

Wild Fire 401

Chapter 401 - Change of life

Shopping malls, such as battlefields, have been successful for decades.

Entered the game with 100 million cash and bought major studios to serve him. His reputation in St. Gall's was unmatched, but why did it fall into this field today.

Where does he know that the game is not a shopping mall? This is not about selfishness and self-interest, but the word good or not is not applicable in the game. What is special about the game is that the prince will be the same.

Everyone has the same starting point. Death in the game will not really die. Here we are talking about losing together and winning and winning together.

Blackstone Fortress.

Wang Teng personally inserted the fortress order into the deities in the inner city of the fortress.

"Win ~!" Wang Teng shouted.

The bloodthirsty domineering, eternal soul, black blood, and the heavenly war **** and blue sky that came over shouted in unison, and more than 100,000 players are cheering.

The black blood complimented, "Congratulations to Wang for successfully winning the fort."

Wang Teng exited the game excitedly and personally called Liu Jie to report.

“Good job, hold on to the fortress, and completely defeat the hero, I will give you a celebratory feast.”
Liu Jie said.

“Thank you Jie Shaojiao.” Wang Teng said excitedly.

After the report was completed, Wang Teng re-logged in to the game and told Liu Jie’s words to Bloodthirsty Heaven and Eternal Spirit and others.

“Although Master Jie didn’t set a time for me, but I hope we can defeat the bully completely within two days. At that time, I will take you to Master Jie’s hotel to participate in the celebration dinner.” Wang Teng said.

Being able to attend a dinner hosted by the son of an international consortium is extremely attractive to people such as Eternal Spirit and Bloodthirsty Domineering.

“Yes,” the crowd said together.

On the other side.

The bully is forming a team outside the city of St. Gall, and the players of the supreme dynasty who were killed in the battle have been summoned by him outside the city, and there are more than 100,000 people who are willing to retake the fortress with him.

Qu inadvertently looked at the angry bully and said worriedly: “Are we going to discuss with Twilight, this way we can’t hit the fortress.”

“The **** deputy head of the **** turned out to be a black blood man, and they were robbed by the fortress guns on our side, otherwise we would not stand the fortress.”

Xiongba pulled out the long sword and inserted it into the soil angrily, cursing: "I will never let the bloodthirsty domineering, I must kill him."

The old man in the twilight rushed over with Luo Siyu and the Silver Wolf, and said excitedly after seeing the male domineer, "Brother, what are you doing?"

"Just here, you are going to gather your troops and help me recapture the fortress." Xiongba has messed up, lived high for more than 30 years, and suddenly suffered a major defeat, so that he would not even have basic interpersonal communication.

There was a sense of powerlessness in the old man at the twilight, saying, "Brother, we can't keep the fortress. Isn't it the same as sending him to death? Listen to me, forget it, your men are still there, the fortress always has a chance. Take it back, and forbearance first increase your level. "

"Fart, is my bully the kind of bullying person, he is a bloodthirsty bully who plays with me, and I can never spare him." Xiongba cursed, in fact, now he knows that he should be patient, However, he couldn't stand his face, and he couldn't bear to be counted so much.

The old man in the twilight understood the current situation of the hegemon and grabbed his arm and said, "Brother, you must first dispel the fire and listen to me to persuade, Thunder Dragon and 芊芊 Si Yu have disassociated from us, and want to defeat the bloodthirsty in the current situation Batian, we can only ally with Lu Yang. "

"Lu Yang?" Xiongba's eyes were a little confused, then he shook his head and said, "Ask him for help? I would rather quit the game."

Lu Yang was secretly calculated four times in a row, and now Xiongba asks Luyang for help, and Xiongba has no face at all.

"No need to say more, I won't go against the bloodthirsty bully, I naturally have my style." Xiongba saw that his men were almost assembled, turned to the first row of the team, and took more than 100,000 players. Dang walked towards the ruined ancient city.

Seeing that he could not be discouraged, the old man returned to the city helplessly, opened a special space, hesitated again and again, and submitted an application to Lu Yang.

Psychic College.

Six p.m.

Lu Yangzheng, Han Ying, and Mu Yu took Hansha and 12 of them to upgrade in the bug position. In one day, Lu Yang successfully rose to level 49 and 12 little ones to level 47.

“Brother, Dad came the news. The male domineering was defeated. The fortress was taken away by the bloodthirsty domineering. Now the male domineering gathers players outside the city and prepares to counterattack.” Han Ying said.

Lu Yang nodded and said: “We speed up, we must bring Han Sha and Han Meng to level 50 tomorrow morning.”

“Drip ... Drop ... Drip”

Three consecutive reminders of the invitation to the special space sounded. Lu Yang looked at the inviter and found that it was the old man in the twilight. He smiled and said, “You call first, and the twilight seeks me.”

Click to enter, Lu Yang came to a special space.

A special office-like space, the old man in the twilight stood opposite Lu Yang, bowed deeply, and said, “Brother, we are defeated. Please look at the friendship in the past and help the bully.”

Lu Yang didn't expect the old man to do this, took a deep breath, and said, “Why old man, why?”

“It's all our fault. If we weren't jealous of your achievements, the three of us would have ruled the city of St. Gall for a long time. Brother really knew this time.” Said the old man.

Lu Yang is soft and not hard. He is most afraid that others will lift him up and look at the twilight. Lu Yang said, "Let's sit down and talk slowly."

The old man in the twilight was forced to rush this time. If the hegemon is completely defeated, the next one to die is him. With only 50,000 gold equipment, the bloodthirsty hegemon can sweep all the guilds in St. Gall.

"Brother, can you send a soldier to rescue the male bully, you say a number, I will pay for any amount of money." Said the old man.

Lu Yang said, "Just forget about money. In terms of friendship in the past, you asked Xiongba to come to a special space. He would admit that he was wrong, and I must help."

Although doing so would ruin a series of strategies he had previously designed, but after all, he had a friendship before, and Lu Yang's cultivation was still out of his home. Two words in the twilight made him give up the cruel principle.

He didn't expect that Lu Yang was so eloquent, and he couldn't help regretting it. He quickly dialed the phone of Xiongba to explain the situation, but Xiongba only said a word.

"No, I can do it myself."

The old man in the twilight looked stunned at the interphone, and now, he didn't even know what to say.

Lu Yang smiled helplessly and said, "Brother, you are me. Can you help me?"

The old man in the twilight laughed with a sorrow and said, "I'm blind in the twilight, but I found the waste alliance of the male domineerer. I left, and I was too lazy to take care of his affairs."

Arching his hand, the old man in the twilight exited the special space disheartenedly.

Lu Yang shook his head and also withdrew from the space.

Han Ying saw Lu Yang coming back so soon, and said with a smile: "Brother, I still can't help but want to help the bully, right?"

Lu Yang rubbed Han Ying's head and said, "Just be smart."

Han Ying quickly tidy up the hair messed up by Lu Yang and said silently: "They are all girls, you must not bully me like this."

Lu Yang laughed, finally, the little sister around him could make him have a good mood, otherwise this day will not pass.

"Well, I won't bully you like this in the future, I think of a new way." Lu Yang said.

Han Ying rolled his eyes, and Mu Yu giggled, covering his mouth.

"Hurry back, we'll take Xiaosha and Xiaomeng to upgrade," said Han Ying.

Lu Yang sighed and said, "I decided to help, and I have negotiated with him and dispatched troops to help the bully regain the fortress. Poor your brother, I also talked with him and said that he does not have to bear any expenses, but you know What did Xiongba say? He actually told Chi Wu that I didn't need to help. "

"How can Xiongba say so, how can he win the bloodthirsty domineering by himself." Mu Yu asked.

Lu Yang said: "I know what Xiongba thinks. He wants to play very simple, just change it with the opposite."

"One for one?" Han Ying asked without understanding.

Lu Yang said: "The essence of this game is that the opponent has just reached level 30. If you die a few times, the experience will drop to level 29. At this time, you will fight against the opponent, and you won't be able to put on the gold equipment on the opposite side. Everyone Unified back to the level of more than 20 silver suits. "

"This kind of play is really a useful play. It is also more than 20 levels. The players of the male domineering are stronger than the bloodthirsty bully." Han Ying said.

Lu Yang said: "How about love, since the hero is not in use, my brother can only put my heart down to implement my plan."

"What plan?" Han Ying asked.

"Take them 12 little guys to upgrade." Lu Yang said.

"..." Han Ying and Mu Yu shook their heads together. Obviously, they thought that Lu Yang was lying to them ~ www.mtlnovel.com ~ at midnight, Lu Yang successfully rose to level 50, Han Sha and 12 other children The guy reached level 48 and a half.

Before going offline.

Lu Yang gathered the muddy wine pouring and Xia Yuwei and other people into the fortress hall of the Red Fort, and arranged the duty task.

He also talked about many people about asking for help, and learned that Xiongba still didn't look for them, and people such as Zhuojiu and Bailang stopped insisting.

"I estimate that tonight will be a difficult night. If the bully does not take the team and the bloodthirsty bully to fight for one night," said bitter love for a long time.

Lu Yang said: "A few of you can take advantage of these days to improve your ranks, and try to get some of your ranks up to level 30."

"Boss, do you have any plans?" Asked Zhuzhuo.

Lu Yang said, "Don't guess, when you should know, you will know."

"Oh." Everyone shrugged and left.

Chapter 402 - Self-explosive City

That night.

The turbid wine pouring and bitter love each took 20 fire methods to the crater to raise the level, and Lu Yang also taught them the second method of learning the forbidden spells of the fire method.

"In two days, you have to learn, you know?" Lu Yang said to the two seriously.

"Yes," Zhuojiu and bitter love said together.

Early the next morning.

Lu Yang went out of the hotel in the city of St. Gall, and the bitter love responsible for night watch found Lu Yang.

“Last night, the battle was too fierce. The bully and bloodthirsty bully hit 4 am in the wild. Both sides couldn’t stand it before they stopped. News from the bully just came and they were ready to continue the attack at 7 am Said bitterly for half a life.

“Very good,” Lu Yang guessed, and said, “Take the 20 mages in your hands to increase your level.”

“Yes.” The bitter love ran to the door for half a lifetime, and took 20 ice mage into the inner city.

After one night, more than 300,000 self-explosive worms were bred by 25 flesh-worm females. After all of them were killed, 20 ice mages were smoothly upgraded to level 40.

Lu Yang told the bitter love half-life how to learn the secondary injunction of the ice system, saying, “In two days, we must learn.”

“Yes.” Bitter love half a life led the team.

After 5 minutes, Zhuo Jiu Qing and Xia Yuwei and others went online on time. Lu Yang arranged for them to consolidate players to upgrade, and brought Hansha to the Psychic Academy to continue the upgrade.

On the other side.

The bully was unwilling to fail, and summoned his men to continue to participate in the battle, as if the bully was mad, fighting and consuming bloodthirsty bullies.

Even his level fell below 30, and continued to fight in a 20-level silver suit.

“Crazy, the bully is really crazy.” The bloodthirsty bully cursed.

“We have less than 40,000 players left at level 30. If we continue playing like this, we will have 30,000 left tomorrow.” Yuema South Bank said.

“Can’t go on like this, Jie celebrates us in a few days. If we know that the war ended like this, this celebration party will be meaningless.” Wang Teng said.

The bloodthirsty bully looked to the eternal spirit and said, “Brother, can you let your 50,000 people participate in the war.”

Divine spirit said forever: “It’s okay to join the battle, but my man will return to the Imperial City when he dies. Is it too early to join the battle now?”

Wang Teng said, “It’s better to let your men set the resurrection point in the city of St. Gall. Even if your three fortresses are attacked, you won’t lose all three of them at once. If there is something wrong, you can return to the city.”

The spirit and eternal instinct are unwilling, but now that Wang Teng has spoken, he has to say: “Okay, I arrange this. Today I will take a fight with the men and the bully.”

“I also asked my people to set the resurrection point in the city of St. Gall. Within two days, the level of dominance that must be hit fell below 20.” Black Blood said.

Everyone laughed.

“You don’t have to reach level 20, and you can drop another level two or three levels, and the male domineering side can’t eat it,” said the spirit eternal.

Yuema came to the south bank and said, “The majesty has formed the whole team outside St. Gall.”

“I’ll meet him,” said Eternal Spirit.

50,000 players from the Tribes start from the gates on the east and west sides of the city of St. Gall and launch a clamp offensive to attack the two wings of the hegemon.

“Boss, 50,000 people from the Shenwu tribe went out of the east and west and came to our side.” The player responsible for exploring in the city reported.

“I knew they would play yin.” Xiongba smirked and said, “Fantasy, you take 50,000 people to the west, I take 50,000 people to the east, and I have no intention of staying in the middle to wait. If there is any problem, report it immediately. “

“Yes.”

With a wave of his hand, Xiongba rushed to the East Gate with 50,000 troops. Eternal Spirit was thinking about sneaking up on the Xiongba from both sides. He did not expect the Xiongba to come first and hit him by surprise.

The meeting between the two sides is a life-and-death battle. From early morning to noon, the eternal troops of the soul fell and the bloodthirsty bully took 100,000 to replace.

The male domineerer had red eyes because of the loss of the fortress. He saw that the blood-thirsty Batian 's originally tired body had a powerful fighting force. During the melee, even the city of St. Gall was affected. From the square to the south gate, PK was everywhere People.

In the evening, only 32,000 of the 50,000 players under Bloodthirsty who can wear level 30 gold equipment are left, and the remaining 18,000 can only be replaced with level 20 silver suits.

The blue sky asked: “What about the replaced equipment, shall we take it back?”

Wang Teng thought for a while and said, “Let 's stay for a while. The madman can't hold on for two days. After finishing playing, we can take these people back to level 30 within five days, and now take the equipment back. They saw that the equipment was not given to them, but they were borrowed, and the next battle was not so active. “

Everyone nodded.

Just as the battle between Xiongba and Wang Teng was about to take place, on the other side, Han Sha and others flashed gold to Level 50.

“It’s great, it’s finally level 50.” Han Sha said excitedly.

“Follow me to the Blood Devil Mountain immediately.” Lu Yang took out the teleportation scepter and took Han Sha to fly to the Blood Demon Cave.

The number of flesh-mother worms is very large. In less than an hour, Lu Yang and 12 people all summoned 5 flesh-mother worms. At this point, Lu Yang has another 65 flesh-mother worms. There are 80 fleshy females.

Taking out the scepter of transmission, Lu Yang took them to the cave outside Xinshou Village in Giant Town, took out 12 admission notices for the stealth college, and said, “Leaving flesh and blood mother worms to upgrade, each of you will return to St. with the admission notice. Gar City changes jobs and returns here, remembering not to let anyone find out. “

“Yes.” Han Sha and 12 other nods nodded together and flew back to the city of St. Gall using the return roll.

Lu Yang stayed aside, using Fire Wall to help Flesh Mother Worm level up.

Two hours later, all 60 flesh-and-blood females had risen to level 7, and Han Sha and 12 other little ones were transferred into stealth assassins.

Up to level 50, they ran back from St. Gall in stealth, and were not found by anyone.

Lu Yang took out the telegraph scepter and returned to the inner city of the Red Fort with 12 little fellows and 60 flesh-mother females.

“You stay here and wait, close the inner city and don’t let anyone in.” Lu Yang said.

“Yes,” Han Sha and others said together.

The light flickered, and Lu Yang flew to the square of St. Gall in the city.

In successive days of war, the holy city safety zone has been greatly affected. In order to avoid being killed by accident, ordinary players in the safety zone have gradually gathered in Beicheng District and Dongcheng District. Xicheng District and Nancheng District are almost all male and bloodthirsty Guild players.

Lu Yanggang arrived in Nancheng District, countless lights were lit, and countless killed players were resurrected in the city.

“Fuck, I’ve fallen back to level 29, Quartermaster, give me silver gear, and I’ll keep fighting.”

“Replace the gold first, and don’t let people explode.”

“Know, I’ll exchange it for you.”

“The hegemons are looking for death, I must kill them today.”

...

Noisy above the square.

Lu Yang went to a quiet corner and rested quietly.

The heroic bully, the bloodthirsty bully, and the eternal soul both played real fire, and most of them did not swear.

From the beginning of the evening, Lu Yang waited there, until 1:30 in the middle of the night, the two sides stopped fighting in their hands.

“The bully **** has finally stopped, and we are going to bed.” Bloodthirsty Bully said tiredly.

Wang Teng was also very exhausted, saying, “Troublesome Brother Brings 50,000 People to the Black Stone Fortress.”

The spirit said eternally: “Be assured that there is no problem with me at the fortress.”

Wang Teng nodded and said, “Order the troops to rest on the original underground line, and go online at 8 o’clock tomorrow morning.”

“Yes.” Bloodthirsty Commander ordered the unit to return to the safe area.

2:00.

180,000 bloodthirsty players rested in the Chengnan security zone and fought for a day. After everyone entered the security zone, they quit the game and rested for the first time.

Because he was too tired, and in the safe zone, the Black Stone Fortress was guarded by eternal spirits, and the bloodthirsty bully quit the game without any arrangements.

Half past two in the morning.

Lu Yang determined that all of the bloodthirsty tyrants had rested, and there was a sneer in the corner of his mouth after no one else came here.

Summon a goblin robot, next to the system drugstore shop opposite the safety zone, click to build 2 sentry towers. The sentry towers are not vertical ~ www.mtlnovel.com ~ but lean on the beams of the shops.

It is illegal to build anything in the city. The patrol guards will immediately dismantle it when they see it. However, Lu Yang chose this place as a special place. No patrol guards will come here.

Taking out the fortress and returning to the city, Lu Yangfei returned to the inner area of the red fortress.

Twelve of Han Ying's three siblings, Mu Yu, Xiao Liang, and Han Sha are using mother worms to continuously drop self-exploding worms into the crater.

"Brother, what mission is tonight, so mysterious." Han Fei asked.

From the afternoon, five of them were ordered by Lu Yang to stay in the inner city of the fortress, but did not know the purpose of staying here.

Lu Yang said with a smile: "Brother will take you to paint tonight."

"Tucheng?" Han Fei's eyes lit up and he asked, "Yu Tu."

Lu Yang said, "Follow me and let you see what is gold everywhere."

Taking out the teleportation scepter, Lu Yang read a spell and teleported them to St. Gard with 15 of them and 80 Level 7 Fleshwomen.

As soon as he landed, Han Ying exclaimed: "Brother, have we come to the wrong place? This is St. Gall. The mother worm will be attacked."

Lu Yang said with a serious expression: "Of course, everyone heard the instructions and ordered the female to climb to the top of this drug store."

For the first time, Han Ying and others saw Lu Yang with such a serious expression and did not dare to delay, and immediately ordered the female insect to climb over the shop along two inclined sentry towers.

After all 80 self-explosive insects climbed to the roof, Lu Yang and Han Ying climbed up, leaving only 12 people from Han Sha left behind. Then Lu Yang destroyed two sentry towers.

“Brother, what are you doing?” Han Ying asked.

Lu Yang watched 80 flesh-and-blood females point their tails under the beam, and said, “Brother, I want to slaughter the city.”

Chapter 403 - 1 night getting rich

Han Ying and others instantly understood.

Han Fei said in amazement: “Brother, can this work?”

Lu Yang said with a smile: “If you don’t try it, Han Sha, you twelve flesh and blood females attacking each other with flying swords.”

“Yes.” Han Sha and they also reacted and took out flying swords.

“-12”

“-8”

...

An injury lit up over the heads of 80 Flesh Mothers.

“Neighing ~”

80 flesh-and-blood females roared again and again.

“Guru ~”

“Guru ~”

...

In the strange sounds, the flesh-worm female squirmed the tail quickly, spewing 3 self-exploding insects every second, and frantically creating self-exploding insects.

There are 80 flesh-worm females, and the number of self-exploding insects per second is 240!

He had fallen from the roof to the ground since he was born. He wanted to find people who attacked the mother worm, but found that they were invisible.

Fleshworm can be seen, but the self-explosive bugs he produces are not his worms, so they cannot be seen.

As a result, after the blaster lost its target, it could only find the target by itself, and their target was exactly 180,000 players who stopped in the safe zone.

“His ~”

The first batch of 240 self-exploding worms rushed towards the outermost players.

Self-explosive insects sprayed by Level 7 flesh-meat worms each deal 2000 points of damage, so when the first batch of 240 self-explosive insects reached the safe area.

“boom”

“boom”

...

The explosion sounded, and more than 100 bloodthirsty players were killed in place.

Without waiting for the sound to end, a second wave of self-explosive rushed up.

Han Ying and Han Sha stood on the roof and watched the bloodthirsty players die one by one, and countless equipments fell to the ground.

Han Ying said in amazement: “Brother, you are so smart, how come you think of it.”

Lu Yang smiled and didn’t speak.

This trick was not invented by him, but was invented by a boring player in the previous life. After getting the ring of dreams, he summoned all kinds of creatures. Eventually, he summoned the flesh and blood female worm at level 50, a chance. He returned to the city with the female worm. When attacked by the guard, the female spit worms killed several players in the surrounding security zone.

Therefore, he found such a way to get rich and make a fortune, summoned 5 flesh and blood female worms at one time, and started the road of slaughtering the city after rising to level 7, Lu Yang was just learning everything.

Killing all the way, from ordinary players outside the safe area to the elite players in the central area.

30,000 players wearing gold gear were all exposed to the artillery fire of the self-explosive insects, after a wave of self-explosive insects attacked.

A golden light illuminates Lu Yang and Han Ying. They all have? Symbols in front of them.

“Han Sha, get it back quickly.” Lu Yang shouted.

“Yes.” Han Sha yelled excitedly and ran forward with the storage bag.

After graduating from the stealth college, as long as he does not use physical attack skills, Han Sha will always be in stealth. Therefore, the self-exploding worm cannot see him at all, and their 12 little ones can comfortably shuttle freely among the self-exploding worms.

Because the guild attack mode is enabled on both sides, killings on both sides will not be wanted by the red name.

However, there is a rule in the game that killing will have a sin value. When the sin reaches a certain limit, death will have a greater chance to drop the equipment on it.

The 180,000 people under the bloodthirsty tyrants, three consecutive days of war each person's crime value exceeded 10 points, killing more than 100 points, especially gold players, so when the self-explosive insects killed them At the time, each person dropped at least 2 pieces of gold equipment and 4 more pieces.

“Xiaoyu, over there, pick up over there.” Mu Yu shouted excitedly.

“Xiaomeng, left, there are a lot of gold clothes on the left, come on.” Han Yu shouted.

“I didn't graduate from stealth academy. I was so anxious that I would go down, ah, ah.” Han Fei said frantically.

Lu Yang laughed and said, "A few of you will also have a mission. Each of them has only two storage bags. After they have collected all of them, you immediately replace them with storage bags and send them to the north of the city. The smithy. "

"Yes."

"Brother, someone dropped the storage bag over there, 10 storage bags." Han Fei shouted.

Lu Yang instantly looked at the location pointed by Han Fei. 10 storage bags were falling to the ground. He did not expect that there could be a baby with a large amount of things, such as a storage bag, and shouted, "Han Sha, put the storage Pick it up. "

Han Sha immediately ran over, picked it up and opened it for a look, and shouted excitedly: "Brother, these 10 storage bags contain 5,000 pieces of 30-level gold equipment."

Lu Yang's eyes widened in surprise and said, "It's a big profit, Xiao Liang, take it back to Blacksmith Po."

"Yes." Xiao Liang jumped up and jumped out. After docking with Hansha outside the safe zone, he quickly ran to Chengbei Blacksmith Shop.

"There are storage bags here, too." Han Meng shouted happily holding 10 storage bags: "Brother, it's all gold equipment inside."

