#Chapter 441: The Chimera - Read The Immortal's Wine Store Chapter 441: The Chimera

Chapter 441: The Chimera

Valley Master Jiao sneered contemptuously as he stared at the three figures hovering before him. "Three Origin God Realm savage beasts... You think just because you outnumber, you can defeat me? Hahaha! Your meager powers mean nothing to a Void God Realm powerhouse!"

Ice who was in her human form was incredibly incensed. She glared at Valley Master Jiao as she slowly transformed into her true form!

A huge tiger with pristine snow-white fur soon came into everyone's view. The aura of Ice also changed and although her cultivation remained the same, the suppressive aura she induced became even more imposing! Even Valley Master Jiao felt slightly perturbed when he stared at this giant white tiger!

"An ugly demon like you thinks you can beat someone of noble birth like me? To tell you the truth, those two guys right there also have ancient bloodlines running in their veins. Any one of us can beat your sorry ass into a pulp despite the difference in our cultivation level! Roar!" Ice voice changed and it became beast-like. It was so different than when she was in her human form!

Long Meili and Aren soon transformed into their true forms.

The other was a dragon, while the other one was a Purple Winged Sword Eagle! Just the mere sight of them flying already startled the onlookers.

The face of Valley Master Jiao changed. This time, he could feel that these three savage beasts were capable of threatening his life even though they were one realm weaker than him! However, Valley Master Jiao didn't want to show any weakness. He took out a bottle of poison that was bubbling hideously.

"Since you think you can defeat me, I'll show you lowly beings what a real ancient bloodline is! Hahaha!" Valley Master Jiao's face was filled with madness as he drank all the contents of the poison bottle. His veins then started protruding as his body slowly expanded.

Valley Master Jiao could no longer be recognized and even those who had close relationships with him would be unable to identify him now.

His demon-like face was sported with crimson eyes and his mouth was filled with long serrated teeth. His body which was only two meters tall earlier had become five meters! His skin was no longer visible since it was now covered by red fish-like scales!

"Scared, aren't you? But you can save that for later!" Valley Master Jiao mocked when he saw the shocked faces of the three. He then tapped his foot and dashed towards the three as he raised his arms like a hammer.

Meanwhile, the army of the Bloodfallen Family, the Lycan Family, and the Torgrim Family immediately fled from the scene! They didn't want to be sandwiched in the crossfire of those four monsters!

"It seems like that Valley Master Jiao is just all talk! I mean just look at him! He's struggling against three Origin God Realm experts from our side. This goes to show that you fools from the Lycan Family and the Torgrim Family are weak! Soldiers of the Bloodfallen Family, heed my command! Kill these weaklings and offer their blood as a sacrifice for the ascension of Her Majesty Cornelia!" Artaurus shouted as he summoned another wave of blazing fire balls.

The army of the Bloodfallen Family shouted their war cries as they charged towards their enemies without a hint of fear! But despite their aggression, they appeared to be in a synchronized formation with no visible weakness!

Looking at this army of fearless soldiers, Bylor felt his scalp tingle, but when he recalled that they still have the undead army and that chimera, he let out a contemptuous smile.

"Release the undead army and that chimera! Let them suffer true chaos! Hahaha!" Bylor issued a command with a savage look on his face.

Following his command, the army of undead became even more bloodthirsty! Then, everyone also heard a series of earthshaking footsteps.

When everyone turned their gazes, they saw a grotesque-looking creature looking at the battlefield like a predator! It then raised its repulsive head above the skies and emitted a terrifying roar that caused a violent tremor!

ROAR!

Balmond and Yue Bo who were fighting with Herald and Stormhoof suddenly shifted their gazes below. Their eyes narrowed simultaneously.

"That is the aura of a late stage Void God Realm! Those kids are in trouble!" Balmond exclaimed in worry.

Yue Bo was also a bit anxious. The strength they felt earlier wasn't any weaker than them! In fact, whatever that creature was. It was a bit stronger than them!

"We can only trust them. Demon Empress Ganda should be there any time now." Yue Bo muttered.

"How can you guys lose focus when fighting against us!? Die!" A loud shout came followed by the descent of a huge hammer!

Balmond took out a protective talisman and activated it, while Yue Bo raised his sword and tried to deflect the hammer blow.

Bang!

Balmond's talisman broke apart, while Yue Bo's sword ray crumbled into pieces! The two were then sent flying thousands of meters away!

Above the clouds, Jiu Shen and Theia were watching the battle with calm expressions.

"Are you sure that you wouldn't help them?" Theia stared at the man beside him.

Jiu Shen remained calm as he looked at the bloody massacre happening below. He then answered in an indifferent tone. "If we always interfere in their fights, how could those little ones grow? They would only feel complacent if they know that we are always there to protect them. Our return to the Primordial God Realm is moving closer and we don't need to bring them if they couldn't even survive this. They have a lower starting point than those geniuses in the Primordial God Realm, so to make up for this, they need to have a stronger willpower and richer battle experience!"

Hearing this, Theia remained silent. She knew that Jiu Shen was right.

The two continued to spectate the scene in silence.

Chapter 442: Ren Shuang's Power

"Surrender yourself Cornelia before it's too late! Do you think your Bloodfallen Family could handle the combined might of our Lycan Family and the Torgrim Family? Wishful thinking!" An old werewolf demon laughed deliriously as he looked at Cornelia who was hiding behind Ren Shuang.

Cornelia glared at the elder, but she didn't dare say anything since they were now surrounded by more than twenty experts! After looking at them briefly, she noticed that there were ten Origin God Realm experts and the rest were Nascent God Realm experts!

"Lord Ren, just leave me here and escape on your own. The Bloodfallen Family still has Artaurus even if I die today." Cornelia whispered with a hint of anxiousness in her tone.

Ren Shuang remained unperturbed even though they were surrounded by dozens of experts. He ignored Cornelia and took out his sword as he muttered. "Stay here and don't move a step..."

"Wait what-" Cornelia wanted to pull him, but Ren Shuang already began slaughtering the experts under her surprised gaze.

Ren Shuang's expression was calm as he reaped the life of someone in his every move! Shriill screams echoed in the scene as the elders and experts of the Lycan Family and the Torgrim Family could only stare helplessly while they were slowly being killed!

Not long later, Ren Shuang ended the life of the last demon standing.

Thud.

The demon's headless corpse dropped to the ground.

Ren Shuang flicked his sword before he sheathing it back to its scabbard.

