

## Worlds Plot 301

### Chapter 301: 8.28 First Blue Star - Escape

Qu Yul: {Dage. We are here. Head to the center and lower your heads!}

The voice of Qu Yul was heard in their change and everyone heard what he had said. It only took a split second for the three sentinels in the group to jump towards their other teammates and push down their heads and cover theirs at the same time. In the next moment, sounds of explosions in their surroundings could be heard.

BOOOM! BOOOM! BOOOM! BOOOM!

Grenade blasts can be seen in all directions in Qu Yeon and his team area. In the midst of the explosion, Feng Wu, Qu Yul, and Wu Liu went to the other team and helped them carry the injuries.

Feng Wu started issuing orders, "Yul and your brother cover our escape."

The Qu brother responded at the same time, "Go!"

GRROWL~

ARRG~

HOWL~

Feng Wu carried the two unconscious students while Wu Liu and Tang Si helped the injured twins. He leads the team to the safest route back to the campsite. They didn't fight with the wolves as the number of the pack increased at each howl the injured or dead wolf did. They could only run away as soon as they broke through the encirclement. Once the team had lost the wolf pack, they rested somewhere quiet and safe.

As soon as they felt that the area was safe. They decided to rest and start treating the injured ones. The Qu brothers rested at the sidelines guarding the whole team. Wu Liu, Feng Wu, and Tang Si started giving those who are injured with first aid. Among them, the ones with slightly heavy injuries were the twins. Their bones at the arm and leg were almost chewed out, if not because of their high pain tolerance, they would have fainted already.

Feng Wu gave the twin a healing concoction, one with regeneration ability at the highest purity level. Just by drinking it, their wound should heal immediately, these are concoctions Feng Jing gave the team for emergency purposes.

Tang Yi said who stares at the white potion given to him by Feng Wu. Even he as a commoner knew what kind of potion he had just received.

"T-This is...! A High-level Healing Potion with 100 purity!!?" exclaimed Tang Yi in shock.

Tang San's reactions aren't that much different from his twin's, "S-Shit! Isn't this a million prized concoction!!?"

Feng Wu frowned for a bit which made Tang Si know what he was thinking and immediately forced his twin elder brothers to drink the healing potion.

UGH! Gulps~ Gulps~ Gulps~

Then everyone watches as all of the twin's injuries disappear at a very fast rate under someone's naked eye. The clawed skin showing flesh had closed up like the injuries were never there in the first place except for the slight pale complexion due to the loss of the blood the twins were no longer in danger.

"Drink this next. It's a Blood Coagulation Concoction. It will help replenish your blood." said Feng Wu as he passed a red potion to the twins.

The twins drank the red potion without question. Afterward, Tang Yi and Tang San looked at each other before moving their eyes at Feng Wu. They knew who Feng Wu is. He is the aide of the youngest phoenix of the Feng Clan, Feng Jing. Knowing that he is someone who serves Feng Jing, the twin had trusted him quite a lot.

After all, Feng Jing is the only noble in the First Military Academy who never cared about someone's standing. Regardless of whether you are a noble or a commoner if he likes them good but if he hates you then we can say condolences.

Isn't Navi Nash's ending a great example of someone Lord Jing hates? Now that noble-born son ended up becoming an idiot for angering Feng Jing. They've learned that the fool had once again tried to molest Lord Jing's friend and even tried to harm Feng Jing. Thankfully, Lord Jing's fiance is with them at that time and protects his lover from Navi Nash.

Rumors say that Lord Jing's lover is extremely strong. His spiritual rank is high enough to allow him to be able to touch another worldly creature like the quantum beast. It was well-known that only peak rank SS Sentinels and Guides are able to control their spiritual energy at a certain level which allowed them to enter the same dimensional space as the quantum beast. This allows them to be able to touch a quantum beast which is impossible to those who only have the potential of S and below.

Feng Wu walks away from the twins seeing that their state has stabilized. He checked the ordinary people who fainted due to pain. Wu Liu had poured some potions directly into the mouth of the fainted students and forced the concoction to enter their bodies to take effect. Now all their wounds had closed and their breathing had stabilized as well.

Wu Liu asked, "Why are Lou-ge and Wen-ge aren't waking up?"

"They were hit directly by a guide's spiritual attack. I need to help them wake up directly in their soul. Don't worry, Xiao Liu." said Tang Si.

He was about to place his hands on the heads of the Shi brother only for Feng Wu to stop him.

Feng Wu was shaking his head which meant for Tang Si to stop what he planned to do.

"Why?" asked Tang Si.

"If you use your spirit energy at your current state you would fall into a coma. You've already overused it to the extent you can barely keep yourself awake." Feng Wu covered Tang Si's eyes and said, "Sleep. Leave the rest to me." said Feng Wu.

As soon as Feng Wu said those words, Tang Si finally fainted. He passed the sleeping person to Wu Liu who was beside him.

Feng Wu says, "Let him sleep. He will recover with a long rest."

Wu Liu nodded his head and didn't notice the Qu brothers appearing behind him. Qu Yeon took over the job of looking after his guide from Wu Liu while Qu Yul went to them waiting for Feng Wu's orders. No matter what the situation is right now. Feng Wu is still the leader of their team.

He said, "Please leave him to me." Qu Yeon gently carried his guide in his arms.

"Okay. Don't worry, dage. Si-ge would be fine." said Wu Liu.

Qu Yeon smiled and nodded at his future younger brother-in-law of his. Then he looked at Feng Wu and didn't even glance at him.

Feng Wu says, "Please wait for a moment. Let me check on these two for a while."

"Go ahead," said Qu Yeon as he waited in the side for Feng Wu to finish what he was doing.

After talking with his little brother just now, he learned that the leader of their team of three is not Qu Yul but instead a guide like Feng Wu. When he learned that their group had split into three, Qu Yeon was surprised by this risky plan. He wanted to ask his brother who is the real leader of their whole team but for some reason, he is not answering. But he could more or less guess who is the leader of his younger brother's team, with Feng Wu here, the probability of that person leading is higher.

Qu Yul who sat beside his big brother and his partner started a conversation about the former team's current situation.

"Dage, what happened to you guys and why did you get surrounded by wolves?" asked Qu Yul.

When he asked this question not only Qu Yeon but every one from his team that was still awake had frowned with an ugly expression on his face. They knew that if it wasn't for Qu Yul and his team bumping on them, they would have died in that forest. The twins were in rage after remembering what just happened.

Tang Yi shouted, "It was that bastard noble son from the Sidra Clan. They've signed an alliance with us and dared to use us as decoys to escape the wolf pack!"

"That jerk and his team is the reason why A'Wen and A'Lou are in that state! They attacked them at a blind point ignoring the laws of the Oberion Empire that an awakened person is not allowed to use his quantum beast to attack an ordinary person," said Tang Yi.

Qu Yul spoke, "We thought that the Sidra Clan is different from the rest of the noble-made teams. They have never been involved with the anti-commoners in the Academy but I guess we thought things were wrong."

Wu Liu spoke, "Why did you ally with the Sidra Clan? They are infamous because they back up the anti groups in the academy the most but they did it in a secretive way to keep their reputation clean."

"Moreover, rumors say that they serve the Navi Clan as well," said Qu Yul.

The Tang twin's faces turned dark upon this truth. If not because the deadline for team submission is impending, they wouldn't forget to investigate the team. Sadly, things had gone worse from the moment they decided to sign an alliance with the Sidra Clan.

Qu Yul had a bitter look on his face and looked at his brother, "This might have happened because of our group. Lord Jing's fiance had turned one of their candidate heirs into a fool for trying to harm Lord Jing so. They might have started targeting our team's family or friends. I'm sorry, dage."

"No. It wasn't your fault nor Lord Jing. This happens because the Navi Clan is being unreasonable as always. They always like bullying commoners. But with how things are going we could only accept disqualification." replied Qu Yeon.

Qu Yul, Tang Yi, and Tang San's faces turned gloomy at this decision. Now that they were removed from their allied team the requirements for the team cannot be met. As the leader of the team, Qu Yul had already received a message from this event's organizers. The content of the message is simple, their team had been officially removed as an alliance to the team lead by student sidra. They were given half a day to search for a new group to ally to or merge with.

Feng Wu spoke, "There is no need for that."

His tone is neutral as always as a professional aide, he is brought up thinking that his first priority is only his master. This is why before they even saved the team of Qu Yeon, Feng Wu had already sent a report to his master, Feng Jing.

"Lord Jing had sent a message. He said to come to meet him. We will bring you back to our campsite." said Feng Wu.

Qu Yeon and the twins were startled by what they heard. They even didn't notice Feng Wu touching his communicator and informing his lord about them. So they thought that Feng Wu had made a decision to save them by telling his Lord. Now that they think about it, the aides of the Feng Clan had always been professional. Regardless of any situation, they would always think of their lord as their topmost priority even above their own lives.

At this moment even Qu Yul was stunned, he had only seen Feng Wu touch his communicator when they were looking at the mapping program. He had never expected that everything had been reported to their leader at that time.

The seniors looked at each other and spoke through their eyes. In the end, they've accepted this unexpected priority and nodded their heads.

"Please show us the way."

With that decision finalized, Feng Wu's hunting team had no other choice but to return to the camp and see their leader. They brought Qu Yeon and his team as they were told to do so.

---

Meanwhile at their campsite.

Solaris Vega and Feng Jing finally distributed the traps equally into four parts. Now they only need to plant it around the camp for their group safety. Vega had opened his communicator and showed his leader the planned locations for his traps.

"Lead--- I mean... Lord Jing, I will do the work on the north, south, and west side. I have two support mecha to help me with planting. I plan to send them to the north and south while I go to the west side. Please take the east side, Lord Jing." said Solaris Vega while still a bit shy around Feng Jing.

Feng Jing smiled as always and said, "Okay, leave it to me!"

"Please be careful!" said Solaris Vega.

The two had split and temporarily left the camp unattended but they didn't move away from their camp too far. Just a few meters away from it where they would be placing the traps to create a defensive formation around the place they could rest. Feng Jing took the traps designed to be placed in the area he is supposed to go to. Under the surveillance of the cameras from those who were monitoring them from space, Feng Jing acted like an ordinary person without special abilities. Except for his bloodline skills like rebirth and ability to control fire and ice energy, Feng Jing walks languidly while acting, he is a waste with a physique of F level.

By the time he arrived at the east side, Feng Jing was already out of breath and decided to sit down. He looks around and sees that there is no clean rock around him as he is surrounded by weeds and trees. He could only pull a picnic mat from his space button before sitting down while out of breath. Those who didn't know his condition would think that he really is a useless person with the weakest potential.

On the other hand in his mind, he is mentally controlling the subsystem his System Yue had left for him. For a god-level hacker like from the highest realm hacking into the surveillance of all warships he targeted wouldn't be able to know what he is doing. Of course, he only bugged those screens that aren't allied with his family and only their personal perspective on him is affected.

[Host, the monitoring system of the warship under the White Tiger, Black Star, Azure Drake, and Black Turtle had been given edited feeds in accordance to what the host wanted to show them. Only the ship under the Sword and Roses, Fire Phoenix and Fallen Gods receive the real live stream of the host's perspective.]

With this everyone who was restricted to see the real feeds of Feng Jing's perspective received an edited version where they could only see how useless Feng Jing is. Those who aren't can see what Feng Jing is really doing. Of course, this only works when he is alone. If he is together with another person in a frame this restriction will no longer work. Well, he only needs to do something when he is alone anyway. Moreover, other things can be done secretly.

### **Chapter 302: 8.29 First Blue Star - My lord, Please wake up!**

With an amused smile on his face, Feng Jing stood up from his mat and controlled all the traps with his spiritual energy making it float. He made sure to position every trap according to the plan Solaris Vega had shown him. This scene was witnessed by those on his side, especially his family members.

In his mind, he commanded the subsystem with him, "Send a message to those unaffected by the virus I made that only they have the real perspective of my side."

[Affirmative, Host!]

On the other hand, reactions from the Outer Space.

From the side of his elder sister and brother-in-law.

Feng Yue, "My~ our little brother has gotten stronger once again!"

"Um~ instead of saying he got stronger it is better to say that he got tired enough of playing the role of someone silly and started another round of game where he acts like a sheep to eat a tiger," said Regulus Zenith as he could see Feng Jing smiling joyously. He had already received the message from him about their feed being unrestricted unlike those from the Navi Clan and other unallied groups from their side.

Feng Yue hugged her husband and said, "Isn't it fine as long as our little darling is happy?"

"That's also true. Moreover, there is Sirius to help him clean up," said Regulus Zenith while smiling as he hugs back his wife.

Surrounding them are knights who don't know whether they should cover their eyes or just pretend to be blind. Imaginary tears continue to flow out from their eyes. It is really hard to be a single dog in the presence of a dog food-feeding couple.

At the battleship of the Fallen God Corps.

There is silence in the monitoring room. They were all staring at the magical scene of their future madam playing around with his spiritual energy like it's easy breathing. Among the soldiers in the Federation, only their Marshal could control such an amount of energy.

Everyone in this Empire calls the energy around them as spiritual qi as it could only be controlled by the mind. It takes compatibility to control it and mostly only those who awakened as guides can touch the threshold for such skill. Unless you are monstrous enough like Marshal Sirius you wouldn't be able to control it. After all that spiritual energy, they are talking about is something no ordinary human could control. It is the divine energy from heaven and earth. The world energy that keeps a star alive.

For an outsider like Feng Jing and the rest like him who are from a higher realm, these kinds of things can be done as easily as breathing. As for why the Marshal could do so as well is because he is originally a soul fragment from a higher world like Feng Jing. This is why their potentials remain immeasurable by this world's boundaries.