Lu Yang took a deep breath. He didn't expect his luck to be so good, and the bloodthirsty bully dared so carelessly that the players in charge of quartermasters would rest in the safe area here instead of going to the hotel.

However, this is no wonder the bloodthirsty domineering, who can think that Lu Yang can slaughter the city with self-explosive insects.

Seeing that each of the storage bags was picked up by Han Sha, Lu Yang was so confident for the first time that Liu Jie was defeated in the game.

“Monsters slaughter the city, there are monsters slaughter the city, everyone is going to grab equipment, good stuff.” A passing player suddenly shouted loudly.

“where?”

“There are monsters slaughtering the city in the security zone in the south of the city. Countless players have died. Everyone, go and grab the equipment.”

...

Word-of-mouth has led to countless players rushing to the south security zone. When the first player shouted on the World Channel, it attracted tens of thousands of players to return to the city from outside the city.

Many people choose to return directly to the south security zone.

However, at this time, under the continuous attack of Han Sha and others, 80 flesh-and-blood females have spit out hundreds of thousands of self-exploding insects, and a large number of them accumulated in the safe area.

When these players first landed, countless self-exploding insects rushed up, and before they responded, they all died on the ground and a lot of equipment burst out.

Players rushing from the surrounding cities saw tens of thousands of silver and gold equipment falling to the ground, all mad and red-eyed and rushed towards the equipment desperately.

However, before picking up the equipment, all were killed by the self-explosive insects on the ground, and a large number of equipment broke out.

“Don’t rush, everyone will stop, attack, kill these 50 bugs first,” a player shouted.

“Kill the bugs first, then grab them together.”

It's nice to say. In this case, there are a few who will listen to the arrangement, but they are not a guild. They do n't even know each other, let alone trust. Who will grab it and share it with others? Whoever grabs such a good thing is who.

Countless players continued to rush towards the inside of the safe zone. Among the dozens of self-exploding insects, a legendary weapon attracted extra attention.

However, there are countless bombers around this legendary weapon.

Three self-explosive insects can kill more than a dozen players, not to mention hundreds of self-defeating insects. When a batch of players found that they rushed over to send death and drop equipment, the players finally learned to be clever and use their skills to attack the self-explosive insects.

However, according to the rules of the game, any attack in the safe zone has no attack effect, that is, the self-explosive insects hit them and lose their blood as usual, while they hit the self-explosive insects, the attack is invalid.

Everyone was crazy when they saw this scene.

"What to do, equipment."

"It's all equipment."

...

"Thief, hurry up, call our guild transfer thief." A guild boss shouted.

"Boss, it's useless, it's a level 50 monster, stealth and no stealth effect." Players said.

Everyone was stunned in the spot, and could only watch these self-explosive drowsiness. The more players gathered around, there were more than 100,000 people.

Just then, the legendary weapon on the ground disappeared!

“How did it disappear?”

“A thief!”

“The flare.”

Countless players shouted that the shooters in the city fired flares at the same time, and more than 3,000 rounds of flares shot half of the safe area, but no one was still found.

Where do they know that Han Sha, 50, graduated from the stealth college and wants to break his invisibility, only the 50-level flares can be used. These 20-level flares are invalid for him.

As a result, the surrounding players can only watch a piece of legendary weapons and gold-level equipment disappear in front of them.

After 4 hours.

More and more self-explosive insects spewed by 80 flesh-mother insects flooded the entire security zone. Nearly one million self-exploding insects rushed out of the security zone and began to actively attack nearby players.

“This worm is fine. Why would it take the initiative to attack people?”

“Run, the level difference is too far, you can see us from 40 yards.”

The surrounding players were scared and scattered to run ~ www.mtlnovel.com ~ As a result, due to their withdrawal, the blaster was running around and was found by the city guards.

“Guards, guards, there is something here.” A captain-like city guard sounded his siren.

“Beep ... beep ... beep ... beep ...”

The harsh alarm sounded over the city of St. Gall. Hundreds of city guards began to kill the self-exploding insects in an orderly manner, and members of the Templars appeared to start the invincible charge into the self-exploding insect swarm.

Lu Yang sent a message to Han Sha, seeing more than half of the blasts killed, “We retreat, we will gather in the smithy.”

“Yes.”

Taking out the teleportation scepter, Lu Yang flew back to the Red Fort with five of them and 30 flesh-and-blood females.

Just after landing, Lu Yang took out the city roll and flew back to the security area north of St. Gall. They took Han Ying and ran into the smithy.

Han Zhongzheng waited there and saw Lu Yang return. He excitedly led Lu Yang into the office on the second floor. Han Sha’s 12 little guys and thousands of storage bags were on the ground.

Chapter 404 - 20,000 sets of gold-level equipment

“Good job,” Han Zhong said excitedly.

Lu Yang nodded strongly and asked, “How much gold and silver equipment?”

Han Sha said, "Brother, there are 23,112 sets of gold equipment, more than 35,000 sets of silver equipment, and tens of thousands of mixtures in the Pharmacy of Song of Blood and Fire."

"These drugs alone are worth 8 million credit points." Han Zhong said.

Lu Yang said with a smile: "These 8 million, I will let you not exchange gold for cash and share it with you."

Han Zhong said for a moment, "What is this?"

Lu Yang said, "Master, don't quit any of you. This is the bloodthirsty domineering for you. Just hold it. It's free."

Han Zhong said, "Your boy."

Lu Yang laughed and said, "Master, you don't have much money in your own hands. Han Ying and Mu Yu's tuition and sundry expenses are enough for you."

Now Han Fei is the time when they should be educated. Countries will start teaching in games immediately. In this case, Lu Yang is ready to let Han Fei go. They do not need to learn mathematics and English in any subject, as long as They can understand the principles of being human, know etiquette, and have a good view of right and wrong.

Besides, these little guys have reached the age of falling in love after a few years. They can't still look like this without learning. At that time, they can't find a good girlfriend or boyfriend.

Han Zhong heard Lu Yang say this, then nodded and promised, "Well, I will deposit this money in their respective accounts, and supervise them not to spend money indiscriminately."

Lu Yang said: "That's good, now we all go to rest and go online at 3 pm on time to prepare for battle."

"Yes." Han Fei and Han Yu said together.

Lu Yang took off his helmet, moved his body, and fell asleep comfortably in bed.

However, on the other side, the city of St. Gall was completely chaotic.

After the Templars joined, all the remaining 50 females were killed, and the remaining garbage equipment and medicine were snatched by more than 100,000 players.

In less than half an hour, the peace in the safe area was restored to the old days. However, in the safe area, 180,000 corpses were lying, all of which are bloodthirsty.

“Have you heard? The monster siege in the middle of the night last night, the bloodthirsty army’s army was annihilated, and the equipment was completely exploded.”

“I tell you, all the monsters are level 50, and each one is a lord level. Ordinary players go to die one by one, die one by one.”

...

Countless players are talking behind the scenes, as if they have seen it with their own eyes, in fact, they are all listening to other people’s nonsense plus their own imagination.

However, the protagonists of all these discussions, the players of the Bloodlust League do not know what happened, according to regulations, they will go online at 8 o’clock in the morning to replace the eternal troops of the spirits to guard the Blackstone Fortress.

7 in the morning.

Bloodthirsty woke up from the bed early, and after a brief wash, he hummed Xiaoqu to the bathroom to wash.

Today he can win the hegemony, and tomorrow night he can also participate in a celebratory banquet hosted by Master Zhongjie Consortium Master Liu Jie. He feels that he is now the winner of life and can have a brighter life immediately.

However, just after he finished washing and was about to enter the game, Qu Han hurriedly called and said, "Boss, something is wrong."

"What's wrong?" Bloodthirsty Batian felt annoyed when he heard Qu Han's voice.

"Yesterday the monsters attacked the city, all of our 180,000 people were killed, and our equipment was snatched away." Qu Han said in a panic.

"Fart, you didn't wake up and dream." The bloodthirsty bully cursed, and he absolutely didn't believe such a thing.

Qu Han knew that Bloodthirsty Batian would say so, and said excitedly, "I lie to you what to do with this kind of thing. Go online and check it out. I will ask others to go online. If we don't immediately find a solution, we Something is going to happen to the guild. "

Listening to the busy sound of Qu Han hanging up the phone, the bloodthirsty bully thought confused: "It really happened."

Bloodthirsty Bully logs into the game with a skeptical mindset.

The light flashed, and Bloodthirsty appeared in the room on the 3rd floor of the Chengbei Hotel. This hotel was opposite the safety zone of Chengnan Plaza.

The bloodthirsty hesitant came to the window door, pulled the curtains hard, and saw the scene that scared him most in his life.

More than 180,000 players in their guild are all lying on the ground in the safe zone, the state-death!

“How is it possible.” Bloodthirsty Batian’s whole body seemed to be shocked, and immediately ran out of the hotel into the safe area.

Everyone, such as Ye Wujin, South Bank of Yuema, Hanshanxue, Westerly, and Yuxueba, all died on the ground. Around him, they were pointing casual players.

“That person is the boss of the Bloodthirsty League, it’s miserable.”

“Shh, whisper, he’s so miserable now that he’ll have to get revenge on you.”

“Yeah, yeah, let’s go.”

...

The bloodthirsty bully has been stunned, and he has no idea what happened, let alone how to deal with the situation at hand.

180,000 people, all lying on the ground in a spectacular scene. If it was someone else’s guild, he could sigh a terrible sound, but it happened to him, the bloodthirsty bully did not know what to do.

Qu Han ran over and said, “Boss, I’ve called all of them, and they will be online soon.”

Bloodthirsty Batian turned to look at Qu Han, his eyes suddenly burst into hate, and asked excitedly: “Tell me what happened and what happened.”

Qu Han scratched his head and said, “I’m not sure. I’m afraid that the spirit can’t cope with the eternal side. I went online half an hour in advance. As a result, I saw this situation. I asked everyone that there was a monster siege. It was a level 50 lord, But again, no one knows what’s going on. “

The bloodthirsty Batian became more and more angry when he heard it, suddenly slap on Qu Han’s face and cursed: “Waste, waste!”

Qu Han was snoring. Although it was not painful in the game, the bloodthirsty bully slapping him was a great insult to him.

“What do you hit me for? I was wrong in the game ahead of time.” Qu Han asked.

The bloodthirsty Batian was extremely angry and cursed: “Go, get me, I don’t want to see you.”

Just when Qu Han was about to leave, Yuxue put his head on the game and other people on the south bank of Yuema, and quickly stopped the conflict between Qu Han and Bloodthirsty Domineering.

“Boss, don’t get excited, this thing has to be clarified from Qu Han, otherwise we can’t explain to President Wang.” Yuema South Bank whispered in the bloodthirsty Batian ear.

“Brother, boss is confused, don’t leave.” Yuxue Bawang grabbed Qu Han’s arm and said.

Qu Han just wanted to speak, and the bloodthirsty bully put up his anger and said, “Qu Han, I was not good just now, and you forgive me. Now that the enemy is in the process, we will deal with external issues first, and then I will apologize to you.”

Qu Han then stopped and continued to tell what he saw and heard.

Before he finished speaking, Wang Teng and Zhan Lantian were also online. They also received the notification from Qu Han. Seeing this scene, Wang Teng stunned and pointed at the bloodthirsty bully and cursed: “How to return Matter, what is going on. “

Where is the bloodthirsty bully clear? After letting Qu Han say it again, he said, “Boss, I want to find an official complaint. This time the monster siege is obviously aimed at us. Isn’t this obviously a favored bully? This is too much. Now. “

Wang Tengqi’s whole body shivered and said, “Yes, find customer service, complain.”

As soon as the words fell, players of the Bloodthirsty League went online one after another.

“Strange, why are you dead.”

“What happened.”

“What about my gear.”

“My golden weapon.”

...

After the resurrection, the players of the Bloodlust Alliance found that they had dropped at least one of their equipment and wrapped items and dropped most of them.

The 180,000 bloodthirsty players on the line have asked what happened and they got into a mess.

The bloodthirsty bully looked at this scene and shouted excitedly: “Please give me a specific loss figure for the south bank of Yuema.”

After half an hour.

Wang Teng asked: “How much equipment did we lose.”

The bloodthirsty bully looked at Wang Teng in horror and said, “Silver equipment has lost more than 20,000 sets, and gold equipment has also lost more than 20,000 sets.”

Wang Teng stared at Bloodthirsty Domineer and said, “How much gold equipment is lost?”

The blue sky and the spirits coming from the Black Stone Fortress eternally rushed to hold Wang Teng, saying, “General Wang, we will report this to the customer service first to see what is going on.”

“That was 20,000 sets of equipment, not 20,000 pieces. At the current market price of 50 million credits, it would take another month to add all our guilds together to build them.” Wang Teng shouted excitedly.

“That doesn’t blame me, who knows that there will be monsters siege the city, and only hit us and not dominate the bully.” Bloodthirsty Batian said.

[Customer Service] 001: Hello, sir. I am 001 customer service. Do you have any questions?

Wang Teng pointed his finger at the Bloodthirsty Domineer angrily and said to the customer service: “Give me an explanation, why the monster siege was not notified in advance last night, why the monster siege only hit our bloodthirsty security zone in the south of the city. Give me a reasonable explanation, I can’t spare you. “

No. 001 customer service looked blank ~ www.mtlnovel.com ~ said: “There were no monsters siege last night, we have not been notified.”

“You fart, last night my guild 180,000 people completely killed the siege monsters, and hundreds of thousands of equipment were dropped. You told me that there was no siege, the ghost hit.” Wang Teng was extremely angry.

Customer service number 001 said, “Well, don’t get excited. I’ll check it for you.”

The official internal operation of “Second World” is different from other game companies. Because it was developed by the nine countries, the main brain of “Second World” has high intelligence and can operate on its own. Without the unanimous consent of the nine countries, no one can explore the game. What happened in China, therefore, 001 customer service can only query the official plan of last night. Unfortunately, there is still no option to siege.

Facing the response from the customer service, Wang Teng was furious and complained to the Asian headquarters of Second World.

However, the Asian headquarters did not have this permission to investigate the reason, and in the game, the bully already attacked the Blackstone Fortress with 100,000 people like a crazy dog.

“Defend first, fight with the heroic hegemon, you must not let him take back the fortress. In that case, Jie Shao will not spare any of us.” Wang Teng said.

Chapter 405 - Holy city chaos

After losing nearly half of its gold equipment, the bloodthirsty domineering party has not been affected much. After all, by yesterday evening, these men’s gold equipment could no longer be worn.

However, in order to prevent any further problems, people such as Bloodthirsty and Eternal Spirit decided to stay in the Blackstone Fortress for insurance.

180,000 players used the fort to return to the city roll and flew back to the Blackstone fort.

City of St. Gall.

Xuan Feng said excitedly to Xiongba: “Boss, I found out. It is true. Last night, the monsters slaughtered the city, 180,000 bloodthirsty leagues were all killed and the equipment was robbed by players.”

Xiongba made a strong fist and said, “God help me too. This time, we must grab the Black Stone Fortress. The whole army will advance. The Black Stone Fortress.”

“Recapture the fortress.” Huan Feng shouted loudly.

“Recapture the fortress.” More than 100,000 people shouted in unison, marching towards the Blackstone Fortress with great momentum.

The old man in the twilight sent a message to the bully and said, “Brother, my 50,000 troops will be here soon. Hold on. I will help you take back the fortress today.”

Xiongba thought he was a lone soldier, but he didn’t expect the old man to help him, he said excitedly, “Brother late, give charcoal in the snow.”

The old man in the twilight laughed and said, “This monster siege has helped us a lot. Not only has the pressure on my side to defend the city be greatly reduced, but there is also no worries over Lei Long and 芊芊 Si Yu. They are ready to come and help you Now. “

It is determined that more than 20,000 sets of gold equipment are missing. Tianyu and Blue Crystal are no longer the opponents of the two guilds of the Thunder Dragon and the Silk Speaking. The two can send a large number of elite masters to help.

“Okay, with your help, my winning percentage has greatly increased.” Xiongba said with a laugh.

A monster siege changed the current structure of the Terran Guild. Just as the major guilds were full of ambitions to prepare for their fists, the Brotherhood of the Iron Blood was quiet.

Inside the red fortress.

Jiang Ze, Zhuo Jiu Qing, Xia Yuwei, and Tu Feng, all the high-level guilds are staring wide and small eyes in a special space, the atmosphere is very strange.

“I think this monster siege is not organized systematically,” Jiang Ze said first.

Tu Feng said: “I think so, according to the player’s report last night, it is a group of level 50 self-explosive siege.”

“Do you guess if this is the boss?” Asked bitterly for half a life.

Sun Yu frowned and said, “I don’t know. Some people have posted pictures on the Internet. They were indeed caused by self-explosive insects. However, there are 80 female worms over there. Only 6 people around him have reached level 50, and the maximum is only 30. Female. “

Zhuo Jiu said, “Whether it’s the boss or not, don’t talk about it, otherwise the bloodthirsty bully will have to come to our trouble.”

Everyone nodded together.

“Bring people to upgrade in the future, let’s not let them see the female worms, just stand where they can get experience, just wait for the upgrade.” Said bitter love for a long time.

“agree.”

“Strange, why didn’t the boss go online today.” Xia Yuwei asked.

Tu Feng coughed and said, “Well, the boss told me that he will be online at 3 this afternoon and let everyone gather their troops in the morning.”

“唰”

20 pairs of eyes shot at Tu Feng collectively.

Jiang Ze patted Tu Feng’s shoulder and said, “Brother, I’ve been mixing well recently, let’s say, what did the boss say?”

Tu Feng was speechless, saying: “Nothing, the boss just asked you to report the list of new players who reached level 30 and let them sign a simple war contract with the guild.”

Mao Qiu said excitedly: “No, it was really the boss who did last night.”

Tu Feng said: “Don’t make a fuss, the boss didn’t ask me to purchase materials to build equipment. I joined Zhongyi Blacksmith to create some gold-level equipment. You should report it to me first and let me check the quantity.”

Xia Yuwei looked at Tu Feng with a look that I knew you were lying, and said, “Is this really the case?”

Tu Feng was also secretly in love with Xia Yuwei, where she could bear the expression of Xia Yuwei, her face flushed, and said nervously, “Really.”

At first glance, Xia Yuwei saw that it was fake, and secretly sent a message to Lan Yu: “Yao Yao, it’s your turn.”

“What is it?” Lan Yu asked.

“Beauty plan, I’ll take you to Lu Yang. This guy must have taken people to slaughter the city last night. We hurried to find Lu Yang first. We can no longer let him eccentrically give so much gold equipment to the Bai Xiong. .

“Sister, you really want me, even let me use the beauty.” Lan Yu rolled her eyes silently.

Xia Yuwei’s pitiful expression said, “Look, my sister’s family has more food and less. Immediately there are 30,000 to 30. My father thinks we can’t win Liu Jie and refuse to invest. I can only rely on you.”

Lan Yu couldn’t beat Xia Yuwei, and said, “Well, I’ll try it, my brother has always been fair and doesn’t necessarily sell me face.”

“You are willing to help.” Xia Yuwei was very happy.

“Cough.” Xia Yuwei coughed intentionally and said, “Well, you talk first, I’ll go back and organize the staff. Now that the boss said, let’s just do it.”

Jiang Ze clapped his hands and said, "Uh, I'm going back too, you guys continue."

Zhuo Jiu Qing Duan and Bai Lang and others watched Xia Yuwei and Jiang Ze who left in general, who said madly in my lifetime: "There is something weird."

Zhuoju said, "I remember that they and the boss are in the same city. They won't find the boss to equip them."

"Play Lai, you two come back," shouted the white wolf.

Unfortunately, the two have gone offline.

"These two goods are ridiculous, really went to the boss." Said bitter love for a long time.

"I feel we should also go to work in the boss's studio, otherwise it would be too bad." Han Liu said.

Everyone nodded together.

Donghai City.

Xia Yuwei took Shen Mengyao and ran out of the house. After entering the supercar, he hurried to the door of Luyang's studio. Before he got off the car, another supercar came to the door.

Xia Yuwei and Shen Mengyao just got out of the car and saw a handsome boy also got off the car. Both sides looked at each other with surprise expressions.

"Xia Yuwei"

"Jiang Ze"

The two said at the same time, and as a result, they found that they were really each other.

“Her Majesty, this is a lie, you don’t use a beauty,” Jiang Ze said anxiously.

Xia Yuwei hugs Lan Yu proudly and said, “To you, we are coming upright to get equipment.”

After that, the two came to the door and knocked.

Jiang Ze walked to the door without a word.

“I didn’t expect the boss to find this place so special, and I don’t know what he did with such a building.” Xia Yuwei asked.

Lan Yu and Jiang Ze both shook their heads, and neither of them came.

“I don’t know. I just listen to my old man saying that Lu Yang has set up a very large studio here.” Jiang Ze said.

“Who are you looking for?” Lu Zhaoyu asked curiously as he opened the door.

“We are looking for Lu Yang. I am Xia Yuwei. My companions in Lu Yang’s game. These two are Lan Yu and Jiang Ze.” Xia Yuwei said.

Lu Zhaoyu blinked his eyes and said, “Come in.”

The three people were greeted into the lobby. Lu Zhaoyu said: “The three are the shareholders of the Association, and Mr. Jiang Ze is the major shareholder of the studio. Please wait. I will go to him.”

Jiang Ze himself didn’t know he was the major shareholder of this studio and looked around in surprise.

After a while, Han Zhong stepped downstairs and introduced him briefly, saying, “Lu Yang only fell asleep in the morning. It wouldn’t sleep for 3 hours.”

After finishing his words, Jiang Ze looked at Han Zhong with excitement and said, “You, you are, you are the owner of Chengyi Zhongyi Blacksmith Shop. It must be you, right, it must be.”

Xia Yuwei and Lan Yu were also very familiar with Han Zhong. When they heard what Jiang Ze said, they both looked at Han Zhong with excitement.

Han Zhongyile said, “I am indeed the owner of Chengbei Blacksmith Shop.”

Xia Yuwei and the three came to understand instantly.

“No wonder the last time our guild suddenly had so many gold-level equipment, it turned out that there was a loyal blacksmith shop behind it to support it.” Xia Yuwei said.

“Of course.” Han Zhong said.

“Then this is the headquarters of the Zhongyi Blacksmith Shop?” Jiang Ze said.

“Yeah.” Han Zhong thought that Jiang Ze’s father had told him about it. He did not expect that Jiang Ze’s father was really tight-lipped, and he didn’t say anything about it.

“No wonder my dad dared to invest 1 billion yuan. There was a loyal blacksmith pu.” Jiang Ze regretted his face. No wonder his dad always asked him to visit Lu Yang’s studio. It turned out that he had discovered it himself. .

However, Jiang Ze was playful, and when Lu Yang was a brother, he didn’t even want to visit the studio.

Han Zhong said, “I’d rather take three people to visit, and the strength in this studio is very strong first.”

Xia Yuwei nodded together.

Han Zhong took three people to four areas on the first floor: tailor, blacksmith, leatherworking and engineering.

“Every area here has more than 300 people working at the same time. Every day, we can produce at least 3,000 sets of various equipment. At present, supply is always in short supply.”

Recently, a large influx of players has swept the inventory of Zhongyi Blacksmith Shop ~ www.mtlnovel.com ~ and increased a large number of orders. Only the income of the Blacksmith Shop can make Jiang Ze’s work in less than a year. The father recovered the investment.

“Why are you here?” Lu Yang walked downstairs.

The three of Xia Yuwei looked at Lu Yang with surprise.

“Did Uncle Han say you were sleeping?” Jiang Ze said.

Han Zhong said with a smile: “You didn’t let me finish my speech just now. The second part of my sentence is that Lu Yang got up and washed immediately when I heard you coming. Let me show you first.”

The three smiled embarrassedly.

“Okay, I’ll go back to work, you talk.” Han Zhong left.

