Chapter 541: Benevolent Jiu Shen

Jiu Shen observed the battlefield through his spiritual perception. The arrival of the Celestial Paragon Tower's people turned the tables of the war. The Infernals were being pushed back despite their overwhelming numbers. The Celestial Paragon Tower showed its superiority in skills and power!

However, a small group of people dressed in pristine white armor also displayed power that wasn't any less compared to them. They were like a group of tigers slaughtering a bunch of sheep, reaping lives with every strike of their swords.

The allied army was amazed by their prowess that they begin to question the identity of these people.

"They are wearing the same armor as Wine Master Jiu Shen. I think those guys are his subordinates."

"They only numbered in thousands, but the number of Infernals they've killed is almost equivalent to the six great armies! To think that there is actually a hidden force as strong as them! They could even be compared to the high-ranking elites of the Celestial Paragon Tower!"

In the camp of the allied army, the resting soldiers discussed as they watched the brilliance of the Heavenly Sword Tower's people.

A voice grilled with admiration suddenly interrupted their chattering. "They are from the Heavenly Sword Tower. A hidden sect nurtured by Wine Master Jiu Shen. If not for their help, many of my friends would have died."

The soldiers turned their gazes towards the man who had spoken. It was a tall man with blue hair and long pointy ears. This guy was a member of the Ice Elf Race, a rare noble bloodline in the Elven Race.

When the Ice Elf noticed everyone's gazes, he smiled at them and said as he pointed at the insignia on his chest. It was the insignia of the Heavenly Melody Pavilion. "Our Heavenly Melody Pavilion was tasked to give support to the allied army. We were the ones controlling all the Array Formations, but everything was destroyed by the High Chieftain of the Infernals. As the controller of the Array Formations, our soul was

damaged, making us vulnerable. It was then that the Heavenly Sword Tower led by one of their Division Heads emerged and protected us as we retreated."

Everyone felt admiration towards the Heavenly Sword Tower as they listened to the Ice Elf's story.

Meanwhile, somewhere on the battlefield, a gigantic Phoenix suddenly emerged, burning the Infernals with its blazing crimson flames. Its beastly eyes revealed a look of excitement as it ravaged a huge number of Infernals.

Screech!

It flapped its wings and summoned a blazing twister that burned the Infernals into ashes!

This Phoenix was none other than Furion, one of the remaining pure-blooded Phoenixes in existence.

Screeech!!

Furion cried out in delight as he released a breath of flames that incinerated thousands of Infernals in its path. He then flew back into the allied army's camp and transformed into a human form. "Bloody hell! What an exhausting day for me!" He spat out in an exasperated tone.

They have been fighting the Infernals for one day and the allied army had to fight alternately to recover their energies. It was a good thing that they had a huge amount of recovery pills that accelerated their healing.

Furion grabbed a chair and plopped down with an exhausted look. His hair was disheveled, but he didn't even bother to fix it.

"Sir Furion, this is a regenerative pill made by our Heavenly Melody Pavilion. Please take it." A pleasant voice drifted beside his ears as a lithe figure stood in front of him. She was Ai Chen, the Pavilion Mistress of the Heavenly Melody Pavilion.

Furion raised his head and glanced at the outstretched hand. She was holding a small pill that glowed with a golden light.

"Thanks." He grabbed the pill and swallowed it down.

Ai Chen smiled and bowed her head lightly before she left, leaving behind a fragrant lilac scent that lingered in the air.

The Heavenly Melody Pavilion was filled with talented individuals. They accept people who are proficient in their respective fields of study so they had a diverse amount of

talents. The man recognized as the best Alchemist in the Primordial God Realm was even one of their Elders!

"How lucky! He got a pill from Pavilion Mistress Ai Chen!"

"Shut up! Do you not know who that man is?"

"..."

Furion ignored the whispers of the resting soldiers and controlled his true essence to expedite the refinement of the healing pill. He then swept his gaze towards the camp. "Those guys just retreated earlier, but they already went back to the fight again... Are they battle maniacs?" He muttered with a wry smile when he failed to spot the members of the Heavenly Sword Tower.

Jiu Shen held back the urge of killing the Celestial Paragon Tower's members. If he killed them now, the Infernals would gain momentum and the allied army would be in a disadvantageous position. "I'll spare your lives for now. This is also a good opportunity for my subordinates to sharpen their skills." He muttered as he hid behind the dark clouds.

He didn't mind waiting for a bit longer. "I'll just treat this as compensation for helping the allied army." Jiu Shen had a strange smile on his face as he said those words.

Behind the scenes, he also secretly helped the allied army by shooting spiritual attacks on the high-level leaders of the Infernals. He even prevented the death of many soldiers by simply summoning a bit of his power. Of course, he still prioritized the safety of the Heavenly Sword Tower.

Although Jiu Shen had already become strong enough to single-handedly defeat Lao Gou and the Celestial Paragon Tower, he wanted to see his subordinates grow stronger along with him. He had experienced the deaths of his family and friends in his past life and he didn't want to experience the same pain.

Jiu Shen vowed that he would live a happy life with them after he destroys Lao Gou.

Chapter 542: Support

Experts and major powers from all over the Primordial God Realm soon came to reinforce the allied army. Their arrival slowed the momentum of the Infernals and they even showed signs of retreating.

After five more days, the Infernals lost their courage and returned to Hell. They lost billions of their warriors and their High Chieftain was even killed! It was a disastrous loss for them and it might take them another millions of years before they could stage a comeback.

"We won!"

"Victory! Hahaha!"

"YEESS!!!"

Everyone cheered as they watched the Infernals retreat back inside the entrance. They raised their bloodied weapons and cried out emotionally.

Jian Wang swept his gaze among the army, but he failed to discover Jiu Shen. He furrowed his eyebrows and used his spiritual perception to observe the entire desert region.

"Where is he? Was he injured in his fight with Wuka and recuperated somewhere else?" Jian Wang muttered with a perplexed look.

Swoosh!

Jian Wang's eyes narrowed as he swiftly held the handle of his sword and turned his gaze behind him. When he saw the familiar face, his face stiffened. "I thought you're recuperating somewhere. How did you hide your presence from me?" He could not help but ask.

Jiu Shen chuckled when he saw the confusion written all over Jian Wang's face. "Because I'm stronger than you." Jiu Shen replied as he patted the man's shoulder.

Jian Wang scoffed when he heard his words, but he still contemplated it deeply. It might be possible.

"Let's go and meet everyone." Jiu Shen walked toward the cheering army and Jian Wang unconsciously followed behind him.

"Vice Sect Master, our subordinates haven't discovered Jiu Shen yet. Should we begin by killing his people?"

