

Wild Fire 381

Chapter 381 - Fire Dragon

In his plan, he originally wanted to find some people among his brothers. He pulled them out to train the Circus of Shenyue alone. Now Han Zhong has trained him 12 and directly solved this problem.

Divine Moon Circus.

After more than 3 months, more and more players come here to break through the level. Almost every trumpet who has reached level 10 will come here to try out a mission first.

The major guilds also arranged managers to look for them. Anyone who can reach the b-level judgment will be taken away by the major guilds.

Tu Feng also arranged players, and today Tu Feng took the person to the scene in person.

When Lu Yang came to the stage with Han Zhong, Han Sha and others, he just saw Tu Feng arguing with the bloodthirsty Batian's men on the south bank of Yuema.

"This A-level player is about to sign a contract with us. How can your bloodthirsty people run over to grab people?" Tu Feng asked.

Yuema South Bank sneered and said, "Joke, you haven't signed a contract. What's wrong with me? Let me tell you, I'm rich. I can give you 5 gold coins a month. Can I bear more than you give me?"

Tu Feng is not unable to give money, but the guild has its own salary system, and he cannot spend money as casually as the Yuema South Bank.

The player who has just passed through the a-level mission is called the magic gun Luo Cheng, watching Tu Feng said: "I don't care, whoever you give me a high price, I will follow."

Yuema South Bank laughed and said, "That's right, what is the purpose of playing a game, isn't it cool? How can you play cool?"

Tu Feng didn't speak, and turned away.

Yuema South Bank was even more excited, pointing at Tu Feng's back and scolding: "Tell Lu Yang and let him wait. We will not only rob him, but we will be the first to kill him in a few days."

Tu Feng turned and stared at Yuema South Bank and cursed, "Come here if you have the courage. I'm not a brother of the Jagged Brotherhood. I'm afraid of you."

The two immediately quarreled, drawing the surrounding guilds and players around.

"Everyone said that the bloodthirsty battalion soldiers wanted to revenge before. It was unexpected."

"It looks like Lu Yang is going to be out of luck this time. He is not a bloodthirsty opponent this time."

"Yeah yeah."

...

Yuema's south bank grew more cursed and fiercer. There was a tendency to kill people when they did not agree. Tu Feng also did the same. The two sides scolded for a full 10 minutes before they stopped in a panic.

Han Sha's first end, successfully challenged to complete the clown emperor's ss-class mission, and won the ring of dreams.

Following Han Meng, Han Feng ...

A series of 12 kids successfully completed the challenge, but when the surrounding people found out, the last Han Yu had already completed the challenge.

"Fuck, they all quarreled with you." Yuema's south bank scolded and left, but his task was completed. This time, he quarreled with Tu Feng and told Tu Feng that the bloodthirsty alliance would fight them. It was Wang. Teng et al. Planned out together, in order to paralyze the male tyrant and the old man in the twilight. He did not expect Tu Feng to cooperate with him in this way, and tens of thousands of people who had quarreled with him saw it.

Tu Feng stared fiercely at the south bank of Yuema and secretly typed into Lu Yang, saying, "Brother, how did I play just now."

Lu Yang said: "The acting is beautiful."

"Why do I have to quarrel with him, it seems that I am too poor." Tu Feng said.

Lu Yang said, "Did you see that the Yuema South Bank was acting? How could I tell you in advance when siege, with the bloodthirsty domineering nature, if he really wanted to hit me, I can't wait to step on me. Can Don't let me know without letting me know in advance. "

Tu Feng nodded and said, "Alright, what shall I do next?"

Lu Yang thought for a while and said, "What should I do, don't worry about them."

Turning off the intercom, Lu Yang looked at Han Sha and others who returned to him, and said, "All are well done, my brother invites you to dinner at night."

When Han Sha and others were growing their bodies, they heard something delicious, and they all showed small eyes.

Han Zhong said: "Then I will give them to you. I will take them to train every 3 hours. You can cross time."

"No problem, I'm gone." Lu Yang took out his teleportation scepter, opened the sentry tower he set up outside the Ogre Empire, and teleported with 12 little guys.

The rigorously trained Han Sha and others did not get amazed by entering the high-level map, but instead looked around for the first time and took a defensive posture.

Lu Yang said with satisfaction: "You take a break here, I'll pull the monsters to take you to upgrade."

"Brother, do we need to participate in fighting monsters?" Han Sha asked.

Lu Yang rubbed his head and said, "No, wait for me to take you to level 50, and help me again."

Turning on the hot speed, Lu Yang jumped into the gap of the ogre city, pulling more than 200 monsters, opening the path of fire, and pulling them to the outside.

Han Sha and others watched Lu Yang's chasing left and hiding right, and they were touched.

"When I reach level 50, I will help my brother to upgrade." Han Sha said.

"Well, me too," Han Yu said.

Han Meng and others nodded together.

In fact, Lu Yang's way of fighting monsters is really dangerous. As long as he is hit by a steel hammer ogre, Lu Yang will hang up. He can also help players within 30 levels to hold these 12 mystic rings. Take them to an easier place to upgrade.

But ~ www.mtlnovel.com ~ Lu Yang doesn't like to do that. The 12 little guys who no one hurts, Lu Yang feels distressed. From the day Han Zhong accepted them, Lu Yang decided to take good care of the 12 little guys so that they can become independent at an early date.

This is only the first step.

System prompt: You killed the Steel Hammer Ogre

...

A reminder sound appeared, and Lu Yang looked back, and more than 200 ogres behind him were dead. Only the ogre centurion had a little blood left.

On the other side.

After bursts of gold light, Han Sha and others improved by an average of 4 levels.

It only took less than 5 minutes. Lu Yang felt that the speed was pretty good. When the four ogre centurions behind him died, Lu Yang beckoned and shouted, "Come here and help me pick things up."

"Oh." The 12 little guys ran to Lu Yang's side together.

Four ogre centurions burst out with a notice and two Pandora's boxes. Lu Yang took them into his backpack and took them to the wall.

"Stand here." Lu Yang jumped out of the city wall with the flame change.

The smoldering change instantly released the hot and rapid cooling state, and Lu Yang killed and killed 8 waves of steel hammer ogres within half an hour, more than 5,000.

Han Sha and other 12 children only watched the non-stop gold light on their bodies, and within half an hour, they were all promoted to level 28.

“Brother, upgrading here is fast.” Han Meng said.

Lu Yang sat among a bunch of little guys and said, “Your brother Han Fei, they have a better place to upgrade than here. When the upgrade is done on their side, I will take you there.”

“Dididi”

Han Ying sent a call application.

Lu Yang smiled and accepted, and asked, “What’s wrong?”

Han Ying proudly said, “Brother, we typed out a skill book, which is fire.”

“What book?” Lu Yang asked.

Chapter 382 - Mutant Tyrannosaurus

Lu Yang asked in shock: “Are you sure it’s fire dragon?”

“Yeah, don’t believe it.” Han Ying sent the picture of the Fire Dragon Skill Book to Lu Yang, saying, “When the sickle monster was hit just now, there was a rare monster that burst out after killing him.”

Lu Yang saw that the name on the picture was definitely Dragon Fire, and said excitedly, “Sister, you got a treasure for your brother.”

“Is it good?” Han Ying asked curiously.

“Of course, I will come here, and by the way, bring Han Sha together, you can upgrade together.” Lu Yang said.

Turning off the intercom, Lu Yang said, “I’ll take you to find sister Han Ying and they.”

Han Ying is Han Sha’s favorite sister. A group of young people are the closest to Han Ying, and their eyes light up when they hear it.

“Okay.” Han Meng said.

With a smile, Lu Yang took out his teleportation scepter and took them to the Psychic Academy. When they came to the bug position, Han Ying and Xiao Liang were waiting for Lu Yang.

“Brother, you are here.” Han Ying ran to Lu Yang and handed the skill book to Lu Yang.

Fire Dragon

Type: Fire Spell

Cost: 200 magic

Description: Summons a fire dragon condensed from fire elements at a specified location, and blasts out a fireball every 2.5 seconds, causing 126+ player magic damage. The fire dragon cannot be attacked. The duration is related to the player's intelligence.

In the last life, fire dragon is an authentic fire magic card bug killing boss skill, but this skill is more rare than the warlock's summoning hellfire. Lu Yang's most coveted skill is him, he can't think of it.

"With this book, my brother will take you to a good place to fight monsters, the upgrade speed is faster than now." Lu Yang said.

"Where?" Han Ying asked in surprise.

Lu Yang pointed to the Colosseum and said, "Here it is, come with me."

Colosseum.

In the introduction of the official story of Second World, the Colosseum was the place where nobles and nobles watched all kinds of monsters fighting in that era. Therefore, countless ancient creatures were held in the Colosseum.

Since these paleontology are early resurrected semi-finished creatures, their IQ is almost 0, and they only know how to kill.

Kanudo had wanted to subdue them, but these creatures had to attack even Kanudo. Seeing this, Kanudo gave up and allowed these creatures to be detained, but just arranged for them to feed them and wait. Let them take the lead when attacking Terrans.

Lu Yang took out a horse and took Han Ying, Han Sha and others along the outer wall of the Colosseum to climb inside.

The Colosseum is surrounded by stairs made of huge bluestone, and is an area for the nobles to watch.

Each step is 75 cm wide and 60 cm high, extending from the top of the Colosseum to the bottom 20 meters above the ground.

This 20-meter-high area is a protected area to prevent monsters from jumping into the stands during battle.

Below the reserve is the Colosseum Site. The area of the site is very large and the ground is also made of bluestone, specifically to prevent monsters from escaping.

On the left and right sides of the site are gates made of rusty iron fences, where the beasts appear.

Lu Yang took Han Ying and they came to the iron fence gate on the left, opened the gate and walked in.

A huge, dimly lit hall appeared in front of Lu Yang. The hall was huge, the top was tens of meters high, and the left and right sides were extremely wide.

There are countless small houses in the lobby. The houses are made of steel.

“Hello ~!”

A roar echoed in the lobby, and Han Ying and Han Sha immediately put on a defensive posture.

Lu Yang said with a smile: “Don’t be afraid, there are no blame in the hall, the screaming monster came from those small houses.”

“Small house?” Han Ying asked in surprise.

Lu Yang said, “Yeah, it’s a small house. I’ll show you.”

I came to the door of the first room and looked through the iron fence window on one side. I saw a huge dinosaur-shaped monster inside, but this dinosaur didn't look very normal and the head was particularly large.

Giant mutant tyrannosaurus (boss)

Level: 60

Qi and blood: 100,000 / 100000

"Uh, this dinosaur looks so ugly." Mu Yu said.

Lu Yang said with a smile: "It's not only ugly, but also difficult to fight. This guy's damage is particularly high. A poisonous mist can be sprayed in his mouth. I will die if I touch it at this level."

Han Ying looked into the room. The whole room was less than 50 square meters. Except where the mutant tyrannosaurus stood, the remaining space was very narrow. He asked, "Brother, do you want to release him?"

Lu Yang patted the door and said, "As long as the door is opened, he will rush out immediately. The only way to kill him is to use fire dragon technique."

When he came to the side of the gate, Lu Yang said a spell in his mouth, summoning an illusive fire dragon full of flames on the ground.

The fire dragon has only a dragon head and a neck. It has no body. After seeing the giant mutant tyrannosaurus, flames burst out in his mouth, and a large fireball was hit to hit the mutant tyrannosaurus ~ www.mtnovel.com. When he tried to attack the fire dragon, he found that the fire dragon could not be attacked, and suddenly looked fiercely at Lu Yang outside the window.

"Everyone retreated beyond 50 yards," Lu Yang said.

The crowd nodded and hurried back.

“Hello ~!”

Mutant Tyrannosaurus roared towards the iron fence.

With a bang, he slammed into the fence door, opened his mouth wide, and a pale green poisonous mist, like the water gun of a sprinkler, sprayed quickly towards the landing sun.

“flicker”

Lu Yang just used his skills, and the poisonous mist sprayed on the white light.

30 yards away from the side, Lu Yang appeared in white light and quickly retreated to Han Ying and others.

“This poisonous mist is so powerful.” Han Fei said.

The poisonous mist of mutant tyrannosaurus sprayed out a length of 50 yards. If Lu Yang told them, everyone would die.

This is why Lu Yang didn't use the Fire Wall before, but came here when there was Fire Dragon.

When Lu Yang fills this room with the fire wall technique, I am afraid that an hour or two has passed, but now there is no fear of the fire dragon technique, which is equivalent to the mobile version of the fire wall technique, and the damage is higher than the fire wall technique a lot of.

In the room, fire dragon art continuously spit large fireballs to attack the mutant tyrannosaurus, and the mutant tyrannosaurus ran back and forth in the room.

Lu Yangzhan came to the iron fence and released 5 fire dragons in succession. When the mutant tyrannosaurus found Lu Yang, he flickered back to a safe distance.

The six fire dragons deal more damage than Lu Yang's Instant Pyroblast. In less than 10 minutes, the mutant tyrannosaurus trapped in the room was killed on the ground.

System prompt: You killed Mutant Tyrannosaurus

Chapter 383 - Steel armored tyrannosaurus

Even if there are 17 people with experience, the boss at level 60 still provides them with more than 20,000 experience.

"You go to the room to pick things up, and then stay inside and wait for me, I will go to other rooms and set fire to the dragon." Lu Yang said.

There are nearly a thousand such rooms in the entire arena, and this experience is quite large.

"Brother beware."

"Brother come on."

...

Lu Yang gave everyone a reassuring expression, turned on the hot and rushed towards the front room, each room put 6 fire dragons.

Now it's wasteland. All the rooms are bosses. When Lu Yang came here in the last life, the bosses in each room were not brushed, but ordinary mobs or elite monsters.

Now that he can have a chance to open up wasteland, Lu Yang is looking forward to what kind of surprise the boss here can bring him.

Half an hour later, Lu Yang ran through 300 rooms, each containing at least 6 fire dragons.

System prompt: You killed the giant mutant Tyrannosaurus

You gained 21049 experience

...

As the system prompts appeared, Han Ying and Xiao Liang went in room by room to pick up things.

By the time Lu Yang turned back, Han Ying had already picked up more than 100 rooms.

"Brother, there are so many good things bursting here, look at it." Han Ying said happily.

Everything. "Lu Yang said with interest.

"There were 72 Pandora's Boxes, more than 30 transfer certificates, and a secondary space-cut secondary forbidden spell." Han Ying said.

"Second forbidden spell?" Lu Yang was surprised to receive 3 copies of "Space Cut" from Han Ying. Seeing the above name really, he couldn't calm down.

“Space Cut” creates a pure space within a range of 50 yards in diameter. Every second, a space crack will attack the target in the space, causing extremely high damage, and each space crack will exist for 5 minutes. Players actively bumped into it and was also injured.

In the previous ranking of the second-ranked forbidden spells, space cutting was ranked seventh, because in a large team battle, such a persistent space crack is fatal to the opponent’s guild that has launched an attack, usually in a guild battle, a mage who understands the fissures in space often kills the most.

What Lu Yang dreams of most is this space-cutting skill, which was unexpected here.

“Let’s go on and see how many copies we can get together.” Lu Yang said.

Everyone nodded.

Continue to kill monsters. After 3 hours, Lu Yang killed more than 800 giant mutant tyrannosaurus, obtained more than 300 Pandora’s Boxes, more than 300 transfer certificates, and the most important 10 space cutting.

While resting, Lu Yang dialed in Xia Yuwei’s speaker and said, “Her Majesty, what are you doing?”

Xia Yuwei was resting, and Wen Yan rolled her eyes and said, “Why!”

Lu Yang laughed and said, “Show me something.”

Lu Yang sent Xia Yuwei the skill book of secondary banned spells.

“The secondary curse of the space department.” Xia Yuwei said in surprise.

“A total of 10 books have been sent to you.” Lu Yang said.

“Boss, you are so handsome.” Xia Yuwei said.

