

Wild Fire 481

Chapter 481 - Rebellion

Lu Yang made a fist and he succeeded.

Opening the backpack, Hertos's magic robe and Hertos's hand protection were shining red.

Hertos' Magic Robe (Asian Legend)

Level: 90

Defense: 82-116

Intelligence: +190

Stamina: +130

Spell damage increased: 606

Spell critical strike increased: 501

Description: The Treasures of Hertos for Humanity

Hertos' Gauntlets (Asian Legend)

Level: 90

Defense: 52-66

Intelligence: +150

Stamina: +110

Spell damage increased: 501

Increased spell critical strike: 366

Description: The Treasures of Hertos for Humanity

Counting the helmet and shoulders obtained yesterday, Lu Yang gathered 4 pieces of Asian Legendary equipment. The attributes of these 4 pieces of equipment have exceeded the total of 17 pieces of equipment other than weapons.

Lu Yang changed two pieces of equipment to his body, and looked at the time just after 8 pm. Just before taking a break, Han Sha dialed Lu Yang's intercom and said, "Brother, don't go to Heilongshan. ambush."

Lu Yang frowned and asked, "What's going on."

Han Sha said: "Huang Xiang and Wang Teng are talking. We overheard the conversation between the two. In the past few days, Huang Xiang inquired about your walking direction from the defender. Wang Teng hired Bloodfang Studio to follow you. . "

Lu Yangqi's fists were clasped together, and said, "This **** Huang Xiang is really good-hearted. It is completely thorough to betray me. Is there any deal?"

Han Sha said, "Wang Teng let Huang Xiang continue to be a spy. He promised that if he defeated us, he would send a fortress and vice president of the guild to Huang Xiang. Huang Xiang agreed, and now Wang Teng is going to the airport by plane. . "

Lu Yang said: "Very well, if Huang Xiang returns home, you will end the surveillance and go to the Red Fortress to use the mother insect to increase the level. After that, you will alternate to Huang Xiang's home every day to follow him."

"Yes," Han Sha said.

Lu Yang turned off the intercom, entered the hotel in St. Gall, and rested, thinking secretly.

Wang Teng hires people to kill him this time, with the purpose of attacking his authority and gaining the heart of the demon god. If they succeed, Lu Yang's undefeated myth will be completely ended, and the prestige in the game will also be greatly affected. Blow.

This is not the main thing. The main thing is that Wang Teng has Liu Jie, the big gold master. He can buy high-level players to kill him, and can also buy other guilds in the holy city to sneak in on him.

Lu Yang dialed Jin Buhua's intercom and said, "Is there anything special about the princes of the Holy City recently?"

Jin Buhui thought for a while and said, "I happened to ask you to say, a new Emperor Guild has emerged. Just now their president, the evil lord, bought me a high-level potion worth 10,000 gold coins."

Since the guilds such as Bloodthirsty, Eternal Soul, and Late Old Man left, there are only a few hundred medium guilds remaining in the holy city, and the Emperor Guild is one of them.

The size of a medium-sized guild is generally between 50,000 and 100,000. Many rich and rich second-generations will play a guild. Usually, they do n't care about throwing tens of thousands or hundreds of thousands into it. Throwing 3 million is absolutely problematic.

Lu Yang remembered in his head that the last-generation Emperor's Guild did not stir up with Wang Teng, but it also caused a lot of sensation.

Lu Yang ended the call with Jin Buhuan, dialed Han Zhong's speaker, and said, "Did the Martyrs' Guild purchase equipment from you?"

Han Zhong shook his head and said, "No, the current sales of level 30 gold equipment are very tight, but the major cities of the Terran are purchasing level 40 gold equipment. Dilie has looked for me. I do n't have a drawing of level 40 gold equipment. So the deal didn't go on. "

Lu Yang nodded. Although he could not tell whether Direi had been bought by Wang Teng, but according to the information at hand, the Direi was absolutely problematic.

"I'm going to draw the equipment drawings of level 40 tomorrow, Master. You buy materials such as the Sejin Mine and Blackwater Snake Skin in advance." Lu Yang said.

Han Zhong said: "I 'm afraid it 's difficult. The 30-level gold material made the material merchant and Liu Jie in the game make a lot of money. This time, the 40-level equipment, all the main cities of the human race, plus the orcs and elves. All of the main cities, the fortress owners, the material merchants, and the guild bosses are hoarding 40-level materials on a large scale. Now the manufacturing price of a 40-level gold equipment is 35 gold coins. "

Lu Yang sneered and said, "This group of people are assholes. They want to ruin this game."

Han Zhong said: "If the government does not intervene and continues this way, this game will definitely not last forever. Players will not be able to save enough gold for a year of hard work."

Lu Yang said: "Look at Master, the main brain of" Second World "will definitely punish these people, and soon there will be changes."

There was an official punishment incident in the last life. The original purpose of the creation of "Second World" was to alleviate the contradictions brought about by the increase in human population. The more players in the game, the more time the problem can be solved for the officials outside the game.

If various consortia continue to squeeze players in this way, players will not make money in the game, and even rely on making money in the real world to subsidize the game, which will inevitably lead to sharper contradictions in the real world.

Another "Second World" is currently not a human brain. It is a supercomputer named Empress. The Queen's intelligence is quite high. Even if there were no nine countries to intervene at the same time, she would interfere in this matter.

In the last life, the Queen's intervention was very violent. At the end of the arena, Dantian ~
www.mtlnovel.com ~ The Queen opened all small copies of 10 people between level 40 and level 100. Any senior player can get one point. If the money is not spent, hit the gold equipment in the copy, and hit the lifeline of all the hoarding material merchants in one shot.

Lu Yang still remembered that the price of 40-level materials was a set of 39 gold coins. On the day when the copy came out, it plummeted to the point where no one bought 10 gold coins. All the material traders lost money, and some consortia even lost a dozen billion yuan. .

Because of this time, the major consortia in the Huaxia server slowed down the pace of war, and each small guild also had the opportunity to develop.

Han Zhong said, "How about we don't make money this time? This time, the hatred has grown too much. The complaints of ordinary players are very loud. I am a bit unsure."

Lu Yang thought for a while and said, "Tomorrow I will go to drawing. Master, after you get the drawing, you will open up the business for one gold coin. We don't sell materials, we only earn wages."

It takes a whole day for a master forge to make a set of 8 pieces of 40-level gold equipment, and it is quite cheap to collect a gold coin.

Han Zhong said, "Okay, I listen to you. If the evil king asks me to build in batches, I will inform you immediately."

Chapter 482 - Wanted

“OK.” Lu Yang said.

After closing the intercom, Lu Yang thought about and decided to go to Heilongshan, but instead of going by himself, he took Hansha and them together.

Taking out the fortress and returning to the city, Lu Yang flew to the inner area of the red fortress.

The self-explosive insects produced by the flesh-mother worm drowned the northwest corner of the fortress again, and Han Sha and 12 other little ones were standing on the top of the city wall and chatting.

“Brother, why are you here?” Han Sha shouted.

“Remnant Flame-Activated”

Lu Yang flew to Han Sha and others with a crimson streamer and said, “Find out for you, kill these bugs and go with me somewhere.”

“Yes,” Han Sha and others said together.

Lu Yang grouped 12 little guys into the team and read the spell in his mouth.

“The Great Lord of Fire ...”

Ten seconds later, a giant meteorite appeared, smashed into the crater, and numerous self-exploding insects were killed instantly.

System prompt: you get 226 experience

...

Thirteen people were divided into experiences, and the number became very small, but the huge number still allowed Hansha and their 12 people to upgrade to a level of 51.

“It’s too fast, it’s too easy to upgrade.” Han Yu said happily.

Han Sha asked: “Brother, what task are we doing this time.”

Lu Yang said, “Follow me to Heilongshan. We will go to the team of Bloodfang Studio for a while and dare to take the task of killing me. Don’t blame me for being ruthless.”

Han Sha and others laughed. The players in Bloodfang Studio are just ordinary people, and they are incomparable with those who have been trained severely.

“I want to make them a broken tooth studio.” Han Yu said with a dagger.

Lu Yang smiled and took out the teleportation scepter. He opened the teleportation sentry tower and chose the location of Heilongshan. He looked around the distance remotely and determined that there were no enemies. Then he used teleportation skills.

After 10 seconds.

A flash of light flashed, Lu Yang flew to Heilongshan with Han Sha and Han Yu.

As soon as it landed, a horseshoe sound came from a distance. Lu Yang couldn’t help frowning and said, “Everyone spreads out.”

Han Sha and others are inherently invisible.

“Spacewalk”

Lu Yang left a remnant flame in the place and hid in the distance, hiding in the distance.

Not long after, more than a dozen players ran over on a shadow cheetah.

“Look, here is a sentry tower and a flame figure, much like Lu Yang left.” A thief player said excitedly.

A group of thief players ran over, and the headed player said, “This is Lu Yang’s iconic remnant flame. Huang Tian can live up to you, really let us find Lu Yang.”

A player next to him said excitedly: “The game has been in service for almost half a year, and no one has ever seen where Lu Yang is upgrading. I can’t think of him on a level 60 map. Oh my god, how many levels does he have now.”

...

Lu Yang stood next to them at this time. The 12 killers in front of him were indeed the Bloodfang Studio. The player headed by them was called Blood Feast. The other 11 people were his classmates and friends.

The blood feast said: “It is possible that Lu Yang has entered the Black Dragon Mountain. We hide in hiding around his remnant flame. Once he flew out, we immediately stopped him.”

“Hey, killing Lu Yang and robbing him of the devil’s heart will make us rich. It will make our studio more famous and the business will be more prosperous in the future.” Said the killer Tianyi.

“I have been waiting for his demon heart for a long time. I don’t know if he is going to use several hundred million ransoms to redeem his demon heart.” The killer Leng Qianyi said.

The remaining 11 thieves laughed out loud.

Lu Yang Lengheng walked out among the twelve and showed up, saying, "I don't know that I will spend hundreds of millions, but I know you guys don't want to leave here alive today."

The blood feast looked at Lu Yang in front of him in horror. Facing the cold expression of Lu Yang, the blood feast couldn't help but swallowed and said, "You, why are you here?"

As soon as the words fell, waiting for the 11 other killers to launch a surprise attack, 12 people including Han Sha appeared behind the blood feast and others at the same time, and the dagger was easily inserted into their necks.

"9598" (triple crit)

...

The **** feast and other people died collectively, and everyone had an unwilling expression on his face.

"It's a bunch of garbage," Han Yu said, playing with a dagger.

Han Sha, Han Meng and others are contemptuous.

Lu Yang sighed that these little guys can have such skills just after receiving Han Zhong's professional training for more than two months. Not only is Han Zhong's education wise, they are also very perceptive.

Where does Lu Yang know that Han Sha and they have to receive various professional killer training from Han Zhong every day. It is most appropriate to receive training at this age.

"Brother, what are we going to do next, should we go after them?" Han Sha asked.

Lu Yang said, "I don't need you to go. It's inappropriate to delay the upgrade to kill them. I'll find someone else."

Since Bloodfang Studios collected the money to kill him, then this time he would not just attack him this time. Only Qianri arrested the thief and did not guard against the thief. Lu Yang decided to completely solve these 12 people.

Taking out the interphone, Lu Yang called Tu Feng and said, "Issuing a Wanted Order, anyone in the Iron Brothers Alliance who kills Bloodfang Studio can get a reward of 30 points with the video."

Tu Feng is working on the copywriting, next to Huang Xiang, smiling to Lu Yang: "The points you give are high enough, the PK-loving guys in the guild have goals this time."

Killing 12 players in Bloodfang Studios will earn 360 points, which can be used to buy many good things in the Guild Mall.

Lu Yang said: "Who made these dozen **** want to kill me, and they didn't want to think about it, how could I not take anyone out when I went out? These fools were caught by my men from the range of Heilongshan. "

Tu Feng understood the meaning in Lu Yang's words, followed Haha and laughed, and after the call was over, Tu Feng returned to his seat with a smile and deliberately laughed again.

Huang Xiang could not help asking curiously: "Vice President, what is so ridiculous."

Tu Feng couldn't help but said with a smile: "What is the Bloody Tooth Studio and actually wants to sneak attack on Lu Yang, isn't this trying to die? When did Lu Yang go out without taking him with a group of people? . "

Huang Xiang's face changed, and he asked, "Did you succeed?"

"Of course not, since they entered Heilongshan, they were discovered by Lu Yang's men. When more than 10 people dismounted, they were attacked by players around Lu Yang for a second." Tu Feng said.

Huang Xiangqiang put up with a lost expression and said, "Oh, that's fine."

Tu Feng looked cold and said, "Dare to dare to attack our boss. This studio really doesn't want to hang out in the holy city. He issued the order and told the brothers in the regiment that killing a person will reward him 30 points."

Huang Xiang nodded. In terms of copywriting, Huang Xiang was a good hand. The wanted order was written quickly. After showing Tu Feng no problem, he passed the order to the whole regiment.

Players who "love" PK, such as black notes and flame knives, have stopped upgrading and flew back to the holy city. With the status and connections of the Brotherhood of the Iron Blood in the holy city today, it is easy to find the blood tooth studio, as long as it is an order, they are willing to help. The number of people in the Brotherhood is even greater.

[World Channel] Flame Knife: "Wanting Order for Two Cities, Bloody Tooth Studio intends to assassinate the boss of our Brotherhood Alliance. It is now wanted across the city. Anyone who sees it can send me a message at any time."

[World Channel] Black Notes: ...

...

Nearly 10,000 Iron Blood Brother League players have released news. The World Channel was screened for a while. On the other side, a video on the forum named Bloody Studios attacking the Iron Blood Brother League President Lu Yang was put on top.

"The courage is fat enough, and I also want to ask the boss of the Jagged Brothers Alliance to use hundreds of millions to redeem his demon heart."

"This is the best-looking joke I've ever seen this year. The mantis arm is a cart and it's beyond our control."

“It must be a running dog hired by a consortium. Such a person can clear the holy city and not allow the Brotherhood to be involved.”

“Yes, the holy city has finally lost the **** guilds, so the brothers can play the game well and not let the running dogs destroy it.”

...

Countless players left messages on the forum, and many players were funny from the beginning to become angry later.

Bloodthirsty Leagues, Yong *, Shenwu Tribe, Supreme Dynasty and other hegemonic guilds were just excommunicated from the holy city for less than a month. Everyone remembers that the holy city server was smoky by these assholes.

Charter leveling, strong buying and strong selling, monopoly of raw materials, etc., each of them makes the player hate them, but they are just ordinary players and have no ability to resist, it was Lu Yang who took away the Iron Brotherhood They, and the Jagged Brothers League never chartered the level, all the 30 maps in the Holy City, any player can upgrade on any map, and no strong buying and selling happened.

Being able to have such a fair guild in control of the holy city is something that most players would like to see.

Players at the Bloody Feast and the Bloody Tooth Studios, such as the Blood Feast, stared in horror at the boiling holy city safety zone, and countless people were looking for the location of their 12 people.

“Let’s go to the wild map first to avoid it. If it is found, we will be miserable.” God said.

The blood feast nodded and said: “All people disperse the action. We avoid it by transmitting the point to a level 20 map ~ www.mtlnovel.com ~ Tianyi and others nodded. They then acted separately and reached the transmission point. A flash of light flashed over them. Upon arriving at Spore Village, following more than 10 rays of light flashing, the Flame Knife led a group of people behind them.

“Hey, good luck, let me catch it. Brothers, kill them regardless of whether it is inside or outside the city.”
The flame knife held a two-handed sword and chopped it down + the fire slashed to the back of the blood feast.

Where did the blood feast think that it would also be attacked at the teleportation point, and then rolled forward to avoid the wind when it felt the sound of the brain. Although it had escaped the fatal injury of the back neck, it was doubled by a double-handed sword to slash the back, He is already residual blood.

Tianyi and so on the other 11 people are the same.

The blood feast looked at the Flame Knife in horror and said, “How are you here?”

Flame Knife sneered and said, “No matter where you go in the future, someone will be waiting for you at the transfer point. You want to sneak attack on our boss. Have you asked us 800,000 members of the Iron Brotherhood? Give me.”

Faced with the elite of the Jagged Brothers Alliance, the Blood Feast and others did not even have the ability to escape and were killed at the teleportation point.

Chapter 483 - Dragon Slayer Camp

He was resurrected in the safe area, and his blood was full of feast. This was the first time he had been killed since playing the game.

“Flame knife, I remember you,” said the blood feast.

Providence asked: “What shall we do now?”

Looking at the players hunted by the city, everyone in Bloodfang Studios showed a terrified expression. They were rounded up by so many people for the first time.

The blood feast gnashed his teeth and said, "I don't believe that Lu Yang can send thousands of people to follow us 24 hours a day. Everyone put on a cloak to go out of the city. We will complete the other tasks of the mercenary union first. We will go to Lu Yang a few days later Settle accounts. "

There are many players wearing cloaks in the game, and Lu Yang can't set cards at the door and open the cloaks one by one.

However, the Bloodfang Mercenary Group underestimated Lu Yang's strength. They even ran to the Mercenary Association to take up the task. The founder of this association was Lu Yang. As soon as he took the task, Tu Feng received the news.

The blood feast dies three times without any thought that the problem lies with the mercenary association. 12 people hid in the hotel and did not dare to go out.

"What should I do? I lost one of my equipment. Then, we won't be able to take on the task." A player of the Bloodfang Mercenary Group complained.

God sighed and said, "It is no longer possible to take on the task, and our business in the Holy City is probably over."

Chased by so many people, not to mention taking the task, can not continue to upgrade in the Holy City can not be guaranteed.

"What then? I'm still waiting for money." A player said.

The blood feast is dark. 12 of them are professional players. Depending on the mercenary association of the Holy City, they can earn hundreds of thousands of credit points every month. If the business here is cut off, their future life will have problems.

“I’m going to Wang Teng.” The blood feast took out the phone and found Wang Teng. After telling Wang Teng what happened here, Wang Teng immediately found Huang Xiang.

“How did you give the information, didn’t you say there was only one person at Lu Yang? Did you put Lu Yang on purpose?” Wang Teng asked coldly, and he paid half of the commission for the blood feast. He attached great importance to the assassination, but when he saw the video on the Internet, 12 people followed Lu Yang.

Huang Xiang was terrified of cold sweat. He did not dare to offend Wang Teng, looked at no one left and right, and quickly whispered, “I see that he was really alone when he left, but that was a few days ago, these days Changes are normal. “

Wang Teng didn’t speak.

Huang Xiang continued: “General Manager Wang, I have given you the internal materials of the Brother League. These things are top secrets. I really trust in them.”

Wang Teng was right. Huang Xiang, the bastard, was not very good. The information given to him was useful. For the time being, this person was still useful. He said, “I didn’t mean to doubt you. There is no way to ambush Lu Yang. “

Huang Xiang thought for a while and said, “It ’s difficult. The blood feast looks very powerful. Now it looks flashy. It’s okay to sneak attack and bully less. After being exposed, you can’t even protect yourself. It’s nothing. Master, and after this incident, I want to find someone to ambush Lu Yang, I’m afraid no one dare to take this business. “

Wang Teng also knows this, and there is no better way to see Huang Xiang. He said, “Let ’s forget it first. You continue to monitor Lu Yang, and then you have a good chance to contact me. I will bring the blood tooth group to Beifengcheng. “

...

Here Wang Teng and Huang Xiang discuss the next move. On the other side, Lu Yang is taking Han Sha and others to a NPC camp in the northwest of Canyang Mountain on the 70-level map.

System prompt: You found the Dragon Slayer Camp

The camp was small, with only a few tents and more than thirty soldiers. Two soldiers guarding the door stopped Lu Yang and asked, "Stranger, what are you doing here?"

Dragon Slayer Guard (Elite)

Level: 70

Qi: 00

Lu Yang said, "Do you have quartermasters here? I want to buy some supplies here."

"Of course," said the Dragon Slayer guard, pointing at the NPC standing in the middle of the camp. "If you need to, you can find General Mars."

"Thank you."

Lu Yang brought the team to General Mars and said, "Can I buy some supplies?"

Mars said enthusiastically: "Although I don't have much supplies here, I can sell you some if you need it."

A purchase dialog opens, and everything except the basic items such as bread and magic water is gray and cannot be purchased.

Han Sha opened the dialog and looked back. Suddenly, his eyes stopped on a design on the third page.

“Brother, brother, take a look, the third page, here is a 60-level dark gold weapon manufacturing map and a 60-level black baby dragon suit, all of them are available.” Han Sha said excitedly.

Plans: Young Dragon Fangs (Dark Gold)

Level: 60

Physical attack:

Dexterity: +69

Stamina: +56

Additional physical attack: +107

Outfit (1/2)

Outfit effect:

Two-piece set: The attack power has a certain chance to trigger the baby’s slam, causing an additional physical attack on the target.