Jiang Ze said to Lu Yang excitedly: “Brother, you play so big, Zhongyi Blacksmith Shop is yours.”

Lu Yang smiled and said, “Let you come but you don’t, you should have known.”

Jiang Ze said with a smile: "My brother is mine, it's the same whether I come or not."

Chapter 406 - Assault on the Eternal Spirit

Xia Yuwei and Lan Yu came to Lu Yang.

Lan Yu said, "Brother, you have so many secrets."

Xia Yuwei said, "Boss, I don't care, this time you get half of the equipment, I have 30,000 to 30."

"Give you both 5,000 sets of gold equipment." Lu Yang said.

Since Lu Yang guessed that Wang Teng's goal is hegemony or twilight, he is brewing this time of the slaughter incident, and at the same time let Tu Feng rush to make equipment. Now there are 7,000 gold-level equipment in the guild warehouse.

"Thank you, boss, in order to express your gratitude, Lan Yu will give you a compliment in the future."
Xia Yuwei said.

Lan Yu rolled her eyes. She felt that her sister had become less reliable since she knew Lu Yang.

Lu Yang rolled his eyes and said, "Lan Yu was originally mine. You sell my things for humanity, which is too unreasonable."

Lan Yu raised her mouth and said, "Have you considered my opinion?"

Xia Yuwei asked, "Are you my sister?"

Lu Yang asked, "Are you my girlfriend?"

Lan Yu thought for a while and said, "Yeah."

"Then what else do you think about?" Lu Yang and Xia Yuwei said together, the two looked at each other, and they both felt a sense of cherishment.

Blue feather was messy in the wind.

However, in her heart, she admired Lu Yang even more. It was obvious that ordinary people could not do it.

Xia Yuwei looked at Lan Yu and looked at Lu Yang's admiring little eyes. She found that Lan Yu was not rescued. She took the baby sister and said to Lu Yang, "I won't delay you, let's go."

Jiang Ze said, "I'm gone too."

Lu Yang nodded and sent the two to leave. After moving around, he returned to the game. It happened that Jiang Ze, Xia Yuwei, and Lan Yu also entered the game.

"Boss, are you there?"

Zhuo Jiu and bitter love for half a lifetime have sent messages to Lu Yang.

Lu Yang guessed that his gang could not help but sent them a special invitation to space. In a short time, all 23 people were here.

"Boss, did you kill the city last night?" Bitter Ai asked excitedly for a long time.

Lu Yang firmly refused to admit it, saying, "I clarify once, not what I did, but the guild just produced a batch of equipment. Have you signed contracts with your subordinates?"

"Cut ~~" Zhuo Jiu and Han Liu and others despise Lu Yang's serious nonsense, but no one asked again.

Zhuo Jiu said, "The statistics are good, and they have been handed over to Tu Feng."

Lu Yang said: "Very well, I will give you 5,000 gold-level equipment to each of your legions. All troops will gather at the Red Fortress before 1 pm. I have something to announce."

"Boss, are we going to fight?" White Wolf asked.

Lu Yang nodded.

"Do you hit the Blackstone Fortress?" Mao Qiu asked.

"This time, we have to let Xiongba pay a lot of money, so that he pitted us before." Said bitter love for a long time.

Lu Yang smiled and did not speak, and withdrew from the special space.

Zhuoju Qingren and Xia Yuwei and others inexplicably felt that Lu Yang's smile was abnormal, but they could not guess Lu Yang's thoughts, and each of them quit the special space to gather troops.

At this time it was 12 noon, and they were only given one hour to gather.

Fortunately, because of the war between the male and the bloodthirsty bullies, and the National Day, the players of the Iron Brotherhood are all online during the day.

Soon, the six members of Zhuojiu and Xia Yuwei assembled all the players in their respective legions. By 12:50, everyone had assembled.

Xia Yuwei can play 70,000 players, of which 30,000 have reached level 30, and gold-equipped players have 7,000.

Jiang Zeke has 30,000 players, of whom 20,000 have reached level 30, and gold-equipped players have 7,000.

There are 30,000 players who can play in the Baishi Sanxiong, 20,000 of whom reach level 30, and 7,000 players equipped with gold equipment.

Love the half-life, muddy wine, Sun Yu and Jiang Ze and Bai Shixiong. In the end, the number of players who can participate in the battle has reached 220,000.

Looking at the Iron Blood Brother League players in the outer city filled with red fortresses, the walls, muddy wine pouring and Xia Yuwei and others have an incredible expression.

“Oh my god, there are so many people in our Jagged Brotherhood, and we can still gather so many people.” Said bitter love for a long time.

“It’s so cool, it’s so cool, these 220,000 people can set foot on Blackstone Fortress.” Mao Qiu said.

“Boss, you order it, and we’re going to fight.” Who said madly in my life.

...

Lu Yang smiled at the expressions they asked for, and said, “We are not going to the Black Stone Fortress this time.”

Mao Qiu and Bai Lang and others looked at Lu Yang in surprise.

“Do not help the bully, then who are we to fight.” Mao Qiu asked.

“Boss, don’t you want to fight the old man in the twilight.” Asked bitter love for a long time.

Lu Yang shook his head with a smile, his eyes gradually became sharper, sweeping each of them, and said, “This time, I want to occupy the Imperial City.”

“Imperial City?”

Xia Yuwei looked at Lu Yang in surprise and said, “Boss, the Sea Emperor City is far away from us. How can we get there?”

Lu Yang smiled and clapped his hands, and a group of players with level 30 dark gold equipment walked out of the tower of the city wall.

The first person has a handsome and charming smile, not someone else, but Zhou Tianming!

“You, you are Zhou Tianming of the Imperial City?” Bai Shi said in surprise, he watched Zhou Tianming’s pk video on the Internet.

Zhou Tianming arched his hands at the white lion and muddy wine, and said, “It’s the younger brother.”

“Why are you here?” Asked bitter love for a long time.

Lu Yang said with a smile: “Half a month ago, I bought Zhou Tianming’s guild. Now he and we are the same guild.”

Xia Yuwei could not help but trembled with a tremor, and looked at Lu Yang in surprise: “In other words, Zhou Tianming can merge the guild into our Jagged Brotherhood at any time?”

Lu Yang nodded and said, “Exactly.”

“Boss, what are you, what are we doing?” The White Lion was incoherent. He had already guessed Lu Yang’s idea, but couldn’t believe it was true.

Lu Yang said: “I will be trapped in the city of St. Gall while taking advantage of the eternal 50,000 main force, and take you all to attack his three fortresses outside the emperor city, Zhou Tianming, announce it.”

“Yes.” Zhou Tianming opened the guild interface, clicked acquisition and merged, and chose Zhantian Guild to merge into the Jagged Brotherhood.

The system prompts: The Battle Heaven Guild applies for merging into the Jagged Brotherhood, do you agree?

Lu Yang clicked to agree, and the number of players in the guild bar instantly increased from 220,000 to 380,000.

Everyone, including Duo Jiu Qing, Xia Yuwei, Jiang Ze, bitter love half-life, and Baixi Sanxiong, suddenly beat his heart sharply at this moment.

Lu Yang said: “From now on, I will lead you to open up new territories. The first goal is to lay down these three fortresses first. Whoever has the most credit for you will be assigned to a fortress to become the city master.”

Suddenly he took a breath and said, “Boss, let’s talk. I will fight whatever you say.”

“So do we,” said the White Lion.

“Me too.” Sun Yu said.

“Me too,” said bitter love for a long time.

“Me too.” Xia Yuwei said.

“Me too.” Jiang Ze said.

The heads of the six army corps, each of them was rushing in blood. They thought that they were just as slowly building up their strength as other presidents, and they were developing step by step. However, Lu Yang’s strategic capabilities far exceeded them. Imagination, this time they admire the five bodies.

Lu Yang said: “Very well, take the fortress that Zhou Tianming gave you back to the city roll, send it to all your subordinates, go.”

Zhou Tianming handed the storage bag containing the fortress back to the city roll to Zhuo Jiu and others.

Lu Yang stood on the tower and saw them running down to issue the scrolls, walked to the front of the city wall, looked at the Iron Brother Brothers player below, and exclaimed, “Brothers, we are together again.”

In just one sentence ~ www.mtlnovel.com ~ The attention of all players has been focused on Lu Yang, as if Lu Yang has a magic power, his one sentence can make the whole body swell with blood.

“Last time, we gathered here to defeat the Black Sword of the Undead. At that time, we were targeted by the bloodthirsty domineering and black blood, and were counted by the male domineering and twilight. However, our brotherhood was not afraid, and we finally won.” Lu Yang said loudly.

“Kill ~!” 220,000 people couldn’t help but shouted in unison. That battle made each of them feel extremely glorious. For the Brotherhood of Iron and Blood, for this name, they tried their best to guard.

“This time, Xiongba and Old Man joined forces with other guilds to form an alliance, and they refused to let us be scapegoats. We refused. Therefore, these two betrayed us and formed an alliance by themselves. Acquired. “

“Do you know, Liu Jie, I have been approached by me later and want to buy 30 million brothers for the Iron Blood Brothers League. If I had gone with the money at that time, my Lu Yang can now be a free millionaire. But do you know how I responded to him? “

“I let him go.” Lu Yang said loudly.

The 220,000 Jagged Brothers players laughed.

Lu Yang said with a smile: “Do n’t laugh, I ’m telling the truth, that ’s how I told him, why, because I have your brothers in Lu Yang, and the Brotherhood of Iron Blood today, it ’s all of you brothers. He hit me with a punch and kick from the humblest. “

“When you lose, you accompany me, and when you win, can I enjoy it alone, no, boss, I want to take you crazy!”

At this moment, the atmosphere reached its zenith, and everyone looked at Lu Yang with excitement, including the pouring of muddy wine, including Xia Yuwei, and even Zhou Tianming and his men standing behind Lu Yang.

Chapter 407 - Hatred

Although each of them knew Lu Yang’s intentions, they heard Lu Yang’s own words again, and they were still excited.

“Fighting Beasts, set off.” The white wolf shouted first, crushing the seal of the fortress of Liuliuhe back to the city, flashing light, and flew into the fortress of Liuliuhe.

“Qing Yuejun, set off.” Zhuo Jiu shouted.

“Tian Yujun, set off.” Sun Yu shouted.

“Guard, start.” Xia Yuwei shouted.

“Xiliu Jun, set off.” Shouted bitter love for half a life.

“Vulcan Army, start.” Jiang Ze shouted.

The six regiments flew to the Juliuhe Fortress collectively. Zhou Tianming marked them with a specific teleportation point for their return to the city. The six legions appeared at six return points.

Lu Yang appeared on the command tower at the head of the Juliuhe Fortress, and said aloud, “Everyone obeyed, the turbid wine poured out and Sun Yu attacked the East China Sea fortress, bitter love half-life and Bai Shisanxiong attacked the Beihai Fortress, Xia Yuwei and Jiang Ze attacked the Sea Dragon Fortress with me, and the brothers Zhou Tianming and Zhou Tianyan took 60,000 men as reinforcements. “

“Yes.” Zhuo Jiu and others responded in unison.

At this moment, everyone is full of confidence in the war in front of them. The eternal and most elite 50,000 players have set the return point to St. Gall, and there are less than 200,000 ordinary players in the Imperial City. Below level 30.

As long as their speed is fast enough and the raid is launched suddenly enough, they can lay down the fortress in an instant and make the eternal army of souls difficult to return home.

The 280,000 troops slowly opened the Juliuhe Fortress. Under the guidance of players sent by Zhou Tianming’s two brothers, they used the team to accelerate the scroll and quickly rushed towards the three fortresses.

In the 30-level upgrade area, the number of players is scarce. When you see a large army moving around the Juliu River, no one talks. All the players who can upgrade here are level 30 players who have a good relationship with Zhou Tianming's two brothers.

"Fast, speed up, we must take down the top marks this time." Zhuo Jiu shouted, his troops attacked the Donghai Fortress with the furthest distance, and wanted to win these three fortresses, Zhuo Jiu and Sun. Feather must run an hour faster than others.

Fortunately, Sun Yu has wind elves. The level 30 wind elves turn on the whole group mode and the team's acceleration scroll. The entire army is flying like wild flying.

An hour and a half later.

In the forest outside Beihai City, looking at the fortress gates in the distance, apart from dozens of arrow towers, only the fortress walls guarded by more than 200 people, the White Lion said: "The White Lion and bitter love are in place for half a lifetime, and the defense is very weak.

Outside of the East China Sea, Zhuoju slumped in the grass and said, "I and Sun Yu are in place. The defense of the East China Sea is equally weak."

Lu Yang stood in the mountain 3,000 yards away from Hailong City, watching the eternal soul who had less than 500 people upgrade near the city, and said, "Listen to me and the army will attack."

"Yes!" Everyone answered in unison.

Two brothers Zhou Tianming and Zhou Tianyan came to Lu Yang.

"Boss, my two brothers have just joined, let us go and attack the city wall." Zhou Tianming said.

Lu Yang said with a smile: "Two brothers, you two can't really attack the city this time. I told them six of them. This time, whoever contributed the most to the fortress will be the one who is going to grab the credit. And go in, it is easy to cause internal contradictions. "

“Boss, didn’t you own the fortress?” Zhou Tianyan asked.

Lu Yang shook his head and said, “The purpose of my belief is to share prosperity with riches and hardships. I will not treat any player who fights with me. Just like your shares, if any army lays a fort, this fort will be owned by him. The shares are 30%. “

Zhou Tianming sighed and said, “Boss, you are so generous.”

Lu Yang smiled.

Xia Yuwei said, “Boss, the light and dark thieves have brought 300 thieves to the wall.”

Lu Yang nodded and said to the Nanfeng around him, “Sister Nanfeng, it’s your turn to play, and forbid the people on the wall with the curse.”

Lu Yang’s legendary equipment was all given to Nanfeng Zhiyi, and the reputation of the Goddess of Forbidden Charm was also loud in St. Gall. In this upgrade list, Nanfeng Zhiyi also successfully rose to level 40, banned. The spell has been raised to level 2.

“Leave it to me.” Nanfeng deliberately walked towards the fortress.

At the head of Hailong City, the players in charge of defending the city gathered together to chat.

“Well, I don’t know how the boss played with people in the city of St. Gall. Come back quickly. I’m scared to guard the city here.” Said a player from the Shenwu tribe.

“What are we afraid of? We have more than 200,000 people. Who dares to attack the city must weigh the revenge after us. Besides, as long as someone sieges, the boss immediately transfers 50,000 people back to defend the city. Who can attack? Got it down, “said a leading player next to him.

“That’s right, who is not afraid of our Shenwu tribe?”

A crowd of players around all showed proud expressions. One player's expression looked at the distance easily. Suddenly, he saw a beautiful player coming from a distance.

"Look, there is a beauty over there."

"where?"

The Shenwu tribe players on the city's heads looked outside, and saw that the beautiful Nanfeng came to the place 500 yards away from the city wall, raised his staff, and pronounced a spell in his mouth.

Level 2 forbidden spells destroy the sky, release a distance of 500 yards, and an effective attack distance of 500 yards. At this position, Nanfeng Mindfulness Spell is very deceptive. No one would think that there would be a forbidden mage in this Attack them from distance.

"Sure enough," said a player from the Shenwu tribe.

"Well, we don't know this girl. How can we upgrade near our fortress without our permission? I have to tell him." A player with a leader-like appearance said.

"Cut ~!" Came from everyone's despised voice.

The leader-like player laughed, and Yuyou walked down the wall and walked towards the south wind.

As soon as he left the city gate, the leading player suddenly panicked, but looked around but found no problems.

He didn't know, on both sides of him, the two daggers of the light and dark thief were walking around the edge of his neck, and even if he stepped out of the gate of the city gate, the dagger looking up to the glimmer did not leave.

Above the city wall, more and more players from the Shenwu tribe came, everyone was curious about how this leader was going to catch the beauty in front of him.

“I have to say, what a beautiful woman.”

“Boss, come on.”

A lot of savage tribe players on the wall laughed.

The boss of the Shenwu tribe unhappily looked up at the shouting man and made a threatening action.

“Hoo ~~”

A gust of wind blew through, and while everyone closed their eyes to avoid the wind and sand, the sky was instantly overcast, and the south wind in a yellow suit stood in the gust of wind and raised his staff, and allowed his hair to blow to the left .

Such a sense of southerly wind not only makes people feel less ugly, but also has a kind of amazing beauty.

“I want to record this moment, it’s so beautiful.” A player from the Shenwu tribe turned on the long-lens SLR camera he bought in the game, and aimed at Nanfeng and pressed the shutter button intentionally.

At the same time, at that moment, Nanfeng deliberately lifted the staff of the other world obliquely over his head and sang a swig.

“Tian Ming Bang Thunder”

The clouds in the sky suddenly condensed above the city walls, and a thick purple lightning bolt across the sky.

After a loud bang, thousands of lightning bolts blasted from the clouds to the ground at the same time, accurately hitting every player of the Shenwu tribe.

There are more than 2,500 magic injuries, coupled with a level 2 forbidden spell with 1500 damage, and each lightning can deal 4000 damage.

The players who defend the city are less than 30, and the blood is rarely more than 4,000. The first attack almost killed everyone.

The little boss who had just stepped out of the gate was stunned to see this scene.

“Forbidden curse, this must be forbidden curse, enemy attack, enemy ...” The little chief didn’t say a word, and a silvery white dagger passed through his neck.

Looking up at the glimmer coming out of the sun, he said lightly, “Noisy.”

The shadow thief suddenly emerged from the city. He could walk anywhere in the shadow, regardless of the terrain restrictions.

Just landed, watching the players who were all killed shook his head, and sighed: “The curse-forbidden mage is so powerful, all dead.”

“The whole army charged, lay down the sea dragon fortress.” Jiang Ze raised his legendary weapon, and shouted with 30,000 commanders ~ www.mtlnovel.com ~ Zhou Tianming looked at Lu Yang with some worries and said: Too fast. If the two fortresses cannot be synchronized, they are likely to be held by the soul forever. “

Lu Yang shook his head with a smile and said, “Relax, the speed on both sides is not much different from mine here.”

East Sea Fortress.

Fifty Thunder Warhawks circled from the sky to the fortress wall, and saw more than 200 people below, lightning appeared.

More than 200 people were killed by lightning at the same time!

North Sea Fortress.

The cold wind blew up, and the guards on the city head were frozen on the city head by the secondary forbidden frost ring.

“The city head is in control.”

“The city head is in control.”

Lu Yang nodded contentedly after receiving the news from both of them, saying, “The two sides have succeeded.”

Zhou Tianming marveled that if it was his army, it would never be able to do this.

“Boss, the Brotherhood of Jagged Brothers is really strong.” Zhou Tianming said.

Lu Yang said with a smile: “In the future, you will know more after communicating with them. These people are real masters. Let’s go, we will enter the fortress.”

Zhou Tianyan said, “Boss don’t care, the reason why the three fortress defenses are so loose is that the eternal 200,000 main forces have been upgraded in the level 20 map and the copy. If they know that the fortress has been broken, they will definitely fall in. of.”

Lu Yang said: “The purpose of my visit this time is to completely destroy and break down the Shenwu tribe. I want this guild to disappear forever in this game. Even if the spirit does not come to me forever, I will find him.”

The two brothers Zhou Tianming heard Lu Yang’s anger, which made them chill in their hearts. They did not know how the eternal spirit caused Lu Yang.

Where are they clear? Lu Yang was introduced into the trap in the last life. Among the people who attacked Lu Yang, there was the Shenwu tribe.

Chapter 408 - Lay the fort

Enter the fortress.

Jiang Ze and Xia Yuwei skillfully arranged the mage and anti-battalion to seize the teleportation points, preventing players from the Shenwu tribe from using the fort to return to the city and roll back to help.

On this side, the success has just been seized, and on the other side, the soul of eternal arrangement of the vice-chairman Luo Ying who stayed in the Sea Emperor City has received his men for help one after another.

“What, Beihai Fortress was attacked?”

“The East China Sea Fortress was also beaten?”

“Sea Dragon Fortress was also attacked?”

Falling shadows felt bad at dusk. It happened that the six corps leaders inside the guild were following him in a meeting and said, “Just received the news, our three forts were attacked at the same time.”

“How is that possible,” said Xuanhai, the commander of the First Army.

“There are no major guilds in the Imperial City. How many enemies are there?” Longdie, the commander of the Second Army, asked.

“The problem is here. The people in the three fortresses said that they were attacked suddenly, and the people who attacked them in the East China Sea fortress died without even seeing them.” Luoying Duan said.

“Waste,” said Bai Hutianzun, the commander of the Third Army.

“It is estimated that there are not many people. In the past few days, there has not been any movement of the staff of a grand guild. It may just be that a few small uncles want to find death. Our three army commanders will take their teams back to defend. Said.

Luo Ying nodded at dusk, and said with ease, “I’m waiting for your good news. Right, this little thing will not be reported to the spirit boss for the time being, don’t let him be distracted.”

“Yes.” Xuanhai nodded together and quickly gathered troops in the city. Within five minutes, the three gathered 1,000 people each, and more Shenwu tribe players gathered in the city.

“Using the fortress to return to the city roll at the same time scared the gangsters who didn’t have long eyes.” Bai Hutianzun said.

North Sea Fortress.

Bai’s three males just took his 30,000 people to set up encircles at three resurrection points. The white lion, white tiger, and white wolf defended one encircle, and they spent half their life in attacking the inner city.

When White Tiger was bored, suddenly, thousands of flashes of light flashed, and Bai Hutianzun stepped out of the light with satisfaction, shouting loudly, “Which non-open eyed **** dared to come to my Baihu Tianzun fortress to find death.”

The voice just fell.

Bai Hutianzun saw in horror that there were countless players surrounding him around the teleportation point around him.

Shield battle and anti-riding stand in front, with mage and shooter standing behind, with a minimum of 10,000 people.

Bai Hu jumped into the encircle with an unhappy expression, pointing at Bai Hu Tianzun and cursing: "You're looking for death, I'm called Bai Hu, your name is Bai Hu Tianzun, hit me and destroy this shameless group."

In an instant, thousands of magics and countless bows and arrows fell into the teleportation point, and a thousand people in Baihu Tianzun annihilated the army without persisting for 10 seconds.

A flash of light flashed, and Bai Hutian was born in Haihuang City with respect. He looked at the same confused evening twilight and said in horror: "Not good, the number of enemies is at least 10,000, we are not enough."

A flash of light flashed, Xuanhai appeared at the resurrection point, and said excitedly: "The enemy is prepared, not hundreds of people, but tens of thousands."

The third flash of light flashed, and a thousand people of Dragon Butterfly also appeared at the resurrection point, saying confused: "I saw the person who killed me very familiar, as if the muddy wine of the Iron Blood Brotherhood of St. Gall was pouring."

"How is it possible that St. Gall is a day away from here," Xuanhai said.

Longdie sent the recorded video to Luoying Duo et al. And said, "Look at the playback, I opened the camera deliberately when I went."

In the picture, a paladin of golden light battle armor pours muddy wine and issues an attack command in person.

Xuanhai said in horror: "It's not good, it's really muddy wine. According to what you said before, it must be someone from the Brotherhood of Iron and Blood, and there are more than thousands of people, but tens of thousands."

"Quickly assemble troops," Luo Ying said in panic at dusk.

Xuanhai's three also panicked, and quickly issued orders to assemble their troops.

"No, the defense in the inner city is too weak. I have to find the boss and let him drop the elite troops to defend the inner city of the three main cities. Otherwise, the fortress will be lost before we have assembled here," said Luo Yingduo.

Xuanhai nodded and said, "Yes, only the elite can enter the inner city. The boss must be lifted to remove this restriction. The outer city's transmission points are all enemies. Only when we go to the inner city can we have a fight."

