

Wild Fire 21

Chapter 21 - Late friendship

Just on the line, Lu Yang's mailbox constantly issued a beep, opened it, and found out that it was from the old man.

"Brother, can you do me a favor, I haven't got all the materials you want, but I'll get a copy here. Can you give me the shield in advance?"

Lu Yang was happy. I didn't expect that the old man would put down his body and ask him for help. This is the chairman of the 30,000 unions. In the future, he will become a well-known national war commander and will ask for himself.

"Is something wrong?" Lu Yang returned a message.

In the copy, the old man in the twilight fell for the third time in front of the boss in the first level. The vice chairman Lie Qingfeng said: "Boss, we can't fight this way. There is no good shield. This MT can't carry it . "

MT refers to the shield battle or the shield knight, the player who is mainly anti-strange when playing the copy.

The old man said, "I know, but Lu Yang is not online. I can't buy it. What happened to Xiong Ba, and where did they hit?"

Liquor Breeze said: "The second boss has been hit."

“Fuck.” The old man could not help but cursed, “No wonder the grandson didn’t grab the shield from me in the morning, it turned out he had hit it.”

“Boss, we can’t let the tyrants pass the first copy first. This achievement will be announced in the entire game, and it will have a great impact on recruiting players in the future.”

“I know.” Late twilight was also anxious, but he couldn’t help it. Now the major unions are rushing for this first achievement. As long as a shield comes out, no one can wait until late twilight to find it. People can buy Lu Yang It was his luck.

While he was worried, Chi Mu received the news that Lu Yang sent back.

“Brother, you can go online.” Chi Mu said excitedly.

“What’s wrong,” Lu Yang asked.

“Don’t mention it.” Late twilight quickly said what happened to his next copy.

“Who knows that the copy of” Second World “is so difficult, an ordinary level 3 copy, our 20 most elite players can’t even beat the first boss, what do you say it is.” The old man said.

Lu Yang did not feel surprised. In order to prevent players from upgrading quickly and to reduce the depreciation time of the equipment, on the one hand, the production of the equipment was restricted, and on the other hand, the difficulty of the copy was increased. An ordinary level 3 copy not only required The cooperation of 20 players requires a certain equipment foundation, especially the main MT, which cannot be defeated without equipment.

“I can give you the shield first, and you can have someone come to the door of the 7th Hotel in Dongcheng District. I’ll wait for you here.” Lu Yang said, he believed that the old man would not hack his equipment.

Chi Mu was also worried that Lu Yang did not agree, and he had been worried about not to mortgage the money. He felt that Lu Yang was not a person who really cared about money. If he told him with

money, Lu Yang must not agree, but he was afraid His empty mouth and white teeth made Lu Yang disagree. He didn't expect to believe his character so much, so he agreed with any mortgage.

"Brother, thank you for helping me this time. Brother, I owe you a favor. If I use the brother's place in the future, I will do my utmost to help." The old man said.

This is what Lu Yang wanted, saying, "Okay, I have written it down."

"Then wait for me, I'll send someone here." After the old man sent his message, the old man turned to the vice chairman Lie Qingfeng and said, "Go to the No. 7 Hotel in Dongcheng District, Lu Yang is online, he promised Give us the shield first. "

"It's great, I'll go." Liquor Qingfeng took out the city roll and flew back to the main city.

The roll back to the city is a rare item. The system does not sell it, but only occasionally explodes on the mobs. The location to return to the city is not set by the player, but the system defaults to the square of the birth point.

From the square to the No. 7 Hotel in Dongcheng District, it was only 2 minutes. After a short while, Lu Yang saw a young man running over. He remembered that this person was the player who was behind him in the morning.

"Master, here I am," shouted Liquor Qingfeng.

Lu Yang beckoned and waited for the other party to come forward and said, "You're the spirit breeze."

"It's me, the late boss sent me."

Liquor Qingfeng sent a transaction application while talking, and Lu Yang saw that the other party's name was correct, and placed the dragon battle shield on it.

Liquor Qingfeng saw that the attributes of the young dragon's battle shield were straight, and hurriedly ordered the transaction. He said, "Thank you so much for you. With this shield, we have hope for the copy."

Lu Yang smiled and said, "I wish you success."

"Thank you for your good words." Liquor Qingfeng hurriedly returned to the copy, and left after two words.

After Lu Yang sent away the spirits and breeze, he entered the code of the helmet he bought for Xiao Liang in the search field of the game friend.

This helmet code was originally designed by game companies for the convenience of players to find each other. I did not expect that many players would enter the code to communicate with each other in order to meet new friends. This function has become a new dating software.

After entering the code "0019852476", Lu Yang saw a name called a black armored warrior.

"This kid, it really is the name." Lu Yang said with a smile, Xiao Liang had such a name in his last life.

At this point ~ www.mtlnovel.com ~ Xiao Liang has rushed outside the main city and joined the army of looting monsters. After the first day of the game, the number of players in the level 1 monster area has not only decreased, but has increased again a lot of.

As a "spirited" youth, Xiao Liang fantasized about the future scene of this game in the game when he heard that this game was about to be released. He had secretly vowed that if there is a game helmet, he must work hard to upgrade, If he has a gaming helmet, he must become a goldsmith.

However, now looking at the first-level monster area on the big map, there are four people standing almost every square meter on the turquoise grass. I just brushed out a monster, and there can be six or seven wooden swords around at the same time. Grabbing a monster is not only a matter of speed and luck. You wo n't be able to hit it when you 're away, and you wo n't be able to hit it when you 're slow. You need to kill hundreds of such monsters if you want to advance to the next level. Depressed look.

“How so difficult.” Xiao Liang opened the ranking list in depression. When he saw that the first player named Lu Yang had reached level 4, he sighed again.

“Well, I don’t know how this person got promoted, strangely, how did this person have the same name as my boss?” Xiao Liang said.

At this moment, a friend applied to appear, and this person’s name was Lu Yang.

Xiao Liang looked at the names of the two, and found that they were exactly the same. He quickly confirmed and said, “Boss, is that the first in the ranking list?”

Lu Yang said with a smile: “Of course.”

Chapter 22 - Be followed

“Boss, how did you rush up.” Xiao Liang asked excitedly, how he never expected that Lu Yang would become the first place in the “Second World” ranking list, which was completely unthinkable to him.

“I naturally have my way. Where are you now?” Lu Yang asked.

“I’m in the level 1 wild monster area of the Huayu Plain. There are too many people robbing here, and there are so many guilds to reserve and level up.” Xiao Liang said with some depression.

Lu Yang knew this and said, “You wait for me at the gate of the city, and I will take you to upgrade.”

Xiao Liang just agreed, but when he thought that Lu Yang was all 4th level, he was only 1st level. If he brought himself, he would delay the upgrade and be passed by others. After thinking about it, Xiao Liang sent a message to Lu Yang.

“Boss doesn’t need you to take me. I can do it alone. You can upgrade and don’t let anyone pass.”

Lu Yang covered his forehead for a while and was speechless. I don’t need to guess that Xiao Liang’s “failure” has been committed again. He said, “Come here quickly and take you without delaying me to upgrade.”

Lu Yang thought about it when he was looking for Xiao Liang. Although he couldn’t help Xiao Liang too much in the early stage, it was still possible to take him to upgrade and do some tasks without delay.

“Ah ... oh.” Xiao Liang heard Lu Yang’s tone and said immediately, “I’ll be here.”

“This kid,” Lu Yang said.

Just after he finished speaking, Lu Yang’s eyes became fierce, his head didn’t move, his eyes looked at the right side, and a vague ghost was gradually seen by him, it was a stealthy thief.

Lu Yang was not sure if the thief was looking for trouble. He deliberately took the thief around the road, but he found that the thief was still behind him. He understood that the thief had come to trouble him.

“A thief at level 1 dares to hide in front of me at level 4, which is a joke.” Lu Yang was too lazy to take care of this person. With his current strength, less than 20 people in the current level don’t want to put pressure on him and turned around. Lu Yang walked towards the gate of the city.

Murder, not in the city!

On the other side, Xiao Liang had already run to the gate and sat down on the bridge beside the moat. The place where he hit the monsters was near the gate, so he came quickly.

At this moment, players wearing novice clothes kept running from the city gate to upgrade outside the city. The simple novice clothes were a set of ordinary white cloths, and the female players were a set of pink skirts, which looked very monotonous.

As Xiao Liang looked around the city, suddenly a player wearing a blue cloak holding a sandalwood-colored long-spiral staff in his hand appeared at the gate of the city.

