

Wild Fire 901

Chapter 901 - Escape mission

“Meteor Falls”

After 0 seconds, Lu Yang pointed with his left hand in front of him. The clouds in the sky broke open. A fire meteor larger than the house descended from the sky. In the middle of the dwarf swordsman, he stunned all the dwarf swordsmen and the queen.

Lu Lu could not breathe, ordering all fire dragons to no longer target the queen, instead attacking the divine dwarf swordsman, and then he launched a second spell, Meteor Fire Rain.

After 0 seconds, countless large fireballs dropped in the sky, each of which can deal more than 50,000 critical damage, but at this time the dwarf swordsman also woke up and continued to chase the landing sun to attack, the dwarf queen even broke open. The dwarf swordsmen around came to the front.

“Human, you will die very miserable.” The dwarf rushed over again.

“Blazing Heart Flame”

Lu Yang aimed at the dwarf queen to launch super skills, a flame hit the dwarf queen’s heart.

“3000000”

The dwarf queen suffered a lot of damage, but this is nothing more than his 5 billion health, but it is better than nothing.

“Blink”

Before Lu Yang hit the dwarf queen, he sent a white light to jump to the middle of the Lock Soul Canyon, where 00 fire dragons had just killed a dwarf swordsman.

He continued to summon Fire Dragon in situ, and the only way to quickly kill Dwarf Swordsmen was Fire Dragon.

Fortunately, he now has 20,000 intelligence, which can make the duration of the fire dragon art more than 20 minutes, otherwise he would not dare to provoke so many dwarf swordsmen.

I saw that the dwarf swordsman rushed over again, and Lu Yang was surrounded by flames.

“Flame Demon Change”

Lu Yang turned into a 5-meter-high flame demon, all the spells’ cooldown time on his body returned to zero, facing the dwarf swordsman who rushed over.

“Yang Yang Suo”

Uh ...

He continuously fired the Yan Yang Suo, trapping all the dwarf swordsmen in place, and each Yan Yang Suo could trap the enemy for 2 seconds. During this time, he continued to call the fire dragon in place.

For every 2 fire dragons summoned, he releases the yinyang cable once. In less than 0 minutes, more than 500 fire dragons have been summoned on the ground. The dwarf swordsman has been killed more than 50. The remaining death rate is also coming faster. .

After 20 minutes, more than 500 dwarf swordsmen were all killed by Lu Yang, and more than 00 second-round certificates were dropped on the ground.

He picked up these certificates and launched a fiery sprint to take the dwarf queen back to the giant spirit dungeon, and then circled the main city to get rid of the dwarven queen's hatred, and then while the flames changed, there were only seconds left He once again launched a fiery sprint, and ran quickly to the entrance of Huo Shicun with two flashes.

Beacon Stone Village was full of divine dwarfs. He didn't dare to go in directly, drank a bottle of stealth potion, and sneaked into the village.

He didn't know where the princess lived, but Lu Yang found that there was a house in the village higher than the others.

The normal dwarf is only one meter five five, and their house is only over two meters high, and this house is over three meters high. Maybe this is where the princess lives.

Lu Yang came to the door and saw two dwarf warriors guarding the yard, and the door in the yard was closed.

He didn't dive in, let alone the two dwarf warriors, or the villagers around him would be alarmed and it would be bad to run over.

Alas, he didn't have time to wait. After losing his hatred, the dwarf queen would continue to follow the original route to kill the princess.

Lu Yang has lost all his body skills and there is no bug spot here. He can't beat the queen at all.

While he was anxiously waiting, the door of the house opened suddenly, and a beautiful woman came out from the inside. He glanced at Lu Yang in a hidden position and said to the two dwarf soldiers: "Two thirsty Come on, I'll get some water for both. "

"Your Highness Princess, we are responsible for protecting you," said the Dwarf warrior respectfully.

If the princess really married the dwarven king, she is the wife of the dwarven king, and they are the object they need to obey. The two dare not embarrass the princess.

"It should be, please wait for me, I will go back to get water." The princess walked in without closing the gate.

Lu Yang quickly followed in, and followed the princess to the bedroom. The princess looked back at the invisible Lu Yang and said, "Show your body, sir."

Lu Yang pulled out of stealth and said to the princess, "I'm here to save you."

"Are you sent by my father, where are the other soldiers?" The princess asked in surprise.

Lu Yang handed the dwarven king's letter to the princess and said, "I am an adventurer who came here to explore and accidentally killed a group of dwarves. I intercepted this letter and I just brought the dwarf queen back to the giant dungeon. , But he will soon come after you, you have to follow me quickly. "

Princess Luan looked at the stationery, her face tense, and said, "I heard that the woman is very powerful. I am not her opponent and must leave as soon as possible."

Lu Luyang asked, "Is there any way to let the two people at the door come in, and I killed both of them in the house, which should not attract attention."

Princess Wu said, "I'll help you."

Lu Yang looked for a moment and looked at the princess's level, only to find that the princess turned out to be 00.

Princess Hairis

Level: 00

Blood: 00000000/00000000

Lu Yang was amazed, co-authoring this princess is still a master, and said, "Okay, you first bring them over."

Princess Yun came to the door and said softly to the two dwarfs, "Can you come in and help me I can't lift anything."

"I will be happy to help you," said the two dwarves, and followed the princess through the door.

When Lu first arrived in the bedroom, Lu Yang suddenly appeared.

"Blazing Storm"

"Lava Eruption"

"Dragon Fury Wave"

A set of two-turn skills was knocked down, and the two dwarves were killed by hundreds of thousands of blood. Just when the two men just woke up, the princess summoned a slender sword, Lingfeng protruding, two The dwarf was bound in place.

Lu Yang glanced at it for 20 seconds.

This made him so excited. He released the fire dragon technique continuously, and after 20 seconds, the princess in his hands suddenly stabbed at the necks of the two of them.

"Sword Spirit Into the Body"

Two dwarves were frozen in place for 30 seconds.

Lu Yang took advantage of this opportunity to continue the attack. This time, the two dwarves were killed by Lu Yang.

“Master,” Lu Yang sighed.

Princess Wu glanced at Lu Yang proudly and said, “I graduated from Sword Spirit College.”

Lu Yang marveled that this is the top academy of warriors. It allows a warrior to learn to summon sword spirits, and his attack power is no less than two turns.

“Can you give me a letter of introduction, I want to help my friend change jobs.” Lu Yang said.

当然 “Of course, as long as you can save me out, I am willing to help you write a recommendation letter,” said the princess.

Lu Luyang had long wanted to find a transfer notice for Sword Spirit College for Xia Yuwei, but he couldn't get it. Now he can find it here, and he can be rest assured.

Chapter 902 - Play 1 in a group

“Come on, let's find that dead tree.” Lu Yang said.

“Do you have any way to get past? The village is full of dwarves,” the princess asked.

Lu Yang took out two camouflage coats and said, “Put on this and pretend to be a dwarf swordsman with me.”

The princess nodded happily and turned into a dwarf.

"It's ugly," Princess Harris said, frowning.

Lu Yang picked up the equipment on the ground and gave it to Princess Harris, and said, "Change your clothes, let's go quickly, and the queen is coming."

Princess Harris was no longer talking, and after changing her clothes, she and Lu Yang walked out of the yard.

The dead tree in the village is easy to find. It is located in the left corner of the village. Lu Yang and Princess Harris met along the way and encountered many dwarves. Fortunately, the relationship between the dwarves is relatively indifferent. You do n't need to say hello when you meet each other. Let Lu Yang escape.

"Damn woman, get out of me." A roar made both Lu Yang and Princess Harris, who were breathing hard, showed shocked expressions at the same time.

"Fuck, the queen came after me," Lu Yang said.

"What to do, I can't beat him," said Harris.

"Don't worry, I'll find the secret door first, and I should be able to escape soon," Lu Yang said.

The dark door of the dead tree should be easy to find. Lu Yang looked around the dead tree with a diameter of 5 meters and found that there was a ring on the side of the dead tree. In front of him.

"There is a tunnel here, come with me soon." Lu Yang said.

Harris nodded, and jumped into the tunnel with Landing Yang, with Lu Yang in front and he behind.

System prompt: You found the dwarven king secret

The previous passage did not disclose this secret passage, and Lu Yang knew nothing about it. Fortunately, this passage was not dark or light.

Every 10 meters on both sides of the closed path, there is a white light gem that illuminates the closed path. The closed path is about 30 meters wide, and the end cannot be seen at a glance in front.

Lu Yang didn't see the monster. When he ran, he generally asked Princess Harris: "How fast can you run as fast as possible."

Harris said: "With the blessing of the sword spirit, I can run at a speed of 285%."

"Enough, then I start the hot and fast, let's run." Lu Yang said.

Harris nodded happily.

Lu Yang turned on the blazing speed, and silver rays appeared at the feet of Harris, and he ran quickly with Lu Yang.

Just when the two ran for 5 minutes, when Lu Yang thought it was safe, suddenly there was a roar behind him.

"Haha, woman, I found you, and I want to run away from here, I want you to die here." The voice of the dwarf queen echoed in the tunnel.

Lu Yang said silently, "This old woman is crazy, run away."

Hai Ruisi nodded, and continued to run with Lu Yang, but the queen's movement speed was normal 295%, far faster than Lu Yang and Hai Ruisi accelerated every 30 seconds, less than 3 minutes, Lu Yang saw the queen behind her.

"It's over, there's no end in sight," said Harris.

Lu Yang said, "Don't worry, I have another trick. You run first."

This trick is the last thing Lu Yang wants to use, because every time it is used, it will make him spend a lot of time to supplement, and sometimes even delay time.

Hai Ruisi gave a grateful look at Lu Yang and continued to run forward. Lu Yang stayed in place and saw the dwarf queen approaching gradually. When the king came to Lu Yang only 5 meters later, Lu Yang launched his skills.

"Rage of Entropy"

The nine elemental **** behind Lu Yang began to swell instantly.

"Hello ~!"

The roar of countless undead souls suddenly filled the entire space, and 9,000 undead rushed out of the elemental ball at the same time to attack the surrounding souls.

The dwarf queen was the first to be hit by 9,000 souls at the same time. Each soul could cause 100 points of damage, instantly knocking down the dwarf queen's 900,000 blood, reducing his movement speed by 50% for 60 seconds.

The speed of the dwarven queen dropped instantly, and Lu Yang took the opportunity to launch a fierce sprint, chasing Harris quickly at a speed of 350%.

After 1 minute, Lu Yang caught up with Harris and said, "Take the queen away for now."

Harris said: "Great."

Lu Yang said, "Did you see the end?"

“It looks like a wall in front, it should be the end there,” said Harris.

Lu Yang looked forward, 500 meters in front of him, where the lights stopped, leaving only a black wall.

The two came to the wall, and there was a lever on the left side of the wall. Lu Yang tried to push the lever below.

“boom”

There was a huge sound of friction, the walls slowly rose, and the entire tunnel was dropping dust, and in the dust, the queen caught up.

Lu Yang looked at the speed at which the queen was chasing and said to Hai Ruisi: “According to this speed, the king is late, and this door is not open.”

“What then?” Harris asked nervously.

Lu Yang pointed to the gap that had been exposed and said, “Come out with me.”

Hai Ruisi nodded, and took a few steps back with Lu Yang. Lu Yang sprinted. When the gate rose 25 centimeters, he instantly slipped to the ground and slid out against the ground.

System prompt: You found the ancient city of Yole

Lu Yang fiercely opened his eyes and looked at the sight, he was surprised to find that it turned out to be under the cliff on the north side of the Red Fort.

Just above it is the red fortress, Lu Yang’s old nest.

“Uh ~” A cry came from behind him, Lu Yang looked back, and Hai Ruisi glanced out of the door, covering her shoulders.

Lu Yang asked, “What happened to you?”

With a pained expression on Harris’s face, he said, “I was hit twice by that woman’s axe. I can support up to 5 attacks. Where are we now?”

Lu Yang said with a smile: “You can rest assured that you are safe from now on.”

He sent a message in the simulation group: “Vice presidents, Hei Yan and Mu Feng immediately took their elite players to the North Gate of the Red Fortress and required to arrive within 1 minute.”

“Let’s go.” Lu Yang and Harris ran towards the distance. Just 500 meters away, the queen ran out of the gate.

“I see where you are going this time.” The dwarf queen with a smirk expression on his face, he hurriedly chased after Dangyang.

When the dwarf queen chased after Lu Yang and chopped an axe to Lu Yang, a dark shadow fell in the sky.

“Boss, I’m here.” The white wolf roared and chopped on the ground of the dwarf queen with two swords.

“-86”

The white wolf blinked, looked at his weapon, and said, “No, what defense is this and how high?”

Lu Yang said: “This is a level 100 lord monster.”

As soon as the words fell, the dwarf queen swept back across the wolf's chest with a sword.

"489780" (critical strike)

White wolf, die!

Chapter 903 - Rich drop

"I went here, why is this attack so high." The white lion and the white tiger stopped immediately as they were about to go up.

Lu Yang said: "Mufeng's punishment knights can only fight this thing."

"I'm on." Mufeng held a level 60 holy sword and rushed up with 7 punishment knights. He deliberately opened the invincible, but did not wait to reach the dwarf queen within 10 meters.

"Fatal Throw"

A huge one-meter-diameter tomahawk swept across Mufeng and his seven men. They stood invincible and were instantly broken and died on the ground.

"Invincible can crack."

"Seckill, what is this?"

...

Everyone was dumbfounded, and they were all about to stop.

Lu Yang said: "Everyone protects this Princess of Harris next to me and kills him and Hei Yan and Sun Yu."

The purpose of calling everyone was to have more people, all in front of Harris, so that he was less attacked.

"Okay." Xia Yuwei and the White Lion all stood in front of Harris.

Harris asked, "Would I like to help this old vixen if I go up to help?"

"Oh ~~~" Everyone didn't hold back.

Lu Yang also almost couldn't hold back. After this NPC has humanity, the dialogue is as fun as humans.

"Don't go up first, let's pack him up, Blue Feather gives Heris a blood." Lu Yang said.

"Oh." Lan Yu used his skills to fill Heris's blood.

Sun Yu asked, "Boss, how do I fight?"

Lu Yang said: "Using your movement speed, take him to the troll village to run around, Hei Yan and I use skills and then attack."

"Okay." Sun Yu used wind and thunder arrows as a big hate skill to pull away the hatred of the dwarf queen and ran her into the troll village.

Troll Village is the small village where Lu Yang and Sun Yu met at the beginning. Now the 16th level troll is just like a group of little rookies. It does not cause any damage to Sun Yu. All the attacks hit him only forcing 1 point. blood.

Sun Yu summoned the black dragon, and all the breath was sprayed to death!

There is a fence around the troll village. After launching the wind elves, he moves 10% faster than the dwarf queen, and takes the dwarf king to run around the village.

Lu Yang ran to the top of the troll shaman's house with Hei Yan, watching the dwarf queen chasing Sun Yu in a circle. Lu Yang said to Hei Yan, "You burn him with black fire."

Hei Yan's special skills are black flames. He does not view injuries but only sees the results attached to him. This spell attack method has very low damage, but can't help accumulating.

The black fire lasts 8 seconds, and each time it hurts 164 points. After the second turn of the black flame, the fastest speed of black fire can reach 3 per second. He turned on the automatic mode and aimed at the dwarf queen to start releasing the black fire.

After Lu Yang was filled with lava eruption around the village, he also adjusted it to automatic mode. This way, the probability of a miss from attacking monsters is very low, which can almost be achieved. If you attack with free mode, the dwarf queen is 295%. The moving speed is difficult to hit.

Soon, the dwarf queen's feet were full of magma and black fire was on her body, but Sun Yu's wind and thunder arrows were particularly hateful. It was a special skill for pulling monsters. There was also a dragon's breath technique of the pseudo black dragon on the head, so the dwarf queen still Chasing Sun Yu.

Mufeng and his 7 men were rescued. Depressed, he and the wasteland and other people came up with a new method. Sun Yu's wind elves accelerated to all teammates. Several of them used the wind elves to chase the dwarf queen. At the back, the punishment angel started chasing the queen to slash.

The dwarven queen has a full 5 billion blood. Even with so many people attacking, he still can't see much drop in his blood. Soon, all 150 punishment knight skills are used up, and the dwarven queen still has more than 4 billion.

Everyone was amazed.

"Boss, what is the origin of this lord? It's so hard to fight." He asked bitterly for a long time.

Lu Yang said: "This guy should be able to drop good things. There may be only 10 of the 100-level lords in pure physical attack. He is one of them. It is rare for us to have such a chance to kill him."

"It's a pity that it's not in the Sea Emperor City. If it's over the Sea Emperor City, it will give him seconds with a self-explosive insect." Zhou Tianming said.

How dare Lu Yang take the dwarf queen to run to the Sea Emperor City, so that more players saw it, it is easy to snatch.

Although he has now almost eliminated all hostile guilds of the human race, he is only a little better than Tian Yao and Liu Jie. Those annihilated guilds rarely ask him for trouble, but not none, and there are many small ones. Guilds and studios are not afraid of the Jagged Brotherhood.

Lu Yang didn't want to have any extravagance, and said, "Don't say anything about today, and don't send pictures and videos of this lord. He is the secret of our guild."

Everyone was shocked.

"Boss rest assured, we know the importance." Zhou Tianming said.

Lu Yang nodded and continued to fight.

With 5 billion hits, Lu Yang beat him for more than 3 hours. The dwarven queen's hit was only 100,000 points.

“Huh, it’s finally about to kill him, it’s too difficult.” Hei Yan said.

Lu Yang also looked helpless. Normally, this lord should be attacked by 100 players all wearing dark gold or above suits, but this group is not the only one who reached level 100, and the rest are 80. Level people, people who are not equipped can fight.

“Last blow.” Lu Yang threw out a flaming cross right in the head of the dwarf queen, and killed him more than 20,000 health.

The dwarf queen glanced at Lu Yang in disbelief and said hardly, “You, you, will regret it.”

System prompt: you killed the dwarf queen

An 8X8 big explosion centered on the dwarf queen dropped 64 items, one of which was a golden giant sword that was particularly noticeable.

Mighty Emperor (Excellent Gold)

Level: 100

Damage: 11328-17152

Strength: +1600

Constitution: +1240

Additional physical attack: +5552 points

Additional physical crit: +4416 points

Additional physical crit: +4608 points

Lu Yang sent the equipment pictures to everyone.

“This weapon has high attributes said White Wolf.

Lu Yang said: “This weapon has been placed in the guild warehouse. Whoever of your deputy chairmen first reaches level 100, this weapon belongs to whom.”

This weapon should be ranked in the top 20 within level 100, which is a good weapon.

Lu Yang continued to look to the ground. Among the remaining items, there were two Divine Warrior Second Turn Certificates, an accessory, and the love of the Dwarven King.

Dwarven King’s Love (Special Ornament)

Level: 100

Strength: +1000

Stamina: +1000

Constitution: +1000

Special Skill: Wrath of the Dwarf

Description: It is your attack that has a chance to trigger the dwarf’s wrath, increasing the strength by 3000 points for 30 seconds.

Chapter 904 - Brother first

Lu Yang also threw it into the guild warehouse, the rest of the equipment would be much worse, but the ordinary garbage gold and silver equipment between level 80 to level 100 were put in his backpack.

“Well, the mission is complete.” Lu Yang said.

“Ah, ha ha, boss, that, boss.” White wolf frowned and came to Lu Yang.

Lu Yang was unsmiling. He took out the Divine Warrior Second Turn Certificate from his backpack and handed it to the white wolf. He said, “I have already prepared it for you. Take it for a total of 217.”

“So much.” White Wolf said in surprise.

Lu Yang pointed at the queen of the dwarf and said, “When I took this task, there were more than 500 dwarf swordsmen around this goods. I killed those swordsmen before I brought him back.”

Everyone took a breath.

“You are fierce enough so that you can live alive.” Jiang Ze said.

Lu Yang said, “Let’s go and accompany me to send Princess Harris to St. Gall, and I will hand in the task.”

“What will this task give, the reward must be quite generous.” Xia Yuwei asked.

Lu Yang said, “It’s about you.”

Xia Yuwei was surprised and asked, "Give me something good."

Lu Yang said, "You'll know where you are."

Xia Yuwei rolled her eyes.

Lu Yang laughed and took a group of people to **** Harris to the royal palace of St. Gall. At the gate of the hall, Xia Yuwei and others were stopped. Only Lu Yang and Harris were allowed to enter.

The old king was sitting on the throne and saw his daughter return. He ran off the throne excitedly and hugged his daughter excitedly.

"My baby girl, where are you going? Let me find it." The king cried.

Heris also cried and said, "Dad, I was taken away by the divine dwarf. The dwarven king wanted me to be his wife."

"Asshole, how can they do this, you are okay." The king was worried. The king knew how strong the dwarf king was, he couldn't beat the dwarf family.

"I'm fine, thanks to President Lu Yang who saved me. We were chased down by the dwarf king's wife while we were on the road, and President Lu Yang and his men saved me."

The King turned to Lu Yang and said with satisfaction, "You are very good. You saved my only daughter. He is the child of me and the late queen. I thank you for being a benefactor of our Drava family."

Lu Yang said: "Don't dare to be, this is what I should do."

The king shook his head, extended his right hand, and a beautiful black talisman appeared on his palm, saying, "You are not only saving a princess, but a new king of Drava family and human race. This is what you deserve of."

The system prompts: The Terran will enter the age of Queen Harris.