The old man, Valir, shook his head. "No! Absolutely not! The Heavenly Sword Tower is well respected in the allied army. There might be only thousands of them, but they contributed the most number of kills other than the six great armies and our Celestial Paragon Tower. If we try to kill them now, the allied army would protect them."

Valir was inwardly surprised by the power of the Heavenly Sword Tower. All of their members were at the level of elites comparable to the best of their Celestial Paragon Tower's army. The people leading them were also heroes with great power and charisma. It would be difficult to kill them without the allied army noticing.

Valir glanced at his subordinates and issued a command. "Inform the Sect Master that we will abandon the mission. Tell him that I will bear the consequences and accept punishment from the Celestial Emperor!"

The faces of his subordinates fell when they heard his words. "Vice Sect Master!"

How could they not understand Valir's words?

The Heavenly Sword Tower has gained the acknowledgment of the major powers from all over the world. Making a move against them at a time like this was akin to provoking the entire allied army. Not to mention that there was also the variable called Jian Wang.

They couldn't believe that the supreme existence that they revered would actually make such a foolish decision.

He sent the army of the Celestial Paragon Tower to kill an old enemy without even thinking about the repercussions it would cause to the great reputation of their sect.

"Vice Sect Master! The Celestial Emperor's words are absolute! We can't go against his commands! Even if we die, we have to complete his orders!" One of his subordinates revealed a look of fanaticism.

"That's right! Even if we die in the process, it doesn't matter!"

"The allied army wouldn't dare support the Heavenly Sword Tower. Helping them would make them an enemy of our Celestial Paragon Tower!"

Valir sighed in disappointment upon hearing their words. He glanced at his subordinates, but none of them chose to listen to him.

"Vice Sect Master, please lead us in killing the Heavenly Sword Tower!"

Valir stared at them with a forlorn expression. These were the people that he had supported for many years, but he felt that they were unfamiliar at this moment. 'It seems like the world truly wants this old man to die...'

He was wholeheartedly devoted to the Celestial Emperor, but he couldn't believe that the man he admired the most would actually send him to die.

Valir calmed himself and raised his head.

'In that case, I shall follow your wishes for the last time, Celestial Emperor...' He muttered in his heart.

With a solemn look, Valir roared. "Kill the Heavenly Sword Tower! Kill Jiu Shen!"

"Kill!"

"Kill!"

The jubilant looks of the allied army fell when they heard the roars of the Celestial Paragon Tower's army.

"Hey! What's happening? Why is the Celestial Paragon Tower hostile to the Heavenly Sword Tower?"

"I don't know, but it seems that they are very determined to destroy them."

The allied army was hesitant to intervene in their conflict. The Celestial Paragon Tower was controlled by Celestial Emperor Lao Gou. They were reluctant to offend such a figure.

Among the six great armies, Ri Kushou of the Armored Wyvern Army and Ai Chen of the Heavenly Melody Pavilion chose to stand with the Heavenly Sword Tower. They were recipients of the Heavenly Sword Tower's help during the war.

"What is the meaning of this, Vice Sect Master Valir?!" Ri Kushou stepped down from his wyvern and glared at Valir. This man was the Great General of the Armored Wyvern Army, a renowned force in the Primordial God Realm.

Ri Kushou was from the Beastman Race. His bloodline was ordinary, but he grew to become a peak expert because of his effort and willpower.

He had a buff physique reminiscent of a ferocious lion! His sharp eyes looked at Valir and the Celestial Paragon Tower's army. Behind him were the elites of the Armored Wyvern Army.

Ai Chen was silent, but she stealthily commanded the Heavenly Melody Pavilion to support the Heavenly Sword Tower.

Valir frowned when he saw Ri Kushou and Ai Chen standing up for their enemy. "Do you plan to go against the Celestial Paragon Tower?"

Chapter 543: Furion's Provocation

The faces of Ai Chen and Ri Kushou stiffened upon hearing the old man's words.

The Celestial Paragon Tower was many times stronger than the six great armies. The army that Valir brought with him was only a small part of their forces. They are in control of many subordinate races and elite top experts. Not to mention that Celestial Emperor Lao Gou was supporting them!

When Valir saw their expressions, he let out a cold smile as he said. "The Heavenly Sword Tower is an enemy of the Celestial Emperor Lao Gou. It is our task to eliminate them including their leader, Jiu Shen!"

"What?!"

"No way! We can't allow that to happen!"

"Wine Master Jiu Shen killed the High Chieftain of the Infernals, preventing major casualties in the allied army! How could we allow you to do as you please here?!"

This time, everyone in the allied army became agitated. They admired Jiu Shen who was capable of killing a Celestial God Realm.

Tsk!

Valir clicked his tongue. He already expected this scene to happen.

Just as he was about to retort, a figure suddenly walked beside Valir.

"Sect Master Telu!"

"Sect Master Telu is here! That means Celestial Emperor Lao Gou is placing great importance on this matter!"

Telu arrived at the scene with tens of thousands of subordinates. He had a cold expression on his face as he swept his gaze towards the allied army. "This will be your final warning! Stay out of this or you will be hunted by the entire Celestial Paragon Tower until all of you are killed!"

Everyone took a step back when they sensed the overwhelming aura of Telu. Despite his cultivation being similar to Valir and the six great leaders, Telu's strength appeared to be superior to them!

Ai Chen gritted her teeth, but she didn't back down. Sweat formed on her forehead as she stared deeply at Telu. This man was many times stronger than her!

Great General Ri Kushou frowned, but he remained still. The threats from Valir and Telu seemed to be ineffective to him. He was a man who valued favors and camaraderie. 'Brothers, if we die here, I will apologize to you guys in Hell!' He shouted in his heart.

Clap! Clap! Clap!

A series of clapping sounds broke the heated atmosphere. Everyone turned their gazes and saw a middle-aged man with red hair looking at Telu with a smile. "Indeed the son of Celestial Emperor Lao Gou! A tiger father wouldn't have a dog son! Hahaha!" His words were full of hidden meaning.

'Furion, a Phoenix that was always seen together with Jian Wang. A difficult opponent...'
Telu muttered to himself. He had to be cautious toward this man.

"Furion, do you plan to stand with those fools?" Telu had to be careful about this guy since the man was Jian Wang's trusted aide.

"Hahaha! What do you think?" Furion winked at him with a mocking voice.

Telu's mouth twitched when he saw the disdainful look of the Phoenix. He could barely repress his anger at this point. "Do you really think that I'm afraid of you? Even if you join them, I can still handle all of you combined!" He shouted confidently.