Players around were attracted by this person's equipment, and could not help paying attention to him.

"Wow, this guy is well equipped."

"It feels like a set of bronze gear."

"I feel that his weapon is silver. The head of this weapon is actually spiral. It is too arrogant."

...

Xiao Liang also looked enviously at the person who came over, but didn't wait for him to think about it. A message was sent from the mailbox in the lower right corner, and it was opened by Lu Yang.

"I arrived at the gate of the city, where are you? It is me who holds the spiral-shaped staff in my hand."

Xiao Liang couldn't help but scratched his head in shock. The person he envied was his boss. Looking at the other party running closer, Xiao Liang quickly raised his hand and waved, shouting, "Boss, I am here."

The players around him instantly focused on Xiao Liang's body. This attention-grabbing feeling made Xiao Liang very enjoyable.

Lu Yang recognized Xiao Liang long ago. The character Xiao Xiao chose was exactly the same as his previous life. He only sent a message to find a reasonable explanation.

When he came to Xiao Liang, Lu Yang looked at Xiao Liang's envious eyes and asked, "How about, the boss is well equipped."

Xiao Liang nodded and asked, "Boss, what level of weapon are you and looks so handsome."

Lu Yang sent the attribute picture of the Flamer's Staff to Xiao Liang.

Flamer's Staff (Gold)

Attack 4-8

Constitution +2

Intelligence +10

+24 Spell Damage

Spell critical strike chance +12

Spell Hit Chance +12

Use level 5

"Gold?" Xiao Liang looked silly. Although he only entered the game for less than an hour, but before he saw the relevant strategies and insights from the game, he could clearly feel the equipment of this game. Very difficult to obtain.

So many people on the World Channel shouted for a bronze-grade weapon, but very few people sold it, even if the starting price is 500 credit points, but look at Lu Yang's weapon, it is actually gold-grade.

Xiao Liang couldn't help asking: "Boss, where did you get it?"

Lu Yang did not answer, but asked: "I want a set of soldiers of the same level."

Xiao Liang's original envious look shrank, shook his head, and said, "This level of equipment is too expensive. I can't afford it."

Lu Yang shook his head, grabbed Xiao Liang's shoulders, and said, "Lord Boss, I'll help you get a set of equipment of the same level soon."

Xiao Liang nodded strongly. He had believed in Lu Yang since he was young, and Lu Yang had never lied to him, and never promised.

"Boss, where are we going now?"

"Just follow me." Lu Yang pretended to look at the gate of the city while talking, just to see a thief ran over desperately, this person is not someone else, it was the thief who was hiding next to him.

"It really follows me." Lu Yang said secretly.

The thief saw Lu Yang looking at the city gate and rushed to use stealth ~ www.mtlnovel.com ~ At the same time, he turned around and hid in the corner of the city gate, sending a message saying: "Black blood boss, I have tracked that person, he has arrived What is the gate? "

In Level 2 monster area of Giant Town, the black blood that has already become a red name strangles a player who is unwilling to be booked. After seeing this news, a smirk smiles on his face and says, "You are good, I'll call the Golden Eagle to kill him. "

That's right, the person who has been following Lu Yang is the man of Hei Xue. When he bought equipment in the morning, Hei Xu thought he was humiliated by Lu anode, so he wanted to be ashamed before he heard that Lu Yang had been a giant. The upgrade outside the town, on the one hand, arranged for people to watch outside the hotel where Lu Yang lived, and on the one hand, took the union's 3,000 players to level up in the giant town outsourcing field.

However, he did not expect that Lu Yang did not return to Giant Town, but instead went to Huayu Plain. He murdered outside the Giant Town and became a big red name. He could not return to the city. He could only let his hands stay on Huayu Plain to do this. Thing.

Lu Yang was not walking fast with Xiao Liang. The two seemed to be walking. They passed the Level 3 monster area with a smile. When they were about to enter the Level 4 monster area, Lu Yang stopped.

“Boss, why don’t we leave? Are we going to upgrade here?” Xiao Liang asked.

Lu Yang shook his head and said, “No, no, this is not for upgrading, but for the convenience of killing.”

While talking, Lu Yang suddenly turned back and used the skill-flame shock, on the air not far behind him.

Chapter 23 - 1 kill 5

With a sound of “嘭~!”, The air exploded inexplicably, and a player’s eyes were horrified in the fire, and the original shape was revealed from the air.

“-135” (vertigo for two seconds)

Xiao Liang just asked Lu Yang what he was doing. After seeing a player appearing behind him, he shouted subconsciously, “It’s a thief.”

The thief was snoozed by Lu Yang and asked in horror: “How do you know I’m behind you?”

Lu Yang sneered and said, "Because your level is too low, I'm all 4th grade. You follow me with a 1st level trumpet, can I not see you?"

"What?" The thief suddenly felt like a fool. He thought that Lu Yang had never found him. It turned out that others had been playing him as a monkey. Under the shame, the thief said angrily: "Don't think I am very powerful at high levels. I am not here to kill you, but to follow you. "

Lu Yang asked, "Say, who asked you to come."

The thief said arrogantly: "My boss is black and blood, and you dare to offend even him. He has sent Elite and will see how you die in a while."

"I don't know how I died, but I know how you died." Lu Yang ignited fireball in his hand and flew past the thief.

The thief's total blood is only 160 points. After being hit by 135 points with flame shock, 25 points are left. In the face of a mage and a soldier, he has no ability to evade and simply no longer resists. This makes Lu Yang relaxed. Give back to the city.

System prompt: You killed someone!

Xiao Liang asked anxiously: "Boss, what shall we do now?"

The name of Black Blood has given Xiao Liang some guidance, and the level 1 strange zone on the side of Huayu Plain is the level of Black Blood.

Lu Yang said indifferently: "Don't worry, you hide to see how the boss killed them."

"Boss, you have to fight against someone sent by the Black Blood alone." Xiao Liang asked incredulously.

Lu Yang said: "It's not confrontation, it's killing."

At this level, players' strength is generally not high, and only two days into the game are newbies. Even the elite equipment of the black blood can not be better than Lu Yang, let alone Lu Yang has more than ten more than them Years of technology, but also understand the simplified spell of fire.

...

On the other side, about 500 yards from Lu Yang, five figures approached quickly from a distance.

The headed warrior was wearing a black battle armor, holding a knife in his right hand, but carrying a green bead in his left hand. Next to him was a hunter wearing a leather armor. At this time, a swift aura was opened, increasing the movement speed of all personnel by 10%. The other three members of the team were mages, priests and thieves.

"Everyone is careful. The hunting dog responsible for the tail was found to be killed by him. That person has some strength," said the soldier Golden Eagle.

"What?" The thief in the team scolded. "This man is the boss asking us to kill, but don't **** let him run away."

At a glance during the talk, he saw Lu Yang standing in the open space on the grassland in the distance, and his face suddenly showed a sloppy expression, shouting: "The man is in front, we are catching up with him."

The soldier Golden Eagle was originally worried that the man ran away and they were scolded by the boss, but they did not expect that they would catch up.

"Let's go together, don't let him run away." Golden Eagle said excitedly.

"Rest assured, he can't run." The Rogue Parade suddenly opened its acceleration skills-sprinting, and the patrol, which increased its movement speed by 30%, rushed towards the landing sun.

The priest in the team frowned and said, "Be careful, you are also a red name. I can't add blood to you if you are too far away."

"It takes extra blood to kill him? See how I abuse him." The thief patrol is very confident in his technology. In the whole Yongle Paradise, his thief's technique is ranked first.

In fact, each of the five people who came this time is the absolute elite of the black blood. If you are singled out, everyone in the union is a master of one side.

"Tangle him, we'll be there later," said the mage of the same team.

"Then you can hurry up." In speaking, the cruising wind had run to the distance of 30 yards in front of Lu Yang, took out the crossbow from the back, volleyed, and shot an arrow at the landing sun.

"Let's see where you are going," Cruiser said sarcastically.

"Look for death." Lu Yang's hands suddenly appeared a huge fire group that was twice as bright as the fireball burning, and Lu Yang hit it in the wind.

Pyroblast

Type: Fire Spell

Cost: 30 mana

Cast time: 5 seconds

Distance: 35 yards

Description: Fires a glowing fireball at the target, inflicting 36–42 Fire damage to the target with a knockback effect.

The patrol was in midair at this time, and he never thought that Lu Yang would suddenly throw Pyroblast at this time.