Seeing countless traps flew around in thin air. Move on its own and watch it bury itself to the ground, all soldiers thought they were dreaming at this moment. But sadly this is a reality that isn't like theirs. This time even Xue Ying who stood beside the marshal is stunned to the point of being speechless while staring at his cousin figure in disbelief.

Reactions from the intelligence division of Fallen Gods Corps.

"This... Is this mental energy?"

"Look! The madam is even lying down on his picnic mat while eating!"

"He could control his mental energy by focusing on it!?"

"So amazing~ Is this what an SSS rank Guide could do?"

"Stupid! Only madam and the marshal could do such a thing? I don't think that the other SSS rank awakened ones would be able to control that much mental energy!"

At the center, Lieutenant General Xue Ying is dumbfounded enough that he starts shaking his boss in disbelief. He had become braver knowing that this Marshal would become their family member in the future.

"Boss... BOSS! Am I seeing things!? Is Xiao Jing really doing those? Controlling all those! Even for you controlling things is limited!? How can Xiao Jing..." exclaimed Xue Ying.

The Marshal had glared at this panicking person who dared to shake him but knowing that Xue Ying, his future mate's cousin, didn't dare to hit him. He shook his shoulders to force the fool to let go.

Marshal Sirius spoke, "Think properly, you fool. Jing'er is a Guide at the same rank as I am. A guide's specialty is Mental Energy. It is normal that he is stronger than me when it comes to spirit attacks."

"Oh~ that's right. Moreover, as a descendant of the Phoenix Family, he should already possess enough battle experience," mumbled Xue Ying.

A proud smirk appeared on his boss's face while looking at him, "While I'm staying at the Feng Mansion, I sparred with Jing'er almost every day. Xue Ying, Jing'er is stronger than you. I can say this without being biased." said Marshal Sirius.

Xue Ying hmped and said, "For real!? Then why didn't you just directly pull Xiao Jing over on our side? What would happen if he got stolen by the other unit!" He complained.

"I also asked him about that but... he said that a team had already been made using his name. If he suddenly pulled out from this competition those little ones in his group would definitely lose their chance to join the unit they've been dreaming of joining." replied the Marshal.

Lieutenant General Xue Ying upon remembering the good kinds from his cousin's team identified that most of them are from a common background. Unless they were brought to the spotlight none of those Major General Units and above will care for them.

Xue Ying murmured, "That is also true. Most of them wanted to at least join the Fire Phoenix Brigade. Our Corps requirements are at least A rank. Han Ling and Qu Yul would barely be accepted but their partners are."

"If Jing'er joins our Corps, I plan to give him an independent group. Those children would be joining his team when the time comes. A'Yang had also agreed to this. Except for Bai Yuyan who will be joining him, the rest could go to us." said the Marshal.

"Boss, wouldn't our soldiers think this is unfair to them?" asked Xue Ying.

Marshal Sirius responded, "They won't think so. After all, with Jing'er joining the Corps, he is willing to give us the exercise to increase mental energy."

"An exercise to increase mental energy!!!?" exclaimed the Marshal.

Lieutenant General Xue Ying's voice was so loud that everyone had heard what he said before the other could even react. The whole room is now full of loud excited voices. It was at this point that the stern Marshal could no longer hold back his anger and spread his overbearing pheromones that were enough to force everyone to shut up. Everyone inside the monitoring felt that something was choking them.

Marshal spoke, "You have forgotten what discipline is. All of you go to the training hall and do the usual training 3 times. Xue Ying, you will go as well." His cold and menacing voice can be heard echoing inside the room. Everyone forced themselves to move under that heavy pressure and saluted at their Marshal.

"Affirmative, Marshal!" Then they all run out of the room in an ordered manner to do their punishment.

As soon as everyone else left the monitoring only Marshal Sirius was left behind to watch over. Now that he is alone he called for System Yue to materialize on the top of his right palm.

"Yue, come."

A small full moon landed glowing on the palm of the Marshal. His expressions turned serious at this moment.

[You call, My Lord.]

"Can you investigate what Marshal Janus is now doing?" asked Marshal Sirius.

[I can. If my lord wanted to see it live. I could also hack on his surveillance cameras, communicator, and light brain without the target noticing.]

Marshal Sirius asked, "What are the other things you can do?"

[I can do almost anything related to Star Network. Even hacking it for full control is not a problem but...]

"But what?"

[Star Network has already been fully hacked by my host, Feng Jing, and everything in the Star Network domain core database needs his permission to do so.]

"When did Jing'er do this?" asked Altair Sirius in shock.

[He used his light brain to get into the Star Network and took over it just a few hours ago. I've also received a message from my subsystem that I've left with my host that he had sent a virus to his enemy's control center. The unaffected ones were only this ship, his brother's and his sister's. His real perspective can only be seen in these three ships. The others could only see an edited version where the host is acting useless.]

Marshal Sirius spoke, "Only three ships could see him playing around with traps right now?"  
movelusb.com

[Yes. But this is only applicable when he is alone, together in group/s the virus would be asleep.]

"No wonder he is like this right now." murmured the Marshal. "Anyway, show me the current situation on Marshal Janus's side. You can use this ship monitoring to show me on the widescreen."

[Affirmative.]

System Yue did his task and entered the Star Network. His invasion in the core was reported to Feng Jing's subsystem and he was given administrative control in the Star Network as he does. On the monitoring screen in front of Marshal Sirius, a series of live broadcasts from Marshal Janus's side is being played. Marshal Sirius scrutinizes everything from his seat with a serious gaze as he watches what his enemy is doing at this moment.

Meanwhile, back to Planet Citlali.

Feng Jing had finished laying the traps on the east side but he took his time having his own picnic alone in the middle of the forest. From his dimensional space on his earring, he pulled out a tray of cakes and drinks to enjoy his own after-meal tea. He is now talking to Feng Wu about the group that was with them. Feng Jing upon learning the situation of the other group had immediately agreed to let the team meet him. Of course, the current situation of their team was secretly informed to them as well.

Like the fact that the real leader of the team is Feng Jing, that the latter despite failing to awaken had become an SSS potential ordinary person and that the leader won't be making any move unless any of their lives were in danger. Qu Yeon and the rest had no problem with it but the fact that Feng Jing had the potential of SSS is a bit unbelievable. At least the twins don't believe it at all.

Since the group had come out from the east side of the forest, they've bumped on Feng Jing who just finished his tea. He is now napping at his picnic map when Feng Wu and the rest spotted him under some tree.

Tang Yi said, "Hey! Isn't that your bo--... I mean teammate!"

"He is really sleeping," said Tang San as he approached Feng Jing intending to shake him awake. "Oi~ wake up~."

"Xiao San, wake him up gently~," said Tang Yi.

Qu Yul and Wu Liu panicked for a moment when they saw the twin approaching their sleeping leader. Everyone from the team knew that their leader's mood was the grumpiest when he was awakened while sleeping. These two weren't informed about it and would definitely suffer from it.

"Ah! Stop!" shouted Qu Yul and Wu Liu.

It was the twins who were the nearest to the sleeping Feng Jing who tried to wake him up. It was already too late as Tang Yi and Tang San were already about to touch Feng Jing. Before their fingers could even land on Feng Jing's skin their wrist was grabbed and thrown over. The twins reacted in that split second but before they could even land their feet on the ground the back of their knees were kicked and their arms were held with one grip and their heads were about to bash on the ground with enough strength to crack their skulls.

The thoughts of the twins that time was: 'Am I going to die?'

"My lord, please wake up!" shouted Feng Wu.

Once Feng Jing heard his aide's voice, he immediately woke up in that second and his instinctive defense actions just now had halted. Between the heads of the twins and the ground is only an inch space.

Feeling that he is holding something in his hands Feng Jing freed the twin with a bewildered expression on his face. When he saw Tang Yi and Tang San unmoving on the ground, Feng Jing's face showed panic.

Feng Jing asked, "Are you okay? Sorry, my body is trained to move on its own if someone attacks me in my sleep. Please forgive me."

Stuttering, "I-It's okay. I-It's okay, N-No problem," said Tang San while stepping away while holding his dislocated left arm.

Tang Yi grits his teeth as he pulls and pushes back his arm to its original state. He then observes Feng Jing seriously to see if he did that on purpose but except for a bit of embarrassment there is only guilt imprinted on his face. It seems that what happened is indeed an action done instinctively.

Tang Yi said, "I'm also okay. It was our fault. We shouldn't have woken you up like that."

The twins smiled as they accepted his apology while backing away from him.

Feng Wu walked towards his lord and bowed his head in greetings.

"My Lord we have returned. These men were the students who were used as a decoy by the young master from the Sidra Clan," reported Feng Wu.

Feng Jing said, "The Sidra Clan had done bad. We will report a complaint about this." Seeing the unconscious student on the back of Qu Yul and Wu Liu as well in the arm of this senior student who looks like Qu Yul. "There are unconscious ones. Let's head back to the camp first and take a rest."

"As you wish. My Lord, I had also informed the rest of our team about this situation. They said they will agree to anything the Lord desires. This team is after all under your name." said Feng Wu.

Qu Yeon approached Feng Jing with his guide in his arms.

"Young Lord Feng Jing. I am the leader of this team, Qu Yeon. Qu Yul's elder brother."

"Qu Yeon? I think I heard this name before," murmured Feng Jing.

It was Qu Yul who helped him recall his brother's name. "Lord Jing, he is my brother whom you helped before. You have provided him with a high-class healing pod to heal his legs."

"Right! That was you. Have your legs fully healed to enter this competition, Senior?" asked Feng Jing worriedly.

Qu Yeon smiled and responded, "Please don't worry, Young Lord. My legs are now completely healed thanks to your help. This Qu Yeon is forever grateful for your assistance."

"No. It was thanks to your brother. Qu Yul had helped once in exchange for that treatment. It is more like a business deal. Keep your heart at ease. For now, let's change the location and allow your unconscious members to take a rest." said Feng Jing.

With this conversation put to an end, Feng Jing and the rest had returned to the camp for now.

**Chapter 303: 8.30 First Blue Star - Merge I**

While Feng Jing and the rest had returned to the camp. The other two teams were already informed about the situation on the other side and decided to continue their tasks for that day. There is no problem with the team led by Bai Yuyan. With the three of them working together Bai Yuyan, Han Ling, and Si Shen, they've almost searched half the west side forest and only stop when their hands and space button lent to them by Lin Yven were full.

There are still a few more 3 more hours before sunset but since their inventory is full they could only return to their camp early.

Han Ling, who is covered in the blood of the beasts. As a berserker-type warrior, Han Ling never cared about himself being covered in blood.

"Ah~ only this much. There is still another pack of hyenas not far from here~" said Han Ling.

Si Shen chuckles as he helps his sentinel treat his scratches. "Hehe~ there is nothing we can do. Our inventory space is limited. Even though we had dismantled it on the spot. With 6 mutated bears, 3 mutated tigers, and a pack of mutated wild boars are enough to fill the space warehouse Xiao Yven had lent to us. Well with its size double than it supposed to be then I guess it is normal."

Han Ling asked, "What should we do next, Yuyan?"

"For now, let's head back. You've seen from the message sent by Yul?" said Bai Yuyan.

Si Shen spoke, "Yes! It seems Yeon-ge's team is joining our group!"

"Yeon-ge? You don't mean dage don't you? I heard they've allied themselves with some noble son's team though." said Han Ling with a confused expression on his face.

Bai Yuyan and Si Shen looked at him slightly bewildered as well. Han Ling is totally on a different page from the two of them. Han Ling saw his friend and lover's expression and explained what he knew.

Han Ling explained his side, "Didn't dage's team allied themselves with some noble son called Sidra? As soon as he landed in this star we haven't received any contact with dage. Why are you two saying his team would be joining us?"

After hearing Han Ling's explanation, the two finally realized what was wrong. Bai Yuyan covered his face and sigh while Si Shen was blushing from the embarrassment that his lover was being silly as always.

Si Shen said, "Have you checked through your communicator's inbox!?"

"No. I put it on silent mode because I feared I might get disturbed during the fight." honestly answered Han Ling.

Si Shen scolded him, "You! At least put it on vibrate mode. What would you do if the message sent is an emergency letter."

"Sorry ba~," said Han Ling.

Bai Yuyan had no other choice but to explain the situation to Han Ling.

"The situation ended up with Senior Qu Yeon's team being used by Young Master Sidra as decoys to escape the wolf pack they've bothered. They almost died, thankfully A'Wu and they were near the area and were able to help them escape the predicament," said Bai Yuyan.

Han Ling was in rage knowing that his friend's brother's group was treated like that by someone of noble standing.

"I can't believe those bastards! Aren't they nobles, how come they treat us commoners like that!? Only Lord Jing is different from the rest. He had never treated us differently like those other noble descendants!" said Han Ling.

Si Shen, "Lord Jing is a Feng. It is normal that he is different from others. The Feng Family had always been amiable towards those with a common background. They were liked by both commoners and nobles except for those conceited ones."

"Since the situation is already like this. Let's go back early today. With Seniors helping us hunt for tomorrow, we should be able to gather enough resources as fast as we can." said Bai Yuyan.

Han Ling, "Ka! I wish Xue Ran and Yven would be able to gather enough inventory items for the task. That way we won't have to stop like today whenever our inventory has been filled."

"Hm~ I'm more worried about Wen-ge and Lou-ge. The message said they were attacked mentally during their escape by Sidra's team guides," said Si Shen.

Bai Yuyan spoke, "They should be alright now. Xiao Jing is at the camp after all."

