

Wild Fire 621

Chapter 621 - Attack on St. Gall

How many guilds are there in St. Gall, Neptune, Hannibal, and Sirius?

Lu Yang surveyed that there were tens of thousands of people, dozens of small people, and 100,000 people large, including dozens of people in large guilds with more than 100,000 people.

Why are only these 10 guilds following Lu Yang this time, and other guilds are not yet dissatisfied with him and want to replace him.

There is no guild capable of replacing Lu Yang now, but they must be doing things secretly.

In this case, Lu Yang told them in advance that the city of St. Gall is his territory. If he wants to survive here, he must go with him. Otherwise, the end is to be killed and destroyed.

Outside the city.

The dense white light illuminates. It is the light from a crystal lamp. The piece of light is several kilometers long and almost surrounds the eastern wall of St. Gall.

Hei Yan said excitedly: "Army of shooting Sirius and Huo Tianhua has arrived."

Lu Yang said, "We can enjoy their performance to the fullest."

Huo Tianhua and his wolf players have fallen into madness, plundering the main city, or the city of St. Gall in the beginning of the national service. The heritage is far richer than those new cities, and Lu Yang gave them the best Chengdong Trading District is the richest street in Shengcheng.

“Brothers, riches are just now. All the things you grab today don’t have to be handed in. All members rushed for me and killed 20,000 npc soldiers in the city first.” Huo Tianhua shouted.

One million people screamed and rushed to the east gate of the city, breaking the main city gate instantly and killing the city head.

“No, the wolf siege is coming.”

“Wolves have come to slaughter the city.”

“Everyone come to support and help guard the East Gate. The people of the wolf are here.”

...

Players inside the holy city shouted wildly.

In a house on the south side of the main city, a group of players are discussing.

“There are too many fortresses in Lu Yang. We don’t have any.”

“Yeah, he has 17 strongholds. Can he use that much by himself?”

“Unfortunately, I missed such a good opportunity this time.”

“Don’t worry, I have a hunch. Wang Teng and Li Xiuyu’s next attack on Lu Yang is not far away. As long as we are united at that time, there will be a chance.”

These people are the presidents of 12 large guilds in the city of St. Gall. They are the ones who stand out from the copy bonus and think they have the power to challenge Lu Yang.

The person sitting on the main seat is called Feng Qingyunyong, and is the president of the Rock Dynasty Guild. At present, the number of players in his hands has reached 150,000, most of them have 40-level gold, and they are full of confidence.

The person sitting on his left side is called the Promise Sniper. He is the president of the top of glory. The 120,000 players are mostly gold.

The player on the right is called Tianhun, the boss of the Purple Night Dynasty Guild, with 120,000 players, and the rest of the guild bosses are also around 100,000.

These people come together, and the number exceeds 1 million, which is not worse than Lu Yang in terms of number.

The purpose of their gathering tonight is to see if there is a chance to sneak in one or two of the fortresses in Lu Yang, and then take the opportunity to seek the asylum of Li Xiuyu, Wang Teng, or Ma Lizhe, but unfortunately, they did not expect that Wang Teng took the main force to the elves to fight, and Mai Lizhe was attacking Sunlight City.

Lu Yang reported again and again, and as a result, in their opinion, such a good opportunity was missed.

“It’s a pity.” Feng Qingyunyong’s expression did not bless me.

“噫”

The door of the room was shoved open, and Nandi, the vice chairman of Locke Kingdom, came in and said excitedly, “No, the players of the wolf race have entered the city of St. Gall.”

“How is that possible, aren’t the Wolf people fighting Lu Yang?” Feng Qingyunyong asked.

“The people who came are Huo Tianhua and Sirius. They are from Lu Yang. This time it was designed by Lu Yang. Please contact the people who set up the stall and let them rush into the hotel to hide.” Nandi said.

The chairmen of the congregation reacted, and immediately called offline. Unfortunately, it was too late at this time.

Huo Tianhua and Shooting Wolf rushed into the East Gate and South Gate with 2 million people respectively. Although the number of players who knew how to ban curse in their hands was small, they could easily eliminate the npc defenders.

NPCs with only 800,000 blood can't withstand the simultaneous attack of 5 secondary forbidden spells. Moreover, according to the time when Lu Yang attacked the wolf tribe, they shot the wolf later in the attack on the holy city. .

Soon, 40,000 NPC soldiers of the city guardians were killed and looked at the endlessly prosperous street in the east of the city. Huo Tianhua raised his sword and shouted, “Brothers, grab ~!”

One million people rushed into Chengdong Avenue like a tsunami!

After shooting Sirius and his troops, he also burst into Chengnan Street. After all his soldiers were robbed, he took 20 relatives and Mu Yi to the military camp in the north of the city.

Only General Trudeau stood alone in the camp.

“Hey, it really is him alone.” Shoot Sirius.

“Boss, why don't we go robbery, why come here to kill this strange?” Ling Feng asked.

Shooting Sirius seriously looked at Ling Feng and all the puzzled players behind him and said, “You remember today's things, you must not mention it to anyone, if you let me know that any of you

revealed this News, do n't blame my elder brother for not identifying you as brothers, let alone my boss for issuing a permanent hunting order against you. "

Ling Feng was shocked and asked, "Boss, what is so secretive."

Shooting Sirius said: "Do n't ask, as long as you guys remember, everyone who participates in today 's event will get ten times more than those outside players. I 'll take you here, too. Think of you as my brothers, brothers, don't be ashamed of me. "

Ling Feng blinked and said, "Boss, don't worry, I will never reveal half a word."

"me too."

"I promise."

"I swear."

...

More than 20 people vowed not to say anything. After confirming one by one, they said, "I know you won't let me down."

A black light flashed through ~ www.mtlnovel.com ~ Han Sha's figure appeared beside Sirius, saying, "Are you all here?"

Shooting Sirius said: "It's all here. They are all my most trusted brothers. They promise not to talk about it."

Han Sha glanced at them, and turned back to shooting Sirius. He took out several remedies such as magic sound reverberation and acid venom from his backpack, and said, "This is what the boss asked me to give you, you can fight."

“Okay.” Shooting Sirius took the potion and said to Ling Feng and others, “Open a strange.”

Ling Feng immediately rushed forward carrying the big shield.

These closest men who shoot Sirius have followed him all the way from the beginning of his guild. The Sirius Legion has experienced 3 setbacks, and each time they almost destroyed, these 20 people followed the Sirius.

At present, these people are the highest paid in the Sirius Legion, and they have received the shares given to them by the Sirius. They are very loyal to the Sirius, and are grateful for the wealth and wealth of Sirius.

Chapter 622 - Holy sword drawings

quickly.

The general was killed by the shooting Sirius, and a drawing emitting a divine light fell from the general.

Without waiting for it to fall to the ground, one hand emerged out of nowhere and grabbed the drawing into the backpack.

Shooting Sirius and Ling Feng and others looked up and found that it was Han Sha.

“You scared me.” Shooting Sirius panted.

Ling Feng covered her chest and said in a frightened face: "Brother, can you say it next time, you are so scary, we thought someone was going to grab it."

Han Sha said nothing and disappeared out of thin air.

Top floor of the king castle.

Lu Yang looked nervously north.

After a black light flashed, Han Sha appeared beside Lu Yang, handed a drawing with a sacred light to Lu Yang, and said, "Get it."

Bottom page of design: Troyad's Holy Sword (Legend)

Lu Yang took the drawing, and fisted excitedly, saying, "Our guild is stronger now, and tomorrow I can take you to open the waste blood demon temple."

"Blood Demon Temple?" Hei Yan asked curiously: "Is it difficult?"

Lu Yang said: "It's not difficult, it's just very equipment."

According to the official rules of play, you need to gradually upgrade the equipment from the small copy of 20 people at level 60 to the 100 copy of people, from the ordinary copy to the difficult, epic, and then enter the more difficult level 60 epic copy.

Some copies need to be keyed. It takes at least half a month to find the key, and then push the copy ...

By the time we have all the equipment for 100 people, the most elite studios will take half a year! Then they can go to open the Blood Elf Island.

Now, Lu Yang has used his rebirth experience to reverse the order of making copies. He has obtained the superior gold equipment on the Blood Elf Island in advance. With the Holy Sword, he has a half-year advantage over other guilds. .

Tu Feng sent a message and said, "Boss, there might be some trouble on the elves side."

Lu Yang asked, "What's wrong?"

Tu Feng said: "Just got the news, Liu Jie regained 8 of the 9 fortresses that originally belonged to him. The alliance formed by Shenhuang was broken this time. If you can persuade Shenhuang, his The two fortresses are under siege by Liu Jie. I don't think he can support the dawn. "

Lu Yang had long advised Shenhuang not to participate in the siege, and he had returned him to the original fortress. He just didn't listen, and it is estimated that he could barely maintain it now, saying, "I'll call him."

Shenhuang is very important to Lu Yang in the Elves. As long as Shenhuang does not fall, Liu Jie will never be able to attack himself. Once Shenhuang is finished, Liu Jie can lead all Elven players to go south.

Lu Yang has just got the drawing of the upper and lower pages of the Holy Sword. If these people in the hand fight with Liu Jie, they will not lose if they can't win, and the fortress will not be lost. The only problem is the side. There is another Merritt and his Quartet.

Tonight Lu Yang is going to fight the wolf tribe. Mai Lizhe is playing in the city of Nikko. It is estimated that he has at least laid a fortress now. This kid is not a good person to deal with. Once he helps Liu Jie with Liu Jie, Jie, Lu Yang is going to be out of luck.

Taking out the interphone, Lu Yang dialed Shenhuang's phone.

Elf tribe, fortress city head.

Shenhuang looked at Liu Jiejun below the city with bloodshot eyes. Today, during a day of fighting, their 8 guilds joined together to fight against Liu Jie. Sure enough, 3 guilds rebelled on the way. Although he had taken precautions, another 4 guilds He was caught by surprise and suffered heavy losses.

In the first field battle, Liu Jie defeated them. The subsequent wars were like the domino effect. With the first defeat, every battle thereafter ended in failure.

The other four guilds were frightened by the men they fought, but they gave up the fortress they grabbed from Liu Jie. Only he, relying on the emerald crystal provided by Landing Yang, made the Druid Starfury suit in the city. Stick to it.

He was responsible for the defense of this newly acquired fortress. The original fortress he controlled was handed over to his nephew's defense. Each of the two cities had 500,000 defenders. However, the army besieged by Liu Jie had 100 in each main city. Ten thousand people.

"Boss, it's too late. Many brothers can't hold it." The First Vice Chairman of the sword and axe soldier said to Shenhuang.

Shenhuang gritted his teeth and cursed, "What did Liu Jie say to the 2 million people, and how to fight late at night, these people still accompany him."

The sword-axe warrior shook his head and said, "Boss, think of a way, if it's just defensive, your brother who is willing to accompany you will not exceed 100,000."

Shenhuang was furious. He was about to get angry and the intercom rang. He hurried to open it. When he saw it was Lu Yang, he couldn't help but breathe a sigh of relief.

Lu Yang said: "I heard about your situation and I'll call you and ask what's going on."

Shen Huang sighed and said, "It's not easy, as you said, we lost, and now only I am still insisting, but it looks like I won't be able to persist for long."

Lu Yang said, "Brother, listen to me and persuade me to abandon this fortress and retreat to the fortress you originally occupied, where you have the best defense ability."

Above the original fortress of Shenhua, there are 12 fortress guns and more than 1,000 arrow towers, which are much stronger than the existing fortress.

Shenhua sighed and said, "Brother, I can't be reconciled. I just defeated Liu Jie, and I'm so lost."

Speaking of the back, Shenhua gritted his teeth.

Lu Yang said: "This is not your problem, but the problem of your alliance. The most unreliable in the world is the loose alliance. Whenever there is an issue, you will pay attention to everything."

If you are really united, if the equipment is not much different, and the number of people is not very different, the two sides will fight hard. Liu Jie will not take too much advantage ~ www.mtnovel.com ~ This time let him win, mainly Seeing that the alliance established by Shenhua did not trust each other, but only used relationships.

Shenhua said: "I am contacting those people. As long as they are sending troops now, Liu Jie will withdraw his troops to protect his strongholds. I think I have a chance."

Lu Yang didn't expect Shenhua to think so, and said, "Don't deceive yourself. Liu Jie won back not only 8 fortresses, but two main cities. Those of your allies want to come over, and they need 4 as soon as possible. Hours, it's not sure if they can win. Do you think they are stupid? "

Shenhua had nothing to say. Looking at Liu Jie's 1 million troops in the whole team outside, he said helplessly: "I want to retreat now, and Liu Jie may not be able to agree. The 100 people under him are full of energy."

Lu Yang thought for a while and said, "I don't believe that Liu Jie's men don't want to end the war quickly. You believe me, and do as I say. Liu Jie's men will hear what you say and they will surely force Liu Jie to stop the attack. You don't want to lose both of your forts at the same time. "

Shenhuang stopped talking, and finally sighed and said, "Well, I listen to you, you tell me what to say."

Chapter 623 - retreat

Under the city.

Liu Jie rode on the night blade, looking at the defensive players above the fortress with satisfaction, and each player's face was deeply tired, although his men beat him from day to 3 am I can't hold it anymore, but he believes that he can hold it after Shenhuang concedes.

The dead grass stood beside Liu Jie and said, "If you are lucky, we can get two fortresses of Shenhuang at a time, and completely drive his people out of the Purple King City."

Liu Jie nodded, remembering that he was overthrown by Lu Yang at the beginning. Shenhuang was Lu Yang's vanguard. Now he finally regained the fortress and besieged Shenhuang in the last two fortresses. He counterattacked from a distance. Lu Yang, there is only one step away.

"Order the troops and prepare to attack." Liu Jie said.

Qu Han and Wang Teng and others immediately led the troops to prepare for battle.

The dead grass said: "Although our players are very tired, but we have always been winning the battle, Shenhuang has been defeating the battle, they are more tired than us, and it is estimated that this wave will be able to lay a fortress."

Liu Jie smiled proudly, staring at the city head with bloodthirsty eyes.

Suddenly, Liu Jie saw that Shenhuang actually came to the city.

Shenhuang shouted loudly, "Liu Jie, I ask for negotiation. If you agree to my request, I will immediately take the player out of the fortress, and I will give it back to you."

The morale that the players under Liu Jie had just exploded instantly collapsed, and everyone turned their attention to Liu Jie.

The dead grass said: "Don't ignore him, and quickly order the attack. His condition is nothing more than withdrawing from the fortress, so that we do not attack the purple gold fortress he occupied."

On several occasions, Liu Jie wanted to order the troops to launch an attack, but when he saw that his morale had all leaked, he sighed helplessly and said, "This kid will really find time."

The dead grass snorted, and he didn't speak anymore. He also knew that the morale of the entire army had leaked after the word of Shenhuang. After playing for nearly 20 hours, the player could not stand it.

Liu Jie rode into the front of the night sharp leopard, looked at the gods on the city's head, and asked, "Say, what conditions?"

Shenhuang said: "I admit that I lost this time. I won't let my brothers accompany me and get tired. I will take someone out of the fortress. This fortress belongs to you, but I have a request."

Liu Jie said: "What is required?"

Shenhuang said: "You can't immediately attack my Zijin Fortress. If you promise, I will retreat. If you want to grab my fortress, my brothers will definitely fight with you to the end."

The players under Shenhuang have not wanted to fight for a long time, but that is based on the fact that they still have a home. If they do n't even have the last fortress, they would rather not sleep, and they would rather be accused by their family than Liu Jie Fighting to the end, this is a big question of principle.

Liu Jie watched the morale of the players under Shenhuang on the city head get higher and higher, and the players under his eyes looked at him with impertinence and said, "I promise you, within three days, I will not attack you Fortress, you retreat. "

Shenhuang said: "Okay, gentleman, please wait for 10 minutes. After the deadline for transmission is banned, I will immediately retreat."