“Hello ~!”

“-144”

The cruiser was directly killed on the ground. Quan Min’s Level 2 thief had only 100 points of blood. Before he died, he didn’t want to understand how Lu Yang instantly released the blasting technique that took 5 seconds to sing.

Where did he know that Lu Yang, who had unlocked the free mode, knew how to simplify the spell. Pyroblast was the main output skill of later fire mages. The cast time studied by the fire gods was only 0.7 seconds, so Lu Yang released Like instantaneous.

Immediately afterwards, soldiers such as Jin Diao and Mage were stunned by Lu Yang’s injuries.

“He actually patrols the wind for a second, how much he hurts.” The mage asked.

“I don’t know, and I feel he didn’t count down when using Pyroblast just now.” The hunter asked.

“Don’t he have the ability to set his mind?” The priest asked.

Qi is fixed for instant spells, but has a 2 minute cooldown.

The Golden Eagle said, “No matter what, let’s second him first, everyone will join me and pay attention to the formation.”

“Um.” The mage and others put down their contempt, and each one showed a serious expression.

When the four were close to Lu Yang 50 yards, the hunter and mage ran laterally from behind the soldier, and the priest's position remained behind the soldier. The four surrounded Lu Yang in a fan shape.

"I'll go first." The Golden Eagle came to a distance of 30 yards and suddenly charged Lu Yang with skills.

Charge is the first control skill of a soldier's PK. It can not only rush over 30 yards to the opponent in just 1 second, but also stun the opponent for 1 second.

As long as Lu Yang was stunned for 1 second, the subsequent output of the three hunters, mages and soldiers could kill him. Facing this situation, Lu Yang was not at all confused, just before the golden sculpture was about to hit Lu At the moment of Yang's body, a golden yellow halo burst out suddenly in Lu Yang's body.

Fire Ring

Type: Fire Spell

Cost: 10 mana

Cast time: Instant

Distance: 5 yards

Description: Release a powerful thrust to the surroundings and infer the enemy in front of him. The higher the level difference, the longer the distance pushed.

With a bang, the gold sculpture that rushed to the front of Lu Yang was suddenly resisted by the fire ring and collapsed backwards by more than ten steps.

Neither the mage nor the hunter on either side expected that the Golden Eagle would fail to charge. At this time, the mage was singing the Frostbolt. If he was hit by the Frostbolt, Lu Yang's movement speed would be reduced by 30%. However, how could Lu Yang be able to let the mage use his skills.

After the fighter crashed, Lu Yang countered with a skill spell backhand.

Spell Countermeasure

Type: General Spell

Cost: 10 mana

Cast time: Instant

Distance: 35 yards

Description: Counterspells being used by the target, preventing it from releasing any spells in the system for 12 seconds.

A flash of light flashed, and Lu Yang successfully countered the ice spell of the mage. At this time, the hunter's bow and arrow arrived, and the poison arrow with the python's spine appeared in front of Lu Yang. Next, a flash of Lu Yang appeared 3 yards away from the hunter.

The bow and arrow held by the hunter was automatically forced to be replaced by the system, and the long-arm weapon stick was picked up instead.

"This, what's going on, why can't I use a bow and arrow." The hunter was stunned.

The warrior Jin Diao shouted, "Rewind, he is in the blind zone of your bow and arrow. You can use the bow and arrow by going back a yard."

The hunter also knew about the blind spot of the bow and arrow, but Lu Yang's sudden attack made him a mess. He immediately stepped back after hearing the words, but the hunter stepped back, Lu Yang stepped forward, the hunter stepped back, and Lu Yang took two steps by step, the hunter took a step forward angrily and wanted to hit Lu Yang with a weapon. Lu Yang stepped back again, always in the blind spot of the hunter's weapon.

Seeing this situation, the sweat on the hunter's head has come down. After playing the game for so many years, he was forced to be in such an awkward position for the first time.

"Don't worry, I'll help you." After the soldier stood firm, he used the skills to intercept the landing sun.

Interception is the second control skill of the soldier. It has the same effect as the charge, but the Golden Eagle just started the interception before rushing to Lu Yang. Lu Yang chanted Pyroblast again. After 0.7 seconds, a Pyroblast accurately hit the soldier.

With a bang, the Golden Eagle leaned back involuntarily, the interception was interrupted, and a "-147" appeared on the head.

"Just add blood to me," the soldier shouted.

The priest immediately chanted a spell-recovery, but the recovery chanting time was 3 seconds. Before the priest's chanting was over, Lu Yang's second inflammation burst arrived.

With a bang, the soldier's golden sculpture was killed in place, and the green beads fell to the ground. At this time, the priest's singing was halfway through.

"Here, how can this mage's Pyroblast be instant." The priest asked excitedly.

"It wasn't instantaneous. I saw him counting down, and the mage quickly countered him." The hunter was closest to Lu Yang and could see clearly Lu Yang's casting method.

However, seeing clearly and being able to counteract are two different things. With a casting speed of only 0.7 seconds, it is difficult for the top mage to master this time. Seeing that Lu Yang has another

Pyroblast to turn the priest into empty blood, he can only rely on the general helplessness. Spell countermeasures against Lu Yang.

The result is naturally self-evident ~ www.mtlnovel.com ~ Counter-attack failed!

The priest saw this situation, and left his companion in horror and ran away, but how did Lu Yang let the **** priest run away and saw that the flame shock had cooled down and aimed at the priest's back to release the spell.

“Beep”.

“-135”

The priest was killed directly on the ground.

At this point, the rest of the scene was a mage and a hunter. Lu Yang became more and more excited. After his rebirth came back, this was his first PK. In order to show the operation, Lu Yang continued to get stuck within 3 yards of the hunter. He no longer uses spell countermeasures to limit the output of the opposite mage, and uses Pyroblast and the opposite mage to be rigid.

Unfortunately, Lu Yang only required 0.7 seconds to cast Pyroblast, while the opposing mage used the Frostbolt to take 2.5 seconds. Before the Frostbolt read out, Lu Yang hit a Pyroblast on the mage.

“-142”

The 2nd-level mage Quanmo added 96 points to life and was directly killed by Lu Yang.

Lu Yang looked back at the hunter and said, “You’re alone.”

The hunter was so frightened that he was scared in the face of Lu Yang’s violent rage, and he did not dare to confront Lu Yang at all. He turned around and ran back, but unfortunately, he did not take two steps, and two explosions hit him.

After the two tweets, the hunter died on the ground.

One pick five, Lu Yang wins!

Chapter 24 - Pick treasure

Xiao Liang was already looking silly on the side, and came closer and said, "Boss, you are just too good. You can win by picking 5 and even losing 1 point of blood."

"Just a bunch of garbage, I kill them just like playing." Lu Yang said.

"But, boss, how do you release your spells differently from others? I think other wizards use fireball for 3 seconds, and their fireball is not as good as yours." Xiao Liang asked.

"It's okay to tell you, but you need to keep it secret." Lu Yang said: "The skill I just released that is bigger than fireball is called Pyroblast, and the damage is 50% higher than fireball, but this skill is normal. The casting time is 5 seconds. Generally speaking, no mage uses this skill in fighting monsters and team battles, but the boss is special to me. When I first entered the game, I had some opportunities to learn to simplify the spell. Others released it in 5 seconds. I It only took 0.7 seconds to release. "

"Ah ~~~" Xiao Liang's eyes widened in surprise, "such a short time."

Xiao Liang can understand the meaning of this no longer playing games. This is equivalent to the time when others release a Pyroblast, Lu Yang has released 7, which means that Lu Yang alone is equal to the output of 7 people.

“Well, is there any interest in changing to the mage profession, boss I will teach you to simplify the spell.” Lu Yang asked with a smile.

Xiao Liang’s eyes looked a little longing, but soon he became tenacious, “No, I want to play warriors.”

Xiao Liang chose soldiers because he wanted to fight in front of Lu Yang. Whoever wanted to fight Lu Yang had to pass his level first, but Xiao Liang couldn’t say it, so he had to do it.

Lu Yang did not force Xiao Liang. Playing games still depends on personal preferences. Some people naturally like to play mages. Like Lu Yang, some people like to play warriors by nature.

“Yes, as you like, if you want to be a mage someday, the boss will definitely not hesitate to teach you all the simplified spells of fire.” Lu Yang said.

“Um.” Xiao Liang nodded.

“Go and look at the equipment and see what equipment these people burst out of.” Lu Yang asked.

