

Chapter 171 - Kill Black Blood

“Strange, why is it overcast this day,” said Black Blood subconsciously.

When Lan Yu saw the black blood coming out, she had to go out. Xia Yuwei took Lan Yu and said, “Do you really want to fight him?”

“Of course ... no,” Lan Yu said proudly to Black Blood. “Big fool, you’ve been cheated.”

Black blood frowned, and said, “What do you mean?”

As soon as the voice fell, a loud shout came from the top right side of the valley.

“Meteor ~ Star ~ fall ~”

Suddenly, a large hole was opened in the clouds, and a fireball larger than the house with a long red fire tail smashed towards the team behind the black blood.

“Fastly disperse.” Hei Xie just shouted these three words. The meteor fell in the middle of the Hei Xie team, and more than 200 men brought by more than 300 men were hit by Lu Yang.

The system prompts: you kill someone, you become a murderer

...

A series of more than 200 prompts flew over Lu Yang's dialogue bar. However, Lu Yang now couldn't care less, and the opponent shouted: "Kill ~!, destroy everyone in the black blood."

"Kill ~!" Bai Shi Sanxiong took the lead in rushing down the hillside, followed by muddy wine pouring and bitter love for half a life.

Fourteen people formed a sharp knife formation and rushed into the remaining 100 or more of the enemy. Their level was all 19, and the level of the black blood was just 10, just like a tiger entering a flock. .

A scream rang from the top of the mountain, and the big red bird fell on Lu Yang's shoulder.

"Black blood, do you remember whether I am Lu Yang?" Lu Yang stared at the black blood.

"You ..." Black Blood looked up in horror towards the cliff. He did not expect that Lu Yang would appear here.

If it is on flat ground, the black blood formation is spread out, and 10,000 members are available. He will not be afraid of Lu Yang. No morale.

"Dare you offend me forever *, I will not let you go." Black Blood said angrily.

"Similarly, I won't let you go." A white light flashed, and Lu Yang fell from the cliff in front of the black blood.

"Flame Storm"

A soaring pillar of light was separated at the foot of the black blood, and the black blood was stunned in place.

“Blazing Bird”

The big bird stopped on Lu Yang’s shoulder dived into the beam of light, and the total amount of black blood was only 900 points, which was killed by Lu Yang 2 strokes.

The system prompts: you killed, you become a murderer

“The boss is dead.” I don’t know who shouted, and the rest waited to run away.

“Don’t run, I haven’t hit enough.” The white wolf chased after him, and the drunk wine dumped and others didn’t stop, followed the chase.

Seeing the enemies being run away, everyone in the Ice Studio was relieved.

Lan Yu happily ran to Lu Yang and said, “Brother, you’re too good.”

“Master, I am convinced.” Zhang Zibo also ran over.

Lu Yang smiled at Lan Yu and said, “My sister wants me to help, can I not come?”

“Thank you,” Lan Yu said.

Xia Yuwei stood in the distance and looked at Lu Yang with stunned eyes. Although she guessed that Lu Yang could become a good master in the future, she did not expect that Lu Yang would have achieved such success in just 20 days of service. She had to admit that , I looked away.

“Lu Yang, thank you.” Xia Yuwei came to Lu Yang, bowed her head in regret, and said, “I was wrong before, please forgive me.”

Lu Yang did not expect Xia Yuwei to apologize to him and said, "Forget it, I don't mind if you apologize."

If it wasn't for Lan Yu, he wouldn't really help. Now that he sees Xia Yuwei apologizing, he doesn't bother to care about Xia Yuwei.

In the distance, Zheng Yuan looked at Lu Yang with jealous eyes, especially seeing Xia Yuwei's weak side in front of Lu Yang and Lan Yu's happy side around Lu Yang, which made Zheng Yuan hate extremely.

Lu Yang felt Zheng Yuan's eyes. For this kind of person, Lu Yang was too lazy to deal with it and send a message to the white wolf.

"Don't chase it, come back, we should go after we pick up the booty."

"Okay, it's so boring, this group of people's warfare has been killed by the boss's meteor, and the water dog has no meaning at all." The white wolf killed the last person in front of him, and returned to Lu with a long sword Yang around.

Not long after, the turbid wine dumped and others also returned, and a group of 14 people stood behind Lu Yang, each with a masterful style.

Lan Yu said enviously: "Brother, who are they?"

"It's my guild." Lu Yang introduced one by one: "White wolf, white tiger, white lion, muddy wine ..."

Originally, Lan Yu, Xia Yuwei and others wanted to thank them, but Xia Yuwei was irresistibly surprised every time she heard a name, because these people in front of them are not the top 15 people on the ranking list. It turns out that they Turns out to be Lu Yang's companions.

"Brother, you are so strong." Lan Yu said in amazement.

Lu Yang smiled proudly.

“Boss, why is my name red?” Sun Yu scratched his head and said, this is the first killing.

“You don’t understand this, killing crickets,” said White Wolf.

The system stipulates that after the player kills, the name will turn red and displayed on the body. If the player is killed, all the items in the backpack will fall off, and the chance of the equipment falling off is 5 times normal. At the same time, the red name player can’t enter the main city, any soldier sees the red-named player will chase him down ~ www.mtnovel.com ~ Sun Yu looked at the color of his name and looked at Lu Yang’s, and said, “Boss, your name It’s all red and black. “

“I killed more than 200 people, of course.” Lu Yang said.

Everyone froze, lamenting the role of the fire method in killing people.

Xia Yuwei said, “It’s all for us to make you famous. We will protect you in the Ice Studio in the future. Please rest assured.”

Lu Yang said, “We don’t need to worry about you. You have offended Black Blood now. Have you ever thought about what to do? How many people are left?”

“There were originally 3,000 people. After this battle, there were only more than 1,300.” Xia Yuwei had a headache, and establishing a guild was far less simple than he thought.

“Brother, is there any way to solve this problem.” Lan Yu asked.

Lu Yang said: “There are two ways, one is to hide and level up, and the other is to increase investment and spend money to hire a studio to fight the black blood.”

“Where to hide?” Xia Yuwei asked, they could not support the studio without the support of their parents.

Lu Yang said, "Go south. The main upgrade point of Black Blood is north. As long as you can be human and not conflict with other grand guilds, it should be fine."

"I had to do this." Lan Yu sighed.

Lu Yang said: "I'm leaving, call me if anything happens, I'll be on call."

"Oh, all right." Lan Yu was very reluctant.

With a wave of his hand, Lu Yang left with Sun Yu, Zhuo Jiu, and others. He ran across the Qingxi Gorge, and the group returned to the seaside island in 4 hours.

When it was late, it was late at night, Lu Yang said: "Tomorrow you stay here to upgrade, I will go out for a few days, I can not take you to upgrade for the time being."

"Okay," said the turbid wine.

Chapter 172 - Demon Heart II

Early the next morning.

Lu Yang exercised seriously, this time he persisted for more than half an hour from the beginning.

"Boss, your body is much stronger." Xiao Liang said.

Lu Yang gasped and looked at his increasingly solid muscles. A stubborn smile appeared on his face. I wonder if it was because of seeing Lan Yu. Last night he dreamed of the last time he jumped off the cliff. For a moment.

“It’s not enough. At least two years are needed before I can achieve anything.” Lu Yang said.

Han Fei froze and said, “Brother, you are too hard.”

Lu Yang said with a smile: “There is pay only to be rewarded. Let’s go online. Today I have very important things to do.”

The Fire Elf who upgrades the heart of the demon **** is the last one. As long as this flame elf is obtained, his demon heart can reach level 2.

Wearing a helmet, Lu Yang appeared at the entrance of the King’s Hall, took out his camouflage coat from his backpack, and chose to use the transformation. Lu Yang became a wide-faced human mage, and the red name on his body was hidden.

The special effect of the camouflage coat is that it can disguise any player as another person. This effect can deceive the Wangcheng guards and prevent Lu Yang from being hunted down.

Returning to the city of St. Gall, Lu Yang flew to the city of Saros through the teleportation array, and led Xiao Liang and Han Ying to kill monsters all the way to the third floor of the secret passage.

Let them go back to upgrade, Lu Yang jumped into the third floor entrance of the Ottoman Temple and ran into the copy.