Plans: Black Drake Helmet (Dark Gold, Leather)

Level: 60

Defense: 52—86

Dexterity: +86

Stamina: +81

Additional physical attack: +198 points

Set (1/8)

Outfit effect:

4 piece set: 200 points for agility

8-piece set: increase active skill Black Dragon Shield, magic immunity lasts 5 seconds, cooling time 30 minutes.

Han Yu, Han Meng and others turned to this page one by one. After seeing the design properties, everyone's face was full of excitement.

Level 60 dark gold weapons and equipment are extremely attractive to any player. If they can be obtained, their own strength will increase by one level.

Lu Yang came here for this purpose, and said to Mars, "His general, your equipment drawing is very important to us. I don't know how I can buy these drawings."

Mars knocked the badge on the chest, a pattern of a long sword inserted into the dragon's inverse scale to kill the dragon, and said, "You see, we are the army of dragon-slayers. If you can kill enough Dragon, you will get our approval, and I will open all quartermasters to you. "

"Thank you," Lu Yang said.

After closing the dialog box, Lu Yang said to Han Sha: "Let's go back to Heilongshan and kill the dragon."

Han Sha, Han Yu, and others nodded together. Everyone's face was excited. This was the first time that they were excited since they reached Level 50.

Lu Yang took out the scepter and flew back to Heilongshan with them.

Looking at the black young dragons in groups of 4 in the sky, Lu Yang said, "I have attracted the young dragons. You are ready, and they will drop them in groups of 3."

The killer has a skill called sneak attack, which can cause the target to stun for 4 seconds at the moment of manifestation, and a finishing skill called stabbing, which can stun the target for up to 8 seconds based on the combo point.

When the two are superimposed, one person can stun the target for 12 seconds, and a group of three can stun the target for 36 seconds.

Lu Yang arranged 50 fire dragons on the grass, then walked 30 yards away from the black young dragon in front of him, and read the spell in his mouth, hitting a black young dragon precisely by a blast.

"Neighing ~!"

The black young dragon roared, and rushed towards the landing sun with the three young dragons around him.

Lu Yang quickly retreated to the fire dragon array, 4 black young dragons just arrived at the position of 20 yards in Lu Yang, 50 fire dragons sprayed flames at the same time.

"Let's go," Han Sha said.

Twelve little guys are in groups of three, and they stun the black young dragon with sneak attacks.

Han Sha's damage is now 2200 points, including 3300 points of agility. Even though the black dragon's defense is as high as 2000 points, Han Sha can still deal more than 6000 damage per second.

Incidental agile damage is based on the number of times the weapon is wielded. The killer double-arms the left and right hands and shoots the knife twice every second.

The elite black baby dragon has a blood volume of 1.1 million points. After 36 seconds, the black baby dragon has less than 200,000 blood left. Just before the black baby dragon is about to wake up, Lu Yang flashes to 4 black baby. The middle of the dragon.

“Yan Yang Suo”

Four black baby dragons were trapped by the red chain, which lasted for 10 seconds.

After 6 seconds, four black dragons fell to the ground.

System prompt: you killed the black baby dragon

You get 16866 experience

Four delicate black dragon skins fell to the ground.

Lu Yang picked up the young dragon skin and said, “This is the key material for making level 60 dark gold leather armor. We continue.”

“The burst rate is so high, every one burst.” Han Yu said in surprise.

Lu Yang said: “This is wasteland, and the young black dragons after brushing out are not elite monsters. The chance is only this time.”

Han Sha and others nodded.

Lu Yang took 12 little guys from the bottom of the Black Dragon Mountain to the cave. After digging 10 pieces of meteorite, the time was exactly 11 o'clock.

After the rest of the night, the next morning, Lu Yang continued to take Han Sha to kill the black dragon. From early morning to 5 pm, nearly a thousand elite black baby dragons outside the Black Dragon Mountain were killed by them and more than 500 sheets were obtained. Black baby skin and 60 perfect baby fangs.

Seeing that there was still time, Lu Yang said, "Let's go into the Black Dragon Cave and kill the Black Dragon boss."

The black flying dragon has a small chance to drop the dark gold output ring and necklace of level 60. Now is the wasteland period, Lu Yang wants to try it.

Climb up to the entrance of Heilongshan Cave ~ www.mtlnovel.com ~ A huge black flying dragon climbed to the entrance of the cave. The height of the black flying dragon was about 20 meters, his face was bleak, and his mouth breathed with flame.

Black flying dragon (boss)

Level: 60

Qi and blood: 000

Lu Yang said: "This dragon is also a vertigo-eating skill. Just like the previous play, we must cooperate well and don't let him put his skills."

The breathing damage of the black dragon is more than 30,000, and it will destroy the group when sprayed on them.

"Yes." Han Sha disappeared from the spot instantly behind the black dragon, and two daggers were inserted into the dragon's back at the same time.

“Sneak Attack”

A stun symbol appears on the top of the black dragon head, which is normally 4 seconds, because the boss halts the stun ability by half, which lasts only 2 seconds.

Han Yu jumped behind the black dragon for the second time.

Chapter 484 - Longjing

The twelve little guys took turns using both sneak attack and stun two stun skills. Lu Yang flickered behind them and was ready to put a flame storm to prevent them from making mistakes.

However, what Lu Yang didn't expect is that Han Sha and Han Yu's 12 people worked together as if they were one person. The 12 people took turns to put the vertigo skills into a seamless connection, making people look like works of art.

The black dragon has 3,000 physical defenses and 5000 magic resistance. Although the double defense is very high, Han Sha's damage is more than 5,000, mainly relying on agile damage. Under continuous output, the black dragon can be destroyed every second. Around 2000 injuries.

After Han Meng's last release of the noose skills, just 72 seconds later, the black dragon's blood was killed by 2 million. At the moment when the black dragon was about to wake up, Han Sha's skill was cooled down, and another noose Hit the black dragon.

The black dragon stuns again for 4 seconds.

The black flying dragon is very big. Their 12 people are not standing together, but around the half circle behind the black flying dragon. The first person on the left and the last person on the right cannot see

each other. Others I never thought about going to the bench to help release skills, everyone firmly believed in the teammates around him.

Twelve people can do this, it can only be said that they have a spiritual connection, but the twelve of them have no blood relationship. The only thing that can be explained is that the 12 little guys who were rescued by Han Zhong before they were in poverty and support each other. There was great trust between them, and even if they didn't look at them, they knew that the other party would surely pick up what he should do at that time.

After 120 seconds, the black dragon did not release any skills and fell to the ground.

System prompt: you killed the black dragon

You got 20197 points experience

"Wow, we succeeded." Han Meng jumped up and said happily.

Han Sha and Han Yu celebrated with high fives.

Lu Yang applauded: "Good job, I'll do it like this in the future."

"Um." Han Sha nodded strongly.

"Look what's missing." Lu Yang came to the black dragon.

Black Flying Dragon Necklace (Dark Gold)

Level: 60

Physical damage: 218—256

Dexterity: +86

Strength: +79

Additional physical attack: 116 points

“Good attributes.” Han Yu said.

Lu Yang said: “Luck today is good, let’s continue and see how many necklaces and rings can be hit.”

Everyone nodded.

Continue to go inside, and soon encountered a black flying dragon.

As soon as Lu Yang waved his hand, 12 little guys shot again, so that the black dragon did not die on the ground in one second, and a hexagonal crystal shining with black light fell to the ground.

Longjing

Lu Yang looked at this dragon crystal in surprise. According to the truth, only the lord monster of the black dragon Lazer Carter exploded. It unexpectedly burst out here.

“Brother, what is this?” Han Meng asked.

Lu Yang picked up Long Jing and said, “This is a treasure. I can’t kill the dragon with you, I have to go there.”

Han Sha and their 12 people combined to easily kill the dragon. Lu Yang was not required to follow. After telling Han Sha and them a few words, Lu Yang and Long Jing flew to the city of sin domain.

In the city of sin domain, there are a group of dwarf dwarfs. Everyone who passes by them will ask if there is a dragon crystal for sale. If you give the dragon crystal to them, you can get a level 60 rock golem.

The last time Lu Yang got the magic robe and gloves from the son of the ancient god, he found that his ability was still insufficient. The son of the ancient **** was too reluctant to die, and the last four pieces of the hetos were stored separately. In a map that is even harder than the Son of the Ancient God, Lu Yang intends to upgrade his equipment before passing.

By chance, when Long Jing was exchanged for a rock maggot, Lu Yang felt that he was able to get the last four Hertos suits.

In the southern part of the city of sin domain, there is a row of walls that are 5 meters high. Lu Yang enters through an arch in front. A group of white chubby gnomes are only about 1.3 meters tall.

System prompt: you found the gnome area

An adult gnome guard said to Lu Yang, "Boy, do you have dragon crystals on you?"

"Hey, Turnney, you actually asked this stupid boy, he didn't look like a dragon crystal at first sight, he was only level 60," said another gnome guard beside him.

Turnney said: "Slia, this is what the elders asked us to ask, no matter what."

Slia said, "I don't know why my grandpa has always found Long Jing. What can that thing do, yes, do you have a kid, don't delay our time."

Lu Yang smiled and said, "How do you know I didn't?"

"If you have Longjing, I'll ask my grandpa to give you three times the reward." Slia yelled.

“Sure enough.” Lu Yang took out a dragon crystal from his backpack and said, “Is this right?”

Silia opened her eyes in stun and said, “Dragon and Dragon Crystal, really are Dragon Crystal.”

Turnie quickly said: “Sir, can you come with me to the elder’s home, if you are willing to sell Long Jing to us, the elder will give you a satisfactory price.”

“Of course.” Lu Yang said.

Turney and Silia took Landing Sun into the gnome area, and came to a beautiful house through a beautiful promenade, where an old gnome was standing.

“Tunny, Silia, why did you bring outsiders in.” The elder asked.

“Elder, this person has Longjing.” Turnney said excitedly.

The elder looked at Long Jing in Lu Yang’s hands and said excitedly: “The Holy Spirit is on top. It is really Long Jing, boy, would you sell it to me?”

Lu Yang asked, “How do you want to buy?”

The elder said, “I can give you 10 gold coins, or trade with a rock cricket.”

Lu Yang looked at Silia.

Silia said to the elder in shame: “Grandpa, I just humiliated the gentleman, and bet him if I have Longjing, I will pay three times as much.”

The elder looked at Lu Yang with a smile and said, “My gold coins don’t have that much. If you want rock maggots, I can give you three.”

“I want rock crickets,” Lu Yang said, giving Long Jing to the elder.

System Tip: Your reputation in the Gnome tribe is friendly

The elder took the three rock statues with large purple palms and handed them to Lu Yang. “If you need his help, just choose to activate it.”

Lu Yang took the rock statue and made a fist, saying, “Thank you.”

Rock Statue (Elite)

Level: 80

Qi and blood: 800,000 / 800000

Incidental skills: Taunt, Anti-Magic Shell, Rock Fist

Unexpected wealth, originally thinking that he could only get one statue, now that he has three statues, he can do more.

After resting for half an hour in the place, Lu Yang waited for the teleportation scepter to cool down and flew outside of Rain City, and ran along the road for 2 hours to the front of a red forest.

System prompt: You found the red poisonous insect nest

Two red scorpion snakes dragged their long red hook tails past the entrance of Mori, and they seemed to be full of poison.

Red poisonous scorpion snake (elite)

Level: 90

Qi and blood: 1100000/1100000

This scorpion snake can spit venom remotely, and can also attack with a hooked tail in melee. The power is huge, especially red poison damage. After poisoning, it loses 7000 blood per second, and the poison can stack 5 layers. Can be singled out.

However, this kind of scorpion snake also has a disadvantage, the physical attack is not high, only less than 5,000 points, all rely on toxin output.

Lu Yang's 80-level rock cricket has a physical defense of 5200. The scorpion snake only sheds 1 point of blood on the cricket. The rock cricket also has an anti-magic shell. It is immune to magic and toxin skills. The rock cricket is invincible here.

Lu Yang threw the rock cricket into the air and clicked to activate it. The original rock cricket slaps into a giant cricket with a height of 10 meters and smashed into the forest.

“丝丝 ~ 丝丝 ~”

Dozens of red poisonous scorpion snakes with a length of 3 meters were attracted, and in front of the giant salamander, they used tail poison hooks to attack.

“-1”

“Immune”

“-1”

“Immune”

...

A series of injuries emerged from the top of the giant hoe.

“Fist of the Rock”

The giant raised his fist and circled in place.

“1162”

“1192”

“1865”

...

Rock ravioli’s attack is not high.

Lu Yang didn’t care and let the rock cricket continue to move forward. He followed behind the cricket. Whenever there were more than 30 scorpions and snakes gathered around the rock cricket, he used his skills to clean it up again.

The experience of the level 90 elite monster is very high, but unfortunately only some poisonous sacs burst out. When he got down, he ordered the rock cricket to go to the right. There was no road here. It was a messy bush. After passing through, a huge red-red hundred-footed scorpion snake appeared in front of Lu Yang.

Hundred-footed Scorpion Serpent Leader (Lord)

Level: 90

Qi and blood: 11000000/11000000

The crawling speed of this thing is as fast as lightning. If Lu Yang comes by himself, the chance of getting Hertos bracers and belts is only 30%. Now that he has a rock cricket, Lu Yang feels that the success rate can reach 100%.

“Rocky, attacking,” Lu Yang ordered.

The rock cricket took a big step and ran towards the scorpion leader. At 30 yards, the scorpion lord also saw the rock cricket, his body rotated, and the tail hook flung out.

“噔”

Rock cricket was beaten on hind legs for more than 10 steps.

“226874”

Lu Yang took a quick breath and took out the escape dagger to throw it away from a pure white goddess on the right side of the scorpion leader.

The dagger traversed a distance of 30 yards in the air, a flash of blue light, and Lu Yang appeared.

“flicker”

Lu Yang flashed a white light on his body, continued to move forward for a distance of 30 yards, and appeared in front of the Shentai.

Hidden in this sacred stage was the Hertos suit, which was accidentally stolen by a human thief and encountered the leader of the scorpion and snake when chased by the soldiers. As a result, the sacred stage remained here.

“噠”

The rock cricket was hit again, but this time it was a lot lighter than the last time and only hit 50,000 damage. It is estimated that there was a hit + crit just now.

Lu Yang didn't have much time to think about it, took out the treasure map, and chanted a spell against the goddess. After 5 seconds, a flash of light flashed, and Hertos' wristband and belt appeared in front of him.

Chapter 485 - International master

“Hello ~!”

The hundred-footed scorpion snake's eyes looked at Lu Yang, and he roared towards the landing sun.

Lu Yang rolled up two pieces of Hertos gear. At the moment when the leader of the scorpion snake appeared to him, a flash of white light appeared on the body 30 yards away. Just after landing, Lu Yang threw out the escape dagger. Flashing, the moment the spiky tail spiked into his head, flickered forward another 30 yards.

“Hello ~!”

Lu Yang escaped from two consecutive attacks, and the stolen things were stolen by Lu Yang. The hundred-footed scorpion snake was furious. His body trembled fiercely. A red poisonous mist centered on the hundred-footed scorpion snake. Spread around.

Lu Yang's eyes widened suddenly.

"Spacewalk"

The red mist light passed Lu Yang's body at a general speed. At that moment, Lu Yang dipped into the void.

System prompt: You have been hit by a poisonous plague

"-20000"

A five-digit number emerged from the top of Lu Yang's head. Lu Yang's total blood volume was less than 10,000 points, and by the way empty blood became a mandatory 1 point.

This is the peculiarity of the poisonous plague skill. He will not kill the player, but will continue to poison the player.

The commander of the scorpion snake found that Lu Yang had disappeared, looked around, and suddenly, he locked his eyes on the void, where Lu Yang was holding the Hertos suit.

The body of the scorpion snake trembled again, and Lu Yang shouted, "Taunt."

The rock magpie stood in front of the scorpion snake leader, and forced the taunting skills to be forced. The scorpion snake leader who was about to spray poison was forced to turn his eyes to the magpie itself.

Lu Yang breathed a sigh of relief. The poison to be sprayed by the scorpion snake was killing toxin. The damage of the toxin was only 1000 points. Once the player's health was below 1000 points, he would be instantly killed.

When the scorpion snake led the two toxins to spit out alternately, almost no team could stop it.

Lu Yang took this opportunity to run towards the road immediately, running to the position of two strange trees.

System prompt: Your rock cricket is dead!

"Hello ~!"

In the distant sky, the Baifoot scorpion snake led his body upright, nearly 100 meters high. When he looked down and looked for Lu Yang, Lu Yang had nowhere to look.

Lu Yang looked at his luck once he knew if he could escape.

"Remnant Flame"

A reddish ray of light flew from his body, appearing 500 yards away in the blink of an eye, at the same time, the hundred-footed scorpion snake jumped towards the landing sun.

The silhouette of the scorpion and snake that fell from the sky blocked all the light around Lu Yang. The head of the scorpion and snake was terrifying, and the six eyes were even bloodthirsty.

"activation"

Lu Yang's body turned into a streamer and appeared on the grassland 500 yards away. There were several Level 90 monsters refreshed. Lu Yang's health was only 1 point of blood. When he was touched by any monster, he would die.

“Remnant Flame”

Lu Yang fired the Residual Flame skill again, flying to a distance of 500 yards, six times in a row, the most dangerous one was when Lu Yang just landed and brushed out a level 90 ghost bee. At the moment the ghost bee attacked, Lu Yang launched Verdant heart.

When he landed for the last time, Lu Yang’s sensory nerves were no longer connected to the game.

System Tip: Your neural fit with the game is 93%

If it is lowered again, Lu Yang will have mental and physical disharmony.

“Hello ~!”

The roar of the Scorpion Hundred-footed leader sounded behind him and chased it again.

Lu Yang looked forward, and not far away was a high mountain. As long as he reached the top of the mountain with a residual flame and flew to the top, he could avoid the pursuit of the scorpion and snakes.

“Spelled it.” Lu Yang secretly launched the residual flames three times in a row. Lu Yang came to the foot of the cliff and moved at the speed of light continuously. Lu Yang’s head was chaotic like a paste. Looking at the top of the mountain with a confused look, Lu Yangqiang raised his spirit and started the last One residual flame.

With a flash of light, Lu Yang flew to the top of a cliff more than 300 meters high.

System Tip: Your neural fit with the game is reduced to 90.5%. The system will be forced offline after 10 seconds. Please be prepared.

“10”

Lu Yang shattered the seal of the city roll at this moment.

“9”

“9”

“8”

...

When the last number reached 1, Lu Yang forcibly quit the game while his body flickered.

At the moment when the nerves returned to reality, Lu Yang’s brain buzzed with severe pain, and the pain almost made Lu Yang growl.

Lu Yangqiang resisted the discomfort for more than an hour before feeling a little more relaxed, and sighed, “Fortunately, young, otherwise I dare not play like this.”

Pick up the helmet and put it on your head. Lu Yang connected the game. A metal voice came, “Hello Lu Yang, it has been detected that your neural fit with the game is 92.3%. It is currently not suitable for entering the game, do you want to enter it?” “

Lu Yang’s choice was that he didn’t know whether he had returned to the main city successfully or not. If he hadn’t been killed by the hundred-footed scorpion snake before this time, he had to rush back to pick up the demon heart.

The light flashed.

Lu Yang saw himself appearing in the safe area of St. Gall, and countless players around him curiously surrounded him.

“Oh my god, the chairman of the Jagged Brothers League has only 1 blood left, which is amazing.”

“If anyone can kill someone in the safe zone, Lu Yang is finished.”

...

Lu Yang laughed at the words of the players around him and said, “Why, do you guys want to kill me?”

“Oh, live.” The white light flashed, and the players and beasts around Lu Yang scattered.

Lu Yang shook his head with a smile and looked at the toxin on his body. This toxin will last for another hour. To be on the safe side, he stepped into the hotel in the safety zone and lay comfortably in bed.

Han sofa came to the news with a picture saying, “Brother, we got 20 rings and 11 necklaces.”

Black Flying Dragon Ring (Dark Gold)

Level: 60

Physical damage: 172—223

Dexterity: +78

Strength: +82

Additional physical attack: 116 points

Outfit (1/3)

Outfit effect:

3 piece set: Attack has a certain chance to increase 300 agility for 10 seconds.

If all the black dragon suits are assembled and 2 output accessories are added, Han Sha's physical damage can reach more than 3000 points, and the damage of agile upgrade can reach more than 6000.

Lu Yang said, "Come on, try to get everyone out of the equipment. I've been busy with these days and I will take you to upgrade."

"Yes," Han Sha said.

Lu Yang also ordered Han Sha to say a few words, Tu Feng dialed his intercom, and said, "I asked the Emperor Guild that I checked, and it turned out to be a problem."

Lu Yang raised an eyebrow and said, "Tell me what the problem is."

"This Emperor's Guild is fighting at the same time as two other medium guilds. Judging from the current situation of the war, three guilds that should have comparable strengths will take less than three days to defeat the other two." Tu Feng said .

Lu Yang nodded and said, "It is estimated that Liu Jie or Wang Teng invested."

