

## Won't Play 581

Chapter 581: Golden Cauldron Island

As they chatted on the way back to the Ten Thousand Flower Valley, Jiang

Beiran had a rough idea of what was going on with the Green Sky Gathering. First of all, the Golden Cauldron Island was discovered 32 years ago. Because

no one could break the island's protective array, it attracted many experts and high-grade array masters.

Those with a high cultivation base would attack forcefully, while high-ranked array masters would study them.

However, without exception, all of them failed. This made Golden Cauldron Island as mysterious as Profound Secrets Island.

People would always be interested in mysterious things, so the exploration of Profound Secrets Island had never stopped. It was only in the late autumn of that year that the experts suddenly discovered that the island had suddenly opened up.

This made the researchers very happy, and they all rushed towards the entrance.

However, those array masters with lower cultivation bases easily entered the island, but those cultivators above the Mystic Emperor realm were all stopped.

Therefore, those experts immediately ran back and called the juniors from their clans or sects over to let them enter the island to explore.

There were many disciples who came, but in the end, only 1,000 entered. This was because when the 1,000 disciples entered, the entrance to the island disappeared.

Soon, a month passed. Just when everyone thought that this island would be like Profound Secrets Island and devour everyone who entered, the entrance suddenly opened again.

The disciples who had entered earlier all rushed out in cheers, and they all carried a large number of natural treasures with them.

After cursing Shi Weiyi in his heart, Jiang Beiran calmed down a little.

He suddenly realized that this matter did not seem to be so bad.

First of all, he had already obtained the K \$ itigarbha True Crystal and was already thinking about how to leave the Shi family. However, every time he expressed this intention, Shi Hongfang would have various reasons to "retain" him.

This time, he could leave the Shi family for such a legitimate reason. Perhaps he would encounter an opportunity to escape. At the very least, if he helped the Shi family win the Green Sky Club, the Shi family would owe him a favor. At that time, he would have more confidence to escape.

As for the strangeness of Golden Cauldron Island, Jiang Beiran did not care. As long as the system did not choose to jump, it meant that he could completely control the situation.

After analyzing the pros and cons, Jiang Beiran cupped his hands and said, "Since the Sage has such high regard for me, I will do my best."

Shi Jiamu, who had been listening, was obviously stunned. She asked with widened eyes, "Uncle, are you really going?"

After interacting with Jiang Beiran for a month, Shi Jiamu had long realized that this uncle was like a monk who had no desires or desires. Or rather, it was not that he had no desires or desires, but that he never took the initiative to fight for anything. Once he encountered competition, he would immediately give up.

Therefore, when she heard that her uncle wanted Jiang Beiran to go to Golden Cauldron Island, she had wanted to watch the show. She wanted to see what kind of sparks would fly between her uncle, who was the best at persuading people, and her uncle, who was the best at rejecting people.

However, before she could take out the peanuts, the show had already ended.

Yu Shi Jiamu's reaction was different. Shi Weiyi smiled as if he had expected

Jiang Beiran to agree, "Very good. It's not in vain that I admire you so much. When you need to make a decision, you never make a mistake. Very good, very good."

Hearing Shi Weiyi's words, Jiang Beiran did not feel that he had been praised. Instead, he felt that there was a hidden meaning behind his words.

"When I need to make a decision" meant that the old man had been paying attention to me. "Never made a mistake" meant that if I rejected him this time, the old man would probably have already thought of a way to torture me. "That's why I said that I hate people who smile the most. They're all sneaky."

"I want to go too, I want to go too!" Shi Fenglan raised her hand and shouted when she heard that Little Bei Ran wanted to go too.

"Okay, okay, okay. Let's go together." Shi Weiyi smiled and nodded.

'An outing?

Hearing Shi Weiyi's casual decision, Jiang Beiran couldn't help but complain in his heart.

Although the Golden Tripod Island sounded like a "friendly match", Jiang Beiran knew that someone would die.

All kinds of top-notch materials, black-grade, and even earth-grade magic treasures, and a thousand people had entered. Wouldn't they beat their brains out?

