

Wild Fire 241

Chapter 241 - Slums

Lu Yang said: "Sorry guys, I have some temporary issues. I can't go online these days, you play first."

Everyone was disappointed that Shen Mengyao did not participate in the event. Few people were concerned about whether Lu Yang could go or not. It was time for school soon.

Instructor Wang Jing announced that they would dissolve their teams and go back to rest. They will gather here at 8 am tomorrow morning.

"Lastly liberated, I'm going shopping." Zhang Meng said.

Liu Shuang said with a tired expression, "Can you go back and rest first?"

Chu Yu shook her head and said, "As one of the required courses for weight loss, you can't leave shopping."

"Let's go." Shen Mengyao took the initiative to hold Liu Shuang's left arm, Zhang Meng took the right arm, and the two pulled Liu Shuang out.

Lu Yang laughed aside, chatting with Wang Jing all the way, just walked to the school gate together, not far away a black Lamborghini drove over quickly.

"Wow, Lamborghini." Zhang Meng said.

“Which is the handsome guy in our department?” Liu Shuang said, holding his hands together.

A brake sounded, and the black Lamborghini stopped in front of Zhang Meng and Shen Mengyao, and Jiang Ze jumped from the car.

“Wow, it’s handsome.” Chu Yu whispered.

“Will not chase Shen Mengyao again.” Zhang Meng asked curiously.

Shen Mengyao shook his head, saying that he didn’t know this person. When everyone was curious what Jiang Ze was going to do, he looked around and came to Lu Yang who was talking to Wang Jing. has it ended.”

Lu Yang looked at Jiang Ze for a moment and asked, “What’s the matter?”

“It’s not clear what one or two sentences are, get in the car and go back to your company first.” Jiang Ze said anxiously.

Lu Yang nodded, followed Jiang Ze to get in the car, and the two quickly disappeared at the end of the road.

Zhang Meng said in surprise: “Wow, it turns out that Lu Yang is not like a child of an ordinary family.”

Liu Shuang nodded and said, “Friends are all coming from Lamborghini, and he must not be worse.”

Shen Mengyao was a little surprised. She thought that she had seen through Lu Yang, but found that Lu Yang was still so mysterious.

Not far away, Mo Long said, “No wonder this kid is not afraid of Wang Rui. Wang Rui is not necessarily richer than him.”

Lin Dong smiled and said, "You can eat big households now."

Mo Long also smiled and nodded in agreement. Only Huang Xiang's expression was a bit unnatural. He thought he was the best in the class and the highest person, but found that it was not the case. A sense of frustration rose from his heart.

In the car.

Jiang Ze asked: "Your boy is really boring. He actually ran to military training."

Lu Yang said, "I can compare with you. Your grandfather will settle everything for a little money. How can I have money?"

"Cut ~~" Jiang Ze said with a scornful expression, "Did you fancy which beautiful woman? Come on purpose."

Lu Yang said: "I tell you the truth, I really like a girl, the one in front of you when you get off the bus. In this life, I must marry her as my wife, you wait to call the sister-in-law."

"Fuck, so fast."

Lu Yang said, "Just tell the truth, what happened in the game."

Jiang Ze said excitedly: "Big event, the old man found a fortress siege order is being reclaimed and was betrayed by his traitors. Now a dozen or so small guilds are all about to move."

Lu Yang said: "There is still this matter, I will look at the line."

Back at the company, Lu Yang put on a helmet to enter the game. A map of the location of the fortress Jiang Ze had already sent to his mailbox, which is a fortress located in the east of St. Gall.

Lu Yang sent a message to the old man: "Brother, I heard you found the fortress."

He Duhe smiled and said, "Yeah, I'm not ready to take advantage of the bloodthirsty domineering defeat, and have the opportunity for you two to protect the land to clear the fortress. How about it, my brother is lucky."

Lu Yang said, "This fortress is not very good. It is located in the east and is close to the three main cities of Hannibal City, Beifeng City and Deepwater Port. If you occupy it, you will be war in the future. The bridgehead is over. "

Chi Mu sighed and said, "Don't mention it, I got this siege order and it made me think for a long time, but it hit me. I can still sell him with such a big president. Besides, let 's fight like this The first thing I must do is, I can't think of letting my men betray me, and now more than a dozen secondary guilds around me are bothering me. "

Lu Yang asked, "Need help, no, if it really hits, I'll take someone to help you."

Late in the twilight, she said, "Big brother, thank you first, let me take a look, for the time being they are not a threat to me."

For a medium guild with only 20,000 or 30,000 members, Chi Wu, a super guild with 130,000 members, simply doesn't like it, and he has more than 20,000 elite soldiers at level 20 or above. Each of these middle guilds can bring out 3,000 people. It's hard, really fighting. Late twilight can sweep all of them all, and lay down the fortress, make the fortress back to the city scroll, the number of late twilight guilds will increase a lot.

Regarding Lu Yang's persuasion, Chi Du quite thinks that Lu Yang is jealous of him, and in sending troops, it is so-called asking God to send God easily and difficult. Lu Yang helps him lay down the guild. Lu Yang's interest must be divided into Lu Yang. Be such a fool.

Lu Yang also guessed that Late Twilight would not agree, saying this is just a gesture to prove that the relationship between the allies is stable, so that Late Twilight can rest assured. After talking a few more words, Lu Yang closed the dialog box and confronted the turbidity in the simulation group. Jiu and Xia

Yuwei talked about the guild today ~ www.mtlnovel.com ~ After confirming that nothing happened, Lu Yang came to the south slum.

Slums are a special existence in the game. Any grand and magnificent city has its dilapidated place.

According to the story given by the official sources, the slums are a product of the war in the entire game world. Due to the war between the three ethnic groups and the internal struggles among the various ethnic groups, the displaced poor have gathered in the major cities. The place where these people gather is the slums.

After walking through a narrow alley in the south of the city and walking down the steps, Lu Yang entered a dark slum, and the stinky water across the ground was flowing. All the people in the past were dressed in shabby and yellow-faced faces.

“Sir, give me something to eat.” A beggar stopped Lu Yang.

Lu Yang took out the moon-marked venison in his backpack and said, “Here you are.”

“Oh, it’s moon-marked venison.” The beggar took the venison and ran towards the distance immediately, but it seemed that he ran into Lu Yang’s body in the wrong direction and almost fell and fell. Run deep into the slum.

Lu Yang sneered at the corner of his mouth, looked down at his backpack, and found that the gold coins inside were missing.

Chapter 242 - Hardest task

This is a well-known game setting from the previous life, which later made all players swear. This beggar will steal the player’s coins as long as he passes here to beg, and where will the player notice that he was stolen by the beggar, he will only think it is A thief who knows stealing,

A long time later, a guild player brought 100 gold coins to explore the slums. As a result, the 100 gold coins were stolen, which exposed the thief mission in the slums.

Lu Yang pretended not to notice, walked into the slum alley, and found a house with fists carved in the corner in the broken slum house community.

With a bang, Lu Yang kicked the door open and walked in, just to see the beggar counting stolen gold coins on the table.

“Damn, you found it, I’m going to kill you.” The beggar screamed, a short knife appeared in his right hand, and rushed towards the landing sun.

“Pyroblast”

A giant ball of fire flew from the tip of Lu Yang’s staff, hitting the beggar’s head.

“2268” (Critical Strike)

The blood of the beggar was only 800 points. After being hit, the blood was forcibly changed to 1 point. He fell on the ground and shouted in horror: “Don’t kill me, I am a brother of the Stonemason Brotherhood.”

System prompt: You successfully defeated the beggar

You turn on the reputation of the Stonemason Brotherhood

Lu Yang took his gold coins from the table and said, “What is the Brotherhood of the Stonemason and why do you steal money?”

“We are an army formed privately by the slums. The King of St. Gall does not want to help us take home, we can only find a way by ourselves, but we are short of supplies now,” said the beggar.

Lu Yang asked: “What supplies are needed, maybe I can help you.”

“100 sets of wool, 100 sets of bison, 100 sets of iron ore, we all need these things. If you are willing to give them to me, I can give you something special,” said the beggar.

“Wait.” Lu Yang returned to the St. Gall’s auction house and bought enough items for the beggar several times.

System prompt: Your reputation in the Mason Brotherhood is respected

The beggar said happily, “Oh sir, thank you for your generosity, and I am willing to lead you to our camp.”

A portal appeared near the table. Lu Yang followed the beggar and entered the portal. The light flashed, and Lu Yang appeared in the sunset mountains.

System Prompt: Discovery of Sunset Mountain

Discovery Stonemason Brothers Camp

Lu Yang looked around. In a valley surrounded by mountains on three sides, the members of the Brothers of the Stonemason Brotherhood wearing red scarves were gathered together in pairs.

Brotherhood of Mason

Level: 35

Qi and blood: 5660/5660

“Oh, it is our esteemed Mr. Lu Yang who is here. Welcome to the Stonemason Brotherhood.” The passing soldiers greeted Lu Yang.

Lu Yang also returned the gift. In the center of the camp, Lu Yang found the blacksmith Heide, the vice president of the Brotherhood.

“Friend, thank you for the iron ore you gave me. I have nothing to return to you,” said Hurd.

If Lu Yang opened Hurd’s quarters warehouse, he would find that there were only some bronze drawings and common equipment. Many people thought that they were deceived in doing this task and gave up, but they didn’t know that this was just the beginning of the next task.

Lu Yang said, “You’re welcome. I sympathize with your experience and would like to do something for you.”

Hurd said solemnly: “I must help my brothers take home.”

In the previous game, Hurd did indeed, not only took home the Brotherhood to recapture the homeland, but also laid a large piece of land.

“I believe you will be successful, but how can I feel a smell of demon in your camp.” Lu Yang said.

“The devil?” Hurd frowned, and said, “How is this possible? Although we are fighters who have lost our homeland, we are determined and will not be deceived.”

In “Second World”, demons are ectopic creatures. Some of them are powerful and can rely on spiritual power to penetrate the plane to deceive some unwilling warriors.

“Come with me.” Lu Yang walked towards the camp, stopping in front of a huge camp in the valley.

“Whose camp is this?” Lu Yang asked.

Hurd frowned. “This is the camp of Mr. Fabbs, president of our Mason Brotherhood.”

A majestic man, 2 meters tall, stepped out of the camp and looked at Hurd. "What's the matter?"

Just as Hurd was about to speak, Lu Yang uttered the Pyroblast spell, and a huge fireball hit Fabus's face.

The raging flames burned Fabus's coat, and strange magic symbols spread throughout Fabus's body. Hurd and the Brotherhood of the Stonemason Brothers around him were just astonished to stand in place.

"Everything is going on, and this crazy man isn't going to be taken down yet." Fabus growled.

Hurd pointed in pain to Fabus' body and said, "President, why, why your body, why you are like this."

Fabbs saw his body showing a terrified expression, and immediately became furious. A black light was shining from Fabbs' body. After a while, a monster with a size of 3 yards and a black first horn stood up from the black light Up.

Demon Fabbs (Elite)

Level: 35

Qi and blood: 105000/105000

"Now that you are found, you are all going to die." Fabbs roared, and the shadow arrow shot towards the landing sun.

Lu Yang was on alert all the time, flickering to the left to avoid the shadow arrow.

"The fighters of the Brothers of Stonemason, come together to save our president." Hurd shouted, and rushed to Fabus.

Lu Yang's Pyromantra spell was read, and huge fireballs attacked Fabus one after another. Fabus was just bewildered and was not strong enough, and was soon knocked down by Lu Yang.

A fighter from the Brothers of Stonemasonry took Fabus away, and Hurd came to Lu Yang and said gratefully, "Thank you so much, Mr. Luyang. Otherwise, our Brothers of Stonemasonry will be finished."

System Prompt: Your reputation in the Mason Brotherhood increases to Revered

This is what Lu Yang waited for ~ www.mtlnovel.com ~ This is the most difficult task summed up by players in the last life, not because the task is too difficult, but it is not easy to find.

Lu Yang can find and benefit from the memory of the previous life. Open the Hurd purchase interface, intermediate attack potions, intermediate protection potions, intermediate magic potions, intermediate anti-magic potions, intermediate flame protection potions, and intermediate frost potions. The recipes are shown one by one above.

Intermediate Flame Protection Elixir

Type: Alchemy

Effect: Increases fire defense by 100 points for 1 hour.

Price: 50 silver coins

Next, Lu Yang will open up the red fortress of level 30, but most of the player levels in his hand are only level 20. These potions are necessary to successfully open up the wasteland.

Intermediate attack potions each increase 50 points, which is equivalent to wearing an additional 30-level whiteboard two-handed sword, plus the priest's intermediate spells, Lu Yang has enough confidence to succeed in the wasteland.

Chapter 243 - Mu Yi's surprise

Blood * agent shop.

In the conference room on the 5th floor, more than a dozen pharmacy top pharmacists are sitting at a long table.

A senior pharmacist said to Jin Buhui depressedly: "Boss, the sales of our medicaments have decreased by 40% these days, and the people below can hardly bear it."

Gold does not change but also scratches his head. Other guilds made a large amount of this potion after obtaining the primary attack potion formula from the Holy City Quartermaster. The largest one is the Storm Pharmacy Store. Shop digging senior pharmacist, it has the meaning to replace blood * agent shop.

"The pharmacy is so rich, can we buy some pharmaceutical formulas at high prices," said another pharmacist.

"Yeah, I heard that there are many good potion formulas on the market now. Those that increase attack power can add up to 30 points, and those with added attributes are very good and worth buying."

Jin didn't change his heart and smiled hard. The money was given to Lu Yang to support him in fighting and paying his employees. Where is the extra money?

Just when Jin didn't change his mind, Lu Yang sent a message saying, "How's the pharmacy running these days?"

Jin Buhui intentionally told the truth, but he bit his teeth or shook his head and said, "No problem, everything is normal."

Lu Yang has just won the Bloodthirsty Domineering, and he doesn't want to mess with Lu Yang.

"Really, how did I hear that there was a Storm Pharmacy that was going to run us dead?" Lu Yang said.

Jin Buchang said with a bitter smile, "Boss, you know, I'm worried, many intermediate pharmacists in our pharmacy let them dig them out."

"Don't worry, show you this." Lu Yang sent the intermediate attack potion recipe to Jin Buhuan's chat channel.

When Jin Buhuan saw that the damage of the intermediate attack potion increased by 50 points, he stood up excitedly and startled the surrounding pharmacist.

"What's wrong?" A pharmacist asked.

Jin didn't get too late to answer, and said to Li Yuang, "Is this recipe energy-producing?"

Lu Yang sent the rest of the recipes one by one and said, "How many are there?"

"Boss, you are a life-saving formula. With these things, I can make the Storm Pharmacy close." Jin Buchang said with a laugh.

"How many?" Lu Yang asked.

"Same 100, a total of 2000."

Lu Yang said: "I can give you other formulas, but the fire-resistant formulations are not good. Our guild has the most fire method. Letting other guilds get this pharmacy is too bad for our guild."

Jin Buhua thought about it and said, "Give me 10 recipes for the fire-resistant medicine. I have 9 confidantes. Count me to make them together and I won't spread them."

Lu Yang said: "Recently made 1000 bottles of anti- * agent for me. I have a special use. Don't tell anyone, I will send you the pharmacy drawings, and you will wait for me in my room in 10 minutes."

"OK." Kim Buhuan closed the conversation bar.

"Boss Jin, you have a word, what do you mean by standing up?" Said a pharmacist anxiously.

Other pharmacists were also anxiously watching Jin Buhuan.

Jin Buhuan looked at the nine people in front of him and proudly sent the drawings that Lu Yang had just sent to his dialogue box, saying, "Look at these drawings."

"1 rub, add 50 points of attack power. This is too much. How can I add so much." The pharmacist who was just angry was smiling.

"This intermediate spell damage potion can also be added by 50 points. How can there be such a strong potion."

"Haha, the Storm Pharmacy is dead. Let them dig. We have this drawing and see how I run him."

"Our pharmacy is alive."