Lu Yang originally felt that Feng Wang Ling was too easy. It turned out that he triggered a new expansion film mission. He took over the black amulet from the past. His heart was ecstatic and he finally got the Wang Feng Ling.

Feng Wangling

Level: 80

Strength: +3000

Stamina: +3000

Dexterity: +3000

Intelligence: +3000

Stamina: +3000

Description: All holders are king!

From today on, as long as he activates the King Order, players of the Orcs and Elves can officially join the Brotherhood of the Iron Blood, and the players of the Brotherhood of the Iron Blood will no longer be enemies with the human race, they can add blood to each other, and can fight in teams Blame the upgrade.

Lu Yang said excitedly to the old king, "Thank you."

Harris said: "You're welcome, this is what you deserve, and this is for you, I promise you."

A second transfer certificate of Sword Spirit College was handed to Lu Yang by Harris.

Lu Yang looked at the certificate with great emotion and said, "If the Kingdom needs me and the Brotherhood of Iron Jade in the future, please do not hesitate to say anything."

Harris smiled playfully and said, "I'm relieved that you have this sentence. I will find you. Don't forget the things you promised me."

"Sure." Lu Yang said with a smile.

He left the palace. Now he has a lot of things to do. A king order has completely changed the pattern of the national costume. Before, he did n't want to fight Tianyao. Now, the king is in hand, even if he does not fight Tianyao will also come to hit him. This prince is not only a coveted baby, but also a hot potato.

As soon as they got out of the gate, Xia Yuwei and others beckoned immediately.

"Boss, we are here."

Lu Yang walked over with a smile, handed the second transfer certificate of the Sword Spirit College to Xia Yuwei, and said, "This is a follow-up reward. Go to another job."

Xia Yuwei looked at the certificate in astonishment and asked, "What can this transfer into?"

Lu Yang said: "He will let you have a sword elf, no less inferior to Min swordsman in movement speed, output no less than Divine Warrior, and will allow you to use your proficient sword."

Xia Yuwei passed the elementary sword from elementary school and was considered a master. Otherwise, he would not choose a warrior when he chose a profession, but the warrior used a two-handed epee, which was not suitable for Xia Yuwei. Use a sword that he was used to let her ecstatic.

“Thank you, boss.” Xia Yuwei flew away using her transfer certificate.

“There are no other rewards,” bitter love asked for half a lifetime.

Lu Yang shrugged his shoulders, handed the teleportation scepter to the half-life of painful love, and said, “Keep going back to upgrade, there is still a reward, I will tell you at night.”

“Oh.” Bitter love blinked for a long time, and generally Lu Yang was able to speak well in this tone, proving that it must be a major event, and he no longer spoke clearly.

The same is true of others. The killing of the dwarven queen by the Brotherhood of the Iron Blood is completely sealed up, and everyone involved in this incident will never mention it.

Lu Yang returned to the dwarf kingdom. He wanted to see if there was still a chance to enter the giant dungeon to find a dwarf swordsman. He did not expect to return to the Firestone Village through the tunnel under the red fortress and saw a large number of dwarf swordsmen. Gather here.

“Who can tell me exactly where the queen has gone, and why it hasn’t been found.” A dwarf swordsman captain asked angrily.

“It is said that someone has rescued the princess, and maybe he also attacked the queen,” said a dwarf in the Firestone Village.

“Immediately sue the King, and the others continue to search, find me the human, rescue the queen and the princess,” the Captain of the Dwarf Swordsman growled.

Hundreds of dwarf swordsmen shouted while holding up their weapons.

Lu Yang listened to the dialogue of the dwarf swordsman. This should be the follow-up to the plot that has just been triggered. The dwarf king found that his wife was lost and was looking around. This is an opportunity for him. If he kills these dwarf swordsmen, the dwarf king will definitely send more dwarven swordsmen to kill him.

Lu Yang decided to try once. He sneaked into the Soul Soul Canyon using a stealth potion, where he arranged the lava eruption and fire dragon art, and returned to the entrance of Huoshi Village.

More than 20 dwarf swordsmen were standing at the entrance of the village, and Lu Yang appeared in shape and raised a hand with a flame cross.

“噤”

A dwarf swordsman was hit in the head. When he saw that he was hit by Lu Yang, he yelled in exclaim: “An enemy attack, a human being enters the dwarf family, an enemy attack!”

Hundreds of dwarf swordsmen in the village rushed out immediately and chased after the landing sun.

Lu Yang launched a fiery sprint and ran back to the Soul Soul Canyon. He continued to kill the dwarf swordsman by using lava eruption and fire dragon technique.

Soon, this group of dwarf swordsmen was killed, and Lu Yang obtained more than 100 Divine Warrior Second Turn Certificates.

The system prompts: The Dwarf King is sending a large number of dwarf swordsmen. The estimated time of arrival is 50 seconds later.

Lu Yang took the potion from his backpack and began to recover. After 50 seconds, the first wave of dwarf swordsmen arrived, with more than 500 people.

Lu Yang was not afraid. He relied on lava eruption and fire dragon art to kill a lot. Soon, these dwarf kings were killed, and more than 100 transfer certificates were dropped on the ground again.

The addition of a Wang Fengling gave Lu Yang an extra 3000 intelligence, which made his output higher and the speed of fighting monsters much faster.

System prompt: The second wave of Dwarf Swordsman arrives after 50 seconds.

...

For 30 waves in a row, Lu Yang killed 15,000 dwarf swordsmen. Counting what he had obtained before, he just got 3,000 second-round certificates of the magic warrior.

He returned to the holy city and handed the certificate to the White Wolf. It happened that the 3,000 Divine Warriors followed the White Wolf back to the city to prepare to go offline. When they saw Lu Yang, they all looked grateful.

The second-round certificate of this level is worth at least 10,000 yuan in the market. Letting Furious Battle get an extra two-handed sword is equal to one-third more output damage. This is for a player who likes to output. , The meaning is too great, not to mention this is the second turn of the magic warrior, can learn more top skills.

Some of these 3,000 magic warriors were the 3,000 people who started with Lu Yang in the early years. They are just a group of ordinary players who never dreamed that they could have such strength in the game.

Lu Yang also saw the old brothers, walked in front of an old player, patted him on the shoulder, and asked, "How about, have you been upset recently?"

"No, there is a boss, this game is extremely fun."

Lu Yang laughed. What was the original intention of his establishment of the Jagged Brothers Alliance, wasn't it to make the brothers play in the game and not be bullied, he did it.

Came to another old player hammered his shoulder and asked: "I heard that your kid has recently become the deputy head of the magic warrior group, good."

"Boss, you remember me."

“Crap, can I forget you?” Lu Yang scolded.

All the old players’ hearts were touched by this sentence. Lu Yang has become the city owner of the 15 cities of the human race. His players have more than 10 million players, and they are still paying attention to these old people.

“Boss, I thought you forgot us all.” A player said with a smile.

Lu Yang laughed and said: “We are the closest brothers. One third of the country in this country is played out step by step by following me from the run-down little guild. At that time your support for me, this kindness I have never forgotten in my life, I’ m just too busy to take you up as before, but it doesn’t mean that I forget you. Your friend ’s column has my name. If you have any questions, please contact me directly ? “

“Yes, thank you, boss.” Hundreds of old men said at the same time.

Chapter 905 - Wild Wolf Guard

Lu Yang is more comfortable now. He does n’t want to play a game and is still an orphan. He looked at the old man one by one and looked at the new one. He said, “Take this group of new people and pass on our tradition. Brothers always come first. “

“Yes.” Hundreds of elderly people answered at the same time again, this time with more excitement than last time.

Lu Yang patted them casually, and came to the headquarters of the St. Gard Iron Brotherhood. Since Lu Yang unified the inland of the human race, he has built simple fortresses next to the main cities. These fortresses are only 2 minutes away from each main city. The distance.

In other words, all the players of the Jagged Brothers League can freely move through the main cities, and it is much more convenient to buy and sell than before.

Xia Yuwei They used to upgrade on various Terran maps, but now they all flew back to the holy city through the proposed fortress.

When Lu Yang entered the meeting room, their several vice-chairmen had already arrived and were sitting and chatting together.

This time, the twilight, the cool cloud, and the shooting Sirius were also there.

After seeing Lu Yang, he said helplessly, "I'm all in my 60s, so I have to let me participate in this meeting."

Lu Yang said with a smile: "Father, you have something important to tell you today."

"What a big deal, war." The old man asked.

Lu Yang shook his head and said, "It's bigger than that. I got the Wang Fengling."

"Feng Wangling? What?" Asked bitter love for a long time.

At present, there are only a few players who know that Feng Wang Ling exists. This thing has never been officially disclosed, but there are relevant records in the library.

Lu Yang looked at the confused eyes of the crowd and shared the order of Wang Fengling to them.

Suffering for half a life, he shook his head and said, "I still don't understand."

The old man asked, "What's the use?"

Lu Yang smiled and said, "As long as I am the king, the wolf guild that shoots Sirius can be officially merged into the Brotherhood of the Iron Blood. In the future, players in the wolf guild can team up with players from our guild. You can add blood and enjoy all team effects. "

Shooting Sirius looked at Lu Yang excitedly, and said, "Really? This is great, I have waited for this day for a long time."

Seeing the white lion and the muddy wine, they took the holy sword, wore a superior gold suit, and copied a variety of bugs to use. Shooting Sirius can't wait to change his personal account directly, no longer playing with the orcs.

Zhuo Jiu and Zhou Tianming were also excited.

"Boss, in this way, you are the first guild in the full service," said Zhujiu.

Lu Yang said: "So I have all of you here and told you the good news in advance, but for the time being this matter cannot be made public."

He nodded in twilight, and now he was spirited, saying, "You have done this right, and you must not make it public at this time, otherwise this name alone will allow Tianyao and Liu Jie to join forces to hit you."

Lu Yang said: "I think so too. Although this name is not public, I will gradually gather masters of the orcs."

Shooting Sirius said: "Boss, there are many masters on the beast side, many are being hunted down by Tian Yao. If you can recruit them, they must be willing to come over."

Tianyao defeated other orc opponents and almost unified the entire orc, but there were many people who did not agree with him and wanted to regain their guild. Tianyao put a lot of effort to destroy them, and a large number of players were looking for these people.

Many of them are the guild leader who originally occupied the fortress and some studio masters. In the face of Tian Yao's pursuit, they hide when there are many people, and they can fight back when they are few. Very busy.

In fact, this is also the reason why Tian Yao did not play Liu Jie in the Orcs in the last life. This person is so proud that he has no feelings for the defeated enemy. In the end, these original bosses chose to rely on Liu Jie or Tian Yao. With his players, Liu Jie was chosen, and Tian Yao was defeated.

Lu Yang also wanted to implement this strategy. After the rest of the day, Lu Yang came to Sirius City with Sirius in the early morning the next morning.

“Boss, the first person I introduced to you was a bit special.” Shooting Sirius said a little embarrassed.

“Who?” Lu Yang asked with interest.

Shooting Sirius smiled and said, “Actually, this guy should be my enemy. We still have enemies, but this guy is really talented and has good strength.”

Lu Yang became interested, and asked, “Who makes you respect this way? I have resentment against you and recommend it to me.”

Shooting Sirius was a little embarrassed and said: “I defeated him and won Sirius fortress because I was more popular with everyone. I was really better than my own strength and the offensive ability of his special army. I was inferior to him.

This person’s name is arrogant and passionate. He has a special army called the Wolf Guard, with a total of 300 people. If you can recruit him, it will greatly improve our strength. “

With pride, Lu Yang is not clear, but he knows the strength of the Wolves Guard. This is indeed a good job.

“Where is this person? Tell me about the news you know about him.” Lu Yang asked.

Shooting Sirius said: “After being defeated by me, he took the guild to King Beamon City and wanted to re-establish the guild there, but he was defeated by Tian Yao, and the entire guild collapsed. Currently he is trapped in Within the city of Beamon, Tianyao will be hunted down whenever he leaves the city. “

Tianyao has a space-time unit and a marked army. Unless you enter the hotel to rest, you will be locked by their special skills even if you are in a safe area. No matter where you go, you will be chased by the marked army and the space-time army. kill.

Lu Yang is still very clear about Tianyao's main combat effectiveness He said: "I'll go to Bimen City to see if I can recruit him."

Through the teleportation array, Lu Yang flew to the city of King Beamon, which is a huge main city. The height of the wall is higher than any of the main cities of the three races.

The stone houses and walls on the road are all white and look very beautiful. The Beamon people are NPCs, and the players on the road are all races of the orcs.

The beast is different from the human race. He has an obvious feature. If you are a tiger, then your appearance is like a tiger. You are a wolf. Your appearance is like a wolf. If a wolf player reaches the tiger The main city is not welcome.

Especially if you are a wolf player who wants to occupy the stronghold in the tiger clan, is it because the tiger clan is incompetent?

In the beginning, no one noticed this situation, but after several times the foreigners were jointly overthrown by several major guilds in the local main city, the players of the guilds of all ethnic groups understood that they wanted to occupy a stronghold of another race as a foreigner. Only those main cities without race can choose.

In the game, players can not choose the Beamon family, so Beamon King City is a very popular place for players of all races.

Lu Yang looked at the coordinates sent by Shooting Sirius, and used the stealth potion to reach the 80-level map of the evil eye canyon. When he arrived at the door, he found that the entrance was blocked by dozens of players. He quietly came inside and found that he was full of love. The 00 crazy wolf guards who were with him were being blocked inside.

“Pride and passion, see where else can you run today?” Tianyao’s eighth-ranked vice president Lie Rihu Wang Zheng sneered and looked at pride.

“Tiger, you are too bullying.” Scolded with pride and fury.

“Oh, how about it? I heard that you still want to gather players from Beamon City to prepare for a counterattack. You are brave enough.” Tiger King said.

“Bimeng City originally had my fortress. You robbed me of my fortress. Why can’t I recapture it?” Pride yelled.

“Then don’t blame us for being rude, brothers, let’s continue to kill them today.” The scorching Tiger King said proudly.

Thousands of players rushed towards him with more than one hundred players.

“Brothers, don’t fight with them, let’s go.” With a roar of pride, in the shape of a werewolf, he turned into a real silver-grey war wolf and ran towards the deep valley.

The other 00 people, like the lofty sentiments, all turned into war wolves, and ran quickly into the depths of the evil eye canyon with four limbs.

The expression of disdain on the prideful face showed, “Catch, never miss one.”

Three or more captains chased into the depths of the Evil Eye Canyon with their respective hundred players, and the scorching tiger king chased with pride with more than 20 people.

“Lie Hu, you have the courage to challenge me, you take more than 20 people to fight with me and shamelessly.” Pride was cursed.

“Single with you, you are ranked seventeenth in the national costume. I’m alone with you, let alone I have a lot of people, why should I be courageous.” Tiger King said.

Lu Yang’s most annoying is this sentence, what is the bravery of the puppet? In the game, it is a glory to be singled out. Winning proves that you are a master, playing out and going home to practice. This is a stage for master competitions. It is Lu Yang they are a spiritual pursuit of self-strengthening.

He looked at the map around him. There were many stone pillars more than ten meters high in the Evil Eye Canyon. Lu Yang found a stone pillar and jumped up.

Looking down from above, the chasing of the scorching Tiger King is not a random fight, but an umbrella shape, forcing pride and his men to the deep corner of the evil eye canyon.

As it happens, that place is suitable for putting a curse, Lu Yang shows his figure, escapes the dagger in his hand, throws it with two flashes, and jumps between the stone pillars at a very fast speed.

When he landed, a crimson flame erupted under his feet, running at a fierce speed of 50, and running towards the deep corner of the canyon.

At present, no one can catch up with Lu Yang’s moving speed, neither can the lord, let alone other players.

The lofty and enthusiastic Wolves Guard moves at a regular speed of 285 after becoming a wolf, which is nearly twice as slow as Lu Yang.

Lu Yang ran to the depths of the canyon. This is a large open area, but the cliffs are more than ten meters high on three sides. He threw an escape dagger and jumped to the top of the cliff. Looking from the top, the scorching tiger king really wanted to move Pride and his wild wolf guards approached the corner.

With a lot of pride, they quickly learned the idea of the Tiger King of the Sun, and repeatedly tried to escape to the side. However, the Tiger King brought the Fox Legion's Marked Army this time. Once it was marked, the opponent would get his speed 50 bonus effect.

Due to the large number of people under the scorching tiger king, some of them are chased by horses. Under the condition of speed bonus, their speed is almost the same as that of pride, and they can't run away at all.

Soon, the arrogance was forced to run under the cliff, looking at the three cliffs in front of him, and 00 people stood beside him, with a look of humiliation on their faces.

The scorching tiger king chased people to the open space in front of the cliff, and waved his hands, ordering more than 3,000 men under his umbrella to surround them with pride.

The scorching tiger king came to the front with a smile and said, "Don't struggle, let me know **** you back to level 0. I have no blame for your other men."

A look of sadness and indignation appeared on the prideful face, scolding: "You bastard, now you want to stir up our brother's relationship."

The scorching Tiger King laughed and said, "I'm not a provocation, but the boss's request. As long as you let me kill back to level 0, I will definitely not ask you for trouble."

"Boss, the big deal is to be killed by them. We will take revenge in the future. We will never let you be killed back to level 0 by them." A player stood in front of lofty sentiments.

Another player also stood in front of the lofty emotions. Although he didn't speak, the expression on his face was with determination.

Seeing this, other players walked in front of Hao Qingwan, blocking him behind him, without speaking, but showing an attitude.

The game can't be played, brother can't be!

The eyes of pride were red instantly, holding back the tears and saying, "It is indeed my good brother with pride, and I am worth it with you, and fight with them."

"Kill ~!" 00 people roared in unison.

When the lofty heart was ready to take the charge and launch a suicide charge, the sky was suddenly overcast, a huge fire meteor broke through the clouds, with a harsh sound of blast, whizzed straight to the scorching Sun Tiger King and his 000 Men.

The scorching tiger king looked at the pride and death of his men with disdain. He did not notice that the clear sky was suddenly covered by dark clouds, and he did not notice the clouds that burst suddenly, but he heard the sound of whistling.

"What's the sound?" The scorching tiger king frowned and looked around, but found nothing, only seeing the pride and arrogance they stopped.

"You guys, why don't you rush?" The scorching Tiger King asked for time.

Pride and 00 people stunned and pointed at the top of their heads. The scorching tiger tiger just wanted to look up.

"boom"

The 500×500-diameter fire meteor has been hit **** the head of the scorching tiger king, and the feeling of pride is only a dazzling red in front of him, followed by a huge shock wave, which has pushed him back more than 20 meters.

When he felt that the shock wave had subsided and his eyes recovered, he looked up and found that the place where the scorching Tiger King and his men were standing directly in front had become a piece of scorched earth, and on top of the scorched earth, a cloak Orc players are standing there.

“All dead!” Said with pride and ignorance. Even at the peak of his guild, his fire-forbidden spell mage was not so powerful.

“How could it have killed more than 10,000 people at once?”

“The scorching tiger king has at least 10,000 blood. How could it be seconds?”

...

In an exclamation, Pride Wan swallowed drooling, looking at Lu Yang’s eyes are all incredible, where do they know that Lu Yang’s magic damage is 10,000 points, the chance of crit is almost 100, the curse is forbidden , A group of ordinary players between level 60 and 80 is just a matter of fingertips.

“Who is this person?”

“So strong?”

“Does the orcs have such a powerful fire method?”

“I haven’t heard of it, there is absolutely nothing for Tian Yao.”

...

The members of the Wild Wolf Guard looked at Lu Yang whispering. They knew that Lu Yang was definitely not their enemy, or they would all be dead just now.

Pride and arrogance came to Lu Yang and asked, “Thank you for your help.”

Lu Yang smiled and said, “Some people say you are a master. I want to come and see.”

The pride was more dazed, and asked, "How do you see?"

Lu Yang stuck his staff to the ground and said, "If you can hit me within 2 minutes, you will pass the level."

"Just hit you?" Asked arrogantly.

Lu Yang nodded and asked, "Dare you?"

"There is nothing dare, and no one has ever dared to make such a bet with me."

Lu Yangzang smiled on the cloak's face, and initiated a duel application with lofty sentiments.

Pride sneered, and accepted.

"Mad Wolf Transformation"

A flash of light flashed, and the lofty sentiments turned into a giant wave more than two meters high, staring angrily at the landing sun.

"I'm not afraid to tell you that in this state, my movement speed is normal 285, you must be careful."
Said with pride.

Lu Yang was blazing fast at the feet, saying, "Don't compare speed with me. My moving speed is 50, and the duration is minutes."

In the embarrassment of pride, he originally thought to remind the orc players on the opposite side, don't be too mad, and think of the other person's answer is even more mad. Obviously, he can't catch up with him more than speed.

"Then you'll be careful." Hao Wanwan yelled and fluttered towards the landing sun.

Lu Yang used only body skills and did not use any skills to quickly dodge in a small area. He flew into the air with lofty sentiments, landed on Lu Yang's side, and turned his head toward Landing Yang to bite.

Lu Yang did not retreat, he hid directly at the lofty waist. At such a close distance, the lofty heart could not twist his head to 90 degrees. In the face of it, he could bite Lu Yang, but how could he bite? No, he was upright and annoyed when he landed.

The enthusiasm of the crazy wolf form Except that the waist can't hurt people, every other place can hurt people.