Tu Feng said, "Is Liu Jie so willing to pay the money? Equip this guild with a large amount of 30 gold equipment. The price of this equipment is still 30 gold coins."

Lu Yang said: "What is sold is money, and what is not sold is waste. I guess Liu Jie found that the level 30 equipment is about to expire, and gave the unsellable inventory to the Dili Guild in advance."

Tu Feng said, "What shall we do then, destroy this Emperor?"

Lu Yang shook his head and said, "Don't pack him for now. If you pack him now, Dili did nothing extraordinary. We will destroy him and it will only have an adverse impact on our guild. Keep him first, and we will go for a while. After the Orc slaughter came back, after the players were heavily equipped with level 40 military uniforms, this bunch of level 30 equipment trash could not be turned upside down.

A total of 100,000 medium-sized guilds can only be used to sneak up on his fortress when Lu Yang is playing against others. Such a garbage guild can be destroyed by a 10,000-person group after Luyang has 40 level equipment. Got them.

After briefly inquiring about other matters, Lu Yang logged into the International Forum of the Second World.

This is an official global public forum that was officially opened before the World Championship. Many experts posted their videos on it. Someone killed the lord, and one person singled out 30 people.

Lu Yang has always wanted to find out how to contact the top players in European countries, and is ready to join them in a trade war.

The capital of each country wants to monopolize the materials of the level 40 gold equipment, and he pits them once on the materials.

After turning a few pages in a row, Lu Yang saw a post called by a player named Friday; the source displayed was Belgium.

Lu Yang opened a post, which wrote a personal experience about the killer PK, and a video is attached below.

"About the killer, the most important thing is the instant burst within 1.3 seconds ..."

Seeing this sentence, Lu Yang has a ten percent grasp of this; Friday is the leader of the five-member team he was looking for in the first world competition of the last generation, Black Friday himself.

Under his post, there were countless comments from players, but most of them scolded him, and many people despised his theory ~ www.mtlnovel.com ~ 7 tricks in a second, what a joke, this is completely wrong possible. “

“This guy is playing Hu Hu, I’m afraid it’s the blogger’s eyeballs. Don’t bother with him, let’s all fall apart.”

“Earn CTR, what a joke.”

...

Lu Yang laughed, thinking that the world champions of the previous life were so horrible, he left a message saying: “If you play this game alone, it is easy to be targeted. If it is a five-player team, there are 4 A teammate cooperates with you to make you play perfectly. If you are interested, leave me a message and I will continue the discussion with you. “

If one to one between masters, who gives you the opportunity to use this burst of output, only after the support of various teammates, forcing the target to release all escape skills, the killer can use the attack to stun for 4 seconds.

After leaving a message, Lu Yang continued to search, but unfortunately, no one was found. Now he can only wait for the response on Black Friday.

Opting out of the game, Lu Yang took off his helmet and rested.

Chapter 486 - Travel to Belgium

Lu Yang took a break here. At the other end of the world, a teenager in a family in Belgium couldn’t restrain his excitement.

“That’s right, I finally found a solution. This man is really a genius.” Black Friday cheered.

A fat player next to him curiously said, "What are you excited about, is there any good thing, Enso?"

Enso said, "I have found a solution to my problem. Come on, Verhalen."

Will Hallen looked at the message left by Lu Yang and said: "Don't rip on your brother, you want to find four people to assist you. I have no opinion. Where do the other three go? Won't serve you. "

Enso said with a disappointed expression, "Yeah, I'm just an unknown little character. Whoever has the strength will make me the main force."

Will Harren said: "There is no way to say that there is a huge arena at Crick Square. If you can prove your strength there, maybe someone will be willing to assist you."

Enso's eyes brightened and he said, "This idea is good, but I have to think about my style of play again. I ask the person who supports me."

Enso opened Lu Yang's post and said in the following message: "You are the first person to believe in my play. At present, my play is not fully formed. Can I discuss it with you in detail? I applied to add your friends, and I hope you can reply to me. "

"That guy just read the post occasionally. Can you reply to your message?" Will Harlan asked.

"I don't know, I hope he can see it, I really want his help," Enso said.

If Lu Yang knew Enso was so eager to find him, he would definitely not go to sleep, but immediately reply to Enso's news.

Early the next morning.

Lu Yang ended his workout and entered the Second World. He subconsciously opened an international forum. He wanted to see if Black Friday had responded to him.

“Drip, drip, drip”

In the bottom right corner, the column of friend information flashes continuously, and Lu Yang opens it.

System prompt:; Friday apply to add you as a friend, do you agree

Lu Yang was surprised. He didn't expect that his message would make Black Friday react so strongly. Click Accept.

On the other side.

Enso, who got up early in the morning, was waiting anxiously on the forum. An hour later, Will Harlan would pull him to Crick Square to train when he woke up. However, he hadn't figured out in many aspects and needed to land Yang verified something.

While he was waiting, he stuttered, and he saw that Lu Yang clicked and agreed.

Enso excitedly initiated a call application to Lu Yang. The game has an automatic voice translation function, and the accuracy of simultaneous translation is 100%.

“Oh, sir, I, I know it's very abrupt to call you like this, I saw the message you sent me, you are right, but I still have a lot of questions on my side and I want to talk to you Check it out, “Enso said.

Lu Yang smiled and said, “What's the problem, let's explore it.”

“Regarding the output of the thieves, how to get teammates out of the formation, the best configuration ...” Enso asked a lot of questions.

Lu Yang said: “The best configuration is a warlock, a shadow priest, a paladin and a psionic mage.”

These four were teammates of the previous World Enso who won the first World Series. This lineup has almost no output, but has strong control.

Enso's questions were all problems that he had solved himself in the last life. Lu Yang told Enso exactly the same according to the interview record of Enso's last life.

The two talked for a whole day, and Enso said excitedly, "Oh, brother, you are really great. All my doubts have been resolved with you. I want to invite you to Belgium to mine. Visiting at home, I don't know if you have time there. "

Lu Yang said, "Okay, I have something to go to you. It's better to talk face-to-face than in the game."

Enso only looked at the excitement and didn't notice the meaning of Lu Yang's words. Suddenly he responded and asked, "Brother, I don't know your name yet, what's your name and how do I call you."

Lu Yang said with a smile: "My name is Lu Yang."

"Lu Yang?" Enso called out excitedly and said incredulously: "Are you the boss of the Iron Brothers Alliance of Huaxia Server?"

Lu Yang said: "It's down."

"Oh my God, I got your professional guidance. I'm so lucky." Enso said frantically.

Lu Yang laughed and said: "If there is no accident, I will take my family and friends to travel to Belgium tomorrow. I will have the opportunity to sit down and talk."

"I will be your guide and I promise to make you have fun," Enso said.

Lu Yang said: "Okay, so it's settled. I still have something to do first."

“See you tomorrow,” Enso said.

Lu Yang exited the forum, returned to the game, opened a special space, and issued invitations to the heads of various legions.

A few seconds later, people like Zhuo Jiu Pour, Xia Yuwei, Bai Xixiong, Zhou Tianming and others entered the channel.

“Boss, what’s the matter,” asked Zhuo Jiu Qing Qing.

Lu Yang said with a smile: “Everyone has been very tired recently. I will give you a benefit. Tomorrow I will treat you privately and take you to Belgium for a lap.”

“Travel abroad?” Mao Qiu and others all showed surprise expressions.

“Boss, is it true? Will we all go?” Mao Qiu asked.

Lu Yang said: “Without you, everyone else will.”

The fur ball scratched the back of his head and laughed. He knew that Lu Yang was teasing him, and everyone else laughed.

Lu Yang said, “I’ll call you without taking you. Boss, am I not looking for a curse, besides, they are all my brothers. I won’t treat them like others. Shooting Sirius and his brother are also invited.”

Everyone nodded.

“Boss, why go to Belgium tomorrow.” Xia Yuwei asked.

Lu Yang said: "On the one hand is to relax, on the other hand it is also to take you to see the masters of various countries in advance, Brussels has a Crikada Square, which is Europe's largest" Second World "battle exchange center."

The white wolf said, "Hey, this is good. I also want to see what the masters of all countries are."

"I'm also curious, I hope they won't let me down."

The bitter half-life is qualified to say this. In a one-on-one battle, the bitter half-life is only worse than Lu Yang.

Tu Feng said, "I won't go, there are too many things in my hand."

Lu Yang said, "Let's go together. It's not a big deal for the guild to run temporarily for three to five days. Another one of us hasn't seen each other offline yet. This time it's a party. Get to know each other."

"So, okay," Tu Feng said.

Lu Yang clapped his hands and said, "Go back and take care of the things in your hand before you leave, and go back and play. I can find trouble for you when the upgrade is slow."

"Oh." The crowd nodded.

After Lu Yang explained things, he quit the game to book a flight ticket. This time the tour lineup is very large, not counting the legion leader, there are only 19 people on his side.

Han Zhong said, "I'm not going. Master is not interested in travel. I'll stay and see."

There are more than 500 people working at the studio. One person needs to stay and guard. This person can only be Han Zhong.

Lu Yang said, "Well then, I'll take this bunch of guys."

Little brothers Han Ying, Mu Yu, Mu Yi and Han Sha all look forward to it, Belgium, one of the most beautiful cities in Europe.

"You will be obedient when you go there. Don't run around." Han Zhonghu said with a face.

"Oh, I see." A bunch of little guys said like the little yellow men, and the excited voice apparently didn't listen to Han Zhong's words.

Lu Yang said with a smile: "Forget the Master, it's hard to go out and play once, let them have enough."

Han Zhong sighed and said, "Okay."

Lu Yang told Han Ying: "Go back and pack your luggage. Remember, just bring a change of clothes and buy the rest."

"Oh." Han Ying and the other guys said together and went back to the room to pack up.

Lu Yang returned to his room and took a rest. By the next morning, he took Han Ying and their 18 little fellows, Tu Feng, Jiang Ze, Xia Yuwei, Shen Mengyao, and Zhang Zibo, and took the two-hour high-speed train to the capital .

When he came to the pre-appointed rest area, Lu Yang recognized the three brothers of the Bai family, his half-life and Han Liu, and the muddy wine dumplings.

"Boss?" Bitter love tried for a while.

Lu Yang patted his shoulder for half a lifetime and said, "Your kid is exactly like the game."

The White Lion and Zhuojiu hurried to Lu Yang, grabbed the arms of Lu Yang with excitement, and fought side by side for nearly five months, and finally met, everyone was very excited ~ www.mtlnovel.com ~ Unexpectedly, boss, you are so strong, I always thought you were a scholar who shook a fan. "Said White Wolf.

Although on the verge of winter, Lu Yang only wore an ordinary coat. His strong physique filled his body with heat and was not afraid of the cold.

Zhang Zibo said: "You are also surprised. The first time I saw Lu Yang, I felt the same way."

Lu Yang said, "You guys are just like I thought. The turbid wine really looks like an old-fashioned sausage."

The muddy wine poured out an embarrassed smile.

Everyone laughed, and Zhuojiu talked about morality and rigorousness. He was born in the same heart. When he saw Zhuojiu at first glance, he could guess who he was without introducing himself.

Lu Yang patted Zhuoju's arm and asked Han Fei and Mu Yi to introduce them to Zhuoju and others.

I waited for five months before I saw it. Everyone had countless words to talk to the people around them. It took 10 hours to fly from the imperial capital to Brussels. Everyone chatted all the way without sleeping.

Chapter 487 - 1 enemy 4

After getting off the plane, Lu Yang took them to the booked hotel to rest.

“Free time, boss, I’ll see someone, you can play wherever you want.” Lu Yang said.

Lan Yu said, “Go ahead and I will take Hansha for you.”

Lu Yang said, “Okay, you take care of them for me, don’t let them go wrong. They haven’t exercised today, so they should go to the gym to exercise.”

“Um.” Lan Yu said.

“Brother, let’s go downstairs.” Han Sha led Han Yu and their 12 little guys.

Looking at them, Lu Yang always felt like a group of little yellow men, and said, “Go, exercise according to Master’s methods. Don’t be impatient.”

“Oh,” said Han Sha and the 12 little ones.

Lan Yu smiled tenderly and took them down to the gym.

The White Lion said: “Let’s also exercise a bit and take a plane for a day. We are exhausted.”

“Then let’s go together,” said bitter love for a long time.

“This proposal is good,” Mao Qiu said.

...

After a group of noisy discussions, they were divided into two groups. One wave and the blue feathers went to exercise and the other wave was free.

Lu Yang took Xiao Liang, Xia Yuwei, and Han Liu out of the hotel. Both Xia Yuwei and Han Liu knew French, and found a taxi. Lu Yang reported the place name, and the group came to a two-story villa.

“The living environment here is so good. Black Friday’s home is too rich.” Xiao Liang said in admiration.

Lu Yang smiled and said, “Do you know how much it cost Black Friday’s father to buy this two-story villa?”

“How much?” Xiao Liang asked.

“300,000 Euros,” Lu Yang said.

“In the current ratio, nearly 3 million credit points.” Xiao Liang said in surprise.

Lu Yang said, “This is not the point. Do you know how much his father paid?”

Xiao Liang shook his head.

Lu Yang said, “The family didn’t take a penny, and the government loaned them 105%.”

“What?” Xiao Liang said dumbly: “Is it 105%? I didn’t spend a penny on buying a villa, and the government still paid 0.5% of them.”

Lu Yang said: “That 0.5% is money for decoration and furniture.”

“No, the welfare of the people in Belgium is so good.” Xiao Liang said in shock.

Lu Yang said: “Belgium is like this, and the welfare is particularly good, but there is another feature of this country, the tax rate is particularly high. For example, if you earn 3,000 euros a month, the government collects taxes of 1200 euros and only leaves you Under 1800 Euros, wait until the end of the year. If all your income exceeds the average monthly 1800 Euros, almost all the extra will be turned in. “

This is the national character of Belgium and why Lu Yang is confident to convince Black Friday.

“Sir, here,” said the driver, pointing to a second-floor villa on the side. “The person you are looking for is here.”

“Thank you.” Lu Yang paid the fare, took Xiao Liang to the door of the room, and pressed the doorbell.

“Who.” A boy came to the door, saw Lu Yang’s eyes light up, and said excitedly, “You, are you Mr. Lu Yang?”

Lu Yang said, “It’s me.”

Xia Yuwei is responsible for translation.

Enso got a positive response from Xia Yuwei, and gave Lu Yang a hug in excitement, saying, “Brother, it’s really nice that you can come, please come in.”

Lu Yang followed Enso into the door. After seated, Enso couldn’t wait to pull Lu Yang into the game. The language communication in the game was convenient.

“I have 5 good friends who are good players. I know you are coming and want to see you.” Black Friday said excitedly.

Lu Yang used Verhalen’s helmet, and his account also borrowed Verhalen’s psionic mage, saying, “Of course.”

“I’ll let them know, we’re going to the arena,” Black Friday said.

Lu Yang nodded and came to the arena after Black Friday. After opening a room, not long after, a paladin, a warlock, and a shadow priest appeared on the field.

The Paladin is a female player, came to Lu Yang and said curiously, "Are you really Lu Yang of Huaxia Server?"

"Don't you know if you haven't played before?" Rev. Shadow said with a smile.

Lu Yang said: "Psionic Master is not my strong point, but the skills of this account are good, you four together."

Black Friday thought that Lu Yang wanted to be humble, but I didn't expect to let them all go together in the end.

"You're not joking, you look down on us too much." Warlock said unhappily.

Lu Yang said, "This is strength, come on."

Verhalen's psionic mage has been transferred to become a space mage, and he has more space department skills, which gives him great confidence.

"Then we're welcome." The Paladin girl retreated back to the warlock, posing in an offensive posture.

System prompt: Countdown to the start of the game

3

2

1

Start

The sound of the machine just fell, and the four of them were about to attack on Black Friday. Lu Yang's blue light flashed in front of the Paladin's sister, and he aimed at Black Friday through the cover of the warlock.

“Whip of Space”

A blue whip with a length of 50 meters appeared in Lu Yang's hands. Lu Yang swept his arm. Black Friday did not expect that Lu Yang was so fast. He just entered the invisible state. Facing Lu Yang's whip, he barely escaped.

The moment the whip passed over his body.

“Space Lock”

Lu Yang's whip came out of his hand, and he circled into a circle and quickly tightened in the invisible area on Black Friday.

Black Friday is still in a bent state at this time, facing the imprisonment of the space lock. If he stands up at this time, he must be locked. In anxiety, he turned around in a moment, and avoided the slightest difference. Space lock.

Lu Yang said: “The technique is good. There are not many people in the world who can escape my attack. Try this again.”

“Did you still have us?” The warlock hurriedly ran to Lu Yang. Just now he and the priest were blocked by the paladin's sister and could not launch an attack on Lu Yang.

“Fear”

The fear of 2 seconds, the warlock knew that the simplified spell could be released in 0.5 seconds, the moment the black light formed in his hand.

“Spell Countermeasure”

Lu Yang used the magic counter-attack skills in an instant, hitting the black light of the warlock.

The system prompts: You have successfully countered the warlock. For the next 10 seconds, he cannot use the shadow spell.

Warlocks only use shadow spells, which means that there is no output for 10 seconds.

“So strong!” Warlock looked at Lu Yang in horror. He didn’t expect that his most proud skills made Lu Yang so easy to crack.

“Look at me.” Rev. Shadow pointed at Lu Yang with his hand.

“intimidate”

Instantly control the spell, a gray light went straight to Lu Yang’s head.

At that moment, Lu Yang turned his head to the right, easily avoiding the black light, and pointed the priest with his finger.

“Time Crystal”

The priest was instantly controlled into a crystal and was unable to move for 7 seconds.

The Paladin girl looked angrily at Lu Yang in front of him and said, “Hurry up, why are you always blocking others?”

Lu Yang said with a smile: “I don’t stand in your way, do you want to release their control?”

Because of Lu Yang's obstruction, every skill of the Paladin girl was hit on Lu Yang's body, because it was an enemy player, it was shown as invalid.

Black Friday couldn't find a chance to sneak attack on Lu Yang's back, and could only attack from the front. When he came to Lu Yang and was about to use the sneak attack, Lu Yang read the spell.

"Psionic Light Burst"

With Lu Yang as the center, a shining light was lit.

"2268"

"2286"

The Paladin girl was attacked, and Black Friday was hit.

"Lenna, run aside and don't need your blood for the time being," the warlock shouted.

The Paladin girl reacted and ran to the corner of the arena. Lu Yang smiled and said, "You can't run."

"Change Sheep"

A flash of light flashed, the Paladin girl had no chance to drive invincible, and was turned into a little sheep.

Lu Yang looked back at Black Friday coming over.

"Space Jump"

This is the advanced skill of the space mage. The light flashed and jumped beyond 30 yards.

“Space Shining Explosion”

Lu Yang pointed at Black Friday with his staff, and the spells in his mouth continued to read, and the range skills fell on Black Friday.

After 5 seconds, Black Friday is dead!

Seeing this, Warlock and Rev. Shadow said together, “We lost.”

Lu Yang said with a smile: “I know you must have the ability to release control, why not.”

“Four people hit you with de-control. What a pity, but you are really strong. I feel that even if we use de-control, we may not be able to kill you.” Warlock said sincerely.

Lu Yang said: “I want to win you is also very difficult, after all, the three of you are strong control roles.”

Black Friday came back to life, hehe said with a smile: “Now you believe he is Lu Yang.”

The three paladins nodded together.

“Master, can you teach me? When you were fighting against me just now, this trick was too great.”
Paladin said.

Lu Yang said: “Of course, don’t think this is a rogue play. In fact, this is the simplest and most practical field control skill. It has the best effect on long-distance occupation.”

The four nodded and were taught. Just now they saw it with their own eyes. This was too good.

Not long after, Verharen went online with his trumpet and said, "Where did you talk?"

"Hey, just now President Lu Yang used your account to defeat four of us ~ www.mtlnovel.com ~ said the Paladin sister.

"How is that possible?" Verhalen said.

"You'll know after watching the video for you, listen to the master's explanation first," said the Paladin girl.

Lu Yang smiled, continued to talk about the team fight with the four, and gave them a demonstration.

...

Two hours later.

Lu Yang looked at the time, it was already more than 10 pm, and said, "Come here today, and we will talk again tomorrow."

Black Friday said endlessly: "Let's not stay in my house tonight, after listening to your teachings, I have overturned the concept of PK."

The Will Harren and the four nodded together. They never thought that Lu Yang could tell hundreds of PK techniques and combat skills, many of which they had never seen before.

Where do they know, Lu Yang is an "old player" who has 10 years of PK technology. He hasn't seen any kind of technology. What he talks about today is just fur.

Chapter 488 - Sign Titans

Lu Yang said, "You can't live anymore. Besides, I teach you not to be free. I want to invite you to join my studio."

"Join the studio?" All five looked surprised.

Lu Yang said, "Yes, I will teach you here, and always help you reach the world-class level, and then I want you to do something for me."

"What's the matter?" The warlock asked in surprise, he didn't know how busy their five unnamed pawns could help a super guild like Lu Yang.