The reason why Jiang Beiran agreed to go so readily was not only because the system did not choose to jump out, but also because he knew that the only one who could enter was the Mystic King.

As for a cultivator of the Mystic King's level, even if he fell asleep, it would be very difficult for the other party to hurt him.

Therefore, he could go in and explore without worry.

However, he was relieved. This old man also looked very relieved.

Did you expect me to protect these little girls?'

From the moment Shi Weiyi had told him about his decision, Jiang Beiran had already guessed that the Shi family wanted to use Bixiao Meeting to test his strength.

However, it was just a mere Mystic King. It was enough to deal with him with an array formation. Did these rotten melons want to probe his bottom? Childish.

"Good!" Hearing that her uncle had agreed to let her go, Shi Fenglan shouted happily at Jiang Beiran, "Little Bei Ran, we can finally go on an adventure together!"

Jiang Beiran didn't try to dampen her spirits. He nodded at Shi Weiyi and said, "Sage, can you tell me the details of the Green Sky Congregation so that I can make preparations?"

"You can ask Xiao Mu 'er about the specifics. She should have studied it for a long time."

Shi Jiamu was still in shock at Jiang Beiran's agreement to go with her. She only reacted when her uncle called her name. "Yes, uncle, don't worry. Leave it to me."

"Alright, then I've said all that I need to say. Go back and prepare well. If you lack anything, go ask your third uncle."

"Alright Thank you, Uncle. We'll be leaving then."

After saying that, Shi Jiamu grabbed Jiang Beiran's arm and walked out.

After closing the door, Shi Jiamu looked at Jiang Beiran in surprise and asked, "Uncle, are you really going?"

"Yes."

"This isn't like you...Could it be..Are you worried about me?"

"No."

Rolling her eyes, Shi Jiamu snorted. "I know it's definitely not. Can't you just say yes to coax me? You won't be able to get a wife like this."

Shi Fenglan, who was at the side, immediately laughed after hearing that. "Hehe, Little Bei Ran is never worried about the bride."

"Why?" Shi Jiamu asked curiously, "How can anyone like someone like him?"

"There are a lot of them." Shi Fenglan snickered.

"I don't believe it!" Shi Jiamu looked at Jiang Beiran again. "Uncle, why do you want to go to the Green Sky Club this time?"

“It’s not important. What you should do now is to tell me about the situation of the Green Sky Society in detail.”

“Is this your begging attitude?” Shi Jiamu puffed out her chest and snorted.

“Oh, then I’ll ask someone else. “Jiang Beiran said as he walked out of Boya Pavilion.

“Sigh! You uncle! Why was it always so difficult to crack a joke?” Shi Jiamu shouted as she chased after him.

As they chatted on the way back to the Ten Thousand Flower Valley, Jiang

Beiran had a rough idea of what was going on with the Green Sky Gathering.

First of all, the Golden Cauldron Island was discovered 32 years ago. Because no one could break the island’s protective array, it attracted many experts and high-grade array masters.

Those with a high cultivation base would attack forcefully, while high -ranked array masters would study them.

However, without exception, all of them failed. This made Golden Cauldron Island as mysterious as Profound Secrets Island.

People would always be interested in mysterious things, so the exploration of Profound Secrets Island had never stopped. It was only in the late autumn of that year that the experts suddenly discovered that the island had suddenly opened up.

This made the researchers very happy, and they all rushed towards the entrance.

However, those array masters with lower cultivation bases easily entered the island, but those cultivators above the Mystic Emperor realm were all stopped.

Therefore, those experts immediately ran back and called the juniors from their clans or sects over to let them enter the island to explore.

There were many disciples who came, but in the end, only 1,000 entered. This was because when the 1,000 disciples entered, the entrance to the island disappeared.

Soon, a month passed. Just when everyone thought that this island would be like Profound Secrets Island and devour everyone who entered, the entrance suddenly opened again.

The disciples who had entered earlier all rushed out in cheers, and they all carried a large number of natural treasures with them..
