yang put the fruit in his backpack and said, “Boss Rong sells something and will show it to you in a few days.”

The fireball’s curiosity increased by 100 times in an instant, making it the first time that Lu Yang has paid much attention to the bloodline fruits.

“You stay here to fight and continue to kill the ice dragon. Relentless ice and small fireballs are responsible for pulling the monsters. I will go back first.” Lu Yang turned into a light and flew back to Taohua Island.

Just after landing, Lu Yang put on his cloak, turned into the shape of the angry anger, walked out from the crowd, and came to the hall of the Iron Blood Brothers Guild of Taohua Island.

“Xiao Liang, come over here, my brother will give you a good thing.” Lu Yang said helplessly.

“What a good thing.” Xiao Liang just returned to Taohua Island with a person, and Wen Yan immediately ran to where Lu Yang was.

When he arrived, Lu Yang also called the cute queen and his 50 ice masters.

“Brother, why is it more than 600? You still owe me more than 400.” said the cute queen with a big loss.

Lu Yang looked at Chu with a smile and said, “There are more than 300, don’t bully your brother, I’m not good at math.”

“Cut ~~!” Chu Xiao rolled her eyes.

Lu Yang said with a smile: “I am in a hurry to return, you take these 50 people to accompany me to a place.”

“Where?” Chu Xiao asked.

Lu Yang said: “Wait for Xiao Liang to come over.”

“Boss, I’m here.” Xiao Liang just rushed into the door.

Lu Yang beckoned at him, and when he came near, he took out a purple fruit from his backpack and said, “I ate this bloodline fruit.”

Xiao Liang did not hesitate to eat it, a flash of purple light flashed, Xiao Liang blinked and said, “Boss, I feel I am invincible.”

Chu Xiao blinked and asked curiously, “What blood.”

Xiao Liang saw that Lu Yang did not disagree and shared his blood with Chu Xiao.

Power of Bloodline Slayer

Grade: 15

Description: The top bloodline, every player who owns this bloodline automatically gains 100 points of physical strength for each elite, boss or lord killed, and can stack up to 1000 times.

Chu smiled and scratched his head said, "Isn't it just blood?"

Xiao Liang said: "I have one more skill. Each time I get an attack, I can spread 20% of the damage to the surrounding enemies."

"Fuck." Chu smiled and said, "Whoever co-authors hits you is unlucky."

Xiao Liang nodded and said, "More than that, I also have a skill to bite people."

"Bite?" Chu Xiao asked.

Xiao Liang said: "The damage caused by biting is related to physical strength. The higher the physical strength, the more painful biting, and I can bite even the lord for 5 seconds.

"Oh, huh." Chu smiled at Lu Yang and said, "Brother, what bloodline did you find for Xiao Liang."

Lu Yang said: "One of the twelve top bloodlines of the Anti-Japanese War."

He said to Xiao Liang: "You haven't matched your skills yet. Once I have matched your skills, you will know how strong this profession is. Let's kill the monsters first."

Chapter 1226 - Blood gathering

With Xiao Liang resisting monsters, and more than 50 people including Chu Xiao and Luoshen from the blood line of the ice arch mage, the minimum number of archbishop monsters has been reached.

The light flashed.

Lan Yu and Yeyue were late to hear the wind.

“Sorry, the team just brought it back.” Lan Yu said.

“Let’s go together and put on the camouflage coat.” Lu Yang took out the camouflage coat from his backpack and threw them a piece.

After the people changed their clothes, Lu Yang gave everyone a bottle of stealth potion, so they took them out of Peach Blossom City safely, and came to the hidden junction of the moat outside the city. The light flashed, and Lu Yang first entered In the map.

The system prompts: You have entered the ancient divine palace.

Lan Yu and Xiao Liang saw that Lu Yang disappeared, followed one another and entered the ancient divine palace. Just as a group of holy spirit pangolins came out of the broken wall in front.

“Why is there a pangolin in the ancient god’s palace? Wow, it’s still 10 billion HP.” Chu Xiao said in surprise.

Lu Yang said: “Xiao Liang went to pull the monsters, holding 12 at a time.”

“Okay.” Xiao Liang lowered his mask, moved his body, and didn’t wait for him to rush over. Chu Xiao asked in surprise: “Boss, opposite are all 140-level plot elites. Does Xiao Liang resist?”

Lu Yang said, “Of course.”

As soon as the words fell, Xiao Liang rushed forward without hesitation, and slammed into the head of the pangolin leader.

“An intruder, destroy him.” The pangolin screamed, and his spear stuck in Xiao Liangmeng.

“301680”

“299880”

...

Twelve attacks together killed Xiao Liang’s more than 4 million lives, and Xiao Liang’s total blood volume was more than 10 million points.

“Cure”

“Prayer of Healing”

Lan Yu and Yeyue added blood at the same time when listening to the wind, Xiao Liang’s blood was instantly full.

“Lava Eruption”

Lu Yang pointed to Xiao Liang’s side with his left hand, centered on him, and turned 30 yards around into a place of magma.

“Don’t attack the master, make up your own, and listen to my order to release the skills again.” Lu Yang said.

“Yes.” Chu Xiao immediately numbered.

On the court.

Twelve holy spirit pangolins lost more than 3 million blood per second when attacked by a lava eruption, but did not wait for 2 seconds. The bodies of the twelve holy spirit pangolins suddenly glowed with golden light, and each glow spread to every pangolin around them. .

System prompt: The pangolin uses sacred light, and the group has increased 5987989 health.

System prompt: pangolin ...

...

In a row of twelve divine brilliance, all twelve pangolins were full of blood.

Chu Xiao hadn’t finished the numbering yet, and said in shock: “It’s too much fun, it’s full.”

Lu Yang smiled and said, “Otherwise, how do you need the blood of the Ice Master and the skills of” Tianhe Burst “, listen to my order and release it on the 1st.”

“Okay.” Luo Shen pointed at the twelve pangolins in front of him, and a blast of ice enveloped them instantly, with a bang, the ice pieces shattered.

The pangolin’s IQ is limited. After being attacked, it still releases the sacred light, but after hitting the Tianhe burst, the blood is 0.

“Haha, success.” Chu said with a smile.

Luo Shen said: “This blame is so unethical. It has been adding blood. Without Tianhe burst control, it can’t be beaten.”

Lu Yang said, in the last life, I do n’t know how many people were disgusted by the monsters here. Not only are there holy spirits here, but also other maps. All holy spirits have scarce attack skills, but as long as they drop blood, they will desperately add blood.

Fortunately, if it is a strange, but once you encounter more than a dozen holy spirits, it will be a tragedy. No matter how many of you come, as long as you don’t die in seconds, he will immediately be full of blood, and it is still a dozen holy spirits. Blame it back to full blood.

Many times, there are only two holy spirits that can make a group of players succumb to death, that is, they can’t fight, there is a chance, and the health is instantly full.

Now, Lu Yang has an ice master, and Tianhe burst. It is very easy to kill pangolins. They only cost 10 billion health, but they burned to death within a few minutes, and 5 archbishop blood fruits were dropped.

When Lu Yang picked up the fruit, his face was filled with unstoppable excitement and the blood of the archbishop. This is one of the strongest healing bloodlines in the official game and one of the strongest bloodlines that weaken the strange attack power.

He handed a bloodline to Yeyue to listen to the wind and said, “Sent you.”

“Xie Boss.” Ye Yue listened to the wind and ate the fruits of the blood vessels, and instantly his face changed.

“This blood is too strong, it’s completely unbeatable.” Yeyue said excitedly when listening to the wind.

Chu Xiao couldn’t help curiosity, and asked, “What skills, show us soon.”

Yeyue Tingfeng shared the two skills that come with Bloodline.

The Law of Light · Ease

Type: Light Magic

Distance: 100 yards

Consumption: 500,000 magic

Description: The archbishop is the person closest to God. Under the guidance of God, they understand the law of the Holy Light. Slowly, create an aperture at the specified position. The target in the aperture reduces the attack power by 1% and the magic damage by 1%. , Attack speed is reduced by 1%, Magic attack speed is reduced by 1%, Movement speed is reduced by 1%, and Life recovery speed is reduced by 1%.

Chu Xiao's eyes brightened and he went to Lu Yang and said, "Brother ~~~~, can you give me thousands of blood of the Archbishop?"

"No way," Lu Yang said.

"Brother ~~~"

"Brother ~~~"

Chu laughed.

Lu Yang looked at Lan Yu and said, "Take care of your sister."

Lan Yu laughed, went to Chu Xiao, pulled her aside, and the two sisters whispered.

Lu Yang asked, "What other skills?"

Yeyue Tingfeng shared the second skill.

Angel Protection

Type: Holy Light Spell

Distance: 100 yards

Consumption: 500,000 magic

Description: Apply an angel protection to all targets within 50 yards, reducing all damage taken by 50% for the next 12 seconds.

What Lu Yang wants is this skill. With the protection of this angel, going back to the wasteland copy makes it much easier.

"I'm going to blame, we continue." Lu Yang said.

Everyone nodded together.

...

For the next seven days, Lu Yang duwo beat the archbishop's blood in the palace, and after seven days, he had beaten 10,200 blood.

Lan Yu could n't help Chu 's coquettish smile, and asked Lu Yang for the 200 and gave him, and the remaining 10,000 archbishop blood was given to muddy wine by Lu Yang, and the small fireball of Ice Dragon was far away on the 200 level map Returned with the blood of more than 10,000 Arch Masters.

At this point, Lu Yang needs to complete the configuration of the 140-level hundred-person nightmare replica. This is a team that relies on the three major professions of the Ice Mage, Starbreaker and Archbishop blood to fight the replica.

In the conference room on the fifth floor of the Tianyuan God City, the base camp of the Brotherhood of the Iron Blood, Lu Yang was sitting with 33 vice-chairmen such as Zhuojiu and White Lion.

"Boss, Tianyuan God City has been disrupted, and the conflict between Sanshou and the Super Guild is becoming more and more acute. I suspect that someone has used Sanshou players to create chaos." Tu Feng said.

"Can you find out?" Lu Yang asked.

Tu Feng said: "So far, I have found more than 200 groups on the Internet, but have not found their core. Maybe these people are communicating offline. Among casual people, my agent has become a 300,000 person. The deputy head of the Santouan group hasn't told him who the core is, just that there is no superior organization. "

The white lion sneered and said, "How is this possible? We have all experienced this kind of thing. There must be someone behind it. It seems that the enemy is not so cunning this time."

Lu Yang nodded and said, "Maybe someone will use this incident to build a stronger guild."

Suddenly, Lu Yang thought of Alice, this mysterious woman is likely to be united with this scattered riot.

Everyone looked at each other, and all looked surprised.

Lu Yang looked at Tu Feng and asked, "What about the major guilds?"

Tu Feng said, "The areas that were divided into the strongest guilds before, except us, were broken by casual players. Once any of the strongest guilds dare to resist on a large scale, they will definitely be hit by dozens of times their casual players. Sniper in the form of a group of 100,000 people. "

"Human sea tactics." Said bitter love for a long time.

Tianyao said: "Don't say that such a low tactic is really powerful at this time."

Everyone has more than 130 levels, all of them are wearing 130-level dark gold suits. No matter how strong the lineup you list and how good the coordination is, I have twice as much strength as you but I can't beat you. Ten times, twenty times. The pile piles you, anyway, I'm dead but I just lost a piece of equipment, you die, what good things fall out is not necessarily.

Lu Yang nodded and said, "Yes, this tactic is used in the present, and you can use this opportunity to organize so many people. The person behind it is terrible."

As soon as the words fell, Mo Long ran in and said, "Boss, something went wrong. Millions of people just teleported to Taohua Island. I've seen them. They are all casual players with white cloth around their waists. They are aimed at us. . "

"Asshole, we didn't bully scattered people, dare to provoked us, boss, let me kill them." Zhou Tianming asked in battle.

"I'll go as well."

"I'll go as well."

...

Love for half a life and the White Lion all showed angry looks.

Lu Yang shook his head and said, "No, you can't fight. Order all Jagged Brother Alliance players to exit Taohua Island immediately. We must not be used by the enemy."

"Used by the enemy?" Zhou Tianming was puzzled.

Lu Yang said, "Even if there are 10 million more casual players, with my command and with your command, do you beat us when the Brotherhood of Iron Blood has occupied Taohua Island?"

Everyone thought about it and shook their heads. With the strength of the Jagged Brotherhood today, this guild that has gone through dozens of decisive battles and hundreds of battles has already formed a Jade-style style. Even if the enemy has 10 million, The Brotherhood stood firm on Taohua Island, and when the formation was in place, the other party came to 10 million people and would only be slaughtered by the Brotherhood of Iron.

"Brothers, all of them have battled with their men and women. You know that once we fight hard, we can't control our men. Who can you guarantee that after the collapse of the scattered people, we can quickly gather the players." Lu Yang asked.

Zhou Tianming said: "I can't keep it together, I guess it was hit, and the result is that the Brotherhood of Iron and Blood launched a slaughter of casual players."

Lu Yang sneered and said, "Once this happened, my reputation that Lu Yang had built up over two years would be completely stinky, and we would become the same as the other 9 strongest guilds. . "

Zhou Tianming took a breath and said, "Boss, I was wrong."

Lu Yang waved his hand and said, "Don't blame you, the enemy is insidious enough. First send 1 million people to attract us to attack. Once it hits, immediately send other people to take advantage of the weakness of the public, and soon there will be hundreds. Tens of thousands of scattered people rushed into Taohua Island and told the brothers to retreat immediately. This is an order. Those who exit Tianyuan mainland and return to the new continent within 2 minutes will be awarded 50 guild points. "

"Yes." Zhou Tianming and Zhuo Jiu and others quickly issued orders, fearing that the players of the Brotherhood of Iron Blood and the scattered players would cause direct conflicts.

Inside the guild.

Many of the players in the Jagged Brothers Alliance are killing the New Year's Beast, and suddenly get orders. Many people are angry and do not want to execute. But when they learn the news released by Lu Yang, the majority of the Jagged Brothers players in the main army have withdrawn. Out.

[World Channel] Lu Yang: Beginning today, the Brotherhood of the Jagged Brothers gave up the New Year's Beast activity in Tianyuan God City. I have returned to the New World with the main members of the Brotherhood of the Jade Brothers and issued orders prohibiting members of the Brotherhood of Juggernauts and casual players from robbing them.

If there are still Jagged Brothers players stranded in the Tianyuan continent, and conflicts with scattered players, such Jagged Brothers players do not represent Jagged Brothers, I hope all players in the world know.

...

Lu Yang spent 10,000 gold coins to buy the headline. In the dialogue bar of everyone, this sentence firmly occupied the headline position for 2 days.

Within the guild, Lu Yang has issued a reason for doing this. He does not hope that the credibility of the Jagged Brothers Alliance will be damaged due to a beast activity. However, Lu Yang can foresee that this time, many Judge Brothers will Players will not understand, there may be a wave of retreat.

Sure enough, soon spies spread rumors of withdrawal from the guild channel. Such people were first controlled by Tu Feng's men, either kicking out of the guild or re-examining.

late at night.

When Lu Yang was about to rest, Tu Feng sent a complete withdrawal record. For a whole day, the Brotherhood of the Iron Blood had withdrawn more than 300,000 people.

“There is very little data, which is not bad.” Lu Yang said with a smile.

Tu Feng said: “The main players who quit are casual players. The main team does not.”

“That’s good, continue monitoring.” Lu Yang hung up the phone and walked in front of the turbid wine and his 100,000 players.

“We open up a copy tonight, starting today, all of you will lose your rest time, sleep only 6 hours a day, 15 minutes for three meals, and the rest of the time, I will make a full copy.” Lu Yang said.

“Yes,” said Xiaohuoqi and ruthless ice and others.

This is a tactic that Lu Yang has been thinking about for a long time, no matter how noisy on the world channel, after all, it is to judge the strength of a player or a guild by level and equipment.

From now on, Lu Yang will concentrate on bringing copies of the 100,000 people to the wasteland. Unlike others, all of these 100,000 people are special occupations.

Includes Archdruid, Forbidden Mage, Ice Mage, Starbreaker Shooter, Mad Wolf Legion, War Tauren Legion, Time and Space Killer, Red Mist Warrior, Shaman Legion, Skywrath Priest and Two-Handed Swordsman Legion 11 special legions inside.

As for the copy, Lu Yang chose a copy of the Galora outside the Vajrayana city owned by the New World Iron Brotherhood.

Garola City, a monster main city near the 150 level map in the 140 level map outside the Diamond City.

According to official history, this group of Garola with octopus heads was originally aboriginal people living on this land, but they drank the blood that the devil dripped into the well water, and the whole city became Devil’s Minions.

Lu Yang knew this copy because it was the hardest of all the 140-level nightmare copies of the previous life because he had the most blood.

A normal 140-level copy, as long as you have the current level of gold equipment, can be played by the player's operation, but this Garola copy can only be played only if the blood is strong enough, so it is also known as the 140 level The hardest copy.

The light flashed, and Lu Yang appeared in the Diamond City with 100,000 people. At present, there are no people in the main city. As early as a month ago, Lu Yang closed the Diamond City transmission channel to prevent outsiders from entering the main city. Speaking is preparing to use this place as the base of the Chinese army of the Brotherhood of the Iron Blood.