Lu Yang said, "Nothing to say, I ask you, what is the price of your server's 30 and 40 gold equipment?"

Enso and Verhalen looked at each other.

Enso shrugged his shoulders and said, "We are EU servers. The material merchants from Italy and France are hoarding maliciously. The major guilds in Germany and the Netherlands do not allow ordinary players to accumulate materials. Currently, they only make materials for level 40 gold equipment A group requires 5 gold coins, and expensive ordinary players can't afford it. "

Making a set of gold equipment requires 8 sets of materials, and counting a set of equipment requires 40 gold coins.

Will Harlan said angrily: "If we are not good at five people, we have been leveling up, and we can't get level 40 equipment now."

"Ordinary players have made them bully miserably, but none of the guilds are willing to preside over justice, and there are malicious speculation there." Rev. Shadow said.

The Paladin sister said angrily: "The people who hate the most malicious hype, good games make them what they are now."

In any player who loves Second World, the game should not be like it is now.

Lu Yang asked: "The purpose of my visit this time is to change the current situation, and I need your help."

The Warlock player asked a little confused: "Can we help, aren't we on two servers?"

Lu Yang didn't answer, but said with a smile: "Don't talk about this first, do you know how much the raw materials for European service gold equipment manufacturing cost in China?"

Enso and others shook their heads together.

Lu Yang stretched out five fingers and said, "A group of five silver coins."

"What are you talking about? Only 5 silver coins?" Said the elder brother with the eyes of the Paladin girl open.

Lu Yang said: "Yes, as long as 5 silver coins, and our server is also worth a set of 8 gold coins, in your case you only need 4 silver coins and 30 copper coins."

"Oh my God, if you can trade on both sides, you will make a lot of money." Rev. Shadow said.

The Paladin sister said in a loss: "How is this possible? The servers on both sides are not compatible."

Lu Yang said with a smile: "Servers are not common, but international games are common. If you throw something on the ground during the game, you throw it, can't I pick it up?"

As if a window opened in the heads of the five Enso.

“Yes, yes, you’re right, that’s it, we can exchange equipment in the game.” Rev. Shadow said with a touch of excitement, saying that this is a subconscious action that expresses his excitement and represents praise.

Enso said: “If we can enter the international competition, we will fight for the prize money, do not deal exclusively, and not only make a lot of money, but also reduce the price of materials, this idea is great.”

“However, we have to enter the international competition first, which is a bit difficult.” Warlock said that they used to upgrade occasionally together, not a fixed team, and had not previously undergone special training.

Enso and Verharen thought everyone here was depressed.

Lu Yang said: “With me, it’s very easy for you to enter the international competition. I will give you special training for 5 days to ensure your success, and I will guide you all the way to the promotion until you meet and deal with the group of 5 under my control.

“Is that okay?” Rev. Shadow asked excitedly.

Lu Yang said: “Simply in terms of PK, you are not bad. With the above, as long as Enso is the mainstay, your play is likely to win the domestic championship.”

“Enso? Does his play style work?” Said the Knight Girl.

Lu Yang said, “Knight sister, you try to add blood to Verharen with Holy Light. I stand in front of him and see if you can add it.”

“I can’t add it, I have tested it just now, and every time I add blood, you can stop in front of me at that moment.” Paladin said.

Lu Yang said, “Do you know why this is?”

Enso and others shook their heads.

Lu Yang said: "There is a difference between games and reality. In reality, human beings are physically restricted, and many of his practical abilities cannot be exerted.

For example, responsiveness.

In reality, everyone is an ordinary person. Without professional training, everyone is not much different, but in the virtual body of the game, there is no physical limitation. They can use their talents to the limit. Although the knight girl's skills are at the speed of light, , Her hand speed is limited, as long as I block him in front of the moment he put his skills, his finger is me, not Verhallen. "

The Knight Girl nodded and said, "It's true, but this has nothing to do with Enso."

Lu Yang said, "Did you not find out, the people who were able to escape my time and space whip and time and space chain in that situation can only be achieved by players with extraordinary reaction ability."

"Do you mean Enso is not an ordinary person?" Verhallen said in surprise.

Lu Yang said: "Yes, that's why many people see Enso say 1.3 seconds and hit 7 times that he is nonsense. Only players with an overly fast reaction can do this, as long as Enso uses it properly. His talent, coupled with professional system training, the five of you have a great chance of winning the five-person championship. "

Enso said excitedly: "I knew my theory was reasonable, boss, would you stay and help us, right?"

Warlock and Rev. Shadow also both looked at Lu Yang with excitement and won the European Championship of the World Series. No one can live with it.

Lu Yang said with a smile: "It depends on whether you want to join my studio."

“Yes,” Enso said first.

The Warlock, Paladin, and others looked at each other and said together, “We are willing too.”

Will Hallen scratched his head and said a little embarrassedly: “Well, there is still a problem. If we enter the international tournament and trade with your team, how will the money be divided.”

Lu Yang said, “I’ll give you 50% of the income, how about it.”

“I don’t have a problem then, I’m willing,” Verharen said.

Lu Yang saw that everyone had no comments, chose the contract document, found the contract he had saved and transferred them to five people, and said, “Let’s sign the contract.”

Enso and others nodded and signed his name on the contract.

Lu Yang closed the contract and said, “Here it is today. I will start professional training for you tomorrow. As soon as I leave the game, I will give you 200,000 euros in cash. You use this money to upgrade the gem level and yourself. grade.”

“Wow, it’s cool enough,” said the Knight Girl, this is the first time they have received the investment, and it is still such a large amount.

Lu Yang said: “Don’t underestimate this game. Many Grand Guild players are desperately trying to improve their level. You don’t want to win. It’s not that easy. Let’s quit the game first.”

The five men nodded quickly. After exiting the game, Lu Yang signaled to Xiao Liang. Xiao Liang handed the suitcase to Enso. After opening it, there was neat 20 yuan of cash.

“Boss rest assured that we must work hard to reach the international competition.” Enso and Will Hallen took the money together, cheering.

Lu Yang patted them on the shoulders and said, "It's too late today. I'll go back first. I'll be on time tomorrow morning at 9 am."

Enso and Verhalen sent Lu Yang together and they left the gate. Not long after, the knight sister, warlock and priest came to Enso's home and saw 200,000 Euros in front of them. Everyone His expression cannot be calm.

"Oh my God, it really gave us so much money."

"Our new boss is too generous."

"Of course, they are the president of the well-known Grand Guild of Huaxia Server. We are rich this time."

...

When the five were excited, on the other side, Xia Yuwei and Han Liu were looking at Lu Yang with examining eyes on the carriage.

"Boss, should you tell us something?" Xia Yuwei said.

Lu Yang smiled and said, "What did you say?"

Han Liu took a breath and said, "That money, tell us the truth, what are you doing? There must be a conspiracy."

Lu Yang can't wait to roll his eyes and said, "How is it called a conspiracy, my name is good planning, but I'm your boss, why do you make me think so dark every time."

"Ha ha." Han Liu rolled his eyes, leaned his waist, and said, "Explain it quickly, and we want to know."

Xia Yuwei nodded quickly and said, "Speak quickly."

Lu Yang smiled and said, "When you should know, I will let you know. Don't be so curious."

The two women are speechless ~ www.mtlnovel.com ~ Curiosity is the nature of women, even two iceberg beauties. When they heard Lu Yang say that, they simply used the skills of soft grinding and hard foam, tossing Lu Yang all the way.

Unfortunately, Lu Yang's mind is as solid as a rock.

Hotel entrance.

The coachman said, "Several gentlemen and ladies, you are here."

Lu Yang gave the coachman the money and walked into the hotel leisurely. Xia Yuwei and Han Liu followed each other with enthusiasm. The two encountered this frustration for the first time.

"Waiter, please ask me, where are the guests in rooms 9109 to 9137 now?" Lu Yang asked with his room number plate.

The waiter couldn't understand Lu Yang's words, and Xia Yuwei walked helplessly to help translate.

"Oh, they're still in the gym on the negative floor," said the waiter.

Lu Yang heard Xia Yuwei's recount, took them to the negative level, and just entered the gym, just to see the stunned expressions of Baixi Sanxiong and bitter love half-life.

Chapter 489 - Battle of Creek Square

“What a look, what happened?” Lu Yang asked.

The white wolf saw Lu Yang coming and said, “Boss, what kind of training did your younger brothers and sisters receive? For nearly three hours, they haven’t stopped and the training intensity is too high.”

Lu Yang looked at Han Fei and Han Sha, and each of them was engaged in “conventional” training programs such as arm strength, wrist strength, waist muscles, and leg muscles.

Lan Yu distressed and said, “Brother, do you have to do such a cruel training?”

Zhuo Jiu and bitter love for half a lifetime looked at Lu Yang.

Xiao Liang scratched his head and said, “It’s nothing, it’s just strengthening exercise. It’s hard to stimulate our potential every morning to stimulate exercise.”

“Is there anything worse than this?” The White Lion asked.

Lu Yang smiled and said, “Han Fei, look at the dart.”

Two game darts appeared in Lu Yang’s hands, his arms flung, and the two darts appeared in front of Han Fei in a blink of an eye.

“Be careful,” the White Lion and others shouted.

Han Fei was working out. He heard Lu Yang’s words backflip and easily avoided two darts. He said proudly, “Brother, you shouldn’t remind me, it’s too simple.”

Everyone: “...”

Han Yu took off the dart, walked to a position 10 meters away from Lu Yang, flung his arm and went straight to Lu Yang’s eyes.

“Be careful, sneak attack.” Zhuo Jiu and others shouted quickly.

Lu Yang didn't move, his hands lifted like lightning, and he clamped the two darts in his hands.

The crowd breathed out.

“Don't fight like this,” Zhou Tianyan said.

Han Yu said, “This is just our usual training.”

Everyone: “...”

Lu Yang smiled and flung back. At the same time, two darts hit the red target of the dart target 10 meters behind him at the same time, and said, “I know why my mage has such a high evasion ability. Pyroblast hits you, but you cannot hide ?”

The crowd nodded in admiration.

They battled Lu Yang. Lu Yang Mingming was a mage, but they couldn't hit Lu Yang with their skills, but Lu Yang's skills always hit them. Even the instant attack skills such as charge were still used by Lu Yang. Unbreakable, cracked with Pyroblast.

For a long time, they did not understand how Lu Yang did it. Only after seeing his brother and sister exercise, they realized that how much effort Lu Yang had put in behind him.

“Boss, I want to learn.” White Wolf suddenly raised his hand and said.

“I want to, too,” said bitter love for a long time.

“Me too,” said Zhuzhuo.

...

Everyone except girls wants to study with Lu Yang.

Lu Yang said: “This is a family tradition, but the basics can teach you, if you are interested, try to exercise with me tomorrow.”

“Yes.” White Lions and others agreed in a cheerful manner, but the next morning, when they saw Lu Yang and Han Fei, even the youngest of Mu Yi, Han Sha, etc., they were shocked by the training and they were shocked. shocked.

The last muddy wine that persisted for half an hour fell to the ground and said, “Boss, I can’t do it.”

Lu Yang was training, sweating his head and ignored them. After 2 hours of continuous exercise, he leaned against the wall and looked at the depressed muddy wine sitting next to him. learn.”

“Learn.” White Lion and others said together, everyone’s eyes were firm in their eyes.

Lu Yang said, “In the future, you will exercise this way for half an hour every day for more than a year. You will have few rivals in the game.”

White wolves and others looked at Han Fei, Mu Yi, and others with indescribable feelings on their faces. They believed that what Lu Yang said was true, but the so-called no rival did not meet Han Fei and Han Sha If they meet, they can only be defeated.

Lan Yu went to Lu Yang and said distressedly, “Brother, let me help you.”

Lu Yang shook his head with a smile and said, “This is my practice, which must be completed independently. Don’t worry, I’m fine.”

Han Liu and Xia Yuwei glanced at each other. Last night, they didn't think about it. They both used coquetry. Why couldn't Lu Yang be indifferent? It turns out that the truth is here. People, not what they can control.

After half an hour.

After Lu Yang finished washing and went downstairs for breakfast, Lan Yu led Han Ying and Han Sha out to play.

"Boss, are we going to Creek Square today?" Bai Lang asked eagerly.

Lu Yang said, "Of course."

"Boss, we're here." Enso and Will Hallen walked into the hotel with three others and beckoned to Landing Yang.

Lu Yang introduced it briefly, without saying anything about investment, saying, "Let's go."

"I'll show the way," Enso said.

A group of people took a tourist carriage and came to Crickdale Square. Among the huge buildings on the left side of the square, there are six large characters of Crick Arena.

Lu Yang followed Enso into the gate of the arena, and there were huge cheers and shining electronic screens.

In the middle of a huge open space, there are four 100-inch electronic screens, each of which is divided into 20 small pieces, showing the video of the battle.

There are countless players gathered around the screen, the front row is wearing a helmet to participate in the game, and the back row is the audience.

Suddenly, four screens flashed light at the same time, and the combat video became one. In a piece of grass, a thunder mage successively defeated a fire mage with the skills of thunderbolt, thunder whip and lightning arrow.

“K.O”

“Oh oh oh oh ~~~~, Tang De, Tang De, and Tang De, from the day before yesterday to now, he has achieved 88 consecutive victories. He is an invincible Mage Lei, he is an invincible genius. “A host in sunglasses is roaring hard into the microphone.

Countless players around cheered violently, and the player named Tang De took off his helmet and jumped onto the big screen in front of the stage with his hands held high, his face proud.

Will Harlan pouted and said, “This guy has won again.”

Lu Yang asked, “Who is he?”

“His name is Tang De, a German. The name in the game is Lightning Chariot. Like the boss, you are a master of the Master’s free mode. One-on-one battle is very powerful.” Enso said.

There was a fierce move in Lu Yang’s heart. Tang De didn’t know him, but he knew the Lightning Chariot. He was a frequent champion in the personal and five-player battles of the last life.

“Isn’t he German? How did he come here?” Lu Yang asked with interest.

“Who knows, here comes the provocation on purpose, the skills here are open-minded, anyone can choose an existing” Second World “skills to fight.” Enso said.

on the stage.

Tang De picked up the microphone and shouted, “I said, Lu Yang is a garbage. He can only prestige in a country like Huaxia without a master, and I can hang him.”

The surrounding players cheered in unison.

Lu Yang frowned and said, "How did it get on me?"

Enso said: "The man who played against him used the fire method, and his skills are exactly the same as those of the boss."

Will Harren said: "Boss, your video of fighting in Huaxia is too bloody, and it has led the whole world to follow the trend and learn how to fire. He may be right."

Lu Yang nodded.

In the stands.

"Is there any fire method that dares to challenge me and win me, all the bonuses I get today belong to him." Tang De said loudly.

There was already 50,000 euros in the prize pool in front of the stands. At this moment, countless people were stirred up by hormones.

"I'll fight you."

"I come."

...

The host came to the stage to let the security guard control the scene and said aloud, "If you want to challenge Mr. Tang, you must have a record of 10 games in a row or pay a challenge fee of 1,000 euros, whoever comes."

Players who can win 10 games in a row are dropped by Tang De KO. Others can only pay if they want to challenge. For a time, the player's enthusiasm decays.

"Who dares to challenge me, are you all cowardly cowards?" Tang De continued to stimulate everyone's nerves.

The host asked: "If there is anyone, whoever wins can win 50,000 euros."

There was no one in the audience to fight, just when it was going to be cold, a voice came from outside the field.

"Our boss is going to fight him." Xia Yuwei said.

Shua

For a moment, countless people looked in the direction where Lu Yang was. Lu Yang, who had just bought a V-shaped mask from the side, took Xia Yuwei, Xiao Liang and others through the crowd to the front.

Xia Yuwei put 1,000 euros into the bonus pool and said arrogantly: "In advance, our boss does not challenge him, but wants to educate him."

"Someone is fighting. Okay, how are the two going to fight?" The host asked excitedly.

Xia Yuwei said: "Although Mr. Tang De chose the way of playing and the venue, our boss doesn't matter."

Tang De thought that Lu Yang would choose a game that was beneficial to him. He did not expect that Lu Yang was maddener than him. He pointedly said, "You dare to despise me."

Xia Yuwei said: "It's your luck, our boss is willing to point you personally, learn it, kid."

Tang De is a typical German, with a height of one meter nine, a blond hair, and a big body. He was loved and unsaid as a child, and was extremely angry for a while.

“Okay, just on the map just now, I will make you regret what you just said.” Tang De walked back to his seat and put on his helmet.

Lu Yang found a seat and put on a helmet to enter the game.

This is a pure arena ~ www.mtlnovel.com ~ Players can choose their professions and skills to match, the level is set at level 60, and the equipment is set to the whole body dark gold level set.

Lu Yang chooses the fire mage, the skill is the light fire castle skill and the conventional skill.

Tang De laughed arrogantly: “It’s really looking for death. I dare to use the fire method, I will let you know how bad it is to choose the fire method.”

Lu Yang laughed and threw the staff on the ground, then took off his helmet, clothes, and leg armor.

Outside, the four big screens were all playing the battle pictures of Landing Yang and Tang De at this time.

“Boss, what is this for?” Enso asked.

Xia Yuwei and others shook their heads.

“Is this man crazy?”

“He didn’t fight with Tang De without equipment. What did he think?”

...

Countless people have been blinded.

Chapter 490 - Don De joined

Tang De was also blinded and looked at Lu Yang and said, "You, what do you mean?"

Lu Yang dropped the last piece of equipment on the ground and said, "How about a bet."

"What bet?" Tang De asked.

"I won you, I don't want money, I want you to be a member of the signing studios under me." Lu Yang said.

"Ha, if you can beat me like this, I am willing to recognize you as the boss." Tang De said.

"It's all about one word," Lu Yang said.

System prompt: Combat is about to begin

3

2

1

Start

With a bang, the battle started, Tang De made a preemptive move, ran three steps on the side, and suddenly stopped in place, and the spell was read instantly.

“Zi ~ Zi ~”

A shot * shot at Lu Yang with a bluish light.

* It is the fastest attacking skill of Mage Thunder. The ballistic time of 30 yards is only 0.4 seconds.

Just when everyone thought that Lu Yang would be hit, Lu Yang turned sideways ghostly, rubbing his clothes and flying.

“Miss”

Taking off the equipment, Lu Yang’s blood volume was very low. Tang De was confident that he could kill him in one second. Tang De was dumbfounded when Tang De sneered watching Lu Yang being killed by him.

“How could it be MISS, you, how did you do it.” Tang De asked incredulously.

Lu Yang smiled and said, “You have 2 opportunities to attack, and then I will attack.”

Tang De was so angry, he didn’t believe that Lu Yang could really escape the 0.4 second trajectory every time *, read a spell in his mouth, and pointed Lu Yang with his hand.

“*”

A blue light flew across the air and flew towards Lu Yang in an instant. At the same time, Lu Yang easily rotated his body and passed by.

“Miss”

“It’s MISS again.”

“God, how did it happen.”

“0.4 seconds, what’s the reaction speed?”

“Great God.”

...

The player looked dumb.

Xia Yuwei and Bai Shisanxiong and others were also stunned.

“It seems that the boss had never used his full strength with us before.” White Lion said.

“I don’t want to live anymore. The boss has been teasing us for a while. I thought I would be able to challenge the boss for a few more months.” Bai Lang said with tears.

“I think so too.” I loved crying for half my life.

Xia Yuwei and Zhuojiu looked at the two living treasures silently.

Voiced wine said: “You two are really tooyangtoosimple.”

White Wolf: “...”

Love half a life: “...”

On the court.

Tang De stayed in place for 10 seconds without any shots. The masters overtook the tricks, and the two moves could know what the opponent's reaction speed was. Seeing Lu Yang's speed, Tang De was really shocked.

"Hurry up."

"Why not fight?"

Off-court players started to coax.

Tang De gritted his teeth and said to Lu Yang, "I admit that you are strong, but you have chosen not to wear equipment, so don't blame me."

"What do you want to do," Lu Yang said.

Tang De stepped forward and stepped closer to Lu Yang step by step, saying, "I don't believe you can escape my skills at a distance of 10 yards."

Lu Yang shook his head with a smile and said, "You don't understand. I hide from your skills, not just from skills. You lost this game."

Tang De walked up to 10 yards in disbelief and raised his hand to hit Lu Yang. At the moment when he raised his hand and was about to release his skills, Lu Yang stepped to the left like a ghost and read the spell in his mouth.

"Flame Shock"

A blaze of fire exploded at the front of Tang De's staff, and Tang De was stunned for 2 seconds.

“flicker”

Tang De immediately jumped to a distance of 30 yards. Just after landing, Lu Yang raised his hand to hit Dede’s face.

“噔”

“662”

Tang De took a step back in place. This was the knockback effect of Pyroblast. He just stabilized his body, and another Pyroblast hit him exactly, Tang De stepped back.

Tang De was already snoring at this time, but the people outside could see clearly. They were shocked to see that Lu Yang had just used the flashing skills and stood in front of Tang De 5 yards. There is no possibility of evasion.

