

Wild Fire 701

Chapter 701 - Deer King Susibio

These three skills are used for fixed distance targets, and there are many restrictions. The use time also requires 1 minute of cooling. However, this is a god-level skill of the previous life. All top fire skills must master this. Skills.

The damage caused by the ground fire is considerable, and the most important thing is his effect, which can knock the target backward and fly.

Generally speaking, the distance of the same level of collapse is 10 meters, which is 1 meter higher than that of level 1.

Lu Yang said, "Since I have this skill, I can do a lot of things."

He sent a message in the simulation group and said, "You first bring a copy of the fight, I will go out and fight a few lords, we will meet at 8 tomorrow."

Xia Yuwei and others were leading the team to change jobs, and did not have time to accompany Luyang, and they all responded.

Lu Yang closed the intercom, turned into an ordinary elf with a disguised coat, took out the city roll and flew to the city of St. Gall, walked to the teleportation position, and spent 5 gold coins to fly to the elf family of Zijin King.

Just after landing, Lu Yang felt a tense breath. He frowned and looked around, and found that war was taking place outside the city's security zone.

He looked at the player next to him, a female elf, and asked, "What happened, how did you fight in the city?"

The female elf was very talkative and said, "I don't know the reason, maybe Shenhua can't figure it out."

Lu Yang asked in surprise: "Shenhua is the boss of a grand guild. How could he not think about it? Does this matter have anything to do with him?"

The female elf said, "Of course, look at their guild badge. The active attacking side is a man of Shenhua. The passive beating is under the hands of Liu Jie's affiliated guild."

Lu Yang felt bad, and he dialed the pager of Shenhua and asked, "Are you fighting Liu Jie?"

Shenhua proudly said, "You have also got the news. Liu Jie, a fool, dared to attack the Emerald City. Now the army is trapped there, and he has not won the whole day. Instead, he was defeated by the coalition of the Emerald City. 5 times. "

Lu Yang frowned even tighter and said, "Liu Jie lost five times in a row. How is this possible?"

Shenhua said: "Emerald City, don't you know, their boss has the God of War god, and using the fury of God of War in a battle can kill more than a thousand people, no worse than your demon heart."

Lu Yang nodded. The **** of war is the same as the heart of the **** of war. One is an artifact of the elven tribe and the other is a human artifact. If the boss of the emerald city has the **** of war, it is indeed an invincible existence.

"What are you doing now? How did you fight with Liu Jie's affiliated guild?" Lu Yang asked.

"Have you been to the Elven City?" Shenhua asked.

Lu Yang said: "I came here to do a task, and I just saw your people chasing and killing others."

Shenhuang said: "Last defeat, my men were even more angry than me. This time, Liu Jie lost the battle. I do n't know who shouted in the guild first. The entire guild people went crazy and killed Liu Jie in the city. I cannot stop the affiliated guilds. "

These guilds were originally affiliated guilds of the Divine Realm, because of the arrival of Liu Jie, they all betrayed Shen Huang and joined His Majesty.

In the past, there was no way to suppress Shenhuang. This time, he finally got a chance. He couldn't beat Liu Jie. He was able to clean up these small guilds.

Lu Yang said: "Be careful Liu Jie suddenly comes back to find you trouble, keep a troop at your fortress, if there is something, find me in time."

Shenhuang said: "Rest assured, Liu Jie has no time to care about me. He has announced that he and the Emerald City will never die. You don't know, the boss of the Emerald City swears Liu Jie with a **** dog. . "

"Is this still happening?" Lu Yang asked as he walked outside the city.

Shenhuang told Lu Yang what happened. The original boss of the Emerald City was also the grandson of a consortium. He and Liu Jie had a bit of a contradiction. If it was n't for his Emerald City, he had been attacking other main cities. There is no chance to rise again in the Elves.

This time the two formally collided together, it must be an endless situation.

Shenhuang said: "Did you know that when Liu Jie was meeting in the guild, he once commented on us and the Emerald City? He said that we are only a disease of tinea, and the Emerald City is a pain in the skin."

Lu Yangxi smiled: "I can't think of Liu Jie who is quite confident, then I'm relieved, you can continue playing, and I'll do the task here."

“No problem, I’m going to fight in person. I took advantage of this opportunity to destroy several small guilds and let them snob.” Shen Huang cursed.

Lu Yang could imagine the wrath of Shenhuang, closed the intercom, and ran the Red Flame Lion King to the level 60 map.

This is a dense forest. Only a few players are playing here to upgrade, Lu Yang bypasses them and continues to walk forward.

Suddenly, he felt that someone was following him ~ www.mtlnovel.com ~ I don’t care who you are, stay away from me, otherwise don’t blame me for being unkind. “Lu Yang said.

The six elf-type thieves who tracked Lu Yang looked at each other. They were all masters of the studio. They thought they were strong. They saw Lu Yang coming here alone and dressed in casual clothes. Guess Lu Yang should be a local player. There are many good things on my body, but I did not expect to be discovered by Lu Yang.

“What shall we do?” Asked a thief.

“Let’s find that we can prove that he is much better than us,” said another thief.

The other four thieves nodded, and each backed away.

Lu Yang felt that the tracking behind him had disappeared, and he was relieved. If it was in the human race, he must have killed these people. Now he is in the elf race. If he uses skills, he may be found at any time. Yang.

If that is the case, he can only return to Terran and will not kill the lord for the time being. However, if this opportunity is missed, I am afraid that he will be killed next time.

This lord is called Susibior, a half-man and half-deer monster. He is a lord-level monster, and likes to wander in the depths of this forest.

Lu Yang went deep into the dense forest and found Susibiou near a cliff.

Deer King Susibio (Lord)

Level: 60

Qi and blood: 100000000/100000000

Susibio has many skills. One of the most commonly used skills is entanglement. He can control the weeds on the ground to attack the player, control the land to surround the player, and control the wind to attack the player.

If it is a team fight, at least 500 people can kill him. Lu Yang can't bring 500 people to come here, but he has a secret, which is to use the earth fire sky bug to kill him.

Chapter 702 - Deer horn

Skyfire in the previous life is known as one of the most buggy skills, because he can bounce the target.

When the game designer is designing the map, the model of each mountain is dropped layer by layer. The player looks like this mountain is extremely real, in fact, there are countless layers of stones superimposed on everything.

It is for this reason that there are recessed bug positions on these mountains. As long as the target is hit in the bug position, the target will never come out unless it is dead.

It happened that there was a bug location not far from Susbio, and behind him stood a slight depression in the mountain.

Susbio did not see Lu Yang. He wandered aimlessly in the forest. Lu Yang waited for half an hour. Susbio finally came under the bug.

“Earth to Earth”

Lu Yang pressed down hard with his left hand, and a ball of flame penetrated into the ground, which appeared under Susbiou’s body after 1 second.

“嘭”

A fierce flame blasted into the sky at the feet of Susio, and slanted Susio to a height of 1 meter.

The height of the concave position is at 3 meters, and only one attack is not enough. When Lu Yang released the first ground fire and soared into the sky, a reddish light appeared on Lu Yang’s body.

“Remnant Flame-Activated”

He stepped back 15 yards at the speed of sound, pressing his left hand again.

“Earth to Earth”

A second fire broke into the sky, and Susibiau, who had just reached the highest point of the 1-meter position, collapsed and flew up again to a height of 1 meter.

“Remnant Flame-Activated”

With a red light, Lu Yang backed up a distance of 15 yards. He pressed down for the third time with his left hand, and once again slumped Sussio up to a height of 1 meter, crashing him into the concave area.

Susbio had just landed, roaring angrily, desperately trying to get out of this area, but his body was just right, no matter how he broke free, he just couldn't jump out.

If players from other top studios now see the scene where Lu Yang just released his skills, he will applaud Lu Yang's applause. Now it seems that Sussio cannot move and cannot attack the player, but if Lu Yang has just With a little mistake, it is undoubtedly him.

Every time the ground fire soared into the sky, it would have an effect only when Susio was ascending to the highest point. With a difference of 1 cm, Susio could not collapse into bu*.

Why the official knows that this bug allows him to exist is because no designer thought that someone would really be able to crash the lord monster to the 3 meter high bug position.

Lu Yang was able to do this because he responded faster than ordinary people, and because he had sufficient experience playing fire in the last life. Few players in this life were able to do it.

“Destroy the Sky”

Lu Yang stood at a distance of 55 meters from Susbio, and a flame flew into the sky in his hand.

After 2 seconds, the flames fell and hit Susbiou's head.

“19068” (Critical Strike)

The throwing distance of the magic sound reverberation is only 30 yards. Lu Yang does not want to try to go to a distance of 30 yards and is attacked by Sussio. Although the target's magic resistance is reduced by 30%, there is a high output of Skyfire. Slow Slow is still a dead target that can be hit.

Skyfire's cooling time is 10 seconds. Lu Yang waited for 10 seconds and used it again. It was found that Susbio's health recovered 10,000 points, which made him somewhat depressed.

“Inflammation”

The flames surrounded Lu Yang, and his body instantly turned into a 5-meter-high flame.

“Destroy the Sky”

“Destroy the Sky”

“Destroy the Sky”

...

In this state, Lu Yang can use the Sky Extinguisher infinitely, and a blast of flames flew into the sky, and then fell on Susbio's head 55 meters away.

Within 20 minutes, Susbio fell to the ground and died.

System prompt: Congratulations, you killed Susiebio

Lu Yang walked up to the concave area and picked up the staghorns of Susibio. All he wanted was this thing, and the other dark gold-level equipment that he dropped fell into his backpack at will.

Deer horn

Level: 60

Description: The player blows the horn, increasing the player's physical attack power by 15% within a range of 10,000 meters.

“With this horn, he will not need to use the official horn when playing teamfights in the future.” Lu Yang muttered to himself.

The official horn has very serious problems. He has three types in total. Nowadays, the large corps battles 2 million to 4 million people. Once a war of this scale occurs, if you want to command, you can't move it with your mouth. .

The typing speed is too slow. There is time for typing. It has long passed the fighter plane. If you use your hand to command, many people will forget that someone is still commanding, and they will be killing others with bloodshot faces.

The only horn that can do large-scale command is this horn. However, if there are only three types of horns, the players on both sides often choose the same situation.

You also use the first type of horn, and I also use the first type of horn. The sound of the sound is exactly the same. There may be an enemy blowing the horn. The enemy thinks it is attacking. The leader knows it is not. , Both sides launched attacks at the same time.

The current method used by the Jagged Brothers Alliance is to call a slogan. During the war, Lu Yang first shouted Jie Brothers to kill ~ www.mtlnovel.com ~ The other legionaries knew that this was an attack, and no horn was needed.

However, this has a disadvantage. It can only attack and not back. If you want to play other ways, this slogan cannot be achieved.

Now with the Horn of the Deer, the sound of the sound is unique. Everyone in the whole group knows that it is their own. The length of the sound can tell the players in the group what the game is like. For the entire team's combat effectiveness, More than one grade.

Lu Yang stole the Lu Yang horn and continued to search along the forest. There are five such deer kings. Five of them are unique. If they are killed, they will never be refreshed again.

Soon, Lu Yang found the second one. He was 1 km away from the mountain.

Deer King Atacata (Lord)

Level: 60

Qi and blood: 100000000/100000000

Atacata's and 斡 are like the four lines of magic that can control nature, like Susiebio. If he kills alone, he can't beat Atacata.

Lu Yang looked at the surrounding mountains and found no depressions. He stood 50 meters away and read the spell in his mouth.

“Destroy the Sky”

A fierce flame blasted into the sky and fell on Atacata's body after 2 seconds.

“19626” (Critical Strike)

A hissing sounded in Atacata's mouth, and he fixed his eyes on the landing sun, saying angrily, “Damn humans, come again to invade our land, and I will punish you.”

Lu Yang had just released the magic, and a flame ignited under his feet.

“Blazing Blaze”

He ran towards the place where Susiebio died 1 km away. He just took a step, and the grass under his feet grew rapidly, like a seaweed more than 2 meters tall, tied densely towards the middle.

Chapter 703 - Wang Teng Studio

“Miss”

Lu Yang escaped the vine bundle by a slight difference, and a white light appeared on his body and jumped to a distance of 30 meters. He just landed, threw away the escape dagger, and flew to the place 30 yards in front. It took less than 2 seconds. Opened a distance of 60 yards.

Looking back, the deer king Atacata chased 60 yards behind him, which was equal to Lu Yang's teleportation, and Atacata chased him.

Lu Yang sighed as if he was a level 60 blame. It is estimated that he also has similar flashing skills. Fortunately, he just evaded, otherwise Atacata could kill him with just one stroke.

“Human, in front of me, you have nowhere to hide.” Atacata's majestic voice came from behind Lu Yang.

Lu Yang ran towards the front quickly, not paying attention to the sound that was getting closer behind him. Soon, he took Atacata to the place where Susibio died, and continued to run for a distance of 15 yards. At this moment, Lu Yang suddenly turned around, and a red light led him to Atacata.

“The Sun Fist”

A reddish light appeared in Lu Yang's left hand, and he punched Atakata's deer with a punch.

“17625”

Atacata was hit backwards and flew backwards.

“Remnant Flame-Activated”

A red light landing sun appeared 15 yards away from Atacata. He just landed and pressed down with his left hand, and a flame penetrated into the ground.

“Earth to Earth”

“Human, you irritated me.” Atacata just landed at this moment, and it was upset that there was a human being able to knock him off.

“噫”

A fierce flame from Atakata’s feet obliquely ascended upward.

“Remnant Flame-Activated”

Lu Yang flashed back 15 yards, pressing down with his left hand.

“Earth to Earth”

When Ataka * flew to the top, a second fire broke out.

“17662”

Atacata continued to fly up 1 meter.

A red light emerged from Lu Yang and backed up one meter, releasing a third ground fire into the sky, putting Ataka * into the concave area.

“Damn, I’m going to kill you.” Atacata was furious, desperately trying to struggle out of the area, but there was nothing he could do.

Lu Yang continued to move backwards, came 60 yards away, and sat on the ground leisurely, using Skyfire against Atacata.

After 2 hours of grinding, he killed Atacata, picked up the second deer horn, and went on to find the third deer king.

Six hours later, he killed the remaining three and returned to St. Gall with 5 horns to rest.

Early the next morning.

Just after Lu Yang exercised and washed, Jin Buhua called and said, “Boss, Xue Yiming arrived at Modu last night, and found the house late at night, and went to Wang Teng’s studio to work as a hard worker on the recommendation of the landlord.”

Lu Yang looked surprised and said, “Is this still the case?”

Jin Buchang said with a laugh: “It is also a coincidence that the landlord’s son is an elite under Wang Teng and participated in this incident. After Xue Yiming said, I personally flew to Modu to investigate. I just started from Wang Teng’s work. Come out. “

Lu Yang asked: “Are there any gains?”

Jin Buhuan said: “What I can find now is that this studio is not Wang Teng’s, but Liu Jie’s. His role is to recruit 5,000 full-time players, college students, migrant workers, and unemployed people. , As long as you are willing to come here to work, you can lend them a helmet for free and take them to upgrade. “

Liu Jie did this in the last life. In nominal terms, each person's monthly salary was 3,000 yuan. These people had an internship period. Three meals were provided for free during the internship. The salary was only 1,000 yuan. After the internship period, they officially joined the post. Liu Jie will train these people into private forces.

Lu Yang remembered that Liu Jie arranged the incident in the last life one year later, but did not expect this life to be half a year earlier.

“It looks like we should help Xue Yiming so that he can be appreciated by Wang Teng and Liu Jie in the shortest possible time.” Lu Yang said.

Jin Buchang asked, “What do I need?”

Lu Yang shook his head and said, “I'm here in person. They should now be in the Novice Village of King Yinyue.”

In the previous interview, Wang Teng once said that he started with these trumpets in No. 37 Novice Village, and Lu Yang was ready to go to luck.

