Chapter 603: Which Expert?_I

Seeing the despair on Lin Shiyun's face, the masked man's lips curled up slightly behind his mask and reached out to grab her.

However, just as the situation was set in stone, Lin Shiyun suddenly opened her eyes. The petals that had been burned to ashes around her suddenly revived and became alive again. They turned into sharp blades that flew towards the seven masked men.

The seven masked men didn't expect Lin Shiyun's counterattack to come so suddenly, so they retreated one after another.

However, they were still a step too late. A few of them had been cut black and blue by the "petals". It was only because they had protected their vital points at the first moment that they had escaped the disaster.

In addition, the petals not only cut through their bodies, but also the masks of three of them.

"It's you!" Lin Shiyun shouted at the masked leader.

The masked leader caught the half of the mask that had fallen and looked at the person wearing the bull mask. "Didn't I tell you to restrain her first?"

"I've already used the Ten Ultimate Techniques to seal her meridians and spirit pool. I don't know how she broke through."

The leader shook his head and sighed, "Looks like you're no longer the young miss who only knows how to travel."

But at this time, Lin Shiyun had no intention of catching up with him. She once again controlled the petals to attack the seven people.

But this time, the seven of them were prepared. One of them burned the petals again, another used his palm to fan away all the ashes, and one of them was still in charge of suppressing Lin Shuangwen.

The remaining four attacked Lin Shiyun from four directions.

Lin Shiyun saw that her surprise attack didn't have much effect, so her hands immediately turned into two thorny vines and threw them at the four people who were charging at her.

One of them, who was wearing the mask of a Gu statue, pulled out his two knives and cut open the thorny vines. Just as he was about to continue moving forward, he realized that the thorny vines he had cut off had instantly split into thousands of thorny vines and tied him up. The moment they tied him up, the thorns on the vines pierced into his body and began to extract his blood.

“Hah!”

The sculpted man shouted and tried to use his Celestial Chi to shake off the thorny vines. However, although he had broken a lot of the vines, the recovery speed of the vines was far faster than his damage. In a short while, more thorns split and entangled him.

“Save me!”

This time, the sculpted man was really panicking. If he didn't deal with these thorny vines soon, he would probably be sucked dry.

Seeing this, the leader immediately flew to the side of the sculpted man. He stretched out his hand and tore off the thorny vines tied to the sculpted man's body. He then suppressed the thorny vines with a ball of black fire the moment they were about to split.

“Thank you, Senior Brother.” The scarlet-faced man, who was still in shock, thanked him.

Holding a section of the thorny vine in his hand, the leader suddenly said with a surprised expression, "It's actually wood spiritual energy? No wonder you were able to break through the shackles of the Ten Techniques, but when did you become a Wood Spiritual Qi?"

"It has nothing to do with you!"

After Lin Shiyun finished speaking, she condensed a sky full of flower petals again.

"The plan has changed. It doesn't matter if she's hurt. As long as she's alive, it's fine."

"Yes, sir!"

The other few people burst out with their Xuan Qi and attacked Lin Shiyun again.

Under the full-force attack of the six people, although Lin Shiyun's wood spiritual energy brought them a lot of trouble, it was still difficult for two fists to fight against four hands. Soon, she fell into a disadvantage. If it wasn't for the wood spiritual energy that had been helping her to repair her body, she would have long been unable to hold on.

"So tenacious! Then don't blame me for being ruthless!"

After the leader finished speaking, he condensed a ball of black fire and threw it at Lin Shiyun. In the chaotic battle, Lin Shiyun could not dodge in time and was hit head-on.

The black fire was like a bone-deep poison that was difficult to extinguish and quickly spread throughout Lin Shiyun's body.

Lin Shiyun cried out in pain. Under the influence of the black fire, the recovery ability of the wood spiritual energy was greatly reduced. In an instant, she was hit by the other five people.

"Aunt!"

On the ground, Lin Shuangwen was filled with regret. Usually, her father had always urged her to train her mystic conscious more, but she always felt that this was unorthodox. As a cultivator, she should use mystic qi to determine the winner.

However, this naïve thought had paid a huge price today. In front of a person with strong mystic conscious, she was as weak as a baby, unable to resist at all. She could only watch helplessly as her aunt was besieged.

“Boom!”

Under the influence of the black fire, Lin Shiyun finally could not hold on any longer and was hit back to the ground.

The leader also descended from the sky and shook his head at Lin Shiyun, “Why do you have to do this? It would be better if you obediently surrender. You don’t have to suffer this kind of hardship. If your pretty face is burned, my heart will also ache.”

“Bah! Xiao Yan was determined! You will die a horrible death!”

Xiao Yiran, who was spat at, laughed out loud and sighed. “I don’t know if I’ll die a horrible death, but you won’t die easily.”

Xiao Yiran suddenly threw a palm at Lin Shiyun.

Lin Shiyun, who was already extremely weak, had to force herself to stay awake. Now that she was hit by this palm wind that contained mystic force, she immediately lost consciousness and fainted.

“Take him away!”

Xiao Yan waved his hand, but he waited for a long time without any response.

“I said you guys are deaf...”

Xiao Yiran turned around and was about to scold him when he suddenly felt himself flying and spinning in the air.

“What happened?”