"Right! If it's Lord Jing things would be alright no matter what situation it is," said Han Ling.

Si Shen was finally relieved upon remembering that god-like person like their leader. With Feng Jing waiting at the camp, those who were injured should be okay. Moreover, their leader had brought varying kinds of concoctions that would help them. Some of those should be useful for those with injured soul domain. With that in their minds, these hunting groups decided to return back to their base.

---

Somewhere in the outer region.

The team lead by Navi Nash had started ordering his team to secretly plunder some other teams who had gathered enough resources to accumulate their own. They had also found some inventory items from some cave and their resources count is increasing at a very fast pace. Thanks to their group tyranny, lots of small groups who had no connection to the Navi Clan had been disqualified after losing the team battle against this team.

The leader of this team is Regulus Rigel but the one who was commanding is Navi Naja. Prince Rigel spoils Navi Naja because he is the only son of Princess Aurora, Prince Rigel's aunt. The one sister of Prince Regulus Aera. The father and son spoil this princess quite a lot and thus spoil her only son the same way. In short, they are very biased towards Princess Aurora's bloodline.

At their camp far in the East.

"Brother! I heard those commoners from the Senior Division were used by Sidra and his group as decoys. I wonder if they are dead now. The leader of that group is the elder brother of Qu Yul from that bastard's team." said Navi Naja with a smile on his face.

Prince Rigel allows his cousin to call their imperial uncle anything he wants as long as Feng Jing is not really in front of them.

He replied, "As long as no one helped them, those wolves should have eaten them all." said the prince.

"Hahaha~ It wouldn't be better if Feng Jing was the one eaten. He made Navi Nash an idiot just because he attacked him? He should have just given his head to him to be kicked like a ball." said Navi Naja while laughing.

Prince Rigel looks at his cousin with a helpless smile. "Xiao Na, what are your plans for marriage? You are an SS+ Guide with royal family blood. Do you have anyone on your mind?"

Navi Naja had blushed upon being asked by his elder cousin's brother about a topic like this. Though SS ranked guides aren't thoroughly rare, for someone like him who possesses the peak strength of an SS rank Guide he could be considered one of the few who could reach the level of SSS.

"This... brother, who do you think should I choose? Mother says that I can choose anyone in the noble society but I don't know who to choose," said Navi Naja with a crimson face and shy expression.

Navi Naja's features were refined to the point of being called an otherworldly beauty like Feng Jing. But since he got the emerald gold eyes from his mother's side which shows that he indeed possesses the blood of the Regulus Clan. The quantum beast of the regulus family is a lion. Since Navi Naja had awakened as a guide, his lion became a lioness.

Prince Rigel spoke, "As long as it wasn't someone from Feng, Xue, and Altair Clan, you are free to choose anyone. No one would dare to reject an SS+ guide as you do. How about someone from the Janus Clan or the Lin Clan? Janus Clan had a dragon bloodline like the Altair family though it wasn't a king's bloodline, they are still stronger than the other clans. The Lin Clan... Well~ they are the tiger family, mixing our lion bloodline with the tiger bloodline might result in a Liger or a Tigon if we are lucky."

[Note: All Hybrid beasts were all SSS ranked quantum beasts. Only one with a king bloodline like the Altair family allows any descendant to have SSS rank potential. Sadly, the Altair Family only married for love and never for power. They are a bit like the Feng Clan in this case.]

Hearing that he couldn't marry in the Altair Family made Navi Naja sad. He has always admired Marshal Sirius, this undeniable king like the rest of the masses. Not only is he the youngest marshal in the Federation, but he is also the strongest sentinel in the history of the Interstellar Federation.

Navi Naja asked, "Brother, why couldn't I choose Marshal Altair as my betrothed?"

"This... The Altair Family is never the type to welcome blind dates. This is because they only get married for love. As long as Marshal Altair didn't choose you, there is no way you can enter the Altair family. It's been thirty years but Altair Sirius still hasn't found the love of his life. Moreover, those who tested their compatibility with the Marshal only resulted in 0 percent."

"Zero compatibility with anyone?" asked Navi Naja, surprised.

Prince Rigel replied, "Yes. Almost all the guides in the noble society had received such results. My sister also tried it but... the end is also the same. Do you wish to try it too, Xiao Na?"

"M-Maybe... after the competition," said Navi Naja as he once again remembered the hateful face of his imperial uncle. "H-How about someone from the Feng? No one tried from their clan?" he asked.

"The Phoenix Clan ha? No... most of their descendants ended up being Sentinel. Even the Imperial Uncle, the one who was said to awaken as a guide, failed and became an ordinary person. No one from the Feng Clan is able to test their compatibility with Marshal Altair." said Prince Rigel.

Hearing this Navi Naja's expression glowed and said, "Brother! I want to test my compatibility with Marshal Altair!"

"Okay. I will arrange things for you after this event," said Prince Rigel.

A huge smile appeared on Navi Naja's face, he heard the rumors that Feng Jing admires Marshal Altair the most even more than his elder brother. If he was able to get a compatibility result greater than the others, those old men in the Federation would most likely push me into pairing with Marshal Altair as long as the result is satisfactory.

Navi Naja mumbled, "As long as I get a result above zero Marshal Altair should consider me right?" There's a haughty smile on his face. He really doesn't possess a divine appeal but his features were enough to call him a noble beauty.

---

When Bai Yuyan, Han Ling, and Si Shen had returned to the camp. They were surprised to see everyone was already there including Xue Ran and Lin Yven.? Feng Jing is inside the tent treating the unconscious Shi Wen and Shi Lou. Even though Feng Wu already checked on their situation, he isn't unlike his lord who could enter anyone's soul domain even without permission. He only stays in the same tent as a cover for the treatment of the Shi Brothers. After all, Feng Jing is supposed to be a waste who failed to awaken as a guide and just an ordinary person with E rank trash potential.

Bai Yuyan said, "Oh~ Everyone is already here."

"Un! How was your hunting quota?" asked Lin Yven with his hands reaching out in front of Bai Yuyan. He is obviously asking for the space warehouse he had lent to this team. He already took back the ones from Feng Wu's possession.

"Here! It's completely filled up," said Bai Yuyan.

Si Shen butts in and says, "Next time please give us a bigger inventory. A'Ling is complaining that we had to return soon because there is no longer extra space in the warehouse."

Xue Ran said, "We found a lot of inventory items. Tomorrow each member would be given one for personal use and each team with a bigger space warehouse at least."

"You've found a lot?" asked Bai Yuyan.

Lin Yven spoke, "We've every cave in the north side forest. It was enough for the planned resources we need to gather. But since our team has gotten bigger, I need to once again adjust the quota everyone needs to fulfill."

"Don't hold back with the hunting and gathering tasks. We will help with everything now that our team has merged together," said Qu Yeon.

Tang Yi and Tang San spoke, "That's right. You can give us any order. Since Lord Jing had approved of us, we are going to be teammates as well."

Bai Yuyan said, "Then who is the leader?"

"The whole team leader is still Lord Jing since he is the named leader of your team. We had no problems in receiving orders as long as he approved it," said Tang Si who finally woke up after a few hours of sleep. Among the unconscious ones, his state is only due to fatigue. [movelusb.com](http://movelusb.com)

Bai Yuyan responded with a grin, "Then that's good." He has no problem as long as Feng Jing's standing as the leader remains.

#### **Chapter 304: 8.31 First Blue Star - Merge II**

Next Morning.

Everyone had made their stomach full with the breakfast made by the support team. It was decided that Feng Jing, Feng Wu, Solaris Vega, and Lin Yven are to stay in the camp with Tang Si and the two unconscious teammates, Shen Wen and Shen Lou, who are expected to wake up today. Just in case the Shi brothers woke up, Tang Si stayed to help the other to explain the situation to them.

Everyone agreed to that without any problems. Since they had enough inventory items, they would all focus on hunting and gathering resources. Once they've completed their quota, they should be able to enter the middle region a day earlier. Moreover, since Feng Wu is staying to continue observing the two patients his leadership position was passed to Qu Yeon.

Team 1: Qu Yeon, Tang Yi and Tang San.

Team 2: Bai Yuyan, Han Ling and Si Shen.

Team 3: Xue Ran, Qu Yul and Wu Liu.

The team lead by Qu Yeon would head to the north side of the forest. Xue Ran and his team to the east and Bai Yuyan together with his team to the west then to the south. Lin Yven and Solaris Vega made use to restock their weapon inventories and gears. This is because Feng Wu and his team used up all their traps and grenades to save Qu Yeon's teams. Thankfully, Xue Ran and Lin Yven also brought back some metals and energy resources for Solaris Vega to play with.

Now even if Solaris Vega was asked to stay in the camp, he would be busy with creating more inventions that would be useful for the journey in the middle and central region. As soon as the hunting teams left, he had locked himself in his tent. Sounds of tinkering metals here and there can be heard from the inside of the tent

Feng Wu cleaned up the leftover plates and utensils at the river with Tang Si while Feng Jing looked after the patients in the medic tent. At first, there was only silence between the two. Feng Wu's character had never been the type to start talking unless necessary. Yun Ming who took over this body isn't much of a talker as well. This kind of awkwardness between the two had continued until Tang Si spoke first.

Tang Si said, "Excuse me but can I ask you something? Feng Wu was it?"

"Go ahead and ask," said Feng Wu.

"Okay don't mind if I do but since there are invisible surveillance drones I will only whisper it." said Tang Si as lowered his voice and whispered, "Why is Lord Jing trying to hide the fact that he is a guide?"

Once this question came out of Tang Si's mouth, Feng Wu stared at Tang Si vigilantly and grabbed the senior collar, and glared at him. He asked in an undertone voice, "How did you know? Are you a spy? Which Clan?"

Tang Si didn't struggle much when Feng Wu grabbed his collar. He knew why Feng Wu was acting like this. Everyone in the Interstellar Oberion Empire only knew that Feng Jing, the youngest phoenix of the Feng Clan, failed to awaken as a guide but here Tang Si asked why Feng Jing is hiding the fact that he is a guide. In short, Tang Si is confident that Feng Jing is an awakened one.

"Please calm down. I only knew because of my quantum beast special skill. It's an Elf Owl which allows me to see someone's aura. Only those who aren't awakened don't have an aura. Sentinels have a grey aura the darker it is the stronger they are. Guides possess white the more silver shade it is the stronger a guide is. Lord Jing's aura is a beautiful silver tainted with black. Obviously, he is a high-ranked guide with a temporary mark from a high-ranked sentinel." answered Tang Si with an undertone voice.

Feng Wu let go of his collar when he heard about that. Tang Si was left in a coughing fit as soon as the latter had let go of him.

Cough! Cough! Cough!

"I'm sorry. But you have to come with me to meet the lord. You should explain your side to him." said Feng Wu.

With some tears in the corner of Tang Si's eyes, he nodded his head reluctantly. Tang Si knew how serious the situation is now that the Feng Family knew about his special ability but he is willing to take the risk. Only by making himself special than the rest would allow him and his partner to serve Feng Jing more seriously.

Tang Si responded, "I understand."

With Feng Wu in lead, Tang Si followed him in the Main tent where Feng Jing is spending his time hacking the Federation's database with his light brain. He was a bit surprised when Feng Wu brought someone over when he told him to not let anyone inside. If Feng Wu brought Tang Si over means there is something surprising about this person.

Feng Jing spotted his work for a moment and smiled at the two who entered his tent.

"What's wrong, A'Wu?" he asked.

Feng Wu went down on one knee and pulled Tang Si over as well.

"Reporting. Tang Si knew about my lord's awakening. According to him, his quantum beast, an Elf Owl, was able to distinguish awakened ones from those who weren't."

There were no changes in Feng Jing's expression when he heard that report. Instead, his line of sight moved from Feng Wu to Tang Si who quickly followed his example and fell on one knee in front of his lord.

Tang Si spoke, "Greetings to Lord Feng. I am Tang Si. The youngest of the Tang Family. We are a small family with a common background and we are connected by marriage with the Qu Family. The relation between the feline family and bird family between us two clans are closely related."

"Bird-shaped Quantum beast? Are there a lot of people of your kind who possess special skills as you do?" asked Feng Jing.

Tang Si answered honestly, "All guides in our clan are able to see auras like I do while the sentinels in our side are able to use a skill called a fly, this allows them to float in the air at any time."

move1usb.com

"Um. Not bad what about the Qu Family explained this clan characteristic to me. Then I will decide whether to accept your family's alliance to my Feng Family." said Feng Jing.

Tang Si was a bit excited about getting this kind of priority. Knowing that Feng Jing is a high-ranked guide even stronger than he is. He happily told Feng Jing all the advantages of the Tang and Qu Clan to Feng Jing. Feng Wu stood beside his lord and recorded everything Tang Si had said. This will be sent to the elders of the Feng Clan with a signature from his lord, Feng Jing.

After everything was sent to Feng Jing's grandfathers, the elders would decide where to place these two families in their family.

Feng Jing said, "I have reported what you've told me to my grandfathers. They would run another background check on the Tang and Qu Clan. If everything goes unhindered your families would be allied to our Feng Clan. Is this enough for you, Senior Tang?"

There is a friendly smile on his ethereal face but Tang Si knew that this face is only friendly but only in a business manner. Feng Jing is unlike the other descendants of the Phoenix Family. He would soon be married outside like the eldest miss, Feng Yue who had married the Crowned Prince which means he would be outside the Feng Clan but still connected to it by blood.

Tang Si's thoughts, 'There is no need for me to personally serve Lord Jing. Qu Yul and Wu Liu would do it for the clan. I shouldn't get too greedy. It is enough that he is willing to let us in his clan as an allied family.'