“Tang De lost.” Xia Yuwei said.

White Lion and others have cheered up Lu Yang crazy. Who would have thought that Lu Yang had such an operation.

“Good job.”

“Boss come on.”

...

The audience on the court was also excited by Lu Yang’s play.

“Pretty, keep fighting.”

“God of fire playing.”

“I learned this skill. It’s amazing.”

...

Lu Yang couldn’t hear the outside voice, and was concentrating on the spell of Pyroblast. Tang De had already been beaten with no power to fight back, and could only watch the blood drop continuously.

This mandatory knockback effect makes him unable to do anything without other escape skills.

After 30 seconds.

Tang De’s blood was shortened to 0 by Lu Yang, but he fell to the ground helplessly.

System prompt: Player V wins

This is Lu Yang looking at Tang De who stood up again, with a faint smile on his face.

Tang De bowed his head and said, “I lost. Your skills are much better than mine.”

Lu Yang clicked to close the live video and chose to reveal his original appearance, and said to Tang De: “Your technology is good, how about joining us.”

Seeing what Lu Yang looked like, Tang De said confused: “You, are you Lu Yang?”

Lu Yang said with a smile: “It’s me.”

Tang De nodded and said, "I'm willing to lose, you are really a master. I can join you, but I need to exit my studio first."

Lu Yang said with a smile: "You do n't have to worry about it, you can bring your studio to join, and I will provide you with funds to expand your studio."

Regarding Tang De, Lu Yang knew everything clearly when Tang De was interviewed in the last life.

The purpose of Tang De entering the game in the last life was to avenge his father. His father was killed by a gang in Germany. After learning that the gang invested a lot of cash in the game, he wanted to let the gang bleed in the game. No return.

Lu Yang said that he was preparing to trade equipment in the world competition, and Tang De immediately agreed.

"Your idea is awesome. My enemy is hoarding a lot of equipment this time. I must make him bankrupt this time." Tang De said excitedly.

Lu Yang deliberately asked, "Can you have any enemies tell me?"

Tang De was right, and he did not conceal the truth of the matter, and finally said, "That guild is like the guild created by the black blood of your country in China. It is very powerful now."

Lu Yang said, "I give you a chance. I don't want a single point of the money earned in this international trade. I will give it to you to build a guild."

"Really?" Tang De said excitedly.

Lu Yang smiled and took out the contract and said, "Of course, sign it."

Donald did not hesitate to sign his name and was able to get revenge, he was willing to give everything.

Lu Yang was thrilled to accept the contract. This time he did not come to Belgium in vain. He also received a tyrant and attached a studio.

Another thing is that Lu Yang makes money in the game is not the purpose. His purpose is to pit Liu Jie fiercely. They dare to fry the level 40 gold equipment to a set of 40 gold coins. As long as Lu Yang gets the materials in various countries, although Liu Jie cannot be bankrupted, but Liu Jie can be hit hard.

Tang De said: "Boss, tomorrow I will take you to my studio to see how it is. Germany is right next to Belgium and it will take you three hours to drive."

Lu Yang said: "Not for now ~ www.mtlnovel.com ~ Remember a word, from now on, you don't tell anyone to sign my studio."

"Why?" Tang De asked.

"I am going to establish a secret organization that is all top international experts. At present I have enlisted five of them and you. We will have a video call every Saturday." Lu Yang sent his phone number to Tang De.

Tang De nodded a bit, and said, "Boss, I will do my best."

"I believe in you." Lu Yang finished speaking and clicked to quit the game and took off his helmet.

Tang De also quit the game without looking at Lu Yang and left with money from the bonus pool.

"Boss, why did you withdraw so long?" Mao Qiu asked curiously.

Lu Yang smiled and said, "Thank you again with Tang De. Let's play each other."

“Oh.” The White Lion and others didn’t think much, looked at Tang De, and went away to play.

Chapter 491 - Li Xiuyu

“Let’s go training as well,” Enso said.

Lu Yang said, “Come on, let’s find a machine and I will teach you how to cooperate.”

The five people nodded, followed Luyang and walked to the corner of the machine to enter the game for special training.

For the next five days, Lu Yang led the team to play Brussels in the morning, and guided Enso’s five-person training in the afternoon.

The fifth day in the afternoon.

“Wow, I feel my strength has improved a lot, and now I can single out 30 light yards away from thunderbolts.” Will Hallen said excitedly.

“Hey, then you take a look at my Shadow Arrow.” Warlock said proudly.

Rev. Shadow said gratefully to Lu Yang: “I can’t think of how the Wrath of Shadow can still be used in this way. I can’t believe my skills are released.”

...

In five days, the strengths of Enso and Verhallen reached the level of the previous championship.

Lu Yang said: “This is the end of the special training. In the future, you will practice hard according to the method I designed and consult with experts. Whether the organization in Belgium can be expanded depends on you.”

“Boss rest assured, if there is a suitable master, I will inform you immediately.” Enso said.

If at first Enso they thought that Lu Yang’s establishment of a secret organization was whimsical, now they understand that Lu Yang really has such strength. The player who came out through his hands * has been promoted too much.

If there is really a group of top players in the world who received Lu Yang’s training and joined Lu Yang’s organization, when “Second World” opens its international war, the role of this organization will be extremely horrible.

Lu Yang was very satisfied with the obedient attitude of the five of Enso and decided to tell them the last secret.

“I bought a piece of news about the heart of the **** of death here. You go to Brendo and find the killer Exodar. He will give you the heart of the **** of death dedicated to the killer.” Lu Yang said to Enso.

Enso looked at Lu Yang with wide eyes and said excitedly, “Boss, really?”

Heart of death, anyone understands how important it is.

Lu Yang said, “Five of you, please go. It will not be used to send me tomorrow. It will take a long time to do this task. In addition, our organization must keep it secret.”

“Yes, let’s go.” Enso said excitedly.

“We are gone too.” The four of Wilharen were also excited for Enso, and said goodbye to Lu Yang, and ran back home with Enso.

Lu Yang quit the game and rested comfortably on the sofa.

This **** of death was taken by an unknown player in Belgium and was taken away within a few days. The player went online to cry about how hard it was. I hope that person will give it back to him in the spirit of the knight. As a result, the other party ignore him at all.

Since the previous life was stolen, it does n't matter if it was taken away in advance in this life. Such things as Devil's Heart are available in every country. Lu Yang sees Enso's good character these days, and he also signed the studio. Member, since he will be picked up by others sooner or later, he might as well give it to Enso first.

Not only did Enso have it, Tang De also had it. On the night of Tang De's return to Germany, he sent all the materials of the studio to Lu Yang. Lu Yang did not hesitate to tell Tang De the starting point of the mission of Thor's heart.

At the beginning of the international war in the future, let alone other things, Lu Yang first possessed a thunder **** and a killing **** all over the world.

"Brother, enso they are." Lan Yu and Xia Yuwei came to the arena.

Lu Yang said: "Just left, how are you playing?"

In recent days, Lan Yu and Xia Yuwei have visited all the fun places in Brussels.

Lan Yu walked to Lu Yang and said coquettishly, "It's very good, but we haven't been to Bruges in Belgium for so long. Could you let us go there at night and hear the night view? It's beautiful. "

Lu Yang said, "Okay, I'll take everyone with us, let's all go there and see. Don't have any regrets on the last day. I don't know when it will be next time."

Xia Yuwei and Han Liu nodded together.

Lu Yang returned to the game and called out Zhuojiu and Bai Shixiong. In the past few days, they have battled with masters of various countries in the arena. They called 10 business cars and came to Bruges by car.

Bruges, this is a very old city, what it looked like in the last century, and what it is today.

Mottled old road, beautiful old town.

“There seems to be fireworks there,” Lan Yu said, pointing to a square not far away, where many people gathered.

The tour guide said happily: “There is the famous courtship square in Bruges. Oh, there must be someone courting there again. It is so beautiful.”

“Let’s go and see,” Lan Yu said.

Lu Yang readily agreed. The crowd came to the square and got off. They walked to a place on the right side of the square and looked inside. Lu Yang’s eyes showed a strange radiance.

A man in the square is courting a woman with a heart-shaped firework, and a musician is playing the violin next to him.

The reason why Lu Yang’s eyes are different is not the envy of the scene in front of him, but the man. If Lu Yang remembers correctly, he is Li Xiuyu, the second son of Nantian Consortium.

In the previous life, he quietly went to see Lan Yu before killing Liu Jie. At that time, Lan Yu had been married to Wang Rui for 2 years.

Lu Yang thought that Lan Yu had been a good one. He knew that this time he had died nine times and saw that Lan Yu was the last person to know that she had a good life, but it was a wish. However, when he hid in the corner and saw Lan Yu quietly, Lan Yu frowned. Tightly locked, the painful and confused expression on his face could not be covered.

Lu Yang did not meet with Lan Yu. Through inquiries from the side, she learned that Lan Yu’s father forced her to marry Li Xiuyu, the second son of Nantian Consortium, because of family business

problems. As a result, the marriage was booked, and Li Xiuyu abandoned and found a family member. The good woman got married and abandoned Blue Feather.

Later, despite her feelings, Lan Yu's father forced her to marry Wang Rui. Wang Rui was very excited at first, but later she suspected that Lan Yu had been engaged with Li Xiuyu. After marriage, Lan Yu left out and started outside Looking for a woman.

Since then, Lan Yu's life has become a nightmare. The happy, innocent little girl has disappeared and there is only one more frowning lady.

Lu Yang could not wait to kill Li Xiuyu and Wang Rui with a single shot, but knew that if he started, he would be exposed and could not avenge his parents. He originally wanted to wait for Liu Jie to be killed and return, and then leave Lan Rui to leave Wang Rui , Went abroad to live in seclusion, did not expect to eventually die under the cliff, crossed back.

Now, seeing Li Xiuyu's face again, Lu Yang clenched his fists inadvertently, and while he was thinking about what to do, Lan Yu around him said with surprise: "Isn't that Xiuyu brother, he was talking to People are courting. "

Xia Yuwei also showed a surprised expression, saying: "I never expected that Li Xiuyu also has such a romantic side."

On the court.

Where the girl, who was forbidden by the second son of the Nantian Consortium, made such a fierce courtship offense, she was quickly broken by a vulgar diamond ring that could not be vulgarized, and fell into the arms of Li Xiuyu.

People around cheered and applauded.

Lan Yu said happily, "Brother Xiuyu, you are great."

Talking, Lan Yu was going to Li Xiuyu's side. At that moment, Lu Yangmeng reached out and pulled Lan Yu back into his arms.

"Brother, what are you doing?" Lan Yu was startled.

Suddenly Lu Yang wanted to understand one thing and said with a smile: "What are you going to do now, Li Xiuyu finally ran to Bruges, Belgium. Such a small place, still courting at night, is not just not wanting friends and family You know, you're so hasty to scare him carefully. "

Lan Yu, Xia Yuwei and others were of family background, and immediately understood what Lu Yang said.

"Unfortunately, it's another family member." Xia Yuwei said sympathetically.

Lu Yang smiled and shook his head, took out his mobile phone and took a picture of Li Xiuyu's girl kissing in the fireworks, leading everyone away.

Originally, Lu Yang had always regarded Li Xiuyu as a rival. He grew up with Lan Yu from a young age, and his family was the second son of Nantian Consortium. He is so much better than himself. It is difficult to guarantee that Lan Yu's parents will block himself and Lan Yu.

Now that the problem is resolved, returning to the car, Lu Yang couldn't help laughing.

"Brother, what are you laughing at?" Lan Yu, Xia Yuwei, Zhang Zibo and others looked at Lu Yang curiously ~ www.mtlnovel.com ~ Lu Yang couldn't help biting his back molars, and said, "I'm happy for Li Xiuyu, I was going to Resting tonight, I did not expect that Lan Yu's proposal to come to Bruges to see such a touching and deep love story, I am so happy. "

Xia Yuwei and Zhang Zibo had a black line at the same time. Generally speaking, Lu Yang had to listen in opposite directions.

"Boss, how do I feel that Li Xiuyu is going to be unlucky, he provokes you?" Xia Yuwei asked.

Lu Yang said, "Did you not know the other identity of Li Xiuyu? In" Second World ", the eldest brothers of the guild gods at dusk are still dead, and the four strongholds of Benliu City have just been unified.

"Ah ?!" Xia Yuwei, Zhang Zibo and Lan Yu were all surprised at the same time.

"Banliu City is just behind Beifeng City." Xia Yuwei said.

Lu Yang said: "Yeah, I originally wanted to buy a guild with a fortress in the three main cities behind Beifeng City as a base, and sent Tu Feng to inquire about the news. As a result, Benliu, one of the three main cities, He was beaten by Li Xiuyu. At present, Li Xiuyu has received strong support from the family. He is hoarding raw materials for level 40 equipment and will soon attack the other two main cities. "

Xia Yuwei said: "We and Li Xiuyu have known each other since we were young. It is better to let us persuade Li Xiuyu to attack Beifeng City together."

Lu Yang said, "Don't, I get news here. Li Xiuyu and Liu Jie have reached an alliance. If I go to Hannibal City, Li Xiuyu and Wang Teng will attack me from above and east together."

"How could this be, how did Li Xiuyu get together with Wang Teng." Zhang Zibo asked.

Lu Yang said: "Li Xiuyu is the second son, who can lay down Benliu City. He received a lot of funding from Liu Jie, so you must not persuade."

Xia Yuwei nodded.

Chapter 492 - Emerald Forest

"What shall we do then?" Zhang Zibo asked.

Lu Yang sneered and said, "Simple, they won't be finished without them. After returning to your country, there should be a lot of people under level 40. We should go to the Orcs to slaughter the city."

Xia Yuwei, Lan Yu, and Zhang Zibo's eyes became bright.

Lu Yang said, "One more thing, don't look for Li Xiuyu behind me. I suddenly thought of an interesting game."

Xia Yuwei couldn't help rolling her eyes and said, "I know you have a conspiracy, boss."

Lu Yang laughed, the day after tomorrow was Lan Yu's birthday, remembering the last life, Lu Yang saw a talented person Li Xiuyu in pursuit of Lan Yu at the birthday banquet. All the members of Lan Yu's family agreed with this marriage. Wang Rui only being able to watch and not interject, Lu Yang can only bless.

Now, he is going to give this Li Xiuyu a good lesson that day.

That night, after returning to the hotel, Lu Yang took everyone to rest, and flew back to China with his team by plane the next morning.

Royal Capital Airport.

Lu Yang said, "I won't send you anymore. Let's go back. We will meet in the game at night."

Zhuo Jiu and Bai Shi looked at each other and said with a smile, "Boss, we have decided not to go home and go to your lunch."

Lu Yang looked at him in front of more than 20 legions and said, "What are you doing?"

"Go to your house and have a meal." White Wolf proudly said, "We are going to live with you for a long time and eat you, so you can say no."

"All come." Lu Yang asked.

Including the most indifferent Han Liu and the abducting Sun Yu nodded, and everyone said, "All come."

Lu Yang said, "Welcome, great. If you are all by my side, it will be easier for us to fight next."

People like Zhuojiu and White Lion think so, the guild has reached a critical stage, they are holding Lu Yang's huge dividends, and they are lazily playing games at home. This time, they should discuss privately together after arriving in Belgium. Decided to help Lu Yang together.

Lan Yu said, "Great, tomorrow is my birthday. My parents are going to host a dinner for me. You must all come. I am so happy."

"Sure." Everyone said with a laugh.

There is a party when you first come, and the relationship between the people can promote relationships.

Lu Yang took them back to Donghai City by train. Han Zhong personally picked up the station, watching Zhuojiu pouring and White Lion and others were extremely satisfied, and said with a smile, "The accommodation is ready."

Lu Yang introduced Han Zhong to everyone. When they knew that Han Zhong was the boss of Zhongxin Blacksmith Shop, everyone was surprised.

The faithful blacksmith spread to the 16 main cities of the human race, which is the largest blacksmith shop in the entire human race. Any guild must sell Han Zhong's three-point face, because Han Zhong has the ability to equip a group of 10,000 people with gold equipment overnight .

"Boss, no wonder you are so rich." Said bitterly for a long time.

Lu Yang held Mu Yi and said, "You guys don't know his profession yet, he opened the Orc Zhongyi Pharmacy."

Lan Yu held Mu Yi's ear directly and said, "Smelly boy, even my sister dare to hide."

"Ah ~~ It hurts. Sister lightly, you didn't ask." Mu Yi quickly confided.

Mu Yu saw his brother for the first time and hid beside Lan Yu and giggled.

"The orcs' loyalty pharmacy stores control almost all of the orc's higher pharmacy business. Boss, I am really convinced." Said bitter love for a long time.

Lu Yang said, "If you can come to me, it means your absolute trust in me. I really look at you as your boss. Since this is the case, I will not hide from you anymore. What you see now is not All of my belongings, take your time, and you will gradually understand what a big game I have set. "

The people such as Zhuojia and White Lion nodded. They thought the guild was about to be in a crisis stage. They did not expect that the two major issues of the entire guild's equipment and potions were under Lu Yang's control. This made them very curious how Lu Yang was Strong.

The group went to Lu Yang's studio by car. After getting off the car, Lu Yang took them to visit two office areas.

"The building on the left is the war zone, and there are 150 professional players I hired. At present, they are all at level 55. They are all transferred to the Templar." Lu Yang said.

Everyone was shocked. Can anyone think that Lu Yang will support professional players when there are guild players. The most important thing is that the level has reached level 55. With the corresponding equipment support, these players can defeat thousands of people directly.

Lu Yang said: "The building on the right is a professional life player in the loyal blacksmith shop. There are currently 399 people."

Shooting Sirius said: "Boss, these professional life players are all members of your offline studio."

Lu Yang said: "Of course, all the store managers of the 32 main cities of the human race and the beast are the professional players here."

Everyone was speechless, and could only take a breath.

Han Zhong pointed to the two small villas not far away and said, "The front is where you live, just cleaned up, left of the boy, right of the girl."

Lu Yang said: "Everyone goes to see their own rooms, and eats together after the rest. I have all the canteens here. If you have any questions, you can talk to my master. He is the big housekeeper here."

The crowd nodded and went back to pack things, even Xia Yuwei, Zhang Zibo and Lan Yu lived in.

At 7 pm, everyone who had had a meal and rest came to Lu Yang's room to log in to the game.

In the game, players inside the guild are upgrading everywhere, and 3,000 guild signing elites are cooperating in command and leading the team to upgrade.

The group of elites who wanted to start with Landing Yang is currently not the leader of the tens of thousands of people or the captain of the thousand-man team. Everyone has gone through hundreds of battles, and he can easily lead the team without a legion.

A black arrow of a black note killed a level 50 mob and said, "Well, when is the boss coming back? I'm almost level 43, and there are 150,000 players in the guild who reach level 40."

Hongye Feiwu said, "I'm also curious. We can slaughter the city when he returns. I'm really looking forward to it."

When I think of all the gold-level military uniforms that are equipped with level 40, the black notes and others are energetic.

[Guild Channel]: Lu Yang, president of the Jagged Brothers League, logs in to the game

[Guild Channel]: Tu Feng, Vice Chairman of the Jagged Brothers League, logs in to the game

...

For more than 20 consecutive news, the leaders of the 7 regiments, more than 10 deputy regiments, and Lu Yang and several deputy presidents all went online.

The guild instantly boiled, and countless players left messages on the channel.

Lu Yang had previously explained that after Xia Yuwei and his several legionnaires and deputy chairmen dealt with matters, he rode the Red Flame Lion King to the level 90 map of the Emerald Forest.

The Emerald Forest is the settlement of the high elven tree demon family, and also the source of the last two pieces of equipment of Hertos.

According to official records, in the face of human invasion, the tree demon family once launched a large-scale attack on humans. At that time, the tree demon family destroyed a nation of the human race. However, the tree demon family was also severely damaged. In the Emerald Forest, at the same time, they also took the last two items of Hertos.

Lu Yang came to the entrance of the Fenci Forest. Twelve tree demon walked out of the forest. The tree demon's lower body was a deer, and the upper body was an elf. The height was over 2 meters.

Dryad (elite)

Level: 90

Qi and blood: 770000/770000

The tree demon's physical defense and magic defense are very low, but they have the powerful weapon of the forest gun and defense skills blessed by God.

The former has strong physical and spell damage, while the latter can reduce the opponent's attack speed and casting speed against melee and ranged physical and magic attacks. The physics becomes the slowest attack for 6 seconds, and the spell attacks for 5 seconds. .

The last place players in the previous life did not want to upgrade is here, but Lu Yang is very familiar with it. Any place where grand guilds are unwilling to come is the best place for them to survive.

Lu Yang watched the 12 tree demon walk away and walked into the forest with a distance of 50 yards behind them.

The Emerald Forest is divided into two parts, the first part is the forest, and the second part is the Emerald King's Court ~ www.mtlnovel.com ~ There are only tree monsters in the forest. There are 7 places that can be used to avoid hunting.