“Brother, are you there?” Lan Yu sent a message.

“What is it?” Lu Yang asked with a smile.

“We listened to your words and went south. I didn’t meet the black blood. Sister Yu Wei asked me to thank you.”

Lu Yang jumped on the cliff and said, “Thank me for it.”

Lan Yu said, “Are you free these days? I want you to take me a copy. Zheng Yuan also realized his mistake and wanted to apologize to you.”

Lu Yang said for a moment, “That kid knows how to admit it?”

“It’s true, he said he would apologize to you face to face.” Lan Yu said.

Lu Yang thought for a while and said, “I don’t need to apologize. I’ve been a bit busy these past two days. Three days later, I’ll take you down to the 15th level demons cave.”

“Okay, then it’s settled.” Lan Yu said happily.

“Ok.”

Lu Yang jumped to the bottom of the cliff, sent a message to Sun Yu, and then went straight to Jin Hammer Pig.

Golden Hammer Pig, who had been stabbed 10 times by Lu Yang, saw that Lu Yang was still so arrogant, and snorted and rushed towards Landing Yang.

Lu Yang blinked continuously, easily jumping to the right hand of the idol, strewn with the wall of fire on the ground, and after 10 minutes, Golden Hammer Pig fell to the ground again.

Lu Yang jumped down from the idol and picked up the flame elf from the shrine with excitement. He couldn’t help but said excitedly: “The tenth elf, the demon heart can finally be upgraded.”

With a flash of red light, Lu Yang appeared in the Demon Temple. At this time, the other 9 flame elves and demon spar were placed on the altar, and Lu Yang placed the tenth flame elven and the heart of the demon. Above.

System prompt: whether to synthesize

Lu Yang's choice was that ten flame elves of the altar suddenly burst into a flash of flaunting light, and the entire altar seemed to burn, and a huge phantom of the flame was formed in the flame.

"Hello ~!"

The demon spar was suspended in the air, a huge suction appeared, and the illusion of the flame was absorbed into the spar. Then, the demon spar turned into a little bit of starlight and merged into the heart of the demon. After the heart of the demon bounced, the color became More vivid.

System prompt: You successfully synthesized the demon heart

Increase your Demon Heart level to 2

Lu Yang took out the heart of the devil and looked at the attributes.

Demon Heart

Level: Level 2

Constitution: +50

Stamina: +50

Strength: +50

Intelligence: +150

Dexterity: +50

Critical Chance: + 10%

Hit Chance: + 10%

Spell haste: + 10%

Fire Skill Level: +2

Special Spell: Falling Meteor (Level 2)

Incarnate Fire Demon (10 minutes duration)

The level 2 attribute of Devil's Heart can greatly improve the player than level 1, and has an additional skill of incarnation.

Incarnation of the Demon can make Lu Yang a 5 yards high body flame of the Demon, with an additional 1000 points of blood and 1000 points of magic. Except for the curse, all magic is instant, and the range of spell attack is increased by 30%.

When the heart of the demon **** was raised to level 2 in the last life, Lu Yang felt regretful. If he could do it when he was just served, the task of the Murloc could make him a wealthy man. At the very least, he could Give him the ability to compete against the bully and bloodthirsty bully.

Now that he has done it, his body flashed red, Lu Yang appeared in the city of St. Gall, came to the teleportation point, and clicked to teleport the Blackrock Heights.

The system prompts: 1 gold coin for transmission fee, do you continue to transmit?

Lu Yang clicked Yes, the screen flashed and appeared in Heishi Town.

Blackstone Town, one of countless 30-level maps north of St. Gall, is named for its black stones everywhere outside the town.

In the north of Blackstone Town, there is a Blackstone Forest with a Blackstone Palace ~ www.mtlnovel.com ~ full of trolls of the Fire Tree Tribe.

Lu Yang kills monsters all the way to the outside of the Black Stone Palace, and there are 8 fire tree trolls at the door.

Fire Tree Troll (Elite)

Level: 30

Qi and blood: 50000/50000

Each of the monsters here is an elite. Their attack method is very special. Long-range spear attacks, each damage comes with 45 blood and fire damage per second, stacking unlimited times.

Moreover, the lower the blood volume, the faster the attack speed of the Fire Tree Troll. In previous studio experiments, the highest attack speed of the Fire Tree Troll reached 0.2 seconds.

At the time of the experiment, the players in the studio were just level 30. The blood knight had a total body defense of more than 3,000 blood. After being stacked by the fire tree troll for 20 layers, the 3 priests could not add blood.

There are more than 2,000 fire tree trolls in the palace. In addition to the group of 8 at the door, each wave of trolls in the palace is a group of 12 and wants to attack from the front unless a large number of players rush in together. If there are few people, you can't beat it.

Lu Yang came here to find the patriarch of the Fire Tree Troll. If he entered from the front, he would not have this ability, but this palace has a bug that is not a bug.

Lu Yang came to the side of the palace. On the third floor of the palace built by Bluestone, there was a wide balcony. Lu Yang fled the dagger in his hands, and the blue light flashed on the balcony.

The room on the balcony was a huge office, and the patriarch of the Fire Tree Trolls, Wilkins, was talking to 12 elite Fire Tree Trolls.

Wilkins (boss)

Level: 30

Qi and blood: 250000/250000

Wilkins had a fiery red hair, two sharp cavities exposed in his mouth, his whole body was muscular, wearing a red leather armor, and two short axe in his hand.

Chapter 173 - Fire tree troll

Wilkins's attack method is melee, it is not difficult to kill Wilkins, the most difficult is the 12 elite fire tree trolls behind him.

No one can hold a fire spear with more than 10 layers stacked, not to mention that the troll attack speed is much faster than Lu Yang's reaction speed when low health, Lu Yang can't escape.

The only way to play Wells and the twelve trolls behind him is to use the spirit of the devil to rise to level 2 to incarnate the flames.

The spell after the incarnation of the Fire Demon has no cooling time effect, which allows Lu Yang to release the flame storm indefinitely.

Lu Yang came to a position 30 yards from Wilkins, turned off the automatic mode, and adjusted it to the normal mode.

“Incarnation Fire Demon”

A flame came out of Lu Yang’s body, and the raging fire swallowed up Lu Yang instantly, and the flame continued to expand, eventually turning into a 5-yard high flame demon.

The system prompts: Increase your qi and blood by 1000 points

Increase your mana by 1000

Spell attack range increased by 30%

No cooldown on your spells

Lu Yang felt great power, and his 5-yard height allowed him to look down on Wilkins.

“Flame Storm”

A black corrugation with a diameter of 13 yards appeared one by one in Wilkins and the soles of his 12 hands.

“Boom”, the sky’s flame wrapped Wilkins and his men in it, except for Wilkins, every Fire Tree Troll was stunned for 2 seconds. Wilkins was a boss monster , Vertigo for 1 second.

“Human, dare you break into my Blackstone Palace, and I will burn you to death with fire.” Wilkins was furious, and woke up towards the landing sun, but Wilkins didn’t wait to go forward, again Stunned by Lu Yang.

Flame Storm has a cooldown of 8 seconds. There is no cooldown now. In addition to the built-in 1 second cooldown, Lu Yang can be released indefinitely.

After the demon heart rose to level 2, Lu Yang’s magic damage reached more than 500. The effect of the demon heart has fire magic skills +2, so that the flame storm released by Lu Yang is level 3, in terms of skills alone, A level 3 flame storm can cause 264 damage, plus magic damage, each attack has more than 700 damage.

Lu Yang played a brainless game, and the sky-high beams of flames exploded one after another on Wilkins and his men.

In the outside world.

When a large number of players are still fighting the monsters in the level 10 map, Lu Yang is still motionless in the boss here.

The headquarters of the Bloodthirsty League.

Bloodthirsty Batian sat on a chair and looked at Zheng Yuan standing in front of him expressionlessly.

“Blood-thirsty boss, I know where Lu Yang is. Three days later, he will go to the demons cave to fight monsters.” Zheng Yuan said with a charming look.

“It’s true, it’s not to lie to us.” Ye Guxing asked with a frown.

