

Worlds Plot 341

Chapter 341: 8.66 First Blue Star - Lin Yven

Meanwhile at Planet Citlali.

The students and soldiers had been training for a few days and so, together. They had spent more time together training and eating as a group. Because of this, talented students like Qu Yeon and the rest were liked by the uncle soldiers especially after they learned that they are members of Young Lord Feng Jing. Since most soldiers at the camp were soldiers that served Feng Yang, Marshal Sirius, and Regulus Zenith, Qu Yeon and the rest were treated amiably.

After all, their leader, Feng Jing, is the most beloved person for these three leaders. Like their leaders, they had always idolized Young Lord Feng especially after learning that like Marshal Sirius, he is an awakened one who possesses a potential above SSS-ranked potential. Not only is he young and talented, but they've also known that most of his members were geniuses at some specialties like Solaris Vega. A little genius mechanic is able to bring out every machine and gadget's capabilities at peak. Such a rare talent is protected and admired by anyone of all ages.

Plus, no one is blind enough not to know that Young Lord Feng Jing is officially the guide bound to their Marshal. The permanent mark on the nape of Young Lord Feng Jing is the greatest proof that this pair is together already.

But there are still some who couldn't accept this fact. There are lots of guides who don't believe that their Male God Marshal Altair is already a bound man. The one who couldn't believe it the most is Navi Naja. He had always adored and liked the marshal. He is one of his brainless fans. His face had completely healed and had been attending the training for the guides but ever since everyone learned what he had done to Feng Jing and how angry the Marshal was with him, most of the students had stayed away from him. novelusb.com

His former subordinates had also treated him like a plague and chose to ignore his orders. When he tried to threaten them, the soldier guide would scold and punish him for going against the rules of the military. Because of this, Navi Naja has been very stressed lately.

He had been staying with his father in their Clan's battleship. The Royal Prince had been called by the Imperial Crowned King most of the time and Navi Naja had no face to see King Zenith. That person had hated his guts ever since he had cursed at Feng Jing. This person is that bastard's brother-in-law. It is no wonder that he is also overprotective of Feng Jing.

Currently applying for skincare after taking a bath, Navi Naja was watching some news at the Star Network. He had also seen how much the people had cursed and attacked him online. His outburst that day was turned into an evil ugly Meme. The gentle and virtuous he had made all these years were destroyed in just one day.

He's been fighting online every time he finishes his training but even after hiring some people to help him whitewash no one no longer wastes their time on him. After all, the Royal Family had a press conference about the current situation at Planet Citlali.

The rumors of Royal Class Zergs coming to the planet were theories found online. Someone even said that there might not be only one pair of Royal Class zergs coming. Even saying that the battle that will happen in Planet Citlali is deadly and there is no reassurance that the students left behind would be able to survive.

There is also positive news about the existence of two SSS ranks paired leading the battle. With Marshal Sirius and Young Lord Jing being there they would definitely win this war.

Much more news about the sudden awakening of a few ordinary students had taken the eyes and interest of everyone. Lin Yven, Solaris Vega, and the Shi Brother, Shi Wen, and Shi Lou's names had been a hot search because of this. The others have always thought that the potentials of the human race had been decided since birth. Those who are born ordinary can only be an ordinary person and those with special bloodlines can become an awakened people.

But thanks to the existence of Solaris Vega and the rest, everyone knew that even it is late it is still possible to awaken. That being an Awakened one is not only due to the special bloodline your family possesses but also because of talent and hard work.

They've also guessed that this change might have something to do with Young Lord Feng Jing. After all, he is the only guide who possesses the strength above SSS ranks. An immeasurable being like Marshal Altair. But for some reason news about this is being diverted to the news about the incoming war instead.

Seeing the photos of Marshal Altair and Feng Jing all over the Star Network makes Navi Naja enraged. He had always dreamed of marrying someone like Marshal Altair and couldn't believe someone like Feng Jing was able to do it instead of him.

Jealousy and Envy fill his heart, if Feng Jing is in front of him he would have definitely stabbed multiple times to show his anger. But unfortunately, he couldn't even see him during training, and because he is the highest-ranked Guide in the camp no one forced him to train with them.

Though it seems that Solaris Vega and Lin Yven are able to visit him. The Marshal allowed only these two from their group to visit them. First, because Feng Jing wanted to teach these newbie guides how to control their spiritual qi and second to avoid them being bullied by Navi Naja.