"There is nothing else Lord Feng," said Tang Si.

Feng Jing, "I see. You may return to your tasks. After you finish all your tasks you should stay at the medic tent. I've healed most of their injuries. The rest can be healed on its own. They would be waking up soon. It's better that they see you as they open their eyes to avoid them panicking in an unknown place."

Tang Si bowed his head, "Thanks, Lord Feng."

"You may call me Jing as well as the rest of the team," said Feng Jing before sending the two out of his tent and resumed his work in Star Network.

A smile appeared on Tang Si's face and said, "As you wish, Lord Jing." he responded before leaving the tent.

The only ones left in the tent are Feng Jing and Feng Wu.

Feng Jing says, "A'Ming, I found someone that is possibly the vessel of Warden Lou."

"Can you please who it is, Lord Hei?" asked Feng Wu.

An entertained smile appeared in the corner of his lord's lips and his eyes turned a bit playful. "Major General Drake. The protagonist gong in this world," said Feng Jing.

Feng Wu with a straight face mumbled, "That useless shit is the male lead again!? What the hell is he doing?"

"Pfft! I will leave him to you," said Feng Jing while trying to hold back his laughter. "Since your role is to serve me, you following him will see as you are following my orders to repel our enemy."

Feng Wu bowed his head and said, "Please leave it to me, Lord Hei. Excuse for now."

"Go ahead."

Only with that permission did Feng Wu leave the tent of his lord to throw a tantrum at some corner. This is the second time Warden Lou had the vessel of the protagonist gong. But unlike the first one which he ended up being in a harem world, in this world he is the sole protagonist gong. In short, he will still have to follow his script to woo Bai Yuyan. At least he needs to act like he is interested in the protagonist shou or he would be killed by this world energy. That's why Feng Jing wanted to laugh too much. Because in this world the warden and his prisoner have to act as antagonists against each other. Well unless Major General Drake changes sides and acts as Marshal Sirius's double agent.

---

Azure Drake's Battleship.

Office of the General.

AAACHOOO!!

Swoosh~

Major General Drake who is buried in paper works suddenly sneezes blowing away the few piles of papers in front of him. His subordinates were running around in his office to catch all the flying papers and once again organize them. Colonel Drake Shiva, Major General Drake Ares's right-hand man approached his boss with a tissue box in his hand.

"Tsk! Who the hell is saying bad things behind this lord's back!" mumbled Drake Ares.

Major General Drake took some and gave his thanks to his subordinate.

"Boss, if you are trying to act sick to escape work it won't be useful!" said Drake Shiva whose eyes had black bags under them. Like the Major General, most of his men were busy with work. This is because Drake Ares suddenly says he wanted to resign as a Major General. The Drake Clan had to pour lots of work for him to remove the nonsense thoughts in his mind.

General Drake spoke, "I want to go to the monitoring room."

"No! You promise to work for three days. The General can only watch when the participants have reached the fourth day!" said Colonel Shiva.

General Drake compromised, "Let me out as soon as some participants enter the? Middle region of the Star."

Colonel Shiva thought about it for a while and thinks that no one in the competition is monstrous enough to move to pass the event's rule and enter the second stage early.

"Okay. I will let you go to the monitoring room if a team successfully passes the checkpoint for it," said Colonel Shiva.

The general suddenly issued a command. "Good. Someone be sure to remind the ones in the monitoring room. You must report to me as soon as a team enters the middle region successfully."

The soldiers in the room saluted and collectively responded, "Yes, General Drake!"

What the colonel didn't know was that some monstrous group had indeed existed. They completely accumulated enough resources in just a day and entered the middle region on the third day.

### **Chapter 305: 8.32 First Blue Star - The Secret of the Deserted Area.**

Second Day.

The sun was about to set and all the hunting teams that had split up to collect resources had finally returned to the camp one by one. By the time the rest of the team had come back, Lin Yven, Tang Si, and Feng Wu had finished preparing their dinner. Feng Jing is seated near the bonfire roasting some cheese and marshmallows he took from his dimensional space. Sitting beside him are the Shi brothers who are helping watch over the rest of his snacks. They were extremely thankful when they heard that Feng Jing had saved them.

Shi Wen, Shi Lou, and Wu Liu were adopted orphans the Tang Clan had brought over since they were children. They grew up as people who are to serve the descendants of the same age from the Tang Clan. They work as aides. The Han Family is connected by marriage. In short, Han Ling and Qu Yul are cousins. Si Shen is their childhood friend.

After successfully reporting the result of their tasks and passing their inventory warehouses to the logistic officers, they sat near the bonfire and ate snacks with the other three who had longed to wait for their return with the rest of the group. The proper business would be done after dinner.

As the night fell, the whole team enjoyed the feast Feng Jing ordered to be made. The three members who were assigned to cooking worked together to complete the feast their leader had tasked them to do. They've started a party mode during dinner and Feng Jing even allowed them to drink some beer.

When the mealtime was over, everyone gathered around and let Feng Jing speak.

"We had collected enough resources to enter the middle region. I wonder if you guys are ready. In the middle region, there would only be a high-ranked mutated beast and low to mid-level Zergs. All ordinary people in our team would use the support mecha." said Feng Jing.

All ordinary people in their teams all agreed to his idea. "Yes, leader."

Feng Jing spoke, "Ai~ even though you call me the leader I wouldn't be the one commanding for tomorrow ba~"

Support Mecha is a human-sized mecha armor that gives protection from all angles. It allows one to increase someone's defense and offense capabilities. At the very least it allows an ordinary human to possess defense and attack levels the same as that of an awakened one.

"The command for our whole journey in the middle region will revolve around? Senior Yeon, A'Yu, and Xue Ran," said Feng Jing. "You three should arrange the command core by yourself."

Bai Yuyan asked, "How about A'Wu?"

"A'Wu won't be leading. He would need to protect me, after all, ~" said Feng Jing.

Everyone's mouth twitches when they've heard about that. They knew that their leader really wanted to act like a salted fish all the way until the end of the competition. After all, the only reason he entered this event is to earn the championship rewards and give them the spotlight to attract some eyes on them.

"Tomorrow, we will move as a unit. Tonight I slept well. I will guard the camp tonight. Of course with A'Wu~" said Feng Jing.

Knowing that the strongest among them is guarding the camp tonight, those who accumulated fatigue from two days hunting can finally have a good rest.

Solaris Vega raised his hand and said, "Me too. Leader, I want to stay awake tonight as well."

"Do you want to try your knee-made gadgets? I can accompany you, Xiao Vega,~" said Feng Jing.

"Un. Un." Vega nodded his head excitedly with a smile on his face.

Xue Ran suddenly spoke, "I want to abstain from my position as a leader. Please make me a regular member."

Everyone except Feng Jing was startled by Xue Ran's decision. Feng Jing's eyes narrow discreetly as he stares at Xue Ran with a smile but he says anything as he already knows the reason why.

The twins asked, "EH! Why Ranran!?"

Feng Jing said, "Let's talk about this tonight, Xue Ran."

Bowing his head in respect, Xue Ran replied, "As you wish, Lord Jing." [movelusb.com](http://movelusb.com)

"Since Senior Xue had declined the leader position, is there anyone who wishes to take his place?" asked Feng Jing.

When Feng Jing asked this question everyone's eyes from the Qu Yeon team had looked at Tang Yi. Clearly, in their team, the secondary command was from him.

Tang San said, "Elder Brother, how about you do it?"

"Big brother, we can't go to the middle region with only two leaders taking command. There is a risk of danger from all sides in that place," said Tang Si.

Shi Lou and Shi Wen raised their hands and said, "We vote for Tang Yi to take the free position."

"What are you guys doing? Stop! It is enough for our group to have the boss enter the command position. I can't take the young one's opportunities."

Seeing this Han Ling and the other had looked at each other and also raised their hands.

Han Ling, Si Shen, Qu Yul, and Wu Liu said, "We also like to vote for Senior Yi for the position."

Tang Yi said, "Brats stop it! This is an opportunity for you! Why are you giving it to me?"

"There is no need for our team to get this priority. As long as we win everyone would get that opportunity. Since our goal is to win. It is better to place the right people for the position. I also vote for Tang Yi to take my place in the lead for tomorrow." said Xue Ran.

Solaris Vega and Lin Yven, including Feng Wu, raised their hand in agreement. Seeing this Tang Yi was dumbfounded while Tang San, his twin, was delighted. With everyone's vote, Tang Yi had no other choice but to accept the position.

"Okay. The leaders for tomorrow will be Qu Yeon, Bai Yuyan, and Tang Yi. Please talk among yourselves who will be the Main Command and the two-second commands. After all the preparations for tomorrow are done, you can go to rest and take your sleep. Meeting adjourned!" said Feng Jing as he ended the meeting.

As soon as the meeting ended everyone did what they wanted to do. The Shi brothers were told to take a rest to get a perfect state for tomorrow. Tang Si and Tang San held their things. Qu Yeon, Bai Yuyan, and Tang Yi went to another corner to make plans for tomorrow. They need to talk about the formation of the team. Who will look to take the vanguard position, the sides, and the rear?

Meanwhile, Feng Jing was pulled over by Solaris Vega in his tent to explain the gadget he made all day. Feng Wu and Xue Ran followed after them. Han Ling and Qu Yul were laying on the ground resting as they hadn't fully digested their dinner yet. They overate like the twins. Lin Yven, Si Shen, and Wu Liu work together to clean up after eating. The rest of the evening was spent in leisure until everyone had fallen asleep except for the four who would be guarding tasks for that night.

The sky at this time is completely dark with few stars glowing in the sky. Feng Jing, Feng Wu, Solaris Vega, and Xue Ran were seated around the bonfire. They were waiting for everyone to activate the sound isolation device in each tent so everyone could sleep well tonight even if it is so noisy outside their tent.

Feng Jing asked, "They seem to be all asleep now and the sound insulation is working well. Should we go now, Xiao Vega?"

"Okay! Let's go to a deserted area. To test my devices." said Solaris Vega.

Xue Ran stood up and said, "I will accompany you."

Feng Jing and Solaris nodded their heads in agreement with Xue Ran's words.

"Then, I will protect the camp and spread a spiritual barrier while the lord is away," said Feng Wu.

Solaris Vega said while smiling, "We won't take too much time. 2 hours would do."

"You can take your time," said Feng Wu.

After gathering all the devices Solaris Vega is about to test, the three of them went to a ruined area within a few minutes. Vega had placed a portal to it yesterday when he was planting some traps around their camp. The location of the deserted area is quite far from their camp. At least 100 m away.

---

Deserted Area in Outer Region.

The area in this land is in ruins. Desserts are almost forming. The lack of water source caused the land drought to the point there are cracks on the surface. All the trees and plants withered in this place. There are even beast bones scattered around making the area look like the land of the dead.

Feng Jing looks around the area with his spirit energy. He was startled to see that the reason for this land to be in such a state is because of something no one would have expected. Under the drying land, Feng Jing could see few creatures that should only be found in the middle and central regions. There is a zerg nest under the land. Though they are only low leveled zergs, their numbers were quite a lot, few hundreds and so.

A playful smile appeared in the corner of his mouth which Xue Ran noticed. He knew that this young lord of the phoenix clan is unlike what the rumors had said. The silly and innocent Feng Jing everyone knows is not his real face. But Feng Jing who pointed him out as a spy is the real him, a mischievous yet cold person. He does whatever he wants and no one is able to move him unless it was his chosen partner.

Even among the Phoenix Clan, he is one that mustn't be moved unless you are prepared for death. Not only is he strong himself, but his other half is also even stronger than him. Moreover, the connections are wide and his intelligence is above normal as well. The type one shouldn't make an enemy no matter what reason.

Feng Jing said, "Xiao Vega~ the location you had chosen as a practice spot is amazing ba~"

"Yes~ In here even if we destroy the whole area it would be okay. My drone, which I released to check the whole region, spotted this. I've also tried sending some drones in the middle regions with the leader's program to update our map for tomorrow. Thankfully, it wasn't shot down because I covered it with paint with invisibility effects!" said Solaris Vega.

Feng Jing pats his head in praise, "Our Xiao Vega is so smart. Are there any explosives among the devices you wanted to test?"

"Hmm~ There are but... if we used it right away this place would be destroyed and my other devices cannot be tested," said Solaris Vega.

Feng Jing said, "Even if it is destroyed it's okay. We can test the rest of your device to the sea. I want to catch some seafood on the way~"

"C-Can you catch big fishes and octopuses?" asked Solaris Vega.

"Yes~, let's catch a lot then. Go get the explosives ready. Throw it at the location I will point out." said Feng Jing.

Solaris Vega nodded his head in agreement as he accepted his leader's decisions without any second thoughts. Only Xue Ran noticed that something must be wrong in this land for their leader to want to bomb it with explosives. He was staring at Feng Jing with a bit of worry in his eyes but the latter just grinned at him.

Feng Jing said, "You can see with your eyes what is wrong with this land. Go help Vega carry the explosion. I will point out where you guys should throw it. Don't worry~ I've already imprisoned this whole area with spiritual energy. None can escape from it."

"Okay," said Xue Ran with a confused expression on his face but he still helped Vega prepare the explosives they would be testing.

The low-level zerg nest under this plot of land was surrounded by Feng Jing's energy without them knowing. The whole nest was enclosed in a square-shaped energy barrier while locking everything inside.

Solaris Vega with a bright expression holding a notebook in his hands said, "Lord Jing, everything is ready. The ones in the first box had an explosive effect of 30 meters wide. The next one is 60 meters and the last one is 100 meters radius. Which should we try first?"

