

Chapter 741 - Killing the Heart

The sword killer was soft at the foot. Fortunately, behind him was the city wall, which gave him support. Southern Europe and Blood Fanchen hurriedly supported the sword killer.

“Boss, what’s wrong with you?” Southern Europe asked.

The sword killer said in a panic: “It’s over, it’s all over, Luyang’s half-aid reinforcements were not dare to leave the city, and Jianyang’s reinforcements were also defeated by Luyang. They also decided not to send troops. Now we have only left. Li Xiuyu’s 2 million people came to support. “

“How can this be?” Xue Fanchen said excitedly.

The sword killer gritted his teeth, and scowled in horror: “This is Lu Yang who is going to die for us, not only to grab our fortress, but also to destroy our guild.”

Southern Europe nodded and said, “Lu Yang does not hit our fortress, but instead uses our fortress as the center point, making use of the differences in the locations and distances of the various guilds, smashing them at different points in time, so we have no reinforcements to dare to support. If Li Xiuyu also loses, then we will only have these 2 million lone soldiers trapped in the fort. “

The heart of the sword killing the \*\*\*\* has sunk to the bottom of the valley. He knows that according to the current situation, Li Xiuyu’s 2 million people will be killed if they come. The two of them are only 4 million people. Half of them are in the wild and half are in the city. Yang wants to beat them too easily.

Xue Fanchen also responded, staring at his eyes and saying, "Boss, we didn't scold Lu Yang before. If there is no reinforcements, Lu Yang Tie will not spare us."

I do n't know where the sword kills God. Before he relied on the support of Wang Teng, Li Xiuyu, Mai Lizhe, Lonely Banyue, and Broken Blade, facing outrageous scolding by Lu Yang, and even greeting the three generations of Lu Yang 's ancestors online. .

Now, the lonely half-month was afraid to go out, the two presidents of Jianyang City had an internal contradiction and did not want to send troops. Wang Teng hadn't trapped 20,000 people in Tianmenguan, and 3.2 million people in Lakeside City had been beaten by Bai The 300,000 people in Sanxiong did not dare to go out.

"We are only left with Li Xiuyu. If he comes quickly and enters the fortress, maybe we still have a fight." Sword God said with anticipation.

"Drip, drip, drip"

The sword of the sword killer rang, and he picked it up and saw it came from the silk language, and quickly pressed the connect button, almost in a begging tone, saying, "Chairman, where is your army?"

Listening to the tone of the sword and killing the gods, I could not help but shed a hint of contempt. I used to talk to her so arrogantly and arrogantly. Now I feel like I can't do it, and whispered in such a low voice that the sword kills the gods. .

"Sorry, President Sword. We already know what's going on with you. If the other companies don't go, we won't be able to help you hold the fort. Li Xiuyu has taken the troops back."

"What?" The last hope of the sword killing God was wiped out by slang words, and his heart was despairing and cursed in shame: "What do you mean, Lu Yang was going to destroy you, but I signed Lu Jiang Armistice agreement, sending troops to attack the city of St. Gall, I have always tried to help you in a word, and now I have an accident, how can you avoid each one? "

"Since President Sword, I hope you can control your emotions. I suggest you give up the fortress and try to win over the guild players first."

“What do you mean, you let me give up the fortress? Why, this is the fortress I knocked down!” Roared the sword killer.

The silk language was unmoved, and continued, “I am just a suggestion. This time our coalition failed. It was Lu Yang’s strategy. Now that this situation cannot be reversed, we can only find another solution, not us. Not to help you, but we need to reconnect with the parties.

Your fortress can’t keep it anymore, why let your men send equipment to Luyang again, it’s better that you quit the fortress and give the black iron fortress and heavy hammer fortress to Luyang. He has only 2 million people and wants to defend Han There are four fortresses in Nibal, the flower fortress in the holy city, and now you have to defend your two fortresses. He doesn’t have that much force. As long as he dares to take it, we will send troops together at that time, and we must defeat Lu Yang. “

“You speak nicely.” The sword killed God politely and cursed: “It was not your fortress that was lost. My two fortresses were lost, which means that the family was robbed. These men are fancy for me. Follow me. Without the fortress, they do n’t follow who they are with. How can I get together? ”

The silk language also knew that the sword was right, but she had no better way now, saying, “Keep on, Wang Teng already knows our situation and is actively contacting the parties.”

The sword killer listened to the busy sound from the intercom, and looked at South Europe and Xue Fanchen who were standing around him waiting for news.

“Boss, what’s the situation?” Xue Fanchen asked anxiously.

Southern Europe asked, “What does he mean, and isn’t he here?”

The sword killer couldn’t explain, he waved his hand, lowered his head and walked towards the stairs of the city wall. Southern Europe and Xue Fanchen and others watched the sword killer walk to the entrance of the stairs ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and walked down the stairs Along the road towards the inner city.

“Boss, what’s wrong with you?” Xue Fanchen called in horror.

The sword did not answer God, but just continued to walk forward.

Southern Europe seized the blood Fanchen who wanted to rush through the questioning and said, "It seems that all parties will not come to support, let alone the boss, and organize the defense of the men, we can support as long as we can support, let the boss slow down for a while. "

Xue Fanchen reacted and said, "Your words make sense. I'll organize the defense first."

Hong Yingxue looked at the commander who was in chaos in Southern Europe and said with a smile: "You are very good. Have you ever thought about changing to a guild. If you are willing to come to our Red Moon City, the boss must give you a vice president."

Southern Europe showed a helpless smile, saying, "Let's talk about this battle after it is over. My boss is like this now, and I can't just throw him away like that."

Hong Yingxue nodded and said, "We leave first, and we won't stay with you to defend the city. There is no point in fighting a doomed battle."

Southern Europe smiled bitterly, as if it had been known for a long time, saying, "Say to Boss McLeod, we will pay the money."

Hong Yingxue smiled indifferently, and flew away with her more than 100 forbidden spell masters.

The players under the Sword Killer God have been watching the situation in Southern Europe. When they saw the disappointment of their guild boss and saw the supporting Red Yingxue Master fly away, they felt uncomfortable inside.

"What happened? What happened?"

"You don't know yet? My friend just told me that Lu Yang didn't come to fight our fortress, but sent troops to attack our support forces. Now lonely half-moon, broken blades and subversion are all failed. Li Xiuyu also ran away. That leaves us to guard this lonely city. "

## Chapter 742 - 4 sides siege

“What? What are we still keeping? Luyang has 5 million people, we have 2 million, and it will be a waste.”

“No wonder Lu Yang hasn’t been here for such a long time.”

...

Countless players talk in private, everyone has a friend they know, and they are accustomed to watching live broadcasts and visiting forums in the game. This kind of unscrupulous news was quickly uploaded in the Black Iron Fortress, and all the swords killed. All the men knew that all the players who reinforced them were destroyed by Lu Yang, and they were only trapped in a lone city.

Southern Europe and Xue Fanchen and other vice presidents and chiefs of the army reluctantly watched the soldiers’ emotions were getting lower and lower, and they could not find anything to inspire morale.

“It looks like we’re completely dead,” said a chief of the army.

“Boss hasn’t slowed down yet?” Xue Fanchen asked.

Southern Europe shook his head and said, “I sent a message, he didn’t return me.”

Xue Fanchen said: “In this situation, we have no ability to inspire morale. No one but the boss can cheer up the brothers, but now he does not come out. Once Lu Yang comes, how can we defend the city?”

As soon as the words fell, three deep horns came from outside the fortress.

“Woo ~~~ woo ~ woo ~”

“Woo ~~~ woo ~ woo ~”

“Woo ~~~ woo ~ woo ~”

Southern Europe and others also looked out of the city in horror at the same time, and a black line appeared at the farthest edge of the sky. The black line was longer than the wall of the black iron fortress.

“No, the Brotherhood of the Iron Blood is calling.” Moxin shouted. He had a telescope in his hand and could clearly see the situation in the distance.

Lu Yang rode the Red Flame Lion King to the forefront. Around him were 150 immortal paladins, 276 forbidden mage corps walking behind, and then the heads of the six army corps and the presidents of the major affiliates, Each with his guard walked in front.

Everyone’s face has a confident look, that’s not pretense, but self-confidence based on strength.

The sword killing gods were already low in morale, and they were even more frightened when they saw that the side of the iron brothers who had entered their field of vision was so strong.

Lu Yang took 5 million people to a place 50 meters away from the fortress. At this distance, the wind and lightning archer in the city could easily hit Lu Yang, but no one dared to shoot arrows.

Lu Yang gave a mocking look at Xue Fanchen and other players in the city, and asked loudly, “Where does the sword kill God, let him come out.”

The vice presidents such as Xue Fanchen and Southern Europe were extremely embarrassed.

Xue Fanchen cursed: "Less nonsense, fight if you want, we won't be afraid of you."

Lu Yang said, "You are something, and you are worthy to talk to me. Is the sword president or the president, let him roll out."

The players on the city's head all looked at Xue Fanchen, and they were curious why the boss of his side disappeared in this decisive battle of the king.

Where does Xue Fanchen dare to tell Lu Yang that the sword killing \*\*\*\* is scared by you, and he dare not hide from the battle with you, he can only send a message to the sword killing \*\*\*\* and say: "Boss, Lu Yang is here, come out quickly He is looking for you. I talk to him and my brothers are not convinced."  
"

Black Iron Fortress, inside the fortress hall of the inner city.

The sword killer stood on the lord's chair and looked around with an expression of enjoyment. This was his fortress. Every decoration in the room was designed by him. Sitting in this position, he always felt Supreme glory and rights, which made him forget everything.

He didn't read the news from Xue Fanchen. He didn't hear the low mellow horn outside the city. His eyes only gathered in the hall, even the smallest piece, he could watch for a long time.

Xue Fanchen sent several messages in succession, tried several calls, and the sword killing God ignored him. Facing the eyes of Lu Yang and the eyes of the players around him, he shed cold sweat for the first time in his life. The coldness in his body made him fall into deep fear.

Lu Yang said: "It seems that the sword kills God himself does not want this fortress, what else do you keep?"

The players on the city head still have war intentions at this moment. It is just a habit to stay here, and everyone is embarrassed when they want to run.

Xue Fanchen and Southern Europe and others could not find any controversial answers to Lu Yang's questioning, and even they had confirmed that they had failed.

Lu Yang shook his head and said to the guilds around him, "According to the plan set out before, we will be surrounded by the city."

Mr. Yueban and Yin Hua Rinjiu and other guild leaders nodded together and followed the various legions under Landingyang towards the other three gates of the Black Iron Fortress.

Just now, when Lu Yang defeated the reinforcements of Jianyang City and walked backwards, he received the news that Li Xiuyu's army retreated to Benliu City. Lonely half-month defeat, Wang Teng was trapped in Tianmenguan, Jianyang City was not. After sending troops to support, the Black Iron Fortress no longer has any reinforcements.

Coincidentally, Zhou Tianming's troops merged with him. More than 5 million coalition forces in the Iron Brotherhood and the Affiliated Guild were at ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Lu Yang could attack.

It only took 20 minutes for 5 million people to surround a fortress, and Lu Yang stood quietly waiting under the city.

The guards on the city's side were increasingly panic. They knew that once they started fighting, they would definitely lose. At least one of their equipment would be dropped. If the fortress was lost, the guild would be over. There is absolutely no ability for the sword to kill God. Gathering the best equipment for them will not compensate them for the loss of war.

The army is upset!

Lu Yang saw this scene clearly under the city. He didn't have any pity, because he knew that if he hadn't created this 100,000 level 60 elite in two months, now he is facing this situation. It's him.

The Brotherhood of the Iron Blood will be broken apart by the guilds such as Sword Slayer, Wang Teng and Li Xiuyu. The fortresses he will occupy will be taken away by Sword Slayer and others, and he will become nothing again.

He can't do this. He hasn't found Liu Jie's revenge. Those who killed him in the last life are still at ease. He can't lose, and he has no reason to lose.

"Report to the boss, Beicheng Gate is ready." Said bitter love for a long time.

"Report to the boss, Nanchengmen is ready." Xia Yuwei said.

"Report to the boss, Dongchengmen is ready." Zhuo Jiu Qing said.

"Boss, we are also ready." Sun Yu and Jiang Ze said together.

Lu Yang sneered, raised his right finger to the front, and said, "Siege."

"咚~~"

"咚~~"

"Well ..."

Five drum trumpeters sounded the drums at the same time.

"Iron brother brothers, kill ~!" Jiang Ze and Sun Yu shouted in unison, the other three half-hearted lovers, Xia Yuwei and Zhuoji also shouted in unison, 5 million people did not have a trace of reservation, the whole army attacked Rush to the city wall.

## Chapter 743 - Capture the Black Iron Fortress

Zhou Tianming rushed under the city wall for the first time, threw Feizoka on the female wall above the city, and climbed towards it in an invincible aura.

He climbed up the wall of 30 meters in less than 5 seconds, and the defense of the defending machinery on the head of the city made him pressure-free.

“Kill ~!” Zhou Tianming jumped up to the city head, with the holy light in his hand, and turned around while launching the punishment angel.

“Holy Storm”

A golden light lit up around Zhou Tianming.

“11069”

“20288”

“10136”

...

Eight consecutive numbers popped up around him, and all eight players who just came up to attack him were killed.

Followed by Zhou Tianming, the level 60 Elite suddenly had a place to stand, taking advantage of the empty space around the enemy, ran to Zhou Tianming.

“Take me as the center and follow me to kill.” Zhou Tianming shouted, holding the holy sword to attack forward.

The surrounding players followed closely, and soon a blood path emerged, followed by the players who climbed upwards and continuously rushed to the city wall.

The forbidden mage group led by Hei Yan came to the city easily.

“The earth mage uses Earth Dragon Earthquake and sends everyone up.” Hei Yan said.

Two earth mages chanted a spell at the same time, and the ground rang loudly. 276 mages were lifted from the ground by two cylinders with a diameter of 30 yards and rose to a height of 30 yards, which was exactly the same as the city wall.

“Free attack,” Hei Yan said.

60 full-body blood demon temple suit mages, magic damage more than 6000 points, use range magic attacks, and quickly clear the city head.

Defenders of the city have no morale at all, and they are smashed at the touch. Many people react quickly to hide and use the city roll to run. Those who do not run can only be trapped in the outer city.

In less than 20 minutes, Xia Yuwei and bitter love half-life reported one after the other, all four walls were attacked, and Lu Yang ordered to open the gates, and 5 million people poured into the city to start the slaughter.

More than a dozen photography drones flew over the fortress in the sky, capturing this shocking scene.

In the live room.

Dubin held his hands on his chest and watched the picture returned by the drone. He said with a stunned expression: “The sword has been killed, not only the fortress has been lost, but his guild has lost its soul.”

Tong Tong is no longer a newcomer, agreeing: "The sword and the gods did not dare to fight against Lu Yang. His morale completely collapsed, and now the fortress is lost. His guild is afraid that it will collapse."

Dubin nodded and said, "That's it."

In the picture, the remaining 1 million defenders were smashed by the Iron Brotherhood who rushed into the city. When Lu Yang brought the guards into the city, the enemy was almost killed. Looking at the corpses on the ground, Lu Yang said "You leave me a bit, you killed everything."

The chubby wine poured out and bitterly loved for a long time.

"Boss, I don't think you will have a chance to fight in the future battles. Without waiting for you, the enemies will be defeated by us." Said bitter love for a long time.

The crowd laughed again.

Lu Yang sighed and said, "It's so annoying. I'm almost out of fun."

Mr. Yueban said: "Boss Luyang, you are a happy trouble, we don't think we can."

With such a major victory in the war, no one was unhappy, and even a group of vice presidents joked with Lu Yang.

Lu Yang asked, "Did you see the sword kill God?"

Tu Feng said: "The news I got here is that the last time Sword Slayer appeared to be in the inner city, no one else has seen it."

Lu Yang looked at the inner city not far away and said, "Let's go in and take a look at this fortress first."

“Yes.”

The presidents and studio bosses kept their troops in place, followed Luyang and others to break the gates and entered the inner city of the fortress.

The inner city of the Black Iron Fortress is very beautiful. Like an exquisite garden, the exquisite buildings make the accompanying Xia Yuwei and others show a surprised expression.

“This is too extravagant, this floor is made of beige stone,” said bitter love for a long time.

Beige is a decorative stone that has no practical effect, but it looks beautiful and costs 1 silver coin per piece.

“How much does it cost? The whole inner city is like this ground.” Jiang Ze said.

Lu Yang said: “No less than 1,000 gold coins, this kid has spent all his money on it.”

“Also, you look at these artworks.” The bitter love half-life pointed to Roman sculptures and other things in the distance, each of which is worth more than 100 gold coins, it also does not make any sense, just look good.

“Wow, it looks like we are getting rich.” Lu Yang said.

He said to Tu Feng, “We changed the fortress order, and then we sold these things to the system.”

Every item the player uses to build the fortress can be sold back to the system, but the price is only one-third of the original price.

Tu Feng came to the deity in the middle of the inner city with a fortress order. There was a circle of fountains around the deity. He shook his head and replaced the fortress order.

System prompt: Congratulations to the Iron Iron Brothers led by the player Lu Yang for occupying the Black Iron Fortress

The sword killing \*\*\*\* who was watching all this while standing in the fortress hall and enjoying it suddenly found that everything in front of him was no longer under his control.

System prompt: You have illegally broken into the hall of the Jagged Brothers Fortress, please leave quickly.

“Asshole, this is my fortress.” The sword cursed.

After half a lifetime of bitter love, he just walked into the hall and saw Li Jian killing his sword. His eyes lighted up and he shouted excitedly to Lu Yang: “Boss, I found the sword to kill God. This grandson is hiding in the hall.”

Lu Yang said, “Let’s go and see.”

He led the team to the door of the hall, watching the crazy expression of the sword in the door to kill the gods, and said something silently: “What are you doing here?”

The sword kills itself, and curses, “This is my fortress, you get out of me.”

Feeling a bit wrong for half a lifetime, I asked, “Aren’t you crazy? This fortress has been beaten down by us. You should go back to the city to find your men now.”

“You’re crazy, this is my fortress, get out of me.” The sword killer cursed.

Lu Yang sneered and sneered, the fortress hall instantly turned into a ghost, and then disappeared without a trace. The sword killer looked around in shock and found himself in the inner city.

“Where is my fortress hall? What about my fortress hall?” Sword Slayer shouted madly.

Lu Yang was unmoved and hit another finger.

The surrounding buildings, vaults, storage rooms, rest halls, Tibetan barracks, entertainment rooms, fountains, beige stone floors, etc. all disappeared. In less than 10 seconds, all buildings in the inner city of the Black Iron Fortress were sold by Lu Yang. Empty.

Sword Slayer looked at the hard-built inner city area and was sold by Lu Yang. His eyes filled with deep hatred, referring to Landing Yang and cursing: "I won't let you go, I won't let you go of."

Lu Yang's body turned into a red light flashing across the space and came to the sword killing god, his eyes stared directly into the eyes of the sword killing god, said coldly: "You will never have this opportunity, anyone who wants to stop me , I will not give him any chance to survive in this game. "

"The Sun Fist"

A crimson light burst from Lu Yang's left hand, and the sword killing \*\*\*\* was stunned by Lu Yang's cold eyes. The punch in front of him did not respond at all, and was hit with a punch in his head.

"35286" (Critical Strike)

Sword to kill God, die!

The affiliated presidents such as Lonely Banyue and Yinhua Ruojiu looked at Lu Yang with a tremor. They did not expect that Lu Yang, who looked polite at all, had such a horrible side. The cold feeling made them a little bit breathless Get angry.

Lu Yang looked at the sword and killed the corpse on the ground, and began to try to calm his anger. "Second World" is a game, actually a war between people. The winner will enjoy infinite glory. The loser will have no place to die. Since the sword kills God, you should be prepared for it.

He turned his head and said to Zhou Tianming, "Take your army with your brother to attack the hammer fortress, and sell everything after taking it."

“Ah ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ still selling.” Zhou Tianming said with some distress.

Lu Yang said with a smile: “Why not keep it, we can’t keep it here.”

“Ah?” Everyone was dumbfounded.

The turbid wine poured out and asked, “Boss, we don’t occupy these two forts.”

Lu Yang shook his head with a smile and sent a message to Lonely Banyue, saying, “President Lonely, are you free to chat?”

After being lonely for half a month, he was hiding inside the fortress, fearing that Lu Yang’s army would break the black iron fortress, and even took his fortress with him. Suddenly he saw the news from Lu Yang startled him.

“President Lu Yang, what are you doing?” Lonely Banyue reverently replied.

Lu Yang said: “Let’s talk in a special space. I think there are some misunderstandings between us and they should be resolved.”

Suddenly, Lonely Half-Month suddenly expressed her excitement, and said quickly: “Yes, yes, we have misunderstood before. I invite you.”

Lu Yang sneered, and received a special invitation from Lonely Half Moon to click and agree, and entered a white conference room.

