'Something's wrong...Something's wrong...'

It had been seven days since Jiang Beiran arrived at Golden Cauldron Island. Despite running around every day, he still hadn't seen any Outsiders.

As the saying goes, things are unpredictable, there must be evil.

The alien races definitely didn't enter the island because they remembered the wrong time. Therefore, it was worth pondering what made them not enter Golden Cauldron Island at the first moment.

However, since the system had not shown any signs of changing the option, Jiang Beiran was only slightly surprised and did not worry too much.

In addition, compared to the fact that the Outsiders had not encountered any problems, Jiang Beiran's biggest headache was that he had yet to find any clues related to the formation on the island. There was not even a single detail.

"Could it be...Was it really not the formation protecting Golden Cauldron Island?"

However, Jiang Beiran was really just making a wild guess. After all, the existence of Golden Cauldron Island was too much for him.

He didn't even know if he was really inside Golden Cauldron Island, so how could he crack it?

Perhaps I can only resolve these phenomena after I've maxed out my new skill points.'

When Jiang Beiran met Gao Lanwen earlier, he had realized something. The first generation's skill points could already suppress a Grade Eight Jade Master like her. He had been wondering what the skill points for the "new ship version" were for, but now he somewhat understood...

The Mystery Dragon Continent was huge, and there were many other places like Golden Cauldron Island. Perhaps they all required higher-level mystic arts techniques to crack.

Jiang Beiran felt a line of words jump out of his head.

[You haven't obtained a key item yet, unable to enter the next map]

This kind of notification was something he hated the most when he played games in the past. He did not expect to be able to experience it personally now.

However, Jiang Beiran had no intention of giving up. Since he had nothing to do anyway, he might be able to find something special if he searched more carefully.

With this thought in mind, Jiang Beiran strolled leisurely through the valley again.

"Boom!"

At this moment, a violent explosion was heard not far away. Jiang Beiran, who had long been accustomed to such a scene, did not even bother to look at it and continued walking forward.

But soon, the explosion was getting closer and closer. At the same time, several figures landed in front of him.

"You guys go first. I'll hold them back."

A man who was nearly eight feet tall shouted in front of Jiang Beiran.

Jiang Beiran found the man in front of him rather interesting as he looked at him, who was dressed in a long indigo robe with silver embroidery on his collar and cuffs.

Because of this person's appearance, or rather, his temperament, it made people especially want to call him Eldest Senior Brother. One could tell at a

glance that he had the temperament of a leader. “Senior Brother, we’re not leaving!”

“Your injuries are too serious. Leaving you here will only distract me.”

“We...”

“Since Senior Brother has said so, we should leave quickly. If we stay now, we will only cause trouble for Senior Brother.”

“But...”

“Let’s go!” The man in the indigo robe shouted again.

“Yes, sir! Senior Brother, take care!”

The group of junior brothers and sisters bowed deeply to the long-robed man and immediately retreated.

Just as Jiang Beiran was looking forward to seeing what kind of cultivation this man with the aura of a senior brother would display, something completely unexpected happened.

The man in the indigo robe turned to look at him and shouted, “Little brother, this place is dangerous. You should leave quickly to avoid being implicated.”

“He can actually see me?”

This was something that Jiang Beiran had never expected. After all, he was also wearing a modified Obscure now.

What made Jiang Beiran even more surprised was that this person had seen him so naturally without even using his mystic conscious.

‘Strange...’

Jiang Beiran exclaimed in his heart, then cupped his hands at the man and said, “Thank you for reminding me to use the system.”

After saying that, he found a hidden place to hide and prepared to continue observing this interesting “Eldest Senior Brother”.

After all, since this person could see through his obscurity, he could see through others. If he left it alone, there might be an accident.

After Jiang Beiran had hidden himself, the man in the indigo robe shouted towards the sky, "The people of the Supreme Sect are here! Come down and fight!"

Following the gaze of the resident, he saw four of the seven figures flying towards him, while the other three were chasing after the injured junior brothers.

"Where are you going!"

The resident shouted and flew into the air, but he was stopped by the four people who were flying towards him.

After a while, the Junior Brothers and Sisters who had just escaped came back and shouted, "Senior Brother, save me!"

As soon as the man finished shouting, Jiang Beiran saw a flaming spear flying through the air and piercing through the other man's chest.

"Ah!"

The male cultivator whose chest was pierced screamed and knelt on the ground.

In the next second, a man in a tight-fitting robe descended from the sky and stepped on the person who was stabbed by the spear. He shouted, "Run! I told you to run!"

The man who was stepped on screamed again and shouted in pain, "I've already given you the treasure, so why are you still chasing after me?"

As soon as he finished speaking, another five figures descended from the sky and surrounded the three injured people.

"Give it to us? That's your loss! According to the bet, you have to hand over everything you have." As the man spoke, he suddenly pulled out the flaming spear. The male cultivator on the ground screamed in pain again..

"When did we agree to your bet??" An injured female cultivator shouted.

“I said that you guys agreed to it, so hurry up! Don’t make Grandpa angry and leave your lives behind!” After saying that, she stepped on the wound of the male cultivator on the ground.

“Stop!”

At this moment, the resident landed from the sky and kicked the person holding the spear.

“Good timing!”

The spear-wielding person had no intention of retreating. He directly stabbed his spear towards the foot of the resident.

However, the resident’s leg skills were so good that he kicked the man with the gun away.

“Good! As expected, you’re the only interesting one.”

The spear-wielding man laughed maniacally after he finished speaking, and a burst of fire-like mystic qi instantly enveloped his entire body.

‘What dense fire spiritual energy...Innate Fire Spirit Body?’

At the sight of the Fire Spirit Qi, Jiang Beiran felt that it was not the acquired Fire Spirit Qi that had been transformed by absorbing the power of the earth vein, but a higher grade innate Fire Spirit Qi. ” As expected of the chaotic battle between the juniors of the top sects.’

Regardless of whether it was the residents who could see through this, or whether he didn’t use mystic skills and only relied on hand-to-hand combat.

Both of them had piqued Jiang Beiran’s interest.

After all, everyone had the heart to love talents.

As for the test, it was mainly to see if the system would jump to the next option. What Jiang Beiran needed to know was how the residents would react when they found out that the person who saved them was not a righteous hero.

It turned out that his answer was not bad. It was very much in line with Jiang Beiran’s image of a senior brother.

Throwing the two porcelain bottles to the residents, Jiang Beiran said, ”Go and settle down your junior brother and junior sister first. Come here to see me in four hours. In addition...Don’t tell anyone about me.”

“Yes, sir! Thank you for saving my life, Senior!” Ju Zimin took the two porcelain bottles and bowed deeply at Jiang Beiran’s back. Then, he carried his junior brother and sister and left the place that reeked of blood.

When they found a hidden place, the residents checked it in private before putting their junior brothers and sisters on the ground.

He opened the purple porcelain bottle that the senior had given him and smelled it. The resident was shocked.

“This is...Fragrance Pill?”

Of course, the people of the fourth-grade Congealing Fragrance Pill House had seen it before, but he had never seen it with such a rich fragrance and such abundant spiritual energy. He was not even sure if it was a Congealing Fragrance Pill.

But since it was a pill given by that senior, it should be used to treat their injuries.

Holding the medicine bottle, he squatted beside his third junior brother. The resident poured out a pill from the bottle and said, “Come, Zhengping, open your mouth.”

However, Ye Zhengping had already lost too much blood and fainted. He could not respond to the residents ‘calls at all.

Helplessly, the resident could only stuff the Fragrance Condensing Pill into Ye Zhengping’s mouth first, preparing to use Xuan Force to transfer the pill into his mouth.

Unexpectedly, just as he put the Fragrance Condensing Pill into the mouth of the resident, he saw the Fragrance Condensing Pill quickly melt into juice, and then at a speed visible to the naked eye, it turned into a pink medicinal mist and entered Ye Zhengping’s throat.

‘This...’

This was the first time that the residents had seen such a magical pill. Even their master had never seen it before.

“Oh...

A moment later, Ye Zhengping exhaled and slowly opened his eyes.’Mas...

Senior Brother.”

Subconsciously looking around, Ye Zhengping was finally relieved when he saw that there was no one else.

‘As expected of Senior Brother...Under those circumstances, he was still able to bring us out alive.’

The resident subconsciously answered that he didn't do it, but remembering that the senior had said not to tell others about him, he could only change the topic and ask, "Zhengping, how do you feel?"

"It's much more comfortable... Senior Brother, what did you give me to eat? I feel like my wounds are healing very quickly."

The resident looked at the wound on Ye Zhengping's back and found that the wound pierced by the spear was healing at a speed visible to the naked eye.

The people of the Elixir Residence had seen many people who could heal wounds quickly, but he had just experienced the power of this spear. The places on his body that were stabbed by this spear were extremely difficult to heal, and it could even be said that they could not heal at all, whether it was the self-will technique that their sect was famous for its powerful self-healing ability or the powerful healing ability of his body.

None of them were of any use.

However, just a fourth-grade Fragrance Condensing Pill could actually have such powerful medicinal effects.

'Who exactly is that senior...'

However, Ju Ren Min had no time to think about this. After seeing Ye Zhengping start to recover, he immediately put another Fragrance Pill into his junior sister's mouth.

"Cough...Cough cough!"

After coughing violently, Sun Yingxuan sat up abruptly.

"Are you feeling better?"

Hearing her senior brother's voice and looking at his body full of wounds, Sun Yingxuan suddenly burst into tears and threw herself into his arms, shouting, "Senior Brother!!!"

"Alright, it's fine. Lie down and rest for a while."

Raising her head from Ju Zimin's arms, Sun Yingxuan sized up her senior brother and asked, "Senior Brother, are you alright?"

Don't worry, I'm fine, you're lying down."

"Yes..." Sun Yingxuan responded and slowly lay on the ground." Senior Brother..." Thank you."

Ju Min smiled slightly and replied, "It's what I should do."

After the two of them closed their eyes to heal, the resident stood up and placed a Fragrance Condensing Pill into his mouth.

After experiencing it for themselves, the residents discovered the miraculous aspects of the Fragrance Condensing Pill. The originally charred wound on his shoulder had now grown new flesh and was healing at a speed visible to the naked eye.

At the same time, after experiencing it for themselves, the residents finally understood why this Fragrance Condensing Pill was so different.

'It's actually wood spiritual energy...Moreover, it was extremely pure wood spiritual energy.'

If it was in the past, the residents would definitely think that using such pure wood spiritual energy to refine the Fragrance Condensing Pill was simply a waste of natural resources. However, after personally experiencing it, they realized that the Fragrance Condensing Pill could actually display such a powerful effect.

Furthermore, medicinal pills refined from wood spiritual energy had always been priceless. That senior had only met him once, but he had actually casually given it to him as if he had given him a few candy beans.

'Such an expert...Why is he on Golden Cauldron Island?

Now that his two junior brothers and sisters were safe, the residents finally had time to calm down and think about what had just happened.

First of all, she did not feel any Celestial Chi when that expert killed those six peak Mystic Kings..

It was this expert who killed all six of them just by relying on his physical strength.

The resident had always thought that it was extremely rare for his body to be cultivated to such a level. He did not expect that there would be someone who far surpassed him. This made him feel like mocking himself for being a frog at the bottom of a well and underestimating the people of the world.

Just based on that attack, the residents were certain that the senior's strength was definitely far beyond the Mystic King realm. He should not have appeared on this island at all.

'Could it be that this senior used some kind of mysterious technique to enter the island?'

If that was really the case, the residents felt that a thousand Xuan Kings on the island would not be enough for him to kill. However, he did not do so and even saved his life.

This made the residents puzzled. Countless questions popped up in his mind like bamboo shoots after a rain.

Even a Profound Sage Sage is unable to enter this island, so how did this senior manage to enter? Could it be that his cultivation level was even higher than a Profound Sage...No, no, no, it's impossible, but... It didn't seem impossible.'

'What does this senior intend to do on the Golden Cauldron Island? If they wanted to search for treasures, they could just kill a thousand of them and slowly search for them. If they were not searching for treasures... What was this senior doing on the island?'

'Why did this senior save me? What was the meaning of the test just now? What does this senior want me to do for him...'

One by one, the questions that he couldn't think of an answer to lingered in the resident's mind, making him somewhat at a loss.

At this moment, he suddenly realized that the wound on his arm had completely healed. He tried to clench his fist twice, and the expression of the resident suddenly became firm again.

No matter what the purpose of that senior saving him was, the fact that he had saved him would not change. What he should think about now was how to repay him.

‘I hope those questions that were used to test me just now... It’s really just a test.

Four hours later, the residents who had already sent their junior brothers and sisters back to the camp found the place they had just been to and saw the expert standing on the hillside looking into the distance.

“Greetings, senior. I’ve returned.”The resident cupped his hands in Jiang Beiran’s direction.

“What kind of gaze is that...”

Before the resident left, Jiang Beiran had improved the MiRan again, strengthening its effect of reducing the sense of presence. However, the resident could still see him at a glance.

“It’s ridiculous.”

Turning his head, Jiang Beiran nodded and said,“From today onwards, you will follow by my side.”

The resident was stunned, but he quickly cupped his hands and said,“Yes, sir!”

It was too troublesome for Ju Zi Min to see through Minran. If he met Ji Zishi and the others, it would not be good if something happened.

Therefore, Jiang Beiran decided to keep him by her side. There was another reason...

Jiang Beiran wanted to confirm if he could use his monstrous talent for other purposes.

“Very good. I’ll give you two more hours to go back and make arrangements.”

“Many thanks, senior!”

“Yes, sir! I bid you farewell.”

After the residents left, Jiang Beiran took out another piece of cloth from his Cosmos Ring.

'I don't believe you! How can I not make something that this kid can't see through?'

Regardless of whether it was the residents who could see through this, or whether he didn't use mystic skills and only relied on hand- to-hand combat.

Both of them had piqued Jiang Beiran's interest.

After all, everyone had the heart to love talents.

‘Tsk..As expected, things couldn’t have gone so smoothly.’

After a few strokes of Ju Zimin, Jiang Beiran realized that he really resembled him in every aspect.

She was even as skilled as him in using the word “know a little”.

With Ju Zimin's painting standards, even if he wasn't a master, he would definitely be able to paint bamboo for ten years and become bamboo himself. He had very solid basic skills.

Unfortunately, Jiang Beiran was not surprised by the drawing that the residents had drawn.

Judging from the painting, the mountains that the residents saw were exactly the same as the mountains that he saw. There was no difference.

However, Jiang Beiran did not give up. He planned to bring the residents to other places to see if they might discover something new.

They strolled all the way until night fell. Jiang Beiran, who still hadn't found anything, brought the residents back to his sect's camp.

"Wait for me tomorrow morning at the place where we met today." Jiang Beiran left after saying that.

Since Ji Rang had already spoken to the residents about Minran, Jiang Beiran naturally didn't have to worry about him having any conflict with his own team members. Hence, there was no need for him to follow them around.

"Thank you, Senior!"

The resident bowed deeply at Jiang Beiran's back.

He knew that the senior must have understood that he was worried about his junior brothers and sisters, so he asked him to come back and take care of them.

"Senior, you're really cold on the outside but warm on the inside..."

When Jiang Beiran was nowhere to be seen, the residents turned around and returned to their own sect.

After sending off the residents, Jiang Beiran returned to his cave. Before he stepped into the cave, he heard several calls.

"Little Bei Ran "Big Brother Jiang!"

"Uncle!"

“Jade! Jade!”

Feeling a headache, Jiang Beiran glanced at them and said, “What is it?”

After Jiang Beiran’s gaze swept over everyone, they immediately stood in a line. Shi Fenglan, who was standing at the front of the line, said, “I want to eat chicken pot today! The kind that’s especially spicy! And...Oh...”

Looking at the sharp look in Little Bei Ran’s eyes, Shi Fenglan knew that now was not the time to talk about this. She could only snort and run away.

Shi Jiamu walked up next. She took out a strange-shaped metal object from her

Cosmos Ring and said, “Uncle, do you recognize this? It was dug up by Gan Boliang in the afternoon. No one knew what it was.”

Jiang Beiran took it and studied it for a moment before saying, “I don’t know him. Take it back and let the elders of the clan leader evaluate it.”

Judging from the inscriptions carved on the metal, Jiang Beiran guessed that it must be some kind of magic tool that could assist in setting up a formation. However, when he thought of the fact that it had to be handed over, he lost interest in delving further.

“You actually don’t even recognize uncle...”

Shi Jiamu looked at the strange metal object for a moment before coming to a conclusion.

“Ha, looks like I picked up another treasure!”

In Shi Jiamu’s opinion, an uncle could be equated to an omniscient person. If even he didn’t recognize something, it must be a good treasure.

After Shi Jiamu left, Ding Yuanzheng walked up with another piece of red copper. But before he could speak, he heard Big Brother Jiang say,

“When you find the precious materials, just put them in the warehouse. There’s no need to ask me.”