Lu Yang jumped back to the side and backed up by 06 meters. He just leaned on his waist again when he landed with lofty sentiments.

Pride and passion turned back to bite, and found that Lu Yang was green again, where he could not bite.

His 00 men thought that they could easily run into Lu Yang, but they were all stunned when they saw it.

"Which master can come up, how can I still play like this?"

"I'm going, the boss is finished. I can't break this trick. The opponent's reaction speed and observation ability are invincible in melee."

...

Pleasant Wan Wan listened to the words of his men, his face became greener, and he jumped two meters away, watching Lu Yang said, "How did you do that."

Lu Yang looked at the lofty sentiments, and said, "You can do it again. Once again, you can't hit me within 2 minutes, I turn around and leave, and now there are 1 minute and 50 seconds."

Chapter 907 - Conquer

The enthusiasm of the pride was anxious, and it was already embarrassed to be rescued. Now it makes people despise and makes him more uncomfortable. In anxiety, he also fights.

“Then I will use all my strength.” The pride and passion flew towards the landing again.

Lu Yang obviously felt that the speed of lofty sentiments is faster than the original, but it is still not enough. Generally speaking, he can turn into a wolf form and manipulate freely. The reaction speed must be faster than ordinary people, even if he is not much faster than ordinary people, but Much stronger than the average person.

If Lu Yang doesn't use any skills and wants to stay within two minutes from being attacked by the opponent, it is almost impossible, unless the lofty spirit has its own manifestations.

“Not fast enough, faster.” Lu Yang said while avoiding.

The lofty sentiment was lured by Lu Yang to avoid his attack many times using his waist, and his eyes became red under the anger, and he attacked Landing Yang like crazy.

From the first minute on, Lu Yang began to feel the pressure. Finally, at the first minute and 30 seconds, he found Lu Yang's flaws and swept into Lu Yang's clothes.

“flicker”

With a flash of white light, Lu Yang jumped out of 30 yards and escaped this claw in the least. He looked at the pride with satisfaction and said, “Yes, you are a master.”

Puffing pantically, he said, "You are the real master. If I didn't guess wrong, I already know who you are."

Lu Yang laughed and said, "Say?"

"Being able to have such fire damage as well as this body style, in addition to the chairman of the Jagged Brotherhood, the world's best master Lu Yang, there will be no second person." Said with pride.

Lu Yang removed his camouflage coat, revealing his original appearance, a suit of the destroyer, 9 elemental **** behind him, holding the staff of the destroyer.

"You guessed it," Lu Yang said.

He said stunned, "You, why are you here?"

Lu Yang said: "Someone recommended you to me, and I also want to see your true strength. Now that you have passed my test, are you interested in joining the Jagged Brotherhood?"

"Joining the Jagged Brothers League?" Pensive Wanzong paused. He never thought about joining the Jagged Brothers League because there was a shot of Sirius there.

"Sorry, I thank you for saving us, but I don't want to join you." Said with pride.

"Why?" Lu Yang asked.

"Shoot Sirius." Said with lofty sentiments, "I and he are enemies, and have fought many wars before. If you recruit me over, shooting Sirius will definitely crowd me out, and I will not spare him."

Lu Yang smiled and said, "Do you know who recommended you to me?"

"Who?" With lofty sentiments about to go, he curiously stopped when he heard the words.

Lu Yang said, "Shoot Sirius."

"What?" The loyalty fluttered to his men.

"Shoot Sirius? How could it be him?"

"No, we didn't abuse him at all."

...

No one would believe.

"You didn't lie to me?"

Lu Yang said: "I never lie, and I don't need to lie to you. Shooting Sirius recognizes your ability. When he knew that I was recruiting orc players, he first recommended you to me, and he felt relieved. It's over, you won't be worse than him. "

His face turned red with pride, saying, "Who is worse than him, I just didn't expect this kid to be so generous."

Lu Yang said: "Iron brothers are a different guild. It is full of ideals. Everyone is working in one direction. There will be no exclusion and no dumping. Only brothers, you and your brothers to discuss Just give me a reply. If you want to join, I won't treat you and your brothers badly. "

Pride and enthusiasm bowed his head and thought, if it was before, when he owned the guild, he would never agree to Lu Yang's request, but now he only has 300 brothers, even if he does n't consider it for himself, for these brothers, Should promise.

"Brothers, what do you think?" Asked with pride.

“Boss, listen to you. We don’t make any decisions, but in support of all your decisions, your words represent the words of our 300 brothers.” The former vice chairman said.

He looked at the eyes of the crowd with pride and enthusiasm, and everyone’s eyes were firm, just as he had just faced the Sun Tiger King, he sighed, looked at Lu Yang, and said, “What conditions do you give me?”

Lu Yang said, “Leader of the regiment, take these brothers with you to the wolf tribe, first join the guild of shooting Sirius, and then sign a contract with me. You and your 300 brothers will be paid according to their own standards. . “

“Okay, then I promise you.” Said with pride.

Lu Yang laughed. He knew that the lofty sentiments promised a bit reluctantly, but he believed that the lofty sentiments would be willing to give his life in the future.

He took 5,000 gold coins from his backpack and gave them to the lofty passionate, saying: “Teleport to Sirius through the main city, shoot Sirius and wait for you in the guild hall.”

The lofty sentiments are short of money, and he took the gold coins politely and left with his men.

Lu Yang ran back to Beamon City and flew back to Sirius City through the teleportation array. He just came to the Sirius Guild and saw that Sirius and the magnanimous two were sitting on the sofa in the lobby and drinking.

“In the beginning, we didn’t bother to accept anyone, but now we have reached a guild, haha.” The heart-warming heartfelt finally found a vent.

The wine in the game makes people feel dizzy, and the taste is exactly the same as reality.

Shooting Sirius smiled and said, “Well, it wasn’t true that the two of us hit the sky at first, but unfortunately, you and I are not real masters.”

“What do you mean?” Asked arrogantly.

Shooting Sirius showed a smiling expression, sighed, holding his prideful shoulders, and said, “Brother, believe me, there is such a person in this world, he is better than you. On personal skills, he is the world Invincible, on prestige, he is respected by everyone, and on the way of doing things, he is even more admirable.

I was completely convinced by Lu Yang. I willingly recognized him as the boss. Believe me, your choice is correct. “

Pride asked, “Is it really that powerful?”

Shooting Sirius said: “Without saying anything, Tianyao beat you, did he compensate you?”

“Non-sense, give compensation, that grandson sent someone to chase me for a month, don’t stop, give compensation?” Hao Wanwan cursed.

Shooting Sirius said: “Our old mainland Yang paid for it. All the guilds that established the wild fortresses, even if they were defeated, the boss did not occupy their wild fortresses. Even if they sold the fortress, they let them voluntarily exit this Games, kindness. “

“I have heard of it, is it really the same as what was said on the forum?”

Shooting Sirius said: “The actual situation is even more excessive than on the forum. Bian Wuji held the heart of death and was snatched by the boss. He was also given 5 million yuan to buy it, and Bian Wuji sold all of his own. fortress.”

Pleasantly asked: “Why?”

Shooting Sirius said: “I did n’t understand it at first, but now you look at the Terran. How can a defeated guild want to make a comeback? Each of the Terrans has almost no hidden dangers. Players in those

failed guilds , And also willing to take the initiative to join the Jagged Brotherhood. Now our boss wants to fight anyone, and the players he can start, I dare not think about it. “

“This man is really awesome.”

“The boss will come to recruit the orcs this time. The first thing I recommend is you. The boss will give you the legion leader. I believe that with your ability, you will soon be promoted to the vice chairman. We will fight side by side in the future. “Said Sirius.

“Okay, I’ll try it,” said arrogantly.

Lu Yang didn’t bother the two, and when they finished speaking, they approached, and said to Sirius, “Is that what you said is so powerful, I am ashamed of what you said.”

Shooting Sirius saw Lu Yang, his face flushed, he smiled and said, “Boss, you are so high in my heart.”

Lu Yang laughed. Since helping him catch up with his wife, this boy’s worship of himself has made Lu Yang feel ashamed.

Pride and arrogance stood up and said to Lu Yang: “Boss, I’ll do it with you in the future, what do you tell me?”

Lu Yang said, “I’ll take you to a place first and complete the transfer job.”

“Transferring?” Asked with pride and enthusiasm: “We have already made the first transfer, is it the second transfer?”

Lu Yang said with a smile: “Of course it is the second turn. You are a bit stronger in the first turn. It is far worse than the second turn.”

Pride and excitement, said, “Boss, where did you find the second transfer task, I haven’t found it for half a year.”

Lu Yang laughed without saying a word. Where did he find it, but the devil wolf guard was so famous after the second turn of the last life, he couldn't forget it.

"Gather the players in your hand and follow me." Lu Yang said.

The pride was stunned again, and his eyes looked at Lu Yang with some complexities.

"What's wrong?" Lu Yang asked.

Pride asked, "Boss Aren't you afraid of a traitor in my brothers?"

If a traitor is reported to Tianyao and Lu Yang is besieged, the Nine-series Elemental Ball, Demon Heart, and Flame Chariot will be gone.

Lu Yang laughed. He patted his prideful shoulders, and said, "The ones who can follow you till now are all true brothers. I believe they will not betray me."

Pride took a deep breath and said, "I served, and I'll follow you later."

Lu Yang smiled sincerely. He knows the present mood, the trust, which makes people willing to give everything.

Ten minutes later, the people gathered together with pride, and bowed deeply to Lu Yang in front of the 300 Wolves Guard, saying, "Boss is good."

The 300 Wolverine Guards were stunned, and they couldn't change for a while.

With pride, Lu Yang said, "In the future, Lu Yang is my boss with pride, and it is your boss. In the future, I will only be a legionnaire of the Brotherhood of Iron Blood, and we will follow the Brotherhood of Iron Blood."

Chapter 908 - Crazy wolf 2 turns

“Yes.” The 300 mad wolf guard’s arrogant order was obedient, and all followed.

Lu Yang laughed and said, “I treat you sincerely, and I hope you treat me sincerely. We will have a good reputation in this game.”

This is Lu Yang’s heart. This game definitely has a life span of more than ten years. It is a game that can make people fight as a career.

Noble people waited, nodded, and landed out of Sirius City, along the southwest side of the entrance of the wolf towards the human race, through the map between level 30 and level 80, in a dense virgin forest Everyone saw a palace of pure white marble.

You are prompted to discover the Zuwol Clan Ruins

“Ancestry Wolf Ruins?” He looked around curiously and curiously. He knew by name alone that this place was where he changed jobs.

“Boss, I’ve been here and found nothing special.” Shooting Sirius said.

Half a month ago, when shooting Sirius and exploring with his players, I came here and was surprised that it was beautiful, but found that there were no strange or npc here.

Lu Yang smiled and said, “You haven’t come at the right time. For special places like this, you need to go to the library to find information to open it.”

Shooting Sirius was speechless and said, "It's the library again."

Lu Yang laughed. This is not what he said blindly. He found this place in the last life. It was indeed a wolf player found it after consulting the books of the wolves.

He led the crowd to the entrance of the palace. The entrance to the main entrance of the palace was a lot of marble columns. The main entrance was very large, more than 4 meters high, more than three meters wide, and the palace was more than 20 meters high.

There are many pictures carved directly above the gate of the palace. From the first one, the werewolves' ancestors were not animals at the top of the food chain on this road. They were often encountered by blood, black iron dwarfs and trolls. Massacre of higher races.

The werewolves' first ancestors needed to continue their migration with their races. Occasionally, the werewolves were trapped by the trolls.

When a large number of members of the wolf clan were killed and injured, a **** of heaven came to earth, and the werewolf's ancestor swore to the **** of God, even if he died, he was willing to be driven by the **** of heaven.

God promised the request of the werewolf ancestor, gave the werewolf ancestor new strength, and helped him drive away the troll.

Since then, the werewolves have their own land on this continent, and other races no longer dare to attack the werewolves easily.

Lu Yang briefly explained to them the content of the mural.

Pride and passion asked a little excitedly, "Boss, what new skills can make the wolf so powerful?"

Lu Yang laughed and said, "Come in with me."

Noble and passionate nodded, and quickly led his followers into the temple with Lu Yang.

The interior of the temple was very empty. Inside, there was a 20-meter-high deity, the **** of heaven. There was an altar-like place directly under the god's feet.

Lu Yang pointed there and said, "This altar is a portal, and can send you to another space to fight monsters."

Shooting Sirius said, "I said there must be something weird in this altar."

Pleasantly raised the bar and said, "Why didn't you find it?"

Shooting Sirius sneered and said, "I'm not reading."

Everyone laughed.

Lu Yang shook his head with a smile and said, "This place is only on the 15th of each month. On the day of the full moon, the moon rises directly above the temple, and the light refracted by the gem in the middle of the forehead of the idol shines on this. The portal can only be opened at the altar. "

"It's really troublesome," said Sirius.

Lu Yang said, "If it is so easy to change jobs, isn't the second-career career of Mad Wolf Guard worthless?"

"That's right," said Sirius.

At this time, it was dusk. Lu Yang took a person to sit in the hall and waited until late at night. When the moon reached the sky, a ray of white moonlight shone on the god's gemstone, and the gemstone reflected the blue light and was in the middle of the altar.

Suddenly, the altar glowed an ice-blue light, and a huge blue vortex appeared above the altar.

Lu Yang said, "Follow me."

"I'll take the lead." Shooting Sirius in front of Lu Yang, he was worried about the danger inside.

Lu Yang didn't fight, he just knew how to enter here, he didn't know the specific situation inside.

Shooting Sirius took more than 10 people into the Blue Vortex. Soon, he sent a message saying, "Boss, there is no danger around us. It is strange that we are far away."

Lu Yang said to the pride around him, "Let's go in."

He nodded with lofty sentiment, and led 300 people into the blue vortex with Lu Yang.

The light flashed.

Lu Yang appeared on a very beautiful land, with grass and flowers everywhere on the ground, and in the distance there was a palace the same as the site of the ancestral wolf.

At the main entrance of the palace, two silver war wolves stood there, staring at them with staring eyes.

Lu Yang said, "The task should be to collect it there, you go and see."

"Oh." Pride led the team to the door.

Lu Yang looked around. There were many blood-colored creatures in the distance of the temple. He came near and saw a group of blood ghosts.

Blood ghost (elite)

Rank 80

Qi and blood 10000000/10000000

The blood ghosts are similar to humans in appearance, but they have tails behind them, and they are all blood-colored. They are about 3 meters tall and look very strong.

Shooting Sirius stood next to Lu Yang, and said, "I'll try to fight with someone?"

The players who followed him were all level 80 masters, and their body equipment was gold-level parts.

Lu Yang said, "Wait a moment for pride, this blame should not be difficult to fight."

He doesn't know how many blood ghosts to kill. Don't let the task props drop enough, but it is troublesome.

"Boss, I've got the task. Let's kill the **** ghosts and drop the Silver Moon's tears from them, which is our transfer job props." The prideful voice came from a distance.

Lu Yang looked over, and he ran quickly with 300 people.

Coming up with Lu Yang, he pointed at the blood ghost and said, "Just kill them."

Lu Yang said, "You all back up. I'll fight alone."

Shoot Sirius "..."

Pride and grandeur "..."

300 Wild Wolf Guards “...”

“That what.” Shoot Sirius for the first time with Lu Yang, saw Xia Yuwei’s pain, and said, “Boss, what are we doing.”

“You fight too slowly, I’ll be alone.” Lu Yang said.

Shoot Sirius “...”

Pride and grandeur “...”

300 Wild Wolf Guards “...”

They were speechless, and they totaled 350 people. Lu Yang told them that letting them fight together was too slow, which made them too depressed.

“Lava Eruption”

Lu Yang showed his staff with his right hand and started to set up a sea of fire with him as the center. The diameter of the lava eruption was 30 meters. Lu Yang set up 30 lava eruptions and turned all around into a sea of fire.

“Let’s stay away. The old injury is more than 30,000. If we walk in, we can’t get out.” Said Sirius.

The lofty sentiments and 300 men nodded in sympathy, just now a picture of Lu Yang killing 3,000 people in the Sun Tiger King with a secondary injunction was still being played back in their minds.

Coming to the side, he asked with arrogance, “Have you been playing this game all the time, the boss alone?”

Shooting Sirius said, "I haven't blame the boss before, but I heard Xia Yuwei said that, that's it."

Prideless and silent, he said, "It's so happy to follow the boss."

Shoot Sirius with a smug look and said, "That's for sure, you will feel more in the future."

"Hello ~!"

A roar rang in the distance, and they looked up. Lu Yang had begun to blame. In such a short time, Lu Yang put down 100 fire dragons, and he led the blood ghost into the lava eruption.

The blood ghost's movement speed is not fast. Only the normal player's movement speed is 75. Lu Yang needs to drive a lot faster than the blood ghost.

"56000" (Critical Strike)

"56000" (Critical Strike)

...

A series of damage were all critical hits when the blood ghost entered the range of 100 fire dragons.

"Hoo ~!"

100 fire dragons spewed flames at the same time, and the leading blood ghost was attacked by 100 large fireballs at the same time, and the blood volume was instantly destroyed by more than 5 million.

Just four volleys, a blood ghost was killed on the ground, and a silver moon's tears fell to the ground.

"This output is too high." Pride said.

Shooting Sirius shrugged his shoulders and said, "Let's go to blame, remember, don't enter the range of the lava eruption, we and the boss are not of the same race, they will die if they enter."

He nodded arrogantly, turned into a wolf and ran to a distance. When he saw a blood ghost nearby, he rushed to a blood ghost and hit a paw on the blood ghost.

"-12"

Pride and speechless almost scolded his mother, Lu Yang's output was more than 50,000 each time, he only hit 12 points of damage.

"The gap is too big." 300 men sighed aside.

The lofty sentiment is even more speechless. In the face of the ultra-slow moving speed of the blood ghost, he is too lazy to turn into a wolf and return to human form. Using bows and arrows, all the surrounding blood ghosts are drawn.

When he and Sirius shot back to Luyang the monsters pulled by Luyang just before were killed.

"Boss, we're pulling the monster back," shouted pride.

Lu Yang nodded, his right-hand staff pointed behind him with lofty sentiments, and three large fire meteors with a diameter of 3 meters descended from the sky, right in the blood ghost group behind him.

Fire meteor fell to the ground and continued to roll forward, hitting all the blood ghosts behind him. The high damage caused the blood ghosts to turn and chase the landing sun, and entered the attack range of lava eruption and fire dragon art. Killed soon.

The monster pulling over the Sirius side died like this, and was easily killed by Lu Yang.

There were only 30,000 or 40,000 blood ghosts around the temple. Lu Yang killed them for a whole day with pride, and it was not until late at night that all blood ghosts were killed.

After the statistics, there are more than 30,000 full of lofty sentiments, and 100 transfers are needed, which is just enough to transfer lofty sentiments with his 300 subordinates.

Chapter 909 - Power of Silver Moon

“Boss, we’re going to change jobs.” Said with pride.

Lu Yang nodded, followed by the camouflage coat, and came to the front of the temple. Here are two silver-haired werewolves, both of whom are very old. The left is called Brad, and the right is called Carter.

Pride came to Brad, handed him the tears of Silver Moon, and said, “I have completed the task you entrusted to me, please let me transfer.”

“Yes, young man, your strength has been recognized by me, please follow me.” Brad entered the temple with a lot of pride.

Lu Yang followed him, the layout of the temple was exactly the same as that of the ancestral wolf site, and there was also a statue and an altar.

“Stand on the altar and accept God’s blessing on you,” Brad said.

With pride, the first one stepped onto the altar, holding the tears of the silver moon, and the eight-horse star altar emitted a dazzling silver light instantly.

When the silver light was over, the hair on the lofty and passionate body became silver gray. He looked at his own body and looked at everyone.

“Boss, what’s changed?”

“What new skills have been given?”

...

300 people asked one after another.

Pride Wan smiled excitedly at the corners of his mouth and said, “Divine skill.”

He shared the skills gained in the second round to everyone.

Devil Wolf will turn skills twice-Power of Silver Moon

Describe Luna shelters his life in faith. When you transform into a wolf at night, your attack power will become Silver Moon attack, ignoring physical defense and magic immunity.

Shooting Sirius saw that this skill was stunned, and Wang Luyangyang said, “This, this, how can there still be this skill. If it is at night, it would not be invincible for them to be proud.”

Everyone knows how strong the attack power is regardless of defense and magic immunity, which is equivalent to how much damage can be done. In terms of current attack power, in the state of ignoring defense, up to three times can be seconds.

Lu Yang said, “This is the strongest arm of the wolf tribe, and one of the most difficult occupations to obtain. Of course it is strong.”

“I’ll recruit it now,” said Sirius.

“We’re going to change jobs, boss.” 300 people rushed to the altar to change jobs.

Pleasant smiles watched them come to Lu Yang and said gratefully, “Boss, thank you.”

Lu Yang patted him on the shoulder and said, “Don’t be polite with your brother.”

“I felt that I was so strong for the first time, and now I meet the scorching Tiger King again. With his 3,000 people, I can destroy him with these 300 brothers.” Pride said.

Lu Yang smiled and said, “You still have room for improvement, and you need to play a few more skills.”

The second-round demon wolf battle will not only have the ability of the power of the silver moon, they can also learn Shadow Moon movement and several special attack skills.

The effect of Shadowmoon’s movement is to increase the movement speed by 40 in stealth state. Counting his own 285, the speed of the demon wolf will be 325.