At dusk, the address opened the address book and dialed the eternal talker.

Blackstone Fortress.

The spirit that was on duty overnight last night was sleeping in the game, and most of his 50,000 troops were off the assembly line. Only less than 3,000 people were assisting to defend the city.

"Dididi"

A rush of prompts awakened the spirit for eternity, and he immediately raised his head to look around, and found that the hegemon outside the city had not yet laid a fortress, and he was relieved.

After seeing the call request from Luoying Dusk, after clicking through, he asked, "What's the matter?"

"Boss, something has happened. The Brotherhood of Iron and Blood suddenly appeared in the Sea Emperor City, and they are attacking our three strongholds with all their strength." Luo Ying Duan said.

The spirit hasn't woken up forever, um, he sat up for a moment, without any drowsiness in his eyes, and asked, "You say it again."

Luo Ying Duan said excitedly: "The Brotherhood of Iron and Blood is attacking our three fortresses and has already occupied the resurrection points of the three fortresses. It is attacking the inner city. The boss, you will soon bring 50,000 brothers back."

The spirit said eternally stunned: "Are you sure it is the Brotherhood of the Iron Blood?"

"It's true that there is a video from Dragon Butterfly, and the muddy wine is pouring. It is estimated that there must be Lu Yang in the other two siege players in the fortress." Luo Ying dusk said.

The spirit said eternally in horror: "How is this possible, how does he get to the Sea Emperor City, I specially arranged people on the way to the Sea Emperor City, there is no news."

"Boss, there is still time to say this at this time, you should bring someone back quickly, otherwise the fortress will be lost." Luo Ying Duan said.

The spirit perpetually looked at the 50,000 men who had been offline, and the cold sweat flowed down.

"You have to stick to it, you have to stick to it. My 50,000 people have gone offline to rest, and it won't be online until the evening at the earliest. You take someone with you."

The falling shadow froze at dusk and said, "Boss, you can't stand it. Your 50,000 are all the elite of the guild. I have only 220,000 or more ordinary players here. Lu Yang's people this time are all Those who are equipped with gold have also seized the transmission point. Our people will pass it and die. "

"I'll open a teleportation point for you in the inner city. In any case, you have to stand up with someone, and lastly, you have to hold me a fortress," said the spirit forever.

The voice just fell.

System Prompt: Beihai Fortress is Occupied by the Iron Brotherhood

You lost the North Sea Fortress

System Prompt: The East China Sea Fortress is Occupied by the Iron Brotherhood

You lost the East Sea Fortress

System prompt: Sea Dragon Fortress is occupied by the Iron Brotherhood

You lost the sea dragon fortress

Looking at these three reminders, the spirit remained eternally sitting on the ground, and said to his extreme horror, "How is this possible? How is this possible? The three fortresses that I have worked so hard to lose are all lost."

Wang Teng frowned, seeing the eternal appearance of the spirit, and came over curiously and asked, "What's wrong."

The spirit trembled eternally and looked up at Wang Teng, then fell down sharply again, without speaking.

The bloodthirsty Batian asked with a smile: "Brother, wouldn't you be a nightmare, I'll tell you the good news, we're about to defend this fortress, and the offensive over Xiongba's side has weakened."

The blue sky and the Celestial War God laughed, and Wang Teng was very satisfied.

The eternal spirit did not show a smile, but was still in shock. Until now, he couldn't believe it, and his fortress was so lost.

Click on the guild panel and look at the fortress column, which clearly says "0"

At this moment, the eternal spirit seemed to have lost all its strength and fell to the ground.

“Brother, what’s wrong with you, is there something wrong with your body?” Bloodthirsty Batian quickly came to the eternal soul and asked.

The spirit shook his head forever and said with gritted teeth: “Lu Yang, I am at odds with you.”

“We are at odds with him ~ www.mtlnovel.com ~ What the **** is wrong with you?” Bloodthirsty Batian asked anxiously.

Wang Teng frowned and asked, “What happened?”

The spirit and eternity said in a crying voice: “Just now, the Brotherhood of Iron and Blood raided my three fortresses outside the Sea Emperor City, and all of them succeeded. Now, my eternal fortresses are all gone.”

“What?” Wang Teng suddenly widened his eyes and screamed, “You say it again.”

“The three strongholds of the East China Sea, the North Sea and Hailong have all been captured by the Brotherhood of the Iron Blood,” said Eternal Spirit.

“How is this possible? This is absolutely impossible.” Wang Teng said excitedly.

“Where is your fortress order from Lu Yang, how is this possible?” Bloodthirsty Batian asked.

Where did he know that Lu Yang killed countless lords in the dungeon and dungeon? He had already been hit by three fortress tokens outside the Sea Emperor City.

Inner City of Hailong Fortress.

Lu Yang watched the muddy wine dumplings and Xia Yuwei and other army commanders gathered around him, and said with a smile: “You all, you are doing a good job.”

Zhuo Jiu poured out, "Boss, this time your strategy is too great. We have laid three fortresses at once, and we have no effort."

Zhou Tianming said: "Before I was worried that the boss would lose money by buying our fortress. The boss had such a vision and admired it."

Everyone laughed.

Lu Yang said with a smile: "This time, the eternal costume is too big. I dare to take 50,000 people to St. Gall, and dare to let these 50,000 people set the resurrection point in St. Gall. You look, I told him that 50,000 people would never come back to Haihuangcheng for a lifetime. "

If they want to return to the Emperor City by land, these 30,000 people need to take the wind and fortress.

Xia Yuwei said: "Boss rest assured that I took 50,000 troops to the junction to upgrade at night. As long as the spirit and eternal troops dare to come, I will definitely fight them back."

Chapter 409 - decisive battle

"In the evening, I will take you with a team of sub-magic mages from all regiments to accompany you. Since Spirit Eternal wants to help the bloodthirsty bully swallow us, don't blame us for being too **** him." Lu Yang said.

Xia Yuwei nodded together with the turbid wine.

“Boss, just got the news. Luoying Duo and the three major army commanders are now mobilizing players from the Shenwu tribe. At present, they have gathered 150,000 people, and they are likely to attack our fortress in an hour.” Zhou Tianming said.

“Look for death, a group of players less than 30, dare to fight us?” White Lion said.

“Who knows, maybe he thinks it might be better than us.” Said bitter love for a long time.

Zhou Tianming said with a smile: “Boss, can you show me the most powerful field legion in our brothers’ league?”

Lu Yang said, “Of course you can. Most of these people are in the hands of the three brothers of the Bai family. They are 1,000 violent battles, 2000 punishment rides, 500 anti-war battles and 1500 holy light rides.”

The White Lion smiled and said, “We have a chance to learn together.”

Zhou Tianming nodded with a smile, on pk, singled out his technique is very strong, not afraid of anyone.

Lu Yang asked: “Tianming, if the eternal player wants to attack our three forts, is there any way to stop them halfway.”

“Boss, are we not defending the city this time, but fighting in the wild with the Shenwu tribe?” Bai Hu asked.

Lu Yang said, “I want everyone in Haihuangcheng to know how strong our strength is, so that we won’t go here, and there will be other people who want to make trouble.”

Zhou Tianming shook his head and said, “There is no such place, except when they meet outside the emperor city, we will fight them outside the city.”

Lu Yang said: "Then fight outside the city, leaving three fortresses with 10,000 troops each. The others follow me into the Imperial City, and I will defeat the Shenwu tribe at the gate of the city."

Xia Yuwei and others rushed with blood, saying in unison: "Yes."

In less than 20 minutes, the heads of the six main regiments gathered with the troops to the Hailong Fortress. Counting the 60,000 elite troops of Zhou Tianming, the total strength reached 250,000.

On the other side.

Outside Blackstone Fortress.

The coalition forces of the tyrant and the old man in the twilight did not know what Lu Yang was doing, and they were attacking the fortress with all their strength.

"Strange, it stands to reason that at this time it is time to change into a soul and eternal person, why are blood-thirsty people fighting against it?" The old man asked.

"I'm probably still sleeping." After three days of war, Xiongba finally eased from the madness.

Lei Long shook his head and said, "No, the blue sky and the God of War haven't come out for a while, and don't know what they are doing."

"I always feel as if something big has happened, but we don't know," said the twirling language with Xiu Mei.

Suddenly.

The spirits breeze came to the old man in the twilight, and wanted to speak but he couldn't say anything.

“Say, what’s wrong,” the old man asked, frowning.

The spirits breeze looked at the twilight, and looked at the other presidents, saying: “The news came from the Internet, Lu Yang did his best to attack 180,000 people and attack the three eternal souls in the Beihai, East China Sea and Hailong fortresses outside the Imperial City , Has now been successfully beaten down. “

The old man, the old man, and the bully stared at the strong liquor and breeze.

“Impossible. How could Lu Yang run to the Sea Emperor City? It took at least 4 hours. How could he do it?” Chi Mu said.

Liquor Qingfeng sighed and said, “Just now, the boss of Zhantian Guild announced that the Zhantian Guild was dissolved and formally merged into the Brotherhood of the Iron Blood.

Lu Yang used Zhou Tianming’s fortress to instantly transfer 220,000 people to the Juliuhe Fortress. The eternal main force of the soul is here. He lays down the three fortresses almost like Bai picked up. “

Xiongba’s anger came to his heart, and he didn’t speak for a long time.

Guild bosses such as Lei Long and Li Siyu shook their heads and sighed.

The old man in the twilight sighed and said, “Lu Yang has made a lot of money this time.”

Xiongba grinned and said, “Yeah, the eternal main force of the soul has now become rootless duckweed, and can only stay at the Blackstone Fortress. Even if I would let him go out, he couldn’t believe that we were busy for a long time. I made a wedding dress for Lu Yang. “

Regarding Lu Yang’s move, Xiongba and Chiwu have no trace of resentment against Lu Yang, and some just admire and fear.

“What now?” He asked.

Liquor Qingfeng said: "Look at the live webcast, Lu Yang has publicly called the eternal soul on the Internet. To fight against it, the most famous game host of the" Second World "Meteor Flying Fire is broadcasting live. Now Lu Yang's team from Hailong Picture of the fortress leaving for the emperor city."
"

Late evening immediately opened a webcast to cast a screen.

In the picture, Lu Yang rides the Red Flame Lion King and walks in front of him, with the muddy wine pouring, Bai Shixiong, Xia Yuwei, bitter love half-life, Sun Yu, Jiang Ze, Zhou Tianming and countless players towards Marching towards the Imperial City.

In the picture of the host at the bottom left, Meteor Flying Fire is talking about Lu Yang's troops.

"Brothers, the decisive battle, Chairman Lu Yang of the Iron Brotherhood is leading 250,000 players to the Sea Emperor City. He has already submitted a guild battle application to the Shenwu Tribe, and the Shenwu Tribe is gathering outside the East Gate of the Sea Emperor. There are already 150,000 people."
"

Meteor Flying Fire said.

Blackstone Fortress head.

Divine soul eternal and Wang Teng and others are watching this video.

"No, I will immediately take my men back to the Emperor's City. With the 220,000 people alone, we will definitely not win Lu Yang." Said the soul eternally, he was already confused and sweaty.

Wang Teng said coldly, "Do you take these 50,000 people back to win? Don't forget, Lu Yang now has at least 20,000 sets of gold equipment. Your 50,000 people have less than 1,000 people with gold equipment. Going is the same as sending death. "

"Then the fortress I laid down so hard?" Asked the spirit, staring eternally.

Wang Teng sighed, knowing that persuading the spirits to be eternal now is useless, and said, "Well, I allow you to go back, but what to do outside?"

Under Blackrock Fortress.

Xiongba shouted, "I ask for negotiation above."

Immortal immediately ran to the city and shouted, "Talk about something."

The bully saw a smile on the mouth of the eternal spirit and said, "I know your fort has been snatched. If your eternal spirit wants to go back and recapture the fort, I will make a way for you to go back."

"What are you talking about?" Asked the eternal spirit.

"Of course it is true. You are gone. It is easier for me to fight the fort." Xiongba said sarcastically.

The spirit looked back at Wang Teng forever.

Wang Teng couldn't say anything, so he nodded and said, "Yes, you can make the team first. After finishing the team, you can go east."

The spirit nodded eternally and went to the team.

At this moment, for the first time in these days, Blackstone Fortress was so peaceful. Both the city heads and the city heads opened channels to watch the live broadcast.

In the video.

Lu Yang's 250,000 players have come to the Dragon's Breath Plain outside the Sea Emperor City, and face off 500 yards from the 200,000 people gathered by the Shenwu tribe.

The white lion, the muddy wine, and the half-loving half-life with the anti-riding and carrying the gold-level magic steel shield on top.

On the other side, Luo Ying Duan just received an eternal call from Divine Soul, and said to Xuan Hai and the three army chiefs, "The boss said, try to delay time as much as possible, and he is gathering 50,000 men to rush back."

Xuan Hai pointed at the Brotherhood of Iron and Blood opposite him and said, "It's all the time, the war is about to start, we either retreat to the Sea Emperor City to be a tortoise, or fight with Lu Yang. Impulsive, aren't you trying to find your own way? "

"This is what the boss said, what can I do." Luo Ying Duan said.

Longdie said: "I suggest fighting with them first to see if the Brotherhood of Iron Blood is as strong as outside rumors."

His Holiness Baihu said: "I also agree to fight first, no matter how hard it is, even if they change one before the other, they are worth it. Anyway, all of us are more than 20 level people. Fighting the opposite, we are suitable, they are not suitable. "

Luo Ying Duan said, "Okay, then hit."

The voice just fell.

Above the battlefield, the three brothers in the Jagged Brothers Alliance pour muddy wine, the white lion and the half-loving half-life held up their right hands and shouted.

"Iron Brothers Shield Riders ~ www.mtlnovel.com ~ Go forward!"

“Kill ~!” Ten thousand anti-riding shields roared in unison, and the three men holding up their shields moved forward.

Players from the Battle Heaven Guild, such as Zhou Tianming and Zhou Tianyan, could not help but see their blood boil.

“Brother, tell the boss, let’s join the war.” Zhou Tianyan said.

“Yes, boss. Since joining the Jagged Brotherhood, there can be no wars that prevent us from participating.” His men said.

Zhou Tianming said: “I also want to participate in the war, but the boss said that we just docked with them, we can’t cooperate for the time being, let’s wait for the general attack of the army to launch an attack from the flank.”

Zhou Tianyan and a group of men were relieved. A group of people looked at Lu Yang and couldn’t help but sigh. They couldn’t understand how the Iron Brotherhood did this. At least, none of the guilds in Haihuang City was so neat. Battle formation.

Where do they know that this battle array was forced by bloodthirsty tyrants and black blood? Lu Yang knew the battle array before, but wanted to make 10,000 players in the game think the same as you. Do it’s impossible to be as commanded by an arm.

However, there was oppression of bloodthirsty bully and black blood. In order to resist them, Lu Yang and his men really did this.

Looking at his neat team, a smile appeared on the corner of Lu Yang’s mouth and said, “Xiao Liang, are you ready?”

The hammer in Xiao Liang’s hand struck the shield with a heavy muffled sound, saying, “Boss, you can say, I can attack at any time.”

Lu Yang said, “Very well, have you spotted the three legionnaires on the opposite side and killed me?”

Xiao Liang suddenly surged in blood, without waiting for him to use the ancient demons to transform himself, the ancient demons in the form of demons automatically covered Xiao Liang's body.

In a blink of an eye, Xiao Liang became a 3-meter-tall, blood-red giant.

Chapter 410 - Forbidden flying

Xiao Liang roared, and Zhuoju poured himself behind him, jumping out, riding a red flame lion towards the command tower where the three men in Xuanhai ran, and at the moment he ran out, Zhuoju poured an additional Xiao Liang Skill-Redemption: Immune to magic for 1 minute.

Luo Ying Duan and Xuan Hai were discussing the countermeasures, and suddenly they saw a player rushing over on a lion.

"Strange, what is the boy doing, singled out?" Xuanhai asked.

"It's really looking for death, the archer unit. After entering the range, he gave me a second." Longdie said.

"Yes." 1,000 archers aimed Xiao Liang.

400 yards

300 yards

...

100 yards

When Xiao Liang ran into a range of 30 yards, 1,000 archers fired arrows at Xiao Liang at the same time.

Countless bows and arrows blasted towards Xiao Liang. At this moment, Xiao Liang showed a sneer on the corner of his mouth, launched his jumping skills and jumped into the front row of the shield battle team of the Shenwu tribe while jumping across all the arrows. among.

“Hello ~”

Xiao Liang roared, and players who were preparing to attack within 30 yards of them all forced physical attacks on Xiao Liang.

Red blood mist spins and flies.

“唰”

“-3867”

“-3749”

...

On the first spin, the shooter and mage died.

On the second spin, the Shield team died.

Xiao Liang said with a finger to Luoying Dusk and Xuanhai, saying, “Boss said, you three, **** it!”

After speaking, Xiao Liang ignored the attacks of the players around him, and hurriedly rushed towards the evening shadow.

“Kill him, kill me.” Luo Ying was so angry that he didn’t expect anyone to be so crazy.

The players of the Shenwu tribe are even more angry.

“It’s arrogant to enter our siege.”

“Brothers go together.”

Countless players of the Shenwu tribe rushed towards Xiao Liang. No one cared about Xiao Liang’s killing skills. They all thought that it was Xiao Liang’s special skill. It took several hours to launch it.

However, just when their weapons and skills hit Xiao Liang.

“-1”

“-1”

...

“Boom”, the red blood mist rose, and more than 200 players within 30 yards of Xiao Liang’s side died instantly.

The built-in cd is less than 0.2 seconds of red mist whirlwind, as if there is no cd, spinning around Xiao Liang crazyly, the faster the surrounding shooter attacks, the faster Xiao Liang turns.

In less than 20 seconds, Xiao Liang killed more than 2,000 players, and Xiao Liang's health was less than 500 points at this time.

Luoying Dusk, Xuanhai, and others have all looked dumbfounded. They have never seen such a powerful player and can't help but be stunned.

Xiao Liang was running towards the four of them, and found that the three of them were 30 yards away from him, and his jumping skills had cooled down.

“jump”

Xiao Liang jumped up and jumped among the four.

“Hello ~!”

Xiao Liang launched the Red Mist Bloodthirsty, and players within 30 yards forced to attack Xiao Liang, including Falling Twilight and Xuanhai, Dragon Butterfly, and White Tiger.

“唰”

“唰”

Two red mist whirlwinds flashed across, and the falling shadows fell to the ground at the same time.

died!

The red mist dissipated when the players of the Shenwu tribe saw all four of their commanders dead.

be quiet.

Deathly quiet.

It lasted for 30 seconds.

With a bang, the players of the Shenwu tribe were completely confused. How could they have never thought that one such player rushed into their army and killed their four bosses among 200,000 players.

Originally there were no masters, and now such a thing has happened, the player confidence of the Shenwu tribe has been greatly hit.

On the battlefield.

Not only were they scared, but the players participating in the Battle Heaven Guild where Zhou Tianming was also stunned.

“Brother, who is that person and what career does he transfer to? This is too strong, war machine.” Zhou Tianyan asked.

Zhou Tianming sighed and said, “Fortunately, we sold the guild to the boss in advance, otherwise, in less than two months, we have to worry about this monster who doesn’t know what profession.”

Zhou Tianyan and a group of helpers behind him started to look at Lu Yang, who was sitting on the back of the Chinese Army Red Flame Lion King.

Lu Yang watched with satisfaction when Xiao Liang ran back from the opposite army formation, and issued an order saying, “The entire army advances 300 yards.”

“go ahead.”

The three men with muddy wine pouring, the white lion, and the half-loving half-life held up their shields, neatly led the team forward, and shouted as they walked.

“1”

“2”

“3”

...

“300”

“Boom”

Ten thousand shields smashed into the soil neatly.

“Kill ~!” The 190,000 members of the Brotherhood of Brotherhood shouted in unison, and the voice shook the entire Sea Emperor City.

At the gate of the city.

The bosses of several imperial grand guilds in Haihuangcheng are watching the teams on both sides.

“Hey, this time, some of our brothers have to discuss carefully, maybe they can grab another fortress together.”

“Agree, we had no way before the eternal family of Divine Eternal Spirit. Now we have another Lu Yang, and our opportunity is here.”

As soon as the words fell, 190,000 people shouted the words of rushing into their ears, scaring them to look into the field in horror.

“Iron brothers, how did they do it.” A guild boss said in horror.

The people who manage the guild know that it is harder to reach this point than to get to the sky. Because this is a game, so neat and so imposing, it is completely everyone who sends out this killing roar from the heart.

This proves that the players of the Jagged Brothers Alliance have extremely high warfare!

“Let’s take a look first. If their strength matches the war intentions, a few of our brothers don’t want to grab any fortresses.” A fat-faced guild boss said with a mockery.

The other presidents nodded together.

On the court.

Lu Yang saw that the Shenwu tribe was in chaos and issued a command: “Frost Frost, Time and Space Masters, and Fire Law Hundreds.”

Frost Army, 20 ice transfer masters who know the secondary forbidden spells of ice roar and frost ring.

Time and Space Master Group, 10 transfer masters who know the secondary curse space cutting and storm of space and time.

Fire Law Hundreds, 100 Meteor Fire Rain Fire Masters who understand the secondary ban curse.

The white wolf scratched his head and said, “Boss, isn’t it too fierce, leave some meat for our brothers. Their secondary forbidden spells will be beaten down, and the 200,000 people across will not even be able to run back to the main city.”

“You fought this battle. Now I just want to let the people in Haihuang City know how rich my family is in Luyang.” Lu Yang patted the shoulder of the white wolf and issued an order saying: “First time Offensive, 20 fire methods simultaneously release meteor fire rain. “

“Yes.” Hei Yan directed 20 mages to stand alone every 100 yards, standing in a line behind the Paladin shield, and spelled out in their mouths.

Level 2 meteor fire rain, attack range of 100 yards, 20 mage release attack range reached 2000 yards.

Thirty seconds later, as the evening twilight and Xuanhai and others ran to the east gate of the Sea Emperor City, dark clouds rolled in the sky.

“Meteor Fire Rain” 20 mage at the same time with one finger forward.

Among the dark clouds, countless fire meteors descended from the sky, covering the 2,000-yard-long position in the middle of the Shenwu tribe.

“It’s a secondary forbidden spell, run away.”

“Mage adds blood. Add blood.”

“Hold on, don’t run, be careful to attack the opposite.”

Lack of command left chaos in the middle of the attack on the Shenwu tribe.

Lu Yang did not take advantage of the attack, and continued: “2000 yards on the left, the second wave of 20 ice mage prepared.”

“Yes.” Han Liu directed.

The meteor fire and rain did not wait for the end, the ice roar of 20 ice mage swept the position of 2000 yards on the left side of the Shenwu tribe.

“10 space mage, 2,000 yards on the right.” Lu Yang said.

“Yes.” Lan Yu directed.

Along with the golden and blue rays of meteor fire rain and ice roar, a ray of purple flashed over the range of 2000 yards to the right of Shenwu Tribe.

“Space Cut”

Countless space cracks appear in the purple * domain, and each player takes away a person’s life.

Sea Emperor City Head.

“So many secondary forbidden spells, how many wizards have to understand the secondary forbidden spells.” A slender president sighed.

“I checked. There are 50 people in total ~ www.mtnovel.com ~ This is not counting the 80 people who haven’t come out of the back team.” The fat face said helplessly.

“What else is going on, even if you grab the Iron Fortress fortress, the 50 forbidden spells will be able to blast us out of the fortress the next day.”

Everyone felt tired and crooked.

The position of the Shenwu tribe was completely disrupted by three consecutive forbidden attacks. Lu Yang was about to continue to order the attack. Suddenly, he received a message.