Cornelia's mouth gaped open as he stared at this human who now looked extremely charming in her eyes. He killed those experts! To be exact, there were more than thirty of them, but they didn't even have the ability to fight back as they were cut down by Ren Shuang!

Ren Shuang pulled the stand Cornelia and said. "Let's go help the others. Your presence would boost the morale of your troops so make sure to put on a dignified look later."

"Are you listening to me?" Ren Shuang turned his gaze at Cornelia when he didn't get a reply from her.

The succubus snapped out of her daze and hurriedly nodded her head. "A-Ah. Yes! Yes! Of course! That's easy..." She said with a stiff smile on her face.

"Good. Now, follow me." Ren Shuang muttered as he leaped towards the main battlefield. It was where Valley Master Jiao and the chimera were present! However, when Ren Shuang looked at the situation, he noticed that there was another army helping them.

Cornelia also looked at the situation and she was surprised when she recognized the army helping them.

"Those are people from the Narda Principality! The guy in blue robes who is leading them is Lou Baiqing!" Cornelia exclaimed as she revealed a joyful look. From what she knew, Lou Baiqing was the top Origin God Realm expert of the Narda Principality! His presence on the battlefield would be advantageous to them!

"It's not just him. Look! Isn't that Demon Empress Ganda?" Ren Shuang pointed at the otherworldly silhouette hovering above the battlefield.

Cornelia followed his gaze and soon saw the figure of a woman who was holding a huge shield and giant broadsword. "That's indeed her!"

At this moment, Demon Empress Ganda pointed her broadsword towards the chimera and then descended like a meteor!

The chimera emitted a roar as it opened its bloody mouth.

Dark purple light slowly gathered within the mouth of this creature and formed a purple sphere. The chimera then spewed this sphere towards the descending Demon Empress.

BANG!

Ren Shuang grabbed the succubus and embraced her while producing a protective shield around them.

Ice, Aren, and Long Meili also protected their soldiers.

Everyone then turned their gazes towards where the chimera was standing and saw that its face had a huge bloody wound. A severely wounded Demon Empress Ganda could also be seen floating above the skies. She could barely hold her two weapons...

"This is not looking good. Cornelia, do what I told you to do. I need to support Ganda. She can't defeat that creature alone! Go!" Ren Shuang said before he flew towards the chimera with his sword in hand.

Cornelia didn't dally as well and jumped straight to where Artaurus was located.

When the soldiers saw their newly crowned empress, they heaved a sigh of relief.

"Your Majesty, we're glad that you're fine."

Cornelia glanced at the soldiers. She saw that the disciples of the Heavenly Sword Tower were among them. The army of the Narda Principality also joined their formation.

While eyeing everyone with a solemn look, she said. "Everyone, Lord Ren Shuang had now joined the battle! With his presence, that vile creature would soon die! Without it,

the enemy before us would mean nothing! However, we must not be outdone! Show me your courage and I will guide you in battle!"

Following her speech, everyone raised their weapons in midair and issued a loud battle cry that reverberated in every corner of the city!

Seeing this, Cornelia took out her harp and began playing a melody. When the soldiers heard the melody, they felt their injuries slowly healing. They also discovered that they somehow had a surplus of strength within them!

"Oh. I never thought that you have this kind of ability, my little sister." Artaurus muttered in a teasing voice.

Cornelia smiled as she answered him. "I learned this from Wine Master Jiu Shen himself. Although I've yet to master it fully, I'm surprised that it actually has such a stunning effect! Wine Master Jiu Shen is truly powerful! Just a simple harp technique from him is already this strong..."

Artaurus nodded his head in agreement. "He is truly an enigma. Luckily, he is not our enemy. Father is very wise to let our Bloodfallen Family swear allegiance to such a person..."

"Enough talking. Go and lead the army, brother! I'm not good at commanding people." Cornelia said while lightly pushing Artaurus.

"My pleasure, Your Majesty.." Artaurus chuckled before leaping on the frontlines.

Chapter 443: Poison From The Ancient Ruin

Ren Shuang hovered in front of the injured Demon Empress Ganda as he stared deeply at the chimera.

"Are you okay?" He asked in a soft voice.

The Demon Empress nodded her head lightly. "I'm fine. Just a few scratches..."

"Then listen carefully. This chimera is an undead creature, so it should have a core inside its body. And we have to find that core to defeat this monster." Ren Shuang muttered in a serious tone.

Hearing this, the Demon Empress expressed her understanding. She also knew of this, but the chimera was too strong that she couldn't even get near it. "I know, but I can't even go near that beast. How do you think I could kill it?"

Demon Empress Ganda sensed that Ren Shuang was merely a peak stage Origin God Realm expert. Aside from being a distraction, she believed that he couldn't offer any other form of assistance.

His calm voice then traveled to her ears. "You can't go near it, but I can."

This time, the Demon Empress was stunned, but she frowned. "I don't want to break this into you, but that monster is a late stage Void God Realm creature! How do you think you can go near it with your cultivation level?!"

Ren Shuang gave her a sidelong glance as he muttered in a cold voice. "Just distract it and I'll do the rest!"

He then disappeared from his spot and shot towards the chimera like a shadow. He lifted his sword and released dozens of dark sword rays that emitted gloomy auras of death!

"That human!" Demon Empress Ganda gnashed her teeth as she immediately summoned a raging fire vortex that was as tall as a building! She then controlled the vortex like a whip and willed it to strike the chimera's large body!

The earth cracked as the huge vortex lashed towards the chimera! Wherever the burning tornado touched, it left burning ashes in its wake!

The chimera's eyes narrowed as it casually swatted the dark sword rays. It then stared angrily at the fire vortex. Although it had a strong body, the chimera dared not underestimate the power of this raging flame! The hideous beast growled as it grabbed a thick piece of earth beneath its feet and threw it towards the incoming fire vortex!

Bang!

"A chance!" Ren Shuang gazed at the chimera's neck as he poured more than fifty percent of his true essence on his sword. He then chanted in a soft voice.

"Seventh Sword Style: Void Decapitating Sword..."

A rift suddenly appeared near the chimera and a gloomy and dark sword shadow emerged out of it, slashing towards the chimera's exposed neck!

The chimera tried to move away, but the rift was too close and it no longer had the chance to evade!

Puchi!

A huge bloody head plummeted from the sky, causing a violent tremor as it dropped to the ground. The headless corpse of the chimera soon collapsed lifelessly...

