Chapter 551: Don't Become Handsome Again! 2

[Mission completed. Reward: Charm +1]

'Tsk! Don't become more handsome!

Jiang Beiran could feel that something was wrong with the system. He had done some calculations recently and found that compared to other new foundational points, such as luck and charm, the number of times they appeared was too high.

The other new basic points such as Luck appeared far less often than the original four attribute points, far less than Charisma.

His current charm had reached a total of 28 points, and among the other new basic points, the highest concentration was only 17 points, especially his luck, which was only 8 points!

'Something's wrong...'

'System, don't make me add more charm! Can you add something else? For example, luck or something like luck!'

After grumbling in his heart, Jiang Beiran turned around and walked toward Shi Hongfang.

'Hmm...? Why did he leave just like that?'

Gao Lanwen was baffled. Her original plan was to provoke Jiang Beiran with a jade-carving method that was similar to the Double Hook Grinding Method, but was actually different. She wanted him to argue with her and then get the details of the Double Hook Grinding Method out of her.

However, she did not expect Jiang Beiran to turn around and walk away without any intention of arguing with her.

“What should she do?!”

Gao Lanwen resisted the urge to call Jiang Beiran back, thinking that since this was a task given to him by Shi Hongfang, he would not be able to return to report if he did not complete it. He would definitely have to come back obediently later.

“Hu...” Taking a long breath, Gao Wen picked up another piece of jade and played with it in her hand. However, her eyes would occasionally glance at Jiang Beiran.

“Why are you back?”

Shi Hongfang asked curiously as he watched Jiang Beiran retreat.

Naturally, Shi Hongfang had heard the entire conversation between Gao Lanwen and Jiang Beiran. However, he had no idea why Jiang Beiran would come back just like that.

Don't you want the Ksitigarbha True Crystal anymore?

“Senior, don't be anxious. Director Gao will call me back later.” Jiang BeiBeiran cupped his fists.

“How confident are you?”

“100% ”

‘The Dragon Stream Jade carved like this actually has the effect of suppressing spirits... It's far stronger than the Dragon Stream Jade made using the nephrite method. It's really a rare and ingenious technique. Where did he learn it from...’

Gao Lanwen studied the Longxi Jade in her hand carefully, marveling at its exquisiteness in her heart.

Although Gao Lanwen wanted to ask for advice on the gorgeous skills that she had never seen before... No, he had asked Jiang Beiran about it, but the pride in her heart had rejected such a thought.

Shi Hongfang, who was sitting next to Gao Lanwen, felt that his chance to show off had come!

Standing up and walking to Jiang Beiran's side, Shi Hongfang said in a low voice that was loud enough to reach Gao Lanwen's ears,""Bei Ran, the old ancestor was right about you. Not only did you set up a formation that even the old man praised, but you also displayed a skill that even Director Gao has never seen before."

"Senior, you flatter me. I only know some techniques that are rarely known."

"You don't have to be humble in front of me. How about I make a deal with you?"

"Senior, if you have anything to say, you can just give the order."

"There's no need to say more." Stopping Jiang Beiran from continuing, Shi

Hongfang leaned in and whispered,""You want the K itigarbha True Crystal?"

"You already know about this?"

However, Jiang Beiran had previously made a guess that the Shi family was not monitoring him, and the possibility was very high. As for how Shi Hongfang knew that he needed the Earth Bodhisattva Vital Crystal..

'It probably guessed it when Shi Fenglan stole it from home.'

[Option 1: "Absolutely not." [Completion Reward: White Phoenix Divine Seal (Earth Grade Low-Rank)]]

[Choice 2: "Senior, how did you know?" [Completion Reward: Elixir Heart Technique (Mysterious Grade Mid -Rank)]]

[Choice 3: "Senior, you're really good at predicting things. I really need the K itigarbha True Crystal." [Completion Reward: Random Basic Attribute Point +1]]

After looking through the three options, Jiang Beiran chose the bottom three and replied, "Senior, you are truly wise. This junior really needs the K itigarbha True Crystal."

[Mission completed. Reward: Agility +1]

"Hmm?"

Shi Hongfang had not expected Jiang Beiran to agree so readily. He had thought that even if Jiang Beiran did not pretend to be dumb, he would at least hide something.

Initially, Shi Hongfang had thought that if Jiang Beiran continued to hide, he would give him some difficult questions to let him know that if he wanted to obtain the treasure in the Shi family, he had to build a good relationship with him first.

To build a good relationship, sincerity was of course the most important.

However, he did not expect Jiang Beiran to not hide anything this time. He did not even have the intention to refuse. He directly expressed his strong desire.

'Is this what he meant by retreating when it's time to retreat and advancing when it's time to advance? There's indeed some skill...

But no matter what, this was a sign of Jiang Beiran's goodwill towards him.

Shi Hongfang nodded in satisfaction and said, ““Alright, since you want it, I’ll use it as a bargaining chip to make this deal with you.”

Although he already knew what Shi Hongfang wanted to do, Jiang Beiran still pretended not to know and asked,““May I know what Senior needs my help with?” “Go and talk to Director Gao about the Double Hook Grinding Method.” ‘Good fellow...

Although Jiang Beiran had already guessed what Shi Hongfang was up to, he still felt a little emotional when he thought about how this man was really going to use a precious treasure from the List of Rare Treasures to pick up girls.

” You people from big families really spend a lot of money to pick up girls!’

