

Chapter 51 - Archmage Olds

Soon, eight heavy armored soldiers were killed on the ground, and a bronze-level handguard burst out.

Lu Yang stepped forward to pick it up and said, "Furious."

Of the team, only Xia Yuwei was fighting violently. She came to Lu Yang and said, "Thank you."

Lu Yang thought that Xia Yuwei would still feel embarrassed by what Zheng Yuan said just now, but did not expect the state to adjust so quickly.

"You're welcome, everyone continues." Lu Yang said.

The equipment was traded to Xia Yuwei, and Lu Yang continued to lead the team to kill 5 waves of heavy armor soldiers with card bugs, and came to the end of the tunnel.

A 50-meter-wide underground river appeared in front of Lu Yang, and a black pirate ship was moored there beside the pier next to the underground river.

Standing on the bridge of the dock is the second boss of the copy-Archmage Olds.

Wearing a yellow cylindrical high hat, wearing a blue magic cloak, and holding a magic wand inlaid with ruby in his hand, his face looks about 40 years old. This is Archmage Olds.

“My God, the 8th-level master is still boss-level.” Liquor Qingfeng said in surprise.

“What’s wrong?” Xia Yuwei asked.

Liquor Qingfeng frowned and said, “When our union came here yesterday, the boss of the ordinary book was a level 3 monster. It hit me more than 200. Now it is level 8, a master. I feel I can’t carry it.”

Xia Yuwei groaned and said: “Boss level monsters are increased by level 5 and spell damage is increased by at least 100 points. The blood of the strong liquor and breeze only has more than 300 points of blood, and they die after a critical strike.

Zhang Zibo said: “If this is the case, the black armor will not be able to carry it, and his blood will only be more than 500.”

“What to do then.”

Everyone looked at Lu Yang.

Lu Yang said: “Of course they can’t carry it, rest assured, I will fight against this boss.”

“You resist?” Xia Yuwei asked in surprise.

Lu Yang said, “Of course.”

“Master, you can’t carry that blood,” said Liquor Qingfeng euphemistically.

Xia Yuwei said: “Lu Yang, don’t be stubborn, we just don’t have to.”

“Rest assured, although I don’t have much blood, but I started the free mode. If he can’t hit me, won’t I just stop fighting.” Lu Yang said.

In fact, there is no problem with this boss Lu Yang's single kill. The troll shaman at level 15 can't hit him, not to mention Olds at level 8.

Xia Yuwei said in surprise: "Can free mode still avoid spell attacks?"

Lu Yang said: "Of course, otherwise why is it called free mode, his advantage is not to look at the panel to dodge, block, parry, and completely do this action based on the player's own ability."

Liquor Qingfeng said: "It's true to say so, but master, can you really avoid the boss attack every time, as long as you fail to do so, you will be killed."

"Second World" designed to prevent magical spells such as fireball from being played by rogue players in free mode, and designed the trajectory of the spell to be very fast, less than 0.5 seconds.

In other words, it can fly at a distance of 30 yards in 0.5 seconds, which is equivalent to the effort of the player in the blink of an eye. The all-minded thieves of the Liquor Breeze Guild cannot achieve this speed of escape. He does not believe that Lu Yang can do it. .

Lu Yang said: "Small, look at me."

After speaking, he walked towards the boss. When there was 30 yards away from the boss, Lu Yang ignited a fire in his hand and burned his skills against Olds.

"147"

"You guys are from Gal's bastard? I'm going to kill you." Alders was attacked with a roar, and a flame flamed in his right hand. After 2 seconds, a ball of red fireball with a red tail "Boom" flew towards the landing sun.

"So fast." Neither Xia Yuwei nor Lan Yu's eyes had time to keep up with the flight path of the fireball. A group of people hurriedly looked at Lu Yang, but found that Lu Yang had already avoided the fireball technique of Alders, and Attack Alders with Burn.

“Hoo ~! Scared me.” Lan Yu said.

“It’s too thrilling,” Zhang Zibo said.

“No, it’s wonderful, this Lu Yang is amazing.” Lie Qingfeng said.

The members of the team all reacted. Lu Yang could hide in such an attack speed, which is simply not something that humans can do.

“Master, you are too good.” Lan Yu shouted excitedly.

Lu Yang glanced sideways at Lan Yu, and gave her a smile with a smile, not to mention that at a distance of 30 yards, Lu Yang could escape the spell fired from the opposite side at a distance of 10 yards in his last life.

This is in the late stage of “Second World”, but it is a skill that any advanced player must have. They have a hard time with breeze and breeze. When they play this game for a long time, they can easily avoid it if they practice a lot. .

After giving Alders five times of burning, Lu Yang shouted: “Everyone goes to my sides to output, the boss’s hatred is with me, you can fight casually.”

Xia Yuwei and others immediately rushed up and output with full force, while Lu Yang continued to dodge the spell of Olds while burning out.

In less than 3 minutes, the blood of the boss was reduced to 50%.

“I thought I couldn’t beat it. I didn’t expect it to be so easy.” A melee player said.

“Yeah, I didn’t expect that Lu Yang still had this kind of operation.” Zhang Zibo said.

“Even if he is a beta player, he can only do this by his own efforts. He is a real master.” Xia Yuwei commented.

Zhang Zibo and others nodded ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ After another 2 minutes, the blood of the boss dropped to 0, and was killed on the ground.

From the beginning to the end, Alders did not hit Lu Yang with a fireball technique. On the contrary, Lu Yang took advantage of the opponent’s release of the fireball technique for a gap of 2 seconds and used a burning attack to steadily hold the boss’s hatred. The output is still the first in the whole group.

“Master, you really don’t leave us alive. Fighting war and exporting you are all-inclusive. We don’t need treatment. We feel a lot.” Zhang Zibo said.

“Yeah, we are so non-existent.” Lan Yu said in a coquettish voice.

Everyone was happy.

Lu Yang said with a smile: “How can you say that is so powerful, it’s just a fluke. Let’s go. Let’s drive and see what it is.”

The attraction of the equipment was far greater than the attraction of Lu Yang to them, and everyone was immediately excited.

“I don’t know what equipment this time, it must be a thief.”

“Damn, it’s definitely a mage. Didn’t you see that the bosses are all mages?”

“Not necessarily, this is not based on this.”

Everyone talked eloquently.

Lu Yang came to the boss, reached out to open the boss's equipment, and a white and silver light flashed across the audience.

"Who's outfit?"

Chapter 52 - Magic Robe (Silver)

"It's a mage's clothes." Lu Yang said, he sent everyone the attributes of the equipment.

Magic Robe (Silver)

Level: 3

Defense: 4-6

Constitution: +4

Intelligence: +5

Spell Damage: +16

Spell Critical Chance: +8

"The attributes are so good." The eyes of the four mages, such as Chen Shiguang, were all green.

Lu Yang didn't expect to be able to explode this magic robe for the first time. This is the top-level French-style clothes in this copy.

"I said yes, this piece of equipment belongs to me." Lu Yang said.

"Well, it should." Xia Yuwei said, without Lu Yang, the copy could not hit this place.

The other members of the regiment also had no opinion.

"Master, how much has your law hurt?" Zhang Zibo asked.

Lu Yang put on a magic robe and said, "Spell damage is now 148."

Everyone: "..."

"It was only 29 o'clock in my wounds," Chen Guang said with a look of bleakness.

"I can't handle the two instant burning attacks of Master Brother." Zhang Zibo said "depressed."

Lan Yu and others nodded miserably together.

Lu Yang said with a speechless expression to the crowd, "Don't make trouble, you are a team. I taught you this time. As long as you cooperate well in the next week, most of you will have all the equipment."

"Also to Kazakhstan." Zhang Zibo encouraged everyone to say, "Everyone cheer, followed the master and played this copy, we will go to the two levels of difficulty and expert, and strive for a set of equipment for each person one week later."

The members of the team are all excited. If they can get a bronze or black iron equipment in the early stage, it is very dominant in the game.

Lu Yang secretly applauded Zhang Zibo. It was indeed the first head of Queen Rose of his last life. He encouraged his men to be very powerful. One of the last two cities left by Xia Yuwei in his last life was Zhang Zibo.

Lu Yang said, "Let 's go on. The next boss is on the boat. Come with me."

A 30 cm wide springboard was connected between the pirate ship's hull and the dock. Lu Yang took Xia Yuwei and they walked up the pirate ship along the springboard.