"Throw the first two boxes in the first half land in front of us and the last box in the center," said Feng Jing who is already holding 30 and 60 meters radius explosives in his hands. "I and Senior Xue would do the throwing. Xiao Vega should focus on recording the effects~" said Feng Jing.

Solaris Vega said, "Okay~"

### **Chapter 306: 8.33 First Blue Star - While testing our gadgets, we won a Jackpot!**

At the deserted area in the middle of the night.

Solaris Vega was standing in between Xue Ran and Feng Jing who were holding an explosive each in their hands.

Xue Ran, "Vega, we're starting."

"Un! I will observe seriously and take the records," said Solaris Vega.

Feng Jing, "By the way Xiao Vega no matter what appears, don't be scared and run out of nowhere okay? I and Senior Xue are here. Senior Ran would definitely protect us~"

"Yes!" responded Solaris Vega.

Xue Ran and Feng Jing started throwing explosives at the deserted area. Xue Ran only follows the direction of Feng Jing by launching his bombs. The stack power of the explosives was so strong that the land under it collapsed. Obviously, this area had hollowed underground channels. The sounds of bombs and insects shrieking can be heard echoing under the dark sky.

BOOOM! BAAANG! BOOOM!

KRRREEEK! KRRRIIEKK!!! KRRRIIEEE~

Xue Ran and Solaris Vega were stunned to see a low leveled ant-type zerg dying from the collapsed land. Some were buried under the ground due to the explosion and some parts of the zerg scattered on the ground with green blood.

"Wuwuwu~ What is that? Is that a Zerg!? But this outer region? Leader~" said Solaris Vega as he hugs Feng Jing's arm.

Xue Ran murmured, "There's a nest underground. What should we do now? Run?"

An amused smile appeared on Feng Jing's face but immediately covered it. "Let's try throwing every explosive in there. Maybe it would all die. Xiao Vega, did you bring spares in your inventory?" asked Feng Jing.

Solaris Vega nodded and with a wave of his hand a few more boxes of bombs appeared around the three of them. Everyone was surprised to see how many stocks of bombs this innocent bun had been hiding in his inventory.

"I-I only have this. 1/3 of it was already given to Yven-ge to control our team stocks. These are extras." said Solaris Vega.

Feng Jing and Xue Ran's thoughts, 'So~ These are spares huh?'

"Okay all the three of us are throwing everything in the box there. Maybe it would all kill the ant-type zergs," said Feng Jing.

The two who were with him nodded their heads and the three worked together to throw all the bombs to the nest and kill off the zergs. While the three were playing around with bombs and zergs, this scene was all witnessed by the soldiers observing from outer space. Those who are connected with the three who are at the scene started issuing orders to come over to that location and eliminate the zergs.

Outer Space Fleet outside Planet Citlali.

Fallen Gods Spaceship.

Xue Ying had a serious expression after seeing such a scene. He and the rest just came back from their training and their bodies were hurting all over. But the scene of Zergs appearing in the outer region made their faces dark.

Lieutenant General Xue Ying said, "A low-level Zerg in the outer region of the Star Citlali!? What are you guys doing? Did you send reinforcement to save Feng Jing?!" he said to his subordinates only for them to peek at the silent man sitting beside their lieutenant.

"B-But the Marshal said..."

Xue Ying noticed their subordinates' expressions and also looked at their Marshal with confusion on his face. He couldn't understand why the Marshal who loves his cousin the most is staying quiet at this moment.

Xue Ying asked, "Boss, aren't you going to help your wife?"

"Are you blind? Does Jing'er look like he needs help?" said the Marshal as he motioned his head to gesture to Xue Ying to look back at the ongoing recording.

They could see Feng Jing happily throwing bombs with an adorable smile on his face and as if affected by his relaxing expression the shy little mechanic, Solaris Vega joyously followed his leader in throwing bombs with excited safety. Only Xue Ran remained calm and proper during the whole event. He was completely on guard just in case some zerg had broken through the explosion. If that really happened then he could only grab these two silly bombers and run away.

Solaris Vega picked up the last bomb he made with a 100-meter radius effect and excitedly passed it to his leader.

"Leader~ this is the last one~," said Solaris Vega, passing the explosive to his boss.

Feng Jing with a huge smile on his face was carrying a bowling size bomb in his hand.

"Hehe~ this looks like a fun one to throw there ~," said Feng Jing, as he took action as if he was shooting a 3 point basketball.

Solaris Vega is watching with bright eyes towards his leader, "Leader, throw it in!"

"Hahaha~ okay, here we go!" said Feng Jing as he finally threw the bomb. He has precise control over his strength as always and the bomb flew in a huge arc slowly falling at the center of the deserted land due to gravity.

---

At the ship monitoring who watched the relaxing conversation between Feng Jing and his silly mechanic genius, Solaris Vega.

Dumbfounded Xue Ying asked, "What the hell are they doing?"

His subordinates replied:

"Playing around?"

"But those are bombs!!"

"They look like they are bombers in this perspective especially Madam and the little genius mechanic."

"They don't seem to be in danger."

Marshal Sirius looked at his stunned right-hand man and said, "You want to send help? Who needs it?"

---

Back to Planet Citlali, Xue Ran, who felt things weren't supposed to end this easily, could only ask the cheering mechanic beside him.

"I know that the effect is 100-meter radius but what about the aftereffects, Xiao Vega?" asked Xue Ran.

Solaris Vega thought for a moment and estimated the aftereffects of the explosion. "Hm~ I guess the shockwave would be tripled in that radius? EH?"

Xue Ran, who heard the clear answer, had to grab the two troublemakers and make a run for it. Grabbing each on his shoulder like a bag of rice sacks, he runs away at full speed. Triple the radius effect means it could reach where they are currently standing at. The two troublemakers were still happily watching the explosion while being carried away. Behind them, the huge sound of explosion can be heard.

The scene of Xue Ran grabbed Feng Jing's waist and getting carried over his shoulder was seen by Marshal Sirius in the monitoring room. Those who were with him suddenly felt the temperature immediately dropped at this moment. But they could only suffer and couldn't run away. Who let their Marshal feel jealous even in this kind of situation.

Marshal Sirius murmured, "That brat!" his whole body is covered in dark aura.

BBOOOOOOOOMMMMM!!! There is even a mushroom-like smoke coming out from the center of the land as if a nuclear bomb had fallen in that place.

Meanwhile, the creator of such a dangerous gadget is laughing like a child, "Hahaha~ so fast~ run faster~" shouted Solaris Vega.

Feng Jing finally calmed down seeing that effect, "Not bad! Xiao Vega, how many did you make of those things, especially the last one?"

"I only made three. One is used. There are only two now. I left it with Yven-ge." answered Solaris Vega honestly.

Feng Jing said, "Lacking resources? I'll get you some more. Make more of those. It will be extremely useful for eliminating herd attacks."

"Okay!" said Solaris Vega.

Xue Ran ran without looking back but he could feel the rushing wind pushing his back. Only when they returned to the camp did Xue Ran put down these troublemakers. He was a bit out of breath as he dashed with full strength while carrying two adult men on his shoulder. Solaris Vega worriedly looked at his almost hyperventilating senior and passed a glass of water to him.

"Senior~ are you okay?" asked Solaris Vega.

Xue Ran slightly smiled at the young man and said, "I'm okay. Don't worry. Thank you."

Xue Ran controlled his breathing until it returned to normal. He gave his thanks to Vega as he received the glass of water he urgently needs.

Feng Jing was humming as he grilled some marshmallows on the fire. "It's ready. Xiao Vega, you can take some now~"

"Un~ let's roast some cheese too," said Solaris Vega, clearly he also enjoyed their adventure.

While having midnight snacks the communicator of everyone in their team received a collective message.

[Ding! Congratulations! Your team had defeated a small herd of Ant-type zerg. Your current accumulated Kill Points is now 1000.

Ding! Your team is now on top of the list of Kill Points.]

Feng Wu mumbled, "1000 KP. You've gone to the middle region, my lord?"

"Hm? No, we didn't but Xiao Vega coincidentally found an underground nest. We just bombed it for fun~" answered Feng Jing. His mood for that night was obviously good after playing around.

Solaris Vega was also enjoying the food and nodded his head like a pecking chicken when he heard his boss's answer. Feng Wu also looked at Xue Ran who nodded his head in agreement with Feng Jing's words.

Xue Ran said, "We are a bit lucky."

---

On the other hand, those who felt the explosions aftereffect and suffered from it all went to send a scout team to check. But when they arrived at the location. It was already restricted as the hidden protectors came over to check the aftermath. It was the aftermath because when they arrived on the scene, they almost suffered from serious injuries when the last huge explosion took place. Thankfully they were in their mechas and barely escaped on time.

The scouts who arrived on the scene were blocked by soldiers. They were stunned seeing such a big hole on the ground full of insect carcasses and green blood.

A student commented, "A zerg? But this is the outer region..."

"Shit! What the hell happened here? Did a nuclear bomb fall here or something!?"

"Look at the huge hole. They were blocked by the administration. Aren't all weapons thoroughly checked before coming here?"

"Then... someone made such a thing in this place!? Is that even possible?"

The commotion outside the restriction was heard by some soldiers who were tasked to clean up the place.

A soldier appeared and said, "Students are forbidden to approach this area. Return to your camp now. Staying here will qualify you for disqualification!"

Hearing such consequences the scouting teams could only return. They've reported to their team leaders what they had a scene and those who were smart enough could already guess what happened.

At Prince Regiulus Rigel's Camp.

After receiving the report, he let the scout return while he stayed in his camp with his aide.

His Aide asked, "My prince, what do you think happened?" as he saw his prince checking something on his communicator.

Once the screen showed Feng Jing's name on the KP list as top, he could mostly guess what already happened.

"How lucky are you really? Or is it really luck, Imperial Uncle?" murmured Prince Rigel.

Everyone who had checked the KP list like Prince Rigel had seen the glowing name of Feng Jing. As the team leader, his name signifies the team name itself. Seeing his name listed on the KP List everyone understood that it was the small team led by Feng Jing who caused the commotion in that deserted area. With this everyone started their own calculations, since there is already someone who entered KP List means that even before the Middle region completely opens as long one is able to kill a zerg that point would be recorded. [movelusb.com](http://movelusb.com)

In short, one is able to enter the middle region as long as they reach the following requirements for this. Because of this event, those who had already collected enough resources were thinking of entering the middle region to get ahead with KP points among the others. While those who haven't gotten enough resources yet had hastened their hunting and collection so they could enter the next region faster than someone else's group. This is after all a competition.

### **Chapter 307: 8.34 First Blue Star - Lin Clan's Young Master**

The news about low-leveled zerg moving in a herd using the underground route to escape the middle and central regions was sent to all fleets. This is quite important news, this means that even low-level zergs could communicate with each other and move as one if needed. Everyone in the Federation knows that the Central and Middle regions had barriers blocking zergs from entering the outer region. This is because the outer regions are the resting place for those who regularly clean up the planet to stabilize the ecology's population.

Hearing that zergs are able to move underground even in herds is shocking news. This means the possibility of zergs hiding under the human lands cannot be ignored. Normally it would be Marshal Sirius who reported such knowledge to the Federation as a righteous soldier who protects the planet. Unfortunately, he is very busy watching his wife from the monitor and ignoring his responsibilities. He is the one who had the highest position available in place but he is also hiding his presence from the others.

Lieutenant Xue Ying wouldn't make decisions with their Marshal around and forgot about this too. Thankfully, Nova Selena who works for Marshal Janus secretly passed this discovery to her boss. But for some reason, Marshal Janus had also hidden this news from the elders of the federation. This is as if he wanted the Zerg to successfully invade their empire.

At the Oberion Empire.

The territory of the Janus Clan.

Janus Stellan is at his mansion during his work at home. After realizing that Marshal Sirius's death isn't one hundred percent sure, he decided not to take the reins of the Competition of the First Military Academy.

Janus Stellan who just received the message from his subordinate about the intelligence of the low leveled Zergs and them moving in herds.

"Zergs invaded planets through underground? If this is true then it's better if this happens to the empire sooner or later. Then... I will be able to see him shortly." mumbled Marshal Janus while staring at the familiar face of the man with azure hair.

His original plans were to take all the talented students to become his unit's cadets and take all connections he needed to become the sole leader of the Federation. He wanted the throne as the highest authorized Marshal in the Federation because only by doing so will his future actions be unquestionable. Even if he wanted to make an alliance with any race no one would be able to reject his decisions. This is his ultimate goal.

This is why he wanted to drag down Marshal Sirius who is the male god model to the younger generation. Only by taking control of all generations that no one would be able to argue against him. But no one knows what he really wanted to do after taking all the Federation could have. Of course, except the person itself.

Janus Stella murmured, "We will see each other soon, my other half."

---

Back to Planet Citlali.

The morning on the third day of the competition had begun. After everyone had filled up their bellies with a full meal and all preparations were done, they are now about to venture into a new region. Today they would be entering the Middle Region of the Planet where they would begin to hunt seriously for zergs and accumulate as many kill points as they could. They were a bit ahead of others thanks to the lucky coincidence their leader, Solaris Yven, and Xue Ran had a bump with them yesterday.

1000 KP can only be achieved if they eliminate a whole herd of low-level zergs. This means with only three of them they killed that much zerg last night. If not for the surveillance record shared by the event's organizers to all participants they wouldn't believe how strong those little bombs their innocent little genius mechanics could create, especially the last bomb. What made it funny is that their leader and Solaris Vega were playing as they threw the explosives at the zerg's nest and then Xue Ran had to carry away the two troublemakers to run away from aftershocks.