Lu Yang said to the white wolf around him, “Take your beast army and give me their team.”

“Yes.” White Wolf ran back to his team with excitement and shouted with the two white tigers: “Meng Beast Army, kill ~!”

More than 7,000 full-body gold equipment and 13,000 silver-equipped 30-level paladins and warriors smashed the acceleration scrolls and attacked the left side of the Shenwu tribe with 100% movement speed.

Lu Yang sent a message to Zhuo Jiu and said, “Take the troops to attack.”

The turbid wine roared with excitement, stood up, held the shield in his left hand, raised his sword in his right hand, and shouted, “Brothers, attack the whole army.”

20,000 players above level 30 rushed into the Shenwu tribe’s team under the command of turbid wine pouring.

One side is a defender of more than 20 levels of chaos, and the other side is a violent battle and punishment cavalry headed by a 30-level body with gold.

Immediately after the two sides ended, the Shenwu tribe players who had been on the verge of collapse completely lost their fighting spirit, and no matter how the three of the falling shadows and Xuanhai could not stop them, they all ran to the Sea Emperor City.

The white wolf and the muddy wine dumped the two troops to chase after each other, and they have always entered the Imperial City.

Xia Yuwei said, “Boss, when are we going?”

Lu Yang looked at the time and said, “It’s time you got on the field, get ready, we’ll return to the Fortress of Thunder.”

“Fenglei Fortress?” Xia Yuwei asked.

Chapter 411 - Yueling River

“This hegemony is really not a thing, and Wang Teng is willing to let it go?” Xia Yuwei said with a lightly embroidered eyebrow.

Lu Yang said with a smile: “Wang Teng has been snoozed by us now, where do I know how to do it?”

“I’ll accompany you back. I don’t need so many people here,” Jiang Ze said.

Sun Yu said, “I’ll take the team back.”

Xia Yuwei said, “I will go back, too.”

Lu Yang nodded and said, “Okay, the three of you will lead the team back to the Fortress of Thunder and Thunder, and I will be there later.”

“Yes.” The three nodded in agreement and greeted the troops.

Lu Yang explained this to Duanjiu and others, and finally ordered: “The three of you contracted your troops and withdrew from the Imperial City. Do n’t let your subordinates be killed by npc because of the killing. The upgrade is not easy. We want to keep this The three strongholds need to be at their best. “

“Yes.” The dull wine pours, the white lion, bitter love half-life and Zhou Tianming agreed.

Lu Yang stopped talking nonsense after the explanation was over. All the legionnaires under his command are well-known masters in the game. He doesn't need to say more to know what to do.

"Hei Yan, take the Fire French Hundreds with me to Fenglei Fortress." Lu Yang said loudly.

"Good boss." Hei-Yan greeted, took out his fortress with his men, returned to the city, and flew to Fenglei Fortress.

Lu Yang clicked to teleport back to the inner city of Fenglei Fortress, Han Ying and Mu Yu were waiting.

Han Ying said, "Brother, the eternal army of spirits is advancing towards the Yueling River. They are going to forcefully cross the Yueling River and escape the Storm Fortress to flee to the Sea Emperor City."

Lu Yang cast a screen on the ground to find the location of Yueling River. It is 2 hours away from the Fenglei Fortress, with a mountain range in between.

"The soul is eternal, this is your own death, no wonder others." Lu Yang punched the ground with a punch and said, "Follow me."

Came to the wall.

Xia Yuwei, Sun Yu, and Jiang Ze have already organized their troops outside the city, a total of 110,000 people, including 100 fire magic hundred people who can release the curse.

"The whole army set off, and everyone followed me." Lu Yang jumped out of the city, waved his hand, and led Xia Yuwei to the cold wind canyon.

Xia Yuwei saw the part between the Thunder Fortress and the Sea Dragon Fortress where Lu Yang went, and asked curiously, "Boss, where are we going?"

Lu Yang said, "I have been detected by the eternal army of souls. They want to walk on the Moon Spirit River, and I will take you to take a shortcut."

Jiang Ze said with a smile: "The soul eternal is dead this time."

Lu Yang said, "He is still a rich man with peace of mind. The money that Liu Jie gave him is enough for him to live well in the second half of his life."

The Cold Wind Canyon is a 20-level map. Lu Yang ran from the 30-level map to the 20-level map and then went to the 30-level map of the Moon Spirit River. It seemed far away, but the eternal spirit was farther away.

The spirit eternally takes a large circle from the Moon Spirit River in front of the Black Stone Fortress and runs for three more hours.

An hour and a half later.

Lu Yang drove the entire acceleration scroll and led the team to the opposite side of the Yueling River.

Taking advantage of the eternal absence of spirits, Lu Yang said to the 110,000 people behind him, "I told you all before that every time you fought in the war, you will own everything, remember."

110,000 people were excited when they heard Lu Yang's words, "Remember."

Lu Yang said: "Very well, I have no other advantage, that is, to talk and talk, and to destroy the eternal spirit for a while, you own everything you own, the same as the Guild."

"Boss mighty." Everyone shouted in unison.

Lu Yang said: "Let's go to ambush, remember not to say anything. If we fail, we will come here for nothing."

“Yes.”

Xia Yuwei, Jiang Ze, and Sun Yu were originally worried that someone could not keep exposed. As Lu Yang said, the three were no longer worried.

Even if there is no gold equipment in the soul-eternal team this time, all of them are level 20 silver equipment. According to the market price, a piece of equipment and weapons can sell 50 to 200 credit points.

There are too many players in “Second World”. There are very few casual players who can play epic copies to obtain level 20 silver equipment. Level 30 gold equipment is not popular among players due to level reasons.

Therefore, the silver equipment of level 20 is just in the most in short supply, and players can sell it after changing hands.

Everyone can earn at least several hundred dollars in a battle, and no one is unwilling to do it.

quickly.

Xia Yuwei, Jiang Ze, and Sun Yu arranged the team to return to Lu Yang and hide together in the grass.

Under the night, the Yueling River returned to a state of tranquillity, and only the flowing water made a rapid flow.

After 20 minutes.

On the north bank of the Yueling River, a noisy running sound was heard.

Twenty thieves appeared on the river bank.

“The boss told us that the way is right, there is really a river here,” said the thief leader Qingshan thief.

“Should we swim across the river and take a look?” The thief asked reluctantly.

The other 20 thieves did not speak, and the Yueling River flowed very fast, and it was very deep, and the bottom of the river could not be seen at a glance.

“Second World” simulation, if the player can not swim, it will be drowned.

The Qingshan thief said to Yin Ren and the six other thieves, “Let’s swim over and see.”

Yin Ren cursed himself for talking, swam toward the other side of the river in the uncomfortable eyes of his companion, but immediately after he was off, he was lost by the turbulent river.

The Qingshan thief reached out his hand lightning fast and grabbed Yin Ren, pulling it up.

“Huh, it’s really dangerous, thank you Boss,” said Yin Ren after being afraid. If he died here, he would have to run again if he wanted to return to the Imperial City, and he would also be separated from the large troops.

The Qingshan thief said, “They are all companions. It should be. I do n’t need to look at the river to see the speed of the current. Because some of us have no strength to cross the river, only big troops are coming. Hand to pass collectively. “

Yin Ren nodded and said, “There are no footprints on the river bank. You can be sure that no enemies have come. We are already done.”

The Qingshan thief nodded and sent a message to the spirit to eternally explain the situation.

On the south side of the river bank, Lu Yang and Xia Yuwei and others faintly heard their conversation, and couldn’t help but smile.

Xia Yuwei quietly sent a message to Lu Yang and said, "Boss, this is a great move."

Lu Yang gave a proud look and replied: "The spirit is eternally good. In this case, it is known that more than 20 people are sent in front to explore the way. Most people can't do it, but you remember, the sent out reconnaissance troops. , Must be the best and most enduring players under their own hands, this group of people sent by the eternal soul are all waste. "

Xia Yuwei, Jiang Ze and Sun Yu nodded together.

After another 10 minutes.

The dense footsteps on the other side of the river sounded, and Eternal Spirit took 50,000 players to the north side of the Moon Spirit River.

"Boss, we can only track here, the other side of the river can't get through," Yin Ren said.

Divine spirit frowns eternally and says, "Will you think of a way if you can't get over it? It's hard. Forget it. It doesn't make sense to say these now. One crosses the river. "

There is too much time to consider the eternal spirit, and every time a minute is wasted, his men outside the city of the emperor often have thousands of people.

After getting the report from the three people in Falling Twilight and Xuanhai, Shenhun Eternal felt the coldness of his back for the first time. He did not expect that Lu Yang had such strength. His 220,000 people were in front of Lu Yang 's 260,000 people. There was no fight back.

In order to quickly restore his credibility in the Sea Emperor City and to regain the fortress, the soul must return to the Sea Emperor City tonight, otherwise, all three months of hard work will be completed.

Che Yu heard that Lu Yang's arrangement immediately brought a heavy armored warrior and knight to form a human wall. Heavy armored players had the largest weight. In a relatively shallow area, a group of ten people could stand in the water.

Soon, a 10-person-wide wall was built in the turbulent river water, and Cheyu took the first 20,000 players to cross the river.

Yin Ren originally wanted to get the eternal praise of the spirit soul, so he grabbed the report in front of the Qingshan thief ~ www.mtlnovel.com ~ and was scolded. He followed the team across the river uninterestingly. Eternity apparently scolded them together.

According to the regulations, after crossing the river, Yin Ren and Qingshan Thieves should have gone to the front to explore the road immediately, but these 20-odd thieves had no mood at this time, sitting at a place 50 yards south of the river to rest.

The nearest thief to Lu Yang was only 20 yards away from him, but Lu Yang was lying in the grass on the bank of the river.

Xia Yuwei saw that 20,000 players across the river had crossed the Yueling River, and sent a message asking, "Did you hit?"

Lu Yang shook his head and replied: "Wait a second."

Across the river.

After seeing the success of crossing his river, the spirits frowned and said to the thief, "There is no ambush in front of the enemy."

The Qingshan thief said, "Boss, as soon as we crossed the river, we went to check after a break."

The spirit was eternally stunned. He did not expect that the Qingshan thief dared to speak to him like this. Obviously, because the three fortresses were lost at the same time, and he was so embarrassed in the black stone fortress, his position in the hearts of his men was greatly affected.

"Brother, this is not the time to rest. We want to return to the Sea Emperor City. It depends on your thief team to explore in front." The spirit and eternity had to whisper and talk to the Qingshan thief.

The Qingshan thief got out of his anger, and said to the thieves, such as Yin Ren, "Get up, let's continue to explore."

Yin Ren waited for someone to stand up lazily, scolded and walked deep into the grass.

Lu Yang looked at the gradually approaching thief Yin Ren, and looked at the more than 20,000 troops that the eternal spirit had crossed the river, and stood up from the grass.

Resolutely watching the dark shadow that suddenly appeared in front of him, he said, "Who are you?"

Chapter 412 - Siege

The burning fireball slammed into the head of Forbearance.

“嘭”

A burst of fire lit up and stood out in the night.

“6987”

Yin Ren's blood volume is only more than 4000, and was immediately sent back to St. Gall by Lu Yang!

Che Yu was in charge of the team by the river bank, feeling the fire behind him, looking back in horror, just to see nearly a thousand rounds of flares falling on their side, the entire river bank was illuminated by the lights.

“Who? Who are you?”

A gust of wind scattered the dark clouds, revealing the solemn faces of Lu Yang and 110,000 players.

Lu Yang arched his hand and said, “Iron brothers Lu Yang, I have been waiting here for a long time, please call me.”

Jiang Ze pulled out the messenger and shouted, “Brothers, kill me.”

110,000 people in a team of 20 people, madly rushed to the 30,000 people Che Yu just gathered.

Lu Yang said to Hei Yan behind him: “A group of 20 people, release meteor fire rain.”

“Yes.” Hei Yan turned to look at the Hundreds of Firemen behind him and shouted, “The second squad is out of line, meteor fire rain, attack.”

Twenty members of the Fire Hundreds Regiment walked out of the queue and read the spell in their mouths. Thirty seconds later, the 20th Heiyun shrouded the Shenwu tribe player within 2000 yards of the south bank of the Moon Spirit River.

Groups of fire meteors struck the night sky and fell into the ranks of Shenwu tribe players.

Jiang Ze has just been connected with the short soldiers on the opposite side. The 30,000 players almost killed all the secondary injunctions for a moment, and those who did not die jumped back to the river.

The eternal spirit stood on the other side of the river, watching the flying curse and his slain hands. He almost fainted, and shouted madly: “Retreat, all back, all in the river retreat, quickly Bring it back. “

You do n’t need to cry forever, you ’re crossing the river and you are desperately going back, but the turbulent water of the Yueling River is so easy for them to run back.

Just when most people were halfway through, Lu Yang came to the shore with Hei Yan and the remaining 60 fire methods.

“A group of 20 people, meteor fire and rain, aiming at the enemy in the river, killing.” Lu Yang said lightly.

Hei Yan nodded and shouted, “The third group of meteors are preparing for the fire and rain, and the targets in the Moon Spirit River will be covered and attacked.”

Twenty transfers of fire spells spell out at the same time.

The players in the river went madly towards the north bank of the river. However, so many people escaped unorganized. In 30 seconds, they swam the shortest distance of less than 20 yards. At this time, the curse was banned. Arrived.

Fireballs fell from the dark clouds and fell into the river. More than 10,000 players in the river were almost wiped out, and only a few dozen players escaped by chance.

The soul looked at Lu Yang eternally, and his eyes were full of anger, and he said excitedly, “You are so cruel.”

Lu Yang smiled and arched his hand and said, “Chairman Divine Soul. Since you are involved in the game of hegemony, don’t blame others for being ruthless. We are here in Japan. Please take the team back to the Black Stone Fortress. I have Lu Yang in one day. You 50,000 Do n’t even think about returning to the Imperial City.”

The spirit and soul looked at Lu Yang’s indifferent expression forever, and almost hated to faint. He pointed to Landing Yang and said, “Okay, okay, okay, let’s come to Japan, you remember, today’s shame, my spirit will be doubled forever.”

First he was robbed of three fortresses by Lu Yang, and now his main force was killed by Lu Yang again on the bank of Yueling River and he could not return to the Sea Emperor City.

The most annoying thing about Jiang Ze is that when the opponent can't fight you, he speaks harshly, and then runs away, pointing at the spirit and eternally cursing: "Hurry up, or you will be blocked by Lao Tzu for a while.

Lu Yang, Xia Yuwei and others were all happy.

"Brother, you are less virtuous than me. I didn't think of this trick, but it is very appetizing to me." Lu Yang said.

Everyone laughed.

Xia Yuwei rolled her eyes. Obviously, this method is really lacking in morality, but it can really be done with the strength of the Brotherhood.

The spirit of eternity did not dare to say another nonsense, and quickly took out the city roll and flew back to St. Gall, and behind him, Han Sha, Han Yu, and Han Meng were holding a dagger and waiting.

As long as Lu Yang gave an order, any one of the three of them could kill the eternal spirit in an instant.

However, until the spirit retreated eternally, Lu Yang did not give an order. In Lu Yang's view, it is more useful to keep Han Sha at this time to expose them.

"A few of you go back to the city to see the eternal next move of the soul." Lu Yang said.

"Yes." Han Sha and others took out the return roll at the same time and flew back to St. Gall.

Xia Yuwei asked: "Are we going back now?"

Lu Yang said: "No hurry, let the kids pick up the equipment first, and then we will move on."

On the shore and in the river, countless silver and gold equipment, as well as various pharmaceutical materials, 110,000 players have rushed in and started to compete.

On the other side.

Outside Blackstone Fortress.

The guild bosses such as Xiong Ba, Chi Du, Lei Long, and Sisiyu saw the helpless expressions of the videos in which the Shenwu tribe was dumped by the muddy wine, Bai Xi Sanxiong, and bitter love half-life.

“This is Lu Yang’s three legions, and three legions can be done like this without dispatching, alas.” Said the old man with a sigh.

The silk language said: “It’s four legions, and now it’s time to add Zhou Tianming’s Battle Heaven Guild. That’s a large 100,000 guild, and there are 60,000 players who can participate in the battle.”

Huoguang asked: “How could Lu Yang be able to acquire Zhou Tianming’s guild, and where did he get the money?”

Chi Mu said: “Maybe we were all fooled by Lu Yang. In fact, there is a big gold master behind this boy who supports him.”

Xiongba nodded and said: “This is very likely. I suspect he secretly used the two strongholds as capital to find some big angel funds to invest in him.”

“This time we are really busy. Now Lu Yang is sitting on 6 fortresses, and has 500,000 players, making him the truly largest guild.” Lei Long said.

“Not necessarily. As long as the soul can return to the Sea Emperor City forever, Lu Yang can’t be stable there. As long as we get back to the fortress and talk to Wang Teng and destroy Lu Yang together, there is hope.” Xiongba said.

The old man in the twilight nodded, just about to agree. Suddenly, the spirits breeze ran over and said excitedly: "No, the eternal 50,000 troops were attacked by Lu Yang on the Yueling River, only less than 1 Thousands of players fled and everyone else died. "

"What?" Xiongba asked, staring at the strong liquor Qingfeng, "how did Lu Yang know that we let the spirit go back forever."

芊芊 Si quietly looked away, did not speak.

Liquor Qingfeng said: "We and Wang Teng have 300,000 people on both sides. You ask who I am, Gaomi, how do I know?"

The old man in the twilight was worried that the strong spirits and breeze would quarrel with each other, and walked between the two, saying, "In this way, to find out what the eternal 50,000 people will do is to continue to return to the Sea Emperor City, then we do not care about him. Come on our side, I will stop him, dominate you and continue to attack the city. "

Xiongba looked at the damaged wall that had been beaten, and even the city wall that had been beaten out of the south, and said, "Okay, that's it."

Blackstone Fortress City Head.

Wang Teng also watched the video and received the news of the eternal defeat of the soul. He dialed the eternal speaker of the soul and said, "Brother, don't go back to the emperor city, you can develop in St. Gall."

The eternal soul thought for a long time and said, "I am stopped by Lu Yang. I really can't go back. I can stay."

Wang Teng breathed a sigh of relief and said, "Great, then this fortress will definitely be able to hold."

The spirit said forever: "But I have a request."

“What requirements?” Wang Teng asked.

“I want Blackrock Fortress. Only if I take Blackrock Fortress will I be able to send all of my men to the Blackstone Fortress in a steady stream,” said Eternal Spirit.

Wang Teng was startled first, then asked with bright eyes: “Are you going to transfer the players of the Shenwu tribe to the city of St. Gall?”

The spirit soul nodded eternally ~ www.mtlnovel.com ~ said: “Learned from Lu Yang, since my fortress can not be maintained, and our personnel are so dispersed, then I will transfer the people of the Shenwu tribe to the Blackstone fortress, so that the defense will change. It’s simple. “

Wang Teng patted his palm vigorously and said, “Good idea, just do this. The sea emperor city can give up. As long as we lay the red fortress, all your losses will be made up for you.”

Ended the call.

Wang Teng found the Bloodthirsty Domineer and spoke about it.

The Bloodthirsty Bashou castle has been extremely tired, and he doesn’t know how long he can hold on. He already has three fortresses, more and less, and less and less. When he learns that there is an eternal pick-up, he immediately agreed. “Yes, I’ll transfer it to him.”

System Prompt: Eternal Spirit applies for gifting Blackstone Fortress to you, do you agree

A sneer appeared on the corner of the eternal soul of the spirits who were gathering outside the city of St. Gall. Clicking on the rejection, he sent a message to Bloodthirsty Batian and said, “Don’t worry, wait for my men to enter the city.”

The bloodthirsty bully reacted and said, “Your news is really good.”

The spirit smiled eternally and sent a message to Cheyu saying: "You personally select 40 thieves and sneak into the Black Stone Fortress from four directions. Tell them that as long as one person successfully sneaks in, it is a great achievement, and I will return to reward each of them 1 Million credits. "

Che Yu asked in amazement, "Don't you have to kill the Qingshan thieves and hold back them?"

The spirit sneered eternally and said, "If it weren't for a few of them who didn't listen to my order and delayed the exploration, how could we be attacked on the Yueling River? What kind of thieves would I use for them? After the incident ended, they all kicked out of the guild . "

Che Yu nodded and said, "Boss, then I'll do it."

The spirit nodded eternally and said, "Attention the whole army, we head to the Blackstone Fortress."

Chapter 413 - Domineering

There is only one way from St. Gall to the ruined ancient city.

The eternal team here has just moved, and the investigators of the Zijin Dynasty immediately reported the matter to the old man.

"Sure enough, he returned." The old man sighed, thinking that things would be much easier without 50,000 people. I did not expect these 50,000 people would return.

Xiongba stood next to him to direct the battle, and Wen Yan said: "Brother, I'm bothering you this time, and I will definitely not give you less."

The old man in the twilight said, "Rest assured, I will take 50,000 people to the ruins of the ancient city to intercept the eternal spirit, and you will fight for the fortress as soon as possible."

Xiongba said with a smile: "Rest assured, I have the confidence to lay down the fortress within three hours. With fierce vigor, the bloodthirsty tyrant sent me two streets."

The bloodthirsty tyrant players on the Blackstone Fortress have been exhausted after three days of fighting, and the tyrant is still in a state of jealousy with the enemy. In order to regain the fortress, they are desperately fighting, plus the personal charm of the tyrant. Desperate for him.

One more thing, after three days of fighting, none of the players of Bloodthirsty are still at level 30 or higher, the lowest level is also 29, and the worst is 27.

When the level 30 equipment cannot be worn, there is no advantage in playing against the hegemony. The level 27 is 25 and the level 29 is 27. Both are more than 20. The two sides only look at who is better. Obviously, except for the blue sky Compared with the elite players brought by the God of War and the elites of the bloodthirsty tyrants, the average players are compared with each other.

At this time, the brave men meet on the narrow road, only to see which side is more fierce.

Over the city.

Bloodthirsty Batian and Wang Teng are defending the city with all their strength.

"This bully is a crazy dog, I really don't know what he thinks." Wang Teng cursed.

"It's the end of the crossbow, and it's the day of jumping." Said the blue sky.

"Hey, when the spirit comes forever with the whole guild, I really want to see the expressions of the hero and the old man in the twilight," said Tianyu Ares.

Wang Teng laughed and said, "That must be wonderful."

After 10 minutes.

Che Yu personally took 20 thieves, while the two sides of the battle were resting, sneaked into the Black Stone Fortress.

Wang Teng personally handed the fortress with 100 storage bags back to the city and handed it to Cheyu.

“Boss, I got the roll back to the city.” Che Yu said to the eternal spirit who was slowly walking along the road with his troops.

The spirit of the eternal force fistled and said, “You stay inside the fortress, let others fly back to the city of St. Gall, use gold coins to transport to the emperor city, and return the fortress to the city roll and drop them to the evening twilight and Xuanhai.

If you want to transfer a fortress, the transferee must have someone in the fortress.

Che Yu said, “Okay.”

A flash of light flashed, and 20 thieves flew back to St. Gall with 100 storage bags and flew to the Sea Emperor through the teleportation array.

On the other side.

Luoying Dusk and Xuanhai and others are convening their men to gather in Xicheng District, and have now convened 120,000 people.

Zhou Tianming arranged an ear and eyes inspection in the city to detect this situation and reported it to Lu Yang.

At this time, Lu Yang was returning to the Red Fortress with Jiang Ze and Sun Yu, and Xia Yuwei was returning to the Thunder Fortress with his troops. Both sides were doing rest.

“Soul of eternity should not be so stupid, should he send someone to fight those three forts?” Jiang Ze asked.

Lu Yang opened the map and looked at it. According to the current simple information, Lu Yang couldn't guess what the eternal soul would do.