The deck of the ship is very wide, about 15 meters in length and about 50 meters in length. The cabin is close to the rear half of the ship. At the top of the cabin is a two-story platform. There are 4 pirates patrolling back and forth.

The pirate's costume is very special. Each person has a red strip tied to his head, as if to prove his identity.

After killing the four pirates, Lu Yang led the team into the cabin, and all the way to the cabin rest area.

A middle-aged man with a black turban on his head and a black eye patch on his right eye, wearing a black cloak and holding a black dagger in his hand, appeared not far away.

Hansk

Level: 8

Qi and blood: 50000/50000

"This NPC is very handsome," said a priest girl in the regiment.

Lan Yu and several other girls nodded together.

Lu Yang said, "This is the boss."

"what."

Lu Yang said: "Have you seen the wanted list at the gate of Wang Cheng?"

"No." Everyone shook their heads together.

Lu Yang said: "This Hansk, formerly the Captain of the Fars Empire Assassination Team, has a nirvana that can attack 8 targets at the same time. In the last battle, he was severely damaged, one arm was broken, and his eyes were shot. Injury is one of the ten most dangerous characters on the wanted list. "

"Everyone be careful. The skill of counter-blade is very powerful. It is about twice the normal attack. The first time we played, our group did not know this skill. As a result, the 8 melees were all linked, including me. Now it is an epic book. He has a higher general attack power. "Liquor Qingfeng said.

"It's so difficult." Zhang Zibo asked.

Lu Yang said: "Don't worry, this boss makes the black armor resist, and the black armor has a shield wall."

"You can only rely on the black armor," said Liquor Qingfeng.

Lu Yang clapped his hands and said, "Everyone finally determined their blood and magic, and raised their hands in question."

Everyone shook his head.

Lu Yang said: "The black armor is strange, and everyone will output after three armor breaks. All the priests will add blood to the black armor."

Xiao Liang picked up his shield and launched an attack towards the boss.

"27"

"Stop the Fallers Empire's resurrection, die!" Hansk held his dagger backhand and stabbed at Xiao Liang sideways.

"254"

The dagger stabbed around Xiao Liang's shield and stabbed him at the waist.

"Move so fast?" Xiao Liang said in surprise.

"If it were me, I would be dead." Zhang Zibo said to Xia Yuwei.

"Unexpectedly, the boss will attack from the side, this boss is too difficult to hit." Xia Yuwei said.

"It was because of this that we lost the group for the first time. I don't know if Lu Yang has any good solution." Liquor Qingfeng said.

"The priest adds blood," Lu Yang said.

"57"

"49"

"49"

“49”

“49”

Five consecutive blood-enchanted magics were released on Xiao Liang's body, allowing him to survive the danger smoothly, but after 1 second, Hansk once again turned to Xiao Liang's side dagger and pierced in the past.

“252”

“Boss, what can I do, I can't escape his attack.” Xiao Liang's blood was more than 500 points, and he died with three swords.

Lu Yang said: “Don't worry, take the boss to the corner of the cabin, so you will not be attacked from the side.”

“Yeah.” The spirits Qingfeng, Xia Yuwei and Xiao Liang were all in front of them ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Xiao Liang fled immediately, the cabin space was not large, he reached the corner two or three steps, the shield Protected in front of him, there is no dead end.

Hansk couldn't find a gap this time, and could only attack Xiao Liang's shield.

“188”

“The attack power on the shield is still so high, and the defense power of the black armor is also more than 130. Then the boss's attack power is not more than 300.”

“The attack power is higher than the first boss ogre Cliff, and the attack speed is faster than Cliff. This boss is too difficult.”

Xiao Liang did not dare to make too many moves in the face of Hansk, and it took 8 seconds to complete 3 armor breaks.

“Everyone outputs with all their strength. When the melees follow my command, when I let you retreat, everyone evacuates as soon as possible.” Lu Yang said to melee while burning Hansk.

“Okay.” Xia Yuwei answered with melee.

With five layers of burning, Lu Yang’s fireball has dealt 245 damage each time.

However, this time Lu Yang didn’t dare to aim at Hansk’s head. With such a high spell damage and hitting a crit, Hansk must turn his hatred towards him. At that time, melees were piled up in front of Hansk. Move, random attack.

Xia Yuwei, none of these melee blood has more than 200 points. If they are attacked by Hansk, they can kill one with a stab.

Chapter 53 - Get a copy

After 2 minutes, Hansk’s health dropped to 80%.

“For the glory of the Falls empire.” Hansk’s dagger shone with a silvery glow.

Lu Yang shouted, “Everyone retreats, and the black armor is shielded with a shield.”

Xiao Liang immediately activated the shield wall mode, reducing the damage taken by 40%, and Xia Yuwei and Zhang Zibo and others quickly retreated to a place 10 yards away.

“Anti-blade.” Hansk shook his dagger and shot a cross-white light toward him.

Xia Yuwei and others obeyed Lu Yang’s command to retreat early. He was not hit by Hansk. Only Xiao Liang was hit.

“374”

Xiao Liang had less than 400 points of blood before he was attacked again. He screamed: “The priest will give me blood soon.”

“57”

“49”

“49”

“49”

“49”

Five consecutive blood additions brought back Xiao Liang’s upper blood limit.

“Huh, it’s too dangerous.” Xia Yuwei and others burst into a cold sweat.

“With a shield wall that can hit such high damage, does his actual output exceed 600.” Liquor Qingfeng said.

“Xiao Liang’s shield wall can only be used once every 2 minutes. Isn’t he unable to carry it next time?” Zhang Zibo asked.

Xia Yuwei looked at Lu Yang and asked, "What to do, how do we fight next."

Lu Yang said: "Everyone outputs with all their strength. In the next stage, my injury will cause Hansk to divert hatred. Everyone must listen to me."

"You want to fight?" Liquor Qingfeng asked.

Lu Yang said: "The black armor can't carry the next output, only me can escape the boss skills."

"Can you hide this skill against the blade?" Liquor Qingfeng asked in surprise.

The inverse blade ability is released faster than fireball, and it is also a melee skill with almost no room for evasion.

"Boss, it doesn't matter if I die, you don't have to fight for me." Xiao Liang said.

Xia Yuwei said: "Lu Yang, if you need a dead person, let Zhang Zibo go, this is what we should do."

Zhang Zibo also said, "Yeah master, let me go."

Lu Yang smiled and said, "How does it seem like you have to be dead to fight, everyone listens to my command, don't mess, just hide a skill, it's not difficult for me."

It's nothing more than using flicker to hide the inverse blade. It is the same with Lu Yang using flicker to hide the charge of the soldiers at the extreme distance. As long as the flash is released at the opposite side, you can perfectly avoid the inverse blade.

Lan Yu and others did not understand where Lu Yang's self-confidence came from, and they wanted to continue to discourage Lu Yang but did not know how to speak.

Soon, the upper blood limit of the boss was about to be reduced to 60%.

“Dodge melee, don’t use ridicule for the black armor, I want to pull hatred.” Lu Yang shouted.

Xia Yuwei, Zhang Zibo and others ran away immediately to both sides. Lu Yang ran to the corner of the cabin next to Xiao Liang and aimed at the boss’s head to release three fireballs in succession.

“490” (Critical Strike)

“490” (Critical Strike)

“490” (Critical Strike)

Lu Yang’s hatred itself was very high. Three consecutive crit moments caused Hansk’s hatred to be transferred to him.

“For the glory of the Fars Empire.” Hansk’s blood cap had just dropped below 60%, a white light flashed from his dagger, and Hansk rushed towards the landing sun.

The horizontal distance of the cabin was very narrow, and Hansk came to Lu Yang in two steps, leaping up high and emitting a white cross.

“Anti-blade”

Lu Yang stared at Hansk’s dagger tightly, just as the dagger was about to stab him.

“flicker”

A white light came on.

Lu Yang appeared beside Xiao Liang, while Hansk's counter-blade was short.

"Miss"

"Pretty." Lan Yu, Xia Yuwei, and others were still nervous that Lu Yang would be killed, but when they saw Lu Yang using such a master to escape the boss skills, everyone couldn't help screaming.

"You can still do this!" Lie Qingfeng has a feeling of madness. He found that playing Boss with Lu Yang this time, his understanding of the game was completely subverted by Lu Yang.

Xia Yuwei and others also widened their eyes in surprise. How could they never think that Lu Yang could use this way to avoid boss skills.

"So the game can still be played like this." Zhang Zibo said.

"The black armor ridiculed, everyone returned to its original position, don't stand silly." Lu Yang shouted.