Lonely half-month was standing opposite him, and when she saw Lu Yang’s arrival, she said charmingly, “Well, President Lu Yang, what’s the matter with you? I won’t let me give up the fortress.”

Lu Yang smiled, and he shook his head and said, “How can I do this kind of thing? Not only will I not ask for your fortress, I also want to send you two fortresses.”

“Send me two fortresses?” Lonely Half Moon’s head couldn’t turn a bit. Does he want to land Yang to blackmail him? If Lu Yang wants to take away his two fortresses, it’s the same as playing. Come down, Lu Yang is now forcing him to buy back his fortress with money.

“President Lu Yang is right. My fortress is actually yours. I recognize it. As long as you don’t \*\*\*\* it away, I will pay for it and you will make an offer.” Lonely Banyue said.

#### Chapter 744 - Lonely half month declared neutral

Lu Yang smiled and shook his head again, saying, “President Lonely, you have misunderstood. I have no malicious intentions against you. I believe that you have no malicious intentions against me. After all, you and I are separated by eighteen thousand and nine thousand miles. Well, it wasn’t Ma Lizhe’s provocation. You can’t meet me in a year or two. “

He also regretted loneliness for half a month. He regretted joining the four-party alliance of Merritt. Originally, Merritt wanted to curb Lu Yang. He was also afraid that Lu Yang would hit the Iron King City, but he suddenly reacted. Lu Yang simply No chance of hitting him.

Liu Jie was able to silently take 4 million elves to walk the iceberg city to the human race twice, once hitting Lu Yang and once against the twilight old man. With this, how could Lu Yang have time to hit him, all his energy It must be used to deal with Liu Jie and Wang Teng. His Quartet alliance to participate in the war between Lu Yang and Liu Jie is completely redundant.

It can even be said that this is Mai Lizhe’s conspiracy. On the one hand, he does not allow Lu Yang to kill Wang Teng, and on the other hand, he does not let Wang Teng kill Lu Yang, causing them both internal friction. However, this internal friction does not benefit him. His fortress was east and south of Tiewang City, not near the landing sun, nor next to Li Xiuyu and Wang Teng.

Helping Wang Teng or helping Lu Yang didn’t have any actual interest relationship with him. He was totally unsatisfactory in doing so, and after the establishment of the Quartet, his troops were trapped.

To the north is Li Xiuyu, but he can't fight, and the west is an ally. The sword cannot be killed. The following is Jianyang City, which is also an ally. He couldn't beat it at all.

In the end, the Quartet's gain was Mai Lizhe, the sword killing gods, and the four cities of Lakeside City. All he got was the enemy he couldn't beat, Lu Yang.

Lonely half-moon vomited his words to Lu Yang and said, "Chairman Lu Yang, I really regret it. I am also about to withdraw from this alliance. Now I just ask you not to grab my fortress. You can make an offer. Right. "

Lu Yang did not expect that the analysis of Solitary Half-Month was quite thorough, saying: "Since you want to understand, I will not be in a circle with you. To tell you the truth, I am not strong enough to occupy Iron King City."

"Ah?" Lonely for half a month, he also knew that Lu Yang had insufficient manpower, but at this time, who could not be stunned by victory and who would not want to occupy the fortress to collect money, even if it occupied one day, it was tens of thousands or even ten. Tens of thousands of net income.

Lonely Half Moon said, "President Lu Yang, do you really want our fortress?"

Lu Yang said, "I haven't been stunned by victory. What do you want your fortress to do? How long have you been operating in Iron King City? The masters in this city have almost recruited you. My Hannibal City and St. Gall The city can't defend it, what do you do to occupy this place, waiting for your sneak attack? "

Lonely half-moon took a breath and looked at Lu Yang and said, "I'm serving, you are a master."

Lu Yang said with a smile: "However, although I do not have the ability to occupy, but I have the ability to destruct. My 100,000 iron riders can't stop anyone. If I want to, I can transfer others to the fortress. These 100,000 people stay Here, no matter who gets the fortress with you and the sword killing god, I attack the city every night, and neither of you can keep it. "

Lonely half-month smiled embarrassingly. The trick that Lu Yang said dealt with them was the best. Only the day before the thief did not have the day before the thief, not to mention the thief couldn't prevent it. Once the fortress had insufficient defense force, a wave of attack would lay the fort .

"President Lu Yang is right." Lonely Banyue said.

Lu Yang said: "I just laid the fortress of the sword and killing the gods. The inner city area is very beautiful. The floors are all beige stone paving. I sold them all. If you deal with him, you think you pay. How much money is right for me. "

Lonely half-moon is dumbfounded. Lu Yang's trick is too bad. If he breaks the fortress and sells things, then the fortress can't be beaten. What the fortress makes money for, the hotel and the market, the price of building these things is not expensive, and Lu Yang sells it all. Then they took back whether to build or not.

If it was built, Lu Yang would call again and let Lu Yang sell it. If not, what other fortress would make money, not to mention the auction house, there is not even a trading market. Would it let the players set up and drink?

Lonely half-moon said sadly: "Chairman Lu Yang, my two fortresses are full of things and cost millions of dollars. If you hit me once, I will go bankrupt. If I lose money, I won't even lose it. Get up, can it be cheaper. "

Lu Yang smiled and said, "I won't hit you, I said, not only will I not hit you, but I will also send you two forts, depending on whether you dare."

Lonely Half Moon asked, "What fortress?"

Lu Yang stared at the lonely half-moon and said, "The sword kills the fortress. I'll send it to you. Don't you dare."

"Ah?" Lonely for half a month, stunned, he guessed it just now, but he wasn't sure, he wasn't stupid, and knew what it meant to take the two forts, but he didn't dare not take it.

Lonely Half Moon said, "Chairman Lu Yang, I took the sword to kill the fortress of God. Neither Mai Lizhe nor Li Xiuyu will let me."

Lu Yang said, "If you don't take it, I can't bear you."

Feeling lonely for half a month, he couldn't afford to mess with these three parties, but he couldn't even mess with Lu Yang. He gritted his teeth and said, "Okay, I took it. Thank you President Luyang for your success and let me take charge. A main city. "

Lu Yang said: "Okay, you dare to take it. I don't make it difficult for you to make an alliance with me or anything. I have a request from you. You announce the withdrawal from the Quartet Alliance. From then on, Iron King City declares neutrality. No Participate in any war between me and Wang Teng, Ma Lizhe, etc. If they dare to fight you, you will declare your trust in me and I will help you defend the city. "

Lonely Half Moon was happy, and said, "There is such a good thing, why."

Lu Yang said with a smile: "My enemies are not you. Who wouldn't want to make more friends when going out? Who wants more enemies? What I want to hit is Liu Jie, who killed Beifeng City and Benliu City. I will hit Bingshan City all the way, and go straight to the elves to find Liu Jie, what am I to you? "

Lonely Banyue laughed and said, "I'm relieved when you say that."

Lu Yang said, "Send someone to the Hammer Fortress and the Black Iron Fortress. By the way, prepare for the war. I'm gone, and the sword kills God and I still have to trouble you."

Lonely Banyue said with a smile: "The sword killing God has almost made you mentally ill. It is not a fear."

Lu Yang smiled at the lonely half-moon. The boy was so clear about the sword killing God. Obviously, he had always been indifferent to the sword killing God.

The light flashed, Lu Yang withdrew from the special space and returned to the Iron King City, watching the leaders of the various legions and affiliated associations who had been waiting for him saying, "Withdraw, the whole army will enter the Iron King City to rest."

"Ah?" Everyone was stunned.

"So go." Jiang Ze asked.

Lu Yang said, "Of course I really left."

[World Channel] Lonely Half-Month: I announce that I will accept the request of the Chairman of the Iron Brotherhood from today to occupy the Black Iron Fortress and Heavy Hammer Fortress. At the same time, as the Iron King City Lord, I will announce that Iron King City will withdraw from the Quartet Alliance Battle with the Brotherhood of Iron Blood, no longer participate in any surrounding wars, Iron King City is neutral!

Xia Yuwei asked Xiu Mei with a frown, "Boss, why."

Lu Yang opened the three-dimensional map and projected it to the ground, saying, "Don't be dazzled by victory. We only have more than 2 million people now. We can't hold 6 forts."

The Huayu Fortress, the Lanshan Fortress, the Echo Fortress, the Black Iron Fortress, the Heavy Hammer Fortress, and the Falling Rain Fortress are all facing the other main cities. Lu Yang simply understood it when everyone said it.

"I'm cheap and lonely for half a month."

Lu Yang shook his head with a smile and didn't speak. He sent a message in the simulation group and said: "Look at it. In the future, Iron King City will definitely make a mess, and lonely for half a month will take the slightest advantage."

Lu Yang did not continue to chase down the Iron King City to hunt down the sword and kill the gods of the players, it is equivalent to leaving a life for the sword to kill the gods, he can also gather

opportunities for counterattack, after all, is the boss with two fortresses ~ www.mtlnovel .com ~ There are still some details. As long as Lu Yang does not die, he has a chance to survive.

Although the guild leaders such as Mr. Yueban and Yinhua Ruojiu are small guilds, they clearly see things in this regard. Being able to be so calm about Lu Yang makes them feel a bit of real fear, and they dare not have any more in their hearts. Hostile thoughts.

Mr. Yueban asked, "President Lu Yang, why are we going now?"

Lu Yang said with a smile: "Revenge, go for one of my old predecessors."

"revenge?"

"Revenge for others?"

...

The crowd is a little bit unknown.

Lu Yang said: "Ma Lizhe, I'm looking for his obscurity. This guy is so fat that he dared to stop me from killing Wang Teng. How could he really play with me and Wang Teng?"

Broken Sky scratched his head and said, "Will it be too far away, we are tantamount to bypassing another main city."

Tiewang City and Hongyue City do not have a straight path, so you need to go to Benliu City first.

Lu Yang said, "Do you think Li Xiuyu dared to go out of the city to cooperate with Mai Lizhe to attack me?"

Everyone shook his head.

Lu Yang said with a smile: "So what are we afraid of? Let's go with Li Xiuyu and scold him for a few words. I'm annoyed at this little white face now. He's nothing without a slang word."

Everyone laughed.

Lu Yang called the city leader Liang Yun of the Emerald City and said, "Brother, I'm going to demonstrate Li Xiuyu here. You are ready, Liu Jie's main force will be withdrawn."

Liang Yun patted the table and said excitedly: "Brother, you are playing beautifully, I have been waiting for your call, okay, I will gather the troops, as soon as Liu Jie's main force is gone, I must attack the whole army. Let Liu Jie's 4 million people die back to Zijin King City. "

Lu Yang laughed and said, "Then I wish you every success."

#### Chapter 745 - Xue Yiming's letter

The great drama of this battle is finally going to take place. Lu Yang can't wait to get on the stage. He is leading 5 million troops toward the running city.

The Rogue City Rogue, who was responsible for monitoring Lu Yang, immediately reported the incident to the silk language.

"Not good, Lu Yang is coming towards us." Lu Si said.

"What?" Li Xiuyu panicked. He said, "Is Lu Yang crazy? He dare hit me. Does he have this strength?"

The silk language said: "He has 5 million people, we only have 2 million people, it is difficult to hold the fortress, and quickly find Wang Teng and let him come back to help."

Li Xiuyu quickly nodded and dialed Wang Teng's intercom, and asked, "Where are you? Lu Yang called me."

"I know, it's going to go to you, shit, this fight is really wrong." Wang Teng cursed.

Who would have thought that 6 main cities, 10 guilds, and 12 million coalition forces would be defeated by Lu Yang's special forces using the terrain to defeat the entire army, and even the Quartet alliance was split.

Li Xiuyu asked: "Mr. Wang, is Xiao Liang's army so difficult to fight? You haven't beaten for 5 hours?"

Wang Teng said: "I haven't played for 5 hours, and you will not play after the black level defeat on your side."

"What?" Li Xiuyu anxiously said, "You, how can you do this."

Counting the time, Wang Tengduo said that he played for an hour, and then watched the battle.

Wang Teng said helplessly: "I also don't want to hear the news from Huang Xiang. Lu Yang's special forces have been exposed. It is a 60-level professional player composed of 100,000 people.

Their equipment is the top-level dark gold set produced in the Blood Demon Temple of the level 60 hundred-person nightmare replica, and a type of equipment called excellence gold that we do n't know where to fight. We are not opponents at all in the wild. "

Li Xiuyu's eyebrows were twisted together. He saw the picture passed by Wang Teng. This was obtained by Huang Xiang from the Iron Brother Brothers League. Looking at this piece of equipment, Li Xiuyu had no idea what to say.

“The defense power of these equipment is higher than the attack power of level 40 gold players. How can this be played?” Li Xiuyu said.

Wang Teng said: “I sent these equipment to Jie Shao, and he immediately stopped my attack. Jie Shao has begun to retreat from the front. He will personally bring the elite troops to support us. Now you and I can do The only thing is to increase the number of fortress cannons, and increase the equipment for 50-level mage and shooter players. Fortunately, he only has 100,000 people. “

Li Xiuyu said in surprise: “Jie Shao came here in person?”

Wang Teng shook his head and said, “Jie Shao couldn’t come in person. If he left, the 4 million people would be defeated. Even dead grass could not go. He asked Yaowu Yangwei to bring 500,000 level 50 players. This is All the high-end combat power in his hands. “

Li Xiuyu breathed a sigh of relief and said, “It’s enough, Lu Yang’s elite troops can’t withstand the group attacks of level 50 gold players.”

Wang Teng said proudly: “Maybe we still have a chance to destroy Lu Yang’s 100,000 people. As long as he hurts him once, Lu Yang would not dare to use these 100,000 people to attack at will.”

Li Xiuyu asked, “What good ideas do you have?”

Wang Teng said, “The idea came from Jie Shao. He said that if Lu Yang really hit the Canglang Fortress, he is going to hit Lu Yang with an ambush.”

In fact, the idea was dead grass. In the face of Lu Yang, who was suddenly so strong that everyone felt scared, dead grass and Liu Jie and others worked hard to figure out a way to come up with such an idea, using Li Xiuyu’s The fortress stayed dead. Once Lu Yang fiercely attacked, when Lu Yang’s attack was exhausted, let 500,000 level 50 gold-equipped players raided and killed Lu Yang’s 100,000 people with a ratio of 5 to 1.

Among the 500,000 level 50 gold players, there are also many level 60 players. Liu Jie was really scared this time by Lu Yang. He gathered all the level 60 players in the guild together, a total of 5 Ten thousand of them, there is exactly one named Xue Yiming.

At night, the ridge of Tianji Mountain leading to Bingshan City, 500,000 players are running at full strength.

“Hurry up, hurry up.” The landlord’s son was very excited. He participated in the battle as Liu Jie’s special unit for the first time. This was what Wang Teng fought for him. He knew that he would fly Huang Tengda in the future.

“Brother Xue, it’s all up to you to fight this time. You are the main force in my hand.” The landlord’s son said, his position is the captain.

Since Xue Yiming reached level 60, he has shown a high level of game talent. Although everyone can see that he is a novice with incomplete game skills, however, his ability to react in combat is much stronger than ordinary people, even if Hit by an unknown skill, he can also avoid most of the skills at critical moments, leaving him with only a small amount of damage.

The landlord’s son felt that he was not Xue Yiming’s opponent. To this end, he specially transferred Xue Yiming to his army and appointed him to take the lead.

Xue Yiming said with a smile, “Relax, you don’t understand my method yet, just a few people can’t beat me.”

The landlord’s son showed a satisfied expression, and he felt his opportunity came this time.

Xue Yiming saw the landlord’s son in a fantasy and turned his head to continue running. He is very anxious now and wants to pass information to Lu Yang. This army of 500,000 people is Liu Jie’s unit and is much better equipped than others Now, he is still sneaking on while he is night, obviously going to fight Lu Yang, he is afraid that Lu Yang will suffer.

“Attention later, I will soon enter the tunnel. No sound is allowed, no live video, no chat, no talker is allowed.” A player with a scar on his face and a fierce face stood sharply in front.

Xue Yiming looked up and found that he had reached a ravine, with mountains on both sides. On the side of the mountain, a very inconspicuous place, there was a narrow gate supported by wood. .

Every time a person passes, the player with a scar on his face repeats it. When Xue Yiming went in, he and the player with a scar on his face looked at each other, and quickly walked in after seeing the other person's appearance.

The cave was very dark in the beginning and then became very bright. Xue Yiming adjusted to the light and looked around, and found that it was a very wide underground passage. On the walls on both sides, a crystal lamp illuminated the surrounding road every 10 meters. .

Many dogheads are maintaining order in the cave. Their names are green. Obviously, Liu Jie's reputation in the doghead people has reached above respect.

Running along the channel, it took about 10 minutes. A bright and spacious entrance appeared in the front. Players can do 10 rows in the cave. The front channel is getting wider and wider, and it can hold the next 50. Personal and exhausted.

Xue Yiming looked out as the army walked out of the gate, eyes widened in surprise, and said, "This, how is this a fortress?"

System prompt: you found Glacier Fortress

No one on the two sides of the gate responded to Xue Yiming, and everyone who came for the first time made the same exclamation.

Yao Wuyangwei watched the players coming out and shouted, "Everyone pays attention, there are people who are responsible for dispensing medicines, maintaining order, moving forward quickly, and not wasting time."

Xue Yiming looked in the direction of Yaowu Yangwei's fingers. A group of more than 40 players are responsible for dispensing medicine. His eyes lightened, he quickly walked to the front of a person, patted his shoulder, and said enthusiastically: "Tiger King, Why are you here?"

The tiger king saw Xue Yiming's surprised look, and looked up and down Xue Yiming said, "I rely on, brother, you have really entered the elite group of Jie Shao."

Xue Yiming said proudly, "That's right, man. I'm very good."

The King of Tiger nodded. He heard about Xue Yiming and knew that the boy was very powerful. He said with emotion: "The studio we entered together, I didn't expect your boy to mix so well so quickly, and I was so garbage. . "

Xue Yiming patted his shoulder and said, "Who are we with, who are you going to in a while?"

King Tiger said: "We will dissolve after delivering the medicine. Our batch of people except you left only 50 people, all passed the review. Now the guilds are fighting, and no one has time to control us ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ We can only upgrade ourselves, but we are not equipped. Where can we upgrade? "

Xue Yiming looked at the tiger king's sullen look, and there was a glimmer of hope in his heart. He was worried that he couldn't find anyone to help him pass the message. This tiger king could just help.

"Brother, I will soon be promoted to the captain of the elite group. If I get promoted, you will not follow me." Xue Yiming asked.

Tiger King was worried that no one was carrying him, his eyes lit up and he said excitedly, "Brother, you are so interesting, I certainly am willing."

Xue Yiming put his mouth to the Tiger King's ear and said, "Then you do me a favor, originally I promised Nini from Honggefang to go and give him a show today. I can't go anymore because of this. When you go back to the city, go Red Songfang helped me give her 10 gold coins. "

The king of tigers froze and said, "I don't have that much money."

Xue Yiming said: "I'm not looking for you to borrow money. I deposited 10 gold coins in the bank. You helped me with it. The counter number was 10000981069. The password was 68868. Then I shouted in the channel, Xue Yiming loved you for ten thousand years. . "

The king of tigers looked at Xue Yiming silently and said, "Brother, you are too ..."

Xue Yiming blushed and said, "He is my first love, mom, and I can't think of doing this. I have loved him for more than ten years. Now I have a chance not to fight it once. I'll go soon, regardless of whether he's live or not. You go in and shout for me, I chase her to the end. "

The Tiger King nodded in understanding, patted Xue Yiming's shoulder, and said with a smile on his face, "You can rest assured that I will go here when I am busy."

"I knew you meant it." Xue Yiming breathed a sigh of relief, and he knew that his task was finally completed.

All Nini's materials can withstand any investigation by Liu Jie, and he began to lay out after successfully mixing into the studio.

#### Chapter 746 - Liu Jie's defeat

Originally, he wanted to find two girls for cover, one live broadcast during the day and one live broadcast at night. Once there was a problem, he would send the news he wanted to post to this girl's live broadcast room. Every day, Lu Yang arranged a special player to go watching the live broadcast, they set Xue Yiming as the focus of attention. Anything about Xue Yiming will prompt immediately.

What Xue Yiming said just now means that Liu Jie launched a sneak attack on you.

"Hurry up and get the medicine and go to the respective team." Yao Wuyangwei shouted with a frown.

The deputy head of the regiment said with a smile to Yaowu Yangwei: "Brother, you are in danger and you have been ordered. This battle is over. In the future, at Jie Shao, we in the 880 Group Army will definitely be able to overwhelm the 977 Group Army. "

Yaowu Yangwei calmly said, "Hope, this battle is not easy to fight. These 500,000 people were temporarily assembled, and the medicine was given to me without supplies. It was not easy for me to take them from outside the Emerald City to Glacier City. Fortunately, supply points have been arranged here, otherwise, I would not dare to fight this battle. "

Withdraw from the battle from the Emerald City, gather troops, and fly back to the fortress outside the Purple King City collectively, gather troops again outside the city, and then run a small path across the Tianji Mountain to the human race, and then take a dark road to the Glacier Fortress. In three hours, he was able to do this, and he was the only professional army who came out of the field army.