Looking at this scene, everyone was speechless as they all stopped what they were doing. They couldn't help but stare at Ren Shuang in horror! Yes, they were afraid! That chimera was a creature at the late stage Void God Realm, but it fell under one move from his sword!

Ren Shuang looked like the god of death with all the dark blood from the chimera all over his body! He then descended towards the ground as he slowly sheathed his sword.

Demon Empress Ganda's eyes widened like saucers as she witnessed the absurd scene. A beast that she thought was unbeatable died in just one sword strike from that human!

"Impossible..." She muttered in disbelief.

Valley Master Jiao who was battling against three savage beasts also saw this scene and he almost wet his pants in fear! That was a late stage Void God Realm chimera! Bloody hell!

He immediately made a beeline to escape! Heck! Who cares about this damnable war? He didn't want to have any part in this anymore...

However, a peerless beauty holding a huge shield and a broadsword blocked his path of retreat.

"Fuck off!" Valley Master Jiao raised his muscular arms and punched the lady with his full force!

Demon Empress Ganda sneered as she lifted her massive shield.

Bang!

This was a True God-rank weapon and even though its inscriptions were no longer working, it wouldn't break so easily!

"This..." Valley Master Jiao was shocked to find out that his punch proved to be ineffective. He immediately ignored the lady in front of him and escaped in another direction, but a man was already hovering there like a specter of death!

The sight of him scared Valley Master Jiao and he realized that he was trapped!

"L-Look, I didn't want to join this war, okay? I only came here because I owed Herald. How about you guys let me leave? If you let me go, I'll bring my Poison Valley out of here..." Valley Master Jiao let out an ugly smile as he looked at Ren Shuang, Ganda, and the three savage beasts who had surrounded him.

"Valley Master Jiao, it seems like you've not realized my identity. Then please allow me to introduce myself. My name is Ganda, the leader of Narda Principality. Now, do you think I'll let you escape?" Demon Empress Ganda chuckled contemptuously as she slowly moved closer towards the nervous Valley Master Jiao.

Hearing this, the face of Valley Master Jiao immediately fell. His Poison Valley and the Narda Principality had been at war for many years! They wouldn't stop until one of them is destroyed!

"Hahaha! Foolish! I was so foolish to believe that idiot Herald! But do you think I would allow you morons to kill me easily?! Die!" Valley Master Jiao took out a huge glass filled with a green substance. Just the mere sight of this thing made Ren Shuang and the others feel alarmed!

Seeing their wary gazes, Valley Master Jiao erupted into peals of laughter. "Scared? I got this poison from an ancient ruin! Thousands of disciples from my Poison Valley died just to get this thing! Now, I'll be using it on you pieces of sh*t! Hahaha!"

Chapter 444: Spit Of An Ancient Creature

Atop the clouds, Jiu Shen and Theia who were watching the battlefield suddenly frowned when they saw the green substance inside the glass.

"Isn't that thing..." Theia revealed a gobsmacked look as she muttered to herself.

"That thing shouldn't be here. If that stupid idiot breaks that glass, this world would collapse. We can't let that happen. Theia, go and capture Herald and Stormhoof, while I get that glass container. It seems like this training can't go on any further..." Jiu Shen was also startled. The poison inside the huge glass container wasn't anything ordinary! It was something capable of wiping out an entire world! Jiu Shen wondered why such terrifying poison was in this world...

Jiu Shen and Theia abruptly moved in separate directions.

Meanwhile, Valley Master Jiao gathered the true essence in his body towards his right hand, but just as he was about to break the glass with his fist, he suddenly discovered that the glass container he was holding was now gone!

"Bloody hell! Where is it?!" Valley Master Jiao's face contorted as he looked around only to see a new face looking at him with an expressionless look.

"Master!"

"Jiu Shen!"

"Wine Master Jiu Shen?"

Jiu Shen had already kept the poison inside his space earring. That thing was too dangerous to be left outside!

"Alright. Enough with this. Ren Shuang and you lot, go and make the enemies surrender." Jiu Shen ordered in a calm voice.

Ren Shuang and the three savage beasts immediately nodded their heads, while Demon Empress Ganda hesitated briefly before she soon followed them.

Valley Master Jiao was stunned. Just a few words from this human and those pesky critters immediately left? Who is this guy?

"Hey, brother. I know that what-"

Swoosh.

Bang!

Jiu Shen took back his fist from the headless corpse of Valley Master Jiao. He then grabbed the corpse and burned it into nothingness!

"Oh... I should have asked him where he got this thing..." He muttered to himself as he looked above the skies. There he saw Theia who was holding two battered demons in her hands.

"I got them. What do you want me to do with them?" Theia said while clutching the necks of Herald and Stormhoof. Behind her were Balmond and Yue Bo who were both looking at her in fear.

Stormhoof and Herald tried to escape from Theia's grip, but to their horror, they realized that they had lost their strength!

Jiu Shen shook his head as he said in a calm tone. "Just let Balmond deal with them. We still need to study the poison and see if it's really the real deal."

Theia turned around and handed the two battered demons to Balmond. She then left with Jiu Shen without saying a word.

"Well...That happened too fast..." Yue Bo muttered with a blank look on his face. He had seen the mighty Herald and Stormhoof as they were beaten black and blue by Theia in just a few seconds!

Balmond was similarly speechless and he could still not process everything!

First was when Ren Shuang killed the late stage Void God Realm chimera with one sword strike. The second one was when Jiu Shen killed Valley Master Jiao with one casual punch. And then the last one was Theia beating up Herald and Stormhoof.

"At least this prevented more casualties from our side. Now, let's just clean up the mess, Brother Yue." Balmond sighed as he sealed the cultivation of Herald and Stormhoof. Now that they were severely wounded, the two demons could only watch as Balmond sealed their cultivation.

Because of this unexpected turn of events, the rebellion of the Lycan Family and the Torgrim Family was immediately suppressed. All the rebels were sealed in a giant array formation, displayed like ornaments for all the representatives from major powers to see!

"You're truly wise to think of this, Brother Ren! Now that the Great Demon Empire had just suppressed a rebellion, those major powers would certainly try to take advantage of us, but by doing this, it will serve as a deterrent to prevent them from making any impulsive actions." Balmond muttered with a look of admiration. This human Ren Shuang killed the chimera! But the most dangerous thing about him was his wisdom! He wasn't like his daughter who was a bogus genius...

Ren Shuang remained silent under everyone's admiring gazes.