Navi Naja mumbled in anger, "How come someone like you exists!? An above SSS ranked guide? Hmph! That is only a myth. This bitch is definitely doing something to make the marshal love him. Fucking Vixen!"

Feng Jing doesn't have to worry about the other guides of his team as most of them are strong and paired. Their Sentinels would be protecting them even if he is not there.

Fallen Gods Battleship.

Feng Jing and the Marshal's Quarters.

Inside the room, Feng Jing is usually resting on the bed until his vessel is fully repaired. Not far from him Solaris Vega and Lin Yven were sitting in lotus position meditation to increase their control over their qi. Feng Jing was watching over the two. It didn't take a while for them to finish this current set of training.

Solaris Vega and Lin Yven finally opened their eyes.

"Leader! I did it. I can create a thick and solid barrier now," said Solaris Vega while being excited by the results of his training.

Feng Jing observed the barrier around Solaris Vega. Though it is still not an absolute barrier like he possesses, he should be able to block attacks from at least a Guardian Class Zerg.

"Hm~ not bad. Right now you should be able to block an attack from an S-ranked awakened person and a Guardian Class Zerg. If you train a few more times you should be able to increase the duration of your barrier. How long could you put it up?" said Feng Jing. He was asking the two of them, both Solaris Vega and Lin Yven.

Solaris Vega answered with an unsure tone, "Half an hour?"

"Same as above," said Lin Yven.

Feng Jing said, "That's quite good as well. That will be all for today's training. You can take a bath here as usual before you leave."

"Xiao Vega, go ahead first. I'll take a bath after you," said Lin Yven with a smile.

The former nodded his head and excitedly headed for the bathroom. The bathtub inside is so big that Solaris Vega thought he could swim in it. He wanted to take a bath with Lin Yven but he knew that his friend must report a few things to their leader first. So he took his change of clothes and headed to the bathroom to take his bath.

Lin Yven knelt on one knee before Feng Jing and wait for the latter to speak. Like Feng Wu and Bai Yuyan, Lin Yven choose to serve Feng Jing after awakening as a guide. He is now the third aide of Feng Jing though this position is hidden from others. After all, he chooses to become Feng Jing's shadow.

Feng Jing said, "Sigh~ you are even following A'Wu's bad habit of acting too formal. Can't you follow A'Yu's actions instead?"

"Yuyan will sooner or later become Lord Jing's brother-in-law. He would no longer be your aide when that time comes," said Lin Yven with a smile.

Feng Jing recalling his elder brother's silliness when Bai Yuyan is around could help but roll his eyes, "Tsk! It's dage's fault for stealing my A'Yu! By the way... Yven, I am not as stupid as my elder cousin Xue Ying. I know it was you who helped him purify his mania when I checked on him the last time.

I recognize the aroma of the pheromones of everyone in our group. The only one who possesses the scent of lavenders is you. Ying-gege had been looking for you and I've also helped you hide it. Except for him and me, no one else knows what scent the qi entered Ying-gege's spiritual domain.

Yven, when are you going to say that you are the one who saved Ying-gege? If you are able to enter the spiritual domain of my brother without getting hurt means your compatibility with him is quite top-notch. What do you plan to do next? I will support any of your decision."

Lin Yven lowered his head in guilt but he didn't regret saving Xue Ying. That person had saved his life once when he was still an ordinary person.

"I... I don't know. That person is not only the Lieutenant General that serves the Marshal directly. He is also one of the golden bachelors of his generation. As well as the heir to Xue Clan. But I... Not only I used to be an ordinary person. He... He also doesn't know who I am..." mumbled Lin Yven. His voice was undertone as if whispering but Feng Jing could still hear his words clearly.

Feng Jing didn't expect that Lin Yven, despite his confident demeanor is quite low esteem towards the things and people he likes.

'This might be because of his elder brother. Talented and born awake. They are brothers but the difference is like a Sun while the other is a moon. One glowing brightly full of talents and potential while the other can only hide behind the sun low keyed and silently enduring.' Thoughts of Feng Jing.

Chapter 342: 8.67 First Blue Star - Lin Yven's Past

Lin Yven obviously doesn't feel like he could become someone like Xue Ying's future partner. Their standing is different and they don't have much interaction like what other couples have before they become a pair. He only secretly admired Lieutenant General Xue Ying as someone who had saved him before.