No one denied his words. Telu was indeed among the strongest experts beneath the Celestial God Realm.

"Is that so? Then prove to everyone that you truly possess such power!" Furion released his true essence and a violent crimson flame covered his body.

The sand beneath his feet issued a 'kaka' sound as it slowly burned under the immense heat of his flame.

Hm?

Telu was a bit surprised by the sudden show of power. He thought that Furion wouldn't make a move, but it seems like the man was planning to fight against him when he saw Furion's battle intent.

In truth, Furion didn't plan to provoke Telu. However, he received a message from Jian Wang earlier. The content of the message was like this. (Furion, we must stand with the Heavenly Sword Tower.)

The message was short, but it was enough to show Jian Wang's opinion on this matter. Furion was even excited when he heard the message.

'He's finally planning to fight Lao Gou! I've been dreaming to see that old man Lao Gou beaten to a pulp! That guy is too arrogant, flaunting his power as a Celestial Emperor!' Furion laughed in his heart.

Telu grabbed his weapon and pointed it toward Furion. "Since you want death, I'll grant your wish!" He roared.

Telu executed a movement technique to close in towards Furion. He then swung his weapon which was coated with his true essence. Its sharpness was enhanced multiple times and it was capable of cutting the body of divine beasts!

Furion's expression turned serious when he faced Telu's attack. The man was arrogant, but his power wasn't fake. It would be difficult for him to defeat Telu even if he ignited his divine bloodline.

Furion quickly summoned a pair of flaming wings to protect his body from the attack.

Bang!

Crash!

Sand and raging winds broke loose after that violent strike!

Everyone shielded their eyes using their spiritual perception.

They hurriedly retreated to prevent getting caught up in the battle. They couldn't afford to provoke any of the two sides so they could only watch the fight helplessly.

Meanwhile, Valir commanded the Celestial Paragon Tower to charge forward.

"Kill them!" Valir shouted as he pulled out a pair of giant hammers.

"Kill!"

"Kill!"

The desert region was once again filled with sounds of battle and weapons clashing.

A blonde beauty wearing black armor led the Heavenly Sword Tower. Although she was only a late stage Heavenly God Realm expert, she was able to fight Valir who has a slightly higher cultivation than her evenly!

Her swift sword strikes were filled with elegance and ferocity. Valir could barely block her sword with his hammers.

"Dammit! Who is this little girl?!" The old man gritted his teeth as he nervously looked at Theia's cold expressionless face.

Chapter 544: The Ancient Fairy and the Eonic Ragarwood Tree of the Southern Region

Standing on top of the clouds, Jian Wang and Jiu Shen watched the battle using their spiritual perception.

Jian Wang stared at the indifferent Jiu Shen and asked him. "Are you really not going to help them?"

The Heavenly Sword Tower might be strong with the help of Ai Chen's Heavenly Melody Pavilion and Ri Kushou's Armored Wyvern Army, but the Celestial Paragon Tower led by Valir and Telu was not an easy opponent.

Jiu Shen was still calmly observing the fight down below as he replied. "No. I trust that they can overcome the Celestial Paragon Tower. Besides, I have an important place to visit..."

Jian Wang's eyes narrowed upon hearing his words. "You mean... You want to fight him alone?!"

He was shocked when he realized Jiu Shen's intention. Even Jian Wang didn't dare underestimate the current Lao Gou. After all, he possesses the Celestial-rank item of Hestia's race, the God Sealing Tower!

Jian Wang was unsure if he could escape the sealing power of that item.

Jiu Shen's eyes suddenly turned cold as he muttered with overwhelming killing intent. "I have to kill him!"

Jian Wang almost grabbed his sword when he sensed Jiu Shen's desire to kill. It was merely a subconscious reaction, but he was stunned that Jiu Shen could make him feel this threatened.

'It looks like he wasn't lying when he told me that he is stronger than me...' Jian Wang thought to himself.

Jian Wang relaxed his tension and asked. "Are you confident that you can defeat him?"

Jiu Shen chuckled coldly as he turned his gaze towards him. "You'll find out soon."

Jian Wang was at loss for words. Before he could say anything more, Jiu Shen's figure suddenly vanished.

Sigh!

"I wish you luck, my friend..." Jian Wang whispered softly.

Lao Gou sat on his throne as he watched the battle between the Celestial Paragon Tower's army and the Heavenly Sword Tower through a Visual Array Formation. He kept his sights on a cold-faced blonde woman.

Her sword techniques were familiar to him. Her mannerism, the way she moves, the intense frostiness in her gaze.

Everything was familiar to him.

Lao sat up straight as a thought struck him. "Theia..." He muttered a name.

His eyes revealed a hint of affection, but it soon turned into rage and malice. "That fucking slut has been reborn as well! Good! Good! Good!"

Lao Gou laughed hideously as he watched Theia in the virtual projection. Hate covered his eyes as he recalled the memories of the past. He took out his communication crystal and said. "Capture the blonde-haired woman leading the Heavenly Sword Tower alive! Make sure that her body isn't harmed or I'll kill all of you!"

"Y-Yes, Celestial Emperor!" A terrified voice sounded through the crystal.

Lao Gou crushed the communication crystal and smiled eerily. "First, I will incapacitate Jiu Shen and defile that slut in front of him! I wonder what kind of lovely reaction he would show me by then! Hahaha!"

His perverse laughter echoed inside the huge room.

Jiu Shen controlled the power of space with great familiarity. The distance between the Central Region and the Desert Region was vast, but it wouldn't take him long to reach that place with his current power.

The space around him cracked as he increased his speed.

Jiu Shen repressed his killing intent. He might be consumed by a strong Heart's Devil if he allowed his killing intent to cloud his judgment. The stronger a person was, the stronger their Heart's Devil would be.

"Lao Gou's spear arts has already reached the strongest levels. His fighting prowess might be weaker compared to Jian Wang's, but with the help of the God Sealing Tower, even Jian Wang would have to retreat." Jiu Shen calmly analyzed Lao Gou's power using his last memory of him.

"Among the four Celestials that I've encountered, Wuka is at the early stage. Asmodeus is at the mid stage, but his refined control of Array Formations would make him equal to a late stage Celestial. As for Lao Gou and Jian Wang, they are at the late stage Celestial God Realm just like me."

While Jiu Shen was thinking about Lao Gou's power, his field of view changed. He saw a vast mountain range filled with lush greeneries and tall massive trees. He had reached the outskirts of the Southern Region.

This place was the territory of many Elven Races and Forest Druids. This area was quite dangerous even for top experts, but it didn't pose a threat to Jiu Shen.