Seeing this, Balmond chuckled and turned his head towards Demon Empress Ganda. "Thanks for your aid, Demon Empress Ganda. Our Bloodfallen Family is in your debt..."

The Demon Empress shook her head with a sigh. "I didn't do much. Brother Ren did most of the work..."

Everyone chuckled at her words. They had all seen what happened...

"In the end, Sect Master Jiu Shen and Young Miss Theia still had to act..." Ren Shuang who was silent muttered those words calmly. He then left the scene, leaving everyone at loss for words.

Inside the Spirit World, Jiu Shen and Theia were looking at a glass container with wary gazes. To be specific, they were cautious about the green substance inside the glass container.

"Step back first. With your strength, your body still can't handle this poison. I'll check it myself." Jiu Shen said indifferently.

Theia wanted to say something, but when she saw Jiu Shen's calm face, she could only say. "Just be careful."

"I will. Reinforce this shield.) Jiu Shen said solemnly. He then released an invisible shield around him and the glass container. He couldn't let even a small leak of this poison drop in the Spirit World!

Theia extended her hands and slowly reinforced the invisible shield. She knew that the poison they were handling was dangerous, so she complied without saying anything.

Jiu Shen then carefully opened the glass container and poured a small drop of the poison inside a small bottle.

He heaved a sigh of relief after pouring the drop of poison. He then kept the big glass container inside his space earring.

"Now, let's see if this thing is truly the spit of that vile ancient creature...." Jiu Shen muttered silently as he began testing the small drop of the green substance.

Chapter 445: Undying Venom Dragon

Jiu Shen stared at the glass bottle in his hand. The items from the system are truly handy since all of them are made from Celestial-rank items. It could even hold such powerful poison! If Jiu Shen didn't have his Baleful Dragon Sacred Sword, he could even use this small glass bottle as a weapon...

"My body is now at the Mystic God Realm and if this is indeed the spit of an Undying Venom Dragon, it should be able to melt my body." Jiu Shen muttered nonchalantly.

Theia who was outside the invisible shield almost lost her footing when she heard this. "Wait. What did you say?! Are you planning to try it out on yourself?! Are you out of mind, Jiu Shen?!"

The Undying Venom Dragon was an ancient divine beast that wreak havoc in the Primordial God Realm billions of years ago. Millions of high-level experts died under its venom and it took the combined might of many powerhouses to suppress the divine beast! Celestial God Jian Wang even had to intervene just to seal it!

"Look. We're still unsure whether this really is the spit of that creature. How is it even possible for its venom to be here in Nuar?" Jiu Shen wasn't just saying this to lighten the tension.

The Undying Venom Dragon was a divine beast that was almost comparable to a Celestial God Realm expert in terms of strength. Jiu Shen believed that the venom in their hands might just have come from one of its descendants.

Theia felt a bit better when she heard his reasoning, but she was still worried. What if that venom came from the real one? "No! No! Definitely not. Even if you did recover your spiritual power to the True God Realm, you still won't be able to suppress the poison if it is from that divine beast!"

Jiu Shen hesitated when he heard that. "Alright. Maybe I should just keep it to myself now."

Theia hurriedly nodded her head. "Yes! That's the best thing to do. Now, keep that glass bottle away and take back this shield."

Jiu Shen shrugged and kept the glass bottle inside his space earring. He then removed the invisible barrier he casted.

Theia heaved a sigh of relief as she went closer to Jiu Shen. She whispered. "Don't do something stupid next time..."

Jiu Shen smiled and held her to his embrace as he replied in a gentle voice. "I won't. I promise."

One month later.

After suppressing the rebellion of the Lycan Family and the Torgrim Family, the newly crowned Queen of the Great Demon Empire re-invited the representatives of major powers from all over the continent to come to celebrate with them in their victory!

Those that came during the first banquet immediately rushed to the newly rebuilt imperial palace to join the celebration and even those who didn't come last time no longer dared to ignore the second invitation. Who would dare to decline the invitation of the Great Demon Empire?

The Bloodfallen Family has already shown them their true might! Even an undead chimera that was at the late stage Void God Realm expert was destroyed during the rebellion! The imprisoned members of the Lycan Family and the Torgrim Family are living proof of this shocking news!

"Her Majesty Cornelia has arrived!" An imperial guard announced followed by the arrival of Cornelia and her entourage.

All the guests stared at the succubus with complicated emotions. They thought that they could get a piece of the Great Demon Empire, but all their plans fell apart. The reason for that is the man walking behind Cornelia. According to the rumors, he was the very man that killed the undead chimera, the Silent Sword, Ren Shuang!

"Is that human the man they call the Silent Sword?"

"Yes, that's him! He was the one who killed the chimera! I saw it with my own two eyes! He killed that beast in just one sword move!"

"Then why is he called the Silent Sword?"

"Well. That's because he rarely speaks. Even Her Majesty Cornelia could hardly make the man talk."

The crowd chattered incessantly the moment they spotted Ren Shuang's figure. This man has become a legend to them! He was a figure that stood at the peak of the Crimson Fiend Continent! The major powers sent their leaders because of him! Quite a few Void God Realm experts were even here just to see Ren Shuang!

Cornelia sat on her throne and stared calmly at everyone, but when she noticed that some people were still chattering, she frowned.

Ren Shuang noticed her reaction, so he slammed his scabbard to the ground.

Pa!

Everyone immediately shut their mouths.

Seeing this, Cornelia smiled. "Good day, everyone. Thank you for coming here to celebrate our victory with us. But before we start the banquet, I'd like to suggest something for all of us. Don't worry, this is something that would only benefit the Crimson Fiend Continent."

The guests furrowed their eyebrows in confusion. They wondered what this newly crowned queen had in mind.

"Our Great Demon Empire is now a subordinate to the Heavenly Sword Tower. That means, all humans will be considered as friends by our empire. Of course, with the exception of those vile criminals..." Cornelia said in a calm tone.

All the representatives were stunned when they heard this. Friends with the humans? Just what did they hear?

Cornelia ignored the grave looks of everyone present. She couldn't care less about their opinions. "You heard me right. So from now, our human friends must be treated fairly. Am I understood?"

The subjects of the Great Demon Empire immediately offered their support as they answered.

"Yes, Your Majesty!"

Most of the guests soon followed suit and expressed their support to the Queen's words. However, some people couldn't accept this, especially those who sold humans as slaves! Their business will completely crumble apart if this happened!