The fire burning camp admired him very much, and saw the personnel gradually assembled, shouting: "1 regiment to 4 regiments, go clockwise out of the four gates."

Xue Yiming belonged to the 3 regiment. Following the troops, he glanced back at the Tiger King and motioned him not to forget.

The King of Tigers had finished his work at this time. When he saw the large troops leaving, he asked the 60-level leader around him, "Why do we then go?"

The leader is more friendly. He knows that these people may be his direct reports in the future. He said with a smile: "I can't take you up today. I have to join the battle. Report to the guild. Remember, today's Things must not be said. "

"Relax, boss, we are all the people who have received the total salary of Wang, who will break their own rice bowls, right?" Tiger King said, he has decided to do well here.

The leader nodded with satisfaction and said with a smile, "Go back."

Fifty people walked aside and looked at each other. They were already familiar with each other. They stayed and upgraded together for 10 days. One of the more detached players said, "Now I can't stay in

the guild when I go back. Now, let 's not go back in a hurry, it 's not easy to have free time one day, we will be able to play. ”

“That’s a good idea. It’s not fun to play the game for such a long time. I don’t know what is fun about this game except the copy is the copy.”

“It’s settled. Let’s go back at about 4 o’clock in the evening. No one should go back first. The ban on chatting will be lifted at 4 o’clock. When we come back together, someone asks and says it’s just busy.”

They are a group of young people who have just joined the work. Few are willing to be bound by various rules and company regulations. They have a chance to go out and play.

The same is true for Tiger King. He did not take this matter seriously. After flying back to the main city using the city roll, he went directly to the bank to complete Xue Yiming’s commission. Since he entered Wang Teng’s company, he naturally wanted to climb up. However, he doesn’t know anyone, and now with the help of Xue Yiming, a member of the elite group, he feels that he will soon be promoted and raised.

The bank of Zijin King City is near Red Gefang. After Tiger King entered the bank to withdraw money, he entered the Red Gefang. As soon as he entered the house, he was attracted by the dim red lights inside. Countless beautiful women in costumes were wearing silk. Clothes dance on the stage.

“This friend, is this the first time, my sister is here to introduce you.” A woman who looks thirty-seven or eighty-year-old is swaying in front of Tiger King.

The Tiger King walked into this kind of place for the first time. He shyly glanced at the woman and blushed instantly. Although the red manager ’s lobby manager, Red Sister, was in her 40s, she was very well maintained, and she also beautified herself in the game. After a while, it was even more like her unique style.

This place was opened by her. Before that, she was a senior live broadcaster for more than 10 years. As she got older, fewer and fewer people watched the live broadcast. He thought that this would not work. Appeared and rescued him.

The King of Tiger did not dare to look at Red Sister's eyes, and said a little shyly, "I want to find Miss Ni Ni."

"Nini? No problem, she is dancing live. Go to the private room on the 21st. Brother, you really have a vision. Nicole is the top ten beauty in our Red Song Square."

The King of Tigers didn't know how to deal with Red Sister. He looked around in panic, found the private room No. 21 and walked in quickly. As soon as he entered the door, he took a breath and found a place to sit down. There was a small stage in front of him, and Nini was broadcasting live on 360 degrees without dead ends.

On the stage, Nini was dancing. The tiger king was quickly attracted by the dance. After the dance, Nini wiped the sweat on the neck with a silk scarf. The white skin made the tiger king straighten his eyes.

"Brothers, people jumped in vain, and no one gave them gifts ~~~" Ni Ni said coquettishly.

"Fairy," said the tiger king, rewarded Nini with 10 gold coins, and typed and shouted, "Xue Yiming has loved you for ten thousand years."

Nini's face remained unchanged. He didn't have any impression of Xue Yiming, but just felt that the name seemed familiar, but he couldn't remember where he heard it.

"Thank you, brother." Nini stroked a heart shape.

The King of Shakes shook his head in disappointment, turned and left here, and said with a mockery: "Fuck, I have to work hard to upgrade and find such a fairy in the future."

He went out to upgrade.

What he didn't know was that just when he shouted that sentence, another player watching Nini's live broadcast instantly straightened his body. He sent a message to Jin Buhuan and said, "Boss, Xue Yiming passed the password: Xue Yiming loves you a thousand years."

After speaking, he continued watching the live broadcast quietly.

Jin Buhuan immediately passed the news to Lu Yang. At this time, Lu Yang took 5 million people to the front of the Canglang Fortress. He was scolding Li Xiuyu and Wang Teng on the city.

“Someone you hit me, you hit.” Li Xiuyu scolded arrogantly, he wanted to arouse Lu Yang’s anger. Once Lu Yang sieges the city, he can’t attack within 1 hour, then 500,000 people can Arrived, can definitely kill Lu Yang a big defeat.

Lu Yang saw the news from Jin Buchang. Xue Yiming loved you for 10,000 years. The translation is only available here. Xue means Liu Jie, Yi means senior players, Ming means very urgent, and Yi means a master. City, million is a lot of people.

Taken together, Liu Jie sent a lot of senior players to hit you, and there is only one main city away from you.

Above the running city is the iceberg city, Xue Yiming said, apparently, Liu Jie’s elite army has quietly withdrawn and has reached the iceberg city.

Lu Yang looked at the shouting Li Xiuyu and Wang Teng on the city, and said loudly, “General Manager Wang and Li Shao, you two are so nervous about what to do. I’m not here to beat you.”

Li Xiuyu and Wang Teng looked at each other in surprise, and Wang Teng cursed, “What are you doing here?”

Lu Yang rode on the Red Flame Lion King and said with a smile: “I went to play Merritt. I passed by here and looked at the two by excuse. What a fuss.”

“What?” Both Wang Teng and Li Xiuyu were stunned.

The silky words said, “Are you going to play Merritt?”

Lu Yang said: "Yeah, the merry boy like Me Lizhe thought that he could use the Quartet Alliance to play a war of attrition between you and me. He was so fat, now that the Quartet Alliance is almost disbanded, I naturally want to find his account."

Wang Teng and Li Xiuyu were speechless, but the silk language frowned. Suddenly, he reacted, pointing to Yangyang and cursing: "Asshole, you dare to lie to us."

Lu Yang laughed. He knew that the silk language had reacted, and arched his hand and said, "Speak to Liu Jie for me. I did it on purpose, and went to the Red Moon City."

People such as Zhuoju Qingyun and White Lion laughed loudly ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ As Lu Yang led the troops towards the Red Moon City, Wang Teng and Yun Siyu stood angrily on the wall.

Li Xiuyu asked, "What's going on, why are you two angry?"

Wang Teng said, "Why don't you understand that Jie Shao is taking 4 million people to fight against the Emerald City. These 500,000 people are the elite in his army. These people are withdrawn. A large number of main forces, if Lu Yang and the City of Emerald have discussed this matter, then Jie Shao must have suffered now. "

The silky words said: "Call Jie Shao quickly, and let him quickly bring people back."

Wang Teng nodded and immediately reported the situation to Liu Jie.

Liu Jie sneered and said, "Thanks to Brother Liu, it's not your word, I really have a big loss in this battle, let's go."

The gates on both sides of the Emerald City were wide open. Liang Yun rushed out with his troops. He just received a call from Lu Yang to inform Liu Jie that his main force had been transferred.

"Kill, this is the chance, just entangle them." Liang Yun planted so many secret agents under Liu Jie's hands, how could he not have thought that so many people did not know that Liu Jie secretly sent

someone away, he felt himself Liu Jie had been bought through by the secret agent forces, for which he awkwardly apologized to Lu Yang again and again.

Seeing that Liu Jie's troops had retreated, Liang Yun's anger was vented under nowhere but only to Liu Jie. Three million people were all sent out to attack Liu Jie.

From the perspective shared by Liang Yun, Lu Yang and others saw that Liu Jie's troops had collapsed on a large scale.

Xia Yuwei said: "This time Liu Jie is going to lose a lot."

Bitter love said for a long time: "Let this \*\*\*\* always think about hitting us, Liangyun cheer."

Lu Yang said with a smile: "This battle will teach Liu Jie a lesson."

#### Chapter 747 - Merritt retires

He was lamented in his heart that he was not strong enough. If he was strong enough, he could now lead his soldiers straight to the Iceberg City, cross the Tianji Mountain to attack the Purple King City, and attack Jie Liu before and after the cool clouds of the Emerald City.

Unfortunately, if he dares to do so, the holy city, imperial city, and Hannibal may all be lost.

It takes 10 seconds to use the return to the city roll. Once Lu Yang's 5 million people are in a state of war, there is no way to use the return to the city roll. At this time, the main city is attacked, and the fortress can only be seen.

In the previous life, this situation happened. When the hegemon dominated the world, he lay down two main cities in a row. During a battle, his main forces were surrounded, and all the fortresses he controlled were all hostile players in the main cities. Attack down.

These people may not be able to occupy the fortress, but they can sell assets. At that time, the hegemony was irreparably damaged. Every fortress hotel, auction house, fortress hall and other facilities were sold. When he returned, , The bricks on the wall were sold.

Lu Yang didn't want to have such a situation. Playing games was not a real war, and there would not be a real dead man. An ambitionist would only dare to attack if there were dozens of people, and a few thousand would dare to attack the city.

Losing is nothing more than losing two pieces of equipment and being hunted by the Jagged Brothers League infinitely. The map is so large that these people just run. It is not related to them to lose those ordinary players. Lu Yang can also attack a player who sneaks into him. Are they hunting indefinitely?

Lu Yang shook his head and continued to lead the team towards Red Moon City. He called Liquor Qingfeng and asked, "How is your side?"

Below the winterless fortress in the south of Nikko.

Liquor Qingfeng looked at Mai Lizhe on the city head and pressed the release button and said, "I and the bully together, nearly 3 million people are attacking Mai Lizhe. He can't get away."

Lu Yang said, "Okay, now I'll go and destroy Merritt's fortress and sell all four of his forts, depending on what he will do."

Luo Siyu snickered beside him and said, "That's a good idea."

Xiongba glanced coldly and said, "It's still that bastard."

The hegemony was still worried about Lu Yang's expulsion of him from the city of St. Gall. The hegemony of the joint war refused to talk to Luyang although he joined.

Liquor Qingfeng was afraid of the overlord's misunderstanding, and quickly took the conversation and said to Lu Yang: "If there is any problem, we should contact more."

Lu Yang heard the words of Xiong Ba, and he did not think that he was defeated. The defeated man would always have an excuse. If Xiong Ba was doing things authentically, Lu Yang would not be able to drive him out of the holy city. Still, "Second World" is not only a game, it is also a war. If you lose and complain, you will never become a climate.

He hummed, turned off the receiver, and led the army towards Red Moon City.

Lu Yang suddenly led his team to leave the Canglang Fortress to Red Moon City. This move disrupted the forces of the Terran and Elven warring parties.

Liu Jie led a coalition of 4 million players and was beaten by the cool clouds of the Emerald City. Yaowu Yangwei failed to respond to several requests. However, he decided to continue to defend the Canglang Fortress.

Red Moon City Master Ma Lizhe was fighting fiercely with the two forces, Xiongba and Liquor Qingfeng. Suddenly he learned that Lu Yang was attacking his fortress with 5 million people, and he was overwhelmed.

Neverwinter fortress, inside the fortress hall.

"What should we do? We must quickly stop the war and send someone back to stop Lu Yang's attack." Mai Lizhe looked at the crowd in a panic.

"Boss, now we can't withdraw even if we want to withdraw. Xiongba and spirits breeze must have discussed with Lu Yang. They attacked us so wildly that our main force could not withdraw at all." Vice Chairman Yong Ye said.

The first vice chairman, Lin Kai, said: "If we retreat, the fortress that has just been beaten will be taken back by the spirits and breeze. They will not be able to keep it."

Ma Lizhe said: "How can the four strongholds in Sunshine City compare with Red Moon City, where we are, and we must not lose them, the troops retreat in batches."

Lin Kai and Yongye nodded, and ordered their troops to gradually withdraw from the city walls, use the fort to return to the city, and fly to the Moon Shadow Fort.

Moon Shadow Fortress.

The first fortress that Ma Lizhe laid is also his best-developed fortress. The internally-built hotel, auction house, and other facilities have all risen to the top level. It can be said that the Moon Shadow Fortress is not only a fortress, but also a Super Auction Bazaar.

The main reason for this situation is the unique geographical location of the Red Moon City. The iceberg city above him has no road to connect with the Red Moon City. You must walk to the rushing city to reach the Red Moon City.

Nikko City on the right belongs to the old man of the twilight, and the twilight is insufficient to make progress.

Underneath the Red Moon City is the Shadow City. Although the Shadow City is unified, its unified approach leaves him with no aggressive ability, and the internal dragons and snakes are mixed and self-care.

On the left side of Red Moon City ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ is Benliu City. When Li Yang was about to attack Beifeng City, he led the Quartet to force Lu Yang to stop attacking, which is equivalent to saving Mai Lizhe and Li Xiuyuyi. Life, therefore, Li Xiuyu's alliance with Ma Lizhe was very solid before solving Lu Yang.

Relying on these advantages, Li Xiuyu is fully developing the Moon Shadow Fortress. When the most prosperous month of the month, senior players in Shadow City, Benliu City and Red Moon City will gather in this fortress to host a grand auction.

Because of its growing reputation, players who are far away from the main city would rather spend gold coins and bring their babies to auction here.

Li Xiuyu would rather not have the four fortresses in Nikko City, and would not dare to lose the Canglang fortress. He stood on the west side of the Canglang fortress and looked at the distance and sighed and cursed: "Li Xiuyu, Wang Teng and the sword killed God, they are really waste. 12 million people can't beat Lu Yang. Now Lu Yang is hitting me. "

Lin Kai looked at Hong Yingxue and asked, "Have you ever fought with Lu Yang's troops? What are their strengths?"

Hong Yingxue nodded with emotion and said, "I didn't fight, but I have seen Lu Yang's general Zhou Tianming attacking the lonely half-moon."

Mai Lizhe raised an eyebrow and looked at Hongyingxue and asked, "How did he win? I still don't understand the battle."

With the strength of 300,000 players, it is still a partial division under Lu Yang. It is not a unit of troops. It can still play such a might and wipe out the 1 million main force of the lonely half-moon. This does not exist in Ma Lizhe 's view. Things.

Hong Yingxue's eyes were a little confused, saying: "Zhou Tianming didn't use any clever tricks, he just fought hard. His troops were so crazy, 300,000 people faced 1 million people, and they rushed forward. Zhou Tianming is still in the forefront. "

Chapter 748 - Lu Yang splits to attack Red Moon City

"Then you won?" Lin Kai asked.

Hongyingxue nodded and said, "I'm not a commander on the spot. I can't understand how to win, but when I saw the charge on both sides, the momentum of the Iron Brotherhood was like a giant. Almost, if we play in the wild, our 1 million people don't feel like Zhou Tianming's 300,000 opponents. "

Ma Lizhe frowned and said, "Is it so strong?"

The first legionnaire Red Wolf said: "The battlefield battle is focused on momentum, but also in the training of players in each legion usually, Zhou Tianming usually leads his players to train."

Hong Yingxue said: "I have heard that the Brotherhood of Iron and Blood is a guild developed in the war. Seeing them fighting is indeed like a group of players who have experienced countless wars. They cooperate well."

Mai Lizhe's brows are even tighter. He usually doesn't pay attention to leading his men to upgrade. He prefers to let his hands work harder and draw them cakes after reaching his standard. This saves money and effort.

"Boss, the fort we occupied was recaptured by the spirits and breeze." The second army chief reported.

McLeod has already seen that in his system prompts, all four fortresses have been broken.

Liquor Qingfeng stood under the city of the day fortress and called Lu Yang. "We have taken back the four fortresses in Nikko. The army of Ma Lizhe has returned to Red Moon City. Thank you, President Luyang, boss. Hearing the news, he drank an extra bowl of porridge. "

Lu Yang said with a smile: "You tell Chi Wu, I'll hit the Red Moon Fortress."

Liquor Qingfeng said, "I'm here to help. The hero is not here. I can gather about 500,000 people."

Lu Yang said: "It's enough to come to these people. You can directly lead the soldiers to gather with me under the Moon Shadow Fortress."

These people are the most elite troops of the old man, and they are the most loyal players. Even if he enters the hospital, Lexus does not pay them, but still obeys the command of the strong liquor and is loyal to the guild.

“Okay, here I am,” said Liquor Qingfeng.

Lu Yang closed the intercom and informed Xia Yuwei and Zhuojiu of the news of the spirits Qingfeng.

“Why didn’t Xiongba come?” Xia Yuwei asked.

Lu Yang said with a smile: “It’s still possible to blame me, unfortunately, if he can come, Mai Lizhe is doomed to escape.”

The 2 million troops of the hegemony entered the Red Moon City, and Lu Yang still had 5 million here. Even if Lu Yang did not move, only the hegemonic people could destroy the other three fortresses of Ma Lizhe, and finally 7 million people besieged one fort , Merritt must be hit to the lost fortress and disband the guild.

“Unfortunately, the male domineer is the male,” Lu Yang said, shaking his head.

Inside the Red Moon City.

McLeod was the first to get the news of his dominance, which made him very excited.

“It’s great. Without the hegemony, 3 million of us face Lu Yang’s 5 million, and there is no problem in defending the Moon Shadow Fortress.” Mai Lizhe said.

He can give up the other three fortresses temporarily. The only thing he can’t give up is the Moon Shadow Fortress. Lin Kai and a few of them have analyzed it. Even if Lu Yang lays down the fortress, he will not dare to leave, but can only retreat.

The old fortresses on the old side of the twilight all feel that their defense is insufficient. They have no ability to touch his three fortresses. As for the hegemony, they have no such vision.

He now only needs to endure revenge from Lu Yang!

Lin Kai breathed a sigh of relief, saying, "As long as we breathe this breath, we can get back in time sooner or later."

Hong Yingxue said: "Lu Yang's main mage team has used the forbidden spell. Our mage units have not used it yet. There is no problem in defending the Moon Shadow Fortress."

Mai Lizhe was more at ease, gritted his teeth and said, "As long as I survive this time, I must first kill the twilight and the hero."

"Reporting boss, Lu Yang's vanguard troops appeared." The head of the reconnaissance regiment sent a message to Mai Lizhe.

Ma Lizhe looked up into the distance. At the end of the Red Moon Plain, a thin black line appeared on the horizon.

Lu Yang took 5 million people to approach from a distance with a sweeping gesture. More than 10,000 thieves such as Han Sha were hiding in front of the army and moving on both sides of the army. A large number of the thieves under Me Lizhe were killed.

"It's crazy." Mai Lizhe scolded his teeth.

Lu Yang rode on top of the Red Flame Lion King, and took 150 immortal warriors and forbidden mage groups to the front of the army.

Lu Yang, the president of the guild, dared to walk in the forefront, showing how far he had gone.

All the players in the Jagged Brothers League saw Lu Yang so arrogant, and he was very confident. In addition to Lu Yang, the leader of any guild dared to walk in front. Once the enemy set fire and attacked, they would be killed. Only their president dared to do so, this momentum increase is unmatched by any language.

Mai Lizhe stood at the head of the city and watched Lu Yang approaching 50 meters below the city ~  
www.mtlnovel.com ~ cursed: "Lu Yang, I have no injustice with you, what do you mean by hitting me?"

Lu Yang looked at Mai Lizhe and said, "You said to me that there is no injustice or revenge? Your Quartet Alliance has just played a match with Wang Teng and Li Xiuyu. How can you, as the leader, have no injustice?"

Mai Lizhe scolded: "It is clearly the war you started, how can you blame us?"

Lu Yang said: "I blame you. The same day in Hannibal City, you assembled 6 main cities and 12 guild presidents to jointly force me to sign a truce agreement, but you even let the sword kill God repeatedly participate in Liu Jie's attack. My war, what do you mean? "

Mai Lizhe said: "The sword kills God to participate in the war. What does it have to do with me? He has long betrayed the Quartet and fell to Liu Jie's side. If I did not want to maintain the relationship with Liu Jie, I would kick him out. Alliance. "

Lu Yang said: "Your ability to compose a story is very good, but unfortunately, it is useless to me. I will tell you Mai Lizhe. I am here today to seek revenge from Lu Yang. First, I reported that you joined many presidents to force me to sign. Revenge, secondly, I will revenge my ally, my ally, the old man in the hospital, and today I must settle your fortress.

Zhou Tianming is responsible for attacking Frost Cold Fortress, bitter love is responsible for attacking Poplar Fortress, and Sun Yu is responsible for attacking Red Maple Fortress. "

Each of the three legionnaires took 6 guild players straight to the other three fortresses of Red Moon City.