For the pharmacy of Song of Blood and Fire, every pharmacist here really hopes that he is better, because they have put a lot of effort into this pharmacy, and no one wants to see this pharmacy close.

After waiting for the excitement, Jin Buhuan said, "Half an hour later, we will bring all the pharmacists here for a meeting, and I will distribute drawings to them."

“Yes.” The crowd was full of momentum.

Brotherhood camp.

Lu Yang bought 3,500 pharmacy drawings from Hurd. Except for the part that was not replaced by gold, the rest were prepared for Mu Yi.

Mu Yi’s pharmacy has been in development for a month, and Lu Yang has never been to see it, just to take advantage of this opportunity to take a look there.

Back in St. Gall, Lu Yang handed over the formula to Jin Buchang, and then turned into a goblin after using a camouflage coat. He reached the wolf realm through an airship.

Mu Yi personally stood outside the camp to greet Lu Yang, came to the main city of the wolf tribe, and looked at the 5-storey drug store. Lu Yang said with satisfaction: “Good job.”

“The pharmacy’s ledger is here.” Mu Yi sent a document to Lu Yang.

Lu Yang said with a smile: “Stupid brother, don’t show me this, I believe you.”

Normally Mu Yi writes the records of the pharmacy’s operation on paper as a book for Lu Yang to see. Lu Yang does not need to check the data in the game at all.

Mu Yi scratched his head and took out 13,000 gold coins from his backpack with a sorrowful expression. Xianbao generally said, “Brother, this is the net income of the pharmacy, all for you.”

Lu Yang is short of money. After the bloodthirsty domineer lost the battle, the first thing is to dig people from Lu Yang. Major guilds, including Xiongba and Chiwu, have secretly contacted Zhuoshu dumping and Bai Shi. Sanxiong, bitter love half-life and others.

It's a pity ~ www.mtlnovel.com ~ they all run into a wall, and then they went to the next-level masters such as Hongyefeiwu and black notes, only to find that Lu Yang signed a contract with them and a high liquidated damages. The boss of the Great Guild dispelled his thoughts.

However, if Lu Yang has no money to pay, these masters can jump out of the contract at any time. Now, with this more than 10,000 gold coins, Lu Yang's salary can be guaranteed next month, which greatly eases the blood * shop and Han Zhongna. Side business.

"Yes, this time you helped your brother a lot." Lu Yang did not expect Mu Yi to be able to do this alone. He took 10,000 gold coins and left Mu Yi with 3,000 for daily operations. More than 1,000 new formulations were handed over to Mu Yi, allowing him to continue to develop.

"Are there any teams on your side in the wasteland level 30 map of the Demon Temple." Lu Yang asked.

Mu Yi thought for a while and said, "Should not have, this map was discovered by the major guilds very early, but the strange attack power inside is too strong. Players who reach level 30 on the side of the Wolf Clan are not fully equipped. No conditions for land reclamation. "

Lu Yang nodded, as in the case of the last life, and no one was actually opening up the map. After taking a batch of potions from Mu Yi, Lu Yangfei came to the city of God of War on a level 30 map.

Chapter 244 - Disturbed temple

After walking out of Xicheng Gate, I ran for an hour in the northwest direction. After passing through an ice field forest, I saw a temple-like place—the demon temple.

The demon temple, according to the game's official information, this temple enshrines the gods that appeared on the planet at the beginning of the creation of the world. Their mana is boundless and powerful. At the beginning, they did help the races on this land to survive. However, when this After the

creatures on the piece of land built a portal in accordance with the requirements of the demon, the demon army entered the land, revealing their true colors, the lives of the aboriginal people who killed them were almost charred, and they almost destroyed the race.

Until the aboriginals found an artifact-the demon eye, all the demonic army illuminated by the demon eye were all sealed into sculptures, and the demon deity is no exception. At this point, a catastrophe is not over.

Although the demon and his army were sealed into sculptures, the indigenous people did not have the ability to kill the demon. Therefore, an underground palace was built, and the demon and his army were buried in it. Later, they built another one on top of the underground palace. In the temple, the magic eye is in the center of the temple.

However, the Aboriginal people of that era had already been killed by the ethics of the new gods, leaving only such an empty temple, and the demon eye was stolen when the Aboriginal people were killed. Recently, the demon has reawakened.

Recalling the official information, Lu Yang walked into the entrance of the temple and walked through the spiral staircase to the ground floor of the underground palace. As you can see, the entire ground palace is made of dark yellow brick and stone, and the walls are inlaid with a light every 10 meters. Gems shine the earth palace like daylight.

Not far from Lu Yang's location, a gray sculpture with a claw-shaped spear, a sheep's head, and a lion's body, and a full body armor faced him.

Demon Warrior (Sub-elite)

Level: 30

Qi and blood: 8000/8000

This is the monster in the underground palace. Many players from the previous life accidentally entered this place, thinking that it was really a statue. They inadvertently walked nearby, but the statue was resurrected and killed with a spear.

Lu Yang gradually approached the statue. At a distance of 5 yards, the gray seal on the statue disappeared, and a black demon warrior snarled and rushed towards the landing sun.

Pyroblastic spells were read out in Lu Yang's mouth, and a pyroblast hit the head of the demon warrior, taking it a step back.

"1986" (Critical Strike)

The demon exclaimed, and continued to run towards Landing Yang. Unfortunately, Lu Yang's Pyroblasting hit the demon's head one after another. After a while, the demon fell to the ground.

System prompt: you have gained 886 experience

Nothing exploded on the ground, and Lu Yang didn't care. Such ordinary monsters rarely exploded. Continue to walk inside, a wall appeared, and left and right sides were divided into two channels.

The map on the ground floor of the palace is in the shape of a corridor, like a labyrinth with infinite characters. You need to run through all corridors to reach the center, and the entrance on the second floor is there.

However, Lu Yang didn't need to run like this, took out the escape dagger, and Lu Yang threw it towards the wall. The escaped dagger in blue light easily passed through the wall, and Lu Yang's blue light flashed to the other side of the wall.

The two statues were right next to Lu Yang, the grey seal receded, and before he pursued Lu Yang, Lu Yang's white light flickered, and flickered behind the next wall again.

There are 64 walls in the zigzag shape. Lu Yang spent 20 minutes to the center of the palace and entered the second floor of the palace.

A statue of a sheep-headed monster holding an octagonal sledgehammer stood in front of Lu Yang, the gray seal receded, the sheep-headed monster howled, and a hammer smashed his head as he landed.

Demon Guardian (Sub-elite)

Level: Level 30

Qi and blood: 9800/9800

Lu Yang did not evade himself, and launched a level 3 blazing speed under his feet. Lu Yang rushed towards the front.

The underground palace has this advantage. All the monsters are in a sealed state. Even if they are near the resurrection, there is a delay of about 2 seconds. The blazing speed provides a 200% movement speed bonus, and all monsters are easily left behind.

At the crossroads, there are a total of 9 corridors. Each of these corridors can lead to the third floor of the palace, but the distance is different.

Lu Yang chose Article 6 on the left and waited for the fiery rapid disappearance to turn on the rocket thruster to continue running. During the encounter with the monster Lu Yang, he could hide, but he could use speed to set it aside, until he reached the coordinates 6686.7856. Yang flung the escape dagger in front of the wall, flashed to the back of the wall before hundreds of monsters behind him approached, and an entrance to the third floor was right in front of Lu Yang.

The first two floors of the underground palace make many players feel difficult, but in fact these two floors are the easiest in the underground palace. The real difficulty is from the third floor.

Starting from the third layer, many demon guards and demon warriors are still followed by the sub-elite, but their health, damage, armor, and movement speed are all at the same level as the elite monsters or even bosses.

When many guilds in the last life came to the wasteland here, there were often situations where special demon guards and soldiers dropped out of their level 30 silver equipment.

Of course, such demon guards and fighters have a very high explosion rate, and often have good equipment, the best of which is the black iron-grade fire resistance plate armor set.

Lu Yang's purpose of coming here this time is for this set of equipment, if you want to open up the red fortress, the fire resistance suit is essential.

Entering the third floor of the underground palace, every room like a prison appeared in front of Lu Yang. The size of each room was about 50 square meters. The iron fence at the door of the room was ruined by inexplicable dark energy ~ www.mtlnovel.com ~ Slightly It can be pushed down with a little force.

If Lu Yang remembers it correctly, players in the previous strategy have calculated that there are 15,000 such rooms in the entire three floors, and each room has an average of 10 demon guards.

There are a total of 150,000 monsters, of which only 120 are special monsters. Even if a grand guild comes to the wasteland, it will take a week to find these 120 special monsters under constant refreshment.

However, Lu Yang does not need to do this. The refreshed coordinates of the previous life, Lu Yang, is already familiar with his heart, remembering that he is clearer than his birthday, because the fire resistance equipment is very valuable. After the three ethnic groups communicate, Lu Yang came here more than once to brush fire resistance. Sell equipment at high prices to the trumpet for money.

First came to Room No. 154. Lu Yang looked at the sealed 10 demon guards, put a fire wall technique at the door of the room, and ran into the room.

The demon guard felt the breath of Lu Yang, and roared to lift the seal, and other demon guards were also affected by the roar and broke the seal.

Lu Yang ran back to the room before the demon attacked him. The demon chased to the door and came to the door, but facing the wall of fire, the demon couldn't dare to pass by.

Chapter 245 - Fire Resistance Set

The demons themselves are afraid of flames. If there is a fire wall on the ground, they will never take a step forward, even if the enemy is behind the fire wall. This is a small bug that a player accidentally discovered in the last life.

As the mantra read, a huge meteorite broke through the space and fell on the demons in the room. More than 10 demons were injured at the same time. The speed of one of the demons' guards was obviously different from that of the other demons. .

Demon Guard (boss)

Level: 35

Qi and blood: 158300/160000

Lu Yang looked for him, and continued to release the impact of the meteorite. After a while, all the demons in the room were killed. After the death of the boss-level demon guard, 4 items burst out, one of which was a armor emitting black light.

Demon Armor (Black Iron)

Level: 26

Defense: 12-22

Stamina: +12

Constitution: +20

Effect: Increases fire resistance by 50

There are a total of 8 demon suits, which can increase a total of 350 fire resistance. Counting 50 fire resistance agents can offset 400 fire damage. This is the most difficult one to hit.

I didn't expect to hit the first time to kill the demon guard, which made Lu Yang very happy. After packing up his equipment, he continued to walk to the next room.

"Brother Lu Yang, are you busy?" Lan Yu suddenly sent a message.

"Not busy, anything." Lu Yang was not busy with Lan Yu at any time.

"Well, you are not online today, what are you busy with?" On the other side of the screen, Shen Mengyao lying in the game warehouse was using her blue feather account to ask, yes, Shen Mengyao is blue feather and blue feather is Shen Mengyao. !!

Lu Yang didn't know this, saying: "I have something to deal with these days. I can't go online during the day, what's wrong?"

Shen Mengyao wanted to ask if Lu Yang was going to school for military training, but he couldn't open his mouth when he said, "It's all right, I just ask."

Lu Yang didn't think much and asked, "Where is your sister Xia Yuwei."

"It is taking people to upgrade, he has risen to level 26."

Lu Yang said with a loud voice, "Say to your sister, fight for the day after tomorrow to rise to level 26, we open up the red fortress."

"Oh, okay." Shen Mengyao was afraid of delaying Lu Yang's affairs, and did not bother. She closed the phone and sat alone on the stone, sighing.

Xia Yuwei discovered the strangeness of Shen Mengyao and came over and asked, "What's wrong, Xiaoyu."

Xiao Yu is Shen Mengyao's nickname.

Shen Mengyao shook her head. For the time being, Lu Yang did not plan to let anyone know. After passing Lu Yang's words to Xia Yuwei, she said, "Let's speed up the upgrade and don't delay your brother's affairs."

Xia Yuwei nodded, and looked at Shen Mengyao with a smile and said, "This brother yelled, this is Yaoyao, our family wants to be famous."

Shen Mengyao's pretty face was ashamed, and he panicked and said, "Why not, sister, don't talk nonsense."

Zhang Zibo said with a smile: "I can see it all, Lu Yang is very caring for you."

Shen Mengyao said, "Don't make trouble, you also know that our love cannot be autonomous, and I will not have love with Lu Yang."

Xia Yuwei said: "It's not necessarily, if we can make a career in the game, maybe our love can also be autonomous."

Zhang Zibo said, "I think the same way. That's why I have followed the landing sun so desperately. This is our only chance to be free."

Shen Mengyao looked longingly into the distance, if Lu Yang could really take them to lay many fortresses, maybe he had a chance.

"I hope my brother can do it." Shen Mengyao said.

In the palace, Lu Yang gave orders to Jiang Ze and Zhuojiu, etc., while fighting.

First, let Jiang Ze arrange people to take 500 trumpet to dig black iron ore and gold ore, second, arrange 1,000 trumpet to collect herbs to supply the Song of Blood and Fire Pharmacy, and third, arrange trumpet to uniformly brush level 5 Duplicate Burst.

These things are urgently needed by Lu Yang. At the same time, Lu Yang bought the special mission news in the game at a high price, and some members of the staff found that they bought it as soon as possible.

Although the game is generally required to be transferred at level 30, there are some special props and plots that allow players to transfer jobs in advance. For example, the turbid wine dump triggers the Templar Knights task in advance, and the white wolf starts the sword priest transfer task, Both transferred successfully.

What surprised Lu Yang the most was that Hansha, a god-level master who secretly fell in love with Xia Yuwei in the last generation, also triggered the transfer of the Hanmen soldiers in St. Gall, and became a swordsman.

A group of senior players who love half-life, fur balls, flying leaves, black notes, and many others have also triggered their own special missions in the city of St. Gall.

“It’s only two days of free time, and the guild has three more transfer masters. Lu Yang, these masters you recruit are really amazing.” Jiang Ze said excitedly.

If you want to trigger a transfer task, you must have not only a level, but also a superior operation method and IQ. These two are the reasons why Lu Yang spends 10,000 credit points a month to recruit those masters.

“Look, it won’t be long before these more than 200 people will be able to transfer successfully. The longer the time, the stronger our guild.” Lu Yang said.

Changing jobs is a very difficult thing. No one has noticed this yet. They think that “Second World” is similar to the online games that they have played before. They can change jobs when they reach the level. But they do n’t know. The average turnover level in Second World is 52.

The most unlucky player did not find the transfer task until level 82, which shows how difficult the transfer is.

After the transfer, it will bring a lot of benefits to players, such as skills. Players can finally upgrade their skills ~ www.mtlnovel.com ~ All skills are no longer level 1, but can be improved according to the task. Skill level, and you can learn more advanced skills. After level 30, a transfer player can play 10 players of the same level.

滴 滴 滴

A reminder sounded in my ears. It was 12 o’clock. Lu Yang looked at his gains. The demonic suit had reached 6 sets and said to Jiang Ze, “I won’t talk to you. I will be offline to rest, tomorrow daytime You look at the guild for me and I go to school. “

“I wipe, obviously it was the pick-up.” Jiang Ze said scornfully.

“Don’t say that, you see, there are elites in the guild who manage for me. You don’t need to worry about me at all. It’s all because you are too strong. I don’t have to go to pick up girls and I have nothing to do.” Lu Yang said.

Jiang Ze, who just graduated from high school and did not know how to cope with this kind of touting, although he felt fooled, still said very usefully: “Go, don’t worry about you for the time being, I will find you if something happens.”

“Enough, this is the brother.” Lu Yang was off the assembly line. He was anxious to rest. He will see Shen Mengyao tomorrow. There are so many people chasing after such a big beauty. Lu Yang doesn’t want Shen Mengyao to be chased away.

Chapter 246 - Bullying Shen Mengyao\'s daily life

early morning.

Girls 301 dormitory.

“Yaoyao, hurry up, it’s too late for breakfast.” Liu Shuang’s loud voice can be heard throughout the dormitory building.