Jiu Shen suddenly frowned as he stared ahead of him. "A member of the Ancient Fairies..." He muttered as he stared at the figure sitting atop a branch of a huge tree that pierced the clouds.

This tree was the only mature Eonic Ragarwood Tree in existence! (Its branch was the main component used in making the door of Jiu Shen's Spirit World)

Jiu Shen slowed down his flight speed and stopped before the Eonic Ragarwood Tree. He glanced at the blurry silhouette hidden behind the leaves of the gigantic tree.

A burst of alluring laughter suddenly drifted to Jiu Shen's ears. It was followed by an enchanting voice that could even ensnare the hearts of gods. "The Eonic Ragarwood Tree is apprehensive of your power. It only showed this kind of reaction when Celestial Emperor Lao Gou forced us to give him a seed of the Eonic Ragarwood Tree and a huge amount of Undying God Spring."

She was silent for a moment before she continued. "You must be a Celestial just like him. You have a murderous sword aura around you, but Jian Wang's sword aura isn't similar to yours. Asmodeus also doesn't use a sword. That means you are a fourth Celestial..."

For some reason, Jiu Shen could sense that the blurry figure was smiling.

"I don't have time to waste on you. Stay out of my way." Jiu Shen muttered calmly, but he was also shocked when he discovered the other party's power. He had

underestimated the hidden powers of the Primordial God Realm. There actually exists an expert who was at the level of the Celestial Emperors hidden in this region!

The blurry figure didn't seem to be afraid of him. She moved closer to Jiu Shen and slowly revealed her true form.

She was a woman in her mid-twenties with long snow-white hair. She had three pairs of transparent golden wings. Thin blue clothing covered her body, but it could barely hide her bewitching figure.

She smiled and her long white eyelashes fluttered as she kept her gaze towards Jiu Shen.

Chapter 545: Celestial City

"My name is Elena, the matriarch of the Ancient Fairies and the guardian of the Eonic Ragarwood Tree. Aren't you going to at least tell me your name?" She introduced herself briefly with a captivating voice. Her golden wings gently flapped as she hovered closer to Jiu Shen. She didn't even put up any defensive skill as she neared him.

"Jiu Shen." He muttered calmly as he looked at her face. She was indeed beautiful. She could rival Theia in terms of beauty alone, but this didn't affect him in the slightest.

When Elena heard his name, she revealed a look of surprise. "Eh? It seems like we are truly bound by fate..." She giggled as she covered her mouth with her hand. Even her small gestures were full of allure and charm.

Jiu Shen frowned upon hearing that. "I'm sorry, but I'm in a hurry. Please make way." He said with a hint of impatience. He couldn't wait to teach that old dog a lesson that he will never forget!

A look of understanding flashed in her eyes when she saw the expression of the man in front of her. She smiled as she nodded her head gently. "Alright. I would be grateful if you manage to defeat him."

Jiu Shen wasn't surprised that she knew what he was about to do. His name alone was enough to tell him about his identity.

The most hated man by Celestial Emperor Lao Gou. A man who was sealed in the God Sealing Tower for millions of years.

Jiu Shen was going to the path that leads to the Central Region. With her wits, she knew that Jiu Shen was out for revenge.

"Please don't destroy the forest with your powers. You've been recklessly using the power of space since you came into this forest. That's why I came out to warn you." Elena grumbled.

Hearing this, Jiu Shen nodded his head apologetically. "I see. I will be careful." He then flew away. He didn't rashly use the power of space this time since it would damage the nearby trees.

When he was out of the forested area of the Southern Region, Jiu Shen's speed erupted by a dozen times. "Elena... I didn't think that there is actually a fourth Celestial hidden all this time. That means I'm the fifth person."

"The power that Elena possessed was a bit stronger than Wuka. She should be at the mid stage Celestial God Realm just like Asmodeus, but with the support of the Eonic Ragarwood Tree, she could rival a late stage Celestial."

"Even with her power, she was still defeated by Lao Gou. The small sapling of Eonic Ragarwood Tree I saw in his room back then must have come from Elena and also the Undying God Spring..."

Soon, Jiu Shen could finally see the majestic view of the Central Region. He saw many towering castles and huge fortresses. The buildings and establishments here were also more well-designed. Even the people living here were a lot stronger than in the other regions.

9th-rank Saints were as numerous as the sand and even Nascent God Realm experts could only become servants to the true powerhouses!

In the Celestial City of the Central Region. This was the city established by Celestial Emperor Lao Gou many eons ago.

Millions of people swarmed the streets, but the city still seemed spacious despite the large number of tourists and pedestrians.

Jiu Shen didn't stop to admire this beautiful scenery. He went straight into the heart of the city where he saw an enormous golden tower that pierced the skies.

Trained guards dressed in flashy golden armor patrolled the clouds. They looked at the people living in the city with contempt.

Suddenly, the guards noticed a lone figure flying steadily towards the golden tower. Upon seeing this strange man, the guards immediately surrounded the man and glared at him coldly. "No one is allowed to fly in the territory of the Celestial Paragon Tower! Anyone who breaks this rule will be detained for a hundred years in the Cold Ice Prison!"

Cold Ice Prison.

A notorious place where heinous criminals from all over the world were kept. No one wanted to be imprisoned in such a place.

Jiu Shen didn't even bother to glance at the guards. He kept his gaze straight towards the peak of the golden tower. His golden eyes seemed as if they could penetrate the void.

The guards felt a chill when they saw his golden eyes.

"Intruder, go down this instant and I will allow you to leave this place unharmed." A middle-aged man who seemed to have a higher prestige among the guards said with a cautious tone. He could sense that this silver-haired young man was capable of killing them in just a second. This was what his instincts were telling him!

Jiu Shen flicked his finger, sending the middle-aged guard flying like a broken ragdoll. His fate was unknown...

The guards became silent when they witness this absurd scene. That guard was a Supreme God Realm expert, but this man sent him flying with just a flick of his finger!

Their expressions turned cold as they cautiously backed away. They also took their communication crystals and asked for more backup.

"We need reinforcements here! It seems like this intruder is a Heavenly God Realm expert!"

Jiu Shen walked in midair as he looked at the golden tower. The dozens of guards around him didn't even dare to get close to him.

A huge black sword with golden archaic carvings suddenly appeared behind his back. It was a stark contrast to his white robes.

"Intruder, you've ignored the warnings of the golden guards! Your imprisonment in the Cold Ice Prison will be extended by a thousand years! Capture him!" An old golden guard roared as he pointed the tip of his sword at Jiu Shen. Behind him were hundreds of golden guards holding their weapons with hostile gazes.