A long time ago, the Clan of the White Tiger had been one of the few noble clans. They are well known for their strength which could almost rival the power of the dragon race during a full moon. Most beasts were strong under the guidance of the full moon like werewolves. But a White tiger is another mythical creature like the dragons and phoenixes. Though they weren't as high class as the first two races, the White Tiger and Black Turtle were quite well-known for being demigods.

As more time passes only the four great mythical beings had all died and only their bloodline was passed through time. When Oberion Empire is made, these four great bloodlines become the pillar of the whole Empire. They each possess bloodline skills which are unique to their race. The white tiger's special skill is berserk transformation.

They can change a part of their body with the characteristics of a white tiger and use it to fight the others. The White Tiger is a mythical creature well-known for its speed and strength. Those descendants who are able to awaken their bloodline can use this kind of potential.

When Lin Tian and Lin Yven were born, as few of the direct descendants of the White Tiger race, they were supposed to be born with the ability to transform. The elders of the Clan were all looking at these two boys with hope glittering their eyes. There had been lesser descendants of the White Tiger Clan after the main branch had all died in the last Human vs. Zerg Battle to protect the Empire. Lin Tang was the only remaining one from the main branch and because of this, his descendants were treated as the leader of their clan.

Major General Lin's son, Lin Velvet is a famous fighter in the Federation. His strength is beyond what a normal S-ranked Sentinels should have. But unfortunately, the White Tiger Clan to lessen the number of their enemies chose to stand at the sidelines and never once again took the step to be the one in the spotlight.

Lin Velvet had declined his promotion to the General position multiple times. The White Tiger Clan is afraid that the other clans might target their small clan for having a lesser number of descendants than the rest of the Big Clans. Even after merging the main and branch families the White Tiger Clan's number is still lesser than other clans. If not for their special bloodline, their White Tiger Clan would definitely be removed from the list of the Four great clans of the Oberion Empire.

Lin Tian and Lin Yven were brought up with all attention and hope on their shoulders but as soon as they've reached the age coming ceremony only Lin Tian was able to awaken as a Sentinel. He was also born as someone with the purest bloodline of a white tiger in his veins. As the eldest descendant of the main branch, Lin Tian was already seen as the future heir of the Lin Clan. movelus.com

On the other hand, Lin Yven is the opposite. He had never awakened like his brother. Instead, like his mother, he is born an ordinary person. He lost the attention he used to have after the day of his age ceremony. After learning that he is just an ordinary person, the elders of his clan had totally lost interest in him and were treated like he didn't exist as someone from the main family.

His Grandfather, father, mother, and elder brother protected him from harm that came from the other. Their hurtful words, those disgusting gazes, everything was hidden from him. Until that day when his Grandfather and father had left for a mission and his Elder brother was out for training.

With only his mother on his side, those who held back their dislike on the two of them had all lashed out hurtful words and bullied them. With no one protecting them, there were even some that tried to assassinate Lin Yven.

Lin Yven was only in middle school at that time. He was only 13 years old when that happened. He was on his way back from home when suddenly a group of hooligans had pulled him over to an alley and pressed him on the ground. He was beaten until he couldn't even breathe properly. His face was swollen and bruised and his voice was hoarse from screaming for help.

Lin Yven screamed while being punched and kicked, "Save me! S---Save... Me!!!"

Just when he thought he would finally be stabbed to death, a looming shadow had fallen over Lin Yven. Followed by a cold and irritated voice shouting towards them.

An angered yell was heard coming over someone, "You motherfuckers! What the hell are you doing!? Don't hinder this Laozi's mission!!?"

"Ouch! S-Stop... Do you not know who we are..."

"Fuck you! Laozi doesn't care about you mutts. You made me lose sight of the boss!"

"URgh! Bastard! I will end you!"

"End your ass! You are just gangsters! Daring to molest someone in public! You are beasts!"

"S-Shut up! Mind your own business."

"I'm minding it on my own! Since I already lost my boss, I will beat you guys up from pissing this Laozi~"

In the corner of his eyes, Lin Yven saw that person's silver hair glittering under the sunlight. With a chill aura surrounding this person, he saw him beat up the hooligans who tried to rape and kill him afterward. Lin Yven saw how that man fights, he is trained and most likely a soldier. With half of his face covered, only those silver hair and eyes can be seen. This person is cadet Xue Ying.