The five people including the Golden Eagle are all big red names. According to the rules of the system, the red name players die, everything in the backpack is blown out, and the equipment on them has a great chance to drop.

Xiao Liang came to the place where the five died, and said, “Boss, they have a lot of good things on them.”

The ground was covered with potions and gears shining in bronze.

Lu Yang walked over and looked at him and said, “The black-blooded Yongle Paradise really is a bastard. The equipment on these five people must be how many players can kill to explode.”

Black Blood pursues a war-fighting strategy. Starting at level 0, he takes his men to kill and plunder any items on the player in exchange for money. Although this method is a bastard, it has attracted a large

number of players who like PK to join Black Blood. The gang, the black blood's growing power also relies on these players. Although these players later found that the black blood's character could not retreat from the club, but that was the last word.

When Xiao Liang picked up the equipment one by one, when he came to the soldier's golden sculpture, Xiao Liang saw a green light bead. After picking it up, he asked Lu Yang curiously: "Boss, this bead is strange. What is it for? "

Lu Yang looked up, his eyes suddenly widened, and said, "How is it possible that snake venom beads, how could they explode to this level?"

"Snake venom? What is that?" Xiao Liang didn't understand. In the game's official settings, special items were not introduced, and all functions depended on players to explore by themselves.

Lu Yang said excitedly: "Brother, this is a baby."

If there is anything that can enter Lu Yang's eyes in the early days, the arsoner's staff counts as one and the demon's heart counts as one, except for these two, which counts the snake venom beads held by Xiao Liang.

"No wonder the black-blooded group could rise quickly in their last lives. It turned out that they hit this baby so early." Lu Yang muttered to himself.

"Last life, what old life?" Xiao Liang asked unknown.

"Nothing." Lu Yang said to Xiao Liang: "Brother, you're rich, this snake venom bead is a special treasure that can be upgraded. For the time being, let's not say, let me tell you how powerful his power is now, he can A 10 * 10 range of poisonous mist was released, and the target was attacked by the poisonous mist, losing 10 blood every second for 5 minutes and a cooldown of 2 minutes. "

"Ah, so strong." Xiao Liang asked in surprise.

Lu Yang said, "Yeah, maybe for players, because the player has the ability to add blood, can take medicine and use bandages, and escape the poisonous mist range can also crack this skill, but no wonder, who carries this equipment. , It's tantamount to a quick upgrade artifact. "

"Boss, then can we upgrade quickly?" Xiao Liang said in surprise.

Lu Yang said: "Of course, you hold this snake venom bead, and then replace it with the soldier's bronze set, the boss takes you to upgrade.

Originally, Lu Yang wanted to go to the troll camp to do a special mission, but now that he has a snake venom bead, he decided to take Xiao Liang to the ogre camp first.

Along the Huayu Plain, Lu Yang took Xiao Liang all the way to the northwest of St. Gall. It took more than three hours. After passing through the level 3 to 9 wild area, Lu Yang took Xiao Liang Entered the silent forest.

"Boss, this is a level 10 strange zone." Xiao Liang asked with a trembling voice, and a level 0 rookie who just entered the game actually ran into such a high-level map, and was terrified in his heart.

Lu Yang said with a smile: "Don't worry, we're not here to fight."

Xiao Liang asked dumbly: "Boss, you mean we have to go forward."

Lu Yang Yile said, "Oops, the response is fast."

Xiao Liang looked at the huge body of a 10-level black bear in the distance and couldn't help but swallowed. "Well, this is in line with the boss's style."

Lu Yang laughed and patted Xiao Liang's shoulder and said, "Don't be afraid of these blame, follow me, as long as we find the right method, we won't alarm them."

Although the level 10 black bears are huge ~ www.mtlnovel.com ~, his biggest feature is that they are not very active, especially at night. These black bears habitually stay in some fixed positions and do not go to the main road in the game. .

Lu Yang and Xiao Liang waited until the sun set and the moon was hanging high. At this time, the silent forest at night seemed extremely scary, and bats were constantly passing over the trees, and there were horror calls of owls in the distance. In the depths, each hovered in a fixed position.

“We can go.” Lu Yang said.

“Um.” Xiao Liang also found that the black bear was gone, and said excitedly, “Boss, how do you know the black bear method?”

Lu Yang said with a smile: “There is a game library on the game’s official website, which contains an introduction to this.”

In fact, this method is not found in the game library at all, but by players.

When he entered the game in his last life, it was precisely when major studios were developing in the game. In order to grab high-level medicinal materials, the studio required players to enter the high-level map in advance to collect herbs and work as a high-level medicinal material. The price given by the laboratory is several times that of ordinary medicinal materials. In order to obtain high-level medicinal materials, the studio’s goldsmiths often take risks. After paying a lot of sacrifice, some players in the studio found this method.

Lu Yang ran on the road and couldn’t help but think back to his own experience of that era. It can be said that it was a generation of heroes.

He is also one of thousands of goldsmiths, and he can remember the location of every black bear, every dire wolf, every flower kiss spider, and every herb on the map with his eyes closed.

The two quickly ran through the forest. It took more than 3 hours to reach the end of the forest and to the hilly area.

“Well, this is where we are coming.” Lu Yang stopped and said to Xiao Liang behind him.

At this moment, the sky was twilight, the sun rose from the east, and the scenery in front of it gradually became clear. Xiao Liang looked curiously forward, but when he found the monster he was facing, he couldn't help but swallow. .

“Boss, what a weird thing to do.” Not far from Xiao Liang, a giant creature with a height of one and a half as high as Xiao Liang was slapping the dust on his body.

This giant creature has a lion-like skull and a strong human body, with a green body, a tiger-print sarong around the waist, and a white bone stick in his hand. This stick is thicker than Xiao Liang's thigh alone.

Lu Yang said, “The monster in front of you is called a half-orc, and is a level 15 monster.”

Orcs, the poor race in the ethnography of Second World, are a legacy of the war between orcs and humans, and are currently attached to His Majesty's enemy.

“Boss, how can we fight.” Xiao Liang asked, he had a feeling that it was enough for the half-orc to kill him with one finger.

Lu Yang said: “Don't be afraid of him, believe it or not, I will kill a drop of blood without killing him.”

“Ah?” Xiao Liang's eyes were full of surprise.

“Look at me.” Lu Yang said confidently.

In the past, half-orcs were called melee meat grinders by players. Up to 200 points of damage and good movement speed, as well as high blood and defense power, make warriors and ordinary thieves completely unable to carry half-orcs. A team of players has played with reasonable talent.

However, Lu Yang has his own method. I remember that in the last life, a player posted a video. The five fire methods in the video used Pyroblast to cooperate and use the principle of Pyroblast to repel. Under alternate release, the half-orcs hit to death Did not move a bit.

Although Lu Yang now has only one person, Lu Yang's casting speed is only 0.7 seconds, which is faster than the alternate casting speed of 5 fire spells. When he arrives at a position 30 yards from the half-orc, Lu Yang mobilizes the magical energy in his body. With a spell in his mouth, 0.7 seconds later, a huge fire group emerged from his hand.

"Pyroblast!"

The fire group flew out of Lu Yang's hand, and a "swipe" hit the half-orc's head with precision, and the half-orc took a step backward, and his body almost fell to the ground.

"-135"

"Roar ~!" The half-orc received great damage. After finding Lu Yang in the direction of the fireball, he roared angrily, and rushed towards the landing Yang with a stick in his hand, but just ran a step and the second exploded. The precision hit the head of the half-orc.

"Oh ~!" The orc returned to his place.

"Hello ~!"

The half-orc was even more angry, rushing forward towards the landing sun, but after taking another step, another Pyroblast hit him, and the half-orc returned to its original position.

The half-orc has a simple mind, does not know how to change, and only knows to rush forward. In this way, Lu Yang used super-fast cast speed to kill more than 2000 blood orcs with the explosion of 10 blood. The half-orc didn't step closer to Lu Yang.

System prompt: You have gained 286 experience

"Boss, you are too strong." Xiao Liang admired.

Lu Yang asked with a smile: "How much experience have you gained."

"I get 262 points of experience, which is much faster than upgrading from outside." Xiao Liang said.

Killing level 1 monsters only gives 10 points of experience. One refresh can only kill 1 monster, sometimes it can't be grabbed, and then you have to wait another 15 minutes for brushing, and Lu Yang is killed in less than a minute. A strange, experience and 262 experience, killing one here is equal to killing outside for hours.