There is a 10-minute combat time during the battle, during which the use of teleporting reels is prohibited.

Liu Jie nodded in agreement and smiled and said, "I ordered the player at the Zijin Fortress to retreat. You can sleep well tonight, and I will go back to rest."

Shenhuang smiled helplessly. After waiting for 10 minutes, he led 500,000 players back to the Zijin Fortress. Outside the city, Liu Jie really kept his word and removed all the attacking players.

Shen Huang sent a message to Lu Yang: "The battle is over, and I have such a fortress left."

Lu Yang said: "There will be opportunities in the future, and I will gradually provide you with more equipment and materials, and you will not have any problems holding on to the fortress."

Shen Huang said with a sorrowful smile: "Can we only do that?"

Lu Yang really has no way at present. Thanks to Bingshan City being taken back by the original gang, otherwise, the main force of Wang Teng and Li Xiuyu rushed over, Shenhuang couldn't even hold fast.

"One more forbearance, I have defeated the wolves, and the next war with Liu Jie is not far away." Lu Yang said.

Shenhuang had no choice but to promise.

“Kill ~!” A group of wolf players rushed towards the king’s castle, and just ran under the castle, and countless 80 archers elite shot bows.

Almost 200 players died instantly! Most of what was snatched from him burst out.

Lu Yang frowned and said, “What did you do, didn’t you remind them not to come to King’s Castle?”

The defensive power of the king’s castle is far from comparable to the outer city walls, otherwise Lu Yang would have killed the wolf king to win the treasure.

Han Fei said: “Killing red eyes, I guess I forgot.”

Lu Yang looked at the time. It was already over 5 in the morning. He dialed in Huo Tianhua’s speaker and said, “Retire immediately.”

Huo Tianhua said: “So early?”

Lu Yang said: “You need 2 hours to complete the whole team. Most human race players will be online when more than 7 o’clock, be careful your 1 million people can’t escape.”

“Okay, I’m the whole team.” Huo Tianhua said.

He had no experience of such a large-scale war, but he knew that Lu Yang had it. Since Lu Yang said that it was time to leave, it was time to leave.

The same is true for shooting Sirius. The two immediately assembled their troops. Sure enough, most of the wolf players withdrew from the city of St. Gall for almost 2 hours. First Class Start

Lu Yang said to Sirius Shooting: “The whole army immediately returned to Sirius City. For the next half month, your main task is to guard the fortress, you know?”

“Boss rest assured,” said Sirius.

Huo Tianhua sent a message and said to Lu Yang: “Brother, I’m counting the harvest this time, I will give you the final 50, thank you.”

Lu Yang smiled and said, “You’re welcome.”

This time Huo Tianhua and Shooting Sirius could win at least 1 billion credit points in St. Gall’s ~
www.mtlnovel.com ~ The same is true of Lu Yang.

Zhuoju poured a phone call and said, “Report boss, the army arrived safely at the west gate of St. Gall and is gradually entering the city.”

Lu Yang said with satisfaction: “Very good, let all the brothers go to rest and tell them that there are special things that are preferentially sold to the guild. I will buy them at the highest price.”

“Yes.”

The harvest this time is not only some equipment and materials, but also many special items. For example, Lu Yang hit another wind elf this time, and Xiao Liang also hit two ancient beast statues. They are players who sell materials. It burst out there.

Lu Yang said, “Let’s go back, too. It’s time to take a rest.”

“Ok.”

The rest of the group and Landing Yang were off the assembly line. They all played for a day and night, and they were exhausted.

Chapter 624 - Forged Holy Sword

The crowd nodded and quit the game and rested.

Lu Yang didn't take a break. He said to the rushed Tu Feng: "Your men will be online and let them recruit players here at King's Castle. I believe there will be many, many people come to our guild this time."

The ultimate goal of this city slaughter is to integrate most of the large guilds in the city of St. Gall. The game situation in the future will become more and more complicated. He cannot watch the undercurrents inside the city become more and more turbulent without stopping.

Tu Feng said, "Okay, I'll take care of it."

Lu Yang nodded and said with a smile: "Follow me to the smithy. The upper and lower pages of the holy sword are in my hand. We can build the holy sword now."

Tu Feng said excitedly, "Does this thing produce energy? What materials are needed?"

Lu Yang said: "I have exchanged materials with players from other countries during the global competition. Making 200 holy swords is not a problem."

Tu Feng shook his fist with excitement and said, "Great."

Lu Yang was also very proud, and brought Tu Feng, Han Fei and others to Chengbei Blacksmith Shop.

Han Zhong has been on the line, patted a player around him and said to Lu Yang: "This kid is called Ning Yun, who is the best weapon forging division in our blacksmith shop, with more than 12,000 forging proficiency."

This is Lu Yang who asked Han Zhong to find a good person in advance. There is a blacksmith shop, and all the work has become a lot easier.

Ning Min was a child of the slum. He worshipped Lu Yang to the extreme. After training by Han Zhong, there was no problem with his loyalty to Lu Yang.

“Boss is good.” Ning Min bowed to Lu Yang a bit shyly.

Lu Yang said with a smile: “Yes, work hard, boss, I won’t treat you badly.”

“Thank you, boss.” Ning Yan said.

“Leave the drawing to you, learn it, and then we will build it. If there is a problem in the process, I will teach you.” Lu Yang said.

To build legendary weapons, Lu Yang had relevant experience. When the last generation was at level 200, Lu Yang hit a drawing of a 120-level legendary weapon with an artifact such as the heart of the demon god. At the time, he forged in the guild. Player strength is not good, accompanied by Lu Yang to study and understand the forging method of legendary weapons.

Ning Yue said, “Okay, I’ll go now.”

The forging room in the smithy is in the room on the first floor. Ning Yue’s forging room is No. 1, which proves his ability in forging.

Ning Min took out the upper and lower two pages of the drawing and chose to study. A sacred light flashed, and the drawing disappeared without a trace. In the forging skill column of Ning Biao, a two-handed sword with holy sword pattern was added.

Han Zhong took the materials and said, “All the hardened gold ingots, the source of holy light, sapphire, and sacred orb are all there.”

Seeing these materials could not help but swallowed and said, "Boss, these materials are especially expensive, I have never seen them before."

Lu Yang said, more than expensive, the national costume only wanted to get a copy of the materials, such as the Blood Elf Island, to get a set of materials. One material is worth tens of thousands of dollars, and a holy sword is worth more than 100,000. .

Lu Yang said: "Don't think about it, these materials are not expensive. He is not much different from ordinary weapon forging. The only thing to pay attention to is the order. Remember, put the gold ingot first, wait for him to melt, and then put it in. The source of the Holy Light, after the two kinds of fusion are completed, put into the sapphire, and finally put the sacred orb. "

Ning Min responded quickly and understood based on past experience and said, "Good boss, let me try it first."

He took 30 hardened source gold ingots from the storage bag and put them into the furnace. Under high temperature, the gold ingots quickly melted and turned into a golden aqueous solution.

Ning Min was going to take the source of the Holy Light and was stopped by Lu Yang.

Lu Yang said, "Wait another 30 seconds, and then let go when you see a white smoke."

Ning Min nodded, and sure enough, a little invisible white smoke flew out after 30 seconds.

Lu Yang said, "Let it go."

Ning Min put the source of the holy light into the hexagonal crystal, the source of the holy light that emits the sacred light enters the gold water and melts quickly, and the golden light makes the gold water more bright.

Lu Yang said: "Use your skills to turn the golden water into the form of the holy sword."

Ning Min clicked on the Holy Sword casting skill, and the original pool of gold water gradually turned into a two-handed sword.

The length of the sword is not wide, 175 cm in length. It looks a little slender but feels the width of the sword is just right. It is suitable for chopping and stabbing. Thick, there is a blood groove in the middle of the right side of the entire sword body, which looks restrained but kills.

Lu Yang said: "Put the sapphire and melt it into a hilt."

Ning Yue put sapphire into it, and as the high temperature melted, sapphire was made into a sword-handle shape by Ning Yue using his skills and connected to the sword body.

The hilt is very long, a long cross shape, there are still a lot of wealth in both hands, and there is a hole in the joint between the hilt and the body.

Lu Yang said, "Put into the sacred orb."

Ning Min asked in surprise: "Don't you have to wait for the holy sword to cool?"

Lu Yang said with a smile: "Let's put it now."

If you wait for the holy sword to cool down, the orb cannot be put on it. Players who received the holy sword in the last life encountered this problem when casting. Who can think of the sacred orb that looks fragile on the outside without fear of high temperature.

Ning Yue nodded and placed the orb in the hollow. For a moment, the orb was firmly trapped by the sapphire.

A holy light shines in the furnace.

Ning Yue said excitedly: "Boss, I succeeded, the system prompts me that the casting was successful."

Lu Yang said to Tu Feng beside him, "Take it out."

Tu Feng took up the Holy Sword.

System prompt: Player Tu Feng gets the first holy sword, code no.1.

Tu Feng said in shock: "Here, this thing has a code?"

Lu Yang said with a smile: "The first one belongs to you, as a reward you silently pay for the guild."

Which player does not want to get the best weapon in the game ~ www.mtlnovel.com ~ Tu Feng is no exception. Looking at the holy sword in his hand, he excitedly said to Lu Yang: "Thank you, boss."

Lu Yang said: "Let 's be polite. Let 's take a day off today, take the holy sword and go for a refreshing break, and export the gems to the guild warehouse, which are available from level 1 to 10."

"Well." Tu Feng ran away excitedly.

Han Fei said: "It turned out that Tu Feng was so anxious."

Everyone laughed.

Lu Yang said to Ning Yun: "It's been hard for you these days, try your best to create the holy sword. There are 200 sets of materials here, and you can cast 190 holy swords."

Ning Yue said: "Boss rest assured, I do my best."

Lu Yang nodded, and briefly explained the things that need attention during the day with Han Zhong, quit the game and went to sleep.

Han Ying, Han Fei, and others also took Lu Yang off the assembly line and rested.

Chapter 625 - Luna Godhead

Lu Yang took a rest here, but it exploded during the game.

Early morning.

The Elves had the exact news. Liu Jie rose strongly and regained control of nine fortresses and two main cities.

The Red Moon City boss laid down a fortress in Nikko City. The old man and the hegemon who had once retired from the stage joined hands to fight back. After exchanging a fortress, they prepared for the second phase of offensive and defensive battles with Merritt.

Lu Yang was even more arrogant, slaughtering the main city of the Wolf family, and the wolf family also slaughtering the main city of the human family.

Numerous guilds have found Tu Feng and asked for a statement. Tu Feng said that they only cooperate with Huo Tianhua and Wolf in the wolf tribe. They want to slaughter the city and have nothing to do with the Iron Brotherhood. If you do not want to encounter this situation in the future, you can apply for alliance with the Jagged Brothers Alliance.

Three in the afternoon.

When Lu Yang woke up and entered the game, Tu Feng told Lu Yang that there were already more than 100 large and medium-sized guilds who had agreed to form an alliance with them.

Many guilds in the Imperial City and Hannibal also came to him to make an alliance, but he couldn't find time to deal with it now.

Lu Yang said, "It's good to form an alliance. In the future, everyone advances and retreats together. They benefit, and we don't have to worry about being stabbed in the back."

Tu Feng nodded.

Lu Yang asked: "How many holy swords have been made?"

Tu Feng said: "16, who love half-life and the white lion. They are all sitting in the smithy. No one's eyes can leave the holy sword. I didn't give them to you. You didn't tell anyone before."

Lu Yang said with a smile: "The first batch was given to the army commander first. This group of people can't sit still and don't give them to grind me every day."

Tu Feng said with a smile: "Okay, I'll send them myself."

"I'll go with you," Lu Yang said.

He couldn't let Tu Feng drop this complaint, took Tu Feng to the smithy, explained two sentences, and gave them the holy sword.

There are many people who have muddied wine, Xia Yuwei, Zhang Zibo, Hansha, Bai Xixiong, bitter love half-life, Zhou Tianming and Zhou Tianyan.

Originally, the raging battles and Paladins of the White Lions were equipped with parts from the Blood Elf Island and the Mysterious Tower. A total of 9 pieces of equipment combined had an attack power of nearly 4,000 points. Counting the other 7 pieces of equipment, the attack power was more than 5,000. Today, Coupled with the 3,000 Holy Sword, the total attack power is more than 8,000.

Zhuo Jiu sighed with a holy sword and said with a sigh, "This holy sword is the same as tailor-made for the Templars. We start the state of punishment angels and ignore the target's defense. Each sword can deal more than 8000 damage. A critical strike is 16,000. "

White Lion said: "The key is that the critical strike chance is still so high, it is too easy to make a critical strike."

Lu Yang said: "I went to the warehouse to give you synthetic gems. You're welcome. I got them all this time. Even if these equipments are only for transitional use, they can be given to others in the future."

This time, Lu Yang alone went to the Wolf Clan to obtain 200,000 gems, of all levels. Some of these gems were obtained by Lu Yang, and some were sold by the players inside the guild to the guild for points. .

At present, any equipment hit by the player is useful, and those that do not need to be worn can be decomposed into enchanted materials for secondary use.

Tu Feng said, "Boss, this time the guild brothers hit something weird and strange. I can't set the price. You can help me first."

"What?" Lu Yang asked.

Tu Feng took 3 fate dice, 2 wind elves, 8 ancient beast heads and 7 escape daggers from his backpack.

Lu Yang exclaimed: "My brothers are so interesting, are these things willing to donate to the guild warehouse?"

Which of these things to sell is a treasure worth tens of thousands or even hundreds of thousands of credits. Lu Yang is looking for things that he can't find. He wants to buy in the market.

Tu Feng shrugged his shoulders and said, "All players from the elite group donated."

Lu Yang felt so deep that he didn't pay the brothers in vain, saying, "Convert the guild points at the market price. You can't lose them."

The guild points of the Jagged Brotherhood are currently the most valuable of all guilds, because points can be exchanged for enchantments, gems, skill books and advanced equipment.

Tu Feng nodded and arranged to go.

Lu Yang handed the fate dice to Han Ying and said: "This thing can be thrown once every half an hour. If it is more than 10 points, the lucky value will increase by 10. When using the altar to synthesize gems, the success rate within level 10 is 100%. . "

"How do you know?" Lan Yu asked curiously.

Lu Yang said, "I have one too."

Xia Yuwei said: "It turns out that you have been using the fate dice to synthesize gems, no wonder."

Lu Yang said with a smile: "Now you know how expensive this thing is. How much is a 10th-level gem? With this, and then the altar, you can combine it randomly, you don't need to look at proficiency."

Everyone nodded.

Lu Yang said: "There are two left, one to Mu Yi, and the other to see the Moon Godhead, and I don't know how his black and white sister is doing."

"I'll probably be here today," Jiang Ze said.

Lu Yang's talker vibrates. At present, "Second World" achieves the degree to which the game helmet and mobile phone are connected. Outside players can directly communicate with the people in the game.

Lu Yang opened it, and it was called in black and white. He pressed the speaker and said, "I'm talking to you. How about, my sister did not pick it up."

Black and white's younger sister returned to his hometown with his elder brother to go through the transfer formalities. He said happily, "I'm back, I've already arrived at the door."

Lu Yang said, "Let your sister go online, I will give her the goddess of Luna, and she will stay beside me and Han Ying in addition to her studies."

As the sister of the world's top mercenary in black and white, the little girl's skill is also very good. During the New Year, after several tests by Lu Yang, it was concluded that this girl is also a person with extraordinary reaction ability and can be trained as a master ~ www.mtlnovel.com ~ black and white said: "I'll let her go online to find you, I'll go on duty."

The system prompts: The player jingle cat is online.

Lu Yang couldn't help but smile when she saw the name. The little girl in black and white named herself Ding Dong Cat. She hoped that she would have a bell. She would show up next to her when she shook her brother.