If he had found all these things for her, Jiang Beiran would have been more than happy to be an expert appraiser. However, he was just a part-time worker. The more good things he saw, the more uncomfortable he felt.

After all, he was the kind of person who didn't want to see it. Since he couldn't get it anyway, he might as well not even let him see it, lest he coveted it.

The people who had wanted to come to Brother Jiang for an explanation immediately dispersed, leaving Liu Weining alone. She came up to Jiang Beiran with her hands folded and shouted, "Jade, I want to touch jade."

Glancing at Liu Weining, Jiang Beiran asked doubtfully, "There are so many jades in the warehouse. Why do you have to keep staring at the one in my hand?"

"It's different." Liu Weining shook her head. "The jade in Sir's hand..." Liu Weining raised her head and thought for a while before replying. "It's the most comfortable."

"Tell me the reason in detail."

Jiang Beiran had originally thought that Liu Weining liked the righteous aura that the Swan Jade emitted. This aura could indeed cleanse one's soul and soothe the wearer's spirit.

However, this time, she found many jade stones with the same effect on Golden Cauldron Island, but they did not seem to satisfy Liu Weining's desire for this aura.

To put it simply, these were not as good as the swan jade.

Jiang Beiran could not help but feel curious. The quality of the jade stones dug out from Golden Cauldron Island was quite high, and one of them was even Black Grade Top-Rank, enough to tempt even Mystique Venerable Ones.

Jiang Beiran knew that the swan stone was very rare and precious, but he was not sure how precious it was.

Because there were not many swan jades in the present world, and the spiritual power contained in them was of different levels, it was difficult to give it a fixed evaluation.

Jiang Beiran had never used swan jade to make a piece of jade before, so he did not make a move. He was deeply afraid that he would destroy a heavenly treasure.

After spending so much time together, Jiang Beiran had already come to know that Liu Weining indeed possessed the Life Tablet Body that every jade refiner dreamed of. This kind of body could not only sense the top-grade jade around her, but also the potential of the jade.

It was very important for a jade refiner to sense the potential of a jade stone.

To put it simply, a piece of jade with 50% potential would be completely wasted if you carved it as if it had 80% potential.

It was very difficult for an ordinary jade refiner to perceive the full potential of the jade before carving. They could only slowly explore it, and in the process of exploring it, it might cause damage to the jade..

That was why the Life Tablet Physique was the dream physique of all jade refiners.

Unfortunately, perhaps due to the limitations of her IQ Liu Weining's special physique was severely biased. She was top-notch when it came to finding jade, but she was far inferior when it came to sensing the potential of jade.

She only had two judgments about jade. The jade that was uncomfortable to rub against, and the jade that was very comfortable to rub against.

However, the difference between the top and bottom of Very Comfortable was too great. It fluctuated from five to ten points. This was simply a lonely test.

Initially, Jiang Beiran did not expect her to give him the correct answer. However, through various comparisons, he found that this girl seemed to have shown a much greater liking for the swan jade in his hand than for the other jades.

Could it be understood that the other jades were all between five and ten, and the swan jade had broken through ten, so Liu Weining liked it very much?

After listening to Jiang Beiran's question, Liu Weining stretched out her hands and said, "If you rub me again, I'll answer you."

"You're not allowed to talk about conditions. If you can't say it, you won't be able to get anything in the future."

'Tsk..As expected, things couldn't have gone so smoothly.'

After a few strokes of Ju Zimin, Jiang Beiran realized that he really resembled him in every aspect.

She was even as skilled as him in using the word "know a little".

With Ju Zimin's painting standards, even if he wasn't a master, he would definitely be able to paint bamboo for ten years and become bamboo himself. He had very solid basic skills.

Unfortunately, Jiang Beiran was not surprised by the drawing that the residents had drawn.

Judging from the painting, the mountains that the residents saw were exactly the same as the mountains that he saw. There was no difference.

However, Jiang Beiran did not give up. He planned to bring the residents to other places to see if they might discover something new.

They strolled all the way until night fell. Jiang Beiran, who still hadn't found anything, brought the residents back to his sect's camp.

"Wait for me tomorrow morning at the place where we met today." Jiang Beiran left after saying that.

Since Ji Rang had already spoken to the residents about Minran, Jiang Beiran naturally didn't have to worry about him having any conflict with his own team members. Hence, there was no need for him to follow them around.

"Thank you, Senior!"

The resident bowed deeply at Jiang Beiran's back.

He knew that the senior must have understood that he was worried about his junior brothers and sisters, so he asked him to come back and take care of them.

“Senior, you're really cold on the outside but warm on the inside...”

When Jiang Beiran was nowhere to be seen, the residents turned around and returned to their own sect.

After sending off the residents, Jiang Beiran returned to his cave. Before he stepped into the cave, he heard several calls.

“Little Bei Ran “Big Brother Jiang!” “Uncle!”

“Jade! Jade!”

Feeling a headache, Jiang Beiran glanced at them and said, “What is it?”

After Jiang Beiran's gaze swept over everyone, they immediately stood in a line. Shi Fenglan, who was standing at the front of the line, said, “I want to eat chicken pot today! The kind that's especially spicy! And...Oh...”

Looking at the sharp look in Little Bei Ran's eyes, Shi Fenglan knew that now was not the time to talk about this. She could only snort and run away.

Shi Jiamu walked up next. She took out a strange-shaped metal object from her

Cosmos Ring and said, ‘Uncle, do you recognize this? It was dug up by Gan Boliang in the afternoon. No one knew what it was.’

Jiang Beiran took it and studied it for a moment before saying, “I don't know him. Take it back and let the elders of the clan leader evaluate it.”

Judging from the inscriptions carved on the metal, Jiang Beiran guessed that it must be some kind of magic tool that could assist in setting up a formation. However, when he thought of the fact that it had to be handed over, he lost interest in delving further.

“You actually don't even recognize uncle...”

Shi Jiamu looked at the strange metal object for a moment before coming to a conclusion.

“Ha, looks like I picked up another treasure!”

In Shi Jiamu’s opinion, an uncle could be equated to an omniscient person. If even he didn’t recognize something, it must be a good treasure.

After Shi Jiamu left, Ding Yuanzheng walked up with another piece of red copper. But before he could speak, he heard Big Brother Jiang say,

“When you find the precious materials, just put them in the warehouse. There’s no need to ask me.”

If he had found all these things for her, Jiang Beiran would have been more than happy to be an expert appraiser. However, he was just a part-time worker. The more good things he saw, the more uncomfortable he felt.

After all, he was the kind of person who didn’t want to see it. Since he couldn’t get it anyway, he might as well not even let him see it, lest he coveted it.

The people who had wanted to come to Brother Jiang for an explanation immediately dispersed, leaving Liu Weining alone. She came up to Jiang Beiran with her hands folded and shouted, “Jade, I want to touch jade.”

Glancing at Liu Weining, Jiang Beiran asked doubtfully, “There are so many jades in the warehouse. Why do you have to keep staring at the one in my hand?”

“It’s different.” Liu Weining shook her head. “The jade in Sir’s hand...” Liu Weining raised her head and thought for a while before replying. “It’s the most comfortable.”

In a cave, three disciples dressed in the uniform of the same sect were carefully digging a hole.

"Can you guys hurry up? How long have you been digging?"

At this moment, another disciple dressed in the same uniform came to the entrance of the cave and shouted.

The disciple who was digging a hole immediately retorted, "Then you do it!" He had long been impatient with digging. If it wasn't for the fear of damaging the ores here, he would have already punched out and razed this cave to the ground.

"I'm not coming. I still have to patrol, so I'm rushing you."

"Hey! You bastard! Wait for me to come up and see how I'll deal with you."

"Alright, I'll wait, but don't come up empty-handed." With that, he turned around and continued his patrol.

But as soon as he walked out of the cave, he was stunned because the two junior brothers who were patrolling with him were already lying in a pool of blood, and their internal organs were almost squeezed out.

“Hurry... Run...” One of the junior brothers who was not completely dead looked at him and shouted.

‘ What happened?!’ Sha Zhiye bellowed, and a green-lotus-colored Celestial Chi poured out of his body.

Pulling out his Yellow Grade Upper Rank Dharma treasure, the Purple Gold Spear of Buddha Mother, Sha Zhiye looked around and shouted, “Who dares to hurt my Hunyuan Sect disciple! Come out and fight!”

At this time, the people who were mining also heard the sound and quickly flew out of the mine and rushed up.

When they saw their two junior brothers lying in a pool of blood outside the cave, the three of them immediately took out their magic treasures and prepared to help.

” What’s going on?!” Mu Yangping and Sha Zhiye, who had just been teased, stood back to back and asked.

“I don’t know. When I came out, I saw Feiyu and the others fall.”

Sha Zhiye squatted down and transferred his Celestial Chi into Li Feiyu’s body.”

What happened?”

After being infused with spiritual energy, Li Feiyu, who was already on the verge of death, regained some strength. He struggled and said, “Senior Brother, run quickly...Outsiders! A very strong alien race.”

‘ What?!’

Sha Zhiye’s eyes widened. He was about to say something when he felt an aura pressing down on him that made his entire body tremble.

“Hiss...”

Sha Zhiye took a deep breath and slowly raised his head. He saw a three-meter-tall humanoid alien made of black rocks standing in front of him.

“It’s the Rock Spirit!”

Sha Zhiye had seen these Rock Spirits before. Their bodies were completely made of some kind of rock that did not exist on the Black Dragon Continent. Their defense was extremely strong, and it would be difficult for human cultivators of the same cultivation level to break through their defense.

Moreover, the poison, fire, lightning, and other five elements were not very effective against them. It could be said that they were one of the alien races that gave humans the most headaches.

This was not the scariest part. Although the Rock Spirit did not cultivate Celestial Chi, they could still sense each other's strength. At this moment, Sha Zhiye could feel that the Rock Spirit's cultivation was far above his.

As a cultivator at the peak of the Mystic King realm, Sha Zhiye was undoubtedly the Mystic Emperor!

How did this happen?!"

Although Sha Zhiye was also puzzled by the fact that he hadn't seen any foreign species, he didn't expect to see a Mystic Emperor.

"Run!"

In the face of absolute suppression, Sha Zhiye had no intention of resisting. He only wanted to escape as fast as he could!

However, just as he was about to fly into the air, he felt a huge pressure pressing down on him, making him unable to move at all.

And this pressure was getting stronger and stronger, causing him to go from standing to squatting, and then from squatting to lying down.

At the last moment, he understood why his two junior brothers were lying in a pool of blood. It was because he could feel his body crumbling.

The difference of one realm brought about a suppressive force...

It made people so desperate!

Looking at Mu Yangping, who was also pressed down on the ground, Sha Zhiye smiled and said, "'1 didn't expect to die the same way as you. How embarrassing."

“Hahaha, I was just about to say that. “Mu Yangping laughed maniacally as he shouted, “Let’s go to the netherworld and decide the victor.”

“That’s exactly what I want.”

As soon as he finished speaking, the two of them spat out a large mouthful of blood at the same time and died.

After observing the six corpses on the ground and confirming that they were all dead, the Rock Spirit walked forward.

On the other hand, Jiang Beiran was still leading the residents to search for mountains to paint. He was thinking that since he had nothing to do anyway, it would be nice to take a walk.

In addition, he could also learn more about this new follower of his and plan what role he could play.

During their conversation, Jiang Beiran had gained a general understanding of the Zeng Kingdom. This country was famous among the Six Nations for its trade safety. If cultivators from other countries had any secret deals to make, they would immediately think of the Zeng Kingdom.

Therefore, there were many exchanges and underground black markets in Zeng Country, which also brought a lot of resources to Zeng Country.

Of course, the safety of trade was closely related to the overall strength of the cultivators in Zeng Country. Among the six countries, Zeng Country had the most spiritual veins. Perhaps it was because of good feng shui, but there were quite a number of juniors with special physiques.

The other five countries were also coveting the Zeng Country’s territory. Unfortunately, the other five countries were not wolves hunting together, but foxes with their own plans. Cooperation was impossible. It was already a model of benevolence and righteousness not to stab others in the back.

Although the Zeng Country was strong, they couldn’t swallow up the other five countries in one go. After all, the other five countries couldn’t attack together, but they understood the principle of losing one’s lips and losing one’s teeth. As long as the Zeng Country dared to attack one country, the other four countries would definitely help..

Jiang Beiran finally knew who was the most powerful nation among the Six Nations.

'Zeng Country...I'll go take a look when I have time.

Jiang Beiran really liked the words 'trade safety' a lot. He just didn't know if it would be so safe that even the Heavenly Axiom wouldn't be able to target him.

Of course, even if he was not safe, he could arrange for his underlings to deal with it.

For example, this new follower in front of him was not bad.

Now that Jiang Beiran had a pretty good understanding of the Ceng Kingdom, he naturally had a good understanding of the residents themselves.

His parents died when he was young, and he was brought back to the sect after being seen by the cultivators of the Supreme Sect.

However, the path of cultivation for the residents was not smooth at the beginning. It could even be said to be very bumpy.

Whether it was mental cultivation method or mystic cultivation method, he was the slowest to comprehend them. He was once treated coldly by the sect as a good-for-nothing.

This reminded Jiang Beiran of Gu Qinghuan.

He had no talent in cultivation and knew nothing.

Ju Min was also as lucky as Gu Qinghuan to have met his Bo Le.

The resident was born with a personality that refused to admit defeat. He thought that since he could not learn a certain mystic skill in one go like others, he would practice it a hundred times. If a hundred times did not work, then a thousand times.

Since his talent was not good enough, he could make up for it with hard work.

Once, when he was desperately training, he was seen by a Supreme Sect elder who passed by and was noticed.

Later on, this elder would specially pass by this place every day to take a look. Even if there was no one to supervise the residents of Ice Farming Town, they never slacked off.

As time passed, they started to love talents and took in the residents as disciples.

“Courtmaster, please take everyone away first. Leave this monster to me...”

Little Seven, who was burning with pale blue mystic qi, was about to show off with his back facing Lin Shiyun when he saw the Rock Spirit rushing in front of him with lightning speed and throwing a punch.

In her panic, Little Seven quickly raised her hands to block.

“Bang!”

With a muffled sound, Little Seven took a few steps back, and her hand cracked.

But even though the price was huge, Little Seven still took the punch. This stunned everyone present, including the Rock Spirit.

Lin Shiyun and the others had personally experienced the Rock Spirit’s power. It was definitely at the Mystic Emperor Realm. Little Seven had clearly not even reached the peak of the Mystic King Realm, yet she was able to withstand his attack.

This was simply unbelievable.

“Hurry up and leave!” Seven roared.

At this moment, Lin Shiyun also understood that they would only be a hindrance if they stayed behind. However, just as she was about to help another severely injured clansman to leave, the familiar pressure pressed down again, making them obediently lie on the ground, unable to move.

Little Seven saw this and roared, using the move she learned in the secret realm.

“Back off!”

With a furious roar, a long spear condensed from blue Profound Qi appeared in Little Seven’s hand and stabbed towards the Rock Spirit’s chest.

With a ” boom the spear tip exploded violently the moment it touched the Rock Spirit’s chest, stirring up a large cloud of dust. The resulting Profound

Energy vibration was so strong that even Lin Shiyun, who was lying on the ground, felt her heart palpitate.

However, when the dust settled, only a small crack appeared on Shi Lin’s chest. It could be said that it did not cause any substantial damage.

“Ha...”

Little Seven laughed at himself. Although he didn’t know where this blue Profound Qi came from, when this Profound Qi wrapped around him, he felt an unprecedented power, as if he was omnipotent.

However, just one move had completely shattered his fantasy. He was still not a match for the monster in front of him. At most, he had turned from an ant that could be crushed with his pinky finger to a turtle that could withstand a little.

“Roar!”

After hearing Little Seven’s self-mocking voice, the Rock Spirit suddenly became furious.

This laughter was not very harmful to the Rock Spirit, but it was extremely insulting. It was a dignified Heavenly Spirit Realm cultivator, yet it was actually injured by a human who was one realm weaker than it.

It was simply humiliating!

The enraged Rock Spirit no longer had any intention of playing around. The originally smooth rock surface of its right hand suddenly became filled with sharp thorns.

Little Seven saw that things weren't looking good and was about to retreat when she saw the fist full of spikes coming over.

The speed of this punch was much faster and more ruthless than before. Little Seven didn't even have time to parry before her chest was pierced through.

“Cough ! ”

Little Seven, who had a big hole in his chest, spat out a large mouthful of blood, but he did something that the Rock Spirit didn't expect.

He saw Little Seven's hands tightly holding onto his arm, the blue Profound Qi on her body burning even more fiercely.

Little Seven's strength increased exponentially as she roared, and the Rock Spirit actually felt a trace of pain.

“Roar!”

The Rock Spirit had had enough of this human who kept giving him small troubles. It raised its fist and smashed it towards Little Seven's face.