Shen Mengyao is packing her backpack and designing the upgrade process of her members for several consecutive nights. Shen Mengyao went to bed again in the middle of the night. However, she woke up in the morning and found that it was already 7 o’clock.

The military training assembly time is 8 o’clock, and there is only 1 hour left for eating and finishing. Shen Mengyao is very busy.

“Let’s go first, I’ll be here later, don’t wait for me.” Shen Mengyao shouted while packing the bed.

“We’re not waiting for you. If you don’t eat, today’s military training is my future sacrifice day.” Liu Shuang ran on.

“If you get lost, call us.”

Chu Yu and Zhang Meng also followed. After the training of Wang Jing yesterday, the two beautiful women who had planned to lose weight in military training completely eliminated this idea. As Liu Shuang said, they would faint on the playground without eating. Already.

“Okay, okay, I know.” Shen Mengyao was still anxiously packing the bedding. It was already 7:20 when he finished packing, and came downstairs, the goddess student blinked and looked at the school. Banyan, she found herself forgetting how to get to the cafeteria again.

“It’s over, what can I do?” Shen Mengyao felt a little depressed and knocked his head with his hands.

“Hey, beautiful, what can I do for you.” Lu Yang passed by.

“Lu Yang!” Shen Mengyao’s eyes lit up and he said, “Why are you here?”

Lu Yang said, “Mo Long, they asked me to play basketball. I’m preparing to go there. What are you doing here?”

Shen Mengyao said embarrassedly: “How can I go to the cafeteria, I forgot the way to the cafeteria again.”

“I tell you.” Lu Yang pointed at the gate and said, “Turn right, then left, and then right again. After passing a flower bed, turn right and then left.”

Shen Mengyao’s eyes were already full of circles, saying, “So complicated.”

“It’s not complicated at all, I’ll take you there.” Lu Yang said.

Shen Mengyao instinctively felt a little bit bad, but couldn’t explain why, hesitantly said, “Okay, okay, thank you.”

Lu Yang patted his chest and said, “As a gentleman, it is incumbent on me to lead the way for beautiful women.”

In the last life, Lu Yang met Shen Mengyao in the same way, but Lu Yang took Shen Mengyao to the cafeteria that time, but this time, Lu Yang took Shen Mengyao and walked a small circle under the Banyan Avenue in the school. Back to the girl’s dormitory door.

Shen Mengyao looked at the big characters at the door of the girl's dormitory and knew that she had been fooled again. She looked at Lu Yang angrily and said, "Bad guy, you bully me again."

Lu Yang liked to watch Shen Mengyao's angry little face, shrugged helplessly, and said, "Oh, people missed, horses stumbled, and I accidentally lost my way."

"Really." Shen Mengyao approached Lu Yang, and his little white hand reached under Lu Yang's waist and soft ribs, and then swiveled 360°.

"Well ..." Lu Yang took a sigh of relief from the pain and said, "Stop, stop, it hurts."

Shen Mengyao smugly said, "Let you bully me, but dare not dare."

This is the first time she has been humiliating. As a lady, Shen Mengyao has been deeply influenced by her mother. She has always been humble, courteous, elegant, and decent. However, when she encounters Lu Yang, she finds it so pleasant.

"Wrong, I sincerely admit my mistake. In order to express my apologies, I have an early morning here, please have a lot of adults, take your hands away first." Lu Yang hurriedly took out the steamed egg sandwich that had been prepared and said, "Try this . "

Shen Mengyao warned with a small face, "What is this?"

Lu Yang opened the lid, and the warm steamed cake with a scent of aroma made Shen Mengyao's eyes light up involuntarily. The eyes that seemed to be talking were really beautiful.

"Where did you buy it? I like it the most." Shen Mengyao said.

In the previous life, Shen Mengyao's favorite food was steamed cake near the school. How could Lu Yang not know.

“Just like to eat, as well as yogurt and mineral water.” Lu Yang took the trick out of his pocket.

“Did you buy it for me?” Shen Mengyao said in surprise.

Lu Yang said: “Not to mention, it is said that someone got up late, and the nice sister in your dormitory notified me to come and bring you breakfast.”

Shen Mengyao flushed and said, “Thank you.”

“You’re welcome. As a gentleman, serving the beauty is my purpose.” Lu Yang said.

Shen Mengyao blushed Lu Yang with a blush and said, “I know the poor.”

...

On the rubber playground in front of the girl’s dormitory, Mo Long, Huang Xiang and a group of boys are playing basketball. They are nominally playing basketball, but they are actually showing muscles to the girls.

When I first went to college, male classmates with male hormones all over their bodies can’t wait to taste the taste of love, especially if they can fall in love with Shen Mengyao, who is at the top of the school’s flower list.

Just when they were passionate, Lu Yang and Shen Mengyao came to the playground together. At that moment, everyone on the basketball court gave Lu Yang a hateful look at the same time.

“Who is this grandson?”

“Grab my goddess and kill him.”

“I don’t know how high the sky is, and the seniors dare to grab it.”

...

A group of boys looked at Lu Yang angrily regardless of their grade level. Mo Long and Lin Dong gave thumbs up to Lu Yang.

“This kid is too powerful. It’s really quick.”

“I bet that Colonel Shen must not escape Lu Yang’s hands.”

“I agree.”

The two were praising Lu Yang, but they didn’t know it, but Lu Yang was very depressed. He only knew that Mo Long told him to play basketball at the gate of the girl’s dormitory. Staring at dozens of murderous eyes, Lu Yang felt chilly behind.

Shen Mengyao expressed an awkward expression, and said, “Let’s go somewhere else.”

Lu Yang said, “It’s all right.”

A basketball flew over the head of the landing sun ~ www.mtlnovel.com ~ A snorting voice came from the court.

“Oh, I missed it.”

Lu Yang raised his hand to catch the basketball easily, and said, “It’s all right.”

“How about brothers to play basketball together, playing two games together before the start of military training.” Said a tall and handsome student.

Mo Long and Lin Dong came to Lu Yang. Mo Long said, "Don't play with him. He is the captain of the school basketball team, Li Quan."

Lu Yang smiled and walked to Li Quan while dribbling. He said, "It's still comfortable for you to learn, without military training, unlike freshmen like us, who are dying this month, I won't play anymore. It will not survive military training. "

"Why, dare ..." The sigh of sighing sounded again, but before he finished speaking, Lu Yang suddenly ran towards the ball frame. The talking man immediately stepped forward to intercept, Lu Yang simply turned around and avoided it. The opponent, then grabbed the ball with one hand and leaped high, and slammed the ball into the hoop.

The audience was shocked!

Chapter 247 - Excellent skin meat

"It's strong. He started near the free throw line."

"There are no physical teams in this school."

"It's time to play a professional league."

...

During the discussion, Lu Yang smiled at Li Quan and turned away.

Xia Yuwei's look at Lu Yang Han Zhong was surprised. When Lu Yang came back, she said excitedly, "Your physical fitness is so good."

Lu Yang said: "These are trivial."

This physical quality is still far from his peak body, and the reaction speed is 0.2 seconds slower than the peak period. Don't look at it only 0.2 seconds, but in the jungle of Southeast Asia where the bullets are raining, it is the key to your life.

The applause sounded.

Wang Jing stepped out of the shadows in the distance. He just saw all of Lu Yang's actions just now, and came to Lu Yang and said, "You have such physical qualities, it is really a pity to not be a soldier."

Lu Yang said, "Let's both say, let me consider it for a while."

Wang Jing said with a smile: "I just sigh."

Shen Mengyao said, "You are going to be a soldier."

Wang Jing rushed and said, "It was two years after serving as a soldier. I recommended him to go to an officer school to study and come out as an officer."

"There are very few recommended places in the army. My brother didn't get it last year." Shen Mengyao said.

"Yeah, this kid also said to think about it." Wang Jing was also very depressed.

Lu Yang said haha, "I don't have to follow the advice of my mother and father. I called the two of them last night. They came back after two days. I will give you a reply."

“Ok.”

Not long after, the students who had breakfast returned to the playground and began a day of drills.

Early morning training is okay. In the early morning of September, the autumn is very refreshing, but in the afternoon, the autumn tiger fiercely emits heat, plus physical training, everyone sweats.

Of course, Lu Yang is an exception. His body just sweats a bit. Like Wang Jing, he is almost fine.

While taking a break, even if there were girls in the distance, Mo Long couldn't help taking off his shirt and twisting his sweat and said, “Lu Yang, what do you do in your body? There is nothing at all.”

Lin Dong also undressed and said, “Yeah, you have no sweat at all.”

Wang Jing looked at the students who had all taken off their jackets and said, “Look at you one by one, you can't take any of this bitterness, and put on your jackets.”

The sweat-soaked clothes are just as cool as ice cubes when they are put back on the body. It is very uncomfortable to stick to the body and no one wants to wear them.

“Instructor, how can we have your physical fitness, I can't get tired.”

“Yes, the clothes are soaked, so you will catch a cold if you wear them.”

...

While the boys were voicing, the girl instructor in the distance suddenly shouted, “Let's go, let's take a closer look at the muscles of the boys.”

A laugh came from the girls' team. Many girls were overjoyed. Even when their faces were ashamed, they followed the instructor's words. When the teacher was 2 meters away from the boys, the instructor shouted, under."

The girls' team was laughing again. Where did the freshman boys have this cheeky face, with more than 60 pairs of eyes watching, one by one quickly put on their clothes.

Wang Jing looked at the proud expression of the instructor on the opposite side and said to the girls, "I want to see if the muscles are."

"Yes," the girls shouted without fear.

"Okay, let you take a closer look today. What is muscle?" Wang Jing pointed to Luyang Yang, "you, stand in the middle and take off your coat."

Lu Yang was watching a play, but he didn't expect to be named. He said, "Instructor, we don't bring this."

Wang Jing said with a smile: "This is an order, classmate Lu Yang, stand up to the middle."

Lu Yang reluctantly came to the middle.

Wang Jing came to Lu Yang's side and whispered, "Give you a chance, show your future girlfriend the following muscles, so many people have seen a lot of girls rob you, it will make her feel crisis."

Lu Yang was still speechless, but when he heard Wang Jing say this, he nodded happily and said, "That's a good idea."

Wang Jing nodded with satisfaction and said to everyone, "In modern society, boys and girls are too weak. To live in this society, we must first have a strong physique. Today I will let you guys See why you sweated all over after a while, but Lu Yang was fine. "

“Lu Yang,” Wang Jing shouted.

“Here,” Lu Yang said.

“Take off your coat.”

Lu Yang unbuttoned the camouflage clothes, revealing a body full of muscles, 8 abdominal muscles in the abdomen, the biceps and triceps on the arms do not need to bend the arms to swell naturally, the back deltoid muscles, the chest muscles, There are muscles on the shoulders.

This kind of bodybuilder-like muscles only appeared in front of their eyes on TV, and both boys and girls were shocked.

“This muscle is so handsome.”

“Human.”

Chu Yu looked at a girl in her class and said, “Don’t drool, you’re dead.”

“Really handsome.”

Mo Long and Lin Dong were speechless when they saw Lu Yang’s muscle. They only had admiration in their hearts and could exercise such muscles. Mo Long and Lin Dong couldn’t imagine how hard training Lu Yang had been trained. What kind of perseverance can make this happen.

Lu Yang put on his clothes again, fastened his buttons, and looked at Shen Mengyao quietly, but found that Shen Mengyao was also looking at Lu Yang with beautiful eyes, facing each other, Shen Mengyao could not help lowering his head and blushing.

“This guy must have shown muscles in front of me intentionally.” Shen Mengyao thought to himself:
“But, it is really handsome.”

Chu Yu quietly said in Shen Mengyao's ears: "Lu Yang just watched you ~ www.mtlnovel.com ~ Where can I say it?"

While everyone was discussing, a sharp-eyed girl shouted, "Lu Yang, why is there a bruise on your waist, who is it?"

Lu Yang lowered his head and looked at the soft ribs around his waist. Sure enough, he could not help laughing, but Shen Mengyao was even more shy and almost buried his head in the soil to become a little ostrich.

Wang Jing couldn't help laughing, but his face gradually became serious and said, "See, this month you trained with me, I don't want you to reach the level of Lu Yang, but at least men You have to build muscles for me. I don't want you to look disgusted when you go out and say that I am Wang Jing's soldiers. Hear no. "

"Yes," the boys' team shouted uniformly.

The training continued. Except for lunch at noon, everyone spent the entire day in training, and it didn't stop until the evening.

The boys didn't even have the strength to talk. They returned to the dormitory with sorrow, and the girls were pardoned. Only Lu Yang turned away and left in a silent expression.

Chapter 248 - Disturbed priest

arrive home.

Lu Yang logged in to the game and appeared in the Demon Temple. After offline, the game player will stay in place and be easily attacked.

The set of demons that Lu Yang hit was not enough, so he didn't choose to return to the city, so he returned to the demon temple to rest.

Jiang Ze sent a message and said, "Today, more than 3600 pieces of black iron ore with a quality of more than 20 and 50 pieces of gold ore with a quality of more than 50 have been dug."

Lu Yang said, "Continue, these things are temporarily placed in the guild warehouse."

Jiang Ze frowned and said, "The Guild Warehouse can't fit anymore."

"Don't worry, these things will soon be useful," Lu Yang said.

Black iron ore was specially used by Lu Yang to upgrade the armor of the demon. Turn off the phone. Lu Yang continued to kill special demon guards along the third floor of the underground palace.

Today he is going to enter the demon temple to see, there is a demon lord in the temple, there is a chance to drop the siege order of the red fortress.

Unlike other fortresses, the siege of the red and gray fortresses and the orc border fortress are only produced by the level 30 map of the abyss dungeon and the orc's demon temple. Since coming to the demon temple, Lu Yang must also Come in and explore.

All the way to the fifth floor, Lu Yang collected six sets of demons, came to the entrance of the sixth floor, Lu Yang looked at the magic potion in his backpack, there are 5 groups.

The red light lit up, Lu Yang returned to the demon temple, put the demon suit on the ground, changed the potion and filled his backpack back to the palace.

The sixth floor of the underground palace is a hexagonal honeycomb maze. However, this honeycomb maze is a bit large. Many players in the previous life did not go out after playing for 5 years.

On the one hand, the maze is too large, and on the other hand, there are demon guards and demon archers everywhere in the maze. Once these demons are activated, they will not enter the seal state again. Therefore, many people are sledgehammers just after entering the maze. He was killed on the ground, and even if he was not dead, he was running out of potions in his search.

If there is no large union to open up wasteland, only the first person to enter will take a little advantage.

However, this first opportunity must be based on the player's knowledge of the maze roadmap. As it happens, Lu Yang walked here numerous times.

Entering the maze, the ten demons in the first room faded off the grey seal at the same time, and Lu Yang ran into the small door on the left while taking this time.

...

The honeycomb maze has a total of 1686 rooms. There is only one road to the 7th floor, which can be reached through 24 rooms. Lu Yang runs all the way through these 24 rooms and enters a very wide hall.

System prompt: you found the demon temple

The hall is 500 square meters in size. The floor of the entire hall is made of black rocks. The surrounding walls are also black. There is a **** stand directly opposite the doorway, and a giant sheep head monster standing 5 meters above it. Statue, monster's arms are similar to demons, with empty arms without any weapons.

It seems that humans and animals are harmless. In fact, he is the supreme leader of the demon army and the demon lord.

"Inflammation"

Lu Yang's mouth spelled out and turned into a 5-meter-high flame demon.

The demon lord is now in a sealed state. To unlock the seal, just approach the demon lord. Lu Yang gradually walked towards the demon lord. When he came within 10 yards of his range, the entire hall shook inexplicably.

The gray shell of the demon lord appears densely cracked like a spider's web. With a bang, the gray shell is broken, and the gray-red demon lord jumps off the stage and the flames burn in his hands.

Demon Leader (Lord)

Level: 40

Qi and blood: 1500000/1500000

"Damn Aborigines, even dare to seal me with demon eyes, I want to kill all of your clan." The demon lord roared towards the landing sun to launch the charge skills, holding hands and both hands together above his head and raised red flame.