Jiang Beiran, who was complaining in his heart, cupped his hands at Shi Hongfang and said,““This is just a small matter. It really isn’t worth a K \$ itigarbha True Crystal, so I really don’t dare to accept it.”

“If I say you can take it, then you can. Besides, the deal doesn’t end here. There are other things for you to do next.” “In that case...Junior understands.”

“Alright, then go quickly.”

Shi Hongfang had indeed controlled his voice very well. Gao Lanwen had indeed heard their conversation very clearly, word for word.

Therefore, when Jiang Beiran walked towards her, Gao Lanwen immediately pretended to be looking at the jade seriously, as if she had not heard their conversation.

“Director Gao.” Jiang Beiran walked up to Gao Lanwen and cupped his hands. “What is it?” Gao Lanwen slowly raised her head and asked.

“You seem to be very interested in this Double Hook Grinding Method. Why don’t you...”

“Who said I was interested in your technique?” Without waiting for Jiang Beiran to finish, Gao Lanwen replied disdainfully, “Your technique is indeed quite outstanding at first sight, but if you think about it carefully, it’s actually not much different from the Scythe Technique. It’s just that the way you perform it is different.”

Gao Lanwen replied with a hint of satisfaction. Although she had not figured out the essence of Jiang Beiran’s technique, she was a dignified Grade Eight

Jade Refinement Master. How could she ask for advice from an unknown kid?

If word got out, she would lose all her face.

As soon as Gao Lanwen finished speaking, three options popped up in front of Jiang Beiran.

[Choice 1: Debate with Gao Lanwen about the difference between the two techniques. [Completion Reward: Water Cloud Ghost Scroll (Mysterious Grade Mid-Rank)]

[Option 2: “Since Director Gao is not interested, I will take my leave.” [Completion Reward: Random Basic Attribute Point +1]

Jiang Beiran comfortably chose the second option and replied, ““Since Director Gao is not interested, I will take my leave.” [Mission completed. Reward: Charm +1]

‘Tsk! Don’t become more handsome!

Jiang Beiran could feel that something was wrong with the system. He had done some calculations recently and found that compared to other new foundational points, such as luck and charm, the number of times they appeared was too high.

‘Something’s wrong...’

Chapter 552: The Perfect Jade

‘The light is contained within, the body is like cream, firm, clean, delicate, heavy, and warm...’

Taking the jade from Jiang Beiran, Gao Lanwen instantly recognized that it was a piece of Crimson Fire Jade. This kind of jade was very beneficial to cultivators of the fire element. It could greatly increase the power of their moves.

However, the crimson fire jade was not considered a high-grade jade. Even an ordinary great mystic cultivator could afford to wear it.

However, it was this piece of jade that could be seen everywhere that gave Gao Lanwen, who thought she had seen all kinds of beautiful jade, a feeling of amazement.

‘You fused the Heavenly Sea Stone into the jade?’

“That’s right.” Jiang Beiran nodded.

“How can jade be compatible with other common objects? This is simply...”

Gao Lanwen wanted to say “sully”, but the piece of Crimson Fire Jade that Jiang Beiran had given her had indeed fused perfectly with the Sky Sea Stone. Without damaging the basic structure of the Crimson Fire Jade, the Sky Sea Stone had greatly balanced the “ferocity” of the Crimson Fire Jade.

The so-called fierce referred to the overly violent flame aura. The Scarlet Fire Jade was not considered a high-grade jade because it had a fatal flaw while it was extremely beneficial to fire element cultivators.

That is, the excess of the flame is too much.

Under the condition of wearing the Crimson Fire Jade Guaja for a long time, the wearer could easily be attacked by the evil fire and even go berserk. It was very dangerous.

Although a powerful jade refiner could also rely on their skills to suppress the flame energy of the crimson fire jade, once the flame energy was suppressed, the crimson fire jade would only increase the power of the fire element cultivator's moves by a small margin.

In other words, it had become a very ordinary piece of jade.

Therefore, most jade masters promoted its advantages to mechanism when making jade, instead of making it perfect, because that would only make it a mediocre stone.

Gao Lanwen had always thought so, but the piece of Crimson Fire Jade that

Jiang Beiran showed her today had completely shattered her common sense.

'Jade...It could actually complement other ordinary things?'

"How is this possible?!"

In the minds of jade refiners, jade was the clear stream in the stone, just like a gentleman.

How could a gentleman be confused with a peddler?

That's right. In the eyes of a jade refiner, all ores other than jade were considered inferior. Whether it was gold or crystal, they could not be compared to jade.

Naturally, it was impossible to mix them in when making jade.

Of course, it was not as if there were no jade refiners who did not take the ordinary route. They tried to use various crystals or ores to match jade in an attempt to create a more perfect jade.

But they all failed without exception.

Once jade was stained with the aura of other ores for a long time, it would slowly lose its spirituality and become a piece of waste stone.

Therefore, gradually, all jade refiners gave up on this “unorthodox” method and focused on developing the potential of the jade itself.

But today, Gao Lanwen saw a piece of jade getting along well with other ores, and even becoming more perfect.

Gao Lanwen could tell that Jiang Beiran’s Crimson Fire Jade contained a stronger fire spiritual energy than ordinary Crimson Fire Jade, which meant that it could greatly enhance the power of a fire-type cultivator’s moves.

If it was just to increase its power, Gao Lanwen would definitely scoff at it.

After all, she had many ways to make this piece of red fire jade more perfect.