“No, no, I’m telling the truth. He wanted to pursue the two beautiful women in our studio, Lan Yu and Xia Yuwei, so he let me know his position.” Zheng Yuan’s face looked jealous.

“Oh?” Bloodthirsty Batian became interested. He looked at Zheng Yuan and said, “How can you prove that you are telling the truth?”

On the way Zheng Yuan came, he just wanted to get revenge on Lu Yang. He never thought how to prove himself. For a while, he didn't know how to say it. Suddenly, he remembered.

“Yesterday, our guild was blocked by the black-blooded people in Qingxi Canyon. It was Lu Yang who broke the black-blood with a forbidden curse. You don't believe you ask the black-blood.

The Bloodthirsty Batian groaned for a while. The inexplicable black blood yesterday was passed to the ears of the major guilds. However, the people who followed him this time were his real men, and no one took it. Pass it out.

“The Hanbing Studio has only 3,000 people. It is still a group of black people. From the beginning of the service, there are at least 500 people in the hand. It is too easy to beat the Hanbing Studio, and it will allow him to lose. , Only the narrow place like Qingxi Canyon was attacked by Lu Yang. “Yuxue Bawang said.

Bloodthirsty nodded his head and said, “Okay, then I believe you. After 3 days, you come to contact me. If I can catch Lu Yang, I will not only give you 100 gold coins, but your ice studio will be I said to the outside world that I protect it. “

“Thank you, the bloodthirsty boss, thank you.” Zheng Yuan was very proud.

“You go.” Bloodthirsty Domineering said.

“You are busy, you are busy.” Zheng Yuan turned and walked out of the Bloodlust League.

“Boss, do you really want to protect Hanbing Studio?” Yuxue Bawang asked.

The bloodthirsty tyrant snorted coldly and said, "Why would I offend Black Blood because of an ice studio? The order is issued and all the elite groups of the guild are ready. This time, they are fighting on the plain. I must Kill Lu Yang. "

"Yes." Ye Guxing and Yuxue Ba are sneer.

Not far from the gate of the Bloodthirsty League, a hunter-like player is setting up a stall, just to see Zheng Yuan proudly stepping out of the Bloodthirsty League.

"Strange, what Zheng Yuan came to the Bloodlust Alliance." Sun Yu bowed his head and crossed Zheng Yuan. This hunter is Sun Yu, and at the request of Lu Yang, he monitored the headquarters of the Bloodlust Alliance ~ www.mtlnovel.com ~ unusual.

"I hurriedly report to the boss."

Blackstone Palace.

Lu Yang fired another blaze of fire, all 12 fire tree trolls were killed on the ground, and Wilkins had only 200,000 points left.

"Boss, I saw Zheng Yuan walk into the Bloodlust League and came out again." Sun Yu said in a message.

Lu Yang snorted and said, "Sure enough."

"You continue to stare at the bloodthirsty headquarters, and continue to report any abnormalities in these three days."

He helped Hanbing Studio so many times in the last life, and Zheng Yuan never told him to apologize. How could he apologize in this life? Sure enough, he guessed that Zheng Yuan didn't apologize, but wanted to kill him or borrow him. Hand of bloodthirsty bloodthirsty.

"This thing can make good use of it." Lu Yang murmured to himself.

Six minutes later, Wilkins died on the ground, a golden book fell on the ground, Lu Yang's eyes lightened, and he came to Wilkins to pick up the book.

Meteorite Impact

Type: Fire Spell

Cost: 60 mana

Cast time: 3 seconds

Distance: 30 yards

Description: Summon a red meteorite to land on the ground, hit the target and cause 86 damage. After the meteorite falls, it rolls forward for 10 yards, causing 56 points / second damage to targets within the meteorite range every second.

Seeing this skill book, Lu Yang almost jumped up with excitement. The meteorite impact is his dream skill. In the early fire skills, the Blazing Bird, Flame Storm, Ring of Fire Resistance and this last meteorite impact are combined. A set of classic combos can be formed. Of the same level, anyone who wins this combo will undoubtedly die, even if it is a few levels higher than the fire spell, as long as the magic damage of the fire spell is not too low, the opponent can also use a set of skills. take away.

Chapter 174 - Tide Stone

Tide Stone

Without any explanation or introduction, Lu Yang picked up the stone, and it was difficult to calm down in excitement. He finally got the stone of the tide.

In just over 20 days of this service, he got it!

“Gold does not change, how many gold coins do we have now.” Lu Yang sent a message to Jin Buchang.

“In the 10-day operation of the pharmacy, a total of 2866 gold coins were earned. After removing the salary and raw materials, there were 2176 gold coins left.” Jin Buchang had already learned his books.

“Very good, leaving 1000 gold coins for drug store upgrades, leaving me with 1000 gold coins, I’ll get them later.” Lu Yang said.

“Okay,” Jin Buhuan said.

Lu Yang closed the call, picked up the potion from the ground and flew back to the city of St. Gall, first to the pharmacy of Song of Blood and Fire.

After 10 days of development, the Pharmacy of Song of Blood and Fire has developed into the largest pharmacy in St. Gall.

Special formulas such as anti-drugs and primary attack agents filled the pharmacy with customers every day. In the past few days, because the amount of medicaments could not keep up with the needs of the players, Lu Yang had to go to the palace quartermaster and goblins again. At Bissell, 100 pharmacy formulas were purchased, and the pharmacy expanded again, and the number of pharmacists now reaches 180.

A large number of elite pharmacists in the guilds such as Lover, Domineering, and Bloodthirsty, except for contract restrictions, have ran to the Song of Blood and Fire Pharmacy. In the new list of pharmacists, Lu Yang even saw the Bloodlust Alliance I Of a top pharmacist.

“Boss, the pharmacist’s refining equipment is not enough. I have received dozens of good recipes in the past few days. Several of our pharmacists have also developed a lot of recipes and can recruit people again.” Jin Buhuan 1,000 gold coins were delivered to Lu Yang.

Lu Yang smiled with satisfaction, saying, “I am going to upgrade the drugstore and recruit more pharmacists. There will be more players in the game and we can make more money.”

Jin Buchang said, “I must work hard.”

“Be careful also that other guilds will give us a stumbling block. Once there is a problem, tell me in time, I will give you a way to solve it.” Lu Yang said.

“Do they dare?” Jin Buhuan said, “Now the tyrants, the twilight and the bloodthirsty tyrants are begging me to provide me with more potions, and the scattered groups have repeatedly asked me to provide more potions. I Everyone is afraid of three-pointers right now. “

In this case, Jin Buhuan only dared to tell Lu Yang. Lu Yang also saw it. Jin Buhuan regarded him as his real brother.

“Good job, I can’t think of a way for you.” Lu Yang praised.

Jin Buchang sighed with sigh, and sincerely said to Lu Yang: “Boss, thanks to you all, remembering that, I was still a waste pharmacist who was driven out of the guild, like a bereavement dog. Without your help, How could I have today, and I saw that Ye Guxing apologized to me that time, not to mention how happy I am. “

The best way to get revenge is to work hard to improve yourself. When your strength is strong and you are above him, you can watch him helplessly come to you and apologize to you. This is the coolest revenge. method.

Lu Yang patted Jin Buhua’s shoulder and said, “Don’t be arrogant. If it weren’t for you, who could put the 180-person pharmacy and so many top pharmacists into service, I can only say that I picked up the treasure myself. . “

Jin Buchang blushed once, and he scratched and scratched his head.

“Never mind, my drugstore was upgraded. Starting today, he will officially become the largest pharmacy in St. Gall.” Lu Yang took out 1,000 gold coins and gave them to the system to click on the upgrade.

A flash of light flashed, and the outer wall of the Song of Blood and Fire Pharmacy Store became a crystal turquoise. Players who were shopping at the door and in the store were surprised to see this scene.

“What happened?”

“I do not know.”

Some savvy players saw it, but they all looked stunned.

“Upgrade? Already a level 2 pharmacy. To get to level 3 requires 1,000 gold coins. The blood drug store is too rich.”

“Report the boss, this is a big deal.”

Jin Buhuan stood in place, countless congratulations came to his dialogue bar, and dozens of grand guilds and scatter bosses, such as hegemony, twilight, and bloodthirsty, sent him messages.