Little Seven didn't have any intention of dodging and directly used her forehead to receive it.

As the stone and the spirit collided, Lin Shiyun found that the strong pressure disappeared again. The stone spirit's mind was on Little Seven, so it didn't have time to care about them.

Without any hesitation, Lin Shiyun picked up another clansman and said to Lin Shuangwen, “Take us away!”

Lin Shuangwen's injuries were also very serious at this time. After hearing her aunt's call, she finally woke up a little. She hurriedly took off the bracelet and began to recite.

“Curse of the Universe, Limitless Non-Spirit!”

Then, the incantations on the bracelet lit up. After a blinding light, Lin Shiyun shouted at Little Seven, “Little Seven, hold on! You still have a dream to realize! I will return..”

Without waiting for Lin Shiyun to finish her words, the four of them all disappeared from where they were.

At this moment, Little Seven, who had received the Rock Spirit’s punch with her forehead, was already in a daze. She only heard Second Sister-in-law say something and then used the Heaven and Earth Technique to leave.

Seeing that Second Sister-in-law was temporarily safe, Little Seven smiled in relief. No matter what the final result was, he had already done his best to fight and protect her.

“Big Brother Wang...Little Seven didn’t let you down.”

Seeing the Rock Spirit throw another punch, Little Seven smiled and said her last words.

“Of course I let you down. I didn’t raise you to let you die here.”

Seven, who was ready to face death, was stunned.

‘This voice...

Little Seven’s eyes widened, only to see a hand firmly grabbing the Rock Spirit’s arm that was about to hit his face. Looking to the side, he saw Big Brother Wang smiling at him.

“King...Big brother?”

At this moment, Seven felt like she was in a dream. She couldn’t believe that this was happening.

Nodding, Jiang Beiran replied, “Yes, it’s me. You can let go now. Leave the rest to me.”

For a moment, a sense of relief filled Little Seven’s heart. Her hands that were tightly hugging the Rock Spirit also loosened.

After stuffing a Essence Condensing Pill into Little Seven's mouth, Jiang Beiran pulled the Rock Spirit's arm down and carried him to a nearby lawn..

This time, the Rock Spirit was truly stunned. That human had used a single hand to receive his full-powered attack!?

“What's going on?”

The Rock Spirit had thought that it had come to Golden Cauldron Island to slaughter the alien races. In the end, a human who could hurt it had appeared first. But that was just a small interlude, so what was going on now??

‘Could it be that humans have also grasped the secret of allowing experts above the earth spirit realm to enter Golden Cauldron Island?’

For a moment, the Rock Spirit was a little flustered. After all, before entering the island, he had never thought that he would encounter an enemy of the same realm, so he did not make much preparation for battle. He was completely here for treasure hunting.

Jiang Beiran placed Little Seven on the lawn. Seeing that the wound on his chest had started to heal, he turned around and looked at the Rock Spirit.

‘Yes... Stone Golem? Do you know how to throw tires?’

Looking at the monster that resembled a giant lava beast, Jiang Beiran couldn't help but curse in his heart.

Just now, he had brought the residents around the mountain for a long time and finally had the experience of hard work paying off.

In a cave, the residents saw a round plate that Jiang Beiran had not noticed at all. It was a round plate made of some unknown material.

Just as Jiang Beiran was about to reach out to take it, the system's options popped up. ,

[Option 1: Take Yuan Pan away. [Completion Reward: Luo King Hand (Earth Grade Mid-Rank)]

[Option 2: Do nothing, completion reward: Random basic attribute point +1]

The moment he saw the notification, Jiang Beiran knew that he had indeed made a major discovery. This round plate was definitely related to the uniqueness of Golden Cauldron Island!

In his ecstasy, Jiang Beiran was not in a hurry to continue searching for more beings like Yuan Pan. Instead, he had the residents go back first before returning to the cave himself.

Blindly searching would waste too much time. Hence, Jiang Beiran decided to go back and analyze the current position of the disc before trying to deduce the possible locations of the other discs.

“Courtmaster, please take everyone away first. Leave this monster to me...”

Little Seven, who was burning with pale blue mystic qi, was about to show off with his back facing Lin Shiyun when he saw the Rock Spirit rushing in front of him with lightning speed and throwing a punch. In her panic, Little Seven quickly raised her hands to block.

“Bang!”

With a muffled sound, Little Seven took a few steps back, and her hand cracked.

But even though the price was huge, Little Seven still took the punch. This stunned everyone present, including the Rock Spirit.

Lin Shiyun and the others had personally experienced the Rock Spirit's power. It was definitely at the Mystic Emperor Realm. Little Seven had clearly not even reached the peak of the Mystic King Realm, yet she was able to withstand his attack.

This was simply unbelievable.

“Hurry up and leave!” Seven roared.

At this moment, Lin Shiyun also understood that they would only be a hindrance if they stayed behind. However, just as she was about to help another severely injured clansman to leave, the familiar pressure pressed down again, making them obediently lie on the ground, unable to move.

Little Seven saw this and roared, using the move she learned in the secret realm.

“Back off!”

With a furious roar, a long spear condensed from blue Profound Qi appeared in Little Seven’s hand and stabbed towards the Rock Spirit’s chest.

With a “boom”, the spear tip exploded violently the moment it touched the Rock Spirit’s chest, stirring up a large cloud of dust. The resulting Profound Energy vibration was so strong that even Lin Shiyun, who was lying on the ground, felt her heart palpitate.

However, when the dust settled, only a small crack appeared on Shi Lin’s chest. It could be said that it did not cause any substantial damage.

Little Seven laughed at himself. Although he didn’t know where this blue Profound Qi came from, when this Profound Qi wrapped around him, he felt an unprecedented power, as if he was omnipotent.

However, just one move had completely shattered his fantasy. He was still not a match for the monster in front of him. At most, he had turned from an ant that could be crushed with his pinky finger to a turtle that could withstand a little.

“Roar!”

After hearing Little Seven’s self-mocking voice, the Rock Spirit suddenly became furious.

This laughter was not very harmful to the Rock Spirit, but it was extremely insulting. It was a dignified Heavenly Spirit Realm cultivator, yet it was actually injured by a human who was one realm weaker than it.

It was simply humiliating!

The enraged Rock Spirit no longer had any intention of playing around. The originally smooth rock surface of its right hand suddenly became filled with sharp thorns.

Little Seven saw that things weren't looking good and was about to retreat when she saw the fist full of spikes coming over.

The speed of this punch was much faster and more ruthless than before. Little Seven didn't even have time to parry before her chest was pierced through.

"Cough!"

Little Seven, who had a big hole in his chest, spat out a large mouthful of blood, but he did something that the Rock Spirit didn't expect.

He saw Little Seven's hands tightly holding onto his arm, the blue Profound Qi on her body burning even more fiercely.

Little Seven's strength increased exponentially as she roared, and the Rock Spirit actually felt a trace of pain.

"Roar!"

The Rock Spirit had had enough of this human who kept giving him small troubles. It raised its fist and smashed it towards Little Seven's face.

Little Seven didn't have any intention of dodging and directly used her forehead to receive it.

As the stone and the spirit collided, Lin Shiyun found that the strong pressure disappeared again. The stone spirit's mind was on Little Seven, so it didn't have time to care about them.

Without any hesitation, Lin Shiyun picked up another clansman and said to Lin Shuangwen, "Take us away!"

Lin Shuangwen's injuries were also very serious at this time. After hearing her aunt's call, she finally woke up a little. She hurriedly took off the bracelet and began to recite.

"Curse of the Universe, Limitless Non-Spirit!"

Then, the incantations on the bracelet lit up. After a blinding light, Lin Shiyun shouted at Little Seven, "Little Seven, hold on! You still have a dream to realize! I will return..."

Without waiting for Lin Shiyun to finish her words, the four of them all disappeared from where they were.

At this moment, Little Seven, who had received the Rock Spirit's punch with her forehead, was already in a daze. She only heard Second Sister-in-law say something and then used the Heaven and Earth Technique to leave.

Seeing that Second Sister-in-law was temporarily safe, Little Seven smiled in relief. No matter what the final result was, he had already done his best to fight and protect her.

"Big Brother Wang...Little Seven didn't let you down."

Seeing the Rock Spirit throw another punch, Little Seven smiled and said her last words.

"Of course I let you down. I didn't raise you to let you die here."

Seven, who was ready to face death, was stunned.

'This voice...

Little Seven's eyes widened, only to see a hand firmly grabbing the Rock Spirit's arm that was about to hit his face. Looking to the side, he saw Big Brother Wang smiling at him.

"King...Big brother?"

At this moment, Seven felt like she was in a dream. She couldn't believe that this was happening.

Nodding, Jiang Beiran replied, "Yes, it's me. You can let go now. Leave the rest to me."

For a moment, a sense of relief filled Little Seven's heart. Her hands that were tightly hugging the Rock Spirit also loosened.

After stuffing a Essence Condensing Pill into Little Seven's mouth, Jiang Beiran pulled the Rock Spirit's arm down and carried him to a nearby lawn.

This time, the Rock Spirit was truly stunned. That human had used a single hand to receive his full-powered attack!?

“What’s going on?”

The Rock Spirit had thought that it had come to Golden Cauldron Island to slaughter the alien races. In the end, a human who could hurt it had appeared first. But that was just a small interlude, so what was going on now??

‘Could it be that humans have also grasped the secret of allowing experts above the earth spirit realm to enter Golden Cauldron Island?’

For a moment, the Rock Spirit was a little flustered. After all, before entering the island, he had never thought that he would encounter an enemy of the same realm, so there was no such thing..

After carrying Little Seven to a secluded place, Jiang Beiran once again used his spiritual power to probe his body.

‘Hiss... It doesn’t make sense.

No matter how he checked, Little Seven’s current condition was very stable, and her spiritual power was very active. There was no reason why she couldn’t wake up.

This put Jiang Beiran in a difficult position. Even if he had all kinds of pills on hand, he couldn’t just take them randomly. He had to figure out what was wrong with Little Seven’s body first.

Just as Jiang Beiran was about to use acupuncture to stimulate Little Seven’s acupuncture points, Little Seven suddenly opened her eyes.

However, after exchanging a glance, Jiang Beiran realized that the person in front of him did not seem to be Little Seven.

Because at this moment, there was no respect or worship in Little Seven’s eyes. There was only calmness...It was a kind of calmness that almost made Jiang Beiran feel at ease.

“So you’re my Never-Ending Star?” Seven suddenly smiled and said.

Her voice was completely different from Little Seven’s. It was very calm and friendly. Just her voice alone was enough to make Jiang Beiran let his guard down.

“You are...?” Jiang Beiran asked with a puzzled expression.

‘Little Seven’ didn’t answer and asked, “Do you have the Four Treasures of the Study?”

“Yes.” Jiang Beiran nodded and took out a piece of paper, pen, and ink.

“Can I borrow it?” “Little Seven” stood up and extended her hand to Jiang Beiran.

“Please.” Jiang Beiran handed over the brush in his hand.

Dipping it in ink, “Little Seven” quickly drew a map on the paper, then handed the pen back to Jiang Beiran and said, “This is my gift to you. Please continue to take good care of Little Seven. I believe we will meet again.”

The moment Jiang Beiran took the pen, “Little Seven” was stunned. She then glared at Jiang Beiran and shouted, “Brother Wang! It really is you! I thought it was also a dream!”

Seeing that Little Seven had returned to her original appearance, Jiang Beiran was a little stunned.

Who was that person just now? What was Never-Ending Star? What did he mean by believing that we would meet again? Can’t you make this clear when you have time to draw?’

Riddler, get out of the Mystery Dragon Continent!’

“Big Brother Wang...What’s wrong with you?”

Seeing that Brother Wang didn’t speak, Little Seven asked carefully.

“It’s nothing.” Jiang Beiran shook his head and took the map he had drawn.

After looking at it carefully, he confirmed that it was a place he didn’t recognize.

“Motherf \* cker!” Can’t you just tell me where it is??’

“So annoying!”

Jiang Jiang Beiran complained in his heart, then he looked at Little Seven and asked, “Don’t you remember what happened just now?”

“I wonder when Brother Wang was talking about just now? I only remember that when that alien monster was about to give me a fatal blow, big brother Wang, you...”

“It’s not about this. It’s just now... Forget it, it seems like you don’t remember.” Jiang Beiran raised the map in front of Little Seven and said, ““There seems to be another person living in your body. He woke up before you and drew this map for me. Is it related to your experience in the mythical realm?”

“Ah?” Little Seven was obviously shocked.” There’s another person in my body?

I... I don’t know anything about this.”

“Then do you know where this map is?”

After staring at the map for a while, Seven said,“Looking at the terrain...It seems to be in Luo Yun County.”

“Where?” “Ji Country.”

“You even remember the map of the Ji Nation?”

Jiang Beiran had known that Little Seven knew the entire map of the Qi Kingdom like the back of his hand. However, he was a native of the Qi Kingdom after all, and he had to make a living in the Qi Kingdom, so it was normal for him to know every corner of the Qi Kingdom so well.

However, Ji Country and Qi Country were not even neighbors, and there was Tong Country between them. If he really recognized Ji Country’s map, then Jiang Beiran could really use him as a navigation guide in the future.

“Yes, I’ve had some dealings with the Ji Nation in the past, so I’ve recorded some of them down.”

Nodding, Jiang Beiran kept the map and said, "After we get out, accompany me to Luo Yun County."

Little Seven was overjoyed when she heard that and immediately replied, "Yes, sir!"

However, when he thought of Brother Wang saying that there was someone else in his body, he became uneasy again.

"Don't worry, the person in your body doesn't have any ill intentions towards you."

When Little Seven heard what Big Brother Wang said, he immediately let out a sigh of relief. After all, to him, Big Brother Wang's words were the truth and could not be wrong.

Of course, Jiang Beiran had no idea if that person had any ill intentions towards Xiao Qi. Although everything he had shown was beautiful and friendly, it was only on the surface.

The reason Jiang Beiran promised Little Seven was that he hoped that he wouldn't be too troubled by this matter.

"Just now, you said that you thought that saving you was also a dream. Does that mean that you were dreaming when you were unconscious just now?"

"Big brother is wise!" Little Seven cupped her hands in admiration, "That's right. Just now, I dreamed..." I dreamed..." Little Seven said, looking confused.

"I... What did he dream about? Strange... She clearly remembered it when she woke up just now."

"There's no hurry. Think about it slowly."

"Brother Wang, please wait a moment. I'll try my best to recall." Seven sat down cross-legged and closed her eyes to think.

On the other side, Lin Shiyun had already returned to her sect's camp.

"Aunt!" Seeing Lin Shiyun return, Lin Shuangwen excitedly threw herself into her arms. She had thought that she would never have the chance to see her again after her aunt left..

Translator: 549690339

After all, the Rock Spirit's power was obvious to everyone.

"Where's Little Seven?!" Lin Shuangwen looked behind Lin Shiyun and asked.

"This matter is a little complicated. Let's go in first."

After the time it took to brew a cup of tea, Lin Shuangwen widened his eyes and shouted, "You're saying that an expert suddenly appeared and shattered the Rock Spirit, then took Little Seven away!?"

"Yes." Lin Shiyun nodded.

The content she described to Lin Shuangwen was similar to what she saw, but the master definitely couldn't say it. As for which master was so powerful, she didn't know.

After a while, Lin Shuangwen sighed: "What's going on with this year's Green Sky Gathering? Could it be that only cultivators below the Mystic Emperor realm could enter?"

Lin Shiyun shook her head. "I'm not sure either. I just hope that Little Seven is safe."

At this moment, Lin Shuangwen suddenly raised her head and asked Lin Shiyun, "Aunt, do you think the person who saved us last time was also this expert who saved Little Seven?"

"Your guess is really accurate."

Lin Shiyun shook her head and said, "How can there be such a coincidence?"

"How is it a coincidence? Aren't there only one expert on the island..." Halfway through her words, Lin Shuangwen suddenly became worried. "Aunt, do you think there are stronger foreign races on the island? This time, we..." Can we really get out of here alive?"

Rubbing Lin Shuangwen's hair, Lin Shiyun comforted, "What's there to be afraid of? Although some alien races have broken through the restrictions of

Golden Cauldron Island, we have more powerful ones here. Don't worry about it, go and rest."

Lin Shiyun's words of comfort were sincere. She didn't know if there were any stronger foreign races, but she knew that no matter how strong they were, they couldn't be as strong as Grandmaster, so she wasn't worried about not being able to leave the island.

"But...'

"No buts. Go." "Alright...If Little Seven comes back, come and call me."

"Yes, I will.'

Watching Lin Shuangwen walk back to her tent, Lin Shiyun finally had time to sort out her messy emotions.

Thinking about how she had been saved by Master twice, Lin Shiyun couldn't help but feel that perhaps this was fate.

It was clearly an impossible time, an impossible place, but Grandmaster was like a god descending twice by her side, protecting her behind him.