However, Jiang Beiran’s piece of jade was able to suppress the Fire Qi even though it had greatly enhanced the Fire Spiritual Qi. That’s right, it had completely suppressed the Fire Qi. Wearing this piece of jade meant that one would not have to worry about the problem of the Evil Fire attacking one’s heart.

This was terrifying.

Because this meant that this piece of jade was perfect and had no defects.

“Stunning!”

Looking at the Crimson Fire Jade in her hand, Gao Lanwen felt for the first time in her life that someone could be compared to her in terms of jade attainment.

“No, there’s no even!”

Shaking her head, Gao Lanwen handed the Crimson Fire Jade back to Jiang

Beiran and said, “You... You...”

Refinement Master made it impossible for her to ask without shame.

Seeing that this piece of Crimson Fire Jade was enough to subdue Gao Lanwen, Jiang Beiran took out another piece of jade from his Cosmos Ring and handed it over. “Director Gao, take a look at this one.” Taking a deep breath, Gao Lanwen took the jade.

“Perfect Nine Star Jade!”

The nine-star jade was one of the representative blue jades. It had the effect of nourishing wounds.

Many people would wear a blue jade when they had old injuries or injuries that were difficult to recover from.

The Nine Star Jade had a miraculous effect on restoring damaged meridians, but it was not so effective on damaged internal organs.

Therefore, when he used nine-star jade to make jade articles, he would usually maximize his ability to repair his meridians, but he ignored the fact that it actually had a good recovery effect on damaged internal organs.

The Nine-star Jade that Jiang Beiran had handed over was mixed with a small amount of White Flame Secret Sand.

This kind of sand was usually used to stimulate the activity of medicinal herbs when refining medicinal pills. He did not expect it to have such an effect when used in Nine Star Jade.

“Will these two pieces of jade catch Director Gao’s eye?”

Jiang Beiran asked with a smile while Gao Lanwen was observing the nine-star jade.

“Indeed, it’s a good jade.” Gao Lanwen nodded and admitted.

“This is the path of perfection that I pursue. It’s just that my skills are not good enough, so I can only use some ordinary jade to make this kind of jade. If it was high-grade jade, I wouldn’t be able to do so..”

Chapter 553: The Perfect Jade (2)

Gao Lanwen heaved a sigh of relief.

‘Fortunately, I can only use ordinary jade to make it...’

Even she could not find any fault with the two jade pieces that Jiang Beiran had given her because she had never studied them before.

If Jiang Beiran was able to fuse top-grade jade with other ores to create such a perfect piece of jade, then Gao Lanwen felt that she could give him the title of an eighth-grade jade refiner right now.

‘No, with this unique discovery, it’s not impossible for me to become a Grade Nine Jade Refinement Master...However, it’s a pity..’

Thinking that Jiang Beiran could only use these ordinary jade stones to make the jade, Gao Lanwen categorized this skill as a strange and obscene skill. When she looked at Jiang Beiran again, the pressure she felt was not as great as before.

At this moment, Shi Hongfang suddenly said, "Kid, are you sure you can only use ordinary jade to make this kind of jade?"

Although Shi Hongfang wasn't sure how amazing the jade that Jiang Beiran had taken out was to be able to surprise even Gao Lanwen, he just suspected that Jiang Beiran was hiding it out of habit.

"Senior, please don't malign me. If you don't believe me, you can ask Director Gao if the higher the quality of the jade, the harder it is to make this kind of jade."

Gao Lanwen, who had just heaved a sigh of relief, nodded and said, "Indeed, he

can be considered a genius to be able to make jade artifacts of this level. It's as difficult as ascending to the heavens to advance further."

Hearing that Gao Lanwen was willing to describe Jiang Beiran as a genius, Shi Hongfang was also willing to believe that Jiang Beiran had indeed brought out his unique skills. After all, Gao Lanwen was an authority in the field of jade. For her to praise him so much, it meant that Jiang Beiran had indeed displayed skills that far surpassed ordinary people.

Nodding in satisfaction, Shi Hongfang smiled and said to Gao Lanwen, "Haha, Director Gao, you don't know this kid. This kid likes to hide his true abilities. I'm only asking because I'm afraid of him."

This was also the common understanding of most jade refiners. If they obtained some jade, they would definitely lose something.

Therefore, most jade masters promoted its advantages to mechanism when making jade, instead of making it perfect, because that would only make it a mediocre stone.

Gao Lanwen really wanted to ask Jiang Beiran how he had managed to fuse the jade and the Sea Sky Stone together, but the pride of a Grade Eight Jade Refinement Master made it impossible for her to ask without shame.

Seeing that this piece of Crimson Fire Jade was enough to subdue Gao Lanwen, Jiang Beiran took out another piece of jade from his Cosmos Ring and handed it over. “Director Gao, take a look at this one.”

Chapter 554: Peerless Jade (1)

“Jincuo Jade?”

Gazing at the golden thread that Jiang Beiran had taken out, Gao Lanwen frowned instinctively.

In the eyes of a Jade Refinement Master, gold was definitely the most vulgar of all vulgar objects. Using it to make jade was simply a stain on jade!

But now, she had the heart of an apprentice. Although she was disgusted, she still observed every movement of Jiang Beiran's hands carefully.

"Take this piece of Clear Heart Jade as an example. First, use the method of immersing the jade to remove the impurities, then grind it into fine patterns. Director Gao, what kind of patterns do you think are most suitable for Clear Heart Jade?"