Back in the game, Xia Yuwei and White Lion were resting. Last night, they took 84,000 people to take turns to change jobs. They were too busy to fall asleep in the early morning, and they have not yet woke up.

Lu Yang turned into an elf-like figure and spent five gold coins flying from the teleportation array to Silvermoon King City, the second main city of the elf clan, and then he flew to No. 37 Novice Village.

Just after landing, Lu Yang saw at a glance that there were thousands of people gathered on the left side of the safety zone. Most of them were level 1 trumpet, and a few were more than 50 level trumpet to maintain order around them.

5000 people were divided into 50 squadrons, each of which was 100 people, and they were standing together and watching a player on the stage talking.

“Starting today, you become an intern in the studio ...”

When Lu Yang heard the man talking, he knew that the boy was Wang Teng himself ~
www.mtlnovel.com ~ The voice, tone and gestures were exactly the same.

“Sure enough, Wang Teng started buying people’s hearts and paved the way for him in the future.” Lu Yang murmured to himself.

Soon after, Wang Teng finished speaking and ordered the members of the studio to take these people out to upgrade. Outside the Elven Clan Novice Village, there was a human-like skull hole filled with small skulls of grades 3 to 9.

The skull hole is large and can accommodate 30,000 people to upgrade in it at the same time. Lu Yang pretends to be a stall at the door of Xinshou Village and sells some of the junk weapons he bought from the nearby store.

Wang Teng personally walked out of the village with 5,000 people. He didn’t notice Lu Yang’s booth, because he was surrounded by a group of 50-level large commanders.

Many players in Xinshou Village ran to the village entrance. Looking at this group of people, Lu Yang was also inconspicuous among them. He observed one by one and found Xue Yiming in the second half of the team.

Xue Yiming also saw Lu Yang. They happened to look at each other. Lu Yang didn’t speak, watching Xue Yiming walk over.

Xue Yiming felt that he had a special look at the goods sold at the door. He suspected that the man was sent by Lu Yang.

This morning, he just told Lu Yang’s men about Wang Teng’s studio. Someone immediately flew to Modu to investigate and made the investigation clear. He felt that Lu Yang’s strength was unpredictable and he sent someone to come and follow him. Communication is normal in the game.

He couldn't help looking back at the two and found that the person was watching him, which made Xue Yiming more sure.

“What are you looking at? Don't look around, be careful, and you will die. You are recommended by me. Don't give me shame.” A 50-level mage said to Xue Yiming dissatisfied.

“Well, okay, okay, rest assured, I will work hard.” Xue Yiming replied carefully with a smile.

Chapter 704 - Cave maze

The 50th-level mage ignored him and continued to check his team.

Xue Yiming rolled his eyes, and sighed in his heart. He was really dog-eye-looking. A person 6 years younger than himself was full of contempt for himself because he had no money.

However, thanks to his being the son of the landlord, otherwise he would not have the opportunity.

“Attention in the back, to the skull hole, each team went in from different mouths, unified on the third floor to fight monsters, and lost the team immediately out of this team, the studio does not raise waste.”

There are many cave entrances, just like Mogao Caves. There are hundreds of cave entrances along the mountain.

The faces of 5,000 new players have a careful expression on their faces, and one player beside Xue Yiming said unhappily: “Pretend to be something, isn't it a higher level than us?”

Xue Yiming nodded and said, "Stop quietly, don't let others hear it. Pass it into that ear and be fired carefully."

The player named Tiger King reacted, looked at Xue Yiming gratefully, and said, "Thank you."

"Don't talk to each other," the landlord's son passed by.

Xue Yiming watched the landlord's son passing by, shrugged his shoulders at Tiger King, and said, "Go in."

The two followed the team into the skull cave. The landlord's son and two other mages opened the road in front, and a hundred level 1 trumpets followed.

Xue Yiming walked side by side, observing from the left and right, pretending to be curious. In fact, he was looking for the person who saw at the gate of Xinshou Village, and unknowingly came to the third floor of the skull cave.

"Here is the third floor of the Skull Hole. All the blame are level 9. We will emphasize that for a hundred years, I will die when I meet you. Everyone will follow closely. When I die, I will quit the game and leave the studio. We have no time to take it again. You run," said the landlord's son.

Xue Yiming nodded with the others, and as the team walked to the southeast corner of the third floor of the skull hole, there was a horizontal u-shaped mouth.

The landlord's son cleared the u-shaped mouth and said, "Everyone is hiding here. I'll go out and pull the monsters to take you to upgrade. Fortunately for you guys, I have a black lion suit wizard to take you."

"By the way, there is a door over there, a maze in it. Don't go in, go in, if you can't get out, get me the same," said the landlord's son.

Xue Yiming was very upset with the landlord's son, and Tiger King and others were upset. Just as they looked at the landlord's son and felt a fire, Xue Yiming felt that someone was pulling him behind him.

Xue Yiming looked back, and was surprised to find that this person was the one at the village entrance. He was about to speak. Lu Yang shook his head, pointed to the entrance of the maze, and signaled a little wait.

Xue Yiming nodded and understood that he saw the landlord's son go, and he continued to wait until the landlord's son returned with the first batch of blame. When everyone looked at the landlord's son's gorgeous magic and his own experience bar, Lu Yang and Xue Yiming walked into the maze at the same time.

"Who are you?" Xue Yiming asked.

Lu Yang smiled and recovered, and said, "I'm Lu Yang."

"Why are you here?" Xue Yiming asked.

Lu Yang said, "You're in luck, I decided to help you out and let you break into them faster."

"How?" Xue Yiming asked.

Lu Yang said: "I know the way of this maze. There is an old man in it who can exchange 25 gold weapons. As long as there is very little money, I will tell you how to get the maze. Go out and tell them the news."

"Hey, this secret is too important for the guild. I've seen the landlord's son, a child who is not sensible, and will definitely use this to invite credit." Xue Yiming said excitedly.

Lu Yang said, "My purpose is here. The kid grabbed credit from you. You must not dare to treat you badly. You leave everything as evidence and threaten him later."

"Boss, you are cruel." Xue Yiming said.

Lu Yang smiled and said, "This man is just a small unnamed soldier. The places that can be used are over here, and it will not hurt him. Come with me."

Xue Yiming nodded, followed Lu Yang into the secret road, and found the old man. The task posted by the old man is easy to understand, but only requires some advanced cotton and 10 silver coins.

A 25-level gold weapon is more than 10 silver coins. Having this secret is equivalent to owning a place where unlimited 25-level gold weapons can be produced.

Xue Yiming walked out of the maze along the corridor and returned to the gate, just to meet the landlord's angry look.

"Where the **** have you been?" The landlord's son scolded.

Xue Yiming held back his anger, accompanied the smile and said, "I just accidentally fell into it."

"Are you blind?" The landlord's son was anxious to kill Xue Yiming with a Pyroblast. He didn't understand why the person in front of him was so stupid. Originally, he wanted to use this opportunity to get Xue Yiming into Wang Teng's guard ~ www.mtlnovel.com ~ Once there is a chance in the future, he may be able to help him. I did not expect that this person would only add chaos to him.

"Go away, you are not needed here," the landlord's son scolded.

Xue Yiming didn't expect the other person to be so impulsive, showing an angry expression, and said in a low voice: "I finally came back, don't let me forget, I just do this task myself."

The two masters and the son of the landlord heard Xue Yiming's whisper at the same time. The three quickly stopped Xue Yiming and asked, "What are you talking about?"

Xue Yiming said: "It's nothing, you keep away."

The landlord's son held back his angry expression and said in a peaceful tone to Xue Yiming: "Brother Xue, let's talk in another place and go. Let's go over there."

The two mages were smiling together.

Xue Yiming glanced at the three of them and said, "Well, go and talk over there."

The three quickly led Xue Yiming to the corner of the u-shaped mouth. The landlord's son asked, "Xue, have you reached the end of this maze, what's in it?"

Xue Yiming said: "I saw an old man who said that he could give him 10 silver coins and some high-grade cotton silk for 25-level gold weapons."

"What?" The two mages lost their voices at the same time, with horrified expressions on their faces.

The landlord's son was twitching with excitement and asked, "Brother Xue, can you take us there? This, this is too important for our guild."

Xue Yiming thought for a while and didn't speak.

The landlord's son and the two mages were blushed urgently. They are just ordinary elite players in the guild. They are at the captain level and the level is only over 50. They do not receive the attention of the guild seniors. If they have this secret, they report For Wang Teng, you will definitely get Wang Teng's appreciation. Maybe you can enter the main group and enjoy the right to give priority to permanent equipment and priority.

Chapter 705 - Need for transfer certificate

"Brother Xue, I introduced you. We are your own. This secret has no meaning to you. Your level is not enough. If you tell me the secret and I report it to President Wang, then I will be better. It's a floor, and I will never treat you badly," said the landlord's son.

Xue Yiming waited for this sentence and said, "Well, I introduced you. No matter where you go, others think I am yours. Come with me and I will tell you how to go."

The landlord's son was excited and said, "Let's go."

The two mages looked at the landlord's son and said together, "Brother, don't forget about us when we develop."

The landlord's son said, "Rest assured, never."

He was already full of energy, followed Xue Yiming into the maze, walked through countless channels and entered the maze store.

Using stealth potion, Lu Yang followed Xue Yiming and the landlord's son to the end from the door, watching the landlord's son know the route and reporting the situation to Wang Teng, and he saw Wang Teng come to the end of the maze with his own eyes.

"Xiaoyue, I was indeed promoted, and it did not disappoint me." Wang Teng patted the landlord's son with satisfaction.

The happiness of the landlord's son almost flew out, Xue Yiming followed behind the landlord's son, bowed his head and said nothing.

"You should take more responsibilities. After that, the 5,000 people will be entrusted to you. After bringing these people, I will take you to see Jie Shao and arrange you into the elite group." Wang Teng said.

"Thank you President Wang." The landlord's son said excitedly.

"Also called President Wang." Wang Teng asked proudly.

The landlord's son responded immediately and said excitedly, "Thank you, boss."

Wang Teng was very satisfied. The landlord's son was able to think of him, not others, or alone, the first time he got such a big secret, which proved the boy's loyalty, and the boy was cultivated by him. He felt very visionary Not bad.

"I have a lot of things to do. I do n't have time to stay here, and I will leave all the follow-up matters to you. I'm gone." Wang Tengzhi left with satisfaction, and he wanted to report this to Liu in writing. Jie, just this task can make his game guild increase a lot of income, this is his political achievements.

The light flashed, Liu Jie was in place for hours.

The landlord's son instantly became the leader of the 5,000 people. He proudly said to the five mages around him: "You don't want to be here anymore, take Xue Yiming to the level 50 map, and use the guild card bug method to upgrade him."

Xue Yiming thanked the landlord's son, "Thank Xiaoyue."

The landlord's son was in a state of excitement at the moment, and said, "Brother Xue, we will be a family in the future. You upgrade as soon as possible, and then come and help me."

Xue Yiming nodded and said yes.

Lu Yang saw that the mission was completed, left the instance in stealth, and returned to Silver Moon King City to wait quietly.

Not long after, Xue Yiming called and said to Lu Yang, "Boss, they will take me to the soul song map of level 50. There is an upgrade bug that can quickly upgrade the level. It is said that it can be reached as soon as one day. Level 40. "

Lu Yang said: "Follow them. You don't need to tell me this secret. I have a better place to upgrade. Contact me when you reach level 45. I have a way to help you advance."

Xue Yiming said: "Boss, the task you gave me is too simple. I don't need to do anything at all. You have solved the problem."

Lu Yang laughed and said, "I don't want you to have too much emotional entanglement with them. I don't want you to be sorry for them when you think back when you came back as a spy."

Xue Yiming originally became silent with a laughing face and thanked Lu Yang: "Boss, I thought you just wanted to use me. Thank you, I know what to do, and I won't trap feelings in it. This is just me. Task. "

Lu Yang sighed. He didn't want to deal with Liu Jie in this way, but now he was compelled to say, "Well, you have control. I'll go back first."

It's already afternoon, and Xia Yuwei and the White Lion are awake, and the Holy Knight Knights and the Forbidden Spell Masters have assembled, and they are reclamation in the Blood Demon King City.

When Lu Yang arrived, the White Lion just cleared out to the third area.

"Brothers, come on, this is a rare transfer certificate, haha, now you're getting rich." The White Lion shouted.

Lu Yang appeared next to him with a burst of red light, and said, "It's such a pleasure to hit a baby."

Seeing Lu Yang, the White Lion said excitedly: "Boss is here, look at it, this is the transfer certificate of the Necromancer, and it hit 20 copies at once."

Jiang Ze 's Necromancer has a very high attack power. This is a warrior class that uses magic attacks. He has high attack, high damage, special skills, and heavy blood. Originally, they thought that such transfer certificates were rather rare, and unexpectedly 20 of them were burst out here.

Lu Yang said, "What do other people get?"

Sun Yu ran over and said in excitement: "Brother, I got 50 transfer certificates of wind laser shooter here, oh my god, such precious things burst out so much here."

Xia Yuwei and Zhuojiu were in other areas. They learned from the simulation group that Lu Yang was here, and they all sent the rare job transfer skills books they got.

They have reached more than 20 rare transfer jobs such as the Space Killer, Destruction Warlock, and Mage Black Flame.

Lu Yang said: "It's not bad. It seems that the people who sold me the news didn't lie to me. Everyone goes on, and strive for everyone to have 1,000 rare transfer certificates."

"Okay!" The momentum of the crowd rose to the top.

Lu Yang looked at them with a smirk expression. Rare certificates would be dropped in this place. He knew that the exposure of this place in the last life was also a shock to all guilds at the time. However, when they found that players had upgraded to level 60 or higher, And you know why.

After level 60, the difficulty of monsters has increased by more than one level. Players with dark gold equipment can easily fight monsters, and players with gold equipment will feel difficult when fighting monsters.

If there is no transfer, it will be extremely difficult to fight. Therefore, level 60 is a dividing line, and it is almost impossible to play without transfer.

"Another wind laser shooter." Mao Qiu shouted in the distance.

"The boss is keeping up, you are too slow." Shouted bitterly for half a life.

Lu Yang laughed and followed the team to the front. For two days, he led the team to waste the blood demon king city. By the morning of the third day, everyone killed all the monsters in the blood demon king city.

Chapter 706 - War Prelude

Lu Yang asked: "Are the statistics good? How many rare transfer certificates have you got?"

Tu Feng looked at the certificate in his hand and said, "It's incredible. If you told me half a year ago, we could get more than 1,300 wind laser shooter transfer certificates to kill me."

Sun Yu said excitedly: "There are more than 1,300?"

Tu Feng nodded, handed all the certificates to Sun Yu, and said, "It's your turn. According to the boss, you can set up a wind laser shooter guard."

"Awesome." Sun Yu was so excited. He always wanted a legion of wind-thunder shooters. The shooting range of the wind-thunder shooter was 70 yards. With the rapid movement of his wind elves, the wind-thrasher formed by the army would become an enemy's nightmare.

Jiang Ze asked excitedly: "How many certificates does my Necromancer have?"

Lu Yang handed him 1,500 certificates and said, "Go to your team and find 1500 soldiers, they can change jobs."

Jiang Ze was stunned and opened his mouth wide, saying incredulously, "How can there be so many."

Lu Yang said, "If you don't want it, I'll give it to others, and they are very envious."

"Don't try to **** it from me." Jiang Ze snatched 1,500 certificates in his hand, and it looked as if he would be lost the next moment.

Lu Yang laughed and said, "The next one is the White Lion. Blessed are your three brothers. I didn't expect that there should be a transfer certificate for the magic warrior here."

Divine warriors, with an additional 30% strength. In front of these warriors, the Templar's punishment angels will look a bit inferior.

White Wolf took the certificate excitedly and asked, "How many."