Nowadays, the map of the battlefield is getting larger and larger, and the scope of battle is getting wider and wider. With such a high-mobility and high-output special force, it can play a lot of special roles in combat.

In the civil war of the last life, there were guilds that used 1,000 magic wolf wars to attack the main cities of the orcs.

At that time, the Devil Wolf Legion shocked players from all over the world. Other players took several hours to move from one main city to another. They only needed less than an hour to use the accelerated scroll.

It only takes more than ten minutes to go from a fortress in one main city to another in this main city.

At that time, Liu Jie, the unified orc, did not notice this group of people, and only sent a few thousand people to attack, but these thousands of people did not have the slightest resistance ability in the face of the power of Yinyue, and only one attack was wiped out by 1000 demon wolves. .

Subsequently, the sneaky Devil Wolf Legion rushed into the fortress quickly, replaced the fortress tokens, and sold all the fortresses. At that time, the sold fortress was one of the fortresses built by Liu Jie in the early days, and invested tens of millions. Credit, the Devil Wolf Legion made a lot of money.

Liu Jie noticed this group of people. He immediately sent tens of thousands of people to besiege. But when the tens of thousands of people appeared, the Demon Wolf Legion used Shadowmoon to move away from the battlefield at night. Just one hour later, Appeared in another fortress and continued to attack.

Because of their group of people, Liu Jie was not allowed to arrange a large number of players to defend at various fortresses of the orcs, which made him suffer a lot from fighting at the front with other guilds.

Lu Yang recruited them with lofty sentiments. Their original purpose was here, but he did not expect such lofty sentiments to be so good. 300 people followed him frankly, regardless of their interests, which also made Lu Yang willing to help. They have a lot of pride and saved a lot of trouble.

Soon, all 300 people were transferred, and they all gained 1,000 attribute points and the power of Silvermoon.

Lu Yang said, "I'll be here tonight. Let's take a rest. It will be on time tomorrow at 8 am."

It was already late at night, and Lu Yang was a little tired, but they were not tired.

"Boss, otherwise you tell us the location, let's go fight, I'm not sleepy at all." Said with pride.

Lu Yang said, "Repair your body recently, you may have to stay up late."

With pride, his eyes brightened, and he understood what Lu Yang meant. Wasn't that about to fight? He nodded and said, "I'll take my brothers to rest."

Lu Yang smiled, took out the city roll and flew back to the main city, entered the hotel and rested.

Just lying on the bed here to sleep, the phone rang. He picked it up and sneered, a message from Liu Ruoshi.

“Are you asleep, I bet you haven’t slept yet, can you chat with me for a while, I’m so boring.”

When Lu Yang looked at the news, he could imagine Liu Ruoshi’s snoring and snoring. He hated the femme fatale woman most, and forbearing unhappy, accompanied Liu Ruoshi in the middle of the night.

Liu Ruoshi’s chat didn’t have anything about the game, she just continued to approach Lu Yang according to the requirements of dead grass and Liu Jie, and waited for Liu Jie to defeat Tian Yao, and then let her announce the love relationship with Lu Yang and let the iron blood brother The dissolution of the alliance.

“Jie Shao, I have completed my task.” Liu Ruoshi sent a message to Liu Jie.

Liu Jie did not reply, but a smile appeared on his face.

“Jie Shao, what is so happy.” Xue Yiming asked curiously.

Liu Jie, Xue Yiming, Ru Taishan and Yao Wuyangwei were all present at the meeting.

“It’s nothing, let’s continue the meeting and talk about it. We have nothing to prepare for Tian Yao.” Liu Jie asked.

Dead reckoning said, “It will be ready in another month. At that time, the national war should begin. If we are lucky, we can unify the national service within two months.”

Liu Jie’s expression did not change, but his eyes revealed an excited expression.

“Not to mention this, let’s discuss the special forces of Tianyao specifically, how should we deal with it.” Liu Jie said.

The dead grass nodded, enumerating the special forces under Tian Yao one by one. On the other side, when Liu Jie calculated Tian Yao, Tian Yao was calculating Lu Yang.

“To simulate one side of the war, I want to make sure that we have more than 80% chance of winning the war with Lu Yang.” Tian Yao said.

“If you want more than 80%, only Liu Jie will participate in the war, otherwise our war with Lu Yang will only be 50-50.” A vice chairman said.

“I don’t believe it. Open the Brotherhood of Iron Blood to me and target me one by one.” Tian Yao said.

“A sneeze”

Lu Yang, who had just fallen asleep, couldn’t help sneezing and continued to fall asleep. Now the only three of them who can sleep peacefully is him.

Liu Jie’s strategy has been discovered by him, Huang Xiang is also in the control of it, the high-level spies inside the guild have been cleaned up, Tian Yao is afraid to hit him for the time being, he can prepare for the next war with peace of mind.

...

At eight o’clock in the morning the next day, Lu Yang stretched a comfortable waist and just landed the game, and found that the lofty and ambitious had brought 300 people waiting for him in the main city of the Wolf family.

“Boss, we are all together.” The sentiment sent a message.

Lu Yang smiled and said, "Early enough, guys, let's go to the next place, Shadowmoon Valley."

Shooting Sirius asked "Are there any more people to call?"

Lu Yang said, "Call more elites, there is a good upgrade map, and there are gold-level equipment to drop."

"I'll call someone here," said Sirius.

Sirius Army has a group of elite players habitually go online at 6 in the morning, just to grab some wild lords, shot Sirius to say hello, all ran over, about 300 people.

"Enough?" Asked Sirius.

Lu Yang replaced an ordinary Kodo and said, "Enough is enough, let's go."

"Okay," said Sirius.

More than 300 people with lofty sentiments, plus the 100 Guards and 300 elites who shot Sirius, a team of more than 700 people ran towards the Shadow Moon Valley.

Shadowmoon Valley, the junction of the wolf and the tauren is also a level 80 map. Like humans, after the orc reaches level 80, the monsters facing it are no longer ordinary creatures. It is the creatures left by God to guard the planet.

Human races are elements, dragons, and titans. Orc races are totems, demons, and ancient beasts. The creatures on the side of Shadowmoon Valley near the wolf races are mainly ancient beasts—the sworn wolves.

Lu Yang usually introduced them while running.

“The sworn wolves understand well by listening to their names. This is a group of wolves that violated their vows. In ancient times, the moon **** that the wolves worshiped somehow stopped blessing them, and the wolves suffered another devastation. The wolves chose to break their vows, accepted the demon’s guidance, and obtained black magic.

But this part of the wolves is not tolerated by the original wolves. They were expelled to Shadowmoon Valley, and their names were changed to sworn wolves. “

“As for swearing the wolves, it’s very simple. You become werewolves at night. It’s very easy to attack them with the power of the Silver Moon. Today I’m not going to fight with you. I need some 300 skills books to get you. Today, you can just fight here for a while.” Lu Yang said.

Chapter 910 - Most Wasted 2 Turn Occupations

Shooting Sirius asked “Boss, where are you going?”

Lu Yang said, “Continue to recruit people.”

Furious, he said, “Boss, I recommend you someone.”

“Who?” Lu Yang asked.

“Beijing, the boss of Zimeng Fortress of Bimeng City, he has very high connections in Bimeng City and the surrounding main cities. If he can win him, it will be very helpful to defeat Tianyao,” said Wanhao Wanzong.

The city of Beamon is on the east side of the main tiger city and is located in the middle of the entire beast. It is equivalent to the status of Iron King in human beings. It is a battlefield, and it must be a master to be famous here.

Originally Lu Yang didn't think about recruiting this person because he was not a special occupation, but since it was provided with lofty sentiments, there must be something extraordinary.

"Don't tell him about me, I'll test him, and wait for your equipment to be fully equipped, and tell me." Lu Yang said.

"Yes." Shooting Sirius and the man with lofty sentiments said together.

Lu Yang put on a mount, returned to the site of the ancestor wolf, and ran towards Beamon City in the direction of the Tauren City. He encountered many orc players who were upgrading along the way. They saw Lu Yang, who had a single order, and they all paid attention.

At present, some of the top players in the game have reached the level of 80. After this year's racial unification battle, the national service has been delisted, but the ranks of players in these delisted guilds are relatively high.

After losing the fortress, these guild bosses were able to persist, and all the remaining energy was focused on improving their ranks.

Lu Yang didn't stop when he passed near them, and ran along the road towards the front.

The mount under his seat is very fast. It is the top raptor, moving at a regular speed of 255. When he passed through the last virgin forest and was about to leave the level 60 map of the Tauren area, he saw a group of Tauren. They were gathering together and laughing about something, and one of them, the tauren, was flushed and argued with the others.

Lu Yang looked at the Tauren somewhat familiar. He couldn't help but stop to walk the dragon and ran towards the crowd. In the process, he transformed into a Tauren with a camouflage coat to prevent the Werewolf from showing the Tauren Unhappy.

“Don’t pretend to be with us, you are a waste, level 80, and still blame us on the level 60 map.” A tauren player said scornfully.

“Nonsense, I just came here to do the task.” The tauren player standing in the middle blushed and argued.

Lu Yang was more familiar with this voice. When he came closer, he looked surprised. The tauren standing in the middle of the crowd he knew was a brother named Liu Yunpeng who supported him in the last life to build the fortress.

The last life was the head of the main melee corps of his guild. He was generous, straight-hearted, and very romantic. When he recognized you as a brother, he would desperately help you.

He once said that he had been ridiculed earlier and was laughed at. He never thought that he would be hit by this life.

“Don’t be kidding, I know who you are, aren’t you the most abandoned second-turn job? I think you can also play ordinary monsters at level 60. I guess it’s very hard.”

“Haha.”

...

Around the tauren players laughed loudly, Liu Yunpeng’s face became redder, and his head was lowered and his hands were fists.

“Why? I still want to fight. It’s up to you. Brother 60’s general career is better than you. You have to fight and I will be with you.” A tauren player showed a long-handled double-edged axe, disdainful.

“Slow.” Lu Yang pushed away the crowd and walked to the middle of the crowd, watching the player with a double-edged axe, and said, “You belong to a bully.”

“How to call a bully? He is at level 80, or a rare professional second turn. I am a player who is at level 60 and hits him. How can I say that I am a bully?” Everyone said sarcastically.

Lu Yang glanced back at Liu Yunpeng and said, “He’s a rare second turn. That’s right, but he hasn’t been equipped with the relevant skills since he changed jobs. Naturally I can’t beat you. We have the courage to make a bet here. We will be at Tau Tau tomorrow morning Do you dare to fight in the Terran Arena. “

The double-edged axe player looked at Lu Yang carefully and said, “I have nothing to dare, but I never fight without bets. The loser has 10,000 credits, dare not.”

Liu Yunpeng didn’t have so much money in his hands. Just when he was about to talk, Lu Yang took out 40 gold coins from his backpack and said, “I will pay this money for him. You two will be friends with each other. We will meet at 8 am tomorrow morning. . “

“Okay, that’s it.” The double-edged axe player didn’t expect that Lu Yang really dared to agree, sneered, added Liu Yunpeng as a friend, and said, “Let’s go.”

Liu Yunpeng watched the player leaving with a double-edged axe, and looked at Lu Yang with an expression of embarrassment. He said, “This friend, it’s not worth it for me to do this. I can’t beat him.”

Lu Yang exhaled a breath, with an irresistible smile on his face, and said, “I dare to give money, it proves that I have a way to let you hit him.”

“But my profession is too useless, and you can’t beat the level 60 elite monsters.” Liu Yunpeng said.

Lu Yang laughed. Regarding the second-round career of this tauren warrior, when he had no skills, he really gave up.

This rare occupation is called the war tauren. Listen to the name domineering. After transferring, he can use the only special weapon in the game-the war totem, which looks like a marble column with a diameter of 1 meter and a length of 5 meters. The attack power is The sum of two two-handed swords.

It seems that the attack power is very high, but in fact, once this job is transferred, the attack speed is reduced by 400, that is, under normal circumstances, a player uses a two-handed weapon to attack every 375 seconds, but the war tauren takes 15 seconds to shoot once.

What is this concept?

Only hit 4 times a minute. A tauren with level 60 gold equipment has an attack power of about 7000. Any ordinary monster above level 60 has a health of more than 30,000.

If you want to die a level 60 ordinary monster and count skill damage, the war tauren will at least wield 4 totems, which is 1 minute.

Switching to other professions, they finished in less than 20 seconds, and they took three times as long as other professions.

In addition, I only hit it in 15 seconds, and I was bothered to watch it, so I stunned the totem, and then watched the monster keep hitting you. If you are anxious, you can't attack.

Change to an anxious player. Facing this situation, mania has been committed. This is still good, at least it can be played.

If they were replaced by elite monsters, the war tauren had no hope at all. When their attack speed became slower, their moving speed and turning speed would be correspondingly slowed down a lot.

Sitting on the stone, Liu Yunpeng lamented and said, "I'm like a silly big man now. I can't beat a monster, but it's very resistant to being beaten."

The second-round Tauren gave a talent skill, reducing all damage by 20, which is much more resistant than the general physics profession.

Lu Yang said, "In fact, you have a special skill in this profession, called 乱地乱锤, have you heard of it?"

Liu Yunpeng shook his head.

Lu Yang said, "Follow me, I will take you to play these special skills."

Liu Yunpeng made a sigh, just about to leave, but blinked, reacted, and looked at Lu Yang and asked, "Why are you helping me?"

Lu Yang said, "Familiarity is fate, for no reason."

In other words, he said to a wise man, he certainly didn't believe it, but Liu Yunpeng's head was simple. Oh, he went away with Landing Yang.

Returning to the 80-level map along the original road, Lu Yang took Liu Yunpeng to the front of a huge grotto.

The shape of this grotto is a giant cow, staring with eyes, and a huge mouth, which is the entrance to the grotto.

"This is the Bull Demon Hall." Liu Yunpeng asked in surprise.

Lu Yang said, "You know a lot, just come with me."

"You can't beat it here, I heard that many people come here to upgrade, but the ox monsters inside are fast, attack high, and know how to cut flames."

Lu Yang didn't speak and walked into the grotto with a smile.

You are prompted to find the Bull Temple

Entering the ox demon hall along the stairs, Lu Yang found himself in a huge stone hall, which looks like a dungeon. There is no end to the left and right. The palace is more than 20 meters high, starting from

the middle and every 30 Rice is supported by a stone pillar, and there are torches around the stone pillar, which illuminate the stone hall.

Inside the stone hall, countless minotaurs are standing on the ground holding huge totems. Their bodies and hair are black, and the horns on their heads are neatly halved.

The armor on his body is black, the light emitted from his eyes is blood red, his muscles are strong, and his height is about 3 meters.

Seeing the strange amount of blood, Liu Yunpeng couldn't help twitching his face and said, "I can't beat it."

Lu Yang smiled and said, "You don't need to fight, give it to me."

The method of killing the demon bull is too simple, but he needs to be transformed into a fire monster before killing.

Liu Yunpeng said, "Let's team up. I don't know what your name is yet. Can I help you?"

Lu Yang said, "We can't form a team."

Liu Yunpeng blushed and said, "I know I'm weak, but I can also help you pull things out."

Lu Yang laughed I never thought that Liu Yunpeng, a tough guy like the last generation, also said, "I'm not disappointing that you are weak, but we are not a race and we can't form a team."

“Aren’t you also the orc?” Liu Yunpeng asked.

Lu Yang laughed and removed his camouflage coat, revealing his original appearance.

Liu Yunpeng looked at Lu Yang in stun and said excitedly, “You, you, do you think I look so familiar?”

Lu Yang covered her face. This item was too much, and she made a big effort.

“I’m Lu Yang, president of the Human Brotherhood Brothers Guild.” Lu Yang said.

“Ah yes, it’s you, how did you run the Orc.” Liu Yunpeng asked.

Lu Yang was speechless again, and said with a smile, “I’m here for you. Hurry and hide to the side, let me fight first.”

“Ah, oh.” Liu Yunpeng quickly hid at the door.

Chapter 911 - War tauren

“Inflammation”

Lu Yang incarnates the Demon, summons the Phoenix, arranges lava eruption and fire dragon art on the ground, and then he spells out in his mouth.

“Great Ancestor of Fire ...”

After 10 seconds, countless fireballs descended from the sky, drawing all the tauren within 500 yards around.

“Hello ~!”

The 3-meter-tall Demon Battle will carry the totem towards the landing sun, and just before they are about 4 meters in front of Lu Yang, the first 6 Demon Battle will raise the totem at the same time and head towards the landing sun. Smashed down.

“Emerald Heart”

Lu Yang’s body turned into a void, and the totems of the demon ox generals were defeated one after another. This skill was a skill triggered by an ornament acquired by Lu Yang in the early days, and was specifically used to avoid physical attacks.

He waited for a few seconds in nothingness, and when the demon ox war would surround him, Lu Yang said a spell.

“Yan Yang Suo”

Twelve demon bulls with red-gold light chains will be trapped. Although the outer demon bulls will not be trapped, there are tauren in front of them. They cannot use skills to attack.

“Great Ancestor of Fire ...”

Lu Yang chanted the spell again. After 10 seconds, a huge fire meteor fell from the top of the stone hall and fell into the tauren crowd.

Thousands of Tauren around were all stunned. Taking this opportunity, the Phoenix, 100 fire dragons and lava eruption on the ground successively caused damage to the Tauren.

In less than half an hour, all the thousands of tauren were killed and their equipment dropped.

Lu Yang lowered his head and searched on the ground, and found a golden book page. He picked it up and looked at it.

Smashing Hammer

Professional war tauren

Describe the war tauren falling into a violent run, using enemies around the totem pole madly, attacking 3 times per second, each time the totem pole hits the ground will cause a shock wave, causing 5000 shock damage to enemies within 10 yards for 10 seconds . Note: Do not provoke the tauren at this time. They are magically immune. Targets hit by shock damage will receive a stun effect for 01 seconds.

Lu Yang was looking for this book. With this, the war tauren can really be called war machines. In the last life, they also had a nickname called road breakers. When they released this skill, the surrounding ground was all broken. As a result, people were broken.

He threw the skills to Liu Yunpeng and said, "Take this and learn."

Liu Yunpeng was dumbfounded. The output of Lu Yang just made him feel too violent. When he saw the page thrown by Lu Yang, he took a look and was even more dumbfounded.

"This skill, and this skill." Liu Yunpeng said excitedly.

Lu Yang smiled and said, "Learn it first, and then look for it with me. Although this skill is not easy to drop, it should be more than this one."

“Oh, oh.” Liu Yunpeng quickly learned the skills and continued to find Luyang.

The Battle of the Demon Bull will not only drop this kind of skill book, but also drop an attacking skill called Rock Strike and Wrath. Control skills include war repercussions and war tramples.

Lu Yang and Liu Yunpeng picked up all the skill books, and finally found 10 smashing hammers, and the rest of the skills combined totaled only 100.

“Too few drops.” Lu Yang said.

Liu Yunpeng said excitedly, “A lot, a lot, these are enough to equip my brothers with skills.”

Suddenly, he reacted and said embarrassedly, “Boss Lu Yang, can these skill books be sold to me, although I know he is expensive, but I have more than 100 brothers, all like me. Without this skill, they It’s gone. “

Lu Yang smiled and said, “Give it to you.”

This is what Lu Yang owed him in the last life. These skill books are nothing at all.

“Give me?” Liu Yunpeng asked incredulously. “These books are very valuable.”

Lu Yang said, “Before the meeting, now only the tauren of war can use it, and they can’t sell others except for you.”

Liu Yunpeng shook his head and said, “No, this thing is too expensive. You can say, although our brothers are not capable, but as long as I can do it, you let me do it. I can’t take these things for nothing.”

Lu Yang sighed inwardly, this boy is still the same as the last one, asking “Do you have a guild now?”

Liu Yunpeng shook his head and said, "No, since the second turn, the boss of the guild had fired us. This battle of racial unity, he was destroyed by Tianyao. Now he has sold his number. We are now one. Help the garbage that no one wants. Everyone has heard our joke. There is no guild willing to accept us. "

Lu Yang said, "Go to my guild, and follow me later, it's like paying back the skill book money."

Liu Yunpeng said, "I promise you on behalf of my more than 100 brothers, and we will work with you later."

Lu Yang said, "Call your brothers. We're going to fight here today, but don't tell them that I recruited them. For the time being, my affairs with the orcs still need to be kept secret."

"Um." Liu Yunpeng nodded and told someone to go.

These more than a hundred Tauren are not well gathered. At present, many people are not online. Lu Yang accompanied Liu Yunpeng back to the main city of Tauren, waiting for him to find one by one.

Every time he finds a person, Lu Yang will sign a professional contract with him, and he will also show them a skill book. War tauren who had thought that they had no hope have signed an elite contract with Lu Yang.

"Boss, how do you pay us back?" Liu Yunpeng asked.

"Yeah, we were all going to be abandoned. You just gave the skill book. We don't want money." Liu Yunpeng's deputy said.

Lu Yang shook his head with a smile and said, "One yard is one yard. You have to accept this contract. I can't let you work for me for nothing. Besides, this job is five years."

Liu Yunpeng and the other tauren looked at each other. In the end, Liu Yunpeng did not hold back. In order to help his brothers, he took the lead in signing a contract with Lu Yang.

After the contract was signed, Lu Yang took out another certificate and gave it to Liu Yunpeng, saying "You signed this again."

Liu Yunpeng glanced at the contract. This is a promotion certificate of the legionnaire. Every legionnaire of the iron brothers has it. The salary is 30,000 yuan per month.