She hadn't thought of Grandmaster when she was wondering who had saved them, because she hadn't expected Grandmaster to come to the Green Sky Meeting and enter Golden Cauldron Island.

Lin Shiyun could only use fate to explain such an unbelievable thing.

Master was her savior.

Just as Lin Shiyun was thinking about it, a voice that gave her goosebumps suddenly sounded in her mind.

"Auntie, where are you looking at?"

Lin Shiyun quickly shook her head a few times and wiped Lin Yuyan's face from her mind before she let out a long breath and muttered to herself, "Seriously, why should I be afraid of a little girl like her?"

Then, he walked towards the camp.

“Big Brother Wang...I, I... I still can't remember anything.” Little Seven reported to Jiang Beiran with a guilty expression.

“It's fine. I'll just slowly recall.” “Did you enter the Secret Realm after that?” Jiang Beiran asked casually.”

Jiang Beiran clearly remembered that he had only been a great mystic cultivator the last time he had parted with Little Seven. Now that more than a year had passed, he had already reached the ninth level of the mystic king realm. This rate of improvement could be said to be quite the main character. Seven shook her head and replied, “I haven't entered.”

“The fact that the Lin family sent you to participate in this Green Sky Meeting shows that you've been doing well in the Lin family these past two years.”

“Big Brother Wang, you flatter me. I've only been doing what I should be doing.”

“I'll naturally be of use to you in the future.”

Little Seven immediately said, “Replying to Big Brother Wang! I'm currently the director of the Lin family, Black Flag. I'm responsible for collecting all kinds of intelligence. Other than Black Flag, I'm also a bronze badge. I'm responsible for managing the Lin family castle's auction house.”

“Not bad. You can even manage the auction house. It seems that the Lin family trusts you very much.”

“It's all because of Miss Lin's care that I can climb so fast.”

“You have to be capable to get them to open the back door for you. Are there any other positions?”

“Yes.” Seven nodded and continued to report.

Jiang Beiran paused for a moment and realized that Xiao Qi had so many responsibilities now that if it were the 21st century, she might not even be able to fit on a business card.

“Pfft, the Lin family is really not afraid of exhausting you to death.”

Jiang Beiran couldn't help but laugh when he heard that Little Seven had to take care of things like hiring servants and maids.

“That’s good. Those who can do more work. Since the Lin family trusts you so much, don’t let them down.”

“Yes, please rest assured, Brother Wang.”

“I heard from Lin Shiyun that your goal for participating in the Green Sky Meeting this time is to get into the top three, right?”

“Yes! Miss Lin had said that even if she had to risk her life, she would fight to get back into the top three.”

“How the results of?”

“This...” Little Seven lowered her head in embarrassment, “There are too many powerful Xuan Kings on this island. Every time we go out, we have to be careful. We really don’t have much time to look for precious materials.”

If you were to display your cultivation base when you fought the Rock Spirit,” Jiang Beiran said with a smile, “which cultivator on this island would be a match for you?”

After hearing Brother Wang’s words, Little Seven looked at her hands and said, “I don’t know where that power came from either. At that time, I just wanted to protect Miss Lin.”

“It has nothing to do with that mystic realm?”

Little Seven wanted to answer “probably not”, but after thinking about it, he actually didn’t know much about that mystic realm. He really didn’t know if it was related.

Noticing that Little Seven was deep in thought, Jiang Beiran stood up and patted him on the shoulder. “Perhaps you’ll find out the next time you enter the mystic realm. Since your body is fine now, go back and report your safety.” “Yes, sir!” Little Seven bowed deeply to Jiang Beiran.

Although he was reluctant to leave, since it was Big Brother Wang who ordered him to go back, Little Seven did not say anything. After saluting, she left.

As he watched Little Seven leave, Jiang Beiran thought that the sudden appearance of the Mystique Emperor alien race was most likely because he had come to participate in the Jade Sky Meeting.

After all, the main character was here. How could something special not happen?

‘Also, since it’s an event prepared for the protagonist... It doesn’t feel that simple.

When they returned to their own base camp, the members of the team were eating and drinking, unaware that a major incident that almost wiped out all the human cultivators had just happened outside.

“Little Bei Ran!” Shi Fenglan hid her hands behind her back and ran towards Jiang Beiran.

“What’s wrong?” Jiang Beiran asked.

“Look!” Shi Fenglan handed Jiang Beiran the steamers she had hidden behind her back. “I steamed the puns myself.”

“And then?”

“Don’t you want to try it?” Shi Fenglan blinked her eyes in anticipation.

“I don’t want to.”

“Just say that you want to eat it!”

“If you don’t want to, then you don’t want to.”

Knowing that she could not change Little Bei Ran’s mind, Shi Fenglan could only compromise and say, “The food I made was too disgusting... So I still want to eat your cooking!”

“Let’s talk about it later. I still have things to do.”

“Little Bei Ran, you seem to have been very busy since we entered the island.

What have you been doing?”

After knowing that her team would definitely win the championship, Shi Fenglan had completely switched on her outing mode. Previously, she even knew to help look for materials together. However, she was too lazy to even come out of the cave these few days. She dragged Shi Jiamu along to play Legend of the Mystery Dragon all day long.

Of course, what Shi Fenglan wanted the most was to play with Little Bei Ran. However, he seemed to be very busy, so busy that he did not have the time to bother with her.

Seeing that Little Bei Ran did not answer her question and walked straight to his room, Shi Fenglan pulled his sleeve and said, ““ Little Bei Ran, just play with me for a while today! Just for a day!”

“I told you, I have something important to do.”

“Oh... Alright then.” Seeing how serious Little Bei Ran was, Shi Fenglan did not continue to pester him and went to play with Shi Jiamu with some regret.

Opening the door, Jiang Beiran had just activated the Heavenly Eye Array when he saw a portal appear on a “ screen ” in the southeast area. Then, a Rock Spirit walked in through the portal.

Good lord, I knew it wasn't that simple..’

Rock Spirit!?”

“What happened? Why is his aura so strong?” “Something's wrong! Third Junior Brother, quickly leave!” “Eldest senior brother, I... I can't move.”

Ban Liang stood rooted to the ground, his eyes filled with shock.

The moment he saw the Rock Spirit, he felt as if his legs were filled with lead, unable to take a single step.

“Gru.”

The Rock Spirit came in front of Ban Liang and opened its mouth, seemingly very happy.

“Third Senior Brother! Your leg!”

Hearing Fifth Junior Sister’s call, Ban Liang immediately looked at his legs and found that they had already turned into stone. He even felt that this petrification was spreading upward.

“Senior Brother, save me!” Ban Liang shouted in panic.

“Junior apprentice-brother, don’t panic! We’ve got the COnts! Eldest Senior Brother Yao Xinyuan looked at his junior brothers and sisters behind him and said, “”There’s something wrong with this Rock Spirit. Everyone, split up and go

up.”

“Yes, sir!” The junior brothers nodded.

“Let’s go!”

After Yao Xinyuan finished speaking, he took the lead and charged at the front, attacking the Rock Spirit.

Seeing Yao Xinyuan’s attack, the Rock Spirit did not defend or dodge. It just stood there and took his attack head-on.

“Hohoho

Listening to the Rock Spirit’s extremely mocking laughter, Yao Xinyuan realized that his attack had no effect on it. He understood even more that the Rock Spirit’s realm was indeed far above theirs.

“Senior Brother!”

“Damn it...My hand... I can’t feel my hands.”

Just as Yao Xinyuan was thinking about how to stall for more time with the Rock Spirit, he suddenly heard a miserable cry behind him.

He turned around and saw that his junior brothers’ limbs were gradually petrified.

Yao Xinyuan wanted to go to the rescue immediately, but he suddenly felt his leg...It seemed to have disappeared.

At this moment, Yao Xinyuan completely understood the huge difference in their cultivation base compared to the Rock Spirit. It was simply not something that could be made up for with numbers...

'Why? Why would there be a Mystic Royal Realm alien on the island??'

Yao Xinyuan shouted out the same question as the other teams when they encountered the Rock Spirit.

"Hohoho."

The Rock Spirit's mocking laughter rang out in his ears again, but its volume was getting lower and lower. At the same time, the voices of his junior brothers calling for help also became lower and lower.

"Can't I hear you?"

Yao Xinyuan, who knew that his hearing was disappearing, wanted to risk his life to fight Shi Ling with all his might. However, he could not even mobilize his mystic qi now. The spirit pool did not have any reaction at all.

Yao Xinyuan opened his mouth and wanted to shout something, but his throat seemed to be blocked by something and he couldn't make a sound.

'Heh... I didn't expect that I would die like this in the end.'

Yao Xinyuan, who felt that his consciousness was gradually blurring, was in despair. He knew that he was doomed.

However, just as he raised his head and was about to curse the Rock Spirit with the most vicious words, a figure suddenly rushed in front of the Rock Spirit and stabbed it with a spear.

"Boom!"

Amidst the violent explosion of spiritual energy, the Rock Spirit retreated a few steps and looked at the figure in front of it in disbelief.

As soon as he landed on the island, he had been sending out a special signal to look for Konia, who had landed on the island before him.

However, there was no response from the signal.

Kesen couldn't help but curse in his heart. He guessed that Konia must have been enjoying killing the foreign races, or perhaps he had found some treasure, so he didn't have time to pay attention to him.

"Ha, you only know how to eat alone."

Casen laughed disdainfully and didn't bother about why Konia didn't come. He searched the island and quickly found a group of foreign races.

"So it's Qi Ke."

Knowing that the enemy this time was a weak race like Qi Ke, who only had some petty tricks up his sleeves, Kesen's relaxed heart became even more unrestrained. Qi Ke was not his match even if they were in the same Spirit realm, let alone him, who was a realm higher than them.

'This will only be a one-sided massacre.'

As for the first batch of Qike, Kesen was very playful. He didn't want to kill them all so quickly. He wanted to torture a few of them first.

It was a good opportunity to vent his anger from finding out that there were too many stones in his body these past two days.

However, just as he was having fun, a human suddenly rushed in front of him and forced him to take a few steps back.

"What's going on?"

Kesen found it hard to believe. Even someone of the same rank as Tschick couldn't break through his defense, so how could this Tschick, who was clearly only in the earth spirit realm, be able to force him back? Moreover, Kesen had already discovered that his chest was already somewhat cracked.

After Cassie was repelled, the feeling of being controlled by Yao Xinyuan and the others immediately subsided, and they hurriedly panted.

In the air, Little Seven who was holding a red spear turned to Yao Xin Yuan and the others,""Leave quickly. I'll help you block them for a while."

Yao Xinyuan immediately cupped his hands and shouted,"Brother, you're righteous! I don't know..."

“Hurry up and leave!”

As soon as Seven finished speaking, she felt her fingertips go numb.

“Transform ! ”

Little Seven shouted and the Heart Endurance Talisman on her right arm that Big Brother Wang gave her emitted a purple light. Immediately, Little Seven no longer felt any numbness in her fingers.

‘As expected of the treasure given by Big Brother Wang. It’s really useful.’

Little Seven, who had seen Yao Xin Yuan and the others ‘miserable state, naturally knew why his fingertips were numb. That Rock Spirit wanted to petrify him like petrifying others.

However, Little Seven didn’t panic at all. He carried all kinds of talisman papers and jade stones given by Big Brother Wang. Once his body was invaded by an ‘ external enemy ’ , it would automatically block for him.

“Attack! ”

Hearing Big Brother Wang’s voice transmission, Little Seven decisively brandished the Profound Reaper Spear and attacked the Rock Spirit.

“What’s going on?”

Seeing that the moves that he was most proud of were ineffective against Little Seven, the Rock Spirit instantly became even more confused. After all, he never thought that there would be a foreign tribe on this island that could fight with him.

‘Could it be that he also used a secret technique to enter?’

However, thinking was just thinking. When he saw Little Seven brandishing her spear, the Rock Spirit’s reaction was still very fast. His body swayed and he dodged Little Seven’s attack range.

However, just as he was about to counterattack, he heard a thud!”.

“Roar!”

The Rock Spirit felt an intense pain in its waist and couldn't help but raise the bow. It was indeed in great pain.

He turned around and saw another Tschick standing behind him. The attack just now was obviously launched by him.

In an instant, Kesen understood that Konia wasn't there to eat for himself, but was very likely to be killed by these two Qikes.

Damn it, are we the ones being slaughtered??'

Kesen panicked. He knew that his battle experience was lacking. If it wasn't for his noble status, he wouldn't even be able to reach this island. If these two Qiks in front of him were able to kill Konia, who was much stronger than him in terms of combat ability, then he would probably be doomed.

"What bad luck!"

The stone man cursed angrily in his heart..

618

Translator: 549690339

"Clang!" "Clang!" "Boom!"

"Fierce Dragon Break!"

On the battlefield, Little Seven and the residents worked together to fight the Rock Spirit.

Although this was the first time the two of them were working together, they had a tacit understanding, and the Rock Spirit was very irritated.

"Luo!"

The Rock Spirit's body trembled, and a large number of gravel fell from its body, attacking Little Seven and the residents.

Seven immediately took out a jade scroll and crushed it. With a hum, a green light burst out and shattered all the stones.

"Kaqira!"

Cassie couldn't help but curse.

After fighting with these two Qi Ke for half a day, he realized something. These two Qi Ke were not very strong, and could even be said to be quite weak. It was obvious that they had not even broken through to the Earthly Spirit Realm. However, they could always take out some strange magic treasures to cause damage to him or break his attacks. This made him very annoyed.

In his rage, Kesen decided to attack one of them with all his might and not defend himself. Otherwise, he might really be ground to death by these two little bugs.

Bang!" Kesen's body shattered into six huge rocks that attacked Little Seven.

Seven wasn't afraid at all. She swept her spear and adjusted her posture before charging forward.

However, just as Little Seven was about to find one of the rocks, he noticed that the six boulders suddenly spread out at an extremely fast speed and attacked him from six directions.

Seven wanted to dodge but the six boulders were too fast, he could only brace himself and block them with his spear.

Dang! " Little Seven felt her internal organs tremble and her body was almost numb.

At this moment, the second boulder rushed over.

Unable to pick her up anymore, Seven sighed and said, "Welcome!"

A talisman lit up on Seven's back, turning into two golden hands that blocked the huge rock.

But before the golden hand could continue, the third boulder had already hit Seven.

"Puff!"

Seven spat out a large mouthful of blood after being hit. At the same time, the fourth boulder came.

“Sigh.”

Jiang Beiran, who was watching from afar, sighed.

‘The difference between a Mystic King and a Mystic Emperor is still a little difficult to offset with a Profound Armament.’

That’s right. The reason why Little Seven and the residents dared to challenge the Mystique Emperor Rank Rock Spirit was because they had Jiang Beiran’s support.

Talismans, jade slips, pills...Jiang Beiran had given them many powerful Xuan Artifacts so that they could fight against those of a higher level.

However, Profound Armaments were the same as magic treasures. How much power they could unleash was closely related to the user.

The power of a Profound Grade weapon in the hands of a Profound Emperor and a Profound King was completely different.

Therefore, most of the time, Profound Armaments were used as a supplementary method to increase combat power in battles of the same realm. The help it could provide in battles of a higher realm was very limited.

In addition, other than the difference in realm, the effects of using profound level weapons were different. Whether or not one was proficient in this profound level skill was also very different.

For example, the higher the grade of the talisman master, the more potential the talisman contained.

Therefore, Jiang Beiran made his move at this moment.

“Nine chapters of the Six Jia, round sky, square earth, four seasons, five elements, green, red, white, yellow!”

After the chanting ended, Jiang Beiran activated the Celestial Claw Formation that he had set up earlier. A golden circular shield immediately appeared around Little Seven’s body, blocking the incoming boulders.

Jiang Beiran took out a golden talisman from his chest and threw it at Little Seven.

The moment the golden talisman was stuck on Little Seven's back, the talismans that Jiang Beiran had stuck on his limbs responded immediately and burst out with their own light.

Under all kinds of dazzling lights, Little Seven felt waves of power surging out of her body.

"As expected of Big Brother Wang!"

Seven who felt the increase in strength sighed and once again brandished the Profound Reaper Spear to attack the six boulders.

" This time, Little Seven's strength and speed have increased greatly. In just three rounds, three of the six stones have been used. This time, the Rock Spirit panicked and quickly returned to its original appearance.

After helping Little Seven enhance her power, Jiang Beiran stuck a talisman on the back of the resident, asking him to help Little Seven.

With the help of the talisman paper, the residents 'hand-to-hand combat skills had also increased by a level. A punch left a fist mark on the Rock Spirit's chest.

Jiang Beiran, who was standing in the distance, shook his head when he saw that his two disciples were already capable of challenging the Rock Spirit.

Jiang Beiran had thought that the talismans and profound level weapons he had given them would be enough for them to challenge those of a higher level. However, reality had proven otherwise.