Lu Yang said: "1500 pieces, but not all of them for you."

"Why." White Wolf said anxiously.

Lu Yang said, "Your three brothers have paladins and warriors. They are all for you. What about your elder brother, this paladin? In this way, you and the muddy wine are uniform. The two of your troops not only have divine warriors but also holy light Mage. "

The Light Mage is a branch of the Temple Mage and has magic damage from the Light Department.

The white wolf looked apologetically to the white lion and said, "I forgot my brother."

Everyone laughed.

Lu Yang and Zhuojiu had already mentioned this problem before, and Zhuojiu had no opinion, saying, "That's the case, we two, one 750 divine warriors and 750 divine mages."

The White Lion said, "Yes."

The remaining transfer certificates are mainly the ice shooter and soul wizard. According to the original distribution principle, Lu Yang was evenly divided into three people, half-life bitter love, Xia Yuwei and Zhou Tianming. Everyone got enough. Certificate.

"It's great, we can form an exclusive army." Zhou Tianyan said.

Lu Yang said: "Take the troops to fight the copy. I will give you 5 days. Be sure to give me all the equipment of the 100,000 people. It is not necessary to equip all the equipment with half a set."

As long as there are half sets of blood coagulation and blood mist sets, Lu Yang can play the advantages that Lu Yang wants, and the remaining positions can be replaced with blood elfen island parts and mysterious tower jewelry.

“Boss rest assured that we must complete the task.” Zhuo Jiu said indulgently.

Lu Yang said: “You 500 people continue to fight the copy of Blood Elf Island, I want more nine-color dragon skin.”

The nine-color dragon skin is the best magic resistance enchanting material.

“Okay,” said the turbid wine.

Lu Yang said: “After 5 days, I will review. If you are done, I will take you to attack the Iron King City, destroy the sword and kill the gods, and then attack Beifeng City and Benliu City to completely destroy them.”

“Yes,” said the seven commanders together.

The days of the war are not far away. According to the information received by Lu Yang, Liu Jiehe has fallen into a fierce battle with the Emerald City. Mai Lizhe and the mighty man are incapable of dealing with each other. Although the old man withdrew, the breeze and Roth Rain and others are still leading the stubborn resistance of the guild, and Ma Lizhe will not be able to get away without a half month.

Tian Yao originally wanted to cooperate with Liu Jie to deal with Lu Yang. Unexpectedly, Liu Jie was caught in a quagmire and could not extricate himself. He could only attack the Tauren main city alone. The entire server was caught in a scuffle. Only Lu Yang was quiet. He decided he couldn't bear it. Kill the sword and kill God first.

Tu Feng said, “You asked me to find all the shield battles and anti-ridings. On the one hand, 5000 people, totaling 10,000, are waiting in the Red Fortress.”

Lu Yang said, “Let's go. Let's go and see if we have all signed the contract.”

“After signing, it’s all our contract players.” Tu Feng said.

Lu Yang nodded, used the fort to return to the city, and flew to the red fort. Ascending the city, he saw 10,000 players standing in the outer city.

“Boss is here.” I don’t know who shouted, and everyone looked at the top of the city wall.

Lu Yang nodded with satisfaction and said, “Yes, you have chosen my Jagged Brothers Alliance. You have chosen to believe in me, Lu Yang. Thank you in advance.”

Everyone was a bit confused, and didn’t know what Lu Yang meant.

Lu Yang said: “Maybe you know, maybe others don’t know ~ www.mtlnovel.com ~ but I know how hard you play this game as anti-war and anti-riding.”

One word instantly opened up the hearts and minds of the 10,000 players present. Playing anti-war and anti-riding is really hard. Other professions are playing remotely or on the side and back of the stranger. Only they have to face the strange front. Especially a vicious face.

Lu Yang said: “How many of you, because of resistance to monsters, often have nightmares and dreams at night until monsters rush at you fiercely.”

“1.”

“1.”

“1.”

...

Almost all players blurted out and raised their right hands.

Lu Yang took a sigh of breath and said, "When fighting and riding are hard, you are too clear, but how many people always blame you when you fail to fight the boss, saying that you can't carry it, and you have a position. problem."

The expression of depression and anger on the face of 10,000 players is getting deeper and deeper. This is what they hate most. It is obviously that treatment cannot be added. It is obviously that the output is not enough. We just say that we can't carry it. But 19 others.

A group of 20 people needs a defense. Everyone thinks you are wrong. If you justify them, you won't think it is your problem. Instead, you think you are quibbling.

Lu Yang said, "I'm not afraid to tell you, I have also played anti-war and anti-riding, but later I couldn't hold on and deleted the number."

The angry people heard Lu Yang's words, and they all showed excited expressions. The chairman of the dignified brotherhood of brothers and the **** of war in the national service had even played the anti-ride and anti-riding because they could n't keep playing. They are so proud.

Lu Yang said, "So, I know your sufferings. I chose 10,000 people this time. The primary purpose is to improve your strength. Your strength has increased, and the overall strength of our Jagged Brothers Alliance has also increased. "

Chapter 707 - Brainstorm

One player shouted, "Boss, how can we improve, it is difficult to upgrade."

“Yes.”

“Yes.”

...

Lu Yang said: “From tomorrow onwards, all of you will go to the ring to upgrade. I specially arranged more than 50 studios such as Xinghun and leading guilds to bring you 10,000 people. I would rather spend two to three billion You must first upgrade your 10,000 to 60. “

“what?”

“Boss, are you willing to pay us to upgrade?”

...

10,000 people exploded instantly. No one would dare to imagine that Lu Yanghui would say so. But this is 10,000 people. If all of them are upgraded, it would cost hundreds of millions of dollars.

Lu Yang said loudly: “You heard me right, I just want to spend money to upgrade you. Vice President Tu Feng has 5,000 transfer certificates for shield battle and 5,000 transfer certificates for anti-riding. If you really I accepted this certificate if I wanted to, but what I want to tell you is that if you take this certificate, you will not be able to change your career in your whole life. You have to think about it. “

The people in the city rioted again.

Lu Yang said, “The rest is left to you. I’ll take a break. I’ll call for a transfer.”

Tu Feng nodded, carrying 10,000 certificates, and called 10 men to come and help him hand them out.

one hour later.

Tu Feng returned to the fortress hall and said to Lu Yang with a smile: "How many people have you transferred?"

Lu Yang said: "Looking at you looks good."

Tu Feng nodded and said, "They have all been transferred, attracted by your words, and helped them to upgrade to level 20 for free. This is crazy."

Lu Yang said: "No way, I need 10,000 people, they have a great role in the war."

Tu Feng said, "I still can't understand what you mean, anyway, I'm not the commander of the army, so I don't need to worry about these things."

Lu Yang laughed and asked, "Are all the people in the studio connected?"

"All are connected, and special space calls can be made at any time," Tu Feng said.

Lu Yang said, "Open a special space. I'll talk to the presidents of these studios and major guilds."

Tu Feng nodded and opened a special space.

White light flickers.

Lu Yang appeared in a special space, along with the bosses of 50 studios and the presidents of 10 guilds.

"Well, enough people come." Mr. Yue Ban said.

Xinghun and Kuantian shrugged their shoulders, and they felt curious for so many people gathered together.

Lu Yang and others were all there, saying: "Today we have only one purpose for everyone. I hope you will help me to raise my 100,000 people to level 60."

Star Soul, Broken Sky and others looked at each other with surprise expressions.

Mr. Yue Ban said in a little distressed: "Boss Lu Yang, we have just reached level 60. You don't have this ability if you let us do our best."

Lu Yang said: "If you agree to my request, I can open you to a 40-level bug brushing experience method that can quickly rise to 60."

"What?" Everyone looked at Lu Yang in surprise.

Kuantian asked, "Boss Luyang, aren't you kidding me?"

Lu Yang said: "Believe it or not, if you are willing to believe, stay and help me. If you do not want to believe, you can leave as if I did not say."

Xinghun said, "Chairman Lu Yang, if you have such a high place, why not go by yourself and use us for what."

Lu Yang said: "My strength is not enough. That place needs a lot of mage to be responsible for killing monsters. The mage that I can use is busy, it is inseparable."

The crowd did not speak. They were the large-scale guild presidents and top studio masters who survived in the three main cities. For two months, the Jagged Brothers Alliance only fought one battle, and the rest of the time was horrible and quiet. There must be a problem inside the alliance. As for what is the problem, no one can inquire from the inside of the iron brotherhood.

Kuantian said: "Boss Lu Yang, if you really have this method, I am willing to help you. I currently have 100 Masters of level 60."

Mr. Yueban said: "I have 120 of them. Although they are at level 60, they are not equipped. They are all junk gold equipment of level 20 epic."

Star Soul and Leng Ya and other studios looked at each other.

Star Soul said: "I didn't say anything, it can provide 20 level 60 mages, but in terms of equipment, I can't do it."

Lu Yang nodded, without speaking, he looked at other studios.

As the bosses of the three main cities, although there has been no recent action and the recent war still failed, for them, Lu Yang is still a behemoth and they do not want to provoke Lu Yang. Even if they do not trust Lu Yang, they nodded and agreed. Came down.

Tu Feng counted, and when everyone reported the numbers, he said, "There are 1,500 mages in all."

Lu Yang said: "It's almost enough. One person manages eight. It's difficult, but it's not impossible."

Mr. Yue Ban said: "President Lu Yang ~ www.mtlnovel.com ~ these people are not enough, if the equipment is not good, it is not good to do any tasks."

Their equipment, even in the studio, is only the gold equipment of the 60-level 40-person epic, and it is very difficult to do the task.

Lu Yang smiled and said, "Equip you to me."

"You give us?" Mr. Yueban asked in surprise.

Lu Yang sent a series of spare parts such as the Yangyan robe, handguards, necklace, and mysterious tower mage jewelry with one stroke to the group.

“Look at how these equipment are,” Lu Yang said.

“I, I, I wipe, this equipment attribute is too high.” Mr. Yue Ban looked at Yang Yan’s robe incoherently.

Xinghun also maintained a hint of reason, saying, “Chairman Lu Yang, the suffix of these equipment is excellent gold. What is going on is completely different from the equipment system we have hit so far.”

Lu Yang said with a smile: “Normally our equipment is bronze, black iron, silver, gold, and dark gold, and upwards are sub-legends and legends, but in the top level 60 copies, this will be called excellence Gold equipment has slightly higher attributes than dark gold. I will give you 10 pieces of these pieces free of charge for these people you send, absolutely not letting you be in vain. “

Everyone was surprised.

Star Soul said: “This is so precious, the price of these equipment is inestimable. If we get these equipment, it means that there is no equipment demand at this level of 60.”

“A yangyan robe is worth at least 10,000 yuan, and the local tyrant is definitely willing to buy it,” said Mr. Yue Ban.

Leng Ya said: “Boss Luyang, did you really give it to us?”

Lu Yang said: “How many people come to help, how many people I send, not only mages, but also soldiers, paladins, thieves, archers and priests, warlocks, all kinds of professions.”

The price of Taiyangjing's spare parts production materials is only one gold coin when 6 pieces are added together. Lu Yang's stock of materials is enough to make 2 million sets and give them to these people. Lu Yang doesn't care.

Mr. Yueban and Xuantian almost regretted hitting the wall. Their guilds at level 60 had far more mages than they reported. They had thought about wasting less time. Now it seems that they are suffering a lot.

These equipment are enough to completely free these masters who are still desperate for the copy, directly kill the difficult field lords, get more special goods and treasures to make money.

Xinghun said with a smile: "Then I'm not polite with you, I'm a thief, and I'm here to help, you give me a set."

Lu Yang laughed. He was very satisfied with Star Soul. The boy solved the embarrassing problem of everyone in a timely manner, and said, "I do n't only send you a set of equipment, but I also send you a dark gold double of level 60. Knife, young dragon fangs. "

Young Dragon Fangs (Dark Gold)

Physical attack: 253—318

Dexterity: +69

Stamina: +56

Additional physical attack: +107

Outfit (1/2)

2 piece set: The attack has a certain chance to trigger the baby's slam, causing an additional physical attack on the target.

Star Soul was stunned, looking at the young dragon in front of his teeth, and said, "Boss Lu Yang, where do you get so many treasures, we don't have them in our studio."

Everyone is also covered. The double-knife combined attack power is more than 800, and there is a set effect, which is much higher than the weapons they can take less than 600 damage.

Lu Yang said: "You are all the studios and guilds that make money with me. Since I use you, I will never treat you. This is just a weapon. There are also five sets of black baby dragon necklaces, rings and accessories. The combined attack power of the five is more than 2,000. Counting the excellent gold parts, the total damage of the thief is close to 6000 points. "

Kuantian said, "Chairman Lu Yang, I'm all in the studio. I'm doing my best. I'm a 60-level master. President Tu Feng, I'll register."

Everyone: "..."

"We are coming too."

...

For the first time, Tu Feng saw the bosses of so many studios and guilds rush into this, forbearing his inner smile, and said, "Don't worry, don't worry, there are many people, we have many people, we will register one by one."

After an hour, the registration was completed again, and the data was twice as many as the original, reaching 3,900.

Looking at the name on the renewed newspaper, everyone was a little embarrassed when they were excited, but Lu Yang nodded with satisfaction, saying, "Very well, now you will organize your staff to prepare, let's start."

Tu Feng said: "Trouble presidents, please come to the guild headquarters in Hannibal City. I will equip you in the lobby. After you get the equipment, please put the gems on."

"Rest assured, this equipment is not yet playing gems, what equipment to fight, let's go back." Broken sky ran away.

Mr. Yueban and Xinghun also flew away.

In a blink of an eye, there was no one in the special space.

Lu Yang said to Tu Feng around him: "They are really too easy to meet. I originally wanted to give them money. It looks like they don't need it now."

Tu Feng laughed and said, "Yes, yes, I have saved hundreds of millions of credit points directly."

Lu Yang laughed and said, "Let's go back to the guild. I should start upgrading the gems too."

Tu Feng asked, "What gem?"

Lu Yang said: "Primestone."

"Primestone?" Tu Feng said with a frown, "I know, when you collected the gems before, you specifically told me to let me collect some more of these gems. Now I have 2 gems of this kind. There are more than a million of them, and no one picked them up cheaply on the ground, and I can't understand what the gems do. "

Prismatic gems, known as the most useless junk gems in the game, have an attribute that increases the magic resistance of the entire system by 10 points each.

Lu Yang asked with a smile: "Why do you think of prismatic gems this way?"

Tu Feng said, "Do you still need to say that Prismatic Gem does not increase any mainstream attributes. What is needed to fight a copy of defense is defense and health. What is missing from the attack profession is magic damage and physical attack. What is missing from the treatment is magic value. Even if you add magic resistance to find the corresponding magic resistance of the lord, there are many more. Why use this whole system to add 10 points. "

Lu Yang shook his head and said with a smile, "Your idea is too limited."

Tu Feng blinked and asked, "Limitations?"

Lu Yang said: "You position these people in the anti-boss anti-riding and shield positions."

Tu Feng said, "They're not anti-strange ..."

Tu Feng reacted and looked at Lu Yang with numbness, saying unbelievably, "It's not the people you make them resist, are they people?"

Lu Yang said: "Yes, this 10,000 anti-riding and shield battles are used to resist humans. Full-time is responsible for resisting human output. Looking at the entire server, most of the enemies only have more than 50 levels. The coagulation suit has high defense, which can completely prevent physical output, and the magic resistance defense is slightly lower. I give each person's coagulation suit and spare parts 10 level prismatic gems, a total of 17, a total of 1700 points of magic resistance , And the original magic resistance of 1634 points together, the total magic resistance of 3534 points.

Think about it, how terrible a group of players will eventually be 36,000 HP, more than 7,500 defense, and more than 3,500 magic resistance. "

Tu Feng said: "This group of people can't move except the Knights of the Holy Sword, but wouldn't it be better if they didn't hit them? Just bypass the 10,000 people."