“For the time being, let's wait and see. As long as they don't come to hit our fortress, we will sit in the mountains and watch the tiger fight this time. Anyway, we all win.” Lu Yang said.

Jiang Ze laughed and said, “Brothers, we have not only won, but we have also won a lot this time. We have laid three fortresses all at once, and it is estimated that the late twilight and the hegemon are mad at them.”

Lu Yang said, “Of course, they haven't counted me for such a long time. They must be happy.”

To say that the most unpleasant person in the heart is not the hero, but the old man in the twilight.

After making a profitable business for a lifetime, after entering the game, the old man found that he was doing business at a loss, especially this time to help the bully.

I thought it was a good business, but in the end, I didn't help understand it. On the other hand, Lu Yang won three fortresses by the effort of their fight.

“Well,” the old man sighed uncontrollably.

The Hidden Knife, Brew Breeze, Luo Siyu, and Silver Wolf are walking behind the old man with a large army. When they see him sigh, the four look at each other.

Hidden Knife said: "Brother, if the ultimate goal of the eternal soul is to support the bloodthirsty domineering, we may have a fierce battle."

The old man in the twilight looked at the ruined ancient city in front of him and said, "It's the same thing that I worry about. Forget it, let's ambush first and see if I can ambush the soul forever."

The crowd nodded and took their teams to ambush.

After half an hour.

The spirit was eternally leisurely and took 50,000 hands down to the gate of the ruined ancient city. Just now, the bloodthirsty battalion sent 50,000 troops to his 50,000 troops to return to the city.

Looking at the ruined ancient city in front of the ruined scene, the spirit eternally exclaimed, "Chairman Twilight, can you show up with the team, brother, I started the ambush, and your ambush has been seen by me."

The old man in the twilight guessed that he couldn't hide the eternal spirit, and stood up on the second floor of an abandoned house 50 yards away from him, and said, "Brother of the soul, since you can see through it, let's let the horse come. I am absolutely Won't let you pass. "

The spirit shook his head forever and said, "Chairman Twilight, I didn't want to pass by you, I just came to tell you something."

"What is it?" The old man asked.

"You retreat, the hegemon will be defeated very badly this time. It doesn't make any sense to help him," said Eternal Spirit.

The old man in the twilight sneered and said, "How is it possible that the Bloodthirsty Domineering has been teetering, and we can lay the fortress in a maximum of three hours. Where can you be confident?"

The spirit said with a smile, "If I tell you my confidence is the 120,000 troops under my control."

The old man's smile froze on his face and asked, "What do you mean by that?"

The spirit eternally watched the fortress transfer application sent again by Bloodthirsty Batian and said with a smile: "I mean, Blackrock Fortress is mys."

As soon as the words fall, the soul will click forever to accept the transfer.

System prompt: Control of the Black Stone Fortress belongs to the Shenwu tribe

The 120,000 Shenwu tribe players who gathered in the Sea Emperor City were originally down to the extreme, but this sound reminded them to open their eyes with excitement.

Luoying cried loudly at dusk: "Spirit Boss has won the Black Stone Fortress, brothers, follow me to support the Soul Boss, we go to the Black Stone Fortress in St. Gall."

120,000 people under the command of their respective team, unified use of the fortress back to the city roll and flew into the Blackstone Fortress.

They are fighting hard, and almost no fighting spirit bloodthirsty players see the 120,000 reinforcements in the Blackstone Fortress, and their faces are full of expressions.

Xuanhai, Dragon Butterfly, and Lord White Tiger raised their weapons and shouted, "The whole army counter-charges and kills the hegemony."

"Kill ~!" 120,000 people were divided into three groups, and they rushed out of the three city gates under the leadership of the three, as if they were crushed, and they overwhelmed the male tyrant who was also at the end of the crossbow.

Looking at the sudden emergence of the enemy, the bully said in horror: "Where did these people come from, where did they come from?"

The old man in the twilight dialed the bully phone and said excitedly: "Quickly take your people to retreat, and the Bloodthirsty Batian Fortress will be given to the eternal spirit. His 120,000 troops will soon enter the fortress."

The bully was stunned and said, "It's late, they've already played."

The old man sighed heavily, looked at the spirit in front of him and said, "Sooner or later, you will be unlucky."

Divine spirit said forever: "I can't help it. I have just been defeated by Lu Yang. If I don't need a victory to encourage my morale, what can I do?"

"Is that sacrificing the hegemon?"

The spirit said forever: "Apply the words that Lu Yang and I said. Since you participated in the game of hegemony, don't blame others. I lost all three fortresses. This kind of blow was able to withstand. The male hegemon was just lost. If a fortress can't bear it, then he is not qualified to participate in the hegemony in this game. "

The old man in the twilight wanted to refute, but he knew that the spirit was right.

"Forget it, since this is already the case, let's not fight either, I will return to Huayu Fortress with someone."

Divine spirit eternally smiled and said, "Chairman Twilight, isn't it boring to do this? Let's talk about the next cooperation ~ www.mtnovel.com ~ cooperation?"

"Of course." Shenhun looked at the direction of Haihuangcheng forever and said, "Do n't you and Xiongba want to get revenge on Luyang? If Luyang hit my three strongholds, I would bring 120,000 people to fight with Xiongba ?"

"You want to work with us to fight Lu Yang's fortress?" The old man asked.

“Yes, the Storm Fortress belongs to you, I will return the Bloodthirsty Domineering to the Red Fortress,” said the spirit forever.

“The deal, I’m going to find the bully.” The old man with an arch of hands, flew back to St. Gall with 50,000 people.

Xiongba was hiding in the president’s office of the guild office at this time. How could the elite players such as Qu Wuyi and Huanfeng persuade Xiongba not to open the door.

The old man Chi Wu couldn’t contact the bully. He found the situation without knowing Qu. He came to the office door and said, “Brother, open the door, I have something to tell you.”

Inside the room.

Xiongba said bitterly: “Brother, I am sorry for you this time. Regarding compensation, I will send someone to fight you as soon as possible.”

“Money is a trivial matter. I just talked to me forever.” The old man said.

The bully’s face changed suddenly, and he punched angrily on the table and asked, “What does he want to talk about.”

The old man in the twilight said with an expression of hate for iron and steel: “Brother, at this time you still have anger, he discussed with me about attacking Lu Yang. He wants to share Lu Yang’s fortress in St. Gall with us. How about the stronghold? “

The hegemon is not a stupid person. After turning his head, he can understand that there are more than 400,000 people who can join the war with the old man of the twilight, Lei Long and others, and about 350,000 people who are under the control of Wang Teng.

If the two parties do not fight, they will fight Lu Yang together, and Lu Yang will absolutely not have the ability to fight back.

The office door opens.

Chapter 414 - 2 squares and

The old man in the twilight slaps his shoulder excitedly and says, "Brother, you can do it right. This is a battle for hegemony. We and Lu Yang or Wang Teng don't need to talk about their feelings, it is a game."

Xiongba nodded and said to Qu Wuyi and Huanfeng: "Order my men to go offline and rest. I will give everyone a subsidy when I go online tomorrow and tell them that who follows me will not treat any of them."

Qu Wuyi and Huanfeng finally breathed a sigh of relief. The two looked at each other and said excitedly, "Yes, let's do it."

The bully looked at the old man, and asked, "What does the eternal soul mean? What do he think?"

The old man said, "At present we have been fighting together for such a long time. There are almost no players above level 30. The eternal spirit means that the two of us are going to stop the truce at the same time and go to leveling. When they reach level 30 and can resist more than 5 deaths, they will attack Luyang together. "

After the two days of war, none of the players with a level of 30 or higher on the hegemony side, including himself, fell below 30. Fortunately, most of his gold equipment was not stolen. Let his subordinates be saved.

Xiongba said: "I agree with this plan and tell the spirits to eternalize them. We will strike for half a month, and after half a month, we will attack Lu Yang together."

The old man said, "I went to inform Lei Long and Li Si, and this time they worked hard."

Xiongba didn't face anyone at the moment and said, "Please, brother, tell them, I will give them compensation later."

He nodded late and left the Guild Guild's office to the Mercenary Association, where he found Thunder Dragon and Swords.

During these two months, they received 3,000 gold coins from the mercenary association every month, so that both of them tasted the full sweetness.

"Two people, I just talked with Xiongba, he's already cheered up, and he will call you tomorrow for the remuneration of the two," said the old man.

What Leilong and Xisiyu are most afraid of is that Xiongba announces his withdrawal from the game directly, so their hard work in these few days is wasted.

"That's good, as long as people are still there will be a chance to make a comeback," she said.

Late twilight nodded and said: "Just now we decided to kill Lu Yang externally in line with the end of the war eternally."

"Take Lu Yang?" Lei Long asked in surprise.

"Yes, we can't fight Lu Yangya for the benefit. In order to prevent this enemy from getting stronger and stronger, both Xiongba and I have decided to negotiate with Wang Teng and attack Lu Yang together." Said the old man.

Lei Long and Yan Siyu both looked down at the mercenary union's books and looked at each other.

"The alliance is united," I said. "As long as the alliance is good, I have no opinion."

Thunder Dragon said, "Me too."

The old man said, "That's good. I'll contact Wang Teng. We'll go to the two strongholds in Luyang as soon as half a month later."

The light flashed, and the old man left, and Lei Long said scornfully, "What the hell." After that, he flew away.

The silk language showed a helpless smile, and sent a message to Lu Yang, saying, "Chairman Lu Yang, the army of Xiongba and Wang Teng has just ceased fighting. The old man of the twilight informed us that he would attack your fortress with Wang Teng's forces in half a month . "

Inside the red fortress hall.

Lu Yang was looking at the three-dimensional map. Hearing the words in the silk language, he couldn't help but shook his head with a smile and said, "Xiao Ba and Chi Du are really fallen. Thank you, I know what to do."

芊芊 Si Yu said with a smile: "Can you ask President Lu Yang to do something for the younger sister, where should the younger sister's guild go now?"

Lu Yang didn't think that he was so optimistic about him, but he planned to withdraw from the alliance. After thinking about it, he said, "In the current situation, you will not have any problems for the time being, you can continue to be at ease for half a month. Speak later. "

For Yangsi, Lu Yang's alert is still very deep. This woman is not simple, he is always a little confused about the routine of Yusi.

He sighed and said disappointed: "I know that Mr. Lu Yang has protection against me, okay, let's talk about it half a month later, if the younger girl quits when the alliance attacks you, you must advance Think of an idea for the little girl. "

Lu Yang smiled and said, "I'll talk about it then."

Turning off the intercom, Jiang Ze asked, "What's wrong."

Lu Yang told him the words in the silk language.

Jiang Ze said, "Hey, President Belle, your kid isn't going to go for peach blossoms."

Lu Yang knew that the goods had no good intentions, and said, "Less nonsense, tell Zhuojia and Yu Wei to come to the fortress hall, it's time to reap rewards."

Jiang Ze nodded and sent a message to summon Zhuoju and others.

There was a flash of light.

The duo drunk, Xia Yuwei, bitter half-life, three brothers of Bai Family, Sun Yu, and Zhou Tianming all came to Lu Yang's side.

"Boss, what's new over Xiongba and Wang Teng."

"Are we still fighting?"

...

Lu Yang looked at their concerned expressions and said with a smile: "Good news, this war is over. Xiongba and Late Twilight decided to stop the war with the spirits forever."

"Stop playing?" Bai Hu asked, "Why."

Lu Yang said: "The Bloodthirsty Domineering gave the Black Stone Fortress to the Eternal Spirit. The 120,000 reinforcements arrived, and the domineering troops could not hold it."

“The eternal guild of spirits came to St. Gall’s city. No wonder the Shenwu tribe players in the Sea Emperor City suddenly disappeared.” Zhou Tianyan said incredibly.

Zhuoju asked, “Boss, do you have any information about the next step of the hero and the soul? I suspect they are both together to find us trouble.”

Lu Yang patted Zhuoju’s shoulder and said, “I guessed very accurately. Just got the news. Half a month later, Chi Duo and Xiong Ba, and Wang Teng’s coalition forces will attack our Red Fort and Fengei Fortress.”

The complexions of Zhuo Jiu and Xia Yuwei became instantly dignified.

“If they are united, there will be at least 300,000 troops who come to fight us, and it will be difficult for us to stop them,” said bitter love for a long time.

The good mood that just harvested three disappeared instantly, and Zhuo Jiu and others were all dignified.

Lu Yang said: “Don’t worry, even if they are united they won’t beat me.”

Xia Yuwei said in surprise: “Boss, what can you do to solve it?”

Lu Yang said: “From tomorrow onwards, you will bring your subordinates to the crater one by one to upgrade. Remember, you must be the 500 most elite of your subordinates, and at the same time let others upgrade quickly, other matters you do not care about for the time being. “

“500 people?” Bitter love asked for a long time: “Boss, that 25 female worms are not enough.”

Lu Yang said with a smile: “You don’t care, I dare to let you 500 people, naturally there is a way for them to upgrade quickly.”

Everyone nodded.

Lu Yang went on to say: "In addition, the fortress has been defeated, and it is time to talk about merit. You can choose for yourself who these three fortresses belong to."

Zhuo Jiu, Baixiong Sanxiong and others looked at each other, their expressions were a little unnatural.

Xia Yuwei was the first to say, "Last time, everyone asked me to hold the fortress. This time I will not participate."

Jiang Ze said: "I am the second largest shareholder and I am not involved."

Two people are missing, and four people are left, Sun Yu, Zhuo Jiu Qing Piao, Bai Shixiong, and bitter love for half a life.

As soon as the White Lion and Zhuojiu were about to raise their hands, Sun Yu said, "I'm not involved anymore. I'm too young to make me a city owner. In this case, I can't guarantee that I can stay."

Lu Yang asked, "You really don't want to."

Sun Yu nodded and said, "I've been learning with my elder brother for a while, and my troops are best at running and shooting, and Shoucheng can't exert my wind spirit advantage."

Lu Yang said: "Either way, my brother will compensate you, so I will give you 500 additional positions for wind laser shooters."

Sun Yu blinked his eyes and said, "Really?"

Lu Yang said with a smile: "Of course."

The white lion, muddy wine, and bitter love half-life came to Sun Yu, and they patted the shoulder of their little brother. Facing the temptation of the fortress, Sun Yu could give up, which is really not what ordinary children can do. .

“Then arrange it like this. The turbid wine keeps the East China Sea fortress, and the bitter love keeps the Beihai Fortress for a long time. I will never take back the boss of these three fortresses. “

“Yes,” the three agreed in excitement.

Lu Yang said: “The celebration feast will not be held for the time being. After half a month, we defeated the coalition forces of the two parties to celebrate together. Let ’s go back to rest and leave the guarding fortress. Tomorrow, Sun Yu will bring the first 500 people Teams come to upgrade. “

“Yes.” Everyone returned to the fort to dissolve the team.

Han Sha appeared beside Lu Yang and said, “Brother, we have summoned 5 flesh and blood females.”

Just after the battle ended, Lu Yang asked Han Sha to take the scepter to Blood Demon Mountain and summoned 5 flesh female worms each.

“I’ll take you to level up.” Lu Yang flew to Giant Town and took Hansha and 12 of them to raise the level of Flesh and Blood Mother Worm.

“Brother, a few of us are behind the twilight, the hegemon, the reeling, the thunder dragon, and the eternal spirit behind them, and they said the same thing you told us.” Han Sha said.

In order to be able to grasp the first choice of the hegemony and twilight, the 12 stealth college graduates have been arranged by Lu Yang to follow behind twilight.

Because the situation is urgent, and their level is at level 50 again, late in the evening, they did not find that they started to be tracked from a close distance after entering the domineering guild station.

“It seems that the slang does not lie to me.” Lu Yang said to Han Sha and Han Yu: “In this way, starting tomorrow, the 12 of you will be at the old man’s residence, and will kill me a lot of high-level players

who are late. Do n't care about the eternal souls, just kill the late person, kill all his high-level players who are afraid to go out. "

"Yes." Han Sha, Han Yu and others showed excited expressions.

Chapter 415 - Rapid development

Lu Yang sent a message to Tu Feng and said, "Look for someone to write a few reports to tell the players, the Brotherhood of the Iron Blood unified the Imperial City, now recruiting a large number of players, whoever has the strength, the Brotherhood of the Iron Blood must."

Now is the time when the Jagged Brothers League looks most powerful to outsiders, and it is the best time to recruit players.

Tu Feng said with a smile on his face: "While writing, you don't know. Now all the people on the Internet admire our achievements. No server in the world can unify a main city. We are the only one. Now we are almost crowded in the two main cities of Aquamarine and St. Gall, which are all applying for membership. "

There are countless benefits to entering such a guild. You can use the fort to return to the city to instantly fly to level 30 maps to fight monsters. You can enjoy 20% discount on the price of things you buy in the fort. The main thing is that there is such a powerful guild. No one dares. Bully them.

Lu Yang opened the forum and looked at it. All of them are posts praising the Jagged Brothers League. The main posts are not sent by Lu Yang, but many players have posted it on their own.

The top post with three flames is the hottest. The above details how Lu Yang developed from an unknown player to become the leader of a guild.

At the beginning of the opening of the game, major guilds staged levels, deliberately killed people, forced to buy and bully ordinary players, resulting in a strong rise of the scattered groups. Afterwards, they were defeated by major guilds with their financial resources.

In the end, Lu Yang established a large number of guild scattered groups to become a backbone. Then he surrendered how Lu Yang defeated the most powerful guild of bloodthirsty at that time, and then surrendered to the underworld black sword. How to defeat the Necromancer with the Jagged Brothers Alliance.

In addition, this time, Liu Jie used the capital to maliciously dominate the human race, and several major guilds boycotted it. How did Lu Yang take this opportunity to take away the eternal soul in the Sea Emperor City.

Every move made the audience enthusiastic. The most important thing is that Lu Yang represents the majority of civilian players. This guild has never experienced situations such as charter leveling, malicious pk, strong buying and strong selling.

This is a guild of bullied players!

In this sentence alone, countless players in the Imperial City have left messages to join the Jagged Brotherhood.

This kind of bullying in Haihuang City is not worse than St. Gall's city, but there is no such person as Luyang in Haihuang City. At first, scattered groups also rose up in Haihuang City. After being destroyed, part of them joined Zhou Tianming. With the brothers of Zhou Tianyan and his brothers, another part of the discouraged Dangshang players low-key leveling.

The emergence of Lu Yang has made many scattered players in the Imperial City see hope.

A post below this post is about the crisis that Jagged Brothers suffered. One of them is the head of the four main groups of major capital forces who want to spend money to buy Judge Brothers.

Facing the sloppiness of the turbid wine and facing the late salary of 500,000, the Baishi Sanxiong disregarded the recruitment of Xiongba as the grandson of Jiuhe Group, and loved half of his life and

ignored the treatment of the bloodthirsty domineering vice chairman and the treatment of the two legions.

This incident caused a sensation throughout the entire race, and a lot of information about the original incident can be found on the forum.

Some people leaked from inside the major guilds, and there were some turbid wines. They told them and posted to the forum.

The players of Haihuang City have only heard this kind of sentimental events between the two brothers Zhou Tianming. They are more interested in the kind-hearted guild of the Brotherhood of Iron Blood, and the following messages have reached hundreds of thousands.

Lu Yang said to Tu Feng with a smile: "The players who wrote these posts must be someone who knows our guild quite well. I really want to meet him and thank some in person."

Tu Feng said, "I'm also curious about this person. I tried to contact him. He didn't reply to me."

Lu Yang said: "Maybe this person wants to keep it secret. I'll go to the Sea Emperor City and see the recruitment situation there."

Tu Feng said: "Be careful, the sea emperor city is more chaotic. Although the spirit is gone forever, there are still many large guilds in the city."

Lu Yang nodded, took out the city roll and flew back to St. Gall, spending 5 gold coins to reach the emperor city through the teleportation array.

Just appearing on the square, Lu Yang felt that today's Haihuang City is particularly lively.

"I heard that there is no one. The leaders of the three major legions of the Brotherhood of Iron and Blood are looking for someone. For anyone above 18, they promise to bring 20-level silver-level equipment. With the guild points, they can also exchange a lot of skill books and equipment."

“I heard that this guild is good. All the posts on the forum said that their predecessor was a scattered group. I was also a scattered group before. This time I want to join their association to register.”

“You’re a casual group? You’re not afraid that you can’t get out of the city. Be careful that the major guilds will trouble you.”

“Hey, I used to be afraid of now, I’m afraid, now I join the Jagged Brothers League, to see who would dare to bother me.”

“Right.”

Lu Yang watched the countless players on the square walk towards the guild hall and followed.

Guild hall entrance.

The recruiters arranged by Tu Feng deliberately found a place far from other guilds to set up recruiting points. A total of 12 players were responsible for recruiting. However, the long queues left Lu Yang at a glance.

“Brothers don’t squeeze, come one by one, how long you wait until today, a few of our brothers will accompany you until so late.” Zhuoju shouted.

“Everyone who talks about righteousness, you take my white lion as a brother, and I treat you as my brother.” Shouted the white lion.

“Our brotherhood has never bullied people, but we absolutely will not tolerate others bullying us, joining our guild, no one dares to bully you, bully my brother, I personally somehow,” shouted bitter love for half a life.

Lu Yang stood in the distance watching this scene and nodded. The three legionnaires he had chosen were not wrong. After dissolving his brothers, no one was offline to take part in the recruitment for the first time. These three can’t be beaten in the Imperial City.

The comments on them on the Internet are all about morality and kindness, and now showing their faces in the field, it is even more comfortable for ordinary players to join their guild. Lu Yang estimates that it will not take long for these three The human team can be expanded to more than 50,000.

“Looks like the Sea Emperor City also needs to step up its development.” Lu Yang opened the address book and found Han Zhong. “Master, how many people are there in Lu Zhaoyu.”

Lu Zhaoyu and Chen Feng were found out by Lu Yang alone, and a small unit was set up to play the skill book in the dead king’s palace.

Han Zhong said: “There are not many people. Now there are only 6 people, all warlocks. There are three shifts in the Corpse King’s Hall.”

Lu Yang said: “Tell Chen Feng to bring three people to the Imperial City.”

“The person who fights the monster in the dead king’s palace is not enough.” Han Zhong said.

Lu Yang said: “In this way, tomorrow we will recruit 100 new recruits with a monthly salary of 5,000 credits. They will be in charge of the war and all the equipment will be provided by us. They will sign a formal contract with us.

Han Zhong thought for a while and said, “Our financial resources should be no problem in recruiting these people.”

Lu Yang said: “That’s good, tomorrow I will be responsible for recruiting, you will be responsible for training.”

With a mercenary such as Han Zhong as an instructor, Lu Yang believed that even if he recruited a group of dead lions that Mianyang could fight.

Han Zhong said with a smile: “No problem, the more I come here, the better.”

The three Chen Feng appeared on the square and looked for the coordinates given by Lu Dingyang.

“Boss, we’re here,” Chen Feng said.

After two months, Chen Feng, who was squatting in the palace of the dead king, had risen to level 31, and his two brothers around him had also reached level 30.

Lu Yang said with satisfaction: “Yes, I will take you to another place today, but the monster is still similar to the corpse king, can it stand?”

Chen Feng said with a smile: “Of course it’s okay, now I earn nearly 20,000 yuan a month, let alone hit the corpse king, and I’m happy to fight anything.”

Lu Yang shook his head with a smile and said, “Keep on, I will give you 50 men in a while, and then your salary will increase by 10,000 ~ www.mtlnovel.com ~ Chen Feng’s eyes brighten, do n’t shake him Shaking his head, he said, “Without the boss, my salary is more than three times that of my parents, and I do n’t know how to spend it. “

Lu Yang held Chen Feng’s shoulder and said, “If you take me as your eldest brother, you can take as much money as I give you, and I will make money, and I will definitely not lose your brothers.”