Although Xiao Liang had seen Lu Yang's five-killed black blood killer before, he saw that Lu Yang still used flashing dodge skills to face the boss this time, still hesitated.

Only when he heard what Lu Yang said, he quickly responded to the boss running to Lu Yang with only taunting skills and pulled Hansk back to the corner.

Xia Yuwei and others also reacted and restarted the output of boss.

"Master, you are too good."

"How did it happen."

"Can you teach us, please enlighten me!"

Taking advantage of the gap in the output, Chen Meng and other four mages couldn't help but ask, this technique was too important for them.

Liquor Qingfeng and Zhang Zibo also looked at Lu Yang, and they also wanted to know how Lu Yang did it.

Lu Yang said: "There is no technical content in this, it is just a fast response. If you want to learn, practice more in the future."

When PK between players in previous lives, the Master used flashing to hide skills has become a normal, but Lu Yang said that although it is easy, if you want to master this skill, it is absolutely impossible without months of hard training.

This is not a rogue that can be avoided by adding agility, but really depends on the player's own reaction speed.

At the moment when you see the opponent's skills approaching, that is, within a few tenths of a second, a blink must be used.

Slower, stand on the spot, hurry up, the boss stops casting and re-activates the skills at you.

Chen Shiguang and others couldn't help but swallowed and said, "Master, I didn't understand."

It happens that the blood volume of the boss has been reduced to 40%.

Lu Yang said, "You have two more chances. I'm optimistic. I'll show you again."

It was three more fireballs that hit the boss's head. After the crit, Hansk's hatred was directed at Lu Yang.

"Anti-blade."

Lu Yang stood in place, waiting for the moment when Hansk approached his chest with a dagger.

“flicker.”

Lu Yang jumped aside again to avoid the boss’s skills, and Xiao Liang quickly kept up with Hans Clark back to the corner using taunting skills.

“Do you understand?” Lu Yang asked.

The halftime Chenguang looked at each other and shook their heads one after another. They still didn’t understand the point where Lu Yang blinked.

When the boss had 20% blood left, Lu Yang demonstrated it again. Unfortunately, no one could understand.

There is no other way. If you want to learn this skill, you can only realize it by yourself. After all, when everyone is facing the enemy’s attack, the timing of blinking is ever-changing.

Soon, Hansk’s qi and blood dropped below 10%.

Lu Yang said: “Everyone stepped up the output, and the equipment is in sight.”

Xia Yuwei, Zhang Zibo, and others were instantly inspired by Lu Yang’s words. Everyone tried their best to output bosses. Hansk was the final boss of the death cave, and the equipment given must be silver.

“Shadow Strike”

“Arcane Arrows”

“Shadow Arrow”

“Fireball”

“Brave Strike”

...

Various skills hit Hansk, and Hansk’s health bottomed out.

“Is there no future in the Fars Empire?” Hansk fell to the ground, clutching his chest.

World Channel: Players Lu Yang, Xia Yuwei, Liquor Qingfeng and other team members successfully unlocked an epic death cave copy, honor +100

“Success!”

“We really got through the epic copy!”

Everyone looked at Lu Yang with excitement and got through the epic copy, which was an unimaginable miracle for them.

Looking at the news released by the system on the World Channel, they had a feeling of embarrassment, as if none of them had done it.

Xia Yuwei looked at Lu Yang ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Can’t help but arouse the admiration. On this way, Lu Yang relied on his own ability to bring a copy of the team through.

The frantic output of the first boss.

God-level dodge of the second boss.

The third boss blinks to hide and kill.

Xia Yuwei couldn't help coming to Lu Yang and said respectfully: "Thank you, we can never get through this copy without you, and we owe you a favor."

Lu Yang looked at Xia Yuwei. At this time, Xia Yuwei no longer had a proud expression on her face.

Lan Yu also came to Lu Yang and said happily, "Master, thank you so much this time."

Lu Yang looked at them and smiled. This time they took Xia Yuwei to make a copy. It was completely an accident. He originally wanted to find the twilight for his elite group to help. For this copy, Lu Yang didn't care about it. He What cares is hiding the boss.

"Don't be polite with me, I have to ask you to do me a favor for a while, everyone will go with me to open the boss and look at the equipment." Lu Yang said.

"Look, it's a thief this time, if it's a thief."

"It's impossible, it's definitely a soldier, this Hanks' damage is too high."

When everyone heard about the equipment, everyone came together. Xia Yuwei had wanted to ask Lu Yang what to help, and she didn't ask again when she saw this situation.

Chapter 54 - Hide boss

Lu Yang came to Hansk and squatted down to pick it up. After 2 seconds, the reading was finished, and a dazzling white and silver light shone the audience.

“Another piece of silver equipment.” The crowd couldn’t help but exclaim, and came to Lu Yang to watch.

After Lu Yang picked it up, he showed the attributes of the equipment to everyone and said, “The black crystal dagger is used by thieves.”

Black Crystal Short Sword (Silver)

Attack 9-12

Dexterity +3

Constitution +2

“I knew it was mine.” A boy about the same age as Xia Yuwei walked out of the crowd in front of Lu Yang and said, “Master, thank you very much.”

Lu Yang recognized this person as a high school classmate of Xia Yuwei and Lan Yu. His real name was Cold Wind, and the name in the game was Cold Wind Knight.

Xia Yuwei and Zhang Zibo thought that Lu Yang didn’t know each other and stepped forward and introduced them again.

Lu Yang pretended that he didn’t know and spoke a few words to the cold wind knight and gave the equipment to the other party.

“Finally there are silver-level weapons.” Leng Feng excitedly replaced the whiteboard dagger with only 1-1 and was equipped with a black crystal dagger.

Xia Yuwei looked at Lu Yang with a little embarrassment. This time, Lu Yang only took one piece of equipment, but his team took away two top-level silver equipment and one bronze equipment. The process of copying all depends on Lu Yang helped the past, they were equivalent to obtaining equipment and experience for free.

Xia Yuwei walked in front of Lu Yang, put down her arrogant posture, and said with a touch of female tenderness, "Lu Yang, thank you for this time. If you don't mind, I want to be friends with you."

Lu Yang froze for a while, but did not expect that Xia Yuwei would talk to him in this tone, and he would take the initiative to become friends with him.

"Of course that's good. I'm honored." Lu Yang said, Xia Yuwei was the Queen of Roses in her last life, and she would still be no accidents in this life.

"You can call me Yu Wei in the future. My friends call me that." Xia Yuwei offered to extend her hand and said.

Lu Yang held Xia Yuwei's hand and said, "OK."

Lan Yu, Leng Feng and Zhang Zibo were all a bit silly.

"It's the first time that Sister Yu Wei has such a low attitude to her peers." Lan Yu said.

Leng Feng and Zhang Zibo nodded together.

"It is indeed a master. Even the iceberg can melt."

Xia Yuwei's head appeared with black lines, and she couldn't help looking back at Leng Feng and Zhang Zibo and said, "You two dare to say it again."

Leng Feng and Zhang Zibo shut up immediately.

Lu Yang laughed for a while. He remembered that Leng Feng and Zhang Zibo were Xia Yuwei's firm pursuers.

Liquor Qingfeng came to Lu Yang and said, "Master, I want to send back the video of our epic-level copy to the gang, can I?"

He was just polite. Even if Lu Yang did not agree, Liquor Qingfeng would send the customs clearance video to the old man at the cost of being accused of being a promise.

Lu Yang said, "Of course I don't mind."

The purpose of Lu Yang looking for spirits and breeze is to quickly develop the union of the old man. Among the top guilds in his last life, only a few unions such as Chi Wu were at odds with Liu Jie. Lu Yang helped him. It's like helping yourself.

"Thank you." Liquor Qingfeng said excitedly. He immediately sorted out the video materials and sent it to the old man and reported it to the old man.

Xia Yuwei asked: "Lu Yang, what did you just say that let us do something for you?"

"Master, what do you need us to do, we must do our best." Leng Feng said.

Lu Yang said: "I received a special mission here, and I need to kill a hidden boss in this copy. I want you to accompany me to find it."

"Where." Zhang Zibo asked.

Lu Yang said, "We need to drive along the underground river to find the boat."

"Ship?" Everyone looked at Lu Yang in surprise.

Lu Yang said, "Yes, that's sailing."

"Can this boat sail?" Xia Yuwei was also surprised.

Lu Yang said, "It should be possible. Hidden in the mission, follow me, let's try it."

He took Zhang Zibo and others to the stern, and together he pulled the anchor from the water with a noose.