Ma Lizhe stood on the city's head and looked at Lu Yang's eyes red, pointing at Landing Yang and cursing: "How dare you hit my three forts?"

Previously, in the discussions between Lin Kai and Ma Lizhe, the worst result was that Lu Yang attacked his three fortresses. However, Ma Lizhe always had a bit of luck in his heart. Now he is disillusioned and thinks of the three forts. The cost of building up, Ma Lizhe's heart is bleeding.

Chapter 749 - Merritt vomiting coma

Lu Yang said, "Why don't I dare, your Ma Lizhe is now a bereavement dog. Without the Quartet Alliance, without Li Xiuyu and Wang Teng, what are you?"

"You?" Merritt was furious, but there was nothing he could do.

"I took someone to defend Frost Cold Fortress." Lin Kai said.

Ma Lizhe shook his head, gritted his teeth and said, "Those three fortresses are not needed. If we split our troops, we will be defeated by Lu Yang."

His main force above level 40 is only 2 million, and at level 40 is under 1 million. If he dares to divide his troops, he will only be abused if there are fewer people, and Lu Yang will defeat his Moon Shadow Fortress in the first battle.

The angry wolves and red wolves and others were helpless.

Zhou Tianming rushed to Frost Cold Fortress for the first time, seeing that there was no light on the city's head, and frowned, saying, "Strange, is this going to ambush us? Chihiro took someone to the city wall to inquire."

“Yes.” Spirited Away is the head of the investigation team under Zhou Tianming. He brought more than 20 thieves and shooters around on the mount to the city. He climbed to the wall with a hook and looked around. Spirited Away was excited. Looking back at Zhou Tianming below the city, he shouted, “Boss, this is an empty city, and no one is defending.”

“What? There’s this good thing?” Zhou Tianming rushed with interest to prepare to launch a beautiful siege battle. I did not expect that the enemy would not defend at all.

“The whole army stayed outside, and the elite group followed me into the city.” Zhou Tianming waved his hand and took more than 200 level 60 players behind him into the fortress. When he found no one, he called Lu Yang and said, “Boss, Nobody defends Frosthill. “

The spies who Tu Feng installed in the Moon Shadow Fortress have reported. Lu Yang said, “Go to the inner city and sell me the fortress.”

Zhou Tianming grinned and said, “Oh, hey, I don’t have a brick to sell him.”

System Prompt: Iron Brotherhood Occupies Frostwall Stronghold

System prompt: Zhou Tianming applies to sell the fortress hall

Zhou Tianming applies to sell auction house

Zhou Tianming applied to sell the hotel

...

Zhou Tianming applies to sell bricks on the wall

Xia Yuwei: “...”

White Lion: "..."

Dusty wine poured: "..."

The news of applying for selling was visible to all the guild players. Everyone saw that Zhou Tianming sold things and sold them all with a stomachache.

Lu Yang was also happy, and after a while, the bitter love half-life also began to sell, just like Zhou Tianming, the last one to start selling was Sun Yu, originally he was a bit embarrassed to sell the bricks on the city wall and saw two brothers He did all this, and he had no psychological burden, and he demolished the city wall directly.

In a blink of an eye, the three beautifully constructed fortresses turned into three barren mounds with no walls on each side and only some broken walls.

Mailizhe got so angry that the three fortresses were taken away, without any expression on his face, just staring at the landing sun.

Lu Yang knew that Ma Lizhe was dissatisfied, and said with a sneer, "Chairman Ma Lizhe, I know you must be thinking that as long as I can't break your fortresses, one day, sooner or later, you will grab these fortresses back.

Merritt doesn't speak.

Lu Yang said to himself: "I'm not afraid to tell you, I don't want your fortress, and I never thought of occupying your fortress. I just sold everything that can be sold in your fortress. Then, this fortress is still you of."

Ma Lizhe almost spit out the old blood, and he stared at the sun, saying, "You are fierce enough."

Lu Yang glanced at the income and said, "You're quite attentive. I sold nearly 30 million credit points in the three forts."

It took Mali Zhe nearly three hundred million dollars to build these three forts, and he was already angry to the limit. At this moment, Lin Kai held his shoulders.

“Don’t be impulsive. Lu Yang is intentional. He wants you to fight him out of town.”

Mai Lizhe woke up instantly, nodded, and said, “I know, I won’t leave the city.”

Mai Lizhe shouted to Lu Yang: “Don’t worry about President Lu Yang, I will not go out to fight with you. If you have the courage, come to attack my fortress.”

Lu Yang really wanted to fight the Moon Shadow Fortress, but unfortunately, he could n’t fight. Once he failed to siege, Li Xiuyu and Wang Teng’s troops were determined to support Mai Lizhe. At that time, Lu Yang’s men had not been able to resist the siege of the siege. The coalition that couldn’t hold the two, once it failed, Lu Yang’s intact situation just collapsed.

“President Lu Yang, I’m here.” Lie Qingfeng called Lu Yang.

Lu Yang looked to the southeast of the fortress, and the strong spirits and breeze ran over with the troops and beckoned and shouted, “Stop your troops in the distance, and all the people who are ready will call.”

“Good grin.” Liquor Qingfeng brought more than 1,000 people to Lu Yang. He smiled and said to Lu Yang: “These 1,000 people are all scolders, and those who were specifically sought by Ling Zhitian The manuscripts are all memorized and can be scolded at any time. “

Lu Yangle’s are all speechless, saying: “Ling Dashang still has this hobby, yes, but don’t scold me first. I scare and frighten Mai Lizhe to see if he can frighten him.”

The spirits breeze brightened his eyes and asked, “What are you going to do?”

Lu Yang smiled and looked at Merritt on the head of the city and said, "Merritt, although I do n't occupy your fortress, but you said that if I sell your three fortresses to Shadow City and Sea Snake Island, , How about giving one to the Bully for free. "

Mai Lizhe panicked for a moment. If his three strongholds were occupied by three guild players, he believed he could take it back, but the price paid would be dozens or even hundreds of times of the stronghold.

Ma Lizhe said to Lu Yang in panic, "What the \*\*\*\* are you doing?"

Lu Yang felt a play, he said: "To tell you the truth, I'm out of anger. As long as you promise not to participate in the war between Liu Jie and Li Xiuyu, I won't ask you trouble."

Merritt said, "I promise you."

Lu Yang said: "There is also a condition to send me those \*\*\*\* in your guild who scolded the old man, and I will kill them back to level 0 by myself."

"What?" Merritt was stunned, angrily pointing at Landing Yang. "What are the conditions? How can I give up my own brother?"

Lu Yang said: "Then I don't care. If you don't deal with anyone, I will contact them now. I don't believe they will be free of the three fortresses that come free of charge. Just because I can fall in love, maybe I can form an alliance."

Mai Lizhe was speechless. He felt that all his players on the wall were looking at him with eyes. In this case, how dare he do so.

Suddenly, Ma Lizhe received a message. He glanced at Lin Kai with Yu Guang, and found that Lin Kai's gaze was directly in front of him, and he yelled with his teeth in his heart: "Lu Yang, I fight with you, the whole army is out .... "

System prompt: Merritt exits the game

“President, what’s the matter with you?” Lin Kai hurriedly supported Mai Lizhe, only to find that he was offline.

Lin Kai pointed at Lu Yang under the city and cursed, “Lu Yang, you are cruel enough to faint us.”

Lu Yang froze. He didn’t expect Mai Lizhe to be so defiant, and he was fainted after only two such attempts.

“Eh, what is this?” Lu Yang was speechless.

Xia Yuwei and Zhou Tianming and others looked at Lu Yang, and they all expressed their congratulations.

“The boss is awesome. It makes people angry and dizzy.”

“It’s hard for Merritt. At such a young age, he will be so devastated by the boss.”

...

Lu Yang looked at the bitter love for half a life and waited silently, shrugged helplessly, he didn’t know what to say.

Inside the hospital ward.

The old man in the twilight saw the image of the strong wind from the liquor, and patted the table with his right hand, saying, “Sure.”

Lexus was taken aback, and seeing his father had nothing to do, he stroked his chest and said, “Dad, you scared me.”

The old man in the twilight said excitedly: "It's so happy, Lu Yang's trick is beautiful, haha, it makes me grandson to be angry with me, and he should also taste this taste."

Lexus shook his head and sighed, saying, "I didn't expect that this Lie Zhe was so crap. I also asked Liquor Qingfeng to prepare 1,000 people to scold him. I scolded manuscripts for a career choice. "

Old Twilight: "..."

"It is indeed my son." The old man in the twilight uttered such a long sentence.

Lexus smiled and said, "Of course, I don't follow you."

The old man in the twilight was speechless and said: "Send a message to Lu Yang, don't swear, it has passed out."

Lexus nodded, sent a message to Lu Yang, just sent it out, but saw the live TV ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ The Moon Shadow Fortress Ximen opened wide, more than 20 players rushed out of the fortress and came to the front.

The commander of the Second Army Haiyu pointed to the landing and scolded: "The old man is the one who stunned me with my brothers. Now everyone is here. There is a debtor and a owner. You Lu Lu wants to take revenge and kill us."

Lu Yang was ready to retreat when he saw the news of Lexus. When he saw the more than 20 people, he said to the left and right people, "I am so arrogant."

Lu Yang said to the sea fish: "Okay, you have a species. Don't leave anyone of you today. I will kill you to level 0. This matter is over and I will retire immediately."

Sea fish and others gritted their teeth and said, "Come on."

Lu Yang came to the front and turned into a 5-meter-high flame demon.

“Remnant Flame-Activated”

“Flame Storm”

“Blazing Bird”

“The Sun Fist”

...

More than 20 people died!

Yeyue Tingfeng waited for more than 20 priests to come forward and resurrect them using resurrection.

The spirits breeze came to Lu Yang and said, “Boss, let’s kill it ourselves and avenge the boss.”

Lu Yang looked at more than 1,000 people behind Liefeng Qingfeng and said, “Let’s take turns.”

Lu Yang stepped back, spirits Qingfeng and Luo Siyu and others rushed to the front with red eyes, and the clubs killed more than 20 people.

Yeyue Tingfeng and others resurrected using resurrection, and then they were killed again.

...

These people are all level 60 players. Each time they die, they lose 10% of their experience. It takes more than 600 kills to return from level 60 to level 0. This has never happened before the opening of “Second World”. Everyone can’t bear seeing this scene.

Lin Kai and Hong Yingxue were extremely angry when they stood on the head of the city, but when they saw Lu Yang's expression, all their anger turned into panic.

## Chapter 750 - Lakeshore City

What a bland expression that was, there was no trace of intolerance in his eyes, no trace of excitement, no trace of cruelty, and no trace of mercy, as if it was something that had nothing to do with him.

Where did they know that in the last life, Lu Yang had experienced this kind of pain himself. He knew that as long as he didn't pay attention, he would experience the same situation as in the previous life, after the death of his parents, the pursuit of enemies, exercise in Southeast Asia, and five years The mercenary experienced that his heart had already become hard-hearted, and this was just a trivial matter in the game for him.

Xia Yuwei, Zhou Tianming, Zhuo Jiu Qing, and other army chiefs were also deterred by Lu Yang's expression. They did not expect that Lu Yang would show such an expression, which made them even more admire Lu Yang. For them, absolutely Less than that.

All the players who followed Lu Yang were stunned by this scene. The flying camera in the sky captured this scene.

More than 30 guild leaders and more than 150 studio bosses looked at Lu Yang in horror, but Lu Yang looked at the slaughter in plain expression.

From another angle, Lin Kai and Hong Yingxue on the city's head looked at Lu Yang in horror, but Lu Yang still looked at the slaughter in front of him.

Liquor Qingfeng and Luo Siyu and others hated Haiyu these late-night old people, but even after they killed more than 300 times, they relented.

"Chairman Lu Yang, they have fallen to more than 20 levels, are they still killing?" Lie Qingfeng asked.

Lu Yang only said one word, "Kill."

Liqueur Breeze has a deep feeling, what a ruthless person can do this, continue to let the 1,000 people kill, originally a group of 20 people, 50 rounds of killing once, kill more than 300 rounds It has been 6 times.

“Continue,” ordered the strong breeze.

A group of 20 players who are ready to scold is also frightened, killing the first time is called revenge, killing the second time is happy, the third time is proud, and the fourth time when you look at the other party, you will no longer have revenge Feeling happy, now this is the seventh time, they are almost killed.

Inside the ward.

The old man in the twilight took a sharp breath and said, “This boy Lu Yang is ruthless, and he is a big man.”

Lexus touched his chin and nodded, “I like his style. There is an old saying that you taught me that it is safer to let others fear you than to let others fear you, and he has this meaning.”

The old man in the twilight nodded, without letting Ling Zhitian stop the slaughter, he continued to watch.

The spirits Qingfeng and Luo Siyu took the team to kill the sea fish more than 200 times. The spirits Qingfeng looked back to Lu Yang and said, “They have only 5 levels left.”

Lu Yang was very dissatisfied with the indecision of the spirits and breeze, and said to the people around him and Mufeng and others: “Go to 20 people and kill me back to level 0.”

“Yes.”

Han Sha’s 10 siblings, Mu Feng, and the Wasteland brought 10 people to the front of the battlefield. They replaced the strong liquor breeze, killing them cleanly 50 times, and didn’t even blink.

In the last resurrection, all the sea fish and other people were killed and returned to level 0. Standing in place, facing the attention of 5 million people below the city and 3 million people above the city, the sea fish could not wait to find a place to drill into. Among them, some collapsed. The player exited the game directly.

The sea fish glared at the landing sun, as if to say in a roaring voice: "Chairman Lu Yang, I did what you asked, should you withdraw your troops?"

Lu Yang looked directly at the sea fish and said blandly, "You are not qualified to talk to me."

"You." Marine fish helplessly, lowered his head.

Standing on the head of the city, Lin Kaiqiang endured the anger in his heart and said, "Chairman Lu Yang, we have fulfilled your request. I don't know if you can retreat."

Lu Yang looked at Lin Kai and said, "I hope this is the last time. I have said it more than once. My enemies are only Liu Jie and Li Xiuyu. They have no relationship with the rest of you. If you let me know Mai Li, Zhe plays with the plot of his little child. The next time I come, your other three strongholds will never be kept. "

Lin Kai was speechless.

Lu Yang raised his right hand and shouted with a loudspeaker: "The entire army turned around, and the latter army was in the army."

More than 5 million people turned around, and Lu Yang led his troops back 2 kilometers. At this time, Mr. Yue Ban and the presidents of the affiliated guilds, such as Yin Hua Rinjiu, all gathered around Lu Yang, each with a face on his face. Admiring expression.

"I'm really convinced, President Lu Yang, we are not comparable to your courage." Mr. Yue Ban said sincerely.

Heifeng Lao Yao and others fully understood what Mr. Yueban said, and nodded in harmony.

Lu Yang smiled and said, "I can achieve such a great victory this time. Thank you for your help. I thank everyone for your help."

"Don't dare to be."

"Don't dare to be."

"It should."

...

The president answered.

Lu Yang said, "I promised everyone that things would be done before. I will be here today, and everyone will disband the team."

"Thank you, President Lu Yang, then we leave first." What Mr. Yue Ban and others want is Lu Yang's last promise. After the war, they need to give their players an explanation. The troops left.

White lights lit up, and the 3 million affiliated guilds flew back to their main cities.

Lu Yang said, "Let's go."

More than 2 million people followed him and flew back to Hannibal City. Just after landing, Lu Yang called the White Lion and asked, "How is your side?"

Wilderness plain.

The White Lion was walking horizontally with 300,000 people and said, "Boss, I've hit the lakeside city."

Lu Yang smiled silently and said, "How did you run there?"

The white lion smiled and said, "The bosses of the four fortresses are not in harmony. They also calculated their own. Just half a month ago, they declared neutrality. The four of them never dared to come out again. Each of them shrank into the fortress. He came to the junction of the two cities. "

Lu Yang said: "It looks like I have to talk to the four presidents."

A bitter love asked, "Boss, why don't we kill four of them while our brothers are here, and we will have a lakeside city."

Lu Yang shook his head and said, "I can't take it up. We have few people. I have been lonely for half a month and I have been stabilized for a while. I will have to rebel sooner or later. Each of these four guys has more than one million players in their hands. Nearly 6 million people. If we fight against Beifeng City and Benliu City, their four internal rebellions, let alone Lakeside City, Hannibal will be in danger. "

To be sure, Lu Yang's attack on the lakeside city will surely win four strongholds, but after winning them, the four guilds will not be able to give in.

The war between him and Wang Teng and Li Xiuyu is getting closer and closer. Lu Yang finally stabilized the Iron King City. If the next war, the four people in the lakeside city are inserted into the knife, the lonely half-month of Iron King City will definitely be reversed. Water, at that time everyone was 60, and Lu Yangke was not so easy to play today.

Xia Yuwei and others nodded, and she asked, "What are you going to do?"

Lu Yang said, "Soothing, let me talk to them first."

He used special spaces to invite the four.

Lake City.

Four people, such as Extermination, Promise, Domineering Yokoki, and Romantic Assassin, are staying together at the hotel in Lakeside City to discuss countermeasures.

There was never a moment when the four of them were so scared. In the live broadcast room, they saw Lu Yang leading his soldiers to Red Moon City and sold three fortresses of Merritt. The persecuted Merritt fainted on the spot and his elite was killed back to 0 Level, this thing made them extremely scared.

In terms of military strength, none of the four of them are elite soldiers. The west side of the lakeside is mountains, the south is the lake, and only the back and east border Hannibal and Jianyang.

Since its emergence from this city, it has not encountered any attacks from other main cities. The four bosses of Lakeside City have become the fortress masters in the internal battle. The strength is very strong in the lakeside city, but it is very poor outside.

Before, they still felt good. In this battle, they were defeated by a 300,000 troops of the three males of the Bai Family, and they were able to understand what a gap is.

Now Tiewangcheng has declared neutrality, and the two bosses in Jianyang City have been struggling. Although the four of them have many people, they have insufficient strength. If Lu Yang comes to attack them, no one's fortress can be maintained.

"It's all because of that \*\*\*\* Mai Lizhe. We were fooled by him. Lu Yang never thought of coming to hit us. We even took the initiative to hit him. This is over. The fortress is a million dollars a month. ~  
[www.mtlnovel.com](http://www.mtlnovel.com) ~ Wuji said.

Extermination kills and regrets, "We all let Melizhe \*\*\*\* cheat."

The romantic assassin sighed and said, "No way, who knows that Lu Yang's troops are so powerful. We have 12 million people hit him and 5 million people. It is because he was defeated. What is this?"

“There are three of you. I have an appointment to fight together. The three of you run faster than one. If you lose, you will blame you if you don’t blame others,” said Domineer Hengqiu.

Killing the three people wants to get angry, but there is nothing to say.

“Well, it’s too late to say anything now, just wait for death.” Said the sigh of extinction.

“Will we gather our troops and fight with Lu Yang once?”

“Fight it. After all, we have 3.2 million people, and if we make up another 5 million people, we cannot give up the fortress so easily.”

“That makes sense.”

The four men desperately courageously encouraged each other, and at this time, their special space invitation reminder sounded.

A look at the killing point of the annihilation, looked up in surprise and said, “It was from Lu Yang.”

“So is mine.” Wuji said.

“mine too.”

“me too.”

Extinct killing his head, taking a cool breath, he said, “What is Lu Yang looking for us?”

Wuji said: “It won’t be persuasion, we will never surrender.”

Domineering Hengqiu said: "I don't feel like it. To be honest, in the field, his 100,000 and 60 players are not what we can compete with. Many people can't beat the 100,000 people. If we defend the fort, we will one by one Defensively, we can't beat him if he breaks. "

The romantic assassin said irritably, "Go and see first."

The other three nodded and clicked the confirmation button together.

#### Chapter 751 - Expand

In the office-like special space, Lu Yang was standing by the conference table and waiting, four lights flashed, killing four people came out.

Lu Yang said with a smile: "Four welcome."

Destroyer looked at Lu Yang in fear, and said, "President Lu Yang, what do you mean by coming to us? If it is to surrender, you don't have to say it, we will not surrender."

"Yes, we fight to the end."

"Defend the fort."

...

Lu Yang shook his head with a smile while looking at the four people's arrogant insiders, and said, "Why should I grab your fortress?"

“You don’t want our fortress?” Lu Yang looked at Lu Yang with a look of joy in the astonishment of the four killed, and their hearts raised a hint of hope.

Lu Yang said, “I never thought about your fortress. I have occupied Hannibal for so long. Have I ever found you or beat you?”

Killing four people and shaking their heads.

Lu Yang said, “Isn’t it that the four of you took the initiative to ask me for trouble from beginning to end?”

Killing four people with embarrassed expressions.

“Ashamed, Chairman Lu Yang, we were also blinded for a while.” Wuji said sorry.

Lu Yang motioned them to sit down, sitting in a chair with a smile, and asked, “Do you guys think that you can beat me together with Wang Teng and Li Xiuyu?”