In fact, here is a first move for Lu Yang to prepare his players to take a copy of the Galora. Sure enough, the spies of the major guilds gave up more than half a month without finding out the problem, and gave up.

Players who are still around this main city are either the enemy's spies or the enemy's army. There is no third possibility.

"Putting on the mount, everyone took 100 people as a team to enter the copy, and no one should leave behind." Lu Yang shouted.

He changed into an ordinary mount and led the team towards the copy outside the city. On the other side, Taohua Island has been occupied by casual players, and tens of millions of casual players have swarmed into Taohua Island. The reason is that Lu Yang was the first to announce on the World Channel that he would abandon and scatter the **** of the Nian beast. Therefore, Taohua Island no longer has the strongest guild, and scattered people can freely pick firecrackers and brush the Nian beast.

As a result, in this way, the scattered players did not wait for the behind-the-scenes organization to gather them, and they reached Taohua Island themselves, which made Alice behind the scene very annoyed.

"Fucked Lu Yang, actually realized my plan and ran away." Alice's beautiful face carried hatred that should not belong to her.

The captain asked, "President, what are we going to do next?"

"Let me think about it," Alice said.

Just then, Alice's face was stunned.

"What's wrong?"

Alice sighed hard and said, "Just after Liu Jie announced his withdrawal from the Scarlet Desert, the two strongest guilds withdrew. We are powerless."

Chapter 1227 - Nightmare Replica 1 Wave

Who would have thought that under the great interest of the beast, Lu Yang and Liu Jie had withdrawn from the Tianyuan continent as if they had already discussed it.

Alice couldn't do anything about it. Cute Alice didn't know that Liu Jie's withdrawal was half active and the other half forced.

Liu Jie knew that he and Lu Yang were deadly enemies. The two sides could only end with a total failure of one side. Lu Yang withdrew from the Tianyuan continent. Although he lost a lot of money, his personnel became extremely free.

At this time, Lu Yang can attack anyone who wants to attack. If Liu Jie did not quit at this time, but chose to fight with casual players, then the ending is likely that Lu Yang took the opportunity to cross Germany to attack his main city. After all, Lu Yang had a share in Schneider, and Liu Jie couldn't afford to gamble. Furthermore, Liu Jie had also experienced the chaos in the national clothes, and he dare not give in to the chaotic people.

“Did Lu Yang and Liu Jie find out our purpose?” His men asked in horror.

Alice shook her head and said, “No, our actions are hidden. Don’t think about these things anymore. Order the Thorn Bird Organization to continue to look for the heart of artifacts and prepare for our future career.”

“Yes.” His men left.

Who would have thought that the top killer group that had claimed to have no guild turned out to be Alice’s subordinate.

Alice was sitting alone on the chair. She thought carefully about any flaws in what she had done before, but after a long time of thinking, she found no loopholes. In the end, she could only think that Lu Yang and Liu Jie were more intelligent.

“Fortunately for the two of you, luck isn’t always so good.” Alice resigned her hate and changed to a new one.

No one knows that this account is the source account of the chaos. The behind-the-scenes of the whole incident has to admire Alice. Her ability to leverage is very strong. She uses the major guilds to level up to grab high-explosive treasures. The hatred ignited by the beast will expand this hatred into a worldwide chaos in just a few weeks. Take this opportunity to weaken the major guilds.

Not only that, scattered people hate the major guilds, but also led to a slowdown in recruiting new guilds. Among the major guilds, people who place great value on morals also have annoyances about the guilds.

“No. 1, what’s the matter?” No. 2 asked in a message.

“Creating public opinion and continuing to incite hatred among scatterers and guilds,” Alice said.

“Yes.” As an intelligence member, No. 2 immediately ordered his high-end writers to go to forums and major websites and media to create public opinion.

Tianyuan mainland, on Taohua Island.

System prompt: New Year’s Beast appears, players are going to take them away!

The red Nian beast shaking his head and swinging his tail just appeared, and was instantly killed by dozens of players around him, many of whom did not even see the shadow of the Nian beast. This refresh was over.

[System Channel]: Congratulations to the player in the wilderness, the young beast that he set off with firecrackers threw away his belongings and fled. He took a closer look and turned out to be a new world transmission gem.

[World Channel] Player A: Despise.

[World Channel] Player B: Despise, Top.

[World Channel] Player C: Despise, top.

...

Once the excellent items appeared, the players started to swipe the screen because they did not grab the Nianbei, or they did not get good things when they swiped the Nianbei.

“Is there anything wrong, so many people can’t grab it.”

“I got one.”

“You’re lucky, I haven’t seen it.”

“The system can’t put more.”

Players started to complain.

Just then, on the World Channel.

“Brothers, don’t stay in Peach Blossom Island or the Scarlet Desert. Go to Sixiang City and grab him.”

“Go to Huolin City and **** them from the Grand Guilds.”

“The Group of Eight nations in Four Elephant City bully scattered people, brothers, do them.”

“The super guild back to Menglin started bullying scattered people again, and couldn’t spare them, let them go.”

...

The anger of casual players was ignited instantly, especially in a group of casual people. After a group of people shouted in an organized way, a large number of casual players gathered quickly. For a time, the Tianyuan mainland melee resumed.

Four Elephant City.

The Group of Eight had always focused their eyes on Lu Yang. When they saw that Lu Yang had taken the initiative to quit, they knew what Lu Yang thought. There were 16 decision makers. Some people thought that Lu Yang should quit and quickly go to fight. Equipment enhances strength, but more people think they should stay in Tianyuan City.

In the end, sixteen people raised their hands to vote, and eight investors collectively chose to stay in Tianyuan God City. Five of the eight presidents chose to leave here like Lu Yang. Unfortunately, the final result was 11 to 5. , The result is to stay in Tianyuan God City.

Investor Morrison, as the sponsor of the vote, said with a smile: "Since so, all of you will stay here."

The crowd nodded collectively. At this time, 16 people collectively received the news from their men.

"What, the scattered people actually flew to Sixiang City." Morrison cursed: "Destroy them, if possible, break into Peach Blossom Island, we have to occupy more sites to obtain treasure."

The 16 presidents nodded each other and left the hall. Danny and Kerim walked together.

"Look, this time the incident is over, we are a group of **** in the eyes of casual people, and Lu Yang can take this opportunity to widen the gap between us and him." Daniel said.

Kerem blinked and said, "It's just a bunch of casual people. We have completed the team, and they can be broken by a few attacks, don't worry."

Daniel was speechless and left with a sigh.

If Lu Yang were here, he would certainly admire Daniel for being a visionary and overall view, because the scattered people's chaos is an unprecedented chaos, far from being simple.

Outside King Kong City, level 140 map, a copy of the Garola Castle.

A flash of light flashed, Lu Yang chose the nightmare difficulty, and took 99 people into the castle copy.

"From the state." Lu Yang said.

Several rays of light flashed, and Lu Yang and Zhuojiu each had more than 6 buff magic superimposed on them.

Lu Yang looked around the copy. Just like the previous one, the entrance was a circular garden hall. There was an open space in the middle of the hall. There were more than 30 Garola scholars standing there discussing something. In each corner, there are more than 20 Garola scholars, and there are 100 scholars on the first floor.

Garola Scholar (boss)

Level: 140

Qi and blood: 50000000000/50000000000

“Wow, every monster is a boss, and it’s 50 billion HP.” Chu Xiao said in surprise, he was the blood of an ice master, followed by blue feathers to meet the world.

“With this amount of blood, or the boss, the attack power should be very high.” White Lion said.

“Boss, do you want me to pull over one by one.” Zhen Hao King asked.

Lu Yang smiled and said, “It doesn’t need to be so troublesome, Xiao Liang, stand 10 meters in front of me.”

“Oh.” Xiao Liang Ledian Ledian went to stand ten meters ahead of Lu Yang and said, “I’m here.”

Lu Yang said to the wind around Yeyue; “10 archbishops use the” Light Law · Slow “together on Xiao Liang’s standing position, superimposed on 50 layers.”

“Yes.” Ten priests, such as Yeyue Tingfeng and Lan Yu, immediately released the compasses to Xiao Liang. The circular lights lit around Xiao Liang, and all targets entering the aperture immediately reduced the physical attack by 50%. , Law attack, move, restore, magic resistance, physical resistance.

“You stay here, I’m going to pull the monster. If this platform, I pull it all over, Xiao Liang resisted.” Lu Yang said with a smile.

“OK.” Xiao Liang put the shield on his lower armour.

Everyone: “...”

“Can you do it?” Asked Hakotoki.

Lu Yang Yile left a remnant flame in place and quickly ran to the strange group on the left. At a distance of 100 meters, he threw out a comet and hit a small monster with precision.

“flicker”

Lu Yang jumped 100 meters to the right, and flames came out of his feet. He fired a blazing fast, learning to throw a comet against a carolola 100 meters away, and then he continued to launch an escape dagger to the right and came to In the middle of the map, a comet struck, and ran to the northeast ...

By analogy, all the monsters on the Luyang platform were pulled back at a time, and in less than 10 seconds, they ran to Xiao Liang with 100 monsters.

“Lan Yu used” Angel Protection “for Xiao Liang.” Lu Yang shouted, his body turned into a red light, he launched the Remnant Flame skill, and flew back to the entrance instantly.

100 monsters rushed towards the entrance immediately. Xiao Liang watched the first batch of more than 20 monsters passing by his side, and he roared.

“Red Mist Bloodthirsty”

The bright red blood mist shrouded the surrounding area of 30 meters. More than 20 Garola learned to collectively turn around and looked at Xiao Liang. They raised their swords and rushed to Xiao Liang in front of them. Xiao Liang’s side.

“Red Mist Cyclone”

“Red Mist Cyclone”

...

The red light spins quickly among the Galola scholars, causing minimal damage, but the hatred is huge, and at the same time, Xiao Liang’s life value drops rapidly.

It’s a joke that 100 people have a nightmare copy. The official adjusted their damage to a very horrible value. Unfortunately, Xiao Liang himself is an iron wall defense, reducing damage by 50%. There is a law of light. Slow. Attack power is reduced by 50%, Xiao Liang’s damage is reduced by 50%, and the priest of the archbishop **** blue feather releases angel protection and reduces Xiao Liang’s damage by 50%.

That is to say, the nine Galola scholars surrounded by Xiao Liang did not hurt Xiao Liang as much as the damage caused by one scholar under normal circumstances.

“450534”

“450718”

...

Everyone was stunned. A nightmare replica monster with normal damage of more than 4 million, after weakening the damage multiple times, could only deal 450,000 damage. Xiao Liang’s total health was in his early 10 million, and 9 monsters were added together. Only one attack killed nearly 4 million HP.

“Cure”

“Cure”

Yeyue Tingfeng and Lan Fei took the time to add blood to Xiao Liang. Xiao Liang’s health quickly recovered to full value. At the same time, Xiao Liang’s blood of the Slayer had a 20% damage rebound.

Although this damage is evenly distributed, each of the 100 monsters can share the damage value of 80,000 per second. At a time, 100 monsters that rushed over were all pulled by Xiao Liang.

Lu Yang pre-read for 5 seconds and shouted, "All use range skills, attack."

"snowstorm"

"Flame Storm"

"Broken Time and Space"

"Ground Dragon Spike"

"Scramble"

...

Countless skills were thrown down, because every player participating in the battle is the best player in the Iron Brotherhood, even if they are still wearing level 130 dark gold equipment, the damage can be very considerable, less than 2 minutes, 100 A monster was killed.

"Wow, it's that simple." Chu Xiao said excitedly.

Hell King Zhenhe smiled and said, "The boss is the boss, the true god."

Lu Yang said with a smile: "The lord is ahead, follow me."

Everyone: "..."

“It’s the lord, it’s so easy to copy the nightmare.” Chu smiled and asked with a big mouth, unable to believe it.

“Hehe, this is in the Jagged Brothers Alliance, and it must not be possible elsewhere.” The Hell King of Zhenyuan said with certainty.

Lan Yu patted Chu Xiao’s shoulder and said, “It’s good to get used to it slowly. We’ve been hitting copies like this.”

Chu laughed: “...”

Hell King: “...”

These two were the first time to play a nightmare-level copy with Landing Yang. Recalling the tragic situation of the nightmare copy they had before, looking at Lu Yang’s side, there were all black lines on the forehead.

Of course, if the official sees Lu Yang’s play, he will definitely have a black line in his head. The original nightmare-level copy is difficult for players.

The normal 100 level 130 players come in. If you want to destroy the 100 monsters at the door, you can only pull 3 at a time. You also have to choose the timing. Once you make a mistake, the number of pulls will become 10. This requires other professional strengths. Control several other monsters, once the control is not good, the team will die!

Normally, it takes two to three hours for such an entry platform. Like Lu Yang, if you pull the monster, the battle will end in 3 minutes. The official will madly ask the master to change the copy. Unfortunately, the official can’t play the game Monitoring Lu Yang from here, the main brain would not do such a thing.

Lu Yang brought excited turbid wine and others to the first lord monster.

The Prophet Talama (Lord)

Level: 140

Qi and blood: 500000000000/500000000000

Talama is a 10-meter-tall octopus-faced giant with a book in his hand. There are many 2-meter-high cages 50 meters behind him. Each cage is a purple-black space teleportation array.

Lu Yang said: "The play is simple. The back cage will produce more than 30 mobs every 1 minute. Xiao Liang pulls Taramar under the cage. The mobs come out and hold together. Everyone stops attacking at this time. , I will fight again at my command. As for the skills of octopus face are range attacks, it is enough to add blood to the treatment range.

"It's so simple." Chu Xiao asked.

Lu Yang asked, "Is there anything wrong?"

"Boss, this is a copy of the nightmare, don't you need to stand?" Chu Xiao asked.

Lu Yang shrugged his shoulders and said, "No need, just a wave of push ~Chu Xiao:" ... "

"Open strange." Lu Yang said.

"Good grin." Xiao Liang put the lower armour and bumped towards the lord.

"Humans, how dare you break into the castle of the Garola, what do you want to do?" Tallama chased Xiao Liang's mammoth.

"jump"

Xiao Liang ran several steps in a row, and jumped to the middle position under the 12 cages. The 10 archbishops and priests immediately released the Law of Light.

After 50 consecutive rays of light, an angel appeared on Xiao Liang's head, and Taramar punched Xiao Liang with a punch.

"1768321"

The attack power of the nightmare-level lord can only kill nearly one-seventh of Xiao Liang's health. Normally, one defense comes over and can only resist 2.5 attacks. Therefore, the response time for healing is only 2.5 seconds. Yang here, hit casually!

Chapter 1228 - The Prophet Tarama

Lu Yang shouted, "Fight together and kill with all your strength."

The crowd quickly surrounded the lord monster and attacked with all their strength.

Pluto and Chu Xiao from the prison also understood. With the archbishop priest and the lord of the nightmare difficulty, it is very easy to kill.

"947868" (Critical Strike)

"454668"

"454668"

...

A series of high-volume physical attacks, ejected from the shooter's dwarf rifle at a rate of 2 shots per second, good luck, every time you hit a crit, you can deal 1.8 million damage per second.

The 140-level nightmare replica lord has a defense value of 600,000. This is the total physical attack power of a 130-level physics class. Only by playing a 14-level gem physical class can he exceed 600,000 attacks and cause damage to the lord.

But this batch of Starbreaker shooters is different. They are naturally agile 200,000 higher than others. How can 14 physical jewels be more than 220,000 damage, and the Titan Dwarf musket ignores 30% defense and reduces 100,000 defense attributes. The damage to the lord, Hades and the 10 archers exceeds that of Lu Yang, who does not use the heart of the devil.

“Oh my god, the Starbreaker shooter has such high attack power.” Chu Xiao said in surprise.

The prisoner Hades stood beside Chu Xiao and said, “I didn’t expect that this bloodline is really too strong. I feel like a battery.”

Chu Xiao grunted and said, “I have more opportunities to cooperate, I am optimistic about you.”

Regardless of other occupations, the attack of these 10 Starbreaker shooters alone killed the lord’s 2 billion health in 2 minutes.

Coupled with the output of Lu Yang, Mu Yu and others, everyone beat the lord’s 13.2 billion HP in 2 minutes.

“Dark Control”

A spell was uttered in the mouth of the prophet Tarama, a black energy ball emerged into the sky, hitting everyone instantly, drawing 300,000 health points per second to add blood to the prophet.

“Treat the whole group to brush blood, the ice-based master throws Tianhe burst in order.” Lu Yang said.

“Yes.” Luo Shen threw out Tianhe burst for the first time, hitting the prophet, only letting him recover his health for 1 second, his health could no longer be recovered.

The crowds were close to each other, the priest used the range to add blood, and carried the skill for 10 seconds. Normally, this skill has no Tianhe burst, and the prophet can recover 3 billion health in 1 second. This time, the skill is released. It can restore his health to 30 billion, which is the same as playing in vain.

The crowd continued to attack, and after another 2 minutes, the lord's monster's health dropped by 13.3 billion. When he released his skills again, the Ice Mage No. 2 hit the prophet as soon as the black energy ball appeared. Not added.