Lu Yang said, "When fighting in a few days, I will let you see how much these 10,000 people can do."

Exiting the special space ~ www.mtlnovel.com ~ Lu Yang returned to the guild hall of the city of St. Gall, and shipped a lot of prismatic gems to his special space.

He spent the next few days synthesizing gems in the room.

10,000 shield battle and anti-riding are fully upgraded with the help of more than 50 studios and 10 top guild players.

The white lion and bitter love half-life and others took the Holy Knight and the Forbidden Mage to continue to brush the blood elven island, and Xia Yuwei and Jiang Ze, Zhou Tianyan and other legions led the team to brush the blood demon temple.

On the morning of the fifth day, Xia Yuwei was the first to send a message to Lu Yang in the simulation group, saying: "Boss, the mission is complete, the 100,000 army blood demon temple suit, each half, and the coagulation defense suit, 1 10,000 sets are ready. "

"The immortal's suit was played out of 500 suits," said Duojiu.

The Immortal Set includes the Paladin's Underworld Set, the Lawless Void Set, the Warrior's Sky Set, the Rogue and Archer's Instant Wind Set, and the Healing Aurora Set, all of which are silver sets.

Chapter 709 - Iron Mobilization Order

All 150 paladins and 276 forbidden mages have all changed to the Immortal Set. Xia Yuwei and Jiang Ze, Lan Yu and other warriors and healing professions, as well as Han Ying and the warlock who insulted me all the time have also changed to the Immortal Set. The total number is exactly 500 sets.

Tu Feng said: "Level 5 gems and enchantments are complete."

Lu Yang said, "How about 10,000 shield battles and anti-riding."

Xiao Liang said: "Report the boss, by the latest tomorrow morning, everyone's level will reach level 60."

Lu Yang shook his fist vigorously and said, "Very well, then we are set for tomorrow at 4 pm to prepare for a full-scale war. I want to defeat the sword and kill God in one battle, destroy his guild, and take his fortress."

"Yes," said the seven chiefs collectively.

For 5 days, for 5 days, the sword killed God and ridiculed Lu Yang. He slammed Lu Yang's waste on the World Channel more than once and provoked the players of the Iron Brotherhood. His men even entered the Echo Fortress territory many times. , Sneak attack on Jagged Brothers players.

The reason why he dared to be so mad is on the one hand because of the defeat of the old man, and on the other hand because Mai Lizhe and Liu Jie promised the sword to kill God at the same time. Once Lu Yang dared to hit him, the neighboring runaway city and sword Yangcheng will definitely give its full support.

On the upper and lower sides of Hannibal City, Beifeng City and Lakeside City will send troops to attack Hannibal City, making Lu Yang's first place impossible to take into account.

Lu Yang has every reason to believe that if Liu Jie was not fighting the Emerald City and Ma Lizhe was playing a dominance, Liu Jie and Ma Lizhe were worried that 13 of the three main cities of Lu Yang would be backed by Lakeside City and Tiewang City. Divided with Jianyang City, they have already acted.

Xia Yuwei and White Lion also discovered this problem. When Mai Lizhe and Liu Jie decided to cooperate, the threat to the Jagged Brothers was too great.

Another one, the two main cities of Tianyao, Tauren, and Beasts in the southeast are getting worse. If Lu Yang waits, he will definitely lose. Fortunately, his troops are finally formed. He bet this The bet was right.

“In this decisive battle, I will play a real battle. Tu Feng will help me to contact the guilds and studios of the Holy City and the Sea Emperor City. I want to talk to their boss.” Lu Yang said.

When Xia Yuwei and the White Lion saw Lu Yang’s words, they couldn’t help taking a breath, and everyone’s blood was boiling.

By far, the biggest battle of the Brotherhood of the Iron Blood has only invited the affiliated guild of a main city in Hannibal. In fact, the affiliated guilds owned by the Brotherhood of the Iron in the Holy City and the Sea Emperor City, than Hannibal. The city is much stronger.

The total number of these guilds is about 100,000. Each affiliated guild has repeatedly investigated Tu Feng and determined that the bosses of these guilds have no intention of dominating the looting fortresses.

After more than a year of development, these guilds fulfilled their promise to Lu Yang. They did not increase the size of their personnel, but only gathered together to improve their ranks and equipment.

Lu Yang also fulfilled his promise, sheltering them, protecting them from bullying in the holy city, and allowing them to enjoy the conditions of 30% discount on entering all fortresses of the Iron Brotherhood. Now, Lu Yang wants them to fulfill the second promise of the original contract. Already.

Tu Feng said excitedly, “I’ll go to them.”

City of St. Gall.

The boss of the Purple Cloud Wing Guild is drinking wine with his guild players in the field leisurely. He has reached level 60. The main players around him have also reached level 60. He upgrades at the fortresses around St. Gall. He does not need There is no worry, no one guild or any studio dares to kill him.

If there is, then it must be the enemy. If he can’t fight, as long as he finds Tu Feng, Tu Feng will immediately send someone to kill the opponent.

“What is hegemony for? He just upgrades, plays games, and fights. Participating in such activities often results in a lot of crimes, and we earn a lot of money like us. I really don’t understand those people.”
Yinhua said lazily.

Vice President Ximen Blizzard said: “Recalling last year, it was really unthinkable. Black blood, bloodthirsty, old man, eternal spirit, a small city of St. Gall, gathered so many super guilds.”

Yinhua entered the wine and said, “It’s not the case. In the end, Lu Yang was destroyed. Now the bloodthirsty domineering and the spirit are eternally completely out of power. The title of vice chairman has been cancelled, and he has become an ordinary player. There is only one black blood. He can only be a staff officer with no right in Wang Teng. “

Ximen sighed with snow and said, “With the pride of bloodthirsty domineering, we can’t be mad.”

Yinhua entered the wine and said: “I heard that it was annoying to take people to Wang Teng’s company to cause trouble. As a result, Wang Teng’s people were beaten. They are still hospitalized.”

Simon Blizzard said in surprise: “Wang Teng dare to hit someone?”

Yinhua entered the wine and said, “Why do n’t you dare, Liu Jie is a family business, an international consortium, and a bloodthirsty bully dare to go to Liu Jie to make trouble. Wang Teng did n’t send him to prison, but he just sent her to the hospital. You’re welcome.”

Simon blows snow and shakes his head in sigh.

Yinhua entered the wine and said, “Not only did he go to the hospital, but also the elderly Elderly. The elderly Elderly Man who passed the madness a while ago and suffered a sudden cerebral hemorrhage because of his military defeat. Although he was exaggerated, he was admitted to the hospital. It’s also in the hospital of Modu. I don’t know if the two will meet. “

Simon snorted and said, “If you run into it, you might talk.”

Yinhua entered the wine and said, "After all, don't oppose Lu Yang, otherwise these people will not end up in this end."

The voice just fell.

Tu Feng called ~ www.mtlnovel.com ~ and asked, "Boss Yinhua, what are you doing?"

Yinhua got into the wine, and the cold sweat almost came down, and he quickly looked around, and found that there was no eavesdropping around him. Ximen Fuxue, the vice chairman of the side, was his classmate and an investor of the guild. He breathed out and said, "Boss Tu Feng, you scared me to death. I am lamenting that the Brotherhood of Iron Blood is strong."

Tu Feng laughed and said, "I'm idle. I'll send someone to monitor you. I can't rectify the internal affairs, monitor Wang Teng, and Liu Jie. They can't be too busy. I'm spending money to monitor you."

Yinhua entered the wine with a smile and said, "I'll just say, I'm comfortable in this little life, how can I make you worry about it?"

Tu Feng, the second-ranked leader of the Brotherhood of the Iron Blood Brothers, although he has no shares in the Brotherhood of Iron Blood, everyone knows that no matter whether it is muddy wine pouring, Xia Yuwei, Blue Feather, or Baixi Sanxiong, there is no power of Tu Feng. .

Tu Feng is in charge of all the properties of Landing Brothers in the Iron Brotherhood. Internally, he is responsible for the equipment, jewels, and enchantments of the guild players. Externally, he is responsible for monitoring the internal conditions of the main cities and guilds, integrating internal affairs and intelligence. Of terror exists.

Everyone knows one thing. They would rather offend Lu Yang and Zhuo Jiu than offend Tu Feng, because this person said that if there is a problem, the Jagged Brothers Alliance would destroy them.

All the guilds and studios that have made good alliances with the Jagged Brothers are more nervous when facing Tu Feng than when facing Lu Yang and White Lion.

Tu Feng also knows this. This is the power that his position brings to him. He used to want everyone to be in awe of him. Unfortunately, no matter what he does, others dare not call him brothers and brothers. Later, he also adapted. Already.

Tu Feng said, "This time I'm still trying to make a snack for you."

Yinhua hurriedly asked: "Boss, you talk, what do you need me to do? Just say whatever I can."

Tu Feng said, "Chairman Lu Yang is preparing to use foreign troops to gather all the troops you can assemble, and he will fight with us tomorrow afternoon."

Yinhua said in surprise, "I have this qualification?"

Tu Feng said with a smile: "Not only you, all affiliated guilds will participate in this war. We will win the Iron King City in the First World War and tell me if you can join the war."

Yinhua entered the wine and said: "Yes, no problem, I will gather troops here, and the number of participants will be guaranteed to be more than 50,000."

Tu Feng said: "Very well, I will inform you in a meeting. President Lu Yang told you personally, brother, I take you as a friend. Since you are willing to help, I will tell you the truth, you will get The benefits far outweigh the cost of your participation in the war. "

Yinhua sighed into the wine blankly, he didn't know what benefit Lu Yang could give him such a 100,000 guild.

Tu Feng closed the intercom and continued to contact the next one.

An hour later, Tu Feng contacted more than 30 chairpersons and bosses of more than 150 studios. After confirming that everyone had no problems, Tu Feng said to Lu Yang: "All the participants in the meeting have entered a special space. Can start. "

Lu Yang completed the last gem in his hand and said to Tu Feng: "This is 170,000 level 10 prismatic gems, and you send someone to inlay them into the 10,000 sets of clotting equipment and mysterious tower parts."

"Okay," Tu Feng said.

Lu Yang clicks into a special space.

The chairman of the 180-plus group and the boss of the studio were sitting in the conference room below. Everyone was talking to each other. It was crazy to see so many people coming together.

"Iron Brotherhood has so many affiliated guilds and studios!" Mr. Yue Ban said excitedly.

"A lot of them are celebrities, the top studios in the Holy City." Xinghun said.

"Isn't that the president of Yinhua Ruojiu, I heard that the old guild was about to dissolve. After Lu Yang helped him, his guild became stronger and stronger, he made more and more money and looked alive enough to moisturize." Broken Sky said.

"President Lu Yang was really angry this time, who made him like this?" Yinhua asked after drinking.

"Can anyone else, you didn't pay attention to the forum, these days the sword killing God scolded Lu Yang on the forum every day, annoy him, look at it, I guess absolutely right." Blackwing Angel said, he is the president of Shuipo Liangshan Guild.

...

On the podium in the conference room, a light flashed and Lu Yang appeared.

“Well, President Lu Yang is here.” There was a commotion at the scene, and soon, everyone shut up and looked at Lu Yang.

Lu Yang looked at the people around him, everyone knew him, and said with a smile: “I believe Tu Feng has made clear to everyone the purpose of this meeting.”

Everyone nodded.

Lu Yang said: “I believe you don’t want the guilds of Liu Jie, Li Xiuyu and Mai Lizhe to rob your territory, right?”

Everyone present was a vested interest. Under Lu Yang’s protection, he had no trouble upgrading, playing equipment and selling money.

Lu Yang said: “Since the game started, I have been fighting with them, and they have always wanted to destroy me. Fortunately, every time we insist, you must be curious, why have I occupied Hanni Bacheng is no longer open to the outside world and rarely takes the initiative to fight. “

Xinghun said: “Yes, boss Lu Yang, Wang Teng has such a big hatred with you. It stands to reason that you should go and destroy him, why keep him?”

Lu Yang said, “I think so, but Hannibal City is so special. It has Beifeng City on the top, Benliu City on the northeast, Iron King City on the east, and Lakeside City on the bottom. If there are 5 main cities around this city, I dare not move. “

“When I first laid down Hannibal, Ma Lizhe took all the bosses of the four main cities with Wang Teng and Li Xiuyu to negotiate with me in the hotel in Hannibal. If I dare to attack any of the surrounding main cities And they will hit me together. “

Xing Hun and Yin Hua Ru Jiu did not know that there was such a thing, and nodded one after another to understand the reason.

Lu Yang said, "It was because of that negotiation that I knew the idea of these bastards. Since Ma Lizhe wants to protect Wang Teng and Li Xiuyu, and let them come to me after a higher level, I can only work hard to bring I started to upgrade and upgrade equipment, and that's what I endure today. "

Yinhua raised her eyebrows and asked, "Boss Lu Yang, do you feel strong enough to fight so many siege?"

Lu Yang said: "Yes, now they are fighting head-on. Their five main cities cannot fight me together, but I am worried that when I attack the Black Iron Fortress tomorrow, Beifeng City and Lakeside City will not directly support sword killing. God, but attacking my fortress in Hannibal City up and down together, so I want to ask you to borrow soldiers. I do n't know how many of you can join me in the war. "

Broken Sky first jumped up and said, "Chairman Lu Yang, all members of my Broken Sky Studio are involved, who do you want me to hit, who do I hit."

Everyone laughed ~ www.mtlnovel.com ~ Xinghun said: "Breaker, you are so anxious."

Broken Sky laughed and said, "I have been with President Landing Yang in my life, and I am firm and will never waver."

Everyone was a little embarrassed. I didn't know which drama Skybreak was singing, but they were embarrassed, and some people were as good as Skybreaker, for example, Mr. Yueban.

"Boss Lu Yang, 100,000 members of my guild participated in the war. I already mobilized with my brothers, and I knew you were going to fight." Mr. Yue Ban said.

There was a president who had a good relationship with Mr. Yueban secretly sent a message asking, "Did your boy know any news in advance, please tell us soon."

Mr. Yueban pretended to be invisible, and his expression of allegiance to Lu Yang made people speechless to the extreme.

“Is this kid asked by President Lu Yang?”

“No matter what, I have been helping President Lu Yang. What do I want to do so much?”

Chapter 711 - Visit the Emerald City

“That’s right, Lu Yang fell, and the first unlucky person was us.”

“Isn’t it? I have enjoyed it with President Landing Yang for so long. If we let Wang Teng come in, and we want to surrender, Wang Teng will not. His affiliated guilds will definitely take away our existing benefits.”

“Yes, help Lu Yang.”

“Help Lu Yang.”

“I can also produce 100,000 people.”

...

Everyone expressed their full support.

Lu Yang signaled the crowds to be quiet and said: “Since there are no problems, the guilds and studios of the Holy City and the Sea Emperor City will start at 8 am tomorrow and arrive at Hannibal City at about 2 pm. We will rest a bit and we will start , Who has the problem. “

Everyone shook their heads. “Second World” has replaced the existing world. The virus crisis outside has not been lifted. Schools are not allowed to go. Everyone stays at home. Work is also performed in

games. The number of players is unprecedented. Every day, almost all players who are online within the guild are online. Wanting to gather is just a sentence.

Lu Yang said: "This time everyone will participate in the war, I will not let everyone in vain."

He sent the production drawings of the mysterious tower parts and the blood elven island parts to the special channel's chat channel.

"Slump." Yinhua jumped into the wine, looked at the drawing and said, "Boss Lu Yang, you have such a treasure."

The sun-flame robes, the beheader's axe, and the salas bow, every outstanding gold-level equipment watched their heads humming.