Originally, Xia Yuwei was thinking that she could form a 100-person transfer psionic mage group. Lu Yang had unexpectedly given him 10 additional secondary injunctions in the space department.

Lu Yang said: “I will send it to you in 3 hours, and there will be 50 transfer notices for the space department.”

“Boss, where did you get it?” Xia Yuwei asked.

“At level 60 map, I told you yesterday.” Lu Yang said.

Yesterday, who can believe that Lu Yang played the strange level 60 at level 30, but now Xia Yuwei is somewhat convinced.

“Boss, admire.” Xia Yuwei said.

Lu Yang smiled and closed the intercom, and said to everyone, “Let’s continue.”

Han Sha, Han Yu, and others were called out by Han Zhong for training. Lu Yang took Han Ying and they continued to search. It stands to reason that there should be a final boss in the arena. Look carefully.

Find the middle position on the right side from the left door of the arena. Suddenly, a heavy footstep in front made Lu Yang’s body tremble.

Lu Yang looked over to the side, and he found that there was a huge eye in the dark room not far away, staring at him cruelly.

“Hello ~!”

A loud roar sounded, and Lu Yang’s ears were very uncomfortable.

“-20”

Lu Yang was surprised to find that he was screamed by the opponent, and quickly backed up to a safe distance. He pointed with his right hand and ordered Phoenix to explore forward.

The darkened room around the monster’s trapped room would not see anything unless he approached with a torch.

Lu Yang wanted Phoenix to see if there were any traps or other things around.

Level 8 Phoenix just walked 20 yards away from the monster, and the Phoenix with full body flame illuminated the surrounding 50 yards area. At the same time, the monster’s big head was also exposed.

Mutant Steel Plated Tyrannosaurus (boss)

Level: 60

Qi and blood: 200000/200000

“Hello ~!”

A ripple appeared in the air ~ www.mtlnovel.com ~ Phoenix was suddenly hit by something.

“58968”

Level 8 Phoenix hissed and broke in the air.

“This strange knows sonic magic.” Han Ying said.

Lu Yang nodded and said, "Let's quit first and wait for him to come back before talking."

The crowds backed together, and when they retreated 100 yards away, the mutant steel armored dragon snarled back into the room.

"I'll try it," Lu Yang said.

"Brother, be careful." Han Fei said.

"Um." Lu Yang had absolutely no information about this strange, and did not know his warning range and attack range.

"Blazing Blaze"

The flames at Lu Yang's feet rose quickly and ran towards the door at a speed of 285%. At the same time, Lu Yang ran in a zigzag direction.

At a distance of 50 yards, the mutant steel tyrannosaurus suddenly appeared near the window, opening a huge mouth to spit an air balloon towards the landing sun.

This air balloon left only a ripple in the air, flying at a very fast speed, the first shot rubbing the back of the landing sun and emptying, scared Lu Yang almost burst into cold sweat.

Fortunately, Lu Yang was fast enough, before he released his second shot, Lu Yang came within 30 yards and released a fire dragon through the window.

You need to stop in place when you release your skills. Lu Yang has just released her skills and the second air ball hits.

"flicker"

With a flash of white light, Lu Yang appeared on the other side, holding the escape dagger in his hand. Lu Yang turned the escape dagger vigorously and threw it in the direction it was just now.

Because of the high-speed rotation, the speed of escaping the dagger to the side was not fast. When Lu Yang released two rounds of fire dragons in succession, the third air ball hit.

Chapter 384 - All Pandora\'s Box

A harsh crackling sounded.

Lu Yang turned around and ran two steps backwards. He flew past his original standing position and had no time to think about it. Lu Yang quickly ran out of the attack range of the steel armored tyrannosaurus.

“Hello ~!”

The steel armored tyrannosaurus didn’t hit Lu Yang and wanted to continue to spit *, but Lu Yang quickly ran out of his attack range, but couldn’t hit Lu Yang, but there were 4 more fire dragons attacking him in the room. This annoyed the steel armored tyrannosaurus.

“1011”

“1066”

“2132” (Critical Strike)

...

Fireballs were sprayed from the mouths of 4 fire dragons and hit the steel armored tyrannosaurus. Although the damage was low, they could continue to drop blood.

“Brother, this hurts not enough.” Han Fei said.

Steel armored Tyrannosaurus 500,000 blood, only these 4 fire dragons spit out 4 fire **** every 2.5 seconds, the fire dragon art disappeared before he was killed.

“It’s true.” Lu Yang looked at the steel armored tyrannosaurus hiding around in the room and said, “When my skills recover, I’ll put a few more fire dragons.”

Thirty minutes later, Lu Yang also used a wave of operations. The fire dragon technique in the armored tyrannosaurus room became eight. This time, the blood loss speed of the armored tyrannosaurus was much faster than before.

After three such operations, the steel armored tyrannosaurus finally couldn’t hold Lu Yang’s output and died on the ground.

“Brother, your skill is getting stronger and stronger. This kind of operation has made it difficult for me to do it twice. You have done it four times without errors.” Han Fei said in amazement.

Lu Yang said, “OK, let’s go and see what’s missing.”

With his current skills, there is still a year before the peak of the previous life, and now it is only supported by experience.

Taking everyone into the door and coming to the corpse of the steel armored tyrannosaurus, Lu Yang looked at the falling things, and one of the skill books caught Lu Yang’s attention.

Devour

Description: This is a powerful skill book. Anyone who can get it is lucky.

Lu Yang looked at the book in surprise and said, "Oh my God, it's bursting here."

"What's wrong?" Han Ying asked.

Lu Yang said, "Sister, a skill book that belongs to you is a skill book that is ten times rarer than Hellfire."

Han Ying blinked his eyes and said, "What skills?"

After the Lord of Hellfire, Han Ying didn't care much about the transfer, because the Lord of Hellfire is too strong, far beyond the current level of ability, and now Lu Yang told her that there is something rarer than the Lord of Hellfire. Skill book, Han Ying is interested.

I took the skill book from Lu Yang, looked at the instructions, and asked curiously, "Brother, how is this skill used?"

Lu Yang pointed at the hellfire lord next to Han Ying and said, "I ate him with devour."

"Uh." For the first time, Han Ying showed a cute expression, looked at the body and himself of Lord Hellfire Lord Gao, and said, "I try."

Lu Yang laughed.

Han Ying aimed at the Lord of Hellfire and chose to devour.

A deep purple light illuminates the Lord of Hellfire. The Lord of Hellfire instantly turns into a pile of gray and black ordinary stones, while Han Ying turns into a female demon exuding green evil fire.

Han Fei and others were stunned.

“What do you guys see me do?” Han Ying was a little helpless at being watched.

Han Fei wanted to sigh that Han Ying was so powerful, but he said mischievously, “Sister, you look ugly.”

Han Ying had a black line on his forehead and looked at Han Fei with an eye-knife and said, “Dead Han Fei, come here for me.”

Everyone laughed.

Lu Yang gave Han Fei a brain collapse and said, “It’s not big, it’s not small, it looks like it’s not eating right, wait for your skills to cool down and let your sister eat the phoenix. Look at it, it’s cool.”

“Really?” Han Yu asked.

Lu Yang said, “Of course, the things that are swallowed are not the same, and the physical changes are different. This skill is somewhat similar to the Druid’s transformation, but it is stronger than the Druid. Guess that Han Ying’s legal injuries are: How many.”

Everyone shook his head.

Han Ying looked at his injuries and said in shock: “Brother, my injuries are more than 3600, which is 1400 points more than before. The damage has also become chaotic damage.”

“Chaotic harm?” Xiao Liang and Han Fei couldn’t help but say it.

Han Ying nodded.

Lu Yang said: “The special effect of this skill is to let you increase the magic damage of 10% of the health of eating creatures, and at the same time you can become the same damage as monsters.”

It stands to reason that this skill is not special, but now with Hellfire Lord, this skill is quite strong.

Han Yingfa injured more than 3,000, and chaotic damage was 100% ignoring magic immunity. In this way, Lu Yang has the equivalent of 3 people who can lead the team to upgrade.

“In a while, Han Ying and Mu Yu each led a team. I also led a team, and we will upgrade together.” Lu Yang said.

Han Ying nodded gladly and was able to help Lu Yang. She was also very happy.

The bug location inside the Psychic Academy is not only one of the Colosseum here, but also Yuda of Lab No. 1 and the top of Tower 2. ~ www.mtlnovel.com ~ Lu Yang brought everyone to the Colosseum No. 1 Outside, waiting for more than half an hour, Han Sha and others entered the game after training.

After regrouping, Lu Yang and Han Fei took 4 persons including Han Sha, Han Ying and Xiao Liang took 4 persons including Han Yu, and Mu Yu and Han Yu took 4 persons including Han Meng.

The three teams upgrade together, and the overall upgrade speed is much faster than before.

I have to say that the speed of upgrading from level 30 to level 60 is very fast. At 12 pm, Lu Yang rose to level 40. Brother Han Ying and Xiao Liang and Mu Yu rose to level 44. Han Sha and other 12 children The guy's level reached level 35.

The squares of the 22 laboratories were all emptied by Lu Yang.

Immediately before going offline, Lu Yang returned to the demon shrine to sort out the warehouse, and hit the gems to synthesize a total of 112 grade 10 gems.

Level 10 gems are not the upper limit of synthesis. Remember that the tyrant players of the previous life have 15 or more gems in their entire body.

A gem of 15 segments requires 16,384 gems of grade 1, and all 18 pieces of equipment in the whole body are marked with 3 gems of 15 segments. It just feels scary when you think about it.

These jewels that Lu Yang hit seem to be a lot, in fact, they are only very small numbers. At the high level, the jewel drop has become the most basic material, and every player who wants to enter the arena must be fully synthesized.

These gems Lu Yang are going to save first, and he will be inlaid when he has equipment above level 50.

Although the gem cannot be used, Pandora's Box can try to open it. In the past two days, killing the boss made him hit more than 500 Pandora's Box.

Lu Yang returned to Tong Ling College and said to Xiao Liang, "You change the account with the orange long knife."

"OK." Xiao Liang said.

"Brother, is there anything wrong?" Han Fei asked.

Chapter 385 - Static stand

Pandora's Box has a chance to escape to escape the dagger. Xiao Liang and Han Fei have always wanted it, and Wen Yan immediately changed the number.

Lu Yang took out the back to the city roll and took Han Ying and Mu Yu to the inner area of the Red Fort.

“Wait a minute, I’ll get the magic box.” Lu Yang chanted, and moved more than 500 Pandora’s boxes back and forth, looking around, Lu Yang moved the Pandora’s boxes to the crater.

Han Ying and Mu Yu both sat on a big rock and waited there. It was always the most enjoyable time for them.

A white light flashed.

Xiao Liang, Han Fei, and Han Yu all came to the inner city of Red Fortress at the same time. When they saw Lu Yang standing at the crater, Han Fei ran over excitedly and said, “Brother, are you driving here?”

Lu Yang pointed at the crater and said, “When the box is opened, it will be opened below. The Pandora’s Box has a chance to summon a level 50 lord. Don’t think of running away and let him be killed.”

“There is still such a thing, I will try it first.” Han Fei seemed to have found a fun toy, excitedly picked up a magic box and climbed to the inside of the crater.

The crater has a vertical height of 200 yards from the ground and an inner diameter of 500 yards. After landing, Han Fei took out the box and clicked to open it.

There was a flash of black light.

The system prompts: A gust of wind passes by, and everything on your body is lost

Han Fei was surprised to open the equipment bar. The six mysterious items that he couldn’t take on him all disappeared.

“Brother, he also stole equipment.” Han Fei asked, looking up.

Lu Yang laughed and threw down a Pandora’s box and said, “Yeah, this thing is amazing. There are 5 unlucky effects and only 3 good effects. You can experiment. There is a chance to send it to the boss. be careful.....”

A black light flashed, and Han Fei disappeared.

System prompt: Feijian was killed by Water Elemental Lord

The crowd looked at each other. Han Ying and Mu Yu laughed while covering their mouths, while Lu Yang and Xiao Liang and Han Yu laughed.

“Brother Han Fei is so unlucky.” Mu Yu said.

After a flash of white light, Han Fei appeared in the inner city, and ran to the side of Lu Yang in depression, saying, “Brother, I was just teleported to the Water Elemental Temple and was killed by a giant water element.”

Lu Yang said: “I saw it, it’s okay, just get used to it, this thing is random.”

Han Yu picked up a Pandora’s box and said, “I’m going down, look at my luck this time.”

Han Fei Zei smiled and waved his hand and said, “Good luck.”

Han Yu rolled his eyes, turned to climb into the crater, and clicked to open.

A flash of golden light flashed.

System prompt: You get an escape dagger

Han Yu shouted excitedly: “Brother, I got the escape dagger, I got the escape dagger.”

“Good job, put the dagger on the ground and continue to open it.” Lu Yang said.

“I’ll get it.” Mu Yu ran to Pandora’s Box and picked up one back to the crater and threw it to Han Yu.

Han Yu lowered his dagger and clicked on.

A flash of black light flashed, and Han Yu disappeared.

System prompt: The Devil is killed by the Turtle Lord

Everyone glanced at each other and couldn’t help laughing again.

“I’ll come next.” Xiao Liang jumped down.

System prompt: Your attributes are reduced by 10%

The system prompts: You are dead.

Mu Yu took out the goblin pacemaker to rescue Xiao Liang.

The system prompts: You are dead.

Han Ying took out the goblin pacemaker to rescue Xiao Liang.

The system prompts: You are dead.

Everyone laughed, Xiao Liang was sitting in anger, and died three times in a row.

“I’ll try again.” Xiao Liang clicked to use the fifth Pandora’s Box.

A black vortex appeared, accompanied by a fierce rage, and a creature full of 50 yards tall and holding a black machete.

Demon Soul (Lord)

Level: 50

Qi and blood: 2000000/2000000

“Humans, you have to pay for your recklessness.” The demon soul slashed and easily hacked Xiao Liang.

“Uh, brother, let’s do it now.” Han Fei asked.

Lu Yang said with a smile: “Afraid, snoring, do you still not see this terrain, the demonic soul can’t jump up, and can’t hit us, this is a good opportunity to find.”

“Can this still happen ?!” Han Yu asked in surprise.

The last time he summoned the demon soul, he was killed by more than 100,000 people, but now Lu Yang told them that he could kill it here, which surprised Han Ying and them all.

“Come with me, I’ll show you.” Lu Yang took the crowd to the crater, and the words in his mouth were read, and a blast hit the demon soul’s head.

“3998”

The demon spirit raised his head, two black eyes staring at the sun, but he couldn’t attack.

“Damn, why am I here.” The demon soul ran to the side in anger.

“He actually hid!” Han Yu said.

“Brother, this energy card bug.” Mu Yu said in surprise.

Lu Yang said, “What are you waiting for?”

“Yes.”

Han Ying and Mu Yu used Spells together with Lu Yang ~ www.mtlnovel.com ~ Although there were only three people, all of them had 2500 or more spell damage.

Within 10 minutes, the demon soul fell to the ground.

“It’s too easy.” Han Fei said.

Lu Yang shrugged his shoulders and said, “What I hope most is that you open all the bosses out of the box, so we will get rich, and follow me to see what’s going on.”

If the level 50 lord explodes, there is no need to guess that there will be good things. Several people quickly jumped to the volcano to check the landing sun.

Static Storm

Distance: 300 yards

Description: Create an electrostatic force field with a diameter of 100 yards. Targets in the force field cannot use magic and take 200 + spell damage / 10 damage per second for 30 seconds.

When Lu Yang saw this skill book, Lu Yang shook his fist vigorously and said, "With this skill book in the next war, we will have a better chance of winning."

"Brother, what kind of skill book is this?" Han Fei asked.

Lu Yang handed the skill book to Mu Yu, saying: "This is an authentic thunder forbidden spell, which is specially used to fight enemy heals, mages, and shooters. All covered targets cannot use magic."

In this game, except for the thieves and warriors, all of them need to use magic. If they are banned, it is equivalent to no output.