This is the unique skill of the demon lord's fist. After being hit, he takes 3 times damage and triggers a summoning effect. 10 demon guards appear in the firelight.

The most difficult place for the demon leader to fight is here. This is a skill that can be summoned as long as the enemy is attacked. The summoned demon guard has a high probability of being a boss-level guard, even if it is a 50-person team to fight the demon guard. Can't beat it.

The last generation was able to play the demon lord, a guild released a clever play, choose to use the thief to turn on the dodge effect instead of the warrior anti-demon lord, the thieves after level 30 can learn a skill that increases the dodge effect by 75% within 1 minute, plus Shang Dodge can almost completely avoid the attack of the demon lord.

Lu Yang didn't need this. When the demon lord rushed in front of him and was about to hit him, a flash of white light appeared on Lu Yang's body, appearing 35 yards behind the demon lord.

“Flame Storm”

A black ripple appeared at the feet of the demon lord, and a 13-meter-diameter beam of flame soared into the sky.

“1106”

A stun symbol appeared on the head of the demon lord, but it only stayed for 0.1 seconds. When the demon awakened and was ready to continue attacking Lu Yang, Lu Yang, who turned into a flame demon, stunned the demon lord in a flame storm. Out of place.

The demon master’s second charge ability cannot be intercepted and can only be used step by step towards Lu Yang. Lu Yang struck 10 consecutive flame storms before coming to him. When he fought the flame fist again, Lu Yang threw it out first. Escaping the dagger, the blue light flashed, and Lu Yang again came to the position of 35 yards behind the demon master.

The demon lord seems to know that he was turned around by Lu Yang to make a roar and launched a charge towards Landing Sun, but ~ www.mtlnovel.com ~ Lu Yang has no cooling time in the state of inflammation, and the demon lord can only be attacked step by step. Lu Yang.

When he came to Lu Yang again, Lu Yang’s feet burst into flames. The blazing speed of level 3 made Lu Yang move twice as fast as the demon lord. Lu Yang stepped back and played one step while using the meteorite in the opposite direction. Rush, let the meteorite roll in the direction chased by the demon lord.

Not long after, the demon lord’s health dropped to less than 50%, and Lu Yang hadn’t suffered any damage.

“Ignorant bugs, I will make you pay.” The demon lord doubled his body, opened his hands, and two flame portals came out.

Lu Yang stepped back 30 yards to the corner. The fire wall on the ground had already extinguished. Lu Yang released the fire wall in front of him again and surrounded himself in the corner.

The flame portals opened, and the demon guards stepped out one by one, and rushed towards the landing sun after landing, but when they came to Lu Yang, they stopped outside the wall of fire.

Lu Yang sneered. This is a famous game bug of the last generation. The lord is not afraid of the flames, the mobs are afraid of the flames. As long as the flames are set around the corners to lead the mobs to surround themselves, they are not afraid at all, and the boss cannot move at this time.

Chapter 249 - Phoenix Egg

Taking advantage of this opportunity, Lu Yang's mouth read a spell, and 5 layers of burning were set on the body of the demon lord.

“Meteorite Impact”

陨 Meteorites fell from the sky and crushed the demon lord, and the blood of the demon lord quickly dropped. Within 30 seconds, the portal that should last 2 minutes was forcibly broken by Lu Yang.

“I'm going to kill you.” The demon lord roared towards the landing sun with a roar, but unfortunately, he was blocked by the demon guard in front of him and could not move.

Luyang continues to use meteorite impacts, and it is the best choice to deal with strange meteorite impacts that cannot be moved in a large range.

After 3 minutes, the blood of the demon master returned to zero, and he fell to the ground with a wailing cry.

System prompt: You killed the demon leader

You have gained 30,000 experience

8 An 8 * 8 big explosion appeared around the demon lord, Lu Yang could not wait to fly over to see what good things had burst out, but there were more than 200 demon guards in front of him, many of which were boss-level.

After he killed all the surrounding demon guards, Lu Yang ignored the demon suits on the ground, and started flashing skills. White light flashed on the side of the demon lord.

Punching a golden-colored egg made Lu Yang's eyes wide open and said excitedly, "It won't be true."

Phoenix Egg

Type: Fire Spell

Effect: Summons a fire phoenix to participate in the battle, inflicting 64 Holy Fire damage to surrounding enemies every second, and 264 Fire damage.

If the strongest summoning beast on the ground is Warlock's Hellfire Lord, the strongest summoning beast in the sky is the Phoenix of Fire.

Lu Yang never thought that his luck could be so good. Even the Phoenix Eggs burst out. In the memory of the last life, the game had been running for ten years, and there were less than 1,000 fires who owned Phoenix.

He put his right hand on the Phoenix Egg and chose to hatch. A burst of light turned on. The Phoenix Egg turned into an icon and appeared in Lu Yang's skill bar.

Lu Yang clicked to call, hissing sounded, and a fire phoenix with a length of 5 yards appeared on top of Lu Yang's head.

flaming Phenix

Qi and blood: 5000/5000

Flame attack: 687—802

Special Effect: Deals 258 Holy Fire damage to nearby enemies every second

Beacon Phoenix's level is increased with the level of fire skills, the highest can be raised to level 20, which happens to be, Lu Yang knows how to upgrade.

Originally, the next level of the demon heart needed to kill the level 80 lord monster to get the props. Lu Yang thought he would not be able to upgrade the demon heart until the level 60. I did n't expect to get the fire phoenix now. Relying on Fire Phoenix Luyang alone can sweep through the bosses in the server. The thought of Luyang can't help but get excited.

Put away the fire phoenix, Lu Yang continued to look at other equipment, a reddish token on the ground emitted a dark red light.

Siege Order

Description: Anyone who has a fortress siege order can apply to the King of St. Gall for attacking the red fortress.

With a strong fist, Lu Yang knew that he could hit the token. This was the case in the last life. In order to prevent these two special fortresses from getting into the player's hands too early, the Terran Map always fell off the Orc Fortress. The orc map blasted the human fortress siege order, and he was a bet on this trip.

收 Packed the siege order in his backpack, and Lu Yang sent the red fortress siege order to 19 people including Zhuojiu and Xia Yuwei in the simulation group.

“My God, boss, you really beat out the Red Fortress siege order.” Zhuo Jiu Qing said.

“Haha, we may have the opportunity to reach the first fortress.” White Wolf said.

Lu Lu asked, “What’s wrong.”

“Boss, I just got the news that the situation of the male-dominated wasteland fortress was known by the bloodthirsty bully, and he laughed at me. Originally, the bloodthirsty bully was watching the late old man get entangled by the little guild and attacked us after buying the male bully, He found that the bully was secretly opening up the wasteland of Black Rock City, and now the bloodthirsty Batian soldiers are outside the Black Rock City, and they may fight the Bully at any time.” Bai Lang said.

Lu Yang Yile said, “There is still this.”

Jiang Ze then said: “Well, right now, the storm in the entire city of St. Gall is likely to start war again.”

Lu Luyang said: “God help me too, everyone, we will officially open the Red Fortress tomorrow and gather 6000 members in the name of preparing for war.”

Yunzhuo said with emotion, “If you want to say how loyal you are to the guild, any guild player can’t compare to our 13 thousand brothers, and think about it.”

“Isn’t it? This 10,000 brothers have experienced so many ups and downs with us. They are the ones who support us most. Other guilds have conflicts and are not happy. Our guilds have never broken things.”

“I have to compliment one another. The boss is really good and able. He can be both bitter and rich, and he can be the boss of other guilds. If he gets such a large batch of equipment, he can leave half of the guild.” That’s right, the boss is allotted to members. Whoever has any dissatisfaction, look at the boss and have no temper.”

Wu Hanliu's cold voice appeared: "The boss's feeling of that archbishop in a game of power."

Everyone nodded and agreed.

Lu Yang said, "How can you say so powerfully, where do we go? A 100,000 guild is not my ultimate goal ~ www.mtlnovel.com ~ Don't forget that there will be racial warfare and National war, my boss's goal is to take you to dominate the world. "

Everyone admired and heard Lu Yang's words, as if there was a clear spring flowing in his heart. Only this kind of magnificent person can have the most forgiving mind.

所有人 "Everyone remembers, at 5 pm tomorrow, we will open the Red Fort on time, and everyone will gather half an hour in advance, don't be late." Lu Yang said.

"Yes," the crowd agreed.

Closed the intercom, Lu Yang collected the demon suits, and collected 9 more. A total of 20 Lu Yangs were collected before they stopped.

Saturday the next day.

Lu Yang didn't need to go to class. After logging in to the game, Lu Yang came to the bank of St. Gall and took out various grades of black iron ore and low-grade bronze jewelry from the guild warehouse.

In the past two days, more than 3,000 pieces of black iron ore were dug out in the guild. After Lu Yang had all been transported to the demon temple, Lu Yang took out his fate sieve and shook it.

Three numbers add up to 17 points, big.

System Tip: Increase your luck by 10 points for 30 minutes.

Lu Yang put demonic armor, 2 pieces of black iron ore, and 4 bronze jewels defending 0-1 into the demon altar and click to upgrade.

System prompt: successful forging

Wraith Armor

Level: 26

Defense: 12-23

Stamina: +12

Constitution: +20

Effect: Increase fire resistance by 50 points

Chapter 250 - Red Fort

Lu Yang then put the demon armor on the altar, and it was upgraded 10 times in a row. The defense of the demon armor became 12-37 points, a full 15 points higher than before. Fortunately, 4 jump points occurred during the period. 3 1 time, 2 time.

10 points of defense is nothing, but 8 points of equipment have been upgraded 10 times, and the increased defense has reached 80 points, which is too important for a meat shield role.

It's not just to improve defense. Lu Yang also synthesized gems. Before that, Lu Yang let all his trumps avoid the bloodthirsty chase and kill Level 5 copies to fight gem fragments. In the past two days, Jiang Ze has deliberately found 1000 Trumpets to fight gem fragments. A total of 120,000 gem fragments were hit, and there were more than 10,000 first-level broken gems. Lu Yang took them all this time to synthesize.

If you want to talk about the most pitfalls of the Second World game settings, gem synthesis is invincible.

If you want to upgrade a gem, you need to synthesize with another gem of the same level. It can also be used at lower levels. If you want to synthesize to level 10, you need 512 gems of level 1.

4 shards of gems can be combined into a shattered gem, 4 shattered gems can be combined into a 1st-level gem, and there are more than 20 types of gems including attack, defense, magic, intelligence, etc., and finally the real synthesis is completed to 10. There are only more than 20 levels.

Among them, there are 7 with blood and 5 with defense. The others are intelligence and attack. This data is far from Lu Yang's requirements.

He sent a message in the simulation group to the old man and the old man in the twilight, saying, "Is there a gem to support me?"

Xiong Ba and Chi Mu are awkward because of the fortress. They don't want to talk to anyone, but they are very polite to Lu Yang.

"I can't give you advanced ones. I have more than 60,000 gems in my warehouse. If you want me, I will sell you 500 gold coins," said the old man.

As a large union with more than 100,000 people, it has been developing quite well from the beginning to now.

Xiongba said: "I have more than 40,000 gems here. If you want, give me 300 gold coins."

Lu Yang said: "Then I'll be polite with you two, I will have the gems."

Xiongba asked: "What do you want so many first-level gems, this thing is too laborious to upgrade and always fails."

Lu Yang said: "I have a way to upgrade. I can upgrade to level 5 at most. My equipment is not as good as yours. I am going to use gems to upgrade my men."

He didn't want to reveal his hole cards, so he only said half.

The most worrying thing about Xiong Ba and Chi Du is the gem upgrade. Now Lu Yang has a way, both of them have bright eyes.

"If you help me upgrade a batch of Grade 3 gems, I don't want the money for Grade 1 gems," the old man said.

"Me too." Xiongba said.

A person can wear 17 pieces of equipment, each of which can forcibly open a slot and wear a level 5 gem and a level 3 gem. Taking the attack gem as an example, the difference is almost 136 points.

Lu Yang said, "No problem, just give me the gems now. I will upgrade the two of you today. If you or anyone needs help in the event of a war, please tell me. My side has called for preparation, 3000 People can fight at any time. "

Xiongba said, "Not for now."

The old man in the twilight said, "I don't need it for the time being. I'll look for you when I can't handle it."

Neither of them died, but neither of them wanted Lu Yang to blend into their fortress.

Lu Yang guessed that the two would say so, and did not mention this aspect. After getting the gems from the two, Lu Yang was conducting gem synthesis for a whole day.

A level 10 qi and blood gem can increase qi and blood by 600 points, and a defensive gem can increase defense power by 60 points.

Lu Yang inlays a set of demonic equipment with 4 blood gems and 4 defensive gems. Blood and blood gain an additional 2400 points and defense power by 240 points.

Such a set of equipment is normally only matched by real local tyrants. Lu Yang was able to do this thanks to the memory of his last life. Even so, he exhausted all the resources in his hand to complete 20 sets.

5 pm.

Outside the red fortress, muddy wine pouring and Xia Yuwei and others have assembled.

"I said, since people are all together, we might as well explore it advanced, a fortress, we should be very relaxed." Mao Qiu said.

Everyone was a little moved, and 6,000 people waiting here were not the answer. White wolf said, "Let's go, let's take a look at it and give the boss a stand."

Red fortress.

A huge stone fortress built on the top of Black Rock Mountain, before entering the fortress, you must enter the fortress.

This spot can accommodate 10,000 players. When 19 people, such as Zhuo Jiu Qing and Xia Yuwei, came out of the spot, everyone, including the white lion and Han Liu, showed a dull expression.

On the battlefield, countless flame flying snakes, lava spiders, and fire beetles are being assembled. Each monster has the word "boss" behind it, and they all come together and hit one, which can attract more than one hundred Each.

"No, they are all boss monsters at level 30. A few of us are only at level 26. The others are all around level 20. This can't be beaten." Mao Qiu frowned.

Zhuojiu tilted his head and said, "Go back, let's wait for the boss."

The crowd nodded and pulled down together. When they returned to the front of the team, they found that Lu Yang had already arrived.

"Boss." Zhuo Jiu and others ran to Lu Yang.

Lu Yang asked with a smile: "You went inquiring."

Mao Qiu said, "Yeah, the strange inside is too difficult, we can't beat it."

Lu Yang said with a smile: "I didn't even see this fortress right now."

Everyone was a little embarrassed.

"Normal, hard work is good," Lu Yang said to Jiang Ze, "call 15 more paladins or fighters who have reached level 26."

"Okay." Jiang Ze sent a message and ordered 15 Paladins in each team to gather here in Luyang.

"Boss, is there anything special?" Mao Qiu asked.

Lu Yang took the prepared demon suit out of his backpack and gave it to Zhuo Jiu Qing Duan.

“Demon suit.” Zhuo Jiu glanced at the attributes of the suit, his eyes couldn’t help widening, and said excitedly, “Boss, how much did you spend?”

“What’s wrong,” Mao Qiu asked.

“Raised 10th level, and 10th level gems!” Han Liu was surprised, even she did not have 10th level gems.

The muddy wine pours into the demon suit, the defense ability reaches 650 points, the fire resistance 350 points, the blood 7000 points.

“Boss, this equipment is too powerful.” Zhuo Jiu said excitedly.

Lu Yang smiled and said, “Can you fight the strange inside now?”

“No problem, let me have all the resistance.” Admired by the muddy wine admiration, 350 fire resistance offset a large part of the damage.

Mao Qiu said, “Boss, now we are full of confidence.”

Chapter 251 - Wasteland

Another 15 paladins came over, stood beside Lu Yang, and said, “Boss, we are here.”

Jiang Ze pointed to a player named Shengguang Huyou and said, "These people are the players you usually tell me to pay attention to. You are the best of them."

Everyone laughed when they heard the name. Lu Yang said, "Your name is special."

Shengguang flickered at you and couldn't help but scratching his head with Lu Yang's name, hehe smiled and said, "Thank you, boss."