This made Jiang Beiran realize that most of the Xuan Artifacts made by the new owner could not be used to challenge opponents of a higher level. Only those that were made of excellent materials and had been soaked in Wood Spiritual Qi Qi would be able to do so.

'I'm not capable enough...Or is there another reason?

There were two reasons why Jiang Beiran had teamed up with Little Seven and the residents to deal with the Rock Spirit.

The first was to let them earn more [Life-Saving Grace] achievements.

Other than Jiang Beiran's team, most of the people who had come to Golden Cauldron Island were the cream of the crop among the Six Great Nations 'Mystical Kings. They had amazing potential.

It would definitely be of great use in a few months or years.

Of course, it was impossible for Jiang Beiran to save them himself. Hence, he thought of becoming the top Support in the country and letting Little Seven and Ju Zimin take on the role of "savior" .

Anyway, he's my little brother. What I owe him is equivalent to what I owe him.'

With this thought in mind, Jiang Beiran had gathered the residents and Little Seven in the middle of the night to rush over to deal with the Rock Spirit.

Secondly, he wanted to test the power of the Profound Armaments in his hands to see if he could let Little Seven and the others complete the cross-level challenge.

So far, the results of the experiment were mixed.

"Little Seven, you can close the game now."

Hearing Big Brother Wang's voice transmission, Little Seven roared. The originally dark purple Profound Qi turned into a pale blue in the blink of an eye, just like the one that exploded in despair that day.

During the recent inquiry, Jiang Beiran had discovered that although Little Seven's hack was not very powerful, it had the advantage of being able to be 'repaid'. It was not something that could be used once and for all. Little Seven could still control the power of the pale-blue Celestial Chi at will, even though he still did not know where the pale-blue Celestial Chi came from.

With the appearance of the pale blue Celestial Chi and the strengthening of Jiang Beiran's Five Qi Mantra, Little Seven's strength instantly rose to another level.

Kesen also felt this. He was thinking about whether he should retreat when he saw Seven already in front of him.

"Oh no!"

Kathleen, who had secretly cried out in his heart, quickly tried his best to harden his skin.

However, that layer of diamond-like skin was so fragile in front of Little

Seven's attack. The spear burning with blue flames pierced through Kesen's body effortlessly as if it was as simple as piercing a piece of paper.

The moment Jiang Beiran saw the Rock Spirit being easily pierced by Little Seven, he was completely certain that the Rock Spirit's cultivation base was equivalent to that of an early-stage Mystic Emperor.

As this was the first time Jiang Beiran had seen a foreign species like the Rock Spirit, and what was stored in their bodies was not Celestial Chi, Jiang Beiran could not immediately tell what realm the Rock Spirit was at after using his Mentality to probe it.

However, from the current situation, this Rock Spirit was at most a first level Mystic Emperor. Otherwise, even if Little Seven used two cheats, she would not have been able to penetrate him so easily.

Having received yet another piece of information, he lowered his head and started to think. He seemed to understand how these Rock Spirits could enter Golden Tripod Island with cultivation above the Mystic Emperor Realm.

Currently, Jiang Beiran had obtained three pieces of information.

Firstly, these Rock Spirits arrived on the island more than twenty days later. So far, only two Rock Spirits had arrived on Golden Cauldron Island.

Thirdly, these two Rock Spirits were almost at the initial stage of the Mystic Monarch Realm.

As such, Jiang Beiran came up with a theory.

It was very likely that the Rock Spirit had found a way to condense the 1,000 slots that were originally used to transfer Mystic King realm cultivators to the island into a few or a dozen.

Of course, this was only based on the analysis of the current information and might not be completely accurate.

However, Jiang Beiran felt that this conclusion was not far from the truth.

'Damn it...The mysterious sects and ninth -grade array masters of the Black Dragon Continent had studied it for more than 30 years, but they couldn't even understand it as well as a group of stone-headed people?! I feel ashamed for you!

However, since he had not come up with much on his own, Jiang Beiran's complaints stopped there. He would wait until he was sure what the disc was, then he could make fun of those Xuanzong and high-ranked array masters.

Seven, who had double cheats, was unstoppable. Kesen's "fragile" body couldn't withstand his attacks at all. With the help of the residents, he didn't have any hope of winning.

Just as Kesen was about to flee, Little Seven descended from the sky, and the spear in her hand accurately pierced into the Rock Spirit's head!

"Break!"

Following Little Seven's roar, the pale blue Profound Qi that was wrapped around the Profound Li Spear suddenly exploded, completely detonating the Rock Spirit.

When the smoke from the explosion dispersed, Little Seven squatted on the ground and panted heavily. Around her were a circle of Rock Spirit's "corpses."

"Are you alright?" The resident walked in front of Little Seven and asked with concern.

After catching her breath, Little Seven nodded, "I'm fine. I'm just a little tired."

Although Little Seven could summon this blue Profound Qi anytime and anywhere, but every time he used it, the consumption of his body was especially large. Whether it was physically or mentally, it made him feel that he was emptied.

"Thank you for saving my life!"

Just as the residents were about to help Little Seven up, the cultivators who were almost killed by the Rock Spirit ran back and bowed deeply to Little Seven and the residents.

Knowing that there was still 'proper business' to attend to, Little Seven let out a breath and stood up, smiling, "Is everyone alright?"

The leader, Yao Xinyuan, immediately cupped his hands and said, "Thanks to your help, we only suffered some light injuries."

“That’s good...Cough, cough, cough!”

Little Seven said as she suddenly coughed up a few mouthfuls of blood, her complexion turning pale.

This frightened Yao Xin Yuan and the rest, they quickly took out the best healing medicine from their Qian Kun rings and handed it to Little Seven.

“Swordsman, I have a peerless Rejuvenating Jade Pill. It has a very good effect on both wound healing and mystic qi recovery.”

“I also have a bottle of high-grade Qi Receiving Pills here. It can consolidate one’s foundation and cultivate one’s vitality.”

Looking at the pile of pills in front of her, Little Seven shook her head, “This is a side effect of my cultivation technique. Pills can’t cure it. I’ll be fine after recovering for a while.”

Yao Xinyuan was greatly moved when he heard this. He cupped his hands and said, “I am Yao Xinyuan of the Brahma Sky Valley. I wonder what your names are, so that I can repay you in the future.”

When the other junior brothers and sisters heard this, they hurriedly cupped their hands and repeated what their eldest senior brother had said.

“Everyone, there’s no need to be like this. Who hasn’t encountered difficulties before? Since you’re all fine, I’ll take my leave first. In addition, it’s very likely that there are other Rock Spirits on this island..”

Hearing that there were other rock spirits on the island, Yao Xinyuan’s expression immediately darkened. At the same time, he cupped his hands and said, “Thank you brother for reminding me to be careful.”

“Alright, then I’ll take my leave first.” Seven took a deep breath and led the residents into the distance.

“Sigh, chivalrous man, I still don’t know your surname is Gao...”

“Little Seven, you can close the game now.”

In the last ten days on Golden Cauldron Island, Jiang Beiran suddenly became unusually busy.

During the day, he would occasionally bring Little Seven and the residents to fight the alien race 'little monsters'. At night, he would use the information he had to continue researching where the other mysterious discs were.

Of course, the harvest was also very bountiful.

As for the Outsiders, Jiang Beiran was even more convinced of his speculation. These Rock Spirits must have used some method to compress the portal that was originally used to transport the Mystic King into a place where the Mystic Emperor could enter.

Since the first Rock Spirit appeared, Jiang Beiran had hunted a total of six Rock Spirits. Including the Rock Spirit that Little Seven and the residents had defeated the first time, there were a total of eight Rock Spirits.

Moreover, it was basically one per day. It was very average. If this continued, the share of 1,000 Mystic Kings would basically become 10 Mystic Emperors.

Using the price of quantity in exchange for a qualitative change could be said to be a bloody profit.

If it had not met Jiang Beiran, the Rock Spirit could have easily wiped out the human cultivators this time, while also plundering the island without restraint.

Unfortunately, it was just a coincidence. These Rock Spirits who had come to the island happily had already turned into dust and scattered to every corner of Golden Cauldron Island. At the same time, they had also become tools for Little Seven and the residents to crazily "suck in fans" on Golden Cauldron Island.

A few days ago, under Little Seven's suggestion, all the surviving Mystic Kings on the island were gathered.

The reason why Little Seven could have this kind of appeal was directly related to the huge reputation he had made in the past few days. Under the

vigorous promotion of those who were rescued, Little Seven and the residents had become the guardian gods of this island.

Besides, since it was publicity, the more publicity it had, the more godly it would be.

Because Little Seven vomited a huge amount of blood after every battle, her body became weaker and weaker.

In addition, there were also many Mystic Kings who had fought with Xiao Qi when they first arrived at the island. They also confirmed that although Xiao Qi was very strong, she was definitely not strong enough to fight with the Mystic Emperor. Now that he was able to fight against the Mystic Emperor, he must have used some kind of cultivation technique that required him to pay a huge price.

After a while, all the Xuan Kings thought that he was burning his life force to fight against the Rock Spirits. How could they not respect him {

Therefore, when Little Seven spoke, all the Mystic Kings obeyed his will and gathered from all directions, settling down in the same camp.

Little Seven and the residents took the opportunity to become the leaders, telling everyone not to think about the Green Sky Guild. Under the current situation, leaving Golden Cauldron Island alive was the right path.

Naturally, no one would refute this. Everyone was moved by Little Seven's increasingly thin figure. They thought that after leaving the island, no matter what the price was, they must find their elders to find a way to extend Little Seven's life.

As for Little Seven's thin figure... This thinness was not because he was pretending, but because he had indeed suffered a lot these past few days.

Ever since he came into contact with that mysterious disc and obtained memories that didn't belong to him, Little Seven would occasionally have some memories that didn't belong to him, but he would quickly forget them.

At first, the frequency of this situation was acceptable, but after the residents found more mysterious discs for him, it became more and more serious.

Until now, the two of them had already found four mysterious discs on the island. The memories that didn't belong to Little Seven appeared more and more frequently, repeating over and over again, making Little Seven suffer.

Little Seven's painful expression from time to time became a side effect of the cultivation technique in the eyes of the other Mystic Kings. Moreover, her condition was obviously getting worse by the day.

One afternoon, after smashing another Rock Spirit that had just arrived on Golden Cauldron Island, a large amount of memories that didn't belong to him suddenly surged out of Little Seven's mind. For a moment, the double weakness of his body and mind made him scream in pain.

"Big Brother Han!"

"Alliance Master!"

"Hurry up! Hurry up and bring the Soul Concentrating Pill over!"

All the Xuan Kings who were hiding in the camp and saw their alliance master fall from the sky flocked out. They wanted to do their best to treat this selfless elder brother.

Seeing everyone's enthusiasm, the resident waved his hand and said, "It's fine, I'll help him in to rest for a while. Everyone, go back to your positions and guard in case another Rock Spirit attacks."

Upon hearing the Deputy Alliance Master's order, the Mystic King nodded and made way for him.

He helped Little Seven all the way to the lower level of the camp and walked into a room hidden by a formation.

"Senior, we're back."

The resident greeted Jiang Beiran, who was sitting at a square table.

He looked up at Little Seven and said, "Little Seven, can you still hold on?"

"Phew... Phew..." Breathing heavily, breathing heavily, Little Seven nodded towards the residents, then broke away from him, helped him up, cupped his hands towards Big Brother Wang and said: "I... I want to know the truth."

Even though it was painful to keep having memories of other people, but every time it appeared, it would make Little Seven feel that he had an inseparable relationship with this island. At the same time, it also stimulated his desire for the truth.

Since things had come to this, he had to figure out what connection he had with this island. Otherwise, he would only have more trouble sleeping and eating.

“Alright.” Nodding, Jiang Beiran activated the Heavenly Eye Array and moved the four screens in front of Little Seven and the residents.””The next disc should be in one of these four locations. You can set off now.”

After discovering the four mysterious discs, Jiang Beiran had finally figured out some clues about Golden Cauldron Island..

"It's really a good guardian hiding under the nine lands..."

After spending the afternoon deciphering the information, Jiang Beiran had finally figured out some clues.

Based on the location of the five mysterious discs and the terrain of the valley, Jiang Beiran could not help but sigh in admiration at how well the formation was hidden.

As the saying goes, the earth can be hidden under the nine places, often with the straight symbol of time dry, the earth is quiet and easy to hide.

If Jiang Beiran's analysis was correct, then even an inconspicuous pebble on this island could very well be part of the formation.

Jiang Beiran took out a huge piece of paper from his Cosmos Ring and spread it on the ground. He then began to write.

After half an incense stick of time, he finished drawing. It was a map of the mountains and rivers on Golden Tripod Island.

However, the painting did not have the vast and majestic mountain scenery, nor did it have the majestic mountain range that stretched for tens of thousands of miles.

There were only simple lines and markings that only Jiang Beiran could understand.

There was a sharp sound as Jiang Beiran suddenly tore off a corner of the paper.

‘As expected...’ Jiang Beiran looked at the paper and smiled.

Following that, the sound of paper being torn could be heard.

He tore the paper into 81 pieces and spread them on the ground.

Of course, the reason why he did this was not because he wanted to play with the puzzle, but because Jiang Beiran realized that the formation hidden in the mountain was not arranged according to the usual method.

The reason was simple. Since Jiang Beiran had found the nodes of the five elements in the mountain range, it meant that the array had not deviated from the basic rules. And without departing from the basic rules, Jiang Beiran was completely unable to see through the network of the array.

This was not metaphysics.

Therefore, Jiang Beiran made a bold guess, which was that the person who had set up the formation had completely messed up the formation on the island. In other words, he had not set up the formation according to the basic order, but the formation was still effective.

This was yet another formation technique that Jiang Beiran had never heard of before, but reality proved that his guess was right.

After tearing up the map and rearranging it, Jiang Beiran had already gained a hint of enlightenment.

After arranging the five pieces of paper that represented the positions of the nodes of the five elements according to the Dun Jia pattern, Jiang Beiran began to chant.

“There are strange artifacts that give birth to all things. The Eight Trigrams are Jiazi. The divine machine and ghosts are hidden. The Yin is hidden. The hidden is the escape. The Fu is the straight Fu...”

As he recited the words, Jiang Beiran stretched out his hand and pieced the map fragments together using the nodes of the five elements as the foundation.

After the circle around the five elements nodes was pieced together, Jiang Beiran picked up a larger piece of paper.

“Fujia is the head of the Heavenly Stems and sits in the Yin Palace.” After Jiang Beiran finished reading, he pressed the paper to the east.

Jiang Beiran then picked up a smaller piece of paper.

“Geng is the essence of Yang Metal, the symbol of the West’s Taibai.”

With that, he pressed the paper to the west.

In the end, Jiang Beiran spent four whole hours to completely reconstruct the mountain terrain map.

“Awesome!”

Looking at the reconstructed map, Jiang Beiran only felt a burst of heart-piercing coldness, heart flying, don’t mention how comfortable it was.

After studying Golden Cauldron Island for so long, he finally had some results today. How could he not be happy?

‘Eight Suns Release Gen Formation.’

Jiang Beiran finally recognized the formation that protected the mountain. Although the Eight Suns Releasing Gen-Formation was indeed a top-notch defensive formation, it was not so tough that even Profound Sages could not break it.

‘Looks like it’s not as simple as the Eight Suns Release Gen Formation...’

After studying the map carefully, Jiang Beiran rubbed his chin and thought, “If I break this Eight Yang Shigen Formation... Is it still Golden Cauldron Island outside?”

Just as Jiang Beiran was about to give it a try, the system’s options suddenly popped up.

[Option 1: Break the Eight Suns Releasing Gen Formation. [Completion Reward:

Undesirable Domination Scroll (Heaven Grade Low-Rank)]

[Option 2: Tell Shi Hongyun about this discovery after leaving the island.

[Completion Reward: Random Special Attribute Point +1]

“Good boy!”

Jiang Beiran was a little stunned when he saw the option of Heaven Grade Inferior Rank appear.

At the same time, he understood something.

There was a high chance that the area outside the valley was not Golden Cauldron Island. It was an extremely dangerous place. Of course, it was also possible that breaking the array in front of so many people would cause a series of dangers.

However, compared to the latecomers, Jiang Beiran felt that the former was more likely.

As for the second option, Jiang Beiran was also a little surprised.

Since a special attribute point had appeared, the system must have determined that he had taken the initiative to cause trouble.

But Jiang Beiran felt that he had been wronged. He had only wanted to satisfy his curiosity. Was there anything wrong with that??

Quietly choosing the second option, Jiang Beiran thought about how he should tell Shi Hongyun about this matter after he got out of here. Or rather, how he should tell Shi Hongyun about this so that he could gain the most benefits for himself.

A moment later, Jiang Beiran shook his head. Now was not the time to think about this. Since he had already discovered the secret of this mountain, then finding the other mysterious discs should be a matter of course.