This lasted for 8 minutes, and the lord's monster's health dropped by 5%. At this time, the lord said a spell, and he stopped attacking. The 12 cages around him suddenly opened at the same time. Black holes have black monsters jumping out.

Garola Slave (Elite)

Level: 140

Qi and blood: 1000000000/1000000000

Xiao Liang was standing in the middle of the cage, and the lord hit him with a single punch, and the refraction of the damage was evenly distributed to the slaves who came out of Galola. Immediately, the slaves rushed towards Xiao Liang.

"brush"

"brush"

"brush"

Red blood mist swirled around Xiao Liang. Although there was less single damage, but it could not help more times. On average, 8 attacks per second, hitting tens of thousands of damage values, plus the shared damage, soon 100 slaves it's all pulled.

These slaves do not have high attack power, only one fifth of the blade of the lord. They can only deal with tens of thousands of damages to Xiao Liang. There is almost no damage. Yeyue listens to the wind and Lan Yu brushes the blood very easily.

Just as the prophet chanted a spell, a symbol appeared on his head.

The system prompts: The Prophet Tarama is in a read-ahead state, and the damage is increased by 100%.

“Everyone hits Tarama, and the theocratic knights punish the angels and theocratic invincibility.” Lu Yang shouted.

“Yes.” The fiery **** roared suddenly, his body glowing with golden light, and then the whole body became bright red, his base attack power increased by 1.5 times, ignoring the target’s physical defense.

“3000000”

“3000000”

...

Each attack hit more than 3 million damage. Although the output of the Starbreaker shooter is not as good as it is, it is not too inferior. The two sides are comparable, and for a time, 100 monsters are summoned for 30 seconds. Killed nearly 6 billion HP.

At this time, Xiao Liang also pulled 100 monsters.

Lu Yang shouted, “Use range attacks instead.”

The crowd attacked, and 100 monsters were easily killed.

“Dark Control”

“Tianhe Burst”

...

The same method continues to be repeated, especially when Taramar is twice attacked when he releases the slave, the blood loss is extremely fast, resulting in a slave summoning every 2 minutes later, only 27 minutes before the lord monster Knocked to the ground.

Lu Yang came to the Lord Monster and looked at the dropped items.

“Thank you, boss.” Chu Xiao happily replaced the equipment, and inlaid with 14 segments of intellectual gems.

At the same time, among the things that burst out, there was another thing called Xianlianshi, which made Lu Yang look interested.

“What is this?” Asked Zhuzhuo.

Lu Yang said: “That magic weapon shines an upgraded gem, but this thing only has a 50% chance of synthesis. If it fails, it will break.”

The King of Hell said: “Don’t refine it first, it’s a pity that it was broken.”

Lu Yang lost laughter The body turned into a light and flew back to the demon temple, throwing the dice of destiny, the three numbers are 5 points, 5 points, 6 points, more than 10 points, lucky plus 10 point.

As with the previous refining equipment, with these 10 points of luck, using Xianlian Stone to upgrade Huiyao, the first 10 levels are also 100% successful.

He placed the immortal stone and the radiance together on the altar and chose to synthesize, a flash of light flashed.

Chapter 1229 - Speedbrush copy

Lu Yang nodded with satisfaction, returned to the copy, and said, "Continue to open up wasteland, I'll pull the monster."

Passed the front garden, followed by a relatively narrow promenade and a wide corridor. There are also 100 strange in these two places.

"Remnant Flame"

"Escape The Dagger"

"flicker"

"Blazing Blaze"

"activation"

The player who didn't pay attention, heard Lu Yang shouting these words, and saw a group of strange rushed over. The archbishop priest was still releasing the law skills, Xiao Liang was responsible for pulling the monsters alone, and everyone released the group skills, less than 5 In a matter of minutes, all the blame was eliminated.

"Go, let's hit the lord." Lu Yang said with satisfaction.

A 140-level copy of the nightmare, the second time to clean up the mobs was so fast, they saw the lord monster every few minutes, which made them wonder what to say, and they all showed excited expressions.

Through the corridor, in a spacious hall, I saw the second lord, the Garola Magic Warrior in the form of white elements.

Garola Magic Warrior (Lord)

Level: 140

Qi and blood: 300000000000/300000000000

“It has less blood than the first lord.” Chu Xiao said excitedly.

It just took 27 minutes to kill the first lord monster. Everyone was exhausted, and they were very happy to see a person who lost 200 billion lives.

Lu Yang said: “This lord’s monster has a much stronger attack power than the first one. At the same time, the creatures he summons are also special, and Xiao Liang starts to blame.”

Everyone: “...”

“Isn’t it a lot stronger? Boss, you don’t need to stand.” Chu Xiao asked with surprise and a big mouth.

Lu Yang smiled and said, “There is a priest and a priest here, no matter how terrible it is, it is Xiao Liang.”

“Yes.” Xiao Liang, carrying a shield, launched his charge skills, and slammed into the lord’s monster.

“Ignorant mortals, you will die on this land like your ancestors.” The 20-meter-high Garola Warrior threw a magic ball in his left hand.

“Law of Light · Ease”

“Law of Light · Ease”

...

Ten consecutive rules of the Holy Light were all drawn around Xiao Liang at one moment. Xiao Liang's damage was reduced by 10%. Drawing five times in a row, Xiao Liang's damage was only over 3 million per second.

Normally playing this lord in the previous life requires special elemental resistance gems, in order to only lose 5 million health per second, and can resist the 3 attacks of the lord monster.

The first is a physical output, and the second is a magic output. Regardless of the equipment obtained, the gems, equipment, enchantments, and potions paid for this copy alone are a large number. It can be seen that the copy of the nightmare has How difficult.

However, there is a priest priest here on Lu Yang. The special blood that should have appeared on a large scale after level 180 has appeared at this level, which has helped Lu Yang save a lot of energy. Xiao Liang's equipment is only level 130 dark gold. Without changing magic resistance gems, resistance to strange resistance is still stable.

After 5 minutes, the lord monster was killed with more than 30 billion health. He stopped attacking, and a huge hollow turned out in the middle of the body. At the same time, countless white mana dragons flew out of the hollow.

Lu Yang shouted, "All remote occupations stand with Xiao Liang with me. Half of the archbishop priests brush their blood, and half of them release the Law of Light. Slow."

All the long-distance fast follow the landing Yang came to Xiao Liang, and Lan Yu and Yeyue listened to the wind to discuss, and decided to let Lan Yu take 5 people to guarantee the life of the whole group, and Yeyue Listen to the wind took 5 people to guarantee all the remote life.

More than 100 mana swim dragons quickly flew over Lu Yang's heads, sending lightning to the landing sun.

"50182"

“1502”

“50182”

“1502”

...

Lightning from each Mana Wanderer, when hitting one target, causes 3% chain damage to all other targets at the same time.

“Boss, why can’t Mana Dragons attack?” Chu smiled and saw the word “Invincible” behind Mana Dragons’ name.

“After we were attacked, there was an additional buff, and all damage increased by 1%.” The Hell King Zhenyuan said in surprise.

Lu Yang shouted with a smile: “Listen to my order, all remote occupations, output the white hollow position of the lord with all strength, that is his weakness.”

This is originally a special attack method of the lord monster. The body becomes 100 mana dragons, attacking all remote targets. At the same time, each attack will add an overload effect to the damaged target, with 1% attack power for 3 Seconds, 100 layers can be superimposed.

With 100 simultaneous attacks, each person can get a 100% magic damage bonus, and attacking the white hole position exposed by him can cause 100% crit.

Of course, the white hole is not large, and the lord sways when he attacks, but for these people around Lu Yang, it is not difficult to target and attack.

“1895736” (overload + crit)

The Hell King's attack is extraordinarily comfortable. Each attack can deal nearly 2 million damage, and the Starbreaker shooter has a rate of attack of 2 attacks per second. For a period of 1 minute, he hit it alone. With more than 220 million damage, 10 shooters added 2.2 billion damage.

Including the melee attack of the Divine Knight, melee attack of the wolf warrior, and attacks of other professions such as shaman, the output of the entire group of people in this group inflicted damage that can only be hit in 3 minutes, causing 50 billion Damage value.

In this way, Lu Yang does not need to return with people. The second phase of the Lord's Monster did not release any skills and continued to maintain the second phase.

Just after 8 minutes, the lord fell to the ground.

System prompt: You killed Garola Magic Warrior

Lu Yang looked at the equipment.

Garola Bloodsworn Gauntlets (Excellent Gold)

Level: 140

Defense: 11420-11450

Magic resistance: 11420—11450

Intelligence: +11250

Constitution: +7000

Additional Spell Damage: +17547

Additional Spell Penetration: +17547

Additional Spell Crit: +17547

Set: 1/8

2 piece set: +2 spell level

4 piece set: 15% chance of attack and 30% additional damage

Set of 6: Spell damage increased by 10%

8-piece set: 30% chance of releasing spells to add a magic shield that resists 500,000 damage

The other two were bracers and boots. Only two lord monsters and two-thirds of the mage's suit were hit. Two more can make up a full Garola Bloodsworn suit.

Lu Yang said, "Let's go, then we will go to mobs."

The crowd shouted in unison: "Oh ~!"

Brushing the lord monster so easily makes everyone's face full of smiles. At this speed, the equipment of their group of people can be done in just one week.

Walked through the hall and officially entered the palace. There were soldiers on duty in the hall, there were melees and long-range, and magicians, but Lu Yang was still the same as before. After a wave of pulls, Xiao Liang saw the first. Three lord monsters and the last lord monster.

Garola's Five Blood Guards are called Decapitation, Frost, Terror, Light, and Will. These five people are about 10 meters in size, and each has a health of 60 billion.

"5 lords appear at once." Chu Xiao said in surprise.

Lu Yang said: "Simple, Xiao Liang pulls together, the Ice Master still controls the Holy Light and blood on the Tianhe burst in order. His blood cannot be interrupted. Everyone uses range attack magic. Come on."

The most hated of the last life is the lord of the Holy Light. All treatments are instantaneous, and there is no chance to interrupt other professions. Each time the blood is added, it is 10 billion.

"Yes." Xiao Liang roared, and charged towards Shengguang.

"Humans, I admire you for being able to come here, but you can only come here." Shengguang is a woman, smiling gracefully, and launching a shock of Holy Light to Xiao Liang.

"Law of Light · Ease"

"slow"

"slow"

...

For 50 consecutive rules of the Holy Light, there was no problem with Xiao Liang carrying 5 people's attacks. Although they can kill Xiao Liang's more than 5 million health each time, they can only resist two swords. The third knife will die. As a result, the attack by everyone is much simpler, all are range magic.

60 billion health, can not carry magic in the face of the range, among these 5 lords, only terror is a warlock, will use fear skills to put everyone into control, but his magic is 1.5 seconds to read the bar .

Lu Yang has been staring at horrible skills. Whenever he wants to read a note, he must be interrupted by a magic. Without this, under the circumstances that Xiao Liang can handle, compared with the first two lords, this lord kills It's very easy to get up and it's over in 5 minutes.

Lu Yang opened the equipment and took a look.

Garola Wise Staff (Excellent Gold)

Level: 140

Physical attack: 50156-50888

Intelligence: +24250

Constitution: +12000

Additional Spell Damage: +36547 points

Additional Spell Penetration: +36547 points

Additional Spell Critical: +36547 points

The remaining two items were Garola's belt and hand guards. They just assembled a set of mage suits. The first benefit turned into Chu Xiao, and the little girl jumped excitedly.

Looking at the last item, Lu Yang burst out of another immortal stone. He did not upgrade Hui Yao, but left the copy with the team. At the door, there were 999 teams and more than 99,000 people were together. Swipe to stand there.

"You can see clearly." Lu Yang jumped onto a high platform and asked aloud.

“See clearly.” The other 1,000 team leaders and players responded.

“Okay, open it.” Lu Yang said.

The 1,000 teams broke into the copy of the nightmare difficulty with a smile, and began to brush up. Lu Luyang also returned to the copy, and swiped with the staff. While he was brushing, he hummed the song.

“Small book, you just need a T. Powerful heroes crush the team. You don’t need to be able to fight against it. Hehe hehe we will go over ...”

The murmurous wines around the side of Lu Yang and the King of Hell and other people heard Lu Yangheng’s songs and looked at them with surprise.

“Boss, what kind of song are you doing? It’s very fun.” Zhuojiu asked.

Lu Yang said, “Well, it’s good to have this copy.”

People around nodded.

Lu Yang said, “This is an old song. It was adapted from an old game. If you like it, I will teach you to sing.”

The original version of this song was a song sung by a celebrity. When it was almost 180 in the last period of the last life, many people had the blood of the archbishop, and the equipment of MT was also very good. Pushing this copy with the master and the shooter is like playing.

I don’t know which talented guy has used this song in this copy, and he has a special feeling while singing.

Lu Yang likes this tune. He sang it to everyone cheerfully, while Zhuojiu and Chu Xiao sang as they swiped. The more they brushed, the more they felt more appropriate, and they followed the singing.

“Haha, this copy is too cool to brush, really refreshing while brushing.” Zhen He Ming Wang said.

“I don’t know what other guilds outside know how we feel about brushing 140-level dark gold equipment like this.” Luo Shen said.

“If you know it, you must be jealous. When we have the full copy of the equipment in the future, we will sell the equipment together, and that will make more money, no more than they grab the new year beast.

“That is, once refreshed, I can grab two or three years of beasts, and I have no luck with things.”

“Oh, all the same.”

Players in the Jagged Brothers Alliance have brushed up their equipment, and they are no longer jealous of Nianyu.

Lu Yang also started the era of speed brushing. His team contains Mu Yu, Nanfeng Zhiyi, and several high-handed artifacts. Only the special attacks they launched can kill the lord’s hundreds of millions of lives each time. value.

At Lu Yang’s speed, it takes only half an hour to make an average copy of each copy. It produces 9 pieces of equipment. When you are lucky, you can get 2 immortal smelting stones.

After 16 hours of continuous brushing, 288 pieces of 140-level dark gold equipment were played, and 20 sets and nearly a hundred pieces were collected.

In one day, the equipment of one-fifth of the entire team was put together. When the evening rested, Lu Yang let the others go offline first and brought all the guild level players and above. Guild Headquarters of Tianyuan City.

“What’s going on today?” Lu Yang asked.

Tu Feng said: “The outside is a mess, and the major guilds have exposed their strongest legions.”

Lu Yang became interested and asked, “What legions are there?”

“The Abyss Demon Legion, Mummy Corps and Abyss Mage Regiment of the Eight Kingdoms Group are the strongest compared to other bloodlines that are not special.” Tu Feng said while opening the official video.

In the picture, scattered players attacked Sixiang City on a large scale, and tens of millions of people rushed out of the teleportation array inside Sixiang City and rushed out of the city. Any player wearing a guild badge on his chest will be attacked fiercely.

For a while, the 130-level maps of Sixiang City and the surrounding area were all occupied by casual players. However, when the casual players celebrated victory, the drums of drums rang around the entire map.

“Boom”

“Boom”

“Boom”

...

From the perspective of the sky, stretching higher, you can see that on the 131-level map, the G8 players with more than 10 million people are being divided into 8 huge square matrices, gradually moving inward in a huge enclosing circle. Tighten.

The two sides of the battle, on the one hand, are casual scuffles, on the other, they have a well-planned and professionally commanded, and they are all wearing high-level equipment and bloodline guild players, both of which stand against each other.

From a high altitude point of view, as soon as the two sides made contact, the scattered players were defeated in all directions, and countless scattered people were strangled by a meat grinder surrounded by millions of players from the Group of Eight.

In the eight encircles, Tu Feng opened the fighting group facing the east. He said: "This part is the best and most powerful among casual players, but they die the worst."

The picture zoomed to the east. In this place, more than 3 million casual players battled the Group of Eight and the Mexican Guild. President Galga participated in the battle himself. In the war, he turned into a four-footed 5 meters. High flame demon form, like him, there are 5,000 people in flame demon form.

"Killing is really something I enjoy. Try my flame rain." Galga made a right-handed move, and the clouds in the sky turned red. Within 50 meters in diameter, large flame rain fell from the air.

After hitting the ground, the damage was able to burst out 5 times of critical strikes. In an instant, all the enemies within 50 meters were seconds, except for anti-war and anti-riding.

When they thought it was a long-lasting, long-cooling skill, the flame rain stopped only once, and to their surprise, Galga raised his hand to summon the flame rain again, Equal to this is a skill with no cooldown.

"I've seen statistics from other anchors. The 5,000 people alone killed at least 1 million players. Their attack power is too high. Each crit is 5 times the crit, which is completely beyond the current level. Have the strength of the player." Tu Feng said.

The White Lion frowned and asked, "What kind of army is this? Do you know their specific skills?"

Tu Feng shook his head and said, "Sorry, we haven't got any news yet. Gelgar swept all the enemies with this one skill. In their guild, these 5000 people are just like our studio. The combat effectiveness of the Chinese commander is also a top secret combat effectiveness."

“This group of enemies is not easy to handle. Once there is a strong anti-war battle at the front we will face them with a big loss,” said Zhujiu.