Lu Yang took out the remaining 19 sets of demons from his backpack and said, "Everyone wears one."

Love for half a life, Zhang Zibo, White Lion, and Shengguang flirt with you and others to put on their own equipment, and everyone's blood has reached about 7000 points.

"26-level 7000 blood, is indeed the boss, the equipment given is powerful." Shengguang said excitedly.

The white lion slammed the shield with a long knife and said, "Hey, now let me fight against those strange problems."

"Don't worry." Lu Yang beckoned and said to Lan Yu: "Girl, come here."

Lan Yu was watching Lu Yang full of worship, and Wen Yan rushed over and said, "What is it?"

Lu Yang took out 20 sets of Grunt Chaos Magic Flask from his backpack and said, "Eat this, and eat until the intelligence plus 1700 attribute appears, and then you give them the Holy Spirit Protection."

"Oh." Lan Yu took the mixture and ate it, turning it into a green fat ball.

Lu Yangxi didn't hold back and laughed. Zhuo Jiu Qing and Xia Yuwei and other people thought that the laugh was very high, and they all laughed when they saw Lan Yu.

Lan Yu also found out her situation and looked at Lu Yang with an open mouth, "Brother, you bully me."

Lu Yang's heart was quickening, and he smiled and said, "I didn't bully you. This mixture looks like this, otherwise it's called Guru Chaos Magic Mixture."

"Trust you once." Lan Yu knew it was not the time to be coquettish, and jumped in front of the crowd with her fat body, so that 6000 people behind her could not see it, and continued to drink.

With a bang, Blue Feather turned into a zombie

For a moment, the blue feather turned into a gooworm

...

When drinking until the sixth group, Lan Yu became a king of grunts wearing a crown, triggering the effect of adding 1700 intelligence.

"I succeeded." Lan Yu said happily.

Lu Yang said: "Quickly use the Holy Spirit Guard, this effect can only last 5 seconds."

Lan Yu nodded, and the words in his mouth read that 20 people, such as Zhuo Jiu and Zhang Zibo who were standing together, used the Earth Spirit Guard.

Earth Spirit Guardian, adds 30+ spell damage / 10 defense effect to group players for 1 hour.

Lan Fei's magic damage has more than 300 points. Under the 1700 intelligence bonus, Lan Fei's magic damage suddenly increased to more than 2000 points.

I loved watching my defense for a long time from 660 to 860, and said excitedly: "I have increased my defense by 200 points. Who can touch me with more than 800 defenses?"

“It’s not enough, wait.” Lu Yang took out the intermediate flame protection potion from his backpack and said, “eat this again.”

Intermediate Flame Protection Elixir (Special): Increases the fire defense ability by 200 points after use.

White Lion got the potion and said dumbfounded, “Improve 200 fire protection ability, boss, and such a powerful potion.”

Lu Yang said: “It could only be increased by 100 points, but these potions are special potions made by the boss of the Song of Blood and Fire drugstore, Jin, and they have doubled their attributes. That’s good.”

Everyone admired.

Sun Yu said, “Boss, how much did you spend?”

The demon suit has been upgraded by level 10, and there are also gems at level 10, and now has the chaos potion and intermediate flame protection potion. Any of these things is of high value.

“I don’t feel like I can’t make it more than 100,000.” Han Liu said.

Everyone was amazed again.

Lu Yang said, “You know what I’m going to do, okay. Let’s team up and open up the red fortress with me. Be sure to lay down some soldiers today.”

“Yes.” Everyone was full of fighting spirit.

A large army of 6,000 people began to adjust in an orderly manner. Twenty players wearing a demon suit, such as turbid wine and holy light, stood at the front, followed by a long-range and healing mixed formation. They were evenly divided, each behind him wearing a demon suit. All followed 300 people.

It's like the coordination of infantry and tanks during World War II. [Tan] grams ahead and infantry behind, this is the best formation that Lu Yang can think of.

Came to the point of soldiers and watched tens of thousands of flame snakes and fire spiders.

Flame flying snake (boss)

Level: 30

Qi and blood: 150000/150000

Lu Yang shouted with one finger in front of him: "Zhuo Jiu, etc. attracted hatred forward, healed blood, and remotely exported occupations to listen to my orders.

Different from just now, people such as Zhuo Jiu and bitter love half-life no longer fear these monsters in front of them, find a good formation, and move forward with their big shields 10 yards apart.

The point of the battlefield was exactly 200 yards wide. The elite monsters and boss monsters, such as the fire spider, fire beetle, and flame flying snake, saw the intruders rushing up and rushing up to surround them.

Among these monsters, the fire flying snake has the highest attack power, 800 points, and each additional 600 fire damage, and the combined attack power has 1400 points.

However, only 50 points of blood can be beaten on the muddy wine dumplings, because the defense power of muddy wine has reached 860 points, which exceeds the attack power of the fire flying snake ~
www.mtlnovel.com ~ eat intermediate protection The flame resistance of the potion reached 550 points, so the tens of thousands of flame flying snakes, fire spiders and fire beetles that should have slaughtered the invaders could only help 20 people around the muddy wine.

Countless treatments fell on Zhuoju and others. Lu Yang waited for 30 seconds. After seeing that the hatred of Zhuoju and others established stability, he shouted loudly: "Remote output, first hit the strange behind. "

As long as you can resist, the monsters in the back are blocked by the front and can't be washed away. This method is one of the most famous methods in the last life. Time to say the solution yourself.

At that time, the copy of Bloodthirsty Badlands had been wasteland for 1 year. After gaining a deeper understanding of the game, Bloodthirsty Badger will have a series of special items such as Grunt Chaos Mixture, Intermediate Flame Protection Elixir, and Demon Suit. Speak out during the interview.

In his words, if he could own these items when he opened up the wasteland, he would definitely be able to lay down this fortress easily, and it would not have cost millions to spend half of the strength of the guild to open up the wasteland successfully.

Now, he has all the things that Bloodthirsty Heaven had in the dreamland of the last generation, and he wants to see how much benefit Bloodthirsty Heaven has gained since the land was opened up.

Chapter 252 - Xia Yuwei dancing

Not long.

Under the attack of various magic and skills, the first batch of flame snakes and fire spiders on the field were killed, and a lot of equipment, potions and drawings burst on the ground.

Including the pouring of muddy wine, everyone consciously stood in place, and no one moved the objects on the ground.

Lu Yang brought Xia Yuwei and others to the front, and a piece of equipment with a golden light attracted everyone's attention.

Armor of Faith (Gold)

4 pieces: additional 40 attack damage

8 pieces: The attack has a certain chance to trigger the sacred belief, and the attack becomes sacred damage

For knights

“This suit is so strong, it has more than 170 defenses, just like a steel plate,” said White Wolf.

Lu Yang said: “This is the best equipment for Paladin before level 40.”

The Faith Set is one of the four sets produced by the Red Fortress. It is divided into four levels: black iron, silver, gold, and dark gold. Gold and dark gold are generally exploded on the lord’s monster. There was a burst here.

If 8 sets are assembled, after triggering the sacred belief, the Paladin is like an angel, and there is no problem in playing 8 of the same level. However, this top-level suit is very rare and it is difficult to get together.

All the knights in the team saw green light in the eyes of this piece of equipment. The muddy wine pouring and the white lion’s eyes watching Lu Yang were not calm.

However, the turbid wine still refused the idea of asking Lu Lu and said, “Boss, don’t share this thing with your brothers. You sell it. You can’t always make you lose money in the guild like this.”

Lu Yang shook his head and said, “Put it into the guild warehouse, and let the brothers in the guild use the guild points to redeem. These things are far from suitable for the brothers.”

“Boss ...” Lu Yang interrupted Lu Yang when he wanted to talk and said, “You don’t need to persuade me, it’s so decided.”

“Yes,” the crowd said together.

Jiang Ze and Tu Feng took their men to take inventory and collect equipment. After they had collected all of them, Lu Yang sent pictures of all equipment to the team channel.

“Gold-level equipment.”

“This property is great.”

“Silver and black iron also have better attributes than regular level 30 attributes.”

...

The members of the team talked one after another, and Lu Yang turned his head and said to the players behind him, “Brothers, I do n’t want one piece of equipment, this time, all the equipment will be placed in the guild warehouse, and the guild brothers will redeem points. “

The 6,000 people in the regiment looked at each other, who did not know who shouted first, “Boss mighty.”

“Boss mighty.” Shanhu’s tsunami-like voice rang through the fortress instantly, everyone in the regiment was full of energy.

Lu Yang pointed at the second batch of flame flying snakes and fire beetles in front of his hand and said, “Continue to drive monsters and kill them.”

People such as Zhuojiu and White Lion moved forward collectively, and the speed of killing monsters increased by at least 30% compared to the previous time.

Soon, the 5000 yard yard was cleared, and it turned out that a complete set of beliefs had been brushed out. At the same time, the fire robes (dark gold) of the mage fire spirit set were also brushed out.

Lu Yang also didn’t wear it, and put it in the guild warehouse, which surprised people like Han Liu and Vulcan M16.

Lu Yang said, "Boss, I won't do much in the next period of time, you get these equipment first."

With Fire Phoenix, Lu Yang is no longer the main attacker, all he needs to do now is to find a way to upgrade Fire Phoenix.

Moving on, Lu Yang led the team to the steel wall of the red fortress. The entire steel fortress was built on the mountainside. The other three sides of the fortress were steep cliffs. If you want to enter the fortress, you can only take the front door.

There are five corridors in front of the gate of the Red Fortress. Lu Yang pointed at the corridor and said, "According to the news of the purchase, if you want to open the gate of the fortress, you must attack the five corridors together, and kill the guards at the same time. Behind the Fire Spear Troll Lord. "

Zhuoju asked, "Boss, is there any information in this?"

Lu Yang said: "The Trolls of the Fire Spear Tribe are stationed in the corridor. I don't know exactly what traps and special blame there are. What I get is that the boss inside will fire a fire spear, which will damage 200 points each time. , The fire damage is superimposed wirelessly, how to see how many of you are on the spot. "

Unless Lu Yang backed up all the game data when he was reborn, he could not know how the mobs would play and the specific play of each boss. After all, he had never opened up this place.

"Boss, give it to us," White Wolf said.

"Finally we can use our strengths, and if we don't show it, I feel like I'm eating mixed rice," said the Twilight Harvester.

"That is, always following the boss, I feel like I'm useless." Sun Yu said.

"It's better to try it out and see who hits the fire spear first." Zhuo Jiu said sloppily.

“Okay, bet on gambling, then it will be challenging.” Bai Lang said eagerly.

“How to lose?” Xia Yuwei asked.

For the first time, Zhuojiu dumped his expression of lack of morality and said, “Yu Wei lost a dance to us, how about it.”

“Agree.” White Wolf.

“Agree.” White Lion.

“Agree.” Bai Hu.

...

“Agree.” Lan Yu.

Nineteen people voted in favour.

For the first time, Xia Yuwei showed a shy expression. She bit her red lips and looked at Lu Yang and Zhuo Jiuqing and others said, “Both bully me, don’t you, I lose and dance, I win, you win. Help the guy undress my sister and dance in front of all members. “

Lu Yang said, “I was the referee, and it was such a pleasant decision ~ www.mtnovel.com ~ The people who looked at the turbid wine and Bai Lang looked at each other and showed excited expressions. Xia Yuwei was really beautiful Now, any man can’t say a word when he sees Xia Yuwei, not to mention Xia Yuwei’s gorgeous and biting red lips biting her red lips at this time, letting people such as Zhuojiu reveal their true thoughts.

Zhuo Jiu poured his head back and shouted to his members, “They all listened to me. We just made a bet. I won, and Queen Rose danced for everyone.”

The howls of wolves kept coming and going.

Zhuo Jiu poured in and said, "But if I lose, I will take off and dance. If you want to see me, you still want to see Queen Rosa."

"Queen of the roses."

"We fight for the queen to dance."

"Queen Rose is my goddess."

...

The wolf's cry reached the top, not only the muddy wine pours out his wolf, but also the men of Bai's three males, bitter love half-life and Sun Yu.

Chapter 253 - Eternal life emblem

Xia Yuwei's face was ashamed but she still proudly said, "Wait, see how I can win you guys who are unethical."

Xia Yuwei led the team into the middle gallery.

"I went too, brothers, come on. Whether Queen Rose can dance or not depends on everyone's efforts." The turbid wine poured into the first promenade on the left.

The white wolf learns like a wolf and howls to lead the second door on the left.

Although I only loved Hanliu for half of my life, but when I saw the excitement behind him, he said to Sun Yugong, "For the benefit of my brothers, I also worked hard this time."

Sun Yu said: "Do your best, otherwise our brothers will have to turn their backs on us."

They each led a team into the two corridors on the right.

Lu Yang looked at his running out men and walked leisurely into the middle corridor. He didn't worry about whether the turbid wine and others could fight it.

The teams such as Zhuo Jiu Qing Duan, Bai Shi Sanxiong, and Mi Ai Bei Sheng are all god-level players from the last generation, plus black notes, red leaves flying and flame knives. There are five more corridors where Lu Yang can split his hands to level.

While having time, Lu Yang read the spell, flickered into the Demon Temple with a flash of red light, and took out the dice of fate and tossed it out.

The system prompts: You threw 18 points and got lucky +10 for 30 minutes.

Take out the faith suit from the backpack, Lu Yang upgrades one by one. After level 30, the player needs to upgrade the experience every tens of millions, and it is impossible to upgrade one level without a week or two.

Therefore, in the next one or two months, the level 30 equipment will become the mainstream equipment of the game, and Lu Yang is ready to match them with Zhuoji and White Lion.

After the upgrade, Lu Yang then took out level 10 attack gems, all inlaid on the equipment.

“Boss, I have opened the corridor.” Suddenly a message came from Sun Yu.

Lu Yang looked at the time in astonishment. It had just passed 15 minutes and said, “How did you fight?”

Sun Yu said with a smile: “I ran out of the fortress outside the fortress, and now I’m running back.”

As soon as Lu Yang covered his face, he forgot that the boy had a wind elf.

“Well, I’ll let them know.” Lu Yang sent a message to Xia Yuwei, Zhuo Jiu, and others. When they learned about Sun Yu’s play, Xia Yuwei gritted her teeth, and Zhuo Jiu and others frowned.

Team channel.

Xia Yuwei gritted her teeth and said, “Give me a week of preparation time, and I will dance for you.”

The guild was boiling, and no one thought that Xia Yuwei had such a big charm.

Lu Yang said in a private message to Xia Yuwei, “I really want to dance.”

Xia Yuwei said: “I have learned dance since I was young. Rest assured, I can handle it.”

“Well then, if you don’t want to jump, you can tell me at any time.” Lu Yang was worried that Xia Yuwei’s face could not get through, after all, dancing in front of so many people.

However, even Lu Yang didn't expect that because of this dance, the number of Luyang guilds exceeded 150,000, and they were all senior players at level 20 or above. Even the two brothers of Hell Paradise, the famous god-level double player of the world, were both willing to come to Xia Yuwei's Majesty, but this is all an afterword.

Ten minutes later.

Zhuoju poured a message to Lu Yang and said, "Boss, our five teams have all opened up wasteland to the leader of the fire spear, whether to play."

Lu Yang nodded and said, "Hit, report every 10% of blood loss, and report every 1% when the last 5% is left."

Fire Spear Iskar and the other four brothers are the captain of the Red Fortress Lord. The five brothers are given the ability to symbiotic. As long as they are not killed at the same time within 1 minute, they will be resurrected with blood.

After Lu Yang introduced the way of boss clearance, let them attack each other, and when he came to the end of the promenade with a suit of faith, just five teams killed the final boss.

Xia Yuwei was picking up Sun Yu's ears to clean up the little brother, and said angrily, "I have hurt you so much before, even you helped them."

"Oh, sister, I was wrong." Sun Yu was turned around by Xia Yuwei for several laps, and he begged for mercy.

"Boss is here." Zhuoshu coughed and coughed.