After calling Shi Fenglan over to replace him, Jiang Beiran left the camp to look for Little Seven and the residents.

Upon seeing Jiang Beiran’s arrival, the two men who were resting immediately stood up and bowed.

The two of them did not ask further and immediately followed.

They arrived at a barren land.. Jiang Beiran looked at the residents and asked, “Did you find anything?”

The resident looked around for a while and quickly pointed to a pile of rocks.”Over there.”

Little Seven didn’t look over after hearing that. Instead, she looked at Brother Wang first.

He couldn’t even withstand the impact of the fifth mysterious fragment, let alone the impact of the sixth.

“Watch.” Jiang Beiran said calmly.

Just these two words made Little Seven feel much more secure. She turned around and looked in the direction that the resident was pointing at.

“It’s really a good guardian hiding under the nine lands...”

Amidst the maniacal laughter, a person in the form of a soul rose from the ground, the murderous aura around him much stronger than any malicious ghost Jiang Beiran had ever seen.

"Hahahahaha! Pei Xin..." The fiend's laughter came to an abrupt halt. It looked at Jiang Beiran with its blood-red eyes and asked, "Who are you?!"

Jiang Beiran smiled back at the fiend spirit's astonished expression.

How should he answer this? I'm just passing by? Or should I accompany my little brother to take a look?

In midair, the fiend spirit had already started to grow irritable, pointing at Jiang Beiran and bellowing, "How is that possible? You were never in the prophecy! You shouldn't be here, and you can't be here!"

Jiang Beiran watched as the fiend spirit gradually became hysterical. Just as he was thinking about how to properly communicate with him, he saw the fiend spirit swoop down towards Little Seven.

"Wait!"

Jiang Beiran used his spiritual power to control the fiend spirit in midair.

"Let's talk things out. It's not good to possess someone in front of me, right?"

The fiend soul that was firmly blocked once again became agitated. It shouldn't be like this! It shouldn't be like this!"

With a howl, the fiend soul turned into a cloud of red mist and dissipated into the air.

"Ah, just this?"

Jiang Beiran did not know if he should say that the fiend spirit was weak mentally, or that he was too weak to handle pressure. If he had a mental breakdown after a small accident, how could he do anything big?

Little Seven, who had been in a daze the entire time, finally recovered and asked carefully, “Big Brother Wang...What was that just now?”

“It’s not important. Continue with your work.”

Unlike Jiang Beiran’s reaction when he saw the fiend soul, Little Seven felt his soul tremble the moment he saw the fiend soul. If it wasn’t for Big Brother Wang beside him, he would have collapsed to the ground.

It was an indescribable fear, just like the moment when a hunter caught a prey.

He was so desperate that he couldn’t even scream.

Especially when the fiend soul charged towards him, Little Seven felt his guts split. If it wasn’t for Big Brother Wang stopping the fiend soul in time, he would have fainted.

Hearing Brother Wang’s casual reply, the fear in Little Seven’s heart dissipated and she walked towards the center of the palace.

Jiang Beiran, on the other hand, felt that it wasn’t itchy even if there were too many of them. Since he had already been caught in the curls, and the System didn’t have a choice, he would just have to do it to the end and help Little Seven get through this crisis.

As for the fiend spirit, Jiang Beiran could only guess that he definitely had bad intentions towards Little Seven. However, he also felt that he shouldn’t have lured Little Seven here.

The reason was very simple. If he really wanted to lure Little Seven over, why would he set up so many complicated ” checkpoints “? He had to understand array formations and...

“Hmm?”

At the thought of this, Jiang Beiran suddenly realized a serious problem.

‘This...Could it be that I’m helping them grow by pulling them up?’

Thinking about it this way, those " checkpoints " were obviously set up to let Little Seven discover this place later. According to the normal plot, Little Seven should have awakened some memories when he landed on the island. At most, he would encounter the residents by chance. Then, the two of them tried their luck and found a mysterious disc, thus confirming that there was a place on the island that he had been to before.

At most, it would be a foreshadowing.

In the end, the moment he made a move, he wiped out all the plot that could have been played for 80 episodes. Whether it was cracking the location of the mysterious disc on Golden Cauldron Island or forcefully helping Little Seven withstand the mental attack.

It was equivalent to letting Little Seven come to this secret room in advance. [Oh no, I'm the main character and I'm dead!]

Jiang Beiran hadn't expected this. He was too curious about the secrets of Golden Cauldron Island, which led him to consider Little Seven as one of the greatest weapons to crack the island. Now that the secret had been cracked a little, he had sunk too deep into it.

Now, the only thing that could comfort him was that he didn't help Little Seven. He didn't think that there was any danger in this matter. After analyzing all of this, he thought about what the fiend soul had said.

'How is this possible? You weren't in the prophecy!

According to the normal development of the plot, Little Seven should only come to this secret room in the late stages. Then this fiend soul's level should be very high. Otherwise, it wouldn't be worthy of being the main character's opponent.

And his high level meant that the prophecy he believed in was also very valuable. At the very least, it should have been divined by a fortune teller of Gu Liang Ren's level.

'So my arrival disrupted the original development of this continent?'

With that thought in mind, Jiang Beiran understood why the Heavenly Axiom was targeting him.

He was treating him like a BUG.

‘\*+! I don’t want to come here again!’

Jiang Beiran suddenly felt extremely wronged. He had been the successor of the country, but he had been dragged here for no apparent reason, and now the heavens were trying to kill him.

“Who did I offend?!”

‘F \* ck, since the heavens tolerate me, then I’ll go against...Forget it, forget it. I was just joking.’

‘But that’s not right.. ‘

Jiang Beiran suddenly recalled Gu Liangren’s prophecy. It was obviously a foreshadowing of the Heavenly Axiom. Otherwise, why would he send Shi Fenglan to the Returning Heart Sect?

In other words, the Heavenly Dao had long known that he would come to this continent and had already made a series of preparations for his arrival..

626

Translator: 549690339

‘Or...In the era of banesouls, did the Heavenly Dao not know that I would appear?’

Thinking about it this way, Jiang Beiran felt that it made even more sense. The Heavenly Axiom had buried countless foreshadowing thousands of years ago, perhaps even tens of thousands of years ago, just waiting for the future generations to slowly uncover it. In the end, a BUG like him appeared, which was why it was so anxious to ” fix ” him.

Recalling his past, Jiang Beiran realized that he had already met three people who had the fate of the main character. It was possible that they were all supposed to leave the script arranged by the Heavenly Axiom, but in the end, they were more or less affected by him.

If that was the case, who sent him to this world? What role did the system play?

Chaos, it was all chaos.

Although Jiang Beiran had considered this before, he had no idea where to start, so he gave it up after thinking about it for a while.

This time, he suddenly caught onto some clues, causing him to fall into deep thought again.

What is the meaning of my coming to this world?

However, a moment later, Jiang Beiran threw an apple on the ground in his mind.

‘Am I here to be a freaking philosopher??’

It was too tiring to think about this kind of problem. Anyway, this state had lasted for so long, and the days were getting more and more prosperous. It was good to live like this. As for the future, he would deal with it when the soldiers came.

The main thing was that he was only grasping at the beginning. There was really nothing to analyze. He would look at the future.

Anyway, his life goals would not change for the time being. There were only two.

To live and to live more comfortably.

He did not want to trouble himself without finding any clues. That would be too tiring.

“Brother Wang! Look!”

Just as Jiang Beiran was about to get over it, he suddenly heard Little Seven’s voice.

Looking in Seven’s direction, a part of the dark vines on the wall suddenly withered, revealing a hole.

‘It’s it again...’

In the exposed part, there was another mysterious round plate hanging quietly. However, compared to the ones in the valley, this mysterious round

plate was not only covered with mysterious runes, but also inlaid with several pieces of high-quality jade.

In the next second, the mysterious disc suddenly shone brightly. Under Seven's surprised gaze, a silver light shot out, like a spotlight, creating a circle of light in the middle of the hall.

"Big Brother Wang..." Little Seven immediately asked Jiang Beiran for instructions.

"Let's try walking in."

After encountering so many things that she couldn't understand, there was only one thought left in Little Seven's mind, and that was...

Listen to Brother Wang!

Therefore, Jiang Beiran ordered Xiao Qi to stand under the spotlight without hesitation.

This time, Little Seven didn't scream, nor did her expression change drastically.

He just stood there calmly, but his soul seemed to have left his body. Otherwise, he wouldn't be so quiet.

Amidst the maniacal laughter, a person in the form of a soul rose from the ground, the murderous aura around him much stronger than any malicious ghost Jiang Beiran had ever seen.

"Hahahahaha! Pei Xin..." The fiend's laughter came to an abrupt halt. It looked at Jiang Beiran with its blood-red eyes and asked, "Who are you?!"

“Big Brother Wang, I heard that this is the territory of the State of Wei.”

On a snowy street, Little Seven returned to a small tavern after she had finished asking around. She cupped her hands and greeted Jiang Beiran, who was boiling wine.

‘Weiguo...’

Jiang Beiran had some impression of this country because it was a small border country in a corner like the Sheng Kingdom. It had no spiritual energy or resources. It was a weak chicken country that had no land.

However, none of that mattered. What mattered was that Jiang Beiran knew that she had come out and was still on the Mystery Dragon Continent. This meant...

He didn't need to be a worker anymore!

He could bring out all the resources of Golden Cauldron Island through this portal, so there was no need for him to be inspected.

“Awesome!”

After Xiao Qi settled the bill, Jiang Beiran brought him back to the snowland.

When they were not far from the cabin, Jiang Beiran's Mentality jumped. It was a sign that he had sensed that he had entered a certain formation.

Before they left, Jiang Beiran already knew that there was a compound formation hidden deep around the house. It was obviously meant to hide the house.

Otherwise, it would be too shocking to have such a small wooden house in this frozen snowfield.

However, since the formation did not affect Jiang Beiran's access, he did not plan to study it for the time being. He had to hurry back to the island to ‘restock’ his business.

After checking the cabin and confirming that there were no Special Items, Jiang Beiran decided to bring the residents back to take a look.

Walking into the mirror, Little Seven turned back to look at the small wooden house. A strange feeling arose in her heart.

He was very sure that he had never been here before, but he missed everything here.

“Big Brother Wang...” Seven suddenly shouted.

“What’s wrong?”

“If one day I recover all my memories, then I...Would it still be me?”

“I don’t know.”

This time, Jiang Beiran didn’t answer the riddle, nor did he console Little Seven.

This was because Seven’s guess was indeed possible. Once the memories of the ancient Mystic Emperor came back, it would be a question mark whether

Seven’s will would still exist.

Therefore, Xiao Qi had to make the decision, and Jiang Beiran would not interfere.

After hearing Brother Wang’s answer, Xiao Qi was obviously stunned. She sighed that there was actually something in this world that Brother Wang did not know.

“Big Brother Wang, then what do you think of me...”

“This is something you should think about yourself. There’s no need to listen to the opinions of others.”

Patting Little Seven on the shoulder, Jiang Beiran stepped into the copper mirror.

Little Seven was startled. She felt that Brother Wang’s words were not wrong. This was his own fate. Of course, he had to make his own choice.

“What nonsense did I ask!” Little Seven knocked her forehead in frustration, then walked into the bronze mirror.

Returning to the dilapidated palace, Jiang Beiran looked at Little Seven, who had just been teleported back, and said, "So you can enter and leave Golden Cauldron Island freely in the future?"

Seven shook her head, "No, it's still the same as now. You can only enter when Golden Cauldron Island opens."

"What a lousy setting."

Jiang Beiran had originally planned to use Golden Tripod Island as a warehouse, but he did not expect his plan to be ruined so quickly.

Since there were only a few days left, Jiang Beiran naturally had to hurry up and pick up the goods.

Jiang Beiran nodded and said, "Is there anything else that needs to be dealt with?"

Seven looked around the palace and shook her head, "No more."

"Let's go then."

With Little Seven leading the way, the two of them quickly returned to the surface through another teleportation point.

"The design is really exquisite."

Jiang Beiran sighed inwardly as he led Little Seven to find the residents who were still waiting for them at the mountain wall.

"Senior! Little Seven!"

Upon seeing Jiang Beiran's return, the resident exclaimed in surprise. He had thought that the two of them had been teleported to another place and would never return.

"Little Seven, you and the people go back to the camp and guard it. If anything happens, contact Zhiyuan."

"Yes, sir!" The two of them responded at the same time and leaped into the air, flying toward the camp.

After the two of them had completely disappeared from sight, Jiang Beiran tidied his hair and flashed a brilliant smile.

Now that all the Mystic Kings on the island were gathered in the camp, this meant that he did not have to worry about exposing himself at all. He could gallop freely in this valley.

In addition, he had a map with the locations of a large number of precious materials marked on it. This was the information brought back by the treasure-hunting team. These precious materials were either hidden very deeply or guarded by someone.

However, these questions were not a problem for Jiang Beiran at the moment.

He could now ascend to the highest peak and make a loud announcement.

This fish...Oh no, this mountain is mine!

After laughing out loud, Jiang Beiran ran toward the first location on the map.

On the other side, Lin Shiyun, who saw Little Seven return, expressed her concern for him and then changed the topic, "Where's your Big Brother Wang? Why haven't I seen him these past few days?"

Lin Shiyun originally thought that the master would definitely come and talk to her in the last few days to see how the resources should be distributed to make her the top three.

But now that it was almost the last few days, Grandmaster still didn't look for her even once, this made her feel a little mentally tired.

She cupped her hands towards Lin Shiyun and replied, "Brother Wang has his own matters to attend to, so it's not convenient for me to ask."

Knowing that Little Seven wouldn't say anything, Lin Shiyun could only change the way she asked, "Then did your Big Brother Wang tell you about the top three?"

“Yes, I have. Don’t worry, Young Miss.”

“Sigh... The next time you go to see your brother Wang, can you let me know? I have something to talk to him about.”

“If Eldest Young Lady doesn’t mind, Little Seven can pass on the message or inform Big Brother Wang about this matter.”

Although this person was also one of the sisters-in-law that Little Seven had acknowledged, he understood Brother Wang’s temper. If he made the decision on his own and brought Lin Shiyun along, then his position in Brother Wang’s heart would probably plummet.

This was something he could not accept the most!

Therefore, even if it was his sister-in-law’s request, he could only politely refuse.

“Then...Then help me tell him that I want to talk to him about the Emperor Gu.”

“Alright, Little Seven will definitely pass the message.”She waved at Lin Shiyun.” Then I’ll go out to patrol first. Young Miss, call me if you have anything to do.””

“Thank you for your hard work.”

“I should.” Little Seven left Lin Shiyun’s room after saying that.

Hearing the sound of the door closing, Lin Shiyun laid on the table, a little unhappy. It was fine if she didn’t know some things, but when she found out that the master was also on this island that day, Lin Shiyun began to think about it day and night, always wanting to see him again.

Unfortunately, he could not get his wish.

‘If only I were still living in that cave...’ Lin Shiyun thought in her heart. “Big Brother Wang, I heard that this is the territory of the State of Wei.”

On a snowy street, Little Seven returned to a small tavern after she had finished asking around. She cupped her hands and greeted Jiang Beiran, who was boiling wine.

‘Weiguo...’

Jiang Beiran had some impression of this country because it was a small border country in a corner like the Sheng Kingdom. It had no spiritual energy or resources. It was a weak chicken country that had no land.

However, none of that mattered. What mattered was that Jiang Beiran knew that she had come out and was still on the Mystery Dragon Continent. This meant...

He didn't need to be a worker anymore!

He could bring out all the resources of Golden Cauldron Island through this portal, so there was no need for him to be inspected.

“Awesome!”

After Xiao Qi settled the bill, Jiang Beiran brought him back to the snowland.

When they were not far from the cabin, Jiang Beiran's Mentality jumped. It was a sign that he had sensed that he had entered a certain formation.

Before they left, Jiang Beiran already knew that there was a compound formation hidden deep around the house. It was obviously meant to hide the house.

Otherwise, it would be too shocking to have such a small wooden house in this frozen snowfield.

However, since the formation did not affect Jiang Beiran's access, he did not plan to study it for the time being. He had to hurry back to the island to ‘restock’ his business.

After checking the cabin and confirming that there were no Special Items, Jiang Beiran decided to bring the residents back to take a look.

Walking into the mirror, Little Seven turned back to look at the small wooden house. A strange feeling arose in her heart.

He was very sure that he had never been here before, but he missed everything here.

“Big Brother Wang...” Seven suddenly shouted.

“What’s wrong?”

“If one day I recover all my memories, then I...Would it still be me?”

“I don’t know.”

This time, Jiang Beiran didn’t answer the riddle, nor did he console Little Seven.

This was because Seven’s guess was indeed possible. Once the memories of the ancient Mystic Emperor came back, it would be a question mark whether Seven’s will would still exist.

Therefore, Xiao Qi had to make the decision, and Jiang Beiran would not interfere.