"Brother Luyang, I'm back," Ding Dang said in a message.

Lu Yang said with a smile: "Come to the Guild Hall, and give you the moon goddess."

"Yes, obey." Ding Dang Meng Meng said.

Lu Yang laughed and flew to the wolf clan with a teleportation scepter. The inner city of Sirius Fortress gave Mu Yi a pair of fate dice, and ordered him to make more gems before returning to the human race.

Upon arriving at the gate, I saw the little Ding Dong cat, led her into the guild hall, and in the presence of Xia Yuwei and Zhuo Jiu, gave her the moon goddess and the dice of fate.

Chapter 626 - Stormwing

Lu Yang said, "In the future, your responsibility is to become a sniper on the battlefield."

Doraemon asked with a fate dice: "Am I going to make a gem?"

Lu Yang said, "You do n't need to worry about gems first. The guild's gem craftsmen will make all the gems we get into level 5. After that, we will be responsible for the synthesis. That is a matter of a few days later. The task is to upgrade. "

"But it's hard to upgrade," Dingdong Cat said, scratching her head.

Lu Yang said with a smile: "Upgrading is difficult for others, but it is very simple for us. This month's Godhead was level 3. I will take you to do a task to help you get a pet. Then I will find someone to take you to upgrade. "

"Pet?" Ding Jing cat asked brightly.

Lu Yang said: "This is a treasure, only you can get it, no one else can hold it."

This baby is called Stormwing, a blue half-carved and half-element magical creature. His special feature is not the output, but he has a very powerful output skill for the team-the storm.

After turning on the storm effect, the player's physical attack speed and casting speed are increased by 30%, the duration is 5 minutes, and the cooling time is 30 minutes.

"Is there such a skill?" The White Lion asked in amazement.

Lu Yang said, "Of course, otherwise how could it be called the Moon Goddess."

Tu Feng said, "At present, the major guilds in the three clans, except for the human tribe Mai Lizhe, did not end the war, Liu Jie, Tian Yao, and us returned to the normal promotion.

Liu Jie also seems to have found a way to quickly upgrade, is leading the team to wasteland, of which their main force is already playing Habsburg. "

Habsburg is a copy before the end of the rebel mission, and is also the place to produce level 60 dark gold equipment.

Lu Yang's next fight is also a copy of the same level as Habsburg. He said, "What about our 100,000 players, is it 60?"

Tu Feng said: "Not yet. They are all stuck at level 58. The equipment can't keep up. The upgrade speed is too slow."

Jiang Ze said: "This time they went to slaughter the city pretty well. At least they all changed to the gold equipment of the level. At the current speed, there is no problem to level 60 in half a month."

Lu Yang nodded. The next war was not far away. Liu Jie took back what belonged to his human race. The next step was his goal of Bingshan City.

Lu Yang needs to be well prepared before Liu Jie attacks Bingshan City.

"Ding Dang, let's go." Lu Yang said.

Lu Yang asked Zhuojiu and Xia Yuwei to take their teams to upgrade each other. He led Ding Dong Cat towards the 60-level map Storm Mountain.

Storm mountain.

The entire mountain is more than 1000 meters high. Thunderstorms occur on the top of the mountain all year round. Every time a thunderstorm occurs, the wings of the storm will appear, plunge into the thunderstorm, and enjoy thunder and lightning.

When Lu Yang and Dingdong Cat arrived at the foot of Storm Mountain, there was a thunderstorm on the top of the mountain. He said, "Let's go up, we can catch the wings of the storm."

"Okay," said Ding Dong Cat.

Lu Yang had a wind elf on him. After turning on acceleration, he and Ding Dong Cat ran up quickly, and reached the top of the mountain in less than two hours.

"It's finally here," said Ding-Dang Cat, looking at the black surrounding Lei Yun.

Suddenly, a scream screamed.

Lu Yang looked at the sound, a dark blue bird flew towards a cloud of thunderclouds.

"When he was stabbed by lightning, he immediately summoned him with the Moon Goddess." Lu Yang said.

The jingle cat nodded, staring nervously at the wings of the storm.

Soon, the wings of the storm flew under the thundercloud, and suddenly, a blue lightning struck the body of the wings of the storm.

The wings of the storm screamed. The jingle cat immediately summoned the wings of the storm using the Luna godhead.

The pure white moonlight shone on the wings of Storm Wing, who wanted to struggle but quickly gave up the resistance.

System prompt: Stormwing becomes your pet.

Dingdong Cat jumped excitedly and said, "I succeeded, I caught him."

Lu Yang sent a message to Hei Yan and said, "You personally took 5 mages and brought the jingle cat to upgrade."

"Yes," Hei Yan said.

Ding Dong Cat's level is too low, currently only 32, this is still the holiday, Lu Yang took the time to take her to upgrade the level.

At present, the quantity of holy sword casting is still too small to reach the number of open waste blood demon temples. Taking advantage of this time, Lu Yang is going to get some high-end enchantments.

Taking out the teleportation scepter, Lu Yang flew to the Goblin Kingdom.

At present, the kingdom of the goblin tribe has been established, the huge royal palace has been built, and the city walls have been basically completed. More than 300,000 goblins have migrated to this kingdom.

Lu Yang walked on the street of the kingdom, and suddenly, a team of players came over from the distance with a smile.

"Haha, this win is so cool, I can't think of Shenhuang as such a waste."

"It's still the boss Liu Jie who is terrific. In a blink of an eye, he made 3 guilds rebel, and the 5 guilds that were hit were caught by surprise."

"This time we will be able to counterattack Lu Yang soon, and I don't believe it. What other ability is Lu Yang capable of resisting our attack?"

...

As soon as the words fell, the visitors also saw Lu Yang, and the other party immediately put on a vigilant attitude. More than 10 people took out weapons at the same time.

“Lu Yang, why are you here?” Wang Teng asked, pointing to Landing Yang.

Lu Yang smiled and said, “I built this kingdom of the goblins. Why can’t I be here? I’m curious. You came like this?”

Wang Teng sneered, and said, “I say who has such a big hand to build such a main city. It turned out to be President Lu Yang, no wonder.”

Li Xiuyu said sarcastically: “Unfortunately, President Lu Yang, I am afraid that everything you do must be a wedding dress for us, thank you ~ www.mtlnovel.com ~ Lu Yang frowned, but did not ask the reason, he knew, asked This group of people would not say, in this case, he might as well not ask.

“You think too much, this kind of thing can never happen.” Lu Yang shook his head and walked around them.

It is a very serious crime to kill people in the main city of the Goblin tribe. No matter who they are, they must be detained in the dungeon.

Wang Teng and Li Xiuyu looked at Lu Yang angrily. What they hated the most was the disdainful attitude when they looked at them.

“Wait a minute, the goblin family will soon be ours, and your formulas will no longer be the only one in your family.” Li Xiuyu said with hate.

Wang Teng said: “Let’s go and tell him these extras.”

Wang Teng and his team left.

The goblin king city is very large, and Lu Yang walked a long way to the gate of the palace.

Chapter 627 - Goblin Throne Battle

Two Goblin soldiers blocked Lu Yang's way.

"Who are you?" A Goblin soldier asked.

Lu Yang was surprised and said, "I am Lu Yang, a friend of King Bissell."

The Goblin soldiers gave Lu Yang a scornful look and said, "There is no King Bissell here. The Goblin is re-elected, and irrelevant people leave quickly."

Lu Yang frowned. He understood what Wang Teng and Li Xiuyu said about making wedding dresses for others. It turned out that something was wrong with Bissell.

"Sorry to bother you," Lu Yang said to the goblin soldier.

He turned and walked towards Bissell's villa on the south side of the Goblin Kingdom, where Bissell's father's home.

At the gate, Bissell was standing there, looking out into the distance, and seeing Lu Yang, his face showed an excited look.

"Hi, my friend, why are you here?" Bissell asked.

Lu Yang said with a smile: "I'm coming to buy something from you, but there seems to be something wrong with you."

Bissell's eyes became lonely, and he said helplessly, "It looks like you already know."

Lu Yang said, "Tell me in detail what happened."

"Okay." Bissell introduced Lu Yang into the reception room and said, "You know, when the Goblin Kingdom was established, the opinions of our princes were different. My father insisted on building this King City, our family has also worked hard for this King City. "

Lu Yang asked, "Now that the city of Kings has been built, several other princes think they are eligible to become kings."

Bissell said sadly: "It is exactly this way, now that the eight princes are arrogant, this king city has not only allowed the goblins to unite, but has gone further in the direction of division.

Lu Yang said, "Is there any way to solve it?"

Bissell said: "The best solution now is to play. Use the tradition of our goblin family to play. Whoever wins is the goblin king."

"Can I help you?" Lu Yang asked.

Bissell shrugged and said, "You don't have to help. This game is special. Come with me. My family are training in the arena."

A light flashed, and Lu Yang was taken into a special space by Bissell.

More than 20 goblins stood not far away, carrying a rocket [cannon] on their shoulders and fired at a distance. The shape of the rocket [cannon] was a large fire breech, a back-filling charge, and the [cannon] was an iron ball.

"Both angled and blasted towards the bullseye," Bissell's father shouted.

More than 20 goblins fired rockets [cannons] at the same time, none of them hit the target, all hitting far away from the bull's eye.

Lu Yang was somewhat surprised to see this. He knew this game. The game of the last generation was only opened after the game had been in service for more than a year. It turned out that the conditions for opening the game were the mission of founding the country.

The essence of this game is that one party attacks the opponent with a ballistic rocket [Cannon], and the distance the [Cannon] hits is determined based on the loading strength and angle, and the wind speed.

Each player's base health is 100 points, defense is 20 points, and the battle mode is only a single rocket [artillery]. In order to obtain higher health and attack methods, you need to constantly perform tasks.

The player's final health can support 5000 points and defend 200 points. The attack mode changes from ordinary fire [arrow] cannons to multi-fire [arrow] cannons, and [cannon] shells change from ordinary damage to armor-piercing damage and ground damage. many kinds of.

Bissell covered her face and said helplessly: "Oh my god, it's too shameful, my brother, can you help me, I know there are a lot of people in your guild, do you know how to open a gun?"

Mission Tip: Goblin Battle

Bissell sends you an invitation. He hopes that you can choose five people to participate in the game for him. After completing this task, you will get a high reward.

Lu Yang chose to accept the task and said, "No problem, leave it to me. I'm the best at this task."

Bissell said in surprise: "Really, this is great."

Lu Yang smiled and walked to the middle of the field, took the rocket [artillery] from a goblin who had missed the [artillery] shell, and looked at the distance. The distance between him and the target was 100 meters, and the angle was simply adjusted. A [gun] fired out, hitting the bullseye.

“Hit!” Bissell’s father turned his head in surprise, seeing Lu Yang, said excitedly, “Our friend, why are you here?”

Bissell came over and said excitedly, “I brought him here, I didn’t expect you to hit so accurately.”

Lu Yang said in his heart that the game of the last life was his favorite. At first, “Second World” just regarded him as a small game. I did not expect that this game was liked by players around the world and eventually became an independent competition.

In the previous life, he won the first place in the global individual competition for the purpose of earning a high bonus to buy people around Liu Jie. In this life, he has the opportunity to replay the game. Lu Yang must enjoy the game. Fan.

Lu Yang said, “My five-member squad is a good choice. You tell me the specific rules.”

Bissell said: “Of course, the game is set for 7 days. During these 7 days, you can use fire [cannons] to challenge various monsters developed by the goblins. If you win, you will get some special rewards. Such as armor and health and new weapons, if you want to enter the copy, tell me at any time, I can take you there. “

“Ok.”

Lu Yang sent a message to Han Sha, Han Ying, Han Fei, and Han Yu to send them to the Goblin Kingdom.

The main difficulty of this task is to control the angle of the rocket [cannon] and judge the wind speed.

This kind of thing is extremely difficult for ordinary people, but for Han Ying and them, this is what they usually do.

Half an hour later, Han Ying and others came to Bissell’s house and saw Lu Yang standing at the door.

“Let’s go in ~ www.mtlnovel.com ~ Lu Yang said.

When the airship was on board, Lu Yang told Han Ying about the mission and they were also curious about this mission.

Han Fei said anxiously: “Get started, I can’t wait to play.”

Lu Yang said with a smile: “Don’t worry, I’ll take you to test the weapons first.”

In the basement, the conventional fire [arrow] cannons were arranged in a row. Each of them chose one and played with curiosity.

Lu Yang picked up a fire [artillery] and said, “From the back, the ammunition is a round iron ball. How far you want to play, depending on how much you load, you need to reload and iron the ball after you finish it.

“The flat firing range filled by this artillery is 60 meters. If it exceeds 43 meters, it will gradually deviate from the orbit and land at 87 meters ...”

In this regard, Lu Yang has a complete strategy and experience, how far can he play at 30 degrees, how far can he play at 50 degrees, and how far can he play at 80 degrees. All the data are in his head.

Chapter 628 - Basic training

Several people in Han Ying tested the artillery according to Lu Yang’s method, and it really hit the distance exactly as Lu Yang said.

“Brother, you are so accurate.” Han Fei said.

Lu Yang smiled, picked up an artillery, and said, “Are you ready? I’m ready to take a copy of you and change my skills first.”

“A copy?” Han Yu asked.

“Of course.” Lu Yang said.

He said to Bissell next to him, “Send us a copy, starting with the first one.”

“Of course,” said Bissell.

A light appeared in his hand, and Lu Yang and Han Ying disappeared instantly, appearing in a huge machine factory.

This is a steam workshop. There are workshops all around. A huge clockwork robot with a height of 2 meters stands above the steam engine room in the distance. In front of the house, six small clockwork robots come out.

System prompt: The first level of the primary robot, countdown 30 seconds.

Han Fei asked, “Are we killing all the robots with cannons?”

Lu Yang said: “The small robot will slowly move towards us. There will be 6 robots coming out of that steam engine room every 2 minutes. The big robot above is a boss. It will be considered a pass if he is eliminated.

Han Yu said, “I’m looking for distance.”

Lu Yang measured it with his hand and said, “I’m in charge of eliminating the small clockwork robot. You hit that big robot.”

“Brother, can you do it alone?” Han Fei asked.

Lu Yang said with a smile: “Look at me and start work.”

The system prompts: The countdown time is up and the battle begins!

“Robot army, attack.” The clockwork robot pointed Lu Yang and others with his hand and made a mechanical sound.

The clockwork on the top of the six little robots kept spinning, driving their bodies forward.

Lu Yang immediately added * to the artillery. Looking at the distance, he filled the * to 60%, put a round black bullet in front, and aimed the artillery at an angle of 85 degrees to the sky.

“嘭”

The black cannonball flew out of the cannon, drawing a perfect arc in the air, and hit it accurately on the head of a small robot walking in front.

“200” (Critical Strike)

The basic attack power of the artillery is 100 points. If it hits the head, it will cause a critical strike. The small robot has only 200 points of blood and is hit by the shell and becomes a pile of broken parts.

“Good job,” said Han Fei, who had just finished loading ammunition.

Lu Yang’s neat addition of * and shells, pinpointed the position of the robot, still shot at an elevation of 85 degrees.

“嘭”

The second shell traversed a beautiful parabola in the air, hitting the second robot and breaking it!

Han Fei and Han Ying were stunned.

It was the most difficult to hit the shell in the form of a parabola, but Lu Yang hit two consecutively with ease.

“Yun” Lu Yang changed his ammunition and fired a third round. The third robot fell down in response.

Han Ying said in surprise: “Brother, how did you do that, every time you hit it so accurately.”

Lu Yang said: “You can do it too, this is not difficult.”

“I’ll give it a try.” Han Ying tried to use the artillery. He didn’t hit the target a few times at first, but on the fourth time, he hit the robot precisely with a shell.

“50”

Lu Yang said, “Yes.”

Han Fei, Han Yu and Han Sha also tried to shoot. Soon, all four people found the angle and could hit the head of the big robot.

