

## Chapter 1380

Before the Turtle Sage could finish, Luna interrupted him coldly, "I didn't even frown when I slaughtered dozens of ministers in Florence. You can continue being stubborn and see if I'll dare to do it!"

The Turtle Sage was silenced by her words.

The master of the Shrouded Gate's bloodlust was well-known in Florence. The Turtle Sage did not dare to challenge her.

"You... Young lady, you're immoral!" The Turtle Sage was furious. After a long time, he finally conceded reluctantly, "Fine. I'll do it. Don't harm my disciples. I'll tell the Wolf King his answer."

Then, the Turtle Sage's snowy white eyebrows and beard could not help but shake. It was clear he was quite angry.

"Go." Seeing this, Luna ordered Marcellus behind her, "Catch all the Turtle Sage's disciples and release them once the Wolf King receives the information."

"Yes!" Marcellus responded and immediately turned to handle the matter.

The Turtle Sage's mouth twitched at being threatened to his face, but under Luna's intent glare, he did not dare to act

and could only reluctantly find Andrius.

On the other side, Kate helped Andrius out of the wilderness and found a relatively flat place for him to sit down. She then administered acupuncture to heal him.

"Andrius..." Kate felt his weakness and could not help but say with concern, "You shouldn't have pushed yourself so far..."

Andrius did not respond and focused on healing.

After a while, he stabilized his injuries, and his inner energy recovered significantly.

"Phew..." Andrius took a deep breath and shook his head. "I have reasons for fighting."

Then, he stood up. He picked up his long spear and walked back to where they came from. Since he was already here, he had to get answers.

Moreover, Andrius knew that the Turtle Sage had absorbed his blood into his body, so the latter's situation might not be as good as it seemed.

Seeing this, Kate stopped him and said worriedly, "Andrius, the Turtle Sage is too powerful. He has probably already broken past the martial realm and entered a whole new league. With your current strength, you're no match for him no matter how desperately you fight."

Andrius automatically filtered out the last part of her

sentence and asked with a frown, "Kate, what do you mean by breaking through the martial realm and entering a whole new league?"

He had a feeling that there was something about the Turtle Sage that he had never heard before.

"I'll tell you the truth." Kate chose to reveal the truth to dissuade Andrius. "Before I came, Grandpa told me that the Guardian told him a secret before he passed.

"Above the Martial Saint realm is actually another layer. Once you reach the pinnacle of Martial Saint and advance further, you'll enter this stage of restraints.

"Once you break through the restraints, you'll truly enter a new world. It's the realm of immortals!"

Immortals!

That term deeply shocked Andrius. It turned out that there was still a layer above Martial Saint, and breaking those restraints meant reaching the stage of immortality!

That was truly news that kept Andrius in shock for a long time. It was his first time hearing such information.

Since it was Kate telling him, the truth was beyond doubt.

Perhaps...

Andrius instantly understood. The Turtle Sage was obviously an expert who had reached the stage of restraints on the

path to immortality.

Snap!

At that moment, a crisp sound interrupted their conversation.

Andrius and Kate both looked in the direction of the sound.

A figure approached.

It was none other than the Turtle Sage!