"Your Majesty, I'm sorry but I can't agree to this.." A solemn voice echoed inside the throne room.

Chapter 446: Second Sword Tower?

Cornelia turned her gaze to the demon who had spoken. It was a tall and thin demon who had bat-like wings behind his back.

Cornelia smiled at the bat demon and asked. "And your reason is?"

The bat demon wasn't afraid of Cornelia. She was just a Nascent God Realm youngling in his eyes. The one he was afraid of was the human standing beside her.

This bat demon's name was Lark and he built his own force with the help of his massive slave business. The profit from the humans they sold was about forty percent of their profit! If the Great Demon Empire announced its support to the humans, he would lose about half of his possessions! He couldn't let that happen!

Lark felt a bit nervous when he sensed everyone's gazes on him, but he still answered. "Your Majesty, we've been enemies with the humans for thousands of years! Many of our ancestors even died fighting against their kind! Why would we befriend creatures like them?!"

Cornelia's expression turned cold upon hearing Lark's words. "Your Mr. Lark, right? Owner of the Blood Bat Merchant Alliance...Before I get back to you, is there anyone else who is against this?"

Cornelia glanced coldly at everyone present. With the Heavenly Sword Tower's support, she wasn't afraid of offending everyone.

"I also disagree with this."

"Me too."

Three more major powers supported Lark and all three of them were from merchant groups like him. Their entire wealth would be greatly affected if Cornelia was intent on supporting the humans.

Seeing that some were brave enough to stand with him, Lark felt a bit relieved. However, he couldn't shake off this feeling that something bad would soon happen.

"I see. Guards, see these guests off." Cornelia muttered coldly.

Tens of guards came and surrounded the four businesses magnates.

"Your Majesty, what is the meaning of this?! Are you making an enemy of us?! You don't know what you're doing!" Lark became angry when he saw this. How could he allow a Void God Realm expert like him to be treated like this by Nascent God Realm youngling?

The three merchants almost wetted their pants when they saw the reaction of Lark. They wanted to mediate the situation, but when they noticed the gazes sent their way, they discovered that it was already too late!

Thud.

A severed head dropped to the ground.

Ren Shuang sheathed his sword before returning beside Cornelia.

The three merchants plopped to the floor when they saw Lark's bloody head rolling over the floor.

"This... I agree! I agree! I support Your Majesty's decision!"

"I also agree!"

"Me too!"

They didn't dare oppose the newly crowned queen any further. Lark was so much stronger than them but the guy died in just one strike! How could they fight back against such power? Even the other guests were horrified when they witness this scene. At first, some of them were still skeptical about the rumors they heard, but from the looks of it, everything was true!

"Does someone still want to speak?" Cornelia smiled as she looked at the guests. She found it quite amusing to look at these scared experts.

When she noticed that no one was talking, Cornelia chuckled to herself. "In that case, I officially announce the start of the banquet! Please enjoy, everyone!"

Inside the second floor of the lotus building.

"I plan to create another sword tower here for our Heavenly Sword Tower. Which place do you suggest we build our second sword tower?" Jiu Shen glanced at the people seated with him. They were the Division Heads of the Heavenly Sword Tower and he invited them here for an important meeting.

Everyone stared at the map on the table. Everyone furrowed their eyebrows as they pondered deeply.

"Sect Master, how about this place?" The Division Head of the Heavenly Sword Division, Lu Sulan, said as she pointed at a certain location on the map.

Everyone glanced at the place she was pointing and they were surprised. "Isn't that the territory of the Poison Valley?"

Jiu Shen had a thoughtful look as he stared at the map. He then patted Lu Sulan's shoulder and said. "Good idea. With the death of their Valley Master Jiao, the Poison Valley crumbled apart and its territory is quite big. However, Narda Principality is currently in control of this piece of land. I don't want to still it away from them."

Lu Sulan smiled when she heard her master's words. "Master, I heard that Narda Principality is planning to auction the things they found in Poison Valley's base. This piece of land is included in the auctioned items."

Jiu Shen's eyes lit up upon hearing this. He then said. "Good job! You've done your homework quite well. Sulan, you will be responsible for this. You can get the money you need from the Resource Division. If it's lacking, you can ask the Bloodfallen Family for it."

Lu Sulan was happy when she heard her master's praise. "Yes, master! I'll get this done efficiently."

"You can bring Can Ye with you. As for the rest, go back and plan for the construction of our second sword tower." Jiu Shen commanded before he left the second floor.

After Jiu Shen left, the Division Heads could no longer hide their excitement. Their Heavenly Sword Tower was expanding! And they were building their second sword tower in the territory of the demons, the Crimson Fiend Continent! Who would have thought of that?

"This is brilliant! With the Sect Master behind us, who can stop our rise? Hahaha!"

"You're right! Hahaha!"

"Don't be too complacent. We all know that the sect master is planning to go back to that place. Did you forget that we are nothing compared to the true powerhouses of that place?! Remember that!" Lu Sulan glared at everyone.

"Senior Sister, you mean the Primordial God Realm that master always tells us about?" Can Ye asked.

"What else could I be talking about!?" Lu Sulan had a high position in the Heavenly Sword Tower. Everyone respected her since she was the senior disciple of Jiu Shen!

Chapter 447: Hestia Comes To The Crimson Fiend Continent

"Division Head Xia, how much resources do we have?" Lu Sulan asked a cold-looking woman.

Xia Xinyue took out a piece of document from her storage ring and placed it on the table for everyone to see. "Our Heavenly Sword Tower has accumulated four billion True Crystals, eight hundred million Blood Stones, two hundred and fifty God Stones,..."

"... most of our wealth comes from the sales of the Pill Division as well as spoils of war from all the sects and major powers we've fought. Is it enough Division Head Lu?" Xia Xinyue asked Lu Sulan with a smile.

Xia Xinyue and Lu Sulan both came from the Frozen Cloud Sect so they were quite familiar with each other. However, it was better to maintain a professional attitude during meetings, so despite being close as sisters, they refer to each other by their positions.

Lu Sulan and the other Division Heads were shocked when they heard her words. They haven't had that much wealth before! The only one who was able to remain calm was Qi Hongtian, the Division Head of the Pill Division.

"That's more than enough, Division Head Xia! I thought that we would need to borrow money from the Bloodfallen Family, but it seems like I've underestimated the wealth we have accumulated." Lu Sulan smiled at Xia Xinyue. From the looks of it, she no longer needs to visit the Bloodfallen Family...