Xia Yuwei suddenly let go of her hand.

Lu Yang asked with a smile: "What equipment did the 5 bosses burst out of?"

Xia Yuwei said, "I hit a special item called the Broken Eternal Life Badge."

Broken Eternal Life Badge, Description: The president who is stained with the essence of the Phoenix, the holder can get the eternal life effect.

"Some of us have one of them," said Zhuoju pouring.

"Give me all of this." Lu Yang felt inwardly.

It turned out that the famous immortal badge of the last generation was hit here. There is no useful hint on the introduction of this badge, but the five broken badges combined into a complete one will get a hidden Phoenix level +1 effect.

If you upgrade this badge to level 10, you can get the effect of Phoenix level +3. Lu Yang is trying to upgrade the Phoenix. I never found one of the two accessories that can increase the Phoenix level.

"Boss, what is this badge for?" Bai Lang asked.

Lu Yang said with a smile: "You will know after a while, we continue to open up wasteland, and the next step is our best upgrade opportunity."

"upgrade?"

Lu Yang nodded and said, "In a while, there will be countless fire monsters rushing out of the fortress, everyone will follow me to the door."

"Okay." Zhuo Jiu, Xia Yuwei and others led their teams back to the entrance of the corridor, one for each of the five entrances.

Lu Yang walked into the gate of the Red Fortress alone, and just walked 5 meters away, a 10-meter-high flame troll suddenly appeared in the darkness.

“Roar ~! There are intruders, my slaves, destroy them”

The sharp and harsh voice echoed in the dark fortress. In a blink of an eye, the entire fortress hall became brightly lit, and hundreds of thousands of 2 meters high flames were exposed.

Www.mtlnovel.com ~ attack and regain our lost territory . “Five flame trolls roared in unison, and countless flame trolls flew towards the landing sun at the same time.

Boss

Level: 40

Qi and blood: 300000/300000

Even if Lu Yang became a fire monster, he couldn't fight so many fire monsters, and threw out his escape dagger backwards. Lu Yang ran out 60 yards with a two-stage flash, and then turned back to the entrance of the corridor.

“Boss, what's the situation,” White Wolf asked.

Lu Yang pointed behind him and said, “Everyone is ready for defense, and the enemy is here.”

White wolves and others looked forward. Soon, the blazing high temperature passed to the bodies of the white wolves and others before the flame arrived.

The first batch of thousands of flame demons rushed from five channels at the same time, and Xia Yuwei and White Wolf and others immediately ordered the paladins in their respective teams to step forward to resist the monster.

Chapter 254 - Fortress

The corridor is 30 yards wide. Facing the coming flame demon, the four knights simultaneously release the sacrifice skills, and the sacred golden light lights up at the feet of the four, connecting them into one.

When the flame demon was about to hit them, the four knights raised their big shields and made a defensive posture on their shoulders.

The Fire Demon entered the sacrifice area and suffered damage. They aimed their targets at the Paladin, with up to 1200 attack power. The Fire Demon with 800 Fire damage should be invincible, but hit the Paladin with 800 real No harm can be done.

Even if 9 flame monsters surround the Paladin attack, the Paladin pulls strangely like Tarzan in the case of nearly 100 healings and blood added behind him.

“The priest releases the weakened soul, and the hunter releases the weak arrow and the armor-piercing arrow.” Xia Yuwei yelled loudly.

The weak body arrow is a special skill that can attack the enemy in a small range. After hitting, the enemy’s attributes are reduced by 30%. The armor-piercing arrow can reduce the target’s armor by 100.

The flame demon attributes in front of the Paladin dropped greatly, and Xia Yuwei saw the opportunity and shouted, “All remote professions, fire.”

Blockbusters of magic and attacks fall into the middle of the flame demon, and the flame demon hits the blood quickly, but because Xia Yuwei masters the time well, the flame demon does not have a phenomenon of hatred deviation.

Lu Yang nodded with satisfaction, Xia Yuwei’s command level has reached his requirements.

“Brother, the strange experience here is so high, upgrading here is also good.” Lan Yu said.

Xia Yuwei said: "It's really good here, president, how long can you brush here?"

The boss of level 40 has one experience of 30,000 points, and 6,000 people are divided equally. Although each person gets less, but considering the team experience, one monster can bring more than 200 experience to the player.

Five teams fight together, killing hundreds of monsters in 5 minutes is tens of thousands of experience, which is much faster than upgrading outside.

Lu Yang said: "The monsters here can be infinitely brushed. There are 5 flame trolls in the fortress gate. These small flame demon are all the monsters they summoned."

"The fortress is really difficult to fight. If you don't have the demon suit and various playing methods you brought, we must be destroyed by these boss fire magic groups." Xia Yuwei said.

"Yes, the lord blame actually summoned the boss monster at level 40. Fortunately, there is an elder brother." Lan Yu said.

Lu Yang said with a smile: "I'm going to stop here for a while and take you up to the next level."

Of the 6,000 people who followed Lu Yang, only 3,000 reached level 20. Most of the others hovered between levels 15 to 18.

"Aren't we in a hurry to open up wasteland? You can bring a trumpet later." Xia Yuwei said in surprise.

Lu Yang shook his head and said, "The vulgar point is that these who followed us are the heroes who accompanied us to defeat the Bloodlust Alliance. As the guild leader, I have an obligation to help them improve their level. This is my responsibility."

These 5 flame trolls will not be refreshed after they are killed. Even if the wasteland progress is behind other guilds, Lu Yang will also bring his brothers to raise the following levels here.

Xia Yuwei nodded slightly, saying, "I see."

In the corridor, the first wave of monsters was quickly killed, and many of the 3,000 trumpets who followed them raised their level.

"It's so cool."

"This will also upgrade."

...

Listening to the trumpet talk behind him, Xia Yuwei said with emotion: "These brothers will definitely make this home."

Lu Yang smiled and said, "Let's go, let's go ahead and see what good things have burst out."

Hundreds of level 40 boss monsters each burst a large number of level 30 equipment, the worst black iron level, the best gold level.

Lu Yang uploaded all the equipment to the team channel, and gave out the redemption points for each piece of equipment, which attracted a lot of players to scream, but when they saw the wearing level, they mourned.

"I want to upgrade."

"My guild has more than 200 points. I don't sleep anymore these days."

"Upgrade, fight."

...

“Boss, it’s fine.” Zhang Zibo shouted suddenly.

“What is it?” Lu Yang asked.

Zhang Zibo shouted: “There are actually 30-level gold-level loyalty armor drawings here, or a warrior’s suit series.”

“Show me.” Lu Yang said.

Plans: Loyal Armor (Gold)

Defense: 39-52

Strength: +22

Stamina: +19

Additional physical defense: +23

Additional physical attack ability: +22

Slot: +1

Set (1/8)

Outfit effect:

2 pieces: Increase physical damage by 5%

4 pieces: The attack has a certain chance to trigger the pledge of loyalty, and the next attack will increase the damage by 50%

8 pieces: Add a rage shield to the player, absorbing 2000 damage

Warrior only

In the simulation group, the white wolf shouted, "Boss, I exploded a blueprint of the loyal shoulder plate, gold."

"I blew up a blueprint of a loyal legplate, gold."

Everyone could not help but exclaim when they saw the messages they sent in the group.

"We have three drawings for this suit, and it can be mass produced." Xia Yuwei said.

Lu Yang nodded, sent a message to Jiang Ze in the group, and said, "Find eight blacksmiths in the guild and sign a professional contract with us. I want to mass-produce."

"Yes," Jiang Ze said.

"Great, if this equipment is equipped with energy production, the overall strength of our guild will be greatly improved." White Wolf said.

Lu Yang nodded and said, "Yeah, I don't think there is such a great benefit to open up wasteland."

In the past, the bloodthirsty bully's loyal fighters were envious of everyone. Many people asked where the bloodthirsty bully came from, and the bloodthirsty bully shook his head. I didn't expect that he got it here. No wonder he later I've been monopolizing the Red Fort forbid others from entering, the reason is here.

My bitter love shouted: "Boss ~ www.mtlnovel.com ~ I got a notice from the Elemental Academy of Fire Magic. What is this for?"

Lu Yang smiled and said, "This is for me, the boss just needs this."

"I'll be right there." Half-life bitter love ran over in person and handed the notice to Lu Yang.

Lu Yang privately called the heads of Zhuojiu and White Wolf to come to him.

"Boss, what's the matter," asked Zhuzhuo.

Lu Yang solemnly said: "In the future, there will be such notices burst out. Never give them to your own. The Magic Academy has a chance to let players learn the curse. This thing can't be learned without strength. First, do n't be blind. Then, secondly, if the person who sent it was a white-eyed wolf, and turned against us with a curse, it would be a disaster for the guild. "

The turbid wine devotion and bitter love for half a life did not expect such an ordinary certificate to be so important, and nodded seriously.

"Boss, you can rest assured that I will never let my hands touch anything that comes out in the future. Jiang Ze will distribute it after handing it in."

The White Lion said: "We will also pay attention to the fact that the guild was not easy to establish, and we must not overturn because of this trivial matter."

Lu Yang nodded and said, "I will go out for a while. You will take everyone to upgrade first. If you get the drawings and give them to Jiang Ze uniformly, ask him to find someone to sign the contract. He says."

"Boss, when are we going to upgrade?" Xia Yuwei asked.

Lu Yang said: "The level of the 10,000 people who accompanied us to fight with the Bloodlust League was raised to 25, and the 3,000 players in our own headquarters were all to 30."

"Then let the 10,000 people take the others into the Demon Palace and Neil's ruins in batches, and strive to let everyone upgrade as quickly as possible."

"Yes," everyone answered together.

"Sun Yu, you are responsible for attracting strangers. If you have any issues, please discuss them with each other. Don't start an argument because of a small matter. If you have any problems that can't be resolved, please contact me immediately, you know." After that, he took out the city roll and flew back to St. Gall.

When he came to the mage tower, Lu Yang handed the notice from the Fire Elf Academy to Masons, the fire wizard.

"Lad, welcome to the Fire Department of Magic Academy, please follow me." Masons led Landing Sun into the towering mage tower.

Standing on the fire transmission array on the first floor, the flames flickered, and Lu Yang entered another world.

System prompt: You found the Fire Elf Academy

Masons smiled and pointed at the huge college building in front of him, saying, "This is the Fire Academy of Magic. There are 126 magic teachers in the fire department. Who do you want to be your mentor?"

Lu Yang watched a magic image appear in front of himself, and pictures and introductions of magic teachers appeared constantly.

After looking around for a while, Lu Yang pointed at the 6th magic teacher Tresman and said, "I choose him."

Masons smiled and said, "Please look for him in Lecture Hall 6 of Teaching Building 1."

Lu Yang nodded and walked into the Academy of Magic alone. He joined the Academy of Magic in the last life and was very familiar with the plants and trees here.

Such a huge magic school always hides all kinds of strange tasks. Sometimes, completing some special tasks can get unexpected results.

Lu Yang chose No. 6 Tresman as his magic mentor because he had a special mission. He came to Lecture Hall No. 6 and wore a magic robe. He was about forty years old and wore a pair of thick lens eyes. Man is working on a pet egg.

"Hi mentor, I am a student Lu Yang." Lu Yang said respectfully.

"Oh, you're here. Masons just notified me. Welcome to the Academy of Magic. What do you want to learn?" Tresman continued with his head buried in his research.

Lu Yang said, "I want to raise the level of magician's summoning skills."

Tresman stood up and looked at Lu Yang, and said in surprise: "Have you got the Fire Summoner?"

Lu Yang nodded, the mantra read out, and the Phoenix sizzled in the lecture hall.

“Oh, it’s Fire Phoenix, lad, you are doing very well. I can teach you the upgrade skills of Fire Phoenix.”
Tresman said excitedly.

Lu Yang said, “That’s great.”

The screen flashed, and a learning window appeared in front of Lu Yang.

Fireball Level 2 with 50 Silver Coins

Pyroblast 2 level, 1 gold coin

...

Fire Phoenix Level 2 with 5 Gold Coins

The price is generally the same as that of robbing money. If it is not for the rich players, they can’t afford to learn at all. However, those who can get this certificate are not worse than this. Those who are poor will sell the certificate for a whole set of high-level equipment.

After studying, Lu Yang asked, “I wonder if you have any high-level skills that you can teach me?”

Tresman said, “Yes, yes, but I need you to do something for me ...”

Quest hint: Tresman tells you about his experience in the cave of death. If you can help him kill the dark prince in the valley, he is willing to teach you the fire forbidden meteor fire rain.

Lu Yang wanted this curse and chose to accept the task.

“My students, I hope you will not disappoint my trust.” Tresman said.

Lu Yang turned and left the Fire Elf Academy, chose to use the spell to return to the demon temple, and threw the dice of fate.

System prompt: Your lucky value +10, duration is 30 minutes

Lu Yang put 5 pieces of the immortal badge on the demon altar and chose to synthesize. A ray of light lit up and the five immortal badges were glued into a complete badge.

System Tip: You get the eternal badge

Eternity badge, description: This badge emits a strange light

Lu Yang smiled. The official plan of "Second World" always liked to use some mysterious and mysterious words to explain the equipment. If he is not a rebirth, this sentence is enough for him to study for a long time.

Continue to choose to upgrade, after the badge is upgraded to level 10, Lu Yang wears the badge in the jewelry column.

Open the skill bar, the skill level of Phoenix Egg changed from 3 to 6.

Fire Phoenix (Level 6)

Qi and blood: 8000/8000

Attack: 2986—4006

Special Effect: Splash attack, each attack with 1642 Fire damage, close to the Fire Phoenix 10 yards range, taking 866 Holy Fire damage every second.

The maximum attack power reaches more than 6000, which is higher than many bosses' damage. However, this is not a bug, but the official system believes that if you want to hit the Phoenix Egg, the player level must be around level 40. You want to synthesize the eternal badge and rise to Level 10 is even more impossible.

In the last life ~ www.mtlnovel.com ~ Officially planned to mention Fire Phoenix in the third anniversary of the interview. In his words, if someone can do the above, they can create a level 6 flaming Phoenix.

Lu Yang has a very clear memory of this incident, and now he has successfully created a Level 6 Fire Phoenix.

The power of Fire Phoenix is not only on his attack, but also on the flying summoned beast. The fire Phoenix that can fly, as planned at the time, can sweep most bosses between level 30 and level 50.

At this time, Lu Yang was thinking of sweeping the bosses and returned to St. Gall. Lu Yang came to the portal and flew to Saros.

There is a dark cave at the southwest corner of the city of Sarros at level 30. This cave is bottomless. Pedestrians pass here to choose to rest in the night, but no one came out of the cave the next morning.

Over time, this cave has been called a death cave. The most passed on is that there is a huge mother-in-law in this cave. He is extremely poisonous. Because the body is too large, he can no longer move, and orders him to be born every day. The black crickets and the black beetles in the cave collect food for him, and the pedestrians in the past are the most delicious for the female crickets.

Chapter 256 - Ancient King

Recalling the official information about the death cave, Lu Yang held a torch and came to the door of the death cave.

Looking from the outside, the cave is not large, the entrance is about 2 meters high and 3 meters wide, and the inside of the cave is dark.

Lu Yang clicked to open the game's internal mall and bought a crystal ball. The majority of players wanted it. It couldn't bear the monsters suddenly attacked in the dark environment. An official crystal ball was added to allow players to illuminate their own 50-yard range.

With a crystal ball in his left hand, Lu Yang entered the cave and walked through a narrow and curvy path. His eyes suddenly opened up.

A huge space appeared in front of Lu Yang. The top of the space was more than 10 meters high, and there were sharp vertical stalactites everywhere.

On the ground floor of the cave are long black beetles, each with six legs and a pair of pliers in front of it.

Black clamp

Level: 35

Qi and blood: 10200/10200

This is the primary monster of the Death Cave. The attack power is average. The attack comes with level 3 poison damage. It will continue to drop 150 points of blood every second after being hit.