The first is the elven water well. Only in the morning and night will the tree demon come here. Lu Yang followed the 12 tree demon and walked in for 10 minutes.

"How could a human break into this place and grab him." A tree demon on the left appeared, and a tree demon headed by him shouted.

"Gun of the Forest"

A verdant green spear went straight to Luyang's gate.

"Blazing Blaze"

"Spacewalk"

Lu Yang rushed into the void instantly, running fast while avoiding the attack, and after 30 seconds ran to the position of the well, jumping into the well.

After the skill cooling time was over, Lu Yang jumped out of the well and continued to run forward. After running 7 hidden points in a row, he came to the Wang Ting area.

The Tree Demon King's Court is a beautiful town of elves. All the houses in the town are made of purple stones. There are forest magic runes on the stones, which can release a shining white light.

At the gate of the town, there is a huge moon arch, and there are 12 purple spear tree warriors on both sides of the gate.

Looking from the gate, inside the house with the largest circular dome directly opposite was the destination where he was going, the home of the son of the forest, Harinas.

Lu Yang calculates the distance. From the gate to the opposite gate, more than 100 houses and a square need to pass. It can never be reached within 30 seconds. The only way to go is to run Lu Yang first for 30 seconds before walking in space. .

Lu Yang looked at the tree demon everywhere in the town, took a deep breath, and secretly said, "Fight it."

Walking out of the forest, Lu Yang walked to the gate to a distance of 30 yards from the purple gun tree demon.

"How could there be a human here, kill him." A purple gun tree demon said.

Chapter 493 - Collection set

12 tree demon aiming at Lu Yang and throwing purple lances at the same time.

"Blazing Blaze"

A flame ignited at the foot of Lu Yang and ran towards the front diagonally. He could not escape the 12 spears, and flung the escape dagger in his hand. The escape dagger in blue light flew into the camp through the purple fence.

With a flash of blue light, Lu Yang jumped into the emerald court, and there was a house in front of him, with five or six tree demon around.

“Those who trespassed the king’s court died.”

Six purple lances flew.

“flicker”

Lu Yang’s white light flickered 30 yards in front of him, and just after landing, Lu Yang said a spell.

“Remnant Flame”

A crimson light flew up to the roof of a nearby house.

“Kill the invaders!” More tree demon found Lu Yang and threw lances at Landing Yang.

“activation”

Lu Yang flew up to the roof in an instant, with a blazing speed under his feet, running towards the front along the roof.

The 285% moving speed allows Lu Yang to shake off all the tree demon and come to the end of the house. Below is the square. There are more than 30 tree demon below.

“Spacewalk”

Lu Yang's body plunged into the void and jumped out of the house, running quickly forward, the surrounding tree demon lost his target and looked around.

Thirty seconds later, Lu Yang got into the home of the forest son and just landed. Lu Yang appeared in the void. The child in the forest who stood in the living room stared at Lu Yang.

Son of the Forest Harris (Lord)

Level: 90

Qi and blood: 8700000/8700000

"Some human came to me." The son of the forest raised his hand and threw a blue lightning spear.

"Rock Wren"

Lu Yang summoned the rock to stand in front of him instantly.

"39869"

Rock mages are immune to magic, and in the face of spears with wind magic, they only take physical damage from spears, and are not afraid of wind damage.

"Roar"

Lu Yang controlled the rock maggots to launch taunting skills, ran to the son of the forest, and punched him in the face.

"181"

“Damn, no one can escape my magic.” Harinas was furious, ignoring the rocky raid’s attack, and spelled out in his mouth.

“All things grow”

At the same time, the green thorns appeared at the feet of Lu Yang and Yan Yan, and they were trapped in them. Even if they were immune to magic, they could not escape the attack of thorns.

“flicker”

At the moment when the thorns appeared, Lu Yang jumped to the doorway on the left side. The thorns could cause 30,000 points of damage per second. The rock sting was controlled, but he was not harmed, but Lu Yang was not. He was controlled. No doubt about death.

The son of the forest looked at Lu Yang and said, “Human, your uncle can’t help you anymore, this time it depends on where you are going.”

A blue spear appeared in the hands of the son of the forest, and threw away according to the landing sun. At that moment, Lu Yang took out the last rock puppet and threw it on the ground.

“噔”

The second rock cricket stood up from the ground, blocking the blue spear, and at the same time, Lu Yang issued an order to launch a taunting skill at the son of the forest.

“Hello ~!”

The son of the forest involuntarily ran to Lu Yang’s second rock cricket, punched him in the punch.

“19897”

Lu Yang took the opportunity to turn around and ran towards the corner of the side hall, where there was a magic bottle made of white jade, and he took out the treasure map to read the spell above.

Ten seconds later, the magic bottle glowed dazzling white, and Hertos's leggings and Hertos's boots emerged from the bottle.

Lu Yang skillfully put two pieces of equipment into his backpack and took it out. He pulled out the city roll and crushed the seal. A blue magic circle appeared at his feet.

At the door of the room, the rock cricket had less than 200,000 blood. He blocked the door deadly. The son of the forest attacked with all his strength. When he killed the rock cricket and broke into the door, Lu Yang just disappeared.

The light flickered.

Lu Yang appeared in the safe area of the city of St. Gall. Looking at the countless players around him, Lu Yang took the last two pieces of the Hitos suit from his backpack and put it on.

A crimson light flashed over half of the safe area centered on Lu Yang. Looking at Lu Yang at this time, he had turned into a flame man with red flames burning all over his body.

“Oh my god, what kind of equipment is this and how can it bring such cool special effects.”

“It's so cool.”

“He, isn't he Lu Yang, the chairman of the Jagged Brothers League, take a screenshot, look good.”

...

The surrounding players reacted and took screenshots to commemorate.

For the first time, Lu Yang got a full set of Asian legendary equipment and was too excited. He quickly took out the fortress and returned to the city to roll back to the red fortress.

Just after landing, more than 30 self-exploding insects flew towards the landing sun.

“Flame Storm”

Lu Yang raised his hand.

“10938”

More than 30 self-exploding insects were all instantly destroyed.

Lu Yang looked at his output in surprise. This is data without crit. He hit more than 10,000 injuries without crit, and he hurriedly looked at his attributes.

Lu Yang

Level: 61

Qi and Blood: 22000

Magic: 35472

Defense: 785—960

Spell Damage: 8236

At the current level, there are no people who can have a higher output than Lu Yang. Only the Templars who have guarded the heart of the knight can do more blood than Lu Yang.

Lu Yang forced me to fist ~ www.mtlnovel.com ~ and read the spell, returned to the demon temple 5 seconds later, took out the reserved 10-level intellectual gem, Lu Yang hit a piece on each piece of equipment.

Level 10 Intellectual Gems added 80 points of intelligence, 8 pieces to increase 640 magic damage, and Lu Yang's final magic damage reached 8836 points.

In addition, after finishing the eight-piece set of Hitos, the set effect was triggered, all fire spell damage increased by 1 level, Lu Yang possessed the heart of the demon to increase 2 skill levels, and entered the magic school to increase 2 skill levels, plus The skill level of the set has been increased, and his minimum fire magic has reached level 6.

Now even if a minimum level of Pyroblast is released, the skill damage has more than 1,200 points. Counting French damage, it can deal 10,000 points of damage.

If it is a group of magical magic storms, a level 6 flame storm can deal more than 2,000 damage, including more than 11,000 skills.

“Everyone, don't go back to the Red Fort. I just got the news that the inner city has been occupied by bugs.” Tu Feng said in the simulation group.

Lu Yang smiled and said, “I have just gone back. You are all here. I will take you to upgrade.”

“Okay.” The turbid wine poured, Xia Yuwei, Tu Feng and others flew to the inner city of Red Fortress.

“I'm going,” said White Wolf in surprise, looking at the strange Lu Yang. “Boss, your equipment is too arrogant.”

Lu Yang looked at the blaze full of fire and said, “How's it?”

Everyone nodded.

“There are even better ones, optimistic, let you experience the ultimate upgrade speed.” Lu Yang said a spell.

“The Great Lord of Fire ...”

Ten seconds later, a huge crimson meteorite fell from the sky. In the middle of the crater, hundreds of millions of self-exploding insects were killed. More than 30 people including Lu Yang and Xia Yuwei flashed gold at the same time, raising a level.

Chapter 494 - Forsaken Level 40 Lord

“Boss, you have more than 8,000 injuries?” Bai Lang asked in shock.

Lu Yang shared his equipment with all the legion chiefs and said, “The Heltos suit I just got.”

Eight pieces of 90-level sub-legendary equipment burning with flames made Xia Yuwei and White Lion’s envious eyes widened.

“Boss, ask for support.” Sun Yu said.

Lu Yang said, “I’ll take you to the level 40 map of Blood Giant City. While I am free today, I will take you to kill all the level 40 lords and bosses.”

There are thousands of level 40 lords, which are basically hidden at the bottom of each map. Take the ancient demon lord as an example. His location is in a small room. Players will have to spend a lot of effort to find him. When killing him, the number of people was less than the number of hits, and when the number of people was increased, his blood volume increased and he couldn’t beat it.

At present, the major guilds’ wasteland level 40 maps are very difficult, and even the top guilds have not collected the gold-level drawings of all professions.

Xia Yuwei, they have tried to open up the wasteland level 40 map before. If you want to fight in the past, you can only send a large army. However, the player level must be above 37. When you play, you must step by step. How fast was the time of the fortification.

Lan Yu said, "Brother, can you help us beat the blood crow's grave first? The blood giants there are particularly difficult to kill."

Lu Yang snapped his fingers and said, "Go to the Blood Crow's Tomb and clear it there first."

Xia Yuwei said, "I'll call someone."

"You don't need more people. You can go with me more than 20 people. For up to an hour, we can get through." Lu Yang said.

Everyone: "..."

"Brother, don't underestimate there, but there are more than 100,000 elite monsters at level 40." Lan Yu said.

Lu Yang summoned the Red Lion King and said with a smile, "You'll know where you are."

They shrugged their shoulders, replaced each with Red Flame Lions, and followed the landing sun to the Blood Raven Tomb.

Tomb of the Blood Raven.

It is a cemetery of the dead, located at the junction of the Huayu Fortress and the Wind Thunder Fortress. It turned out to be a cemetery of soldiers and soldiers.

After the human empire was compressed into the holy city, it became a land without a land, occupied by a mutant crow that could transform into an adult form.

Lu Yang and his team ran for half an hour to the door of the cemetery.

The periphery of the cemetery looks like a necropolis in a vampire movie. It is a church for worship. It is 3 stories high with a cross on top.

On the ground around the church, there are graves with crucifixes, many graves have been opened, and only countless blood crows roamed around the cemetery to alert.

Heiwu Ranger

Level: 40

Qi and blood: 5000/5000

The shape of the Heiwu Ranger is a skeleton with a spear in his hand and only white bones in the whole body, but the bones of these skeletons have undergone secondary growth. The fragile bones have become white bone armor, and all the bones look particularly thick, it seems very powerful.

Lu Yang came to the two Heiwu Rangers, and two Pyroblasts hit them. The two Heiwu Rangers did not even yell.

System prompt: you get 198 experience

Xia Yuwei said: "The strangeness at the door is not difficult. The hardest thing is that the black guards inside are all 40-level elite monsters. There are too many."

Lu Yang nodded, and led the team to the door of the cemetery. There is a 5 meter wide gate with broken metal fences on both sides of the gate.

"White tiger, muddy wine, bitter love for half a life, Zhang Zibo, you four are here at the gate." Lu Yang said.

“Yes.” The four turbid wines came to the door, each holding a position.

“Boss, what are you doing?” Xia Yuwei asked.

A smile appeared on the corner of Lu Yang’s mouth and said, “I used the forbidden spell to blame this camp.”

People like Xia Yuwei and Zhuojiu were shocked.

“Here, this camp has a diameter of 2500 yards. Boss, what are you going to do?” White Wolf just asked, slamming his head, saying, “Hertos suit upgrades the fire skills by 1 level, boss. , What range can you play now. “

Lu Yang said, “2300 yards.”

Lu Yang’s purpose is very clear. With the addition of Demon’s Heart and Hertos’ suit, his fire skills increased the forbidden spell to level 5 and injured 5000 points per second.

The ordinary monsters around the graveyard are not within his attack range. He only needs to use the forbidden spell to drop the elite monsters in the center area.

He pointed the wand in his hand to the front, and slowly cast the spell in his mouth.

“The element of fire between heaven and earth ...”

Xia Yuwei and others suddenly excitedly referred to the throat and eyes, and they couldn’t control the excitement.

After 30 seconds.

The sky over the entire cemetery was overcast, and the last scale in Lu Yang's mouth read, the sky and the earth suddenly turned red, and a huge fiery white skull rose up in flames.

"The flames burn out"

The Blood Crow Tomb instantly becomes Infernal Hell ~ www.mtlnovel.com ~ There are burning flames everywhere, ordinary level 40 mobs die instantly, Xia Yuwei and others' conversation bar experience flips, and the experience slot continues to improve.

"Wow ~~"

The shrill screams rang, and countless black and white guards rushed towards them, but the blood of each strange monster was residual blood.

Heiwu Guards (elite)

Level: 40

Qi and blood: 79000/150000

As they ran closer and closer, their blood volume became more and more fierce. Except for the more than a hundred Heiwu Guards who rushed to the muddy wine in front of them, all the other Heiwu elites behind died on the road.

A burst of golden light lit up, and Xia Yuwei and Zhuojiu and others upgraded collectively.

Another burst of gold lighted up and raised another level.

...

The heads of the various regiments just around level 48 have been collectively promoted to level 50.

End of skill.

Xia Yuwei and others looked at the center of the site. All the ordinary and elite monsters in the cemetery were lying on the ground.

Bai Lang swallowed and said, "Boss, you have cleared up the map with a big move."

"Fire method, too strong." White Lion said.

Lu Yang smiled and said: "Hurry up, pick up the equipment, one person will be responsible for one piece, and then hand it over to Tu Feng."

"Yes." Everyone went to pick up the equipment cheerfully.

After 10 minutes, Xia Yuwei and others carried a storage bag and returned to Lu Yang with a happy face.

"I didn't expect so many types of equipment to explode here, from level 32 to level 40. Unfortunately, there is no gold level." Mao Qiu said.

Lu Yang said: "Follow me into the cathedral, kill the **** teeth and the boss around him will have gold equipment and drawings."

The crowd nodded and gladly followed Luyang into the door of the cathedral.

The turbid wine pouring and the white lion opened the door of the church, and Lu Yang looked inside. This is a huge cathedral, divided into two areas.

In front of the church is the worship area. There are thousands of chairs in the empty hall, and there are black patrol patrollers, which are also mixed with a large number of blood crow guards.

Blood Raven Guard (boss)

Level: 45

Qi and blood: 450,000 / 450000

“Some of you keep the gate, I will ban curse again.” Lu Yang said.

“Yes.” Knights and fighters such as Zhuo Jiu and the White Lion came to the door to form a shield formation.

Lu Yang chanted a spell in his mouth. After 10 seconds, red clouds were densely spread on the top of the church.

“Meteor Fire Rain”

Countless fireballs shrouded thousands of monsters in the church.

“Wow ~~”

Thousands of Blood Raven Guards and Heiwu Guards collectively rushed towards the gate, just as they were about to come into contact with people such as Zhuoshu.

“Inflammation”

Lu Yang instantly turned into a 5-meter-high flame demon, with a spell in his mouth.

“Yan Yang Suo”

The first 12 Heiwu Guards were trapped in place for 10 seconds, just blocking the path of all the monsters behind.

“Meteorite Impact”

Lu Yang’s right-hand staff pointed behind 12 Heiwu, and the 7-meter-diameter crimson meteorite fell into the Heiwu group at a speed of one second.

“28868” (Critical Strike)

“28686” (Critical Strike)

...

Lu Yang’s equipment is superimposed with a crit chance of 57%. Almost every two attacks will trigger a crit damage, and sometimes even continuous crit damage.

The meteorite impact rolls forward with a distance of 17 meters under the buff of the demon, and the average second injury is about 20,000.

Originally, the meteor fire and rain had more than 20,000 second injuries. The two were superimposed. No matter whether it was an elite monster or a boss monster, no one could persist at the door for 10 seconds.

After 10 seconds of Yan Yang Suo time, Lu Yang used Yan Yang Suo skills to control the 12 black blacks at the door again.

Thirty seconds later, all black blacks on the field died, leaving only a few hundred blood raven guards.

“Meteorite Impact”

Lu Yang continued to release the meteorite skills. When he put it to the third, all the monsters on the field died.

A lot of drawings with golden light scattered on the ground.

Plans · Bloodcrow Guard Breastplate (Gold)

Plans · Bloodcrow Guard Greaves (Gold)

...

In total, there were 16 design drawings, and all the drawings required for 2 sets of gold-level equipment were just put together. Among the remaining drops, there were more than 100 pieces of gold equipment between level 35 and 40.

“Strange, there are no rings or accessories,” Lan Yu said.

“It should be at the Blood Raven Lord and the boss next to him, go, let’s kill the Lord.” Lu Yang said.

The crowd nodded happily, followed the landing gate through the side door of the church to the bare garden, and a giant blood-red crow 3 meters high stood on top of the statue in the center of the fountain.

Blood Raven (Lord)

Level: 45

Qi and blood: 1700000/1700000

“The lord blame, I don’t know what skills.” Mao Qiu said.

Whenever the lord blame is not easy to kill, this has a fixed impression in the hearts of Mao Qiu and others.

Tu Feng took out his notepad and said, “Someone in the European service has opened up the Blood Raven Graveyard and released all the information of the Blood Raven Lord.

Blood Crow’s conventional attacks are tossing soundballs and pecking at people with beaks in melee, and the damage is around 5000 points.

There are a total of 3 skills, the first is blood feather, how many people lost many feathers in the audience, hurting about 8000, and the second is the blood crow howling, flying to the sky to bark and causing full screen damage, also causing 8000 damage , The third skill is to summon a group of boss-level crows, the crows drop rings and accessories, the difficulty of this level is to control the output time, not to let his blood feathers and screams release at the same time, the specific play ... “

Lu Yang interrupted Tu Feng and said, “Don’t worry about it so much, I’ll see him for a second.”

“Our Lord, you leap second.” Tu Feng asked.

Lu Yang created the fire dragon technique in situ and said, “You step back and let you see how the high-level fire method hits the lord.”

Everyone retreated to the door, and Lu Yangken demonstrated high-end play in front of them. Each of them wanted to learn.

After 1 minute.

Lu Yang created 50 fire dragons in situ, came to the blood crow, raised his hand to release 5 burns in a row.

“Wow ~~”

The blood crow glared at Lu Yang, spreading his wings with a phantom and slamming at the landing Yang, the moment he hit Lu Yang.

“flicker”

Lu Yang was holding the Blazing Bird behind the Blood Raven.

“Flame Storm”

A black ripple appeared under the blood crow’s feet.

“boom”

The crimson flames swallowed the blood crow.

“28612” (Critical Strike)

The Blood Raven stunned for 0.1 second and turned back to peck Lu Yang.

“Yan Yang Suo”

The crimson chain trapped the blood crow for 2 seconds.

“9816”

Strong control of the 10-second Yanyang cable, only 2 seconds left on the lord, but even so, it also gave Lu Yang a lot of output in ten years.

“Blazing Bird”

The big red bird swooped on the blood crow.

“27988” (Critical)

“Meteorite Impact”

The crimson meteorite fell from the sky, right in the head of the blood crow.

“28886” (Critical)

The blood crow awoke from vertigo, and howled loudly, pecking at Landing Yang’s head, just as his blood-red beak was about to hit Lu Yang.

“Resistant Fire Ring”

A crimson flame gushes out of Lu Yang’s body and hits the blood crow. Even if the blood crow is the lord, but Lu Yang’s level is 60, he still retreats the blood crow by 10 meters. They are all in the direction of the meteorite.

“17686” (Critical Strike)

“9791”

“9762”

...

When the blood crow stopped, a crimson flame fell from the sky, right in the head of the blood crow.

“Destroy the Sky”

“30000” (Critical Strike)

It was just less than 5 seconds before the blood crow’s blood was nearly 300,000.

“Wow!”

The blood crow roared, and just as he was about to fly into the sky to release the blood feathers, a high-speed spinning blue dagger appeared behind the blood crow.

The light flashed, and Lu Yang appeared behind the blood crow.

“The Sun Fist”

Lu Yang’s left hand gave off dazzling golden light, and punched him on the back of Blood Raven.

“32000” (Critical Strike)

The Lie Yangquan has a knockback effect, and the Blood Raven’s body flew forward uncontrollably, stumbled for 10 yards and just stopped.

“Destroy the Sky”

Another flame fell from the sky and hit the blood crow’s head.

“30000” (Critical Strike)

“flicker”

A white light appeared before the Blood Raven.

“Yan Yang Suo”

“Meteorite Impact”

“Resistant Fire Ring”

The Blood Raven was again recruited by Lu Yang. During the retreat, he was constantly injured by the impact of the meteorite. He just stopped and the red flame fell.