The four were again embarrassed.

Lu Yang said: “Don’t be embarrassed, the game is like this, it is common to attack each other, but now you see, you can’t beat me, right.”

Domineering Hengqiu nodded again and again and said, “We are far away from your guild. You send 300,000 people and knock over 3 million of us.”

“It’s good to know this.” Lu Yang once again signaled the four of them to sit down and talk, and when they were all settled, Lu Yang said, “I’m not here to hit you this time. I want to sign a permanent relationship with you What do you guys think of a treaty that does not violate each other? “

“Never infringe the treaty with each other?” The four who killed the four killed stood up in surprise.

Wuji asked with excitement: "Are you really planning to let go of the four of us?"

Lu Yang said with a smile: "Sit down and talk."

After the four of them sat down again, Lu Yang said, "I never thought of hitting you. My goal is only Liu Jie, Wang Teng, and Li Xiuyu, and now add another Mai Lizhe.

You can rest in the lakeside city in peace. If you want to attack the outside world in the future, you can go to Jianyang City instead of my Hannibal City. I can assure you that I have no intention of invading you.  
"

Fenshisha frowned and asked, "Why? Why did you let us go?"

Lu Yang said: "You do n't understand now. When you also have three or four main cities, you will understand that recruiting players is not so easy. You ca n't recruit so many people because you ca n't give them the rights they want. And money, many experts can only watch them go to other people's guilds. I can't just destroy other people's guilds because of this. "

The four people who killed the world nodded clearly. They actually knew the situation best. There were only a dozen legions in a guild. The vice chairman said four more. The lakeside city capable of these two positions said a few. Thousands of people, when they are full, they can only watch their favorite masters go to the guilds of other people as the legions and vice presidents.

Lu Yang said: "The 16 main cities of the human race, I can occupy a maximum of 6, and I will have no strength to defend. Even if I come over, what about internal rebellion? Don't think that one person can serve the entire human race or even the entire country. All have been unified, and no one has that ability. Even if I have the ability, I defeated Liu Jie, and the Elves have to be defended. How can I have so many people.

I have no resentment with you, I do n't want to fight, and I do n't have the energy to hit you. I hope to sign a treaty that never infringes on each other. In the future, you can develop with peace of mind. I will also fight Wang Teng and Li Xiuyu with peace of mind. . "

Said Killing World: "Don't worry, I sign."

"I also sign." Wuji said.

"I sign." Domineering Hengqiu said.

"I sign," said the romantic assassin.

All four agreed to sign the contract.

Lu Yang smiled and took out a long-prepared contract and handed it to them and said: "The contract is here, you look at it, sign it without comments, we upload it into the system, and the whole service announcement, as long as you do not come invade me, I will never hit your lakeside city forever. "

The killing of the four people won the contract with excitement. The contract was very simple. As long as they did not launch the attack first, Lu Yang would not hit them. Where is there such a cheap contract for them? The four immediately said: "We This is signed. "

Lu Yang watched the four men sign the letter after scrambling. After getting the contract, he also signed the letter and uploaded the paper to the server.

[World Channel] Lu Yang: I announce that from now on, the Brotherhood of Iron and Blood and Lu Yang myself will never invade the lakeside city, as evidenced by evidence.

The four people killed in admiration sighed in admiration, and they all learned to land on the World Channel as they announced.

For a moment, World Channel became quiet.

"Lu Yang didn't hit Lakeside City?"

“Never invade on both sides?”

Tian Yao, Liu Jie, Wang Teng, Li Xiuyu, Lonely Half Moon, Xiongba, Late Evening, and Huo Tianhua and Shenhua were all stunned.

Inside Liu Jie’s special space.

Wang Teng cursed, “Why is this Lu Yang so difficult to deal with?”

The silk language said: “It’s not easy. Lakeside City withdrew from the Quartet Alliance. Lonely half month also withdrew. Only Jianyang City and Red Moon City were left. Mai Lizhe also vomited blood and was unconscious. The Quartet Alliance is dead in name. Now lonely for half a month is still neutral, the lakeside city and Lu Yang form an alliance, then Lu Yang can attack us without any worries. “

The dead grass said: “We urgently need to get Lu Yang’s rapid upgrade method and the strategy to open up the Blood Demon Temple. Without these two things, let Lu Yang raise his remaining 2 million people to level 60. Beifeng The city and the running city are over. “

Liu Jie nodded and said, “This is indeed a problem. Who can solve it?”

Beifeng City and Benliu City are the two nails that Liu Jie nailed to the human race. Sooner or later, he will return to the human race with the army. The orcs have confirmed that they cannot defeat Tianyao. Only the strategy of expanding the strength of the human race is his best choice.

Wang Teng said: “The 100,000 elite players who bought him have already experimented. These people cannot be contacted at all. Lu Yang has always forbidden them to communicate with the outside world.”

Li Xiuyu sighed and said, “Although the army commander under Lu Yang can be contacted, I have paid 10 million for the money, but the other party blocked me directly. Hey, I can’t get it.”

Liu Jie thought about it and said, “I’ll drive here first. I’ll think of a way. I can’t just wait and wait.”

The crowd nodded, and each withdrew from the special space.

Liu Jie didn't leave. He invited Huang Xiang to a special space and said, "Is there a way to help me get Lu Yang's quick upgrade bug and get through the blood demon temple?"

Huang Xiang said in embarrassment: "Jie Shao, this is a bit difficult. I have no reason to ask for this."

Liu Jie patted his shoulder and said, "If you can do it, you will be the vice president of my guild in the future. I will give you three legions for your command."

Huang Xiang's eyes were all bright, and he said excitedly, "Boss rest assured that I will get these materials for you."

Liu Jie nodded and said, "I'm bullish on you, don't let me down."

Huang Xiang nodded quickly, thinking about how to follow Lu Yang's strategy after exiting the special space.

Hannibal City.

Lu Yangzheng sat with the head of the Eighth Army Corps to chat, this time shooting Sirius came.

"Congratulations, you have achieved such a great victory, the boss is really beautiful." Shoot Sirius.

Upgrade bugs and Blood Demon Temple Raiders, there is already shooting Sirius, but Lu Yang did not let shooting Sirius upgrade with the wolf tribe, he was afraid that Liu Jie and Li Xiuyu would suddenly attack, and his strength was insufficient to resist .

Lu Yang said: "You also contributed. Now you can use the bug method to upgrade. I will give you another 10,000 sets of Blood Elf Island parts. You will let your players directly wear equipment to play a copy to speed up the upgrade. Speed ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Thank you, boss. "Shooting Sirius said happily.

Lu Yang said, "This time we have achieved a great victory. In a few days, I am going to hold a big party. You guys will prepare for each of them. I am going to take out a holy sword and give it to the main team leader as a prize. . "

"That's a good idea."

"Hey, when you hear the Divine Sword, you're probably going crazy."

...

Lu Yang said: "A few of you are ready to expand your army, and tell you the truth, the final rewards of the Goblin State-building missions you completed before can be received, and the prize is a fortress building robot."

"The fortress builds a robot?" Bitter love said for a long time: "It won't be possible to build a fortress in the wild!"

Lu Yang shook his head and said, "It is not possible to build a fortress in the wild, but you can build a fortress in a map cleaned up by us like the Steel Hammer Ogre Empire."

"Ah ?!" Xia Yuwei and Zhuo Jiu were excited.

"Boss, there is such a treasure, such maps are all over the world." Zhou Tianming said.

There are thousands of city maps similar to the Steel Hammer Ogre Empire from level 30 to level 60. This is only in St. Gall.

Lu Yang said: "This war stabilized the situation, so that I can let go of my hands and build the fortress."

He asked bitterly for half a life, "Boss, how many fortresses are you going to make?"

“I plan to build 16 forts on each of the main upgrade maps for the 30, 40, 50 and 60 levels in the four main cities.”

Shooting Sirius said: “I have a share too.”

Lu Yang nodded.

Zhuo Jiu poured out, “That’s the boss of 256 strongholds, a lot of money.”

Lu Yang said: “The average construction cost of a fortress is 10 million credit points, which adds up to a total of nearly 3 billion.”

Chapter 752 - Heinrich amulet

Everyone took a breath.

“So expensive?”

Lu Yang said: “Don’t look at the high price and high cost performance. At present, most players in the game do not choose to upgrade near the four forts, which is a great loss for us.”

A 30-level fortress can only accommodate up to 2 million players, but the surrounding map can accommodate less than 1 million players to upgrade, which greatly affects the player’s demand for the fortress.

Take the city of St. Gall as an example, most players over level 30 prefer to upgrade to a place without a fortress, and choose to return to the city when they are offline. Although it is very troublesome, no one is robbing.

The white lion cried poorly and said, “Boss, this idea is good, I don’t have that much money.”

Zhou Tianming, shooting Sirius and bitter half-life, including Xia Yuwei and Jiang Ze, could not take out so much money at once, nodded and looked at Lu Yang and begged.

The ratio of Lu Yang's share with them is half to half. Lu Yang built 256 seats, with an average of 8 people. Each team can get 32 fortresses. According to the price of 10 million, this requires more than 3 billion credits. Point, even if Lu Yang pays half of the money first, they have to get more than one billion.

Lu Yang said with a smile: "I won't let you take this money. You've followed me for more than a month this time. You guys are interesting. I'm not bad. I will give your team 16 for this fortress. The rest I will take the money to build first, and it will be fine if you pay me 10% of the money every month. "

This time is equivalent to Lu Yang sending out 128 fortresses. Their 8 teams only need to pay 50% of the construction cost of the 128 fortresses, and the remaining fortress construction costs are only required to earn money with the previous 128 fortresses It can be easily returned, which is equivalent to Lu Yangbai giving them a 50% stake in the 258 fortress.

"Boss, it's so interesting." Zhuo Jiu said with stun.

"That's 3 billion." White Lion said.

"Boss, where do you get so much money for?" Asked bitter love for a long time.

Lu Yang said: "It's not easy to build a fortress. It can't be completed all at once. The fastest is to build 8 together. It takes at least 1 day to build one."

Everyone nodded clearly.

"As for money, this war ended. We sold the fortresses of Red Moon City and Tiewang City and sold more than 100 million credit points." Lu Yang said.

"Hey, the sword kills God and Mali Zhe is half annoyed," Bai Hu said.

Lu Yang said: "This is only a small amount of money. Our biggest gain in this war is the smithy. You do n't know if you are fighting on the front. Now the order at the smithy has been booked up to one month later. Spare parts have been greatly welcomed, and Han Zhong has a net income of 20 million every day."

"Ah? So much!" Xia Yuwei asked in surprise.

Lu Yang said, "In fact, as long as I take out 1.6 billion, I can build these 256 strongholds in one month."

"Thank you, boss, that's a lot." Zhou Tianming said.

The crowd nodded, not to mention how much Lu Yang spent, and each of their teams could get an average of 32 forts. The money made by these forts was enough to make them become billionaires soon.

Lu Yang said: "You don't need to be polite. A large part of all my achievements are made for me. I should give you these things, but you should not lose your motivation.

I ask you to continue recruiting players and raise the existing player level to 60 as soon as possible. At the same time, split up the existing legions in your hands, such as the three brothers in your family, you ca n't play together anymore. Bring me a legion of 300,000 people. "

Zhang Zibo asked: "Boss, do I and Yu Wei also take apart?"

Lu Yang laughed and said, "Would you like to take it apart, a dignified man, or a Red Mist soldier, first separate, and Yu Wei wouldn't be able to live without your protection."

Xia Yuwei's face was blushing, and Zhang Zibo glanced strangely, saying to Lu Yang: "I asked him to lead a separate army."

Everyone laughed, and now there is something interesting between Xia Yuwei and Zhang Zibo, and everyone is happy to see it happen.

Zhang Zibo scratched his head in depression, and said, "Okay."

Sun Yu said, "Brother, I don't have so many people available, so what to do."

Lu Yang said, "You can not only lead your own team, you can also promote your legionnaire. The premise is that this person must pass the review of Tu Feng. If there is a problem, I can't agree. You know, a legionnaire takes 20 Ten thousand people, at the crucial moment of rebellion, we are all done."

Sun Yu, Xia Yuwei and others nodded together. Currently, among the various legions, only the two teams of muddy wine pour and bitter love half-life are 5 members, and the rest only have a maximum of 3 members, which can be matched with several legions.

The ultimate goal of Lu Yang is to train the eight teams under him to cultivate 24 legions, each with 200,000 people, with a total strength of 4.8 million people. Counting his direct guards of 20,000 people and other service personnel, a total of 5 million Man is the upper limit of the Jagged Brotherhood.

This number is the highest number that Lu Yang can carefully afford, and no matter how much he can afford, he cannot afford it.

"It looks like it's time to find that person." Lu Yang said.

"Boss, what do you say?" Bitter love asked for a long time.

Lu Yang shook his head and said, "You go back and prepare, some lead the team to upgrade, and some lead the team to clear the fortress. Tu Feng has the designated fortress clearing place there. If you have an idea, talk to him. You do n't need to inform me. I'll find Bissell wants a robot."

Zhuoju said, "Boss rest assured that within half a month, all members will be promoted to level 60."

Lu Yang was very assured of the turbid wine and others. After asking them to do their own work, they used the scepter to fly to the Goblin Kingdom and came to the gate of the palace. The guards saw that Lu Yang bowed in salute.

“Dear President Lu Yang, what are you doing here?” The guard leader asked Lu Yang.

Lu Yang said, “Do you know me?”

The leader of the goblin guard respectfully said, “Your combat success has spread throughout this continent, and we respect you.”

Lu Yang did not expect that he won the extra respect of the npc in the server when he won the battle. He said, “I want to find King Bissell, please help me pass it on.”

The goblin guards opened the door and said, “The king said, if you come to him, you can come in at any time, and the king is working in the side hall.”

“Thank you.” Lu Yang nodded slightly to the guard, entered the Goblin Palace, walked left along the main hall, through the garden, and in a beautiful house, Lu Yang found Bissell who was working.

“His Majesty,” Lu Yang said.

Bissell looked up to see Lu Yang, with a surprised expression, jumped off the chair and said, “Hey, brother, how are you.”

Lu Yang said, “I’m here to buy you a fortress-building robot.”

Bissell said, “No problem, how many do you want to buy.”

Lu Yang said, “Come on 80 first.”

“Okay, 100 coins each.” Bissell said.

Lu Yang delivered 8,000 gold coins and got 80 goblin robots. He said, "You're so wicked, it's so expensive to sell."

Bissell spread out his hand and said, "No way, this is the highest-end product we have researched. We still feel the price is low."

Lu Yang shook his head and said, "I'm gone."

"I'll send you," Bissell said.

Lu Yang looked at the little goblin, and he was so indifferent that he got the fortress robot. Bissell never had any tasks that he needed to do. In the future, he would have little time to come and chat with Bissell. Already.

Recalling the development of his own way, from the beginning accidentally encountered Bissell, to this day, he can develop so powerfully, Bissell has played a vital role.

He thanked this little npc from the heart and walked to the gate of the palace. Lu Yang said with emotion: "I'm gone, I will be very busy in the next war, I may not have so much time to talk to you anymore. , Take care. "

Bissell's happy expression became lost instantly. Mengmeng's big eyes looked at Lu Yang and said with tears, "You won't come again, are you?"

Lu Yang patted him on the shoulder ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and said, "We all have our own responsibilities, don't you, you should protect your goblin kingdom, I'm going to seek revenge on my enemies, not kill him one day I'm troubled inside. "

Bissell nodded understandably, took out from the backpack an accessory full of magic symbols and gave it to Lu Yang, saying, "Brother, I will work hard to be my king, thank you for encouraging me, as a brother , I have n't given you any gift for so long. I hope this will be fulfilled as soon as possible. "

Lu Yang took the accessories from Bissell in surprise, and the accessories shining purple are full of great power.

System prompt: You got Heinrich's Amulet

Lu Yang trembled with excitement throughout his body. He never expected that the famous Heinrich amulet of the previous life would be obtained here in Bissell.

"Brother, do you know what you gave me, he is so precious." Lu Yang said.

Bissell spread his hands indifferently, saying, "I don't know what it is, only that he is full of energy. It is something that has been passed down from our family treasure house. I prefer to wear it all the time."

Lu Yang was sighed, and he said to Searle, "Thank you, man, I'm gone, and I'll look for you every day when I succeed."

Bissell made a helpless expression and said, "Then I must be annoying you."

Lu Yang laughed, took out the back to the city and flew to the outer area of the Red Fortress. Xiao Liang's 10,000 Prismatic Armored Legion and Han Fei and other 150 immortals were waiting there.

Among the people who came this time, there were more than 20 relatives recommended by the commander of the army such as Ding Dong Cat, Xiao Chengfeng, Oriental Invincible, Yiqi Geqiu, etc. Now these people will replace Zhuojiu and they will become Lu Yang Guard.

“Boss, everyone has assembled, and I have sent the 10,000 brothers into the copy.” Xiao Liang said.

Lu Yang said, “Follow me to the 30th-level demonic castle to see how Yu Wei cleans them up.”

Demon Castle is a 30-level spawning point on the north side of St. Gall. This is a good place to upgrade. Many players upgrade here.

Lu Yang took the team to the outside of the demon fortress. Countless players were gathering on the walls of the demon fortress. On the other side, Xia Yuwei directed his elite players to clear up a lot of mobs.

“It’s so cool today. The Queen of Ice is leading the team to upgrade. We trumpeters are so happy.”

“It’s the same as dreaming. I was brought up by the Queen herself. When I reached level 40, I must apply to join the Jagged Brotherhood.”

“Go with it.”

“Goddess ~~”

...

Listening to these people, Lu Yang laughed and used the residual flames to fly to the city, stood beside Xia Yuwei, and said, “Okay, this method works beautifully.”

Xia Yuwei turned her head to look at Lu Yang, and said, “I knew Zhang Zibo had led the team.”

Lu Yang said, “Don’t worry about them, it’s strange how cleaned up.”

“This is the last wave and it will be finished immediately.” Xia Yuwei said.

A group of 60 large monsters killing 30 small monsters did not feel the difficulty at all, and the monsters could not even stand in their range magic for 5 seconds.

Tens of thousands of players watching the battle around were watching Xia Yuwei, and suddenly they saw Lu Yang, all shocked.

“I rely on, I saw the boss of the Jagged Brotherhood. What’s wrong today?”

“Is there any treasure in the demon castle?”

“Looking behind you, Lu Yang’s Prismatic Shield Armor, Immortal Legion, and Forbidden Mage are all here.”

As tens of thousands of people looked back, Xiao Liang and more than 10,000 people stood neatly and solemnly outside the fort.

“Don’t you want to kill us?” A player said scared.

“You’re stupid, we still use such an elite army to kill, you look at yourself too high.” Another player said.

“Also to Kazakhstan,” the player said babblefully.

“Then what are they doing?”

“Just take a look and you’re all done.”

...

After the last monster was killed, Lu Yang released the goblin construction robot and bought enough bricks and stones to build a fortress in the official built-in mall. 10 robots immediately started to build the city wall along the right side of the fort.

“What are these robots doing, how do they seem to be building walls?”

“Willn’t it be a wild fortress?” Some players said in shock.

...

Lu Yang looked at the tens of thousands of players on the city wall, walked in front of them, and said using a loudspeaker: “Dear you, I have good news for you. Starting today, the Brotherhood of Iron and Blood will be on the level 30 to 60 map. There are 8 fortresses built at level 10, and everyone is welcome to come to my new fortress to rest when you are tired. Here you can replenish medicines, repair equipment, and set up auctions. As long as you can think of it, this fortress can do it. “

“Wild Fortress?”

“Is Brotherhood capable of building a Wild Fortress?”

“Wow, big event.”

“Tell the guild boss.”

...

Tens of thousands of players are stunned. The game has been in service for almost a year. So far, there are only a few fortresses that can be upgraded by players, which can’t meet the needs of the players at all. Now it has finally come out, which is extremely useful for ordinary casual players. Big good news.

A player bravely asked Lu Yang, “President Lu Yang, do you mean that you have the ability to build a fortress in the wild?”

Lu Yang said: "It can be understood."

"coax"

The discussions of tens of thousands of players made people want to cover their ears. In the national costume, all the guilds of the human race, the beast race, and the elven race got the news almost at the same time.

"What? Lu Yang has the ability to build a fortress in the wild?" Liu Jie stood up from his chair excitedly.

Tianyao just struck the orcs. He was standing proudly in the direction of the fortress and watching the wolf tribe. Suddenly he heard the news, he said in shock: "How did Lu Yang do it?"

Liang Yun was also shocked by the supply drink in his hand, saying, "Gather all the union leaders and have a meeting."

Wang Teng, Li Xiuyu, and Ma Lizhe grimaced in special spaces at the same time.

"Hurry to get this method, otherwise, the gap between us and Lu Yang will become irreparable." Mai Lizhe said.

Wang Teng sighed and said, "I'll talk to Jie Shao, and you can think of a way."

The three nodded each other and exited the special space.