“I’m gone.” Lu Yang knew that Jin hadn’t exchanged for a while, and he waved with him and left the pharmacy with 1,000 gold coins.

Out of the east gate, Lu Yang ran all the way to the golden bay on the 20-level map.

The Golden Bay is a beautiful bay on the east side of the city of St. Gall. The golden sandy beaches, the breezy sea breeze, the turquoise blue sky, and the endless sea are all fascinating.

However, beautiful things can often hurt people, just like roses, so is the Golden Bay.

The entire beach is full of Naga Siren, which stretches into the sea water, but on a corner of the golden sand beach near the coconut forest, there is a large ship leaning on the shore.

The ship was filled with level 20 mermaids.

In the previous life, when a large number of players upgraded to the golden beach at level 20, they found that all npcs such as blacksmiths, tailors, engineering, alchemists, and patriarchs were available on the fishermen's ships. Obviously it is a small expedition and can do tasks. of.

However, the reputation of the Murloc is hatred for each player. If killed, the hatred is even higher.

At that time, countless domestic studios were involved in solving the problem of the mermaid's reputation. Unfortunately, there was no clue at all. It was not until a player who got the Tide Stone came here to solve the task.

It turned out that the tide stone was a holy thing of the tide fisherman. Using it, the fishermen could use the power of the tide to get food. However, in an accident, the tide stone was snatched by the Naga and eventually passed to Wilkin. Spence's hand.

The fisherman tribe on the golden beach ~ www.mtlnovel.com ~ is chased from the sea in order to find the tide stone. If someone can provide them with the tide stone, his reputation will become friendly in the fisherman tribe. .

Lu Yang took the Tide Stone to the door of the Murloc Tribe, and an elderly Murloc guarding the door was attacking him.

Murloc Sentinel Clark

Level: 20

Qi and blood: 26722672

“Human, you are not welcome here.” Clark yelled at Landing Yang.

Lu Yang ignored it and walked straight to Clark.

Clark was about to attack, but a confused expression on his face asked, “Why, I smelled the tidal stone on you.”

Lu Yang took the tide stone from his backpack and said, “Is this it?”

Chapter 175 - Murloc Quartermaster

“Of course.” Lu Yang is here to do this task.

“Oh, thank you, thank you so much.” Clark was thrilled to take the Tide Stone.

System Tip: Your Reputation in the Tide Murloc becomes Friendly

“Lady, thank you for your help. My clan will appreciate you as much as I do. If you have any needs, you can come to our shop.” Clark yelled for the patriarch with the tide stone.

“Thank you.”

Lu Yang’s heart throbbed instantly, and the Mermaid Quartermaster sold a Tier 1 silver tide suit, which was available in all three systems of chain armor, leather armor, and cloth armor, and all were output suits.

At this stage, countless newcomers enter the game every day. Only the main city of St. Gall, more than 50,000 players enter every day.

How difficult it is to get equipment in the game. When they enter the game, they will know very quickly. When they find that the level 1 wooden sword in their hands can't be blame, they find that the equipment on many level 3 and 5 players is not complete. When they do, they will understand how important a Tier 1 Silver Tide suit is for them.

In the last life, even in the past few months, the first player to discover it, by selling only Level 1 Tide suits, earned 10 million net worth in just a few months.

Since Lu Yang's rebirth, the first way to think of it was to make money by following this. Following Clark, Lu Yang stepped onto the sea boat of the Mermaid, and every fisherman he met along the way showed his goodwill to him. .

Entering the ship, Lu Yang found the Murloc Quartermaster Emily in the room on the left side below the deck.

"Dear friend, thank you for helping us find the relic, what do you want." Emily asked.

A purchase item appeared in front of Lu Yang.

Tide Attack Armguard Drawing, Price 5 Silver Coins

Sea Tide Intellectual Armguard Drawing, Price 5 Silver Coins

...

Three series of drawings, each set of equipment is 9 pieces, respectively weapons, helmets, necklaces, clothes, shoulders, arm guards, belts, leg armor, boots.

There are only 5 sets of Level 3 copies produced, and other parts are not easy to obtain. It is conceivable that when the completed Level 1 Silver Set appears in the game, it will be welcomed.

Three series of drawings Lu Yang purchased 16 sets for each series, a total of 432 drawings, cost 21 gold coins and 60 silver coins.

“What are you doing?” Lu Yang sent a message to Xiao Liang.

“Daguai boss,” Xiao Liang said.

“All meet at the entrance of the St. Gall’s auction house, I have something for you to do.” Lu Yang said.

“Okay, come soon.” Xiao Liang told the news to Han Ying and others.

Lu Yang took out the back to the city and flew back to the city of St. Gall, leaving 6 sets of drawings, the rest are placed in the warehouse.

At the auction house, Lu Yang saw Xiao Liang and Han Ying at the door.

“Boss, here we come.”

“Go in and say.” Lu Yang took them to the second floor of the auction house, found a private box and sat down.

“Lu Yang, are there any major issues?” Han Ying asked, each time it costs 1 gold coin, or 300 credit points, to go to Saros, Lu Yang would not be able to find them without major issues.

“Good thing.” Lu Yang took out the drawing and said, “Look what this is.”

“A level 1 silver suit drawing? Is there such a thing?” Han Ying opened his eyes in surprise.

“I’m dizzy, where did you get the boss, this, this is too strong.” Xiao Liang said dumbfounded.

Lu Yang asked with a smile: "You said, in the future, we can make money by selling this suit."

"It's a big profit." Xiao Liang said excitedly.

Among all of them, Xiao Liang is the only one who has experienced the upgrade from level 0. He knows the pain of not having monsters, and he also knows the pain of being unable to fight monsters and the pain of grabbing monsters.

"Novices have this suit, and upgrading will become very easy." Xiao Liang said.

"For some time to come, you stop playing monsters, and I will teach you how to make a tide suit."

Lu Yang gave everyone 100 gold coins and said: "I sent a list in the simulation group, you buy as I said, don't care about spending money, the more you spend now, the more you will earn in the future, you can buy as much material as you want. "

More than 30 materials such as Mithril Ore, Hard Armor, True Silver Ore, Ink Scale, Snake Tendon, and Fine Buffalo Leather are used to make the Tide Set.

These things are collected and produced by life players, and many people sell them on the auction house. Because there are no good drawings, these materials are in a slow-moving state and the price is very low.

Mithril ore from a group of 30 silver coins from the previous life only sells 3 silver coins, and the fine wild leather is 1 silver coin.

A few minutes later, all these materials were emptied by Lu Yang and Han Ying.

"It's strange. Why didn't anyone sell Mo scale? It turned out that there were so many people who didn't buy it ~ www.mtlnovel.com ~ a soldier player standing next to Lu Yang asked in doubt.

"I can't buy snake tendons, it's weird," said another hunter player.

Mu Yu snickered, covering her mouth.

Lu Yang said: "Let's go with me to the north of the city."

Opposite the Chengbei Square are three shops bought by Luyang. Since the currency exchange was opened, the prosperous street in the east of the city has been shorted by rich players, and the south and west of the city have basically sold the same. Usually no one comes, just can be used as a production base.

Lu Yang took them into a shop, opened the operation interface, set Xiao Liang, Han Ying and others as allowed people, and then opened the purchase interface, and selected forging equipment, tailoring equipment, and leather making equipment. In the three floors of the house.

A burst of light flashed, and a set of forging furnaces, anvils, and clear water tanks were added in the lobby on the first floor.

Lu Yang put the drawings on the table and said: "According to their own preferences, each person takes a set of drawings to study, and I will teach them one by one."

Xiao Liang and Han Yu chose chain armor, Han Ying and Mu Yu chose cloth armor, Han Fei chose leather armor, and Lu Yang took the remaining set of leather armor to learn by himself.

"Boss, you can do leather armor." Xiao Liang asked.

Lu Yang smiled. In fact, he would not only do leather armor, but also plate armor, chain armor and cloth armor.

In the last life, as the boss of a small guild, if you want to provide benefits to the guild players, but also want to save money, it is necessary to do everything, especially the equipment, advanced forging, leatherworking, tailor masters will not care about you, you You can only learn slowly with your players.