Having such a legion is equivalent to having a heavy artillery unit or a heavy artillery unit that will kill one hit. It is stronger than the cursed mage, because the cursed mage is a permanent skill and has a long cool-down time when released. However, this skill did not cool down, it was just an attack, and it could last a long range of operations. Several vice presidents were thinking about how to face such an enemy.

Lu Yang was also a bit surprised to see this legion. This is one of the most difficult super legions to deal with in the last life. The Abyss Fire Mage Corps has the strongest single attack power of the Fire Master. The group attack is this abyss. Legion of Fire Mage.

“What other enemies?” Lu Yang asked.

Tu Feng returned the picture to the previous one and found the picture on the north side. After opening it, there were also two sides in a fierce battle in the picture. When the scattered people attacked, suddenly, there were thousands of bandaged mummy. After coming out, they all pointed to the field.

A dark green light flashed, and thousands of large tombstones appeared on the field. When the tombstones appeared, the casual player’s attack power was reduced by 30% and the movement speed was reduced by 20%. At the same time, there were several magic immune small mummy.

Chapter 1230 - 2nd War Studio established

The mummy’s attack power does not seem to be high, but as long as you do not kill them quickly in the war, but stack them to three or four or more, all non-plate armor occupations will not be able to carry it, and the health will drop rapidly. .

When the mages reacted, when they wanted to hit the tombstone, they found that the tombstone is also magically immune and has up to 50 million health. Because the tombstone thrown in the chaos, most of the physics professions are in the front, and The tombstone is in the middle position. The mage cannot defeat the tombstone by physical attacks. The physical profession in front is still complaining about the IQ and the back. I don’t know to fight the tombstone first to help them.

“This tombstone is a sneak attack in the melee,” said the White Lion.

Once in the scuffle, no one noticed the power of the tombstone. In less than a minute, more than ten zombies can be gathered around a person. What does this mean? This is equivalent to a thief of the same level chasing and hacking behind you. Now, the zombies are not dead, they will continue to chase others. The small zombies are small in size, and they can have room for 20 hits, which is definitely a weapon for the wicked.

Tu Feng said, "It's more than that, look at it."

Each mummy player suddenly broke the bandage and became a black pharaoh. Pharaoh was born with an aura, attacked by his little zombies, and enemies within 50 meters of him. When attacked, additional Take 20% of the damage.

In teamfights, this skill is fatal to players. The ranged skills of teamfights are thrown down one by one. Players in ranged attacks will each have to be attacked by several skills at the same time. 20% damage is enough to make a player die twice as fast as usual.

In the past, the treatment may still be added. Under the weakening of the Pharaoh's aura, the treatment often did not wait for the blood to be added, and the player died, which led to the scattered group quickly being disintegrated by the enemy.

Tu Feng paused the video and said, "The enemy's skill is not the point. The point is the enemy's attack method. I gave him a name, 50 meters assault."

He pointed to the moment when the G8 launched an attack on the screen, and said, "Gelga's attack was based on defense as a shield. They hanged the enemy like a combination of heavy artillery and Roman heavy infantry, and this Bangladeshi pharaoh legion, When the two sides came into contact at a distance of 50 meters, they suddenly rushed out and strangled the scattered army. This large-scale corps can be clustered and strangled within a 2 km horizontal range. It can be so neat and terrible. "

Zhuo Jiu, and White Lion, Zhou Tianming, Tian Yao, and others are experts. After seeing this scene, and thinking of their own team, their faces have a pensive expression.

"This is a great move. If the level 50 assault is done, it can be turned into a long knife at a certain point, killing people and seeing blood." Zhou Tianming said.

People such as Zhuojia and White Lion nodded and looked at Lu Yang.

“Boss, should we learn this game?” Asked Zhuzhuo.

Lu Yang smiled and said, “Tu Feng just summarized it very well. This style of play is called a 50-meter assault style. For now, leave them alone. We will continue to focus on equipment.”

This is a classic game of the last life, but Bangladeshi players have not yet officially developed it on the screen.

The correct way of playing is a very complicated system. He divided a 100,000 regiment into 10,000 10-member squads. Each squad contained all the assault abilities of the theocratic knight, archbishop priest, and ice master. Strong career.

In the next large-scale battlefield, there will be wars between the Brotherhood of the Iron Brothers, the Group of Eight, Liu Jie, or any of the strongest guilds, and there will never be a stagfight like Lu Yang and Tianlong.

Instead, there will be large-scale battles organized, coordinated, tasked, and specific division of labor. The two sides of the battle will often fight in a scene that is tens of kilometers long and spans several maps.

In this kind of war, there will never be a situation where a person leads a team to penetrate the enemy's position. Even if it penetrates, the probability of survival of this team is extremely low, because dozens of kilometers are the battlefield, including Rear resurrection point.

Therefore, the victory of war can only be the victory of the whole world, not the victory of a certain local victory.

In the last life, at the beginning, the largest and strongest guilds did not touch the road in the face of this war. The Bangladeshi super guild found a way with this 50-meter assault.

In the collective war between the two sides, each attack must be carried out in a 50-meter assault mode, engulfing the enemies, and the battle on both sides will win the victory within a very short time after entering the 50-meter.

Using a 50-meter assault guild will basically disintegrate the defender with an overwhelming attack, and then they quickly resurrect the dead player in place, using this as a base, waiting for the surrounding people to follow, and then carry out the next assault, or Rescue the surrounding teams.

Lu Yang is now so laborious in searching for blood and equipment to prepare for the future 50-meter assault battle, and the only one who understands the essence of this game is now only him, so he is not in a hurry, he motioned to Tu Feng to continue .

Tu Feng said: "The strongest is the two legions, the enemy's other teams have not been exposed."

Lu Yang asked, "What's the final battle?"

Tu Feng said: "The end result is that all scattered people are wiped out."

He continued to play the picture and pulled the perspective into the sky. From the above, it can be seen that it took only half a day for the Group of Eight to kill the casual players who rushed into the four elephant city to make trouble.

"He is deterring casual players with thunder." The old man said.

Lu Yang sneered and said, "He can't help it. Look at it. What he is going to meet tomorrow is a bigger rebound, which will give him a jump."

Everyone was a little surprised.

"Any other news?" Lu Yang asked.

Tu Feng shook his head and said, "Today's time, except that we and Liu Jie did not participate in the scuffle of the Tianyuan continent, the other guilds were fighting, including some super guilds and large guilds. No other news was useful . "

Lu Yang patted his thigh with both hands, stood up and said, "Go to the hotel to go offline, rest, sleep, and continue to copy tomorrow."

"Yes." Everyone was a little surprised that Lu Yang was indifferent to the Tianyuan Continental War, but did not say, and returned to the room to rest.

the next day.

Lu Yang entered the copy again with 100,000 people. Tu Feng called while he was talking in the morning.

"Boss, as you expected, Sixiang City has been counterattacked by scattered players. Starting from 8 am today, at least 100 million players have appeared in the safe zone. The Group of Eight was pitted once, and is now in a hard fight. "Fu Feng said.

Lu Yang sneered and said, "Just guessed it was, and let them fight. We are safe to hit the equipment, and we will definitely not participate."

Tu Feng said, but said, "There are a few players in the Jagged Brothers Alliance who are still willing to stay in Taohua Island. They were attacked by scattered players and sent a message in the guild. I hope that the guild brothers will help them fight. "

"Asshole." Lu Yang was furious and asked, "Is anyone gone?"

"Some people went and got trapped, probably about a hundred people." Tu Feng said.

Lu Yang opened the guild channel and saw that a lot of players were calling out for help.

"Brothers, whoever comes over to help us, we were attacked by casual people outside Taohua Island."

“Scattered **** are too bullying, kill us when we see them.”

“Scattered people robbed us of our equipment. My 130-level dark gold weapon. I waited for several copies of the CD to get it.”

...

Lu Yang saw more than 20 people shouting at the same time, and many people in the guild were responding to their call and were rushing to help, he didn't think about it and opened the guild interface.

The system prompts: The player is kicked out of the guild by the president

System prompt: The player was kicked out of the guild by the president yesterday

...

The guild chat channel was all quiet for a moment, and everyone was dumbfounded. It was the first time that Lu Yang kicked someone in person, and among the people he kicked, there was a deputy head of the Jagged Brothers League.

[Guild Channel] Lu Yang: I repeat, Iron Brother Brothers has issued an announcement prohibiting internal players in the Guild from participating in the New World scuffle, especially when conflicts with casual people are banned, and they cause problems, then return to the Guild to pull people into the water. Do you want to drag the entire guild?

Take a look at Four Elephant City, which is being besieged by more than one hundred million scattered players. Tens of millions of people in the Group of Eight have been exhausted from participating in the battle. There is no way to upgrade, no equipment.

What do you guys who are going to help want to do and want to drag the entire Brotherhood of Iron Blood into the water? Is it necessary that the players of the Brotherhood of the Iron Blood can not be upgraded, and will they be willing to be attacked by Liu Jie, who is very talented?

How long have Liu Jie and Bloodthirsty Bastard's **** passed, just a little over a year ago, have you all forgotten?

Could it be that you still want to go back to the era when people were hired to level up and drive away, they can only hide in the corner and quietly level up their teeth and think of revenge? Have you forgotten that you were also those who were bullied by the Grand Guild? How could a guild want to bully people in turn? Give me back to upgrade.

Dozens of the most noisy were kicked out of the guild by Lu Yang, the order of the entire guild quickly restored to calm, and everyone went to fight equipment to upgrade the level.

For the first time, the chairman of the Jagged Brothers Alliance treated members of the guild with such an angry tone, which made everyone fall into reflection, but Lu Yang knew that this was not a long-term plan. His strong elasticity would eventually be due to the current situation. Changes and ups and downs.

All he can do is hit as many gears as possible before everyone's emotions fall into restlessness again.

"Equipped with equipment, we continue." Lu Yang shouted.

"Okay." Everyone was full of confidence.

...

In the next week, these 100,000 people in the Iron Brotherhood all played equipment in the copy. At the beginning, the ordinary team needed an hour or so to get through once. With the strength of their equipment, by the third day, , Basically every team can do a copy in 40 minutes.

By the seventh day, when these 100,000 dark gold-level equipments were all in line, it only took 30 minutes to get a copy. At this time, the year of the beast reached the last few days, and the players of the Jagged Brotherhood were a bit heavy. Can't hold my breath, I want to try it on Taohua Island.

However, on Taohua Island, there are tens of millions of casual players. If they go, the biggest possibility is to cause conflicts between the entire guild of Sanguin Brothers and Sanshou.

Lu Yang knew that he couldn't conceal any more, and sent 140-level dark gold-level equipment to the guild.

"Gallola Bloodsworn Suit? Dark Gold?"

"I'll wipe it. The boss used to play dark gold equipment every day."

"I want, how many points can be exchanged, the boss told us quickly."

"This is the output of a copy of the nightmare. The boss is desperate for us."

...

The guild boiled instantly.

How difficult it is to obtain dark gold equipment at level 140. At level 140, the Iron Blood Brothers players know best that they have difficulty playing gold equipment, not to mention dark gold, so that except for a small number of masters, other people bring It's still a 150-level silver or 130-level dark gold sleeve, with similar attributes.

Lu Yang saw that the screen had been swiped in the guild. He put out the redemption points and said: "One point is 1400 points, and the helmet, clothes and pants are 3,000 points."

"so much."

“Oh my god, the score is not enough.”

“It’s dead, boss, we demand war.”

...

Lu Yang said with a smile: “Whether you fight, you need to collect materials, Styx grass, Symphony flower, Qixing lotus, Soul grass, enchanted material after disassembly of level 130 dark gold equipment, Tianxiang pig, cherry beef, white Lobster and spices, everything can be redeemed for points. “

These things are necessary for level 140 enchanting, potions, and cooking. With these things, he can enchant the equipment. As for the acquisition of materials, it depends on the 100,000 people.

However, before conducting a large-scale army battle of 100,000 people Lu Yang needs to place these 100,000 people in the one-step Dengtian studio opposite him, which is now bought by Lu Yang changed his name to become the Second War Studio.

When ordinary players in the Jagged Brothers League went to collect materials in full swing, on the other side, countless people got off the high-speed rail at the train station and took the package to take Luyang ’s long-prepared bus, one by one. The 100,000 people were sent downstairs to the Second War Studio in batches.

“Here is the studio of the Iron Brotherhood. The 33-story building next to it is so cool.” Hellfire dressed in a coat, carrying a package, standing on the right side of the road, looking at the two huge studios on the left and right, constantly comparing. .

Hell King of Hell came to his side and said with a smile: “There is where the boss works. I really want to see him.”

Chu Xiao, who brought them, gave them a scornful look and said, “Hurry back to the dormitory to clean up and wash, then I will take you to the Second War Studio to familiarize yourself with the environment, remember your identity, and now you are all legionaries , Not only good skills, but also the management of players. “

“Observe, Big Sister’s head.” The town haunting King and Hellfire together paid homage to “Boss”. Within a few days, the two became Chu Xiao’s younger brother.

Chapter 1231 - League invitation

“You’re busy. I’ll go to the boss to report. I’ll treat you at night. Let’s have a few dinners.” Chu smiled at them and turned away smartly.

In the top floor office on the 33rd floor, Lu Yang was watching the muddy wine, Chu Xiao, Tu Feng and others arrange the 100,000 people on the top floor. Suddenly, the phone next to him rang.

“Dididi”

Lu Yang used the watch to press the answer button, and the camera hair on the phone projected a bald figure.

“Mr. Lopegi.” Lu Yang looked at the projection in surprise, and asked with a smile: “Why did you call me, wouldn’t you want to get the money back, I have spent it all.”

Lopegi laughed and said, “Chairman Lu Yang, you are still as humorous as ever. I am not here to ask for money, but I am going to continue to send you money.”

“Send money?” Lu Yang laughed and asked, “What’s the good thing?”

Lopegi coughed and said, “I officially send an invitation to the President of the Jagged Brothers Alliance on behalf of the Second World official. I hope you can join the World Games League and become a legion in the Super League.”

“Legion?” Lu Yang asked.

Lopegi said: “Yes, it’s the Legion.” Second World “officially decided to officially host the Super League leagues in the game industry, which are the leagues of the Super League, A, B, C, D and so on.

The league is held once a week. Players are required to have a minimum of 50,000 people and a maximum of 100,000 people. The two sides of the war will invest in a few specific match maps. Which side kills the other first to win the victory. .

Anyone who participates in the league will get a bonus share and get a major broadcast. The share will be more, and the first place in the league will get more money. “

With a smile on Lu Yang's face, he said, “I accept the invitation and the Brotherhood of Iron Blood will join the league as an official gaming company.”

He knows that the super league of the last generation is also the most watched game in the last generation. At the highest period, more than 10 billion people worldwide watched online at the same time. Remember that the ads played at the time of the game were hundreds of millions. The value of the dollar.

The establishment of this league, on the one hand, provided reliable financial protection for the top ten strongest guilds, and also provided employment opportunities for more people.

Lu Yang wanted to continue to expand his staff. With the income from this competition, he could recruit more people to join the studio.

Lorigui guessed that Lu Yang would not refuse, and said with a smile: “According to official statistics on the points of the Jagged Brothers Guild, in the Super League half a year later, your guild must be ready.”

Lu Yang nodded and said, “Rest assured that the champion of this league must be mine.”

Lorigi smiled and waved, closing the call.

“Boss, I'm here.” Chu Xiao yelled at the camera in the elevator on the 29th floor. .

Looking at Lu Yang in black and white.

“Let him come up,” Lu Yang said.

Black-and-white clicked the switch, the elevator continued to go up, the door opened, Chu smiled in and walked in. He made a noise with Black-and-white to recruit and stood in front of Lu Yang, saying, “Boss, the staffing is complete.”

Lu Yang said: “Good job, sit down. I asked the other vice-chairmen to come to the meeting together and something will be announced.”

“Oh.” Chu smiled and sat aside, blinking curiously.

Lu Yang opened the talker and sent a message to all members of the group. At one time, whether in the game or outside the game, the turbid wine and white lions and other people returned to the headquarters building and came to the 33rd floor of Luyang. Inside the office.

“Boss, what’s so mysterious.” Asked bitterly for half a life.

Lu Yang saw everyone here and said: “Lorigi just called me and said that the Super League will be held half a year later, and the size of each team will be between 50,000 and 100,000.”

“How much money can I give this game?” The old man asked.

Lu Yang said: “Lorigi did not say, but according to my estimation, those who participate in the Super League, taking our Jagged Brothers League as an example, can get more than 2 billion US dollars at least a year.”

“Can there be so many?” Old Man asked, disbelievingly.

Zhuoju and the White Lion were both blank.

Lu Yang said: “You think, the revenue share of live broadcasts, the advertising revenue of chests of all contestants, the exclusive clothing of all of us is an income, and the revenue of derivative authorization.”

These aspects are the most famous income source channels of the last century, and they must also be opened in the first place.

Others, let’s not mention it, only the clothing of the competition personnel. In the last life, there were agreements between some super guilds and certain clothing brands. The clothing of the combatants were designed by these brands.

In discussions with the official, the official quickly made beautiful dresses for these brands. At that time, when all members of the guild wore clothes made by the top designers of these brands, the players watching the world were uproar.

On the day of the competition, on the official online sales channels, these clothes sold hundreds of millions of items in just one hour, and were sold out directly. If there are still stocks, more are sold.