Mu Yu has learned skills, and Lu Yang has another master who can use the curse.

There was no value in the remaining items. It was unexpected for Lu Yang to be able to explode a curse. After picking up the potion and materials, Lu Yang took them back to the top of the crater.

Chapter 386 - Dark gold weapon

A burst of white light flashed through the teleportation burst.

The leaders of the army, such as Zhuo Jiu Qing, Xia Yuwei, Sun Yu, bitter love half-life, appeared from the teleportation.

“Boss, what do you do?” Asked bitterly for half a life.

Lu Yang beckoned at them, and when everyone came over, he pointed at the orange long knife around him and said, “This is Xiao Liang and Han Fei. I will take them to open the Pandora’s Box.”

Everyone looked sideways, and hundreds of Pandora’s boxes were randomly stacked near the crater.

“Boss, so many magic boxes, how long have you been choking?” Bailang asked.

Pandora’s Box In the level 30 map, only lord-level monsters have a chance to drop, which is very rare.

Lu Yang said, “2 days.”

Everyone followed.

“seriously.”

Lu Yang took out more than 300 transfer certificates from his backpack and 10 secondary injunctions “Space Cut” and handed them over to the crowd. The ordinary boss will fall out. “

Mao Qiu looked at a lot of transfer certificates in front of him and said excitedly: “Boss, you really go to the level 60 map. Isn’t that place a player who can reach level 30 in one second?”

Not to mention level 60 monsters, even level 50 monsters are not easily killed by players at level 30, let alone level 60 bosses.

Han Fei said excitedly: “We not only killed the boss at level 60, but also killed a lord at level 80.”

When mentioning this, Han Fei was so excited that he couldn't help telling the context of these days.

"So boss, you are holding a staff of level 80 now?" Mao Qiu said.

Lu Yang smiled and shared the staff attributes to everyone and said, "How about."

"The magic damage is 569 points, intelligence +97 points, and 3 gems with +80 intelligence have been hit. This staff has more than 900 points of damage." Mao Qiu said in admiration.

Han Liu said coquettishly, "Boss, I want it too."

Lu Yang smiled and handed the staff to Han Liu, and said, "In two days, I will raise the level to 50. This staff will be lent to you for a few days.

Who asked me madly in my life and asked, "Boss, how old are you?"

"Just 40." Lu Yang said.

"Just 40?" Mao Qiu rolled his eyes and said, "Boss, I'm only 32, this is just my leveling day and night."

"I'm 32."

"We have just reached level 32." Bai Lang stared at Lu Yang gazing at him.

Lu Yang laughed and said, "I'm nothing, they are all 44 in Red Night."

Everyone silently looked at Han Ying's three siblings and Mu Yu. A strong sense of jealousy sprang up, and they were also upgraded. They only got 2 grades in 4 days, and Han Ying got 14 grades. This gap Even the muddy wine poured out an envious expression.

“Boss, I also ask for special treatment.” Yeyue heard the wind.

The dumb and handsome guy sells cute and said: “Same as.”

Lu Yang said with a smile: “Rest assured, you will be here in the past few days. I guess the Bloodthirsty Batian is about to launch an attack, and I will reconfigure you before the battle.”

Tu Feng frowned and said, “It’s really something extraordinary today. A lot of people came from the Bloodthirsty Domination’s headquarters, all carrying big bags. I don’t know if it contains materials or what.”

“No matter what is not good for us, tell me how many people are in the level 30 or above in the guild.” Lu Yang asked.

Tu Feng said: “More than 20,000 people have been equipped with 30-level gold equipment. At present, there are not many materials in the warehouse. It is estimated that the guild can generate 30,000 more 30-level players in 5 days. The materials are not enough, should I buy some. “

Lu Yang said, “Purchase, buy more. To be honest, at the beginning we had 13 thousand people left in the guild. However, for more than a month before, many people followed us for a long time. I was bullied many times by the bloodthirsty bully during this time, but they didn’t persist until the end. In any case, they also paid a lot for this guild. Now we have the ability and can’t be worse for these people. “

Everyone nodded.

Lu Yang went on to say: “Furthermore, the price of materials is now rising one by one, and the price is almost boundless. We should also purchase some in advance. If more people are recruited in the future, we are also prepared.”

As more and more players reach level 30, the price of materials for gold equipment is constantly artificially raised by material dealers in various main cities. Players do not want to buy, but the materials are almost in their hands. It is not possible to buy or not.

Tu Feng said, "I will contact the material merchant tomorrow."

After talking about the guild, everyone did not leave but sat beside Lu Yang.

"What are you doing?" Lu Yang asked.

"We'll wait to see the box open," Lan Yu said with a raised hand.

"Look at the same," Han Liu said.

"Look at +1."

...

Lu Yang laughed and said, "Okay, if you drive the lord again, you can help fight too."

Han Fei said, "The three of us are down."

In order to speed things up, Han Fei, Xiao Liang, and Han Yu decided to open the boxes together, which can improve a lot of speed.

Chapter 387 - The beginning of the third war

Continue to open the box. When the last one appeared, the Mammoth Chief appeared and burst out of the escape dagger.

Lu Yang said, “Our luck is good, we hit two.”

“It’s okay, brother.” Han Fei lay weakly on the ground and said, “I’ve been dead more than 100 times.”

“I’m a little younger, more than 80 times.” Han Yu with a touch of sadness.

Lu Yang laughed and said, "Dagger gives you two of you. Don't worry about it, go and change your account."

"Yes." The two immediately changed their account and went.

"Boss, we're offline too," said Zhuo Jiu Qing Qing.

Lu Yang nodded, and suddenly he received a message from Jin Buhua.

"Boss, Bloodthirsty Bully came to my store to buy 20,000 combinations, I couldn't promise him." Jin Buhuan asked.

Lu Yang frowned and asked, "You can make it in those days."

Jin Buhuan said, "If you start at full capacity, it will take 3 days."

There are more than 1,500 senior pharmacists in the Song of Blood and Fire Pharmacy, and it has become the largest pharmacy in the service, with great strength.

"I see. You promised him, but told him that it would take us five days to make a great deal on this transaction." Lu Yang said.

The 20,000 combination agent is 600,000 bottles, and the price of each bottle is 10 silver coins, which makes the Song of Blood and Fire pharmacy earn 60,000 gold coins. This kind of good thing is not common.

"But will Bloodthirsty Bully come to hit our guild? If that's the case, I'm a sinner." Jin Buhuan said.

"Rest assured, even if the bloodthirsty bully comes to hit me 5 days later, he will definitely lose, believe me, sell it to him." Lu Yang said.

In 5 days, Lu Yang was enough to bring Han Sha to level 50. At that time, even if the Bloodthirsty Domineer did not come to him, he would also give the Bloodthirsty Domineering or Spirit to eternal gift.

Turning off the intercom, Lu Yang flew back to the demon shrine while they were offline, raising the level of the two escape daggers to level 10, exactly like him.

Early the next morning.

Lu Yang entered the game after the workout and flew to the Psychic Academy with a group of 17 people including Han Ying and his brother.

The war is about to begin, and he will also prepare for the next battle. Lu Yang sent a message in the simulation group, saying: "Please make a request. Within 5 days, Xia Yuwei will bring out at least 30,30 players, others. Bring out 20,30 players. "

"Are you going to fight?" White Wolf asked.

Lu Yang said: "Don't ask this, but also keep it confidential, and I have other arrangements."

Tu Feng said: "Boss, if so many people reach level 30, I am afraid that this material will not be available."

Lu Yang said with a smile: "Don't worry, you just wait to be the **** of wealth."

Shut down the interphone, Lu Yang and Han Ying entered the psychic college, all the monsters in front of the laboratory were killed. They were killed last night and have not been brushed out today.

Lu Yang took this opportunity to take Han Ying, they walked through the last laboratory and entered the gate of a huge square.

Necropolis

According to the official story, the elites of the Terrans and Orcs attacked the Psychic Academy several times, and all dead bodies were brought here by the Zerg.

There are many high-level intelligent creatures in the Zerg. The wise mother of one of the four ancient worms under the Emperor Kanuduo uses the hatching worms to control the corpses of all races and orcs, turning them into Zerg army.

“So many zombies and orcs.” Han Fei said, looking at the countless zombies in the necropolis.

Undead Orc (Sub-elite)

The same is the low blood volume and high monoclonal antibody.

Lu Yang pointed at a statue in front of the square and said, “Han Fei and Han Yu gave Han Ying and Mu Yu the escape dagger. All of you stay here, and we three jumped onto the statue with the escape dagger.”

The statue is 50 yards tall and looks like an old magician holding a magic book on the left, a magic wand on the right, a magic hat and a magic robe.

This is a bug position in the last life. Only using the escape dagger can jump up. It happened that yesterday, two escape daggers were hit, and three people were just right.

Han Fei and Han Yu nodded and handed the dagger to Han Ying and Mu Yu.

Lu Yang’s mouth spelled out.

“The Great Lord of Fire ...”

After 10 seconds, a giant red fire meteor hit the square, stunning all the undead orcs within 200 yards of the statue.

“Run.” Lu Yang and the two quickly ran through the strange group to the statue.

“Jump to his magic book.” Lu Yang said.

The statue is very large, even with the magic book, it can just stand two people.

Han Ying and Mu Yu threw the escape dagger and landed on the statue precisely.

The blue light flashed.

They appeared on the statue’s book.

Lu Yang threw the escape dagger and landed on top of the wand held by the other hand of the statue, where just one person could stand.

“Hello ~!”

Thousands of roars rang at the same time, and the whole square of the earthquake was echoed, and the waking undead orcs rushed towards the statue collectively.

In less than 5 seconds, there were almost 10,000 orcs gathering under the statue, as in the zombie movie, it looked extremely terrifying.

“Xiao Yu released the forbidden spell on the front, I released the forbidden spell on the back, and Xiaoying released the shadow seed and played together.” Lu Yang said.

“Okay.” Mu Yu and Han Ying agreed.

Meteor fire rain

Lightning storm

The two forbidden spells were thrown out one after another, and the statues at Necropolis were like the last days before and after. There was a lightning thunder and a meteor at the end.

In between, there are shadow seeds that are constantly exploding.

In less than 30 seconds, more than 3,000 undead orcs stood on the spot. Han Sha and 12 other little ones lit up with gold at the same time, reaching level 36.

“Fire Dragon”

Lu Yang continued to release fire dragon skills around the statue with a finger at the ground. Before long, more than 200 fire dragons were placed by Lu Yang in the area of 30 yards in diameter.

Lu Yang said, “Xiao Liang, Han Fei, Han Yu, the three of you are going to pull monsters, how many are attracted.”

“Okay ~ www.mtlnovel.com ~ Han Fei and the three ran towards the square.

Players at level 30 can be found by monsters at level 60 at a distance of 30 yards. Han Fei easily pulled a large number of undead orcs and human undead.

When approaching the statue, more than 200 fire dragons protruded at the same time and attacked the surrounding undead orcs.

For a time, a large fireball occupied the entire square, and all the undead orcs did not wait for a distance of 30 yards from the statue and were all killed on the ground.

Han Ying took this opportunity to jump to the middle of the fire dragon, came to the forefront of the strange group, and continuously released the shadow seeds to the undead orcs.

The orcs that chase after each death will explode [blast] once, injuring the undead orcs within 30 yards.

At first, it did not show up. When the first batch of about 100 undead orcs died, the buried shadow seeds burst in succession. In a split second, the shadow damage was splashed and more than 1,000 undead orcs were simultaneously killed by the shadow seeds.

“Continue to blame, don’t stop,” Lu Yang said.

Han sofa news said to Lu Yang: “Brother, can we go blame?”

Lu Yang thought for a while and said, “Han Sha, Han Yu, Han Meng, the three of you go in the other three directions to blame.”

“Yes.” San Xiao jumped into the field excitedly and ran in the other three directions.

“These 8 guilds are all very powerful guilds, and 4 of them have strongholds.”

“The human race has another super alliance. The number of eight guilds exceeds 800,000. This organization is fully capable of competing with their guild alliance of bloodthirsty and eternal spirit.”

“Hey, this time Lu Yang is going to suffer. You look at it, I bet, the first unlucky one is the Jagged Brotherhood.”

“Then you still use it to say that the major guilds will definitely attack the surrounding guilds at this time, either surrender or get out of the way. The two fortresses of Lu Yang are likely to be divided equally between them and the bloodthirsty bully. “

“That makes sense.”

At a time of divergent opinions, the turbid wine and Xia Yuwei had pulled Lu Yang into a special space.

“Boss, what shall we do now?” Xia Yuwei asked.

“Late twilight and the hegemony are nothing. Seeing that we don’t use them as shields, and pulling others to form alliances don’t tell us.” Jiang Ze said.

“Boss, should we hit them first.” Bai Langmu asked fiercely.

Looking at the expressions of concern of everyone, Lu Yang smiled and shook his head, and said to each of them seriously, “You remember, the alliance that Chi Mu and Xiongba have made will become a big laughing stock in the history of the game, and it is the most wasteful alliance.”

Everyone looked at Lu Yang in shock.

“Why.” Xia Yuwei asked.

Lu Yang said: “8 guilds are located in 3 main cities. Besides, once they are attacked, they cannot help each other. Moreover, the 8 guilds are loose alliances that do not involve shares and are put together. The pretend is okay. Once it really hits, who can work hard for others’ guild. “

“You know Zhou Tianming outside the Sea Emperor City. It stands to reason why such an alliance would not find him, but the news I heard is that after knowing the situation of the fortresses around the Sea Emperor City, he didn’t find it After Zhou Tianming. “

An alliance with a selfish mind, not even the black-blooded Necromancer.

“Then we ...” Tu Feng asked.

“What to do, don’t bother with the group of people, and lead the team to upgrade each other. You can see the situation in a few days. If I’m not wrong, we are the first to die.” Lu Yang said.

Everyone was more puzzled.

Lu Yang said: “You do n’t need to ask me how to guess, as long as you remember this thing is absolutely confidential and you ca n’t tell anyone else, otherwise, the bad luck may be our guild. 5 days, 5 days later you will know the results, let ’s go. ”

Withdrawing from the special space, Lu Yang sighed, “Late and heroine, you two can’t help yourself.”

The first axe of Wang Teng ’s three-barreled axe has n’t been cut out yet. You both took the initiative to pass your necks and ask for trouble.

“Brother, what’s wrong with you?” Han Ying asked with a strange look when he saw Lu Yang’s expression.

Lu Yang smiled and shook his head, saying: “We step up the upgrade and strive for 50 of you tomorrow.”

Han Ying nodded.

The monsters within 5,000 yards around the square statue were killed, and Lu Yang continued to lead the team to go deeper into the college.

There are two forks at the end of the square. On the left is the college’s dormitory area and the auditorium, and on the right is the back mountain of the Psychic College.

“Let’s go to Houshan,” Lu Yang said.

Walking along the avenue, just after arriving at the entrance of Houshan, the dense buzzing sound became more and more harsh as they approached.

Around a large stone, a group of wasps in front of each other were half-human tall, dark-skinned, with black fangs in their mouths flying in the air.

Fangs Ghost Bee (Sub-elite)

“Brother, can this bug be stuck?” Han Ying asked.

Lu Yang said, “I do n’t have a card bug. I have a faster play. I will become a fire monster in a while. The two of you follow me. I use the flames of **** to control. You are responsible for releasing the shadow seeds. Put the site offensive. “

“This game is good.” Han Ying said.

Once the Seed of Shadow is triggered, the damage inflicted is very high.

Mu Yu said, “I’m fine.”

Lu Yang nodded, and the words were spelled out in his mouth, turned into a 5-meter-high flame demon toward the front, and Han Yang and Mu Yu hid behind Lu Yang.

“Hum”

When Lu Yang found Lu Yang, his wings vibrated, and summoned dozens of evil tooth ghosts and bees toward the landing sun.

At a distance of 30 yards, Mu Yu hid behind Lu Yang's mouth, and the chain of lightning pointed at the bee colony ahead.