Lu Yang said: "I can't give you the drawings, but if you come with the materials, I only charge your handwork costs, 50,000 pieces for each guild and 10,000 pieces for each studio. Is it for sale or for your own use, you said Well, when I get rich, I will take you all. "

Everyone present, such as Yinhua Ruojiu and Leng Ya, took a deep breath. What a great fortune, no wonder Mr. Yueban and Jiantian expressed their anxious attitude to Lu Yang. They secretly rejoiced that they were willing to go all out. Help, otherwise, it is a miss of a fortune.

"Boss Luyang rest assured that we will all be here tomorrow. You said who to beat, we will go all out to kill the sword and kill God and Wang Teng's bastards." Leng Ya shouted.

All the bosses on the field were infected by the passion of Leng Ya, and they all stood up and roared.

Lu Yang and others calmed down a bit and said, "Okay, I'll wait for your news. Let's call the team."

The crowd nodded, and returned to the guild with great interest to convene the players.

Lu Yang exited the special space and just saw Tu Feng.

Tu Feng asked, "How many people can come when we finish driving so fast?"

Lu Yang said, "I don't know. It will be effective tomorrow."

Tu Feng said with a smile: "It is estimated that 3 million people will come. With so much equipment and money, they must not die."

Lu Yang said, "Well, money can make ghosts grind."

The two looked at each other and smiled, Lu Yang said, "Finally, check the situation in the major cities. You are in charge of the overall situation."

Tu Feng said, "Rest assured, after all, you are the host, and I have to find you if something happens."

Lu Yang smiled silently, walked out of the guild, replaced the Red Flame Lion King, and ran all the way to the teleportation array.

All players on the road saw the burning flames of the Red Lion King and Lu Yang all giving way. Everyone in the national service knew that if there was such a leader, it was only the boss of the Iron Brotherhood.

"The chairman of the Brotherhood of the Iron Blood actually appeared in the Holy City Teleportation, and something big is about to happen."

"No, just a simple teleport."

"Silly boy, a president like Lu Yang, you've seen him so swaggering a few times, there must be a problem." A player selling things around the teleportation team said to the people around him.

He was right, Lu Yang was so swaggered this time, intentionally, he flew straight to the Emerald City through the teleportation array.

Just after landing, as in the case of the holy city, everyone looked at Lu Yang riding on the lion king in shock.

A nearby player stunned and said, "Lu Yang, how did Lu Yang of the Iron Brotherhood appear in the Emerald City."

"Report to the boss, something may be wrong."

Not only one person reports, many players immediately report to their guild boss, or send information to the guild channel, and some people directly send screenshots to the forum.

Lu Yang rode the Red Flame Lion just out of the distance of less than 100 meters from the teleportation array. An elf player walked over. He was wearing a copy of the nightmare-level Blood Demon Temple at level 60, soft blood language armor. In the sheath is the twin thorns of the young dragon's fangs, which makes Lu Yang look interested. At present, those who have such equipment and weapons must be important members of the super guild.

The Elf player said with a confident smile, and arched his hand to Lu Yang: "Are you Lu Yang, the chairman of the Iron Brotherhood?"

Lu Yang nodded and said, "Who are you?"

The elf player's eyes brightened and he said, "I am Ye Nantian, the vice president of the Emerald City and the Eternal Brilliant Guild."

The Eternal Splendid Guild is the guild occupying the four fortresses of the Emerald City, and it is also the guild that Lu Yang wants to find this time.

Lu Yang jumped out of the Red Flame Lion King and went to Ye Nantian and said, "I guess you will come to me, and I came here this time."

Ye Nantian's eyes lighted up and he said, "Hey, my brother guessed that he was right. If you don't come again, my brother is going to find you."

Lu Yang laughed and said, "It seems my concentration is not as good as Liang Yun."

Ye Nantian shook his head and said, "President Lu Yang is too modest. My elder brother wanted to find you three days ago. Liu Jie suddenly stepped up the offensive ~ www.mtlnovel.com ~ My elder brother has not slept well in the past few days. That's why I didn't go to you. "

Lu Yang never contested this kind of length. He was curious to ask why. Ye Nantian was very sincere and explained the details. The two went to a place called Qing Ya Ge while chatting.

On the third floor, at the door of the private room, Ye Nantian made a please gesture and said, "My brother Liang Yun is inside, please come in."

"Should I come to greet you." The door opened, Liang Yun strode to Lu Yang, and said with a smile: "Chairman Lu Yang, I have longed for you for a long time, and finally met today. Now. "

Liang Yun, president of the eternal and glorious guild, is the grandson of a consortium in reality. He is about 28 years old and has a strong family.

These materials are recognized by everyone in the previous life, but this person has a disadvantage. He likes to fight in person when he fights, just like Lu Yang.

Lu Yang also admired Liang Yun very much. In the previous life, he ruled the entire Elves and resisted the court with Liu Jie.

Chapter 712 - Alliance forever

He and Liang Yun greeted each other. The two sat in the private room. Liang Yun said apologetically, "I wanted to have more brothers come with me to greet you, but this **** Liu Jie competed with me, and my men All seniors are fighting, I'm really sorry. "

Lu Yang didn't care about such things and said, "I'm here to ask you if I need any help here?"

Liang Yun asked: "The biggest pressure on my side is that the other main city behind me is now defensively vacant. I am worried that there will be other people assisting Liu Jie to hit me. Everything else is nothing. Liu Jie attacked me. At the loss of soldiers, my fortress defense is very high. "

Lu Yang said: "I don't hide you either. Tomorrow I'm going to launch an attack on the Iron King City of the human race. The troops of Beifeng City and Benliu City will definitely be contained by me, and I have the ability to lay down before 8 o'clock tomorrow night. Black Iron Fortress. At that time, when Liu Jie heard of the news, his morale would be low. You can fight back and drive Liu Jie's troops out. "

Liang Yun asked with interest: "Brother Lu Yang, are you so confident?"

At present, the strengths of the major guilds are basically the same, because everyone's levels are basically the same, and the equipment is basically the same. No one is much higher than anyone. In terms of top equipment, Liang Yun confesses to surpass other super guilds, but he dares not He said that attacking a fortress of a super guild fell in one day.

Lu Yang smiled, looked at the equipment on Ye Nantian, and said, "If I tell you I have a 100,000 troops, all the equipment is of Ye Nantian's level, what do you think of my strength."

Liang Yun shook her hand holding the wine glass and said in shock: "Are you sure you are talking about Ye Nantian's equipment?"

Ye Nantian was stunned and said, "How is this possible? It took our entire guild and several studios to work together. You have 100,000 people with this equipment."

Lu Yang nodded and said, "It's nothing more than a clotting suit, a blood mist suit, and an immortal soul suit. I even hit the legendary two-handed short-sword hated oath sword and lijian sword that the lord queen dropped."

Ye Nantian and Liang Yun looked at each other, took a deep breath, and were able to speak the sword of hatred and Lijian, obviously Lu Yang really opened the blood demon temple.

Liang Yun said excitedly: "Brother, I asked a question that shouldn't be asked, how can you do that, your strength can crush all the guilds of the three clan, if you want, you can directly penetrate the human race to the elven clan, and then fight Wearing Elves to Orcs, even if all the guilds come together, you can't withstand a charge of your 100,000 people, you did. "

Lu Yang said: "I found a game bug that can quickly improve the player level. When I win the battle on my side, I will tell you this secret."

Liang Yun said in surprise: "Tell me, are you really willing? What do you want me to exchange?"

Lu Yang said, "I don't want anything from you. I can't keep this secret for long. My 100,000 people have been upgraded this way. I believe they will not take the initiative to tell this secret, but who will drink more? Now, or let's talk, this secret has also been leaked. I am willing to tell you that I want you to help me restrain Liu Jie. I am dead to him and I must destroy him. "

Liang Yun can feel sincere from Lu Yang's words, and can also feel Lu Yang's deep hatred for Liu Jie.

"You and him have enmity in reality?" Liang Yun asked.

Lu Yang nodded and said: "Very deep hatred. I and he are endless. I will tell you these today. I have another meaning. I have no interest in tying the entire national service and I don't have that ability.

I believe that the boss of Liangyun can feel it, occupying more than two main cities, it is difficult to manage, 8 forts, each main city has millions or even tens of millions, so many The guild, all the fortresses occupying the three main cities are even more exhausted. I occupy four, and I can no longer afford it. "

Liang Yun nodded and said, "Yes, we have limited resources and can only help a very small number of players. Only these people are willing to follow us. When we started, you relied on players from the Holy City. The hatred of bloodthirsty bully, I started with money in my hands.

At the beginning, we were able to reach a large number of people. Among these people, we could give some of them money, but for more people, we gave paintings, let them compete and try to win These money, however, all the positions of the head of the army, the head of the group, the captain, and other payrolls have been settled, and other powerful people have left, and we can't keep them. "

Lu Yang said, "Brother Liangyun, you have come up with ideas. I don't have the ability to retain more elites now. To put it bluntly, the salary of an elite must be at least 15,000. We have 100 elites in one month. It will cost 1.5 million. Counting the salaries of various management positions, our actual expenditures are tens of millions per month. Even if we do not make money, there are so many masters in the game, how many can we hire.

As long as other guilds are willing to spend money, these waiting elites can be quickly pulled away, and those who want to dig people will give 3000 yuan more, which is 36,000 a year. These elites are not our own brothers, who Don't go. "

Liang Yun sighed and said, "It's so cool ~ www.mtlnovel.com ~ It's so nice to chat with you. In this case, I can talk to you, I can't understand with other people, you do n't know because These broken things in the guild bothered me. "

Lu Yang laughed and said, "So, finally, each of us can control five or six main cities, which is already the sky. No matter how much, once the war in the outside world, the guilds of these internal main cities suddenly broke out. We It's easy to crash. "

Liang Yun nodded and said, "Yes, I originally wanted to control only five forts, at least two of which were under protection like your holy city and emperor city."

Lu Yang said: "This is the best strategy. Another one, it won't be long before the global war will come. At that time, we will face players from all countries in the world. If I say that I have occupied the 16 main cities of the human race, However, how many people can I actually send to participate in the war? Do you believe that I can find ten million people to fight with me? "

Liang Yun laughed and said, "This may be possible, but at least 5 to 6 million of your troops are affiliated guilds."

Ye Nantian said: "But the affiliated guild's combat effectiveness is not commended."

Chapter 713 - Visit the old man

Lu Yang said: "Huaxia has always been a country with a large population and small surrounding countries. When the global war was opened, it was bound to fight with us. I don't want to be the sinner in the future, so I will tell you this secret. You can restrict Liu Jie, it can develop in the future. When the all-out war comes, we will fight foreign servers together. "

Liang Yun said: "I believe what you said, well, since your brother Lu Yang is generous, I am not a stingy person, you and I are allied, and I will fully cooperate with your actions."

Lu Yang stood up and said, "That's the case. Tomorrow you wait for my news and gather the main force. I will kill the sword and kill the gods in a war. You will fight back Liu Jie."

Liang Yun said, "It's all about one word."

"I still have something to do first. Let's get together when we win the day." Lu Yang smiled, took out the city roll, and flew back to St. Gall.

Liang Yun Gongshou said, "Wait for you."

Ten seconds later, Lu Yang disappeared in situ, Ye Nantian said, "This Lu Yang is too strong, I can't think of it."

Liang Yun said: "We all look down on him, look at it. If he really has 100,000 people like this, it's like 100,000 wolves entered the sheepfold, and the sword is over."

Ye Nantian nodded.

The light flashed.

Lu Yang returned to the city of St. Gall. Instead of returning to the guild to rest, he came to the teleportation array and flew to Victoria, the capital of freedom.

This is now the fortress where the old man and the tyrant dominate the world. The old man has three fortresses, and the old man has one left.

At the beginning, thanks to the old man who had lost a fortress, the old man and the hegemon agreed to exchange a fortress, so that the old man could help him to resist, and he had a back ground.

Just after Lu Yang riding the Red Flame Lion King out of the teleportation array, a familiar player came to Lu Yang.

“President Lu Yang, you are finally here.” Lie Qingfeng said with a sigh.

Lu Yang looked at the strong breeze and sighed, and said, “Sorry brother, it’s late.”

“It’s not the place to talk, let’s talk elsewhere.”

Lu Yang nodded, and came to a hotel with the strong breeze. Halfway along, Luo Siyu and several guild executives rushed over, and several people entered the hotel’s private room together.

Just when he was seated, the spirits refreshed and said, “Chairman Lu Yang, are you here for a special trip?”

Lu Yang nodded and said, “I want to see what’s going on with you. Is there anything I can do to help you?”

Liquor Qingfeng smiled helplessly and said, “I can’t help, it’s too far away.”

Luo Siyu also smiled bitterly, saying, “I thought that we could develop in such a remote place, but we didn’t think we were too naive.”

At that time, the old man at the twilight led the guild elite out of St. Gall and flew to the city of Sunlight. Everyone thought that the old man's strength guild could develop rapidly, and even soon surpassed Lu Yang to the level of Liu Jie.

It is a pity that when the twilight old man arrived at the border, his temper changed greatly, and the internal management of the guild became increasingly strict, especially for the guild elderly.

In the face of the newly-entered masters, the old man greeted him with a smile, anxious to confess the other person, and treat the old man who came with him without any patience.

Many people withdrew from the guild due to the late mood and anger of the Los Angeles rain and strong breeze, and the new entrants competed for power with the elderly, and the entire guild was chaotic.

The old man in the twilight did not see these problems. Instead, he thought it was normal competition. Those who could not compete were eliminated, and those who were eliminated should quit the guild.

Liquor Qingfeng said: "Although I shouldn't blame the boss, but the guild is today, he even fired the hidden knife. I really have nothing to say."

The Hidden Knife was the first veteran who followed the old man to create the guild. At a glance, the age and the old man entered the game to play this game. For the investment of the guild, the Hidden Knife also invested a lot.

Lu Yang said in surprise: "What did you think late?"

Liquor Qingfeng shook his head and said, "I don't know. When I went to the boss to talk about it, the boss scolded me."

Luo Siyu said: "Now all the senior members of the guild are here. Those who joined later saw the old man fail and ran away."

Lu Yang was puzzled.

Liquor Qingfeng said: "Late's son is unwilling to continue playing the game. He has suspended everyone's salary. The guild is waiting to be sold or disbanded. We did n't leave to try our best, no matter the boss. What does his son think, the boss was good to us at the beginning, we can't let the boss lose a penny. "

Lu Yang said, "Where is the hospital in the twilight, I'll go and see him."

Liquor Qingfeng said, "Don't go to a private hospital in Modu. I'm afraid he's too excited to see you, and his son has a lot of resentment against you."

Lu Yang shook his head and said, "No matter what his son thinks, I should still check it out, so you send me the address, and I'll go by plane tonight."

"So urgent?" Liquor Qingfeng asked.

Lu Yang said: "Tomorrow I will go to war against Iron King City, I will have to fly back tomorrow morning."

Liquor Qingfeng said, "Let 's go with you. The main force of Meredith is fighting against the hegemon. We are quite stable here."

The hegemony sent all the main forces to fight with Merri's troops at the gates between the Liberty City and Nikko City. For the time being, Merije could not reach their fortress.

Luo Siyu said, "I'll go with you, too."

Lu Yang said, "Thank you, then I will leave tonight."

Liquor breeze informed Lu Yang of the old man's hospital, and Lu Yang, Xia Yuwei, and White Lion explained the situation. He rushed to the airport and flew to Modu that night.

At four in the morning the next day.

After the plane landed, I slept in the car for one night, and when I woke up ~ www.mtlnovel.com ~ has arrived at the gate of the hospital.

A young man and a beautiful girl are standing at the door of the hospital.

Lu Yang just got out of the car and the two walked up quickly. The man beckoned and said, "Boss Lu Yang, I'm a strong breeze."

The girl smiled and said, "I am Roth Rain."

Lu Yang said with a smile: "I can't think of you two being long, one handsome and one pretty."