This was a perfect win-win situation, and within the next month, these companies sold clothes they couldn’t believe in numbers.

All students around the world, if they do n’t have one or a few sets of such clothes, they will be laughed at when they go to school. No one will play with you after school. Even elementary school students require parents to buy them a set of such clothes.

This kind of clothes is not only cheap, but also high-priced items such as celebrity explosions and classic collections, especially the clothes worn by the president and several star members in the competition. The price is as high as more than 1,000 credit points. Finally, all the revenues are added up. This month, several companies together made a net profit of tens of billions of dollars.

Lu Yang briefly talked about the money-making model and everyone, combined with the current popular Premier League games, everyone quickly understood.

“Boss, do you mean that this game is likely to exceed the Premier League?” Tian Yao asked, he is a football fan.

Lu Yang nodded and said: “It will definitely exceed them many times. Starting today, I will expand the recruitment and tell players within the Iron Brothers Alliance that anyone who wants to work full time and can accept a basic salary of 3,000 yuan will be determined by you and Tu Feng. It is not after the spy, I reserve for half a year. During this half a year, I will continue to build buildings here in the development zone and build a very large studio that can accommodate hundreds of thousands of people. “

“Hundreds of thousands of people?” Chu Xiao opened his mouth in surprise and asked, “Boss, isn’t there only 50,000 to 100,000 people?”

Lu Yang said with a smile: “Do you know Wal-Mart, the world’s largest supermarket, how many people?”

Everyone shook his head.

Lu Yang said with a smile: “2.3 million.”

Everyone took a breath.

“My boss, you don’t want to recruit 2.3 million people.”

Lu Yang shrugged his shoulders and said, “What’s wrong? This game is getting hotter and there is no sign of decline. In that case, why can’t I recruit over 2 million people?”

Everyone: “...”

“We don’t have the experience of managing more than 2 million people, so starting from the first batch of 100,000 people recruited, you all have to be mentally prepared, and more and more people are managing.” Lu Yang said.

“Boss rest assured, I can’t ask for it, the more brothers are around, the stronger our fighting ability is, isn’t it the top ten strongest guilds, and one day, all of them will be destroyed.” White Lion said.

“I don’t think the Super League is finished.”

Everyone laughed.

Lu Yang said, “Be careful about us first. The number of super guilds used to be small, but once the official releases this news, think about it. Is it enough to make up 50,000 to 100,000 people to participate in the game, just a few Together, large guilds, can gather enough people. “

“But they have no money or equipment ...” Zhou Tianming reacted before he finished speaking, saying in surprise: “It would not be a sneak attack on the strongest guilds.”

Lu Yang said: “Positive solutions, the good days for our strongest guilds are over. Those guilds can just pull up a group of people to participate, and sneak in on us without equipment. You can get money if you have equipment to play the game. With money directly Splitting accounts, and we eliminated them, and it did n’t make sense to break up this guild. Several guilds over there shouted people and gathered another batch. ”

“Fuck.” Everyone was silent.

“Now it seems that the boss still has a foresight. If we offended the scattered people before, the official announcement came out, the scattered people would have been in trouble, and now they are driven by interests. They have to fight with us.” Lu Yang said.

Xia Yuwei sighed, “It’s dangerous.”

Lu Yang said: “Everyone take a good rest tonight, and tomorrow we will officially take these 100,000 people to waste the town of Garola.”

“Yes,” everyone answered.

Chapter 1232 - Clius city

Here, Lu Yang is busy working on the 100,000 people. On the other hand, the major guilds on the Tianyuan continent are still competing with the Sanren Guild.

After more than half a month of war, real fire broke out on both sides. Although the activity of the beast was over, the two sides had no intention of ending the battle, and a decisive battle was brewing in the headquarters on both sides.

That night, the decisive battle between the two sides broke out, and the eight strongest guilds joined forces, with more than one billion combat players fighting with the other side's billions of scattered people around the Tianyuan continent.

After playing for a whole night, it turns out that even if there are ten times as many guild players, a team with a clear organization of labor and a better commander can win the final victory.

In the early morning of the next day, casual players suffered heavy losses. More than 1 billion people, each of whom died at least 5 times, could be described as a massacre.

When Lu Yang entered the game, he just caught up with the end of the slaughter. In this year's beast event, the 8 strongest guilds and hundreds of super guilds that had been disturbed by scattered players had rushed in Tianyuan City, if it is not safe to attack, scattered people have no place to stay.

"Scattered players have suffered heavy losses." Lu Yang said to the turbid wine and Xia Yuwei, etc., on the top floor of a hotel in the safe zone.

Tu Feng said, "Although the conflict between Sanshou and the Guild has failed, there are still a lot of senior Sans doing well."

Lu Yang became interested and asked, "Who are there?"

Tu Feng said: "The most famous is a male knight with red wine and long hair in Italy, called Shankli. He has a divine bloodline and a superb personal skill. From the beginning, he could not beat any guild

leader. It has already been able to play five or six by one person. Among the top five hundred in the world, it has surpassed the 67th-ranked master.

The White Lion frowned and said, "I have heard about him. After several wars, the scattered army he led has a strong morale."

Tu Feng said: "Not only Shankley, but also dozens of experts such as Lewis in the United States, I suspect these people will establish a guild."

Lu Yang said: "This battle for scattered people has a very high audience rating. There is no way for the scattered people to share money. After this incident, they will definitely form a guild to find an official application for funds. Look at this game. The most chaotic years. "

After level 140, it takes a long time to upgrade each level. In the long upgrade path, if the level of players can not be pulled apart, chaos will accompany the permanent.

"This casual player was anxious and he would never spare the major guilds like this." White Lion said.

Lu Yang said: "You go gather people, I'll go out first."

While the 100,000 people such as Zhuojiu and White Lion gathered, Lu Yang withdrew from the game. His parents just called and told him that the construction team and government personnel were in the conference room.

Lu Yang came to the conference room. All the people present were old faces. The former headquarters of the Iron Blood Brothers League was the land and houses built by these people. He did not treat these people with a lot of money and bought Ground, building.

By the time he got back to the game after all this, Zhuojiu, White Lion, Xia Yuwei, Tianyao and others had assembled 100,000 players under the city walls outside the Kong Kong.

"Boss, you can leave at any time," said Lu Yang, looking at the wall on the wall.

100,000 people looked up at Landing Yang, everyone's face was excited, this was their first collective action after they officially joined the Jagged Brothers Studio, thinking of the mobs and support each other originally in the sky. Brother, is now around, everyone is very excited.

Lu Yang was very satisfied with their expressions and said loudly using a loudspeaker: "Brothers, it doesn't feel like playing copies together."

The crowd looked at Lu Yang with surprise. Originally, they thought that Lu Yang would talk to them with a higher and higher tone, but did not expect that Lu Yang would chat with them like friends, and they were happy for a while.

"Do n't laugh, tell you the truth, boss, I had this dream in the beginning. I hope all the brothers who play games are by my side. If there is anything, I shout a voice, and he will immediately support it. Yes, by my side, I slammed him first, and then pulled him to the door of the copy, daring to delay time, I'm a real PK. "

"Ha ha ha ..." 100,000 people laughed. This is the most angry place for every player who plays a copy. One copy requires 100 people to participate in the battle. One person is delayed by 1 minute. More than an hour and a half will pass. After a delay of 10 minutes, those who have a bad temper will retire.

Now, everyone is around, dare not make good copies, and dare to delay time, just like Lu Yang said, let 's avenge K before revenge.

Lu Yang went on to say: "Of course, gathering quickly is one thing. On the other hand, I brought you all together. I also hope that everyone can join me to fight the world. The development of the Jagged Brothers Alliance to this day requires a professional player to fight. You are the first batch, but you are not the last batch.

In the near future, hundreds of thousands of people will join you. As the first batch of members, you have the opportunity to be the management of this professional team than anyone else. There will be wages, bonuses, and yours. There will be houses. "

The eyes of 100,000 people are fiery, how good are the benefits of the management of the Jagged Brothers Alliance They have heard of it before, and have seen it in person this time, a huge game city.

Pai Pai's family building was given to them by Lu Yang for free. If they could have it, it would be a solution to all worries.

"However, the Jagged Brothers Alliance will also have an assessment mechanism. If you fail to meet the requirements, don't blame the system for being ruthless." Lu Yang said in a suspicious voice.

The expressions on the faces of 100,000 people became utterly innocent. The expression on each person's face and the expression in his eyes had a special meaning.

Lu Yang looked at the fire, and said, "The whole army put on a mount and targeted the town of Garola."

"Yes." More than a dozen people including Zhuojiu, White Lion, and Tianyao changed their mounts, and 100,000 players also changed their mounts.

100,000 people were divided into 100 thousand-person teams, and under the leadership of Zhuo Jiu and others, they took the sky and smoke and galloped towards the towns of the Garola.

Crius City, the first official town next to a copy of the Galora. This is a Tibetan city. It was originally a frontier battle between two races, but another race has been drowned by the blood of Garola. People disappear, but the main city is still alive.

Chapter 1233 - Tens of thousands of offensives

It takes one morning to get from the King Kong City to the Garola Camp. Due to the recent war, Lu Yang has not spared time to build the main cities of each 140-level area.

When Lu Yang came to the place with 100,000 people, it was already noon. Lu Yang disbanded the players and let them go to eat each other. At 1 pm, all the talents returned to the game. It's two o'clock in the afternoon.

"Boss, isn't it too low to get it that way?" Tianyao asked with some worry.

People like Zhuojiu and White Lion looked at Lu Yang, and they had the same concerns.

Lu Yang said: "For the time being, we will adjust our schedule during the war. We will greet our men and wait for the guild wars. There will not be so much rest time."

The crowd nodded and reassured.

Turning your head to look at the town, the entire outer city has no walls. It may have been damaged during the war. Only a trace of the wall was seen occasionally. Now the wall is a row of soil walls more than one meter high. Garola guards.

Garola Guard

Level: 140

Qi and blood: 20000000/20000000

"Uh, I feel very little blood." He said bitterly for a long time.

The white lion scratched his head and said, "Boss, I took a wave of people and rushed into it directly. How about the lord?"

Everyone: "..."

It's easy to blame them. It's really too little blood. Following Lu Yang for so long, playing this kind of simple blame makes them feel very uncomfortable.

Lu Yang laughed and said, "Don't underestimate this map, but there are hundreds of millions of monsters in it. It's not so easy to flatten this copy."

The biggest feature of this copy is that as long as you hit one person, it is equivalent to triggering a riot in the whole city. Anyone you hit will make the entire city's enemies rush towards this side.

This kind of rushing is not rushing from one direction, but monsters from all directions. The AI in the towns of the Garola is very high.

The city wall itself is 5 kilometers long. It is strange that the five-meter city wall is pushed forward in parallel. At the same time, there are also three other city gate monsters. They are divided into three paths and interspersed from the left and right directions. There are few blood, but there are hundreds of millions of them. What is the player's magic value? Even if you take medicine, you can't carry so many strange attacks. It is not bad to survive 2 minutes.

Someone came here to fight monsters in the last life. I just hit a monster and saw countless monsters rushing in. The monsters had so little blood. I thought it was a good place to upgrade and save the trouble of attracting monsters. Going, I didn't expect that there was a steady stream of strange, a 140-level dark gold set of soldiers, was just burned to death, and did not survive in 2 minutes.

Later, some studios heard that this place came to fight monsters. As a result, it did not survive for 10 minutes, and then the studio sold the news of this place to a guild. As a result, the guild did not persist for 20 minutes.

On the one hand, there are too many blame and the speed is too fast. On the other hand, the strange attack power is high. The official rules, the five basic attributes, one is less, there must be more than one. Here is the monster with less blood and high attack power.

"Zhang Zibo, with a defense battle of 10,000, set up a horizontal line of defense in the southeast direction on the left, which has been connected to the mountains on both sides." Lu Yang said.

There are two high mountains on each side of the southeast direction of the Garola town, and the fronts are connected to the sides, which can effectively block the Garola's attack and prevent them from attacking from the side.

"Yes." Zhang Zibo answered with a loud voice, turned his head and shouted, "The defense team, all follow me to the array."

Under the leadership of their respective regiments and captains, the 10,000 defense war ran in the direction indicated by the landing sun.

Lu Yang said to others: "All exporting professions stand behind the defense, and look for their own defenses as they did before when they played the copy."

"Yes." Hei Yan, Zhuo Jiu, White Lion, and Tian Yao responded, and led the team behind the defense.

An array of 100,000 people was formed. The array was completed in less than half an hour. A front line consisting of 10,000 people was at the top, just connected to the mountains on both sides.

Behind the battle are Divine Warriors and Divine Knights, and the Wolf Wolf Legion, followed by Ice Mage and Forbidden Mage, Starbreaker Archer, and Archbishop Priest.

When the formation was completed, the momentum of the entire team suddenly increased by one level, and the feeling of killing was instantly spread to everyone's heart.

"Boss, the array is complete." Zhuo Jiu said loudly.

Lu Yang glanced around and nodded with satisfaction, saying, "Very well, everyone is ready. The war will begin in 1 minute."

He turned and walked towards the walls of the Garola. The 100,000 Iron Brothers players looked at Lu Yang curiously. They don't know why Lu Yang formed such a formation to fight monsters, but Lu Yang's command was never useless. Therefore, they became more and more curious.

200 meters

190 meters

180 meters

...

100 metres

Lu Yang was already able to see the appearance of a Garola guard behind the city wall in the distance. He pointed his staff to the Garola guard.

“Destroy the Sky”

A blaze of red flames flew into the air suddenly, and after 2 seconds, the sky fire fell instantly and smashed into the head of Garola’s guard.

“5218686” (Critical Strike)

Garola’s guard suddenly stared at Lu Yang, roared loudly, and took out the animal bone horn from his backpack.

“Woo ~~~~~”

“Woo ~~~~~”

The Garola guards who were roaming near the city wall locked the target on Lu Yang collectively. One of the team leaders roared like this: “Someone attacked, Garola, attack.”

“Roar ~~! Attack!” Tens of thousands of Garolas roared at the same time, rushing towards the landing sun, the chain reaction caused by them, hundreds of thousands, millions, and tens of millions of Garoles roared, Came towards the landing sun.

Standing in the first row, Zhang Zibo and a group of anti-war battles looked from a distance. They clearly saw that, like hundreds of horse bees flying out of the beehive of horses at the same time, the dense Garola guard rushed out. The city walls.

“Oh my God, there can be such weirdness.”

“It’s spectacular.”

“It’s terrifying The players are surprised, Zhang Zibo shouted in time:” Defense against the defense of the war, don’t be broken by the enemy, everyone is ready. “

Just after Lu Yang rushed back to the defensive position with a burst of fire, the first wave of millions of Garola guards rushed to the front.

“Ice master and shooter, attack!” Chu laughed.

“Shooter Corps, attack!” Shouted Hao Ping Wang.

...

Players on both sides thought that they would not be attacked from the array, but when the monsters came out, they knew how many monsters there were. The middle battlefield just played with the monsters and could not break through the defensive array. Garola’s guards began to spread towards the sides.

There are millions of monsters, and within 10 minutes, the front line of 10,000 defensive battles is covered. If it is not next to the mountain, Garola can run across the front and run to the sides.

Chapter 1234 - Dark Gold Cooking Recipe

However, because of the mountain’s obstruction, the Garola guards could only pile up in front of this 10,000-defense shield if they could not rush to the sides.

Although the players of the Jagged Brothers League attack very high, the strange blood is very small, almost every 8 seconds can clear a slice, but there are too many strange, endless.

“Boss, the wizard team’s magic is less than 50%.” Chu Xiao shouted.

“The healing team’s magic is less than 50%,” Lan Yu shouted.

This is prescribed by Lu Yang in advance. If the team’s magic value is lower than 50%, notify him immediately.

Lu Yang looked at Hei Yan and ordered: “Forbid the curse masters, the first wave of attack, let go.”

There were 10,000 forbidden mage this time. He was divided into 5 teams by Lu Yang. Hei Yan got Lu Yang’s order and shouted, “The first 2,000 people, the target is 50 meters in front of the battle. ,put.”

2000 spell-casting mages chanted a spell at the same time, and after 10 seconds, the sky was covered with strange clouds.

“Meteor Fire Rain”

“Icy Roar”

“Space-Time Cutting”

...

More than 2,000 forbidden spells filled the area around 10,000 defenses in parallel, causing a lot of damage to Garola’s guards. At the same time, other professions attacked at the same time. Garola’s guards quickly died. After 20 seconds, 10,000 defenses The area 60 meters before the battle was cleared.

“Healer, mage, and shooter eat and cook in place,” Lu Yang shouted.

The 60-meter area, plus 10 seconds of anti-war resistance, is enough to make the priests and mages full of magic.

At 60 meters away, tens of millions of Garola guards were still attacking with all their strength, but they entered the attack range of the curse, their blood volume dropped rapidly, and they almost had blood before they came to the defense.

The duration of the forbidden spell is 30 seconds, and the magic class recovers its full magic value in 20 seconds. After standing up, continue to attack after the forbidden spell ends.

After 10 minutes, the second time the magician and priest had no blue, Lu Yang continued to order Hei Yan to release the second wave of forbidden spells.

