

Won't Play 590

Chapter 590: Tailor-made Team (1)

"Uncle, this is what you want."

Shi Jiamu said as she placed a booklet in front of Jiang Beiran's desk in his little house in the Ten Thousand Flower Valley.

Picking up the booklet and flipping through it, Jiang Beiran asked, "All of them?"

"That's all I can find."

"Alright."

Jiang BeiRan nodded and started reading the booklet.

This time, he had asked Shi Jiamu to collect the heavenly and earthly treasures that had been brought out from Golden Cauldron Island over the years to calculate which type of materials had the most.

The goal was simple. He wanted to select the team members he wanted to bring.

For example, if Golden Cauldron Island did not produce medicinal herbs or had very few, there was no need to bring people to search for medicinal herbs.

This was because the Shi family's statistics in this area were not so detailed. Hence, the one Shi Jiamu had brought was at most a "remnant" and did not record all the treasures obtained from the Golden Cauldron Island.

"Let's live and see."

With this in mind, Jiang Beiran finished reading the entire statistics manual and tabulated the statistics.

In the end, when they discovered that the terrain was different, the types of materials produced were completely different.

Updated on BoXNOVEL.com

For example, there were more ores in the mountainous environment, more medicinal herbs in the plains, and more spiritual trees in the forest.

However, the most interesting thing was the glacial environment. This place looked barren on the surface, but there were many ancient things frozen in the ice mountains or at the bottom of the sea. It was the most difficult place to search for treasures.

However, Jiang Beiran found himself in a difficult position. The difference was so great that it made it much more difficult for him to choose the right candidate.

Closing the booklet, Jiang Beiran looked at Shi Jiamu and asked, "Have you been to Golden Cauldron Island?"

"I've attended the Green Sky Meeting, but I've never been on the island."

"So you saw it when the entrance opened?"

"Of course!"

"Can you see the situation inside the island when you open it?"

"I can see it."

Alright." Jiang Beiran nodded and asked, "Can the people entering the island be changed at any time?"

“Sure, there will be a number of people at the door anyway. When the number reaches fifteen, we won’t let them in anymore.”

Jiang Beiran was relieved when he realized that.

Then, he would take them all. After confirming which “map” was inside, he would decide who would enter.

It was perfect!

“How are they doing?” Jiang Beiran asked as he looked out the window.

Although they did not need to fight, they still needed to have the most basic reaction ability. Otherwise, it would be too stupid to squat down and hug their heads when they encountered danger.

“Don’t worry. This is a matter of life and death. They are also training quite seriously. Additionally...” Shi Jiamu dragged out her words. “Are you sure you’re bringing them along? If that’s the case, I’ll have to go and tell First Uncle. I’ll have to get his approval first.”

“Didn’t you say that you have full authority over this matter?”

“Then the selection of people is such an important matter, I have to let the elders know. It’s not like they can let me do whatever I want.” Shi Jiamu glanced at Jiang Beiran from the corner of her eye.

“Sigh.” Sighing in disappointment, Jiang Beiran stood up and said, “Alright, then I’ll go with you.”

Seeing Jiang Beiran’s disappointed expression, Shi Jiamu couldn’t help but feel a little angry.

‘He’s the one who’s messing around. Why does he look like I’m useless...’

He followed Shi Jiamu to Boya Pavilion. After being notified by the guards, the two of them went straight to Shi Weiyi's room. "Second Uncle!"

Shi Jiamu pushed open the door and shouted.

Just like last time, Shi Weiyi was fixing his potted plant. When he heard Shi Jiamu's shout, he turned around and replied, "Are you ready for the Green Sky Society?"

"Eh, uncle, how did you know?" Shi Jiamu asked in surprise.

"What else can you come to me for? Besides, you've brought our Master Jiang with you."

Hearing Shi Weiyi address him as a master, Jiang Beiran immediately felt goosebumps all over his body. He quickly cupped his hands and said, "I dare not be addressed as such by the Sage." "Hohoho."

It was the laughter that Jiang Beiran hated.

Shi Weiyi walked up to Jiang Beiran and said, "The title of master is reserved for the capable. Bei Ran, you are now the number one figure in our Ling Long Lane. It's not too much to call you master."

"I dare not stand shoulder to shoulder with the Sages and Sages."

"Alright, since you don't like it, I'll still call you Beiran." Shi Weiyi sat on a chair beside him, picked up a teacup and sniffed the fragrance. "I heard from Hongfang that you are also good at the Way of Tea?" "I don't dare to say that sages like this thing?"

"Hohoho, I like all good things."

"Then I'll bring you some tea leaves from my hometown another day."

“Then I won’t stand on ceremony.” Shi Weiyi took a sip of tea and asked, “Let me guess, you came here this time because you have decided who to give the spot

“Sage is wise.” Jiang Beiran cupped his hands.” Here’s the list. Please take a look. ””

Taking the list from Jiang Beiran, Shi Weiyi’s narrowed eyes opened a little after a quick glance.

” I believe that with your intelligence, you wouldn’t dare to treat Green Sky Guild as a child’s play. Since you didn’t treat it as a child’s play, tell me in detail why you chose these people.”

Jiang Beiran cupped his hands at Shi Weiyi again and explained the reason why he had brought these people to the island.

“Hohoho, interesting. “Shi Weiyi nodded several times.” The Green Sky Club has been running for more than 30 years, but no one has ever had such an idea. It’s really interesting to chat with smart people.””

Shi Wei Yi stood up from his chair.” It’s interesting, but I believe you understand the importance of the Green Sky Society. If you can’t completely convince me, I won’t agree to your risk..”