After studying for a long time, Lu Yang's forging, leather making, and tailoring have all become specialized, although he can't compare to the master, this level 1 tide suit does not have any difficulty for him.

Chapter 176 - Level 1 Silver Set

Lu Yang put Mithril ore and other materials on the table, select the built-in store, and click to buy boutique coke. A set of coke requires 10 silver coins and can burn for 1 hour.

"I started teaching with mail."

Lu Yang said as he put coke in the forging furnace and chose to ignite, the forging furnace quickly heated up.

If you want to forge Mithril ore into equipment, you must first turn the ore into a high-purity Mithril ingot, and then mix it with other materials.

...

Lu Yang personally demonstrated that a half-tide sword appeared in his hands half an hour later.

Sword of the Sea (Silver)

Level: Level 1

Attack: 6-11

Strength: +3

Constitution: +3

Sea tide suit: (1/8)

Outfit effect:

5 piece set: 5 additional physical damage

9-Piece Set: There is a certain chance of attack with tidal power, and the damage is increased by 30 points.

“The 0-level wooden sword hurts only 0-1. This weapon is much stronger than the wooden sword. It is also comparable to the 5-level silver two-handed sword. If it is a suit, it is better than the 5-level.” Xiao Liang said in amazement.

Lu Yang asked: “Did you learn?”

Xiao Liang scratched his head and said, “I’ve probably learned, I’ll experiment.”

Xiao Liang’s qualifications are a bit dull, the learning speed is slower than normal people, and it took three hours to really master the essentials.

Mu Yu and Han Ying’s three siblings learned faster. The fastest Han Fei learned to make leather once he saw it. When they both learned it, it was 5pm.

As it happens, everyone made a set of sea tide suits, including 3 sets of Lu Yang, a total of 8 sets.

“Let’s go to the auction house to try water,” Lu Yang said.

“Lu Yang, how much can this thing sell.” Han Fei asked curiously.

“The price of a set is 3 gold coins.” Lu Yang said.

“Is there too many 900 credits?” Han Ying said in surprise.

Lu Yang showed a look of memories. In the previous life, the price of the suit was also 3 gold coins. At that time, everyone thought the seller was crazy. However, it took only a few minutes for the suit to go up. 20 suits were swept away.

“Don’t underestimate the rich people in this world. For us, there are a lot of 3 gold coins. For them, even the money for the girlfriend in the game is not enough.” Lu Yang said.

“Second World” officials know how to figure out the players’ minds. In addition, there are so many classic games that can be used for reference. Therefore, when the currency exchange was opened, the fashion mall was also opened.

Players are no longer confined to the equipment and shapes in the game, they can be transformed into any form they like, and they can also wear classic dresses, beach cool shirts and other clothes without any attributes, and the value of such a suit is 100 gold!

So far, according to official surveys, one third of the gold coins exchanged with credit points are used in fashion, and only a pirate dress sold 150 million credit points, and this data is still rising.

Han Ying’s eyes were confused. Although these things were in the official news, she could see them, but she couldn’t believe it was true.

Today, speaking out of Lu Yang’s mouth, she has a real feeling, and she has truly integrated into the game at this moment.

“Brother Lu Yang, will we become a millionaire because of this.” Han Fei asked happily.

“Your goal is too small.” Lu Yang rubbed Han Fei’s head and took them into the auction house.

Today there are many people in the auction house. In the morning, Lu Yang spent more than 600 coins on purchases. Many players received bonuses, so many people came to the auction house to put their inventory up.

Many new players who have just entered the server also come to the auction house. They come to see if there is equipment for sale. Old players will also go shopping once a day. After selling the harvest for one day, see if there is anything worth buying. A habit has been formed.

It happened to be 5 pm, and a large number of players returned to the city to make the auction house more people.

“Well, there are so few people selling equipment. Didn’t anyone still sell Viper Canyon suits before? I didn’t go to the auction house for a while, and I regretted my death.” A warrior player said remorsefully.

“No way, there are only a few copies. We have 20 people at a time. We don’t have a guild or a wild group. Some people often grab equipment and get mad at me.” A hunter said.

“Husband, it’s too hard to blame, you think of a way to buy me a set of equipment.” A female fashion player wearing a dark black V evening dress snuggled up next to a handsome young man and said with a sigh of sigh.

“Uh ~” Han Fei said with arms folded, “I goosebumps are all up.”

Lu Yang laughed and said, “You will get used to it in the future.”

“Lu Yang, is poverty limiting my imagination? How come there are so many people wearing fashion here at the auction house ~ www.mtlnovel.com ~ They have a lot of money to spare, so why do n’t you have to buy some? Fashion that has no use.” Han Yu asked puzzled.

Lu Yang said: “Some people really like it, so he goes to buy it, and some people, because he buys fashion, the beauties around him will like it, so they also buy it.”

“I don’t understand.” Mu Yu said, shaking his head.

Lu Yang patted her little head and said: "Children go to play, this is not what you should know."

Mu Yu pursed her mouth, and Meng Meng ran away to play. She looked so cute.

Lu Yang smiled and put 8 sets of sea tide sets on the auction house, and said, "Look at it, the results will come soon."

Eight sets of equipment were auctioned in sets, with a reserve price of 3 gold coins and a maximum of 10 gold coins. Lu Yang opened the auction house announcement system and issued a broadcast of a tide suit.

"Are you still annoyed that you don't have any equipment? The world sells 1-level silver-grade 9-piece suits.

Players inside the auction house were shocked to hear the news.

"Has a level 1 silver suit?"

"A nine-piece suit?"

Whether it is a level 1 player or a level 10 player, they search for the tide suit on the auction machine for a look.

"It's really a Tier 1 silver suit."

"This attribute, this attribute is too strong."

"That's too expensive."

System prompt: The package you selected has been bought

“Is this robbed?” As soon as the words fell, 8 sets of equipment were swept away, and they were all bought at the highest price of 10 gold coins.

“Husband, you are so handsome.” The beauty in the black deep V dress looked at the man next to her.

“Haha, brother is rich, go, sister, take you to upgrade.” The man said with a laugh, apparently, he bought a set.

Chapter 177 - Profiteering industry

“Which grandson is so fast, leave a set for Lao Tzu.” In the lobby on the first floor, a player scolded angrily. He just hesitated for a moment, and the equipment was sold out.

“Where the equipment is sold, hurry up and sell it, Lao Tzu is short of equipment.”

...

Thousands of people in the auction house complained that Xiao Liang, Han Ying and others were stunned.

“Brother Lu Yang, they all want to buy equipment.” Han Fei asked.

Lu Yang held the 79 gold coins and 92 silver coins in his hand and said, “Let’s go, don’t hurry back to make equipment.”

“Oh, yes.” Xiao Liang and Han Ying responded, and quickly followed Lu Yang and returned to the house in the north of the city.

“I don’t sleep tonight, I want to build the equipment for one night.” Han Feixin swears.

“So do we.” Xiao Liang and Han Ying said together.

Mu Yu was also very excited with a small face.

“No, just go to 12 o’clock, and then go to bed. Money is not made in a day.” Lu Yang said.

“Ah? Oh!” Everyone had no choice but to nod in agreement.

From 5:30 to 12 in the evening, Lu Yang took Xiao Liang and others to work for more than 6 hours, and made a total of 24 sets of equipment.

Lu Yang took the equipment to the auction house, just put it up for 2 minutes, and was cobbled up.

“A lot of money.” Han Fei was very happy watching 240 gold coins.

“Go offline first,” Lu Yang said.

“Okay.” Xiao Liang, Han Ying, and others dropped off the line and quit the game.

After returning to the demon temple, Lu Yang also quit the game.

Inside the room, Han Zhong frowned and looked at Lu Yang and Han Ying.

“Why is it so late today,” Han Zhong said unhappily.

“Dad, we made 240 gold coins today.” Han Fei said excitedly.

“240 gold coins?” Han Zhong frowned.

“Oh, I forgot, you don’t play games.” Han Fei said sloppily: “For 72,000 yuan, we made more than 70,000 credits on this day.”

Han Zhong showed a surprised expression. The money was equivalent to his one-time employment expense, and asked, “What’s going on.”

Han Fei told Han Zhong in detail.

Han Zhong looked at Lu Yang and asked, “Is it really that profitable?”