“It’s great. As long as I stand here and attack from this angle, I can easily kill the boss.” Han Fei said.

Lu Yang said, “That’s not okay. You guys must not stop there. After hitting at an angle in one place, the next shell must change place or angle.”

“Ah?” Han Fei was surprised.

“Why.” Han Yu asked.

Lu Yang said: "Do you think that the monsters in each copy stand like this big robot standing still and change places quickly?"

"Oh." The four knew what Lu Yang meant.

It's 2 minutes.

The blood of the big robot recovered 200 points. At the same time, the door of the steam factory opened, and six small robots slowly walked out. Lu Yang changed to a 60-degree angle and hit a small robot's head with one shot.

"200" (Critical Strike)

Lu Yang said: "This big robot's blood volume is not low. It returns 500 points of blood every two minutes. You can change the angle, the amount and the distance to attack as I said, and then record the data. Follow those numbers. "

"Okay." Han Ying and the four said together.

In the future, the position of each person will no longer be fixed, but will move. According to official rules, when a person and a person compete in the end, the battle between the two sides depends on prejudice.

Many people don't pay much attention to the first game of the start, but Lu Yang knows that the first level is a system for players to practice. Only after mastering all the data at this level will it be easy to play later.

Han Ying is not stupid, and he has been training for a long time. He quickly tested various data, and then they backed up these data one by one.

Three days later.

Han Ying said confidently, "Brother, we are all familiar with all distances and data."

A total of more than 1300 pieces of data, Han Ying 4 people can say a distance, immediately say the corresponding angle, the amount.

Lu Yang said, "Let's test it."

Lu Yang chose to enter the first level and returned to the steam factory. He designated the location at will, and the four of Han Ying immediately responded, using different angles and strength to strike.

After 20 consecutive tests, Han Ying and others were able to control which direction they played, and the angle and strength were perfect.

Lu Yang nodded and said, "Yes, kill this big robot, we will enter the next level."

"Yes." The four of Han Ying continued firing, and each shell accurately hit the head of the big robot.

Within 3 minutes, the big robot fell to the ground.

"I failed ~ www.mtlnovel.com ~ However, don't be complacent, next you will face a more difficult challenge." The big robot said with a mechanical voice.

The light flashed, and Lu Yang returned to Bissell's basement.

Bissell saw Lu Yang with a sad look and said, "My friend, your speed is too slow."

It took more than three days to finish the first level, and the speed was indeed very slow.

Lu Yang asked with a smile: "Why, is there any problem?"

Bissell said: "Just got news, our rival Prince Tang Li has hired a player named Liu Jie, and his men have reached the ninth level."

Lu Yang shrugged his shoulders and said, "Look at it, I will catch up with him soon, believe me."

Bissell said anxiously, "Is there really no need to substitute?"

Lu Yang laughed and said, "Let me enter the second level."

Chapter 629 - Fast clearance

"Okay, I listen to you." Bissell said helplessly, a light appeared in his hand, transmitting Lu Yang and others to the second level.

The second level of the map is the combat workshop. In a huge mechanical workshop, there is a giant mechanical battle scorpion. His double tongs are constantly opened and closed. Each time you open it, you can see the huge muzzle inside. Multicolored tail.

Lu Yang said, "The tail of this scorpion is highly toxic. Every so often, his tail will stick out and attack us. The damage will be very high. The artillery will be fired in his two pliers. Just be careful. "

The second level actually tests the player's hit rate. If the first level has trained the hit rate, there is no difficulty in the second level.

Han Fei was carrying an artillery and said, "It feels simple."

Lu Yang said with a smile: "Easy is right, go together."

When the 30-second protection time is up, the two eyes of the mechanical war scorpion emit red light, and said with a mechanical voice: "Target: Han Fei, artillery attack."

The two pliers of the mechanical war scorpion were aimed at Han Fei.

“噔”

“噔”

Two rounds of artillery fired at Han Fei.

One of Han Feimeng rolled back and jumped back a distance of 2 meters, avoiding two shells while rubbing.

Lu Yang said: "Set fire to his eyes, where it can cause double damage."

Han Yu looked at his position, estimated the distance between him and the eyes of the mechanical war scorpion, raised the gun to adjust it to a 65-degree angle, put the *, and pulled the trigger.

“噔”

A round of shells flew out of his cannon, drawing an arc in the air, centering on the left eye of the mechanical war scorpion.

“200” (Critical Strike)

Lu Yang said: "Good job."

As soon as the words fell, two more shells hit and were fired by Han Ying and Han Sha.

Lu Yang also nodded to the two, saying, "Continue to shoot, this guy quickly seconds, we hit the third level, and today we tied the speed of pulling down."

"Yes."

The mechanical battle scorpion's health is 10,000 points. It was hit by 5 people every time, and he lay down in less than 5 minutes.

System prompt: Player Lu Yang team wins

The light flashed.

Lu Yang returned to Bissell's side, looking at Bissell's surprised look, and said, "How about, live up to your trust."

Bissell jumped up in excitement, and said with incredible eyes: "How did you do that?"

Lu Yang said, "I'll tell you again in a while. Give us the reward. I'm going to the third level."

"I almost forgot." Bissell shook his head embarrassed, took out five larger-caliber artillery and ammunition bags from the backpack, and said, "You have passed the test, you can use special competition weapons, this is Artillery and shells. "

Cannonballs are divided into armor-piercing, ground-breaking and shotguns. Shotguns are round iron beads with a wide range of attacks. They fire 5 iron beads at a time, and the range is very scattered. The area can cover an area within 2 meters. The damage of the steel ball is one-third that of the armor-piercing shell.

The armor-piercing projectile is very small, the warhead is pointed, and hits the target, causing 250 points of regular damage.

The ground-breaking bullet's warhead is the same size as the armor-piercing round. After hitting the target, the damage is only 50 points, but it can blast a large pit deep around the target.

After listening to Bissell's introduction, Han Fei frowned and said, "No, I changed three ammunitions and need to test again."

Depending on the weight of the ammunition, if you want to hit the target set before, the loading amount of * is also different.

Lu Yang said: "No, you try, these three ammunition are the same weight as the previous ammunition."

Han Fei took one out of the bag, weighed it in his hand, and said in surprise: "The weight is really the same."

The five iron beads are the same weight as a armor-piercing projectile, and the ground-breaking projectile is also the same as a armor-piercing projectile.

"It scared me to death, and thought I had to re-measure the parameters again." Han Yu said.

Lu Yang laughed, and Bissell said, "Send us to the fourth level."

"Okay." Bissell understood from Han Yu's words. Lu Yang had been testing parameters before, which made him feel relieved.

"Be careful in the fourth stage. The boss will protect the shield. Let me remind you first." Bissell said.

The fourth level is the Hall of Robot Dolls. The Goblin family is short in size. They do not have any advantage in the face of humans and orcs during the war. In order to solve this problem, the Goblins have developed Robot Dolls.

The robotic doll is 5 meters tall and emits a metallic light all over his body. His attack method is not only ordinary attacks, but also knows freezing attacks and full-screen attacks.

Lu Yang looked at the mechanical puppet standing 30 meters away. His left arm was emitting white smoke, which was ice fog. There was a white gem in his right arm, and there was a huge drill under him.

“Be careful of his frozen attack. If someone is frozen, we can use artillery attacks to break the ice.”

Han Fei asked, “Brother, what will happen if the ice is not broken.”

Lu Yang said: “That bit will drill into the ground and then drill out from under you.”

Han Fei: “...”

Han Sha: “...”

“How could there be such a strange attack?” Han Ying asked blushing.

The system prompts: The countdown time is up and the battle begins!

The mechanical doll’s eyes light up in red, looking at Han Fei, his left arm raised flat.

“噤”

An ice bomb shot at Han Fei at high speed.

Han Fei scared a roll and hid to the left. He just stood up and looked at the original position. The surrounding area was covered by frost.

“The range is so wide,” Han Fei said.

Lu Yang said: “Don’t be distracted, the mechanical puppet will move, pay attention to anticipation.”

“Okay.” Everyone picked up their artillery and attacked the mechanical puppet.

The size of the mechanical puppet is too large, it does not need to aim or control the strength, and the flat shot can hit his body.

The puppet’s health is only 13,000 points, and soon, his health dropped to 8,000 points.

The mechanical puppet suddenly raised its right arm, and the white gem exuded pure white light.

“Warning: energy overload, take defensive function, energy wall.”

The pure white light forms a round barrier around the mechanical puppet.

Han Fei raised his artillery and pulled the trigger. A gun was centered on the barrier.

The system prompts: The attack is invalid ~ www.mtnovel.com ~ Brother, my attack is not effective on the barrier. Han Fei asked.

Lu Yang pointed at the top of the robotic puppet and said, “Changing the angle, throwing high, attacking his head, there is no defense there.”

A red triangle symbol appeared on the top of the robotic puppet, as if telling the player to attack from here.

Han Yu used * and changed to an 85 degree angle.

“嘭”

The shell crossed a huge parabola in the air, crossed the barrier, and hit the head of the mechanical puppet.

“500”

“Really yes,” Han Yu said.

“I’m here too, this game is fun.” Han Fei raised his artillery and hit it.

Chapter 630 - Mechanical Flying Dragon

Lu Yang said, “Let’s fight together.”

Five people successively fired artillery shells at high angles, and the barrier of the robotic puppet failed to protect at all. Before the end of the protection time, the robotic puppet was killed on the ground.

If Wang Teng, Li Xiuyu and others see this scene, they will be shocked. When this level is passed, they are reluctant to pass. Every high throw attack is trying their luck. There is no such thing as Lu Yang. high speed.

Han Fei walked up to the mechanical puppet, looked at the five shields falling on the ground and said, “Brother, it seems that equipment is dropped here.”

Lu Yang stepped forward to pick up the shield and said, "This thing is for defense, adding 10 points of defense. Counting our original 20 points, each attack can offset 30 points of damage, which is useless. "

The light flashed.

Lu Yang returned to Bissell's side.

Bissell said in surprise: "My brother, you are really too fast, no team has you so fast."

Lu Yang frowned and asked, "Are there other teams besides Liu Jie?"

Bissell blinked and said, "Of course, each of our eight princes has a team."

Lu Yang asked, "Is there any information about them?"

He wanted to know who had received the approval of the goblin family to participate in the mission.

Bissell said: "I know who there is, the Tianya team of the Orcs, the Dawn Light team, the Tsunami Soaring team; the Liu Jie team of the Elves; the Wang Teng team, the Li Xiuyu team and the Mai Lizhe team, you guys."

Lu Yang had some emotions. The original team was not Liu Jie's family, but Liu Jie occupied three of them. The others were the top guilds in the game. Obviously, they were all recognized by the Goblin clan. No longer unique to him, he needed to find a new potion recipe for the Blood and Fire Song Pharmacy.

"Any questions?" Bissell asked curiously.

Lu Yang shook his head with a smile and said, "There is no problem, except that these hostile people are all my old friends. I have the opportunity to meet them."

Bissell heard Lu Yang deliberately read the three words of his old friend, and said with a smile: "I know they are your enemies, and there are four days to go. You will meet that day."

Lu Yang shrugged his shoulders. It didn't matter whether he saw or not. After the meeting, he scolded each other. It was meaningless. He said, "Fourth level, don't delay time."

"Okay," Bissell said.

The fourth level is ...

From the fourth level to the ninth level, all are relatively simple levels. Lu Yang quickly led the team over.

Bissell watched Lu Yang get a copy every 10 minutes, and was excited and cheered. Bissell's father and company director had heard of it and were attracted.

Watching Lu Yang and others sitting aside, the little goblins nodded again and again.

"Sure enough."

"Break through 9 levels in a day, unheard of, we never did it."

"I thought they couldn't do it. They turned out to be masters."

"We are out of luck."

"I heard that the other 7 prince teams are currently trapped in the tenth level. If they can pass this level, our team is the strongest."

Lu Yang looked up and asked Bissell, "Didn't the other teams pass the tenth level?"

Bissell nodded, raised his head and looked up and said, "The tenth level is very difficult. The boss who keeps the level is a mechanical dragon, a guardian beast created by the master of the Goblin family, Master Rogers. Only after we mass-produced him gave our goblin family a foothold on this road. "

Han Fei asked: "How to pass this pass."

Bissell said: "The mechanical dragon we use is a game sample. He is on the top of the mountain. The spells he uses are divided into fire and wind. .

The first type is the wind blade, and the second type is the airflow, which blows you down the cliff and dies. "

Han Ying asked, "How big is the field on the mountain."

Bissell said: "About 500 square meters."

Han Fei: "..."

Han Ying: "..."

500 square meters is actually a small place of 25 meters by 20 meters square.

Han Sha asked: "How old is the dragon."

Bissell said, "The dragon flies in the sky."

"Always moving?" Han Fei tried to ask.

Bissell nodded and said, "It's pretty fast."

Everyone: "..."

"No wonder they were there. A dragon flying in the sky is flying fast. Our shells are so slow. Can we hit them?" Han Fei asked.

Bissell shrugged his shoulders and said, "This is the classic work of our master. You can't beat it normally, but if you can fight it, Master Rogers' grandson will reward you with a new ammunition, the ice bomb. . "

Lu Yang said, "Let's try this copy and you can take us in."

The mechanical dragon was also a difficult copy in the last life. However, this copy of Lu Yang had not played 1,000 times and 800 times in the last life. Those who are familiar can no longer be familiar with it. He can feel whatever he wants to abuse.

Bissell said: "I hope you can pass this level. The 7 teams are playing. They played many days earlier than you. It is estimated that these two days will pass."

The light flashed.

Lu Yang, Han Ying and others appeared on top of the mountain.

There are no weeds on the top of the mountain, all of them are yellow-black rocks. Below the mountain is the abyss, once it falls, there is no doubt that it will die.

In the sky, a huge flying dragon cast from all over the steel slowly dropped until it stopped at a distance of 20 meters from the top of the mountain.

The dragon is more than 30 meters in length, and its wings are 50 meters long. The dragon head is terrifying.

There is a gem on top of his head. Lu Yang remembered that in the last life, the mechanical dragon had a nightmare-level copy. He wanted to kill the dragon only to hit the gem on his head, and the gem on his head was only 10 cm in diameter.

At that time, Lu Yang challenged several times ~ www.mtlnovel.com ~ Although the difficulties can be played, this time is different, this time as long as he hit the area on the leader is considered qualified.

Lu Yang said: "Everyone stands by my side and listens to my unified arrangements."

With his eyes closed, he can remember his position, angle, and amount.

The four of Han Ying came to Lu Yang, and before the battle had started, Lu Yang said, "Everyone put the amount to 60% and adjusted the angle to 85 degrees."

At this position where Lu Yang was standing, using this strength and angle, when the start dragon did not act, it was in full swing.

The system prompts: The battle begins.

Lu Yang raised his gun and controlled the elevation to pull the trigger.

“嘭”

An artillery shell crossed the arc in the air, centering the head of the mechanical dragon.

“500” (Critical Strike)

Chapter 631 - Tianyao

Lu Yang gave way, Han Ying stepped forward and fired.

“嘭”

The second round of armor-piercing shot hit the dragon's head with precision.

“0” (Critical Strike)

Next up are Han Fei, Han Yu and Han Sha.

Five consecutive shells hit the head of the mechanical dragon, killing him 20 points of blood.

The mechanical flying dragon screamed in the sky, the faucet pointed at Lu Yang, and his eyes glowed red.

“Follow me, he is about to set fire.” Lu Yang said.

The eyes of the mechanical dragon have two colors, one is red and the other is cyan. When red, the dragon breath will be sprayed. The burning range is more than half of the mountain top. However, as long as you master the direction before the dragon's breath is sprayed, , You can avoid it.

Liu Jie, Tian Yao, and others have not played this copy, because they do not know how to look at the dragon head. The head of the mechanical flying dragon shakes very slightly. It cannot be seen through the dragon head. It depends on the strength of the wings on his left and right sides.