Liu Jie found Huang Xiang for the first time. How did Huang Xiang even find Lu Yang to ask about upgrading the bug and the Raiders of the Blood Demon Temple? However, facing Liu Jie's order, he could only accept his teeth.

"Jie Shao, I try my best." Huang Xiang said.

He closed the interlocutor and tried to contact the chiefs of major legions. However, people such as Zhuojiu and White Lion made it clear that as the legion chief, he could not have too close contact with his classmate Lu Yang, and it was easy for Lu Yang. The annoyance in his heart, he added it one by one, no one ignored him, he had to think of another way.

Zhuo Jiu poured out Lu Yang's phone and said, "Boss, Huang Xiang has just come to add me again."

"Boss, you can't get through to the phone. Huang Xiang just came to join me again." Said bitter love for a long time.

White Lion and Sun Yu and others sent messages to Lu Yang one by one, saying the same thing.

Xia Yuwei said beside Lu Yang: "I also received it."

Lu Yang laughed and said, "Huang Xiang, Huang Xiang, this boy was rushed by Liu Jie. We have upgrade bugs and a copy of Raiders. Now there are ways to build wild fortresses. Liu Jie and Wang Teng are probably crazy. "

Everyone laughed.

"Hey, we didn't say any of them, rush them." White Lion said.

Lu Yang said, "How can that be? I must tell Liu Jie how to build the fortress."

Zhou Tianyan asked in surprise: "Ah? Why?"

Lu Yang said, "I don't do this. How could Liu Jie put a lot of money into the game?"

"Boss, why is this? We can't hit him right now, the more he invests, the more he earns." Zhang Zibo said.

Lu Yang said with a smile: "How can there be such a good thing, don't say a few of you, this matter is strictly confidential."

"Oh, I see."

...

Everyone said.

Lu Yang secretly thought that a big event would happen in the outside world after a while. If Liu Jie could invest a lot of money in the game, it would be a great blow to his family's company.

"Drip, drip, drip"

The voice of the intercom sounded, and Lu Yang picked it up. It was called by Ling Zhitian. He pressed the connection button with a smile and asked, "Your old man is looking for me."

Sitting on the bed, Ling Zhitian glanced at the old man, and with his unique low voice, he smiled and said, "Guess what, my father wants to invite you to dinner. Are you free now?"

Lu Yang said, "I happen to have a trip to Modu. I will go tomorrow. You tell me your home address. I will go to you by myself."

Ling Zhitian said immediately: "Don't introduce me, I will pick you up at the airport in person. This time you helped our father so much, how can I get you a taxi."

Lu Yang said with a smile: "I have some other things to do, some special."

Ling Zhitian understood, and said, "Well, okay, when you're done, call me and I'll pick you up."

Lu Yang thought for a while and said, "Okay, that's it."

After closing the intercom, Lu Yang handed over the remaining 70 Goblin Robots in his hand to Xiao Liang and said, "I went out for two days, and you took the team for two days to guard the fortress under construction. Be careful not to let people destroy Now. "

This is a game, not reality. Everyone can do whatever they want. Without legal restrictions, the evil side will gradually enlarge. If someone secretly destroys and no one defends, it is really not easy to solve.

"Boss rest assured, I must be optimistic about these forts." Xiao Liang said.

Lu Yang nodded, exited from the game, spoke to Han Zhong and came outside, and said to Black and White: "Take your two brothers with me to Modu."

"Yes." Black and white immediately executed the order ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and found the two best men and packed up.

Lu Yang sorted out the items he needed to bring and came downstairs. The three men in black and white were ready, and he took the three men to the Hilton Hotel in the capital by plane.

I had a rest in the hotel that night, and the next morning, Lu Yang came to the hotel gym alone.

On the central boxing ring, a 30-year-old man appeared to be practicing with the coach.

“噤”

“噤”

Every punch of the man hit the coach's gloves accurately, making a dull impact sound. Obviously, this man is very powerful.

“嘭”

The man suddenly charged with a punch, hitting the coach's arm guards heavily, widening his middle door wide and back.

“Stop, stop playing.” The coach hurriedly stopped.

The man just rushed to the front and continued to attack. Looking at the coach, he went aside boringly and said, “Come for another person.”

The coach rubbed his arms and said, “I'm the only boxing coach here. There is no second person.”

The man frowned and said, “Can't even find a sparring for such a large hotel?”

The coach was awkward.

Lu Yang looked at the man's face and suddenly said, “How about I play with you.”

The man looked at Lu Yang, looked carefully, and said, “Okay, welcome.”

Lu Yang took off his coat and jumped into the boxing ring. He took the coach's gloves and tried it, saying, “OK, come, let's try two moves.”

The man saw Lu Yang's muscles with a surprised expression, his eyes became cautious, his fists guarded in front of him, and said, “Looks like I just despised you.”

“Just looking at the surface, you'll lose everything.”

Lu Yang moved his body, slowly approached the man, suddenly punched and hit the man's head.

## Chapter 754 - Recruiting Qi Yun

The man kept observing Lu Yang's movements and evaded the punch quickly and evaded backwards, saying: "The strength of the power is irrelevant to whether it is superficial or not, but the human heart."

The man punched Lu Yang's head in the right hand.

Lu Yang's head flickered slightly, and he avoided the punch, and his left hand suddenly exerted a force and hit the man's belly with a punch.

The man just tried to punch out and saw that Lu Yang reacted so fast, he immediately retreated and avoided again.

"Wow, you are a master." The man said excitedly.

Lu Yang hasn't made any effort, saying, "You're not bad, you're right, the human heart is the most important. If you can't understand the other person's mind, it is often you who fail, and your own heart is as firm as Steel can also get back in revenge. "

The man thought of some unpleasant things. An angry punch hit Lu Yang's head. Lu Yang kept flashing, and the man punched continuously.

"Why not fight back?" The man asked as he fought.

Lu Yang avoided the man's fist easily, and said, "Your heart is upset, and I will lose your shot."

"Speak loudly." The man continued the offensive and punched Lu Yang's head with a punch.

Lu Yang's body suddenly flickered in front of his eyes, and after avoiding his punch, he stepped forward half a step across the man's face and said, "You lost."

The man looked at Lu Yang's fist and smiled helplessly, saying, "I'm too far behind you. If I don't fight, I lose."

Lu Yang smiled, and it seemed that the man had not been stunned by hatred.

The man said, "Are you free, how about a drink together?"

Lu Yang unbuttoned his gloves and said, "Okay, but I don't drink, and I never pass anything that strangers give me."

The man froze and looked at Lu Yang and said, "Your habits are very special. How do you call them?"

"My name is Lu Yang." Lu Yang said.

The man opened his eyes in surprise and said, "Are you Lu Yang? The Lu Yang in Second World?"

Lu Yang nodded and said, "It's me."

"Fortunately, my name is Qi Yun." The man said.

Lu Yang knew that the person in front of him was Qi Yun. In the previous life, Qi Yun himself said that after leaving the Liu Consortium, he rested at the Modu Hotel for a month to think about the future.

Lu Yang's memory of Qi Yun's appearance was very clear. He came here with a moment of time and recognized Qi Yun at a glance. However, he couldn't say that he had specifically come to him.

“Qi Yun? I know you, are you the future successor cultivated by Liu Jie’s father?” Lu Yang pretended to be improper.

Qi Yun laughed at himself and said, “That’s a thing of the past. I was taken out of the house by the old man and became a dog of the bereaved family.”

Lu Yang’s expression eased, and he said, “Get out of the house? What do you mean?”

Qi Yun told Lu Yang what happened and, just like in the previous life, Liu Jie ’s father saw that Liu Jie was so capable, and decided not to give the company to Qi Yun, and instead to Liu Jie.

At this time, Qi Yun had been cultivated by his father Liu Jie for more than 10 years, and he had also cultivated many relationships himself. These people have been working in important positions in the company for a long time. Reduced to the minimum, gradually demolished his staff one by one, below.

When Qi Yun was struggling with his mind, it was his turn. Liu Jie and his father dismissed Qi Yun from all posts in the presence of the entire board of directors.

In the past ten years, I don’t know how many people look at Qi Yun upset, and there are many Qi Yun’s enemies. When he saw that he was abandoned by Liu Jie and his father, all of them came over and kicked him. The consortium left.

“Damn, don’t give me a chance, I will not let go of \* and those bastards.” Qi Yun cursed.

Lu Yang said, “What are you going to do now?”

Qi Yun held the bar counter in one hand, drank whiskey in the other, and looked at the sky outside the window and said, “Revenge, I gave my 20 years of time to this company and to this old thing, and he did so to me, I Use him as a dad and he treats me as a fool, and I must take revenge. “

Lu Yang said: “It’s true, Liu Jie and his father didn’t find someone to kill you. You know too much about this company, so he just let you go?”

Qi Yunxi laughed and said, "They are a grand Liu's consortium. What threats can I pose to their family? At best, they are ordinary people who understand finance and do business."

The Empire of Liu has six multinational banks, with subsidiaries operating in various industries and a total of nearly 200,000 employees.

Among the companies in the company are Harvard, MIT and other Ivy League high-level students, doctors, top think tanks are countless, Qi Yun has been sailing for so many years, in the view of the Liu family, they are all backing up, otherwise Qi Yun is finished early, and he is not worthy .

Lu Yang looked at the sky in the distance and said, "I also want to break the Liu family. Is there any interest in cooperation?"

"Cooperation?" Qi Yun looked at Lu Yang and said with a smile: "What can you do to the Liu family, although you suppress Liu Jie in the game, but how much money can you spend to want to destroy the Liu family, Money is astronomical. "

Lu Yang didn't answer, and asked, "If I didn't show up, which company would you go to?"

Qi Yun said: "Citibank, they are willing to let me be vice president."

Lu Yang asked with a smile: "How much money can they give you to fight Liu Jie."

Qi Yun shook his head and said, "I won't give a single point. I can only start from scratch. I will make money before I find a way to deal with the Liu family."

Citi has no reason to fight for Qi Yun and the Liu family, unless Qi Yun can prove that his value is many times higher than the total value of the Liu family.

Lu Yang looked at Qi Yun and said, "19 billion yuan, I give you 19 billion credit points and give you full responsibility for it. Do you have the confidence to defeat Liu Jie?"

Qi Yun looked at Lu Yang in shock, and said, "You have 190 billion?"

Lu Yang nodded.

Qi Yun said with some surprise: "If you give it all to the operation, I am confident that I will fight against the Liu family in ten years."

Lu Yang smiled and said, "So you just want to follow me?"

Qi Yun looked at Lu Yang and said, "That requires you to believe in me. I was Liu Jie's father's first assistant before."

Lu Yang stretched out his hand and said, "Employing people without doubt, I don't believe you."

Qi Yun and Lu Yang high-five, saying, "I wish us a happy cooperation."

Lu Yang clenched his fists secretly, and he finally succeeded. The hatred between Qi Yun and the Liu family in the previous life was not only a matter of work. They were revenge. Before Lu Yang killed Liu Jie, Qi Yun had been doing everything possible. Breaking the Liu family, Lu Yang has enough confidence that Qi Yun will help him to the end.

Qi Yun's strength in the last life is very strong, far more than all the talents under his control, even if those people add up, they can't play Qi Yun.

After he went to Citibank, he took all his relationship with the Liu family. In less than two years, he had ten billion mobile cash in his hands. Unfortunately, Citi never thought of a full-scale war with the Liu family. With multiple constraints, Qi Yun failed to realize his ambitions.

Now Lu Yang gave Qi Yun this platform, plus his rebirth memory, the two will definitely defeat the Liu's consortium.

Back in the hotel room, the two signed a contract.

The contract written by Lu Yang gives Qi Yun an annual salary of 28 million US dollars, 30% of the company's shares, and the remaining 20% is left to Qi Yun. The vice president's annual salary is 13 million US dollars, which decreases in turn, even for ordinary employees. More than one million dollars.

In fact, none of these people under Qi Yun are ordinary employees. They are all elites who have a lot of resources in their hands. They have been in the Liu Shi Consortium's real power department studio for nearly ten years. They have not only work experience, but also it is a huge social circle.

Their strength and connections are fully worthy of the salary that Lu Yang has made.

Qi Yun was a bit worried that Lu Yang would not pay his employees too much salary. Seeing this contract, Qi Yun sighed, "Boss, I can go to Goldman Sachs and hold this contract you gave me. The Fed has dug people."

Lu Yang laughed and said, "I'm not bad at money. As long as I knock down the Liu family, which talent do you think you need, you can dig directly, according to this standard, if not enough, you call me directly."

Qi Yunchang took a breath and said, "I dare to do this with your boss. You can rest assured that within ten years, I will create a consortium at the same level as the Liu family."

Lu Yang shook his head and said, "It's too slow."

Qi Yun was stunned. The Liu family was a billion-dollar consortium. Now Lu Yang only gave him 19 billion credits, which was converted into US \$ 3 billion. He became a consortium of 100 billion in 10 years. It's the fastest, he doesn't believe there is a faster way.

"Boss, do you have any other ways to make money?" Qi Yun asked.

"Do you know Toffman Investment Bank?" Lu Yang asked.

"I know that it is a diversified investment bank that provides financial services to major companies, institutions, governments and investors around the world ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ with strong financial

strength, more than ten times stronger than Liu Jie's. One of the four most powerful stock and bond underwriters in the world, the Liu family was able to start with a strong relationship with Toffman, and is now also the main bond buyer of Toffman. "Qi Yun said.

Lu Yang said, "If I tell you that Toffman will fail within a year, do you believe it?"

Qi Yun froze and said, "Why do you have such an inference?"

Lu Yang said, "Do you know the subprime mortgage crisis? Another subprime crisis is about to erupt. This time it was Toffman who stepped on the mine. They were completely done."

Qi Yun's eyes widened sharply. Instead of blaming Lu Yang for talking nonsense, Qi Yun calmly thought down and thought for a long time. He said, "When my friend from Tofman talked to me recently, he told me A lot of things, I didn't care about it originally. To hear you say that, Toffman may really have a problem. "

Lu Yang said: "I have the exact source of information. I do n't know about stock trading or finance. You and your team calculate how much the U.S. stock market would be lowered if Toffman fell. The bank shares of the Liu Consortium. How much will it decrease. "

## Chapter 755 - Merged Zijin Dynasty

"This is a financial crisis and it is avalanche-like. The Liu Consortium has too many Toffman corporate bonds, and they will suffer severe losses," Qi Yun said.

Lu Yang said: "Before that, Liu Jie got more than 10 billion or even 15 billion from their bank to invest in games."

“I can shut down six banks in Liu Jie’s house in half,” Qi Yun said.

Toffman’s fall, the Liu family’s stock will fall in a cliff. If someone had shorted the stocks of these two companies before, the money made would be tens of billions of dollars.

Lu Yang took out a check from his jacket pocket and wrote down 500 million credit points, and handed it over to Qi Yun, saying, “The formation of the company is entrusted to you. I won’t show up, and you don’t have to tell your men my name. This company The man at the helm is you. “

Qi Yun said, “No problem.”

Lu Yang patted his shoulder and said, “I still have a date today. It’s almost time. I’ll go first. We will contact you by phone if something happens.”

Qi Yun said: “You send me a cfo to oversee the financial operations.”

Lu Yang said with a smile: “I don’t have that kind of talent. I’m lucky to meet you. You can find it, or you can also serve it yourself.”

He believes that Qi Yun is a person. A person who usually controls hundreds of billions of assets will never lose his identity for just 500 million yuan.

Out of the room, the three men in black and white were waiting at the door. Lu Yang waved and led the three men downstairs. He took out the phone and called Ling Zhitian, “I’m here.”

“I’ll pick you up here,” Lexus said.

Lu Yang just came downstairs. It didn’t take 10 minutes. Lexus’ Rolls-Royce opened to the door. After getting off the car, he gave Lu Yang a hug.

“Brother, you played beautiful this time. Thank you very much. Without you, my dad will never be able to breathe out.” Ling Zhitian

Lu Yang smiled and said, "I should do it."

Ling Zhitian lamented that there was nothing to do. If there were so many things to do in this world, the world would be peaceful, and there would not be so much hypocrisy between people.

"Let's get on the bus. My dad has a table for you at home." Ling Zhitian opened the door of the co-pilot for Lu Yang and said.

Lu Yang nodded, and together with Ling Zhitian, came to the old man's house in Modu.

This is an extremely beautiful villa. The garden has been opened for more than 10 minutes by car only. The villa is in a European classic style.

Just after the car stopped, Lu Yang quickly stepped out of the car and walked to the old man in the twilight, saying, "Sir, you have come out to meet me, how can I bear it."

The old man in the twilight became more satisfied with Lu Yang's attitude, and said with a smile: "Just because you gave me this breath, you can stand it. Well, Ma Lizhe who spit out blood was stunned, and was in the presence of more than 8 million Face to face, those who have called me from level 60 to level 0 have killed more than 600 times, good. "

Speaking of the back, the voice of the old man was three minutes louder. After Le Zhi Zhi parked the car and ran over to help the old man, he said, "Oh, dad, do n't be excited. The doctor said, you ca n't be anymore So impulsive. "

The old man gave him a glance at Ling Zhitian and said, "Listen to them? I'm afraid of that."

Lexus was speechless and said, "You are not afraid, you are not afraid."

Lu Yang was unsmiling, and together with Ling Zhitian helped the old man to enter the restaurant. After sitting down, the old man just poured a glass of wine for Lu Yang personally, no matter how Lu Yang resigned, he couldn't quit.

“Father, you can’t be so polite anymore, I can’t wait to be polite.” Lu Yang said.

The old man in the twilight said with satisfaction: “I like your kid, and I’m not polite with you, let’s eat.”

The three of them drank, drank, and chatted for more than 2 hours. When they chatted on the sofa, the old man said, “I’m ready to completely withdraw from Second World.”

Before Lu Yang came here, he guessed that Late Twilight would tell this to himself, and said, “Isn’t that step yet, are you willing to take such a step?”

The old man in the twilight sighed and said, “What can you do if you don’t want to be reconciled? I’m old. I want to ask you to trust you with the strong breeze and the rosy rain this time.

Lu Yang asked, “You want to sell me the guild?”

The old man in the evening twilight shook his head and said, “No, I will give it to you. Without your help, my guild will let the family break up. Just like it is gone, I think so, I will stop playing games and keep healthy every day. Just punch. “

Lexus said, “Don’t, this game is your hard work.”

Ling Zhitian looked at Lu Yang and said, “Brother, I don’t want my dad to give you the guild for free. I just don’t want to see my dad so sink in the future.”

Lu Yang said, “I understand.”

The old man in the twilight sighed in loneliness and said, “What else can’t sink, I can’t keep the Sunshine City! Lu Yang can help me once, and the second time he helps me, I’m sorry to find him The chairman of my dignified Ling Group is ashamed. “

Lu Yang shook his head and said, “Father, I’ll tell you the truth, I can’t have your guild.”

The old man in the twilight froze and asked, "Why, the 500,000 people I have are all elite."

Lu Yang said: "Your people are in Nikko City. I am guarded. Unless I divide the army, if the hegemon is the first to see me unhappy, he may come to hit me. Then I am the same as the king at the same time. Teng, Liu Jie, Ma Lizhe, and the hegemony Quartet have fought. I can't beat them. "

The old man in the twilight said, "Then how can I let the spirits and breeze belong to you, I don't want me to go, they are bullied."

Lu Yang said, "Father, I want them but I don't necessarily want to, otherwise I won't be able to balance wages. In all fairness, their strength is worse than those of my army's turbid wine. They admit it. . "

The old man nodded and said, "It's a lot worse."

Lu Yang said: "Then how do you let me give money, give the same salary, I can get it out, can Zhuojiu and Xia Yuwei have no veil in their hearts, even if the chief of the army does not say that there are so many people in a guild , Secretly talking behind them, or someone ridiculing them behind me, Qingfeng and Luosiyu they can't stand it, not only will not let these people have a good home, you have to blame me. "

The old man in the twilight nodded and said, "It's because I'm thinking badly. This is really a problem."

Which of the eight army commanders under Lu Yang is not a hero, Bai Sanxiong, Sun Yu, half-hearted, and Zhou Tianming are the top ten masters of the global contest.

Xia Yuwei was supported by countless people by virtue of her appearance. The players under her were heading for Xia Yuwei, and claimed the Queen's Army.

Jiang Ze is a hero of Lu Yang's founding. The guild can develop rapidly. It relies on the 1 billion that Jiang Ze's father first invested in. It is an authentic pharmacy with iron blood brotherhood and smithy, and a song of blood and fire. The second largest shareholder of the shares.

The turbid wine pour is a master of command on the battlefield. The guild is generally recognized as a commander who can co-ordinate the overall situation except Lu Yang. Everyone knows that if Lu Yang goes out to lead troops, it is the turbid wine pour that is in charge of the Chinese army. It is the Iron Brotherhood. The strongest dependency.