After hearing Brother Wang’s answer, Xiao Qi was obviously stunned. She sighed that there was actually something in this world that Brother Wang did not know.

“Big Brother Wang, then what do you think of me...”

“This is something you should think about yourself. There’s no need to listen to the opinions of others.”

Patting Little Seven on the shoulder, Jiang Beiran stepped into the copper mirror.

Little Seven was startled. She felt that Brother Wang’s words were not wrong. This was his own fate. Of course, he had to make his own choice.

“What nonsense did I ask!” Little Seven knocked her forehead in frustration, then walked into the bronze mirror.

Returning to the dilapidated palace, Jiang Beiran looked at Little Seven, who had just been teleported back, and said, “So you can enter and leave Golden Cauldron Island freely in the future?”

Seven shook her head, “No, it’s still the same as now. You can only enter when Golden Cauldron Island opens.”

“What a lousy setting.”

Jiang Beiran had originally planned to use Golden Tripod Island as a warehouse, but he did not expect his plan to be ruined so quickly.

Since there were only a few days left, Jiang Beiran naturally had to hurry up and pick up the goods.

Jiang Beiran nodded and said, “Is there anything else that needs to be dealt with?”

Seven looked around the palace and shook her head, “No more.”

“Let’s go then.”

With Little Seven leading the way, the two of them quickly returned to the surface through another teleportation point.

“The design is really exquisite.”

Jiang Beiran sighed inwardly as he led Little Seven to find the residents who were still waiting for them at the mountain wall.

“Senior! Little Seven!”

Upon seeing Jiang Beiran’s return, the resident exclaimed in surprise. He had thought that the two of them had been teleported to another place and would never return.

“Little Seven, you and the people go back to the camp and guard it. If anything happens, contact Zhiyuan.”

“Yes, sir!” The two of them responded at the same time and leaped into the air, flying toward the camp.

At the entrance of the campsite, the two of them were locked in a fierce battle. The intense battle between the three of them affected the hearts of all the Mystic Kings behind them.

However, this time, everyone suddenly realized that the battles that they could barely win in the past had suddenly become one-sided.

"Alliance Master... So strong."

In the sky, Little Seven, who was bathed in pale blue Celestial Chi, was forcing the Rock Spirit to retreat step by step with her punches. Every time the Rock Spirit was about to launch a counterattack, the pale blue Celestial Chi would condense into a phantom to block all the attacks.

'Looks like this kid didn't just obtain memories.'

Not far away, Jiang Beiran, who had rushed back after receiving the spiritual kite kite, stood on the mountainside and sighed.

Little Seven's strength had clearly increased, and this growth was mainly reflected in his use of the pale blue Profound Qi.

Generally speaking, the mystical Qi around the body was just a "special effect" that the cultivator added when condensing the move. Cultivators could also judge how powerful the cultivator was by observing the mystical Qi.

However, Little Seven's pale blue Celestial Chi was able to help Little Seven block the enemy's attack. Moreover, it was such a powerful enemy. This made all the Mystic Kings present feel incredulous.

If Jiang Beiran had to describe this feeling, it could be summarized in one sentence.

'Damn! The special effects are hitting people!

It was just that yesterday, when Little Seven used the blue Celestial Chi, he did not have such a performance. Today, he had it, so it must have something to do with his experience in the palace.

'Is this the reincarnation of the Mystic Thearch...'

Just as Jiang Beiran was lamenting, Little Seven suddenly condensed a Celestial Chi spear and stabbed it at the rock spirit's left chest.

"The power of my moves has also increased."

Little Seven had used this Profound Qi Spear Condensation move many times before, but it had never caused such great damage to the Rock Spirit. It could be seen that Little Seven now had the strength to fight the Profound Emperor head-on.

However, after using his spiritual energy to scan the area, Jiang Beiran was certain that he was still at the Mystic King Stage.

In other words, the current Little Seven didn't need to burn her life force, this extreme cultivation method, nor did she need any high-grade magic treasure to help her. She could directly complete the cross-level challenge. This strength was terrifying.

Jiang Beiran even felt that if he were to lend him a hand, he might even be able to challenge a Second Stage or even a Third Stage Mystic Emperor. 'As expected of the reincarnation of the Mystic Thearch. How terrifying!'

In front of Little Seven, who was getting braver and braver as the battle progressed, the Rock Spirit was beaten into a wisp of dust before it could put up any decent resistance, dissipating in the wilderness.

' Little Seven, you've become much stronger.'

The resident who didn't help much in a normal battle looked at Seven and said.

After Little Seven heard this, he looked at the pale blue Profound Qi burning on

his arm. He knew very well that it wasn't him who had become stronger, but the pale blue Profound Qi.

Although he still did not know where this pale-blue mystic qi came from, he already knew that he was the reincarnation of the Mystic Thearch. Therefore, he was basically certain that this mystic qi must have an inseparable relationship with the Mystic Thearch.

Little Seven only discovered that the blue Profound Qi had become much stronger when she fought with the Rock Spirit. Otherwise, she would have told

Big Brother Wang.

In addition, Little Seven wouldn't slack off when it came to acting.

Fading off the blue Profound Qi, Little Seven convulsed as she knelt on the ground, the expression on her face was extremely painful.

This made the Xuan Kings, who were originally cheering for him, panic. They thought that the Alliance Master's cultivation had improved again, but now it seemed that he seemed to have used a cultivation technique that exhausted his life force even more.

As he watched the Mystical Lords in the camp surround Little Seven, Jiang Beiran began to think about how he should change his words after he left.

After all, this trip to Golden Cauldron Island was much more chaotic than he had imagined. The original plan that he had made had long been thrown aside by Jiang Beiran.

Seeing that Little Seven was fine, Jiang Beiran decided not to stay any longer. He still had to make use of the time to "shop"

Due to the sudden increase in Little Seven's strength, Jiang Beiran no longer had any worries. In the remaining few days, he found all the precious materials marked on the map.

Moreover, because the precious materials marked on the map were not directly harvested by the "purchasing" team, in other words, the difficulty of harvesting was relatively high, so most of the quality was higher than those piled up in the cave warehouse.

Every single one of them made Jiang Beiran laugh from the bottom of his heart.

He had already thought about it. When he got out, he would use the wood spiritual energy stored in the spirit stones at the wood spiritual vein to water them and increase their quality.

On the last day of the Green Sky Meeting, Jiang Beiran, who had transferred all the Heavenly Materials and Earthly Treasures out, sat quietly in a corner of the camp, waiting for the Teleportation Portal to appear.

He wasn't greedy. He didn't plan to touch the treasures that had already been stored in the warehouse. Firstly, he wanted to return the favor.

Throwing all these treasures on the table, Jiang Beiran felt that he would not even need to help the Shi family nurture a Rank-8 mystic artist and would be able to clear his debt with Shi Hongyun. After all, he had given too much.

As for why Jiang Beiran was so anxious to repay Shi Hongyun's favor, it was not because he really did not want to stay in the Shi family, but because he did not want to be stuck in the Shi family.

Before he could repay the favor, Jiang Beiran had not even spoken to Shi Hongyun in a firm manner. As a result, he had no choice but to lower his head in front of Shi Hongyun.

This made it difficult for Jiang Beiran to deal with the direct descendants of the Shi family. Once he had repaid the favor, Jiang Beiran would no longer have to worry so much. If the direct descendants of the Shi family showed any signs of dragging him into the family's internal conflicts, he would either reject them sternly or leave. That would give him a lot more choices..

In addition, the materials in the warehouse had been retrieved by the purchasing team, and there were clear records of them. If he took them away himself, it would easily cause unnecessary trouble, and Jiang Beiran did not want to get into trouble.

At night, as the portal slowly closed, the Green Sky Meeting officially came to an end.

After all the surviving Mystic Kings were checked by their own sects or family heads and confirmed that they did not have any extra Cosmos Rings or treasures on them, they gathered in the center of the square. They were waiting for the seniors to announce the top three of the Green Sky Meeting.

Of course, the answer was already in their minds.

After a while, an elegant young man in a green robe walked onto the podium.

After a bootlicking speech, Jiang Beiran found out that he was the spokesperson chosen by the various major Mystical Arts Pavilions and was considered one of the best among the younger generation in the field of Mystical Arts.

After thanking everyone, Ying Hanmo cupped his hands towards everyone and said, “I know that everyone has worked hard on this trip to Golden Cauldron Island, so I won’t say too much nonsense. After the appraisal of the pavilion elders of the various Mystical Arts Associations, the leader of the Green Sky Society this time is the team led by Shi Jiamu of the Shi Residence in Tong

Country.”

What?!” “How could that be?”

“Impossible!”

Everyone was in an uproar. Everyone was certain that Alliance Master Han would be the Alliance Master this time.

After all, most of them had given their gains to the Alliance Master. Even if a small number of people wanted to be thick-skinned and fight for it, it would be useless.

“Hehe, what a good Shi family. I wonder where you were having fun when the Rock Spirit attacked the camp?”

“I wonder how shameless the Shi family must be to be able to claim the title of leader.”

“Hahaha! Ridiculous, ridiculous!”

“Alright, quiet down.”

Just as everyone was getting excited, a middle-aged man in a long robe jumped onto the podium.

This person had a stern body and a dignified appearance. His eyes were imposing without anger, his eyebrows were dark like ink, and his chest was broad. He had a demeanor that ten thousand men could not match.

At this moment, Little Seven and the Lin family members in the crowd immediately bowed and shouted, “Greetings, Patriarch.”

Upon hearing that this was the Lin family’s head, everyone immediately fell silent. After all, he was the head of the Alliance Master, so they had to give him some face.

Seeing that everyone had quieted down, Lin Pusheng said, “I am already aware of what happened on Golden Cauldron Island this time around. I am also very pleased that our Lin family has such a righteous disciple. However, there are still some parts of this matter that you do not know about...” Lin Pusheng looked at Little Seven and said, “Dacheng, why don’t you tell us what happened?”

“Yes, sir!”

Seven cupped her hands at Lin Pusheng and walked up the stage.

After going on stage, Little Seven first bowed to Lin Pusheng, then cupped her hands towards the Xuan Kings below the stage.

“Thank you for your favor this time and for promoting me to the position of Alliance Master. However, there is one thing that I have to make clear here. The reason why I was able to defeat those Rock Spirits was all thanks to the help of the Shi family. It was just that the Shi family member kept a low profile and did not want me to reveal his name, so I did not say it. However, now that I see everyone’s excitement, I have no choice but to say it. “Holy Crystal Soul

Little Seven’s words made everyone confused. Everyone had seen with their own eyes that every time the Rock Spirit attacked, only he and the Deputy Alliance Master would step forward. How could there be anyone else?

After seeing everyone’s doubts, Seven took out a piece of orange-yellow jade that was covered in layers of light from her Qian Kun ring.

“My strength is meager, and I should have died at the hands of the Rock Spirits like everyone else. It was all because that righteous man gave me this piece of Holy Crystal Soul Jade that my strength increased greatly and I barely defeated those Rock Spirits.”

“Holy Crystal Soul Jade!”

Everyone was shocked. As Mystic Kings, although they did not own it, they had a certain understanding of the top treasures on the continent.

As a top-notch treasure that could allow cultivators to challenge those of a higher level, there were very few people who had not heard of its name.

Seeing everyone’s surprised expression, Xiao Qi continued, ““Therefore, everyone should be grateful to him. Without this piece of Holy Crystal Soul Jade, I would never have been able to defeat the Rock Spirit and ensure everyone’s safety.”

“No!” One of the people below the stage immediately shouted, “We have seen everything that the Alliance Master has done. Even with this Holy Crystal Soul Jade, fighting with the Rock Spirit is still an extremely dangerous matter. Alliance Master, you don’t have to be humble.”

“Yes, Alliance Master, you don’t have to be humble!” Everyone responded.

Seven cupped her hands towards all the Mystic Kings and continued, ““Just as I said at the beginning, that expert kept a low profile. Originally, he tried his best to make me the chief, but my conscience was too uneasy, so I refused. I

just wanted to let everyone know that it was not only me and the deputy chief who were able to safely escape this disaster.”

Seeing that everyone had quieted down, Little Seven immediately said, “Since everyone already knows the whole story, you should also understand why I am unwilling to accept the title of Chief. I hope that everyone will not say those intense words just now.”

“As you command, Alliance Master.”

Although they still thought that the leader of the alliance should be the Alliance Master, since the Alliance Master wanted to give up modestly, there was naturally no need for them to continue opposing.

Seeing that things had settled down as he had expected, Jiang Beiran snapped his fingers in his heart.

“Done!”

From the moment he made Little Seven his ‘savior’, Jiang Beiran had naturally prepared a perfect plan.

There were two benefits to using the Saint Gem Soul Jade as a cover.

Firstly, without this cover, it would be very troublesome to explain Little Seven’s protagonist halo. If it was not explained well or explained too well, it might incur the suspicion of these Profound Sages..

632

Translator: 549690339

Secondly, Jiang Beiran had been coveting this piece of jade for a long time. Now that he finally had the chance to “freeload” how could he let it go?

As for why he said that he could “get a free ride”, Jiang Beiran had naturally already made arrangements to deal with him.

At night, as the portal slowly closed, the Green Sky Meeting officially came to an end.

Everyone was in an uproar. Everyone was certain that Alliance Master Han would be the Alliance Master this time.

After all, most of them had given their gains to the Alliance Master. Even if a small number of people wanted to be thick-skinned and fight for it, it would be useless.

“Hehe, what a good Shi family. I wonder where you were having fun when the Rock Spirit attacked the camp?”

“I wonder how shameless the Shi family must be to be able to claim the title of leader.”

“Hahaha! Ridiculous, ridiculous!”

“Alright, quiet down.”

Just as everyone was getting excited, a middle-aged man in a long robe jumped onto the podium.

This person had a stern body and a dignified appearance. His eyes were imposing without anger, his eyebrows were dark like ink, and his chest was broad. He had a demeanor that ten thousand men could not match.

At this moment, Little Seven and the Lin family members in the crowd immediately bowed and shouted, "Greetings, Patriarch."

Upon hearing that this was the Lin family's head, everyone immediately fell silent. After all, he was the head of the Alliance Master, so they had to give him some face.

Seeing that everyone had quieted down, Lin Pusheng said, "I am already aware of what happened on Golden Cauldron Island this time around. I am also very pleased that our Lin family has such a righteous disciple. However, there are still some parts of this matter that you do not know about..." Lin Pusheng looked at Little Seven and said, "Dacheng, why don't you tell us what happened?"

"Yes, sir!"

Seven cupped her hands at Lin Pusheng and walked up the stage.

After going on stage, Little Seven first bowed to Lin Pusheng, then cupped her hands towards the Xuan Kings below the stage.

"Thank you for your favor this time and for promoting me to the position of Alliance Master. However, there is one thing that I have to make clear here. The reason why I was able to defeat those Rock Spirits was all thanks to the help of the Shi family. It was just that the Shi family member kept a low profile and did not want me to reveal his name, so I did not say it. However, now that I see everyone's excitement, I have no choice but to say it. "Holy Crystal Soul Jade

Little Seven's words made everyone confused. Everyone had seen with their own eyes that every time the Rock Spirit attacked, only he and the Deputy Alliance Master would step forward. How could there be anyone else?

After seeing everyone's doubts, Seven took out a piece of orange-yellow jade that was covered in layers of light from her Qian Kun ring.

“My strength is meager, and I should have died at the hands of the Rock Spirits like everyone else. It was all because that righteous man gave me this piece of Holy Crystal Soul Jade that my strength increased greatly and I barely defeated those Rock Spirits.”

“Holy Crystal Soul Jade!”

Everyone was shocked. As Mystic Kings, although they did not own it, they had a certain understanding of the top treasures on the continent.

As a top-notch treasure that could allow cultivators to challenge those of a higher level, there were very few people who had not heard of its name.

Seeing everyone’s surprised expression, Xiao Qi continued, ““Therefore, everyone should be grateful to him. Without this piece of Holy Crystal Soul Jade, I would never have been able to defeat the Rock Spirit and ensure everyone’s safety.”

“No!” One of the people below the stage immediately shouted, “ We have seen everything that the Alliance Master has done. Even with this Holy Crystal Soul Jade, fighting with the Rock Spirit is still an extremely dangerous matter. Alliance Master, you don’t have to be humble.”

“Yes, Alliance Master, you don’t have to be humble!” Everyone responded.

Seven cupped her hands towards all the Mystic Kings and continued, ““Just as I said at the beginning, that expert kept a low profile. Originally, he tried his best to make me the chief, but my conscience was too uneasy, so I refused. I just wanted to let everyone know that it was not only me and the deputy chief who were able to safely escape this disaster.”

Seeing that everyone had quieted down, Little Seven immediately said, ““Since everyone already knows the whole story, you should also understand why I am unwilling to accept the title of Chief. I hope that everyone will not say those intense words just now.”

“As you command, Alliance Master.”