...

In this way, the forbidden spell was played while playing for an hour, and at this time, hundreds of millions of Garola guards were killed by the Brotherhood of the Iron Blood.

Lu Yang watched that no Garola guard rushed out of the defense and said with satisfaction: "The entire army recovered in place for 1 minute."

The hardest part of Cleus City is to guard Garola outside. After that, all the monsters inside are lord level, but they are particularly easy to fight, and the explosive things are very good.

Lu Yang waited for 1 minute, and shouted, "The whole army keeps its formation and shields."

"Get a shield," shouted Zhuoju.

"Get the shield," Zhang Zibo shouted.

"Get the shield," shouted the White Lion.

...

The 10,000 defensive battles lifted the shields that arrived on the ground and arrived in front of them.

“Go forward,” Lu Yang shouted.

One hundred thousand people walked neatly, step by step towards the city of Cleus, over the earth wall, and everyone saw the whole picture of Cleus.

This is an extremely huge city of Tibetan soldiers. There are no strange monsters on the streets in the city. All of them have been killed, but every street in the city has a fountain with black magic energy. Among the fountains, there is a black like a snake The same thing, staring at Landing Yang and others.

Demon Fountain Guardian (Lord)

Level: 140

Qi and blood: 100000000000/100000000000

Lu Yang said: “They are divided into 100-person teams and attack forward in parallel.”

There are a total of 1,000 such guardians, which corresponds to a 100-man hundred-man team. The difficulty copy of the Galore nightmare has been divided before, and the 100,000 people will soon be split into 1,000 teams.

After 10 minutes, they each found their lord, and with Lu Yang’s order, they attacked collectively.

The demon spring guardian is a very equipment-eating monster. In all defenses, he wears a 140-level dark gold suit, and with the help of the archbishop priest, the guardian who has only a single physical attack is quickly killed.

“Boss, I have a cooking drawing here, dark gold.” Shouting bitterly 500 meters away, he sent the cooking drawing to Lu Yang.

Delicious Devil Dragon Meat (Dark Gold)

Level: 140

Description: The delicious food cooked by the magic dragon can increase the player’s magic resistance by 100,000 points.

Lu Yang smiled and said, “Yes, this drawing is good.”

“Boss, I have a cooking drawing.” Bai Lang shouted from a distance, he sent the drawing to Lu Yang.

Stir-fried Komodo Dragon Meat (Dark Gold)

Level: 140

Description: The delicious cooking with Komodo Dragon can add 50,000 points to the player.

“I have intelligent cooking here.”

“I have some cooking here.”

...

The leader of each team was shouting in excitement about the cooking they got, and finally put it together in Lu Yang. There are 1,000 cooking recipes, each of which adds five kinds of strength, agility, physical strength, endurance and magic resistance. Plant 200 sheets.

“There are so many recipes.” Xia Yuwei said excitedly.

Lu Yang smiled and shared the recipes to the vice-chairmen such as Zhuojiu and Baishi, and said, “After a while, return to the guild and hand these recipes to Mu Yi, and all the guild players will collect these things together.”

“Yes,” said Zhujiu and others together.

These cooking seem to increase the number of attributes. In the millions of damages, this increase is less than 5%, but the attributes of less than 5%, but can make two players in the battle, one side than The chance of winning on the other side increases by more than 50%.

At present, in addition to the Brotherhood of the Iron Consortium in the New World, very few people have passed through the 140 copies of the nightmare difficulty, not to mention the opportunity to play these cooking materials. , A big step ahead of others.

In particular, before playing the 140-level nightmare difficulty copy of Dross Fortress, the copy that eats player attributes, a reduction of 100,000 magic damage, which is enough to greatly improve the survival rate of players.

“I didn’t expect that it would be so easy for us to get dark gold cooking recipes this time,” Mao Qiu said.

Lu Yang smiled and didn’t speak.

Zhuo Jiu said, “Stupid Brother It’s simple. We killed hundreds of millions of Garola guards before.”

“Fuck, yes.” The fur ball scratched his head.

Lu Yang said: “You don’t feel it. In fact, everyone’s strength has increased a lot. We are now crushing this map with absolute strength, which makes you feel simple.”

In other words, a small guild or a top studio will be surrounded by endless Garola guards.

“Dang, Dang, Dang, Dang ...” A series of crisp impact sounded everywhere in the city, and everyone looked around. It turned out that after the Devil’s Pool was blasted, the Demon Springs flowed out, corroding the surrounding sandy land. Nothing left, revealing 10 large holes that extended to the ground.

“What is this place?” Xia Yuwei asked.

Lu Yang shrugged his shoulders and said, “The whole team, 10,000 people, 1 team, entered the cave.”

These 10 caves lead directly to the underground world, where there is a maze. Through the maze, you can find the final lord, the great devil, Chulsgard, which is also the source of the blood of the demon.

Chapter 1235 - Dark Gold Enchanting Recipe

After the whole team was completed, a team led by Zhuojiu, White Lion, Zhou Tianming, Tianyao, Liangyun, Xia Yuwei, half-loving half-life, shooting Sirius, pride, and Lu Yang entered the cave.

All the monsters in the cave are guarded by the Garola. Lu Yang did not order them to clean up freely. The cave has a lot of space and many branches. Even if you want to find the entrance, it takes at least an hour or two.

Taking advantage of this time, Lu Yang carefully recalled how this place was played. In the last life, many people thought that they had hit the deepest part of the cave, killed the lord inside, and even if they got the equipment, no one knew the place. There are special play styles.

In fact, this cave is a huge magic array of nine stars. Only by killing them in a fixed order can they attack the last one, which is the final lord of the area that Lu Yang entered. Otherwise, there will be only one in the deepest part of the map. The golems performed magic there, and when they approached, they were beaten.

He didn't remember the order of the fight too well. Time passed too long. Lu Yang only vaguely remembered that it seemed to be a smashed thing called the God of Condemnation.

He sent a message to everyone and said: "All advance, if you encounter a monster blame, don't attack, this is a magic circle with a unique play."

"Yes."

"Yes."

"Yes."

...

Zhuo Jiu and Xia Yuwei and other vice-chairmen responded at the same time. After shutting down the speakers, they directed their men, and a total of 100,000 people pushed forward the pit in parallel.

A piece of magic and arrow rain hit, and the advance was very smooth with the anti-war top in front. 2 hours later, the turbid wine first said in the group: "Boss, I found a statue called Tianshen Golem s things."

Lu Yang said: "Clean up other mobs first, make sure there are no mobs around the golem."

"Yes." The leader Zhuzhuo went to blame.

Not long after, Xia Yuwei, bitter half-life, Tianyao, and others called each other to inform Lu Yang that they also found the Gospel of Condemnation.

Lu Yang also saw the Gospel of Condemnation here. This is a 10-meter-tall copper golem, brass-colored skin, full-body brass-colored armor, holding a brass-colored meteor hammer, and three eyes on his face.

God of Condemnation (Lord)

Level: 140

Qi and blood: 100000000000/100000000000

Lu Yang carefully looked at his **** of condemnation. The third eye above his head was a green chaotic light. He asked in the group: "Look at the eyes of your **** of condemnation, what color are they?"

Voiced wine said: "My mine is blue."

Lu Yang said: "The turbid wine was the first to attack the Golem."

He remembered that the attack sequence of the God of Condemnation vaguely coincided with the ninth element ball, from wind, fire, thunder, ice, earth, light, darkness, space-time, and arcane, as for the green light before him It is the chaotic system unique to this world and the last one to attack.

The attacking Golem's attack power is not high, and the attacking method is also single. It took less than 20 minutes for everyone to kill the Jumping Golem.

"Boss, I have an enchanted recipe here." The muddy wine sent the enchanted recipe over.

Enchant: Power of Fire (Dark Gold)

Level: 140

Description: Add an effect to the target's gloves to increase 30,000 magical magic damage.

"Boss, what we have here is also a recipe." Xia Yuwei said.

There are a total of 10 people, each of them gets a dark gold level 140 formula, corresponding to the nine series of elements, and the last formula obtained by Lu Yang is the dark gold level ten boxing power formula, adding 20,000 points of strength.

“Boss, a gem was lost after the golem died,” the White Lion said in the group.

Lu Yang said: “Everyone picks up the gem and continues to explore deep. If you see a magic circle, don’t put the gem in, wait for my order.”

This is the gem that needs to be placed on the magic circle. Lu Yang and the team continued to move forward. After half an hour, he finally reached the end of the cave, and a huge golem stood not far away.

Zhuoshu called and said, “Boss, I see the magic circle.”

Lu Yang said: “According to the order just played, the turbid wine was the first to put gems into the magic circle.”

Zhuoju carried the gems to the magic circle, and the first one put them in, followed by Xia Yuwei and others. When all 9 gems were placed in the magic circle of each cave.

“Boom ~!”

After a loud noise, no flames spewed from the huge magical statue in front of Lu Yang.

“flicker”

Lu Yang’s body flashed, leading the magic idol’s face, and placing the chaotic gemstone above the orbit of his third eye.

“Zi ~”

A laser shot from the third eye formed a huge magic portal in front of the idol.

“Order the respective team members to make a copy. Only 99 members who made copies with me are left here and dissolved.” Lu Yang ordered.

The heads of regiments and heads of the various teams immediately took their players out of the burrow, and went to the Galora copy to play a wave of brushing.

After a while, Zhuo Jiu, Xia Yuwei and others brought a small number of men to Lu Yang in turn, admiring one after another: “Boss.”

Lu Yang signaled them to rest while everyone was here. He said: “There is a copy behind this. You can only enter 100 people. Don’t fall behind, and don’t summon pets and babies. Not one more.”

This design made a lot of hunters talk, because of this, the team never brought the beast hunters into it.

The crowd nodded, and the archer and other archer put away the baby, and the others also put away the summoned beast.

There was a flash of light, and everyone appeared in a chaotic space, surrounded by dark tones, with a large space, thousands of square meters In the center of the venue, there was a huge gray-green meat ball .

Shattered Krokmar (First Class Lord)

Level: 140

Qi and blood: 100000000000/100000000000

This lord dropped one hundred level 140 dark gold copies that are much simpler than the Galoras. That copy specifically produces a five-piece set of 140 dark gold jewelry, plus a cloak for the reputation of the copy. The equipment on his body just made up a set of 140-level dark gold equipment.

When all these things are in place, Lu Yang's war can begin. He said to everyone: "This lord is very difficult. Everyone must be careful. He only has four skills. The second skill is the whole range of ice arrows, and the third skill is the poisoning of the range. Everyone must run away with me as soon as I command. As long as the number of deaths exceeds 2, this copy will not pass, because He has a time limit and must be killed within 5 minutes. "

People such as Zhuojiu and White Lion originally thought that this copy would be very simple, but they did not expect it would be such a difficult copy, they all mentioned the spirit.

Chapter 1236 - Magic Forbidden Key

This lord is difficult because his long-range attack is full range, so everyone must stand in the range of the Archbishop Priest's "Light Law · Slow" skills. Once out of range, each attack receives 1 million hurt.

If the player wants to get together, the Shatterer will keep spraying poison. Once hit by the poison mist, the Shatterer's 4 skills will be triggered automatically, and he will be hunted down permanently, that is, the poisoner will die.

Fortunately, when he was poisoning, there was a 3 second cast, as long as he hid, there would be no problem.

After Lu Yang made it clear to the crowd, he said, "First try to fight once, Xiao Liang starts to blame."

"Yes." Xiao Liang rushed up carrying his shield.

Lu Yang took the rest to a position within 30 meters of Xiao Liang, the priest released the law of the Holy Light, and the others output within a short distance of 30 meters.

“Ice Arrow”

100 Frostbolts blasted from the shatterer, hitting everyone.

“750000”

“750000”

...

This superior lord is a chaotic monster, so all his attacks are ignoring magic and immunity.

“The Ring of Healing”

Lan Yu’s body sent a holy light, brushing blood for everyone in the regiment, and everyone’s blood was instantly full.

Lu Yang shouted, “Go all out, throw all your skills out, and the shaman will be bloodthirsty.”

With the shaman’s bloodthirsty skills turned on, the attack and casting speed of all people increased by 30%. Within 30 seconds, the lord monster’s health was destroyed by 20%.

“Taste the chaotic poisonous mist.” A thick green poisonous juice appeared in front of the shatterer.

“Spread apart, follow me to the right.” Lu Yang flashed a flash of light, appearing in the 30-meter area on the right, everyone flashed and followed Lu Yang to jump over, and none of them ran over, 100 people paced neatly, when finally When a person ran away, the poisonous mist fell on the position where Lan Yu had just stood.

The Lord's Monster's poison mist attack is the first to find a cure!

"Just fight like this and keep attacking." Lu Yang shouted.

The onslaught of the lord monster was launched again, and no one expected that the cooperation of the people who hit the lord for the first time turned out to be so tacit, and just 4 minutes later, the lord monster was killed.

Lu Yang looked at the items falling on the ground, and he got a new land transfer gem, and the other items contained a half key.

Magic Forbidden Key (Broken)

Description: It was an exiled piece of land. If you want to enter there, you can only use this key to open the door, but he is only half.

Lu Yang's eyes lit up and he was pleasantly surprised, "I didn't expect to get this thing."

"What is this?" Xia Yuwei asked.

Lu Yang said: "Where the secondary curse is exploded, if there is enough time, tens of thousands of copies can be brushed out."

"So much!" Xia Yuwei said brightly.

Lu Yang said: "Everyone goes back to lead the team to make a copy. This is only half the key. I have to find a way to go to the library to find the other half."

"Um." The crowd nodded and flew back to the city and left.

Lu Yang also returned to Tianyuan God City using the transfer token. In the conference room of the Guild Hall, Tu Feng was waiting for him.

“Boss, there have been a lot of enemy spies in our guild in these two days.” Tu Feng said with a smile.

Lu Yang was very satisfied with Tu Feng’s efficiency. He was able to find out who the enemy’s spies were so quickly. He asked, “What happened?”

Tu Feng said: “In this year’s beast event, in order to **** the beast, Germany’s Stege and the Group of Eight countries ran into large-scale conflicts with casual players. Although they won, they received a lot of rewards, but their own contributions were also very high. Big.

We did not participate in the battle, no loss of personnel level, and a large number of 140-level dark gold suits in equipment. Steiger and the Group of Eight became more and more discouraged by us. If we continue this way, there may be an alliance between the two sides. trend. “

Just a few days ago, Lu Yang put 140-level dark gold equipment on the guild warehouse. So this morning, the Group of Eight and Steiger have added hundreds of thousands of players to the junction with Lu Yang. On the bright side, Upgrade is actually for defense.

Lu Yang sneered and said, “Aren’t they just afraid we’ll hit them, we continue to build a fortress in the 140-level area, enough to dispel their anxiety.”

Lu Yang had previously decided to approve the construction of a fortress in the 140-level area. Unfortunately, it did not wait for the construction. After several battles, things were delayed. Now that he has time, he decides to restart the fortress construction.

The construction of the fortress took a lot of manpower and material resources. Steige and the Krem of the G8 saw that Lu Yang devoted a lot of energy to building the fortress, and knew that Lu Yang had no intention to fight with them.

In fact, they have no intention to fight with Lu Yang. They have just experienced several battles in the New Year’s Beast activity. The players under their hands have been exhausted. The lack of levels and equipment has led their men to urgently want to upgrade and upgrade. Lifting equipment.

In the meeting room of the Group of Eight, eight representatives representing the investors and eight presidents of the guild were sitting in a dreary meeting. This year's beast event, they gained a lot of benefits, but this benefit was at the expense of players Obtained on the basis.

They haven't waited for the joy of enjoying this benefit, but found that the Brotherhood of the Iron Blood, standing beside them, has already been able to use the points to redeem the dark gold suit of level 140 in the guild warehouse, which made them all unhappy. Already.

"Even if his equipment is one level higher than ours, we have so many people and don't need to be afraid of him." Ronny, the investor representative, said indifferently.

Kerem said: "Yes, we are many people, but there were more than 10 million people in Tianlong at that time. The number is not less than us. Do n't we still lose?"

Another investor representative, Hiari, frowned and asked, "Is there a gap in equipment, is there such a big gap?"

Daniel said: "That's not 1 level, it's 10 levels. We only have a very small number of people who have reached level 140 most of them are still hovering between levels 138 and 139. They all fell to level 137, and most of Lu Yang's side reached level 140 or above. After they all put on a level 140 dark gold cover, and the attributes are 30% higher than ours, we will wait to be beaten. "

Investor representative Hajid said unhappily: "We are investing so much money for you, not because you tell us how to lose, how do you want to defeat each other."

Daniel slammed the table with excitement and said, "I said before that we ca n't have such conflicts with casual players. You guys have to let us fight with casual people for money. Now you are happy and earn money. We are very hurt Also, we have a neat lineup with Lu Yang. Is your IQ low or your head sick? "

"Asshole." Hajid didn't expect Daniel to scold him, stood up and pointed at Daniel and scolded: "What did you say?"

Daniel also stood up and was about to curse and was stopped by Kerim. The two sides immediately quarreled.