In the blink of an eye, the first flash of lightning hit the first Vicious Tooth Ghost Bee, jumping backwards continuously to attract all the Ghost Bees within 20 yards behind.

Han Ying was standing on the other side of Lu Yang, and the words in his mouth continued to read, one by one, the shadow seeds were buried in the body of the nearby ghost.

“Destroy the Sky”

The swarm of bees up to 100 yards were hit by Lu Yang one after another and rushed towards the landing sun.

In less than 10 seconds, Lu Yang was surrounded by more than 2,000 ghosts and bees, but Lu Yang and Mu Yu continued to blame.

When the time of 20 seconds came, the first shadow glowed.

“2886”

“2794”

“5968” (Critical Strike)

...

All ghost bees within 30 yards are attacked by shadow damage, and countless damages are illuminated in the swarm.

Immediately afterwards, the shadow damage on the second ghost bee bursted, and another batch of damage lighted up.

The damage of the shadow seed monomer is not high, but the damage of the group explosion is very considerable, Han Ying gave 20 ghost bees seed shadows in 20 seconds.

When the 20 Shadow Seeds broke out, more than 200 ghost bees within 30 yards were killed instantly.

At the same time, even the nearby ghosts and bees were harmed, and Han Ying had planted shadow seeds on the injured ghosts and bees.

The second batch of ghost bees died faster than the first batch, only 10 seconds. The surrounding ghost bees are in half blood or residual blood. Whenever a ghost bee dies, the outbreak of shadow seeds will Deals damage to other ghost bees.

Chapter 389 - War ends

After half an hour.

Lu Yang, Han Ying, and Mu Yu killed more than 6,000 fangs and ghosts, and Han Sha and other 12 kids rose to level 38.

Looking at the corpse of ghosts and bees all around the ground, Lu Yang's body flickered and ended his transformation. Looking at the time, it was exactly 1 pm, and he said, "There are 10 minutes to refresh, we will upgrade separately."

Everyone's eyes brightened. According to the previous assignment, Mu Yu took the team to the colosseum's bug position. Han Ying took the team to the top of Yuda in Lab 1. Lu Yang took the team to wait under the square. .

The speed of upgrading the three groups immediately increased. At 12 pm, the three sisters Han Ying, Xiao Liang, and Mu Yu rose to level 48 at the same time, Lu Yang rose to level 45, and 12 little guys rose to level 41.

When offline, everyone was tired and fell asleep in bed, as if the upgrade on this day was more tiring than training.

Although Lu Yang didn't say it, the sister Han Ying and Xiao Liang felt how urgent they were to come out of Lu Yang, and they felt that something big was going to happen, so everyone was very serious.

The fourth day of the eleven holiday.

After entering the game, Lu Yang continued to bring the team to upgrade, until 8 pm, at last, Han Ying, Han Fei, Han Yu, Xiao Liang, Mu Yu rose to level 50 at the same time!

Lu Yang rose to level 47 and 12 little guys rose to level 45!

Just at this time.

[World Channel] Old Man in the Twilight: The good news is that the Zijin Dynasty officially accepted 300 million credits from the Capital Group. Welcome all experts to join. Zijin Dynasty opens the door with the greatest sincerity. As long as you are a master, I will give you a high salary.

A sensation on the World Channel instantly.

“Good news again, it’s desperate for Twilight and Dominion.”

“Should we try it? Maybe we can get paid.”

...

The news of the two guilds immediately attracted a large number of players to go, and the recruitment offices of the Iron Brotherhood and the Bloodlust Alliance instantly became extremely deserted.

Inside a special space.

The leaders of the army such as Zhuo Jiu Qing Piao and Xia Yuwei gathered again.

Tu Feng frowned and said, “The two are trying to do something.”

“It’s really amazing to have money. I don’t believe that Xiongba and twilight money can buy everything.” Bai Lang said angrily.

This is no longer playing a game, but using money to manipulate the game, showing a stance that the one who follows me will change against the other, and it is no different from Wang Teng’s behavior.

Zhuo Jiu said, “In the beginning, I thought that twilight was a person. Now it seems that this person is really boring.”

Lu Yang patted Zhuojiu’s shoulder and said, “Don’t be angry about this.”

“Boss, are we going to mobilize all of our brothers and be ready for the war, I suspect that Late Twilight and Xiongba have an attempt on our fortress.”

If the Bloodthirsty Batian attacked Lu Yang when the twilight and the male domineer attacked at the same time, it is likely that Lu Yang would lose two fortresses at the same time.

The expressions of everyone became dignified instantly.

Lu Yang said with a smile: “Don’t worry, that kind of thing won’t happen. A few of you will start out tomorrow and don’t participate in the management of the guild. I will take you to upgrade.”

“Upgrade?” Xia Yuwei asked in surprise.

Lu Yang said: “Yes, I have a way to get you to level 40 quickly, almost a day.”

“So fast?” White Wolf said.

“Of course, if you wait three more days, the upgrade will be faster. You should arrange it first, and try to suppress the anger of your subordinates, so as not to let them affect the upgrade.”

The elite players of the Jagged Brothers Alliance are the most loyal guild players. The guild has been bullied from a weak, step by step, and struggled to be strong today. What they hate most is being bullied. Now it is clear that the two major alliances have wars against them. Ideas, they are more angry than anyone else.

The white wolf said, "Boss, don't say that you have a psychological problem. I can't get through this. I want to scold the bully now. It's too unjust."

The thing that Xiongba did was not justified. They could not be used as a shield for them, so they were regarded as enemies. Obviously, Xiongba has always been uneasy about Lu Yang. In addition to the last malicious digging, the three brothers of Baijia began to look down on Xiongba. .

Sun Yu said, "Isn't it big brother, I'm too nervous in my heart."

Lu Yang saw this expression on everyone, sighed and said, "Okay, let me analyze the current form with you."

"What form?"

Lu Yang said with a smile: "You find no, whether it's bloodthirsty domineering or eternal spirit, or Wang Teng, these days are particularly quiet."

"Yeah," said White Wolf.

"Aren't you feeling too quiet?" Lu Yang asked.

"What do you mean ~ www.mtlnovel.com ~" bitter love asked for half a lifetime.

Lu Yang said: "Simple, there is such a powerful neighbor around me. The investment of Chi Mu and Xiong Ba is more than that of Liu Jie in the human race. Wang Teng should recruit for two guilds. Some new policies. "

Xia Yuwei reacted and asked, “They did play too quietly, but the eternal reward of the soul has not been withdrawn.”

Lu Yang said: “How about we bet, I bet today, the spirit will eternally increase the reward order.”

Everyone looked at Lu Yang curiously.

“Why.” Han Liu asked.

Lu Yang said, “Look at it first, and I’ll explain to you later.”

[World Channel] Soul of Eternity: For the benefit of the majority of players in St. Gall, the president announced that the bounty will be increased. For each player killed by the Iron Brotherhood, they can receive 20 silver coins from the Bloodlust Alliance.

The news of World Announcement appeared on the call bar of each of them, and they saw this reminder, everyone looked at Lu Yang in shock.

“Boss, how do you guess that, do you have a spy there?” Mao Qiu asked.

Lu Yang said, “I don’t have so many people. Besides, such secrets are only known to senior management.”

“Yeah, you don’t know that.” Asked bitterly for a long time.

Lu Yang said: “Look at me, I can guarantee that Wang Teng’s goal this time is definitely not us, it must be the black stone fortress that will dominate the hegemony.”

“How is it possible that Xiongba just invested 300 million in the guild.” Xia Yuwei said.

Lu Yang said: "But these 300 million haven't turned into materials and equipment yet. The current dominance has only more than 20,000 level 30 players, of which 10,000 are equipped with level 30 gold equipment, and the remaining players either it is not equipped or it has no level. "

Chapter 390 - Perfect tactics

"However, the bloodthirsty domineering strength is at least a little stronger than the male domineering, can it win?" Jiang Ze asked.

Lu Yang said: "Then you feel that we are better than Xiongba, who is stronger."

"Of course it is us," Jiang Ze said.

"Then how do you feel the hegemony and twilight together compare to us now?" Lu Yang asked.

Tu Feng said, "If you don't count the capital that the two guilds have just invested, they can't beat us together."

Everyone suddenly realized.

"Just now, the eternal reward for us is not aimed at us, but to confuse the hegemon and twilight!" Xia Yuwei said.

Lu Yang said: "Exactly."

Everyone took a breath and took a cool breath.

Lu Yang said with a smile: "Remember, it is strictly forbidden for the opponent to mention this matter, otherwise it is absolutely confidential, otherwise, when the hero and the twilight are aware of it, and Wang Teng has to send his arrow on the string, it is us who is unlucky Now. "

Mao Qiu said, "I have turned off the chat function of my friends. In the past few days, I have upgraded with the boss. I will no longer participate in everything in the guild, and I will work hard for you."

"me too."

"me too."

...

With the exception of Zhuojiu, Xia Yuwei, bitter love half-life, Sun Yu, White Lion, and Jiang Ze, all the commanders of the other legions banned from participating in team command. In order to prevent any news from leaking, everyone worked hard.

On the other side.

In the joint office locations of the eight guilds in the city of St. Gall, south of the city, the elders of the twilight elderly and the tyrants and other major guilds laughed and laughed at the news eternally released by the spirit.

"Okay, Eternal Spirit and Lu Yang have worked together. It won't be long before the Bloodthirsty Domineering will attack Lu Yang."

"I'm still curious. The spirit and eternity are so far behind Lu Yang on the killing list. How can I bear it? Sure enough, the spirit and eternity are anxious."

"Now we have a chance to take advantage of the fishing profit. The two of them are fighting, and the two brothers, Lao and Xiongba, have a chance to win and take down their fortress." Jian Zhiheng, the boss of the Quartet, said.

Chi Mu and Xiong Ba stared at each other, both of them smiling.

Of all the guilds in St. Gall, it wasn't the bloodthirsty league that made them fear the most, but Lu Yang.

After so many wars, Lu Yang was taken away by both men each time, and the victory of each war was the weakest guild of Lu Yang to obtain the maximum benefits, which made the male and female sorrows very upset.

Today, the two people invest in the guild on a large scale. Under the absolute strength, they both intend to kill Lu Yang. However, before the alliance was still in place, they would be scolded by players behind the Holy City.

However, this time is different. If Bloodthirsty Domineer attacks Lu Yang, they will provide weapons and equipment to support Ziwei Pavilion and Orange Alert to attack the other one. The two will not bear any infamy. Both guilds are alliances. He The two can only persuade each other and cannot favor the other side.

"Don't say this, that's their thing, we don't participate." Xiongba said.

"I also invited Lu Yang to join our alliance. He was unwilling to join. What a chance to wipe out the bloodthirsty alliance, so I missed it." The old man with a regretful expression.

She smiled and said nothing.

Others complained about Lu Yang, and Lu Yang deserved it.

While they were chatting, Bloodthirsty Tyrant sent a message to the old man and the male, saying, "Two brothers, do you have time?"

The old man and the hegemon looked at each other with surprise expressions.

“Let’s talk first, I have something to do with Xiongba,” Chi Mu said.

Xiongba arched apologized, and sent a message to Bloodthirsty Batian: “I have time.”

Bloodthirsty Batian said, “Let’s talk about how we enter a special space.”

“Of course you can.” The old man in the twilight opened a special space and invited the bloodthirsty bully and the male bully to join.

After 5 seconds, the two entered a special space together.

With a smile on his face, Bloodthirsty Batian smiled and said, “The two brothers really do not prestige, so a prestige is startling.”

Xiongba is most proud of his own business investment, and said arrogantly to Bloodthirsty Batian: “What do you mean by us?”

Bloodthirsty Batian said with a smile: “Brother, we had conflicts before, weren’t they all misunderstandings? I want to say, there is no contradiction between us at all, you two let me out of the field, I immediately let The previous fight, that’s all because of Lu Yang, it has nothing to do with the two of you. “

Xiong Ba and Chi Mu glanced at each other, and they guessed that Bloodthirsty Batian was looking for them both for Lu Yang.

He asked, “What do you mean by that man?”

Bloodthirsty Batian said: “Do n’t I get some investment, I am going to seek revenge from Luyang ~ www.mtlnovel.com ~ But, I will never get in trouble with two brothers. With your financial resources, I do n’t With this qualification, I just helped the black blood to regain the fortress. You also know that the black blood is now the red man under the Wang Teng seat. “

Black Blood was promoted by Wang Teng as a special assistant because of his eternal proposal to occupy the Black Stone Fortress with the spirits. However, anyone who is attentive to this matter can inquire about it, but he can't inquire about any promotion.

Both Chi Mu and Xiong Ba knew this, and did not understand Wang Teng's intention of doing so. According to their thinking, they could only think that this was because of the black blood's knot to Wang Teng.

Xiongba saw the twilight and said deliberately: "It is your business to fight Lu Yang. It has nothing to do with us. Although we are no longer in an alliance with Lu Yang, we will not fall into ruins. Your grievances will be resolved by yourself. Right. "

Bloodthirsty Batian shook his head and said, "Two brothers, don't tease me, just in case you two attack me from the back while Lu Yang and I are desperate, I will be miserable."

Both the old man and the hegemon know this. If they are desperate, they will have to stab anyone from behind and they will have to finish.

He Dumu laughed and said, "Brother, we really didn't fight you. You have the support of Wang Teng and the other 4 guilds behind us. We won't start a full-fighting war with you. That would only be cheaper for Lu Yang and other guilds , You say yes. "

The bloodthirsty Batian stared at the twilight eyes and looked at Xiongba again, thinking for a while and saying, "In this way, I will not hide the two, I will attack the Storm Fortress one week later, I hope the two can keep the agreement and not attack I, I believe, the entire game is so big that our two major leagues can live together safely for a long time. "

Chi Mu and Xiong Ba didn't want to start a war with Wang Teng at this time, and they arched against Bloodthirsty Ba Tian.

"We think so too," said the old man.

Chapter 391 - Flesh Mother

Wang Teng patted the table and said, "Very well, everyone acted according to plan and won the battle. I went to Jie Shao to give you credit."

"Yes." People such as Bloodthirsty and Eternal Spirit smiled.

"In addition, let me tell you first. After winning the hegemony, everyone rested for a day, and then we attacked the red fortress of Lu Yang." Wang Teng said.

"Red fortress?" Shenhun looked at Wang Teng with eternal surprise and said, "General Manager, why don't you hit Fengei Fortress?"

Black Blood also looked at Wang Teng in surprise.

Wang Teng patted Black Blood's shoulder and said, "Fengei Fortress will call you back sooner or later. This time, the decision was made by Master Jie himself, and I cannot change it."

Hei Xue said: "I obey the arrangement, as long as I can kill Lu Yang."

The reason why Liu Jie decided to play the Red Fort is because he discovered the characteristics of the Red Fort. It is the closest to the Wolves' fortress among the orcs. When the two races open in the future, they can walk back and forth between the wolf and the human race to support each other.

Lu Yang withdrew from the special space and said to Han Ying who had risen to level 50, "You guys go with me to a place, Han Sha, 12 of you go back to the city to train first."

"Yes." Han Sha and Han Meng and other 12 little guys were under the ground.

“Brother, where are we going?” Han Fei asked.

“Meditate for you first.” Lu Yang took out the teleportation scepter and flew 5 of them to the crater.

Jumping down the mountain, Lu Yang took them in the area where the Red Flame Lions were active, digging, covering up and smoothing the traces.

In 5 minutes, 6 people worked together to complete a trap.

Lu Yang put delicious venison on it, and soon, a red flame lion fell into the trap, and Mu Yu first called.

Han Ying’s second.

...

After half an hour, everyone was riding a Red Flame Lion.

“This lion is so handsome.” Han Fei said excitedly, stroking his mane on the back of the lion.

Lu Yang said, “Follow me, we will go to the next place.”

The crowd nodded, riding a fire lion and following Lu Yang from the level 60 map to the level 50 blood demon mountain.