The water flow was flowing outside, without the anchor's obstruction, the pirate ship advanced along the current of the underground river.

"The boat moved, it really moved!" Lan Yu said in surprise.

"I'm going to sail." Lu Yang left melee professions such as Zhang Zibo and Leng Feng at the stern, and brought Xia Yuwei and others to the control room, holding the rudder and marching in the underground river.

The underground space above the underground river is very high, with many stalactites falling down vertically, torches hanging on the stone walls on the left and right sides, making the river channel bright.

Moving forward for five minutes, Lu Yang found a shoal where the ship could dock.

"That's where you are, Yu Wei, let everyone prepare." Lu Yang pointed at the shallows.

Xia Yuwei nodded and walked out of the control room.

After Lu Yang docked the ship, Zhang Zibo and others let down the anchor and led everyone off the pirate ship.

System Tip: The Bow of Woggins (Silver) that you auctioned at the auction house was bought by the player for 67 silver coins

Lu Yang froze and secretly said: "There are really local tyrants, and there is more than one."

Xia Yuwei saw Lu Yang stopped in place and asked curiously, "What's wrong?"

Lu Yang shook his head and said, "Nothing, we continue."

The group walked forward for 5 minutes and came to a platform.

The platform is circular and surrounded by a 2 meter wide circular waterway. If you want to continue to go forward, you only pass a natural stone bridge, and behind the stone bridge is a dark tunnel.

Lu Yang said, "I'll go exploring in front of you. You stay here and wait for me."

"Be careful," Xia Yuwei said.

Lu Yang nodded, picked up a torch on the wall and went into the tunnel.

Deep in this cave is the ultimate target Archangel Angolow that Lu Yang is looking for.

Angolo, the betrayer, was originally a follower of Blazing Demon, but he later betrayed Blazing Demon and participated in the killing of believers of Devil He turned the remaining power in his body into a curse, cursing those who betrayed him, and among these people, there was Archmage Angolo.

The cursed Un'Goro couldn't use the fire spell, and was so afraid of fire and light that he hid in the death cave.

Although he cannot use fire spells, his other spells are still superb, such as Frostbolt.

“嗖”

When Lu Yang heard the wind, he immediately flickered towards the road with a flash.

White light is on.

An ice-blue ice arrow penetrated the white light with precision and hit the wall next to Lu Yang.

The wall immediately froze with ice. Lu Yang believed that if this skill hit him, he would die.

“Dammit, put out the flames, or I will kill you.” A human voice came from not far away.

Lu Yang knew that this was Archmage Angolo, and he instantly flashed a Pyroblast in the direction of his voice.

“Beep”.

Pyroblast hits Angolo and reflects Angolo wearing a white magic robe and middle-aged man.

Archmage Un’Goro (Lord Level)

Level: 10

79640/80000

## Chapter 55 - Higher-order spells

“Damn, you are not from the Brotherhood, I am going to kill you.” Archmage Un’Goro roared, chasing after the landing sun.

Lu Yang ran away, but the boss was moving at 1.5 times the speed of the player, and soon there was less than 30 yards between the two.

With 15 yards from Lu Yang, Angelo stopped at the place and chanted a spell. As a master wizard, he not only knew ice spells, but also learned earth, thunder and ice spells.

“Razer”

A thick thunderbolt blasted towards Landing Yang. Lu Yang evaded when he heard the spell, successfully evading Angelo’s skills, and widening the distance between the two.

“Ice Storm”

A hockey puck that was three times larger than the Frostbolt fired towards the landing yang, and Lu Yang calculated the time and evaded again.

The ice hockey hit the wall beside Lu Yang.

With a bang, the ice ball shattered into a bit of ice and fell on Lu Yang’s body.

System Tip: You have been attacked by an ice storm and your movement speed is reduced by 50%

Lu Yang’s secret road was not good, but he didn’t panic, and continued to escape towards the front. This slowdown only took 3 seconds. As long as he persisted for 3 seconds, he would resume action.

“Grochid”

The ground under Lu Yang’s feet suddenly opened a gap. Lu Yang’s body could not slow down and jump. He could only choose to step back and be trapped in place.

Fortunately, the blinking skill was about to finish cooling down. After avoiding Un’Goro’s next three spells in succession, the blinking cooldown was over.

Soon, Lu Yang ran out of the cave and saw Xia Yuwei and others looking at himself. He immediately shouted, “Everyone backs 30 yards away, fast.”

Xia Yuwei and others ran back immediately, but some people in the team didn’t care, and still looked at the cave curiously.

“Razer”

Another thick thunderbolt blasted from the back, and Lu Yang had already run across the stone bridge at this time, and hurried to avoid it.

The Thunder Snake didn’t hit Lu Yang and rushed forward, hitting a soldier who didn’t have time to escape.

“564”

The warrior player lay directly on the ground, and the Razer did not stop, but spread to the sides, and electrocuted the four players on both sides of the warrior.

“So strong.” Liquor Qingfeng said dumbfounded.

Lu Yang turned back to the stone bridge and released two fire walls in succession, and fled to Xia Yuwei.

“If you look at the level of the boss, you will know why it is so strong.” Lu Yang said panting, running and avoiding on the road made him a little tired.

Xia Yuwei and others looked stunned.

“Level 10 is still the blame!” Liquor Qingfeng said excitedly.

The Lord Monster is a special monster in this game. He is one level higher than the boss of the same level.

If the health of a level 10 boss is 50,000, then the health of the lord monster is 100,000. At the same time, all attributes and skills are doubled.

“Master, how did you get such a monster out?” Zhang Zibo asked.

Lu Yang took a breath, recovered his body, and said, “Don’t be afraid, everything is with me, don’t you think this strange can’t get through now, he’s afraid of fire.”

Xia Yuwei and others then reacted, and Angolo walked around the edge of the stone bridge without passing through the flame magic released by Lu Yang.

“What magic is this and how can it continue to burn on the ground.” Xia Yuwei asked.

Lu Yang said: “This skill is called the Fire Wall. It is a fire skill of level 10 or higher. I will use this magic because of my staff. This gold-level arsonist staff has its own fire wall skill.”

“Gold level !?” Xia Yuwei and others were stunned by Lu Yang again.

Lu Yang now no longer needs to conceal Xia Yuwei and others to send the attributes of the arsonist’s staff to the team.

Flamer's Staff (Gold)

Attack 4-8

Constitution +2

Intelligence +10

+24 Spell Damage

Spell critical strike chance +12

Spell Hit Chance +12

Incidental Spell: Fire Wall

"I'm dizzy, no such thing, master, where do you hit this equipment." Lie Qingfeng asked dumbfounded.

Xia Yuwei and others also looked at Lu Yang excitedly. Gold-level equipment. When they were excited about getting a silver-level equipment, Lu Yang already had gold-level equipment, which made them jealous.

Lu Yang said with a smile: "Secret."

Xia Yuwei was speechless for a while. She found that she was being teased by Lu Yang, and Lan Yu looked at Lu Yang with a small mouth.

Zhang Zibo and others also said they were very injured.

Lu Yang couldn't stand their eyes, and said, "Okay, I'll tell you what it is. This is a bu \* bit. Let's play this boss first. After that, I will take you there."

"Really?" Xia Yuwei asked in surprise.

Lu Yang said, "Of course, I never give up."

In fact, Lu Yang has already thought about it. Since this bug location will be exposed sooner or later, it is better to teach this method of brushing to people who have a good relationship with him. It is just that the level of Blue Feather has reached the level 5 It's time to have them go there to upgrade just fine.

"Master, thank you so much." Xia Yuwei and Zhang Zibo said together, they are worried about where to upgrade in the next stage.

Lu Yang said, "You're welcome, I'm going to blame, and you will come back when I let you out. This boss is really hard to fight, and everyone is fighting."

"Okay." Xia Yuwei and others said together, the five people just died, and everyone was still vivid.

Un'Golo had been around for a minute around the wall of fire, and there was still no way to get in, which kept him walking back and forth to find places.

Angelo's movement speed is 1.5 times that of the player ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ In this fast walking state, Lu Yang is very strenuous to aim.

After adding two walls of fire to the stone bridge, Lu Yang spotted the opportunity and used spell burning on Un'Goro.

Angelo just took two steps to the left, as if he was deliberately hitting Lu Yang's skills, just hit by Lu Yang's burn.

"158"

When Lu Yang was able to hit Un’Golo, it happened that Lu Yang also entered Un’Golo’s range, and he immediately stopped where he was, speaking a spell in his mouth.