"Lao Gou, I will commemorate our reunion with the heads of these ants..." Jiu Shen muttered callously.

Chapter 546: Jiu Shen is Back!

The old golden guard together with hundreds of his subordinates surrounded Jiu Shen carefully.

The silver-haired human still looked unperturbed despite being surrounded by them. This unnerved the golden guards and they couldn't help but tightly hold their weapons.

"Attack!" The old golden guard roared as he pounced. A terrifying force was gathering at the tip of his sword.

The golden guards followed their commander and leaped towards Jiu Shen. Their faces were grim as if they were facing a prehistoric savage beast.

All forms of attacks were targeting him, but Jiu Shen remained floating in midair with an expressionless face.

He calmly swiped his hand at a speed that was indiscernible even to the top experts.

A rain of blood followed his casual movement as the decapitated heads of the golden guards flew off from their bodies.

A layer of formless energy covered his figure that prevented the rain of blood from staining his white robes.

Jiu Shen took a huge chest and placed all the decapitated heads inside. The bloody heads inside the chest looked horrifying.

"That's him! He killed our comrades! Kill him!"

"Die!"

Jiu Shen raised his head and saw thousands of golden guards. All of them were strong and there were even a few Heavenly God Realm golden guard generals among them.

"It looks like I would need more chests..." He smirked.

The golden guards were incensed when they saw Jiu Shen smiling at them weirdly. They thought that he was mocking them.

"Kill him! Avenge our comrades!"

The golden guard generals were also enraged by Jiu Shen's behavior. They were the golden guards tasked to protect the Celestial Paragon Tower. It was an honorable position coveted by many people, but it seems like this man didn't think highly of them.

This time, Jiu Shen used a spell. He snapped his thumb and middle finger as he muttered. "Descent of a thousand swords..."

The golden guards felt a disturbance above them and they noticed the emergence of more than a few thousand swords. The shocking sight made them abandon their plans of attacking Jiu Shen.

"What is that?!"

"Defensive formation! Quick!"

The golden guards were well-trained and they immediately set up a defensive formation. However, Jiu Shen merely chuckled when he saw this futile attempt. "Release..." He whispered.

The thousands of swords produced keening sounds as they shot toward the golden guards at breakneck speed.

This time it was a rain of swords coming from the sky.

The golden guards revealed looks of despair when they sensed the fearsome power behind each sword.

Puchi!

Puchi!

Puc...

...

"Eh? I destroyed some of their heads. What a pity..." Jiu Shen muttered in regret when he saw that some of the golden guards had their heads penetrated by the swords.

Thousands of golden guards fell under the onslaught of the swords. They couldn't even scream as they died abruptly.

A smiling Jiu Shen took their heads and stuffed them inside the chests that he had prepared.

"That old bastard is still unaware of my arrival. It seems like he is still underestimating me..." He chuckled as he looked at the peak of the golden tower that was hidden behind the clouds.

He could sense the arrival of more powerful experts. The Elders and elite disciples of the Celestial Paragon Tower have finally made their moves!

A look of delight can be seen on Jiu Shen's face when he sensed their presence.

More than a dozen old men wearing golden robes slowly descended from the sky. Tens of thousands of elite disciples followed them and more than a million golden guards also came into view.

"What a warm welcome..."

"Celestial Emperor, an intruder has killed thousands of our golden guards outside the tower. He seems to be strong and he has already killed a few of our Heavenly God Realm experts." An Elder reported to Lao Gou with a grim expression.

Lao Gou frowned as he glanced at the Elder with a displeased look. "You bunch of fools can't even handle a random intruder!"

The Elder could only lower his head when he saw the Celestial Emperor's raging look. "I've already dispatched the Elders and the elite disciples to take care of him. A million golden guards are also on standby in case something happens."

This time, Lao Gou finally took this matter seriously. A man who could force the Celestial Paragon Tower to summon a dozen Elders and a million golden guards was unheard of. Wait. There was one such person before...

Lao Gou's expression darkened considerably as he recalled the face of that man. He waved his hand and dismissed the Elder to hide his agitation. "Leave and kill that man immediately!"

The Elder noticed the coldness in his voice. He bowed his head and said. "Yes, Celestial Emperor!"

Familiar faces surrounded Jiu Shen.

These were the same people that hunted him back then.

"How nostalgic..." A calm voice drifted from the man with long silver hair. He seemed unaffected despite being surrounded by the top experts of the Celestial Paragon Tower.

He had a light smile on his face as he swept his gaze toward the Elders.

"Have you forgotten me, my old friends?" A deep raspy voice drifted into their ears.

For some reason, everyone felt a chill when they heard his words.

The Elder who came to report to the Celestial Emperor earlier slowly hovered opposite the silver-haired man. "Who are you? Why are you attacking the golden tower?!" He asked in confusion.

The man became silent when the Elder asked him that, but he suddenly laughed in a crazy manner.

When his laughter stopped, he raised his head, showing a handsome face that was warped with fury and madness. "Dogs of Lao Gou, listen carefully! I, Jiu Shen, am back!"

The faces of everyone took a drastic change when they heard his words.

Jiu Shen.

It was a name that they would never forget. Because of him, the Celestial Paragon Tower entered a weakened state for a million years.

"Jiu Shen!"

Chapter 547: Scary Jiu Shen

"Dogs of Lao Gou! I, Jiu Shen, am back!"

A powerful voice filled with profound hatred reverberated throughout the entirety of Celestial City.

Many of the weaker people collapsed and the others groaned in pain.

"W-What was that?"

"W-Who is that guy?"

"Jiu Shen? How come this name is familiar?"

The stronger experts quickly adjusted themselves after they heard Jiu Shen's roar.

They couldn't believe that someone actually had the guts to provoke the Celestial Paragon Tower. They wondered who this person who called himself Jiu Shen was.

Meanwhile, outside the golden tower.

The Elders, elite disciples, and golden guards of the Celestial Paragon Tower stared at Jiu Shen with stunned faces.

The new members were confused by the sudden turn of events, while the older members revealed looks of surprise and agitation.

"Jiu Shen!" An aged voice echoed.

Everyone stared at the Grand Elder. (He was the same Elder who came to report to the Celestial Emperor earlier about the intruder.)

An old figure with long ash gray hair that reached his waist. He had a pair of eyes that was still clear despite his old age. This was the Grand Elder of the Celestial Paragon Tower, Geralt. A figure whose status was only beneath the Sect Master and the Vice Sect Master.

Dressed in a set of golden robes with exquisite embroidery, the Grand Elder hovered in front of Jiu Shen like an old specter. His figure was covered in golden true essence as if he was wary of the man in front of him.