In the last life, even at level 30, few players would come here to upgrade, because the strange poison damage is too expensive.

Lu Yang wanted to open up the wasteland without Fire Phoenix before, but he could only endure the poisonous attack of the black clamp worm and burn them slowly with the fire wall, but now Lu Yang doesn't need it.

Looking at the black tongs on the ground, Lu Yang read a spell in his mouth and held up his staff with his right hand.

A clear hissing sounded, and a fire phoenix burning with flames appeared on top of Lu Yang's head. The intense heat caused Lu Yang to feel extremely hot.

Lu Yang gathered a bunch of more than ten pincers with a finger in front of him, and a huge fireball was continuously ejected from the mouth of Fire Phoenix, which burst into the black pincers, causing splash damage.

"8426"

"8718"

...

In just two attacks, more than a dozen black pincers died on the ground without the ability to respond.

If a player sees the attack power of the Phoenix, there will be a feeling that the 30-level large will fight monsters in the 1-level novice village.

However, this thing really happened when a level 30 player hit a level 30 monster, but Lu Yang used reasonable rules.

Lu Yang took Phoenix all the way to kill monsters all the way and walked deep into the cave. Each team of forceps encountered during the period was eliminated by two fireballs from Phoenix. They reached the third floor of the death cave. A name called Yixiantian In the map.

Yixiantian is a very special map. It is famous for the narrow roads on the ground and the bottomless cliffs on both sides of the roads.

When he got here, Lu Yang took a slow step. From here, millipede and evil worms mixed into the black worm.

The millipede is generally the same as the black clamp worm. There is nothing special. Lu Yang is really interested in evil clamp worms. This is an elite monster. It will drop a variety of level 30 enchanted drawings.

“Go ... Go ... Go ...”

The unpleasant cry appeared in front of Lu Yang's diagonal, Lu Yang's eyes brightened, and he led the phoenix towards the front.

On an open field, among a group of black tongs, there is a large worm that is one-third larger than the normal black tongs and shiny in the crustacean black behind. He is an evil tong.

Evil Claw Bug (Elite)

Level: 35

Qi and blood: 212660/212660

Lu Yang hid aside and ordered the Fire Phoenix to fly high to attack with a fireball.

The common tongs and tadpoles were all killed after two attacks. The evil tongs did not die but they could not hit the phoenix. They could only move around on the ground and escape.

The Phoenix chased after the attack, killing with mobs all the way. After 2 minutes, the evil tongs fell to the ground, and a large explosion in the range of 8 * 8 appeared on the ground.

Lu Yang flickered to the evil tongs, picked up a drawing, and said with a laugh: "It really exploded."

Enchant: Afterimage

Description: There is a chance to trigger the afterimage effect and launch an extra attack

Whether it's a Paladin, a warrior, a thief, or a hunter, this enchant can be used, especially the Paladin and the warrior. These two classes use the heavy weapons with the highest damage, the slowest attack speed, and the enchant afterimage effect. Once triggered, it is equivalent. Attack twice.

The drawings were collected satisfactorily, and Lu Yang continued to look for them. Unfortunately, he hunted 3 tongs again and did not explode any drawings.

Lu Yang was not disappointed. After all, the evil tongs were only elite monsters, and the explosion rate was not high. Entering the next layer of the map, Lu Yang came to the death coffin.

This is the last floor of the Death Cave. When he came here, Lu Yang walked carefully, because this floor is the location of the mother-in-law.

The mother-in-law hides in the ground and usually does not come out. Only when the player approaches, will it suddenly appear to give the player a fatal blow.

The death coffin belongs to the bottom of the cave, so the area is very large. Lu Yang did not dare to go first in each action. He specially summoned 5 black clamp worms to explore the road in front of him, killing monsters all the way, and all 5 black clamp worms reached level 7.

Just as Lu Yang continued to explore, another cooing sound came from the side corner. Lu Yang let the tongs go and looked over, and found that there was a nest of crickets and an evil tong.

Lu Yang ordered five clamp worms to block him and let the Phoenix attack. Two times of attack and death wounded around him. The evil clamp worms ran under the Phoenix and found that they could slowly move towards the depths after the attack. .

The Phoenix chased the attack, just as the Phoenix was about to chase the evil tongs to the corner, suddenly, a giant creature on the earthy yellow ground stood up, and countless antennae were inserted into the Phoenix's body at the same time.

"40646" (Critical Strike)

The phoenix with only 8000 blood didn't even have any room to fight, and at this time, Lu Yang also saw the monster in front of him.

Ancient King (Lord)

Level: 40

Qi and blood: 1400000/1400000

The mother-in-law king up to 20 yards has only half of her body exposed from the ground. Her fierce six pairs of eyes are staring at the landing sun. A sharp circle of teeth protrudes from the round mouth. Each of the 10 pairs of tentacles of the phoenix that have just joined forces to death is better Lu Yang's waist is thick.

Lu Yang couldn't help taking a breath, and in the last life, every time the ancient King Wang refreshed, there were major guilds to fight for it. Small guilds like Lu Yang never had the opportunity to touch their fingers.

He just watched the methods of playing the ancient king of the major guilds on the Internet video and the strategy guide ~ www.mtlnovel.com ~ I never thought that I finally saw the ancient king of the king today.

In the last life, the King of Kings was deified by players.

Some people have rumored that his poison is level 13. As long as he is hit, he will lose 3,000 points of blood every second. There are also rumors that the ancient king of magic defense power is 2000 points, and the 30-level mage player cannot break his defense power at all. Only melee can attack him.

In fact, these rumors are not accurate. According to the actual data given by a studio, the ancient King King 's toxin is level 15 and loses 3900 blood per second, which is a long-range attack with a range of 50 yards.

Magic defense is 2800 points, physical defense is 1120 points, and melee attack power is 4,000 points. Drilling out of the soil can trigger 8 times the attack.

In the toxin attack, not only the toxin that has lost blood but also the toxin that reduces double defense can be used. The third type is the most powerful and can petrify the target.

Once petrochemical, adding blood is invalid!

It can be said that Sinopec will definitely die.

Chapter 257 - Angel of Death (Legendary)

In the last life, the major guilds that fell in front of the ancient king of kings were numerous. The official once announced a number. In the heyday of the 30th level of the wasteland map, the ancient king of kings killed more than 30,000 players a month, and an average of more than 1,000 people died every day. Under the ancient King King's poison.

Unlike bone tyrants of the same level and higher-level demonic souls, players with good skills can fight with their personal skills. However, the ancient King of Kings was a full-screen attack, and a poisonous mist was hit in all four directions. The guild has nothing to do with this.

Until half a year later, when the patience of all the guilds was worn out, a guild player accidentally found that one of their guild soldiers could not completely lose blood after being attacked by the king's poison.

When everyone thought it was a bug, within 1 minute, the player suddenly poisoned and died.

Later, the president of the guild researched and found out how the soldier could not lose blood under the king's 15th toxin.

It turned out that this warrior was hit by a black forceps before hitting the ancient king of the king, poisoned.

According to the rules of the game, if the player is poisoned, he will no longer be superimposed and replaced by the same type of poison.

Therefore, this warrior will be attacked by toxins that reduce double defenses, and will be attacked by petrochemical toxins. The only thing that will not be attacked is the speed of blood loss. The soldier died because his toxin poison time was up.

At this point, the ancient king of kings has been transformed from an invincible lord who has been deified by players, and has become a garbage monster that level 20 players dare to bully.

Lu Yang chanted a spell, summoned Fire Phoenix again, killed a 7th-level clamp worm, re-summoned a first-level clamp worm, and let the clamp blast the Phoenix with toxins.

After several attacks, Fire Phoenix was stained with green poison.

Lu Yang ordered the fire phoenix to fly to the place where the ancient king of the king was. When it was 10 yards away, Lu Yang stopped the fire phoenix, and then ordered a 7th-level tong worm to run to the ancient king of the king.

“Cuckoo”

The unpleasant sound sounded, and the level 7 forceps that had just ran to the place where the ancient King Wang lurked in was suddenly caught by countless tentacles.

“42660” (Critical Strike)

The ancient king of kings got out of the soil and ate the tongs in his mouth.

“2460”

A fireball hit the ancient King Wang’s body precisely.

“Cuckoo”

Seeing that there were enemies in front of him, the king of kings opened his mouth wide, and the thick green mist sprayed out all around.

The poisonous mist passed through the body of the Phoenix, just like the last life, without dropping a drop of blood.

The fire phoenix hit a fireball on the ancient king of the king, and killed more than 2,000 blood.

Lu Yang nodded with satisfaction, comfortably found a place to sit down, and watched the fire phoenix and the king of spit each other.

It’s just that one vomited a fireball and one vomited highly toxic.

Five minutes later, the poisonous time on Fire Phoenix was approaching. Lu Yang ordered the second Level 7 Claw Worm he summoned to fight against the monsters, let Phoenix come back, replenish the Grade 1 poison, and continue to spit fireballs.

The ancient King of Kings may never have thought that his first death would be so aggrieved. Seeing that he was tortured by the fire phoenix, King of Kings could only end his life with a big explosion.

System prompt: You killed the ancient King (Lord)

You gain 40,000 experience

With a flash of white light, Lu Yang came to the king of the king and picked up a black thick-backed scimitar with a sacred light.

Angel of Death (Legendary)

Level: 30

Damage: 256—291

Strength: +50

Stamina: +30

Stamina: +50

Additional attack damage: +64

Special Effect: The upper limit of the damage per attack, a certain chance to trigger a poison attack

Slots: 3

“Unexpectedly, it really came out, this is the famous death messenger of the last generation, and it is really powerful.” Lu Yang said with a long knife.

This weapon is the highest level weapon that soldiers and paladins can wear at level 30, and the explosion rate is extremely low.

More importantly, holding this weapon in hand can open the soldier's hidden professional rage warrior.

Lu Yang put his weapon in his backpack and picked up a drawing.

Plans: Evergold Dagger (Gold)

This is one of the good thieves' daggers at level 30. Lu Yang received it in his backpack and continued to look for it. Other dropped things were very ordinary. After picking it up, Lu Yang took the fire phoenix to move on, looking for the one just now Hit half of the evil tongs.

The evil tong worm hid in the corner. The blood and blood had been restored. Lu Yang ordered the fire phoenix to attack again. After a while, the evil tong worm died and a drawing fell out.

Enchant Cloak: Fire Resistance +50

Lu Yang gathered up the drawings. After walking around the last floor without finding any other evil tongs, Lu Yang flew back to the city of St. Gall using the back to the city roll.

After throwing the fate dice, he added 10 points of luck. Lu Yang added 10 levels to the Deathbringer, and then set 3 Level 10 attack gems on it.

The final attack power of this weapon reached 256-541 points.

Lu Yang sent a message to Jiang Ze and asked, "Are you free?"

"I happen to be in the holy city, what is it?" Jiang Ze asked.

"Good thing, come to the abandoned house in the south of the city." Lu Yang said.

“Okay, I’ll come over here.”

Not long after, Jiang Ze hurried to the abandoned house and said, “What a good thing to say quickly, there are many logistical things waiting for me.”

Lu Yang took the death messenger out of his backpack and said, “Sent you.”

Jiang Ze looked curiously at the black playing knife with the sacred light. When he saw the attributes, Jiang Ze couldn’t help swearing.

“I rub, where did you get this weapon, legendary, more than 500 damage is simply an artifact.” Jiang Ze said.

Lu Yang said: “Just hit ~ www.mtlnovel.com ~ Hold it and play, yes, when you can wear this weapon, you can go to the Temple of War, and you can open the hidden profession-Berserker transfer.”

“Brother, you are so interesting, thank you.” Jiang Ze said excitedly.

Lu Yang patted Jiang Ze’s arm with a smile, and said, “Let’s brother, what’s yours, mine is yours.”

This is Lu Yang’s heart. In the last life, he owed Jiang Ze so much. In this life, Jiang Ze helped him sort out the logistics without any complaints. Such a brother, Lu Yang felt that he was really too happy.

“Wow haha, when the logistics side is busy, I will upgrade immediately.” Jiang Ze said.

Lu Yang nodded and said, “Come on.”

Even though Jiang Ze is not as good as Zhuo Jiu, etc., but with the help of Lu Yang, he can make Jiang Ze rise to the level of top players, or he will be born again.

Lu Yang took the enchanted drawing and the permanent gold dagger drawing that he had just obtained from his backpack and gave it to Jiang Ze. . “

Chapter 258 - Lesser Curse

Jiang Ze looked at these drawings and said, “You have learned a lot from these trips. These drawings are what our guild lacks.”

Lu Yang said: “The bloodthirsty tyrants and male tyrants had previously taken advantage of them, now it is our turn, brother, don’t look at these drawings because they are not dazzling, but they are the key to our guild. With him, We are not afraid of the loss of people, you know? “

Jiang Ze nodded solemnly and said, “Rest assured, I know how to do it.”

Lu Yang nodded and said, “I went on drawing, right, don’t forget to let my brothers jewel, this thing is too scarce.”

Jiang Ze also now understands the importance of gems. When he returned to the guild, he immediately arranged more than 10,000 trumpet collectives to play Level 5 copies to obtain gems. At the same time, he ordered his men to collect a large amount of constant gold ore and various high-level ore.

When the men asked for the reason, Jiang Ze shook his head and did not speak. After secretly telling Tu Feng the reason, he ran to the red fortress and upgraded.

On the other side.

Lu Yang just came out of the mage tower.

“Meowing a microphone, the skill of meteor fire rain actually needs 100 gold coins, planning is really stealing money.” Lu Yang said.

He just returned to the mage tower to hand in the task, and learned the secondary forbidden spell, but the money spent was exciting enough.

Shaking his head, Lu Yang came to the portal and flew to Baiguang Town.

Unlike in the past, many players in Baiguang Town have explored here and are teaming up at the door.

Lu Yanggang was about to go out and found that Qingtian Yijian and his sister Zimo Fanchen came over.

“Boss Lu Yang, congratulations.” Qingtian Yijian said.

“Congratulations on winning the Bloodthirsty Domineering.” Zi Mo Fanchen said.

Lu Yang said, “Fortunately.”

Qingtian Yijian said: “It is indeed a fluke, but your strength is very strong, and I agree.”

Lu Yang laughed. For such a mindless martial artist, you told him that the strategy and strategy are superfluous. However, Qingtian’s position in the national service is unshakable. Lu Yang still has a trick. Accept the heart.

“Well, if you want to join my guild, I will treat you better than you are now.” Lu Yang said.

Qingtian smirked and turned and said, “No, these presidents of more than a dozen guilds, such as Domineering, Twilight, and Bloodthirsty, have all mentioned to me. I still feel free and free to chat with you. My brothers are waiting for me. “

Zimo Fanchen rushed to the ground and smiled, and turned and followed Qingtian to leave.

Just two steps later, Qingtian Yijian suddenly turned back and said to Lu Yang: "Forget to tell you, don't call the sword of eternal crime, it has already been summoned away."

Lu Yang smiled and didn't reply. He didn't summon Eternal Sword Guard this time, but wanted to fight a baby.

The forest on the south side of Baiguang Town was once polluted by the blood of the ancient demons, and the trees that absorbed the blood of the ancient demons have become fierce tree demons. They attacked human villages and used human blood as nutrients.

Baiguang Town has been plagued by these tree demon, the mayor issued a reward order, killing the tree demon can get rich rewards.

Lu Yang came to the square and said to the mayor who personally recruited the warriors: "I am willing to accept the task of killing the tree demon."

When 100 level 25 players enter the town of White Light, the mayor will start the task of killing the tree demon.

The bald middle-aged mayor said excitedly: "Thank you my warrior, may the gods protect you."

System prompt: You have accepted the task of killing the tree demon

You turn on the reputation of White Light Town

Your reputation in Baiguang is friendly

Qingtian Yijian saw Lu Yang received the task of killing the tree demon, cut off, and led the team into the forest of eternal sin.

“Boss, would you like to have a look with Landing Yang? Maybe he has a special style of play.” Studio member Yu Luo said silently.