“Ground rift”

The rocky ground under Lu Yang’s feet suddenly cracked, but Lu Yang took a step forward the moment he saw Ungolo’s release action, successfully avoiding the earth cracking skills.

“Water brake”

Suddenly, three ice-blue rays fell from Lu Yang’s head. He rolled forward and avoided it in time. Three crackling sounds came from behind him. It turned out that the sound of a water bomb breaking the rock.

Xia Yuwei and others looked at the spell released by Angolo, and were surprised not to know what to say.

“Is this the skill possessed by the later mage?” Zhang Zibo asked.

“Yes, otherwise, if there is Lu Yang’s dodge micromanipulation, fireball and other spells will almost never hit him.” Lie Qingfeng said.

“Oh, I can’t hit now,” Leng Feng said.

Everyone: “...”

## Chapter 56 - Guessing about Lu Yang

Xia Yuwei, while marveling at the power of Angolo's magic, they marveled at Lu Yang's evasion ability.

"I really hope that one day I can also reach the height of Lu Yang, I really don't know how he trained."  
Zhang Zibo said.

"I have a feeling that this Lu Yang must have been a soldier and is still a very powerful special soldier."  
Leng Feng said.

"Why?" Lan Yu asked.

"I want to have this kind of skill on the third day of the game, unless he has this ability, and who has this ability, in our country, there are other people besides special forces?" Leng Feng asked.

"Then he is not an uncle, why does the character look so young." Lan Yu asked.

"Maybe it's camouflage." Xia Yuwei said, "This man's conversation is seriously different from the age he looks outside. I feel he's camouflage."

Zhang Zibo and Liquor Qingfeng and others recalled Lu Yang's previous way of speaking and doing things, and they all felt that Xia Yuwei was justified.

"That's true." Zhang Zibo said.

Xiao Liang looked at their analysis aside, and he couldn't help but have a feeling of laughing and laughing, his boss was obviously going to be a freshman, and he was completely out of touch with the uncle.

Liquor Qingfeng found Xiao Liang's existence and asked, "Hey, you are old."

Xia Yuwei and others only remembered that the black armor was next to them at this time. It was a little embarrassing, but this is not to blame them, because Xiao Liang has a very low sense of existence and rarely speaks.

“Black armor, you are all grown up.” Xia Yuwei asked.

Xiao Liang had already made up his mind to recognize Lu Yang as the boss in his life. Regarding his affairs, if Lu Yang did not agree, he would never say a word.

“Sorry, this is a secret.” Xiao Liang said.

Everyone was speechless again, but for Lu Yang’s obedient young brother, they were also curious what kind of person Lu Yang was.

“Everyone starts to export. I have held the hatred of bosses.” Lu Yang said.

Half-life Chenguang and other four fire methods and the hunters and warlocks in the team stood at 30 yards from Lu Yang and gave full output.

“What to do in melee?” Xia Yuwei asked.

“The melee break, don’t rush over this, once he releases the Razer, everyone along the road will have to die.”

“Razer.”

While talking, Un’Goro flashed a bright white light in his hand and shot towards the landing sun.

Lu Yang hid sideways, and the thunderbolt hit the wall behind Lu Yang, punching a large hole with a diameter of 30 cm.

Xia Yuwei originally wanted to refute, and immediately returned when she saw the situation, saying, "Be careful, call us whenever you need us."

"Rest assured, this boss is afraid of fire. The normal attack of fire on him is twice as much damage. Watch me explode his head and hit 4 times as much damage."

Lu Yang suddenly used fireball to hit Un'Goro's head with precision.

"980" (Critical Strike)

"You can hit it this way !?" Zhang Zibo jumped up excitedly, Angolo was a humanoid, and his head was more than double the size of Ogre Cliff.

Lu Yang escaped an ice storm and said, "Of course."

A flame ignited in his hand, and another fireball hit Angolo's head.

"980" (Critical Strike)

"How can this be done!" Lie Qingfeng exclaimed, he felt that Lu Yang was no longer human.

Xia Yuwei and others shook their heads one after another and said they didn't know.

In fact, a spell attack is the same as a person killing a target with a gun, except that one fires fast and the other fires slowly.

Even if it is slow, with the instinct of a gunman, in a short period of time, you can find the balance point of Un'Goro's moving speed and the ballistic time of the fireball in the air.

Next, Lu Yang perfectly explained what is called precision, as if each of his fireballs was Angolo's initiative.

After more than 30 consecutive crit, Lu Yang alone killed nearly 30,000 blood and blood of the boss.

Coupled with the output of Chenguang and others for half a lifetime, there were less than 40,000 points of blood left to Angelo.

At this time, only 2 minutes had passed.

“Damn humans, I want you to taste the taste of ice—a blizzard.” Angelo stood in place, his hands raised above his head, and the elements of ice gathered in his hands.

Lu Yang shouted: “A few of you are running backwards in the morning light, don’t stay.”

Chenguang was reading fireball in the half-life, and he saw that it would be released in less than 1 second. He was not willing to escape. As a result, a dark cloud with a diameter of 10 yards appeared on his head. Countless ice skates appeared from the dark cloud. To the area where the morning light is in half a lifetime.

“417”

With just one attack, Chenguang was killed to the ground in the half-life.

“Cast so fast?” Everyone was stunned.

Lu Yang said to the rest: “You retreat beyond 50 yards, this snowstorm is more than one.”

As soon as the words fell, a dark cloud appeared on Lu Yang’s head, and Lu Yang hurried out of the dark cloud area.

But just after running out of another dark cloud area appeared above Lu Yang’s head, Lu Yang could only continue to escape.

In the blink of an eye, there were three dark clouds with a diameter of 10 yards in the field, and it continued to snowstorm.

If this level is played by a large number of players, the team will almost be destroyed. Due to the random nature of the dark clouds, when the players are running around, the snowstorm will cover almost any field within 30 yards, and then Angelo will output again. , The player accidentally falls into the blizzard area and is spiked.

Now there is only Lu Yang alone. He carefully controlled the blizzard in his area, and when the Anglo cast was over, all six blizzards were concentrated on his left side near the wall.

“It’s a beautiful move,” said Liquor Breeze.

Everyone nodded in agreement.

Lu Yang said: “All come back and continue to export.”

“Here it is,” said another King of Fire Snake King, who had the magic recovery of crispy electric eel meat. During the period of avoidance, the magic values of several fire methods were restored a lot.

Output again, Lu Yang still pulls the hatred of Angolo, and Angolo still can’t hit Lu Yang.

When Angelo’s blood was only 20,000 points, Angelo growled again.

“I’m not wrong. Although I lost the flame, I learned the four magics of ice, thunder, wind, and earth. Stupid humans, \*\*\*\* lightning spell-static stand.”

Under Lu Yang’s feet, a blue lightning stance with a diameter of 5 yards gradually formed. If the player stays in the static position, he will be attacked by lightning and instantly killed. The formation time of the static position is only 2.5 seconds. As long as the player is hesitant for 1 second, they cannot run out.

Lu Yang hurried out of his stance and shouted to several other mages: "Run to 50 yards away."

Jinshe Langjun and other fire methods already knew how to fight after the previous incident, and immediately ran out of range.

As soon as the words fell, the second static stand appeared at the feet of Jinshelangjun. Fortunately, Jinshelangjun ran out immediately.

Others also ran out ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ There was only one person left in the venue, Angolo again aimed at Lu Yang, and released the static stand at the feet of Lu Yang.

Lu Yang, as before, ran along the corner and resolved the static stance released by Angolo.

"Huh, fortunately, there is Lu Yang, and finally he was shocked." Xia Yuwei said with a sigh.

Everyone nodded.

After the static stance was over, Lu Yang said, "Everyone is here, the boss is at the final stage, the black armor is charging, and the shield wall is mocked again. Got him. "

Xia Yuwei and others have been waiting for the order to land Yang, and Wen Yan rushed up immediately.

Angolo's blood was only around 20,000 points, and he was besieged by everyone. The speed of blood loss was more than doubled, and less than 5,000 points were left in an instant.

After less than 10 seconds, Un'Goro couldn't hold it anymore and fell to the ground.

System prompt: You successfully killed the traitor Un'Goro

Lu Yang immediately came to Angolo, clicked and picked up, and put Angolo's head in his backpack.

This is the second item upgraded by the demon heart, and the remaining one is exchanged for the required materials. He has prepared 600 sets of dark silk spider silk and 600 groups of low-light elements. The demon heart can be upgraded soon Already.