Xia Xinyue took back the document and kept it inside her space ring as she asked. "How much do you need for this auction?"

Lu Sulan furrowed her eyebrows as she calculated in her mind. She wasn't certain of the exact value of the Poison Valley's territory. "To tell you the truth, I'm also unsure how much that piece of land is, but to be safe, I'll bring two billion True Crystals and five hundred million Blood Stones with me."

"Isn't that too much, Senior Sister?" Can Ye unconsciously blurted out.

Lu Sulan glanced at him and replied in a calm voice. "I know, but we have to make sure that we would get that piece of land. I will return the rest of the money after the auction." She then turned towards Xia Xinyue and said.

"Please get the resources Division Head Xia. We will depart right away after we get everything prepared. Also, please bring Sister Hestia here. She's been guarding the master's store in Beltran City all this time. Just get an Elder to replace her. No one would be foolish enough to cause trouble there anyway."

Xia Xinyue nodded her head in understanding. "No problem. I'll bring her here." She then went to the Teleportation Array Formation.

"Alright. Everyone, you can go back to your posts. Can Ye, you stay." Lu Sulan adjourned the meeting and everyone soon left the second floor. Only Can Ye and Lu Sulan remained there.

"Senior Sister, how are the disciples doing? I haven't seen some of them after they left to join the war." Can Ye asked as he looked at his senior sister. Can Ye was the Division Head of the Mission Hall and he was quite occupied with his job, so he wasn't able to join the war.

"No need to worry about them. None of them died and only a few were severely injured, but they're fine now. By the way, how's your cultivation going?" Lu Sulan glanced at her junior brother with a probing look. This guy was very diligent with his cultivation, but she was unsure of how strong he had become.

Can Ye released his aura as he replied with a smug look on his face. "As you can see, your Junior Brother is now a peak stage Origin God Realm! What do you think, Senior Sister? Not bad, right!"

Lu Sulan's face twitched when she sensed his aura. This guy had actually caught up to her! Her cultivation speed was much slower than the others because of her cultivation technique and unique physique. However, although her cultivation level was just similar to Can Ye, she knew that she could defeat him in just a few moves!

Thinking about this, Lu Sulan felt a bit better.

"Feeling smug, are you? How about a spar with me then?" Lu Sulan let out a cold smile as she glared at Can Ye.

"No way! Hahaha! I mean, I still haven't stabilized my cultivation yet since I just recently broke through. Let's not talk about this..." Can Ye sweated bullets. He ignored Lu Sulan's gaze and closed his eyes as if he was in a meditative state.

Lu Sulan laughed in her heart when she saw him acting like this.

About an hour later, Xia Xinyue came back with a red-haired beauty following behind her.

"Sister Hestia!"

"Elder Hestia!"

Lu Sulan and Can Ye greeted the woman behind Xia Xinyue. It has been a while since they've last seen each other. Hestia had been guarding Jiu Shen's store in Beltran City all this while and she rarely comes to visit the Heavenly Sword Tower.

Hestia smiled at the two. "Hello, you two. Why did you call me here? Did the master call me?" She asked.

Lu Sulan shook her head. "No. The master didn't say anything. You've been guarding master's store all this while, Sister Hestia. I want to bring you to an auction for a change of pace. Don't worry about the store. I already asked Division Head Xia to replace your position."

Hestia was a bit disappointed when she heard the answer, but she didn't show it to her face. "I see. No problem. I'm also interested in the Crimson Fiend Continent, so I don't mind tagging along with you guys. I heard that this place is ruled by demons."

Hestia's eyes flickered at the mention of the word 'demons', but it disappeared right away so no one noticed anything.

"You're right, Elder Hestia! I also want to see these demons myself. I've been busy with the Mission Hall's matters all this time.. Now I can finally see what this place looks like!" Can Ye said eagerly.

Chapter 448: Hegante City

Strange memories flooded Hestia's mind a few months ago, and it was only recently that she had finally realized that she had been reborn!

"Elder Hestia. Elder Hestia!"

"I'm sorry. What are you saying?" Hestia glanced at Can Ye with a smile.

Can Ye furrowed his eyebrows. Hestia was acting weird and it was the first time he saw her like this. "Is there anything wrong, Elder Hestia?"

"Nothing." Hestia shook her head at him. He wouldn't understand even if he told her. Besides, she didn't want anyone to know anything about what happened to her.

Despite his curiosity, Can Ye held back asking her more questions. "Alright. Let's go downstairs now. Senior Sister is waiting for us there. We will go to Narda Principality." He then brought Hestia outside the lotus building where they met up with Lu Sulan.

"Are you guys ready?" Lu Sulan asked while looking at the two. Hestia and Can Ye nodded their heads.

"Alright. Let's go!" Lu Sulan led them towards Hegante City, the capital city of Narda Principality. The Narda Auction House where the auction would be hosted is located there.

The journey wasn't long for someone at their level and it only took them about an hour despite the great distance. The three descended at the entrance of Hegante City. Apparently, outsiders aren't allowed to fly within the city, so the three stopped at the entrance to take a carriage. However, they were surprised when someone came to greet them.

"Greetings, Division Head Lu! I'm Lou Baiqing and we've fought together during the rebellion. I'm pleased to meet you again." Lou Baiqing came with a few generals from Narda Principality. The Demon Empress told him that someone from the Heavenly Sword Tower would come to Hegante City to join the auction. He'd been waiting for them all this time.

Lu Sulan cupped her fists at Lou Baiqing. "It's great to see you again, Lord Lou. This is Can Ye, Division Head of our Mission Hall, and this is Hestia, one of our strongest Elders."

Lou Baiqing moved his gaze towards the two people standing behind Lu Sulan and smiled at them. "It's a pleasure to know you Division Head Can and Elder Hestia. Come! I'll bring you to see Her Majesty. She's in the palace waiting for you guys to arrive."

"Alright." Lu Sulan, Can Ye, and Hestia nodded their heads and followed Lou Baiqing to the palace of Narda Principality.

Lou Baiqing led them to the topmost floor of the palace where Demon Empress Ganda was staying.

"Your Majesty, I've brought them here." Lou Baiqing lightly bowed towards the Demon Empress.

"Greetings, Demon Empress Ganda." Lu Sulan, Can Ye, and Hestia greeted the red-haired demon seated on her chair.