He was on a mission with Altair Sirius to catch some escapees from the prison as their first mission. They were working as a pair but Altair Sirius at this time only does his mission alone. He will leave anyone who couldn't follow his lead and sadly Xue Ying becomes that dead weight that was left alone.

In his rage, Xue Ying could only beat up these bastards that made him remove his sight from his boss and instantly lose him. If not because he heard Lin Yven's shout for help he definitely wouldn't be left alone. After letting off steam as he beat up these bastards to half death, Xue Ying finally remembered he was supposed to be the victim.

When he turned around he saw a child with bruises all over his arms and face and glaring at him with frightened eyes. What caught Xue Ying's attention is the slender figure of the child and made him look a bit malnourished. He had even mistaken the child for a little lady.

"Girl, are you alright?" asked Xue Ying as he kept his distance.

The young child didn't reply but Xue Ying noticed the cut on the corner of her lips which she got from being punched on the face.

"Shit! What the hell are these bastards?! Beating up a girl. There is a problem with their heads!" exclaimed Xue Ying to himself as he looked all over his pockets at the healing concoction the Federation distributes to all soldiers. As a cadet, he was only given a 3 low leveled and 1 mid-level Healing potion. He found one of the low leveled potions and rolled it towards the terrified child.

"Drink. It will heal your injuries. Moreover, go home straight. The alleys during the night are dangerous," warned Xue Ying before taking his leave to look for his boss who heartlessly left him. Before he left, he heard a soft yet low voice telling him, 'Thank you for saving me, Big brother'. A smile appeared on Xue Ying's face which is totally opposite of his freezing aura. He took his leave and disappeared in the corner like how he had suddenly appeared.

Not long after, a shuttle stops at the other end of the alley and the figures of Lin Velvet and Lin Tian come out of the car. They run over to where the locator says the youngest is. They were astonished by the fact that when they got home, they saw a group of men beating up the lady of the house. Just before they killed her, the main members of the Lin Clan had returned home.

Lady Lin had begged her husband to look for their youngest child. She heard from those men who tried to kill her that they had also sent men to assassinate her youngest son.

"Yve!!" Yelled worriedly when he saw his youngest brother's current appearance. He couldn't stop himself from hugging his brother as he felt guilty leaving his mother and brother alone in that cruel clan. He should have stayed with them. Thinking of this, tears couldn't help but fall from Lin Tian's eyes.

With a hoarse voice, Lin Yven whispered, "Don't... cry. I'm... fine, gege..."

With trembling arms, Lin Yven hugs his big brother. Though he knew that they weren't at fault, the sufferings he and his mother had suffered for a whole month left him a bit traumatized. Because of this, the main branch of the Lin Clan had to once again separate the branch family and ask them to live on their own. There were some angered voices from the crowd but they were all put down once General Lin was enraged and almost killed the rest of them.

The Lin Family tried to ask Lin Yven who saved him but the child said he didn't say who it was. All the child said that the person who saved him feels like the snow. Cold yet beautiful.

Back to reality, Lin Yven told Feng Jing some details about his past. The details were a bit vivid but it is enough for someone else to imagine how a younger version of his elder cousin, Xue Ying, saved a 13-year-old Lin Yven.

"At the time, I didn't know that he was Lord Xue Ying until I saw him on the Star Network standing beside Marshal Altair smiling as he had always been," said Lin Yven. "At that time he keeps calling me, little lady that I wish to beat him up with but my body is too weak to fight back."

Feng Jing felt into some thoughts as a certain recollection from the original Feng Jing flashes through his mind.

"Is it the hidden alley near the All-girl middle school?" asked Feng Jing.

Lin Yven said, "Yes, I need to walk past that middle school for girls on my way home. I didn't expect I would get ambushed in that place as well. Normally, there would be patrolling guards in that place but only afterward, I learned that the middle school was closed for two days because of the serial murderer who had escaped from prison. I was lucky myself not to bump into the murderer itself."

"At that time the officials were hiding the news about the escaped murderer to avoid pain from the masses. But it seems that someone from your Clan had taken that as a chance to kill you and blame the murderer for your death. Ying-gege and Sisi were on that mission, to capture them back and... If I remember it right, Sisi seems to want to beat up Ying-gege for suddenly separating from him during the mission and having to come back to get him. They were both penalized," said Feng Jing.

Lin Yven said, "Then he must have really heard my yells for him to ignore his own mission." When saying this there is a small smile on his face as if he is extremely happy that the person he likes indeed is a good person.