“Don’t go, our group of 28 players have no way to open up wasteland. What can a 30-level player do? If you go, you will be difficult and retire.” Qingtian Yijian said with a grin.

Yu Luo was silent and did not speak. He always felt that the chairman of a 100,000-member guild like Lu Yang would never come here for nothing.

He guessed right, how could Lu Yang not be here to come here. As a fire mage, he likes to play strange monsters. Don’t guess that he is a wooden monster.

Just as players can’t use fire magic in water, fire spells have a natural 100% damage bonus to wood.

Lu Yang walked into the forest on the south side, in a straight forest avenue, almost 200 tree demon patrolled back and forth.

Tree demon

Level: 30

Qi and blood: 17000/17000

Of all the level 30 monsters, the health of the tree demon is in the top three, but this is not the main thing. The main thing is that the tree demon’s armor is very thick. It is difficult to say. Each tree demon also knows Entangling skills.

In each close-range battle with the tree demon, once caught by the instant magic entanglement released by the opponent, the skills cannot be released, and the attack cannot be done. Unless there is a dispel skill, the price of the dispersal at the auction house has been fixed to 20 gold coins. Only rich people will buy.

If it is normal, the tree demon is hiding in the woods in the form of a big tree. When the player passes by, they will be resurrected. Now there are more than 200 resurrected. It should be a player who came in before, but watching the ground scattered The potion should be killed.

Lu Yang looked at the strange group in front of him, and murmured to himself, "I can just try the meteor fire rain I just learned."

Raising the staff in his hand, Lu Yang read an obscure spell in his mouth, which is the same as Meteor Fall. The normal casting time of Meteor Fire and Rain is about 1 minute, but Lu Yang knows to simplify the spell, 10 seconds. After that, the spell was completed.

In the sky within 100 yards, there are overcast clouds, and even Qingtian Sword and others in the Eternal Sin Forest on the north side can see ~ www.mtlnovel.com ~ Strange, where is such a large cloud. "Yu Luo frowned silently.

Qingtian Yijian also curiously looked at the black cloud. Suddenly, the positive black cloud appeared red, and countless fire meteors fell from the sky and smashed into the forest.

"It is a curse." Zi Mo Fanchen said in surprise.

"It's the first time I've seen such a large-scale curse, and it will not be released by Lu Yang." Yu Luo said silently.

Qingtian Yijian shook his head indifferently and said, "Don't watch, we'll make our own."

The weapon glowed in his hand, and Qingtian Yijian easily killed a half-blooded Sirius Spider. Obviously, Qingtian Yijian also transferred to a Berserker and learned advanced skills.

On the other side.

Lu Yang was staring at the countless tree demon in front of him. He did n't learn meteor fire rain in the last life, but just watched it in the video. I did n't think the actual power of this skill was so high. There are more than 500 tree demon within a 100 yard radius He was all killed.

System Tip: You killed the Tree Demon to gain 690 experience

You have gained 24 reputation in Whitelight

...

With more than 500 reminders, Lu Yang's golden light flashed, and Bai Guangzhen's reputation increased from friendliness to respect.

Lu Yang nodded with satisfaction. Meteor Huoyu had such a powerful attack power. The next time he fought against Bloodthirsty Domineer, his odds increased by one more point.

Continue to walk in, Lu Yang summoned the Phoenix that became a Fire Spirit Bead from the side. In a non-attack state, the Phoenix can be transformed into a flying Fire Spirit Bead near the player.

The Treant Forest is very large, and the monsters in it are not only tree monsters, but also cannibals and poisonous hedgehogs hiding in the grass.

Both of these monsters have long-range attack capabilities, with a large number of blood, which are around 12,000. Lu Yang's own cleaning speed is too slow. With Phoenix, spitting 4 fireballs can kill a large area.

Killed all the way to the deep forest, just as Lu Yang commanded Phoenix to clean up a group of poisonous hedgehogs in the front, suddenly, a 1-meter-diameter stone flew from the depths of the forest. physically.

“1042”

Lu Yang looked into the distance. A 5m tall tree guard was rolling up a second stone through his roots.

Treant Guard (Elite)

Level: 35

Qi and blood: 200000/200000

According to the game data, every treeman guard is a century-old tree contaminated with blood of ancient demons. They have developed root systems and can be rolled up with stones and thrown.

Of all the elites in the same level, the Shuren guard has the highest attack power, the highest defense power, the thickest blood, resists soil and water magic, and understands the use of wood magic to summon tree people and entanglement.

For ordinary players, Shuren guard is the boss they are least willing to face, but for Lu Yang, he is looking for Shuren guard.

Of all the 35-level elites, Lu Yang's favorite is the Shuren guard. Regardless of his advantages, there are two fatal shortcomings. One is that he does not have fire resistance and receives 100% additional damage from fire attacks.

The second is that the Treant Guard cannot move, and the attack range is only 50 yards.

Lu Yang has an extermination fire with an attack distance of 100 yards. The killer guard has no difficulty. Looking at the guardian's position, he is about 60 yards away.

His coordinates are 6666.8888. Lu Yang reads the spell by anticipation. Two seconds later, a 20-yard-diameter skyfire fell on the guard of the treeman precisely.

“6426”

Lu Yang’s Skyfire has learned level 4 and can deal 2600 points of damage on his own. This skill splits the damage equally among the monsters in the range. The more damage the lower the damage, but if there are fewer enemies in the range, the higher the damage, only By one word, the target was fully harmed by Skyfire.

Lu Yang’s own damage was more than 600. Shuren guards received 100% increased damage from fire damage. Therefore, Lu Yang’s Skyfire attack only dealt such high damage.

The Shuren guard was attacked and roared, but unfortunately, he could not help but watch Lu Yang’s Skyfire and then Skyfire strike him.

Not long.

The 200,000 blood tree guard fell unwillingly to the ground.

System prompt: You killed the Treant Ward (elite)

Increases your reputation in White Light by 100.

Lu Yang came to the guard of the Shuren to look around, a crystal with a light green light fell to the ground.

Emerald crystal, description: This is a crystal emitting light green energy

There is only such a simple introduction, but Lu Yang was surprised when he saw this thing. He never thought that in this map, things of the Elves would burst.

“Second World” has three major races, human race, orc and elves, each of which has a special race occupation, the human race is a paladin, the orc is a shaman, and the elven is a druid.

This emerald crystal is a necessity for making druids from level 30 to level 50 dark gold sleeves. In the last generation, the major guilds of the elven family sought out emerald crystals, but they could not buy them.

This thing is equivalent to strategic material. Whoever has more can occupy the dominant position in the elven clan.

It's no wonder that after the old man of the last age occupied this place, he would never let other guilds and players touch it. This was the reason.

Lu Yang put the emerald crystal into his backpack and went deeper. He searched the entire dense forest and found a total of 50 tree guards. What Lu Yang didn't expect is that every tree guard would drop the emerald crystal. Lu Yang was very excited.

If he remembered correctly in the last life, the unit price of emerald crystal was a 10 gold coin, but there was no market and no one sold it at all.

Since this thing is energy-producing, Lu Yang felt for a while that he could go to the main city of the elven tribe to see if he could find a suitable guild to cooperate.

After sitting on the ground and eating moon-marked venison, he was full of blood and magic, and Lu Yang entered the next map.

Fear the forest.

The reason for the fear of the forest is that this forest is closest to the burial site of the ancient demon corpses, and is contaminated by the blood of the ancient demon. Each tree here is 20 meters high.

The dense opacity of the whole sky covered by the leafy foliage, under the trees, is like in the night.

Lu Yang took out the crystal ball from his backpack and groped forward slowly. From here, he has entered the millennium tree demon's nest.

The millennium tree demon is a lord monster. In the last life, the millennium tree demon was as famous as the ancient king of the king, because their attack methods were full screen.

The difference is that the millennium tree demon has an attack range of 100 yards. Before you see him, he is already hitting you.

Generally speaking, when you see him, he has already hung up. The warrior class is okay to say that he can resist for a period of time. Crispy classes such as mages and priests are equipped with full level, full gems, and full enchantment at level 30. Next, say more than 5 times.

However, it is not a method that has not been played. In the last generation, there were senior players who posted videos on **** the Millennium Tree Demon.

Hunters have cloud arrows, rogues dodge by themselves, warlocks rely on Lord of Hellfire, and mages rely on Skyfire.

Although Skyfire's attack range is 100 yards, Skyfire's own attack range is 20 yards ~ www.mtlnovel.com ~ In other words, Lu Yang can use Skyfire at a position of 110 yards, which is 10 yards beyond the Millennium Tree Demon The distance hit him.

Another, the millennium tree demon's attack method is to drill out the roots of the tree to attack, and the phoenix cannot hit in the sky.

Lu Yang walked forward. Just within 1 minute, there was a sound of shaking in the ground.

The white light flashed, and Lu Yang flickered back 10 yards away. Just after landing, Lu Yang found out where he was standing just now, and a sharp tree root 1 meter high was drilled out of the ground.

"Hello ~!"

A roar came in the distance, and Lu Yang knew that he had just entered the attack range of the millennium tree demon.

Taking out the rope from his backpack, Lu Yang jumped onto an ancient tree next to him. On the top of the big tree, Lu Yang saw a giant ancient tree that was 110 yards higher than the other big trees.

Millennium Tree Demon (Lord)

Level: 40

Qi and blood: 1400000/1400000

Chapter 260 - Ming Bow · Silent Night

Lu Yang said a spell in his mouth. 110 yards away, the crimson sky-extinguishing fire fell from the sky and landed precisely on the branches of the millennium tree demon.

“12666” (Critical Strike)

The millennium tree demon exclaimed, though he saw nothing but Lu Yang.

Lan Yu suddenly sent a video application saying, “Brother ~, you really want to let Sister Yu Wei dance.”

Lu Yang said with a smile: “Brother, I want to see you dance most.”

Lan Yu couldn't help but show a helpless little expression, and said, “You want to see someone secretly jump to show you, just don't let my sister jump, how embarrassed.”

When Xia Yuwei danced alone in front of thousands of people, Lan Yu always felt a little uncomfortable.

Lu Yang said with a smile: "I have long thought about this. I will announce in a while that our guild will host a brother's art evening. At that time, all players above the head level will come out to perform the show. , Yu Wei won't be embarrassed, how about it. "

"Brother ~ It turned out that you already thought about it, it's great, I'll tell my sister now." Lan Yu said happily.

Lu Yang said with a smile: "Stupid girl, how could I not consider it for Yu Wei."

"Oh." Lan Yu smiled.

Lu Yang said, "What's going on there? What's going on?"

When referring to this incident, Lan Yu showed a surprised expression and said, "Brother ~, this place you are looking for is awesome. We have already printed a set of drawings of the soldier's loyalty suit, and 2 mage gold levels have also burst out. Drawing of the ashes set. "

"Two notices from the School of Fire Elemental Magic were printed, and the guards and boots of the Knight's Faith Suit were also printed. There was also a drawing of a permanent gold two-handed sword."

Lu Yang said, "Yes, keep working hard. After a while, my brother got you the pastor's transfer certificate."

"Thank you brother." Lan Yu said Mengmeng.

Lu Yang asked some other things. After everything in the guild was steadily rising, he closed the video and sent a message to Tu Feng, saying: "Call the players to dig for the constant gold ore, a group of ore 10 guild points, come first At 1000 points, the guild will lead a team to upgrade and upgrade equipment. "

Tu Feng said, "Okay, I'll arrange it."

After the 100,000-member grand guild was divided into 5 teams, the management process was simplified a lot. As long as Tu Feng discussed with the five heads such as Zhujiu, soon, a group of professional mining team members gathered and searched on various maps. Evergold ore.

"Hou ~~~" An unwilling roar came from a distance. Lu Yang looked up and found that the millennium tree demon had fallen to the ground.

"I won't tell you anymore. You're busy first. I just killed a boss to see what's good." Lu Yang said.

Turning off the intercom, Lu Yang ran to the millennium tree demon. The millennium tree demon who was supposed to be alive at various levels of the 35-year-old player, fell helplessly on the ground at this time, and countless others burst around him. equipment.

A emerald green bow almost made Lu Yang excited and almost called out.

Famous Bow · Silent Night (Legend)

Level: 30

Attack: 261-309

Strength: +60

Dexterity: +55

Additional attack damage: +66

Special Effect: After killing the enemy, there is a certain chance to summon two Treants to fight for the player

Special Attack:

Arrow of Silent Night: The maximum range is 2500 yards. The initial attack power is the player's attack power +100. For every 100 yards, the damage is increased by 10%.

Slots: 3

Like the Warrior's top 30 weapons, this famous bow Silent Night is the best weapon for shooters at level 30, none of them.

Its most powerful place is the Arrow of Silent Night. If the opponent does not pay attention, as long as it is hit by the holder from a distance, there will be no doubt.

After receiving the bow and arrow in his backpack, Lu Yang sent a message to Han Yu and said, "What are you doing?"

Corpse King Hall.

Han Yu said while killing the Corpse King, "Brother, my sister, and Lu Zhaoyu, they are in the Corpse King's Hall."

Lu Yang said: "How many copies of Hellfire have come out."

"I typed two more," Han Yu said.

Lu Yang said: "In this way, you let Lu Zhaoyu and Chen Feng each pick a warlock to enter the King of Corpses to learn Hellfire. Your three siblings come to Baiguang Town."

"OK." Han Yu said.

Lu Yang decides to give Silent Night to Han Yu. Later on the battlefield, Han Yu will be his sniper.

Turning off the intercom, Lu Yang picked up the second item, a turquoise heart.

Heart of the tree demon, description: The heart crystallized after the death of the millennium tree demon.

This is the main purpose of Lu Yang's visit this time. After picking up other potions, Lu Yangyuan Road returned to Baiguang Town.

Town square.

The mayor is also recruiting players to post missions.

Lu Yang came to the mayor and gave the heart of the tree demon to the mayor, saying, "Dear Lord Mayor, I have killed the millennial tree demon. This is his heart."

The mayor said excitedly: "Oh, the gods are up, you really accomplished the task. I thank you on behalf of the people in this town. This heart has left the tree demon, and he can no longer do evil, so I will give it to you. You will have unexpected gains. "

The system prompts: You got the emerald heart

Your reputation in Baiguang Town has reached

Emerald Heart, description: The holder can switch to nothingness at will for 5 seconds and cool down for 30 seconds.

Lu Yang shook his fist in excitement. As a mage, what he feared most was close physical attack. Once a thief attacked from a short distance, even if Lu Yang had a badge to unlock the control, but two or three thieves attacked at the same time. No doubt.

If he dies, the demon's heart will fall. Once he is robbed of the demon's heart, all the advantages of Lu Yang will be lost. Therefore, Lu Yang will be a little daunted every time he fights.

Now that he has a green heart, Lu Yang is no longer worried. As long as he enters the state of nothingness, the thief can't hit him at all. In turn, Lu Yang can use only magic in the state of nothingness to kill the attacker ~ www.mtlnovel.com ~ However, there is also a disadvantage to nihilism. Spell damage taken will increase by 100%.

While the three siblings didn't come, Lu Yang found a place where no one was, and read the spell and transmitted it to the Demon Temple.

I tried the Destiny Dice and found that I was in luck recently, three 6, with a maximum of 18 points, which triggered the effect of lucky +10.

Lu Yang put Famous Bow · Sleep Night on the altar, and raised 10 levels.

In the last life, many people did n't know a secret weapon with a summoning system or a special attack. When upgrading a weapon, the special effects attached will also be upgraded.

For example, the Summoner of the Famous Bow · Silent Night raises the weapon to level 10, and the level of the summoned treeman is also level 10.

Compared to the level 0 treeman, the level 10 treeman has 3 times the health of the tree monster, and the attack power is 5 times that of the tree monster.

Lu Yang put the emerald heart on the altar, raised 10 levels, and reached the emerald heart at level 10. The state of nothingness can last for 10 seconds, and the cooling time is 20 seconds.