"It's too much," said Liu Yunpeng. The salary contract just signed by others was only 3,000 yuan.

Lu Yang said, "You are the commander of the army. This is what you deserve."

Inwardly, Brother Lu Yang secretly owes you this. I owe it to you. I feel that these are still small. I didn't have the hard work of helping you in the last life. I was not qualified to build a fortress, and I lost to Liu Jie long ago.

In fact, Lu Yang could give Liu Yunpeng more money, but he could n't give it. For the time being, he could only give him the salary of the commander of the legion. Otherwise, the other commanders should be unhappy. After all, Liu Yunpeng was a new member Unlike other seniors in the Jagged Brotherhood, they are eligible for this benefit.

Liu Yunpeng wanted to refuse, but could not find a reason, and finally signed a contract with Lu Yang's persuasion.

"Boss, you are so interesting to me and our brothers." Liu Yunpeng said.

"The Sirius boss really pays attention to it, and we will desperately work with you in the future." A war tauren said.

Lu Yang claimed to the others that he was shooting Sirius. He smiled and said, "Let's keep in touch, I'll go around the city."

He wants to buy Liu Yunpeng a better totem pole. This thing should be sold, but only Liu Yunpeng and their more than 100 people can use it. It is estimated that the price will not be too high.

“Oh.” Liu Yunpeng and his men continued to call each other to find.

Lu Yang left the hotel and came to the avenue outside. This is a safe area. As long as he does not fight with other people, the camouflage coat will not disappear.

The Tauren City is a very large main city. The average height of each Tauren is about 2.5 meters, and even the buildings in the main city are very tall.

Lu Yang came to the largest market in the east of the city along the avenue, walked from house to house, and saw the market of the Tauren people. Good totem poles are not sold in the market, and the price is very low. An ordinary 80-level gold totem has 10 silver coins .

It has long been more than 1 gold coin, or even 10 gold coins, as a good weapon for other professions.

“Is there a better totem pole?” Lu Yang asked in front of a shop.

“No, this is my best. If you want to buy a better one, you might as well go to the auction house opened by Tianyao, where it should sell more than the system.” The store said.

Lu Yang asked for a moment, “His auction house is doing so well?”

The shopkeeper said, “Can’t compare. After reunification, all the auction houses in the 15 main cities will share information. In this way, all players are willing to go to his auction house instead of selling to the auction houses in various main cities. Something. “

The official auction house does not exchange information between the main cities.

Lu Yang arched his hand and said, “I see, thank you.”

“You’re welcome. His auction house is not far away. Look at that five-story house, which is his auction house.” The shopkeeper is also a talkative person.

Lu Yang bid farewell to the store and came to the auction house. This is a very large auction house. He asked the players of the Tianyao Guild at the door, "Is there an auction today?"

"Sorry, not today. We must have what you need. Everything is self-service. Please watch it casually." The gatekeepers speak very well.

Lu Yang smiled and nodded walked into the auction house, and randomly found an auction machine, he chose the search weapon-totem option.

A purchase screen appeared in front of Lu Yang. Inside it, there were thousands of totem weapons, the first of which was a dark gold 80-level totem pole.

Smasher-Totem (Dark Gold)

Chapter 912 - Crush Attack

Lu Yang was looking for this weapon. At a glance at the price, it was not expensive. As long as 1 gold coin, it was only 300 yuan.

If it was replaced with another weapon, the price is definitely above 8000, he immediately chose to buy it, and received the Smasher Totem in his backpack.

Continue to look at other totems, the rest are all 80 levels of gold, Lu Yang bought 100 first.

He then looked at the rare items. Now what he wants most is the time and space gems. The number of escape daggers of the Iron Brotherhood is more than 100. If there are enough time and space gems, he can quickly brush the elemental temple of fire and steal a lot of equipment. .

Unfortunately, he searched at the auction house. There was no such thing as time and space gems. It was normal to think about it.

The gems of time and space are hidden in a hidden position. Even if they are level 80 lords, the explosion rate is very low. In this era of universal rushing, there is rarely a chance to hit them.

Lu Yang sighed. As he was about to withdraw, suddenly, he saw a silver angel statue. In the hollow part of the statue, there was a dark blue gem.

Angel statue

Description: He seems to have fallen from the sky ...

The introduction is only half a sentence. Lu Yang couldn't help laughing when he saw this statue. The introduction of some special equipment in this "Second World" game really made people who do n't understand collapse, such as this angel statue This kind of introduction ghost knows what he does.

But this kind of statue often has a role you can't imagine, if you can find how to use it, you will benefit a lot.

Lu Yang knew the role of the statue. He was upgraded by the teleportation scepter. The top of the teleportation scepter was a base with a slot on it.

This slot and the protrusion of the bottom of the angel statue can just be docked. The explosion rate of the angel statue of the previous life is very low, and the selling price is not good. Players who have spare money will be interested in collecting it later.

Later, when players knew the role of the angel statue, the price of the statue could be sold for 500 gold coins.

Lu Yang looked at the price of this statue, and only 10 gold coins, he immediately chose to buy.

A flash of light flashed, and the angel statue appeared in his backpack. Lu Yang continued to look at it. He also bought two angel statues.

Looking around, Lu Yang found a place where no one was, took out his teleportation scepter, and installed an angel statue on it.

System prompt: Are you sure you want to increase the level of the teleportation token?

Lu Yang chose to confirm, the white light flashed, the teleportation scepter and the angel statue tightly fit together, and the name of the teleportation scepter also became an angel scepter.

Angel scepter

Level: 0

Description: You can take 100 players to any friendly building, including the sentry tower you build.

Lu Yang could only transmit 25 people, but now it has become 100, a five-fold increase, so that he can do more in the future.

“Boss, everyone is recruited, 100 people.” Liu Yunpeng sent a message.

Lu Yang said, “You are waiting at the hotel, I will come here.”

He changed into a mount and ran back to the hotel. He just entered the door and saw Liu Yunpeng sitting in the conference room with 100 people.

“Boss is good.” Liu Yunpeng stood up and said first.

The other 100 people stood up and greeted Lu Yang one after another.

Lu Yang nodded, came to his seat, motioned for everyone to sit down, and asked, “Are all the contracts signed?”

Liu Yunpeng said: “It’s all done.”

Lu Yang said: “Everyone have a good rest today, tomorrow morning, I will take you to appreciate the duel between your boss and a tauren player.”

“Duel?” The deputy parted hook looked curiously at Liu Yunpeng and asked, “I haven’t heard you say, who are you duel with?”

Liu Yunpeng gritted his teeth and said, “A level 60 **** turned out to despise me, said that I robbed them of the blame, and said that he would single out with me and bet 10,000 credits.

The parting hook looked at the skill book in his hand, and then looked at Liu Yunpeng, and said, “Torture him, our brother has been upset in the past few months, it’s up to you.”

Liu Yunpeng said, "I must let him know that I know how great I am."

Lu Yang said with a smile: "Don't do anything else today, I will teach you the methods of war for tauren."

"Ah, boss, do you understand how our tauren play?" Liu Yunpeng asked in disbelief.

Lu Yang said, in the last life, you played war tauren. I have played against you hundreds of times. What are your combat skills and special play? I know better than you.

At that time, Lu Yang Tiantian, Liu Yunpeng, and other guild legions discussed combat skills, and even helped Liu Yunpeng develop a lot of play.

If it is said that other professions Lu Yang dare not easily instruct, this war tauren, Lu Yang has a voice over Liu Yunpeng of the previous life.

"Look at me, I ask you, if you want to hit me with a random hammer, how do you put your skills?" Lu Yang asked.

Liu Yunpeng scratched his head. He found a problem. It seemed that it was not easy for adults to use the skill of hammering.

Although the Ground Hammer has a high attack and does not attack the cd, he can always use it as long as he is angry, but he has a starting position, and he needs to first pick up the totem and smash it to the ground twice.

Although there is no 15-second attack interval, as long as you see this starting gesture, everyone knows that you are trying to zoom in. If you do n't run, you will deliberately avoid it, making you unable to hit him.

"Boss, I can't beat you for this big move." Liu Yunpeng thought for a long time and gave such an answer.

Lu Yang said, "I have a way for you to hit someone. Do you believe it?"

Liu Yunpeng blinked his eyes and asked, "How do I fight?"

Lu Yang said, "You don't know yet. Your slamming hand's starting style is not fixed by pushing two totems to the ground. He has other ways of starting.

You start the skill first, and after violently hammering the ground once, you don't hammer it a second time, but walk towards the opponent. "

Liu Yunpeng asked: "Isn't that interrupting skills?"

Lu Yang smiled proudly and said, "You try the parting hook."

"Let's head off." Liu Yunpeng wanted to leave the hook to challenge.

The parting hook chose to agree.

system hint:

Duel begins

Liu Yunpeng and the farewell hook stood at a distance of 10 meters, he walked forward 5 meters, using a totem to hit the farewell hook.

The parting hook easily took a step to the side, avoiding this move, and then he saw Liu Yunpeng quickly approaching him.

The parting hook raised the totem and smashed it according to Liu Yunpeng. Liu Yunpeng did not hide. He just took 2 steps and came to a place 1 meter away from the parting hook. Suddenly, his whole body seemed to be full of energy.

“Scramble”

Liu Yunpeng waved his totem fiercely, just like crazy, smashing towards the parting hook crazyly at an attack speed of 3 times per second.

The parting hook was snored directly. He only had 12,000 bloods in total. He didn't wait for the reaction and was smashed to the ground. Only 1 drop of blood was forced.

Ten seconds later, Liu Yunpeng stopped. The parting hook stood up and asked blankly, “Why did I die? I didn't watch you start the rampant hammer.”

Liu Yunpeng said excitedly: “It's really possible to move forward after hitting it, and it's considered to be a skill, this is amazing.”

The parting hook and others just came to understand that there were other ways to start the smashing hammer.

“Boss, you are too good, even this method will be.” Said parting hook.

“In this case, our skills are too deceptive. If I was singled out, I would fight and walk over. I thought I was sick on the other side. I must have come close to me. At this time, I was still magic immune and took two steps. In front of him, after a mess, he was dead.” Liu Yunpeng said.

The 100 minotaurs nodded together and agreed with Liu Yunpeng's play. Now the war minotaurs are a joke. If there are war minotaurs walking in this way, the other party must think that they are stupid. When they came near, when they attacked, the enemy would die of.

“Boss, you are really a master.” Liu Yunpeng said heartily.

Lu Yang said: “There are more amazing, do you want to learn?”

“Think!” Liu Yunpeng said with the parting hook and others.

Lu Yang said: "When you use the ground hammer, don't think that you must hit each other with each attack. Although the attack is high, you never thought that if you hit the ground the same damage How tall? "

At this level, they are more lethal to attack the ground with a random hammer than without hitting them without equipment.

At the same time, this skill has a stun effect, which can instantly interrupt the opponent's escape skills. As long as it is stunned three times in a row, other occupations can't carry it unless it is anti-war and anti-riding.

"It's true." Liu Yunpeng said, "Boss, is there any way we can improve our attack hits, we can hit people, and we can hit the ground."

Lu Yang said: "This is where I want to train you today. I have to hit both people and the ground. This is a very difficult skill. If you can learn this game, you can walk sideways."

"We learn." Liu Yunpeng said.

Lu Yang laughed secretly. Liu Yunpeng in the previous life took six months to learn this technique. This life has his own guidance. I hope he can learn faster.

"Let's start with the basics. If you want to learn this skill, you need to know how to use other skills, such as rock strike, anger, resounding war and trample on war." Lu Yang said.

Crushed rock strike is a directional attack skill. It will blast the rocks on the ground and stun the target for 2 seconds while hurting the enemy. It can also be equipped with crushed rock control, making it difficult for the enemy to break free.

Anger is a special skill. He can increase the war tauren's attack power by 400%. However, if he wants to use this skill to hit his opponent, unless he stuns the target for 6 seconds with the trample of war, it is not possible.

Echo of War is a group attack ability. He can let the war tauren stun their opponents for 2 seconds each time they release their skills. It is a magic skill to cooperate with the smashing hammer.

Chapter 913 - Smashing Hammer

Lu Yang and Liu Yunpeng practiced their fighting skills for a day. At 12 o'clock in the evening, he motioned Liu Yunpeng to stop and said, "Let's stop tonight, go back to bed and think about it, you will have a duel tomorrow morning."

Although Liu Yunpeng did not have an extraordinary reaction speed, his understanding was not low. The combat skills taught by Lu Yang, in addition to hitting people every time with the random hammer, have realized five or six points.

"Tomorrow I will definitely teach that guy who dares to look down on us." Liu Yunpeng said.

Lu Yang laughed and flew back to the city of St. Gall using the scroll back to the city, resting in the hotel.

Early the next morning.

He used a camouflage coat and quickly ran to the Tauren main city on a raptor. In the arena, there have been many people who like pk to discuss it.

"Brothers, take a look. A bet of 10,000 yuan, a super rare career war tauren who turns against a normal career. This is just one game today. Don't miss it."

The voice of a distant shout attracted Lu Yang's attention. He walked over, and the double-edged axe soldier was leading a group of people to confront the 100 war tauren with Liu Yunpeng.

“I dare you to come,” said the double-edged warrior mockingly.

Liu Yunpeng said angrily, “I’m still afraid you won’t succeed. Today I want to teach you how to be a human.”

“Come on, let’s get in,” said the double-edged warrior.

“Go and go.” Liu Yunpeng followed.

“Hey, wait a minute.” Lu Yang shouted.

Liu Yunpeng saw Lu Yang with an excited look on his face and said, “Boss, see how I abuse him.”

The double-edged axe soldier unhappily asked, “What are you doing?”

Lu Yang said, “What weapon are you holding?”

The weapon in the hands of the double-edged axe is different from yesterday’s. This is a level 60 tomahawk shining with dark golden light.

“Yeah, why did you change this weapon? It’s still dark gold.” Liu Yunpeng also found the problem and asked unhappily.

“Is it possible to change weapons?” The double-edged warrior asked proudly.

Liu Yunpeng was speechless, and really did not stipulate this.

However, Lu Yang said, “Shameless. When you say that you have a good test, you have to use the weapon at that time. How can you change it temporarily?”

“How do you say that, if there is no rule, then it is not a violation, everyone is right.” The double-edged axe soldier asked proudly.

Today he deliberately brought hundreds of people to cheer him on, and the players around him also felt that although the double-edged axe soldier did wrong, it was morally okay.

“Obviously.” The double-edged axe soldier proudly said.

Lu Yang said, “Since you don’t talk about rules, I won’t talk about it, then.”

He took a level 80 Dark Gold Totem from the backpack, the Smasher, and threw it directly to Liu Yunpeng.

Liu Yunpeng reached out and took a look. Looking at the attributes of the totem, he was surprised and said, “The attack power is so high.”

Everyone who knows the players around has found the problem.

“Is this weapon the darkest totem smasher with the highest damage hanging in the Tianyao auction house?”

“Looking at the image, if it is true, it is interesting. That weapon hurts more than 10,000. Hitting a critical strike will kill you.”

“Bug, this game is exciting.”

When players search for weapons, many people like to search for weapons when they are bored, to see which one of the current weapons is the most harmful.

Since this Dark Gold Smasher was put on the shelf, he has no higher damage weapon. After all, he is equivalent to the sum of two Dark Gold two-handed swords.

The double-edged axe soldier's face is a bit bad. He originally thought that it would be easier to win with a good weapon. After all, he didn't want to make any mistakes, but he didn't expect the other party to change weapons.

He also knew about this weapon, and it hurt more than 10,000, but the weapon damage in his hand was only 1,400, which was nearly 10 times worse.

"You, you." The double-edged warrior pointed to the landing sun.

Lu Yang asked, "What do you want to say?"

The double-edged axe soldier was speechless and cursed, "Anyway, this is a waste job, I am afraid of him."

After speaking, he walked into the field.

Liu Yunpeng gave Lu Yang a reassuring look and followed into the arena. The two stood at a central point 30 meters apart.

This is a circular general arena without any obstructions on the ground. It is just a piece of land with a diameter of about 90 meters, which is enough for two people to fight.

The double-edged axe soldier looked at Liu Yunpeng scornfully and said, "Even if you change your weapon, you can't beat me, a garbage that only attacks once every 15 seconds."

Liu Yunpeng snorted and said, "I will kill you in a moment."

The double-edged axe soldiers were speechless, and everyone around them laughed.

Someone shouted, "Kill him with a stick and let everyone see the power of the war tauren."

“Boss, we are optimistic, a stick killed him.” This is what the war tauren shouted.

The system prompts that the game is confirmed and the countdown starts.

Game start

The double-edged axe soldier’s face was tense, his eyes were staring at Liu Yunpeng in the distance, but he was a little panicked. The totem’s critical strike attribute was nearly 3000, and the chance of a critical strike was very high. He was very worried about being attacked by Liu Yunpeng After hitting it, he was killed by crit, and he dared not attack rashly.

Liu Yunpeng stood proudly looking at the double-edged axe soldier and said, “Come, come.”

The double-edged axe soldier said nothing.

“You come, come.” Liu Yunpeng beckoned at the double-edged axe soldier.

The double-edged axe soldier said nothing.

“Come on, come on.” Liu Yunpeng shivered.

The double-edged axeman’s forehead had blue veins.

“Come on, come on ~~” Liu Yunpeng looked tenderly.

“I’m here for your sister, shut up.” The double-edged axe yelled, “You’re stupid, I won’t pass.”

The players watching around laughed.

Liu Yunpeng moved his arm and said, "If you don't come, then I'm here."

"You can come here and try it." The double-edged axe sneered.

"Come and come." Liu Yunpeng walked towards the double-edged axe warrior, carrying the 5-meter-long totem pole, the smasher.

As a war tauren, his height reached 3 meters. When he walked forward holding the totem pole upside down, the huge sense of oppression made the players in the stands feel it.

"It feels so good to watch."

"Unfortunately, nothing is useful.

...

The comments of the surrounding players made the rest of the war tauren unconvinced.

The double-edged axe soldier thinks so too, he stares at Liu Yunpeng's right arm, preparing to dodge this attack.

Liu Yunpeng didn't look worried at all. He already understood the significance of his special profession as a war tauren. This is a profession that needs to be indomitable and not afraid of death. It is to crush the past with fearless look in front of the enemy .

"Eat me a totem pole." Liu Yunpeng roared, and the totem pole was rounded, smashing against the head of the double-edged axe soldier.

The double-edged axeman opened his eyes fiercely and rolled backward one after the other, evasively avoiding this skill.

“嘭”

The ground shook, and the double-bladed axe warrior's body bounced off the ground. He looked up and found that Liu Yunpeng, who had just finished this attack, put away the totem pole, and strode towards him.

“I rub, you attack cool down for 15 seconds, dare to chase me at this time, I will kill you.” The double-edged axe soldier's face flushed, and he got up from the ground, carrying a double-edged axe towards Liu Yunpeng. Rushed over with Liu Yunpeng.

The two quickly approached a distance of 2 meters, and the double-edged axe soldier raised his tomahawk and chopped it over Liu Yunpeng's head. At this moment, suddenly, a glance appeared on Liu Yunpeng's face.

“Scramble”

Liu Yunpeng instantly fell into a violent state, picked up the totem pole in his hand, and hit the double-bladed axe madly at an attack speed of 3 times per second.

The first hammer was in the middle of the double-edged axe warrior's axe, and the axe was crooked. The totem pole also shifted, followed closely by the second. When the double-edged axe soldier did not respond, a totem pole hit his shoulder. on.

It is a pity that no crit has been generated. The crit chance of the war tauren is forcibly set very low. Otherwise, at his attack speed, even a crit chance of 10 is too easy to trigger.

However, even if there was no crit, this time he killed the double-edged axe soldier. After hitting his shoulders in the front, the totem pole hit the ground with the homeopathic attack, and at the same time dealt more than 10,000 damage, he also dealt 5,000 shock wave damage.

The double-bladed axe fighter's total health was only 10,000, which was immediately killed in the spot.

You are prompted to lose

The double-edged axe warrior watched Liu Yunpeng run over him blankly, and continued to hammer forward for another 10 seconds.

That crazy attack looks deeply imprinted in the hearts of the double-edged axe fighters and all the spectators around.

“What skill is this?” One player asked.

“I haven’t heard of it. When did the war tauren have such powerful skills?”

“Who said that this professional junk, this rare occupation is still not letting people live, the attack power is so high, and three hits a second, how else do other people play?”

...

The double-edged axe soldier stood up and looked at Liu Yunpeng and asked, “Is this your new skill?”

Liu Yunpeng nodded and said, “Yes, I just learned last night.”

The double-edged axe soldier was speechless and said, “I lost, I’ll give you the money.”

“No.” Liu Yunpeng said quietly, “Although my brother and I have no money , but the money I gambled on, I never want to, keep it by yourself, just don’t bet with anyone. “

The double-edged axe soldier looked at Liu Yunpeng in surprise and could not say a word.

Liu Yunpeng proudly returned to Lu Yang and said, “Boss, what was my action just now, not handsome.”

Lu Yang was teased by Liu Yunpeng and said, “Handsome, super handsome.”

“Wow haha, I know, buddies are the most handsome.” Liu Yunpeng looked quizzical, posing a strong gesture.

Lu Yang handed a package to Liu Yunpeng and said, “There are 100 totem poles in it, all of which are of gold grade. Let them go to your brothers.”