All the seniors upon watching the scene had patted the shoulder of Xue Ran. They are praising him for his hard work. Among the ones who look lethargic are only two: one is Feng Jing and the other is Solaris Vega. Both these two had played the whole night because in the end after eating some midnight snack they still went to the sea to catch some seafood. Seeing the black bags under these two's eyes made everyone sigh.

SIGH~

Xue Ran said, "Next time you two are not allowed to take the night guarding task."

"Eh~ Why?" said Solaris Vega.

Lin Yven smiled and said, "Okay you can still take that task but not with Lord Jing. Because both don't know the meaning of holding back and would play with machines and talk about gadgets all night without resting."

Feng Jing and Vega both averted their eyes as to what Lin Yven is nothing but the truth. After meeting the eyes of Qu Yeon, Feng Jing nodded towards him signifying he could take over the command. Aside from Feng Jing being the real leader, Qu Yron who had more experience than the others will lead the group in the middle region.

Qu Yeon spoke, "Okay. Let me explain some things before we enter the middle region. In this region, we will all need to move a group. Our camp would have to move with us. This is because we need to take as much KP as we can to win. There is also a requirement to enter the Central Region.

The barrier between the middle and central regions would be turned off on the sixth day of the competition. For the seventh to ninth day the middle and central regions would be merged. Just in case of emergency make sure your mechas are ready to be activated at all times.

I will be taking the main command for the next three days. Little Brother Bai and A'Yi would take the second command. If you notice something amiss please take action even without permission from me."

Bai Yuyan and Tang Yi nod their heads in agreement.

"We will try not to get separated as we could but in case of such an event, Little Brother Bai or A'Yi would choose to follow the separated group and immediately try to regroup as soon as you can. In case of life and death danger, I ask everyone to forfeit. Our lives are above anything in this competition." said Qu Yeon.

Feng Jing said, "I agree with Senior Qu's words. In the case of your life being in danger, just forfeit. I won't get angry." he was smiling as relaxed as ever.

Qu Yeon said, "Okay! Let's depart. Our goal is championship!"

"YES!!!"

Their group heads to the middle region as planned. Another who had also completed their preparation had started heading to the next region as well. But some bad teams didn't want to work too hard in collecting resources and instead started to plunder other groups' resources, especially the ones who were already heading to the middle region.

At the boundary land between the outer and middle regions. A group wearing high-class armors and weapons was blocking the entrance to the middle region.

The outer and middle region is separated by a deep cliff and there are only two ways to enter it. One is to ride a mecha and the other way is to pass through a stone bridge that connects the two regions. This bridge is now being blocked by some nobles who wanted to plunder someone's resources.

Of course, those nobles who possessed authority higher than the Sidra Clan were allowed to pass. They didn't dare to block them but the commoner groups were either watching from a distance or got their resources plundered by the group of Young Master Sidra.

Moreover, since most nobles aren't close with commoners no one lends them help. They were either blocked or beaten to the ground as there is a huge difference in the level of weapons and armors.

YOU!? Why aren't you allowing us to go in?!

Hah! Did I tell you I need to pay the toll? Half of your inventory must be given to us!

Are you crazy?! Why would we give it to you bullies? OH~ how great you nobles are? Only knowing how to bully commoners like us for the sake of your own selves. Disgusting!

You plebeian! A piece of trash dares to scold us nobles! Beat him up more. His group no longer needs to save the other half of their resources. We will fake everything hehehe~

Bastard! I will stake everything against you!

The commoner who is leading the group is a Sentinel from the Senior Division. He is someone well known for his bashful and honest personality. He is quite well-known as he is someone from the Lin Clan. Even though the Lin Clan or the White Tiger Family had already become a noble, no one could deny that their origin is still common.

They are a family of merchants who receive a title from the Empire because of their wide connections. Not only that, their quantum beasts are also special. There is the clan of tigers. This Senior named Lin Tian is the young master of the Lin Clan. His father is the current master of the Lin Clan with his grandfather acting as the patriarch. His quantum beast is a white tiger-like their family is called us. This family is well known for their special bloodline skill called Berserk mode.

ROOOAAAAR!

"We will hold back the rest of his team! Boss, go teach that jerk a lesson!" his team members said.

Lin Tian's Guide said, "I'll protect them, you beat the hell out of that shit!"

"Roger, honey!" replied Lin Tian as he jumped towards Young Master Sidra.

With the shout from Lin Tian, a white tiger came out of nowhere and jumped on young master sidra. The latter snorted and ordered his servants to surround Lin Tian and his team. They've started targeting the weakest in the group which is the ordinary people. But was blocked by a guide's spiritual barrier made by Lin Tian's guide himself.

His guide is a young lady with SS rank level potential. This young lady also possesses a mysterious background as she is someone from outside the Oberion Empire. Her name is Halley Ascella.

Ling Tian's group is only a small group of ten. The minimum number of members allows one to enter the competition. There are four ordinary people in their group whose tasks are logistics, technical, and mechanics respectively. There are four Sentinels in the group and two Guides.

---

Lin Tian's group members:

Leader: Lin Tian [Sentinel] (SS Rank (Potential: SSS))

Second in command: Halley Ascella [Guide] (SS Rank (Potential: SSS))

Members:

Lin Sen [Sentinel] (B Rank (Potential: A))

Lin Bin [Sentinel] (C Rank (Potential: B))

Lin Quan [Sentinel] (C Rank (Potential: B))

Norma Isis [Guide] (D Rank (Potential: C)) [Partner of Lin Sen]

Leda Tine [Ordinary Person] (Overall Potential: C) [Logistic]

Sen Carina [Ordinary Person] (Overall Potential: D) [Mechanics]

Rin Chara [Ordinary Person] (Overall Potential: D) [Technician]

Leda Eris [Ordinary Person] (Overall Potential: B) [Technician (Programmer)]

---

With his wife and his team members backing him up, Lin Tian happily jumps over to where Young Master Sidra is. There is a huge difference in strength between the two of them. After all, Young Master Sidra is only a C-ranked Sentinel while Lin Tian is a double SS leveled one. It didn't take a while for the painful groans and screams to come out from Young Master Sidra.

AAAH S-STOP! This Bas--- OWW~ HAAH! FUC-- H-Help me! P-Prince!

Everyone including Lin Tian paused when the word prince came out of his mouth. It seems that this situation is man-made by someone else. Lin Tian's eyes narrowed as he stared down at the swollen face of Young Master Sidra. Everyone's expressions turned gloomy at the thought that the one backing this shit is none other than the royal family.

But among those with royal bloodline, only one openly shows his disdain towards commoners. Navi Nash, the half-blood prince who possesses the blood of Queen Aurora.

Lin Tian asked Young Master Sidra, "Who is the prince that ordered you to do this? Is it Prince Naja?"

Young Master Sidra's eyes widened in shock knowing that he had slipped off the tongue just now. If Prince Rigel and Prince Naja learned about this, he would definitely lose his life. Clearly, this will be seen as a scandal that will destroy the reputation of his master.

"I...dhon't khnow wrhat you ahre thalking ahbout." said Young Master Sidra with his swollen mouth. He is trying to act like he didn't say something just now.

Seeing this reaction, Lin Tian grinned widely with an aggressive expression on his face. His small fangs were even sticking out with how bright his smile is.

Lin Tian said, "Hoh~I see~ Let Laozi jolt your memories for you."

Another round of full beating was suffered by Young Master Sidra.

[A/n: I will make some changes in the ranking of the royal family. The youngest generations made up of Regulus Rigel and Navi Nash would be called princes. Their parents who are the son and daughter of Emperor Sol would be called King and Queen. Regulus Zenith who is called Crowned Prince will be called Crowned King. [movelus1b.com](http://movelus1b.com)

The Hierarchy of this royal family doesn't follow the regular script so. Don't mind it too much ba~]

### **Chapter 308: 8.35 First Blue Star - Death by the Laws of the Empire.**

The scene of Young Master Sidra's Tyranny had been witnessed by everyone, not only those who were watching in the monitoring cabins of their battleship but also those audiences who were watching the live stream on Star Network. This competition is, after all, watched by everyone in the Empire as usual whenever some students of the First Military Academy go to their assessments. It was just this time the elders of the Federation made it in a competition to garner more youngsters to join their side.

Everything was streamed without editing and live. So the scenes from the first day to now were seen by everyone on Star Network. They've also enjoyed that recording when Solaris Vega and Feng Jing enjoyed bombing a nest of an ant-type zerg. They also laughed their asses out when Xue Ran grabbed the two troublemakers who even had the nerve to have a conversation while hanging like a sack on their senior's shoulder.

Now seeing Lin Tian beat up Young Master Sidra to look like a swollen balloon face can be seen all over the Star Network.

'What the heck is this little master from Sidra Clan doing?! Bullying the weak!'

'What a disgusting thing to do? Where had his pride as a noble gone!?'

'Sidra' s descendant is trashy with new generations!'

'Hey! Did anyone just hear him say, prince?'

'Fuck! Is this something royal blood would do? What would happen to us commoners if the ones in lead happen to become this evil?'

'Lin Clan is so righteous! Young Master Lin! Go. go. GO BEAT HIM UP MORE!!!'

The comments from the Star Network were all siding with Lin Tian beating up the young master from the Sidra Clan. Meanwhile, the said elders of this clan were now wearing ugly expressions on their faces. Thanks to this foolish descendant of theirs, their whole family is being pulled down in the muddy waters. They know that Young Master Sidra must be following someone's orders.

Seeing how much he was trying not to say anything. It is clearly an order from someone from the royal family and there is only one foolish prince who wouldn't care much about his reputation because he only possesses half of the royal bloodline, Prince Naja.

The agonizing sound of Young Master Sidra's screams resounds in the area for quite a long time. As expected to someone spineless, he gives up saving the face for his master for beating up at such a point that he ends up looking like a dumpling head.

"AAAAAAHHHHH!! STOP. PLEASE STOP! I'LL SAY IT. I'LL TALK!" exclaimed Young Master Sidra while covering his face with his arms.

But the moment this young master said this, those who were silently watching hidden from within the forest had shown themselves. A haughty and arrogant little prince like Navi Naja appeared with his cousin and their team.

Prince Rigel was silent all the way but his eyes couldn't help but narrow when it wandered towards the beaten Young Master Sidra.

Navi Naja on the other hand acted like he wasn't the one who ordered Young Master Sidra to block all commoners from entering the Middle Region. He commanded this because he knew that Feng Jing's teammates were mostly commoners, he wanted to make things hard for this Imperial Uncle of theirs.

Prince Naja says, "What are you doing, Young Master Lin?" His tone when he mentioned Lin Tian's title was sarcastic and mocking.

Making those from Lin Tian's Team angry only to be held back by Young Lady Halley's glance. They know who Prince Naja is. Not only Prince Rigel is around, aside from these two no one else possessed higher authority than them both. Lin Tian and others could only swallow their anger.

Lin Tian stood up properly and clasped his hands before lowering his head.

"Greetings to the First Prince and Second Prince," said Lin Tian. The rest had fallen on one knee to greet the royal blood.

Prince Naja has always loved seeing people kneel under his presence. He feels proud watching someone lower themselves to him. It is a complex that makes him greater than anyone else. It took a while before Prince Naja allowed the rest to raise their heads. Once they did, Lin Tian was with eyes full of annoyance landing onto himself owned by Prince Naja.

Prince Naja spoke, "What are you doing, Lin Tian? Did you just beat up my servant to look like that!?"

"Answering to the prince but this all the fault of Young Master Sidra. He was bullying the weak and this one had to step in for it," explained Lin Tian.

"Oh~ you mean his plundering of the other groups' resources? That is not against the rules? One is allowed to plundered someone's group. The weak had to be sacrificed for the strong," said Prince Naja but he still doesn't say anything about him ordering the other person from doing such a thing.

Lin Tian suddenly grins and says, "Prince Naja is right. The weak one can only be beaten up by the strong. That's why Young Master Sidra was beaten up by Laozi. Because I am stronger than he is. So, I wonder why the Prince is still asking why Lin Tian struck down this trash?"

Prince Naja felt like his face was slapped. In accordance with Lin Tian's words, he is being unreasonable for getting his servant beat up which is not against the rules of the competition as he says. A red blush appeared on Navi Naja's face. This is clearly because of embarrassment and anger. He even pointed his first at the grinding Lin Tian while glaring at him.

Prince Naja said, "YOU?! How dare you speak like that towards this prince!? I cannot believe this!" Then he moves his gaze from that hateful man to his elder cousin brother, Prince Rigel. His angered

expression turned delicate as if he was being bullied by Lin Tian. "Big brother~ that man he... he... he is bullying me!"

Everyone watched as Prince Rigel sighed and patted his spoiled little brother's head to calm him down.

"Naja, you should calm down. Young Master Lin didn't say anything wrong and you as well didn't say wrong things either. Either way, this doesn't change the fact that Young Master Lin had been insolent by questioning a royal descendant." said Prince Rigel, then he motioned to his people to surround Lin Tian.

The grin on Lin Tian's face faded and he assumed a fighting stance in case these men attacked him. Though they aren't on the same level as Lin Tian who is a SS Sentinel unlike Young Master Sidra's goons, these guys were trained to serve the royal descendants.

Halley Ascella couldn't be helped but stood up for her lover with how the situation is. But showing herself now means revealing her identity as someone from the neighboring Empire. She will be put in great danger. Though at this moment this is the only way she thought that would be able to prevent Lin Tian from being beaten up by the people of Prince Naja and Prince Rigel.

Prince Rigel gestured with his hand and said, "Do it. It is the punishment for going against the royal descendants."