Gao Lanwen was stunned.

How long had it been? It had been a long time since someone had spoken to her in such a tone when asking questions to a student.

Ever since she became an eighth grade jade master, she had always been the only one to give pointers to others. When had anyone ever dared to use such a tone and question her?

What was even scarier was that Gao Lanwen actually felt a trace of panic.

Even when she had just started to learn to refine jade, she had never felt this fear when her master asked her questions.

Because she had already memorized the contents of the book, she was not afraid of any questions about jade.

However, Jiang Beiran had presented her with a whole new "world". A path that had never been recorded in books had suddenly appeared before her.

unknown.

Gao Lanwen felt a new and wonderful feeling.

Just like when she first started learning how to refine jade, everything was so novel and waiting for her to explore.

“Gulp...”

Gao Lanwen suddenly gulped. She hadn't felt this way for a long time, so long that she thought she would never feel this way again.

Gao Lanwen was excited when she thought of swimming in the unknown ocean again.

“Director Gao, Director Gao?”

Hearing Jiang Beiran's voice, Gao Lanwen suddenly reacted.

Gao Lanwen only replied after a ““If I were to make it, I would carve a thousand-foot pattern on it.”

“That's right. The Thousand Feet Pattern can make the Enlightening Heart Jade's Heaven-Man Connection even more mysterious, but if you use the

Thousand Feet Pattern to carve, it will completely make the Enlightening Heart Jade lose its ability to sense electricity.”

Jiang Beiran then took out a silver thread from his ring.

“Gold inlaid jade is a delicate craft. I won't say much about carving jade. It's definitely easy for Director Gao, but if you want jade and gold to complement each other, the importance of carving gold is very high.”

After saying that, Jiang Beiran took out a carving knife from his Interspatial Ring and quickly carved the Black Tortoise carving on the Brightheart Jade.

“Carving from the inside out?”

Gao Lanwen, who was standing at the side, looked surprised. She was not surprised that Jiang Beiran’s micro-carving was so amazing. After all, she had already regarded Jiang Beiran as a grandmaster of her generation. There was no need to make a fuss about such a small skill.

However, she did not understand why she had to carve it from the inside out.

In addition, he had actually carved a profound tortoise pattern on the Heart Jade. No matter how one looked at it, it was completely unrelated. The profound tortoise pattern was usually used to carve jade stones that could assist in defensive techniques and make them more stable.

It could be said that it had nothing to do with the Brightheart Jade, which was used to sense the power of heaven and earth.

To put it simply, one was spiritual, and the other was physical. Jade refiners were most afraid of mixing them up. It was very easy to make a good piece of jade useless.

But soon, under Gao Lanwen’s astonished gaze, Jiang Beiran inserted the gold thread into the jade stone, and at the same time, inserted the silver thread with his other hand.

During this period, he did not use any mystic qi as an aid. He completely relied on his technique. This was something that many high-grade jade alchemists could not do.

‘Really...It’s pleasing to the eye.

Although Gao Lanwen could do it herself, she felt that it was even more magnificent when she watched Jiang Beiran do it.

In the time it took to brew a cup of tea, Jiang Beiran had finished making the jade pendant using the Golden Mistake Method.

“Director Gao, please take a look.” Jiang Beiran said as he handed the jade pendant to Gao Lanwen.

“I dare not.”

After this live production, Gao Lanwen was completely convinced that Jiang Beiran was a hermit expert sent by the tribe leader.

Although she didn’t understand why he looked so young, this wasn’t important to Gao Lanwen. No matter which field of Profound Arts one was in, the one who reached the top would always be the teacher. As long as one had the ability to make others submit, then even if one was just a child, one would still be respected.

She took the jade pendant from Jiang Beiran with both hands. As soon as she touched it, Gao Lanwen realized that this piece of jade was different from the rest.

‘Not only did I retain the lightning sensing ability of the Brightheart Jade, but I even increased it by a large margin. At the same time, I can still sense the power of heaven and earth...’Why...’ Why is that?

Gao Lanwen carefully recalled Jiang Beiran’s every move and tried her best to mobilize her knowledge.

A moment later, Gao Lanwen suddenly opened her eyes wide and shouted, “I know! The black turtle patterns were used to stabilize the structure of the jade! Therefore, when you were carving, you deliberately carved from the inside out and used the magatama technique to stabilize the lines, and so on...Not only that, but you also used a certain method that I don’t know about.”

Jiang Beiran could not help but feel surprised.

“Rank-8 is indeed Rank-8.”

Jiang Beiran believed that his hand speed was extremely fast, and this carving method was obviously new to Gao Lanwen.

But even under such circumstances, she could still see so much clearly after just one look.

‘At the very least, she does have a superior talent in refining jade..’

Chapter 555: Peerless Jade (2)

“Master! I want to see it too! I want to see it too!

At this time, Liu Weining, who had been standing at the side and drooling, finally couldn’t hold it in anymore anymore. She ran over and opened her arms and shouted.

“Wait a minute,” Gao Lanwen shook her head.”

“I want to see it too! I want to see it too!” Liu Weining was still jumping and shouting.

“No.”

Seeing that Gao Lanwen did not agree, Liu Weining turned to Jiang Beiran and shouted,““I want to see it too. Master, can you carve another piece?””

As Liu Weining spoke, she touched her pocket and took out a stone from it and handed it to Jiang Beiran.““Can I exchange with you?””

Puff!