Demon Empress Ganda glanced at Lu Sulan and Can Ye for a moment before her gaze stopped at Hestia. Although the Demon Empress didn't use her spiritual power to scan

Hestia's cultivation, the Demon Empress still knew that she was the strongest among her three visitors.

"No need for formalities, Division Head Lu. I'm sorry, but these two are?"

"This is Can Ye, Division Head of our Mission Hall, and this is Elder Hestia." Lu Sulan introduced the two briefly.

Demon Empress Ganda stood up and cupped her fist at them. "I knew that the Heavenly Sword Tower would send representatives in our Hegante City to attend the auction in Narda Auction House. However, I'm not sure which of the auction items does the Heavenly Sword Tower wants."

Lu Sulan smiled at her and said probingly. "The sect master has sent us here to bid for the territory of Poison Valley. I wonder if someone else is also interested in that piece of land."

The Demon Empress' eyes flashed upon hearing her words. Why would the Heavenly Sword Tower desire the territory of Poison Valley? It should be of no use to them, unless if they were planning to construct something in that piece of rich land!

"From what I've heard, there are indeed quite a few major powers that are interested in that land. A peak expert even expressed his interest in that territory." Demon Empress Ganda said with a serious look.

"Peak expert? And who might this be?" Lu Sulan asked curiously.

"You guys might not have heard of him yet since you're not natives here. Everyone calls him Necromancer Emperor!" The Demon Empress said in a solemn tone. She knew that the undead army and the chimera that the Lycan Family and Torgrim Family brought with them during the war came from the Necromancer Emperor. She was wondering what that old demon was planning to do this time.

Lu Sulan haven't heard of that name, but looking at the Demon Empress' expression, it seemed that this Necromancer Emperor was quite formidable. However, she wasn't worried since Hestia was with them.

"Thanks for the information, Demon Empress Ganda. We won't stay here for long since we still have to prepare for the auction. Farewell." Lu Sulan smiled at her.

"No problem. Baiqing, see our guests out." Demon Empress Ganda didn't let them stay when she noticed Lu Sulan's expression. She knew that these guys would start investigating on their own. However, that wasn't her problem, so she didn't plan to stop them.

Lou Baiqing led them outside the palace.

After the three left the palace, Lu Sulan glanced at Can Ye and said. "Junior Brother, I want you to investigate this Necromancer Emperor. Meet with us in this location after your investigation." She pointed at an inn on the map.

Can Ye stared at the map and nodded his head. "Alright. I'll be back right away."

"Be careful." Lu Sulan patted his shoulder.

Can Ye's figure disappeared from the scene.

"Are you worried about this Necromancer Emperor that the Demon Empress talked about?" Hestia asked as she looked at Lu Sulan.

Lu Sulan nodded her head with a frown on her face. "I won't allow anyone to snatch that land from us!"

Chapter 449: Auction Begins!

Knock. Knock. Knock.

A day later, Lu Sulan heard a knock on her door. She stopped cultivating and stood up as she said. "Come inside."

"Senior Sister." Can Ye greeted Lu Sulan.

"What did you discover about that demon?" Lu Sulan asked while looking at her junior disciple. She saw that his expression had suddenly turned serious.

"Senior Sister, that guy was the one who offered the chimera and the undead army to the Torgrim Family and the Lycan Family. I heard it from the mouth of an Elder from the Torgrim Family. He told me that their leader, Stormhoof Torgrim, visited the Necromancer Emperor to get his help. I also heard that this old man was already at the late stage of the Void God Realm fifty thousand years ago! It seems like this guy is quite difficult to handle..." Can Ye frowned as he reported his findings. He had to go back to the Great Demon Empire just to get this information. Can Ye felt that the auction this time would be dangerous if they acted impulsively.

Lu Sulan furrowed her eyebrows as she processed Can Ye's information. She finally realized why the Demon Empress was wary of this Necromancer Emperor. However, Lu Sulan was confident in Hestia's strength!

"It doesn't matter. We must get that piece of land! I promised the master that I can accomplish this. I wouldn't have a face to show if we fail! I don't think he's brave enough

to provoke our Heavenly Sword Tower!" Lu Sulan muttered with a dark look on her face. She wouldn't allow anyone to take that piece of land from her!

Looking at his Senior Sister's determined expression, Can Ye said in a serious tone. "Don't worry, Senior Sister. Even if that guy is strong, Elder Hestia is with us. With my current cultivation, I'm confident that I can battle evenly with a late stage Void God Realm!"

Lu Sulan nodded her head and patted Can Ye's shoulder. "I know. Get Sister Hestia. The auction will begin this afternoon."

"Alright."

Narda Auction House.

Lu Sulan, Hestia, and Can Ye were led towards a VIP room.

"Demon Empress Ganda is treating us well." Can Ye muttered with a smile as he looked at the gorgeous maid that brought them here.

"There are only ten VIP rooms in this auction house. We took one and the other nine are already occupied. The people inside those VIP rooms might have come from major powers, so we have to be careful not to provoke them needlessly." Lu Sulan reminded in a calm voice. She then turned her gaze towards the gorgeous servant and said with a smile. "You can go back. Please thank the Demon Empress for us. We appreciate her hospitality."

The servant nodded her and bowed professionally. "I'll send your message to Her Majesty. Enjoy the auction." She then left their VIP after that.

Not long later, Lou Baiqing walked towards the stage and greeted everyone. "Good afternoon, everyone! We have seventy-six auctioned items waiting for you guys! Everyone knows about the rebellion that happened in the Great Demon Empire, right? Our Narda Principality was lucky enough to join hands with the Bloodfallen Family and the Heavenly Sword Tower to stop the rebellion. After the battle, our Narda Principality earned quite a lot of high level resources! Now, you will all have the chance to acquire these items! I won't make this introduction long anymore! Let me show you the first item! Bring it here!"

Two servants pushed a trolley that had a mystery box on top of it. They then lifted the cloth that covered the box and everyone saw a piece of armor.

"This armor was taken from an Elder of the Torgrim Family. It wasn't in its best condition when our team discovered this armor, but our best blacksmiths were able to repair it to

its peak condition! Our appraiser has already appraised this armor as a Nascent-rank item! The initial price for this armor is two hundred thousand Blood Stones! Everyone's bid increment must be at least ten thousand Blood Stones!"

"Two hundred and ten thousand Blood Stones!"

"Two hundred and twenty thousand Blood Stones!"

"Two hundred and thirty thousand Blood Stones!"

