I Will Never Be Yours By Melan pamp Chapter 110

Selena pov

Looking into his eyes for the longest moment when a sob leaves my lips.

"Kian!" I say in a cry and my body starts to shake at the insight he is here and awake, every emotion I have tried to push away to keep it together comes crashing down on me at once.

"sssshy, my love I heard you! I'm not going anywhere," he says and crawls over me when he places his hands on both sides of my head, he wipes off my tears before he leans down and catches my lips in a hungry kiss, devouring my lips like there is

no tomorrow.

Right now in here the world outside doesn't exist, it is just him and me with all our longing for each other.

Placing my hands behind his head I pull him closer to me and deepen the kiss when another wave of my heat hit my body. I cry out in pain when he starts to kiss me down my jaw and I try to breathe through the pain, wrapping my legs around his waist I need to feel him close to me, the bond demands us to complete it.

"I never thought I would have you in my arms again, this time I'm going to make you mine forever!" he says next to my ear before he takes his hand behind my back and lifts me up with him so I'm sitting on his thighs. Holding my hands behind his head I capture his lips again in a demanding kiss, need more from him, and buck my hips only to find him rock hard already.

His hands come to his shirt when he lifts it over my head before I throw myself around his neck again, capturing his lips whit mine. I'm crazed at the moment after hours with this heat, my core throbs painfully and I need him now, can't wait any longer to be with him.

Letting my claw slip out I take it to his briefs and shred them to pieces before I start to rub my wet folds against him, need the friction from his pelvis against my clit. Hearing him pant when he let go of my lips, I try to reach for his cock when his hand comes and stops me.

"take it easy I don't want to hurt you!" he says and at this moment I don't care if it will hurt, I need him!

Trying to reach for him again when he lay us back down on the bed and start to trail kisses down my neck when his hand comes to my breast and he cups it.

His mouth captures my nipple when he swirls his tongue around my nipple and I feel how my arousal spills out, making me soaking wet and ready for him. Trying to buck my hips to meet his body and get some friction at my clit I pant out when he bites me on my nipple.

Another wave of the heat starts to course in my body and I grip his hair, even if his touch help to ease the pain it's not enough. Nothing is enough besides him!

"Kian!" I cry out when it starts to get too much pain in my core when I feel him trace a finger down my wet folds before he shoves it inside of me, bucking my hips. at the sudden intrusion I start to ride myself on his finger hard!

Feeling him place his other hand on my hips to have me slow down when he starts to trust inside, he pushes my legs further apart before he settles himself between. I pant out from the feeling when his hot lips come to my wet folds before his tongue licks a straight line up to my clit.

Feeling him withdraw his finger just to add another one, his tongue is relentless on my clit and it only takes a couple of trusts when he pushes me over my peak and my orgasm ripple through my body. Moaning out I feel when my arousal spills out and coats his fingers, tugging on his hair I earn myself a deep growl in return men he withdraws his fingers and starts to lick up my juices.

"Kian please!" I plead to him. Need him when I feel another wave of the heat build up and I almost flip him over and take what I need from him instead. He lets go and grabs my hips when he drags me down to him.

Looking at him and his magnificent cock I lick myself on my lips when he moves up my body and presses himself between my legs, feeling his shaft between my wet folds I roll my hips against him wanting him inside me.

He catches my lips and kisses me hard before he pushes his tongue inside my mouth and I can taste myself on him, he moves his hand between our bodies when he takes his cock and positions himself at my entrance. I feel him there and he is so close when he slowly pushes the tip inside and a little further.

I freeze up at the pain when he breaks the hymen and I grip his arms and break the kiss. He stills and back out a bit while kissing my jaw and over my cheek.

"breathe love! I will be gentle but it's going to hurt a bit!" he says next to my ear

when he holds my hip with his hand and starts to push a bit further inside. Trying to relax when he pushes all the way inside and his hips are flush against me, he stills while I try to adjust to his massive cock. I knew how big he was but it takes me some time to get used to the odd full sensation when his lips come down on mine in a heated kiss and he starts to pull out before slowly pushing inside of me.

I'm stretched to the max and it doesn't take long until the pain is gone and all that is left is pleasure when he works his hips against mine, meeting his thrusts while I moan out loud when he hit a good spot deep inside of me.

He starts to thrust harder and push deeper inside of me when I feel my juices coat his hard cock more for every thrust he does, I gasp from the feeling when he lifts my legs over his shoulder and push himself deeper inside. He moves in a steady phase where his cock slip in and out of me rubbing my walls and building up friction when they clench around him.

Moaning at the feeling when my walls clench around him and I grab his hips with my hands, digging my nails into his flesh. He growls at me when he grabs my hips and swirls around so I'm straddling him when he moves and leans against the headboard.

He grabs the back of my head while he moves me forward to him and captures my lips in a dominant kiss before his other hand comes to my hip against him, guiding me up and down his length.

Rolling my hips against him and following his hand, he let go of his grip on my head and start kissing me down my neck and shoulder. Finding my rhythm when my orgasm starts to build up in my body and my walls clench around his hard shaft, feeling his teeth scratch the surface of my shoulder I shiver through my body when he grips my hips and slam me down on him.

Moving my hips faster I moan and grip his shoulders when he slams me down harder again, I feel myself build up higher and reach my peak. I hear him pant beside my ear and that's the only sound in the room except for the wet sound from our bodies connecting.

He slams me down hard on him one more time before he grips me and flips us over. With my back on the mattress, he thrusts hard inside of me while capturing my lips with his. Feeling my body climax when his cock hits my sensitive spot and my orgasm ripple through my body, my pussy pulsating around him when I moan loudly. I feel his teeth on my shoulder and he bites hard prolonging my orgasm when his canines hit my bone and our bond snap in place.

His feelings flush my body and I gasp from the feeling when he starts to thrust faster inside of my wet channel, chasing his own release. Hear him groan when he retracts his canines and his cock twitch inside of me before his cum coats my walls in rows. He laps over the bite when I feel his cock stills inside of me, his forehead comes down to mine while I try to catch my breath and come down from my high.

"I love you!" he says and captures my lips when he slowly starts to pull out from

me.

He grabs me around my shoulders and places me on his chest when he lay down on the bed, I'm completely exhausted and spent.

"I love you," I say to his chest and snuggle my face to him, I can't believe he is finally mine! His hand comes to my hair when he starts to drag his fingers through it, I shiver from his touch and place my arm over his chest while listening to his heartbeat.

"Sleep, my Queen! Your king got you!" he says and I feel him take a deep breath and place a kiss on my head before I let sleep take over. Feeling warm and safe beside him and the bond is finally complete!