Looking at the jade that Liu Weining took out, Jiang Beiran almost spat out his saliva.

‘Holy Crystal Heart Jade?!’

Jiang Beiran was completely dumbfounded. This was a top-grade jade on the Rare Treasures List. Legend had it that it had the ability to stimulate all of a person's potential. If a peak Xuanzong wore it, they could even fight against a Mystique Venerable One!

Gao Lanwen, who was standing at the side, looked surprised. She was not surprised that Jiang Beiran's micro-carving was so amazing. After all, she had already regarded Jiang Beiran as a grandmaster of her generation. There was no need to make a fuss about such a small skill.

However, she did not understand why she had to carve it from the inside out.

In addition, he had actually carved a profound tortoise pattern on the Heart Jade. No matter how one looked at it, it was completely unrelated. The profound tortoise pattern was usually used to carve jade stones that could assist in defensive techniques and make them more stable.

It could be said that it had nothing to do with the Brightheart Jade, which was used to sense the power of heaven and earth.

To put it simply, one was spiritual, and the other was physical. Jade refiners were most afraid of mixing them up. It was very easy to make a good piece of jade useless.

But soon, under Gao Lanwen's astonished gaze, Jiang Beiran inserted the gold thread into the jade stone, and at the same time, inserted the silver thread with his other hand.

During this period, he did not use any mystic qi as an aid. He completely relied on his technique. This was something that many high-grade jade alchemists could not do.

'Really...It's pleasing to the eye.

Although Gao Lanwen could do it herself, she felt that it was even more magnificent when she watched Jiang Beiran do it.

In the time it took to brew a cup of tea, Jiang Beiran had finished making the jade pendant using the Golden Mistake Method.

"Director Gao, please take a look."

"I dare not.

After this live production, Gao Lanwen was completely convinced that Jiang Beiran was a hermit expert sent by the tribe leader.

Although she didn't understand why he looked so young, this wasn't important to Gao Lanwen. No matter which field of Profound Arts one was in, the one who reached the top would always be the teacher. As long as one had the ability to make others submit, then even if one was just a child, one would still be respected.

She took the jade pendant from Jiang Beiran with both hands. As soon as she touched it, Gao Lanwen realized that this piece of jade was different from the rest.

'Not only did I retain the lightning sensing ability of the Brightheart Jade, but I even increased it by a large margin. At the same time, I can still sense the power of heaven and earth...'Why...' Why is that?

Gao Lanwen carefully recalled Jiang Beiran's every move and tried her best to mobilize her knowledge.

Seeing that Gao Lanwen was deep in thought, Jiang Beiran didn't say anything and just waited quietly.

A moment later, Gao Lanwen suddenly opened her eyes wide and shouted, "'1 Imow! The black turtle patterns were used to stabilize the structure of the jade! Therefore, when you were carving, you deliberately carved from the inside out and used the magatama technique to stabilize the lines, and so on...Not only that, but you also used a certain method that I don't know about."

Jiang Beiran could not help but feel surprised.

"Rank-8 is indeed Rank-8."

Jiang Beiran believed that his hand speed was extremely fast, and this carving method was obviously new to Gao Lanwen.

But even under such circumstances, she could still see so much clearly after just one look.

'At the very least, she does have a superior talent in refining jade.'

"Master! I want to see it too! I want to see it too!"

At this time, Liu Weining, who had been standing at the side and drooling, finally couldn't hold it in anymore anymore. She ran over and opened her arms and shouted.

"Wait a minute," Gao Lanwen shook her head."

"I want to see it too! I want to see it too!" Liu Weining was still jumping and shouting.

Seeing that Gao Lanwen did not agree, Liu Weining turned to Jiang Beiran and shouted, "I want to see it too. Master, can you carve another piece?"

As Liu Weining spoke, she touched her pocket and took out a stone from it and handed it to Jiang Beiran. "Can I exchange with you?"

Puff!

Looking at the jade that Liu Weining took out, Jiang Beiran almost spat out his saliva.

'Holy Crystal Heart Jade?!'

Jiang Beiran was completely dumbfounded. This was a top-grade jade on the Rare Treasures List. Legend had it that it had the ability to stimulate all of a person's potential. If a peak Xuanzong wore it, they could even fight against a Mystique Venerable One!

Chapter 556: Stable!

Seeing that Shi Hongfang had understood his meaning, Jiang Beiran was rather relieved. Otherwise, he would have been furious if he had cooperated with an idiot.

"Senior must be joking. I..."

Without waiting for Jiang Beiran to finish, Shi Hongfang shook his head and said, ""1 may not know you well enough in other aspects, but don't hide anything from us when it comes to formations. Otherwise, even our ancestor won't agree to it."

"This..."

While Jiang Beiran's expression was awkward, Shi Hongfang patted his shoulder and said to Gao Lanwen, ""Head Gao, his formation is one of a kind.

Even our ancestor praised it."

After hearing that the clan saint had praised Jiang Beiran's array, Gao Lanwen was certain that Jiang Beiran had reached a very high level in both jade refinement and array.

'There's actually such a knowledgeable person...'

After sighing, Gao Lanwen looked straight at Jiang Beiran and asked, "Master

Jiang, please...Please... Please teach me the art of array formations!"

Gao Lanwen lowered her head as she finished speaking. She could even feel her cheeks burning.

"Teach you formations..." Jiang Beiran revealed a troubled expression.