If he sprays to the left, the recoil will inevitably skew his body to the right, and the mechanical dragon will work harder to control the balance of the right wings than the left wings.

This time the mechanical dragon was using the left wings to prove that he was going to spray to the right. Lu Yang and Han Ying ran to the left.

The red light disappeared from the eyes of the mechanical dragon, opened its huge mouth, and aimed at the left side of the mountain top. A fierce dragon breath sprayed out. The entire right side of the mountain top was covered by flames, and the left side was covered by one third.

Taking advantage of the dragon's breath, Lu Yang replaced the shotgun, adjusted the angle to 65 degrees, the amount of 65%, and pulled the trigger.

“嘭”

Five iron beads flew out of the muzzle together. At the highest point, the falling trajectory of the five iron beads inexplicably became a straight line, one after the other, and each one hit the machine precisely. Feilong's head.

“166” (Critical Strike)

“166”

...

5 consecutive 166 injuries made Han Ying look at them.

Han Fei asked excitedly, “Brother, how did you do that.”

Lu Yang asked with a smile: “Want to learn?”

Han Ying and the four nodded together. Normally, the damage of a shotgun is only one-third of the armor-piercing shell, but Lu Yang let the 5 marbles of the shotgun gather at a single point. The bomb was 1.6 times higher.

Lu Yang said: “The key is angle, as long as the angle is adjusted, it can be done.”

This method of play is explored by the players themselves. The key lies in the height and distance of the artillery when it is launched. As long as you master it, you can achieve intensive attacks.

The four members of Han Ying filled the medicine according to the method taught by Lu Yang, and chose to launch at the same angle and maximum amount.

“嘭”

“嘭”

...

After four consecutive sounds, all 20 iron **** hit the head of the mechanical dragon, easily hitting more than 3,200 injuries.

The mechanical dragon’s health dropped to 10,000 points, leaving only more than 8,000 points.

The mechanical dragon stopped breathing flames, and his eyes became cyan.

Lu Yang said, “Follow me to the right, he will use the hurricane.”

The hurricane’s attack range is the same as that of dragon breath, but it also depends on the changes of the left and right wings. However, there is a difference. Dragon breath can’t kill people. Hurricanes can kill people. As long as it is blown by the hurricane, it will definitely blow off the cliff.

After 3 seconds of words.

The robotic dragon aimed at the left side to blow out the hurricane, and the boulder on the top of the left mountain was blown down to the cliff.

Thinking back to the last life, Lu Yang thought that the boulder on the top of the mountain could avoid the hurricane. He did not expect that he and the boulder were blown down by the gale. He was depressed for several days about this.

“Just him.” Lu Yang pulled the trigger full of shotguns.

“噠”

“噠”

...

The four Han Ying attacked together with Lu Yang, and 25 iron beads fell, killing more than 4,000 blood of the mechanical dragon, leaving only more than 4,000 blood points.

The original mechanical flying dragon's conventional attacks were fireballs and wind knives. These two skills are the hardest to hide. The attack speed is very fast, especially the wind knives. Lu Yang can't do 100% to evade.

However, under the high-precision and high-damage attacks of Lu Yang and Han Yu, the blood was hit every time to release special attacks.

The eyes of the mechanical dragon became reddish, and the wings on the left side fanned harder.

Lu Yang said, “Let's go to the right.”

The four of Han Ying were already familiar with the mechanical dragon's play, and became casual. They easily followed the landing sun to the right and raised the artillery to use the shotgun attack.

Twenty-five iron beads fell, and more than 4,000 injuries were caused on the head of the mechanical dragon. Black smoke was emitted from the top of his head, and the parts kept flying out. Then, the red eyes of the dragon lost its luster and the wings stopped fanning. , Fell off the cliff.

System prompt: Attacking you defeated the mechanical dragon

The white light flashed, and Lu Yang returned to Bissell's side.

Bissell jumped up excitedly and said, "Oh my brother, you are really a group of geniuses, even the mechanical dragons have been defeated."

Bissell's father and all directors of the company applauded.

"Amazing, it's awesome."

"Master."

"We won this time."

"There is hope."

...

Lu Yang listened to everyone's discussion, smiled, and asked, "Where is the master you said, please take us a trip, and we will win by one more weapon."

Bissell nodded and said, "His home is on the right side of the palace."

"OK." Lu Yang said.

He knows Rogers's home very well. He did not go to Rogers's house to buy anything in the last life. He walked out of Bissell's house, and Lu Yang and Han Ying went to a villa on the right side of the palace.

It was a small two-storey beige building, which looked very delicate. Lu Yang came to the door, and a team of players on the left side of the door came over.

Lu Yang saw the other person standing in place.

The people who came were not other people, but they received the 1 million player Tianyao from Hell Sky Dome, and Hell Sky Dome was among the team.

Seeing Lu Yang, Tianyao was also stunned, with a smile on his face, and walked towards Luyang.

"Chairman Lu Yang ~ www.mtlnovel.com ~ It's a coincidence, I met you here." Tian Yao said with a smile. If you don't know, seeing Tian Yao's appearance, they thought they were years. Friends.

Tianyao's appearance is a typical lion, with bronze skin, long golden hair, a height of more than 2 meters, and arms full of explosive muscles. He looks very tough.

Lu Yang watched Tian Yao come forward, with a helpless smile, and said, "President Tian Yao, but I want to meet you for a long time."

Tian Yao smiled and said, "Oh? I admire President Lu Yang for a long time."

Listening to Tian Yao's tone, Lu Yang knew that there would be an inevitable battle between him and Tian Yao, and said with a smile, "If there is a chance in the future, we will study carefully."

Tianyao said, "That's right."

Lu Yang said, "You also come to receive the reward, please first."

Tianyao politely led the team into it. Hell Sky Dome followed behind Tianyao, and his eyes were full of hatred.

Chapter 632 - 0 pieces of factory

Han Fei said to Lu Yang: "Brother, we are here first. Why do we want to make them advanced, in case Master Rogers gives the first place any special reward?"

Lu Yang said: "The copy records are uploaded in real time. Whoever is the first system has records there, it doesn't matter if you enter the door sooner or later."

Han Ying four nodded.

Lu Yang led the team into the gate, and the goblin master Rogers stood at the gate of the courtyard. Tianyao five were standing beside Rogers.

"What are you talking about, aren't we first?"

"We were the first to come in."

...

Two players around Tianyao are arguing with Rogers.

Rogers said dissatisfied: "I said, you are not the first or not the first, the reward you give me, love it or not, just bring it back to me."

Tian Yao frowned and asked, "Can you ask, who is the first?"

Rogers saw Lu Yang come over, jumping to his feet and landing Yang said, "It's him, he is 1 minute faster than you."

"What?" The four of Tianyao turned and glared at Lu Yang.

Lu Yang said, "It's really luck, sorry everyone."

The four people in Heilianqiang glared at the landing sun. They asked the prince for help. The first person who completed the task to find Rogers would get 10 additional ice bombs, and the second one only had 5.

Tianyao said: "It is indeed President Lu Yang. No wonder Liu Jie is always defeated by your men. I met today."

Lu Yang smiled, ignored Tian Yao, finished the task with Rogers, turned away with the ice bomb.

Tian Yao was surprised. For the first time in his life, he talked to others, but others ignored him.

"This **** is who he is, dare to be so crazy." A player beside Tian Yao was furious and walked towards the landing sun.

Tian Yao reached out and said, "Zhang Wu, let's go for a copy and get more rewards is the main thing."

"Huh, this game must let him know that we are great." Zhang Wu said.

Lu Yanggang walked to the door, heard Zhang Wu's words, and sneered with Han Ying and they returned to Bissell's home.

No one has the possibility to win him in this competition. Even if the producer of the game comes, he is not accurate, and he has no actual combat experience.

Back at Bissell's house, Lu Yang said to Bissell, "Send us to the next copy, and get the things."

Bissell said: "No problem, the next copy is the parts factory. Your task is to knock down all the defective parts on the assembly line. The parts move fast. I hope you can break through. If you succeed, your Health will increase by 500 points. "

In a flash of white light, Lu Yang and Han Ying appeared in a factory. There were five rows of pipes on their heads, and a U-shaped pipe between the pipes connected them end to end.

In the initial position of the pipeline, there are football-sized mechanical parts strung on it, all of which are bearings, gears and the like.

The part ranked in the first position is the defective product. The system gives a red inverted triangle symbol on it.

"The parts are so small." Han Fei said in surprise.

Lu Yang said: "This level is considered a relatively advanced consideration, compared to the player's accuracy and reaction speed. Anyone who can pass this level is an enemy we need to take seriously."

Everyone nodded.

System prompt: Battle begins!

The parts on the official road are moving forward at a speed of 5 cm per second, and the position of the pipe mouth is constantly sending out parts. Good and bad crosses appear.

Lu Yang said: "I will not fight this level, there is no difficulty, you can use it to practice your hands."

"This speed is too simple for me." Han Fei said.

The reaction speed of Han Fei and Han Ying is far faster than ordinary people. This kind of game is difficult for ordinary players and there is no problem for them.

Soon, the four fired one after another, destroying all the defective parts on the overhead pipe in less than 5 minutes.

System prompt: Congratulations on completing the task

Lu Yang, Han Ying and others returned to Bissell. Lu Yang asked, "Where can I get this task?"

Bissell said, "Here is Master Rogers' house next to Master Rogers."

Lu Yang took Han Ying and others to Harus's house. Everyone got a helmet and added 500 points of blood.

Back to Bissell, Lu Yang said, "Next level."

Bissell shrugged his shoulders and said, "Uh, in theory, you have already passed all the cards. The next level is the parts factory. They will be faster than before."

Lu Yang thought it was a more difficult copy played in the last life. He didn't expect that the copy would be gone here. He guessed that the plan for studying this gameplay could only come up with a few copies. Increase the difficulty to test the player.

"Send us over, let's try," Lu Yang said.

"OK." With a wave of Bissell's arm, Lu Yang and Han Ying returned to the parts workshop.

The scene, pipeline, and parts have not changed. After 30 seconds, the part moves faster than before. It originally walked 5 centimeters per second and now walks 8 centimeters per second.

Han Fei used an artillery to easily hit a defective part and said, "It's too simple."

Lu Yang didn't expect it to be that simple. He hadn't played the most primitive game in the last life. He said, "If that's the case, I feel we have the opportunity to hold up our blood volume and come together."

"Yes," Han Fei said.

The five attacked together, and soon hit the copy, and came to Harus's house again. Each of them got a piece of armor and added 500 points of blood.

Han Yu said: "Take this and we will soon be able to rise to 5000 blood."

Lu Yang said, "Try it."

Go back to Bissell's house and continue to try. Until the fifth stage, Lu Yang and others feel very simple, but when starting from the sixth stage ~ www.mtlnovel.com ~ Lu Yang wants every No hits can be made.

At the seventh level, Lu Yang and others got stuck here and tried several times without passing.

Until 12 o'clock in the evening, Lu Yang said, "Come here today, let's come back tomorrow and sum up each night."

"Ok."

The Han Ying four also felt that they needed to sum up and follow Lu Yang to take their own offline breaks.

The next day, Lu Yang and Han Ying tried again. In the evening, they finally passed the seventh level.

"It's not easy, it's over." Han Ying said.

“Are we still fighting, brother?” Han Fei asked.

Lu Yang said: “Of course, there are 3 days before the game, and 500 more blood is equivalent to one more life.”

Everyone nodded.

Chapter 633 - Fully equipped

For the next few days, Lu Yang and a few of them kept soaking customs in the parts factory, waiting until the morning of the game.

“噫”

Han Fei hit a high-speed moving part and said cheerfully, “It got through, and finally got through.”

“Finally passed.” Lu Yang said.

For almost four days, they finally cleared the tenth level.

The light flickered.

Lu Yang and others were teleported back to Bissell.

“Oh, my brother, you have done a miracle. This is amazing. You even got through all the cards.” Bissell said, jumping.

Lu Yang said, “You are confident now.”

“Yes, I am now full of confidence.” Bissell said excitedly.

Bissell’s father came to Lu Yang and said, “Mr. Lu Yang, you are our friend. If you can help us win the game, all the products of Goblin Kingdom will be made public to you.”

Lu Yang waited for this sentence, saying, “It’s all about one word.”

Han Fei asked: “The ranks of the other princes’ teams are now at level.”

Bissell shook his head and said, “I don’t know.”

Lu Yang said: “We don’t know if we go to see it, we will start the game immediately, we will get the task reward first.”

“Hey, I really want to see who can be like us, I will not lose to other teams.” Han Fei said.

Lu Yang laughed and took the team to the street where Harus’s house was located. Just walking to the door of Master Rogers’s house, Lu Yang found someone inside his house, and looked over to find Wang Teng.

Lu Yang was fiercely excited, and an unstoppable smile appeared on his face. Looking back at Han Fei and others, everyone was smiling.

What does it mean to come to Rogers’ house at this time? This means that Wang Teng has just cleared the level of the mechanical dragon, and compared them with 11 levels, which is 5,000 points less health.

“No, they are so bad.” Han Fei whispered.

Lu Yang didn't think about it, but he was relieved when he thought about it. The reason why they can reach the tenth level of the parts factory is because he has the experience and methods of the previous life. Han Fei and others have never played it, but he has been Teach them with the experience of the last life.

Lu Yang used to be a champion of artillery matches, just as one side is a martial arts master teaching his disciples, and the other side is a group of newcomers studying martial arts tricks. The two sides are different.

Wang Teng received an ice bomb from Rogers. He turned around and was about to lead the team to leave. He saw Lu Yang, with a mocking expression on his face, and led the team to Lu Yang. what.”

Lu Yang said, “Don't you just finish it?”

Wang Teng sneered and took the team away.

“So crazy?” Han Fei said.

Lu Yang looked at Wang Teng's back and said, “Don't bother him, let's get the task reward.”

Passing the door of Rogers, Lu Yang came to the house of Master Harus next door.

Harus was standing in the yard and saw Lu Yang coming, with a satisfied smile, and said, “Ladies, it's really good. I can't think you can get through the tenth level of the parts factory. You are better than our goblins. Artillery attack. “

Lu Yang said with a smile: “It's just a fluke. We thought we didn't get a chance today.”

Harus shook his head and said, "There is no luck in this world. You rely on strength and do not need to be humble. This is a reward for you. When this task ends, you come to me. I hope you can help me complete a task. . "

Lu Yang did not expect to trigger additional missions, saying, "Of course."

After receiving the last mechanical combat boots from Harus, Lu Yang and others' blood addition equipment is extremely extreme. Now they each have 5100 points of health.

"Brother, when the game starts, I can't wait to fight with Wang Teng, I really want to see his face when facing us." Han Fei said.

Lu Yang said with a smile: "There is another hour left, and we can go to the playing field now."

"Then let's go and get familiar with the venue." Han Fei said excitedly.

"Okay." Lu Yang said.

As soon as the words fell, he was about to turn away with the team, and several people came by the gate.

Lu Yang looked up, and found that the person turned out to be Tianyao.

Tianyao was also surprised to see Lu Yang, but then he smiled satisfactorily and said: "It is indeed the boss of the iron brother brother who dominates the human race, and has even played a part factory mission."

Lu Yang was a little wary inside and said with a smile: "You are not ordinary. It was a surprise to me to have been through a parts factory."

Tian Yao smiled and said, "I'm really looking forward to it. Fortunately, the time of the game is only one hour, otherwise I will be restless. Please invite me first. See you on the field."

Lu Yang smiled and took Han Fei out of the gate and walked towards Bissell's home.

"I can't think of a master, I don't know if the part factory that Tianyao has played has passed the first or tenth pass." Han Fei said.

Lu Yang said, "No matter who they are, whoever fights with us, they won't win us."