The Mexican Guild President Galga stopped talking at this time, and he also found his shortsightedness. Without Germany and Liu Jie's threat, Lu Yang might have rushed to fight them.

Chapter 1237 - Tower of Babel

When he was hesitant and didn't know what to do, suddenly his eyes brightened and he said, "Don't make a noise, I have the latest news here."

Daniel looked at Gelgar with a few people from the investor and asked, "What's the news?"

Gelgar said with a sneer: "Lu Yang has no intention of attacking us. He just received the news that Lu Yang decided to build a fortress in the 140-level area. He wants to reach the main city of the level 4 earlier than all of us."

The government has stipulated that the main city of level 4 needs to be approved by the village heads of more than 60 villages in the 140 level area, and the only way to get approval is to build fortresses, expand these villages into large fortresses, and the village head will automatically become a fortress housekeeper.

The investors were relieved, but Daniel asked nervously, "Do you know how many forts they are going to build at once?"

Gelgar said: "80, 20 in India, 20 in South Korea, 20 in China, and 20 in the Nine Stars Alliance. The follow-up additions have not yet been determined, but these 80 will be started at the same time."

"Hey, in this way, we can upgrade and upgrade equipment." Roni, the investor representative, said excitedly.

As soon as Galga nodded, he heard a "No."

The crowd looked over their heads, as Daniel said.

“Why not?” Ronny frowned and asked, “If you don’t upgrade your equipment at such a good opportunity, do you still have to fight with Lu Yang?”

Daniel said: “Hit, you must fight. While he builds the fortress, combine Schneider from Germany and Liu Jie from Huaxia, our three wheel battles and Lu Yang duel. I don’t believe Lu Yang can resist, we will contact Lu Yang again. The region disobeys his forces and destroys the fortresses he has built in various places. Even if he cannot be beaten, he will have to make a huge loss himself. As long as he cannot make up the gap, he will face the same problems as Tianlong. “

Gherga, Blood Butcher and others looked at each other and thought about the feasibility of this solution. But after thinking about it, they didn’t wait for them to understand. The investor, Hiaril, frowned, “I suggest not to do this. We have Alfonso behind Spain, and we can’t trust Schneider and Liu Jie. “

Daniel said, “I’m going to lobby. The enemy now, they will agree.”

Gelgar and Blood Slaughter shook their heads. Kerim patted his shoulder and said, “This matter will be discussed later. We will also discuss the construction of the fortress. The player’s level is 130 Above the level, if we don’t hurry up, the small guilds around me will randomly join together to create a fortress in the 140-level area, and it will be difficult for us to do it. “

Once such a guild appears, it will be possible to gather one or two million players to join their guild within a few days. If the Group of Eight go to siege, as long as they get in touch with Lu Yang and Lu Yang sends troops, The Group of Eight will face a fighting situation called a center bloom.

Kerim and Gerga and other presidents are not short-sighted. They see this very clearly!

Daniel failed to pass several suggestions in a row, which made him even more angry. Unfortunately, his opinions were correct, but there was no practical feasibility.

“We each took money to build a fortress in a 140-level area. The main city in the center is based on my main city. You invest money, and I share the shares. No problem,” Galga asked.

His main city is in the rear, and it is not bordered by Lu Yang and Alfonso, and it is far away and can develop well.

Kerim and others looked at each other without any opinions, and they agreed. On the other hand, shortly after their meeting in Gelgar, Tu Feng's spies heard the relevant content of the meeting from the G8 action. .

Tianyuan God City, the headquarters of the Iron Brotherhood.

"I knew they would do that," Lu Yang said with a sneer.

"What shall we do?" Tu Feng asked.

Lu Yang said: "Don't give a mobilization order to the guild, but implicitly tilt the guild's points towards cooking materials, enchanting materials and potion materials."

"Yes." Tu Feng nodded clearly, apparently, Lu Yang was about to start preparing for the war.

"Also, the New Year's Beast is over, order the main force of the guild to bring equipment into Dross Castle to play dark gold equipment." Lu Yang said.

Dross Castle eats equipment. At this stage, the Brotherhood of the Iron Blood has divided half of the players wearing a 140-level dark gold suit to fight, and can easily penetrate the copy.

After telling Tu Feng, he called Jin Buhuan and asked, "How many potions are there against shadow damage?"

Jin Buhuan said, "At present, there is no high-level anti-shadow potion, and the formula is too rare."

Shadow damage is one of the most difficult types of damage in the New World. Some people in the future will sort it. The first place is sacred damage, the second place is chaotic damage, the third place is poisonous damage, and the fourth place is shadow damage.

The remaining fire damage, lightning damage, and frost damage are not the same level as the above four types of damage, and shadow damage is different from the other three types of damage.

Holy and Chaos damage is ignoring defense and magic resistance. Poisonous damage is easy to be restrained by continuous blood loss. Shadow damage is 1.5 times that of lightning damage and the output is very high. Therefore, the formula for restraining the shadow is very rare.

“I’ll look for the drawings. You let your players collect shadow grass, shadow flower and shadow butterfly at the auction houses and official auction houses of major guilds.” Lu Yang said.

These three are the 140-level dark gold-level shadow-resistant potion Shadow Butterfly Dance synthetic materials, as for the formula, Lu Yang vaguely remembered in a special map.

Outside the 140-level Tianyuan City, there is a Tongtian Tower. This tower stands on the top of a large mountain. It has already towered into the sky. On the sky above the mountain, the Tongtian Tower goes straight into the sky and looks up. See no head at all.

Lu Yang turned into an angry celestial statue. After hiding his name, he used the teleportation array to fly to Sixiang City, put on a mount and ran out of the city, and spent half a day at the site of the Tongtian Tower, where he has gathered. With at least a few hundred players, he was thinking around him.

“What exactly is this tower? It should be able to climb up.” A soldier player said frowning.

“How did you die just now?” A mage asked.

The soldier said, “I just crawled and found that the system reminded me that I was too tired and needed rest.”

The people around were shocked.

“How long have you climbed?” The mage asked.

“About two hours,” said the soldier.

The people around were amazed.

“2 hours! You’re crazy, it’s not disturbing to climb this one.” A friend of the soldier asked.

“I’m just curious about what’s on it, but I can’t get my head up even when I climb. I used a hook lock in the middle, and I climbed like this for 2 hours. The system reminded me that I was overworked and needed to rest. I can’t go up, I can’t go down, even if I jumped, I climbed for two hours and fell for at least half an hour. I was too lazy to wait that long, and I was hanging there waiting for the overworked reminder time. , Automatically died. “Said the soldier.

Everyone is speechless. This person is holding a two-handed sword, and is obviously a magic warrior. In all professions, the power of the magic warrior is the highest. If the magic warriors are tired, it proves that this place is indeed not a player at this stage Bear it.

“Come on, I’m leaving, I’ll have a chance to study it later.” A mage left on horseback.

“Oh, I don’t experiment anymore.”

“Same time.”

...

The magic warrior watched this wave of players leave and shrugged his shoulders. When he came here, he had already seen a wave of people leave, not surprising.

“I’m gone too.” The magic warrior replaced the Komodo Dragon mount and left.

There were less than 100 people left on the court at this time, all thinking about whether to experiment or not. Just as they thought, one person walked through the crowd.

“I’ll give it a try.” Lu Yang held the corner of the tower with both hands, and climbed step by step toward it.

“Hey, really dare to try again.”

“Let’s wait for him to see.”

“Oh, I guess I have to jump down or fall down soon.”

“Haha.”

...

There was laughter.

Lu Yang gave a cold hum and did not look down and continued to climb towards the top of the tower. Where do these people know, the mystery of this place, yes, the magic warrior climbed for 2 hours, but he climbed the wrong way.

This place is the easiest for soldiers, but he should not use hook locks. The game stipulates that this is a place to test the player’s endurance. Only climbing with bare hands can climb to the top. Once you use hook locks and escape daggers and flash skills, A tricky way will be judged to be a violation, which will increase the violation distance by 10 times.

The hook lock can be thrown out 80 meters, which is equivalent to the soldier being fined 800 meters, and he can throw the hook lock every 30 seconds, that is, he climbed for 2 hours, the same as standing under the tower without climbing.

As for the time to climb to the top of the tower, it is really long. Normally it takes 1 hour. Every profession can climb up. It doesn't end at the top. There will be a series of special tasks and maps in the sky.

Many people in the last life have tried here, but none of them have passed. The only one who passed is a poor boy, a warrior profession, and he can't afford even hook locks. He climbed up with perseverance, which solved the mystery.

Lu Yang went all the way up. After an hour, he climbed to the top of the tower. This is an oval platform. Standing on it, looking down, it is a magnificent abyss. People who are afraid of heights stand here with their legs crippled, and have a great chance fall down.

I feel good quality when I see it here. There is a portal outside the platform floating in mid-air. It is about 3 meters away from the platform. Under normal circumstances, players can jump in by jumping. But this design At the outset, many players who climbed up yelled at each other. As long as there was a little fear, they could not climb up, or they did n't jump enough distance and fell straight.

Chapter 1238 - A city that can throw things

You can't get in here by using flashes. You can't escape the dagger. You can only jump on your own. Lu Yang moved his body in place. He stepped back to the outermost side of the platform and his heels came out of the platform's eaves.

Suddenly, he kicked hard, trot and leaped in two steps, his body appeared parallel in the air at a height of 10,000 meters, and flew towards the portal. Just as he was about to fall, he caught the portal with his hands. Eaves.

A flash of light flashed, and Lu Yang disappeared into the air. When he woke up, he was already lying on a land transformed by clouds.

System prompt: Congratulations to player Lu Yang for discovering the city of the sky!

Lu Yang looked around. The city of the sky was like heaven. On his feet was a cloud. In front of him, there were beautiful houses, each with an ellipsoidal roof, the same height as a normal human house. There is an old man with a magic wand in front of the first row of houses.

Sky City Receptionist

Level: 140

Qi and blood: 5000000000/5000000000

“Young man, welcome to the Sky City. What do you want to buy?” The old man looked at Lu Yang with a smile.

Lu Yang grinned, ignored the Sky City receptionist, turned around and walked into a room on the left.

The system prompts: You entered Aunt Susan’s house.

Lu Yang looked around. The layout of the room was simple. There was only one bed and several bookcases. On the middle floor of the bookcase, a golden box was placed there.

As soon as his eyes lighted, he came to the box with a smile and lifted the cover of his left hand. A flash of gold flashed and a golden formula appeared inside.

Recipe: Shadow Butterfly Dance (Excellent Gold Level)

Shadow resistance increased: +2000000

Lu Yang is looking for this thing. Do n't look at the name of the city in the sky. The formula in the entire city is useful. The rest does not have any good things, including the receptionist in the city of sky. 10 times, but if you want to supply in the city of the sky, you can only find him.

However, the receptionist could drop a lot of good things. Lu Yang smiled back to the receptionist. At this time, his anger was full, just three squares.

"Boy, what do you need to buy, big quantity and good price!" The old man said with a smile.

"Okay, I buy ..." Lu Yang approached the old man step by step, and suddenly he grabbed the old man's collar with his left hand.

"Rage Skills-Hot Fist"

Lu Yang turned into a naruto, grabbing the old man forward in front of him, and in front of the house behind him.

"boom"

Sky City's receptionist was slammed into the wall by Lu Yang, his body flew with flames, and stiffly fell to the rear.

"Naruto"

"Flame Shock"

The old man just landed, and 22 small melting bombs fell in the sky, all hitting his head, and restored 2 points of anger for Lu Yang. When he stood up, he was hit by the flame.

"Damn, you dare to attack the people in the city of the sky." The old man was furious, pointing his staff at Lu Yang.

“Mad Lion”

A lion-shaped flame flew towards Landing Yang, but Lu Yang hid on his side, and then chanted a spell in his mouth.

“Meteorite Impact”

A crimson meteorite with a diameter of 2 meters dropped from the sky, right in the head of the old man.

“Mad Lion”

Lu Yang escaped a lion-shaped flame again, stepped sideways to the left of the old man, and punched his left hand on the soft rib of the old man.

“The Sun Fist”

The old man quickly retreated, and each step was crushed by a meteorite, and 10 consecutive rollings restored Lu Yang’s 3 points of anger.

During his retreat, Lu Yang repeated the spell in his mouth.

“Pyroblast”

“Pyroblast”

...

In a series of six pyrotechnics, Lu Yang’s anger value returned to full value, and the old man was hit on the wall of another house.

“flicker”

Lu Yang appeared in front of the old man momentarily, and while the old man was stiff for 1 second, a spell was spoken in his mouth.

“Lava Eruption”

“Yanyang mask”

The old man stood up, roared at Landing Yang, and when he was charging, Lu Yang said a spell.

“Rage Skills-Red Lotus”

Lu Yang’s crimson flame petals rose from the whole body, continuously strangling the old man, while a sun mask and lava erupted. For 3 seconds, Lu Yang recovered 6 points of anger.

“Blazing Heart”

A magic stroke in his left hand hit the old man’s heart, causing more than 100 million damage, and then the staff pointed the old man.

“Angry Skills-Devil Slash”

A half-moon-shaped flare swept the old man, and the old man leaning against the wall was hit against the wall and flew behind Lu Yang while he was stiff.

“Destroy Heavy Artillery”

As the old man was about to land, Lu Yang's staff gave off a fierce fire, flying the old man's belt again, and providing 1 point of anger.

"Blazing Flames"

A Naruto hood on the Naruto belt flew towards the old man. The receptionist of the inverted sky city was hit by Naruto for 3 seconds. The damage of the Naruto provided Lu Yang with 3 anger Meaning value.

At the same time, Lu Yang's mouth spelled out again and again.

"Earth to Earth"

Lu Yang crashed the old man who had just landed.

"Pyroblast"

"Pyroblast"

...

After 4 consecutive Pyroblasts, Lu Yang backed a distance of 20 meters.

"Earth to Earth"

The old man was knocked down, and there was a house 30 meters behind him. Lu Yang flew back 10 meters, and read the spell in his mouth.

"Earth to Earth"

The old man was blown up again and hit the wall. At the same time, Lu Yang said a spell.

“Lava Eruption”

A lava appeared under the old man’s feet.

A faint blue light flew through the air, and a dagger fell precisely in front of the old man, who just stood up at this time.

“Rage Skill-Dance of Red Snake Strangling”

The wand in Lu Yang’s hand released a spinning flame, and the old man was beaten and stayed in place for 8 seconds, because of the lava eruption and the sun mask, Lu Yang recovered 16 points of anger.

With such a set of skills connected, the old man’s health was lost by one-third of Lu Yang’s blood. Just as Lu Yang was about to continue attacking, the old man suddenly screamed and shouted, “You **** boy, You wait for me. “

The old man turned to run.

Lu Yang: “ ...”

He hasn’t encountered this situation before, and he hasn’t seen this thing on the Raiders. How can it be strange to take it away?

Lu Yang quickly chased after him, and according to the old man’s buttocks, he was a first-rate anger skill-hot fist.

“boom”

The old man was hit by Lu Yang and hit the wall. At this moment, the old man flew out a book page.

Lu Yang picked it up and looked, his eyes were bright.

Mad Lion

Type: Fire skills

Cost: 50,000 magic

Distance: 100 yards

Description: Fire a lion-shaped flame at the target. After hitting the target, there is a 17% chance to retreat from the target by a distance of 0.5 meters.

This is another baby skill of the fire method. It is a skill of looking at the face completely. Whoever has good luck, this 17% chance can be continuous. If you are unlucky, you will not be able to do it all at once. In continuous rigidity.

Lu Yang didn't expect to hit the old man and bring things out. He quickly put his skills into his backpack and attacked the old man with Pyroblast.

“嘭”

“嘭”

“嘭”

...

For six consecutive pyrotechnics, the old man was dropped by one thing, and Lu Yang reacted. This required control skills to drop.

“flicker”

Lu Yang jumped to the side of the old man, and a light flashed from the staff of his right hand.

“Angry Skills-Devil Slash”

The old man was hit by a flight of more than 10 meters and slammed into the wall of a house.

“You bastard, you’re too bullying.” Another golden page fell out of the old man.

Recipe: Shadow Butterfly Dance

Lu Yang picked up the formula and saw the old man stand up and run, launching the residual flame skills to the old man.

“Polynuclear explosion”

The old man didn’t wait to run two steps, and was knocked down by the side of the skill. In the air, Lu Yang successively released Pyroblast and hit 4 times. Just after landing, Lu Yang once again launched the Remnant Flame skill to appear in front of the old man.

“Rage Skills-Hot Fist”

Lu Yang pulled the old man and hit a wall 50 meters behind him. Obviously, the old man wanted to run into the palace less than 50 meters away. He was afraid that nothing would fall if he ran in. He Never let the old man go in.

“boom”

The old man was hit **** the wall by Lu Yang.

“Damn, when I run back, I want to make you look good.” The old man threw out another golden page.

Lu Yang picked it up and looked at it again, a formula of shadow resistance. He laughed, and after releasing his skills continuously, his body burst into red light.

“red lotus”

The old man was stunned in place for 3 seconds, then thrown out a golden book page, or the shadow butterfly dance potion formula, at this time, Lu Yang still has 6 points of wrath skills, he decided to fight once.

“Great Ancestor of Fire ...”