"By the way, Yven I also heard..." Feng Jing whispered the rest of his words to Lin Yven's ears and the contents had made the latter blush uncontrollably.

Lin Yven couldn't help but cover his crimson face with both hands as he could hear Feng Jing laughing beside him. This was the scene that Solaris Vega had witnessed after he got out of the bath and left him bewildered.

Hahahaha~

"Did I miss something fun?" asked Solaris Vega.

Feng Jing responded, "Well~ you should ask little miss fairy here about it~"

"My lord!~" called Lin Yven as he knew that his lord was teasing him.

Lin Yven ran into the bathroom as soon as he saw Solaris Vega get out.

Solaris Vega murmured, "Can't you just tell me what happened?~"

Chapter 343: 8.68 First Blue Star - Xue Ying's Confusion

Story of the past. Xue Ying's POV.

After he had left the frightened little young lady at the alley as he noticed the incoming shuttle going towards their location, Xue Ying immediately took his leave but didn't leave the scene completely and watched what would happen next and how those men inside the shuttle would treat the young lady. When he saw the scene of the two men, One young and one old, running urgently towards the little girl, he knew that they must be her family.

"The little fairy's name is Yve ha~ It suits her well~" murmured Xue Ying.

Suddenly he got hit on the head, he was about to retaliate only to freeze when he saw his supposed mission partner with a dark and enraged expression on his usual cold face.

"B-Boss?!!" exclaimed Xue Ying in shock and fear. "Please don't hit me anymore. I really heard a girl scream in this direction. I thought it was the murderer attacking someone but it was a group of gangsters trying to molest a young lady!"

Xue Ying tried to explain more about what he did and didn't notice Altair Sirius looking at the emotional scene happening below them.

'That man is... General Lin Tang's son, Lin Velvet and Lin Tian the future heir of the Lin Clan. Then that means... that little one is not really a girl but the youngest son of Lin Velvet, Lin Yven.' Thoughts of Altair Sirius.

He then move his gaze and stare at the stupid fool telling him how he had saved a beautiful little fairy and felt that he might have fallen at first sight and would be waiting for the young lady to grew up before he courts her or something.

Altair Sirius sighed and said, "Ha~ You are a fool, Ying."

"You are just jealous~" murmured Xue Ying.

Altair Sirius beat him up and then he had dragged Sirius to resume their mission only to get penalized and Xue Ying got beaten for the second time all night by Sirius for getting punished with him when all he had done was pick up the lost fool.

Back to reality.

Inside the battleship owned by the Fallen Gods Unit.

Lin Yven and Solaris Vega had just finished their training for today and just left the room where their leader is and let him rest. They were told to have their dinner first before leaving the ship and returning

to their designated tent where they sleep. On their way to the cafeteria, they had bumped into the Marshal and Lieutenant General Xue Ying who just returned from the meeting with the rest of the present generals on the planet. They were making plans for the incoming war that was looming on Planet Citlali.

Lin Yven could still hear the words Young Lord Jing had told him about. This is about Lieutenant General Xue Ying not only mistaking him for a girl but also how he treated him like a little fairy. Recalling this not only made the young man embarrassed but he felt that he wanted to hit the latter's face as well.? Calling a young man a little fair? If only he wasn't hiding the fact that it was him who had helped Lieutenant General purify his mania, Lin Yven would have definitely complained to his face.

Before they crossed each other's path, Lin Yven and Solaris Vega heard the content of their two superiors' conversation.

The marshal asked, "You still didn't know who helped you purify your mania?"

"I don't know. There were lots of people who visited me that day. A'Yang that jerk even told me that he left me alone to spend time with his wife that day. Since the surveillance cameras in the prison room were intentionally turned off, all paths to look for my benefactor had turned to poof!" said Xue Ying.

The marshal retorted, "Or maybe your savior doesn't like you at all and only helped you because there is a war coming on our way. If not for the fact that you are so annoying, your benefactor must be avoiding you. Now that you have a mysterious guide with that much compatibility, I suggest that you look for that person instead of daydreaming with that little fairy of yours from the past."

"What are you saying, Marshal? My little fairy, Yve, is definitely there somewhere. By this time, she should have grown up to become a beauty waiting for me to marry her!" said Lieutenant General Xue Ying.

The marshal says, "Little fairy ha? Maybe it's because you call him by that silly pet name that he is ignoring you."