Originally, Lu Yang thought that this game would have multiple weapons such as multi-barreled artillery and electromagnetic cannons. Later, the original match had only a single-barreled artillery. In this case, the way of the game would be too simple, What really needs attention is how to make good use of these three shells.

The four Han Ying were infected by Lu Yang's self-confidence and followed him with excitement to his home in Bissell.

Just came to the gate and saw Bissell, his father and a number of company directors standing at the gate.

Seeing Lu Yang coming, Bissell said excitedly, "Man, we are waiting for you, let's go together. The game will start soon."

Lu Yang said, "Okay."

"Storm company, go forward." Bissell's father waved his right hand, and hundreds of goblin warriors appeared at the door.

A huge roar sounded, and dozens of Goblin chariots slowly drove from a distance.

The chariot can accommodate 6 people ~ www.mtlnovel.com ~ including the driver, the shape of the car is like a F1 car, and the body is very low.

“Wow, this car is so cool, how fast can it run?” Han Fei asked.

Bissell said proudly: “This car has a top speed of 200 kilometers per hour. Let’s get in.”

“We’re going by car?” Han Yu asked.

Bissell said: “We are the storm investment company, and our family is the prince of the goblin. Of course, there must be pomp and face at this moment.”

Lu Yang looked at these hundreds of elite 80 goblin warriors and dozens of goblin chariots, and couldn’t help but be excited.

Bissell brought Luyang and others on the first tank. Bissell’s father and directors sat on the back of the tank. Since Bissell is the king’s candidate, everyone must be right. He has enough respect.

Lu Yang is now sitting in the same car as the future Goblin King. Obviously, Bissell gave Lu Yang the glory.

Chapter 634 - Game start

The convoy crossed the east street of Goblin King City, and countless goblin npcs shouted long live along the way, among which there were countless human players.

From the moment the Goblin Kingdom is built, the Goblin King City is open to the public, and players can come here to do tasks to fight monsters.

“Isn’t that the boss of the Jagged Brotherhood? How could it be in the car of the future King contender?”

“Don’t you know that Goblin King City was built by the players of the Iron Brotherhood?”

“The Jagged Brothers Alliance is about to develop this time, even in the same car as the future king.”

“That’s not necessarily the case. Tianyao, Liu Jie, Li Xiuyu, Mai Lizhe, etc. have all participated in the competition. This is the first head-to-head competition among the largest guilds in the national service. Who can win in the end?”

“I am Tianyao.”

“I bet Liu Jie, his studio is the best.”

“Speak nonsense, it should be Merritt.”

...

There are countless players discussed on the World Channel. More people think that Tianyao, Liu Jie and Ma Lizhe can win the championship because all three of them have hired the top studios of the national service.

“No one seems to be optimistic about us.” Lu Yang said with a smile.

Han Fei said indignantly: “I will let them see and see me for a while.”

Lu Yang smiled. He didn’t take this matter to heart. He was used to being a mercenary in the last life. The killer python in the jungle will not show his fierce look before attacking.

The convoy stopped slowly.

Bissell looked at the huge arena ahead and said, "We are here."

Lu Yang got out of the car, as Bissell entered the arena for the Prince of the Arena, crossed a corridor, and came to the interior of the Arena.

Cheers suddenly sounded.

Lu Yang looked up and found that among the players who came to watch the battle in the arena, the brothers of the Iron Blood Brothers occupied a third.

"Boss come on."

"Boss come on."

...

Lu Yang swept through the stands and found that the leaders of the army, such as muddy wine and white lion, were carrying a square array in front of them. They had a long sword with two hands in their sheaths around their waists. Sapphire, which is the exclusive shape of the holy sword.

Not only them, but also 150 paladins led by Han Meng, Han Yu, Mu Yu, Xiao Liang, etc., and everyone had the same scabbard around their waist.

In these seven days, all 200 holy swords were completed, and the Paladins under Lu Yang finally had weapons.

Cheers grew louder.

Lu Yang looked over and found that Tianyao, Liu Jie, Mai Lizhe, Wang Teng, Li Xiuyu, the light of dawn, and the tsunami soared in succession.

The players of the eight teams looked at each other and almost everyone had enemies.

With a sharp whistle, an elderly goblin standing in the middle of the arena instructed all the teams to move closer to him.

Lu Yang asked: "Is this person the referee of the game?"

Bissell said: "This person is called Romon, the chief elder of the Goblin community. No matter who becomes the king, he will be the first elder, behind him is the referee team, and everyone is a master of the Goblin.

Lu Yang nodded, and as Bissell came in front of Lomon.

Landing Yang and Bissell, a goblin belt around Luo Meng, stood in the first position, followed by Liu Jie, Tian Yao, Dawn Light, and others.

Lomon looked at Bissell and the other prince's sons and said, "Today is the biggest event in our goblin kingdom. The goblin family will use the most traditional artillery to determine who will inherit the throne. "

A total of 8 teams, divided into 4 groups, each two teams in a group, Lu Yang's first team against Wang Teng.

"Hey, you can get revenge now." Han Fei said.

Lu Yang looked at Wang Teng and said, "Look, they seem to be very excited."

Wang Teng was very excited.

"It's great. They will come up with strength in a while. They will clear the mechanical dragons later than us. They must not be as good as us."

“Be sure to get revenge.”

“revenge.”

...

Han Yu said two words silently, “It’s stupid.”

“You have learned the rules of the game before. I won’t repeat them. Now the game starts and all parties are ready to enter the field.”

A light flashed on Lu Yang, Han Ying, and others. When they opened their eyes, they were teleported to a flat ground, and each of them had a half-meter-high stone, which was used to avoid artillery fire. of.

The distance between the two sides of the battle is about 80 meters. At this distance, the two sides can attack each other with artillery.

Lu Yang measured the distance and said, “When the battle started, I killed Wang Teng. You find your own target, and you kill the opponent first.”

Han Fei said: “I killed that Qu Han. I think he has been upset for a long time. This man is for money.”

After the last incident, Lu Yang could clearly see Qu Han’s face.

Han Yu said, “I kill that guy.”

He was talking about a demon in the city, but the boy was terrible, but his skills were very strong, and he became Qu Han’s arm.

Han Ying said, “Then I will kill that woman.”

...

When Lu Yang was looking for an opponent, Wang Teng was also arranging tactics.

“After a while, we started fighting, and we killed Lu Yang first.” Wang Teng said.

Qu Han said: “This tactic is very good. One set of fires has an advantage over scattered kills.”

The Allure Demon waited for a nod.

System prompt: countdown to game entry

1

Start

The mobile restraints on both sides were lifted instantly, Wang Teng and others quickly filled armor-piercing shells, and the City Demon was the first to target Lu Yang to attack.

A shell fired at a 65-degree angle, crossed an arc in the air, and landed towards the location of the landing sun.

Lu Yang guessed that he would be caught by the fire, jumped forward, rolled forward and jumped 2 meters away, and landed on the back of a large stone after landing.

Qu Han prepared a second attack and found that Lu Yang hid behind the stone. For a while, I didn't know what to do. Normal arc attack could not hit anyone.

"Hurry away, hide behind the stones." Qu Han shouted.

As soon as the words fell, Han Ying's four pulled the trigger, and four rounds of armor-piercing bombarded towards Qu Han and others.

Qu Han and others immediately scattered and evaded behind the stone, and no one was injured.

Han Fei blinked and said, "This slap."

Lu Yang said: "Play Lai play ~ www.mtlnovel.com ~ we have more blood, rushed to play close."

Han Ying: "..."

Han Fei: "..."

...

Han Yu said, "Brother, you are really unethical, but it is really easy to use."

Lu Yang stood up and laughed while running: "You don't have to be a fool to have an advantage, Wang Teng, give me out and see how I can pack you."

Wang Teng was stunned, watching Lu Yang running over like this, he asked Qu Han next to him, "What kind of play is this?"

Qu Han shook his head and said, "I don't know."

The allure demon said sharply, "Regardless of how he plays, such a good opportunity can't be missed, look at me."

He loaded the armor-piercing shell, stood up and pulled the trigger towards the landing sun, at the same time, Han Yu pulled the trigger.

Chapter 635 - Showdown Liu Jie

Lu Yang was hit by armor-piercing shells, and the players watching the game uttered a surprise.

"It's over, how did the boss get hit."

"I won't die, I heard there is only 100 points of blood."

...

Iron Blood Brother League players were very worried for Lu Yang, but the smoke was dispersed, Lu Yang's body was intact, and Wang Teng's allure demon was hit by Han Fei's armor-piercing bomb and fell to the ground. .

“what’s the situation.”

“Lu Yang is not dead.”

“The boss is not dead.”

“Why is the Allure Demon dead?”

...

The players on the field coaxed and talked, and Wang Teng also choked. He couldn’t understand what happened on the field.

“Why didn’t he die?” Wang Teng said blankly.

Qu Han shouted, “Run, let’s leave Lu Yang here.”

Lu Yang looked at Qu Han with a sneer and said, “It’s too late to run now.”

Han Fei rushed to a position 10 yards from Qu Han and shot him in the head.

“嘭”

Qu Han couldn’t escape the armor-piercing projectile at this distance, and the response fell to the ground.

Wang Teng and the remaining two people did not know what to do, and Lu Yang had already run in front of them. At this distance, no one could escape.

Wang Teng tried to aim at Lu Yang and pull the trigger.

“嘭”

Lu Yang was hit again by a piercing shell.

“-230”

Lu Yang looked at the falling blood volume and said, “What a harm this is.”

There must be a huge sense of loss in Wang Teng’s heart. He said with incredible eyes: “You, you have hit the parts factory.”

Behind the mechanical dragon is the mechanical factory. Can Wang Teng not know the rewards for opening the parts factory, but only 7 days, the previous 9 levels he barely passed, let alone the more difficult copy of the parts factory.

He thought that no one could pass, seeing Lu Yang’s Rogers’s house behind him, and thought that Lu Yang was slower than him, but did not expect that Lu Yang was 10 copies of the parts factory faster than him, and the gap between the two was too big. .

Lu Yang aimed at Wang Teng’s head and said, “Why do you think I’m slower than you?”

“嘭”

The gun muzzle was black, and the armor-piercing bullet hit Wang Teng’s head.

“-460” (Critical Strike)

Wang Teng is dead!

Han Ying and Han Sha successively pulled the trigger, and the remaining two people were also killed in place.

System prompt: You have won the game!

The light flashed.

Lu Yang, Han Ying and others returned to the arena. They were the first to win the game. The other three groups have not yet won.

“Won?”

“Crushing.”

“This is Wang Teng. It’s too unexpected to lose.”

...

The scene became noisy again, and everyone focused on Lu Yang and Han Ying.

Inside the live room.

Dubin said with emotion: “I just arrived at the game data. The two sides of this game are not at the same level. Lu Yang has already cleared the tenth level of the parts factory. He has more than 5000 blood. Guan didn’t hit him. He only had 100 points of blood, which was a complete kill. “

Hitomi said in shock: “Why is the gap so big.”

Dubin said: “Strength can only be said to be strength. The eight teams are completely fair, and Lu Yang can break through this level, only to say that they are too strong.”

Hitomi nodded in amazement and asked, "How about the strength of the other six teams, it would not be only Lu Yang who made it to the tenth level."

Du Bin said: "This is not the case. Liu Jie's team reached the seventh level, Tianyao's team reached the eighth level, the light of dawn and the tsunami broke into the third level, and their blood was not much less than Lu Yang's. . "

Players who watched the live broadcast exploded. Obviously, no one expected that Lu Yang's strength would be so strong.

"How is this possible? There are three great gods in Lengyue Studio, known as the King of Studios, in Tianyao's team. Can they all be compared?"

"Liu Jie's team is not bad. His studio is the second-ranked super studio in China. He just led the team to the Blood Demon Temple, and the first one in China to hit the Blood Demon Temple."

"Iron Brotherhood will win!"

"Iron Brotherhood will win!"

...

Countless players who supported Lu Yang countered in the live broadcast room. For a time, nothing could be seen when the screen was swiped by the barrage.

Lu Yang looked up at the big screen that descended to the center of the court. At this time, the strength of the eight teams in the match has all been displayed above. Looking at the health of the remaining six teams, Lu Yang said confidently: "This time we Winning. "

If he wins the final championship and Bissell wins the throne, he can buy more rare recipes and designs in the Goblin Palace, which will immeasurably improve the guild.

Han Fei said, "Brother, you see Tianyao's game, they played too stupid. Tianyao and the opponent used artillery to attack, the opponent's health is less than 2000 points, just rush to fight hard."

The voice just fell.

Tianyao on the court suddenly changed the game, led the team towards the opponent, and beat the light of dawn hard.

The light flashed and Tianyao returned to the venue. He looked up at the data on the screen above his head, and then looked sideways at Lu Yang. His eyes were full of dread.

Lu Yang ignored Tianyao and continued to wait. He and Tianyao were not in a group. His next opponent was the winner between Liu Jie and Tsunami.

After 3 minutes, the remaining two groups of teams ended the game. Liu Jie won the game and became his next opponent. Tian Yao's next opponent was Li Xiuyu.

The referee looked at the remaining four groups and said, "The next round of games is about to begin. Each group is ready, please click to confirm."

A confirmation button appeared in front of Lu Yang. He looked back at Han Ying and others. After confirming that there was no problem, he clicked the confirmation button.

The teleportation array appeared, and Lu Yang and others were teleported to the map of double-horned peaks ~ www.mtlnovel.com ~ The double-horned peaks, like two horns, protruded from the mountains. Each peak was about 50 meters high and divided into five layers. Each floor has a platform that is 10 meters wide and 10 meters long, which can be used by players to walk and hide.

There were five people on Lu Yang's side, each one occupying a layer of platform. Not long after, Liu Jie's side appeared, and each person also occupied one platform.

Liu Jie looked at Lu Yang, his eyes were full of vigilance. The data above his head made him lose his previous contempt, and he had to take the game with Lu Yang seriously.

“Our blood volume is not as good as Lu Yang’s side. I will use a shotgun to gather fire with Han Ying in a while. He is a woman and should be the best to kill. One second first.” Liu Jie said.

The remaining four nodded, and this method was the best when the combat effectiveness was insufficient.

Han Fei asked, “How do we fight?”

Lu Yang said: “The venue is not big. Follow me with ground bombs and smash all their platforms, starting from the bottom.”

Chapter 636 - Ground-breaking

The most important feature of ground-breaking bombs is that they can blow up a large pit with a diameter of 1 meter. The best fighting method of this map is to throw all the enemies under the cliff and die.

System prompt: Combat is about to start, countdown

10

9

...

1

Start

Lu Yang reloaded the ground ammunition immediately. After 5 seconds, the first ground ammunition was reloaded. Lu Yang aimed at the bottom platform and pulled the trigger.

“噤”

The pointed ground bomb with a whistling sound crossed an arc in the middle of Liu Jie's bottom platform.

At this time, Liu Jie had just reloaded the shotgun and was about to launch. Suddenly there was a loud noise. He saw that the bottom platform of his side was blown up by a large pit with a diameter of 1 meter and a depth of 0.5 meter.

“Broken ground?” Liu Jie said in a panic.

The voice just landed, and the other four rounds of ground bombs landed accurately on the fifth floor platform. One of them hit his players and plunged them into the big pit.

“Come out.” Liu Jie shouted. He immediately understood Lu Yang's play. The thickness of each platform was only 1 meter. Two rounds of ground bombs could penetrate it. Shoot, the player under his hands will fall off the cliff because he has no place to stand.

“Just leave me alone, fight back and hit them,” the player shouted.

Liu Jie responded and shouted, “This attack was replaced with a ground bomb.”

Lu Yang sneered and said, “Liu Jie, it's too late to react now.”

This is a real-time battlefield, and strategic mistakes are a very serious matter, especially when facing top teams like Lu Yang.

Lu Yang reloaded the second ground-breaking bomb and saw that the player on the fifth floor had run out of the big pit and was hiding behind the pit.