Running into the deep mountains, a two-meter-long, green body giant bug blocked the middle of the road.

Green worm

Level: 50

Qi and blood: 110000/110000

“So disgusting.” Mu Yu said disgustingly.

Lu Yang patted Mu Yu’s head lightly and said, “Last time, when we help Han Sha to reach level 50, we will never hit these strange things again.”

From the level 30 ancient monster map to the level 60 psychic academy, this line is all the main task of the ancient worm family, in fact, all the creatures in this are the ancient worm monster.

This worm is the most common monster, and it’s very easy for them to kill Han Yu and Han Ying who are equipped with Level 50 equipment.

Lu Yang led them into the Blood Demon Mountain and entered the Blood Demon Cave in the back of the mountain. Inside the cave were several green reptiles that crawled around with yellow skin like lizards.

Diablo

Level: 50

Qi and blood: 100,000 / 100000

These dark warriors are long-range attacking monsters that can spit out dark arrows with poison, which is very harmful.

“Be careful to avoid, our defense is not good, this thing has a chance to kill us instantly.” Lu Yang said.

With a wave, Lu Yang summoned the fire phoenix and attacked with them.

Soon, the Dark Warrior fell to the ground. Lu Yang led the team into the cave and walked forward for 20 minutes. During that time, he killed countless Dark Warriors. Suddenly, a strange sound appeared in front.

“wave.....”

Lu Yang’s eyes brightened, he walked around the corner and looked at the direction of the sound.

A stack of weird creatures, purely flesh and blood, appeared before them.

Flesh Mother (Sub-elite)

Level: 50

Qi and blood: 150000/150000

“So disgusting.” Han Ying said.

“Brother, what kind of thing is it, how can it grow like this?” Han Fei felt that he couldn’t get a knife.

“More disgusting than ancient demons,” Han Yu said.

Lu Yang said, “This is a treasure. I came here for this purpose.”

“Ah? Boss, what can this thing do?” Xiao Liang asked.

“You know when you summon one,” Lu Yang said.

“Oh.”

Xiao Liang put on the ring of dreams, and a pure white light enveloped the flesh-and-blood female.

The flesh mother's name turns yellow.

Summoned two more times, and the name of Xiao Liang was added in the parentheses after the name of the flesh-mother.

The Flesh Mother crawled slowly towards Xiao Liang.

"So disgusting." Mu Yu said in fear.

Lu Yang said with a smile: "Although this thing looks disgusting, it moves slowly, the attack distance is only 10 yards, and the damage is only 20 points. However, this thing has a characteristic. If it encounters an enemy, he can constantly summon 50 Level self-explosive worms. "

During the talk, Lu Yang hit a blaze over a dark warrior when he exploded.

The Flesh Mother trembled violently, and a round worm with 3 tentacles crawled out from under him.

[Blast] Worm

Level: 50

Qi and blood: 5000/5000

Just crawled out of the mother body and ran two or three steps ~ www.mtlnovel.com ~ Since the [exploded] worm looked at the dark warrior, and looked at the flesh female worm, turned and rushed towards the flesh female worm.

“Well, how did he run back?” Han Fei asked.

“Boom”, since [explosive] the worm hit the body.

“5000”

“Boss, how did the self-explosive worm called by the flesh-feather worm hit my flesh-feather worm?”
Xiao Liang asked.

Lu Yang said with a smile: “This is the characteristic of the flesh female worm, you call the flesh female worm, not the worm that he spit out.”

“Isn’t this thing useless?” Xiao Liang said.

“Who said it.” Lu Yang saw the flesh-mother worm spit out another small worm, and a blast hit the small worm’s body precisely.

“6986” (Critical)

Since [explosive] the bug exploded.

System prompt: you get 674 experience

“Well, give back experience?” Han Fei asked in surprise.

Lu Yang said: “The normal level 50 self-explosive bug experience is 1800 points. This is the only point for 6 of us. If you upgrade to level 30 people, kill one and give 3600 points.”

Everyone showed surprise eyes.

“If five of us summon five flesh-blood females, using small bugs to upgrade is not much slower than at the Psychic Academy.”

Lu Yang said: “More than that, now the Fleshwomen’s summoning speed is 1 in 3 seconds. If you raise it to level 7, he can spit 3 in 1 second.”

25 level 7 flesh and blood female worms spit 75 worms in one second. This upgrade speed is much faster than that of the Psychic Academy. This is why Lu Yang desperately took them to level 50. the reason.

Chapter 392 - Gorefiend Lord

“You look for the females here first, and I’ll find you an upgrade place.” Lu Yang said.

The upgrade method of the creature summoned by the ring of magic is different from that of the hunter, and it can only increase 7 levels, and the basis of each upgrade is only based on the number of kills, not the strange level and experience.

Lu Yang built a sentry tower in a remote place inside the cave, took out the city and flew back to the city of St. Gall.

I came to Xinshou Village-Giant Town through the teleportation array. Lu Yang had previously taught Lan Yu to go to a cave to play a level 1 mob, and that cave was suitable for the flesh and blood female to upgrade.

After spending half an hour doing the pre-missions, Lu Yang came to the cave entrance, built a sentry tower nearby, and returned to the Blood Demon Cave using a teleportation scepter.

Following the corpse of the dark soldier on the road, Lu Yang found Han Ying and others who were fighting in front.

“Brother, we’ve caught 24 flesh-and-blood females, so we are the last one.” Han Ying said.

“Good.” Lu Yang nodded with satisfaction.

Suddenly, a blood-red figure in front of him wandered from a distance.

Lu Yang’s eyes lit up and he said, “There is a blame.”

“Where?” Han Fei’s eyes lit up.

Lu Yang pointed at a monster with a **** body in front, a demon’s head, and an orc-like body, and said, “It’s him.”

Gorefiend Lord (Lord Level)

Level: 50

Qi and blood: 3000000/3000000

According to official history, the Blood Lord is a heterogeneous combination of the ancient Zerg and the Orcs, which is not accepted by the Orcs, and the Zerg does not trust him. However, the Blood Lord is powerful and appointed by the Emperor to manage the Blood Monster Mountain.

“Boss, can we fight?” Xiao Liang asked with bright eyes.

Lu Yang said, “It’s a downtime, but it’s a bit laborious. Be careful not to die. The biggest feature of this strange is that there is no hatred.

Will use one stroke of blood cutting skills, hit the target to lose blood as the target runs, take a step off 10%, only stop in place will not lose blood.

He will only chase after the target who was cut by blood. If he is caught, the damage will be increased by 100%. “

“Isn’t that a slam in the sword, and it won’t be impossible to get caught,” Han Fei said.

Lu Yang took out the emerald heart and escaped dagger and said, “Escape dagger and emerald heart can resist this skill. Please be careful and listen to me for a while.”

Everyone nodded.

“I smell something, oh, this is the smell of human fresh blood, it is so fascinating to me.” The bloodlord’s eyes glanced around the cave.

Lu Yang was about to attack. Suddenly he saw the flesh-and-blood worm on his side, his head flashed, and said, “Let’s change the position to play, I have a better way to play.”

There was an empty place in the place just passing by. Lu Yang took the team to the middle of the field and said, “I will attack your mother insects in a while. When the blood demon came, Han Ying gave shadow seeds to the [exploded] worm. “

Han Fei said, “That’s a good idea.”

Five people immediately brought the self-exploding worms out of the battle, and Lu Yang aimed at the five self-exploding worms, each releasing a fireball.

24 flesh-and-blood females immediately started to spit small bugs. Within 2 minutes, 480 bugs were spewed out, covering a quarter of the square.

As it happens, the blood demon wandered along with the smell, and Lu Yang raised his hand and hit a Pyroblast on the blood demon’s head.

“6898” (Critical Strike)

“Humans, they really are humans. I will use your blood to sacrifice.” The blood demon showed his claws on his hands and fluttered towards the landing sun.

“The shadow seed on Han Ying.” Lu Yang released a Skyfire with his right hand, waking up all 20 bugs 30 yards behind him.

Han Ying said in his mouth that the shadow seeds were planted one after another on the bugs.

“Blade of Blood”

The blood demon came to Lu Yang, the blood on his right paw flickered, and a **** light appeared on Lu Yang’s body.

The system prompts: You are hit by Blood Cleavage, taking 100% more damage for 10 seconds.

Looking at the blood demon who ran to the front, Lu Yang took out the green heart and clicked to use it.

Lu Yang’s body instantly became void, and the blood demon ran to Lu Yang and grabbed it.

“Miss”

At this time, since the [explosive] worm has come to Lu Yang’s side, just as the worm is preparing to [explosive], the continuous damage of the shadow seed will kill the self-explosive worm that was destroyed by the skyfire half-blood .

A purple-black light illuminates, and the shadow seeds burst.

“3600”

The 19 bugs that crawled around him took 3600 damage at the same time, and the bugs that had been trapped in the residual blood exploded at the same time.

“3600”

“3600”

...

19 consecutive injuries of the same number killed nearly 100,000 points of blood.

“Roar ~! Humans, you have to pay for it.” The Blood Lord roared, centered on him, and all fell into the blood-red light within 30 yards.

“Sacrifice of Blood”

This is a range of attack skills, damage 30,000, unless it is shield battle and anti-riding, if other classes do not run, they will die.

Lu Yang flashed white light, appeared 30 yards away, just outside of the blood sacrifice, just after landing, Lu Yang turned his hands and threw the green heart and escape dagger to Han Yu.

A burst of red light lit up, and the scene was horrible and anomalous as blood exploded. Han Yu took the opportunity to hit a blood demon’s head with a piercing arrow.

“Arcane Arrows”

“Poison Arrow”

“Weak Body Arrow”

...

A series of 7 skills were all thrown on the head of the blood demon by Han Yu ~ www.mtlnovel.com ~ successfully transferred his hatred to him.

“There is another human, it’s really interesting.” The Gorefiend Lord rushed towards Han Yu, and at the same time, he launched Blood Slicing to lock Han Yu.

Han Yu threw out the escape dagger toward the Blood Lord, and before the dagger reached his position, he fired a stray arrow into the sky, hitting 20 self-exploding insects.

Just when the dagger arrived at the designated location, Han Yu’s blue light flashed behind the Blood Demon Lord, and he clicked to start the emerald heart.

The Gorefiend Lord lost his paw.

“Miss”

20 [Blast] bugs ran towards Han Yu, and Han Ying took the opportunity to continuously release the shadow seeds. When [Blast] bugs crawled to Han Yu, the shadow seeds broke out, and 20 [Blast] bugs came first. Since [explosive] death, 100,000 blood has been destroyed by the Blood Lord.

“Damn humans, I’ll make you pay for this.” The Gorefiend Lord spoke the spell again.

Han Yu took this opportunity to launch his backward jumping skills and easily jumped back to his original position. Just after landing, Han Yu threw the escape dagger and emerald heart to Xiao Liang.

Xiao Liang is even simpler. He launches his onslaught skill with an axe and slashes on the Gorefiend Lord. With the Iron Wall ability reduces all damage by 50%, Xiao Liang can resist the Gorefiend Lord’s 5 attacks.

“Your sin can only be cleansed with blood.” The blood lord launched a blood rage against Xiao Liang.

Xiao Liang launched a verdant heart, and at the same time launched a group mock at the self-exploding insects behind him, attracting 20 self-exploding insects.

Lu Yang watched Xiao Liang's actions with satisfaction, and said to Han Ying: "With this hand, this kid can be promoted to the ranks of masters."

Han Ying said while releasing Shadow Seeds, "Brother Xiao Liang has been working very hard and finally paid off."

Chapter 393 - Collective upgrade

After 10 minutes.

Under the alternation of Lu Yang and Han Fei, the Blood Demon Lord fell to the ground, and Lu Yang did not drop a drop of blood.

To have such strength, only a few top studios in the server can do it.

Lu Yang looked at the falling objects.

Old Magic Sword (Dark Gold)

Level: 50

Damage: 197—216

Dexterity: +50

Strength: +39

Additional attack power: 66 points

Physical Penetration: +60

Among all the 50-level daggers, it was one of the best. Lu Yang gave it to Han Fei. Of the remaining items, Lu Yang was most surprised that he hit a design drawing.

Plans: Titan Ring (Silver)

Level: 40

Damage: 24-48

Strength: +40

Constitution: +40

Physical damage increased: +12

Increased physical crit: +66

When the player reaches level 40, it is more difficult to get good equipment. The landlord kills the lord to give the dark gold level equipment. The equipment given to kill ordinary bosses is only silver or black iron level equipment. Lu Yang did not think he should Ability to mass-produce silver physical rings of level 40.

There was nothing good about other items. When Xiao Liang summoned the last flesh-and-blood female worm, Lu Yang flew them to the door of Xinshou Village with a teleportation scepter.

Among the teleported places, the summoned beasts do not occupy the places, therefore, 5 people and 25 flesh-feather females have been summoned.

Click the cave old man to enter the cave.

The cave is very empty, there is no place where bugs can be stuck around, and countless little evil spirits are wandering inside the cave.

Little evil

Grade 1

Qi and blood: 100/100

“Wow haha, there is a feeling of being a strong party, this level 1 mob is really interesting.” Han Fei said.

Lu Yang said with a smile: “Don’t use an attack, just run over to attract the monsters, and now the mobs can’t even stop us from stabbing, and lead them to fight the flesh-and-blood females.”

While talking, Lu Yang released the Fire Wall at the feet of each Flesh Mother and within 3 yards in front of them.

Han Ying, Han Yu, and Mu Yu originally thought that they needed to attack themselves to explode the insects. However, Lu Yang’s fire wall technique was all solved.

Han Fei ran to the middle of the little monster, and after a while, he took hundreds of little monsters and returned to the place 10 yards away from the flesh-and-blood female.

“Mum ...”

Twenty-five female worms gave birth to self-exploding worms at the same time. They did not wait to run out of the 3 yard range and were all burned to death by the fire wall technique.

The female worm saw that the self-explosive worm was unsuccessful, and a flesh stab appeared under the foot of a little bad demon.

“20”

The little demon screamed and rushed towards the mother worm. Before he ran in, the five females attacked at the same time, and the little devil fell to the ground.

As if attacked and tasted the sweetness, the female worm stopped spawning and continued to use the meat thorn attack. 25 female worms cooperated to kill 5 little bad monsters each time.

In less than 10 minutes, all the hundreds of little evil spirits pulled by Han Fei were killed and 25 female worms were upgraded to Level 3.

Han Fei pulled the monster 3 more times, and the female worm smoothly rose to level 7.

“Follow me back to the inner city of the Red Fort.” Lu Yang took out his teleportation scepter and flew them to the fortress hall.

“Your sister, what is this thing.” In order to prevent accidental talk and delay Lu Yang, Mao Qiu and the White Wolf decided to detain together in the inner city and rest. Jump out to 30 yards.

The two were about to attack, but found that Lu Yang and Han Ying were mixed.

“Boss, you scared me to death,” said Mao with a racket on his chest.

Lu Yang said with a smile: "Why are you two here, others?"

"Isn't this both boring and confined? I've been off line to rest." The white wolf walked to Lu Yang and looked at the flesh-and-blood worm. "Boss, what is this thing for?"

Lu Yang said with a smile: "You two are lucky, so you two stand at the crater, I will take you to upgrade first."

The white wolf and fur ball did not expect such a good thing, and immediately obediently ran to the crater and stood.

Lu Yang smiled and led Han Ying to the other side of the crater and said, "The five of you ordered the flesh-and-blood worm to come to the crater and let its tail protrude below the crater."

The flesh female worm spits out from the tail to attack. If you let the flesh female worm point the tail at the crater and the hair ball attacks the female worm on the other side of the crater, the female stab will continue to spit without hitting the hair ball. Self-exploding insects.

The five members of Han Ying understood Lu Yang's meaning. After locating the female worms according to Lu Yang's instructions, Lu Yang said to Mao Qiu: "Use your lowest damage attack and hit the 25 female worms."

Hairball did not understand the reason for this, but he took out his bow and arrow and shot an arrow at 25 females.