## Chapter 57 - Spore Village

Xia Yuwei and Zhang Zibo, when they saw the boss dead, the first time was not celebration, but a feeling of collapse.

“It scared me. In the last stage just now, I thought that the boss had to take a static stand again.” Zhang Zibo gasped.

“I feel the same way, I see his hands are raised.” Leng Feng said.

“Unfortunately, our team’s equipment is not good. If we can also have the equipment of Lu Yang, this boss will be easy to hit.” Zhang Zibo said.

The crowd nodded.

Xia Yuwei saw Lu Yang go to drive the boss, and asked, “Lu Yang, what equipment did you have?”

Lu Yang said: “It is a silver-level mage leggings.”

He sent the attributes of the equipment to everyone.

Un’Goro’s Leggings (Silver)

Level: 5

Defense: 6-10

Stamina: +3

Intelligence: +8

Spell Damage: +18

Spell Critical Chance: +8

Spell Hit Chance: +8

“It’s my turn.” Lu Yang said, and there was an agreement before that all the equipment for the mage belonged to him.

Xia Yuwei and others nodded. Although a little disappointed, they knew that being able to play this boss had little to do with them.

After Lu Yang put on his leggings, the spell damage increased by 26 points again. Counting the previous 148 points, the actual spell damage has reached 174 points.

However, he didn’t care about this equipment, Lu Yang said, “Everyone please make a copy with me. I will tell you where the bug is and you will go there to upgrade.”

Xia Yuwei thought that Lu Yang was just talking casually before, but did not expect that Lu Yang really wanted to take them to bu \*.

“Thank you,” Xia Yuwei said, turning her head and saying to everyone, “Everyone gathers.”

Zhang Zibo and Lengfeng immediately brought their team members over, and a group returned to St. Gall.

Just after landing, the spirits Qingfeng said, “Brother Lu Yang, and everyone, I’ll go first. The head of the group has something to do with me.”

Lu Yang knew that Chi Mu wanted to know the specific customs clearance process, and said, “Thank you very much for this time, and thank you, Chairman Chi Mu for me.”

Liquor Qingfeng said, “It’s our thanks to you. With this video, our union will soon be a lot ahead of other unions.”

Lu Yang smiled and didn’t speak.

Liquor Breeze also knows that some words he said are inappropriate, and requires Twilight to speak in person.

“Good-bye everyone, we will be together again when we have time.” Lie Qingfeng took a fist and turned away.

Xia Yuwei, Zhang Zibo, and others watched the spirits breeze leave. They knew that it would be difficult to meet again after this time, because the spirits breeze was the vice chairman of a 60,000 union. They were only a 20-person studio.

Lu Yang found the loss of Xia Yuwei and others, and said, “Don’t be discouraged. This is the beginning of the game, and it will be unclear what kind of people will develop afterwards. If a few of you are rich, you can also wait for the game to start currency exchange. A lot of players are recruited to form unions. “

Xia Yuwei nodded and said, “I have the same idea.”

Zhang Zibo and Leng Feng nodded one after another. They have seen the future influence of this game and think that it is worth investing in this game.

Lu Yang knew that Xia Yuwei would say so, saying, "Follow me, we will teleport to Giant Town."

"Boss, shall I go too?" Xiao Liang asked.

"You stay here and wait for me, I will take you to upgrade later." Lu Yang said.

After a while, he had to send Xiao Liang to the half-orc cave hall. Xiao Liang also knew what Lu Yang meant, and nodded, "I'll wait for you here."

Lu Yang made a sound and teleported to Xia Yuwei and Zhang Zibo to Giant Town.

Instructing Xia Yuwei, they accepted the mission of Shepherd Flake, and after getting the quest item set of horses, Lu Yang took them to the bu \* under the high mountains.

Lu Yang said: "Climb up from here with a horse. The monsters behind the mountain are all level 5 bisons. You output from above. The bisons cannot fight back."

"Quest items can still be used in this way?" Zhang Zibo asked dumbfounded.

Lu Yang said, "Of course, let's go up. There are very few players up to level 5. You have at least 2 days to upgrade here."

Xia Yuwei and others thank Lu Yang for their kindness. On the third day of the game, more and more players entered the game, and it was difficult to find a place where no one robbed them, let alone Lu Yang gave them a level-up play. Strange place.

Lu Yang anxious to upgrade the spirit of the demon god, greeted them with Xia Yuwei and Lan Yu, and returned to the city of St. Gall, spending 1 silver coin from the carrier to fly to the 20th level map-night town.

Night curtain town, ranked the ninth most popular place for players to vote in the past.

Because this place is full of more than ten meters of black trees, the big trees cover the sky, leaving the people under the tree in a dark environment all year round.

On the ground, there are swamps everywhere outside the town at night, and the game imitates reality. Once trapped, it will be a fatal ending. Many players have a great shadow in this place.

However, for Lu Yang, this is paradise. He had offended Black Blood in his last life, and Lu Yang and his brothers only survived by hiding in the swamp outside Night Town.

Thinking of black blood, Lu Yang was angry again. Liu Jie said for the time being, even if he was black, he couldn't defeat it directly, which made him feel anxious again.

Out of the night town, Lu Yang followed the memories of his previous life to kill the monsters and came to the depths of the swamp, and found a place called Spore Village.

In this place, few players have ever known about his existence. There is only one path in the deep swamp that allows the player to pass, but this path is hidden in a black swamp.

Lu Yang found the road hard in order to avoid the black blood, but they did not expect that there was actually a small village in this place.

The village is surrounded by a fence made of black wood. At the entrance of the village, there are two humanoids that are only half a meter high and have purple skin all over their heads, like a football, with six yellow eyes.

They are guards of Spore Village, but their level is only level 5. When they saw strangers coming, both guards showed a wary expression.

System prompt: You found Spore Village

Your reputation in Spore Village is neutral

Lu Yang came to the two and said, "I'm a magician who is going out to test. I inadvertently explored here. Can I go in and see?"

The guard on the left spoke a word of spores to Luyang. Lu Yang did not understand it when he came, but he stayed in Spore Village for nearly half a year, and he could understand simple spore language.

What he said was very simple, adventurer, of course you can go in, but I hope you can leave quickly, outsiders are not welcome here ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang nodded and went straight into the spore village. Large, because they are only half a meter tall, the house in the village is only over 1 meter tall.

The houses are all wooden and look like a coconut without shells. Among the houses, there is a relatively large one, which is the house of the village head.

At this moment, the village chief was standing at the door of his house. After seeing Lu Yang, the village's eyes brightened, and he shouted to Lu Yang in the common language of the mainland: "Hey, man, come here."

Lu Yang walked in front of the village chief and said respectfully: "Hello village chief, I am a magician who travels abroad."

The head of the village looked very old, and looked up to Lu Yang. "Young man, are you here for anything?"

"I'm just passing by here, come in and take a curious look, don't know if I need any help?" Lu Yang asked.

"Young man, are you really willing to help us?" Asked the village chief of Spore Village.

“Of course.” Lu Yang also talked to the village chief in his previous life. He just wanted to ask if there were any tasks that he could take. I did not expect that the village chief kept asking him for dark zealous silk and shimmer elements.

At first Lu Yang thought it was a hidden task. After giving it to dozens of groups, he found out that it was only a task to improve his reputation.

Later, when Lu Yang upgraded the heart of the demon god, he knew that what the mission finally gave was one of the upgrade items of the heart of the demon god.

## Chapter 58 - Spore's Cloak

The village chief of Spore Village said, “As you can see, our Spore Village’s fighting power is very weak, and the prey around it is too powerful. I hope you can help me find more dark silk spider silk and shimmer elements to help us fight. . “

“Okay, no problem.” Lu Yang said.

Quest prompt: You have been commissioned by the village chief of Spore Village to find a group of dark silk spider silk and a group of low-light elements.

Before arriving, Lu Yang’s backpack was filled with 18 sets of dark-striped spider silk and 18 sets of low-light elements.

He took out a group from the backpack and gave it to the village chief of Spore Village, saying, “Mr. Village Chief, do you want this thing?”

The village chief of Spore Village received the materials from Lu Yang with both hands and said excitedly, “This is it, young man. I thank you on behalf of Spore Village.”

System Tip: You gain 60 reputation in Spore Village

Your reputation in Spore Village is friendly

Lu Yang can understand the excitement of the village head of Spore Village. The soldiers in their village are only 5th level, but the monsters outside are generally 20th level. Their battle relies on night to lure with low-light elements and dark silk.