Chen Feng’s heart warmed up and said, “Thank you, boss.”

Lu Yang thought, just because I went bankrupt until my debt was collected by the bank in the last life, your brothers helped me pay for my work, and I will repay you twice in my life, thank you.

With 3 people to the port, Lu Yang took them to swim to the third island.

Lu Yang took out the underwater breathing medicine and gave it to the three of them, saying, “Follow me to the bottom of the sea.”

The three of Chen Feng nodded.

There is an underwater ruin 50 meters downstream of this island, where there are 20-level Naga Siren.

Underwater monsters are very difficult to kill, fire attacks are invalid, archers' bows and arrows have almost no damage in water, and the damage of soldiers and thieves is reduced by 50% due to the resistance of water. Only psionic mages, shadow warlocks, and ice mages Wait for several special mages to upgrade underwater.

When upgrading underwater, you need to face the strange attacks from all directions. If you are stared at by several monsters, your escape speed is not possible under the condition that the swimming speed is only 50% of the normal moving speed. Therefore, Few players have come here to upgrade.

When Lu Yang brought the three to the bottom of the sea, there were only a few players upgrading at the outermost area, and they saw no reason to see them when they came.

There is no contradiction between large places.

After Lu Yang saw that their guild badge was not from the Shenwu tribe, they led Chen Feng to the bottom of the sea.

Chapter 416 - Black duke castle

Lu Yang took out the crystal lamp to illuminate the space around 30 yards, and continued downstream for 10 minutes. A hole appeared on one side of the rock wall.

"Here it is, follow me in." Lu Yang said pointing at the hollow about one meter in diameter.

The three of Chen Feng nodded and drilled into the sun.

After 5 minutes, the originally narrow space suddenly became extremely wide, and there was light at the top.

Lu Yang pointed with his fingers, swam up with three people, exposed his head to the water, and looked away. They appeared in a huge underground cave, the top of which was tens of meters above the sea.

System prompt: You found Naga Ruins

“Boss, what is this place?” Chen Feng asked.

Lu Yang summoned the goblin robot, ordered it to build a sentry tower, and said, “This is the gathering place of the Naga Siren, which is full of level 30 Naga elites. You can easily kill with the Hellfire Lord, they also Drop the skill book. “

Chen Feng nodded and said, “I see. The boss is assured that the three of us are typing skill books here.”

Lu Yang said: “I will be notified immediately if anything happens, and all the skill books will be handed over to Master Han Zhong.”

Patting on the shoulders of the three, Lu Yangfei returned to the Red Fort.

“Dididi”

Lu Yang opened the intercom and saw that it was Xia Yuwei’s application. After clicking through, he asked, “What’s the matter.”

Xia Yuwei blushed and said, “Boss, that, me, Yaoyao and I, and Zhang Zibo’s father want to invite you to dinner tomorrow.”

A smile appeared on the corner of Lu Yang’s mouth and said, “No problem. I will visit your house in person tomorrow.”

When Xia Yuwei heard Lu Yang’s words, she was secretly relieved. This was the most embarrassing thing in her life. When Lu Yang gave the conditions to allow them to buy the fortress shares at the lowest price, their father thought that Lu Yang In the end, Liu Jie and Xiongba did not invest.

Now, Lu Yang has built 6 fortresses and became the first person in the game. The three of them want to invest now, which makes Xia Yuwei, Lan Yu and Zhang Zibo all despise their family's practices.

"Boss, thank you very much," Xia Yuwei said.

Lu Yang said with a smile: "What else are we polite? I said that the conditions I give you will always be valid."

Xia Yuwei was warm in her heart and said, "Well, I won't be polite with you. At 10:30 tomorrow morning, in my house, Yaoyao will drive to pick you up tomorrow."

Lu Yang said, "I'll go by myself. My lame son-in-law sees Laozhang in advance, so I have to keep a low profile."

Xia Yuwei chuckled and said, "Fortunately, Yao Yao is here, otherwise I don't know how to see you. In addition, Yao Yao is embarrassed to see you."

Lu Yang said indifferently: "Now you are not people who can speak in the family, this kind of thing is normal."

"Thank you for your understanding, Yaoyao and I said." Xia Yuwei said.

Lu Yang asked: "How about the guild side, the turbid wine of the Sea Emperor City has poured in tens of thousands of players they have received."

Xia Yuwei said: "Sun Yu, Tu Feng and Jiang Ze and I are recruiting people outside the King's Hall. They are also crowded. However, there are too few of these people, most of them are between 20 and 25. For the time being No combat effectiveness. "

Lu Yang nodded and said: "Continue to collect, we are now Han Xin ordering more and better."

Xia Yuwei said, "You can rest assured that there are four of us here, to ensure that there is no problem, but what to do about the issue of war, I did not say at the meeting just now, I blocked their attack half a month later, I really have no confidence.

Lu Yang said, "Just rest assured, it doesn't make sense to just form a coalition with that group of miscellaneous fish. I'm afraid it won't take half a month, they will mess up."

Xia Yuwei's eyes lit up and she said, "Boss, what intrigues are you using? Teach me."

Lu Yang said silently: "My name is warfare, what is a conspiracy trick, and besides, how can there be such a talk with the boss, hurry you, you will know after half a month."

"Yes, Bing ~ Fa ~ Big ~ Division ~" Xia Yuwei said with a deliberately long tone.

Lu Yang shook his head helplessly, closed the intercom, walked into the mage tower, and entered the Elemental Academy of Fire.

At the 40th level, the fire mage can learn a secondary curse meteor fire rain by doing a hidden task. Lu Yang has learned this task for his fire law centurion. It is meaningless to do this task because he has meteor fire rain .

However, the fire mage has a hidden task to obtain a forbidden spell at level 50, which is still the only task. This is why Lu Yang willingly chose not to choose other special magic schools but stayed in the fire magic school.

At the gate of the Fire Mage Academy, a middle-aged guard saw Lu Yang approaching, with an anxious expression on his face, but he was afraid to step forward.

Lu Yang came to him and asked, "Man, what's the matter?"

"Hear Your Highness, my name is Amy, and I want to ask you something," Amy said.

“What’s the matter, tell me?” Lu Yang asked.

Amy said in surprise: “Great, I knew Master Master would be willing to help, this is the case, my dad was a lord, but his castle was broken by the undead, and only I escaped by chance. “

Lu Yang asked: “Then how did you become a guard?”

Amy lamented: “My father was loyal to the former king. After King St. Gall overthrew the predecessor, my title was taken away. Fortunately, the Holy King did not care about us, so I could survive and find this job. . “

“What can I help you with?” Lu Yang asked.

Amy said: “In my castle there is a hidden enchantment with a treasure chest. If you are willing to help me take out the treasure inside, I am willing to tell you the password to open the basement and give you a gift. “

System prompt: whether to accept Amy’s mission

Lu Yang clicked yes and said, “I’m willing to work for you.”

Amy handed a magic wand to Lu Yang and said, “This is the key to turn on. You only need to go to the top floor of the castle and use the key to enter the enchantment, but you have to be careful, there is a very powerful group inside. Zombies are guarding. “

Lu Yang was familiar with this task, took the key, took out the teleportation scepter and flew to the level 60 map steel hammer ogre empire.

Click to summon the Red Flame Lion King, and Lu Yang ran towards the black duke castle on level 50 map.

Black duke castle.

It is a standard old castle built on a cliff by the sea, with a 10-meter-high wall on the front, and the castle itself 10 floors high.

In the official history of "Second World", the Black Duke Castle used to be the front line to resist the invasion of the undead. However, the ending was miserable and occupied by a group of undead. One of the most powerful undead was not the duke of the official Amy's father.

Lu Yang ran for more than an hour and came under the cliff of the castle. In order to save time, he didn't enter the castle from the main entrance, but climbed up with a lasso from the side of the cliff.

This is a bug of the last life. In the case of escaping daggers, flashing skills, and holsters, as long as the mage player is not too stupid, he can enter the castle from the side of the cliff, eliminating the need to kill a lot of ordinary undead outside. time.

Lu Yang quickly climbed up the cliff to the wall of the ancient castle. On the wall of the ancient castle 10 meters above him, 6 undead soldiers were patrolling.

Undead Warrior (Elite)

Level: 50

Qi and blood: 500000/500000

Lu Yang watched for a while, and after finding out the patrol time of the undead warriors, while two of them were just 15 yards away, they escaped the dagger and landed on the wall.

The blue light flashed.

Lu Yang appeared on the city wall. At this moment, an undead came to a place 12 yards away from him, his eyes couldn't help but stare at Landing Yang, his mouth snarling slowly approaching.

Lu Yang didn't wait for him to approach, a flash of white light appeared on the conical roof of the sentry tower beside the city wall.

Taking out the rigging, Lu Yang shook it hard upward. The rigging hit the conical top of the sentry tower, where there was a pointed tower top, and a base below, just to prevent the rigging from falling.

Lu Yang grabbed a horse and quickly walked to the top of the tower. At this position, it was only 30 yards from the lookout in the middle of the castle.

Lu Yang waited for the escape dagger to cool down and flung it hard. The escape dagger landed on the lookout with a blue light.

The blue light flashed.

Lu Yang successfully jumped onto the observation deck, and looking from here, he could see the black duke patrolling back and forth in a delicate hall inside.

The black duke, who had become a zombie but was still heavily armored, heard the sound of steel touching every step.

Black duke

Level: 50

Qi and blood: 1000000/1000000

Among bosses of the same level, the Black Duke has the least amount of health, because he is the only one in the 50-level boss with high magic resistance and high defense.

Lu Yang moved his body and walked towards the Black Duke. With his 3,500 points of injuries, it was not difficult to kill the Black Duke.

However, ~ www.mtlnovel.com ~ Lu Yang still chose not to kill him. According to the rules of the game, he killed the Black Duke. Amy will never give the curse to the player, so at this time, he can only change the method.

“Fire Snake Bondage”

Lu Yang’s mouth spelled out that a crimson flame appeared at the foot of the Black Duke, and in a blink of an eye, the flame turned into 4 flame poisonous snakes that entangled the Black Duke.

Taking this opportunity, he turned on the hot and ran into the hall, and quickly ran towards the top floor along the side corridor.

“An enemy attack, a guard, an enemy attack,” roared the Black Duke.

Ten soul-state guards appeared next to the Black Duke, and the headed guard asked: “His Royal Highness Black Duke, what can I do for you.”

The black duke shouted at the side stairs: “An enemy ran up and grab me.”

“Yes.” The guards of ten soul states disappeared instantly.

Lu Yang ran to the upper hall of the castle, and just saw the location of the hidden enchantment. This is a painting hanging on the wall.

Chapter 417 - Fire forbidden spell

Just when Lu Yang was about to walk over to open, 10 soul guards appeared.

“The invaders, just grab your hands.” The guard chief shouted at Landing Yang with a spear.

Lu Yang said in his mouth that a black ripple appeared within 15 yards of the guard’s head.

“Flame Storm”

A sky-high flare appeared, stunning all 10 guards and the leader for 2 seconds.

Lu Yang took this opportunity to walk past them, took out the key, put it in a jack on the side of the painting.

Nine colors flashed.

Lu Yang disappeared into the hall, and when he appeared, the surrounding area turned into a splendid basement.

Gold coins were scattered on the ground, and the golden lights radiated from the crystal lights on the walls.

Lu Yang stepped forward, picked up the storage bags on the ground, and put the gold coins in, counting as they were loaded, a total of 10,000.

What is the concept of 10,000 gold coins, which is equivalent to 3 million credits. If the player does not give the money to the official, but quits the game directly, it is enough for him to enjoy a long time.

However, this is actually a trap set by the official. If the player does not hand over the gold coins to the guard Amy but keeps it, or secretly leaves a part, the mission fails and the mission will never be received again.

And this is the only task that can only be received by the first person. The task will not be triggered if it fails or is completed.

If it weren't for the second world of the previous world, which was exposed at the annual meeting one year later, players would not know that there is such a hidden mission.

Lu Yang also learned about this task after watching the news. After packing his backpack, he took out the city roll and flew back to St. Gall, and came to the Elemental Academy of Fire.

Amy at the gate was anxiously looking at the teleportation array and saw Lu Yang coming, Amy's face showed a surprised expression.

"Sir, I'm here, have you completed the task?" Amy called out beckoning.

Lu Yang stepped forward and handed the gold coin storage bag to Amy, saying, "Successfully completed, this is money."

Amy took the gold coins and counted them one by one. After confirming that it was 10,000, Amy excitedly gave a magic scroll to Lu Yang and said, "You are a good and honest man. I have nothing to repay you Yes, there is a magic spell in it. I was born without a magic talent to give you. "

The system prompts: You got the banned magic flame burned out

Burning Out

Type: Fire Magic

Cost: 3000 mana

Distance: 1000 yards

Description: A high-temperature flame is released to a specified location, and players within 800 yards receive 1000 + spell damage / 10 magic damage per second.

Lu Yang shook his fist with excitement and immediately clicked to learn. He finally had a curse.

With this skill, Lu Yang was more confident in the next battle. Looking at the time, it was 12 o'clock in the evening. Lu Yang clicked to exit the game and took off his helmet.

Han Ying first stepped out of the game with Lu Yang, and they gathered together in the living room to chat.

After Lu Yang quit the game, he walked to the living room and said, "What are you talking about?"

Mu Yi said: "Brother, the orcs are messed up, and now the five main cities are all overturned."

Lu Yang's eyes lighted and he asked, "Tell me what's going on."

Mu Yi said: "Beasts originally had more than 10 super guilds in each main city. In order to grab the fort, these guilds have been fighting for a few days.

Different from the human race, the fierce appearance of the orcs has been loved by various consortia. There are 31 consortiums of the national service stationed in the game, and 22 orcs, accounting for two-thirds.

In order to compete for the fortress, each consortium has invested at least 500 million credits in the game. Each of the 22 super guilds has a level 30 gold army of more than 80,000, and each consortium continues to invest.

Lu Yang's happy fight on the human side is because the human race has little pressure on the competition. If Lu Yang was born in the main city of the orcs, he would have no chance to establish a large guild such as the Iron Brotherhood.

"How about shooting Sirius?" Lu Yang asked.

“Shooting Sirius gained control of the Sirius Fortress half a month ago. However, in the past few days, the boss of the Longxing Guild, Luo Cheng, has stormed Sirius Fortress with 200,000 players. It is estimated that shooting Sirius can still resist at most. Stay 3 days.” Mu Yi said.

The consortium behind the Longxing Guild is Liu Jie’s Zhongtian Consortium. The name of the magician Luo Luoren is Luo Cheng, which is Liu Jie’s cousin.

Lu Yang said, “You help me to get Sirius’s personal contact information. I want to find him.”

Mu Yi said, “Okay, I’ll just talk to him on the line tomorrow. He knows me well, and he can survive today thanks to our pharmacy.”

Lu Yang nodded and said, “That’s good, I’ll go out tomorrow morning, you tell him, I will talk to him in person.”

“Ok.”

Among all the fortresses, the Sirius Fortress is the most valued by Lu Yang. This fortress is closest to the Red Fortress. Lu Yang must acquire this fortress to make a difference.

After talking about the business, Lu Yang chatted with them a few more words, and then rested.

Early the next morning.

After Lu Yang exercised and washed, he put on a clean and neat dress. While he was resting, Tu Feng called Lu Yang and said, “Brother, I don’t know if I should tell you something.”

“What’s the matter? Let’s talk.” Lu Yang said.

Tu Feng said, “I just received a call from President Yang Yi, the eldest son of the Yangtze River Consortium. He wants to invest 1 billion credits to buy a 20% stake in our association.”

Lu Yang was stunned. This investment is really daring. Although his guild unified the imperial city has 2 fortresses in St. Gall, to be honest, these fortresses have not been controlled for stability.

“Are you sure he called you?” Lu Yang asked.

“OK, he used the company’s mailbox to send me the message first, and then called me, and wanted to ask you to meet him in person.” Tu Feng said.

Lu Yang said: “This investment is a good one. It ’s just investing in our guild. I ’m lacking money. But first, you did n’t contact me. I have to talk to their fathers Xia Yuwei and Zhang Zibo first. If not, let’s talk to him. “

Tu Feng said, “Okay.”

Turning off the interphone, Lu Yang called and asked Jiang Ze to drive him to the foot of the mountain in Bihaige.

This is the most advanced community in Donghai City. It is built on a high mountain along the seashore. There is only one road up the mountain. There are more than one hundred security guards. It is not only overlooking the sea but also very safe.

When Lu Yang came to the gate, Xia Yuwei and Zhang Zibo were waiting at the gate guard and saw Jiang Ze’s car beckoning together.

“How do you run here to pick me up?” Lu Yang asked.

Xia Yuwei said: “You can’t get in without us to pick you up, and keep up with our car.”

The door opens.

Xia Yuwei led the way in the front, and Lu Yang sat behind Jiang Ze’s car.

Bihaige Villa Group is located on the mountainside. Xia Yuwei led Luyang to a villa where you can see the sea. At the gate, Shen Mengyao was wearing a long skirt waiting there.

Seeing Lu Yang get off the train, Shen Mengyao took the initiative to come to Lu Yang and said, "Brother, we will take you in."

Xia Yuwei and Zhang Zibo nodded together.

Lu Yang nodded and followed the three of them into the room. In the living room, Xia Yuanshan, Shen Jingchuan and Zhang Linhu were sitting on the sofa waiting.

Seeing Lu Yang coming, the three stood up and greeted Lu Yang with smiles. Xia Yuanshan shook Landing Yang's hand and said, "Sure enough, it is a hero who is a teenager. He is so young that he made such a big name in the game."

Lu Yang said respectfully: "It's ridiculous, just a little luck."

Shen Jingchuan said: "Let's sit down first, I believe that the three of them have told you that we want to invest in your guild. We want to talk to you today."

Lu Yang followed the three of them to sit on the sofa, and Shen Mengyao, Xia Yuwei, Zhang Zibo, and Jiang Ze sat beside Lu Yang.

Xia Yuanshan and Shen Jingchuan smiled silently.

"The kids are really big. Before they reach adulthood, their elbows begin to roll out." Zhang Linhu said with a laugh.

Shen Jingchuan took a dissatisfied look at Shen Mengyao and asked, "Xiao Yang, tell us how you want the fortress to develop in the future."

Lu Yang shook his head and said, "Sorry, even if the negotiations are successful, I can't tell you."

Xia Yuanshan frowned and asked, "Why?"

Lu Yang said: "I believe you know the situation in the game. Although I have unified the Sea Emperor City, there are two fortresses in the Holy City, but my situation is very bad. If I do not choose carefully, it is very likely that You lose on all wrongs. "

Zhang Linhu said with a smile: "Yes, the three of us are still worried that you will be so arrogant that you ignore the crisis at hand."

In order to enter the game, the fathers of Xia Yuwei and the others have already sent people in national costumes, beasts, and elves to conduct detailed investigations ~ www.mtlnovel.com ~ clearly knowing Lu Yang's current situation.

Xia Yuanshan proudly said: "I have revealed a secret to you, Wang Teng and Chi Mu have reached an agreement, and the two sides will attack your fortress in St. Gall in half a month later."

Xia Yuwei covered her face with her hands and said embarrassedly, "Dad, we heard the boss last night about your news."

Xia Yuanshan's turn was awkward this time.

Shen Jingchuan asked, "How do you know?"

Shen Mengyao said: "We not only know how they hit us, but also that Wang Teng is going to hit our red fort, and Late and the hegemon hit our thunder fort."

The three of Zhang Linhu froze. They only knew the general information. The negotiation was about momentum. The three wanted to use this secret to overwhelm Lu Yang in the momentum. However, Lu Yang knew better than them.

"Sure enough, I have two sons." Zhang Linhu said.

Lu Yang quietly patted the backs of the two, signalling them not to speak. After all, the two were elders, and they would have to come in contact frequently, making them too rigid.

Chapter 418 - Wolf Acquisition

“I can’t tell you too much. I can only tell you that someone in the late Alliance has betrayed them. I’m not sure if this person is sincere to trust me, but I have confirmed the news he gave me.” Said Lu Yang.

Shen Jingchuan asked, “Do you have any solution?”

Lu Yang said: “It’s quite easy. I can tell you about this. I have a group of masters who have graduated from stealth colleges. I have given them orders to start this morning to kill senior players who are out of town. Half a month later, when both Xiongba and Wang Teng brought their team to level 30 and above, the players in the old age were still below level 30.”

Xia Yuwei looked at Lu Yang in surprise and said, “If you do this, wouldn’t the old man become a bird of surprise?”

Lu Yang said: “As long as the scared old man is afraid to participate in the attack on me, Wang Teng will be distracted and leave some players to guard against the old man’s sneak attack.”

Jiang Ze said with a thumbs up: “Brother, you have a good trick.”

Xia Yuanshan frowned and asked, “Your batch of killers are so powerful, can you limit so many people to upgrade late?”

Lu Yang said with a smile: "I believe that the Orcs have masters who have graduated from stealth academy. You can find out if you go to the official forum to check it. The damage of this profession is quite high. Often, you can kill a non-shield battle and anti-riding class in one shot Players of the same level. "

Xia Yuanshan and the three looked at each other. They were still laymen about the game, and it was not clear how powerful they were. However, obviously the three men could see that Lu Yang would not cast such a lie.

Shen Jingchuan asked: "Xiao Yang, you are right, we can invest for you, but we want to change it."

"How do you want to invest," Lu Yang asked.

Xia Yuanshan said: "The three of us contributed 100 million yuan each, which respectively accounted for 5% of your guild and Zhongyi Blacksmith Po."

The three have already planned, even if Lu Yang's fortress is broken in the future, and there is a loyal blacksmith shop, they can recover the cost, but they earn less. If the fortress can be held, they will make a lot of money.

However, this approach is different from what Xia Yuwei, Shen Mengyao, and Zhang Zibo had previously discussed.

The three became flushed when they heard Xia Yuanshan's conversation.

Xia Yuwei said, "Father, what kind of proposal are you doing? I didn't say so before. How can there be such an advantage?"

Xia Yuanshan said with a cold face, "Adults talk, there is no place for you to talk, you don't want to stay here and go out."

Lu Yang did not expect Xia Yuanshan to be so ruthless, stopped Xia Yuwei's urge, and said with a smile: "Are you buying and selling, let's talk slowly, it's not urgent."

When Shen Mengyao spoke, he was stopped by Lu Yang.

Shen Jingchuan was very satisfied with Lu Yang's performance and said, "Now your guild is not the most worthy of our investment. After all, the crisis you face is huge, and we are also taking risks."

Xia Yuanshan said coldly, "If you agree, we will sign the contract now and gamble with you once. If we don't agree, we will give the money to others."

Zhang Linhu said with a smile: "Xiao Yang, now is the time when you are short of money. With our money, you can buy a lot of materials to protect your fortress."

Shen Jingchuan said: "The fortress can only be earned if the fortress is kept. If there is no fortress, your guild will be dead."

Lu Yang smiled and said, "I do lack money because I have to do something recently, but I can't set a precedent for you, either because I don't want to do it, nor because I don't want to, nor to Yu Wei and Zi. Bo and Yaoyao have three opinions, but if I drive, I will just break my word."

"Fated words?" Xia Yuanshan frowned together.

Lu Yang said: "I told each of the legionnaires that as long as they wanted to buy the fort stakes they laid down, they could buy 50% of the original price. If I promise you now, what do my five legionary leaders think of me? How can I face them."

Xia Yuanshan said: "This is business, don't talk about morale. Without our investment, your fortress may not be able to keep it."