"Hello ~!"

25 female worms roared in anger together.

"Guru"

...

In the tail of the mother worm, countless self-exploding worms spawned, but each worm just spawned from the mother and fell directly into the 50-yard deep crater.

The fur ball looked dumbly at the fleshy female worm that kept breeding. Within a minute, 25 self-exploded worms produced by the flesh female worm filled the crater half.

“Boss, what is this.” Mao Qiu asked.

“Experience.” Lu Yang clicked on the two to form a team. After the two joined, the mantra read out, and a meteor fell down ~ www.mtlnovel.com ~ System prompt: you got 2196 experience

...

Countless experiences flipped in the conversation bar of the two, and when the experience stopped, the two looked at the experience slot again, which improved more than 9 million.

Mao Qiu said in surprise: “This mob gives so much experience.”

“This upgrade is too fast.” White Wolf said.

Upgrading from level 32 to level 33 requires 37 million experience. The two worked hard to reach level 32. I thought it would take two weeks to reach level 33. At this rate, 20 minutes is enough.

Lu Yang said, “That’s right.”

“It’s so cool,” Furball said excitedly.

Lu Yang said with a smile: “Fortunately, the two of you are lucky. At 12 o’clock, you can basically reach level 40.”

The fur ball and the white wolf nodded together.

Han sofa came to the news and said, "Brother, we are back in training."

Lu Yang said: "I have to go, Han Ying and Mu Yu go with me, Han Fei, the three of you stay and watch these flesh-and-blood females, pay attention to their blood volume, and don't let the silly kid on the ball. died."

Mao Qiu hesitated and scratched his head. He really didn't do a lot of this second-handed thing, and said awkwardly: "I must not make mistakes again this time."

Lu Yang shook his head with a smile and waited until the teleportation scepter had cooled down, and flew to Han Ling Academy with Han Ying and Mu Yu and continued to take Han Sha to upgrade.

This time, Han Ying and Mu Yu did not have experience, nor did they have 3 Han Fei. Only Lu Yang and Han Sha, 12 of them, hacked at the Psychic Academy, so the upgrade speed was much faster.

At 12 o'clock, Lu Yang rose to level 48, and the three primary students rose to level 46. After going offline, Lu Yangfei returned to the red fortress, and found that the muddy wine pouring and Xia Yuwei were both coming to kill monsters around the crater. .

Chapter 394 - 2nd Lesser Curse

At level 40, transferred players can upgrade non-banned spell skills by two levels, that is, they can point their skills to level 4 and have a chance to learn special skills and similar secondary forbidden spell skills.

"Congratulations."

...

Everyone's face was filled with turbid wine, Jiang Ze, and others, because they were all 39, and they reached level 40 immediately.

Xia Yuwei saw Lu Yang coming and beckoned and shouted, "Boss, your method is really amazing."

Everyone looked around at Lu Yang, everyone looked excited.

Lu Yang said with a smile: "The two boys are quite interesting. I thought they would tell you tomorrow morning and talk to you."

The fur ball said wryly, "How can I be that kind of person?"

Mu Yu frowned at the fur ball, cute little nose, and said cutely: "I don't believe it. I'm afraid that someone didn't find that they were too slow, so let everyone come together."

In the embarrassment of the hairball, he was hit by Mu Yu. He originally wanted to confuse with other people tomorrow morning. As a result, he found that it was too slow for him to play at level 30 at level 30. Busy, the two discussed and had to tell everyone to come.

Everyone laughed.

Lu Yang said, "I was going to let the mother worms lay eggs one night. You will come tomorrow morning. I will send you a meteor drop to level 40, but this is also very good. Tomorrow you will sign the masters in your team and Masters who understand the secondary forbidden spells are ready to upgrade uniformly every 8 hours. "

Lu Yang is going to raise the secondary forbidden spell to level 2 first, and then take these wizards to learn the second secondary forbidden spell, so that he can better cope with various unexpected situations.

“Yes.” Zhuo Jiu Qing and Xia Yuwei and six others said together.

Looking at the corps leader in front of him, Lu Yang said with satisfaction: “Since it is level 40, when the boss will give you some benefits, I will go to Tu Feng to receive money, and go to the king’s castle to buy a rein. Tomorrow I’ll take you to catch the Red Flame Lion. “

“Boss, you’re so interesting.” Zhuo Jiu said indignantly.

A rein of 100 gold coins, that is, 30,000 credit points, these 21 people will spend more than 600,000 credit points in Luyang.

Lu Yang said: “This money must be spent, you do n’t need to worry about it. In the future, your men will reach level 35. I will also buy them reins. In the future, if we fight, the time will be shortened by two thirds. Makes a big difference. “

This is the third official money-collection operation of the Second World. In the future, major guilds want to win battles in guild battles. This money must be spent. Otherwise, the speed of doing things is slower than others. Two-thirds, this game can’t be played.

Tu Feng frowned and said, “That’s a lot of money. Even if you buy it for the 13,000 elite groups, it will still require nearly 4 million gold coins. We still need to purchase level 30 gold equipment, and we have to deal with it. The eternal bounty is not enough. “

“Don’t worry, we will soon get rich.” Lu Yang patted Tu Feng’s shoulders and said to everyone: “I’m offline now, you guys temporarily stop at level 40, don’t continue to upgrade, stay in batches On duty, continue to provide these 25 flesh-worm females with self-explosive insects. “

“Okay, we have a few arrangements,” said Duoju pouring.

Lu Yang is most assured that the muddy wine is poured, return to the Holy City Hotel, click to exit the game to rest.

The next day, the early morning of the fifth day of the holiday.

Lu Yang entered the game after the workout and came to the Red Fortress crater. Zhang Zibo was sitting 30 meters away. He was boring flesh-and-blood females with stones and drank muddy wine to accompany him.

Seeing Lu Yang coming, Zhuoju poured in, yawning and said, "Boss, you're here."

Lu Yang nodded and came near the crater. The crater, which was 50 meters deep, was 40 meters short. The entire crater was densely populated with self-explosive insects.

"A lot." Lu Yang said with a smile.

The turbid wine nodded and said, "Our six groups were divided into two batches, and these female worms were not left idle overnight."

Twenty-five female worms spit out 75 worms per second for 8 hours. There are more than 300,000 worms below.

"Are all the personnel arranged?" Lu Yang asked.

"Yu Wei is waiting outside with her men, and she can come in at any time." Zhuo Jiu said sloppily.

Lu Yang nodded, and sent a message to Xia Yuwei, saying, "Come in with the first group of people."

Outside the door.

Ten space-time mages who learned to cut space and ten queen regiments were sitting outside waiting with Xia Yuwei.

Looking up at Weiguang, yawning and asking Xia Yuwei, "Boss, what are we going to gather here so early? I'm still anxious to upgrade."

Upgrading is a big problem for everyone, especially occupations that lack group attack skills such as thieves and soldiers.

Han Sha was sitting next to Xia Yuwei, and she was so close to Xia Yuwei for the first time. Han Sha's voice was a little unnatural, her throat surged, and she asked, "Boss, is there anything good?"

Xia Yuwei was about to speak, and received a message from Lu Yang.

Seeing the door open, Xia Yuwei said solemnly: "Come in with me ~ www.mtnovel.com ~ Everyone turns off the display on the ranking list. From today, no one can open the ranking list without my permission. "

The Queen's Guard obeyed Xia Yuwei's words and closed the ranking list without asking anything. They came for the first time in the inner city. As Xia Yuwei walked to the crater, when they saw the crater full of insects, everyone was shocked.

Looking up at the shimmer: "Here, what is this place?"

Han Sha: "How much experience is this."

Lu Yang smiled at the corner of his mouth, pointing his right hand to the sky.

"Meteorite Impact"

Six huge reddish meteorite were successively released from the sky and crashed into the crater, crushing them in the swarm.

Looking up at 20 people, including Glow and Hansha, only felt a burst of golden light on their bodies. When the three meteorite impact attacks ended, the self-exploding insects in the crater were almost killed.

Each of the 20 people opened the player interface and looked at each other, looking at the glimmer and saying dully, "I'm at level 40."

Han Sha said, "Me too."

The ten minor forbidden mages said together, "So do we."

Lu Yang laughed and walked to Xia Yuwei's side and whispered, "Take 10 mage to the Space Department of Magic School, and let them find the instructor Robbar. You can receive the upgrade task of" Space Cut ", and then let them find Gerald You can receive a second secondary ban on learning. "

Xia Yuwei's eyes lit up and she said, "Really?"

Lu Yang said: "I lied to you for anything. If there is a problem, call me and go."

"Yes." Xia Yuwei left happily.

Lu Yang returned to the crater and watched the cleaned self-explosive worm. He said to the muddy wine, "I have to summon a few more. You go to rest first. When you go online in the afternoon, you should bring your team. ready."

Chapter 395 - Opening of the war

Lu Yang sent a message to 12 young guys including Han Sha and said, "All come to the inner city of Red Fortress."

"Yes." Han Sha and others said.

A flash of light flashed, and 12 little guys teleported to the inner city area.

Lu Yang took out the scepter of the teleportation, and took Han Ying, Mu Yu and Han Sha to fly to the Psychic Academy and continued to upgrade.

Han Sha's level has reached level 46, as long as one and a half days can be raised to level 50.

When Lu Yang upgrades here, on the other side, in the sunset mountains of Level 40 map, Bloodthirsty Batian is desperately taking his men to upgrade.

There are more than 3,000 senior mages in five guilds, including the Blue Crystal Guild, Shenwu Tribe Guild, Tianyu Guild, Prophecy Guild, Sunset Guild, and Yong *, all of whom do not need to experience to help the master of bloodthirsty hegemony to upgrade the level.

At noon, with the light of gold, the last 5000 people of Bloodlust were upgraded to level 30.

At this point, the bloodthirsty tyrants' 50,000 player levels have all been upgraded to level 30, and the remaining 130,000 ordinary members have reached levels of about 28.

The bloodthirsty bully looked at the blue sky, the **** of war, the black blood, the eternal soul and other people around him gratefully and said, "Thank you, everyone."

Zhan Lantian said, "You're welcome. It's all for Wang's service. It should be."

Wang Teng nodded with satisfaction and said, "Very well, tell your men that they will start the muted mode and go to the warm water fort to receive gold-level equipment."

"Yes." Bloodthirsty Promise promises that any player who reaches level 30 in the guild will provide level 30 gold equipment for free, but must sign a contract with the guild and must join when participating in the battle, otherwise the equipment will be recovered in breach of contract.

This loose contract is not harmful to any player. Now the 180,000 people under the bloodthirsty tyrants have basically signed this contract with him, which can basically achieve the level of more than 80% of the troops participating in the war before the war.

Bloodthirsty Batian nodded, and immediately took the south coast of Yuema, Han Shanxue, and Yuxu Bawang to the arrangement.

Wang Teng looked at the black blood and asked, "How is the hero over there?"

Heixue had inserted a nail into his hand when he was fighting against Xiongba before, and now he has achieved the position of deputy commander, just because he signed a contract with Heixue, and he must obey his arrangements.

Therefore, the black blood has a very important position in front of Wang Teng.

Hei Xie said with a smile: "The fool is discussing with the elderly Elderly how to divide up Lu Yang's red fortress. According to the news from me, the two males and the two Elderly each invested the first 10 million yuan in Ziwei Pavilion. And orange alerts, the two guilds are working hard to make equipment."

Wang Teng sneered and said, "Even if the four of them make equipment together, it will not exceed 300 sets a day. We have 50,000 sets of equipment this time. Hitting them is like crushing."

Everyone laughed. They could imagine that when the war broke out, the hero would be crushed.

Hei Xue said: "There is another thing to pay attention to. The bully may feel that the fortress will make money in the future, and bought four fortress guns."

The garrison cannon has an attack power of 100,000 points, a range of 5,000 yards, an attack range of 50 yards, and an attack speed of 30 seconds at a time. A single price of 10 million credit points is an artifact for defending the city.

Wang Teng frowned and said, "I can't think of a bully who dare to spend this money."

If the war starts, even a level 30 player with full body gold will be hit by a fortress and it will be dead.

“If there are magic crystal cannons, our losses will be much worse.” Said the eternal spirit.

Wang Teng looked at Black Blood and asked, “Can you let your spy try to get rid of this magic crystal cannon.”

Hei Xie said with a smile: “General Manager Wang is assured, even if it is difficult, I will let him complete the task.”

Wang Teng was very satisfied with Black Blood’s attitude and said: “Very well, if you can do it, I will remember your great work once.”

“Thank you, President Wang.” Hei Xue said flatteringly.

“Now it’s the last step. Except for the eternal spirit and the black blood, you several will immediately return to their main cities to gather players, and by the way bring the vassal guild, two points on time to fight.” Wang Teng said.

The blue sky, the God of War, and Doom arched Wang Teng together and flew back to the main city. The main thousands of mages left here were handed over to Wang Teng.

Wang Teng looked in the direction of St. Gall and murmured to himself: “I really want to see Xiong Ba and Chi Wu when they know the news, what are the expressions?”

On the other side.

The tyrants and the twilight are leading the blacksmiths in their respective guilds to step up to forge gold level 30 equipment.

I haven’t experienced a war for more than a month, and the level 30 players under the twilight have grown to 20,000. This is only 10,000 sets of gold equipment at level 30, and the hegemony is similar.

However, in order to get Ziwei Pavilion and Orange Alarm to kill Lu Yang, the two also worked hard. Rather than buying equipment from their guilds, they should also provide the two guilds.

Inside a special space.

“If I was right, as long as there are about 8,000 sets of gold equipment, Ziweige and Orange Alert will be able to lay a red fortress in the case of Bloodthirsty Assault on the Thunder Fortress.” Xiongba said.

The old man in the twilight said with a smile: “Almost, brother, let’s discuss what the problem is after the fortress is laid.”

Xiongba said: “I thought about it, you and I would get 40% each, and give Ziweige and Orange an alert of 10% each. How about that?”

“That’s what I mean.” Chi Mu nodded with satisfaction.

Suddenly, the spirits breeze entered a special space, and frowned, saying, “Boss, just got the news. Bloodthirsty Batian is gathering troops.”

“What?” The old man asked.

Liquor Qingfeng shook his head and said, “It’s not clear for the time being, our people have not been mixed into the elite troops, but during this time, the bloodthirsty troops have been stepping up their upgrades, as if there was a big move.”

Xiongba said with a smile: “The big action is indeed there, rest assured, it is not for us.”

Chi Mu said: “It is estimated to be unified upgrade, this boy now estimates that every night, he wants to kill Lu Yang.”

The bully laughed.

The spirits breeze looked at the twilight and stopped ~ www.mtlnovel.com ~ Just as he was about to exit the special space, he received a message, his eyes suddenly opened with an incredible expression.

“Boss, something happened. The bloodthirsty domineering team started with 180,000 people, and cooperated with the 100,000 people who predicted the guild, and went to the Blackstone Fortress.” Lie Qingfeng said.

The old man and the hegemon stunned and stood up at the same time.

Xiongba asked incredulously: “What did you say? Where did Bloodthirsty Batian take 180,000 people?”

“The Black Stone Fortress.”

The old man asked, “Is the news ok?”

“It is true that Xiongba ordered his 180,000 people to ban all of us. Our spy was trying to expose the offline to call and report to the guild. It took less than an hour to reach the fortress,” said Liquor Qingfeng.

“It’s impossible.” Xiongba quickly took out the phone and called Bloodthirsty Batian.

System prompt: The other party has blocked you

Chapter 396 - All messed up

“Asshole.” Xiong Ba kicked the chair beside him, scowling sternly: “Blood thirsty, you dare to play Lao Tzu.”

The old man in the twilight tried to dial the bloodthirsty bully, and found that it was blocked.

Yang Tian sighed, and the old man said, "We are all fooled by the bloodthirsty bully. Brother Xiong, now is not the time to be angry, and quickly organize manpower to prepare for defense. I will call them Lei Long and Lisi. How to help you defend together. "

The bully just nodded.