The origin of the dark silk spider silk and the shimmering element is one silver coin away from here. Not to mention whether there is money or not, there are so many high-level monsters outside, how they go out is a difficult problem.

The village chief of Spore Village continued: "Our friends in Spore Village, these dark zephyr silk and shimmer elements are not enough. I hope you can help me find more."

Lu Yang took out the remaining 17 sets of spider silk and elements in the backpack and gave it to the village chief of Spore Village, saying, "I still have a lot here, I will give them to you."

"So much!" Said the village chief of Spore Village excitedly. "Young man, thank you for your generosity."

System prompt: You have gained 1020 reputation in Spore Village

Lu Yang said, "If you need, I can find more for you, but my backpack is not enough."

His backpack is only 36 squares, which comes with the system. In addition, for the convenience of the player, the system can let the player carry another 5 backpacks.

Lu Yang had never bought it before, because the explosion rate of "Second World" was too low, he could not buy it. Another one, the backpacks sold by the system are all 4 grids, 30 copper coins, not expensive practical.

"The young man, thank you, I allow you to supply in my village. If you need anything, you can go to the grocery store in the village, and he may have what you need," said the village chief.

“Okay, I’ll take a look.” Lu Yang said.

In “Second World”, there are special items for sale in every prestigious place. There are three special items in Spore Village. One of them is the spore material package, which has 36 grids, which is 9 times better than the system. The price is also cheap.

The other two are the Spore’s Cloak (Silver) for Mage and the skill book for Mage. It’s hot and fast. However, these two prestige need to be respected and respected, and can’t be purchased temporarily.

Lu Yang found the grocery store on the street, and said to Aunt Spore, who was selling goods at the door, “I want to buy something.”

“Of course you can,” said Aunt Spore, because Lu Yang’s reputation in Spore Village was friendly, and the spores in the village had a much better attitude towards Lu Yang.

“Thank you.” Lu Yang opened the purchase interface and found the material package of Spore Village. Each required 10 silver coins.

Earlier, Lu Yang sold the silver-level equipment exploded by Wokings to earn 67 silver coins, which is just enough.

After buying 5 backpacks in a row, Lu Yang still has 17 silver coins left, and his backpack space has reached 216. As long as he goes back and forth 6 times, the remaining 500 sets of dark silk spider silk and More than 500 sets of low-light elements were shipped.

Taking out the city roll, Lu Yang returned to St. Gall and ran to the bank. “Second World” highly imitates reality. Banks between cities and villages are not interoperable. Players want to bring things from one city to another. A city can only be transported with a backpack or a material cart.

Although this mode has been criticized by players, because of this mode, the game is much more playable, especially during the fortress battle, the two sides attack the other side to supply medicine and equipment supply teams.

Sometimes defeating the other side's supply team can win a war, and you can also get a lot of equipment and materials from the other side, which is more profitable than robbery.

Because of this, heroes such as grand theft robbers and monster robbers always appear in the game. They never show their names, but always come forward when the grand guild bullies ordinary players. Members of the important supply group who killed each other. To this end, several grand thefts have also been on TV and interviewed, but they are all in the virtual world.

Half an hour later, Lu Yang returned to Spore Village and handed over 108 sets of spider silk and 108 elements to the village head of Spore Village.

System prompt: you have gained 6,480 reputation

Respect your reputation in Spore Village

Reputation is respected, and Lu Yang can buy a cloak of spores. He returned to the grocery store and said to Aunt Spore, "I want to buy something."

"Dear sir, please choose at will." Aunt Spore said, when Lu Yang's reputation reached respect, the attitude of Spore Village to Lu Yang changed a lot.

Lu Yang opened the operation interface and found the cloak of spores.

Spore's Cloak (Silver)

Level: 10

Stamina: +4

Intelligence: +7

Spell Damage: +11

Spell Hit Chance: +5

Special effects: Weakness of spores ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ It is difficult to find his existence

The properties of this cloak are very average in level 10 equipment. However, at that time, Lu Yang was run around by the black blood and had no equipment. He could only replace this cloak.

However, what Lu Yang didn't expect is that although this cloak has poor attributes, it has an unexpected benefit. He can actually reduce hatred.

Lu Yang realized the mage's free mode very early, but under the free mode, his crit chance is too high, almost every attack can hit the crit, making the defense of their brothers very depressed. .

Later, after having this cloak, no matter how Lu Yang exported it, hatred remained intact. After looking for the reason for a long time, Lu Yang discovered that it was the effect of the cloak.

Later, after testing, even if Lu Yang hit 20 crit in a row, the boss did not take a look at him. Therefore, even when he reached level 50 and had a gold cape of level 50, Lu Yang was not willing to change this cape Come down.

Before, when Lu Yang played the boss in the next copy, the most feared was OT (transfer of hatred), so that he always had to stay five points when he output. Now with this cloak, he can output with full force.

Chapter 59 - Demon servant

After spending 5 silver coins to buy the cloak, Lu Yang replaced the cloak on his body with a cloak of spores. He glanced at the panel property and the spell damage reached 191 points.

I took out the back to the city and flew back to St. Gall. Because it is a public test, the back to the city sold only 30 copper coins. When the game entered the official operation in a few months, the currency exchange was opened. 1 gold coin and it takes 5 seconds to read.

However, that was a few months later, and there is no way to make money with this thing.

While he was packing materials into his backpack, the old man from the twilight called him.

Lu Yang Yile pressed the call button and said, "Chairman, what's the matter?"

The old man at the twilight had finished listening to the report of spirits and breeze at this time, and said gratefully, "Brother, you really sent your brother a big friendship. Within a week, my brother and I have 60,000 unions, at least 3,000 People can be equipped with silver equipment at level 3. You help my brother and I am a lot ahead of other unions. "

There are professional players and professional studios under the old man. The players in these studios are not very difficult to learn Lu Yang's free mode. If you have a master, you can learn it in less than two days.

Similarly, there are many such masters in Xiongba, as well as in other large unions. Lu Yang finally chose him. This is the most thankful place for Twilight.

Lu Yang said, "It's not a help, am I looking for hard liquor to help me fight against blame?"

"No, I heard the spirits. The black armored warrior is your subordinate. There is no need for him to let the spirits go at all. The brother took note of this. In the future, I will tell the older brother anything." Said the old man.

Lu Yang said, "If I have a chance in the future, I will definitely ask your brother for help."

What he wants is the old man who is twilight. After a while, Lu Yang establishes a union. Old man twilight is the first ally he wants to fight for. Now he has a good relationship and will meet again later.

After chatting for two more words, Lu Yang closed the interphone and filled with a backpack of materials. Lu Yang returned to Spore Village and handed over 216 sets of materials to the village head again. Lu Yang's popularity reached respect.

At this time, he can buy the mage's skill book.

Blazing Blaze

Type: Fire Spell

Cost: 30 mana

Cast time: Instant

Description: After use, the player's movement speed is increased by 100%, the duration is 30 seconds, and the cooling time is 5 minutes.

This skill is Lu Yang's favorite. In the PK, with Lu Yang's instantaneous Pyroblast for 0.5 seconds, even if he is in a melee, he can be among 10,000 people, which is the first level of the general.

After spending five silver coins to buy the skill book, Lu Yang chose to study.

System Tip: You Learned Blazing Speed

Lu Yang clicked on the skill bar and chose to use it. A ball of flame burst out under his feet.

The system prompts: you use the skill Blazing Speed, the movement speed increased to 650 points.

The player's initial running speed is 325 points, which is equivalent to a human running 4 meters per second, and 650 points, which is equivalent to a human running 8 meters per second, which is only 2 meters slower than Bolt.

He ran in Spore Village and shook his head. His fastest movement in his last life was twice as fast as this, leaving him with no sense of his last life.

After stopping his footsteps, Lu Yang took out the back to the city roll and continued to carry the dark silk spider silk and shimmering elements. After carrying it for 5 times, the village chief said nothing, but just took the spider silk to improve his reputation. At the sixth time, Lu Yang handed the last of the 600 sets of spider silk to the village head.

System prompt: You have gained 60 reputation for Spore Village

Your reputation in Spore Village has reached Exalted

The village head of Spore Village looked up at Landing Yang and said respectfully: "Great warrior, thank you for everything you have done for my village. I can't take it back. This is the most noble gift for our village. I hope you like it."

System prompt: You have obtained the Demon Energy Shard

Lu Yang looked at the fiery red energy film in his backpack, and couldn't help shaking his fist in excitement. He did it.