Luo Siyu rolled her eyes and said, "Sister, I'm already beautiful."

Lu Yang laughed and talked briefly with the two. Luo Siyu said: "The eldest brother's son has just arrived. Would you like to wait for a while?"

Lu Yang asked: "Are you waking up late?"

"Wake up, just do not eat or sleep, listen to the nurse said, I did not sleep last night, I have been asking for smoking, but the nurse gave me an e-cigarette, the old man did not stop all night." Lie Qingfeng said.

Chapter 714 - Hero twilight

Lu Yang sighed, and his heart was a bit guilty for the old man. Even though "Second World" is not only a game, but a war, the old man who helped him was not small, but he forced the old man to leave. It was a last resort, but it really hit the old man hard.

"I went in to see, if his son wanted to hit me, I would recognize it." Lu Yang said.

Liquor Qingfeng and Luo Siyu saw Lu Yang say so, and the two resentment against Lu Yang had disappeared.

"I'll accompany you in. His son treats me better." Liquor Qingfeng said.

"I'll go in, too," Luo Siyu said.

Lu Yang nodded, and as they entered the hospital together.

This is a private hospital. The security guard at the entrance stopped Lu Yang and asked, "This is a private hospital. Who are you?"

Lu Yang said apologetically, "I'm a friend of the old man, and I heard that he was ill and wanted to see him."

The security man shook his head and said, "No, if you want to go in, you must ask your family's permission."

Where can the spirits and breeze dare to let the old man's son and Lu Yang talk on the phone, knowing that they must not agree, and said quickly: "Don't you know either of us, the friends we brought in can harm my boss?"

The security knew the two and said, "You two can go in, but he can't ..."

The last word didn't wait to say, the security guard frowned and looked at Lu Yang, his face gradually became surprised, and said, "You are Lu Yang, you are Lu Yang, right?"

Lu Yang didn't expect the security to know himself, saying, "It's me. I came here to see the old man."

The security guard said, "I said that you called Grandpa Ling instead of calling his name but old man, and I was so glad to see you. I would rather not do this job. You can go in and I will carry it for you."

Lu Yang patted his shoulder and said, "Do you also play the Second World?"

The security guard said, "Play, even in Terran."

Lu Yang said: "You go to the headquarters of the Brotherhood of the Iron Blood Brotherhood in St. Gall and tell Tu Feng that I asked you to find him. He will pay you. Don't be kind to me. If you lose your job because of me, I must get you the same pay. "

The security guard did not expect that Lu Yang was so interesting, and said again and again, "Thank you, Boss Luyang, thank you."

Lu Yang patted his shoulder with a smile, walked into the hospital with spirits Qingfeng and Luo Siyu, and came to the third floor. The door of a special care ward in the middle on the left is open. He heard the inside Conversation.

"Dad, just have a bite, don't be angry."

"Isn't it Melissa? I will never let him go. I know what business his family does. I want to fight a trade war with him. You wait, I will take revenge on you, you just take a bite. Right. "

Lu Yang looked to the door, and found that the old man was sitting and sitting at the door. A middle-aged man was holding a bowl of porridge and worried to persuade the old man. Unfortunately, the old man didn't say a word or even looked at him. He took the e-cigarette and drank it one by one, staring out the window with empty eyes. Obviously, he was thinking about things in his heart, and he didn't hear what his son said.

The middle-aged man carried it for a long time, and his dad didn't look at him. He put the bowl beside the bed in depression, and said to the nurse next to him, "You first advise my dad for a while, I will go out and think of a way."

"Good Master Ling." Said the nurse.

Lexus stepped out of the door angrily, and just took off his jacket to prepare for breathability. He saw strong breeze and Roth rain. His eyes were very unfriendly and swept across the two. For his father's illness, Ling Zhitian thought that Jiu Qingfeng and Luo Siyu bear great responsibility.

The two were hired by his dad to help establish the guild. However, the guild was actually beaten like this, and the two of them even had faces. This made Ling Zhitian think that the two came for money.

"I said, I won't pay your wages anymore, what are you doing here, you have been fired." Leo Zhitian angered.

Luo Siyu had an angry look on his pretty face, but he held back and didn't speak.

Liquor Qingfeng grabbed her hand gently and said sorry to Ling Zhitian: "We are not here for money today, Master Ling, you have to believe us, we just care about the physical condition of the boss."

Ling Zhitian said with a smile: "Just as you two still care about my dad, what are you doing?"

Liquor Qingfeng said: "The old man was very kind to us before. Isn't it ingratitude for us to turn around and leave now, we are not that kind of person."

"I thank you both," said Ling Zhitian. "Let's go now. It's enough for my dad to have me here. Don't bother you."

Luo Siyu couldn't help it. The strong breeze drove La Luosi Yu again, and signaled that her father was in it.

Liquor Qingfeng said: “Master Ling, no matter how you think about us, we both recognize that we are here today for other reasons.”

Lexus sneered and said, “Let’s go, it’s for money.”

Luo Siyu was furious and pointed at Ling Zhitian and said, “Why do you look at people with low eyes? Do I lack that money? It seems that I can’t live without your money.”

Lexus was scolded and choked.

Luo Siyu said excitedly: “The purpose of our two visits today is because of the person around me. He is Lu Yang. I heard that the old man was ill and came to see me.”

Ling Zhitian turned to look at Lu Yang, nodded clearly, and said, “I’m looking for your grandson, you’re here.”

Ling Zhitian kicked to Lu Yang.

“噤”

Lu Yang was stunned and fell to the ground. Lexus rushed up and continued to slap. Liquor breeze and Luo Siyu quickly grabbed Lexus.

“Master Ling ~ www.mtlnovel.com ~ Don’t be impulsive,” said Liquor Qingfeng.

“Why are you like this?” Luo Siyu said.

Neither of them thought of Ling Zhitian’s sudden upsurge directly at Lu Yang.

Just when Lu Yang saw Lexus, he knew he was going to be beaten. Sure enough, he took a breath to cover his stomach and watched Ling Zhitian, who was dragged by the spirits and a group of nurses, but still rushed over. Said: "If you hit me, I confessed today, it's as if I had repaid the old man, you hit it."

Ling Zhitian didn't expect that Lu Yang dare to speak in such a straightforward manner, and the fire was even greater, referring to Landing Yang and glaring and cursing: "I'll kill you today."

Liquor Qingfeng said: "Chairman Lu Yang, you go first, forget it today."

Lu Yang was about to speak. Suddenly, the old man at the twilight appeared at the door and said weakly, "Stop it."

Lexus looked back at the old man in surprise and said excitedly, "Dad, you have finally spoken, you can scare me to death."

Chapter 715 - Don't want to give in

Lu Yang looked at the breeze.

Liquor Qingfeng said: "The old man hasn't talked since he woke up, and has been in a daze."

The old man with twilight smiled and said, "Xiao Lie, you have worked hard."

Liquor Breeze quickly said, "Boss, you're fine."

The spirits breeze looked at Luo Siyu again and said, "It looks like I'm not too bad at being late. Someone came to see me eventually."

Luo Siyu smiled.

The old man at the twilight looked at Lu Yang at last and said, "I can't think of you as a kid. I happen to miss you and come with me."

Lexus said excitedly, "Dad, do you let him in?"

The old man in the twilight said, "You also came in. I failed. It has nothing to do with Lu Yang. I have thought about it a lot these days. I blame myself. My mother's love counts. This life is because of doing business utilitarian and calculating. Too strong, deserve my failure. "

Lexus said without a thought: "What does this have to do with your voice?"

The old man shook his head, turned and walked back to the ward.

Ling Zhitian reluctantly, looking at Lu Yang said, "Be careful when you talk to my boy, and then anger my dad, I will kill you."

Lu Yang knew that Ling Zhitian was angry for his father's illness. He didn't have general knowledge with him. He knew the Ling family's ability, but when he arrived, it meant that he was not afraid.

Entering into the room, the old man returned to the bed, picked up the porridge and drank two bites slowly. The hot porridge made him a lot more comfortable in the stomach, and sighed, "I'm starving to death."

Lu Yang laughed and said, "Father, you can scold someone to prove that you are all right."

Ling Zhitian glared at Lu Yang, and the old man in the twilight cursed first: "Nonsense, I'm okay, but I let the grandson of Li Lizhe get angry, stinky boy, what are you doing here?"

Lu Yang said, "I heard that you are ill. Why does it have something to do with me? I'll come and see you."

"Fart, what does it have to do with you, I'm in Sunshine City, and your kid is in St. Gall. There are three main cities separated by Lexus, you must not embarrass him, it has nothing to do with him."

Ling Zhitian didn't dare to talk back, but he didn't agree with it.

Lu Yang said: "You're out of breath, this afternoon I will fight against the sword killing god, I will defeat the sword killing **** in the first battle and let him get out of the game."

The old man in the twilight took a mobile phone near the hospital bed, and 3D projected the screen into the ward, saying, "No, your kid should now be caught by Beifeng City, Lakeside City, Benliu City, Tiewang City and Jianyang City. You hit one, you have to hit all five. Have you ever hit? "

Lu Yang said: "It turned out that it wouldn't work for nearly two months. I assembled a 100,000-strong 60-level unit, all of whom were equipped with 100 people's hidden gold equipment for nightmare difficulty."

The old man in twilight said in shock: "How many people?"

Lu Yang said: "100,000."

The old man in the twilight looked up and looked at the sky. He knew the equipment of the hundreds of people who had difficulty with nightmares. He had such equipment in the breeze breeze and Luo Siyu around him, but let alone 100,000 people. He even had 10 Individuals have scrapped the power of nine cattle and two tigers, but Lu Yang has formed a troop there.

"How is your kid doing well?" The old man asked.

Lu Yang said: "I don't hide from you, don't say anything if you are here. I found a copy of the 60-level nightmare difficulty bug, which can be infinitely blamed."

I attacked the wolves twice. I first got my men 40 and 50 gold equipment, and let them brush in such a copy. Then I took the copy with the best of my hands and played against it. The technique first got the top-notch excellent gold equipment, which in turn pushed the Blood Demon Temple. “

The old man in the twilight laughed and said, “It’s a terrible kid, it seems that the Iron King City can’t keep it.”

Lu Yang said: “It’s not only the Iron King City that they can’t keep, I’m going to hit the Red Moon City directly and tear down the four strongholds of Mai Lizhe to get revenge on you.”

The old man looked at Lu Yang fiercely and said, “Really?”

Lu Yang said, “When did I lie to you, wait and see if I avenge you.”

The old man in the twilight scolded, “Kill me to kill that turtle grandson. I was so angry that I was defeated by such a child. His men were still scolding me before the battle. After defeating me, he was still scolding me in the city and the whole server. Lao Tzu, when will I be so fed up. “

Lu Yang understood that the main reason for the late twilight of the elderly to be hospitalized was caused by Ma Lizhe’s mouth owe. It can be imagined that when the two sides played against each other, when Ma Lizhe was about to win, he must have no owe. To bury the aging elderly.

Late twilight is in her 60s, and she was angry enough to lose, and it made people yell at it like that.

Lu Yang said: “Relax, tell me who scolded you, I will kill him back to zero.”

The old man in the twilight shook his head and said, “It has nothing to do with others, it’s Mai Lizhe. If he knows something about the world, he won’t let his men scold me. If he doesn’t, will he dare scold me? Even if he scolded me, the idea was not his Yes, he can hardly blame him. “

Lu Yang nodded and said, “Okay, he doesn’t apologize to you, my 100,000 troops have been parked in Red Moon City forever, and I demolished his guild.”

With Lu Yang's current ability, he cannot occupy the four fortresses of Red Moon City. Beifeng City, Benliu City, Lakeside City, and Jianyang City have not been defeated. It is very difficult for him to occupy the Iron King City, let alone separate An enclave was fortified.

Lu Yang said, "Late twilight ~ www.mtlnovel.com ~ Get ill as soon as possible, and then return to the game, the spirits breeze and Roth rain are still there, your guild is not broken, you still have a comeback Opportunity."

The old man in the twilight shook his head and said, "What opportunities are there, I have more than 60. You asked me to develop again. I don't have that energy anymore. I can see that I don't participate in this hegemony."

Liquor Qingfeng and Luo Siyu both looked at each other in surprise.

Liquor Qingfeng said: "Boss, many brothers in the guild have not left, waiting for you to rise again."

Lu Yang said: "Late brother, believe me, you still have a chance to rise again, even if the guild is gone, hold on, my side defeated Mai Lizhe, you can restore your strength immediately."

The old man looked at Lu Yang and said, "Are you really willing to help me?"

Lu Yang said, "Of course, to be honest, without you, there would be no me now. If you and Xiongba had helped me to block the bloodthirsty domineering, I would not know where I am now . "

Chapter 716 - Tooth for tooth

The old man in the twilight looked at Lu Yang carefully and said, "Okay, you go first, Lexus, move over a big screen, I have to see Lu Yang kill Mai Lizhe with my own eyes."

Ling Zhitian understood the reason behind the twilight's faintness from the twilight words. He also knew that Lu Yang was not to blame, and his expression eased, and said, "Well, I'll move it for you and make sure you see it. Comfortable. "

Lu Yang said with a smile: "Then I will say goodbye."

The old man said, "Does anyone need my help?"

Lu Yang shook his head and said, "If you want to avenge yourself, come online in the afternoon, and you will form a scolding team. When I dismantle the four fortresses of Meilizhe, you will lead a team to scold him."

The old man in the twilight cursed with a smile and said, "Old man, I'm a Confucian businessman. What's the matter of scolding with a child? Get out of here."

Lu Yang smiled and said, "Then I'm gone, I still have to fly back to the plane, your father can't be sick anymore, I'm almost exhausted from this busy schedule, and I'll have to come in with you again Now. "

The old man twilight blinked and said, "You say this, I have something to tell you."

"What's the matter?" Lu Yang asked.

The old man in the twilight said with a smile: "Coincidentally, do you know that there is an acquaintance in this hospital?"

"Who." Lu Yang asked.

"The bloodthirsty domineering man." The old man in the twilight laughed and said, "The old boy was stunned by Wang Teng to the anger and caused trouble at Wang Teng's company. Wang Teng's security guard broke both legs and left arm A comminuted fracture, a fractured sternal bone, is being cured in the third ward on my left. I was so suffocated thanks to knowing that my grandson had been beaten in, otherwise I have to go crazy these days. "

Lu Yang: "..."

Breeze Breeze: "..."

Luo Siyu: "..."

Lu Yang sighed inwardly, and he avenged bloodthirsty tyrants II, but never saw what he looked like, and said, "I need to see."

Breeze Breeze: "..."

Luo Siyu: "..."

Luo Siyu said unbelievably, "President Lu Yang, you are so boring."

Lu Yang said with a smile: "Don't tell others, it's boring, but I can't help it."

Nurse in the room: "..."

Lu Yang walked out of the room with a smile and came to the third ward on the left. The door of the ward was not closed. He looked inquisitively. A body was wrapped in bandages, and his legs were covered with pillows. The pale, pained man was lying in bed.

He looks very dark. Even in this case, his expression is still fierce, and a person is helping him by his side.

A nurse from the hospital walked in and said, "Zhang Hong, it's time for the injection."

The man lying on the bed looked towards the door, and just saw Lu Yang, who also saw him.

Lu Yang's face with a sneer expression, even if the two generations are human, remembering the last life in the 200-level field, the sight of the bloodthirsty domineering and killing him 20 times is still vivid. At that time, he was the first to kill the Bloodthirsty Domineering, but he never developed a chance.

Bloodthirsty Batian also saw Lu Yang, and he glared at Landing Yang and said, "What are you doing here, look at my joke?"

Lu Yang walked into the ward and looked scornfully at Bloodthirsty Batian. "If I said I was going to kill you, believe it or not."

The bloodthirsty bully looked at Lu Yang's bloodthirsty expression with a panic expression and cursed: "I have been defeated by you, what do you want to do?"