Now everyone in the national costume is lamenting that Lu Yang's life is good. There are such a group of powerful legionnaires under his command. When these people change to any guild, they are all vice presidents and even presidents with a million people.

Liquor Breeze brought 500,000 people, and he must be given the post of head of the army. However, his 500,000 people, even Sun Yu's 300,000 people, can't beat him, and his personal strength is far from them. These people go The Brotherhood of Iron Man is not helping Lu Yang, but in Luyang.

Lu Yang said, "One more, Qingfeng may not be willing to belong to my team. Although I helped this time, the relationship between our two sides was level before, and suddenly became my subordinate. Many of your masters were unable to Accept, you may just leave the guild. "

The old man in the twilight thought of the studios in the guild and said, "Yes."

Lu Yang said: "In fact, you can inject some more funds. Ma Lizhe will not dare to hit your Sunshine City in the short term. He will try his best to upgrade his ranks. You still have a chance.

One more thing, let me be honest, I can't control the 16 main cities of the Terran by myself. If I do have one day, it must be the day when I am finished. "

After a moment of twilight, he asked, "Why do you say that?"

Ruling 16 cities, and even 48 cities under unified national service, has always been the ultimate dream of the boss of every major guild in the country. Lu Yang even said so, which made Chuang curious.

Lu Yang said, "How many people do you think my Jagged Brotherhood can recruit?"

The old man in the twilight thought for a while and said, "Speaking more than five or six million, there will never be more. If there are more people ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ With your current financial resources, you cannot afford it."

Lu Yang said, "Yeah, I only have five or six million people. This is still a long way to go. Can I control 16 main cities with a population of more than one billion people?"

Chi Mu and Lei Zhitian meditate silently.

Lu Yang went on to say: "Think about who these main cities are, Wang Teng, Li Xiuyu, Mai Lizhe, Xiongba, Sword Killer, and Lonely for half a month. Each of them can gather two or three million people. I There are only five or six million people. If there is a day when I ruled 16 cities, these people would abandon their former suspicions and collective rebellion, and I would not have a main city. "

The old man, Du Mu, hadn't thought about it before, shaking his head and saying, "That's what it is like to hear you say that."

Lu Yang said: "I haven't told the truth to the outside world. I can tell you the bottom. I can occupy up to nine. This is a method that I have studied for a long time. The remaining 7 main cities are not for me."

When Ling Zhitian didn't understand the game, he heard Lu Yang say this, and frowned, "Then you will not be able to capture Liu Jie."

## Chapter 756 - Terran 1 Plan

Lu Yang said: "I can only cultivate a few guilds that have a good relationship with me in the Elves. I have discussed this with Liang Yun of the Emerald City. If there is no accident, I will kill Liu Jie and his fortress in the future. I will resell to Liang Yun. "

Lexus somewhat understood what was going on in the game. He suddenly responded and asked, "Brother, do you still accept the investment?"

Lu Yang asked, "What investment?"

Lexus said loudly, "I'll invest 3 billion credits for you, and then merge my father's guild into your guild. I only need 10% of the shares of the Jagged Brotherhood."

Lu Yang Yile said, "You can't get back the cost by doing this for three years."

Ling Zhitian said with a gaze, "I don't want to recover the cost. I want you to help me defeat Liu Jie. To put it bluntly, the reason why my dad will lose is because Liu Jie suddenly brought 4 million people to hit my dad. He helped Merritt to win, and Merritt himself didn't necessarily have that ability. "

"Since my dad likes to play games, our son must be fully committed. Three billion is nothing, my dad is happy." Ling Zhitian said watching the old man.

The old man in the twilight didn't slow down. After thinking about it, he looked at Lu Yang again and said, "My Sunshine City can't keep it anymore, so I don't have the energy to develop again, mainly because my body is not working. Brother Lu Yang, do you want to accept me as a shareholder? I feel like I have a play with you. "

Lu Yang had never thought of encountering such a thing before, thinking about it, and said, "Brother, you think about it, if you agree, you will no longer be the boss."

The old man in the twilight sighed and said, "My body is like this. What kind of boss do I have? I don't have that energy. In the future, I should respect and respect my opinions and let me have a good time."

The old man in the twilight is really a hero in the twilight. He can be stunned by his opponents on the battlefield. He knows that his body has been in trouble for so many years in the mall. He can no longer invest his energy in too many calculations. Count it down, his life would have to be counted by himself.

Lu Yang thought about it. He is really short of money now. He wants to make enough money to match the Liu family in the next financial crisis. The 19 billion yuan is far from enough. He said, "Well, I accept your investment. In the future, you will occupy 10% of the shares. I will report to you everything in the guild. I can't promise you anything else, and I will make it fun for you."

Chi Mu said with satisfaction, "Well, tell me what you want to do next?"

Lu Yang said: "Since you are the major shareholder of this guild, I will not hide you anymore. I have an idea of ruling the whole people. Now that you join, the feasibility is even greater."

The old man in the twilight can't fight, but the prestige is there. One of the nine kings of the human race, the rest of the bloodthirsty domineering, the eternal soul and other people are all finished, and the rest are only slang, male domineering and twilight.

At the moment, the character of the \*\*\*\* is broken, and it is no longer accepted by the players. The hero is trapped in the city of freedom, the prestige is still there, but the character is not satisfactory.

Only the old man of twilight, from the beginning of this game, the image of the twilight of the outside world is kind-hearted, willing to give young people a chance, like to listen to the opinions of young people, he is not capable enough, and is willing to share with others, as long as he can help him, he is not afraid of money .

The previous unsuccess was actually due to the late old man's heart being too soft. I feel this is a game. He has more money, and any studio is willing to follow him, he will give money, but in fact many studios are playing on the shelf with their names. It's loud, but it's actually full of patience.

After such an incident, almost all of the remaining groups of people were eager to follow the old man. There are experts in it, and there are people who can't bear the waste. However, these are not important. What is important is that they are loyal. With more than 500,000 loyal players and his own support behind him, his ability to start again is far easier than Lu Yang's at that time.

He asked, "What are you going to do?"

Lu Yang said, "First step, I want you to withdraw from Sunshine City, and the army will shrink to the capital of freedom."

"Why, I spent a lot of money to build these three fortresses." The old man said lately.

Lexus asked, "What then?"

Lu Yang said: "Then you did n't tell me you would merge with me, you said you were n't going to increase your investment. You just played. The fortress in the corner of the Freedom Capital brought these hundreds of thousands of people to the next level."

The old man asked, "Don't you recruit?"

Lu Yang said: "I have 3 million people ready for you to recruit, don't worry."

The old man in the twilight looked at Lu Yang in shock and said, "Where are the 3 million people?"

Lu Yang didn't speak, and looked at the old man with a smile.

The old man in the twilight said anxiously: "Your boy has something to say and hurries me all at once."

Lu Yang smiled, and saw the old man's helmet not far away. He took the helmet and used a three-dimensional projection screen to throw the Terran map on the table, pointing at the lakeside city, "This place, civil strife will soon occur."

"Lakeside?" Said the old man, "You're going to hit him? Haven't you just signed a treaty that never invades each other?"

Lu Yang smiled and said, "I didn't fight, you hit?"

"I'll fight?" Old Man Chi said in surprise. "But the four of them have 3.2 million people."

Lu Yang said: "I have observed that none of the four are peacemakers. When I hit the rain fortress before, I restrained each other. Otherwise, the Baixi Sanxiong could not defeat them 3.2 million with 300,000."

"The old man nodded and said," That's the case. "

Lu Yang said: "Now I have signed a contract with four of them, and I am building wild fortresses. The whole army is preparing to fight against Wang Teng and Li Xiuyu. These four are even more relaxed. It must be thinking that we will unify the lakeside city, and we will definitely fight. "

Lexus said, "They fight, what can you do?"

Lu Yang said: "Our arms are sold, and the four are sold one by one. I do not participate in the war. I will give them as many arms as possible. They will never be able to tell the difference.

The war in the game is the same as it is in reality. After a period of three days, they are exhausted, and they do n't want to fight after a week. At this time, I suddenly stopped providing weapons and equipment. ? "

Lexus said: "The two with arms will definitely do their best to destroy them."

Lu Yang said: "If the two that were destroyed suddenly have more arms support."

Lexus laughed and said, "Great, they have to keep fighting."

Lu Yang said: "Now it's me that they are fish for the sword. As long as their inner desires are not eliminated, they can play as much as they want. At this speed, within two weeks, the four of them will have to Collapsed. "

The old man in the twilight shook his head and said, "If I take a shot at this time, will there be any suspect of taking advantage?"

Lu Yang said: "I know you care about reputation, but if you don't need your shot, someone will do it first."

"Who? Who else will join the battle?" The old man asked.

Lu Yang said: "Jianyang City's broken blades and subversive situation, the four guilds of Lakeside City killed each other to exhaustion. The two will definitely abandon their former suspicions and attack Lakeside City together. At that time, Lakeside City and the four There is no resistance at all, and it was defeated in the First World War. "

"Originally my idea was to wait for the lakeside city to end, and I sent troops to kill Jianyang City, but to attract Jianyang City to send troops, I must fight with Beifeng City. In that case, I have some risks. Now With you, you are using a Sunshine City, a Jianyang City and a Lakeside City, one for two. Where can I find this business? "

Ling Zhitian said admirably: "You have done a great job. My dad went to recruit at this time. When more than 3 million people heard my dad's name, they would be willing to follow. My dad got more than 3 million troops. More than 500,000 internal players have reached level 60 at this time, and they can immediately serve as the managers of more than 3 million people. This is a great move. "

The old man in the twilight smiled satisfactorily and said, "Yes, this is okay. It's okay to recruit the 3 million people in my name. The four in Lakeside City who met me in St. Gall before bowing and saluting. They are cheaper in Lake City. "

Lu Yang laughed. It was true that the four people in Lakeside City were originally transferred from St. Gall. The four of them took advantage and fortunately gained control of Lakeside City.

Lexus said: "Your strategy is also great. I can't think of a game that allows you to play so many tricks."

Lu Yang shook his head and said, "Many times the decisions I make are not mine, but the enemy. They have an unstable mind and can't recognize reality. I just push the boat."

Lexus nodded.

The old man in the twilight said, "Okay, then I'll just do that, and develop with peace of mind."

Lu Yang said: "The bug method and the strategy of the Blood Demon Temple are in my USB flash drive. You can copy it."

The old man in the twilight took the USB flash drive ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ and inserted his virtual helmet to copy it.

Lu Yang took the USB flash drive and said to the two, "It's not that I can't bear to give you two USB flash drives, but this thing has a lot of use."

"Useful?" Old Man asked.

Lu Yang nodded and said, "You'll know why after a while, don't use this upgrade method for now, wait for my news."

This USB stick was used by Lu Yang to lie to Huang Xiang. He left the old man's house and took a plane to Liang Yun's house. After giving the USB stick to Liang Yun, he flew back to the East China Sea.

This is already three days later.

Lu Yang returned to the studio to log in to the game and asked in the simulation group: "How many forts have we built?"

"The total number of seats we have built is 24. Players are welcoming to most of our forts, and these forts have started to make money."

## Chapter 757 - The second celebration party

Lu Yang asked, "Have you ever looked for Huang Xiang?"

Tu Feng said, "He came back once and said that there were important things to report to you. He sneaked in the guild for a while, and went away to see you."

"Drip, drip, drip"

Lu Yanggang was about to speak. He picked it up and looked at it with a smile. "Huang Xiang came to me. I'll see what he said."

Lu Yang pressed the connect button and did not wait for him to speak. Huang Xiang first asked: "Brother, where have you been these days? How can I call to shut down and the game is not online? I'm anxious to find you."

Lu Yang's mobile phone for his classmates has always been placed in his old house. That house has been empty for a long time. The mobile phone is always charged, but no one will ever answer it.

According to the old method of locking the mobile phone's target location 30 years ago, Lu Yang cannot be stupid enough to let Liu Jie lock his location based on the phone provided by Huang Xiang.

"When I went out temporarily, my mobile phone was stolen." Lu Yang casually made up a reason, he asked, "What's the matter?"

Huang Xiang gave a sigh of relief. He let his heart down. He thought that Lu Yang had found out about his rebellion. These days have scared him.

"Brother, I got a major news from here, and Liu Jie decided there. Just 10 days later, he was going to attack Shenhuang with all his strength. I'm afraid Shenhuang couldn't carry it this time."

He didn't need to say that Lu Yang knew the news. When he went to talk to Liang Yun yesterday, Liang Yun apologized to him again and again.

Under the running city, Lu Yang forced Liu Jie to return to the elite players of 500,000 or above from the front line. Liang Yun himself also has the God of War character. It is logical that Liang Yun has the ability to defeat Liu Jie's defeat. The final result is that Liang Yun chased Liu Jie in three battles and three wins, which made him swell to the extreme, thinking that Liu Jie's troops had completely collapsed, just when he was about to continue to expand the results and prepare to attack Liu Jie's moonlight fortress.

Ambush in Moonlight Canyon, such as Yue Taishan set up 2 million ambush soldiers, defeated Liang Yun's chase in World War I, Liang Yun's God of War was almost snatched by each other.

If Yue Taishan became famous in the First World War, Liang Yun served him as a background board. Now that the Moonlight Fortress is guarded, it is equivalent to choke the throat of the Emerald City leading to Moonlight City. Liu Jie can attack Shenhuang without worries.

Lu Yang always hoped that Shenhuang could reorganize, even if he could not steal Liu Jie's fortress, at least he could protect himself. Unfortunately, Shenhuang was getting more and more embarrassed by his men. This time he was attacked again, it can be said that it was completely unsaved. Lu Yang couldn't help him either.

"This news is very important. I will tell Shenhuang that you are doing well." Lu Yang said.

Huang Xiang proudly said, "Thanks to the money you gave me, I made a lot of Liu Jie's men."

Lu Yang said: "The guild held a celebration party this afternoon. After the party, you and Mo Long and Li Rui will come to my house. Let's get together and have a drink."

Huang Xiang was worried about how to ask Lu Yang and said, "No problem, I will be there at night."

Lu Yang sneered, closed the speaker, and came to the concert venue in Hannibal City. Xia Yuwei and the White Lions were discussing the party.

This venue was officially applied by Lu Yang and at 4:00 pm, only Iron Blood Brothers players can enter.

“Boss, my brothers are all looking forward to the banquet tonight,” said Zhuoji Qingping.

“Hey, our guild is solidarity. There were 2.7 million players at this dinner, which surprised the official.”  
Said bitter love for a long time.

Lu Yang asked: “How is the show prepared?”

“Hey, with the last experience, we are not afraid this time. Since it is to make the brothers happy, we several decided to make fun of everyone.” Said bitter love for a long time.

Lu Yang said, “What fun shows are there.”

A bitter boy said proudly: “Sell it first, you’ll know at night.”

Lu Yang laughed, and was busy with everyone until 4 pm. At 2 o’clock, the players were in place one after another.

Thanks to the benefits of the virtual world, the concert venue has installed 2.7 million players, and the order of entering the venue is not disordered. Everyone’s lens can be zoomed to any angle and distance to watch the stage.

The official reporter team and the major website reporter teams both registered with Tu Feng for interview permission, and they were invited to the front row seats.

At 5 pm, 2.7 million people arrived and the grand dinner was officially held. This time, the host was Jiang Ze and Lan Yu.

The opening dance was a performance of Han Liu, one of the top ten beautiful women in the Jagged Brothers League, which directly exploded the atmosphere of the dinner.

Next is the appearance of the two brothers Zhou Tianming. The two even talked to each other, and the experience of this war will make everyone laugh.

The third one was Sun Yu, Han Yu, Dingdang Mao, Mu Yi, and Sirius.

The fourth is the performance of the three male heroes of the Bai Family. The drums and horns sounded. Many players in the Jagged Brothers League turned their eyes red by pressing the handle.

“This is a guild of a group of players, it’s an exaggeration.” A reporter said.

Dubin glanced at each other and said, “You are a newcomer.”

The other party said, “Yeah.”

Dubin said: “If you want to know the history of the Brotherhood of the Iron Blood, you will understand that the culture and spirit of this guild is very special, it is a kind of will and iron feelings of war that exist from top to bottom.

The new reporter nodded ignorantly.

The drums ended, Tu Feng appeared, and the first lottery was started. The first prize was a full set of immortal equipment. This time all players participating in the battle are eligible for the lottery.

At the end of the raffle, a little Mengxin who had followed the Brotherhood of the Iron Blood to participate in 2 battles was rewarded, and went to the stage to get this set of Level 60 Immortal equipment.

All the players in the audience cheered for him excitedly, although they were jealous of death, but they were happy that the lottery of the Jagged Brothers had no inside story, and the boss treated all of them equally.

The three draws ended, and the next program entered. Lan Yu went to the stage to perform a dance.

The fourth is bitter love for half a life. He even ran up to be ugly and sell cute, which made all players happy.

The reporter watching aside again felt incredible.

“This is the commander of the legion. He has a bitter love for half his life and is still the third-ranked top master in the world.

“How good is the atmosphere inside the Brotherhood of Iron Man, so that can happen.”

In a guild, as long as there is a gap between the heads of various legions, there will never be a show such as bitter love during the party. This will be laughed at by the other legions in secret, and it will be looked down upon by their men.

Dubin said, “Look at it, the Brotherhood of the Iron Blood will sooner or later unite.”

The sixth show arrived at Jiang Ze. He sang well, soared several trebles in a row, and made the atmosphere more lively.

By the time of the seventh show, the curtain darkened, and all Jagged Brothers players screamed and stood up, because the goddess of Jagged Brothers appeared.

Xia Yuwei shocked the audience in red and was so beautiful.

The main thing for the reporters who came to interview was live video of Xia Yuwei. Countless people in national costume players were waiting to watch Xia Yuwei’s dance. When Xia Yuwei jumped up, the whole national costume was a sensation.

In the wild at the 30-level upgrade point, a group of players are upgrading and suddenly a player stops.

“Daguai, what are you doing?” Shield battle unhappy looking back and output the player behind him.

“Look, goddess.” Five or six outputs and treatment gathered together, and they cast Xia Yuwei’s live broadcast on the ground, as if Xia Yuwei’s real person was right in front of them.

The shield battle also looked at, and said, “There are still such beauties?”

“Don’t you know? This is Xia Yuwei, goddess of the Legion of the Iron Brotherhood.”

“Hello ~!”

The Shield Battle forgot that he was fighting against the monsters. Several ogres hammered him to the ground and killed him!

...

This kind of thing is happening everywhere in the game.

King of Purple Gold.

Liu Jie is watching the party of the Brotherhood of the Iron Blood together with the dead and grass and Wang Teng.

Wang Teng said, “This Xia Yuwei is so beautiful.”

Liu Jie glanced at him and said, “What do you think?”

The dead grass said: “The interior of the Jagged Brothers Alliance is too united, and I suspect that these people are coming together, and they may all have come to Lu Yang’s side.”

Liu Jie asked, “How come this idea.”

The dead grass said: "First, Lu Yang has this financial strength, and second, we have used so many divisors before, but we have not been able to succeed once. Before, I still doubted that our own strategy was wrong. Look at it today. At their performance, I can be sure that these people must live in one place and work in the same room. If there is any problem, they will have an open and honest discussion. "

Liu Jie said: "It makes sense."

Wang Teng said, "If Lu Yang called them to them, then they must be in Donghai City. We have previously positioned Lu Yang's mobile phone ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ why not try?"

Liu Jie said: "I sent someone to look for it, and there was no one in that room."

Wang Teng frowned, and said, "Let Huang Xiang look for it?"

The dead grass said: "Huang Xiang has enough tasks on his body. Don't distract him. I have an idea. At present, it is impossible for us to win over these regiments. Can we dig up his regiments, these? Human strength is much stronger than our team leader. "

Liu Jie nodded and said, "Yes, you are responsible for this."

Inside the venue.

Lu Yang said to Tu Feng beside him, "The last time the Brotherhood of Iron Blood held a dinner, it was almost given by the major guilds. It must be noted this time that these legionnaires cannot be dug away. Dig players at the head level. "

Tu Feng said, "I will pay attention."

Chapter 758 - Liu Jie was cheated

Huang Xiang sat beside Lu Yang, passing his words to the dead grass in real time.

The dead grass frowned and said, "This kid is a master, it's not easy to deal with."

Liu Jie shook his head and said, "Let's go to the theater."

After Xia Yuwei's dance was over, some people performed a dozen shows and reached the final draw.

Lu Yang stepped onto the stage and personally extracted 3 people and rewarded them with three holy swords!

The atmosphere of the banquet reached its highest point in an instant. At this time, the banquet was over, but no one was willing to leave, and the players of the Brotherhood of Iron Man were still caught up in the carnival.

Lu Yang is also in this carnival queue. The carnival is not over until late at night. He laughed and said to Huang Xiang, who was waiting impatiently but could not do anything, "Go, brother, let's go out and celebrate, Drink two glasses."

Huang Xiang was mad in his heart, with a strong smile on his face, saying, "Okay, okay, where are you, I will drive to pick you up."