Liu Yunpeng opened the parcel and opened his eyes, and said, “Thank you, boss.”

Chapter 914 - Fox clan encounter

It turned out that the equipment used by each of them was a silver totem. Even if it was so cheap, they couldn't afford gold, but in this case, Liu Yunpeng still didn't greet the 10,000 yuan gambling money, which made Lu Yang have to rise again. A glance at his brother, this is a brother worthy of trust, because he will not betray you for money.

Lu Yang took out the phone and called Sirius, saying, “Half people are divided. At this coordinate, I recruited 100 new war minotaurs. You brought them to the equipment. Before, I used your avatar. The people who communicated with them, except their boss Liu Yunpeng, thought that I was you. “

“Ah, boss, why are you recruiting that scrap material profession?” She was asked curiously.

Lu Yang sent the video of the war just to Sirius, asking “Do you still feel garbage?”

Shoot Sirius and take a look. The picture shows the state of Liu Yunpeng when using the smashing hammer. He looked stupid and said, “No, isn't the war tauren able to hit 1 in 15 seconds? Why is it 3 in 1 second? Ah, let's not let people play. “

Lu Yang smiled and said, "I found new skills for them, but only found 10 such books. You can take them out and cultivate your feelings. This kid is kind and silly, but when Nice brother. "

He told the shooting Sirius that Liu Yunpeng had just given up 10,000 yuan.

"That guy is really a good brother," said Sirius.

Lu Yang smiled and said, "Can the boss recruit people who are bad, not for morality, I don't recruit any of them."

"I'll go there and wait for them. I must bring the best guild in the guild to help them play the full skill book." Shoot Sirius.

Lu Yang hung up the phone with a smile, and told Liu Yunpeng to take the 100 Tauren to the Bull Demon Hall. He replaced the Raptors and ran towards the main city of the Fox clan.

The main city of the Fox clan is near the sea, and it is a very important city for the Brotherhood of the Iron Blood to launch a war against Tianyao.

When Liu Jie announced the establishment of a shipyard, Tianyao also began to build a shipyard in the Fox clan. When the shipyard was not completed and it was impossible to build a level 3 warship, Lu Yang knew that he would not go to war with himself, otherwise The main city of the Fox clan is his major weakness.

Tianyao also knows the main importance of the Fox clan's main city. One tenth of his guild players are concentrated in this main city.

Lu Yang came to this main city, on the one hand, there were players he wanted to find, and on the other hand, he wanted to see Tianyao's military arrangement in the Fox clan.

Along the avenue outside the main city of Niutou City, Lu Yang ran for an hour, through the misty hills, to the first fortress outside the Fox clan, the Black Claw Fortress.

Black Claw Fortress is on the top of a hill, the hills are more than 30 meters high, and the walls of the Black Claw Fortress are more than 30 meters high. From a distance, the fortress is very majestic.

At this time, Lu Yang has changed to the appearance of a fox, looking up at the distant fortress. There are many players defending around, about 10,000 people, all of them are trumpet. There are hundreds of people in the city responsible for defense. Look All players are above level 70.

The player at the fortress also found Lu Yang, and his eyes gathered towards him.

Lu Yang didn't want to cause trouble, and retreated his eyes, and continued to run towards the main city of the Fox clan. Soon, a beautiful Fox City appeared in front of his eyes.

From the guards at the gate to the players in the city, most of them are foxes. There are not many males and most females.

Since the last life, Lu Yang has heard the legends here. The girls who are willing to choose the fox family are not afraid of being scolded by foxes. Their style is very open and their personality is very good. If you want an occasional love, come to Fox City.

In Fox City, the more famous is a bar street in the east of the city. This is obviously a game, but it is more lively than the bar street in the real world.

Lu Yang went into the bar street with the purpose of "unspeakable". Although he didn't find the idea of Yanyu, it was fun to come to see it.

At this time, the sky was already dusk, the sun had set the horizon, only a little light could be seen, the sky was dark, and the moon could clearly see him hanging in the high altitude.

The bar street is right by the sea. A gentle sea breeze blows through the body. Several fox girls and boys dressed very beautifully are wearing very few clothes and standing at the door of the bar.

"Brother, would you like to come in and have a drink?" A fox girl came to Lu Yang and said to Lu Yang with a voice changer unique to the fox tribe.

This sound makes the whole body soft!

Lu Yang already has blue feathers. How can he really go into the waves? Without answering, he continued to walk into the bar street.

Bar Street is not just a bar, it is also a market. The reason why the bar street is so popular is also due to this market. When the stalls are sold out, they will enter the bar street to see dancing and listening to music. Have a special date.

“Selling goods, selling goods, have you bought the last batch of top treasure maps? The last batch, please buy it as soon as possible.” A fox child, who looks like a high school student, shouts loudly, Attracted many people to his booth.

Lu Yang also walked curiously. The treasure map is a game feature of Second World. This thing is like a treasure chest and may open special items. But what is better than the treasure map is that this is a pirate. Treasure map, it is possible to open 80 levels of dark gold equipment.

“How to sell it.” Someone asked.

“10 gold coins, 10 gold each.” The boy said excitedly.

“It’s so expensive. Don’t let anyone sell 5 gold coins.”

“It’s too expensive. It’s too expensive.”

...

Players around are shaking their heads.

The fox tribe boy said excitedly, "Do n't think of it as expensive, if I'm not in a hurry to use the money, I'll open it myself. You know, this treasure map has been used to escape the dagger and 80-level dark gold hands. Sword, I'm already cheap to sell it. "

Mentioning this, everyone stopped again.

"Little brother, you're right, but that's good luck. If you're unlucky, give 5 silver coins, a big loss." A player said.

The fox boy said loudly, "It depends on your luck. Take a bet. If you succeed, you won't worry about money in my life. I don't think I have this luck. I will see which brother or sister on the scene. Good luck. "

A little boy next to him said, "If you open a level 80 dark gold weapon, you can sell tens of thousands of credits if you change hands. If you can open the treasure of the entropy ball behind the leader of the Jagged Brotherhood, you can sell it. To more than 100,000, if you can reach the wreckage of the wrecker, you can sell hundreds of thousands. "

The players around me are more excited. Just as the more people gather around, the sooner someone can't help but buy, a group of people crowd over.

"Get out, get out." Hearing this voice changed the faces of the players around.

An orc player with a height of 2 meters crowded into the crowd with more than 10 people, looked at the treasure map in the boy's hand, and said, "I will give you 10 gold coins. I want all 3 treasure maps."

"This elder brother, you may not know the price. I sold five gold coins, and these three required 15 gold coins." The boy said.

The face of an orc player turned sullen and scolded, "Your kid is looking for curse, who doesn't know the market price of the treasure map is 5 gold coins, what do you mean by selling 10 gold coins?"

The faces of the fox tribe boys became hard to look, and they could not hear others talking to them in a scolding tone.

“Please be respectful. If you are willing to buy it, we will not buy it. If you don’t buy it, you will leave. Why scold someone?” Fox girl said angrily.

“Oops, there are those who dare to talk back to me. The four fortresses of the Fox clan were all destroyed by us. You don’t want to play anymore, right?” The beast player’s younger brother was proud.

“Tianyao people.”

“Hurry up, hurry up.”

...

When Tianyao unified the Fox clan, the methods used were very fierce. They directly crushed the four fortresses of the Fox clan and did not give them a little space for negotiation. At that time, the old four fortresses in Dalian had no time to sell the wild fortress. Personal losses were so great that they were forced to quit the game.

The fox boy saw that the players gathered around had dispersed, and quickly said, “Don’t leave, we can talk about the price.”

Orc players sneered and said, “You can only talk to me about the price.”

The fox boy looked angrily at the orcs player and said, “You’re too much. In this case, we won’t sell anymore, close the stall.”

The orc player wasn’t angry. Instead, he laughed and said, “Boy, you think about it, now the Fox family is under my control. If you don’t sell things to me, you can’t sell them.”

“That’s not for sale.” The Fox girl glanced at the Orc player with a scornful glance, put away the booth and left.

The face of the orc player is a little unhappy. After he occupied the fox family, all the shops in the main city of the fox family did not give him face. Today is the first time that he has been so shameless. He must find this face, otherwise The tribe saw him bullying, and no one would honor him in the future.

send them to the Assassins to follow them and kill them after leaving the city.” Said the orc player.

“Um.” More than a dozen orcs turned and followed behind these little players. Lu Yang couldn’t bear to watch them lose their equipment and quietly followed.

As if these little players did not know that someone was following them, they walked straight out of the main city. There were smirks on the faces of more than 10 orc players. As long as they walked 100 meters out of the gate, they dared to kill.

When Lu Yang came to the door, he drank the stealth potion and quickly came to the little players, just to remind them not to leave the city gate. Suddenly, he heard the fox boy saying, “These 10 silly The eggs are about to start, everyone is ready, we kill them and run into the forest. “

“Hey, there are people who sent the equipment again. It’s great. I can get another for today.” Fox girl said.

Chapter 915 - Milk cat combination

Lu Yang Waterfall Khan, “Is the current high school student so smart? How can this college student live? It’s too disguised.”

“How do I feel that someone is with us, do you feel it?” Said the Fox clan boy.

“It’s impossible, I’ve been watching with the sky eyes, except that there was just a fox player who followed the orcs and walked out with them, and there are no more.”

“What about that Fox player?”

“I don’t know where to go, but it’s definitely not coming to our side. Even the level 90 people can’t escape the perception of Hao Ran unless the person is level 100.”

“How is it possible that there is no 100-level master, you are the boss of the Jagged Brotherhood.”

“Yes, let’s come as planned.”

...

Listening to their conversation, Lu Yang could not help but take a two-step back. He already knew who the boys in front of them were.

The famous Haoran studio of the last generation consisted of a group of children, but their skills were very good, because they were not ordinary children, but the best class students in a top domestic high school.

In the last generation, there were more than 10 people admitted to the Qing and North, and more than 10 people admitted to Harvard and Cambridge. None of them were ordinary.

This was later known to the world after they proactively revealed their identities, otherwise they never knew who they were.

Lu Yang is very fortunate that he met them here. If these people join in, it will be easier for him to unify the orcs.

“Boy, even disobey our boss, if you don’t sell it, then don’t blame us for taking it.” An orc player laughed and waved a battle axe towards the fox boy.

At this moment, the fox boy turned back and smiled at the orc player, pointing his right hand at his body.

“Redemption”

A golden light fell on the orc player, and he found that all his skills were used, and even ordinary attack power was banned.

“Summon Iron Arm Battle Bear”

“Summon Ghost War Wolf”

“Summon Steel Armoured Dragon”

...

Ten little guys summoned together, summoned over 100 top-level summoning beasts, and surrounded these 10 people.

“You, you, how come you have so many summoned beasts,” said the orc player in horror.

“This is not something you should know, goodbye.” The fox boy waved his hand with a smile. The 100 top summoned beasts were like starving tigers, killing 10 orc players instantly, but just before death, there was an The player fired a flare.

“Not good, let’s go, this boy summoned his companions,” said the Fox boy.

The remaining nine people nodded, picked up the equipment that had fallen from the ground, and scattered and fled.

Lu Yang followed behind the Fox clan boy and entered the level 10 Huamang Forest. Half an hour later, the remaining 9 children gathered here.

“Oh, I’m exhausted, I finally got rid of the enemy.” Fox girl said.

“We got rid of it too.”

“It’s not easy this time, we’re afraid to change to another main city.”

“We can’t always change it like this, we don’t have many camouflage coats, Hao Ran, you have to think of a way.” The girl of the Fox family reached out and pulled off the camouflage, becoming a cat-like player.

The Fox boy also changed his coat and became a cat.

The remaining eight people have also become cats.

The boy named Hao Ran still frowned, and said, “You don’t feel it. I still feel that someone around us is following this feeling.”

“How could it be, don’t be suspicious, who can keep up with our escape speed, besides, we still have camouflage coats.”

“puff”

Lu Yang couldn’t help it. Looking at Hu Haoran, who was famous in the last life, turned out to be the cat family of Meng Meng Meng Meng. He had a stomachache, and finally laughed.

“Who, who is there?” Hu Haoran looked at the air 5 meters away from his side, showing his arms, two small claws.

“Don’t do anything, I’m not malicious to you.” Lu Yang revealed the appearance of his fox tribe.

“Is that you?” The girl pointed to Landing Yang and said, “Aren’t you the uncle following the orc player at the door?”

Lu Yang had a black line in his forehead, and he was a sophomore. At most, the children were four years old, and he was called uncle.

“Call brother, I’m not uncle.” Lu Yang said.

The cat girl was dumbfounded, with vertical lines on her forehead and said, “Oh, my brother, haven’t you just left?”

“Don’t shout, who knows where this person is coming from.” Hu Haoran said alertly.

Lu Yang said, “I have no bad intentions. I just wanted to remind you that I took your stealth potion and came to your side, but before you speak, you will ambush the 10 orcs, and I will stand by and watch.”

Hu Haoran’s weapon was slowly put down and said, “I said just now how do you feel someone is by my side, how many levels do you have, why do you help us.”

Lu Yang said, “My level is the highest in the full service. You can’t find me normal, but your perception ability is very strong, and it should be a rare job.”

“You have the highest level of full service, I don’t believe it, are you the old continent of the Iron Brotherhood?” Hu Haoran said.

Lu Yang laughed and removed his camouflage coat, revealing his original appearance, with nine element **** behind him, holding the wrecker’s staff, and saying, “Who do you say I am?”

Hu Haoran and the other children were stunned.

“You, are you Lu Yang?” The girl Liu Chang asked.

Lu Yang spread his hand and said, “Yeah, that’s the object you use to advertise when you sell goods. Speaking of this, do you have to pay me a little advertising fee?”

Liu Chang bowed his head embarrassed.

Hu Haoran said, “I don’t believe it. I can trust you if you can turn into a flame chariot. Otherwise, how can I know if you are disguised?”

Lu Yang said, “Who can disguise the Elemental Ball and the Destroyer suit, let alone disguise as a specific person. This is a rule in the game, forget it.”

The 10 little guys still didn’t believe it, all looked at him curiously.

“Well, let me change it for you.” Lu Yang beckoned, the flames soared, and the flame chariot appeared from under his feet.

“Really Lu Yang?”

“How are you here?” Hu Haoran asked.

Lu Yang said, “Let me examine the situation of the orcs.”

“Are you going to war again? Is the war on races?” Hu Haoran asked.

Lu Yang said, “This is a secret. I cannot tell you for the time being.”

“Master, you tell us, we are your fans, the one you won the world championship, is so handsome.” Hu Haoran said excitedly.

Lu Yang hesitated. He responded. The little ones are still children. They made the world’s best results. Any child who loves this game will have some admiration for himself.

“Tell you all right, but I also have a request.” Lu Yang said.

“Request? What request?” Hu Haoran asked.

“How about joining my guild, I need you guys.” Lu Yang said.

“Can we help you?” Asked the child named Che Ning next to him.

Lu Yang said, “Don’t you know yet, your 10 little guys are all rare hidden professions.”

“We know, but except we can summon monsters, our own offensive power is very poor.” Hu Haoran looked sad.

Lu Yang smiled and said, “That’s because you didn’t summon the right monster. How about joining me, I can make you a top master.”

“Top Master?” Hu Haoran and 10 other little guys acted.

“Really?” Liu Chang asked.

Lu Yang said, “Is the boss of the Jagged Brothers League can say something false, can I lie to you a bunch of children, and then I will pay you a salary, each person earns 10,000 a month.

“So much?” Hu Haoran was so impressed that they have worked so hard for so long that each person’s monthly income is less than 2,000 yuan.

“There is a lot of money, but we still have classes in the daytime, and we can only play when we are free at night.” Che Ning is a bit precocious and speaks well.

Lu Yang said with a smile, “In the future, you will be responsible for upgrading to me. I only need you to leave school. After you finish your homework, you can work for me for 2 hours.”

“So simple?” Che Ning asked in surprise.

Lu Yang said, “You do n’t know much about your career. In this way, I will give you the contract and give you a day to consider. You can go home and ask your parents. If you agree, you will go online in the game for 2 hours every day. You need to be online all day on the two days of the weekend and on Friday night. The rest of the time is yours. “

“I promise.” Liu Chang raised his hand first and said.

Hu Haoran and Che Ning also wanted to go back and discuss it, but they saw that Liu Chang agreed, and they saw Lu Yang’s contract in just a few words. They didn’t need to bother to understand, and did not frame them or abduct. Their idea is that after joining the Jagged Brotherhood, they must not quit the guild and transfer to other guilds without authorization within 5 years.

“Well, we promised.” Hu Haoran and Che Ning said at the same time.

The other 7 little guys saw this situation and all agreed.

Lu Yang guessed this. The relationship between these little guys was quite troublesome. There were three girls among them. The most lively was Liu Chang. Hu Haoran and Che Ning liked her, but neither of them confessed. Both are buddies, and they have been tangling.

The most beautiful girl is Tao Mengmeng, and her crush on her is the only rich second generation among them, Lu Xiaofa, Lu Ze.

There is also the most beautiful girl who dances. Three of them like it, and they all have a gentle temperament. At first, they all chose cats. It was because these three girls chose cats. Forcing the remaining 7 little boys to choose cats. Family.

Liu Chang agreed, and Hu Haoran and Che Ning agreed. The other two girls saw that the three of them agreed, and they signed their names. The remaining boys also signed their names directly.

Chapter 916 - Dark Demon Emperor

“Boss, let’s give an order and let us do it.” Hu Haoran asked.

Lu Yang smiled and said, “The first order is to call my brother later, don’t call uncle.”

Hu Haoran and others snickered. The sense of distance just after signing the contract disappeared instantly.

“The second order, today is Saturday, you have to follow me all day, I will take you to play a few skills first.” Lu Yang said.

“What skills?” Hu Haoran asked.

Lu Yang said, “Divine skill, a magic skill that can make you the top master in the service.”

The curiosity of Hu Haoran and others was hung up, staring at Lu Yang gazed at.

Lu Yang smiled instead of looking at their small eyes, and threw them a group of camouflage coats. He disguised himself as a fox player, put on a raptor mount, and ran towards the front.

“The boss is so appetizing.” Lu Xiaofei, wearing glasses, quickly put on his mount and ran after him.

Hu Haoran also Che Ning waited for Liu Chang and their three daughters to change their mounts and ran to Lu Yang.

A group of people quickly walked through the map between level 10 and level 70 and reached the Atonement Canyon on level 80 map.

Hu Haoran looked at the 80-level elite T-Rex around him and said, “Boss, I’m only 60. Isn’t it too reluctant to kill these monsters?”

Tyrannosaurus Rex (Elite)

Rank 80

Qi and blood 20000000/20000000

Each Tyrannosaurus Rex is over 6 meters tall, and its long huge mouths are full of fangs. The eyes are more cunning with a fierce look. When they see small animals running around, they suddenly bow and bite , Chewed twice, swallowed.

Liu Chang and other little ones were hiding 30 meters away. Seeing this picture, they couldn’t help but take two steps back.

“Brother, how do you fight this?” Liu Chang asked.

Lu Yang looked at Hu Haoran and asked, “Did you ever drink?”

Hu Haoran and 10 other guys shook their heads together.

Lu Yang took the special spirits from the seaside bar of Haihuangcheng from his backpack and said, "Drink this and feel the taste of the wine."

"Brother, it's no use drinking at this time, I still can't beat it." Hu Haoran said.

Lu Yang smiled and said, "This wine can let you see the enemy's level down by 20 levels. After drinking this, summon these Tyrannosaurus Rexes and become your summoning beast."

"Ah? And this good thing?" Hu Haoran said in surprise.

Lu Yang said, "Who am I? Can I have good things around me, hold them, and summon them after drinking."

"Um." The ten little guys nodded in excitement, drank their special spirits, and crooked towards the Tyrannosaurus.

Soon, 10 people summoned 100 Tyrannosaurus Rex and returned to Lu Yang.

Hu Haoran woke up with wine and said, "Brother, this wine is too strong."

"However, it tastes good." Lu Xiaofei said.

Lu Yang smiled and said, "Don't drink alcohol, wait for you to get older. When you want to drink, my brother invites you to drink."

"You said, let's fix it." Lu Xiaofei said.

Lu Yang leaned on his shoulder and said, "When my brother's words are always calculated, let's go, change to another place and take you to play special skills."

“Brother, what are our special skills, please tell us.” Che Ning said.

Lu Yang said, “Okay, just to explain to you this way, how to fight monsters later.”

The rare class of Hu Haoran and Che Ning is called Beastmaster. This is a branch of Shaman. Other shamans mainly attack with spells, only they attack with creatures they summon.

Generally speaking, they can only summon elite monsters and ordinary monsters below the boss, but there is a kind of equipment that can improve their skill level. After upgrading, they can summon boss monsters.

To get to this equipment, you must enter the Temple of Hertas and kill a monster called the Dark Demon.

This monster is very difficult to kill. They are elite monsters of level 60. They have a high IQ. Once they find that the opponent wants to hit them with spells, they will actively avoid the skills.

Even if it is range magic, they will do large jump avoidance. While jumping, they can also release dark rays with one eye to attack the player. When they are dying, they will escape.

Unless it is a super guild, tens of thousands of people are dispatched to divide and surround the Temple of Hertas before they can be killed by these dark demon.

“So powerful, how can we kill.” Liu Chang asked.

Lu Yang asked, “Have you seen your Tyrannosaurus Rex?”