Lu Yang put his left hand on the wooden guard in front of his bed, and said, "You don't understand, bloodthirsty, you know, there are some things that count for your life, thank Wang Teng."

“噫”

The cracking sound of the wooden shield echoed in the ward, and Bloodthirsty looked at the wooden shield pinched by Lu Yang in horror.

The spirits breeze and Luo Siyu both looked at it, and even the lively Lexus looked at it, saying, "It's a 5 cm shield, but it's made of mahogany. What is Lu Yang's strength."

Bloodthirsty Batian said in horror: "You, what are you doing?"

The nurse was also stunned and looked at Lu Yang and said, "Sir, what are you doing, so many people are watching? You are committing a crime if you kill someone."

Lu Yang smiled at the nurse and said, "Your things are too inferior. How could I have such a great deal of energy to cut it off? It was bad and it scared me. I'm gone. If I need to lose money, Find the Lexus at the door and let his father lose money. "

Ling Zhitian was speechless, but wanted to scold Lu Yang but did not dare to speak. He knew that Lu Yang was asking him to repay the cost of that kick, saying, "I lose money."

Liquor Qingfeng said, "Chairman Lu Yang, let's go. You do n't have enough time, and the plane is not good."

He's not stupid. How could such an expensive private hospital have such a shoddy thing? We can only say that Lu Yang's power is really quite horrible. He is a bloodthirsty tyrant who has a whole body fracture and has a half-destined state. One punch can kill the bloodthirsty bully.

Lu Yang threw the crushed guard plate onto the bed, and finally glanced at Bloodthirsty Batian and said, "Get out of this game forever and let me know that you enter this game again."

He snorted coldly and turned away, leaving only the Bloodthirsty Domineering who was trembling with trembling.

Out of the gate, Lu Yang exhaled and said, "Finally, I'm out of breath. I don't need to send me back."

Ling Zhitian walked to Lu Yang with a smile and said, "Let me take you to the airport."

Looking at Lu Yang, Ling Zhitian really wanted to ease the relationship with him, and said, "It will bother you, and I will also save on taxis."

Ling Zhitian said with a smile: "You are my dad's friend. If you come to see him, how can I get you a taxi back? Let's go. I'll send you two of you together. I'll send you to go together ~ www.mtlnovel.com ~ Liefeng Qingfeng and Luo Siyu looked at each other and saw the smile in each other's eyes.

Luo Siyu said, "No, we both drove here."

Liquor Qingfeng said: "Let's go back to gather our brothers, and we must avenge our boss."

Lexus nodded and said, "In this way, you two organized a group of people who were specifically cursing. My dad couldn't do this kind of thing. I can do it. I am at the same level with him, and he is the eldest son. I am also the granddaughter. He dare to call someone to scold my dad, I scold him. "

Lu Yang, Liquor Qingfeng and Luo Siyu all laughed at the true temperament of Lexus.

"Okay, let's go back and organize people, and we must scold him." Luo Siyu said.

"Beauty is doing things, and it really fits my appetite." Ling Zhitian smiled and pointed to Luo Siyu.

"Master, master, go and get busy." Luo Siyu said.

Chapter 717 - Since the war

Lexus laughed and asked the driver to drive to the door and ask the driver to take a taxi back to the company. He opened the door of the co-pilot for Lu Yang and said, "President Lu Yang, I will personally take you to the airport to get in the car."

Lu Yang felt that Lexus was looking for something with him, and he sat in the co-pilot. Lexus ran back to the driver's seat, and the two drove away.

While driving on the road, Ling Zhitian said to Lu Yang while driving: "Chairman Lu Yang, I'm older than you, and call your brother what to say."

Lu Yang said, "Of course."

Ling Zhitian laughed and gave Lu Yang a deliberate look. He said, "Brother, all right, I admire you for hitting such a big country with bare hands."

Lu Yang said: "Stop Ling, don't make fun of me."

Ling Zhitian said anxiously: "Forget it again, I'm calling your brother, you're calling my brother, it's all right. What's your relationship with my dad, and what are you doing so strangely to me? Get angry, I apologize to you, or you kick me and kill the fire. "

Lu Yang knew that Ling Zhitian was for this matter and said with a smile: "You should kick me, you shouldn't kick me, but I think it's unreasonable. After all, I'm also responsible for the hospitalization of the old man."

Ling Zhitian shook his head and said, "Don't blame you, blame me. I didn't know at the time. Today, my dad only talked to me. Before, I thought it was you guys who bullied him as an old man and annoyed him in hospital. It's Merritt's business. "

Lu Yang said, "Brother Ling, you may focus on the outside business. You don't pay too much attention to the things in the game. Now the national clothes have disrupted the business."

Ling Zhitian said: "Don't mention that the domestic business is too difficult to do now. My dad caught up with him at a good time. When he took over for me, the virus came down and our family's stock price fell sharply. Of people think I have a problem.

Don't say it in various ways, but I also want to grab the class and seize power. I'm all busy here, and suddenly I heard my dad had a brain hemorrhage because of playing game gas. Can you say I can't be angry? "

Lu Yang looked at Ling Zhitian's expression. When he said these words, he did not act artificially or hypocritically. He was very sincere. Originally, Lu Yang was not angry. The head of an international consortium like Ling Zhifei could talk to him. He repeatedly apologized, and he had no reason to be angry.

"We won't talk about this later, it's over." Lu Yang said.

Ling Zhitian looked at Lu Yang's eyes and confirmed that Lu Yang really didn't mind. He smiled and said, "It's worthy to be able to break out of such a river and mountains. My brother, Lei Zhitian, has settled. We will move around in the future. These days are busy. , You must come to Modu again. "

Lu Yang laughed and said, "I will definitely come back after playing Ma Lizhe."

"It's all a matter of words." Ling Zhitian said with a smile.

Ling Zhitian looks very rough and has a sense of chivalry. Lu Yang is willing to contact such people, and the two talk to the airport all the way.

Ling Zhitian kept sending Lu Yang to the boarding gate before leaving. Lu Yang looked at Ling Zhitian's back with some emotion. No wonder the old man's family can continue to be rich. Although Ling Zhitian had the breath of the second ancestor, he would apologize immediately for doing something wrong. This is really not what ordinary people do.

After getting on the plane, four hours later, Lu Yang returned to Donghai City, took a taxi to his home, and just came online. Tu Feng sent a message and said, "Come back?"

Lu Yang said, "I'm back. Log in in the room. How's it going?"

Tu Feng said, "If you come to Echo Fortress, you will know."

Lu Yang used the fort to return to the city and flew to the inner city of Echo Fortress. He just saw Tu Feng standing at the entrance of the teleportation array and waiting.

"Boss, go up the wall with me," Tu Feng said.

When Lu Yang was standing in the inner city, he could hear the noisy voices in the outer city, as if there were countless people talking. He just came to the city wall, and more than 180 presidents, including Mr. Tian, Mr. Yueban and Yinhua Ruojiu, and The boss of the studio was sitting and chatting on the city wall. When they saw Lu Yang coming, they stood up and recruited.

“Chairman Lu Yang, come over and see how many people we have.” Mr. Yue Ban excitedly ran to Lu Yang and pulled him to the wall.

Looking down at Lu Yang, players from major guilds and studios are clearly distributed throughout the outer city and outside the martial arts arena.

Lu Yang asked with a smile: “How many people are this?”

Tu Feng said: “A total of 3.35 million.”

Mr. Yueban said: “How about President Lu Yang, give us a hand.”

Lu Yang arched his hands at the crowd and said, “Thank you, boss, for enabling me to lead so many people to fight.”

Xinghun said: “Boss Luyang is polite. We are all glorious and all are damaged. To help you is to help ourselves. To help you fight is what we should do. You say, how to fight.

“Star Soul is right.”

“Helping you is helping us.”

...

Lu Yang and everyone had finished speaking, and said to Tu Feng around him, “What happened to my 10,000 anti-riding and shield corps?”

Tu Feng said: “All have risen to level 60. The anti-war wears a blood coagulation suit, the anti-riding wears a magic blood suit, a full set of 17 10-level prismatic gems and standard magic resistance enchantment. There can be no more people here I assigned them to the fortress of Hesse. “

Lu Yang pleaded guilty to the crowd and said, "Sorry, everyone, you are the whole team. I'll go to the Hessen Fortress."

"You are busy with you, we will go the whole team." Mr. Yue Ban said.

Lu Yang took out the fortress and returned to the city. He flew to the inner city of Hessen Fortress, walked to the outer city, and saw 10,000 anti-riding and shield battles chatting. Everyone's face was irresistibly excited.

The magic blood suit is an anti-riding defense suit and the soldier's coagulation suit, but with some additional intelligence.

This 10,000 anti-riding and shield battles have been upgraded from level 40 to level 60 ~
www.mtlnovel.com ~ It has been very exciting to be able to improve the level so quickly, and now there are a full set of dark gold-level equipment and ratios. Dark gold equipment is better and superior gold equipment, everyone is excitedly communicating.

"With this equipment, the whole group must say I am strong."

"Hey, what group, we will all be elite groups in the future, where can this equipment be available for ordinary groups."

"The boss treated us so well. This contract made a lot of money."

...

Xiao Liang, three sisters Han Ying and Mu Yu, who are in charge of this team, saw Lu Yang coming, and five of them came to Lu Yang together.

Xiao Liang said, "Boss, you are here."

Lu Yang asked with a smile: "How are these people, okay?"

Xiao Liang said: "It's easy to control, anti-riding and shield fighting, you don't know yet, it will always be the best temper in the team."

Chapter 718 - Prismatic Shield Armor

In a team, the worst temper is the head of the team, the second is the output, the third is the treatment, and the least tempered are shield battle and anti-riding.

Lu Yang said with a smile: "Then I gave you these people, how about it?"

"Me?" Xiao Liang said in surprise.

Lu Yang said, "Yes, I am going to let you command these 10,000 people."

Xiao Liang said unconsciously: "Boss, isn't this 10,000 shield battle and anti-riding going to be opened to various teams, what are you doing for me?"

Lu Yang laughed, and he knew that no one could understand his play. Also, when the play of the last life appeared, everyone felt that the person who created the play was crazy. This person changed five or six. The guild only found one who was willing to put it into practice. It wasn't until the time of practice that it knew how strong such a team was.

Lu Yang said: "This team will not be dismantled. I will give you an additional 20,000 people. These 20,000 people have 10,000 cures, 5000 legal output, 5000 shooters."

Xiao Liang blinked and asked, "Why use it."

Lu Yang opened the three-dimensional map and cast it on the ground, pointing at the Tianmen Pass above the Lanshan Fortress. "If I take the team to fight with swords and kill gods, Wang Teng of Beifeng City will surely exhaust all troops, at least 2 million people, I ask you to bring 10,000 shield wars and anti-riding, 20,000 healing and export troops, a total of 30,000 people will be at the Tianmen Pass, no one is allowed to pass through the pass, can it be done? "

Xiao Liang looked at the map of Tianmenguan. The name of Tianmenguan is because his narrowest place can only accommodate 100 people at the same time. The cliffs on both sides cannot climb to the top even with ropes, and the top of the mountain is even more. There are only sharp peaks, and there is not enough space for you to walk alone. From a distance, the terrain here is like the same door, so it is called the Tianmen.

"If I arrange the 10,000 people in 10 rows, blocking them in the narrowest part of Tianmenguan." Xiao Liang thought for a moment.

Mu Yu looked at the sky with his eyes wide, pointed his finger, and said, "Brother Xiao Liang, you can keep it. Your anti-riding and shield warfare have more than 7,000 physical defenses. The magic resistance is more than 4,000 unless the opponent has a holy sword. The Knights and Hellfire, otherwise your team is invincible, whether it is melee, ranged, mage, or forbidden spells, you will not lose your blood. "

Xiao Liang reacted and looked at Lu Yang and said, "Boss, why do you think of such a play, this is the wall of people."

Lu Yang said, "Is there any confidence?"

"Yes." Xiao Liang said excitedly, but he scratched his head again, and said, "Boss, if I take the team away, who will protect you."

Lu Yang said, "Stupid boy, I can still keep you by my side and protect me, with your cousin, exercise well, and go out to be a legionnaire in the future."

“Oh.” Xiao Liang thought that Lu Yang didn’t need him to protect him. He heard Lu Yang’s words before he understood. He smiled and said, “I’ll do my best.”

Lu Yang smiled. This is the way his brother is. He is stupid but emotional. He said in the simulation group: “7 legions, each with 1,300 treatments, 750 mages, 750 shooters, Blue Feather called. “

“Do you want the main force?” The White Lion asked.

Lu Yang said: “A gold military uniform above level 40 is sufficient.”

“This condition is easy to find,” said bitter love for a long time.

Not long after, a large number of troops came out of the teleportation array, and each team was led by a deputy regiment leader.

“Boss, here we are,” Mao Qiu said.

“We are all here, too,” said the dumb handsome man.

...

After Lu Yang and the other blue feathers arrived, he said, “Six of you go back to lead the team, and blue feathers stay.”

“Okay.” Six people immediately used the fortress to return to the city and flew back to the falling rain fortress, each with several regiments in their hands, and now they were all busy at this stage.

Lu Yang’s red light jumped to the viewing platform and said to some of the chaotic teams below: “Your squadron leader and deputy squadron leader are out of line.”

The Jagged Brothers League has developed a habit of coding for various teams because of foreign wars all year round. Whether new or old players, they know their code.

Each of these players with a code will have a wartime squadron leader in every 10 people, and a wartime squadron leader and a vice squadron leader in every 100 people.

Among the 20,000 players, 400 were out of the queue and came under the viewing platform.

Lu Yang nodded with satisfaction, saying: "Starting today, you will be additionally transformed into a special guard of mine. Your current position will remain unchanged."

"coax"

30,000 people are in chaos.

"Are we the boss's guards?"

"Dream?"

"The boss himself said that this luck is gone."

...

Who knows that the closer you get to a guild boss, the more benefits you get, especially the guild leader of a super guild like Lu Yang, who can be the guard of such a force. I can imagine what a good job.

Lu Yang pressed with both hands, motioned everyone to stop talking, he continued: "Your head is Xiao Liang, I believe you are very clear, Xiao Liang and my relationship."

Who doesn't know who Xiao Liang is? Lu Yang's first personal bodyguard, the famous Red Mist soldier, if Xiao Liang is the leader, it must be the Guards.

Lu Yang continued: "Today is the first test. You are facing actual combat. If you can pass, in the future I will put you in the first priority upgrade sequence and first equipment sequence of the guild. If any of you have strength If you do n't meet the standards, I will return him to the original guild, you know? "

The expressions were stunned. Obviously, this regiment was not so easy to enter. It had to be selected. However, since it has been so lucky, who would be willing to be returned? If it is known that it was retired from the Lu Yang Guards If you go back, you will be killed by the original companion joke.

"Boss rest assured, we must do our best." A squadron mage said loudly.

Lu Yang asked, "What's your name?"

The mage said: "My name is Lei Tingzong, a mage Lei, originally belonged to the half-life elite mage group, currently level 62."

As soon as Lu Yang's eyes lighted up, his original purpose was just to want some outputs to cover a wide range of attacks. The purpose of these attacks was not to make the output side of the other party too crazy. Master Lei.

"Starting today, you are temporarily appointed as the deputy commander of the Guards, commanding all remotes."

"Yes," Thunder said crosswise.

Lu Yang said to the rest: "All of you are under the responsibility of Xiao Liang, and you will be transferred to Tianmenguan to participate in the defensive task. Xiao Liang will be responsible for the specific fighting methods."

Everyone nodded.

Lu Yang looked at 10,000 shields and anti-riding. Each of them was inlaid with nine-color prismatic gemstones, holding a blood elf shield, whole body coagulation, and a demon soul suit. The accessories were mysterious tower defense parts.

