I Will Never Be Yours By Melan pamp Chapter 59

Selena pov

His hot breath on my skin makes me shiver in anticipation when his lips slowly make their way down my body.

I moan out from the feeling when his hands come down and push my legs further apart before he places his nose over my pussy and takes a large inhale. I hear a deep growl from his chest and can't take it much longer when there is a knock on my door.

"Kian!" I hear Cannon's voice from the other side of the door and Kian growls a threatening growl.

"Go away!" He barks in an angry voice before he takes a finger down my wet folds and I'm almost bursting just from this touch.

"No Kian you need to step out of the room, Selena is about to go into heat and she needs the potion!" He says and I don't want him to stop! I need him now.

Feeling him sigh before getting up from the bed and I'm about to burst if he doesn't come back and finish this.

His arms come under me and lift me up in his arms. Taking my nose to his shoulder I start to kiss him down his neck and over his shoulder where my mark would lay.

His grip on my body gets harder before he opens a door and I'm suddenly in the shower with cold water running down my body.

I hiss from the feeling but my mind clears up a bit.

He places me down on my feet and I lean back against the cold tiles and close my eyes. My emotions are running havoc in my body and I want his hands back on me. But he leaves me alone in the shower and walks out.

I stand there and breathe, trying to have my mind to calm down.

In just a minute the shower doors are opened and Kian comes back inside with a bottle in his hands, his scent hits my nose and there is only one thing on my mind.

Taking a step towards him I jump him and wrap my legs around his waist before I start to lick his shoulder.

My back hits the wall when his hand grabs my hair and forces my head back.

"Open your mouth, Selena!" He says and he feels so far away. Doing what he says I feel some liquid running down my throat before I swallow it down.

"Good girl!" He says and turns us around before he sits down with us on the floor. Kissing his jaw and up to his lips when he takes my legs off his waist and turns me around in his lap so I have my back against his chest.

Trying to turn back around when he holds a tight grip on me.

"You don't want this Selena! Let the potion work" he says and placing his nose on my shoulder and taking a deep breath.

It's starting to get warmer in my body even with the cold water.

"Kian please!" I beg him when a wave of pain courses through my stomach and I dig my fingers into his thighs.

"Just a moment and it will get better!" He says to my ear when another wave hits my body and almost takes my breath away. Digging my nails into his thighs I try to breathe through it.

"Please!" I phant out when he hauls me further up in his lap and I'm turned slightly to the side. One of his hands tilts my head to the side when he captures my lips and pushes his tongue inside my mouth. Answering the kiss back when another wave builds up.

His other hand travel down my body, he traces his finger down my wet folds and I moan out into his mouth when he pushes a finger inside my wet core.

Snaking my hand behind his head I deepen the kiss and start to grind myself at his fingers, whatever he does it's not enough.

The pain only gets worse and I can't take it anymore, breaking the kiss and taking his hand out of me I swirl around in his lap and wrap my legs around him before I place my arms around his head and crashes my lips against his with all my need.

Starting to stroke my pussy against his hard shaft through his boxers I earn myself a deep growl before his hand comes to the back of my head in a hard grip and forces my head back.

He starts to lick my neck and down to my shoulder when I feel his teeth scratch my skin. It only makes me need him more when another wave hits and I stroke myself

harder against him.

"Selena!" I hear pain in his husky voice. Taking my hand I try to reach for his hard cock when his hands grip mine and place them behind my back in one of his. Holding them in a firm grip I try to get out of them when he growls at me.

Looking at him, his eyes are pitch black and his canines are out. I can't resist stroking myself against him when he pulls on my hands and force my upper body back and my head falls back.

His hot breath comes to my nipple and I close my eyes when he takes my nipple in his mouth and starts to swirl his tongue around it. My core pulsates painfully! Moaning out of the feeling when he takes his other hand and pushes a finger inside of me.

He pulls his finger out of me before he adds another one and pushes back inside hard, meeting his thrusts he starts to fuck me faster with his fingers. My walls start to clench around his fingers when my orgasm builds up in my body.

He sucks on my nipple before I feel him give it a small bite, my body shivers at the feeling when he lets go and buck his fingers up to hit that sensitive spot and I pant out when he presses down on my bud and my orgasm ripple through my body.

Crying out his name through the orgasm when his lips come to my shoulder and his canines sink down into my flesh. Making every cell in my body explode in my orgasm and I see stars for a moment before my surroundings start to fade away.

I'm high on the feeling when he withdraws his canines from my shoulder and lap over the mark. A shiver surged through my body when he let go of my hands and pull his fingers out of me before he tilt my body forward and place my head on his shoulder.

"I had no other choice!" He says right before everything fades away and darkness

sucks me under.