“30000”

At the same time, a crimson light and shadow flew behind the Blood Raven.

“Remnant Flame-Activated”

Lu Yang’s figure burst out in the flame shadow.

“The Sun Fist”

...

This is a combo skill that must be learned in the previous high-level fire method. Whether or not it can be connected is based on personal reaction speed. Lu Yang has mastered this set of skills to the peak.

1 minute.

Just 1 minute.

The last blood of the blood crow was emptied by Lu Yang's fierce sun punch and fell to the ground.

System prompt: You killed the Blood Raven Lord

Zhuo Jiu, Xia Yuwei and others were all stupid standing at the door. This kind of excessive damage, gorgeous skills, and precise control made a huge wave in their hearts, like a huge stone thrown into a calm lake.

"The lord at level 45 is strange, I was killed by the boss within 1 minute, and a skill was not released."

"This is the lord of 1.7 million blood." Mao Qiu held his head with both hands and felt a sense of madness.

Everyone came to Lu Yang.

"Boss, you are too strong." Said bitter love for a long time.

Lu Yang shook his head and said, "A mistake."

"What's wrong," Lan Yu asked.

Lu Yang said: "The fight was too fast. I forgot the mobs he called to explode the jewelry."

Everyone: "..."

Jiang Zeqiang resisted Lu Moyang's move to sell cuteness and said, "It's okay, let's go to the next map."

I thought it would take an hour to clear this map, and it ended in 20 minutes.

"Everyone else fights in groups. We are a map and a map. It's so cool ~ www.mtlnovel.com ~ Sun Yu said.

Zhuo Jiu said: "This still needs to take into account the 10 minutes of delay in picking things up, otherwise the map is weird and the boss can clean it up in 10 minutes alone."

The crowd nodded again.

"Tomorrow Lan Yu's birthday feast is back, the boss skills have also cooled down, and we can still kill 1 map monster." Who said madly in my lifetime.

Lu Yang smiled and said, "So why bother, today I can take you out of the 3 maps. Don't forget that my equipment can be worn by others."

The crowd took a breath and looked at Lu Yang. There are currently 6 cursed mages in the guild. They removed the ice curse where the orcs shot Sirius, Mu Yu's small-scale curse static storm, and Lu Yang's flame Burned out, the other three major forbidden spells are Black Flame Prison, Crazy Thunder Prison, and Black Hole, all of which are large-scale high-damage skills.

If they wear Luyang's Hertos suit, although the range is not as large as Lu Yang's, but with the release of the secondary forbidden spell, the killing speed is not slower than Lu Yang.

Tu Feng said, "I'll call them over."

Lu Yang said: "There is a map called Barbarian Camp near here, you ask them to find us directly at the entrance of the camp."

"Okay," Tu Feng said.

Hei Yan, Black Knight, and Nanfeng Zhiyi are upgrading with their respective curses, and flew to the barbarian camp as soon as they learned the news.

"Boss, here we are," Hei Yan said.

Lu Yang also just arrived at the door and saw the three of them waving their hands. When the three came near, he said, "Heiyan is the first one, first use the forbidden spell to make up, and then use the secondary forbidden spell to make up, second. The strangeness of this map. "

"Yes." Hei Yan excitedly took over the Hertos suit and magic teacher's staff that Lu Yang handed him. The wounds instantly reached more than 6,000. He raised his staff and spoke a spell, and the black clouds covered the sky.

Chapter 496 - Emperor

The barbarian camp is a boxy army barracks surrounded by a simple fence made of loess. There are many houses in the wall, and there are nearly 10,000 barbarians around the house.

Barbarian Warrior (Elite)

Level: 40

Qi and blood: 150000/150000

Before Heiyan arrived, Lu Yang had destroyed more than 10 barbarians standing at the door.

“Melee blocked the door, and we solved the battle at once.” Lu Yang said.

Five people, including Duo Jiu Qing, Bai Hu, bitter half-life, Zhang Zibo, and White Lion, walked to a door more than 10 meters wide and prepared for defense.

After 30 seconds.

Heiyan’s spell was completed, and the wizard’s staff pointed forward.

“Hei Yan prison”

The black flames fell from the air in pieces, inflicting more than 7,000 damage to all barbarians in the camp every second, and increasing the damage by 5% per attack. This is a unique effect of Heiyan prison.

“There are intruders, barbarians attack.” Lu Yang and others, a barbarian leader pointing his finger at the door, said loudly.

Thousands of barbarians in the camp were attacked collectively and rushed towards the door. The nearest barbarians had just approached a distance of 30 yards and collectively launched their charge skills.

At the moment when they were about to launch their skills, Lu Yang’s eyes brightened, and he found that there were exactly 12 people in the first charge.

“flicker”

A white light lit up behind the muddy wine. The moment Lu Yang appeared, he pointed his finger to the open space in front of him.

“Yan Yang Suo”

The twelve barbarians seemed to voluntarily slam into Yan Yangsuo’s skills and were trapped in place at the same time.

The muddy wine was standing against the big shield to prepare for the impact, but the expected impact did not come, and he looked up curiously, just to see that the barbarian who was half a meter higher than him was unable to move by the yinyang cable.

“Boss, magic skill.” Zhuo Jiu poured his head back and praised him.

“Coincidentally.” Lu Yang smiled and said to Hei Yan: “Another meteor fire rain, the follow-up boss is coming.”

The boss monsters in the barbarian camp are mainly concentrated in the central area. Hei Yan’s curse just wrapped the camp to the center area.

Hei Yan nodded, and the spell in his mouth was read out again. He had obtained the true biography of Lu Yang, which could reduce the time of the secondary forbidden spell to 10 seconds.

“Meteor Fire Rain”

Hei Yan pointed his hand forward again. Numerous large fireballs in the sky landed in front of the camp like raindrops. The half-orcs who were being attacked by Heiyan Prison were hit by meteor fire and rain, and they were hit by 15000 points every second Damage from above attacks.

In less than 10 seconds, all barbarian fighters within 500 yards of the dual skills were killed, and the follow-up barbarians were also residual blood.

“Destroy the enemy.” A savage led his body behind the fallen savage warrior.

Barbarian Command (boss)

Level: 40

Qi and blood: 310000/500000

Almost three or four hundred barbarian commanders rushed over among the barbarian fighters.

At this time, exactly 20 seconds later, the damage of Heiyan prison doubled to 15000 points per second, plus the meteor fire rain, outputting more than 22,000 per second.

The two combined, and half-blood rushed into the 500-yard range of the barbarian warriors did not wait for all of them to die in front of the muddy wine and others, and the barbarian rushed into the residual blood.

After 30 seconds.

The barbarian lords all fell to the ground.

For a while, the golden light lit up, and Xia Yuwei and others raised one level again.

“Here is a transfer certificate for the Berserker.” Zhang Zibo said, picking up a golden notice.

“I have it too,” said the White Lion.

“It’s great. I can’t think of a notice here,” Xia Yuwei said.

Lu Yang said: "This is the place where the Berserker Warrior Transfer Certificate is dedicated. We picked it up and we went in to kill the Barbarian Lord. Then I took you to the next map. Today's skills are used to fight the Berserker Transfer Certificate. . "

The crowd nodded happily. When they picked up the equipment, they found a lot of gold-level equipment and gave it to Tu Feng for safekeeping.

Hei Yan returned the equipment to Lu Yang.

Lu Yang led the crowd to the house in the middle of the barbarian camp. He just entered the door and saw the barbarian lord inside the house.

Savage Leader Sacmis (Lord)

Level: 45

Qi and blood: 1700000/1700000

Sacmis wears only a tiger-skin skirt, with strong bronze-colored muscles on his upper body, black beards on his face, and human beings. He holds two black short-handed battle axes.

"Humans, I want to make your invasion pay the price." Sakmith roared, his body turned into a phantom and came to Lu Yang in an instant. At the same time, he lifted the battle axe with both hands, as if the two axes were cut off, and it would be 1.5 everywhere. Crit.

"flicker"

At the moment when Sacmis was about to hit Lu Yang, Lu Yang turned into a white light and appeared behind Sacmis.

"Pyroblast"

A big fireball hit the head of Sacmis, leaning back slightly as he just turned around.

“Meteorite Impact”

A crimson meteorite fell from the sky and ran to the head of Sacmis in front of Lu Yang.

“Resistant Fire Ring”

Lu Yang’s body erupted with a reddish light, crashing Sacmis.

“Destroy the Sky”

“Remnant Flame-Activated”

“The Sun Fist”

...

Just like killing a blood crow, just a minute later, Sacmis fell to the ground.

System prompt: You killed Sacmis

You get 28989 experience

“I’m dizzy ~ www.mtlnovel.com ~ The leader of Wanxue blame the boss to death.” Hei Yan said in surprise.

“Oh, the blood crow just died like this,” said bitter love for half a life.

Everyone: "..."

Lu Yang looked at Sacmis lying on the ground and scratched his head, and said, "Did I fight fast again? I remember he just shouted what my servant asked for something."

Lan Yu said, "Yeah, I let you interrupt with fierce fist, and we did not get the drawings of the ring."

Lu Yang: "..."

Everyone: "..."

Lu Yang smiled awkwardly: "We go to the servant camp, this time I must pay attention."

Everyone laughed, and those lords who others couldn't kill did nothing, but they complained that their boss killed too fast, which made them feel weird.

Riding on the Red Flame Lions, they followed Lu Yang and ran eastward to the Minion Demon Camp.

Unlike the Blood Raven Graveyard and the Barbarian Camp, the Servant's Camp has no exterior walls, only a broken house.

The house has no roof, only four walls made of gravel.

Lu Yanggang took the team to clean up the strange around the house. Suddenly, hundreds of players in the distance came towards this side, and everyone was riding a war horse.

Zhuoju and others looked at Lu Yang one after another.

"Boss, what should I do?" Tu Feng asked.

Lu Yang said: "Be vigilant and see what each other is for."

With Lu Yang's current strength, he could kill hundreds of people by himself.

Soon, the opponent ran forward, a player headed by a blue war horse, proud of his face.

Tu Feng frowned and said to Lu Yang: "This person is the president of the Emperor Guild, the evil king."

Chapter 497 - Push back

The evil monarch also saw Lu Yang as a group of people in the distance. He recognized Lu Yang at a glance, because Lu Yang was so easy to identify. He had a burning flame suit, and only Lu Yang had the entire suit.

The evil prince saw that there were only more than 20 people around Lu Yang, and there were more than 200 people around him. He was distorted and sent a message to everyone: "Brothers, our opportunity is here. The man in front is the boss of the Iron Brotherhood." It seems that he only took more than 20 people, and we took the opportunity to kill him. "

More than 200 players' eyes have turned red. Lu Yang's heart of the demon is something that all players in the service know. Many people on the forum have posted posts claiming that if he has the heart of the devil, he can reach the height of Lu Yang, even stronger.

The heart of the demon has become the knot of all players in the server, and now everyone has the opportunity to try it.

Lu Yang didn't feel right when he watched the other man ran over like this, and signaled Sun Yu around him, saying, "Illumination."

This is a safe distance. If the opponent dares to cross this distance, Lu Yang will release the meteorite impact unceremoniously. With his more than 8,000 spell damage and more than 1,000 skill damage, the group of players on the other side can't help even if it is 60. Damage from a meteorite impact.

Sun Yu bowed his arrow and fired a flare 50 yards ahead. The bright flare illuminated the grassland at dusk.

The evil king thought about taking this opportunity to rush to Lu Yang with more than 200 people and chopped his knife, but when he saw the flares with a distance of only 50 yards in front, the evil king hesitated for a moment.

“Boss, what should we do, rushing over and stopping.” His men asked.

The evil king didn't speak, his eyes were fixed on Luyang, and he didn't see the confusion of meaning in Lu Yang's eyes, only calmness and calmness.

Lu Yang watched the other party's approaching the position of the flare. There was no sign of deceleration. He sneered and started to mobilize the magical energy in his body.

Hei Yan and Nanfeng Zhiyi, etc. behind him were also ready.

Seeing that it was about 50 yards away, the evil king was about to decide to fight. Suddenly, he saw the cold killing intention in Lu Yang's eyes. For a moment, he couldn't help but think of it in his black head. The end of Lu Yang's enemies facing him in previous battles.

Black blood, was destroyed!

Bloodthirsty Doom, was destroyed!

Elderly man, was destroyed!

Domineering, destroyed!

The soul is eternal and destroyed!

If he didn't kill Lu Yang this time, his guild would also be overwhelmed. Thinking of the foundation that was created in the cracks of the major guilds, he thought of the large amount of money that Wang Teng secretly funded. If his attack fails without the heart of the devil, all this will be gone.

"Stop, the whole army stopped advancing." The evil monk stood at a distance of 5 yards in front of the flare, holding the reins.

He's scared!

More than 200 men followed him and stopped, the players around him asked, "Boss, are we not going to fight?"

The evil lord shook his head and motioned for him to shut up. He arched his hand and laughed at Lu Yang, 50 yards away. . "

Lu Yang saw the face of the evil king clearly, and said, "Fortunately, he would not dare to be taken into account. The president of the evil king's charge just now has great momentum."

The fear in the evil lord's heart increased a lot, and he smiled and said, "I have an enemy who is always active in this movie. I thought he was here. I read it wrong. President Lu Yang, don't mind. I dare not do anything to you. "

Lu Yang laughed and said, "Next time I am optimistic, otherwise I will kill you by accident, but it will make me look like Lu Yang is not tolerated."

"Sure, sure." The evil king was more certain of the correctness of his stopping, and said with a sneer: "Since President Lu Yang is here to upgrade, we will not bother, we are gone."

More than 200 people turned around collectively, and the follower Xiejun ran quickly towards the road, and soon disappeared into the distance.

The fur ball was replaced by the Red Flame Lion and said, "I'll go and see."

Lu Yang nodded and said, "Be careful, just now they did intend to kill us."

"Looking back, I destroyed their guild." Zhuo Jiu poured out.

Lu Yang said: "I haven't told you before that the Dili Association is currently receiving funding from Wang Teng."

Xia Yuwei looked at Lu Yang in surprise and asked, "Why are they still there?"

Tu Feng said, "Now is not the best time to destroy them. Destroying this Wang Teng can also fund another one. It is better to let Wang Teng invest all the money he can get into this Emperor's Guild. I will find a chance to destroy him once . "

"It turned out that you had plans," Xia Yuwei said.

Zhuoju and others are no longer worried. At present, they are very satisfied with these internal masters under Lu Yang. Tu Feng, Mo Long, Li Rui and others have perfectly solved all external factors for them. They only need to manage their own On the line.

A few people briefly discussed the matter of the Emperor's Guild. Before long, Mao Qiu ran back and said: "They went to the next map ~ www.mtlnovel.com ~ count them as acquaintances."

"It is estimated that I can't bear Wang Teng's funding." Habitually loved for half a life Haha said with a smile.

Everyone nodded.

Lu Yang said, "Let's continue. With the house as the center, all hunters and thieves go out to pull monsters. This camp is very large. After 5 minutes, you will pull the monsters here, and the black knights will put the black holes together to solve it."

“Yes.” Mao Qiu, Sun Yu, and Twilight Razor and others ran out of the house and went in one direction to pull the monsters.

Five minutes later, eight people ran back together, each with more than 1,000 minions behind him.

Minion (elite)

Level: 40

Qi and blood: 150000/150000

The minion is more ugly than the barbarian, with a height of more than 2 meters, a purple body, and a long knife. It is one of the lowest demons.

Sun Yu said: “You are advanced, there is no pressure on my side.”

“Well, I’m advanced,” Twilight Knife said.

“My second.”

“My third.”

...

Sun Yu, Mao Qiu, and others discussed the order of entering the door, and ran into the door one after another. After the last Sun Yu came in, the turbid wine stopped at the door, supporting the big shield in front of him.

The servant demon rushed to the door and hit the shield where the muddy wine poured. He raised the knife in his hand and chopped it down. Nearly ten thousand servant demon surrounded the house.

At this moment, a black sun appeared in the sky and landed slowly on the roof. The black knight finished the spell.

“Black hole”

The black sun burst into a powerful attraction, sucking all the monsters within 500 yards into the black hole.

This is the characteristic of black hole playing npc. Except for the lord monster, all other monsters that can be determined by the system to be killed by black hole attack will be directly absorbed by him.

Chapter 498 - Ancient battlefield

“I didn’t see it when I hit people. It turned out that this black hole is so strong.” Bai Lang said in surprise.

Looking out through the doorway, nearly ten thousand servant servants were absorbed into the space, and even boss-level servants were absorbed into the black hole, leaving only equipment and drawings in one place.

The black knight replaced the equipment and handed it to Lu Yang, saying: “The boss still has strong equipment, otherwise my skills won’t be able to **** them in.”

The turbid wine drove the team outside, looking at the dead camp and the ground full of equipment, and said, “This effect is too shocking.”

Everyone nodded.

Blue Feather picked up a golden scroll and said, "Here is a drawing of the ring of physics."

Everyone's eyes brightened.

"It's great, finally there is a drawing of the ring." Xia Yuwei said.

Everyone nodded.

Lu Yang is embarrassed ...

"Strange, I didn't see the lord. Was he sucked directly?" Mao Qiu asked.

Sun Yu pointed to the servant general trapped in a pile of rocks in the distance and said, "Where is it?"

Servant General Soroguez (Lord)

Level: 50

Qi and blood: 1540000/1700000

Lu Yang patted Sun Yu's shoulder and said, "Okay kid, this kind of operation."

Sun Yu said proudly: "This guy kept chasing me when I just pulled the monster, so I pulled him there."

There was an ominous premonition in the hearts of everyone.

Xia Yuwei asked: "Brother, have you taken the lord as a mob again?"

In a moment of embarrassment, Sun Yu scratched her head and said with a smile, "Ah, haha, that guy is so much like a minion. I didn't notice it ... ah, haha."

Everyone was silent: "..."

"Brother, this is how many times you have treated the lord as a mob." Xia Yuwei poked at Sun Yu's mind, and said that she hated iron.

"I was wrong." Sun Yu hurriedly confessed his mistake.

Lu Yang said with a smile: "This way you can see Sun Yu's method. It's okay. Continue pulling like this. The boss will back you up. Even if you pull wrong, the boss will help you to stop him."

"Yes, thank you, boss." Sun Yu immediately smiled proudly.

Xia Yuwei and others shook their heads, and she was still a child, but they had to admit that with Lu Yang, how many 40 level lords Sun Yu pulled could be given by Lu Yang for seconds.

Lu Yang said: "Let's export together, let's go to the next map."

The servant demon lord was trapped in a pile of stones, and was soon killed by Lu Yang. A golden rune fell to the ground.

Habis Runestone

Level: 50

"Strange, what is this?" Mao Qiu picked up and asked.

Lu Yang's eyes lit up and he said, "This is a good thing. I didn't expect it to burst out here."

Habis Runestones can open a space gap, which may be the ancient battlefield or alien beast space.

The field diameter is 1500 yards, and there are 10,000 monsters in the same level as the runes.

Lu Yang took the runestone from the wool ball and clicked on.

Runestones instantly turned into a vortex, sucking all of Lu Yang's more than 20 of them into a military barracks.

System prompt: You found Holpos Barracks

Lu Yang was at the entrance of the barracks. The barracks were surrounded by huge wooden barracks. There were hundreds of square wooden barracks inside the barracks. At this time, the barracks were still burning with flames. There are tens of thousands of zombie soldiers with full body armor and spears.

Holps Undead Soldier (Elite)

Level: 50

Qi and blood: 180000/180000

"All of them are undead monsters, which is suitable for Nanfeng's thunder ban curse." Sun Yu said.

Thunder spells hit undead monsters, just like fire spells hit wood monsters, which can deal double damage.

Lu Yang pointed at the two boulder in the left corner and said, "Everyone go there with me, Nanfeng releases the curse."

The two boulder are made 5 meters high, 10 meters long and form a perfect square with the left corner, which can accommodate more than 20 of them.

Zhuo Jiu and Zhang Zibo erected a large shield and blocked the entrance. Nanfeng intentionally took the equipment from Lu Yang and chanted a spell.

After 30 seconds.

Nanfeng's intentional spell was completed, and the staff pointed forward.

"Crazy Thunder Prison"

Countless blue lightnings fell in the sky, covering the surrounding 1000 yards.

"14886"

"14772"

Even if there is no crit, Nanfeng's conscious lightning can deal such high damage. Occasionally, crit appears and the damage is nearly 30,000 points.

After 10 seconds, all elite zombies in the area died, and Xia Yuwei and others were promoted to the next level.

A naked, bald, strong man zombie came over with a hammer.

Blacksmith Rubis (Lord)

Level: 50

Qi and blood: 17800000/2000000

“There are lords here too.” Xia Yuwei said.

Lu Yang took the Hertos suit and the wand out of the battlefield from Nanfeng’s hands, easily killed Rubis, and a hammer dropped to the ground.