Hearing Jiang Beiran's hesitant tone, Gao Lanwen quietly raised her head and glanced at him. She noticed that his brows were tightly knitted together. It was obvious that he did not have any intention of doing so.

However, in order to learn this miraculous formation jade combination method, Gao Lanwen couldn't care less.

"Master Jiang, as long as you are willing to teach me, I can start as an apprentice and listen to you."

Shi Hongfang couldn't help but beat his chest and stamp his feet when he heard that Gao Lanwen, who was as proud as a snow lotus on the peak, was so humble. He hated himself for not having talent in refining jade. Otherwise, he wouldn't have pursued her for so long without any results.

Although he couldn't make Gao Lanwen worship him directly, it was still a good opportunity for him.

"Sigh..." At this moment, Jiang Beiran sighed. "Director Gao, as you can see, I've

only just started to learn jade formations. I can only use some ordinary jade stones to make them. I'm not at the stage where I can learn from others."

Having seen so much, Gao Lanwen did not believe that Jiang Beiran was only capable of this.

Knowing that she was only rejected, Gao Lanwen didn't know how to persuade this master. After all, she had already shown her utmost sincerity.

When Gao Lanwen was at a loss, Shi Hongfang stood up and said, "Beiran, ah. No, he should be called Master Jiang now."

"Don't, don't," Jiang Beiran hurriedly said. "Senior, you're too cruel. You can just call me Beiran."

If a Mystique Venerable One called him Master wherever he went, Jiang Beiran's scalp would go numb just thinking about it.

"Hahaha!" Shi Hongfang chuckled. "Alright. Since you still respect me as a senior, how about teaching your skill to Director Gao on your behalf?" Of course, as a senior, I won't let you suffer."

"This... Since Senior has said so, if Director Gao doesn't mind, I'll try to teach you."

"Thank you, Master Jiang!" Gao Lanwen shouted excitedly and turned around to look at Shi Hongfang gratefully.

This glance made Shi Hongfang's heart burst with joy. He had done so many things for Gao Lanwen for so many years, but this was the first time he received such a grateful gaze.

"Hahaha!" Shi Hongfang couldn't help but burst into laughter. He patted Jiang Beiran's shoulder and said, "Alright, I'll remember this favor of yours."

"Senior is too polite." Jiang Beiran cupped his hands and smiled.

Jiang Beiran was willing to accept this job for three reasons.

Firstly, he could directly increase Shi Hongfang's favorable impression of him. With such a high-ranking member of the direct line of descent in the Shi family as his backer, he would definitely have a better life in the Shi family in the future.

Secondly, it could also be considered as an explanation to that Profound Sage of the Shi Clan. You helped me out once, and I helped you raise the realm of an Eighth Stage Jade Refinement Master. Moreover, teaching someone is something that can take at least a year, or at least an unknown amount of time. Anyway, just drag it out. Anyway, I'm doing my best for your Shi Clan. I didn't eat your rice for free.

Thirdly, Gao Lanwen had a lot of good stuff in Heng Ya Zhai. If there was a chance to get a lot, it would be very comfortable. Moreover, Gao Lanwen was the owner of Ling Long Workshop, which meant that her favor could be used in other places.

This one was much better. After all, Jiang Beiran was quite envious after visiting all the Mystical Arts gyms in Ling Long Lane that day. Many of the Mystical Arts gyms had the materials or tools he needed.

If he could get some back, it would be a huge improvement for him.

Jiang Beiran was quite willing to do a deal that could kill two birds with one stone. He couldn't afford to lose money anyway.

Moreover, the system did not give any options throughout the entire process, which meant that all the previous options were laid out in order to walk on this safest path.

Stable!

After the thought cleared up, Jiang Beiran stood up and said, "Then I'll go back now and compile a book on array formations that is suitable for you to refer to. Please wait patiently."

"Master Jiang's words are too serious." Gao Lanwen took out an orange-yellow jade from her Cosmos Ring and handed it to Jiang Beiran. "I know that you don't lack these, but this is my gift to express my gratitude. Please accept it." 'What the f * Ck...

Jiang Beiran really wanted to shout at Gao Lanwen when he saw the Innocent Mysterious Jade.

“There are so many rich people..”

Chapter 557: Stable!

So the people here are using the rare items on the rare book. The rare book was written by your family, right?

Moreover, this piece of Innocent Mysterious Jade was one of the rare treasures that Jiang Beiran had wanted the most when he was flipping through the List of Rare Treasures. There was no other reason than that this piece of jade only had one effect, and that was to live up to its name.

Unadorned.

What is called unadorned? She was invisible, had a common face, and was wearing ordinary clothes. She was the kind that could not be found in the group instantly.

This was Wu Hua.

When Jiang Beiran had gone to the Qi Kingdom previously, he had already realized that Minran’s level was not high enough. Even if he wore it, his attributes would keep popping up, which meant that more and more people could discover him.

Now, this piece of Unadorned Mystic Jade had hit his heart.

As long as he had it, Jiang Beiran would be able to make a protective jade that could completely make him disappear from most people’s eyes.

But if he accepted it...She always felt that she was just a small child, and no one had the air of a master.

Just as Jiang Beiran was about to enter a war between himself and the world, the system’s options popped up.

[Option 1: Accept the Wuhua Mystic Jade. [Completion Reward: Sun Scorching Dark Technique (Earth Grade Low-Rank)]

[Option 2: Leave immediately. [Completion Reward: Random Basic Skill Point +1]

Looking at the two system options, Jiang Beiran was no longer conflicted. As expected, the image of a master was still more important.