Lu Yang was a little dissatisfied. He calculated it. Normally, a level 15 monster gives 280 points of experience. Lu Yang 5 kills 15 monsters and 10 kills monsters. The bonus is 100%, which is 560 points of experience. Xiao Liang's average score was less than 300 points, and Xiao Liang gained little experience.

"The upgrade speed here is still too slow. Follow me and I will take you to find a faster upgrade place." Lu Yang said.

"Ah, faster?" Xiao Liang felt that his imagination was not enough.

Lu Yang said: "Of course, you have snake venom beads, the upgrade speed can be increased at least 5 times, follow me, I will take you to a place."

"Oh." Xiao Liang quickly followed Lu Yang's footsteps.

The half-orc hill is actually a half-orc city. If you look down from the heights, you can clearly see the inner or outer city of the half-orc. There are countless caves in the hills of the outer city. These caves are the half-orcs. A place for daily rest, there are a large number of orcs.

Normally, players are playing monsters in these caves, but among many caves, one cave has a bu * bit.

In the last life, when a god-level thief used his personal skills to leapfrog an orc single-handedly. There was a gap in the back, and he jumped in immediately. After jumping in, the orc couldn't hit him at all. Later, he used the bu * position to easily kill the orc with bows and arrows. He quickly upgraded until he left this place. Announce it.

Lu Yang brought Xiao Liang to the half-orc camp with the purpose of here. He also wanted to use this bug to blame.

The two killed the monsters all the way to the cave entrance. Just entering the cave, three orcs at the entrance found Lu Yang at the same time, waving bone sticks and rushed towards the landing Yang.

"Boss, what to do." Xiao Liang asked nervously, there were a lot of half-orcs in the cave. If the two fled and ran away, it would be easy to attract other half-orcs.

"Stand here. Don't care." Lu Yang said the words quickly, and in the blink of an eye, three Pyroblasts flew to the three half-orcs, and the three half-orcs who had just ran nearly two steps almost simultaneously. He was taken a step back, and immediately after landing Yang continued to chant the spell, and soon killed three half-orcs to the ground.

"Shout, scared me." Xiao Liang exhaled nervously and said, "Boss, there are a lot of orcs here."

Except for the doorway, the promenades on both sides of the cave were almost full of half-orcs.

Lu Yang said, "There are only dozens of them. Go inside, there are hundreds of them."

Chapter 26 - The more level 15 kill monsters

Killing monsters all the way, Lu Yang took Xiao Liang into the cave hall and looked into the wall. The whole cave hall was very wide and flat, and it looked like 2,000 square meters.

There are torches on the circular walls around the hall, and there is a huge fire in the middle of the hall. Hundreds of orcs are scattered throughout the hall.

“Boss, it’s too dense here, how do you fight?” Xiao Liang said worriedly.

In the Second World, the NPC IQ is very high. In such a highly concentrated environment, hitting a monster will at least lead to dozens of them rushing at the same time.

Lu Yang said, “Don’t be afraid, did you see the big rock in the left corner of the hall?”

Xiao Liang nodded, the boulder on the left corner was very obvious.

Lu Yang said, “It’s a bu *. I’ll blame you for a while. When I let you run, you immediately run there and jump behind the stone.”

“Ah, you don’t know, boss.” Xiao Liang asked curiously.

Lu Yang had already figured out the countermeasures for this problem, and said, “Because I am a beta player.”

“Beta player?” Xiao Liang immediately understood, and said excitedly, “No wonder the boss can reach the top of the ranking list.”

Lu Yang nodded “satisfied” and said, “Listen to me for a while. There is only one chance. If you fail, you will be miserable.”

Don’t look at the distance of only a few dozen meters from the big stone. If Xiao Liang runs out of time, he will be killed by the orcs if he runs early or late.

The death penalty for “Second World” is very serious, and there is no resurrection point here in the Orc camp. Once the player dies and wants to come back here, it will take another three hours to travel, which is very troublesome.

“Well, I try my best.” Xiao Liang looked nervously at the big stone.

“Boss, I ran over, what do you do?” Xiao Liang asked suddenly.

“I have my own way.” Lu Yang turned on the free mode, and his life-saving ability was very strong. After observing the movement of each monster, after calculating the distance, Lu Yang patted Xiao Liang’s shoulder to signal that he was ready. .

After Xiao Liang nodded, Lu Yang uttered a spell in his mouth, hitting a half-orc who was exactly 10 yards away from the big stone, and hit the left with a blast.

“Hello ~!”

The half-orc roared towards the landing sun. At the same time, because of his roar, the half-orcs on the left side near the large stone all rushed towards the landing sun. Suddenly, the monster around the left-side large stone was empty. .

After Lu Yang released the spell, he quickly ran into the hall. The half-orc saw Lu Yang changed direction and ran after him.

Lu Yang saw that there was no strange left, and immediately shouted to Xiao Liang: “Run.”

Xiao Liang ran into the hall and ran towards the large rock on the left. If at this time a strange monster was not brought in by Lu Yang, Xiao Liang would surely die, but fortunately, Lu Yang is an old hand. The strange ability is very old, without leaving a strange situation, let Xiao Liang easily run to the big stone.

“Boss, I’m here, come here soon.” Xiao Liang climbed the big rock and shouted on it.

At this time Lu Yang was still running with the hall full of strangers, and he also attracted the hatred of the half-orcs in other parts of the hall.

Orcs move slightly faster than Lu Yang. If they run in the forest, Lu Yang believes that he can throw away the Orcs, but in this flat circular hall, there are strange situations in front, Lu Yang Avoiding the bone sticks swinging from the half-orc in front, it takes a little time. In this way, the half-orcs in the back soon catch up.

Lu Yang watched more and more Orcs around him. However, Lu Yang also attracted the hatred of all Orcs in the hall. When Lu Yang was forced by the Orcs to the right corner of the hall and had nowhere to hide, In front of the dozens of bone sticks that fell around him, Lu Yang knew that he couldn’t run anymore, and he spoke a spell-blinking, and a white light flashed instantly, and the bone sticks fell out.

The half-orc stared at the disappeared Lu Yang confusedly and couldn’t understand why their stick didn’t kill Lu Yang.

Suddenly, there were running footsteps behind him. A half-orc looked back and saw Lu Yang running towards the large stone in the lower left corner of the hall.

“Hello ~!”

The half-orc roared, attracted the attention of his companions, and led the other half-orcs towards Landing Yang. At this time, Lu Yang had no life-saving skills. If he was caught up by these hundreds of half-orcs, he would definitely die.

Fortunately, the flashing distance was 30 yards, and Lu Yang ran as hard as he could face the orcs with a distance of less than 20 yards in front and 30 yards behind him.

After coming to the big stone, Lu Yang leaped forward, Xiao Liang reached out and grabbed Lu Yang's arm, pulled it up, and Lu Yang jumped easily to the stone. At this time, the closest to Lu Yang A monster has just arrived by the stone.

The orc lifted the bone stick in his hand and smashed into the landing sun.

"Jump." Lu Yang hurriedly pulled Xiao Liang into the gap between the stones, which was big enough to accommodate two people.

The orcs did not expect that Lu Yang and Xiao Liang could jump behind the stone. After being shot down, they picked up the bone sticks and darted into the crack of the stone.

The other half-orcs came to the stone and took out bone sticks to smash them into the cracks of the stone ~ www.mtlnovel.com ~ There are plans to choke Lu Yang and Xiao Liang to death.

Lu Yang and Xiao Liang had just entered the gap between the stones, and the bone sticks suddenly came over. Xiao Liang thought it was safe. Seeing the bone sticks came frightening to his place, Lu Yang rushed to pull Xiao Liang. Near the corner of his side, he avoided the fatal blow.

"Huh, it's too dangerous." Xiao Liang patted his chest in fear and said to Lu Yang gratefully, "Boss, thank you."

Lu Yang said: "Be careful, remember in the future, at any time, as long as there is no complete success, do not have any mood of relaxation."

"I remember." Xiao Liang nodded instructed.

Originally, Lu Yang only said this casually, but he did not expect that in the later games, Xiao Liang always remembered the words Landing Yang, and successfully defeated the plot of a certain country in the Hundred Nations War. When the other party asked, Xiao Liang proudly uttered this sentence.

Of course, this is the last word.

Xiao Liang asked: "Boss, what do we do now?"

Lu Yang said, "Of course it's spamming. Take out the snake venom beads. I will tell you how to use it."

"Oh, okay." Xiao Liang quickly took out the snake venom beads.