“First make a cross section to reduce his moving space.” Lu Yang said.

The five men fired in a round, hitting the middle part of the fifth-floor platform with a 1-meter-wide by 0.5-meter-deep cross-ditch.

The opponent’s action distance was instantly reduced by half and was controlled in the second half of the platform.

The cold sweat of Liu Jie’s forehead flowed down. He did not expect that Lu Yang would use this method and shouted in panic: “Aim at Lu Yang’s location and hit him.”

Lu Yang sneered. He was the least afraid of hitting, because he was on the second floor. Even if this floor fell down, there were still three layers underneath for him, how could he not die.

“噤”

...

Unbreakable ground bombs flew through an arc in the air, and Lu Yang ran while loading ammunition. Five rounds of broken ground bombs did not hit him, but left 5 large pits beside him.

Lu Yang reloaded the third ground bomb and looked at the player who was trapped within the last 5 meters of the fifth floor of the opponent. He said, “I’ll fight first. You try to find his trajectory and fight for a set fire.” Fight. “

“Yes.” Han Ying said together.

Lu Yang aimed at the opponent’s standing position and pulled the trigger.

“嘭”

The ground-bouncing bomb crossed the arc in the air and fired at the opponent player.

The opponent immediately dodged to the right and just ran a step. Lu Yang shouted, “Within 2 yards on the left, set fire.”

Han Ying’s four-on-one team fired ground-breaking bombs. Among them, Han Yu and Han Sha’s ground-breaking bombs hit the player who was evading to the right.

“boom”

A large pit penetrating the cliff appeared, and the opponent player immediately fell off the cliff from the pit.

“Yes.” Lu Yang made a fist with five punches and four fights, and now he is getting better. One person is missing, which is equivalent to one less pit.

However, Liu Jie was panicked. Looking at his teammates who fell down, the player on the fourth floor said to Liu Jie, “Chairman, the next one will come to me. What should I do?”

Liu Jie gritted his teeth and said, “You are responsible for avoiding. If you can’t escape, you will jump to the free space on the fifth floor and try your best to survive. The three of us hit Hansa on the fifth floor.”

The four of them aimed at Han Sha’s position and pulled the trigger. At the same time, Lu Yang pulled the trigger toward the opponent’s fourth-tier player.

With the first successful experience, Lu Yang's side changed his style of play, and he was responsible for playing the opponent's position, and Han Ying's four were responsible for predicting.

Soon, the opponent's fourth-tier player was hit to the fifth layer, and another round of volleys made the other player's cliff.

Liu Jie had just interrupted Han Sha's road at this moment.

Seeing this, Liu Jie knew that he had lost, and looked at Lu Yang with fierce eyes, and was extremely angry.

Lu Yang's heart is full of pleasure. As long as he can get revenge, he will not let go of any chance. If it was not for Liu Jie, how could his life in the last life be so miserable.

Liu Jie gave him, he will double back!

"2 meters on the right, let go." Lu Yang pulled the trigger and launched the sixth round of shooting.

...

After 5 minutes, Liu Jie's side was all beaten off the cliff, and Lu Yang won the victory!

The light flashed.

Lu Yang returned to the goblin arena. After a moment of skill in the arena, a loud cheer erupted.

"This is a great game."

"This game is still playable."

“It’s so cool, it just hit the opponent off the cliff.”

“It’s better than killing each other directly.”

...

Countless players cheered for Lu Yang and Han Ying.

Han Fei proudly beckoned around him, he enjoyed this high-profile feeling.

Bissell came to Lu Yang and said, “My brother, you are the smartest person I have ever met.”

Lu Yang laughed. The game of the last life was only gradually popularized after all the players played for a month. The killing was too slow.

In another battle, Tian Yao and Li Xiuyu used shotguns to attack, and it was the best proof that they hadn’t died for so long.

“It looks like we can rest for a while, I am afraid the battle on the other side will have to wait a long time.” Han Yu said.

“I think so too,” Bissell said with a smile.

Lu Yang shrugged his shoulders and looked up to watch the match between Tian Yao and Li Xiuyu.

The map of the two sides of the game is the same as the map used by Lu Yang. It is very pleasing to see their battles. The two shotguns constantly smash across the high ground and land on the opponent’s position ~ www.mtlnovel.com ~, causing damage.

Suddenly, the two sides of the game changed to ground bombs at the same time, changing the previous style, specifically hitting the opponent’s feet.

“Cut ~~”

“Shh ~~”

...

There was a big boo in the arena. Obviously, Tian Yao and Li Xiuyu both learned about Lu Yang’s play from the outside. Both sides learned Lu Yang’s play and changed to the ground.

5 minutes later.

In the battle, the battle was divided. Tianyao used the ground-breaking bomb first to obtain the final victory, but they won very dangerously. The two sides survived to the end of the game, and everyone else fell.

White light flashed.

Tianyao appeared in the arena. Looking at Lu Yang, he said in admiration: “I have to admit that I underestimated you before.”

Chapter 637 - Final battle

Bissell jumped up, hit his palm on Lu Yang’s shoulder, and said excitedly, “Brother, come on, the last game.”

Lu Yang bowed his head and said to Searle: "Be assured, we will get you back the championship."

Tian Yao saw that Lu Yang ignored him, and his face was a little embarrassed. Jail Tianqiang said angrily, "Lu Yang, don't be too arrogant, we are all familiar with your play."

Lu Yang ignored the prison sky and looked at the referee.

The referee Luo Meng cleared his throat and said, "Now you have two teams left, and the game has entered the final game. The final game is a bit special, and your battle will have a new effect. Rate design-wind speed. "

Tianyao frowned collectively, Tianyao asked, "How does the wind speed affect the hit rate? Can you say more details?"

Luo Meng said: "If it is downwind, the fired shells will be fired farther, and the distance hit by the headwind will be closer, depending on the angle."

"Isn't this the same as not saying?" Han Fei said.

Lu Yang said, "Go in and find the rules."

This rule is very easy to find. The shells are fired at an angle of 65 degrees to 85 degrees. The effect of wind speed is 2 meters. Hitting 2 meters more in the downwind and 2 meters less in the wind. According to the wind speed, they also developed a new style of play that depends on the wind speed at a 90-degree angle. The attack method is very overbearing.

Referee Lomon blew his whistle and said: "The two sides are in place and the teleportation is about to begin."

After 10 seconds.

A teleportation array appeared at the foot of Lu Yang, teleporting him and Han Ying's and others to the map of Qunfeng Mountain.

Qunfeng Mountain, this is a very special map. There are countless peaks on the map. The peak is flat and 1 meter in diameter.

The horizontal distance between each mountain peak is 1.5 meters, which exceeds the player's limit jumping distance, and the vertical distance is 0.5 meters. Players can jump over it.

"This map is too special. How can we fight?" Han Fei asked, standing on the top of a mountain to the left of Lu Yang.

Lu Yang said: "Whether it's the opposite side, let's start by testing the impact of wind speed on the shells. Find the pattern and then hit the opposite side."

"Okay." Han Ying and the four said together.

Tian Yao heard Lu Yang's conversation clearly. At this time, his direction was upwind, and he said to the men standing on the left and right sides of the mountain: "We first test the impact of wind speed, and everyone tests at a 65-degree angle. , The amount of fire [medicine] starts from 50% of Hell's Dome and increases 10% one by one. "

System prompt: Combat is about to start, countdown

10

9

...

1

Start

Lu Yang felt the lifting of the restriction. He felt the wind speed, raised the rocket gun to adjust the angle to 85 degrees, adjusted the charge to 65%, aimed at Tianyao and pulled the trigger.

“嘭”

A ground-breaking bomb flew into the sky quickly, which should have fallen in an arc shape, but when it reached the highest point, it quickly deviated from its original orbit and flew forward at a faster speed.

“嘭”

The ground-breaking bomb did not hit Tianyao, and fell in a horizontal distance of 5 meters in front of him, hitting the mountain where Tianyao was.

Tianyao turned his hair upside down, and hurriedly looked down at the mountain. He was surprised to find that the peak he was on was not damaged.

Jie Tianqiong and others were also startled. They also felt relieved when they saw that they were not damaged. If the mountain could be interrupted, they would not be able to carry a few shots.

“Lu Yang, it looks like your ground bombs are not working.” He Tianqiang said sarcastically.

Lu Yang sneered and sent a message to Han Fei and others, saying: “Everyone changed the armor-piercing projectile, my attack angle was 85 degrees, the charge was 65%, and the target Tianyao, the forward charge was 71%. , The charge on the left and right sides increased by 1% every 1 meter, the angle dropped by 1 degree, and the guns were fired uniformly after 5 seconds. “

“Yes.” The four of Han Ying were so excited that they immediately changed armor-piercing shells and aimed at Tianyao.

Tianyao did not think that Lu Yang had mastered the attack range. After loading the ammunition, Tianya shouted, "Launch."

All five people targeted the attack target at Lu Yang, and five rounds of armor-piercing shells made a trajectory in the air and fell in the direction of the landing sun.

Unfortunately, they all hit Lu Yang's surroundings without hitting them.

Tian Yao frowned. He found that the attack distance this time was not a regular distance that was an integer multiple of 5 and 10, but an irregular digital attack distance.

"The intensity is changed to 68%, and they are superimposed one after another from the prison sky." Tian Yao said.

Jie Tianqiong and others also responded and immediately reloaded and attempted to load. At this time, Lu Yang's reloading was completed.

"Launch," Lu Yang said.

Five shells flew out of the muzzle one after the other. Tianyao was lowering his head to load the bomb. Suddenly, he felt the burst of shells in the ear was very strong.

"嘭"

"嘭"

...

All five consecutive shells hit, and Tianyao's 4800 health was instantly destroyed by 1400 points.

“Boss.” Jail Tianqiang and others shouted in succession.

The smoke cleared, and Tian Yao’s face was black and gray. He quickly jumped to the mountain behind him, and said in a panic, “Lu Yang has found my place. You must find a way to find Lu Yang’s attack point.”

Where did Jie Tianqiong and others see this kind of play? Suddenly, they can only find a way to feel it. However, none of their training was related to this. The parts factory fired at the sky, and it had nothing to do with this landing attack. Nothing to find at all.

In the second test shot, none of the shells hit Lu Yang. The most recent round was only 2 meters below the platform where Lu Yang was.

“It looks like they still haven’t figured out the amount and angle of the medicine.” Han Ying said.

Lu Yang said: “Regardless of them, aim at Prison Dome, correct the distance, move 1 meter forward, increase the charge by 3%, and increase the angle by 2 degrees.”

The four nodded, and with Lu Yang’s second round of volleys, the shells could not skip the sky towards Tianyao.

Tian Yao was terrified and wanted to jump backward to avoid, but he found that all the armor-piercing shells fired by Lu Yang and others hit the platform behind him.

“I missed, the angle and charge changed again!”

Tianyao cheered ~ www.mtlnovel.com ~ Lu Yang was sneer inside. He did so intentionally. In the case of wind speed, the charge was increased by 3%, and the distance hit was 2 meters longer than before. To hit Tianyao, it can only increase by 1.5%, and the angle can only increase by 1 degree.

The reason why he missed was just because the hit rate was too high, which caused the system to suspect that he knew this in advance. Now two misses are equal to two attacks to correct the angle and charge, and then attack hits later. His strength is up.

“Charging, the amended charge is 1.5% more than the previous reward, and the angle is 1 degree lower than the last.” Lu Yang said.

The four of Han Ying reloaded immediately.

The whistling sounded in the sky, and four rounds of armor-piercing shells hit Lu Yang. One shot launched by Tian Yao was right under Lu Yang’s feet.

“-280”

“Hit.” Tianyao immediately told the prisoner and other people about the angle and charge of his shot, but at this time, Lu Yang had loaded the ammunition for the fourth time.

Chapter 638 - win the game

“Let it go,” Lu Yang said.

Five artillery shells fired at the same time, and armor-piercing shells crossed the sky, hitting Tianyao’s feet accurately under the action of wind.

“280”

“280”

...

After a while of smoke, Tianyao’s face became darker, and his health was reduced by 1,400 points, leaving only 2000.

Tian Yao looked at Lu Yang in stun. He did not expect that Lu Yang had found the attack parameters so quickly, and he continued to step back a mountain peak, and said to Yu Tianqiang and others, "Find Lu Yang's attack parameters.

Hei Tianqiang and others nodded quickly and promised to come down.

Lu Yang said: "Aim at Tianyao and continue to attack."

Han Fei, Han Sha, and others filled armor-piercing shells. After 5 seconds, the sixth salvo, Tian Yao was shot again without any accidents, leaving only 600 points of blood left.

At this time, Tian Yao's side finally determined Lu Yang's attack distance. After a round of volleys, Lu Yang's blood remained 3600 points.

Lu Yang backed up a platform, another round of volley, Tianyao died!

A player under Tian Yao found the distance parameter. Unfortunately, it was too late to find it.

The two sides fired each other for more than a dozen rounds. In the end, Lu Yang eliminated 5 people at the cost of 2 people killed.

The screen flashed.

Lu Yang and Han Sha and others appeared in the middle of the goblin arena.

Bissell jumped excitedly and said, "Brothers, you have won, thank you, thank you."

Lu Yang smiled and looked at referee Luo Meng.

Luo Meng said in a majestic voice: "I declare that Lu Yang is the winner of this competition. His support, Bissell, will be the king of the Goblin Kingdom and become the first Goblin King. He will take over the ceremony in 2 hours. Held. "

Bissell bowed respectfully to Luo Meng and turned to Lu Yang and said, "Man, follow me to the palace, and then I will complete a series of court etiquette. I'm afraid it will delay your affairs. I will take you to find Master Rogers. "

Lu Yang nodded and followed Bissell into the palace. Master Rogers became one of the court masters and has already settled in the palace palace.

Seeing Bissell coming, Rogers bent down and said, "His Royal Highness, you are welcome."

Bissell said with a smile: "Master Rogers, you don't need to be polite with me. I brought you here for my brother Lu Yang. He helped me get the throne, and everything in the Goblin Kingdom will be open to him in the future."

Rogers bowed again and said, "Wrap it on me."

Rogers looked at Lu Yang and said, "Our most distinguished guest of the goblins, what do you want to buy with me?"

A purchase picture frame appeared in front of Lu Yang.

Enchant Recipe: Gauntlets of Winds

Description: Added a gale effect to the handguard, increasing the attack speed by 800 points.

"Increase so much, you have to have 10% attack speed." Han Fei said.

Lu Yang said: "For players within level 69, it should be 11.3%."

The purpose of his coming this time is to protect the handguards. The Goblin has not only an enchanted handguard, but also an enchanted handguard and a cape.

For 69 players, the overall attack speed increased by 30%. Lu Yang bought 10 copies of these 3 enchanting recipes, half of which were returned to the guild and half were returned to the smithy.

Xiao Liang and Han Yu returned to the smithy with 150 paladins, and the commanders of the army such as Xia Yuwei and Zhuoju also arrived.

“Boss, what is the reward?” Bitter love asked for a long time.

Lu Yang told them the enchanting formula.

Suffering half-heartedly said in shock: “The attack speed increased by 30%!”

Lu Yang said: “Take the weapons down to the smithy and enchant you first.”

“Okay,” said bitter love for a long time.

Zhuo Jiu and Xia Yuwei and others immediately released their weapons and handed them to Han Zhong.

Lu Yang said to Han Zhong, “Immediately enchant these 200 holy swords.”

“OK.” Han Zhong said.

The White Lion asked curiously, “What are you so anxious to do, is there a war?”

Lu Yang forced his excitement and said, “It’s not a war, it’s a copy. Today I’ll take you through the Blood Demon Temple.”

Everyone's eyes brightened. During these 7 days of Lu Yang's training, Xia Yuwei and Hei Yan had been brushing the drawings on the Blood Elf Island. At least 10 sets of each job were played.