Lu Yang did not expect Xia Yuanshan to be such a person. He smiled helplessly, took out his mobile phone from his pocket, opened the mail system, and pointed the mobile phone screen at the three of them. "Look, before I come this morning, the Yangtze River Consortium The e-mail sent by my eldest son and grandson was interested in buying 10% of the guild shares in my hands for 1 billion yuan, excluding other items."

Xia Yuanshan quickly looked at the mobile phone, which clearly stated the acquisition intention of the Yangtze River Consortium.

“Isn’t it a fool of us.” Xia Yuanshan asked.

Lu Yang said: “This morning Li Yi’s secretary told me through Tu Feng that Li Yi wanted to talk to me about cooperation in person. I asked Tu Feng to say that I was out of the house. There was no time for the purpose of talking to several people. Talk about cooperation. “

The expressions of the three people in Xia Yuanshan completely changed, and they were all a little scared. If they invested according to what Lu Yang said, it would be foreseeable that as long as the guild of Lu Yang did not fall, they would make more and more money. And, now The value of a fortress is a million credit points, but Lu Yang gave them only 10 million yuan.

They can’t find this kind of cabbage price, but if Lu Yang chooses to cooperate with the Yangtze River Consortium, they will always lose this opportunity.

Xia Yuanshan and the three looked at the same.

“Well, like you said, we will invest 10 million for you and buy 20% of the shares of Fenglei Fortress.” Xia Yuanshan smiled and reached out to Lu Yang.

Shen Jingchuan and Zhang Linhu also smiled.

Lu Yang shook hands with the three and said, “I believe Yu Wei has already told you that you cannot sell this share without my consent. If you want to sell it, you can only sell it to the market price first. I.”

“That’s natural.” Xia Yuanshan said.

Lu Yang nodded, signed the contract with the three and uploaded it to the game, and the official was responsible for checking for illegal items and unreasonable places.

After confirming that there was no problem, Lu Yang said, "I'll go back to the guild first, and don't bother."

"Let's go with you and feel more comfortable in your studio." Shen Mengyao said.

Xia Yuwei and Zhang Zibo nodded together.

Got in the car.

Xia Yuwei said sorry, "Boss, I'm sorry. I didn't expect our dad to take the advantage and talk to you like this."

Lu Yang looked at the three of them embarrassed and said, "It's nothing. Your father is not optimistic about me right now. We do have a big crisis, but I believe that as long as we work together, these crisis will not matter."

Zhang Zibo said, "Boss, don't worry, even if we return to nothing, we will follow you."

Lu Yang said with a smile: "Don't need to be so pessimistic, I have never feared Wang Teng's two knives. I don't care about the two good calculations, such as Late twilight and Xiongba. I really care about the more than 20 of the orcs A consortium, they are too rich. "

Xia Yuwei did not understand what Lu Yang said about the human race and suddenly turned to the orc.

"Why do you say that?"

Lu Yang said: "There are 22 consortiums in the orcs. Now these people have n't played the game, they are fighting each other on the side of the orcs. When they understand, they find that they can not only fight in the orcs. Anyway, when they have money, they invest in Terrans and Elves. When the three races fight together, we are passive. "

There are more than 20 large guilds in St. Gall, and any one of them can quickly turn into a super guild when they provide funds, and they can dare to attack the city with 30 levels of equipment and 50,000 to 60,000 people.

Jiang Ze said: "What you said makes sense. I haven't really thought about this before. If there are five or six consortia running to the Terran to invest, we really can't support it. : "Is there a solution? "

Lu Yang smiled mysteriously and said, "I'm going to play the bigger one once, and now I'll see what the other party thinks. If there is no problem, just look at it. I'll take you to play it that you never imagined."

Jiang Ze was tickled by Lu Yang's heart and asked, "You talk to us first, what is going on?"

Lu Yang Yile said, "Wait for what I have said, if I haven't succeeded, wouldn't that mean nothing?"

The voice just fell.

Mu Yi called and said, "Brother, shooting Sirius wants to talk to you very much, how can I reply to him."

Lu Yang made a strong fist and said, "Tell him, at 12 noon, we will negotiate in your pharmacy on time, and I will talk to him in person."

"Okay." Mu Yi hung up.

Jiang Ze asked: "Is the talk completed?"

Lu Yang smiled and still didn't say, Jiang Ze was helpless.

Arrived at the studio.

Lu Yang took Xia Yuwei and Shen Mengyao to the room where Han Ying and Mu Yu were. He took Jiang Ze and Zhang Zibo to his room.

Sign in to the game.

Lu Yang came to the venture capital company in a camouflage coat and flew towards the main city of the Wolf Clan in an airship.

On the road, Lu Yang sent a message to Han Sha and asked, "How are you doing?"

Huayu Fortress outside.

Han Sha scratched his head and said, "Brother, we seem to be killing too fiercely, and the old man in the twilight is afraid to leave the city."

Lu Yang said in surprise: "How many people did you kill."

Han Sha said: "In the three hours from eight to eleven, we killed about 2,000 people, each killing more than 200 people."

Lu Yang said, "Co-authoring your 12 little guys will kill one person every minute."

Chapter 419 - Honor uniform

A level 50 thief has a single attack behind him. In the absence of agile gems, each attack can deal more than 3,000 damage. Except for shield battle and anti-riding, other mage and shooter classes can't carry two swords.

Lu Yang can imagine the current situation of the old man, and said with a sneer: "Continue to kill, remember, give priority to those who know the special skills of the old man."

"Yes." Han Sha touched a player in the Zijin Dynasty and stabbed him in the back of his neck.

"6976" (Critical Strike)

Players fall in response, spike!

The old man in the twilight was dumbfounded standing in the city and watching this scene. He had no idea what was going on, as if his guild was targeted by a large guild, and the other party sent high-level thieves, only three In an hour, more than 2,000 people were killed and injured, and all died above 28.

He sent thieves to fight with each other, but his thieves not only could not find each other, they were also killed by the other side. Until now, he doesn't know how many people there are in the other side.

"Who the **** is it, who is it against me?" The old man said lately.

Liquor Qingfeng, Luo Siyu, and Silver Wolf shook their heads. Just when they couldn't figure out what was going on, Lu Yang came to the main city of the Wolf family again.

Came to the office on the top floor of the Zhongyi Pharmacy Store. She was already waiting there. She saw Lu Yang removing the camouflage and pushed in. She was excited and walked to Lu Yang and said, "Chairman Lu Yang is really long Damn. "

Lu Yang said with a smile: "Brother, I also admire you very much, and you can stand till now, which shows that you are a real master."

Shooting Sirius without any investment, with his 100,000 brothers and Luo Cheng's 200,000 people for 10 days, it is not easy to support today, sighed and said: "Chairman Lu Yang, don't mention Now, help me think of a way. I can support it for up to 2 days, and the fortress will change hands. "

Lu Yang looked at Sirius's sincere face, and said, "Brother, since you are so refreshing, I won't get in touch with you. I will invest 50 million to buy your guild and fortress, how about it?"

Shooting Sirius looked at Lu Yang unbelievably. In his current situation, if the fortress was breached, his 100,000 players could still leave no more than 50,000 people. In the absence of the fortress, the internal player equipment of the guild was still broken. Next, don't say 50 million, no one wants 500,000.

"Chairman Lu Yang, what are you talking about? Are you kidding me?" Asked Sirius.

Lu Yang said, "Of course not. In fact, I only give you 50 million or less, but I will make up for it later, because I do n't have much cash. Now I buy the guilds and fortresses. It 's not throwing money away, but I 'm going to play big once, brother, dare you play with me once. "

Shooting Sirius excitedly said, "Listen to the boss."

Lu Yang said, "Okay, so I'll call you over the money. We'll sign the contract first, and we'll discuss it after signing."

"Okay," said Sirius.

Lu Yang took out the prepared electronic contract and handed it to Shoot Sirius, who signed the name happily.

The system prompts: The contract takes effect immediately, whether to pay.

Lu Yang clicked to pay, and the account of Shooting Sirius had more than 50 million credits.

"Boss, thank you for my brothers. With this money, even if the fortress is gone, they will not accompany me for three months in vain," said Sirius gratefully.

Lu Yang said with a smile: "Brother, believe me, you can't throw the fortress."

Shooting Sirius patted his forehead and said, "Boss, let's say, what to do."

Lu Yang asked, "Now when Luo Cheng takes his men to attack you every day, what is his starting point?"

Shooting Sirius opened the three-dimensional map and pointed at the east gate of Sirius City, saying, "Every morning at 8 o'clock in the east gate, start at 9 o'clock, and reach below my fortress at about 10 o'clock to start the attack."

Lu Yang asked, "Tell me more about the course of travel."

Shooting Sirius pointed at the map and said: "First pass through the Woye Plains, into the gray forest, along the Yuze Hills into Crete Mountain, and pass through the Red Rock Mountains to reach Sirius Fortress."

Lu Yang looked at the special terrain of Hongshi Mountain and said, "Give you a dead order, stick to one day, and don't tell anyone about your investment. I will bring someone to support you tomorrow morning."

"From the human race to the orc to support?" Asked Sirius in surprise.

Lu Yang nodded and said, "Yes, I will bring you 140 mages who know the secondary forbidden spells to support you, and hold this last day, this fortress is yours."

Shooting Sirius excited blood came to his heart and said, "You have 140 mages who know the secondary forbidden spell?"

Lu Yang said: "Of course, I have three mages who know how to forbid spells. This time I will use human players to help you defend the orc fortress. Not only that, but in the future, I will let your men go to the human race and participate in the human race. . "

Shooting Sirius reacted instantly, and he couldn't help hitting a clever body and said excitedly, "Boss, you are doing this for honor!"

Lu Yang said: "Guess right, there are quartermasters in major cities, and you can buy military uniforms with honor points, but the honor points can only be obtained by killing players of your own race. What I have to do is you and me. Together we will receive honors, and we will change into military uniforms in advance. "

The uniform name is officially called the City Guard Set, the higher level is called the Warlord Set, and the higher level is called the Grand Marshal Set. The lowest City Guard set is level 40 and can be worn.

There are a total of eight pieces of gold-level equipment. The attributes are a lot higher than the gold of level 30. It is the equipment that all players above level 40 must use.

It is foreseeable that if Lu Yang can succeed, the strength of the Jagged Brothers Alliance will be far better than any other guild.

"Boss rest assured that I will fight tonight if I try my best," said Sirius.

Lu Yang smiled and said, "I'll wait for your good news at night."

Taking out the transmission scepter, Lu Yangfei returned to the inner city of the Red Fort.

Immediately after landing, 50 players were gathered at the gate of the inner city. Sun Yu was directing ten mages who had signed the studio's strictest contract to kill the 50 people to upgrade.

"Brother, you are here." Sun Yu said when Lu Yang ran over.

Lu Yang nodded and asked, "How many people have you reached level 40?"

Sun Yu said excitedly: "Brother, there are 252 people, these 90 female worms are too powerful, and the upgrade speed is too fast."

Lu Yang shook his head and said, "It's too slow. No, we have to speed it up."

“Ah, it’s fast,” Sun Yu said, “I can’t even imagine this speed.”

Lu Yang said with a smile: “Brother, I’m not free. Otherwise, I will also take you to the same level as me. You will continue to bring your men to upgrade first, and strive to bring out 500 people before tomorrow morning.”

Sun Yu thought for a while and said, “No problem, I promise to complete the task.”

Lu Yang sent a message to the brothers Tu Feng, Xia Yuwei, Muddy Wine Pours, The Three Heroes of the Bai Family, The Half-Bearded Love, Jiang Ze, and Zhou Tianming.

Twenty white lights flashed, and the muddy wine poured out and others walked out of the transmission point and came to Lu Yang.

“Boss, here we are,” asked Zhuzhuo.

Lu Yang said: “Choose 500 men each and take action at 1 am tonight.”

“Where?” The White Lion asked.

Lu Yang said: “I will tell you at night, remember, this is a top-secret thing, and you must not let any outsiders know, otherwise, our guild will have a terrible disaster.”

If this incident reaches the ears of various consortia, the major consortia will desperately attack the Sirius Fortress. At the same time, the Terran will acquire its own fortress. If the acquisition fails, it will definitely organize the major guilds to attack.

At that time, Lu Yang couldn’t prevent even having eight hands. The only thing he could do was to conceal his whereabouts. Fortunately, there were 13,000 brothers in his guild who were willing to follow him desperately. He kept them secret. .

Zhuo Jiu said, “Okay ~ www.mtlnovel.com ~ We’ll go back and arrange it.”

Lu Yang nodded and let everyone disperse. He also quit the game and took Xiao Liang, Lu Zhaoyu and Chen Feng to the slums and technical schools to recruit people.

Previously, the number of recruited personnel was limited, and many older brothers Lu Yang of the previous life could not take care of it. This time, Lu Yang decided to open up the recruitment.

Soon, 100 people were recruited, and 50 more were recruited.

In order to settle them, Lu Yang rented a dormitory building inside the steel mill, and found cleaning and simple packing. In the evening, the bed, quilt and other items were delivered to the door.

Lu Yang took the boys to work together until the evening.

Xia Yuwei, Zhang Zibo, Shen Mengyao, and Jiang Ze just moved off the assembly line, and just at the door saw Lu Yang who was directing his men to move things in front of the dormitory building in the distance.

“Lu Yang is doing this.” Xia Yuwei asked Han Ying around.

Han Ying said: “That is the newly formed War Department. In the future, the studio will be responsible for this group when it conducts external wars and covert operations.”

“how many people?”

“150 people.”

Zhang Zibo took a breath and said, “It won’t be long, if our guild can survive this crisis, I don’t think we will have any rivals.”

Xia Yuwei nodded.

When Lu Yang is busy here, the other side.

Shooting Sirius is desperately taking troops to block Luo Cheng's attack at the city head of Sirius Fortress.

"Brothers hold on, we must not let the fortress give Luo Cheng this **** and fight with him," shouted Sirius.

"Fight it and swear to protect the fort."

...

Tens of thousands of Sirius troops shouted in unison, but this shout did not scare Luo Cheng outside the city, but made his face smile.

Chapter 420 - Airship teleport

Luo Cheng sneered and said, "He can stand until now because I did not fight him seriously. In order to prevent sneak attacks from other guilds, I have been preparing my 20,000 gold equipment and 50,000 silver equipment. Otherwise, as early as The fortress can be laid five days ago. "

Another tall and strong green-skin orc beside Luo Cheng, called the Savage Crash player, said: "Boss rest assured, lay this fortress, I will personally lead the team to attack the blood wolf fortress, and I will definitely take it for you."

Luo Cheng waved his hand with a smile, and said, "We have a better place to do that fortress."

"Where is it?" Savage asked curiously.

Luo Cheng looked farther away and said, "Siege the city first. Today's shooting of Sirius looks like a kind of returning light."

Above the ramparts.

Shooting Sirius was extremely excited, and his face was not tired and patient, full of confidence to win, because his 100,000 wolves, cats, and foxes who were defending the city were all driven, and the siege of 15 Ten thousand silver-equipped enemies fight indiscriminately.

Brutal slammed his body nearly 2 meters, hit the shield with a hammer unhappily, and said, "I'll meet him, Berserker Corps, follow me."

"Roar!" Ten thousand orc warriors in gold gear walked towards the city wall as they savagely collided.

Ghostblade said: "Isn't that the warrior who didn't want to kill him die this way, I took the team to support him."

Luo Cheng said, "Go."

The ghost knives nodded and waved and shouted, "The whole army is attacking, and I will attack the West Gate."

20,000 all-gold coalitions consisting of wolf shooters, cat rogues, fox mages, orc warlocks, and lion paladins followed the ghost swordsman toward Simon.

These two troops are the most elite troops under Luo Cheng. They are responsible for flanking attacks by brutal collisions, and frontal attacks by ghost knives.

The shooting wolf on the city wall has been watching these two groups of troops, seeing that they came from these sides, a sneer appeared in the corner of his mouth.

After receiving the credit points given by Lu Yang, shooting Sirius returned to the city and began to modify the city walls, and a new city was added behind the four city gates.

“Brothers, can you watch this wave if you can hold the gate tonight? Are you ready?” Shouted Sirius.

“Ready.” 100,000 people responded in unison. Since learning that Sirius has sold his house to build the city, in order to keep the fortress that everyone built together, everyone is crazy and desperately help. Shoot Sirius to defend the city, and persisted until the construction of Wucheng was completed.

The biggest feature of Wucheng is that you can catch it in a hurry. You don’t look at the equipment comparison between the two sides, but see which side has more people.

The city designed for shooting Sirius can hold 2,000 enemies. After the 2,000 people enter, they face 20,000 guards on the surrounding walls.

With a wall of 35 yards all around, most of these 20,000 people have an attack range of only 30 yards, which means that they can only watch the attack by Sirius and not fight back.

Brutal rushed to the first team with 10,000 people and rushed to the gate of the city. Suddenly, the gate was broken.

Savage smashed into his heart with blood, and he didn’t expect his luck to be so good that the gate was broken as soon as he arrived here.

“Brothers, follow me and the city gate is broken.” Savage yelled loudly.

The 15-meter-wide gate can walk 50 people side by side, and the Berserker Army rushed directly into the gate.

The brutal charge took the lead and rushed in first, but after running in, the brutal charge looked at a taller wall and a firmer gate in front of it, and said dumbly: “Why is there a gate here?”

Shooting Sirius arched his hand over the city and said, “You are so stupid, hit me.”

The 20,000 players guarding the city madly poured their skills into the brutal collision troops under the city, and more than 1,000 players rushed in were attacked instantly, even the army's gold equipment could not bear it.

In an instant, more than 1,000 people died.

Subsequent troops did not know the situation ahead, and continued to rush towards the city gate without the order of brutal collision. They just thought that there was a battle ahead and rushed even harder.

The deadly brutal collision only ran from the city for more than an hour to under the Sirius Fortress. He could not command to send a message to Luo Cheng, saying, "Boss, I was killed by shooting Sirius in an ambush."

Luo Cheng frowned, and asked, "How can he ambush you?"

"There is a strange city in the city somehow. After I entered, I was killed by the enemy set fire." Savage said.

"That's not the time to order the troops to stop the offensive and pull me down." Luo Cheng shouted.

The brutal clash came and responded, and quickly sent a message to the heads of the regiments and ordered them to withdraw from the battle.

On the other side.

Ghostblade sent a message to Luo Cheng, saying: "I have also been ambush here, the loss is not great, and it has been changed to frontal siege."

"Give me a stronghold." Luo Cheng shouted.

The war quickly turned into a feverish state, and both sides began to fight until 11:30 in the middle of the night, shooting Sirius against the wall pile, watching the gradual withdrawal of Luo Cheng's troops relieved.

"Finally, hold on," said Yue Mantian, the first vice president.

Shooting Sirius nodded his head tiredly and said, "I didn't expect that Luo Cheng's 30,000 Gold Legion was so strong. If it weren't for our ambush once before, I'm afraid this fortress would have been lost."

The head of the First Army, Ling Feng, leaned over and said, "Boss, I feel like I can't keep tomorrow. My brothers' union is reaching the limit. Just after the battle ended, many people went offline directly."

Yuemantian said: "Yeah, we should also discuss the retreat. It is not that our brothers are not good enough to survive to this day, but that the enemy is too foolish and knows how to use money."

Shooting Sirius said, "Help me inform, tomorrow morning at 8 o'clock, everyone gathers, I have something to announce."

"Yes." Everyone notified their men and taken off line to rest, fighting all day, everyone was exhausted.

Shooting Sirius didn't rest. He sent a message to Mu Yi and said, "Brother, brother, I live up to my trust and hold on."

Mu Yi said: "Brother, congratulations, I will tell my brother to go."

Outside the dormitory.

Lu Yang had just finished packing for the 150 newcomers who were coming in and was resting.

Mu Yi ran over and said, "Brother, hold on."

Lu Yang nodded and said, "Yes, shooting Sirius is really a master. Let's rest and attack together tomorrow morning."

Mu Yi nodded, and scratched his head again, and said, "Brother, Sister Yu Wei and Sister Meng Yao, they didn't leave. How can I arrange them?"

Lu Yang forgot about a few of them and said with a smile, "I'll go and see."

Back inside the studio.

At this time, it was time for supper. Xia Yuwei, Shen Mengyao, Zhang Zibo, and Jiang Ze were waiting in line with the dinner plate like everyone else.

Lu Yang walked over with a smile and said, "What are you doing?"

Shen Mengyao said, "Eat."

Xia Yuwei nodded with Jiang Ze and Zhang Zibo.

Lu Yang didn't expect these four to be like this, and said, "Okay, if I don't leave at night, I will arrange dormitories for you."

Xia Yuwei said: "Without your arrangement, Yaoyao and I have already told Xiaoying and Xiaoyu that we are in the same room."

Jiang Ze and Zhang Zibo said, "We and Han Fei are with them."

Lu Yang is speechless. The co-authors are ready to settle in here for a long time, and even the relationship has been established.

"Well, after dinner, we will return to the dormitory. We will go online and start at 1 am."

“Yes, President.” Shen Mengyao said Mengmeng.

Lu Yang smiled and shook his head, followed them to cook, just after 12:50 minutes after dinner.

Lu Yang returned to the dormitory to go online, and just appeared in the inner city. He saw that the drunk wine, Zhou Tianming, Sun Yu, and bitter love half-life have already been online.

“Boss, all of us are ready.” Zhuo Jiu said indulgently.

Xia Yuwei appeared beside Lu Yang and said, “We are also ready, Han Sha and looking up at the dim light have assembled everyone.”

Zhou Tianming, Sun Yu, White Lion, bitter love for half a life, Jiang Ze nodded one after another to indicate that the team had completed.

Hei Yan and Nanfeng Zhiyi and Mu Yu nodded together.

“Boss, all 140 lesser curses are here.”

Lu Yang took out eight storage bags from behind and said, “Send them the camouflage coat in the sleeve, one for each.”

“Boss, is this what you said can be turned into a goblin, isn’t it?” Asked bitter love for a long time.

Lu Yang nodded and said, “Yes, go ahead, I will tell you all how to do it.”

Everyone nodded, took the storage bag to the outer city and distributed it to 3,640 players waiting outside ~ www.mtlnovel.com ~ All the people who got the equipment were curiously looking at the camouflage coat.

Lu Yang stood on the high platform and said, "This thing is called a camouflage coat. It is used to make you a goblin. At my command, everyone puts on a camouflage coat and chooses to become a goblin."

Late at night, everyone was not very focused. When they heard Lu Yang's words, they were curious. After choosing to use it.

“噫”

“噫”

...

3500 people all turned into small green-skinned goblins less than one meter tall in a blink of an eye.

“You are really ugly.”

“You are uglier than me.”

“Haha.”

There was laughter inside the fortress, and all the sleepiness was driven away.

Lu Yang saw that the people were almost relaxed, and said, "Everyone becomes a human."

“Yes.” Everyone changed into a human appearance.

Lu Yang went on to say: "The place we are going to tonight is special. Everyone is not allowed to tell anyone, they are going to Saros with me now."

Xia Yuwei and Zhuo Jiu and others led their teams back to the city of St. Gall and reached the city of Sarros through the portal.

The city of Sarros is remote, and the cost of transmission is expensive. There are still few players to upgrade here. At this time, it is early morning, and no one is in the city.

Lu Yang said, "Everyone turns back to the goblin, and follows me to the goblin camp."

The sound of "噤, 噤" sounded, and 3,500 people became Goblin form, followed by Landing Sun and entered the airship operation company. This is currently the only way to enter the orc territory.

The goblin leader saw Lu Yang, an old acquaintance, and said, "Oh my friend, why are you bringing so many ethnic people?"

Lu Yang took out a bag of 100 gold coins and threw it to the goblin leader, saying: "For the great revival of the goblin family, please send us to the main city of the wolf tribe."