"Drip ... Drop ... Drip"

Two consecutive special space applications were sent by Thunder Dragon and Qiansi.

Late twilight clicked to accept, waited for the two to come in and didn't wait to speak, and said in a panic: "The Blue Crystal Guild is gathering a large number of players and alliance guilds, what to do."

Lei Long said: "This is me, too. God of War is calling my players and announcing that I will attack my fortress."

Hearing the words of Lei Long and Qian Si, Xiong Ba and Chi Du could not help but sit in a chair at the same time.

The old man said, "It's over, this is terrible."

"What's wrong?" 芊芊 silk found something wrong.

Xiongba said with anger: "Take care of yourself, I will go first."

With a flash of light, the domineer exited the special space.

Lei Long frowned and asked, "What does Xiongba mean? Say a good alliance, why did he run first?"

The old man in the twilight reluctantly said, "Just now, the bloodthirsty domineering team has attacked the Blackstone Fortress with 180,000 people. For up to an hour, the bloodthirsty domineering can reach the city of Blackstone fortress."

The silky words said: "How can this be, does Wang Teng want to eat all of our guilds in one breath?"

"I don't know, but I now have to organize my troops to prepare for the support of the hegemony. With bloodthirsty **** and prediction of the strength of the two guilds, we should not be able to beat the fortress, but I can also prevent it in case."

Liquor Qingfeng said, "Boss, we can't support the hegemony."

"What's wrong?" The old man asked, looking at the spirits Qingfeng.

"The players of the Guild of Prophecy did not head to the Blackrock Fortress, but headed towards our fortress," said Liquor Breeze.

"Looking for death," said the old man in the twilight, "Just relying on a prophecy guild dared to hit me, inform his men, and prepare for battle."

"Yes." The spirit breeze exited the special space.

The old man said, "Everyone go back and get ready. We can't figure out Wang Teng's plan now. Who can figure it out, we will meet immediately to prepare."

"Well, this can only be the case. If Wang Teng really wants to eat our fortress this time, I will fight with him." Lei Long exited the special space first.

The filigree language arched and left.

The old man in the twilight exited the special space, took out the fortress and returned to the city roll to return to the flower language fortress, watching the batch of players returning to the fortress under the command of the spirits and breeze and settled a little.

The Prophecy Guild is just a large guild, which is very different from his strength. In addition, there is Ziwei Pavilion beside him, and the old man is not afraid.

Standing at the head of the city, and thinking about the beginning and end of the event late in the evening, he always felt that there was a strange twist in it.

There are too many players in St. Gall, and there are too many guilds. There are more than 20 guilds capable of competing for the fortress. He suspects that other guilds have combined prophecy to attack him.

Luo Siyu came to the old man and said, "Boss rest assured, if the prophecy dares to come, we are absolutely capable of destroying him."

The old man in the twilight said with relief: "Your mage army is my greatest pride, and I believe in your strength."

The Fire Law Corps under Luo Siyu has 3,000 people, all of which are gold equipment, and one tenth of them understand special spells.

At present, there are four special troops under the control of the old man, namely the Fire Spirit Army of Roth Rain, the War Cavalry of the Silver Wolf, the Water Heart Army of the Silver Light Dance, and the God of Murder.

In command of the battlefield, he also has four legionnaire commanders, who are responsible for commanding conventional troops, namely the strong liquor Qingfeng, the hidden sword, the falling cold, and the Sanqi with one gas.

There are more than 500 other high-level players. In terms of players above level 30, Old Man has 13,000 players in level 30 and above, but only 8,000 people are equipped with gold equipment. Because there is no battle, late game is for ordinary players. Not too concerned.

However, Twilight is not worried, because he speculates that there are fewer level 30 players in the prophecy guild than him, and maybe not even half of him.

The hidden knife came to the old man, and asked, "What shall we do now?"

The old man in the twilight said, "Arming, take the troops to defend the city walls as previously set, and report any problems to me in time."

"Yes."

Hidden sword and Yiqi Sanqing and others led their troops to their respective city gates to defend.

The old man in the twilight sat in the inner city of the town to personally direct the gates in front of the returned members, and it was already an hour after the busy time.

Of the four city gates, the most important one is the West Gate, because the flower language fortress is on the east side of the city of St. Gall, so the West Gate must be the easiest to attack.

Take Luo Siyu and Silver Wolf to the city head of Xicheng Gate.

The muddy wine dump is mobilizing troops to prepare for defense.

The old man in the twilight said to the boss, Ruby, who is near the spy office, "Where is the prophecy now?"

"Just arrived at the level 20 map with dim mountains." Hongyu said.

“So slow?” Old Man Twilight frowned.

Hongyu said: “The 100,000 people of the Prophet Guild arrived at the Weiguang Mountain 20 minutes ago and have not continued to move forward.”

“The troops bordering Luyang on the north side and the bordering bloodthirsty tyrants on the south side, have any enemies come over?” The old man asked.

Ruby frowned and shook her head. “No.”

“Strange, what is the Prophet Guild doing?” The old man in the twilight had too little information on hand, and he could not understand the intention of the Prophet Guild.

While he was thinking ~ www.mtlnovel.com ~ Leilong and Qiansi sent a special space application at the same time.

The old man chooses to accept. After entering the special space, he looks at the two and asks, “Anything found?”

Lei Long said: “There is a strange thing, the other party said that they would attack us and assembled the troops, but the spy report we left in the Celestial Guild. Only God of War. “

“The blue crystal guild’s more than 400 high-level guilds with special spells and skills are not in the team,” said the silk.

The old man in the twilight was shocked, and said in horror: “It’s over, the guild is over.”

“What’s wrong?” Lei Long asked.

The old man in the twilight said, “Come to hit my prophecy guild. Stop 20 minutes ago on the 20th-level map of Weiguang Mountain and no longer move forward. The hostile guild masters of your two main cities are not in the guild.”

“The goal of Wang Teng this time is domineering, all of us are just attacking.”

Chapter 397 - Bing Lincheng

“So what do we do, do we need to support the bully?” Lei Long asked.

The old man in the twilight said, “You also need to support the hegemon when you fight hard. You must not let his fortress be taken away by the bloodthirsty hegemon. The hegemon loses, and the next one is us.”

“However, how can we support it? The big troops were too late in the past. If there were few people, there were only a few people in our guild who knew the secondary forbidden spells, and it wouldn’t help.” Lu Siyu said.

“I contacted the bully and asked him to pay to send your people to the city of St. Gall. Remember, the main force must be sent.” After talking, the old man opened the address book to find the bully’s name and dialed in.

Blackstone Fortress City Head.

The bully is doing the final defense. The bully with 150,000 members is 30,000 fewer than the bloodthirsty bully. However, the bully is confident that he can resist under the defense of the fortress.

The black stone fortress has 1,000 defensive towers, 250 on each side, and there is a magic crystal fortress directly above the gates on each wall.

Just when he was full of confidence, he received a call from the old man, and after clicking through, Xiongba asked, “What’s the matter?”

“A major event has just been determined. Our path is just an offensive. Wang Teng has tried to hide the main players in the major guilds and hide in the bloodthirsty army, and the ultimate goal is to hit you.” The old man in twilight said in a panic. .

Xiongba frowned, and asked, "How many people have come."

"Five guilds add up to at least 1,000 people," said the old man.

The tyrant sneered and said, "I have a fortress cannon. No matter how many people come, it's nothing more than an artillery thing. Moreover, my army is dominated by shooters and ice mages. It is the strongest defender."

Xiongba's beauty vice chairman Qu has no intention of owning a 3,000-person ice mage. His body is full of gold equipment, and they all understand ice-range spell blizzards. Among them, 10 people know the secondary frost ring.

"Where is the time to say this nonsense." The old man in the twilight said anxiously: "You give me a good word, Lei Long and 芊芊 Si language, they promised to send elite players inside the guild to help you, but you have to pay the return fee Now. "

"How much?" Xiongba asked.

"One person goes back and forth for 10 gold coins, you first take out 3000 gold coins, and let them both bring their mage troops to support you," said the old man.

3000 gold coins is equivalent to 90,000 credits, and only 300 people can be transmitted.

When the tyrant was thinking about whether to spend this money, countless birds rose into the air in the forest 3,000 yards away from the north gate of the Black Stone Fortress.

Immediately after, the low drums of war came from a distance.

"Boom"

“Boom”

“Boom”

...

Countless silver-clad players walked out of the forest, and the male dominated the telescope with a telescopic view. They saw six people, including Han Shanxue, westerly wind, residual moon, Qu Han, Yuxue Bawang, and Ye Wuren, each leading their troops.

“Everything is silver?” Xiongba chose to cast a screen so that the old man at the twilight could see the situation outside the Black Stone Fortress.

“Is it really out of my nest to see Wang Teng or bloodthirsty domineering?” Old Man asked.

The bully looked at the falling trees in the forest in the distance and said, “Here, here.”

“boom”

The last big tree collapsed, and a giant command tower slowly moved out of the forest. The tower was 5 meters higher than the city wall. It was Wang Teng himself who stood on the top floor, a bloodthirsty, eternal soul, and black blood. The three were on both sides.

Xiongba pointed angrily at Bloodthirsty Batian and cursed, “You dare to attack my fortress, Bloodthirsty Batian is so brave.”

The bloodthirsty Batian chuckled and said to Wang Teng next to him, “General Manager Wang, do you want to say a few words to make the male dominate?”

Wang Teng laughed and nodded, “I love what you say.”

Walking to the railing of the tower, Wang Teng, in a suit, said to Xiongba, "General Manager Wang of Jiuhe Group, head Wang Teng in the new market department of Xiazhongtian Financial Group."

Xiongba looked at Wang Teng and said, "What do you mean?"

Wang Teng said slowly: "The second world game is different from other online games. In this game, we can achieve our own ambitions.

Today you bring the guild to lay the fortress. Tomorrow it will be normal for others to hit your fortress. Don't get angry. "

Xiongba sneered and said, "So to say, hitting my fortress is a strategy you have already set. Before, you sent Bloodthirsty Batian to find me and Shige, just to paralyze us, right?"

Wang Teng applauded, "It's very correct. Everything I did before was designed to defeat you today. It's funny that you and the old man in the twilight are secretly calculating. I want to attack Lu Yang while we are attacking the Fortress Red Fortress. "

Xiongba's face couldn't stop, pointing at Wang Teng and cursing, "Come over and fight, it's useless to talk to me."

Wang Teng sneered, and still chicly said, "The reason why I say so much is just to tell everyone in the full service what wonderful tactics and strategies we have made for this battle today."

The bloodthirsty bully, the eternal soul and the black blood laughed wildly, ridiculing the majestic calculations of the bully.

"The first strategy, in order to make you and Lu Yang completely stalemated, I let the spirits use eternal rewards forever. Sure enough, you and Chi Mu sit on the hill and watch the tiger fight."

"The second strategy, while the alliances of your several guilds are full of satisfaction, I let the five masters of my guild secretly sneak into the city of St. Gall and bring the bloodthirsty hegemony to upgrade." Wang Teng Said.

The bully felt something was wrong and asked, "So what?"

Wang Teng said sarcastically: "So what? For 10 days, 3,000 mages did not have experience to upgrade with the bloodthirsty Batian's men ~ www.mtlnovel.com ~ Now, the bloodthirsty Batian's men have 80,000 A 30-level player, and as it happens, I assembled material merchants from 5 guilds and 3 main cities to build 80,000 sets of gold equipment for him. "

Wang Teng's right hand.

Players on both sides of the tower put on gold equipment at the same time. In time, gold was dazzling. In fact, there were only more than 40,000 players in gold equipment. The figure of 80,000 was a fright of Wang Teng to scare the bully.

However, the deterrent effect is obvious, and the men in the Black Stone Fortress have a look of panic.

What is the concept of 80,000 gold players, Lu Yang only has more than 10,000 gold players, and has defeated 200,000 troops of the Black Sword of the Necromancer. Now they only have 8,000 gold players, which is one-tenth of the opposite and was originally firm. Extreme confidence began to shake!

The bully didn't speak on the surface, but looked at the dazzling golden light below the fortress. For the first time, his heart trembled.

"Late, called Lei Long and Li Siyu and other confederate masters come, I will pay out how much money." Xiongba said.

Late twilight was really scared and said, "I'll organize the manpower here, brother, you must stand up."

Chapter 398 - Doomed

The talker was closed, and the old man sent a special space invitation to the presidents of six guilds such as Lei Long and Qiansi.

The leaders of 6 guilds, such as Huoguang, Ziwei Star, Thunder Dragon, Whispering Language, Hengjian Tianxia, and Bingwu Qianhua, entered one after another.

“How about the overlord?” Lei Long asked immediately after entering the special space.

The old man in the twilight frowned and said things again, saying, “You, we must work together this time, otherwise, the hero will fall, and the next one is us.”

芊芊丝语, Lei Long and others are aware of the powerful relationship inside. Since Wang Teng has waged war on their alliance, this alliance must be completely destroyed.

“Are you sure that the other party has 80,000 players with level 30 gold equipment?” Said Bingwu Qianqiang, the president of Magic Snow God Mountain, unbelievably.

“If it did, our all-guild would have just died in the past, and a wave of offensives broke us.” The chairman of the orange alert, Huo Guang, said.

“It shouldn’t be 80,000 people. I watched it at the scene. The number is only between 40,000 and 50,000. The tyrant has a fortress cannon and 1,000 arrow towers to defend the city. He also has an ice mage group. As long as we send the elite past, You can definitely hold the fortress.” Said the old man.

Huo Guang and Ziwei Xingchen, the president of Ziwei Pavilion, were relieved. Their guild was in the city of St. Gall. In this battle, the two must join the war as alliances.

“My troops have been assembled, and this will take them to the battle,” Huoguang said.

“I can fight at any time,” Ziwei Star said.

Both of them are medium guilds with 60,000 players, and 30,000 players can participate in the battle. With the addition of these two people, it makes the old man at ease feel relaxed.

“Okay, the two are so helpful. After that, the hegemon will definitely not treat the two.” Opening a three-dimensional map later, pointing at the Guru Mountain Road and the ruins of the ancient city on both sides of the Black Stone Fortress, said: “Ziwei Pavilion takes the Guru Mountain Road, orange The alarm goes to the ruined old city, and you two are like two pliers, attacking the bloodthirsty troops from both sides. “

“Late Boss rest assured.” The two exited the special space with one hand.

Seeing the two men leaving, Late Twilight said to Lei Long and Qian Siyu and others, “How many of the four of you can send support, the hero said, and he will provide travel expenses for as many people as possible.”

Lei Long and Qiansi looked at each other, and Lei Long said in embarrassment: “I can’t send more people, I can only provide a mage hundred people support.”

The whispered words said: “Me too.”

Late at dusk, he asked, “What do you mean, I remember that you two each have 10 senior mages who understand the secondary forbidden spells, why not send them at this time.”

The silk language said: “No way, Blue Crystal’s troops are not far from my main city. Now it is said to be the main attacking hegemony. Once I sent the forbidden mage to release the forbidden spell, the blue crystal attacked my fortress. Then, I can only respond with ordinary troops. “

Lei Long said: “Our fortresses don’t buy fortress guns like the heroes. The secondary forbidden spells and special legions are the basis for us to keep the fortress. Sorry, we really can’t help.”

Chi Mu wanted to refute, but could not find any excuses for refuting. The two were right. Now the situation is completely chaotic. With a lot of money in his hands and four large 200,000-strong unions he bought, he thinks It’s just a matter of saying who should become the main offensive direction. He can’t blame the two for their injustice.

“Well, I know. Then provide 100 master corps each. You can do your best.” The old man said.

Lei Long and Qiansi nodded, and they exited the special space.

In the special space, there are only the presidents of the two guilds, including the Ice Mist Thousand Fantasy and Hengjian World. However, the strength of the two is comparable to that of Ziwei Star. There is no top-level combat power, but they each provide a special There are 300 Masters.