Hammer

Lu Yang picks up the hammer ~ www.mtlnovel.com ~ Although there is no description above, Lu Yang is already excited and unable to extricate himself.

When it comes to the effects of all the special equipment in “Second World”, the best one is called the refracting shield.

The effect of Refraction Shield is to refract all long-range physical and spell damage attacked by the opponent to other places, and to protect themselves from damage for 10 seconds.

When the shield of the last life came out, almost all the guilds of the orcs were swept by the guild where the bloodthirsty hegemon was. The orc main class shaman had a unique ability to set up a magic totem in 0.2 seconds. Fires fire flames with chaotic damage.

The chaos attribute disregards magic avoidance and physical defense, how much damage and how much blood can be hit, and the skill can eject 5 people at the same time. If there are 100 shamans hiding in the crowd to release magic totems, unless they are hit with a curse, how many people die people.

At that time, countless people wanted to get this shield, but the bloodthirsty bully did not sell it, nor did it tell the way of this shield, until the player rose to level 100, bloodthirsty bully did not see the shield Use it, then tell the reason.

It turned out that the manufacturing book of this shield was obtained by using a hammer to go to the smithy of the city of sin domain. Respect has been respected, and a total of three conditions have been met to get this shield.

There are dozens of maps in the city of sin domain. Lu Yang first went to the city of sin domain to do the task. One of the purposes is also to protect this shield. This time to level the 40 level map is also for this iron. Hammer, I didn't expect him to hit it.

"Let's take a break off the assembly line," Lu Yang said.

The crowd nodded, picked up the equipment and handed it to Tu Feng, and returned to the Holy City Hotel to take off to rest.

Chapter 499 - Birthday party

Lu Yang took out his teleportation scepter and flew outside the city of sin realm, replaced the Lion King of the Red Flame and ran to the smithy of the city of sin realm.

In the smithy, a long bald blacksmith who was very similar to Rubis was waving the hammer in his hand and slamming the blade in his hand. Unfortunately, the blade did not change at all.

"噫"

The hammer in the blacksmith's hand was broken in half, and the blacksmith threw the hammer angrily on the ground, cursing: "If my ancestral hammer is still there, I will be able to build this weapon."

The blacksmith looked at Lu Yang passing by and frowned, "lady, how do I feel the ancestor of my ancestors on you, do you have my ancestor's items on you?"

Lu Yang took out the hammer from his backpack and said, "Is this an item?"

The blacksmith took the hammer with excitement and said, "Oh boy, this is the thing. You found the hammer that my ancestors used. I want to thank you."

System prompt: you get the refraction shield drawing

Plans · Refraction Shield (Dark Gold)

Level: 50

Defense: 422—456

Stamina: +56

Stamina: +60

trick:

Refraction: Active skill that refracts all long-range physical attacks and magic attacks within 30 seconds of being turned on.

“Thank you very much.” Lu Yang collected the drawings and returned to St. Gall. He came to the blacksmith shop in the north of the city and found Han Zhong. “Master, find a master of the studio and build this shield with all your strength. In addition, it must be kept secret and must not be external. Sales.”

Han Zhong took a look at the drawings and said, “There is still this equipment, yes, I asked Xiao Lei to do this. The boy has made rapid progress recently and has reached the initial qualification of a master blacksmith.”

“Um.” Lu Yang also quit the game. The next day, after the day’s class, Jiang Ze took three business cars to the studio downstairs to pick up all the army groups such as Lu Yang and Muddy Wine Pour and Half-Life. Chang came to the hotel together.

The gift was bought before Lu Yang. It was a diamond necklace. As soon as she got out of the car, Xia Yuwei personally took Lu Dingyang and Zhuoju to the hall.

There were many guests in the hall, including Lu Yang's university classmates Mo Long and Huang Xiang, Wang Rui and Zheng Yuan also came, Zhang Zibo and their parents also came, and many others Lu Yang didn't know. People, but at first glance, you know that you are a successful person.

"So many people are here." Jiang Ze said in surprise.

Xia Yuwei said, "Lan Yu's dad has many business friends here. Because of the flu virus, all relatives of Lan Yu have come here to stay temporarily. This time, taking advantage of Lan Yu's birthday, he Dad invited everyone to come together."

Mao Qiu asked, "Where is the blue feather?"

"Lan Yu is dressing in the background. I can't come out yet. You should rest here for a while." Xia Yuwei specially said to Lu Yang: "Lan Yu will give you a surprise today."

Lu Yang smiled and said, "Okay, I look forward to it."

Remembrance came to my heart, the moment when the last generation of blue feathers appeared in a white long gauze skirt, immortal printed in Lu Yang's mind, the beautiful face, he will never forget.

Later, I went to Southeast Asia. Whenever Lu Yang was struggling to survive, he was helpless on the line of life and death, and every time he was about to give up, Lu Yang would remember the birthday banquet. Lan Yu looked back at him with a beautiful look in a white veil.

Every time at that time, Lu Yang's heart will renew his courage. He knows that no matter how difficult it is, he will carry on and return to the country alive to see the girl.

"噤"

"噤, 噤, 噤 ..."

The lights in the hall suddenly dimmed, and eight laser lights shone on the stage. Lan Yu wore a white dress and carried his father's arm to the stage.

The elegant long yarn skirt showed Lan Yu's perfect figure to the fullest. Her flawless face and innocent smiley made it impossible to move away from her face. Lan Yu seemed to be an angel landing on the earth. Beauty is nothing.

“What a beauty.”

“Goddess.”

“Old Shen has a good daughter.”

...

Regardless of classmates, relatives, friends, elders, the people present praised each other, Lan Yu politely responded one by one, her eyes searched in the crowd, saw Lu Yang sitting in a chair in the distance, Lan Yu turned his head and smiled. , Showing a happy smiley.

The banquet begins.

Relatives and friends of Lan Yu surrounded her in the middle. Lu Yang felt that it was a bit out of place to plug in now, and sat aside and waited.

Gossiping was nothing, Lu Yang's eyes searched in the living room, and two familiar figures in the distance caught his attention.

Elegant, gentlemanly manners, expensive and decent suits, self-confident and humble expressions, compared with others around him, look so outstanding, with a noble temperament of a high gate valve, this person is Li Xiuyu, another person Wang Teng!

Lu Yang frowned. In the last life, he didn't remember Wang Teng's coming. He didn't expect this life to change because of his rise.

Han Sha went to Lu Yang and said, "Brother, I'll monitor him."

Lu Yang said: "He has bodyguards around him. Today, he doesn't have to fight grass and snakes. He can't play anything."

The purpose of Wang Teng's visit this time was to help Li Xiuyu approach the blue feather. If there was no picture that Belgium happened to see, Lu Yang was really worried, and now he is not afraid at all.

"Master Xiuyu, you have a good vision. This Shen Mengyao is really a beauty embryo." Wang Teng praised.

Li Xiuyu said proudly: "Of course, Shen Mengyao and Xia Yuwei both grew up with young bamboo and horses. Lan Yu has been beautiful since she was a child."

"If Master Xiuyu can successfully get Shen Mengyao this time, then Xia Yuwei will definitely leave Lu Yang. Not only can we greatly weaken Lu Yang's strength, but you can also get 150,000 troops and the family behind Xia Yuwei and Shen Mengyao from nothing. Full support, then your status in the family will be higher." Wang Teng said.

Li Xiuyu couldn't help expressing her excitement and said with a smile, "This is a success. Don't forget to promise me something."

Wang Teng laughed and said, "My brother rest assured, as long as Lu Yang is destroyed, the main city around Benliu City, whichever you want, I will help you lay down."

This is the condition negotiated between Liu Jie and Liu Xuyang.

Previously, the idea of Liu Jie and Wang Teng was to use the bloodthirsty alliance to control the four strongholds of St. Gall. The orc cousin Luo Cheng laid down the blood wolf fort. Terran, Terran invasion

of the Orc way to get enough honor value to get 40 levels of gold equipment in advance to sweep the entire game.

Unexpectedly, a Luyang was killed halfway, not only the bloodthirsty alliance was defeated, but even several guilds such as the Shenwu tribe and Yong * of the Imperial City were defeated by Luyang. Wang Teng had to take his troops back to Beifeng City. On the other side of the orcs, Luo Cheng can only retreat to the newly opened main totem city.

Fortunately, Liu Jie and Wang Teng took advantage of this opportunity to merge 7 guilds into one, and took away all the shares and management rights. However, Lu Yang obtained two main cities, Haihuang City and St. Gall City, out of thin air. It is even more difficult for Liu Jie to win the Holy City if Lu Yang continues to develop in this way with the two main cities with the largest population bases.

At present, what Liu Jie and Wang Teng can do is to unite Li Xiuyu. On the one hand, they split the Iron Brotherhood and on the other hand, they build more troops to attack Lu Yang.

The main thing is that they think that Lu Yang has a lot of people, but he has no money. In any case, Liu Jie cannot let Lu Yang get the financial support of these small consortia headed by Shen Mengyao's father and Xia Yuwei's father, even if there is one or two billion. Entering the guild of Lu Yang, Liu Jie has to pay 300 million or even 400 million funds to fight.

After all, Lu Yang was the defensive side and Liu Jie was the offensive side, with an 8-hour walk between the two sides.

Lu Yang has been watching the conversation between the two. He doesn't understand the lip, but he can see the desire of Shen Mengyao from Li Xiuyu's eyes, which makes him very upset.

At this moment, Li Xiuyu left Wang Teng and walked towards Shen Mengyao. Relatives saw that Li Xiuyu was here and gave way.

“Yaoyao ~ www.mtlnovel.com ~ I haven't seen it in six years. I never expected that little girl turned into such a beautiful lady.” Li Xiuyu handed the gift to Shen Mengyao.

Li Xiuyu's actions are very elegant and gentleman, so that the relatives of the Shen Mengyao family are very satisfied.

"Thank you," Shen Mengyao said politely.

Li Xiuyu froze. He felt a little alienation from Shen Mengyao's expression, and said, "If there is no time at night, how about we go out and gather together, we haven't chatted together for a long time."

Shen Mengyao was about to refuse, a woman next to him came over and said with a happy face: "That's great, I heard people say, Xiuyu is ready to return to the country after studying in the United States, and she is still single now. . "

This woman is Shen Guiyun, Shen Mengyao's aunt.

Shen Mengyao's parents looked at Li Xiuyu with surprise. For young people like Li Xiuyu, the two liked it very much, on the one hand, because they graduated from colleges in the United States, and on the other, because of their family history.

"Xiu Yu, why didn't you find a girlfriend in the United States?" Shen Mengyao's mother asked curiously.

Li Xiuyu pretended to helplessly smiled and said, "My parents have taught me very strict since childhood. If I cannot be responsible for that girl, I will never be allowed to fall in love, so I am still single."

Shen's mother was even happier when she heard this, but it changed the taste in Shen Mengyao's ears. She looked skeptically at Li Xiuyu. According to Li Xiuyu, he is still single. Then, follow Bruges in Belgium How can a girl propose a marriage?

Shen Mengyao's aunt said cheerfully: "Xiuyu is such a good child, it is better to let him get in touch with Yaoyao. The two are beautiful and talented."

Both Shen's mother and Shen's father looked at Li Xiuyu with a smile. If neither of them objected, it would be a good thing for Shen Mengyao and Shen's family if they could climb to the Li family.

Chapter 500 - Li Xiuyu

Li Xiuyu didn't talk much, just looking at Shen Mengyao's expression with full affection. At this time, she looked at Shen Mengyao's attitude. If Shen Mengyao was interested, Li Xiuyu was confident to settle the matter soon.

However, when he looked at Shen Mengyao's eyes, he found that there was no love or excitement in Shen Mengyao's eyes, but he was a little confused or confused.

Shen Mengyao didn't know what Li Xiuyu meant, and she didn't want to know. She smiled politely and said, "Sorry, my friend over there is waiting for me, and I am out of company."

Li Xiuyu's expressive expression froze instantly, and said awkwardly, "It doesn't matter."

Shen Mengyao's parents and relatives were surprised to see Shen Mengyao walk to Lu Yang's side, sitting intimately next to Lu Yang, with a sweet smile on her face.

"This, this, who is that man, why Yao Yao is so close to him." Shen Mengyao's aunt asked, and this time he helped Li Xiuyu to get Li Xiuyu's promise. Seeing that things were not as expected, She was in a hurry.

Shen Mengyao's mother and other relatives looked at Shen Jinglin one after another, and for the first time, they saw Shen Mengyao showing such an innocent smile in front of outsiders.

Shen Jinglin said with a smile: "You are no stranger to that person. His name is Lu Yang, and now he is the chairman of the iron-blooded brotherhood in the game."

Li Xiuyu's eyes sharpened sharply, staring at the expression of Luyang.

“Isn’t it just a game player? Lao Shen, you persuade Yaoyao, how can you get so close to a game player?” Shen Mengyao’s aunt accused.

Outsiders don’t know. Shen Jinglin and Xia Yuanshan, who are at the helm of several small financial groups, know how strong Lu Yang is now and how rich his family is.

“He is not an ordinary game player.” Shen Jinglin said with a smile.

“It’s up to them to do the children’s affairs. In this respect, Jinglin and I respect Yaoyao’s opinions.” Shen Mengyao’s mother said gently.

She believes that her daughter and her chosen boyfriend will not be an ordinary person.

Shen Mengyao came to Lu Yang and said playfully, “Why don’t you go, I introduce you to my mother and relatives.”

“Why.” Lu Yang asked.

“I want to tell them, you are my boyfriend.” Shen Mengyao said.

Lu Yang took a deep breath, forcing his excitement, and said, “Okay, I’ll follow you.”

Now Lu Yang is not the shrinking Lu Yang of the last life. Now he not only has super guilds such as the Brotherhood of Iron and Blood, but also pharmacies such as Song of Blood and Fire Pharmacy and Zhongyi Pharmacy and Zhongxin Blacksmith Shop Money making machine.

In addition, the value of the virtual currency Kak coin he invested in has increased by 42.5 times as in the previous life. At the beginning, the 400 million yuan he invested in was exchanged at a price slightly lower than the market price, and more than 170 were exchanged. Billion credits, he now has enough strength to face any force.

Lan Yu helped Landing Yang sort his clothes, pulled Landing Yang's arm back to her parents, and said, "Parents, this is my boyfriend, Lu Yang."

"Good for uncle and aunt." Lu Yang bowed respectfully.

Shen Jinglin was also very comfortable seeing Lu Yang. Starting from scratch, he could lay such a big river and mountains, even more powerful than he was then.

"Shit boy, you are very fast. When did my daughter run away, don't you come to report to me earlier." Shen Jinglin asked.

Lu Yang shook his head, embarrassed, and snatched away the pearl on the palm of his hand. He didn't know what to say.

"It's not easy for this stinky boy to stop talking for the first time." Xia Yuanshan joked aside.

Shen Jinglin, Zhang Linhu and Xia Yuanshan laughed, and Lu Yang was even more embarrassed.

Li Xiuyu saw that everyone had ignored him, knowing that this card would no longer be revealed, and he stretched out his hand and said to Lu Yang, "Hello President Lu Yang, next is the owner of the Run City, the president of the Twilight Guild. There is no silence left. "

Shen Jinglin, Xia Yuanshan and Zhang Linhu all looked at Li Xiuyu with surprised eyes.

"Large nephew, is that the one who has unified the running city is still you?" Shen Jinglin asked.

Li Xiuyu pretended to be modest: "I was too lonely on my way to study, and I just created such a guild with no chat."

Shen Mengyao's aunt deliberately glanced at Lu Yang and said, "Look at the second son of the Li family, isn't it just a game, and they have also created a guild casually, which is difficult."

Lu Yang smiled at Li Xiuyu with both hands and said, "Li Ergong, I advise you that people can jerk, but there is no bottom line if they can't jerk."

Li Xiuyu frowned, and asked, "What do you mean by that, what am I sorry for?"

Lu Yang said scornfully: "Don't pretend, call Wang Teng, you are not qualified to speak to me."

There was an uproar at the scene.

Shen Jinglin and others felt that something was wrong and looked at Wang Teng in the direction of Lu Yang's fingers.

Wang Teng was standing not far behind Li Xiuyu. When he saw Lu Yang pointing at him, his face couldn't help but change. He never thought that Lu Yang would recognize him.

Seeing that everyone was watching him, he could only walk to Li Xiuyu, watching Lu Yang smile and said without a smile: "President Lu Yang has good eyesight."

Lu Yang smiled and said, "Do you think you are the only one looking at me, am I not looking at you? How did he run the runaway city of Li Xiuyu, not with the help of Liu Jie, this time you two came to Shen Mengyao's birthday, what do you want to do? . "

Wang Teng responded very quickly and said with a smile: "It just happened, don't mind it."

Lu Yang said with a smile: "It's best to meet by chance, but I still want to persuade you. Although you Wang Teng is a dog of Liu Jie, when the dog wants to give the owner a fight, don't think about using a woman to achieve any purpose , Let people know, fell into the face of Liu Jie. "

Wang Teng looked at Lu Yang with a grimace and said, "Chairman Lu Yang, here are all civilized people. You better speak civilized."

"Don't pretend to be a noble person," Lu Yang said. "I scold you both for insulting dogs."

Li Xiuyu pointed to Landing Yang and said, "Chairman Lu Yang, you talk too much. Don't blame me for being kind to you."

Lu Yang sneered and said, "Do you dare to say the purpose of your visit this time?"

The purpose of Li Xiuyu's visit this time is to pursue the blue feather, but at this occasion, it is not suitable to speak.

"Come on," said Lu Yang.

"You." Li Xiuyu was held seven inches by Lu Yang one after another, angrily said, "I'm here to chase Yao Yao, I have nothing to say."

Xia Yuwei, Zhang Zibo and Shen Mengyao took a breath at the same time. Xia Yuwei stood in front of Shen Mengyao and asked incredulously: "Li Xiuyu, you say it again."

Li Xiuyu said, "I really like Yao Yao. I haven't found a girlfriend for so many years, and I have been waiting for Yao Yao. Is there anything wrong?"

Lu Yang kicked Li Xiuyu's chest, kicked him more than three meters away and fell to the ground, almost fainted.

This foot was replaced by Shen Mengyao of the last life. Although it was a rage, Li Xiuyu's bones did not knock him out.

Wang Teng rushed to Li Xiuyu's side and saw Li Xiuyu covering her chest with a painful face, pointing at Landing Yang with a strong curse: "Do you dare to hurt people, don't you really think of the Li family consortium?"

Li Xiuyu leaned next to the chair, and said weakly, Luoyang Yang, "My Li family will not let you go."

Lu Yang sneered, took out his mobile phone, found the picture he took at Bruges Square, walked in front of Li Xiuyu, and leaned down and said, "Look what this is."

Li Xiuyu was dumbfounded when he saw the photo and said in horror: "You, you ..."

Lu Yang said in a high voice: "Li Xiuyu, Tiandao Zhaozhao, retribution is unhappy, do you think that what you do is seamless, just right, Yao Yao, Yu Wei, Zibo and I were all in Belgium that day. The scene of your courtship is warm enough. what."

Shen Jinglin frowned and said, "What's going on."

Xia Yuwei said angrily: "Uncle, a few days ago, Lu Yang took all the legions of our guild to travel to Belgium ~ www.mtnovel.com ~ Yao Yao wanted to go to Bruges to see the night view at the proposal square in Bruges. Just when someone saw a marriage proposal, we approached and saw it was Li Xiuyu posing to a girl with a firework. "

Shen Mengyao said, "I saw it with my own eyes, Li Xiuyu, how did you become such a person?"

Shen Mengyao's aunt did not dare to say one more word at this time and hid in the crowd.

Li Xiuyu looked at the scornful eyes of the people around him, spit out a blood in his anger, stood up with Wang Tengyu's help, and walked towards the outside. When walking to the door, Li Xiuyu turned his head and looked at Lu Yang and said: "Today's shame to me forever Unforgettable, President Lu Yang, I will be in Hannibal City in a few days, and we will see you in the game. "

Lu Yang smiled and said, "It's up to you? You don't deserve it."

Li Xiuyu has never been looked down upon so long, and looked at Lu Yang angrily for the last time before turning around and leaving.

Wang Teng said angrily: "I don't know if I'm worthy or not, Lu Yang, we have 600,000 people together, you wait."

This is the battle policy agreed by the two of them. Since Li Xiuyu is far away from the running city and wants to effectively threaten Lu Yang, Wang Teng will help Li Xiuyu to lay down Hannibal City. Then they will attack Lu Yang's flower language fortress in St. Gall. .

Lu Yang said, "You dare to lead a soldier just because of this half-hook. I welcome you to send equipment at any time."

Wang Teng thought that Lu Yang would be scared, but he did not expect to be despised by him again, and left with an angry hum.

Shen Jinglin looked at the scene in surprise and said, "Is the thing in the game already beginning to spread to the real world?"

Lu Yang said: "This is just the beginning, and it will be even more powerful in the future. This game is too profitable, and Yao Yao, Yu Wei, and all the regiments around me will never encounter such things in the future. not enough."