In any case, this piece of Unadorned Mystic Jade was in Gao Lanwen's hands. After he taught her well in the future, wouldn't she be able to ask for it whenever she wanted?

Stable!

After choosing the second option, Jiang Beiran walked out of Langyu Pavilion without looking at the Innocent Mysterious Jade.

Seeing that Shi Hongfang had understood his meaning, Jiang Beiran was rather relieved. Otherwise, he would have been furious if he had cooperated with an idiot.

"Senior must be joking. I..."

Chapter 558: Reincarnation of a Saint

In fact, it was very easy to write about the teaching of formations. Jiang Beiran had prepared a few books so that he could give one to Li Fucheng, who was a potential " main character ", if he met him.

Of course, he wouldn't let others think that it was easy to write. Therefore, on the second day of his " work Jiang Beiran happily skipped work.

After all, he was working for his boss now. Wasn't it a piece of cake for him to take leave?

"Hahaha! I've finally drawn the dragon's name!"

Shi Fenglan laughed loudly and placed it on the table.

"Because I have Yang Guo on the field, I can use the Dual Sword Combination to kill your Zhang Wuji when I kill Xiao Longnu!"

"My luck is pretty good."

Jiang Beiran had originally predicted that Shi Fenglan would not have Xiao Longnu in her hands, but he did not expect her to pull out a magic draw. ' Sigh, the God-whipped Dog is still powerful.'

Sighing, Jiang Beiran pressed his hand and said, admit defeat.” “Hahahaha! I won!” Shi Fenglan shouted while laughing loudly.

“Shh...What did I tell you?” Jiang Beiran said with a frown.

“Oh, oh, we don’t want anyone to find out that we’re secretly gambling.” Shi Fenglan quickly covered her mouth.

Lowering her voice, Feng Lan whispered, “Again, again. I’ll show you the power of my new deck in this game!”

Jiang Beiran shook his head and put away his card. “Today’s gambling time is over. I have to go do business.”

“Hey, hey, hey!” Seeing Jiang Beiran stand up, Shi Fenglan hurriedly called out, “Don’t! Little Bei Ran, let’s play one more round, just one more round!”

“No, we agreed. Bring me into your Fei Mansion.”

“Woo

Pouting, Shi Fenglan took out the Fei Mansion from her Cosmos Ring and brought Jiang Beiran inside.

Ever since he had taken the Flying Mansion, Jiang Beiran had been unable to forget its benefits. This kind of safe and convenient mode of transportation was simply Jiang Beiran’s dream.

If he could have it, he wouldn’t have to worry about being stuck underground like he did at the wood spirit vein.

Although Jiang Beiran knew that he could not build such a high-end Flying Mansion with his current abilities, he could still study it first. After all, he was not completely unable to understand it.

After entering the Fei Mansion, he said to Shi Fenglan, "Don't disturb me." Then, he went to the study on the second floor.

Shi Fenglan, who was bored to death, could only sit on the chair and put up a brand new deck.

At this moment, Shi Hongfang came to a seaside in the Spirit Illusion Tower. He looked at the old ancestor who was playing with a group of young girls and bowed.

"Greetings, ancestor."

Shi Hongyun, who was using Celestial Chi to control the seawater to shoot at the women, shook his hand and turned around to ask, "How is it?" "Just as our ancestor predicted, Jiang Beiran is indeed a rare genius."

"Oh?" Shi Hongyun hugged a girl who was drenched in sweat and kissed her, asking, "How is he a genius?"

"After just one meeting, Gao Lanwen was completely convinced by his jade refining skills. She even lowered her status and asked him for advice."

"That Gao Lanwen?" Shi Hongyun suddenly burst into laughter. "Interesting, interesting. What did that kid do? How could she be in such a state?"

In reply to the ancestor, Shisun doesn't know much about the art of refining jade. He's only heard a little about it. It seems that Jiang Beiran has combined the art of refining jade with the art of formations, entering a whole new realm in the art of refining jade. That's why Gao Lanwen is so impressed."

Tribe Saint, the roast meat is ready." At this moment, a young girl came over with two pieces of huge scaled beast meat and shouted.

"Be good, be good." Shi Hongyun pulled the girl into his arms and threw away the two pieces of roasted meat in her hands. He sniffed the girl's body and said, "Barbecue isn't as delicious as Bi'er's."

Generally speaking, how many youths with such great abilities could hide their strength and bide their time like him?

All of a sudden, these words flashed across Shi Hongfang's mind.

The reincarnation of a Saint!

"Hiss..."

Shi Hongfang suddenly felt his scalp go numb..

Chapter 559: Reincarnation of a Saint (2)

Even he had only heard of such a thing before, but since the old ancestor had treated Jiang Beiran with such an attitude, the possibility of it happening was very high.

Otherwise, with Jiang Beiran's talent, the old ancestor would have used both carrot and stick to make him stay.

But now, his meaning was very clear. Let nature take its course.

If Jiang Beiran wanted to stay, he could stay. If he didn't want to stay, he could

leave.

Although this thought was a little disrespectful, Shi Hongfang could read a little of the ancestor's...

Why was he now...

As Shi Hongfang thought about it, he began to feel that Jiang Beiran was becoming more mysterious.

Generally speaking, how many youths with such great abilities could hide their strength and bide their time like him?

All of a sudden, these words flashed across Shi Hongfang’s mind.