Those senior students who vowed to serve his highness Prince Rigel followed his words with a question. They all made their move to attack Lin Tian. Things were quite okay at first as Lin Tian could at most block the attacks from the other side but as time went on, Prince Rigel increased the number of people who he ordered to keep attacking him and it got harder and harder for him to block.

Seeing this Halley Ascella could no longer hold back and was about to announce who she was when suddenly someone pushed his shoulder back down. When turned around to look who it was, she recognized that it was someone from his class.

Qu Yeon whispered, "Don't show yourself, princess. They are doing this for you to announce your stance. Our lands don't get along too well. Your standing would be bad if you revealed yourself. Please let it be our Lord."

A frown appeared on Princess Halley's face. As someone from Orion Empire's royal family, her standing is quite a in peril in this place. After all, Planet Citlali is still the Oberion Empire's Territory.

Halley Ascelle asked, "Who is your lord?"

But before someone answered her question a commotion took place in the area where Lin Tian is. It seems that someone had accidentally entered the space where Young Master Lin is.

It was Feng Jing. "Owie~ who pushed me just now!?" he perfectly landed in front of Lin Tian who was about to get hit.

Everyone who saw this scene panicked for a moment. They've also recognized Feng Jing who appeared out of nowhere.

"Lord Jing! Watch out!?" someone from the crowds shouted.

Prince Rigel shouted, "Stop right now!"

At this moment even Prince Rigel had a change of expression. After all, even if Feng Jing is a waste from the Phoenix Family, he is still a Feng descendant and that clan is full of lunatics. With the scene of the competition broadcasted live on Star Network, there is no way no one from the Feng Family is watching. If he accidentally harm this stupid waste of an uncle of his, not only the Feng Clan but even his Crowned King Uncle Zenith would definitely make things harder for his father.

He tried to stop his people but he voiced his command too late. There is only a few inches space in between the fist from a Sentinel who serves him and Feng Jing's face. This scene almost made everyone scream at the imagined ending of Feng Jing's head exploding like a rotten watermelon.

AAAAHHHHHHH!!!

'Oh no!! I'm going to end up killing him!' Thoughts of the Sentinel who is about to hit Feng Jing.

Prince Naja's excited thoughts at this impending bloody scene, 'GO! Destroy that annoying face! Kill him!'

Prince Rigel's thoughts, 'If Feng Jing dies it will be the end of my family! I must think of an excuse to lessen the damage on my side.'

While everyone already thought of the scene of Lord Jing's head exploding, Lin Tian's body moves to at least cover Feng Jing with his body to receive the attack. But before he could even move he saw a smile appear on Young Lord Feng's lips which made him halt his movements. In just a split second, Feng Wu and Xue Ran appeared. They've both attacked the one who was harmed, Feng Jing. Xue Ran hit the man in his heart directly while the other attacked him with spiritual qi. The man is more dead than a corpse.

Xue Ran's attack directly crushed the heart of that Sentinel while Feng Wu broke that person's spirit. No matter how good one's medical abilities are, this dead person could only be dead.

With a hole in that Sentinel's body, a missing heart was squashed to nothing. Those who are weak to such a gory scream couldn't help but scream. These students might be future soldiers but they are still unbaptized by the scene of someone killing their own. This scene even made Navi Naja puke as he ran off to the side. He might like bullying others but this is the first time he had seen someone kill anyone.

Even those from Feng Jing's group didn't expect Xue Ran and Feng Jing to kill that person. But they also didn't react that badly as just based on that person's strength if his fist had landed on Feng Jing, the one whose head would explode would be the latter.

Silence spreads in the area and at the center is a dead man with a missing heart and broken soul.

Prince Naja pointed at Xue Ran and Feng Wu while trembling, "Y-You... You... You killed him! You really killed him!"

Feng Wu said, "My Lord, are you hurt somewhere?"

"I'm okay~" replied Feng Jing while smiling gently as usual. His expression at this moment totally doesn't fit the situation they are in right now.

Xue Ran and Feng Wu ignored the annoying prince's words and looked at Feng Jing who was smiling as he sat in front of Lin Tian as if the dead had nothing to do with him. Seeing this kind of reaction Prince Rigel knew that the ending of this situation leans badly on their side.

Prince Rigel stepped in first and asked someone from his side to stop Navi Naja from making a scene. This incident's fault is because of them. After all, Feng Jing accidentally stumbled upon the fighting field and got caught up with it. Xue Ran and Feng Wu's actions were as stated in the laws of the Empire.

A Sentinel is not allowed to raise his hand against someone weaker than himself, especially towards a guide or an ordinary person. This is a law punishable by death. The person can be killed on the spot if found. This is what Xue Ran and Feng Jing had executed.[movelusb.com](http://movelusb.com)

[movelusb.com](http://movelusb.com)

### **Chapter 309: 8.36 First Blue Star - Reactions from All sides.**

The death of the unknown man was considered an execution for trying to kill an ordinary person like Feng Jing. This is why Feng Wu and Xue Ran's actions were considered justified as the Oberion Empire's laws were backing their actions.

The descended silence in the area had spread. Everyone was either standing stiffly to where they were or running to some corner to vomit. The scene of someone's gory death is still quite different from the deaths of an alien race like the Zergs. This is a human being. A dead person.

The one who broke the silence is none other than Feng Jing. His expressions didn't change even when seeing such a thing before him. His expression looks innocent and silly like usual but this just made things.

Feng Jing said, "Ah~ I-I...I really almost die ba~ My dear nephews~ how are you going to explain the situation to this Imperial Uncle~"

It was Prince Rigel who wanted to explain the situation.

"Imperial Uncle... This is not really our fault, it was an accident! Nephews weren't really trying to harm the Imperial Uncle." said his highness the first prince.

But Feng Jing continued to smile and didn't accept any of the words Prince Rigel was saying. In the eyes of Prince Naja, Feng Jing's actions are the case of bullying with his standing as their elders and Navi Naja hated that feeling the most especially when the elders of the Navi Clan act the same way towards him. He had forgotten all decorum and shouted out his real feelings.

Navi Naja said, "This is your own fault for being an idiot! Or else how the hell would you get pushed by someone in the middle of sentinels fighting each other. You should have just died!"

Not only was everyone surprised even Prince Rigel didn't expect his younger cousin brother to say such words. Moreover, telling it to the face of the person itself made it worse. At this moment everyone's expressions were a collection of anger and disbelief, even Prince Rigel's face was dark with ugly emotions itself. What is more surprising is that Feng Jing's smile didn't disappear, instead, it got brighter as if he heard something extremely funny.

Such an expression just made the latter even more beautiful as his phoenix-shaped eyes narrowed in amusement and his eyes were full of mirth. This isn't obviously one of his usual innocent and silly expressions but something more fitting to someone who is even more unreadable.

Prince Rigel was dumbfounded, 'H-He is smiling!?' Thoughts of the First Prince.

'W-What is this? His smile makes me extremely uncomfortable.' Thoughts of Navi Naja.

Feng Wu's thoughts, 'Ah~ these two would definitely not have a good ending.'

Among everyone in the area who is currently seeing Feng Jing, only a few could read his real emotions. Among the ones in the area, only Feng Wu could understand his lord's current mood. Those who were watching outside the planet were even more stunned as they never expected such expression to appear on someone who is supposed to be a waste. To those who could read the expression, they couldn't help but shudder. This is the smile of a devil.

Outer Space, beyond Planet Citlali's hemisphere.

At Fire Phoenix Battleship, Feng Yang and Feng Ran were rendered speechless and looked at each other's shocked expressions. They also could believe that the little treasure of their family has this kind of personality. Though they knew that he acted adorable and silly for the elders' sake, no one would expect that their little baby happens to become someone this devious.

Feng Yang said, "Ran, do you think those two princes would still be able to come out of this planet alive?"

"... My Lord... Please don't speak anymore or your crow's mouth would definitely come true," replied Feng Ran, his aide, and right-hand man.

Feng Yang said, "Who had a crow's mouth!? I don't have it. But this... you do think Brother Zenith and Brother Sirius are watching as well right?"

"They... Your Highness and Sire should be watching? Is there a problem?" asked Feng Ran.

Feng Yang, "N-Nothing much. I just wanted to make sure they would help me with the burying of bodies."

"My lord, they would definitely help," said Feng Ran.

---

At the battleship owned by Crowned King Zenith.

The reaction of the Crowned King and Crowned Queen upon seeing their adorable younger brother's expression.

Feng Yue, the crowned queen said, "My~ it seems like Jingjing would have enough playmates in this competition~"

"Um, I should make the necessary preparations just in case." said the crowned king, Zenith, already picturing the scene of the future where the other Kings and Queen came over to his place to complain. Especially about the First King and the youngest Queen.

The crowned princess was delighted by her husband's words. She knew that no matter what the situation was, her husband would definitely side with her and her family. After all, Regulus Zenith before becoming the crowned king is someone unlovable. He was born with a weak physique and everyone in

the palace thought he would die young. At his lowest, Feng Yue and the Feng Clan were the only ones who sided with him. They protected him and cared for him the same way as a real family does.

To Regulus Zenith, it was the Phoenix Clan who sheltered him and gave him the family love that the royal family is supposed to give him. This is why Zenith would always side with the Feng Clan because of this crowned king, it was the Feng Clan that took care of him and treated the cold-blooded royal family as just a tool to protect his family.

Feng Yue happily hugged her husband and gave him kisses, "My husband is the greatest!"

Regulus Zenith joyously accepted the love his wife is giving him. This is the woman who will love the whole Interstellar world. His own family.

---

White Tiger Unit's Battleship.

Lin Tang and his son, Lin Velvet were silent as they watched the whole scene of their eldest descendant acting without thinking and even talked back towards the royal descendants like the First Prince and the Youngest Prince, Navi Naja. They were about to contact the administrators of the competition to ask Lin Tian and his team to forcefully forfeit when they witnessed their lives being endangered by the descendants of the Empire they are protecting.

Lin Tang with a dark expression ordered his son, "Son. Call the organizers of this team for me. They had installed protective gear on the students just in case they were put in danger right. Ask them to activate A'Tian's protective gear we are forfeiting."

It seems that all participants are given safety gear that would protect their lives from danger but once they've used it they would be considered disqualify or had forfeited from the event. It can only be activated by the student on his own choice which for cases of split-second incoming danger the student had to relay on their own instinct.

Lin Velvet, the father of Lin Tian and Lin Yven, also had an ugly expression on his face. When he saw his eldest son being surrounded and beaten up in such an open way. Moreover, everyone connected to the star network saw the tranny the two princes ordered for this to happen.

"Yes, Father." But before he could even connect his light brain to the Planet's command center, his father stopped him as they saw Feng Jing suddenly appear in front of Lin Tian.

Major General Lin suddenly said, "Hold it. Let's watch for a bit longer."

Anyone could see that Feng Jing's arrival is an unexpected one but for this old general who is famous for his sharp eyes noticing the static split-second pause of his monitoring video whenever Feng Jing is alone or not. Obviously, he had been observing this supposed to be a waste young lord of the Phoenix Clan.

Within the whole Oberion Empire, three authorities stand at the peak and at the same time hold power as well as fame. The Federation, the Regulus Family, and the Altair Family. But within the Oberion Empire, there is a special clan that isn't completely affiliated with any of the three big powers. They might be connected by marriage with the royal family but the married crowned king of the Regulus Family sides more with them instead of the crown.

This family had few generals working for the Federation but they've never integrated themselves deeply with this organization. They stood at Neutral Position. They had a business partnership with the Altair Family but the Altair Family never restricted them and let them do whatever they wanted freely. Moreover, they weren't like any noble clans or family, they did not look down on people with a common background and would righteously sometimes protect the weak.

Major General Lin Tang stayed in the Oberion Empire because he wanted to observe this family. This family with an almost immortal bloodline is still down to earth. Friendly to those they like and cruel to their enemies. The other noble clans considered them aberrant. They were lunatics in their eyes. But everyone can see that this clan considered their family as their topmost priority against anything. The deviant Clan of Phoenix, the Feng Family.

Lin Velvet was startled for a moment when he saw Feng Jing suddenly appearing, "This is... the youngest lord of the Feng Family? How did he get in there?"

"Hm~ you've also didn't noticed? I didn't even see how he did it as well."

"Even father didn't notice him?"

"I think our monitoring channels are being controlled by something. Can you send some to check on it?" said Lin Tang.

Lin Velvet's expression turned serious after hearing this. "Please leave it to me, father." before stepping out to issue some orders to their subordinates.

Major Lin Tang's eyes squinted at the figure of Feng Jing with a solemn expression and mumbled, "I wonder how long you could hide your claws, young phoenix."

---

Black Star Unit's warship.

Major General Nova Selen was quietly watching everything on her screen. She left most work to her subordinates. This includes them screen some students that are eligible to enter their unit but in the end, she is only here to substitute for her master which is Janus Stellan. Her real orders were different from the rest. The goal she had for coming to this Planet is different from the others.

Her monitoring perspective was only on Feng Jing's team. She is watching Feng Jing and Xue Ran closely under the orders of her master. With an expressionless face on herself, Nova Selen zooms in the camera focusing on Xue Ran and Feng Jing.

"One is to observe while the other is to protect. The Lord's orders are absolute," murmured Nova Selen in silence.

---

Black Turtle's battleship.

Major General Navi almost suffered from a stroke when he saw Navi Naja cursed Feng Jing to death. Even if Navi Naja has considered a prince thanks the blood of his mother, he is more considered as a Navi Clan's descendant more as his surname is still Navi. But Feng Jing is not only someone from that

lunatic clan of Feng but also the brother-in-law of the Crowned King, Regulus Zenith. There is no way Regulus Zenith would forgive Navi Naja even if he is his nephew.