"What's wrong with a little fairy? Aren't girls supposed to like being called as such?" said Xue Ying but when he turned around he noticed Lin Yven glaring at him with angered-filled eyes.

Flinch!

Xue Ying was startled that he had stopped walking all of the sudden. He couldn't understand why his body suddenly froze under the gaze of this young man called Lin Yven. Standing beside Lin Yven is the innocent child Solaris Vega, who was moving his eyes to look at his friend and his superiors. Hesitating for a moment if he should stop Lin Yven from glowering at Lieutenant General Xue Ying or salute to their two superiors.

Marshal Altair's thoughts upon recognizing Lin Yven, 'Isn't this child the one whom Xue Ying had mistaken for a girl and had a crush on for years?'

Solaris Vega whispered, "Y-Yven, it's the Marshal and Lieutenant General Xue Ying."

Only then did Lin Yven remembered where he was and saluted his superior with Solaris Vega.

"Greetings to the Marshal and Lieutenant General Xue Ying!"

Marshal Altair nodded his head in return for their greetings but his right-hand man, Lieutenant General Xue Ying stood still for a few seconds just staring at Lin Yven. As if thinking why Lin Yven is angry and glaring at him. Lin Yven no longer waited for the reaction of Xue Ying and walked away after greeting the two. Solaris Vega who couldn't understand the situation was dragged away by his friend with confusion imprinted on his face.

Only when the two students had disappeared from their line of sight that Xue Ying had snapped out of his daydream. The marshal who was intending to kick the shin of his subordinate stopped as he noticed the weird expression on Xue Ying's face.

"Marshal~ for some reason I think I know that young man from somewhere but I couldn't remember him. Isn't he from Xiao Jing group?" asked Xue Ying. movelusb.com

The marshal replied, "Must be... the only room in this direction is our room."

While his thoughts are, 'Did this fool not recognize Student Lin Yven at all? It's pretty much obvious that my wife had definitely told the latter about the ridiculous pet name he give the young man. That anger just now... It feels like Student Lin Yven wanted to beat up this idiot.'

Wearing a bewildered expression on his face, Xue Ying asked his boss, "Marshal, why do you think he hates me? I didn't do anything to him at all. Did you see his glare just now, it was as if he wanted to beat me up!"

The Marshal sighed at how blind Xue Ying is to not even recognize his grown-up crush. Then thinking about everyone from his guide's group to be awakened, he remembered that Lin Yven had become a guide. He could already guess the identity of the mysterious guide who cured this idiotic subordinate of his.

"So it was him..." murmured the Marshal.

Xue Ying commented, "Marshal you already have my adorable cousin, Xiao Jing as your other half. Please stop looking at the other guides!"

Marshal Altair gave his subordinate a glare and gave him a look as if he was staring at a brainless fool. His wife hasn't forgiven him yet, does this moron think he had time to waste on other people.

"I only love my Jing'er and you are accusing me of looking at others! Xue Ying, do you want to die?" a dark aura surrounds the Marshal making Xue Ying step away in fear.

"B-B-Boss... Calm down... I was only... joking ba~" said Xue Ying.

"Hmp! It's because you treat most things half-heartedly that you couldn't even see what you are looking for. Anyway, you should go and maybe accompany those two guides to the cafeteria and send them back. There are too many unpaired sentinels in the ship. Stop them from bothering the two students. I'm going back to see my wife," said Marshal Altair and walked away after giving his friend a fierce glare accusing him of cheating on his wife. "You blind fool. Go away!"

Xue Ying watched as his boss walked away in anger. He had a helpless smile on his face and knew that he shouldn't have said those words. After all, his cousin and his boss are still in a quarrel. With Feng Jing still ignoring the marshal all the time. In the end, he could only follow the boss's orders and head to the

cafeteria to escort the two newly awakened guides and stop the other soldiers from courting death. If his beloved cousin learned that their people had harmed his people, Feng Jing would definitely get angry.

If Feng Jing gets angry means that his boss would definitely be enraged too. When that happens the one who would suffer the most would be most likely him. After escorting Lin Yven and Solaris Vega back to their tents, Xue Ying who glared at them all the time was confused as to why the latter had hated him a lot.

The glaring Lin Yven surfaced every time he saw Xue Ying. He was glaring at him like he was his mortal enemy. It lasted for a few days that even the other soldiers and his family noticed that Xue Ying has received glare most of the time they've met. Xue Ying still didn't know why Lin Yven was glowering at him. This interaction between them lasted for a few days until Xue Ying could no longer hold back and summoned Lin Yven to the main tent.