Grand Elder Geralt's face turned dark as he faced the silver-haired human. He failed to recognize Jiu Shen's identity earlier since the man's appearance was way different in the past, but now that he took a clearer look at his golden eyes, the old Grand Elder finally noticed the similarities.

"It is indeed you, Jiu Shen! To think that you're still alive even after being trapped in the God Sealing Tower! Your life is as tenacious as a cockroach!"

The old man tried to sound domineering, but unconsciously lowered his gaze when he met Jiu Shen's golden eyes.

Scary.

The old man felt nervous in his heart, but he couldn't show his fear in front of their members.

"Geralt, it seems like you have regrown your limbs and even your eyes have fully recovered. However, do you really think that you can stop me just because you've recovered?" It was a voice that was filled with mockery and derision.

The eyes of the Grand Elder trembled when he heard Jiu Shen's words.

That's right. When they were tasked to capture Jiu Shen back then, many of their elites were killed. At that time, Jiu Shen was like an invincible war god who killed everyone with his sword. The Grand Elder had his limbs cut off and his eyes were also plucked by Jiu Shen. If not for the arrival of the Celestial Emperor, he would have died right there.

Grand Elder Geralt concealed the fear in his heart and raised his head to look at Jiu Shen's face.

The man's face was indifferent just like it was before. He hasn't changed.

"Jiu Shen, no matter how strong you are, you can't defeat the entire Celestial Paragon Tower by yourself! And even if you defeat us, the Celestial Emperor will avenge us and seal you once again in the God Sealing Tower!" The Grand Elder shouted back.

The shoulders of Jiu Shen were visibly trembling.

Grand Elder Geralt thought that Jiu Shen was scared when he mentioned the Celestial Emperor, but when he squinted his eyes, he saw Jiu Shen smiling weirdly. 'Did he become crazy?'

"Are you afraid-" Before the Grand Elder could even finish, his head was suddenly detached from his body!

The figure of Jiu Shen was now behind the headless corpse of the Grand Elder. In his hand was the bloodied decapitated head of the old man.

Silence...

Only the light rustling of winds could be heard in the surroundings.

Jiu Shen stared at the head in his hand and placed it inside a chest. His expression couldn't be seen since he was looking down at the head.

Everyone absentmindedly watched as he quietly placed the head of their Grand Elder inside an old wooden chest.

They were horrified when they saw countless bloody heads inside the chest.

'This man is scary.' They thought.

A few minutes earlier.

Lao Gou was in his room, busy thinking about how he should desecrate the body of Theia. A perverted smile can be seen on his face.

"Oh, Theia! My love beautiful wife! Your husband will welcome your return with a big surprise!" He muttered with his eyes closed.

Suddenly, a clear knocking sound from the door was heard.

The Celestial Emperor frowned and suppressed his perverted desires. "Come inside."

The one who came was Geralt, the Grand Elder of the Celestial Paragon Tower.

He reported about an intruder who had trespassed the territory of the golden tower.

Geralt mentioned that the intruder has killed many of their golden guards.

Lao Gou was angered that his time was wasted on this nonsensical report. He didn't care about the death of those golden guards at all. It was their fault that they had died at the hands of someone.

After scolding the Grand Elder, Lao Gou dismissed him with an exasperated look.

"Yes, Celestial Emperor!" Grand Elder Geralt left and the room regained its silence.

"Useless bastard! They even had to report such a minor matter to me! A bunch of trash!" Lao Gou slammed the armrest of his throne. Rage was slowly building up on his face.

He slowly leaned on his throne and massaged his temples, but a loud resonating voice made him jump up in shock.

"Dogs of Lao Gou! I, Jiu Shen, am back!"

His soul was in turmoil when he heard the familiar voice.

The face of Lao Gou changed and it became terrifyingly cold.

Lao Gou gritted his teeth and balled his hands into fists.

"JIU SHEN!"

Chapter 548: Lao Gou Consumed by His Heart Demon

Lao Gou abruptly stood up, apoplectic with rage. His body trembled and his fierce-looking eyes narrowed with killing intent.

The floor beneath his feet was covered in cracks as the intensity of his aura exploded like a violent storm!

He could hear the loud explosions outside the golden tower, but with his mind clouded by rage, he ignored what was happening.

Bang!

Bang!

The lofty golden tower shook as the battle outside intensified.

Lao Gou's mind was in a mess and even his 4th level Heart Realm couldn't stop the raging emotions within him.

Heart Demons...

Lao Gou was consumed by his Heart Demons in his moment of fury and he wasn't even aware of this. His consciousness had already merged with the crazed instincts invading his mind.

Booom!

A large hole was blown at the side of the throne room and a lone figure dressed in white robes entered with an expressionless look. He then took out a dozen wooden chests filled with decapitated heads. Blood leaked out from the gaps of the box, filling the throne room with a nauseating scent of death.

Jiu Shen raised his head and stared at Lao Gou. His golden eyes were covered in a profound glow. Jiu Shen squinted his eyes when he saw the deranged look of Lao Gou. He then let out a mocking smile as he muttered. "A Celestial that allowed himself to be consumed by his Heart Demons. Impressive! Truly impressive!"

Lao Gou tilted his head towards Jiu Shen. He sent a bone-piercing glance towards the man, but Jiu Shen merely smiled upon seeing this.

"Did you like my gift, old dog?" His voice was gentle as if he was meeting a friend, but there was a freezing coldness in his gaze.

GRR!

ROARR!!

Lao Gou let out a roar similar to the howls of maddened savage beasts!

A golden spear appeared in his hand as he lunged forward.

The golden spear in his hand emitted a sacred golden light that was filled with archaic power.

Jiu Shen grabbed the sword behind his back and deflected the spear thrust.

Boom!

His long silver hair and his white robes fluttered under the violent collision of their weapons.

The walls of the throne room slowly crumbled, destroying the once majestic image.

"So you've also reached the late stage of the Celestial God Realm. I thought that you would be weaker than Jian Wang, but you didn't disappoint me, Lao Gou!" Jiu Shen

said with a wide smile on his face. He thought that their battle would be a one-sided one, but from the looks of it, Lao Gou who was consumed by his Heart Demon could at least put up a decent fight.

Lao Gou glared at Jiu Shen and twirled his spear before plunging it.

Swoosh!

Lao Gou summoned a barrage of spear thrusts that left thousands of afterimages.

Swoosh!

Bang!

Jiu Shen rolled to the side and evaded the blade of the spear.

He was impressed by Lao Gou's weapon. When he observed it, Jiu Shen realized that the spear was a Celestial-rank weapon!

With a length of three meters and a slightly curved blade, this spear looked similar to an ancient guandao.