Although they still thought that the leader of the alliance should be the Alliance Master, since the Alliance Master wanted to give up modestly, there was naturally no need for them to continue opposing.

Seeing that things had settled down as he had expected, Jiang Beiran snapped his fingers in his heart.

“Done!”

From the moment he made Little Seven his ‘savior’, Jiang Beiran had naturally prepared a perfect plan.

There were two benefits to using the Saint Gem Soul Jade as a cover.

Firstly, without this cover, it would be very troublesome to explain Little Seven’s protagonist halo. If it was not explained well or explained too well, it might incur the suspicion of these Profound Sages.

Secondly, Jiang Beiran had been coveting this piece of jade for a long time. Now that he finally had the chance to ” freeload “, how could he let it go?

As for why he said that he could ” go around for free Jiang Beiran had naturally already made plans to deal with him.

That’s right.

Late at night, Lin Shiyun sat alone by the sea in a daze, recalling all the things that had happened on this trip to Golden Cauldron Island.

When she was almost caught by the person she hated the most, that person descended from the heavens. Although Lin Shiyun had already fainted at that time, she could imagine the heroic bearing of the master. After all, she had seen him once in the Qi Country.

After that, he had almost lost his life to the Rock Spirit, and at the critical moment, that person had easily resolved the crisis.

Lin Shiyun was very sure that when she saw the master, she was stunned because she had never thought that the master would appear on this island.

It was just like how she had never thought that someone would come to save her at the Five Mile Ravine.

However, that man always appeared at impossible times and impossible places.

Including this time, I owe him three, no, four lives.'

Lin Shiyun picked up a pebble and threw it into the sea.

Ripples appeared in the sea as Lin Shiyun held her chin and muttered to herself, "'1 really don't know how to repay this favor."

"I heard from Little Seven that you've already found out about the Emperor Venomous Worm."

Just as Lin Shiyun was sighing, a voice suddenly came from behind her, giving her a fright.

"Big... Master?" Lin Shiyun, who was so frightened that she almost jumped up, turned around and shouted at Jiang Beiran.

"Yes, it's me." Jiang Beiran nodded.

Jiang Beiran, who was in the Fei Mansion, saw that the party should have ended, so he wanted to come out and see if he could find Lin Shiyun to ask for news.

After all, there was only less than a year left until the three year period indicated by the system. The search for those precious materials had to be put on the agenda as soon as possible. Otherwise, if they encountered another irresistible force like the wood spiritual energy vein, they would be in big trouble.

Taking a deep breath, Lin Shiyun gradually calmed down and nodded, "Yes, I did find some information about the Emperor Gu, but I can't be sure if it's the kind of Emperor Gu that you mentioned."

"Just say it."

"Because Gu is a forbidden item, when I was looking for the Emperor Gu, I couldn't tell if it was true or not. Therefore, I could only choose the most credible one to tell you."

Jiang Beiran nodded in agreement with Lin Shiyun's words.

The Six Nations and the Sheng Nation had the same attitude toward the venomous insect, and they were both determined to crack down on it. It was precisely because of this that Jiang Beiran had thought from the very beginning that the difficulty of finding the Emperor Venomous Insect would be even greater than the other precious materials combined.

So when he heard Seven tell him that Lin Shiyun had found the Emperor Venomous Worm, he was surprised.

But now, it sounded like this was just a clue that could not be confirmed, but it was better than nothing.

Taking out a map from her Cosmos Ring, Lin Shiyun handed it to Jiang

Beiran. "In the Zeng Country's underground black market, there was news of Emperor Gu being sold. I've marked the exact location on the map."

'Zeng Country...Black market...'

Hearing that it was rumored to be the Zeng Nation with the most developed trade and the most complicated personnel, Jiang Beiran immediately felt that Lin Shiyun's information was reliable.

"How long ago did you mean before?" Jiang Beiran asked.

“Between three to four months.”

“Is there any more specific information?”

Lin Shiyun thought for a moment and replied, “The person who told me the news knew many black market merchants in Zeng Country and also knew many people who were in power behind the black market. He told me that someone once asked about something called the Bliss Flower in the black market.”

‘Bliss Flower...’ Jiang Beiran rummaged through his memories for a moment and realized that he had never heard of this name before.

“Is there anything else?”

“No more.” Lin Shiyun shook her head. “Master, the Emperor Venomous Worm you mentioned is too mysterious. I didn’t dare to publicize it and search for it, so I didn’t know much. Please forgive me.”

“There’s no need to apologize. You’ve already done very well.”

Jiang Beiran said this sincerely. After all, he had never thought that Lin Shiyun could really find news of the Emperor Venomous Worm.

After all, as she said, the Emperor Venomous Worm was not only a forbidden item, but it was also extremely mysterious. At the same time, they could not mobilize a large number of people to search for it. The difficulty of searching was obvious.

It seems that she hasn’t been traveling all these years in search of blessed lands and grotto-heavens just for fun. She still knows quite a few people from all walks of life. This kind of network is especially useful most of the time.’

Seeing that the master could understand her difficulties, Lin Shiyun also heaved a sigh of relief in her heart. At the same time, she thought of an important matter.

“Master, when I go back, I will be able to get the Two Secret Feathers. How will I give it to you then?”

Jiang Beiran took out a stack of talismans from his Cosmos Ring and told Lin Shiyun how to use the Spirit Paper Kite. He then continued, "When you get the letter, send it to me. I'll find a place to meet you."

"Alright, I'll definitely do it as soon as possible."

Thinking that she would have the opportunity to meet Master again, Lin Shiyun's heart suddenly became excited, and the bitterness in her heart that was about to part was also diluted a lot.

"That's it then. I look forward to hearing from you." Jiang Beiran disappeared after saying that.

Seeing the master leave, Lin Shiyun felt a little disappointed, but thinking that she would be able to see him again soon, she became spirited again.

Go and find out more information about the Emperor Venomous Worm. Next time, I must make Master look at me in a different light.'

After leaving the beach, Jiang Beiran decided to return to the Shi family's Fei Mansion after some thought. Although he still had some things to tell Xiao Qi and the residents, they were destined to be the brightest stars tonight. They were probably surrounded by a crowd..

Thinking that there was no need to rush the things he had to tell her, Jiang Beiran decided to return to the Fei Residence.

"Little Bei Ran!"

After returning to the Fei Residence, Jiang Beiran was about to head to his room when he saw Shi Fenglan running toward him.

"What's the matter?" Jiang Beiran said.

"Yes! I have something to do!"

"Tell me."

Shi Fenglan was about to speak when she saw Shi Yangxi walking over.

“Congratulations.”

Jiang Beiran was a little confused by the senseless congratulatory words. He didn't know whether the current head of the Shi family was congratulating him for winning the Jade Sky Gathering or for becoming a Sage.

Before Jiang Beiran could ask her what she was happy about, Shi Yangxi continued.

“Come with me. There are some things I need to talk to you about.

The sky gradually lit up, and the curtain of the Green Sky Meeting finally came to an end.

However, what was different from the past was that after sending the group of Mystic Kings off the island, many Mystic Venerables and even Mystic Sages stayed on Golden Cauldron Island. There was no other reason.

It was too humiliating!

Even the Rock Spirit had figured out a way to let the Mystic Emperor enter Golden Cauldron Island, but they had made no progress.

What could be more humiliating than this?

Shi Hongyun stayed behind as well. Beside him stood Jiang Beiran and a middle-aged man wearing a brocade crane cloak.

“It’s actually the Eight Suns Shigen Formation that was set up like this...

Interesting, interesting indeed.” The middle-aged man looked at Jiang Beiran’s ‘puzzle’ of the mountains, his eyes brimming with excitement.

This middle-aged man was a friend that Shi Hongyun had found, and he was also a well-known ninth-grade array master on the Black Dragon Continent, Situ Zhi.

No matter which mystic art it was, once one reached the ninth-grade, they might not be able to stand on equal footing with a Profound Sage, but at the very least, a Profound Sage would still give them face on the surface. After all, ninth-grade mystic art masters were already the top of the continent, and most of them could do things that could turn something rotten into something magical.

Situ Zhi didn’t become a guest elder of any sect. Instead, he found a quiet place to study.

Usually, he rarely appeared in public, but this time, when he heard Shi Hongyun say that he had discovered something about the array on Golden Cauldron Island, he had come as quickly as he could.

As a top-notch array master, Situ Zhi had naturally come to Golden Cauldron Island.

However, after merely observing for a month, he realized that the formation protecting Golden Cauldron Island was far beyond his imagination. It even raised the same doubts that he and Jiang Beiran had before.

‘Is it really the formation protecting Golden Cauldron Island?’

Looking at Situ Zhidou’s glowing eyes, Jiang Beiran was thinking about how to deal with this.

Now that Golden Cauldron Island had become his and Little Seven’s backyard, Jiang Beiran naturally did not want anyone to really break the formation on Golden Cauldron Island. Otherwise, what would they eat?

Therefore, when he heard that Shi Hongyun had found a ninth-grade formation master, Jiang Beiran had already thought of a way to make a pie for him that he would never be able to eat.

What kind of lie was the most terrifying?

Of course, it was nine points for real and one for fake.

Jiang Beiran did not hide anything about the discovery of the Eight Suns Releasing Gen Formation. Instead, he told the ninth-grade formation master everything he had found.

He had two objectives.

Firstly, Jiang Beiran could tell that Shi Hongyun had invited Situ Zhi here to win him over, so he had to help him win him over. At the very least, he had to do it on the surface so that Situ Zhi would feel at home.

Secondly, the Eight Suns Releasing Gen Formation was an internal formation of Golden Cauldron Island and had nothing to do with the outside world. Jiang Beiran had already confirmed this.

As for the formation protecting Golden Cauldron Island's exterior, Jiang Beiran did not even bother to study it. After all, he could already get in through the back door, so what was the point of wasting his energy?

“According to the ancient theory, the evasive means to hide, which is the way of seclusion. The armor means the instrument, which is called the Six Jia Six Yi. There are straight talismans, which are the ghosts and gods of heaven. If we use this theory, I'm afraid that what little friend Jiang said just now is inappropriate.”

Jiang Beiran cupped his hands at Situ Zhi and replied, “I heard that the six hidden realms are below the six hidden realms. It is probably due to the use of heavenly secrets and the virtue of the gods. That is why I said that the head of the six hidden realms is static.”

Situ Zhi pondered for a moment after hearing this and said with a smile, “Little friend, you are indeed wise.”

After saying that, he picked up the wine glass in front of him and drank it in one gulp.

After a whole afternoon of discussion, Jiang Beiran and Situ Zhi had already moved from discussing Golden Cauldron Island to discussing the Dao.

Situ Zhi was the first Rank-9 formation master Jiang Beiran had ever met. Naturally, he wanted to get more information from him to understand the abilities of a Rank-9 formation master.

Situ Zhi was also very interested in Jiang Beiran, who was an array master at such a young age. He didn't treat Jiang Beiran as a junior at all, and his words were filled with equal respect.

The atmosphere of this conversation was naturally very good, and the two of them were also full of gains.

Jiang Beiran finally had a clearer idea of the concept of Rank-9. Compared to Lu Yangyu, who had yet to reach Rank-8 in Ling Long Workshop, Situ Zhi was like heaven and earth to him.

As for his strength, the first thing was that Situ Zhi was not biased in the field of formations. Be it a monitoring formation or a defensive formation, as long as it was a formation, he would be able to express his understanding of it.

Moreover, the angle of his understanding was very interesting, which made Jiang Beiran quite benefited.

The second was that Situ Zhi had his own unique perspective on arrays. He believed that arrays could not only borrow the power of heaven and earth. Man was the spirit of all things. In fact, there were many things that could be excavated from the body. If one could completely understand the human body, it would actually be a good "tool" for arrays.

'Human body refinement? Are you an alchemist?

Jiang Beiran's first reaction upon hearing Situ Zhi's argument was to grumble inwardly, but he soon felt that Situ Zhi's words made sense.

The design of the human body was very exquisite, and the cultivator's body was even more powerful. Moreover, the stronger the cultivator's body structure was, the more intricate and complicated it was. If he could really study it, the importance of array formations in many mystic arts would probably rise to

The reason Situ Zhi had said so much to Jiang Beiran was naturally because Jiang Beiran had given him a lot of inspiration.

After all, in terms of comprehensiveness, Jiang Beiran's knowledge base on formations was definitely not inferior to Situ Zhi's. He could even find some theories that Situ Zhi had never heard of from the corners of the room.

Moreover, Jiang Beiran was a man of many talents. He had already formed his own faction in the field of multiple formations. The viewpoint he had expressed was an eye-opener for Situ Zhi, and it was very interesting..

636

Translator: 549690339

"Sir, your attainments in the Nine Palace Theory have impressed me." Jiang Beiran raised his glass and bowed to Situ Zhi, then downed it in one gulp.

After chatting for the entire afternoon, Jiang Beiran had confirmed one thing. Theoretically, he was on par with a Ninth Grade Array Master. However, he would probably fall behind when it came to setting up arrays.

After all, he was lacking in high-end operations such as super-large formations, miniature formations, and connecting formations. However, since Situ Zhi could become a Rank-9, it meant that he was definitely not bad in these high-end techniques.

'Damn it...Who would have thought that I would one day become All-Mouthy King?'

The sky gradually lit up, and the curtain of the Green Sky Meeting finally came to an end.

However, what was different from the past was that after sending the group of Mystic Kings off the island, many Mystic Venerables and even Mystic Sages stayed on Golden Cauldron Island. There was no other reason.

“According to the ancient theory, the evasive means to hide, which is the way of seclusion. The armor means the instrument, which is called the Six Jia Six Yi. There are straight talismans, which are the ghosts and gods of heaven. If we use this theory, I'm afraid that what little friend Jiang said just now is inappropriate. ”

Jiang Beiran cupped his hands at Situ Zhi and replied,“I heard that the six hidden realms are below the six hidden realms. It is probably due to the use of heavenly secrets and the virtue of the gods. That is why I said that the head of the six hidden realms is static.”

Situ Zhi pondered for a moment after hearing this and said with a smile,“Little friend, you are indeed wise.”

After saying that, he picked up the wine glass in front of him and drank it in one gulp.

After a whole afternoon of discussion, Jiang Beiran and Situ Zhi had already moved from discussing Golden Cauldron Island to discussing the Dao.

Situ Zhi was the first Rank-9 formation master Jiang Beiran had ever met. Naturally, he wanted to get more information from him to understand the abilities of a Rank-9 formation master.

Situ Zhi was also very interested in Jiang Beiran, who was an array master at such a young age. He didn't treat Jiang Beiran as a junior at all, and his words were filled with equal respect.

The atmosphere of this conversation was naturally very good, and the two of them were also full of gains.

Jiang Beiran finally had a clearer idea of the concept of Rank-9. Compared to Lu Yangyu, who had yet to reach Rank-8 in Ling Long Workshop, Situ Zhi was like heaven and earth to him.

As for his strength, the first thing was that Situ Zhi was not biased in the field of formations. Be it a monitoring formation or a defensive formation, as long as it was a formation, he would be able to express his understanding of it. Moreover, the angle of his understanding was very interesting, which made Jiang Beiran quite benefited.

The second was that Situ Zhi had his own unique perspective on arrays. He believed that arrays could not only borrow the power of heaven and earth. Man was the spirit of all things. In fact, there were many things that could be excavated from the body. If one could completely understand the human body, it would actually be a good "tool" for arrays.

'Human body refinement? Are you an alchemist?'

Jiang Beiran's first reaction upon hearing Situ Zhi's argument was to grumble inwardly, but he soon felt that Situ Zhi's words made sense.

The design of the human body was very exquisite, and the cultivator's body was even more powerful. Moreover, the stronger the cultivator's body structure was, the more intricate and complicated it was. If he could really study it, the importance of array formations in many mystic arts would probably rise to another level.

The reason Situ Zhi had said so much to Jiang Beiran was naturally because Jiang Beiran had given him a lot of inspiration.

After all, in terms of comprehensiveness, Jiang Beiran's knowledge base on formations was definitely not inferior to Situ Zhi's. He could even find some theories that Situ Zhi had never heard of from the corners of the room.

Moreover, Jiang Beiran was a man of many talents. He had already formed his own faction in the field of multiple formations. The viewpoint he had expressed was an eye-opener for Situ Zhi, and it was very interesting.

"Sir, your attainments in the Nine Palace Theory have impressed me." Jiang Beiran raised his glass and bowed to Situ Zhi, then downed it in one gulp.

After chatting for the entire afternoon, Jiang Beiran had confirmed one thing. Theoretically, he was on par with a Ninth Grade Array Master. However, he would probably fall behind when it came to setting up arrays.

After all, he was lacking in high-end operations such as super-large formations, miniature formations, and connecting formations. However, since Situ Zhi could become a Rank-9, it meant that he was definitely not bad in these high-end techniques.

'Damn it...Who would have thought that I would one day become All-Mouthy King?'