Han Yu and Han Meng have got countless gold equipment for various professions in the mysterious tower.

The 150 Paladins and nearly 300 secondary forbidden mages were all equipped with excellent gold parts, especially the paladins, each of whom had hurt more than 8,000 points, and the members of the forbidden mage group had 5,000 injuries. .

"Let's choose someone here," said Zhujiu Qingping. He never felt more confident than he is now. He had been excited by the Holy Sword. The original attack speed of the Holy Sword was once every 1.5 seconds. Now it has increased by 30. %, It can attack in 1 second on average.

This is their attack speed that hurts 8000, plus skill attacks, each time they can exceed 10,000 points, 10,000 damage per second, this kind of damage feels horrible!

Lu Yang said: "A total of 20 people were selected from your 7 teams, and 5 were needed for treatment. You and Xiao Liang were used for the defense. Heiyan team had 30 mages. Templar selection. "

Each of these 50 Templars knows how to punish an angel, ignoring the target's defense for 2 minutes.

After half an hour, the selection was completed, all the melee enchantments were completed, and Lu Yang ran to the entrance of the Blood Demon Temple replica with 100 people.

The blood demon temple as a whole is a huge pyramid, but this pyramid is built with flesh and blood. Each of the four sides of the tower has a large fangs protruding out, and there is a long channel directly to the top of the tower.

System prompt: You found the Blood Demon Temple

Lu Yang asked everyone to form a team here, saying, "Everyone is up."

The turbid wine poured up the holy sword and said, "The gods bless."

The body of 100 people in the whole group emits holy light, and all attributes are increased by 100 points.

Blue Feather raised his staff and said, "Divine grace."

Everyone's body emits pure white light, and all physical properties increase by 200 points.

Blue Feather raised her staff again and said, "Earth Guardian."

The defense of Zhuojiu and Xiao Liang increased by 700 points ~ www.mtlnovel.com ~ the final defense of the two reached 7350 points.

After confirming each captain one by one, Lu Yang said that there were no problems, and said, "The whole group enters a copy."

Entering the white barrier at the door, Lu Yang took the whole group to the top level of the Blood Demon Temple. The entire Blood Demon Temple was made of flesh and blood, and the walls, floors, and ceilings were full of flesh and blood.

In sight, this is a very large hall, covering an area of hundreds of thousands of square meters.

In front of them, 12 blood demon dogs were standing there.

Blood Demon Dog (Elite)

Level: 60

Qi and blood: 3000000/3000000

If it is an ordinary group of hundreds, the mobs who see 3 million blood will turn around and leave the copy, and will never try.

Chapter 639 - Blood Demon Temple

The people under Lu Yang saw frowning expressions when they saw the primary monsters in the Blood Demon Temple.

“This little monster has such a small amount of blood,” said bitter love for a long time, seeing the 6 million blood monsters on Blood Elf Island, he felt that the strange feeling here was very simple.

Everyone nodded.

Lu Yang said: “This is only a 100-person copy of Nightmare difficulty. It is one level worse than excellent difficulty. Blood Elf Island is the hardest copy at level 60. We have played the high difficulty and now we are back to low difficulty. Here comes the abuse. “

Everyone: “...”

It can be said that the difficulty copy of the nightmare for 100 people is to abuse the food. It is estimated that the entire server is only Lu Yang. The 99 people who followed Lu Yang became instantly heated.

Lu Yang said: “Han Ying controlled six with a nine-headed dragon, and Xiao Liang held the other six and started to blame.”

Xiao Liang jumped in front of 12 blood demon dogs, launched his taunting skills, and turned to run. The 12 blood demon dogs immediately chased after Xiao Liang.

Han Ying ordered the nine-headed dragon to activate the control skills.

“Nightmare”

“Shock”

...

Six blood spells kept 6 blood monster dogs in place.

Xiao Liang continued to move backwards, and when the distance from the controlled monster reached 10 yards, Xiao Liang stood still and used his skills and sword and shield to fight against the monster.

The treatments such as Lan Yu and Ye Yue Ting Feng are responsible for adding blood to Xiao Liang. The blood demon dog’s attack power is about 8000 points, Xiao Liang’s defense is more than 7000, and iron wall skills. The damage suffered each time is only 500 points. 6 They attacked once before destroying Xiao Liang’s 3000 points of blood.

Xiao Liang has more than 20,000 blood, and it is very easy to pull up.

After Xiao Yang, such as Lu Yang, stabilized his hatred, he threw acid poisonous mist and the reverberation of the magic sound to reduce the defense and magic resistance of the blood demon dog. Got him. “

The white lion, half-loving half-life, and 50 Templar knights and other players holding the holy sword could not bear it anymore, and ran around the blood demon dog with the holy sword.

“Holy Flame Slash”

The white lion slashed on the thigh of the blood demon dog.

“19216” (Critical Strike)

The white lion looked at his attack power in stun. This is the output of the Nightmare Hundreds. The crit can hit so much.

All players holding the Holy Sword are a little dazed. Although they have been prepared for a long time, they know that their equipment is very powerful, and they are all excellent gold. However, when it comes to the output of the Nightmare Centennial, they see that their damage is so high Everyone couldn't help but startled.

Lu Yang took the mage and released the magic while saying, “Don't be dazed, hurry up and output.”

The white lions and others then reacted, one after another, speeding up the output, but when they actually output, they only discovered the problem.

With the gust of wind enchantment, the white lion's attack power reached 1 second and 1 attack speed, each of them had a critical strike chance of 15%, almost every 6 hits could trigger a critical strike, good luck three consecutive times Triggers a critical strike.

At such an attack speed, they can freely release all the skills they have. The blood monster dog has a total of 3 million health. Under the joint output of more than 90 people, one was killed in less than 10 seconds.

A piece of silver gear fell out.

Lu Yang said: “There is no need to pick up the garbage equipment. I will let Tu Feng send someone to pick it up and hit the second one.”

Everyone has no intention of picking up equipment now, and everyone is stunned by their own output. Who can think of the difficult nightmare hundred people in the legend is so vulnerable in front of them.

Everyone desperately output. Within 3 minutes, all 12 blood demon dogs were killed, and 6 pieces of silver equipment were dropped.

“This output is so cool.” Guai said excitedly for a long time.

Lu Yang looked at the excitement of the Paladins and violent battles and said, “Do n’t be impulsive. The invincibility of Paladins is definitely not allowed to be released now, and the punishment angels are not allowed to use it. When I kill the lord for a while, listen to my unified command. open.”

“Oh.” The crowd nodded.

The cooling time of the punishment angel is only 40 seconds, but the cooling time is 20 minutes. Without hitting the lord, he will never let it go.

Lu Yang said: “Sun Yu pull the monsters inside, mobs three teams one pull, this time we use range attack skills.”

The white wolf jumped up excitedly and said, “Boss is wise.”

Sun Yu also likes this style of play. The shooter also has range skills. He ran forward with the wind elves, and drew 3 waves of blood demon dogs and ran back.

Xiao Liang and Zhuojia dumped both men to carry the shield and rushed into the strange group. After 3 seconds, Lu Yang said, “Hit, use range skills.”

“Well, I’ll wait for you.” The white wolf jumped into the middle of more than 30 blood monster dogs, and the Tronaze sword slammed in his chest, spinning.

“Furious, Cyclone”

A huge sword array tornado revolved wildly around the white wolf, and more than 30 blood monster dogs were all shrouded in the middle.

“20126” (Critical Strike)

“10013”

“10128”

...

Every second, more than 10,000 points of damage emerge from the heads of his more than 30 blood monster dogs.

White Tiger, Xia Yuwei, Zhang Zibo and other violent battles followed closely, using violent whirlwinds to chop. The 4 whirlwinds in the venue rotated at the same time, and the blood monster dog’s damage speed dropped.

Masters such as Lu Yang were surprised while standing in the distance using the range master while outputting.

Heiyan said, “Boss, my range output is not as high as that of a white wolf.”

Lu Yang said with emotion: “This is the holy sword. It has been improved too much. It is too strong to match the special skills of violent battle.”

In the previous life, he had not seen the violent battle with the holy sword, but now he has seen it. On the output of the group alone, the paladin and the mage, the warlock, and the hunter are not the damage of the melee.

System prompt: you killed the blood demon dog

...

A series of prompts appeared in the dialog box. More than 30 blood demon dogs all lay on the ground, and more than 10 pieces of silver equipment fell out.

"It's so cool, it's so cool." White wolf jumped and said excitedly ~ www.mtlnovel.com ~ He just glanced at the team output rankings, he ranked first and shouted to Lu Yang: "Boss, I surpass you. "

Lu Yang laughed and said, "I wonder if the game is going on, Sun Yu continues, we have the highest output when we get through this copy."

"Game match," shouted White Wolf.

"I participate." Xia Yuwei said.

"I also participate," Hei Yan said.

...

The Master Group refused to accept the defeat, and everyone signed up. Originally, they were the elder brothers in the copy. Now they have been grabbed by the violent battle.

Sun Yu and Han Fei and other thieves and hunters took a look at each other and showed speechless expressions. This kind of pk will never have the opportunity to participate.

"When can our output be so high, depressed, I'm going to pull the monster." Sun Yu ran into the hall.

Chapter 640 - Easily fight

Lu Yang said: "According to the information I got here, it looks like the final boss of the Blood Demon Temple has a chance to drop the legendary double sword of the thief."

"What?" Twilight Razor and Han Fei all looked at Lu Yang in shock.

"I also heard that the ultimate lord of Blood Elf Island had a chance to drop the archer's legendary bow and arrow," Lu Yang said.

"What?" Sun Yu was stunned.

Lu Yang said: "I have heard that I have to get a copy before I know."

"I did it." Sun Yu burst into the hall with a gust of wind, full of legendary bows and arrows. When he woke up, he found something wrong and glanced behind him.

"My mother."

Behind Sun Yu, there are at least five or six hundred blood monster dogs.

"Boss, quickly set fire to wall and fire dragon, prepare for a secondary forbidden spell, I'll pull more." Sun Yu shouted on the team channel.

"How many did you pull," Lu Yang asked.

Sun Yu said: "It is estimated that there are hundreds of them."

Everyone: "..."

Lu Yang patted his head and said silently, "I shouldn't tell you about the legendary bow and arrow."

"That's right." Sun Yu's head went crazy again.

Lu Yang: "..."

"First tell you how far you are from us." Lu Yang asked.

Sun Yu looked around and said, "It's going to take a couple of minutes."

Lu Yang said, "Run back in 5 minutes."

"Oh." Sun Yu said, this has no pressure on him, he can do this for half an hour by pulling the monsters.

Lu Yang said: "There is no fire method in the team, I will set fire walls and fire dragons."

He pointed his staff forward, and the words in his mouth continued to be read. One wall of fire stood on the ground one second at a time. Before long, a sea of fire with a range of 10 * 10 appeared in front of him.

Lu Yang fired the dragon again, and when Sun Yu came back, he just released 100 fire dragons.

"Boss, I'm back." Sun Yu shouted as he ran.

Everyone looked at Sun Yu, and chased almost five or six hundred blood demon dogs behind him.

The cooldown of Whirlwind's Whirlwind skill is over. He moved his shoulders and said with a smile, "I like this style of play the most."

After the new game is revised, the cooldown of Whirlwind is reduced to 3 minutes, but the violent battle in Whirlwind is no longer inevitable.

“The Great Lord of Fire ...” Lu Yang uttered a spell.

The white wolf said in a stunned state, “Well, boss, you play, you use the secondary forbidden spell.”

Lu Yang smiled at the white wolf, heart, nonsense, more than 500 blood demon dogs ran over together, how to control them without meteor fall, could Xiao Liang fight against it, it would be seconds to go up.

Ten seconds later, Sun Yu ran past Lu Yang, and more than 500 blood demon dogs stormed into the sea of fire and fire dragon.

Lu Yang had more than 8,000 spell injuries, fire wall spells had more than 1,000 damages, and more than 9,000 in total, so did the fire dragon spells’ damage. The two combined, the hatred of more than 500 blood demon dogs immediately turned to Lu Yang’s head.

“Roar ~!” The blood demon dogs rushed towards Landing Yang. At this moment, Lu Yang’s mouth finished the spell and pointed forward with his hand.

“Meteor Falls”

A house-sized fire meteor suddenly burst out from the oblique top of the blood demon dog group, and suddenly smashed into the middle of the blood demon dog group with the whistling air.

“破”

A crimson shock wave visible to the naked eye appeared at the center of the blood demon dog group, spreading violently outward.

More than 500 blood demon dogs were all stunned without exception.

Lu Yang shouted: "The whole output, hit me hard, you must kill all within 10 seconds."

"Yes." White wolves and other violent battles jumped into the battle group to launch a blade storm, and Hei Yan and other mages uttered a secondary forbidden spell, releasing the ice roar immediately after the landing sun.

Countless blizzards and space magic invaded, covering all blood demon dogs. For a time, various magic and skills flew up and down the field.

The mage's forbidden output has more than 5,000 damage per attack. Ten people release 50,000 for 50,000 damage, and 10 seconds is 500,000.

Adding the stacking of fire wall, fire dragon, and violent whirlwind skills, after 10 seconds, more than 500 blood demon dogs fell to the ground, and dozens of silver equipment fell to the ground.

White Wolf opened the output leaderboard at the first time, and he found that he was still the first.

"Wow ha ha, boss, your output is still not as high as mine." Bai Lang said proudly.

Lu Yang was unsmiling, and he did not output it after putting a meteor drop. It is also normal to have less than the white wolf. Moreover, he is only less than 10,000 points less than the white wolf on the leaderboard. If he just shot, then How strange, at least 10 million damage can be exceeded in 10 seconds.

Lu Yang said: "The rest of the staff, Sun Yu went to see how many blood demon dogs there are, look good, don't pull the boss over."

"Oh." Sun Yu ran deep into the hall and reported to Lu Yang three minutes later, "Boss, I just seemed to have pulled out all the mobs, and there were only 50 blood monster dog kings left in front, as if they were bosses. "

Lu Yang said, "You stay there, we will come over here."

Seeing the Blood Demon King proved that Sun Yu had already run through the first hall, and it was not appropriate to let Sun Yu pull back to the door.

Lu Yang took the whole group members across the hall to the entrance of a promenade. Dozens of blood monster dog kings were taking a walk in the corridor. Their body size was twice that of the blood monster dog.

Blood Monster Dog King (boss)

Level: 60

Qi and blood: 9000000/9000000

Lu Yang said: "Pull out one by one, Sun Yu pulls strange."

"Yes." Sun Yu stood 100 yards away, tilted the long bow to the sky, and released the bowstring.

“崩”

The long arrow traverses the arc of a blood demon dog king in the middle of the arc.

“Woohoo ~”

The Blood Demon King raised his head and screamed, and rushed towards Sun Yu. It was fast, when he ran to Xiao Liang.

“Red Mist Bloodthirsty”

Xiao Liang yelled, his body splattered with bloodthirsty red blood mist, and the blood demon dog king immediately turned to Xiao Liang, biting it.

Lu Yang threw two potions and said, "Poke his nose."

Xiao Liang raised his shield with his right hand to block, and inserted a sword in his left hand into the blood monster dog king's nose.

"2026" (Critical Strike)

There was a weakness in the Blood Demon Dog King, and a loud anger glared at Xiao Liang.

Lu Yang said: "The whole output."

The people attacked together ~ www.mtlnovel.com ~ The blood demon dog king only had physical attacks, and the damage was around 12,000 points, which could not cause too much damage to Xiao Liang.

Soon, the first blood monster dog king was killed on the ground by everyone, and a gold-level equipment dropped.

Dusty wine poured out the equipment and sent the attributes to everyone.

Houndstooth Sword (Gold)

Level: 60

Attack: 426—488

Strength: +60

Constitution: +60

Additional attack power: +122 points

Additional physical penetration: +152 points