When Lu Yang saw the effects of snake venom beads in his last life, he had been envious of sleepless nights. Now that Lu Yang finally has snake venom beads, he also has to try it and brush 200 strange monsters at once.

Chapter 27 - The power of snake venom beads

"In the name of Midgard, poisonous mist," Lu Yang said, "this is the spell of the snake venom beads. Let's take a look."

Xiao Liang said "um", raised her arm to point the snake venom bead forward, and repeated it when she learned to land in Yang.

"In the name of Midgard, poisonous mist."

The black and green snake venom suddenly burst into a dazzling green light, and a large amount of pale green poisonous mist floated out of the orb. It automatically dispersed after encountering the stones, and continued to float forward from the upper and lower parts.

The three or four half-orcs blocked in the gap between the stones were attacked by the toxin first. The half-orcs who had originally been dark green were dyed brightly green, but the half-orcs did not respond at all, but concentrated their hatred on Xiao Liang. On his body, he was still desperately using a stick to lure Lu Yang and Xiao Liang into the stone gap.

System prompt: Orc is poisoned

Orc is poisoned

Orc is poisoned

...

Although Xiao Liang couldn't see the range of poisonous fog in the back, he saw countless system prompts on the display panel around him. He simply counted hundreds of orcs.

"Boss, this poisonous mist has such a wide range." Xiao Liang said excitedly.

Lu Yang said: "Of course, the range of 10 * 10, and the damage is still high. Blood drops 10 points per second for 5 minutes."

Xiao Liang said for a moment: "A half-orc has 2,000 points of blood, and one minute is 60 seconds. Then I can kill about 100 half-orcs in 4 minutes."

One half-orc has more than 260 points of experience, and 100 half-orcs have 26,000 points, so much experience is enough for Xiao Liang to rise to level 3.

"It won't take that long to see me." Lu Yang jumped to the top of the stone, raised the arsonist's staff in his hand and uttered a spell, and released the firearm's own spell, the wall of fire.

A 2 * 2 fire wall ignited from the ground in front of the stone. The blazing fire was half a meter high, and the orcs in the fire wall were immediately injured.

Xiao Liang also jumped up and saw the wall of fire released by Lu Yang surprised and said, "Boss, you actually have a range spell."

The range spell was revealed by the media long before the game was opened. In order to restrict players from upgrading, "Second World" specifically set the range spell at level 10 before learning. He did not expect that Lu Yang actually learned it at level 5.

Lu Yang said: "It's not that I learned this spell, it's my weapon that is powerful, this arsonist's staff comes with a level 1 fire wall spell."

While talking, Lu Yang continued to release the fire wall technique, and soon the entire ground became a sea of fire.

Wall of Fire deals 36 points of damage per second. Adding Lu Yang's spell damage bonus to 110 points, in fact Wall of Fire can cause 146 points of damage to monsters per second.

The half-orcs did not flee in the midst of the sea of fire, they just walked angrily around the sea of fire. Unfortunately, they were blocked by the players in front, but they couldn't hit Lu Yang, and the fire wall had a characteristic.

According to the rules of the game, the fire wall damage to players is divided into two types, one is touch damage, as long as it touches the fire wall surgery, even if it is damaged, then stay inside the fire wall, and take damage every second.

Another method of damage is to calculate the damage by touching it multiple times. If the target walks from this fire wall to another fire wall, the damage is calculated separately. This leads to the fact that many orcs on the edge of the two fire walls cannot hit them. Lu Yang, walking back and forth between the two walls of fire, walking once to calculate the damage, and walking once only for 0.5 seconds.

In the end, in less than 20 seconds, without waiting for the wall of fire to end, nearly a hundred orcs in front of them were all killed by the flames of Lu Yang and Xiao Liang's poison.

System prompt: you have gained 282 experience

You have 282 experience

...

A long list of experiences appeared, and Lu Yang's experience bar jumped forward a lot. Xiao Liang even lit two consecutive golden lights, jumping from level 1 to level 3.

“Boss, this experience is too much.” Xiao Liang said in surprise.

Compared with players who are struggling to upgrade in the Level 1 monster area outside, Xiao Liang can't imagine his upgrade speed can be so fast.

“Boss, will I be in the top ten of the rankings at such a fast upgrade speed.” Xiao Liang asked excitedly, and now he is already within the top 10,000 of the rankings.

“This is really possible.” Lu Yang said: “Let's try it out, is there a chance to blast out the big bosses and big bosses in the front.”

“Um.” Xiao Liang was full of energy.

Lu Yang said with a smile: “That's not hurry, the next wave of monsters rushed over.”

There were hundreds of half-orcs in the hall. After the first batch died, the follow-up half-orcs made up immediately.

Watching another batch of half-orcs who slammed into the stone crevices with bone sticks, Xiao Liang, who had experience, was no longer afraid, and after the cooling time of the snake venom beads had reached, he chanted the spell again.

Lu Yang also raised his staff and used the fire wall technique to lay the sea of fire. While Lu Yang was waiting for the experience, a voice came from the voice in the lower right corner. Lu Yang looked at it and found that it was Xiao Lanyu's. He smiled and pressed the ON button.

“Xiao Lanyu, what are you looking for?” Lu Yang asked.

In the face of Lu Yang's voice like his elder brother every time, the little girl was helpless, but she was inexplicably happy.

“Who is young, I have gone to college.” Lan Yu said with a mouthful.

Lu Yang can think of what Lan Yu looks like when he speaks ~ www.mtlnovel.com ~ said: “That’s also a little girl, what’s the matter with me?”

Lan Yu rolled her eyes and said, “Master, have you offended the black blood of Yongle Heaven? That guy is crazy and wants you all over the world.”

Lu Yang Yile asked, “Tell me what you want.”

“The news from Yongle Heaven said that it was because you killed their five elite players, and you also broke the bronze equipment on them. The time for them to make copies was delayed, and the black blood was released in the world. With the wanted order, whoever kills you can get 100 credit points with the video.” Lan Yu said.

Lu Yang was speechless. He didn’t expect black blood to be so naive, and asked, “Did he mention green beads?”

Lan Yu said, “What green beads?”

Lu Yang was a little confused, but he quickly responded. This was the second day after the zone was opened. It is estimated that the black blood and other people accidentally got snake venom beads in their lives. They did not understand how to use it from the beginning. Method.

In this life, Black Blood and others just snatched the snake venom beads before they knew his role. Therefore, Black Blood didn’t know how much he had lost. He was only for the people such as the Golden Eagle and the Parade. Equipped and angry.

Lu Yang said: “Nothing, rest assured, the black blood can’t beat me, and his people are useless.”

The place where he upgraded was a level 15 map, and even if Black Blood turned the entire Huayu Plain over, he could not be found.

Chapter 28 - Orc Warrior

In fact, Black Blood has already done this. The Golden Eagle and Patrol Five are the youngest brothers in Black Blood. When their wolf resurrection went to report to Black Blood, Black Blood learned that the five had lost their equipment. In the reality, Qi directly quit the game. In reality, he beat the five of them and stopped for an afternoon.

The equipment of the five of them was killed by thousands of people who did n't know how many people had collected. As a result, several pieces were dropped. After the black blood hit the people, they went online and issued a wanted order. All players who killed Lu Yang could Use the video to find the union housekeeper in Yongle Paradise to receive 100 credits.

Lan Yu said: "Master, if you need me to help you buy medicine or send something, you can tell me, I promise not to tell others, I will send it to you alone."

Lu Yang was quite touched when he heard this, but he had the heart of the demon god, the arson's staff and the golden electric eel meat. She didn't need her help for the time being.

"Thank you in advance, if there is a need, I will definitely look for you." Lu Yang opened the friends bar, looked at Lan Yu's level, and asked: "You are almost 2nd level and 3rd level."

Lan Yu nodded and said, "It's almost level 3, and there are a lot of whiteboards in the equipment."

"Are you ready for the next level 3 copy?" Lu Yang asked.

A copy is a major feature in Second World. A copy with a minimum of 20 participants is the second way for players to get equipment in the game.

"Yes, all three fighters on our side have a set of defensive equipment. Sister Yu Wei wants to lead a team to try a copy." Lan Yu said.

Lu Yang asked: "How much defense is the soldier?"

“Three fighters are all around 62.” Lan Yu said, this is a standard attribute of whiteboard equipment.

Lu Yang said, “Trust me, don’t go. Your fighters don’t have enough defense power. To die is to die.”