Navi Naja's mother, Queen Aurora is after all only a half-sibling of this crowned king. Between a brother-in-law from the Feng Family and a nephew like Navi Naja with only a quarter of royal blood obviously, the Palace knows which side to choose.

"Send a message to the Palace and tell them about this situation to the First King, his highness Regulus Aera. Moreover, send someone on the planet to protect Naja," ordered General Navi with an ugly and tired expression on his face. "Sigh~ I don't want to believe that a direct descendant of Navi Clan would die because of his loose mouth. I don't care how you do it just make sure to protect Navi Naja."

"Yes, General!"

### **Chapter 310: 8.37 First Blue Star - At the Middle Region.**

Meanwhile, the other battleships from the other units had certain reactions as well.

At Azure Drake's warship.

Fell and then Crack!

Major General Drake Ares's cup of coffee suddenly fell on the ground as he watched the scene of Feng Jing suddenly smiling an extremely familiar devious expression on his face.

His right-hand man, Colonel Shiva looked at his General with a bewildered expression, he was thinking of whether the man had finally lost it after being buried in paper works for a whole month. Now that the competition had already entered the Middle Region, as promised General Drake was finally allowed in the monitoring cabin of their ship.

But when their general saw Feng Jing's smile, they thought that the General might have fallen in love at sight with this young lord from the Feng Clan.

With a frown on his face the Colonel seriously reminded his General, "General Drake, please think twice. We cannot have any connection with the Feng Family as we serve the Janus Clan."

Unfortunately, his kind advice was ignored by Drake Ares. After recognizing who Feng Jing is, Darke Ares's eyes wandered at the figure of Feng Wu who was protecting Feng Jing. Unlike Xue Ran who kept his distance from the latter, Feng Wu was clearly more close to Feng Jing.

Drake Ares, who remembered his vessel's role as this world's Protagonist Gong murmured with a pale face, "AH~ I'm dead. Fuck!"

---

At the Fallen Gods battleship.

Xue Ying felt a chill the moment he witnessed his baby cousin smile like an adult. Though he knew that their Marshal would never take a liking to someone simple, he never expected for his adorable cousin to have this side. There are still some baby fats in his exquisite face but this doesn't change the fact that this young man is so beautiful. But his evil smile just now made a contradiction to his innocent

appearance. A contrasting feeling of evil and good mixing. That is what Xue Ying felt when he saw Feng Jing smile deviously like that.

Xue Ying murmured, "Xiao Jing won't happen to be thinking of killing those two princes doesn't he, Marshal?"

"He is. At least indirectly," replied Marshal Sirius as he could hear the system in his head grumbling things the moment they saw Feng Jing's smile.

[Wuwuwu~ The host is playing around again. Those two are dead meat. How could he shout at him? They would be played to death and wouldn't even know how they would die. Ah~ host, please hold back a bit.]

System Yue is panicking on his own, even forgetting that the soul fragment of his lord god could also hear his voice. He continued to grumble as if no one else could hear him.

Marshal Sirius could help but lightly smile with a pampering gaze on his eyes, this is an instinctive reaction. After all, the man he doesn't know loves to indulge in this manner of entertainment his beloved always does.

"Xue Ying, inform the palace that if they concern themselves with this, not only the whole Feng Clan but also the Altair family would get involved," said Marshal Sirius.

"Eh?" Even Xue Ying was caught off guard with these words from his Marshal. He never expected that this detached from the world Marshal of theirs would openly declare that Feng Jing is under his protection, even threatening the Imperial Palace just to protect his lover.

Marshal Sirius said, "Send it to the Federation as well."

"Yes, Marshal," responded Xue Ying.

---

Back to Planet Citlali.

Seeing Feng Jing smiling at them, Navi Naja and Prince Regulus felt a child climb up on their spine.

Feng Jing ignored their reactions and said, "You said those words yourself. You cannot take it back, Navi Naja."

Hic!

Prince Rigel frowned and gave Navi Naja a warning gaze when he saw him about to speak more, "Imperial Uncle, please listen to this nephew's explanation."

"No more explanation. No need to call me Imperial Uncle anymore," said Feng Jing as he walked away without even looking at the Princes with ashen faces.

Halley Ascella politely greeted Feng Jing after treating her other half's injuries.

"This young lady gives his utmost gratitude to Lord Feng," said Halley Ascella, Obviously, still hiding the fact that she is a neighboring empire's princess.

Feng Jing said with his usual innocent smile, "There is no need for thanks. You should be more careful next time. As you see they even dare to harm their Imperial Uncle which is me. Better to stay away from them."

"This young lady will keep the young lord's words in mind," replied Halley Ascella.

Lord Jing only nodded to her words and ended their conversation without any talks of compensation. Clearly, Feng Jing's actions signify that he only wanted to save them from their situation.

"What are you guys still staying here for? Are you not here to enter the Middle Region to continue the event?" said Feng Jing for everyone to hear.

Most commoners looked at each other and headed to the middle region while looking vigilantly towards the team led by the royal descendants. But they also didn't forget to salute Feng Jing and his group to show their gratitude.

Feng Jing and his group didn't enter the middle region right away as they were keeping Navi Naja's team in check. Lin Tian also gave his thanks to Feng Jing as he noticed who was the real leader in this group despite having Senior Students on their side.

Lin Tian said, "Thank you for saving me, Lord Feng."

"There is no need for thanks. I wasn't really trying to save you. Moreover, it was A'Wu and Senior Ran who defeated the enemy. You should give your thanks to them instead." replied Feng Jing.

"Hahaha~ Yes. Junior Feng, Student Xue, thank you. If you need something in the future. Please don't be shy and contact me." said Lin Tian.

The two just nodded their heads in agreement. After all, formalities were done, Lin Tian and his team said their farewell and headed to the middle region.

Prince Rigel was keeping Feng Jing at a distance but no longer said a word. What Feng Jing has said just now destroyed all decorum between them. In short, there is no need to pretend as uncle and nephews any longer.

Tang San asked while stepping on Young Master Sidra with disgust on his face, "Leader what should be done with this trash?"

Qu Yeon looked at Feng Jing for a moment and only when he saw him nod that he took over the command once again.

"Press their protective gear to initiate their disqualifications," said Qu Yeon.

Upon hearing this young master Sidra's swollen eyes widened despite the pain. His eyes wandered to Navi Naja who was being scolded by his elder cousin in the corner.

Young Master Sidra says, "Phrince! SSkave mhe!" but unfortunately the prince he is calling turned deaf ears on his calls. Only then did he realize that he followed the wrong person.

Everyone from Feng Jing's group worked together to press open the protective gears of Young Master Sidra and his team. Once it was activated each student was enclosed in a life-saving capsule forcing the

one inside to enter slumber to heal. They will have to sleep until the organizers of the event come over to pick them up.

Qu Yeon seeing that everything was done he leads the way to the Middle Region and enters it to continue the competition. Feng Jing ignored the other team and followed the rest. Only when his team had disappeared did Prince Naja dare to scream. He really hated Feng Jing too much.

Navi Naja immediately complained, "Brother! That isn't really our fault? He... He just suddenly appeared there!"

"I know. I also didn't notice him appearing. But... It doesn't change the fact that we almost killed him. Uncle Zenith would definitely take his side." said Prince Rigel.

Prince Naja continues to complain, "It must be his plan. He wanted to save that one from Lin. He even started scheming with the Merchant Clan!"

Staying silent for a moment Regulus Rigel thought for a moment. The actions he did before were indeed too much. If even the biggest merchant family joins sides with the Phoenix Clan then things from their side would be a disadvantage. He needs to at least ally himself with either the Janus or the Altair Clan.

It's more probable with the Janus side instead of the Altair. As the Janus Clan only needs power and fame in exchange for a marriage alliance with the Altair Family, it would be impossible unless Marshal Sirius itself fell for Navi Naja.

Prince Rigel said, "Naja, I will help you take the compatibility test with someone from the Altair and Janis Clan. He needs to get some allies from their side so you can do whatever you want to Feng Jing."

Once this immature young man heard about this, his eyes glowed in interest. "Brother, I agree!"

---

Middle Region

Forest Area.

Feng Jing and the team finally entered the next region where they could hunt zergs and accumulate Kill Points. As soon as they entered the land, they followed the map completely by the drone Solaris Vega had programmed to roam around the area. Thankfully, it was able to return before they went to the next land.

The one in the lead of the group was Qu Yeon. At the center just behind him are Tang Si, Si Shen, and Wu Liu. Behind these three are Feng Wu, Feng Jing, and the other ordinary people wearing support mechas. On the right is guarded by Tang Yi and Han Ling while on the left is Bai Yuyan and Qu Yul. The rear is protected by Xue Ran and Tang San. They are running along near the water source which goes along the whole region.

"Hm? Something is coming over," said Bai Yuyan.

Tang Si said, "I feel it too but..."

"But why?" asked Qu Yeon.

It was Si Shen and Wu Liu who answered the question of the man at the vanguard position.

Si Shen, "Its presence keeps appearing then disappearing."

"As if it could make its aura disappear on its own," said Wu Liu.

Feng Jing was smiling all the way while even sipping the Iced Cappuccino drink he took out from his space.

"You can use what I gave you. It can never miss any detection," said Feng Jing.

Everyone remembered the radar option of the program Feng Jing had installed in their light brain. With that, they've all started tapping their temples to activate the mapping mode. Now a holographic screen appeared in front of them showing three glowing blue-green dots on the map coming on their way at a fast speed.

[Ding! Incoming Bee type Zerg. Level: Medium. Numbers: 3. Capabilities: Flying speed, Paralyzing Poison, and short teleportation. Coming at the rear! It will arrive at our location in 3 minutes.

Ding! I repeat! Incoming Bee type Zerg. Level: Medium. Numbers: 3. Capabilities: Flying speed, Paralyzing Poison, and short teleportation. Coming at the rear! It will arrive at our location in 3 minutes.]

The twin cursed, "Fuck! A mid-rank zerg that could teleport!?"

"Is that even fair!?" complained Han Ling.

Qu Yul said, "Stop bemoaning. Be thankful that it could only teleport at a short distance or it would have long appeared in front of us!"

"Get ready! It's about to teleport here!" said Bai Yuyan. As a guide, his spirit energy is stronger than Qu Yeon's. So, he could feel the ripples in the energy around it, especially whenever it tried to use its skill to teleport.

Qu Yeon and the rest pulled out their weapons. Their formations had shifted, making Qu Yeon at the rear with the rest of the Sentinels all spread out of the group. The ordinary students all brought out an energy gun to protect themselves and support the team from behind. Feng Jing had already jumped at some treetops with the others spreading their formation further but for his case, he was out there by Feng Wu for his safety.

KRRIEK. KRIIEEK... KRIIEEK~

After the words Bai Yuyan had spoken, a certain movement could be heard from the direction the program had informed them just now. As expected, three huge black bees came flying towards them. Qu Yeon jumps on one and fights it. The moment he did that the other two bee-type zerg had teleported.

The guides shouted, "At the right at five o'clock and eight o'clock at the left!"

The two zerg appeared at what their guides had announced. The sentinel guarding the right and left had a jump of the exact location before the bee completely appeared. Xue Ran, Han Ling, Qu Yul, and Bau Yuyan held a sword slash towards those directions.

KRIIEEEEEK!!!

Han Ling reacted, "Damn! They've really teleported in these coordinates."

"Keep slashing! That's a mid-sized zerg. It wouldn't die with a single slash." said Qu Yul.

Tang Yi and Tang San support them and Qu Yeon with energy guns. Tang Si is supporting him with his spirit energy causing confusion to the mind of the zerg. Si Shen and Wu Liu did the same for the other two teams. While the ordinary people like Solaris Vega and the rest were helping in keeping the area safe just in case something else appeared on their location while some helped in providing support by sending spare energy bullets and so on.

At the tree branches, Feng Jing and Feng Wu were watching the rest of the fight. As he had said before, he wouldn't help them unless they were in a life-and-death situation.

"Hm? A'Wu at 6 o'clock in the rear. There's one high-leveled zerg coming. If it suddenly came over here, these children would get distracted. Kill it and return." ordered Feng Jing.

Feng Wu saluted and said, "As you ordered, my lord."

With a single step towards the pointed directly at the rear, Feng Wu disappeared, obviously, his speed isn't what an SS rank Guide should possess.? After all, like Feng Jing, he isn't originally from this world.  
moveusb.com

The group of children took an hour to defeat three mid-sized zergs but they weren't too tired as this is what they had trained for. At the moment the death of the zergs had been confirmed, their communicators had all ring.

[Ping! You have killed three mid-level zergs and one high-level zerg. Your team had gained 1900 KP. Your total KP is 2900. Work Hard!]

---

[A/n: To those who might have forgotten about the legend for the Mapping Target program and Killing Point List.]

Legend: [ Mapping Program]

Humans: Green. [Injured: Yellow, Dead: White]

Mutated Beast: Red [The darker the shade of red is the higher the rank it is. If dead then the red dot will be crossed out.]

Zerg: Blue [Low rank: Light blue, Mid rank: Blue-green, High rank: Blue-violet, Guardian Class: Blue-Green with a white halo. Royal rank: Dark blue with a gold halo. If dead then the dot will be crossed out.]

---

KP List:

Low-level Zerg: 100 KP each

Mid-level Zerg: 300 KP each

High-level Zerg: 1000 KP each

Guardian-level Zerg: 50,000 KP each

Royal-level Zerg: 100,000 KP