It is 100 meters away from the gate of the palace. As long as Lu Yang’s secondary forbidden curse falls, the old man will never run away.

The old man saw that Lu Yang didn’t hit him, cursed at him, and ran to the gate of the palace, a distance of 100 meters.

90 meters

80 meters

...

40 meters

“Meteor Falls”

Lu Yang’s mouth spelled out that a meteorite larger than the house in the sky fell with a shock wave, right in the head of the old man.

“boom”

The old man was neither an elite nor a boss. He was stunned for 10 seconds and then threw out a golden page.

“Remnant Flame-Activated”

Lu Yang rushed to the old man, relying on the sun hood to hit 1 point of anger, then he released a lava eruption in place. Taking this opportunity, Lu Yang continuously released Pyroblast, easily restored the anger value 30 o’clock.

“Damn, are you going to kill me, you will regret it.” The old man roared in horror, and woke up towards the door.

How could Lu Yang let him run away.

“Rage Skills-Hot Fist”

Lu Yang pulled the old man and slammed into a house 50 meters away. He pulled him 80 meters away from the palace again, and then said a spell in his mouth.

“Lava Eruption”

The old man just got up, a lava appeared under his feet, and then Lu Yang uttered a spell.

“The Dance of the Red Strangles”

Lu Yang Qiang controlled the old man for 8 seconds. After losing 20 points of anger, he instantly recovered 16 points of anger. The old man threw out a black snake pattern token this time.

Chapter 1239 - Harvest

Lu Yang recognized the token at a glance, and he picked it up.

Order of the Snake Emperor

This thing can be found in Hydra Emperor Hydra in level 140 swamp area.

Lu Yang put away the snake emperor's order, and when he saw the old man about to run, he read out his skills.

"red lotus"

The spinning red flame stunned the old man for 3 seconds, and a shadow butterfly dance formula came out.

"Naruto"

22 small melting bombs hit the old man, adding 2 points of anger to Lu Yang, at this time his anger value returned to 14 points.

“red lotus”

The red flames flying on Lu Yang’s body again, and the old man was fainted again, throwing out a formula of shadow butterfly dance, because there have been lava eruption and the sun mask, plus the Naruto bombs that were placed after the old man stiffened, Lu Yang released two red lotuses in succession, and two shadow butterfly dance formulas burst out.

At this time, Lu Yang’s anger value was only 6 points, and his control skills were used up, and he had no control skills.

The old man patted his clothes and stood up, rushing to the ground and cursing, “Asshole boy, you wait for me, I’ll go to the rescuer.”

The old man ran to the gate of the palace, and Lu Yang could only look at it. When Lu Yang felt sorry for not being able to get more things, suddenly, Lu Yang remembered the skill he just got—the crazy lion. Also control skills.

He quickly learned the mad lion, watching the old man 10 meters into the palace, a white light appeared from his body.

“flicker”

Lu Yang appeared instantly in front of the palace door, and was less than 2 meters away from the old man. He pointed at the old man with a staff in his right hand.

“Mad Lion”

A lion-shaped flame erupted suddenly from the top of the staff, centering the old man’s body.

“boom”

The old man's body seemed to be hit by a heavy object, and he flew back 0.5 meters behind him at the same time. At the same time, a shadow butterfly dance formula fell out of the old man's body.

"I don't believe you can control me." The old man snorted and ran towards the gate.

"Mad Lion"

The old man was hit and his body backed again.

"Asshole." The old man threw out a recipe.

"Mad Lion"

"Asshole." The old man stepped back 0.5 meters and threw out a recipe.

"Mad Lion."

"Damn." The old man stepped back another 0.5 meters and threw out a recipe.

After four consecutive attacks, the old man was triggered by the mad lion hit by Lu Yang, and the push effect was continuously retreated by 2 meters. When the old man was unconvinced and wanted to rush towards the gate for the fifth time, he did not expect that Lu Yang's mouth spelled out.

"Rage Skills-Hot Fist"

Lu Yang grabbed the old man's collar and rushed towards the wall of the house 50 meters away.

"boom"

The old man bumped into the wall, flying backwards.

“Remnant Flame-Activated”

Lu Yang flew to the old man, pointing his finger at the old man.

“Mad Lion”

Did not trigger.

“Mad Lion”

Without triggering, the old man stood up and ran.

“Mad Lion”

Did not trigger, the old man was 50 meters from the gate.

“Mad Lion”

Did not trigger, the old man was 30 meters from the gate.

“Mad Lion”

Still not triggered, the old man was 10 meters from the gate.

Lu Yang had 9 points of anger at this time, but unfortunately, it was only 1 point, he couldn't put it out, and watched the old man ran to the palace only 5 meters away, but at this time, a news that surprised him Come, a smile appeared on his face.

“flicker”

Lu Yang appeared instantly at the gate, the staff pointed at the old man, and the spell was spoken in his mouth.

“Destroy Heavy Artillery”

A fiery flame erupted from the front of the staff, flying the old man back 20 meters away.

“Mad Lion”

“Mad Lion”

...

Lu Yang took advantage of this opportunity to continuously release the crazy lion skills, which triggered two times, flying the old man back in the air by a distance of 1 meter, when the old man fell, Lu Yang’s anger value returned to 13 points.

“Haha, old man, you can’t run away this time.” Lu Yang watched the old man just landed and read the spell in his mouth.

“Meteorite Impact”

Some of his control skills have cooled down and can be used again.

A meteorite fell into the sky, centering on the old man’s body. Lu Yang took the opportunity to use the residual flame skills to jump in front of the old man, and left his wand.

“Angry Skills-Devil Slash”

The old man threw out a golden book page, his body flew backwards, and he was hit by the flames every step back. At the same time, Lu Yang followed his peers and burned the old man with a sun mask.

“噫”

The old man hit a wall of a house. While the old man's body was stiff, Lu Yang sneered on his face.

“Lava Eruption”

The old man stood up and was about to run.

“Rage Skills-Red Lotus”

Lu Yang flew red flames all over his body. The old man was forced to control it for 3 seconds. Lu Yang recovered 6 points of anger. The old man just got up. Lu Yang used the residual flame skills to jump to the 1 meter position opposite the old man.

“Mad Lion”

A roaring lion-shaped flame hit the old man, which triggered the push again, pushing the old man who was just about to run to the wall.

Now Lu Yang is comfortable, his control skills are being cooled down one by one. As long as the wild lion can hit once 5 times, he can control the Sky City receptionist.

“Let you hack me. I didn't know how much it cost you to hack. I knew you would have hacked me.” Lu Yang thought while hitting him, but the old man made him sorrow deeply.

“Earth to Earth”

The old man was blown up.

“Mad Lion”

“Mad Lion”

The old man was pushed away.

“Earth to Earth”

The old man was blown up again.

“Blazing Flames”

...

After throwing countless things, the old man suddenly fell to the ground.

System prompt: You successfully killed the Sky City receptionist

Lu Yang: “...”

“This is dead.” Lu Yang looked at the old man who had fallen to the ground and sighed. “This is embarrassing. I knew I had taken off the devil’s heart and beat him, but unfortunately, it wasn’t blue enough. “

No matter what, Lu Yang found that killing the old man now is the best result. He walked in front of the old man and looked at the items he dropped. There was only one New World transfer gem and a silver

tablet He shook his head, picked up the gems, and picked up the things the old man had thrown out, and found that all were the shadow butterfly dance recipes, plus a total of 88 previously obtained.

Lu Yang shook his head with a smile and flew back to Tianyuan City using the transfer token. He found Jin Buhua at the Pharmacy Store of Song of Blood, Fire and Rain, and threw 88 recipes to him.

“So much.” Kim didn’t change his eyes.

Lu Yang said with a smile: “I thought I could only play a few, but I didn’t expect to play so many.”

He told the story and Jin Buhuan again, Jin Buhuan laughed and said, “Boss, there is such a strange, too funny.”

Lu Yang said with a smile: “Who said no, you don’t have to do anything else this time, just refining this medicine, I’ll go out.”

“Oh.” Kim Buhuan said.

Lu Yang left the pharmacy and flew to Huimenglin through the teleportation array. Just after landing, he saw players everywhere.

Chapter 1240 - Remnant Legion Bloodline

“You must not let them run away, you must kill the **** this time.”

“Yes, you must kill them and take revenge for your brothers.”

...

Hundreds of thousands of people gathered near the safety zone.

Lu Yang curiously asked a angered player nearby, and said, "What happened?"

"Don't you know? We're hunting down the Thorn Birds. These **** killed our boss and took away his poisonous heart." A player said.

Lu Yang took a closer look. It turns out that this group of people has a guild, and it is not a small guild. It is one of the top 100 guilds in the New World and can be ranked in the seventy or eighty.

"Have you found anyone from the Thorn Birds organization?" Lu Yang asked.

He is also very interested in the Thorn Bird organization. There are so many treasures on these people. They have ambushed at least dozens of players with artifacts, and the rest have rare items such as teleportation scepters and escape daggers. There are thousands of people. It can be said that as long as the Thorn Bird organization is killed, it will be equivalent to instantly turning its own guild into the eleventh largest and strongest guild in the New World.

The player glanced at Lu Yang and said, "Who are you from our guild? Don't ask."

Lu Yang is embarrassed ...

"Don't ask, don't ask, you can really catch him, I don't believe it." Lu Yang said.

"Hey, I have to tell you this. They were blocked in the 140-level map area of Huimenglin by the boss. The boss was fighting with them, but they were too strong, and we were killed." The player was anxious.

Lu Yang grinned, back to a place as large as Menglin, there are exits on all sides, there is no place to block the members of the thorn bird organization. At present, the thorn bird organization has dozens of artifacts. In this open area, it is absolutely impossible Caught.

"I wish you success." Lu Yang replaced his mount and ran out of the city. He stopped in a small village on the 130-level map.

The system prompts: You have found Afterglow Village

The small village is very rundown. There is only one village chief and more than a hundred villagers in the village. There are only dozens of houses. There are many women and few men in the village. Everyone is muddy and looks dirty.

If you are an intentional player, you will find that this village is special. If there is a village, there must be as many men and women. If they are different, there must be a special reason.

This village is a village with special reasons, because the village head of this village used to have a big name, called the First Regiment of the Remnant Legion.

Remaining Shadow Bloodline, the first bloodline of the violent battle, Lu Yang has always wanted to transfer his theocratic warrior to the Residual Shadow Army. Unfortunately, the previous activities of the beast and the previous series of events led Lu Yang to dare not take his hands down. Change of post.

Now that the mission is over, this place is no longer a certain guild area. Lu Yang can send his men here to complete the transfer task.

He went to the village chief and said respectfully, "Dear elder, I am an adventurer from a long distance. Can I supply it here?"

The village head is the only person in the village who looks well dressed. He is an old man. When he looks at Lu Yang, he looks suspicious, and asks, "Adventurer, I feel the breath of silver letters on your body. . "

The system prompts: The village head of Caniyang Village asks you for a silver tablet

Lu Yang took the silver tablet from his backpack and gave it to the village chief, saying, "Is this it?"

The village chief excitedly took the tablet from Lu Yang, tears shed, and said, "That's right, this is this, our village is saved."

Lu Yang asked, "What is this?"

The village chief laughed and asked, "Did you kill the Sky City receptionist?"

"Yeah," Lu Yang said.

"Good job." The head of the village looked at Lu Yang with satisfaction, and said, "Child, I'm Ren, the First Regiment of the Remnant Corps. Would you like to hear my story?"

"Of course." Lu Yang didn't know what the village chief was about to say, and the previous strategy did not mention what the village chief said.

The village sighed and said, "Our Remnant Army is the most elite guard legion of the Heavenly City. Every time we fight, the Remnant Army participates in the battle as the main army. However, when the city of the sky invaded, my deputy The leader of the army turned into a mutiny and brought our main force into the encirclement of the enemy. In that battle, we were defeated and the city of the sky was a big victory.

Tianyuan Shencheng hated our army for being a traitor, and distrusted, and demobilized our remaining subordinates here, and that traitor went to the city of the sky. This tablet is his notes during the rebellion. With this thing, I will Can prove the innocence of our army. "

Lu Yang watched the old village chief crying, gritting his teeth and cursing, "The traitors should be damned."

The village chief looked at Lu Yang in surprise and said, "Yes, the traitors are damned. You are very nice. I got the Tablet for us. I have nothing to repay you. If you want to buy something, I am willing to send everything to us. I sell things to you. "

A pop-up window interface appeared in front of Lu Yang. The first things were cooking and magic spring water. On the second page after the popularity increased, Lu Yang saw a bloodline fruit like black iron.

Remnant Legion Bloodline Fruit

Strength: +10000 points

Description: After changing jobs, players will become members of the Remnant Legion.

Lu Yang looked at the number of fruits, exactly 10,000, each requiring 10 gold coins. He took out 100,000 gold coins, bought 10,000 fruits, and instantly spent 30 million credits.

The fruits can be stacked on top of each other, but this way is still full of backpacks. Lu Yang took out the storage bags and put them all in the bags.

“Summon Flying Carpet”

A flash of light flashed, and a magic flying carpet appeared next to Lu Yang. He jumped up and ordered the flying carpet to fly into the air quickly, and then he flew towards Tianyuan God City.

“White Lion, tell your brother, White Wolf, to bring 10,000 magical fighters to the guild of Tianyuan God City. Don’t cause a sensation, go quietly.” Lu Yang said.

“Yes,” said the White Lion.

After all the 10,000 magic warriors were transferred to become shadow warriors, plus the dark resistance potion, Lu Yang could take them to play a special map.

As Lu Yang flew back, he suddenly saw a large number of people fighting on the map below. One of them was obviously a member of the Thorn Bird Organization. The cloak of red clouds on a black background looked domineering.

On the other side is a member of the guild of the player who just chatted with Lu Yang. This group of people has more than 100,000 people, while the members of the Thorn Birds Organization only have 12 people.

“No.” Lu Yang thought for a while. The number of people in the Thorn Bird organization in his memory was dozens of people in this period, and their strength was very strong. Only these 12 people are here?

He carefully looked at these 12 people, and found that while they were backing, they went back to a cliff in the distance of Menglin. Although they were backing out, they easily killed the players with artifacts. No one could get close to 200 meters around them. .

Lu Yang felt a problem. He ordered the flying carpet to fly towards the cliff position behind them at the same time. At the same time, he pulled up the height so as not to let the people on the cliff discover his existence.

After 10 minutes.

Lu Yang came over the cliff. This cliff is very low, only about 100 meters in height. Above the cliff, there are more than 50 players standing. Everyone is standing in a position while holding an artifact heart in his hand. , Their standing is very special, but Lu Yang looked out at a glance.

“This is the ghost crying god.” Lu Yang understood that this group wanted to test the super forbidden spell released by the gathering of 48 artifacts.

There was a sneer on Lu Yang’s face, and he stepped aside. Before long, 12 bait took hundreds of thousands of people to the cliff.

“Hey, where do you run this time?”

“Leave all the equipment on the thorn bird’s trash, so as not to dirty Lao Tzu’s hands.”

“Dare to grab my poisonous heart, you are really tired.” Lucas, the boss of the Qianjin Guild, sneered and walked towards the 12 people blocked on the cliff wall. The distance between the two sides was only 200 meters at this time.

One of the twelve people came out, sneering at Lucas with a sneer on his face and said, "Oh, I'm so scared, but I don't know if you brought enough people to kill our brother."

Lucas arrogantly said: "I brought more than 200,000 brothers and surrounded them. Do you think you can escape?"

"Escape?" The headed thornbird members laughed and looked at Lucas with pity. "From today on, Lucas and the 200,000 players under you will be the funerary of the rise of our thornbird organization."

"Funnel?" Lucas frowned.

The headed thorn bird members pointed with their fingers above it. At this moment, the sky was suddenly overcast with clouds. From the perspective of Lu Yang, 48 artifacts glowed at the same time.

"Ghost ~ Cry ~ God ~ 噫 ~!"

Forty-eight thorn bird members shouted while standing on the top of the cliff. Lights of various colors burst out of the 48 people and rushed into the sky. Suddenly, the entire land fell into a violent shaking, and a large amount of snow fell within 10 kilometers of the surrounding , Ice cones, lightning, flames, and hurricanes, on the ground, the mountain collapsed and the ground pierced.

More than 200,000 people from Qianjin Guild are in this range 200,000 people suddenly lose their blood, and each person's blood volume drops at a rate of more than 2 million per second, without any one person. Can withstand such damage. When the first wave of attack is approaching, the crackers and other robbers are killed, the second wave of attacks falls, and the power occupations such as shooters and violent battles die. The third wave of attacks falls, and the defense and anti-riding kill.

Thirty seconds later, the earth stopped shaking, the wind and snow disappeared in the sky, and then looked at the 10-kilometer map, and everyone and the monsters were dead.

On the cliff.

"Yes, this skill is very powerful," said a member of the thorn bird.

“Unfortunately, it is a bit more expensive. Our attributes have been reduced by 50% for 30 minutes.”

“After all, it is a super-wide super-ban curse, and the test is over, let’s leave.” One of the members of the Thorn Bird looked higher.

The crowd nodded. Suddenly, everyone replaced their face with a camouflage coat, and each took out a teleport token and flew back to Tianyuan City.