None of the copies in “Second World” are simple. A copy that requires 20 people to cooperate, not to mention how perfect it needs to be, is very demanding in terms of player hardware alone.

If it is Lu Yang’s team leader, the hardware may almost play in the past, it is absolutely impossible to replace Xia Yuwei’s rookie team.

Lan Yu said, “Ah ~, then I’ll rush to talk to Sister Yu Wei, they are talking.”

Lu Yang solemnly said again: “Remember, if the soldiers’ defense is not 71 points, they must not go.”

If it was someone else, Lu Yang would never tell the secret, which is Lan Yu, and Lu Yang couldn’t bear to see her fall.

“Oh, I see.” Lan Yu said.

Inside the rock cave, Xia Yuwei, Zhang Zibo, Zheng Yuan and others are discussing the matter of copying.

“Have you heard that Late Twilight and Hegemon have already developed a copy. If they succeed, they will have the first down copy achievement. It will be easier to recruit high-level games in the future. It will be difficult for us to catch up with them.” Yuan said excitedly.

Zhang Zibo said: “Zheng Yuan’s words make sense, we will be at level 3 right away, and we should try this copy, so there should be no problems with our current equipment.”

Xia Yuwei was also very emotional. At the beginning of the game, the eight of them were tentative when they set up the studio. Therefore, they did not save money to compete with the Grand Guild for the masters. As a result, the start was slow. Compete for the achievement of this first debut.

“Okay, then we ...” Xia Yuwei was about to try it, and Lan Yu suddenly said, “Wait.”

“What’s wrong?” Xia Yuwei and Zhang Zibo and others looked at Lan Yu.

Lan Yu said, “Uh ... that, we don’t seem to be able to beat this copy.”

Xia Yuwei frowned, and asked, “How do you know we can’t fight.”

“Ah?” Lan Yu didn’t want to tell Xia Yuwei and others that Lu Yang told him, but when she saw Zhang Zibo, Zheng Yuan and others staring at her, she sighed and said, “It’s the one who sent me The big brother in the equipment told me that he said that the soldier’s defense power would never go without 71 points. “

“How does he know this?” Zheng Yuan was instantly jealous and said, “Why, Xiaoyu, how do you still have contact with him, and call his brother, but he is offended by Yongle Paradise. Be careful to be implicated in him.”

Lan Yu’s eyebrows frowned, and said, “Zheng Yuan, please call me Lan Yu. Also, the level of everyone in our studio can always be ranked within the top 500 of the full service. This is the secret told by him. The place can only be maintained, and cooking is what he told us, and we must not forget to help others at any time. “

Zheng Yuan was still arguing, but was stopped by Zhang Zibo, saying, “This thing is right. Lan Yu is right. Without that person, we do n’t have our present. He needs to help us. We must reach out for assistance. I still want to test the copy. The chance is just this, and I have 7 points of defense. I think there should be no problem. “

Zhang Zibo didn’t want to discuss these irrelevant upgrades, so he quickly turned the topic back and looked at Xia Yuwei.

Xia Yuwei was very enthusiastic about the next copy. After hearing Zhang Zibo’s words, she was even more enthusiastic and said, “This thing is settled. Let’s blame first, and go to the copy at level 3.”

“Okay.” Zhang Zibo and Zheng Yuan agreed with excitement, and even the studio members they hired agreed.

Seeing this situation, Lan Yu had to stop persuading and continue to blame.

On the other side ~ www.mtlnovel.com ~ Lu Yang continued to bring Xiao Liang to brush after talking with Lan Yu. At this time, the half-orcs in the cave hall had all killed Lu Yang and Xiao Liang together. Xiao Liang was successfully promoted to level 5 and entered the top 10 of the ranking list, while Lu Yang was promoted to level 7 and far removed the 2nd place from the second level.

While the two were chatting, all of a sudden, a white light lit up on the seat directly opposite the cave lobby.

“Hello ~!”

After a loud roar, Lu Yang and Xiao Liang were surprised to see a giant half-orc appearing twice as large as an ordinary half-orc.

The half-orc had two black axe in his hands and was wearing black steel armor.

“Half-orc warrior?” Lu Yang said with a frown.

“Boss, have we ever played?” Xiao Liang asked.

Lu Yang said, “Of course you can.”

The orc warrior is an elite mob among the orcs. This kind of monster is very difficult for melee professions such as warriors and thieves, because you can see that the monster’s defense is very high, and it is black. The bright giant axe also has very high melee attack power, but this monster also has disadvantages, that is, it has no defense.

It is very easy for mage players to kill this monster, but there are some points to note. Once the orc warrior will charge, once hit by his charge, an axe will go down, and all magicians like Lu Yang will die.

Chapter 29 - Easy kill

“Look at me.” Lu Yang said.

Jumping out of bu *, Lu Yang slowly approached the orc warrior. When he was 30 yards away from the opponent, Lu Yang uttered a spell.

“Pyroblast.”

A huge flame flew out of Lu Yang’s hands, and hit it accurately on the head of the half-orc warrior.

“Hello ~!”

The orc warrior roared in agony, raised his axe and said to Lu Yang who ran away: “Damn man, I’m going to kill you.”

System prompt: Orc Warrior launches a charge on you

Lu Yang only felt the sound of the wind behind him. The huge body of the half-orc warrior left a ghost image on the road. The electric light and flint rushed to Lu Yang’s face, and at the moment when he was about to hit Lu Yang, Lu Yang was on his body for a while. The white light lit up, using a standard flashing dodge charge.

This is the standard skill of a mage in the last life to crack warriors. Do n't look at it is just a simple flash, but it is not so simple to use. The timing is too early, or it wo n't work.

The flicker is early, the system will determine that the charge distance can be extended according to the rules of the game, that is, even if the longest distance of the charge is 30 yards, but the player uses the flashing skill after the target charge, the target can still charge to the player when using the charge. In front of him, as Lu Yang flashed earlier, the orc warrior could actually charge 60 yards.

If the player flashes late, although he can use flicker to escape after being stunned, but the stun has an absolute standstill of 0.1 seconds. At this time, the player cannot use the skills, and the half-orc is raising the axe when the charge, the system is in When determining the charge, the physical output will be determined at the same time as the charge hits, and Lu Yang will still be killed in seconds.

Therefore, the flicker dodge charge seems very simple, in fact, it requires the player to have accurate computing ability, reaction ability, and ability to predict the game.

This kind of operation is almost impossible for novice players to do, but here in Lu Yang, it is something that I do n't know how many times to repeat every day in my life.

After flashing, Lu Yang was only 20 yards away from the large stone bu * on the left. After the orc warrior found that his charge failed, he raised his axe and rushed towards the landing sun with more anger.

In the setting of "Second World", the player's initial movement speed is 325 points, and some wild elite monsters move 50% faster than the player, which is 487 points. Among them, there are half-orc warriors, although Lu Yang flashes out It was 30 yards away, but the remaining 20 yards was still quickly chased by the orc warrior.

"Old and big heart." Xiao Liang shouted standing on the big stone.

Just when Lu Yang came to the big stone in two steps, the half-orc warrior caught up with Lu Yang. He was attacked first and then flickered to avoid him. He felt the humiliated half-orc warrior lifted up in anger. ax.

If this axe falls, Lu Yang will surely die, but at this moment, Lu Yang suddenly turns around and uses an instant spell against the Orc Warrior—Flame Blast.

“Oh ~!”

A flame burst from the orc’s head, and the orc was stunned in place.

“Boss, give me your hand,” Xiao Liang shouted, stretching out his arms.

Lu Yang shook out the flames and didn’t see the results. He jumped out and grabbed Xiao Liang’s arm. Xiao Liang pulled hard and pulled Lu Yang to the top of the stone.

Xiao Liang was about to take a breath, Lu Yang pulled Xiao Liang and jumped out of the gap in the rock. The two were equivalent to falling into the gap in the corner from the stone. Before waiting for Xiao Liang to ask why, a huge gold stone hit it. The sound appears.

“Dang ~”

Xiao Liang looked up, and the half-orc’s axe was deeply penetrated into the rock.

“Boss, why did he wake up so fast.” Xiao Liang asked dumbfounded that he had seen Lu Yang’s flame impact before and was able to stun the target for two seconds.

Lu Yang said: “This is an elite monster. The system rules. The elite monster control time is halved. The lord monster is immune to control.”

Xiao Liang was instructed, and asked, “Boss, then this big guy won’t break the rock.”