Lu Yang took a deep breath and said to them with emotion: "From today on, I will give you a new name. Your name is Prism Shield Armor."

"The Prismatic Shield Armor Group?" 5000 anti-riding and 5000 shield battles looked at each other's prismatic gems and found that the name really suits them.

Xiao Liang muttered to himself.

Lu Yang said to Han Yu around him: "You are responsible for helping Xiao Liang organize this unit, and Han Fei will also go."

Han Yu asked: "Who protects you ~ www.mtlnovel.com ~ Lu Yang said:" Mu Yi was transferred back by me, and he has put on a full set of Blood Elf Island shooter suits. "

Han Yu nodded, thinking about it again, and handed the blood elven bow Tianjie to Lu Yang, saying: "Lend it to him first, and use it back to me."

This is the second Tianjie. In the past few days, the 5 teams worked hard to brush it out and I did n't know how many times before it came out. When rolling the dice, Mao Qiu and Han Yu competed with five or six shooters. Yu luck threw the highest 88 points and got the bow and arrow.

When he first got his hand, Han Yu almost fell asleep and hugged him to sleep in the game. Now he can lend it to Mu Yi, showing how much the kid valued his safety.

Lu Yang said, "Well, I'll take it for you first, and give it to him in a while."

Han Yu replaced Salas' bow, jumped down from the viewing platform and went to Xiao Liang to help.

Lu Yang said to Han Ying behind him, "Let's go, it's time to look at our main force."

Chapter 719 - War conference

All of his main forces have been arranged in the Falling Rain Fortress. At present, the total number of players in the Iron Brotherhood is 4 million, the number of players above level 45 is 2.7 million, and the number of players above level 50 is 1.8 million. Jie and other major guild players are almost the same, and some are still behind.

Lu Yang used the fortress to return to the city and flew to the inner city of the falling rain fortress, and stepped out of the teleportation array. The 100,000 Blood Demon Temple Heavy Armed Army was gathering at the far right of the inner city. Everyone had all the gems and enchantments.

In front of the ranks are the deputy heads of the seven legions, Zhang Zibo under Xia Yuwei, Zhou Tianming's younger brother Zhou Tianyan, muddy wine pouring brother's wool ball, the white wolf among the three males of the Bai family, and Sun Yu's general Hongyefeiwu people.

The seventh brother deputy commander looked at the 100,000 troops and was excited and didn't know what to say.

"This unit is completely crushing the enemy. I can't wait to start a war." Mao Qiu said.

"Hey, whether it's the sword killing God or Wang Teng, even if the main force of Liu Jie is here, it will be crushed." Bai Lang said.

Everyone nodded.

"Well, the boss is here." Zhang Zibo saw Lu Yang beckoning and shouted, "Boss, we are here."

Lu Yang came to the seven of them and said, "Why are you seven here?"

All seven were embarrassed.

Lu Yang understood it. Obviously all seven people wanted to lead this unit into charge. He said, "Such a 100,000-strong unit needs your 7 deputy heads to lead the team together. Isn't this nonsense?"

"Hey, hey." The white wolf smirked.

Zhang Zibo even hesitated, and the other five people bowed their heads.

"Seven of you come with me." Lu Yang turned and walked into the hall, where Xia Yuwei, Zhang Zibo and others were discussing the countermeasures.

"Boss is here." Xia Yuwei said.

Lu Yang nodded and said: "Don't discuss the game first, let them roll the seven dice, the highest point will be in charge of the team, and the rest will return to their respective legions. Are your heads so abundant, even the deputy legions? No longer needed. "

Zhuoju and bitter love laughed.

The white lion said, "Boss, if I am not the commander of the army, I would like to apply to command the 100,000 people. It is so cool. 150 Holy Knights are in front, 100,000 Blood Mist soldiers are behind, and they rush into the enemy team. You can win with your eyes closed. "

Xia Yuwei said, "Not really."

Lu Yang shook his head and said, "You guys, roll the dice."

He couldn't blame the leaders of these legions, he decided to personally take the 100,000 people to charge.

The seven looked at each other and rolled the dice together.

"88"

"91"

"93"

"75"

"Wow, 97"

"99, I won"

"100" Zhou Tianyan jumped up and said excitedly: "Mine, it's mine."

Zhang Zibo and others looked depressed.

Lu Yang said: "No resentment is allowed. If you want to resent, complain about your bad luck. The other six people will return to their respective legions to lead the team."

"Oh." Zhang Zibo and Bai Lang and others agreed.

Lu Yang looked at Zhuoju and asked, "How many people have we gathered now."

As the head of the First Corps of the Brotherhood of the Iron Blood, Zhuoshu poured out, saying: "So far, 3 million people have been assembled, of which 2.3 million are above level 45 and 1 million are above level 50."

A guild not only has people who are online during the day, but also people who are online all the year round. It is already very good to be able to gather three quarters of the entire guild during the day time period.

Lu Yang looked at the map and said, "What news does the enemy have?"

"The news from Tu Feng said," When we assembled our troops last night, we were informed by Wang Teng's agents. From last night, Beifeng City, Benliu City, Tiewang City, Jianyang City, and the lakeside The city is gathering troops. "

"At present, Wang Teng gathers 3 million people. The lead is Wang Teng himself, and the chief is Qu Han. The heads of the team are all our old friends. The members of the chamber became the main commanders. "

Lu Yang sneered and said, "Do you know who I saw this morning?"

"Who." Xia Yuwei asked.

Lu Yang said, "I saw Bloodthirsty Batian himself."

"What?" Everyone showed a curious look, others were unclear. They were no longer familiar with the bloodthirsty bully. Every war of the Brotherhood of the Iron Blood in St. Gall was related to him.

"Boss, you didn't kill him." Asked bitterly for half a life.

Everyone: "..."

Every day, they watched Lu Yang go out for a run when it was dark, and then performed cruel exercises that could not be expressed in words. Lu Yang's physical quality was no longer personal, but he wanted a monster.

If Lu Yang and Bloodthirsty Batian meet in reality, even if Bloodthirsty Batian is one meter tall and weighs 200 pounds, they can't help Luyang's punch. Everyone feels that Bloodthirsty Batian is miserable.

Lu Yang said with a smile: "When I saw him, he had a broken leg, a rib in his chest, and a comminuted fracture of his left arm when he saw him. When I saw him, I was afraid of beating him with a punch. I'll beat him. "

Everyone: "..."

Biting in love for a long time, he said, "Wang Teng is too cruel, so be it."

Lu Yang said: "It's a retribution, let alone him. It seems that the two bastards, eternal spirit and black blood, are still showing signs of recovery. Why is Wang Teng thinking about using both of them?"

"The current known news is that the two spirits, Eternal Spirit and Black Blood, are special advisers in this war. They are not responsible for the specific war, but are responsible for the overall situation. I guess these two people still have some status in their respective troops. Yes, and the two of them are more aware of the current affairs than bloodthirsty tyrants, and they know how to be human. When they see the bloodthirsty tyrants going off, they will definitely try their best to form Wang Teng. Wang Teng also needs to slowly digest their troops. "

After the copy was launched, there were no restrictions on the guild contract. The two people, Shenhun Eternal and Black Blood, made a lot of things in Wang Teng's guild with their respective prestige.

Lu Yang said: "Unfortunately, this old friend gathering is impossible."

Zhuo Jiu said in surprise, "Boss, how are you going to fight, a few of us thought about it for a long time and did not think of a perfect solution to this army of Beifeng City. Qu Han's team is very strong, and now there is a soul and eternity. With the idea of black blood, 3 million people rushed down the

Tianmen Pass, and we must have at least 1 million people to defend. This is a hard battle, and it requires a level 50 elite to be able to defend. “

Lu Yang shook his head and said, “I don’t have to use so many people. I have a special army, which has already been formed, and let them take responsibility.”

“What troops?” Zhou Tianming asked curiously.

Lu Yang said, “The Prismatic Shield Armored Corps has a total of 10,000 level 60 full-body coagulation and anti-riding and shield battles of the demon soul set. The whole body has 17 10 prismatic gems and a full set of magic resistance enchants. The total defense is more than 7,000. More than 4,000. “

As a perennial army leader, Zhuoju immediately responded. He was surprised and said, “The whole department has more than 4,000 magic resistance?”

Lu Yang nodded and said, “How?”

Zhou Tianming said, “Boss, your army is simply bullying people. You are throwing 10,000 pieces of magic-free steel plates into Tianmenguan, and the 3 million people who are exhausted by Wang Teng will not kill them.”

Lu Yang said: “This team is in charge of Xiao Liang. I asked him to use 3 million people to resist Wang Teng’s 3 million people.”

Zhuoju poured a punch on the table and said, “Even if the 30,000 people can only resist for half a day ~ www.mtlnovel.com ~ is enough.”

Lu Yang nodded and said, “I have the same task for Xiao Liang. As long as he resists for a long time, he will make a great contribution.”

Zhuoju looked at the map and said, “Without 3 million enemies, our next problem is the team at Lakeside City. There are four fortress bosses in Lakeside City. Together they can produce 3.2 million people. Of course, Most of them are black and white, with the main levels around 30 and 40. “

Lu Yang looked at the white lion and said, "Your team has divine warriors and mage of light. I lent you the divine warriors in the turbid wine team. You gave him the mage of light mage. With 300,000 people defeating the 3.2 million enemies within five hours, can it be done? "

The white lion, the white tiger, and the white wolf looked at each other. The white lion said, "Boss, say that in three hours, I must defeat the 3.2 million people."

Lu Yang said: "Okay, Zhuojiu, Zhou Tianming, Xia Yuwei, half-bitter love, Sun Yu, Jiang Ze, your six legions attacked the Iron King City with me, along with 3.35 million affiliated guild members, I'm taking 500 Ten thousand people defeated the sword and killed the gods in a battle, and won the black iron fortress. "

Chapter 720 - Army attack

"Yes."

Seven people, including White Lion and Xia Yuwei, spoke to Lu Yang aloud and walked out of the fortress hall to the door.

Zhou Tianyan went to the 100,000 level 60 players and became the commander of the army. The other 6 commanders of the army led his deputy commander to the outer city to gather troops.

2.2 million players are resting in the outer city. When they see their bosses coming, they know that the battle is about to begin and they stand up.

After the White Lions and others sorted out the troops, Lu Yang ascended the city wall and looked at the densely packed players below. He swept everyone's face with irresistible excitement.

Lu Yang said aloud, "Brothers, our Jagged Brotherhood is once again assembled."

"You know, in this week, how many times did the sword kill God scold me, against him, the president of a small guild with only one fortress dared to scold me and scold the boss of the Iron Brotherhood, you can bear it?"

“No!” Shan Hu sounded like a tsunami.

Lu Yang was infected by the voice and said excitedly: “Brothers, do you know why the sword kills the gods? How dare he be so mad, because he thinks he is a member of the Quartet, and relying on Wang Teng and Li Xiuyu to help him? Hit him, today I will tell him, dare to scold me, Lu Yang, I demolished his fortress, ruined his guild, let him get out of this game, can you do it? “

“Yes!” Shanhu sounded like a tsunami.

Lu Yang said: “Listen to my orders, each unit will start in accordance with the original battle plan, and the entire army will set off.”

Bai’s three males organized their troops and set off from the south gate of the falling rain fortress, marching toward the falling rain gate.

A group of troops and a group of chubby drunks and bittersweet loves flew to the Echo Fortress, while more than 30 affiliated guilds that had rested in the Echo Fortress just came out of the door under the leadership of Tu Feng.

3.35 million people stood outside the city and watched the mighty troops of the Brotherhood of the Iron Blood come out one by one, looking sideways.

Mr. Yue Ban said: “It is indeed the first guild of the national costume, and the fighting momentum of the players is really high.”

Xinghun said: “Don’t you know that there is a rule in the Brotherhood of Iron Blood that all the proceeds of the war belong to the Brotherhood of Iron Blood players themselves, and no one will force them to hand over what they hit.”

Kuantian said: “Chairman Lu Yang has courage. This is a lot of money.”

Mr. Yueban said: "No wonder the combat effectiveness is so strong, and the co-authors know that it is out to grab things."

Star Soul said: "Yeah, how many other guild players' good equipment and special items were snatched by them. If it is a special item that increases the skill level, a piece of value is tens of thousands. If I am the Brotherhood of Iron Blood, there is this This is a battle that I must win. "

The crowd nodded, and the current record of the Jagged Brotherhood's war is one after another.

Leng Ya smiled and said, "I don't know what the sword kills God is doing now. I guess he has to regret to draw his mouth there, nothing to scold Lu Yang for doing anything, this is anxious, with more than 5 million Trouble him. "

Xinghun said: "It must be looking for reinforcements, but I don't know how big the sword is to kill God and how many troops can be found."

"I don't think so much," Leng Ya said.

...

The sword killer they were talking about sneezed and asked excitedly in a special space: "Boss, how many troops have you assembled?"

Last night, after learning that the sword killing **** learned that Lu Yang was about to attack him, he immediately contacted his allies, including Wang Teng and Li Xiuyu, and several people decided to join forces to help the sword kill God together.

Li Xiuyu said the first: "I have 2 million people here, and the whisper is in the last whole team, and I can start soon."

Another guild boss of Tiewangcheng said, "I can send 1 million troops here. It's too hasty. I can only come out so much."

A boss in Jianyang City, Lonely Half Moon said, "I can dispatch 1 million people."

Another boss said, "I am also a million people."

Sword killer said excitedly: "I have gathered about 2 million people here, and should be able to participate in the war, this is 7 million people."

Wang Teng said with a smile: "I can also produce 2 million people. As discussed last night, my troops set off from Beifeng City and attacked the Lanshan Fortress in Hannibal City."

"I can come out 800,000."

"I am also 800,000."

"We are also 800,000."

"I am also 800,000."

The sword killer said: "Great, the four of you add up to 3.2 million people."

"I hope the four brothers will be able to attack the raining fortress of Hannibal City together. If Lu Yang returns to defense, the four of you will be responsible for defeating Lu Yang's troops," said Merritt.

"No problem," the four said.

The sword killer counted and said, "This time we have mobilized more than 10 million people, and there are 7 million people on the battlefield alone."

Wang Teng, Li Xiuyu and others looked at each other. Although they agreed to mobilize the troops as best they could last night, no one expected that there would be so many people eventually mobilized.

Li Xiuyu said: "What else do we defend? 7 million people will directly face Lu Yang. Now everyone's equipment and level are similar. Lu Yang will never be much better than us."

Thinking about how to defend the sword and killing God, he clapped his hands and said, "Li Shao is right, why are we nestling in my dark iron fortress and defending him directly?"

Everyone looked at Wang Teng.

Wang Teng said: "From the information I have received, Lu Yang's total number is about 5.5 million ~ www.mtlnovel.com ~ We have more than 1.5 million more people on the front battlefield than him. If I and Lakeside City's The four presidents struck up and down, and Lu Yang must not be the first to care about each other. This idea is okay. Maybe we can completely kill Lu Yang in the first battle. "

"Yes, we have a total strength of more than 12 million, more than twice that of Lu Yang. Whether it is to fight together or dispersed into various guilds, Lu Yang is not our opponent." Sword God said.

Qu Han carefully studied the map and pointed at Hannibal City. "This method is indeed feasible. If we can, our 2 million people can split up again, 1 million people hit the Lanshan Fortress, and 1 million people go straight to St. Gall. City, then Lu Yang collapsed across the board. "

Sword Killer and Li Xiuyu and others nodded and said, "This method is better."

Wang Teng smiled and shook his head, saying, "Be stable, grab the Lanshan Fortress first."

Qu Han blinked, he did not understand why Wang Teng refused such a good attack method, as long as his 1 million troops stormed into the city of St. Gall and Lu Yang had no defense, 1 million people were divided into five teams. Directly grabbed Lu Yang's rear general base.
