

Worlds Plot 27

Chapter 27: 2.0 Prologue – In System Space before the Second World

Once Hei Anjing opened his eyes, he was once again welcomed by the black carpet of stars.

The 5 small dimmed stars in front of him were now less with one. Before him are 4 tiny stars hovering around him. His little moon system was afloat beside him with hesitance in his movement. Hei Anjing closed his eyes as if he was asleep but one can see a deep frown in between his eyebrows.

The little moon could only wait for a while before he could approach his host. He knew that his host fell in love with Wang Tian more deeply than he allowed himself. This system watched his host indulge himself thoroughly with that emotion they called love.

The little moon had executed more world hopping hosts before his current host just because they failed to control their emotions, falling deeper into each world. He waited. Waiting for his host to calm down on his own. It took an hour before he saw Hei Anjing opened his eyes revealing those pair of cold, deep blue irises.

[Host, are you alright? Do you wish to rest for a while?]

The little system could only watch his host gripped his chest with an ugly expression on his face as if he were befuddled by something. Only for his frown to turn into a false smile.

"I'm not resting. Exe, show me the world plots again." Replied Hei Anjing.

With his voice turning cold and soulless. Hei Anjing chose to kill off his heart to continue moving on. Sealing his love deeply within his soul with only that person has the right to unseal it. Together with the immense ache of losing it the moment he left that star.

[Okay, host. These are the World Plots of the remaining 4 stars.

After reading through the world plots, he made his choice, "I chose the 3rd star." Answered Hei Anjing.

[Host, you had chosen the third star. Please choose one skill before entering. I have listed the following available skills.

Skill List:

Art of Seduction

Singing

Playing instrument

Conductor

Please choose one skill to train.]

"Hm~ so the available skills are really connected with the star I'll enter ha. I will choose singing." Replied Hei Anjing.

[As you wish, host. Before the host enters the training space, Exe has something to inform the host. According to the Host's privileges to choose items in the system mall, the host had only used the system mall once in the first star. Host is now able to get 5 items in the mall.]

"I am now able to get 5 items from the mall. Well I'll browse through the list if I have time." Replied Hei Anjing before entering the training space of his chosen skills.

'[Hm? The next star is a music world under instruments why did the host chose singing skills instead of instrumental talent?]' The secret thoughts of this system called Executioner.

Few years later, Hei Anjing finally came out of the training space with a hoarse voice that only until he was fed by a few dozens of throat candies that it returned to normal.

[Host. Do you not need to learn how to play musical instrument? I mean in the next world you would be playing instruments instead of singing.]

Hei Anjing gave him a sly smile before replying, "Even if my memories are tempered some of my skills are unlocked. It just so happens that my talent in playing musical instruments are not sealed so why should I relearn the skill when I've already mastered it." he said.

The system was rendered speechless for a moment. It took a while for him to check his host's record and indeed have seen his skills for instrument unlocked. Only then he understood the reason why his host didn't learn the Musical skill and instead choose another one connected to it.

Seeing his little moon system quiet,? "Exe, prepare the transfer." Said Hei Anjing as he grabbed the third star emitting with dimmed light in his hands.

[Host, please prepare for transfer in 10....9....5....2....1

Transfer Complete!]