Chapter 560: Strange Child and Strange Uncle

Eyes: "I understand."

"Bullshit!"

At that moment, Jiang Beiran understood the meaning of that sentence.

When he was meditating in the Fei Mansion, he had more or less gotten a rough idea of the situation by relying on the [Five Elements] points. He also felt that he had the ability to set it up.

However, when he really started operating it, he realized that it was a very dangerous place.

Too much! Difficult! It was over!

Qimen Dunjia had a total of 4,320 games. The calculation method was to divide a year into eight sections according to the number of eight trigrams. Each section had three qi, and each qi had three Hou.

In this way, there were 360 days in a year and 12 hours in a day. In total, there would be 4,320 situations in a year.

In other words, Qimen Dun Jia was actually a method of algebra.

What was it? He calculated the wonders of the Eight Trigrams and Five Elements.

Take Qian from the Eight Trigrams as an example.

Its five elements were gold, its orientation was northwest, and its earthly branch was Xuhai, which meant heaven. It represented the oldest member of the family, and its body organs represented the head.

The five elements of Zhen were wood, the direction was east, the earthly branch was mao, the meaning was thunder, the family represented the eldest son, and the body organs were limbs and waist.

Just the Eight Trigrams alone had these variables, but this was just the beginning.

Ten days later, new data was added.

For example, Ren is the north, the five elements are yang water, the four seasons are winter, the color is black, the five internal organs are the bladder, the body parts are the shin, the mutual restriction is C, and the combination is the son.

Next, there were the nine stars, eight gates, eight gods, and the twelve earthly branches that contained all the symbols of the fifty-five Qimen Dunjia.

With such a huge amount of data, it was easy for Jiang Beiran to solve the problem by relying on the information he had in his head. However, when he had to calculate it himself, his scalp would go numb.

Jiang Beiran let out a long sigh and got up to take a big gulp of water in his room.

Rubbing his temples, Jiang Beiran felt that he still had to go to the Fei Mansion to study it, or else it would undoubtedly increase the difficulty of the problem by relying on "brain modeling" alone.

"Bang bang bang! Little Bei Ran opened the door! Open the door!"

Speaking of the devil, he was just thinking about Shi Fenglan when she came back.

Putting down the teacup, Jiang Beiran walked over and opened the door.

'Did I open the door wrongly today...'

The moment he opened the door, Jiang Beiran saw a little girl standing in front of her. She looked like she was in her golden years, but she didn't look angry at all. She was sizing him up.

While Jiang Beiran was still in a daze, Shi Fenglan introduced, "Little Beiran, let me introduce you. This is my niece. Her name is Shi Jiamu, and her nickname is Momo. She's very close to me!"

'Playmate...'

Seeing that Jiang Beiran had no reaction, Shi Jiamu said, "Uncle, you're very rude. My aunt introduced me to you. Can't you at least say hello?"

"Oh, hello." Jiang Beiran looked at Shi Jiamu and nodded.

Seeing that Jiang Beiran had really greeted her, Shi Jiamu was a little confused. She had thought that he would be disdainful or scold her, but he had chosen the most unlikely answer.

'Weirdo...'

Shi Jiamu instantly labeled Jiang Beiran with a label in her heart. "Little Beiran, can I bring this kiss in? She's very obedient."

"Good?"

Jiang Beiran did not notice. Although they had only met briefly, Jiang Beiran already felt that this little girl was quite difficult to deal with.

At the same time, the system options popped up.

[Option 1: 'No'. [Completion Reward: Exquisite Thunder Scroll (Earth Grade

Low-Rank)]

[Option 2: "Yes." [Completion Reward: Purple Mountain Charm Manual (Mysterious Grade Mid-Rank)]

[Choice 3: "How obedient?" [Completion Reward: Random Basic Attribute Point

"Hmm?"

From the three choices, Jiang Beiran read two pieces of information.

Firstly, this little girl would most likely affect him in the future. Otherwise, he wouldn't have rejected her offer of a low-level Earth Grade. Secondly, this little girl was indeed very difficult to deal with. He couldn't agree or disagree. He had to do something fancy to make this little brat behave.

With this realization in mind, Jiang Beiran chose the third option and asked with interest, "How obedient?"

[Mission completed. Reward: Luck +1]

"Wuhu!"

Seeing that his luck had increased a little, Jiang Beiran's mood immediately soared, and his expression when he looked at Shi Jiamu softened a little.

Although there was no evidence, Jiang Beiran felt that this little brat would bring him good luck.

"Sigh..." Shi Fenglan was stunned. She looked at Shi Jiamu and said hesitantly, "How obedient..."

Without waiting for Shi Fenglan to come up with an explanation, Shi Jiamu answered, "I will sit properly after I enter. I will not tell anyone what I have seen or heard. If you are worried, I can swear now."

“As expected of a strange child.”

However, according to the options given by the system, if he followed her rhythm, he would lose when dealing with this strange child.

Hence, Jiang Beiran nodded his head and took out a piece of parchment from his Interspatial Ring. He handed it to Shi Jiamu and said, “Very good. Read the oath according to the above.”

‘As expected of a strange uncle...’

Shi Jiamu had always thought that she was the only one who could give those people a headache. She did not expect to meet an adult who could give her a headache.

‘The world is indeed big and full of wonders.’

“I’ll read it.”

Snatching the parchment from Jiang Beiran’s hands, Shi Jiamu began to read from it..