The armor was quite appealing to Nascent God Realm experts, but no one from the VIP rooms made any bid for this.

The armor was bought by a solitary Nascent God Realm expert for three hundred and seventy Blood Stones!

"The next item is ten bottles of Frozen Blood. To those who don't know about this item. It is a type of special poison that was concocted by the poison masters of Poison Valley. Each of these bottles can kill Nascent God Realm experts within a month if left untreated! However, the most effective use for this poison is to hunt savage beasts! If this poison is draped over a weapon and is used to injure a savage beast, they would be in a weakened state!" Lou Baiqing could already sense the murderous gazes sent by savage beasts experts among the guests, but he ignored them. Business is business. He couldn't do anything about it...

"Is it sold by bottle or in batches?" Someone from the crowd asked.

Lou Baiqing smiled and replied. "One bottle of Frozen Blood is worth eighty thousand Blood Stones! Everyone's bid must be at least five thousand Blood Stones higher!"

This poison was very useful for hunters and mercenaries. They were the ones who began bidding for the bottles of Frozen Blood.

In the end, each bottle of Frozen Blood was sold for at least one hundred ten thousand Blood Stones. There was even one bottle that was sold for one hundred and thirty thousand Blood Stones!

The people inside the VIP rooms calmly observed the bidding for the first few items, but nothing seemed to interest them. However, when Lou Baiqing showed the eleventh item, some of them finally took notice.

"For the eleventh item, an Origin-rank dagger from an Elder of the Lycan Family. The initial price is one million Blood Stones and each increment must be at least fifty thousand Blood Stones!"

Chapter 450: Overbearing Necromancer Emperor

There are only a few Origin-rank items and all of them are incredibly precious and sought after by peak experts. Now that such a treasure was being auctioned, how could they remain indifferent?

"One million and two hundred thousand Blood Stones!"

"I bid one million and three hundred Blood Stones!"

The required increment was at least fifty thousand Blood Stones, but these experts from the VIP rooms had no qualms about increasing the bid by hundreds of thousands!

Can Ye chuckled disdainfully when he saw the fierce bidding war for the Origin-rank dagger. He already had his own weapon and it was even more precious than the dagger being auctioned. "These guys haven't seen what a real weapon is..." He muttered in a mocking tone.

Lu Sulan smacked the back of his head and immediately scolded him. "Without the master's guidance and help, would you even have the chance to gloat at those demons? Remember your roots and don't let your success make you forget where you've come from!"

Can Ye rubbed his aching head and nodded his head in embarrassment. "Yes, Senior Sister!"

She was right! Without his master's help, he would have been the same unknown mercenary scavenging and hunting in the ruins or a forest.

The Origin-rank dagger was sold for three million and seven hundred Blood Stones! The solitary experts who were inside the auction house could only shake their heads in jealousy at the wealth of these tycoons...

The following items were also precious and those people inside the VIP rooms began bidding for them. The ordinary ones could only watch as these rich powerhouses increased the bid without even batting an eyelid...

"The Necromancer Emperor is surprisingly quiet in his VIP room. Is he really waiting for the land of Poison Valley?" Lu Sulan muttered with a frown. She was confident with the number of resources they brought. However, the opposing side was someone who lived for thousands upon thousands of years! How could that kind of individual lack money? So no matter how much resources they brought, Lu Sulan still felt threatened.

Can Ye also realized this. "I heard that the skull of the chimera would also be auctioned here. Maybe that old demon would be interested in it. After all, he was the one who created that monster." He said after he remembered an important detail.

"We have no use for that skull, so we won't bid for it. Just let them waste their resources, so our chances of getting the land will increase." Lu Sulan smiled coldly.

Meanwhile, Hestia didn't join their conversation. She merely watched the auction or to be specific, she watched the demons inside the auction house with an icy look. A hint of hatred momentarily flashed in her eyes as she looked at the demons.

"The next item is somewhat special and it comes from the late stage chimera that was killed by the human expert, Lord Ren Shuang!" Lou Baiqing said with slightly red eyes. He then uncovered the item and everyone saw a huge skull! The skull of the chimera was in perfect condition since its head was cleanly cut by Ren Shuang when he killed it.

Everyone gasped in surprise when they saw the giant skull. Even though it was just a bone of the dead chimera, some of the weaker ones felt suppressed when they looked at the skull.

"This chimera skull is worth eighty million Blood Stones and every increment must be at least one million Blood Stones!"

The crowd was stunned by the price of the skull, but those who knew its true value immediately placed their bids. If used correctly, this skull could help them improve their cultivation!

"One hundred million Blood Stones."

An aged voice suddenly echoed from the silent VIP room number two where the Necromancer Emperor was staying and he increased the bid directly by twenty million Blood Stones!

The guests were gobsmacked when they heard the bid, but soon, more people began to bid.

"One hundred and ten million Blood Stones!"

"One hundred and fifteen million Blood Stones!"

The Necromancer Emperor frowned when he heard the bids of the people from the VIP rooms. This skull belonged to his chimera, so this was technically his property. However, Narda Principality took ownership of it and ignored him when he asked for them to return it to him. If not for his wariness towards the Heavenly Sword Tower, he would have already started a massacre in Narda Principality with his undead army!

"It seems like I've stayed hidden for too long that these juniors thought that I've become a soft potato. Hehe." The Necromancer Emperor muttered coldly to himself.

The bidding for the skull continued and it soon reached more than two hundred million Blood Stones! The shocking price of this chimera skull was enough to create a holy land!

The Necromancer Emperor placed his bid coldly. "This old demon bids two hundred and fifty million Blood Stones for this thing. Don't irritate me further young ones. You all know that this thing belongs to me! Let me see who has the guts to outbid me!" He threatened the guests by releasing a bit of his aura.

Everyone felt their chests tightening when the Necromancer Emperor's aura covered the auction house.

Suddenly, a gentle breeze destroyed the old demon's aura followed by the tantalizing voice of the Demon Empress. "Necromancer Emperor Skull, please don't cause trouble here in our Narda Auction House..."

The Necromancer Emperor chuckled in disdain when he heard the warning. "You must be the leader of Narda Principality, but I don't care. A mere mid stage Void God Realm junior dares to act so high and mighty against me? Hahaha! Are you sure that you want to provoke me for something that is not even yours?"

Everyone was nervous when they heard the exchange of words between these two top experts. If they suddenly end up fighting, then they would be caught in the crossfire! That would be terrible!