“Yes.” Lu Yang nodded.

Han Zhong’s face was calm, and he could not see his expression and said to Lu Yang: “Come with me in the house, I have something to tell you.”

“Okay.” Lu Yang followed Han Zhong into the bedroom.

Han Zhong carefully looked at Landing Yang and said, “Xiao Yang, we haven’t talked about it for so long.”

“Yes.”

“What’s going on in this game, can you tell me?”

“Of course you can.” Lu Yang has been waiting for this day. He wants to convince Han Zhong with real data, and not to let the three sisters Han Ying engage in the mercenary profession.

From the origin of the holographic simulation game to the summit of “Second World” and his future value, Lu Yang said one by one.

“Master, do n’t let Han Ying be their mercenaries. I will teach them to make money and become professional competition players. With their skills, they can grow to a very high level after a little training in the game. When their age passes the competition, At this stage, I will train them to become professional commentators, and earn more money than being a mercenary.” Lu Yang said.

“Game?” Han Zhong asked.

Lu Yang said: “Twenty years ago, there were professional game leagues in China. Even a mobile game has a league. And official regulations stipulate that the monthly salary of a professional player is not less than 30,000 credit points. The income is in the millions. “

Han Zhong is very confident in the skills of the three children. Hearing here can’t help but feel excited. If there is a better job to support himself, who would be a mercenary.

“As for the enemy’s problem, when you have money in the future, you don’t need to do it yourself, you can buy their lives by spending money.” Lu Yang said.

Han Zhong’s eyes suddenly sharpened, and he nodded, “Well, you convinced me, I agree with your request.”

Lu Yang stood up and bowed respectfully to Han Zhong and said, “Thank you, Master.”

At this time, Lu Yang’s heart was so excited that he finally managed to change the life of the Han Zhong family.

Doorway.

When Han Yingsan heard what Han Zhong said, she couldn't help screaming.

"A bunch of rabbits." Han Zhong said with a smile.

"You all come in." Lu Yang took out six bank cards from his pocket and handed them to each of them.

"This day we made a total of more than 300 gold coins. After removing the cost, there are about 260 gold coins left. I give you 20% of net profit for each of you." Lu Yang said.

On average, each person can earn about 8 gold coins per day. If converted into cash income, it is equivalent to earning 2400 yuan a day.

"Brother Lu Yang, this is too much, we can't ask for it." Han Fei shook his head.

Han Ying, Han Yu, Mu Yu, and Xiao Liang all shook their heads together.

Lu Yang said, "Let you hold and hold. I will recruit a group of new people tomorrow, and you will be responsible for teaching them to forge. At that time, I will give you a new distribution method to make you more profitable."

"Boss, it's still too much. I feel like it's crazy to make 300 yuan a day. You give me so much money now, I don't know what to do." Xiao Liang scratched his head and said.

Lu Yang said, I did n't have a gun for you in the last life, I died early, how can I jump off the cliff and regenerate.

"Hold them, don't be polite with me, or I'm angry." Lu Yang said.

"Oh, all right." Xiao Liang, Han Ying and others looked at each other and accepted the bank card together.

“Get rich!” Han Fei excitedly studied with Xiao Liang and others how to spend this money.

Lu Yang laughed endlessly.

“Brother Lu Yang, how are you going to spend this money ~ www.mtlnovel.com ~ Han Fei asked.

Lu Yang said, “My money has to establish a guild. I can’t move it for the time being.”

Compared with Xiao Liang and others, Lu Yang can earn more than 200,000 cash a month. If he hires players for a while, he will make more money, but it will not exceed 500,000 in another month.

Compared to the grand guilds such as Xiongba and Late Twice, which spend five to six million a month, the money he earns is only a small amount in the eyes of those people.

What’s more, compared with Liu Jie’s super-rich, he just entered the game and bought more than 10 billion guilds for more than 10 billion yuan. If Lu Yang now uses this money to enjoy it, he is undoubtedly looking for death .

“Master, are you interested in entering the game?” Lu Yang asked suddenly.

“I.” Han Zhongle said, “I am in my 40s and can do anything in the game.”

Lu Yang said: “The game will send you an 18-year-old body. The actions you can do that year, you can still do it in the game, and the game has no physical fatigue.”

“Can this be the case?” Han Zhong asked in surprise.

“Of course, there is an old man from the 80s of the last century in the game. He created the largest guild in the service, and his skills are extremely flexible. Young people can’t beat him.” Xiao Liang said.

Han Zhong was interested this time and said, “This is good, but I can try it.”

“That’s great.” Lu Yang clapped his hands and said, “Master, after that, the apprentice’s weapon shop will be left to you to manage.”

Han Zhong smiled and said, “It turns out that your kid is waiting for me here, okay, now that I have agreed, then I will go in and look at it and help your kid do something.”

“Thank you, Master,” Lu Yang said gratefully.

With Han Zhong, his empire puzzle has increased a lot, and now he recruits people.

Chapter 178 - Brothers i am here

As for who to recruit, Lu Yang had long thought about it. The next morning, after the exercise, Lu Yang changed his clothes and left the house.

Two stops away from Lu Yang’s house, there is a vocational high school, which is actually a technical school.

In 2040, all major developed countries in the world have completed the robot AI technology revolution. Robots have replaced most human jobs, and graduates have found it very difficult to find jobs.

Many poor families, in order to allow their children to work and earn money to support their families in the future, would rather not let their children go to college, but go to technical schools.

At least, many special jobs, such as repairing railways in mountainous areas, cannot be replaced by robots.

This is how Lu Zhaoyu and Chen Feng were sent to the technical school. Like Xiao Liang, they came from a slum and played with Lu Yang from childhood to age.

The two were two years younger than Lu Yang. Both fathers were seriously injured while working on the construction site, and they had to live on the mother's meager income.

When Lu Yang established the guild to recruit players in the previous life, the two of them first joined Lu Yang to help, and were Lu Yang's two most powerful assistants.

The two have never betrayed their whole lives. One of the favorite words is: Boss, we are not capable. You are the eldest brother. You take the idea, and we both do it.

In the last life, before Lu Yang was dying, Xiao Liang repeatedly mentioned two people to him, saying that they also brought a group of brothers to help them work to pay off their debts.

This friendship is so deep that Lu Yang did not know how to cherish his life in the last life. Lu Yang will never fail to live with such a brother.

When I came to the gate of the technical school, a huge off-white school gate was written with the words of the Steel Mill Vocational and Technical College.

At this time, it is breakfast time. A group of students are working hard in the cafeteria on the side of the school building.

"If you want to be a face-to-face teacher, your kids must start with the basics. The two who brush the bowls are faster." The chef of the cafeteria pointed at Lu Zhaoyu and Chen Feng.

"Okay, we'll finish it right away." The two have already brushed and don't know how many plates, and their foreheads are sweaty.

Lu Yang just arrived at the dining window, watching the distressed death of the two, came to the side of the two and squatted to help.

Suddenly there was one more person, and the two were stunned. When they saw it was Lu Yang, they were even more surprised.

“Brother, why are you here?” Lu Zhaoyu asked.

Lu Yang said with a smile: “After the busy day, be careful and be scolded by the master again.”

The two showed an embarrassed expression and accelerated the brushing. The three of them worked together at a much faster speed. In less than half an hour, all the plates were finished.

When washing your hands.

Lu Yang said to the two, “Have you heard of Second World?”

“I’ve heard it. It’s a holographic simulation type online game. We read the news every day. We heard that there are more than 200 million players from all over the world.” Chen Feng said.

“I found a way to make money in the game. Now there is no one to help. You two can’t come.” Lu Yang asked.

“Come.” Lu Zhaoyu and Chen Feng replied in unison, and Lu Yang had never lied to them since they were young. The promised things must be done, and the two had extra trust in Lu Yang.

“I knew you two would come,” Lu Yang said, holding his shoulders firmly, “my good brother.”

“However, just you two is not enough. Help me find some more people. I have a good relationship with you. I will provide the helmet.” Lu Yang said.

“We have more than 100 brothers.” Chen Feng said proudly.

Lu Yang patted his forehead and said, “I forgot that you two kids have more friends.”