"That spear..." It was a weapon that couldn't be made by normal means. No Weapon Maker was capable enough to create such a powerful spear. That means his spear was something that was made eons ago.

Jiu Shen believed that Lao Gou must have found the golden spear in a Spirit World. 'Lucky bastard...'

Swoosh!

Jiu Shen carefully deflected the spear strikes while maneuvering himself into a more suitable position for a counterattack.

ROOARR!

Lao Gou gathered his true essence into his spear and summoned a fearsome golden dragon spirit.

The incorporeal golden dragon roared and opened its gaping mouth.

Several clusters of golden lights converged in the mouth of the dragon spirit. It then fired a golden beam towards Jiu Shen.

The powerful energy from the golden beam made Jiu Shen feel threatened. He gathered his true essence as he raised his sword.

BAANG!

Jiu Shen was thrown outside of the golden tower. He spun in midair to stabilize himself.

There was no injury in his body and he seemed to be unaffected even after receiving that attack.

"Not bad!" He muttered with a smile as he watched the imposing golden tower slowly collapse.

An incorporeal golden dragon emerged behind the clouds of dust.

Lao Gou stood on top of the dragon's head with the guandao in his hand.

He looked back at the broken golden tower, and his eyes regained a trace of clarity upon seeing the sorry sight. He then turned his gaze towards Jiu Shen who was looking at him.

"KILL!"

Lao Gou pointed his spear forward and urged the golden dragon to increase its speed.

ROAARR!

Jiu Shen skillfully brandished his sword as he muttered. "Frigid Dragon Sword Flash..."

A distinct draconic cry echoed as an icy blue dragon spirit emerged and clashed with Lao Gou's golden dragon.

BOOOMM!

Lao Gou hurriedly retreated and flew off when he sensed the danger.

Gold and blue fragments of light fell to the ground.

The figure of two people hovered in midair. Their clothes fluttered along with the wind.

The one thousand-kilometer area around them had already become a scene of chaos.

Shattered mountains, broken trees, and dead savage beasts littered the ground.

Only the fierce blowing of wind can be heard around them.

Jiu Shen was the one who broke the silence. "Lao Gou, even with your Celestial-rank weapon, you still can't defeat me! If you don't use the God Sealing Tower now, you will die in just a few moves!"

His sharp words reverberated throughout the entire Celestial City.

The remaining inhabitants who managed to stay conscious during their battle shivered as they stared at the skies.

They could only see two small dots hovering behind the clouds.

Everyone couldn't believe that there was actually someone who could fight evenly against Celestial Emperor Lao Gou other than Jian Wang and Asmodeus.

"Let's leave this place! Quick! We would only die if we remain here!"

"We're done for once they begin fighting again! Run!"

Chapter 549: The Greatest Mystery

Jiu Shen eyed Lao Gou like a wolf staring at its prey.

He has been holding back his power all this time.

This was the perfect opportunity to test the extent of his abilities, so he decided to play with Lao Gou for a little while.

They might have the same level of cultivation, but the difference in their physique and techniques would eventually be revealed as their battle continues.

Jiu Shen was confident that he could overpower Lao Gou!

The insanity in Lao Gou's eyes lessened as he forcefully quelled his Heart Demon using his spiritual power.

This was only a temporary measure since Heart Demons were very difficult to remove.

"Jiu Shen, you were only a Heavenly God Realm back then, but I envied you... I have everything that anyone could only dream of, but there was one thing that I couldn't get..." Lao Gou revealed a look of melancholy as he recalled a beautiful image.

A woman with perfect facial features and otherworldly grace.

Jiu Shen went silent when he saw Lao Gou acting like this. He didn't think that such a man would show a mortal-like expression. Even so, Jiu Shen's gaze remained cold as he quietly listened.

"She was perfect... I've liked her for a long time, but no matter what I did, she never reciprocated my feelings... It was then that I discovered the reason! It's because of you! I'll fucking kill you!"

ROOARR!!

Once again consumed by his Heart Demons, Lao Gou swiped his guandao, causing the space around him to tear apart!

Chaotic energies fluctuated intensely like a raging storm!

CLAANGG!

Jiu Shen calmly blocked the golden spear with his sword, the archaic carvings on the Baleful Dragon Sacred Sword's body were giving off a faint golden glow.

Lao Gou was thrown away when their weapons clashed and he stabilized himself by somersaulting in midair. He nimbly stood on top of the clouds as he stared at Jiu Shen's figure. The man remained calm and even his white robes was still spotlessly clean.

On the other hand, Lao Gou lowered his head and saw that his hands were slightly trembling from the violent impact of their strikes.

He couldn't accept that Jiu Shen has overtaken his power after a million years of being gone. Lao Gou's eyes slowly became calm.

He lifted his head and said. "Jiu Shen, I've been wondering all this time... How were you reborn? The God Sealing Tower can even seal a Celestial's soul, so how could your soul escape from its clutches when you were only a Heavenly God Realm at that time?"

Facing the sudden question from his rival, Jiu Shen also began to ask himself. How did he escape the God Sealing Tower? "I died at that time. As to how I escape from the God Sealing Tower..." Jiu Shen shook his head, feeling puzzled.

Lao Gou frowned and stared at the skies. He muttered silently. "It seems like that man has also chosen you... If it's him... it should be possible."

Jiu Shen furrowed his eyebrows upon hearing his words. "What are you saying?"

Lao Gou turned his gaze towards Jiu Shen and gave him a cold smile. "Do you really think Celestial God Realm is the end of cultivation?! Fool! I've seen it! I've seen the power that goes beyond the realm of the Celestials! A power so strong that he could stop the destruction of a crumbling Spirit World!"

"This guandao..." Lao Gou glanced at his weapon and continued.

"I received this from him inside that Spirit World... Not even the blacksmiths of the old era are capable of making this weapon... If it's him, your revival isn't impossible, but why did he revive you?! Why?!"

Lao Gou screamed like an enraged lion. He pointed the tip of his guandao towards Jiu Shen and summoned a thousand spells.

Brilliant rays of deadly light flashed towards Jiu Shen.

Bang! Bang! Bang!

Multiple explosions echoed as the ground was struck by the torrent of lights.

Hundreds of deep craters littered the once beautiful city.

Broken buildings and collapsed houses can be seen everywhere. Some weaker civilians even died during their battle. Luckily, a few benevolent experts living in the city evacuated the survivors.

At this moment, there are only a few stranded people that remained in Celestial City. It was only a matter of time before they would die from the aftermath of the ferocious battle...

BAANG!

BOOOM!

CLANG! CLANG! CLANG!