Seeing everyone gone, the old man murmured to himself, "I hope I can live this time."

Liquor Breeze did not know when it appeared on the side of the old man, and asked, "Boss, do we want to find Lu Yang, this time we are in Wang Teng's trick. We can't stop it with our current strength. This way of playing Wang Teng, only Lu Yang has the strength to fight the bloodthirsty domineering. "

The old man in the twilight smiled helplessly and said, "Wang Teng has just posted his design on the Internet for everyone to watch. The first one is the relationship between us and Lu Yang. The matter of dividing up the fort with him came out. Do you think that Lu Yang would help if he saw this? "

As the breeze stagnates, in this case, thanks to Lu Yang's team of players' tempers, he did not fall below the well to attack the late fortress, thank God.

Red fortress.

Lu Yang had just risen to level 48. They were pulled back to the fortress hall by Tu Feng.

Looking at all the shareholders and army commanders such as Zhuojiu and Xia Yuwei who were gathered together, Lu Yang asked with a smile: "What are you doing?"

The white lion said, "Boss, it's been overwhelming outside. What are you doing?"

Since the war at noon, people like White Lion and Zhuoju have been waiting for Lu Yang's call excitedly, but they are all over there, and Lu Yang is still leveling.

No way, a bunch of people had to pull Lu Yang out of the leveling point.

Lu Yang asked with a smile: "What do you want?"

Zhuo Jiu said, "We have also seen what Wang Teng said. Although Xiong Ba and Chi Du are quite unjust, but it would be too bad for us to let Bloodthirsty Ba Tian lay the Black Stone Fortress."

Everyone nodded ~ www.mtlnovel.com ~ and agreed with both plans.

Lu Yang shook his head and said, "It's late. From the beginning of this war, the hegemon was destined to fail, and no one can save him."

Xia Yuwei looked at Lu Yang in surprise and asked, "Why."

Lu Yang said: "Just now I got the exact information. This time, Bloodthirsty Heaven has 50,000 gold players in the battle. Even if the 50,000 people are the stupid leader of Yuema South Bank, the field is invincible. Our guild For players with more than 20,000 gold equipment, field support is the same as sending death. "

"Not only that, this morning, the soul sent 50,000 players eternally to sneak into the city of St. Gall from the Sea Emperor City. I do n't know where it is now, but I can also guess that it must be ambush in the ruins of the ancient city or the Gul Mountain Road. Everywhere. "

This news was only inquired by Zhou Tianming this morning. When Lu Yang heard this news, he knew that the male **** was over.

Everyone, such as Zhuo Jiu Pour and Xia Yuwei, took a breath.

"The reinforcements like the twilight and the orange alarm are not finished," said bitter love for a long time.

Chapter 399 - 2 Wars 2 Victory

Lu Yang said: "Not only are they finished, they also sent a large number of 30-level gold equipment to the spirit eternal, and the elite 30-level troops brought by the eternal spirit can be replaced with gold."

The eternal spirit used his own strength to lay three forts around the imperial city. No one in the entire imperial city dared to oppose him. This shows how strong his strength is.

Everyone couldn't help but frown, and some were unsure.

Lu Yang went on to say: "And, not only are the spirits eternal, but also the more than 10,000 people who are loyal to the black blood. This **** army will surely stir the storm in the city of St. Gall, and it may not be the dead soul The black sword can resurrect, helping the bloodthirsty bully to hold another entrance."
"

"If the reinforcements are all killed, it will seriously undermine the confidence of the hegemony, and his fortress will not be able to defend." Xia Yuwei said.

Lu Yang said: "It's not just that it's not easy to defend. One more day and less one half day, this fortress will change hands."

"It's so fast," said Zhujiu and White Lion and others in surprise.

Lu Yang said: "The 50,000 gold army, and five other guilds of the forbidden curse, these two items alone make the hegemon irresistible."

"Boss, then what do we do, bloodthirsty domineering kills the male domineer, will definitely get us in trouble." Sun Yu said.

Lu Yang said: "It won't end so easily. Even if the fortress is lost, it will still find a way to fight back. In the past few days, everyone will lead the team and work hard to upgrade. Other things will be ignored for the time being."

"I'll take the team to upgrade." White Lion said.

"I'm gone too," said bitter love for a long time.

...

After a while, everyone left the fortress hall. Lu Yang looked at the topographic map in front of the table and murmured, "Wang Teng, you want to win this battle, but I prepared a big gift. Here you are, don't be ashamed of the fortress. "

Taking out the teleportation scepter, Lu Yangfei returned to the Psychic Academy and continued to upgrade with Han Sha and others.

Blackstone Fortress City Head.

The male domineering panted heavily, and the first wave of attack just happened, Wang Teng launched a total attack.

On each side of each city gate, there were 10 secondary forbidden mages and 100 special skills mages who bombarded the city heads. The oppressed hegemony could not rise at all.

The weakest defensive south gate was once rushed by the enemy into three hundred men. If it were not for the elite troops supported by various guilds, it would have been lost.

Looking at Wang Teng, who was still standing relaxed and relaxed on the high platform, the bully was extremely angry, and sent a message to the old man, asking: "The orange alert and how long they will be there."

The old man said, "It'll be another 20 minutes. What's your situation?"

"The first wave of attacks persisted, and I don't know how many times I can persist afterwards," Xiongba said.

"Brother, hold on, I urged both of them to let them pass quickly." The old man at the end of the call, dialed the two of the phone, said: "Two brothers, trouble to speed up the march, the heroine must insist on Can't live. "

Gour mountain road.

On one side of the mountain and on the other side of the cliff, the widest road is only 40 meters wide and the narrowest is only 20 meters.

Huoguang looked at the sudden slowing down of the marching team, and said helplessly to the twilight, "No, I don't want to be fast. I've already reached the Gul Mountain Road. After 10 minutes, I'll go to the Blackstone Fortress, but my road is too narrow. It's too expensive to speed up the scroll. "

The old man in the twilight said anxiously, "What else is the acceleration scroll at this time, I will give you 500 gold coins in the past, and you use the most expensive crew to accelerate the scroll."

"That's great, I'll use it." Huo Guang closed the talker with satisfaction and spent 100 gold coins to buy a full-body acceleration scroll.

"Brothers, all members speed up the march." Flare crushed the scrolls, and the march speed of 30,000 people increased by 150% for 5 minutes. The traffic speed on the mountain road immediately accelerated a lot.

A 50-yard-high cliff on one side of the mountain.

The spirit looked at the players on the mountain road forever, a smile appeared on the corner of his mouth, and said, "This firelight is really a waste, not even the most basic road-finding work, and it cost me so much cover before."

Che Yu stood beside the eternal soul and smiled and said, "Boss, when are we going to attack? Brothers can't wait."

The spirit said forever: "No hurry, I'm waiting for his gold army. The main force of this guild is 5,000 gold players. If you destroy them, this guild will be destroyed."

While talking, a flash of golden light flashed through the eternal eyes of the soul. On the mountain road, after silver, countless gold soldiers began to pass through the mountain road.

"Come here," Che Yu said excitedly.

Divine spirit raised his right hand slowly and eternally, more than 50,000 players from the Shenwu tribe were ready to attack, all at the moment when all the gold players entered the mountain road.

"Kill." The spirit sighed eternally, his arm pressed hard.

Countless group attack magics such as blizzards, flame storms, and psionic bombs landed on the mountain road, and the orange alert gold troops on the mountain road were devastatingly hit.

One side was anxious to march, the other side secretly attacked, and the large number of people, the 5,000 gold soldiers with orange alerts did not even have the opportunity to respond. Within a minute, the entire army was wiped out.

"Boss, it's not good, we were attacked." A player hurriedly ran to the fire across the mountain and said.

"Sneak attack? What sneak attack?" Huoguang asked confused.

"There is an ambush on the Gour mountain road, and our entire army of 5,000 gold is over."

The fire light suddenly topped his chest and shouted, "The whole army turned around and snatched back the golden equipment."

It doesn't matter if you die, the equipment is the most important. If you lose these equipment, the orange alarm will be reduced to the Jiu Liu Guild.

However, the biggest feature of the Gour Mountain Road is its steepness. If you want to climb to the top of the mountain, you must use special tools or take a four-hour journey to the back mountain.

Huoguang looked at his hard-earned gold equipment ~ www.mtlnovel.com ~ Under the cover of the magical attacks of the players at the top of the mountain, the players using the ropes jumped down and picked them up.

"My money." Huo Guang fell to the ground in excitement.

On the other side.

The situation of Ziwei Pavilion was the same as that of the orange alarm. It was ambushed by black blood in the ruined ancient city, fifteen thousand and thirty thousand. Black blood defeated Ziwei Pavilion's troops by force and stole more than 5000 pieces of gold equipment.

Standing in the ruins, Hei Xie reported to Wang Tenghui with a smile: "Report to President Wang, the task was successfully completed and 5173 pieces of gold equipment were obtained."

"Good job." Wang Teng made a fist vigorously. Just now he also received the eternal report from the soul, and he also won the ambush.

In this ambush, what worries him most is the side of the black blood, which has fewer people and more people. He is always worried that the black blood cannot complete the task. He had previously proposed to help the black blood to borrow, but he was black blood. Reject strictly.

Wang Teng had already prepared for the failure all the way. He did not expect that the black blood actually won, and he got so much gold equipment.

Chapter 400 - Domineering defeat

“All the equipment is yours. I’m rewarding you.” Wang Teng closed the interphone excitedly and said to the bloodthirsty bully around him, “This black blood is so strong.”

Bloodthirsty Batian nodded his head and said, “In all fairness, he is a very good master. If he didn’t meet Lu Yang, he is now the boss of a fortress, and his status is not worse than mine.”

What he said was still modest. During the strongest period of the Necromancer Black Sword, the bloodthirsty domineering had to sell the black blood three-pointed face.

Wang Teng’s eyes crossed the black stone fortress and looked away. He said lightly, “Listening to you, I think Lu Yang is getting better and better, and see if he is as powerful as you said.”

Bloodthirsty Batian gritted his teeth and said, “He is just a clown who can only use conspiracy and tricks. This time the hegemony is defeated, and Chi Wu and Lu Yang will turn their heads into enemies. When we played the Red Fort, we did not have the help of Xiong Ba and Chi Wu Lu Yang only had a runaway role. “

For Lu Yang, Bloodthirsty Domineering has the deepest hate. If it were not for Lu Yang, how would his guild sell so low, and he would not have suffered so much humiliation.

Wang Teng knew the contradiction between the two and asked, “Is Lu Yang sure that he has no plans to participate in the war?”

“It is certain that the commanders of several legions of his army did not announce a convening order, and they still led the team to upgrade in the wild.” Bloodthirsty Batian said.

Wang Teng said, “In that case, let’s launch a total offensive and lay the Blackstone Fortress in World War I.”

“I’ll lead the team myself.” Bloodthirsty Batian ran down the tower with an arch.

Blackrock Fortress.

Seeing the end of Bloodthirsty Domineering, the bully frowned and said, "Everyone pays attention, the enemy is about to launch a second attack."

Phantom Feng and Qu Wuyi waited for someone to return to their positions immediately to prepare.

"Brothers, the enemy's second attack is coming, and everyone is ready for defense."

"For the guild, for the fortress, we fight."

"Kill the bloodthirsty bully."

...

Just as the chiefs of the various city gates shouted slogans to boost morale, at the north city gate, Wang Teng said loudly with a loudspeaker: "Hegemon, give you one last chance, you can choose a decent surrender, Jie Shao said Now, if you are willing to withdraw from the city of St. Gall, you will return everything you have paid in the game. "

Xiongba looked at Wang Teng on the tower and said with a sneer: "Joke, do I still want Liu Jie's alms, Wang Teng, don't be too proud of yourself. This battle is not necessarily won or lost. "

Wang Teng sighed gracefully, holding her gold-rimmed glasses in her right hand, and slowly said, "President Xiongba, are you waiting for the orange alert and Ziwei Pavilion's reinforcements?"

The bully's heart beat suddenly.

"Don't wait, Ziwei Pavilion and Orange Alert have been defeated by the team led by Eternal Spirit and Black Blood respectively in the ruined ancient city and Gul Mountain Road. You have no reinforcements." Wang Teng said.

At the Blackstone Fortress, the belief that supports the dominance of the bully is the 60,000 people who came to support it. The sudden attack of the two troops, coupled with his out-of-town attack, had a great chance to defeat the bloodthirsty bully, but now the two troops are actually Defeated.

The bully yelled, "Impossible, where are you from?"

Wang Teng said: "I'm sorry to President Wang, this time the matter is over. I will personally apologize to you at the headquarters of Jiuhe Group. I hope you have a lot of adults, and don't blame me for this nameless pawn."

After speaking, Wang Teng waved.

The bloodthirsty Batian with a giant machete in his hand shouted, "The whole army is attacking."

More than 180,000 troops, like the tide, attacked the Blackstone Fortress on all sides.

On the other side.

In order to be on the safe side, the old man in the twilight quietly led the 50,000 main troops to the west gate of the flower fortress, re-created the prophecy guild in the Weiguang Mountains, and the prophetic guilds withdrew from the Weiguang Mountains.

Looking at the 20-level silver equipment everywhere, Luo Siyu said admirably: "Chairman, you are really amazing. You took the initiative and hit the prophecy by surprise."

"The ridiculous expression of the boss of the ridiculous prophecy guild when we saw us really laughed at me." Silver Wolf said.

The old man in the twilight is also very proud, and said with a smile: "I understand where the bloodthirsty 50,000 gold-equipped troops came from. It turned out that Wang Teng ordered the major guilds to lend gold equipment to the bloodthirsty tyrant. Now, except for Bloodthirsty, the guilds of other people have no fighting power at all. The follow-up forces are responsible for sweeping the tail, and everyone returns to St. Gall. We support the hero.

“Yes,” Luo Siyu said with Silver Wolf.

Just as the old man took out the city roll and was ready to use it, the spirit liquor Qingfeng sent a message saying, “President, the hegemony was defeated, and the Black Stone Fortress changed hands.”

“What?” The old man in twilight was stunned.

“What’s wrong?” Silver Wolf asked.

The old man in the twilight said in a loss: “The whole army has returned to the Garrison fortress. We are not going to St. Gall.”

Luo Siyu asked in surprise: “Is something wrong with the bully?”

“The hegemony was defeated, the Black Stone fortress changed hands, and I have to rush to Lei Long to discuss their countermeasures,” said the old man.

Special space.

The bosses of the six guilds, such as Lei Long, Lao Si Yu, and Huo Guang, were all drawn in by the twilight.

The old man in the twilight said, “I have the exact news here. The equipment of the bloodthirsty 50,000 gold armored troops is Wang Teng who has lent them to all the guilds. The city and Hannibal attacked the fortress of Celestial and Sapphire at the same time, and it will certainly solve the siege of the hegemony. “

Lei Long and Li Si at the same time showed a helpless smile.

“Chairman Twilight, aren’t you pitting us? You just got the news that the fortress of the hegemony has been lost. You brought the main force back to the fortress and shrank, but let us attack Wang Teng’s fortress. What’s your mind? Dragon asked.

“I ~ www.mtlnovel.com ~ me.” The old man asked was dumb.

The silk language said: “You want our four guilds to fight, you can bring the main force to support the bully first, and we will immediately attack the fortress.”

The old man in the twilight said, “I think so, but the 100,000 people of the prophecy association are right next to me. Sending fewer people is useless, sending more people, and my fortress is over.”

Lei Long said: “Then what nonsense are you telling us here, let us go to death, and you just move your mouth?”

“This alliance is disbanded, it has no practical significance,” she said.

“You believe me, I didn’t mean that,” Chi Wu said anxiously.

Lei Long shook his head and said, “Depending on how you treat Lu Yang, you are not a credible person.”

After speaking, Lei Long and Lu Siyu left together, and the two bosses in the same city with the two also left.

The old man in the twilight watched the two figures leaving, sitting in a chair confused, with a dry mouth. He didn’t know what the problem was.