Lu Zhaoyu and Chen Feng talked about their brothers and said that they can make many friends everywhere.

“Find 33 people first. I’m waiting for you at the Golden Arch opposite.” Lu Yang said.

“Okay.” Lu Zhaoyu and Chen Feng agreed.

Watching the two ran out, Lu Yang stepped out of the school gate and ordered a breakfast in the golden arches and waited.

According to legend, the Golden Arch did not call this name more than 20 years ago, it seems to be called Mai or something, but that name has not been mentioned, and it has long been forgotten in the pile of old paper.

After half an hour.

Lu Yang just finished eating, and Lu Zhaoyu and Chen Feng came in with 33 young men.

“Boss, we’re here.” Chen Feng said. These people were carefully selected by him and Lu Zhaoyu. They are all graduating students, so they don’t need to take classes.

Lu Yang looked at these young people, and he knew each of them, and could even name them, and it seemed that they were their brothers who worked for themselves to pay off their debts.

Now in this life, I have to meet and pretend that I don’t know. Lu Yang is full of flavor.

“This is my old continent, and it will be your boss from now on. I heard nothing.” Chen Feng said.

“Boss is good.” Everyone said together.

The 16-year-old young man has a **** chivalry.

Lu Yang said: “Yes, I will buy a helmet with me in a while. I will let you sign a contract with me in the game. This has legal effects. In terms of salary ~ www.mtlnovel.com ~ each of you has a base salary of 5000 Credit points and bonuses are based on performance evaluation. If you do well, your income can reach 10,000 yuan a month. “

“So much!” The 33 boys were stunned, and Lu Zhaoyu and Chen Feng were stunned.

When a worker entered the factory, his salary in the first three years was only over 2,000 credit points, and his salary as a junior technician was only over 3,000. Lu Yang gave them money that they could not imagine.

“Boss, the salary is so high.” Chen Feng said.

Lu Yang said: Brothers, the last life has suffered so much with me, how can I make you poor again in this life.

“Follow me and buy a helmet.” Lu Yang took Lu Zhaoyu and Chen Feng’s shoulders and walked out of the fast food restaurant with a group of brothers.

There is a game helmet franchise store next to the school. Lu Yang took them into the helmet store and bought 36 helmets.

“Today, you will go back to the game to familiarize yourself with each other. Tomorrow I will take you to a designated place. In the future, you may want to live there and go back and talk to your family.” Lu Yang said.

In the future, these people will be the main force for making tide suits. This secret work requires a closed environment.

Furthermore, the place where the family lives is too crowded and a larger house is needed to satisfy it.

As for the location, Lu Yang chose an old-style neighborhood he had rented in the last life. It turned out to be a worker's dormitory of a state-owned steel mill. Later, the factory was relocated and sold to private individuals.

After letting Lu Zhaoyu and Chen Feng leave with people, Lu Yang taxied to the gate of the residential area on the outskirts of the city, found the owner who was renting the house, and rented the house.

This is an old villa with three floors above and below. It has been built for 40 years, coupled with the small number of people leaving the steel mill to live nearby, the rent is very cheap, and it can also make the Hanzhong family safer.

Chapter 179 - Battle 1

The house has all the furniture and the Internet. Lu Yang bought a bunk-type camp bed on the Internet and spent a day looking for professional cleaning. In the evening, he took Han Zhong and Mu Yi Mu Yu and Xiao Liang to live in the house. .

They all lived on the third floor, and the first and second floors were left to Lu Zhaoyu and Chen Feng by Lu Yang.

That night, Lu Zhaoyu and Chen Feng couldn't wait to bring 33 brothers to find the address given by Lu Yang.

"Boss, this game is so interesting, we want to start now." Chen Feng said.

"Yes, I'll find someone to teach you." Lu Yang beckoned Xiao Liang and Han Ying three siblings over.

"In the game, we teach them to make equipment." Lu Yang said.

“Ok.”

In the lobby on the first floor, there is a row of sofas, and everyone chooses a sofa to lie on and enters the game together.

Elementary forging, tailoring, and leather making are not difficult to learn. After simple teaching, 35 people including Lu Zhaoyu and Chen Feng learned to make sea tide suits.

“Boss, are you there?” Suddenly a message came from Sun Yu.

“What am I doing?” Lu Yang asked.

“There are high-level players here at the Bloodthirsty Headquarters today, as if they have won the war with the scattered groups.” Sun Yu said.

Lu Yang sighed, and sure enough, the scattered group eventually failed to play these rich grand guilds.

“Boss, they have just sent 500 rogue players under the guidance of Ye Guxing to lurk in the Demon Cave copy. The news from the outside knife just sent me.” Sun Yu said.

Lu Yang sneered and said, “Sure enough, these people came to me.”

“Boss, what do we do next.” Sun Yu asked.

“You continue to stay at the headquarters of the Bloodthirsty League, I will arrange freely.” Lu Yang opened the simulation group, said to Zhuo Jiu Qing and others: “Go online at 8 tomorrow morning, we are going to fight a big battle.”

“Boss, just wait for you to order, tomorrow will be on time.” Bai Hu and others said one after another.

Lu Yang smiled and closed the chat box.

“Is there anything wrong, Xiaoyang?” Han Zhong asked.

“A little thing.” Lu Yang said indifferently.

He was able to handle this matter by himself, and for the time being he did not need to rely on external forces. That night, Lu Yang and Han Zhong and a group of men and women continued to build equipment in the game.

Until 12 am, Lu Yang and Han Zhong needed to exercise and rested, leaving Lu Zhaoyu and Chen Feng with the team to continue making equipment.

For boys who are just 16 years old, staying up late is not at all to them. Lu Yang previously advised them to go to bed until 12 o'clock, but these boys are very active in order to make money, and none of them are willing to go to bed.

early morning.

Lu Yang entered the game early, and Sun Yu and Zhuo Jiu Qing were also online.

“Boss, we are all here,” Mao Qiu said with a message.

“What’s happening over the Bloodlust League?” Lu Yang asked.

“The 500 of them are still under my surveillance. Haha, a group of thieves at level 13 thought they were hidden, and I hid beside them, and they didn’t see me.” Said mad knife laughed.

Lu Yang couldn’t help laughing, the level of the mad knife was level 18, and the thieves at level 13 could see each other’s phantom across 15 yards.

“There is a man called Yuxue Bawang here at the Bloodlust League headquarters who brought 200 players and just came to the Devil’s Cave and was hiding inside the cave.” Twilight Harvester said.

“It doesn’t matter, it’s the same number of people.” Lu Yang said.

“Boss, a total of 700 people attacked you alone, you are so confident!” White Wolf said incredulously.

Lu Yang hadn’t told them that the heart of the demon **** had risen to level 2 and said: “This is enough to stimulate it. No one except Sun Yu and Cyclone Knives will go to the mountains behind the copy of the Devil’s Cave.”

Devil’s Cave is located at the junction of Devil’s Plain and Devil’s Canyon. 100 yards behind the Devil’s Cave, there is a mountain that cannot be climbed, but it can be climbed with the help of a horse.

“Brother, we’re all here, and I’ll send you.” Lan Yu sent a message.

“I’m in St. Gall, this is over.” Lu Yang said.

“Tell you secretly, Sister Yu Wei wants to thank you in person.” Lan Yu said.

Lu Yang laughed, teleported to a village in the Devil’s Plains, and ran towards the copy of the Devil’s Cave.

Copy doorway.

Zheng Yuan said with a look of surprise: “Is Lu Yang really coming?”

Xia Yuwei frowned and said, “Zheng Yuan, this time you converge, don’t make a fool.”

“How come, I must apologize to Lu Yang and admit his mistakes this time.” Zheng Yuan said with a smile.

Privately, Zheng Yuan sent the message to Bloodthirsty Bully.

Bloodthirsty Headquarters.

“Well, Lu Yang really went to the Devil’s Cave.” The bloodthirsty Batian got up with a smile and said, “This time I want you to completely disappear from this game.”

“Night Lone Star is in a team.”

“Bloodbath is the whole team.”

As soon as the bloodthirsty people moved, Lu Yang received the news of the mad knife and the twilight reaper.

Not long after, Lu Yang came near the copy of the Devil’s Cave and saw Xia Yuwei, Lan Yu and others standing under the assembly stone.