The orc warrior’s axe is too huge to dig into the crack of the stone like a bone stick in the hand of the orc. In the case that Lu Yang could not be hit, the rock was hit with an ax with an axe.

Lu Yang recalled the video of the thief killing the boss in his last life and said, "Relax, this guy will never break this rock, we can now safely output and easily kill this big guy."

"Great." Xiao Liang excitedly picked up the snake venom beads and released the toxin, dyeing the orc warrior bright green.

Lu Yang held up his staff, and four fire walls appeared at the feet of the orc warrior and his moving sides, and then Lu Yang recited the spell of Pyroblast.

"Oh ~"

"Oh ~"

"Oh ~"

...

As a level 15 elite monster, the orc warrior has 20,000 points of blood, high defense, high damage, and very fast blood return. Normally, if you want to kill the orc warrior, you need two teams of 15 or more players to have hope. But now, as long as two people stand on *bu **, Lu Yang can easily kill the half-orc warrior, and the half-orc warrior can only helplessly walk around the big stone, and they can't make it to Luyang. A little hurt.

With the explosions and the roar again and again, after playing for an hour and a half, the orc warrior finally lay on the ground unwillingly ~ www.mtnovel.com ~ system prompt: you got 3142 points experience

"Boss, we really killed the Orc Warrior." Xiao Liang shouted excitedly, this is the first boss he killed after entering the game, although he can't see the death of the Orc Warrior, But he also saw an increase in experience.

Lu Yang said indifferently: "Don't rush out to pick up equipment, all of them are now half-orcs."

After more than an hour, the half-orcs outside had brushed 4 waves, and the whole cave hall was restored to the condition when Lu Yanggang came, and there were hundreds of half-orcs walking around.

Xiao Liang lay on the stone and looked at the body of the half-orc warrior blocked by the half-orc, saying, "Depressed, I really want to see what equipment burst."

Lu Yang laughed, but he could understand Xiao Liang's feelings now. The 16-year-old was curious and thought that when Lu Yang killed the first boss, he was as anxious as he was to see the boss drop. What equipment.

After eating 2 crispy electric eel meat to restore the magic, Lu Yang stood up and used Pyroblast to bring in the nearby half-orcs. After the two of them jointly killed with the fire wall and snake venom, the surrounding monsters were cleaned up .

Lu Yang then jumped out of bu * with Xiao Liang, and glanced at what was falling around the half-orc warrior. Lu Yang couldn't help but widen his eyes.

"It's actually a skill book. Go and see what it is."

Chapter 30 - Need Skill Book

The skill book is a good thing. This thing is more precious than the equipment. The equipment can be sold if it is not used, but the book is gone.

Xiao Liang ran quickly to the half-orc warrior, picked up the boss's dropped items one by one, and returned to Lu Yang's side. He said with some depression: "Boss, I lost two skill books in total. One is The shield wall, one is the goblin guardian, the other is a pile of instant healing potions. "

“What?” Lu Yang hurriedly looked at the skill book. When he found out that it was really the shield wall and the goblin guardian, he said excitedly: “Brother, your life is so good.”

“What’s good, and no equipment.” Xiao Liang said stupidly.

Lu Yang said: “Stupid brother, this shield wall cannot be replaced with 10 pieces of 10-level gold-level equipment.”

“Ah, so precious.” Xiao Liang said in surprise.

“Of course.” Lu Yang was really excited today.

Shield Wall: Reduces all damage taken by 40% for 8 seconds and 4 minutes cooldown.

This skill is a magical skill for defense, even if the soldiers reach level 200 in the future, when the team fights the boss, the skills that should be learned with this level 0 are still used, because he can reduce the damage by 40%, even if the boss Furious, can also resist boss attacks.

Only when you have a shield wall can you count it as a qualified defense. When the players know the skill of the shield wall in the later period, the scattered people will make a copy. If the defense is not equipped with the shield wall, the skills will not be grouped. The 0-level skill book of the Shield Wall was fired to the point of 50 gold coins.

However, the explosion rate of the shield wall is very low. The drop position of the second world skill book is limited, and many copies do not produce the skill book. It can only be hit in a few specific places, or kill the top bosses in the wild. Only, as a result, many defensive players have reached more than 50 levels to learn advanced skills. This shield wall skill book is not yet available.

“Learning soon, with this skill, I dare to take you with various difficult copies, then you can choose gold-level equipment.” Lu Yang said.

“Oh.” Xiao Liang quickly learned the skill book, and for a while Jin Liang lit up, Xiao Liang learned the skills of the shield wall.

“Boss, what’s the other skill book Goblin Guardian for?” Xiao Liang asked curiously.

“This is the skill of a priest. It can increase the defense of the soil system for everyone in the regiment. It is also an initial magic skill. You can’t use this book. I’ll take it first.” Lu Yang put the skill book in your backpack.

“Oh.”

Lu Yang looked at the strange monsters on the left and right. There were one or two hundred orcs in the cave hall, all concentrated on the right side of the hall.

“Brother, I’m going out to do a task. You stay here to fight monsters. Follow the method I taught you, use bows and arrows to blame and kill them with poison.” Lu Yang said.

The bow and arrow was exploded by Lu Yang before killing the hunter under the black blood, just an ordinary bronze suit.

“Boss, I’ll help you.” Xiao Liang is almost 6th level and speaks with confidence.

Lu Yang said: “If you want to help me, upgrade as soon as possible. You can upgrade faster without me sharing the experience here. You can help me by reaching level 10 earlier.”

“Oh, okay.” Xiao Liang was full of motivation.

After Lu Yang watched Xiao Liang cited two blame without any problems, he was relieved that one person killed the cave in the same way.

Returning to the half-orc hills, the sky outside was dark, and Lu Yang ran toward the west side of the map by night.

There is a forest on the west side of the half-orc hills, where a group of trolls live. Lu Yang's task is to kill the leader of the forest troll, the shaman-voggins.

However, the troll is not so easy to kill. As the most difficult to kill monster in the level 15 map, the troll not only has the strong body of a half-orc, but also the speed of a werewolf, and the blood return speed of the troll is also level 15. Blame the fastest.

Even if Lu Yang wants to kill ordinary trolls among them, it is very difficult, but fortunately Lu Yang has his own method.

Arrived at the edge of the troll forest, Lu Yang began to slow down, the forest under the night, it is more difficult to make a troll exist.

Like a half-orc, the troll also has green skin and protruding fangs at the corners of his mouth. However, the troll has a very sturdy figure, an abdomen with eight angular abs, a very slender figure, and red hair and beard. Yes, the weapon in his hand is a spear.

The reason why Lu Yang dared to come to the Troll Forest alone at 7th level is because the troll attack here is characterized by only throwing spears. All trolls are long-range attacking monsters. In this troll forest, As long as Lu Yang evades properly, he can completely kill the troll without a drop of blood.

However, it was during the day and at night Lu Yang could not find where the troll was hiding, let alone the direction in which the opponent threw the spear, so Lu Yang stayed in place and waited until early in the morning.

When boring, Lu Yang initiated a voice chat with Lan Yu. At this time, Lan Yu was looking at the first boss in the copy and was in a daze, and pressed the connect button to ask.

"Why."

"How is your copy doing?" Lu Yang asked.

"Hang it three times." Lan Yu said in a depressed mood.

Lu Yang didn't hold back ~ www.mtlnovel.com ~ laughed a moment.

Lan Yu was even more depressed, and said a little angrily: "You are still laughing."

Lu Yang hurriedly said, "Ah, sorry, sorry, didn't hold back for a while, did you die when the boss's remaining blood was 30%."

"How do you know." Lan Yu asked in surprise.

Lu Yangxin said that of course I know, because the boss of this copy is a nightmare for all players. In the last life, I did not know how many elite guild elite players did not know how to play the boss in the first level, and thought that the remaining health would be improved by 30%. I can fight it, and the result is one night.

"You don't have to think of a solution. There is no other way to solve this problem. You can only rely on the soldiers' own equipment to resist. If the defense is less than 71 points, there is absolutely no chance." Lu Yang said.

The calculation of the damage results in "Second World" is very complicated. It is not simple to explain in one or two sentences. This involves a series of things such as basic defense, attack, defense, and damage results. For the novices like Blue Feather, Player, Lu Yang can explain that only defense is not enough 71 points can not play this.

Lan Yu said, "Well, I'll persuade Sister Yu Wei and tell them what you said, I hope they can listen."

The little girl finally sighed, and Lu Yang could think of the little girl's appearance at this time.

"Go." Lu Yang said.