Above the clouds, Jiu Shen and Lao Gou had already exchanged thousands of moves. Their movements were swift and only their afterimages could be faintly seen.

Jiu Shen was still thinking about the words that Lao Gou has spoken.

Celestial God Realm wasn't the end of cultivation? A person whose power goes beyond the Celestials?

When he thought deeply about these words, Jiu Shen began to suspect who this person was. Why did he give Lao Gou a Celestial-rank guandao? And is it true that he was revived by this person?

It was absurd, but Jiu Shen believed that it might be possible. The strange system, the unending number of Celestial-rank items, his mysterious revival...

He had so many questions, but the only one who could possibly answer him at this moment was the crazy old man in front of him.

"Wait!" Jiu Shen casually deflected a spear strike and flew a distance away.

"There is one such place that three Celestials failed to go..." Jiu Shen said while looking at his rival.

Lao Gou lowered down his guandao and scoffed in disdain. "Are you talking about the Three Towers of Divine Dao? So you've finally realized it, huh? That's right! I suspect that the one who gave me this weapon lives in that floating city. I tried flying to that place, but I couldn't even reach halfway. Perhaps all our questions would be answered after we reach that place."

Three Towers of Divine Dao. The floating city that has become the greatest mystery in the Primordial God Realm. Many tried to fly straight into this mysterious floating city, but everyone failed. No one knew what this place was or who lives in it.

Chapter 550: The Comet That Destroyed Celestial City

Jiu Shen also tried to ascend towards this mysterious floating city, but he couldn't even reach the mid part.

Lao Gou saw that Jiu Shen wasn't focusing on their battle. He felt that the man was treating him lightly now and this made him furious. "Jiu Shen, don't think too highly of yourself! That great personage might have felt pity for you back then, but that doesn't mean anything! You are still nothing compared to him! Don't even think of reaching that place! Even Jian Wang and I failed after trying multiple times. Do you think you're better than us?! Fool!"

Lao Gou's aura came crashing down on Jiu Shen, but the latter remained unperturbed as he faced the wild energy that enveloped his body.

His white robes fluttered along with the turbulent winds. His long silver hair danced wildly.

Jiu Shen's expression turned cold as he suppressed the confusion he was feeling. His questions can be answered eventually, so he decided to finish the battle first.

"Lao Gou, I will never forgive you! You made her suffer a million years of torment! Because of your selfishness, a pure and kind soul lived in agony! Die!" Jiu Shen finally became serious.

He fired thousands of invisible spiritual arrows toward Lao Gou while summoning a fearsome sword movement. He even strengthened his sword using his anma!

Triple casting!

Lao Gou was alarmed upon sensing the dreadful spiritual attacks. He sweated bullets as he created a spiritual barrier to block the invisible arrows. He then muttered. "Impregnable Fortress..."

An incorporeal golden fortress emerged in front of him that blocked the powerful sword strike of Jiu Shen.

BAANNG!

This spell was his strongest defensive arts. It could even block a full-powered attack of Jian Wang!

However, Lao Gou noticed that the golden fortress had cracks slowly forming!

"What?!" Lao Gou gritted his teeth as he strengthened the fortress by adding his true essence.

He sighed in relief when the cracks vanished.

"Second Sword Dance: Swallowing the Sky..." He suddenly heard a calm voice drifting to his ears, followed by a strong power that abruptly rained down on him.

Lao Gou lifted his head and saw Jiu Shen's sword sucking the clouds and the sky like a greedy beast. The golden fortress and the spiritual barrier that protected him showed signs of crumbling.

"No way! That was only the first move?!" He thought that the sword strike earlier was some sort of killing move, but it was actually just the first movement! What kind of scary sword technique was this?!

Jiu Shen's face was expressionless as he said. "This is a technique that I made during the time I was tortured inside the God Sealing Tower. A sword technique born for the sake of killing! I didn't plan to use this since the surrounding area might be affected, but it would be a pity not to use this on the very person that gave me the opportunity to create this sword technique!"

Lao Gou could already feel the rampaging power of the sword technique. "You leave me no choice!" He spat out coldly as he summoned the God Sealing Tower!

Om!

A rift in space opened and a huge tower that reached the skies suddenly emerged. Its body was covered in rusty chains.

The black tower emitted an overpowering aura!

This was the God Sealing Tower of the Flame Angel Race! A Celestial-rank item that was passed down from generation to generation as an heirloom of the Flame Angel Race! A race of battle angels that was known for their destructive powers. The race of Hestia...

Jiu Shen recalled her lonely image when she was telling him her story back then.

The God Sealing Tower! It was also because of this thing that Jiu Shen was sealed for millions of years! He was tortured and repeatedly mocked...

The strong suppressive power of the God Sealing Tower was felt by the living beings thousands of kilometers away.

The thick rusty chains around the tower suddenly moved as if they were alive!

Thousands of chains slithered towards Jiu Shen like serpents!

When he saw the serpent-like chains, Jiu Shen lifted his sword and calmly whispered. "Third Sword Dance: Descent of the Comet..."

Hm?

Lao Gou felt the hairs on his back rising all of a sudden. He lifted his head and saw a huge comet that was so large that it could cover ten cities placed side by side!

"Are you insane?! You will destroy a large part of the Central Region with that attack!" Lao Gou felt petrified by the power behind the comet. It was impossible to evade it!

Lao Gou hastily controlled the God Sealing Tower. He threw the tower above the skies and poured his true essence without holding back!

Seeing this, Jiu Shen grinned. His body was covered in archaic golden symbols.

Everyone around the Central Region was stunned silly when they saw the huge comet descending with unstoppable momentum.

"What the hell is that?!"

"Is this Celestial Emperor Lao Gou's power?"

"What is happening?!"

Everyone immediately scrambled at the terrifying sight. They left their houses without hesitation and looked at the Central Region with worry in their eyes.

"Who is fighting with Celestial Emperor Lao Gou?"

"People from Celestial City said that it was a man named Jiu Shen..."

Millions of spectators watched the scene with apprehension.

No one dared to move closer to the Central Region.

They could sense the rampaging power of the clash between the two Celestials and even from where they stood, they still couldn't feel at ease.

"So this is a fight between Celestials..."

Everyone felt their chests tightening as they watched the battle from afar.

The huge comet was closing in and everyone saw a huge black tower controlling millions of rusty chains to hold back the comet.

However, the chains slowly melted upon getting closer to the comet.

It couldn't be stopped!

BOOOOOOOOOOOOOOMMMM!!!!!!

It came crushing towards the black tower.

That was the last scene that everyone saw because they were flung away by the huge force caused by the violent collision.