Lu Yang said: "No, what car to drive, let's go drinking, take a taxi by ourselves, and meet at the Royal Hotel, we will not be drunk tonight."

Lu Yang turned his head and said to Li Rui, Mo Long and others around him, "Let's get together with these college students and come tonight."

Mo Long and Li Rui were naturally happy and nodded in agreement.

Lu Yang taxied to the Emperor Hotel and found a private room. This is the private room with KTV and meals inside.

Soon after he sat down, Mo Long, Li Rui and others ran over excitedly. Huang Xiang was also in the crowd. Everyone's face had an excited expression. Lu Yang deliberately glanced at Huang Xiang. I have to admit that if it wasn't for my last life that this grandson was a traitor, you can't see any problem in his expression, and you might even be infected by his expression.

"Come, let's have a drink first." Lu Yang poured wine one by one.

The four of Mo Long and Li Rui were not particularly able to drink. At the party of the last life, all of them were three bottles. Huang Xiang could drink more, about 5 bottles. Lu Yang was the most of them. Can drink, can drink about 8 bottles.

The four of Mo Long and Li Rui were so excited. Having played with Landing Sun for so long, how many times did they think the guild couldn't hold up?

Who are their opponents? The wealthy second generation, such as Liu Jie and Tian Yao, who have billions of dollars in assets, have nothing in Lu Yang. They have never seen Lu Yang investing money in the game.

"It's cool, it's too good to win, toast." Mo Long shouted.

Lu Yang said, "Come, drink together."

Six people raised their wine glasses together. Huang Xiang was very clear about the amount of alcohol he had. The other four people in the dormitory also knew that they had been drinking together as soon as they arrived. He knew that Mo Long and they would drink like this. What's unclear is Lu Yang. The two haven't had a drink together.

But at this time he couldn't stop drinking. After thinking about it for a long time, he decided to let Mo Long and others respect Luyang and drink a few glasses of wine.

“Mo Long, you have to drink one with Lu Yang alone, just take care of us a few at him.” Huang Xiang said.

Mo Long never thought that Huang Xiang would hurt him. He was also grateful for Lu Yang, and toasted when he raised his glass.

Lu Yang said: “Don’t come alone, you two come together, let’s drink together, I say 4 more bottles will be poured, let’s not worry.”

Huang Xiang was happy, he knew something, raised his glass with a smile and said, “Come, drink together.”

Six people pushed the glass for a change, and each of them drank 4 bottles of beer. The four of them, Mo Long and Li Rui, had just finished their last bottle, and could no longer hold their heads asleep on the sofa.

Lu Yang and Huang Xiang drank two more cups, stood up and said, “I can’t do it anymore, I will spit for a while. “

Huang Xiang hurriedly supported him, and asked “very concerned”: “It’s all right.”

Lu Yang waved his hand, pretending to be drunk and said, “It’s all right, don’t help me.”

He pushed the door into the bathroom, pretended to vomit, returned to the room after gargle, showing a state of drunkenness, lying on the sofa with his eyes closed.

Huang Xiang was afraid of Lu Yang falling asleep, and quickly came to him and asked, “Lu Yang, how are you?”

Lu Yang closed his eyes and said, “I’m fine. Let’s continue drinking. I’m happy today. I must drink before I can go.”

Huang Xiang knew that Lu Yang really drank too much, and said with a mocking smile, "Why go?"

Lu Yang talked nonsense when he was drunk, and said, "Who said that he could n't leave if he drank too much. Yesterday, yesterday I was at Liangyun. He just drank too much. I also drank too much. I leave Back to bed, I didn't need help. "

Huang Xiang was startled and asked, "What do you do to Liangyun?"

Lu Yang said: "The alliance, the next time I hit Wang Teng and Li Xiuyu, Liang Yun promised me that he would attack Liu Jie at the same time, we match, cooperate, perfect, Liu Jie will die."

Huang Xiang felt that he had received a major news and asked: "Liang Yun's equipment is similar to Liu Jie. What attack does he rely on, and you can't fight it."

Lu Yang took a U disk out of his pocket and patted it \*\*\*\* the table. Even the outer shell of the U disk was broken. He said, "This time I gave Liangyun the upgrade bug and the copy of the Blood Demon Temple. Months later, Liang Yun's 500,000 elites rose to level 60 and were fully equipped. We immediately attacked and let Liu Jie's grandson trouble me. How ugly and ugly I made Liu Jie's death. "

Huang Xiang looked at the USB flash drive with his eyes light and said, "Don't break it, this is a baby."

Lu Yang grinned and threw the USB flash drive out. He snapped the USB flash drive and broke it on the wall. He said, "This thing is useless and you don't need to keep it."

Huang Xiang's frightened hair exploded, and he could not look at Lu Yang. He ran to the USB flash drive and picked it up. After seeing that the USB flash drive was damaged and there were no problems inside, he was relieved.

Suddenly he felt that something was wrong with this. He looked back at Lu Yang awkwardly, but found that Lu Yang had fallen asleep on the bed.

"Good luck, good luck."

Huang Xiang came to Lu Yang, and after repeatedly confirming that Lu Yang was asleep, he quickly ran out of the private room, borrowed the hotel's computer to transfer the information to his network disk, and then came to the private room and put the broken U disk in Lu Yang's pocket, he also pretended to sleep.

Black and white and Han Ying, three sisters and four stood outside the room, watching the scene of Huang Xiang stealing.

"The boss's insight is really high. This Huang Xiang is really a traitor." Hei Bai said.

Han Ying said sharply, "I really want to kill him with one stroke."

"Don't, the boss of this man is still useful. He can't kill now. I'll do it myself afterwards. I like to kill this kind of unjust traitor." Hei Bai said.

The three Han Ying nodded and continued to wait outside.

An hour passed.

Lu Yang pretended to wake up the urine. After going to the bathroom, he looked at Huang Xiang and found that the fool was asleep. He shook his head and left a note to leave the room. After the checkout at the counter, he returned. studio.

People like Xia Yuwei and White Lion are waiting for him in the studio.

"Boss, how's it going?" Zhuoju asked with pour.

Lu Yang said: "It's very smooth. The upgrade bug and the blood demon temple data Huang Xiang have been copied. He can give it to Liu Jie tomorrow morning."

"This bastard," the White Lion cursed.

Lu Yang said: "This secret we can't keep but we can't keep it. Our guild has more than 3 million people, and now we have to expand it to 5 million people. Instead of letting Liu Jie buy them one by one without our knowledge, it's better to give them directly. One we can control."

Everyone nodded.

There has never been a secret in the world where 5 million people can keep a mouthful. It is no secret that everyone knows it. He gave it to Liu Jie in advance, only to make Huang Xiang more reused by him.

Lu Yang said: "Your mission is very heavy, step up with your subordinates to increase the level, but also to recruit more players, but also to bring them enough equipment to play, I only give you one month."

Zhuo Jiu said, "Boss rest assured, we can meet your requirements for up to 20 days."

Lu Yang nodded, and in the early morning the next morning, after he was washing normally, he was about to go online. Jin Buhua called and said, "Boss, Xue Yiming just sent me a password, I will transfer it to you."

Lu Yang said: "No hurry, ask you something, how much cash do you have?"

Jin Buchang smiled and said, "Thank you, you asked me to store a lot of houses on the coast of Danjiang City. I executed it 100%, all the net worth was more than 300 million yuan. Boss, you know how to use it."

Lu Yang said with a smile: "Your kid is making a lot of money."

Kim said proudly: "500 million in cash, plus 500 million in real estate, I can collect millions of rents every month."

Lu Yang said, "Then I'll tell you something, believe it or not."

Jin Buhuan said, "Believe it, I believe everything you say now."

Lu Yang said, "Don't leave a penny, and give me 500 million yuan in cash. I will bring you a big one."

The plunge in U.S. stocks is a huge cake. Lu Yang can't eat it alone. His 190 billion yuan can be said to return hundreds of billions of dollars. The rest will either disappear into a bubble or be earned by others ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ Boss, I'm going to raise money, I'll call you back later. "Jin Buchang hung up the phone.

Lu Yang looked at the password uploaded by his mobile phone and found the password book and deciphered it.

"Liu Jie got the upgrade bug and the Blood Demon Temple Raiders, and he is taking his men to upgrade." Lu Yang smiled.

He called the old man at twilight and said, "Father, the strategy is available. You should try to hide it as far as possible, and try not to alarm other people."

The old man in the twilight said with a smile: "Young man, you can't hold your breath, old man, I'm not in a hurry. Waiting a few days, it's easier to confuse people."

"This is the best way," Lu Yang said.

The old man said, "Now I can take the first step. I'll talk to the bully."

Lu Yang said, "Then I wish you all the best!"

He closed the phone with a smile, put on a helmet to enter the game, and flew to the crater using a teleportation scepter.

Chapter 759 - Life Spike

At the deepest point on the west side of the crater is a rolling mountain at the junction of humans and orcs. Continue along the mountain to the west. In the denser forest, there is a long-lost cemetery. Many of the concrete pillars on the outside have collapsed. It was covered with moss, and the steel fence connecting the columns was covered with rust.

System prompt: you found the cemetery

Generally speaking, players who find this place must think that there are any special quests here. In fact, there are quests here. This cemetery is called Heinrich's Tomb.

The last generation found that a small guild here almost took the shovel bought from the system to plan the tomb and found no mission or special event.

Later they gave up, thinking that this was a joke that the official played with them, or just something that must exist in official official history.

Although most of them gave up, one player in this group did not give up. He returned to the St. Gall's Library to check the cemetery. Eventually, he found that this was Heinrich's cemetery.

Coincidentally, someone sold this Heinrich amulet at the auction house, and he bought the amulet for only 10 gold coins.

When he came to the cemetery again, he found Heinrich's tombstone in the middle of the cemetery, and put the amulet full of energy into the slot on the tombstone.

Just as Lu Yang did now, the moment the amulet entered the tombstone slot, the black light was illuminated, and a black hole appeared to \*\*\*\* Lu Yang into it.

Lu Yang only felt that his body was attracted by a huge force. When he responded, people were already standing in an underground palace.

He looked around. He was at a teleportation altar. It was very empty and dark around him, and couldn't see the margins.

The brass-colored stone slab under his feet has a crystal lamp every 5 meters. The dim light can only make people dimly see the scene in the palace. In front of him, there seems to be a group of monster heads.

Lu Yang took out the crystal lamp from his backpack. His crystal lamp can illuminate the area around 30 meters. Through the light of the crystal lamp, Lu Yang saw that the monsters around him were all brass statues.

The body of the statue is not much different from that of humans, but the head is special. It is a fierce demon head with a horrible face. The hard horns like the skin of a burr are drilled from his bald head, and with the expression, it makes people look extremely disgusting.

The other statues are like this statue, with horrible faces, holding brass knives, and neatly lined up like the ancient funeral army formations.

Lu Yang knew that these statues were actually real monsters, and they would be resurrected as soon as they walked past. According to the player in the previous life who said these statues in detail in an interview, he thought they were fake and almost killed.

“flaming Phoenix”

Lu Yang made a right-handed move, and a crimson phoenix appeared on the top of his right side. He pointed forward, and the phoenix flew forward.

The phoenix itself had flames, which illuminated the area 10 meters around him. When he flew in front of the first brass statue, the two brass-colored eyes of the brass demon glowed, and the brass sword in his hand was fierce. In the split, Lu Yang controlled the Phoenix to raise the height and avoided the attack.

Brass Demon (Elite)

Level: 60

Qi and blood: 600,000 / 600000

The brass demon didn't hit a single blade, chased under Phoenix, and Phoenix flew all the way forward, drawing all the eight rows of brass demon in front of him.

Leading to the area where Lu Yang was about to see the Phoenix, he ordered the Phoenix to return in situ. He has arranged nearly 100 fire dragons and a large sea of fire on the ground.

Lu Yang was injured by more than 9,000 in one law. Under the simultaneous attack of the fire dragon and the sea of fire, the brass demon was killed before he ran to Lu Yang.

System prompt: you get 20162 experience

...

After a series of experiences, hundreds of brass demons were killed, and an 18-meter-wide passage appeared in front of Lu Yang.

He walked along the aisle to the end, and a maze appeared in front of him. In the memory, the way the player said, the maze was not difficult. He walked along the left-most road all the way. It's an exit.

The only thing to note is that there are a lot of black demon-like demons inside, good at using the same skills as ground stabs.

Lu Yang walked into the underground palace along the left passage. The outer wall of the underground palace was also made of brass-colored metal. Just less than 10 meters forward, a black meat ball appeared, and the whole body was black with tentacles. Shake.

Muge Beast (Elite)

Level: 60

Qi and blood: 600,000 / 60000

Lu Yang's mouth spelled out.

"Wall of Fire"

A blaze of flame appeared on the animal.

"Neighing ~"

The Muge Beast did not know where to make a roar, waving his tentacles all over his body. Just as Lu Yang was about to release Pyroblast, suddenly a tremor came from his feet, and Lu Yang hurried back three consecutive steps.

System prompt: you have been petrified

A sharp stone protrusion with an area of 1 square meter appeared around Lu Yang, and Lu Yang was being hit by a sharp stone.

"8016"

Lu Yang has a lot of blood. He didn't care about the blood loss. What he cared about was that he was petrified. He didn't expect that this monster had such skills. The player in the last life just said this monster casually, but he didn't. Said this meatball monster also has petrochemical skills.

Thanks to Lu Yang being a mage, otherwise if faced with such petrochemical skills, if luck is bad, he will be trapped in place.

"flicker"

A ray of light lit up in front of Lu Yang, and he flickered back 30 yards to lift the petrification effect.

Muge monster has no action ability, he can only stay in place and growl.

Lu Yang aimed at the meat ball, and the flame appeared again in his hand.

“Destroy the Sky”

A crimson flame fell from the sky and landed on the head of Mugeguai.

“40698” (Critical Strike)

The cooldown of Skyfire is 10 seconds. Lu Yang decides to be careful first and slowly kill the monster before moving on.

After 2 minutes.

The animal’s blood volume dropped back to 0, the body turned into a pool of black blood, and a bronze book page fell out of the animal’s body ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ System Tip: You get 20198 points

Lu Yang walked in front of Muge Beast with a little surprise, picked up the bronze book page, and couldn’t help but widen his eyes.

“Sting of Life”

Class: Ironwall Warrior

Consumption: 10% of current Qi and Blood

Description: Release a 1 \* 1 yard ground spur to a target within 3 meters in front of you, control the target for 10 seconds, and cool down for 10 seconds. Tip: There is a great chance that the skill will fail, invalid to the lord, and boss And elite control time is halved.

“The Spike of Life can burst out here.” Lu Yang couldn’t help but laugh out loud, holding the book excitedly, “This time, Xiao Liang’s Prismatic Shield Armor Regiment is stronger.”

The most powerful part of this skill book is his ability to control the target. This skill is too strong. Although there is a great chance of failure, once it is controlled, it is in the range of 1 \* 1 yards. When the Legion is fighting, it can stand 9 people in the 1 \* 1 range.

## Chapter 760 - Beastmaster

If Xiao Liang had this skill last time when he played against Liu Jie, he would not have to kill a soldier or a soldier to trap Liu Jie’s troops.

It is conceivable that after the last incident, Liu Jie will find a way to crack the Prismatic Shield Armor Group. Now that there is a thorn in life, the Prismatic Shield Armor Group is completely afraid of Liu Jie’s 60th unit.

Lu Yang picked up the skill book. He did not continue to go to the left, but instead went to the right. One fork and one fork cleared the herd beasts in it. For every 50 herd beasts killed, a book would burst out. “Sting of Life”, which made Lu Yang very excited.

When Lu Yang hit the 10th book, a message on the World Channel made him smile.

[World Channel] Old Man in the Twilight: I announced that starting from today, all three fortresses of the Zijin Dynasty in Nikko City will be transferred to the hegemon.

The World Channel exploded.

“Old Man Late has quit the game?”

“I’ll pull it out, and a generation of magpies officially withdrew from the stage.”

“Hundreds of millions of bosses have withdrawn. What will happen to his guild?”

...

Countless players have discussed on the World Channel. Inside Zijin King City, spirits Qingfeng and Luo Siyu are also puzzled.

“Boss, that’s your hard work, just let it out?” Said Liquor Qingfeng.

The silver wolf blushed and said, “Boss, as long as you say, I will immediately recruit people. I can definitely recruit enough players, and we can fight for hegemony.”

Luo Siyu said, “Yes, boss, we can still fight.”

The silver light dance nodded.

There are dozens of people in the studio below. These people have heard that the old man is getting better, and he licked his face and returned.

The old man in the twilight looked at his subordinates and looked at the people in other studios. He smiled helplessly and said with a sigh, “Don’t fight, fight for that. After this time, I have understood, my body is dead, and I will hide in the little fortress southeast of the Freedom City and play games comfortably. We will not fight for hegemony. Whoever wants to stay with me and want to go, everyone will go Right. “

Liqueur Qingfeng and Luo Siyu looked at each other, and they were relieved to see the firm look in each other's eyes.

"I stayed."

"I stay too."

Silver Light Dance and Silver Wolf both looked at the expression on the twilight. The two shook their heads and turned to leave. They only agreed on the studio. The meaning in the word of the old man in the twilight was clear. He would no longer provide money for the studio. Support, then there is no need for their two studios to stay, they also have to eat.

The other dozens of studio players were dumbfounded, and the boss of one studio said excitedly: "Boss, you can't do this, brothers are running back to you."

"Yeah, we are all loyal to you," said another boss in the studio.

Luo Si looked at them coldly. When the old man fell ill, they received the news that after the late hospitalization, they were the first to leave noisily, but now they came to show their loyalty and made it clear that it was because of money.

The old man in the twilight said with a smile: "Brother, I know you are sincere, but my body is dead, I can't fight for anything, I can't rob anything anymore, just like that, everybody seeks a way out, I won't delivered."

"Well, why are you doing this?" A boss of the studio said excitedly, "you only have one fortress and someone to help defend it, you always need someone."

"The old fortress I also gave 50% of the shares of the bully. He defends for me. I don't need to worry about fighting and sneak attacks anymore."

These dozens of studio bosses who have been reluctant to leave are embarrassed. The last glimmer of hope in their hearts is that the old man also needs manpower in order to defend the last fortress.

However, once the twilight abandoned, the last fortress also gave 50% of the shares. After the bully, they don't make any sense.

These people looked at the twilight dumbfounded, and each shook their heads angrily and left. In the end, the only senior executives left were Liquor Qingfeng and Luo Siyu. The 500,000 players who originally stayed in the guild heard the news and left. With 50,000 to 60,000 people, only over 400,000 are left.

The old man in the twilight gritted his teeth and watched them leave. He looked at the strong liquor Qingfeng and Luo Siyu, and asked, "Why don't you both leave?"

Liquor breeze said freely: "I didn't pay for the game, I just feel relaxed following you."

The old man in the twilight smiled and looked at Luo Siyu and asked, "Why don't you leave?"

Luo Siyu rolled over and said to Bai Yan: "Are I with that kind of white-eyed wolf, I let the people in the studio go to other guilds, and I stay."

The old man in the twilight took pleasure and said, "Well, I can give you a small salary now, only one-fifth of the original, but your work is also easy. There are more than 400,000 people left. It is estimated that it will be a few days later. You have to go, and there aren't many people left in the end. "

Spirit breeze and Roth Rain were a little sentimental.

"It is estimated that there will be more than 300,000 people left in the end. The character of these people is still guaranteed." Liquor Qingfeng said.

The old man in the twilight didn't care. After asking them to leave, he picked up the phone and dialed Lu Yang's number, and said, "Brother, I have done it according to your requirements. The next step is up to you."

Lu Yang was killing Mugebei and said, "You look good, I must do this play well."

At this stage of the war, he already has enough confidence. In the next war, he will demolish Li Xiuyu 's fortress and ruin Wang Teng 's future. Only at this stage will his revenge really begin.

The old man at dusk could hear Lu Yang's heartfelt hate from the phone and said, "Brother, Liu Jie, Wang Teng and Li Xiuyu, have they offended you before?"

Lu Yang smiled ~ [www.mtlnovel.com](http://www.mtlnovel.com) ~ No answer, changed the subject and chatted a few words. He turned off the phone, the scope of the maze was really large. Fortunately, he would make a number mark every time he walked.

For nearly five hours, he walked to the center of the maze. At this time, there were already 100 copies of "Sting of Life" in his hand.

"Dang, when, when ..."

The sound of steel collision came from the house next to the labyrinth. Lu Yang couldn't help but want to take a look. He left a shadow of flame in place and walked a turn along the wall to the entrance of a house.

System prompt: you found the center of the maze

Lu Yang stretched out his head and looked at the inside of the house. A 5 meter-high brass herd animal was waving his brass tentacles constantly. When the tentacles collided with the tentacles, they made a metal sound.

Mage Beast King (boss)

Level: 65

Qi and blood: 2000000/2000000