Che Ning said, “I saw. He has a skill called Devour, which explains that he can devour any monsters until he kills the opponent.”

Lu Yang said, "Yes, Tyrannosaurus Rex can be swallowed except bosses. You will use this for a while to eat 100 Dark Demon at a time."

"Great." Liu Chang said happily.

Lu Yang was infected by the little guy and also smiled. Looking at them was like seeing his high school time. It was a wonderful time.

Eleven people walked all the way and talked. Inadvertently, time passed more than an hour, and Lu Yang took them to the gate of the Temple of Hertos.

Two dark demons are standing guard at the door.

Dark Demon (Elite)

Rank 60

Qi and blood 100000/100000

"So little blood," Tao Mengmeng said.

"Yeah, no one came to fight?" Lu Xiaofei said.

Lu Yang said "a potential law in the game, players have attribute points, there are also strange, these strange blood is small, prove that they are strong in other aspects, such as attack, resistance and agility."

Hu Haoran and Che Ning nodded to be taught.

Liu Chang said, "What if you can run again, watch me eat them in one bite, Tyrannosaurus, come on."

Ten Tyrannosaurus rex summoned by Liu Chang, staring at the dark demon in front of them, rushed forward, before waiting, the dark demon sent out dark rays.

“30000”

“30000”

...

After three consecutive attacks, the two Tyrannosaurus rexes were half-blooded. When they approached, they were about to devour, and the dark demon jumped up and escaped at twice the speed of Tyrannosaurus rex.

“Brother, I can’t bite.” Liu Chang said with a look of disappointment at Lu Yang.

Lu Yang smiled and said, “Look at me.”

A light flashed, and Lu Yang jumped instantly to the middle of the two dark demon.

“Yan Yang Suo”

A chain appeared, and the two dark demons were trapped in place.

“Eat.” Lu Yang said.

Liu Chang’s eyes brightened and he shouted, “The dragons rushed and ate these two baddies.”

Two Tyrannosaurus rushed forward, opened their mouths and devoured the dark demon into their stomach.

“What then?” Che Ning asked.

Lu Yang said, “Continue to catch, catch 100 first.”

“Brother, we have no control skills.” Hu Haoran said.

Lu Yang said, “I have it, look at it.”

A flame of light surrounded Lu Yang, and he became a 5-meter-high flame demon. Originally, Hu Haoran’s cat was only 1.5 meters tall. Ten little guys could only look up at Lu Yang now.

“It’s so high,” Tao Mengmeng said.

Lu Yang looked down and looked at them and said, “Follow me, I’ll take control. You are responsible for eating.”

“Okay,” the 10 guys shouted together.

Lu Yang led them into the gate. This is a square palace, and there are many torches on each pillar to illuminate the area.

The palace is very large. It is about 2,000 meters wide on the left and right sides. There is no end in front. There are dark demon everywhere in the palace.

“flicker”

Lu Yang jumped in front of the 10 dark demon in the middle.

“Yan Yang Suo”

The surrounding dark demon was trapped by Lu Yang without waiting for an attack.

“Let’s eat it,” Lu Yang snapped and said.

“Oh,” Hu Haoran ordered his 10 Tyrannosaurus rexes to Lu Yang and devoured 10 dark monsters.

Lu Yang continued to move forward, and after finding a group of dark demon, he jumped in front of them with the escape dagger.

“Yan Yang Suo”

...

There are many dark monsters in this group. Lu Yang used the Yanyang cable three times to get stuck. In the state of the flame demon, Luyang’s Yanyang cable has no cooling time and can be used casually.

Liu Chang, Che Ning, and Tao Mengmeng ordered their Tyrannosaurus rushed up. Tao Mengmeng was a little afraid of mistakes, and his face was full of worried expressions.

Lu Yang said, “Don’t be afraid. I can control for 12 seconds. I don’t have enough time. Then I will control it to give you enough time.”

“Thank you brother.” Tao Mengmeng smiled.

Lu Yang smiled and waited for them to finish their engulfing, and moved on. Soon, 100 Tyrannosaurus Rexes devoured the Dark Demon.

The speed of engulfing is 1000 damage per second. It only takes 100 seconds to kill a dark demon. As soon as 100 are caught here, Tyrannosaurus Rex will be consumed.

“Hello ~!”

Two Tyrannosaurus rex opened their mouths and each spit out a 88 explosion.

Lu Yang searched on the ground and found a totem full of gorgeous colors.

Rule of Totem (fragment 39)

Rank 0

Describe him to make your summoning skills stronger.

“Brother, is this it?” Hu Haoran asked.

Lu Yang said, “That’s it, let’s go ahead and kill me inside.”

“Oh.”

The totem of the rule totem requires 99 pieces, and the rule of totem requires 4 to form one. In fact, it needs to play nearly 400 pieces.

Lu Yang took them along the central axis of the main hall, and went deep into the depths. They were swallowed up by Tyrannosaurus Rex, and Lu Yang didn’t need to worry that he could not control him but was suddenly attracted by these mobs.

Soon they came to the center of the hall, where there was a place similar to the altar.

“It’s so hard to fight, only two fragments came out.” Lu Xiaofei said.

Hu Haoran asked, “Brother, why don’t we kill the monsters on both sides?”

Lu Yang pointed at a huge purple spherical monster in front of him and said, "My purpose is him."

Dark Demon Emperor (Lord)

Rank 60

Qi 30000000/30000000

The Dark Demon Emperor has no feet Only the tentacles are waving in the sky, the body is 30 meters in diameter, and there are hundreds of tentacles.

"So much blood, we can't fight it." Che Ning asked.

Lu Yang said, "Look at me, a few of you stepped back to the door. I didn't say anything, don't come in."

"Why." Tao Mengmeng asked.

Lu Yang said, "I want to put a forbidden spell. We are not of a race. With my magic, you can't carry it for 1 second."

"Er." Tao Mengmeng said, "Let's go to the door."

Hu Haoran and others nodded in awe, ran to the door together.

Chapter 917 - King of Light Box

Lu Yang waited in situ, watching them run back to the entrance, feeling that the length was 1,000 meters away, and he chanted a spell.

"Why does the flame exist, destruction ..."

As the spell in his mouth was read, the clouds over the temple were overcast, and the dark demon inside the temple made a restless, restless noise, and the dark demon's tentacles waved more quickly.

Thirty seconds later, the spell in Lu Yang's mouth was completed, and the tip of the wrecker's staff gave out a pure white light.

"The flames burn out"

A huge skull with a diameter of 2,000 yards, slowly rising from his feet with Lu Yang as the center. Only for a moment, the roar and screams in the temple filled everyone's ears, as if there were 10,000 dark demons at the same time. It's so barking that it's harsh.

Hu Haoran and Che Ning couldn't help covering their ears with their hands and lowered their heads, but Hu Haoran quickly raised his head. He looked at Lu Yang curiously, and he wanted to know what Lu Yang was doing now.

In the distance, Lu Yang stood at the center of the temple. He stepped on the flame chariot without any change. His eyes were facing straight ahead, his right hand was still holding the staff, and his body was straight.

"It's amazing." Hu Haoran said.

Che Ning saw Hu Haoran looking up, and he also looked up, seeing Lu Yang's look, his face also showed a surprised look.

"How did he do it?" Hu Haoran said.

Che Ning shook her head and said, "It's too harsh, I can't stand it."

Liu Chang said, "It's mainly because the heart can't stand it, it's too scary."

Lu Xiaofei said: "I don't know how he did it. You first look at the strange in the temple. It looks like it has been stopped by Brother Lu Yang for a second."

Hu Haoran and Che Ning looked around, only to discover that the dark demon, originally full of a large hall, was dead, and everywhere were explosive objects.

"So high damage." Hu Haoran said.

"Looking ahead, Brother and the Dark Demon King fought." Che Ning said.

The center of the temple.

Lu Yangzheng and the Dark Demon Emperor attacked. He released a lava eruption at the feet of the Dark Demon Emperor. Then he avoided the tentacle attack and released the fire dragon technique. When he evacuated, he also released a burning heart flame.

"2812600"

"The damage is so high," Che Ning said.

The total blood volume of the Dark Demon Emperor was only 30 million. When Lu Yang released Blazing Heart Flame for the second time, he would not be able to deal so much damage, because Blazing Heart Flame could only kill up to 10% of the current Qi and Blood.

After 10 minutes, the Dark Demon Emperor's body collapsed to the ground like a flat ball.

System prompt: You killed the Dark Lord

With a smile on his mouth, Lu Yang turned back to Hu Haoran and shouted, "Come in, pick up equipment."

“Oh, here we are.” Ten little guys ran into the temple excitedly, picking up fragments around.

The forbidden spell released by Lu Yang this time killed all the monsters in the temple. He didn't feel very strange. He used to do this in the last life.

With the heart of the demon god, he often releases the forbidden spell and drops a map monster when he takes the trumpet, allowing his men to quickly upgrade.

Soon, Hu Haoran picked up all the equipment and came to Lu Yang.

“Brother, I have four totems together.” Liu Chang said.

The totem looks like a thin wooden stick and looks bland.

Lu Yang said, “Please wait for me.”

He meditated on the spell and flew back to the demon space, placing the four totems together on the altar.

System prompt: whether to choose synthesis

The point of Lu Yang was that a flash of light flashed, and the four totems on the altar became a rule totem.

Law Totem

Level: 0

Description: Everyone who holds the Totem of Laws is blessed by the wild shaman, and your summoning ability becomes more powerful.

Lu Yang returned to the Dark Demon Temple, handed the totem to Hu Haoran, and said, "It's done."

"Is there only one?" Hu Haoran asked.

Lu Yang said, "One is enough. Follow me to the next place."

As long as the summoned monster is summoned by the player, it will not betray under any circumstances, so a rule totem can let them use it instead.

On the way, Lu Yang took them on the road and led them into the 80-level map of the Fox clan near the mountain. In the fear of Hu Haoran's fear, they came to a tribe.

System prompt: You have found Earthguard Camp

"What is this place?" Hu Haoran asked.

Lu Yang said, "This is the best upgrade place before the second world level 100, and it is also the place where the most rare equipment and items are produced."

The Earth Guardian Camp, like the Red Devils advancers in Hongsha Town, are pioneer camps facing alien species.

"What people?" Two Fox mages came over.

Lu Yang was in the shape of a fox at this time, saying, "We are passing adventurers."

"Your level is too low, don't come here to make trouble." The Fox Master said with a cold face.

Lu Yang spread his hands and walked along the wall of the town, and continued to go deep. Hu Haoran followed them. After a while, they saw a giant monster like a house in front. Squid-like, dark brown appearance, countless whiskers dangled from his head.

Klevi Lightbox King Boss

Level: 80

Qi and blood: 100000000/100000000

“Are we going to catch him?” Hu Haoran asked.

Lu Yang said, “Yes, it was him who caught him, holding the special spirits, one by one, all caught 10.

“Oh.” Ten little guys started from Hu Haoran and summoned the Lightbox King Worm using the rule of totems. This thing was very easy to recruit, and soon they recruited 100.

Liu Chang slowly raised his head and looked at the 100 light box king worms above his head, covering the entire sky.

“Brother, what do we call this for?” Liu Chang asked.

“So disgusting.” Tao Mengmeng said.

Lu Yang said: “Don’t look at them disgusting, but they are the top-level summoning beasts that can be summoned within level 100.”

This is not what Lu Yang messed up, but it was recognized by the players of the last generation. The Lightbox King Worm is actually an enhanced version of the Flesh Mother Worm. His attack method is to lay eggs, and the eggs he lays are not related to him. Can deal 10,000 Chaos damage.

In the previous generation, Haoran Studio accidentally got a rule totem, and summoned the light box king worm, and then they launched the orc slaughter city plan.

Even killing 3 main cities, all the players of the persecuted Orcs did not dare to rest in the safe area, and could only spend money to enter the hotel to rest.

In this life, so far no one knows the power of the King of Light Boxes, and no one knows Haoran Studio. Lu Yang is going to vote for the orcs.

Hu Haoran After they explained by Lu Yang, they quickly understood what Lu Yang was going to do. The 10 little guys were all excited.

“I want to slaughter the city, and get rich now.” Hu Haoran said.

Lu Yang said: “One thing you have to keep in mind is that you must not tell anyone about the slaughter of the city. Otherwise, you will be endlessly hunted down.”

“Rest assured, we will never disclose it to the outside world.” Hu Haoran said.

Liu Chang and Che Ning nodded.

“Are we going to slaughter the city tonight?” Liu Chang asked.

Lu Yang shook his head and said, “You think Tucheng is too simple. Brother has done this and has to do a lot of preparation.”

“How?” Tao Mengmeng asked.

Lu Yang asked with a smile: “Do you know which main city of the Orcs has the richest money?”

10 little guys shaking their heads together.

“Do you know how much equipment will be dropped in the future and how many storage bags will be needed?” Lu Yang asked.

The 10 little guys shook their heads again.

Lu Yang asked again: “Do you ever think about how to pick up explosive equipment, just go so brazen?”

10 little guys shook their heads for the third time.

Lu Yang smiled and said, “Do you still have time, the target group, and the future location of stolen goods?”

Che Ning said with a deep face: “It turned out that the slaughter of the city was also a profound problem.”

Lu Yang laughed and said, “Go back to bed now, go online at 12 pm, and leave everything else to me.”

“Okay.” Hu Haoran nodded quickly and flew back to the main city to go off to sleep.

Lu Yang flew back to Sirius Fortress with a teleportation scepter. In the fortress hall, he called Tu Feng and asked, “Which main city does Tian Yao’s main group rest in?”

Tu Feng said, “Beimon City, almost one-third of the experts are in Bemont City.”

Lu Yang said with a smile: “There is a good thing tonight, you can’t participate.”

“What a good thing?” Tu Feng asked with a smile.

Lu Yang said, “I’ll sell a little bit first, and wait for me to gather everyone together.”

He opened a special space and poured all the players above the army commander, including Xia Yuwei, Xia Yuwei, Bai Xixiong, and half a bitter life, into the special space.

The light flashed and almost everyone immediately chose to enter.

“Well, so many people.” Zhou Tianyan found that the office was full of people.

“Boss, what happened?” The White Lion asked.

Lu Yang said: “Good thing, you all need to participate.”

“What’s the matter?” Asked Zhuoju.

Lu Yang said: “I recruited an enhanced version of the Flesh Mother Summoner Squad in the Orcs. They have the ability to slaughter the city. I plan to slaughter the city of Beamon in Tianyao tonight.”

“What?” Xia Yuwei, the White Lion and others were holding back.

“Boss, really fake?” Asked bitter love for a long time.

Lu Yang said: “Of course it is true. You haven’t seen that this team of 10 people can summon a light box king worm at level 80. The eggs laid are 10,000 Chaos damage. They summoned 100 light box king worms. A sudden attack occurred in the middle of the night. “

He clicked on the map of Beamon City and said, “All the treasures in this main city are ours.”

Looking at the huge icon of King Beamon, they can already imagine how rich the treasure is in this main city.

Tu Feng said, "I'll prepare storage bags. 5000 is enough."

"It's enough," Lu Yang said.

"I transferred the Holy Sword Legion and asked them to participate in this project." Lan Yu said.

"There is also a mage." Hei Yan said.

Lu Yang said: "I go to the server to buy a number, as long as a 10-level trumpet, ready brothers, it is time to get rich."

Shooting Sirius said: "I'm going to inquire about the specific situation of Beamon City."

"After changing the account, I'll add you, wait for me, let's go together." Lu Yang exited the game with a smile. It was his happiest thing to be able to pit Tianyao.

Chapter 918 - Ambition of King Beamon

Generally speaking, there are players wandering around the city in the middle of the night. Although the number is small, it is not absent.

In this way, if you want to slaughter the equipment, you need to compete with these people, which requires an orc account.

In the auction house, Lu Yang found nearly 200 grades in the Bimen City trumpet at level 30 or so. The price of each one did not even reach 30 silver coins. He bought them at will and sent these accounts to Xia Yuwei and White lion them there.

Then, Lu Yang himself used a 30-level trumpet to enter the beast city of Beamon. Not long after, Xia Yuwei, White Lion, and Mufeng were all online, with a total of more than 200 people.

“This is Beamon.”

“It’s grand.”

“Look at that castle, so tall.”

...

A group of people pointed around and looked around, making the surrounding players scorn.

Lu Yang said: “Restraint, now I will take the group a1 to the east, a2 to the west, a3 to the south, a4 to the north, and the rest of the group to hang out.”

The crowd nodded and dispersed.

When they just bought their account, Lu Yang divided them into groups. A1 is Xia Yuwei and Lan Yu, White Lion and Sun Yu.

a2 is the team of Mudou and bitter half-life with Zhuojiu. The other two groups are led by Zhou Tianming and Jiang Ze. They are usually responsible for the team.

The city of Beamon is very large. In fact, it is not inferior to a medium-sized city. It takes a long time to get this place fully and thoroughly.

When he first arrived in the east of the city, Lu Yang let the crowd spread out to find each other. He only brought four people: Lan Yu, Xia Yuwei, Sun Yu, Zhang Zibo, and Xiao Liang.

“There are so many people selling things in Mongolia.” Lan Yu said in surprise.

This street is much more prosperous than the human race and sells more things, many of which are top-level treasures, such as time and space gems, escape daggers, dice of fate, etc., everyone who looks at them is excited.

“It is indeed the city of King Beamon. Tianyao’s base camp is different.” Lu Yang said, he was also attracted by this variety of equipment.

Lu Yang came to a booth and pointed at the time-space gem, “How much is this?”

“30 gold coins,” said the owner.

With an incredible expression on Lu Yang’s face, he said, “9000 yuan? Although this gem is good, he is not worth so much money.”

The market price is only 10 gold coins, which is three times more expensive.

The shopkeeper said unwillingly: “Why isn’t it worth it? You go to the market and ask, now who sells time-space gems is not the price.”

Lu Yang couldn’t help frowning. He asked, “Is the price in your street already unified?”

The shop owner knew he was guilty and glared at Lu Yang and stopped speaking.

Lu Yang’s expression became dignified, and his face went awkwardly.

“Brother, what’s wrong?” Lan Yu asked.

Lu Yang scolded angrily: “Tianyao is a bastard. He started using this game to make money he shouldn’t have made.”

Xia Yuwei asked: "What do you mean? What did you find?"

Lu Yang said, "Tianyao unified the 15 orc main cities and occupied most of the known treasure refreshing points. Now he has started to monopolize the orc market, raising the space-time gem originally worth 10 gold coins to 30. A gold coin, conscience. "

Xia Yuwei frowned, and said, "If he does, it would be too moral."

Lu Yang leaned on the corner and looked back at the streets on both sides. "Let 's go on like this, when the national war begins, the orcs will be abolished, all the money will be let Tianyao earn, and all the other players are poor. No, in the face of attacks from foreign players, Orc players can't resist it. "

The orcs faced the sea. After the national costume was opened, they faced the South Asian country across the sea.

"What does Tian Yao think? He should not be such a person." Xia Yuwei said.

On the outside, Tian Yao's image is very good, warm, bold, and upright. These are his tags. But when he comes to the Orc to see what he does, Lu Yang can only sigh, this kid is a real bastard.

"This kind of thing can't be concealed at all. It won't be long before players will find that the prices of human races and elf races are much cheaper than them. At that time, Tianyao will be finished." Xiao Liang asked curiously.

Lu Yang said: "No, why did Tianyao come forward? It 's other players who sell things. You can only blame other players. Tianyao? He just masters the place where the raw materials are produced. That's it. "

Lan Yu said: "That's right in the book, the monopoly is really a huge profit. Such gems are sold for three times the price and replaced with other better treasures. I don't know how many times he will sell them."

Lu Yang said with a smile: "I will not be polite to him tonight, I will charge him as much as he sells."

Everyone laughed.

Suddenly, a familiar voice came from a distance. "Go this way, this way, be careful."

Lu Yangmeng frowned and signaled everyone to be invisible. He also used invisibility. When he bought an account, he chose the thief profession. Although he was only a 30-level trumpet, he only needed to hide in the dark area of the corner. You can't see it unless you observe it intentionally.

Soon, the footsteps approached, and a group of shamans appeared in front of Lu Yang. When he saw the opposite, Lu Yang's face smiled.

The visitor was not someone else. It was the three bosses of the original **** legion, Mu Huali, Zhebei and Fenglin Mountain Fire.

Last year's two wars, Lu Yang completely defeated the **** legion. The three Mu Huali refused to lose and kept clamoring to make a comeback. However, as Liu Jie moved to the elves, Luo Cheng retired from the orcs. Support for big cuts.

Today, they are long gone, and without special equipment support, they have become a quasi-first-class team, not too far away from the second-class.

The latest thing I heard about them was still mentioned by Tu Feng at the night meeting. They were sent by Liu Jie to the Elves to cooperate with Luo Cheng to destroy their opponents. However, this group of people likes killing and grabbing the equipment too much, although they helped lay the fort. However, many guilds in the later period joined forces to find their troubles.

Liu Jiegang unified the elves and is about to look like it. The way the **** legion has dealt a blow to the prestige he just erected and can't stand it, Liu Jie throws them back to the orcs, nominally, they upgrade in peace. In fact, it continues to make trouble.

Of course, this trouble is not allowed to confront the Tianyao guild, just to kill other players of the orcs.

“This camouflage coat is really good. We are all red names and can still enter the city. Jie Shaozhen has made us a lot of good things.” Zhebie said.