“Brother, we are here ~ www.mtlnovel.com ~ Lan Yu happily waved to Landing Yang.

Xia Yuwei also rushed to Lu Yang and waved his hand. A thousand smiles appeared on the face of the millennium ice, saying, “Lu Yang, thank you for coming to help us.”

Lu Yang smiled and said, “You’re welcome.”

Zheng Yuan’s face showed a hint of coldness, and he came to Lu Yang with a big smile, and said humbly, “Master, I’m really sorry before, please adults don’t remember the villains.”

Lu Yang looked at Zheng Yuan and sneered.

Zhang Zibo and Xia Yuwei and others thought that a person like Lu Yang would not have general knowledge with Zheng Yuan, but did not expect that Lu Yang did not accept Zheng Yuan's apology, and the scene suddenly became awkward.

"Master, let's have an advanced copy." Zhang Zibo said in a round field.

"It's not that easy to get a copy." A sneer came out of the Devil's Cave, and in a blink of an eye, Yuba Xia and his 200 men ran out of the cave with a cheetah halo and set off the battle formation.

"Blood Alliance!" Xia Yuwei's face suddenly changed, and she said, "Why would you meet people here?"

Lu Yang came to Xia Yuwei's side and whispered, "If I tell you it's Zheng Yuan Gaomi, do you believe it?"

"Impossible." Xia Yuwei shook her head resolutely. With Zheng Yuan's family background, he never believed that Zheng Yuan would do such a thing.

"Then how about we bet, if I win, you dissolve the guild and merge into the guild I will establish as a studio." Lu Yang said.

Xia Yuwei gritted her teeth and looked at the back of Zheng Yuan who was not far away, and said, "If you say yes, I will not have a face to open a union again, so I will bring people into your guild, but you lose?"

"If I lose, I will join your studio and work for you for three years." Lu Yang said.

"It's all about."

Chapter 180 - Meteor's Wrath

"Lu Yang, we can't think of it, we meet again." Yuxue Bawang said proudly standing 60 yards away from Lu Yang.

Lu Luyang said indifferently: "Only 200 people, are you here to die?"

The bloodbath of the bath yelled at Landing Yang and said, "Don't be mad, my formation is so loose, it is useless to have a curse, and today I must kill you at level 0, so that you cannot get out of the safe zone."

"What's the **** with him, kill him directly and you're done." A handsome warrior beside Yuxue Ba said.

"It's the eldest in the Bloody Gard, Qu Han." Xia Yuwei's face was cold.

If Ye Guxing is the commander of the Bloodthirsty Army, Qu Han is the head of the Guardian Corps.

Yu Quhan became famous in the Sanren Gorge battle, defeating 30,000 Sanren members in the First World War.

"Did Qu Han bring the Bloody Guard behind him?" Zhang Zibo said in horror.

Luyang showed a sneer in the corner of his mouth. He didn't think that Bloodthirsty Batian would use Quhan as a bait in order to let him release the meteor drop in advance.

"Qu Han, when you become famous, I would advise you to be a hero to people like Xiong Ba and Chi Du, and you will be able to win one's fame. Even ten years later, when people mention you Qu Han, they will praise you as a hero and give People like bloodthirsty bully are in charge, and in the future people will only call you a stupid dog." Lu Yang said coldly.

"You look for death." Qu Hanjun Lang's face showed an unstoppable rage.

"What's the **** with him?" The Yuba Yuba took a purple scroll in his hands and crushed the seal on it.

A purple light flashed across the audience instantly.

System prompt: Yuba Xiawang launches the banned scroll. All players within 3000 yards are prohibited from using the city scroll.

“They are here to completely kill Lu Yang brother, we can not let them do it.” Lan Yu said in a panic.

“Everyone listened to my order. Today, this incident was caused by my Frozen Studio. We would rather be beaten back to level 0 than let Lu Yang die. Everyone comes to me to protect Lu Yang’s retreat.” Xia Yuwei shouted Road.

The 19 people who came with Xia Yuwei immediately gathered around Lu Yang, including Zheng Yuan, who stood on the side of Lu Yang.

“Master, you quickly use the curse, we help you hold time, only curse can let us escape.” Zheng Yuan said.

Xi Xia Yuwei’s eyes lightened and she said, “We protect you and we will surely keep you until the curse is released.”

Lu Luyang said, “Okay.”

“Bloodbath King, you are looking for death, then don’t blame me for being rude.” Lu Yang raised his staff and said a spell in his mouth.

“The Great God of Fire ...”

A contemptuous smile appeared on the face of the bloodbath king, and the 200 people behind him pressed forward steadily.

Time passed little by little, just as Lu Yang read the seventh second, Yuxuebawang sang.

“Zheng Yuan, don’t do anything yet, what are you thinking about?”

If Xia Yuwei and Lan Yu were struck by lightning, they looked at Zheng Yuan in stun at the same time, and Zheng Yuan’s face was showing a faint smile, holding out a scroll and pointing at Lu Yang.

“Go to death, Lu Yang, counter spells.” The scroll in Zheng Yuan’s hands turned into a streamer. In the middle of Lu Yang’s body, Xia Yuwei and others couldn’t stop it.

“Zheng Yuan, what are you doing?” Xia Yuwei’s face was extremely angry for the first time.

“Yu Wei, don’t worry, kill Lu Yang, we will be protected by the Bloodlust League in the future.” Zheng Yuanzhang laughed wildly.

“Zheng Yuan, you’re so disappointed.” Xia Yuwei’s face looked desperate.

“Brother, I’m sorry, I killed you.” Lan Yu’s helpless expression appeared for the first time.

“The bloodthirsty soldiers heard the order, the boss said, who took Lu Yang’s first kill rewarded 30,000 credit points, kill.” 55 yards away, 200 bloodthirsty soldiers rushed towards the landing Yang like a tide.

“Lu Yang, I’m sorry for you. Hurry up, I’ll help you.” Xia Yuwei stopped in front of Lu Yang.

“Master brother hurry up.” Zhang Zibo also stopped in front of Lu Yang, with a determined expression on his face.

Everyone knows that if Lu Yang is entangled by bloodthirsty men, under the ban of 2 scrolls, Lu Yang will be killed back to level 0 and he will never get out of the safe zone.

“What are you doing?” Lu Yang said with a smile.

“Hurry up, why don’t you go.” Xia Yuwei said anxiously.

“He can’t run anymore, Lu Yang, you have to sacrifice it for the sake of Yu Wei and Lan Yu’s future.” Zheng Yuan stunned Lu Yang’s spell countermeasure, and could not release the fire spell within a short time. proud.

“Is it?” Lu Yang watched the Yuxue Ba’s man run to 50 yards, and suddenly he heard a spell, and a huge flame appeared in his hand.

“Pyroblast”

Lu Yang pointed Zheng Yuan with a staff.

A loud noise of “”, Zheng Yuan was beaten back by Lu Yang 3 meters away, and fell to the ground and died.

“You can still use flames?” Xia Yuwei and Lan Yu and others asked together in surprise.

Lu Lu smiled again, and the curse in his mouth reappeared.

The bloodbath of the Yuba bloodbath changed greatly, watching the distance of 30 yards, and gritted his teeth and shouted, “Brothers, rush.”

200 When the 200 people of the Bloodthirsty League charged, in order to grab the first kill, they all concentrated in the direction of Lu Yang, so these 200 people were almost within a 20-yard circle.

Now it’s too late to disperse, Yuba Xiawang sent a message to Ye Guxing and said, “Get ready.”

After 5 seconds, the 200 members of the Bloodlust Alliance are about to run within 30 yards. The warrior player is ready to charge. At this time, in the sky, the clouds swell out and then break open. A hole the size of a house.

“Meteor falls.”

A gigantic ball of fire dazzled with a long tail of fire, sending a buzzing burst of air in the air and smashing in the direction of the Bloodlust Alliance player.

“Not good, it’s a curse.” I don’t know who shouted, and the 200 players from the Bloodlust League were stunned, and they were too late when they wanted to run away.

The huge fireball of the house is exactly in the center of 200 bloodthirsty players, and a ball of crimson red light erupts from the center area.