On the third day of the service, he had the materials to upgrade the heart of the demon god, and now he can really control his destiny.

"Old village chief, thank you for the gift." Lu Yang said, he took out the city roll and flew back to the city of St. Gall, and then went straight to the slums south of the city.

The slums, where all of St. Gall's low-level laborers live, have a very poor living environment. The streets are filled with dirty people, and the houses are small houses made of rocks.

Lu Yang walked into the slum and immediately noticed the people around him. Several NPC thieves stared at Lu Yang's pockets.

Lu Yang didn't care about them and went straight into the depths of the slum. Among the houses, Lu Yang found a house made of granite.

The exterior wall of the house seemed to be untied for a long time, and it looked very dirty. Lu Yang went to the door and knocked on the door, and said, "Is anyone there?"

"Damn, go away, believe it or not, I killed you." A roar came from the door.

If you are an ordinary player, you will be scared. Lu Yang found it here because of his level of more than 100, so he was not afraid to continue knocking.

"Would you please open the door? I'll look for Vulcan servant Kahn." Lu Yang said.

The door was opened with a bang, and an old man in a red coarse cloth rushed to Lu Yang and said excitedly, "Who are you?"

Lu Yang said with a smile: "Don't you invite me in?"

He recognized this person at first glance as Kahn ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ because, this is the Kahn who has met him the most in the last life.

Kahn calmed down and said, "Come in."

Lu Yang walked into the gate. He remembered that when he found the news in the St. Gall City Library in his last life, he also entered the gate in this way.

Nothing changed in the room. It was still like a family, and there was a burnt stone on the table.

After Kahn entered the door, he closed the door and glared at Landing Yang. "Tell me, who told you that Kahn was served by Vulcan."

Lu Yang did not speak, took the heart of the Blazing Demon from his body, put it in front of Kahn, and said, "Kahn, what do you think this is?"

"The heart of the demon and the demon, my lord's heart!" Kahn was frightened, and looked at Lu Yang in horror, and asked, "How do you and your lord's heart."

Lu Yang said, "This is a gift from the devil."

"The devil is up. My Lord is not dead. He is really not dead. Tell me where he is." Kahn laughed happily.

Lu Yang shook his head and said, "You can't go over for now."

He didn't want to talk about the fact that the Blazing Demon was trapped, lest the Blazing Devil lose his dignity.

## Chapter 60 - Demon Heart Upgrade

Kahn said piously: "The devil is above. Since you don't let me know, then this must be the will of my Lord. May I help you?"

Lu Yang said: "I want to restore the spirit of the devil to his strongest level."

Kahn's face showed an angry expression, saying: "Damn Angolo, when my demon temple was defeated, he took a pagan to slaughter our temple, leaving me alone in the entire temple, and I've been seriously injured and can't do it anymore. "

“However, that Angolo is not good. He betrayed the demon and must be cursed by my god. If you want to restore the power of the demon’s heart, you must kill Angolo first.”

Lu Yang knew that Kahn would say so, took out Angelo’s head from his backpack, put it in front of Kahn, and said, “Is this the head of Angelo you are looking for?”

Kahn looked at the frightened expression on Un’Goro’s head, and laughed excitedly, “My lord is on top, lord you really are the one chosen by my lord, please follow me, I will take you to the demon temple.”

Kahn silently chanted the spell, and a wave of space came, and the two disappeared into the room.

Lu Yang felt dizzy for a while, and appeared in a dark hall when he recovered his vision.

The hall is huge, like the papal palace, with countless stone pillars in the hallways on both sides of the hall.

Kahn said excitedly: “This is the demon temple. After our defeat, I used the mystery given by my bishop to transfer the demon temple to an ectopic plane and save it intact.”

“Now this place is up to you, the fighter chosen by our Lord.”

Lu Yang said: “Rest assured, I will make the demon see the sun again.”

In his previous life, Lu Yang also entered the demon temple as today. In the demon temple in this ectopic plane, Lu Yang will not be attacked. Once in danger, give Lu Yang 5 seconds to teleport to In this temple.

If you want to leave, you can choose to go back to where you were, or go to the home of Kahn in St. Gall.

Kahn said, “If you want to upgrade the heart of the devil, follow me to the altar.”

Behind the main hall, there is a circular altar with a diameter of 1 meter.

Kahn said, "With Angolo's skull, as long as you have the Mark of the Demon and the Demon Fragment, and the Heart of the Demon, the altar will automatically upgrade for you."

From the backpack, Lu Yang took out the demon mark obtained from the troll Woggins and the demon energy fragment from the spore village, put it on the altar, and said, "I have these things together."

Kahn said excitedly: "My lord is here. It's great. I'll help you synthesize. Please wait for me."

Kahn meditated on the spell, and the three things placed on the altar seemed to be pulled. Angoro's head burst first, and a red element of fire energy flew out of it.

The mark of the demon \*\*\*\* and the energy of the demon \*\*\*\* also emitted a dazzling red light. Afterwards, the three items were rotated around the heart of the devil after a few turns and merged into the heart of the devil.

System prompt: Demon Heart upgrade successfully

Demon Heart level increased to 1

Lu Yang took the heart of the demon and looked at the attributes.

Demon Heart

Level: Level 1

Constitution +10

Stamina +10

Strength +10

Intelligence +50

Dexterity +10

Critical Chance + 5%

Hit Chance + 5%

Spell haste + 5%

Fire Skill Level +1

Special Spell: Falling Meteor

Lu Yang couldn't help but clenched his fists. This is the upgraded attribute of the Devil's Heart. All attributes except the intelligence have been increased by 10 times. Although the intelligence attribute has only increased by 5 times, it has increased to 50 points.

These attributes together add a total of 90 attribute points to Lu Yang, which is the sum of the attributes that the player has raised by 16 levels.

In other words, although Lu Yang is now only a level 8 player, his strength is comparable to that of a level 24 player. Moreover, his crit chance is more than 20%, plus the 5% crit chance added by the heart of the devil. , The total crit chance reached 25%, on average every four times, Lu Yang can hit a crit.

There is also a special spell meteor falling. The spell effect is to summon a huge fire meteor and drop it on the ground to cause 10 \* 10 range damage, causing 600 basic damage, stun time of 10 seconds, and skill cooldown time of 1 natural day, which is reality. Six hours in.

Although this skill is still not a forbidden spell, his effect is no different from the forbidden spell at the current level. If Black Blood dares to find someone to besiege him, Lu Yang only needs a meteor to settle the battle.

However, these are not the most important. The most important thing is that after the upgrade of the demon heart, there is an additional +1 fire skill level attribute.

This attribute is equivalent to upgrading Lu Yang's Fireball, Pyroblast, Burn, Wall of Fire, Fire Ring Resistance, Blazing Speed, and Meteor Fall all to a level.

In "Second World", it is very difficult to increase the skill level, because if the skill is increased by 1 level, the base damage is increased a lot.

Taking Pyroblast as an example, the damage of level 1 is 36-42 points, while at level 2, it is 106-144 points.

Increased the base damage by nearly three times, including the bonus damage. When Lu Yang used Pyroblast again, the damage was 390 points.

Even at level 10, except for the whole blood plus a little anti-riding ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ any profession can't help him from a Pyroblast attack.

Among all fire skills, the biggest bonus is the meteor drop. The meteor drop's level 2 damage has 1300 points, plus spell damage, it can deal more than 1600 damage. There are no problems with trolls at level 15 seconds.

However, although the equipment is powerful, it also has a disadvantage. Once Lu Yang is dead, the demon heart will fall, and the level of the demon heart will not change when other players pick it up.

It is tantamount to making a wedding dress for others.

Lu Yang knew that he needed to be more careful in the future. He equipped the demon's heart on his body, said goodbye to the demon's servant, and returned to St. Gall.

When Xiao Liang, who was waiting for himself, was found, Lu Yang said, "Hurry up."

Xiao Liang shook his head and said, "I just visited the market just now, and I feel this game is really energetic and there are so many people playing it."

Lu Yang smiled. The highest peak of this game in the future is that 3 billion people are online at the same time. At that time, there were really many people.

"Come on, I'll take you to the half-orc camp." Lu Yang said.

"Oh, yes."

The two killed the monster all the way to the Orc Hall, where Lu Yang sent him to buy \*, and then ran towards the troll camp.

With the meteor fall, Lu Yang wants to brush monsters in the troll camp, and the troll's bone chain explodes on his body, which can be used by Lu Yang to find Bissell for money.