“Huh, it’s just using us. I don’t want to use it and just throw it aside, and say that the orcs are the vast space suitable for our development. It’s just nonsense. Wait, I’ll get him a big one sooner or later.” Lin Shanhua said.

Mu Huali said: “You can have this in mind, don’t tell it, and quickly resupply, it is best to buy one or two pieces of good equipment. After we change it, we will continue to go to the jade guild. Today is not It is impossible to kill them. “

Zhebei noble wind forest fire each nodded, using a camouflage coat to become the look of an ordinary orc player, went straight into the market.

Lu Yang showed his figure from the dark corner, with a sneer on his face, and said, “I was worried that I couldn’t find a way to plant a spoil and marry Liu Jie, and he sent it to me.”

Xia Yuwei asked, “What are you going to do?”

Lu Yang sneered and said, “I just recorded the picture of them chatting. After the sneak attack tonight, I posted it to the forum.”

“Good idea,” Xia Yuwei said.

Lu Yang smiled, took them back to the market, followed the three of Mu Huali, waited for their supplies to end, left the main city, and Lu Yang returned to their appointed meeting place.

The remaining three groups have returned. Zheng and Tu Feng drew a map on the desktop. Lu Yang said what they saw. In the end, a complete map of Beamon City’s key business districts was formed.

“Brother, we are online.” Hu Haoran called Lu Yang’s mobile phone.

Lu Yang looked at the time and just arrived at 11pm, and asked with a smile: "Why did you go online so early?"

"I can't sleep, I'm so excited." Liu Chang grabbed.

Lu Yang said with a smile: "I just built a trumpet, I add you."

He added Hu Haoran and 10 of them with a trumpet, and then flew to Sirius City, and at the fortress outside the city, traded a scepter and a goblin robot from his account to the trumpet.

When everything was ready, he came to the main city of the Fox clan and spent 10 people flying to the city of Beamon.

In the tallest hotel in the center of the city, Lu Yang took 10 of them to see Zhuoji Qingren and Xia Yuwei and others, but he didn't tell Hu Haoran their names, but just gave their names.

"Brother, you have so many people?" Hu Haoran asked.

Lu Yang said: "You can rest assured that they are absolutely credible people, they are responsible for quickly picking up equipment, and someone specifically tells you where to attack."

Tu Feng opened the map he had marked and said, "All places suitable for attack are here, and in the middle of the night, it is time for us to attack."

"Too professional." Hu Haoran said excitedly.

Ten little guys looked at the map and observed the actual terrain. A group of people thought about it until midnight. At this time, most of the players were ready to go offline to rest, and many players who upgraded outside the city also returned to the main city.

Lu Yang said: "Group 1-4, go out and observe the situation."

“Yes.” Almost 200 people ran out, and after an hour, they ran back.

“More than 90% of District 1 has rested District has rested.”

...

“30% of people in District 11 are trading.”

District 11 is the Chengnan Trade Zone and is Lu Yang’s main attack target. If he has not rested here, he cannot launch an attack.

“Let’s wait again,” Lu Yang said.

Zhuoju poured out, “Boss, I found something wrong. You have to go with me in person.”

“What’s wrong?” Lu Yang asked.

Zhuo Jiu said, “I just saw that the 12 main teams of Tianyao returned to the north security zone to rest and did not enter the hotel.”

Chapter 919 - Locust crossing

Lu Luyang’s face exulted and said, “Take me to see.”

The turbid wine nodded, and led the landing sun to the north security zone, just to see a large number of players are resting in an orderly security zone in an orderly manner, and each of them has the badge of the Tianyao Guild.

“Stop, this is a fixed rest area of the eternal glory guild, not the guild players please leave.” A group of players stopped Lu Yang who was going inside.

“Oh, okay.” Lu Yang stopped, turned around and came to a hotel next to the safe zone. On the third floor, he found a window position. Looking out of the window, he could see more clearly from the height.

“A square can accommodate 10,000 people, and they occupy 18 squares, which is 180,000 people.” Lu Yang said.

Wu Zhuojiu said: “Boss, look at their equipment. Half of them are level 70 players. I suspect Tianya specially cultivated it.”

Lu Luyang said: “I saw their legion leader, which is extravagant. The upgraded escape dagger is in my hand, and the head of the ancient animal is on my body.”

玩家 A distant voice came from a player.

“Speed off the line, tomorrow morning equipment to go, don’t delay time, remember, 8 o’clock tomorrow morning, online on time, hear no.” A lion player shouted.

Lu Yang knows this person, he is proud, just one word, single name one proud character, the name of this person can see how crazy he is, in fact he is also a very proud person, but he has Proud capital.

Last year in the world PK competition, Ao ranked 11th in the national service. If it is not too strong on Lu Yang’s side, his position is fully qualified to enter the top ten.

Actually, there is a big reason why he lost the game. In his profession, he is a warrior player and is not suitable for PK battles.

“This player is all a baby,” said Zhujiu.

Lu Luyang said, "Look if he can rest here."

What a pity, Lu Yang was disappointed. After finishing speaking, Ao took the players above their heads and entered the hotel, leaving only the remaining ordinary players.

"Let them be lucky," said Zhujiu.

Lu Luyang said: "Enough, this group is obviously going to war. We ambush them tonight, enough to delay them for a long time."

人 These are just like other players who specially arranged for the 60-level excellent copy to be used by other players.

Xia Yuwei sent a message and said: "It is possible to launch an attack. The total number of players in the trade zone at this time is less than 200."

Lu Luyang's eyes lightened and he said, "Wait for me to go back."

He immediately returned to the hotel with the turbid wine and others, and saw that everyone was ready, saying, "Go to Zone 11 first, remember that when you pick up your equipment, you will pick up valuable ones first. Don't pick it up, you know? "

"Yes." The group of people followed Lu Yang with a smile and came to District 11, Chengdong Trade Street. At this time, all the players on the street were selling goods on-hook.

"So big." Liu Chang said.

Trade Street has a width of 80 meters. The 18 rows of stalls can't be seen at a glance. The number of players who hang up the stalls is uncountable. The things they sell are all treasures.

Lu Luyang said, "Get started."

“This is it?” Hu Haoran asked excitedly.

Lu Luyang said, “Of course, summon the King of Lightboxes and blow up this street, and give you 10 minutes. After 10 minutes, there are no living people on this street.”

“Yes.” Hu Haoran and other 10 little guys were so excited by Lu Yang’s words that all of them turned red.

“The king of light boxes, come out,” Hu Haoran shouted.

There was a space disorder above the hoe’s head, and ten giant light box king worms appeared out of thin air. At the same time, Che Ning, Liu Chang and others summoned together. For a moment, Xia Yuwei saw that the overhead sky was covered by the king of light boxes.

“This momentum is scary enough,” said White Wolf.

Hu Haoran glanced at him proudly and said, “Look at us.”

个人 10 people ordered 100 lightbox king worms to line up in a row, including exactly 80 meters wide trade street.

“Lord of the Lightbox, go forward.” 10 people said together.

100 lightbox king worms flew straight into Trade Street when they came to the first shop.

“Insect Egg Attack”

100 king of light box worms, and cast 100 white worm eggs at the same time.

“Boom”

The maggot eggs exploded, and numerous dark green liquid splashed onto the merchants' bodies, causing them a fixed 10,000 points of damage.

The bug egg's attack range is 50 yards. The insect eggs dropped by 100 light box king insects are all overlapping attacks. Almost every merchant has been damaged by the splash of 10 bug eggs. Only for a moment, the street sellers are like this Was killed.

A large number of storage bags fell to the ground, and Lu Yang's eyes were green.

“Don't go picking it up. It will be dead when you enter the attack range. Hold back and let the king insect continue to attack.” Lu Yang said.

“Hmm.” Hu Haoran continued to issue orders, like 100 empty worms, while walking forward side by side and dropping bombs.

The entire block is like a large bombardment. All the underneath of the king insects are bombed into ruins by eggs.

Looking at each store as a storage bag on the ground, Lu Yang said excitedly, “Go up, pick up the equipment, take the storage bag first.”

“Yes.” Nearly 200 people rushed up like locusts, desperately picking up equipment on the ground.

There were originally sporadic players on the street watching goods, and many players who sold goods did not sleep. Suddenly encountered this situation, their first reaction was the monster slaughtering the city, and the second reaction was getting rich.

But when they were about to grab the equipment, they found that a group of people were desperately picking up equipment on the ground.

“I rub it, leave some points for Lao Tzu.” The people around him rushed forward, and they habitually raised their weapons in the running process.

This series of operations, such as killing, robbing monsters, and winning treasure, is a habitual action that every player does not need to learn to learn, but here they find it.

“Meow me, this is a safe zone, you animals, slow your hands.” When they found that they couldn’t kill people in the safe zone, they could only follow suit depressed.

Luyang, they have nearly 200 people full of this block sideways, unless you are in front of them, but the position less than 10 cm in front is the attack range of the light box king worm.

I had the courage to cross Lu Yang and their group of people rushed into the attack range. Before they ran out, they were blown to death and dropped their equipment.

Although these players were killed, they immediately chose to resurrect, ran over and continued to grab equipment, and no one posted the incident online.

Obviously, the fewer people who know such a good thing, the better!

100 lightbox king worms quickly leveled Chengdong Trade Street, and Lu Yang each picked up a dozen items in storage bags.

“Save in the safe, we go to area 23.” Lu Yang said.

The crowd nodded, and Hu Haoran put away the King of Lightboxes, and the whole block returned to peace. If the players and shopkeepers of the entire block were lying on the ground and the equipment on the floor, no one thought that the King of Lightboxes had ever come .

The location of the storage equipment was in a dwelling house temporarily purchased by Lu Yang. After saving their good things, Lu Yang arrived in Area 23, which is the rest area of Tianyao’s 180,000 elite players.

“Blow up all the people in these 18 squares.” Lu Yang said.

“No problem.” Hu Haoran and others summoned the King of Lightboxes and started throwing eggs one by one. Within 20 minutes, 180,000 people were killed and all equipment was dropped.

“Boss, their backpacks are all 70-level gold equipment.” Tu Feng said.

Lu Luyang also found this problem and said: “I guessed it right, I picked it all up, and I found a chance to sell it to Liu Jie.”

“噗~!” Everyone laughed.

“Boss you are too bad.” Xia Yuwei said.

Lu Lu proudly said, “I don’t pit him, wouldn’t it be too cheap for him?”

Everyone continued to pick up the equipment. In less than an hour, all the equipment was picked up. Because this is a rest area set by Tianyao, there are no other players around. Ao has also set the time for offline and online, so that Lu Yang killed everyone, but none found it.

After Luyang picked up his equipment, he returned to the temporary storage site and said, “The next stop is the Chengnan Trade Zone.”

“Um.” The crowd nodded.

The news of the slaughter of Tancheng East Trade Street has not yet spread. When they arrived in the south of Luyang, they were still full of businesses.

“Get started,” Lu Yang said.

“Okay.” Hu Haoran smiled proudly and took Che Ning to summon the King of the Lightbox King to continue the slaughter. Lu Yang followed them and continued to pick things up.

The other side.

I just finished the meeting Tian Yao, who was about to take a rest, frowned and said, “Why am I uneasy today? I always feel like something is going to happen.”

Vice President Wu said, “How is it possible that neither Lu Yang nor Liu Jie have anything, or that the reactionary organizations of the Orcs have our spies, you must have been too tired recently.”

“It is also possible,” Tian Yao said.

“Let’s go and sleep well. There are still many things to do tomorrow. Don’t get tired.” The vice chairman said jokingly.

“How is it possible that I am in good health.” Tian Yao exited the game proudly.

Xi Tufeng was picking up equipment, and suddenly he looked up and said, “Tianyao is offline.”

“Hey, it looks like he didn’t know about this at all.” Said bitter love for a long time.

Lu Yang smiled and said, “Continue, rare opportunity.”

The crowd nodded with a smile, and continued to grab. Lu Yang and Hu Haoran killed them from Zone 1 to Zone 35 all night. He blew up every place where he did business. The only pity was the main one. The safe area cannot pass, there are more guards there.

5 o’clock in the morning.

Lu Yang and Hu Haoran didn't have any sleepiness. More than 200 people gathered in the cottage that Lu Yang bought temporarily, and began to check the harvest.

Chapter 920 - Two billion worth of harvest

Chapter 920 of the Rebirth of the Raging Fire: The 2 billion-worth harvest "Escape daggers, 133."

"Space-time gems, 1186."

"Ancient beast heads, 866."

"Amulets of Time and Space, 17."

"Flame Seal, three."

...

According to some statistics, it did not end until the next morning. Finally, Tu Feng initially calculated and said to Lu Yang: "Boss, if discounted at the market price, these things are worth more than 2 billion credit points."

"So much." Everyone was amazed.

"But among these things, the most valuable ones can't be seen. Let Tianyao and the Orc players know that they have to play with us." Tu Feng said.

Everyone laughed.

Lu Yang said, "Get here first tonight and leave these things to me."

He gave Tu Feng a wink, and Tu Feng understood it and motioned for the Iron Brother Brothers to go offline.

Hu Haoran waited for 10 little guys to stare blankly at them and asked, "Brother, why are you all gone?"

Lu Yang smiled and took out the electronic bank cards that had been prepared from his backpack. A total of 10 cards were handed to them. This reward. "

"So much." Liu Chang said.

Hu Haoran said, "Brother, we are already members of your guild. This time we can slaughter the city, our role is not great. Is this money too much?"

Lu Yang said: "The Brotherhood of Iron Blood has a perfect reward mechanism, which you deserve."

Hu Haoran learned that they had a perfect reward system, so they accepted the bank card.

"Thank you, brother." The ten little ones said excitedly.

Lu Yang said, "Don't thank him too early, you won't be able to get the money for a while."

"what?"

Lu Yang said, "What will you do with the money?"

"Buy delicious."

"buying clothes."

"Buy sneakers."

...

Lu Yang laughed and said, "What do your parents ask about where the money comes from?"

"Uh ..." Ten people were awkwardly thinking.

"It doesn't seem to make sense," Hu Haoran said.

Lu Yang said, "So you can't use this money at the moment, and I do n't dare give it to you. If it is discovered by outsiders, so many people in the national costume play orcs, in case your school is in Beamon City Players, you are not afraid of knocking you sap behind them. "

Lu Xiaofei nodded deeply, saying, "It's not a sap, it's been beaten by countless people."

Lu Yang said with a smile: "So, you must keep this matter absolutely confidential. The time deposit I deposit for you is 5 years. After 5 years, you will be a junior and ready to start a business or study abroad. Money is your startup fund. "

"Thank you, Brother." Hu Haoran said.

"Let 's also take a break off the assembly line. There are no tasks today during the day, and I will arrange tasks for you when I rest at night." Lu Yang said.

"Okay." Hu Haoran and they are all offline. Several little guys are in an excited state. No one can sleep. They all go to the bank counter to check their electronic bank card. They find that 1 million credits are really deposited in it. After that point, more excited.

"Get rich." Hu Haoran said.

"I'll treat you and eat barbecue." Lu Xiaofei said.

Ten little guys left happily. On the other side, Lu Yang also quit the game and changed back to his original account. Mufeng them 150 people and muddy wine are waiting for him.

Inside the guild hall.

Lu Yang said: "Dividends have been paid, 50,000 per person."

"Long live the boss." Mufeng and the wasteland cheered with excitement. The money was totally an accidental fortune to them. They were only responsible for picking things up, and they gave so much money.

"Remember, this thing is rotten in the stomach and you are not allowed to talk about it." Lu Yang said, the money was mainly a sealing fee.

Lu Yang himself didn't care about this money, the more significance was the 133 jumping knives and the thousands of space-time gems, and the space-time amulet.

Lu Yang called Han Zhong and asked, "Master, how many of your tailors are Masters of Time and Space?"

"There are about 100 people," Han Zhong said.

This batch of space-time mages are Lu Yang's bottom-box treasures. They are the most closely related troops in Lu Yang, because they were recruited from the slums and surrounding schools. They were the brothers of the last generation who helped Yang Yang return money.

In this world, Lu Yang wanted to make them happy and make money, so they all transferred to Han Zhong to be a life professional master. Everyone's monthly salary is 30,000 to 40,000, but sometimes they also want to fight monsters. Lu Yang I paid them a lot of money to buy the transfer certificate of the Master of Time and Space.

In fact, not only the space mage, but also the space thief and other occupations. The total number of life players in this group is more than 300. If they need to do anything, they are Lu Yang's biggest rely.

Lu Yang said, "Let the 100 people report to the Holy City Guild Hall, and I will arrange a new task for them."

"Um." Han Zhong promised, called a snail with a speed of 300, and said, "Take 100 space-time mages to find the president in the hall of the Holy City."

"Okay, Master." The snail at speed 300 gave a saluting gesture, and pleased to go.

Han Zhong covered his forehead and said, "It's a shame to get rid of this stinky kid."

At the speed of 300 snails, in the opinion of Han Zhong, he is a child who has not grown up. He has the same mentality as a child of eleven or twelve years old. Han Zhong can't help but want to pack him, but the snails at the speed of 300 are everyone's life. The highest achievement among professional players.

"Wow haha, finally don't need to be a tailor." The snail Ledianer with a speed of 300 came to the guild hall with the remaining 99 space-time mages and saw Lu Yang, he said excitedly, "brother, what are you looking for?"

Lu Yang said with a smile: "Good thing, let me show you a video first."

Above is a video of Lu Yang stealing the treasure chest under General Fire Spirit using the escape dagger and flashing skills.

Lu Yang said: "It's very simple, you just have to do it."

The escape dagger has been forged by him, and the time and space mage can improve the flash to level 5 by himself. He also has escape skills such as space flash, which is enough for them to steal the treasure chest from the Fire Spirit Hall.

"It looks simple, let's try it," said the snail at 300 speed.

Lu Yang nodded, took out the upgraded telegraph scepter, and teleported them to the Fire Spirit Hall with 100 of them.

“Here is the Fire Spirit Hall. Enter this copy. Try it. Tell me if you have any questions. I will answer them.”
Lu Yang said.

The snails and other people at a speed of 300 nodded, and each entered the copy. As Lu Yang said, this method is indeed very simple. I do n’t know if it is difficult, but if I try, I will understand what is going on.

Smart as a snail with a speed of 300 at the same time, it came out just 2 minutes after entering, holding two dark treasure chests in his hand, and said excitedly, “Brother, I got it.”

Lu Yang said, “Nice, it’s beautiful.”

Soon, someone came out of the copy, some holding a treasure chest in their hands, some holding two, some with empty hands, but understood the rules.

The snail at 300 speeds asked, “Brother, what use is this treasure box?”

Lu Yang said, “Open it.”

The snail opened it and looked at it. One of the items was the Dark Gold-level Destroyer Staff, and the other was the Dark Gold Two-Handed Great Sword. He was dumbfounded and said, “Give such a good thing?”

The others looked at the treasure chest in their hands, and their faces were excited.

Lu Yang said: “In the next half month, you will steal treasure chests here. The equipment of all our brothers above level 80 in our guild depends on you.”

“Boss rest assured that the task must be completed.” Snail said.

There are a total of 100 space-time mages and 100 level 5 escape daggers. Calculated by stealing two treasure chests every 5 minutes, stealing 8 hours a day, the treasure chests that can be stolen will be an extremely large number.

There are not many players in the guild who have reached level 80, and the total number is less than 20,000. It can be stolen in a few days.

"I'm going to rest, you continue." Lu Yang patted the snails on their shoulders, flew back to St. Gall and rested.

Here he rested, while Tian Yao fell into rage on the other side.

At 8 o'clock in the morning, Tianyao just came online and learned that the city of Beamon was attacked. His 180,000 main force was killed and robbed a lot of equipment.

"Fuck, bastard, check for me, who did it, I killed him to retreat." Tian Yaoqi went crazy.

Ao stood embarrassed, as a proud man, for the first time, he felt so shameful.

"Boss I take full responsibility for this matter, you can relieve me of my post." Ao said.

"Is it useful to absolve you from your position, can you take responsibility, is that the equipment you 180,000 people only changed after a day of fighting, so lost? Um?" Tian Yaozhi asked.

Ao couldn't answer. With 180,000 people working hard a day, he really couldn't afford this responsibility.

The other vice-chairmen next to him had ridiculous expressions on their faces. Ao Ping was relying on his own skills and was taken care of by Tian Yao. He never lied to them. Now that something is wrong, they are all watching jokes.

The chief staff officer couldn't stand it any longer, and said with a smile, "I can't be arrogant about this. I have to find the behind-the-scenes behind it. I just asked the system. There is no monster siege. It can be determined that it is a human event . "

"I know all this and say it is useful." Tian Yao angered.

The chief staff said: "According to the currently known news, many people are online at 1am. They saw monsters appearing in the city to kill people. These monsters are called lightbox king worms. They are a group of 80 boss monsters who direct them. It was nearly 200 Fox players, but their identity could not be determined. "

"Fox players? Where is such a powerful master of the Fox clan? It looks like they are recruited by shooters." A vice chairman said.

"No way, the shooter can only recruit elite monsters at most, but can not recruit bosses." Hei Tianqiang said.

"You wouldn't want to say that Lu Yang did it again." A vice president smiled and said to the prison sky dome, in the whole Tianyao Guild, prison sky dome hated Lu Yang the most, because he helped shoot Sirius to grab him The blood wolf fortress, although he is now expensive as the vice chairman of Tianyao, has a lot more scenery than the original, but every time when it comes to Lu Yang, he is the most active.