The meeting for that day had just finished and the only ones inside the tent were the marshal, Feng Yang and King Zenith. They were planning about how to split the groups and where they would be positioned. Right now, they are taking a short break.

Regulus Zenith asked the Marshal, "Marshal, is Xiao Jing still angry?"

"A bit. He still ignores me sometimes but... he would also talk to me for a bit," replied Marshal Altair. "He is starting to look at me more often than usual."

Feng Yang commented, "It was your fault anyway, Brother Sirius. You shouldn't have jumped into the enemy's traps like that. Xiao Jing was very angry when he didn't see you in the hidden mansion in the central region. Now that mansion is nothing more than a pile of ashes." holding a cup of coffee in his hands, "I have also told the elders about what happened to you and Xiao Jing. They said that after this war the engagement party would no longer happen and the two of you would get married right after."

"I will call them later. Now that I have left a permanent mark on Jing'er it is only right that I take responsibility for it. I will marry Jing'er when we get back to the Empire," declared the Marshal.

King Zenith also agreed to the marshal's decision. "This is good."

"True. But I think you would still be beaten up by the old men when we got home..." said Xue Ying with a huge grin on his face.

The Marshal gave the letter a cold glance and said, "At least I'm getting married while you still haven't found the guide that helped you with your mania. So useless..."

Regulus Zenith and Feng Yang laughed at Xue Ying after hearing the words the marshal had said. They also knew how hard Xue Ying is looking for the mysterious guide who cured him.

Xue Ying glared at his cousin, Feng Jing, "A'Yang! You truly do not know who had cured me!? I've heard that it was you and Bai Yuyan who carried me back to the ship."

Feng Yang gave Xue Ying a meaningful smile. Of course, he knows the identity of that guide. But unfortunately, his fiance had solemnly warned him not to tell Xue Ying about Lin Yven. After all, the

latter doesn't seem to like Xue Ying that much. He had also witnessed Lin Yven glaring at Xue Ying once they bumped into each other.

Intentionally changing the topic, Feng Yang asked. "By the way, A'Ying, did that student named Lin Yven your past lover or something? I've seen him glaring at you like he wanted to beat you or something."

Hearing this question, Xue Ying couldn't help but slumped his shoulders and said, "Even I don't know! He keeps glowering at me whenever we meet. But I swear I've met him the first time when Xiao Jing and his group boarded Fallen Gods' ship on our way here."

Chapter 344: 8.69 First Blue Star - I only like girls!

The bewildered look of Xue Ying almost made Feng Yang laugh. Except for him, the marshal and Regulus Zenith also knew that the guide that had cured Xue Ying's mania is none other than Student Lin Yven. But for some reason, the young man doesn't wish to tell Xue Ying that it was him who had helped him. They didn't hear the reason why but since the student doesn't want to inform Xue Ying, they are willing to keep this a secret as the one asking is the savior who cured their family member.

By the orders of the Marshal, King Zenith and Young Lord Feng Yang, no one in the camp dared to tell Xue Ying anything about the one who had to save him. But some had already misunderstood, after all, they weren't blind enough not to notice how scary the glare Student Lin Yven is giving Lieutenant General Xue Ying and they all thought that these two had been quarreling.

Feng Yang taunted his cousin about his love-hate relationship with Lin Yven.

"Pfft! You fool, what did you do for Student Lin Yven to hate you so much? He glares at you every time you meet each other~ Hahaha!" said Feng Yang.

At this point, neither King Regulus Zenith and Marshal Altair Sirius could almost no longer hold back laughing. The sound of muffled laughs can be heard coming from these two. Though they didn't know the reason they could still somewhat discern that the child's anger is that deep one. Moreover, he had been teased badly by something and was now pouting by glaring at Xue Ying.

PFFFFTTTT~

Bewildered Xue Ying said, "Don't laugh! I really don't know why he hates it as well, okay!? He glowers at me every time we bump on the way. Glares at me at the cafeteria every meal and even throws some piercing stares during training. I definitely don't remember doing something to that young man! Even though his face is my type, I only like girls!"

Hearing Xue Ying's declaration Feng Yang and King Regulus Zenith no longer hold back their laughter. The sound of joy was echoing inside the main tent. What they didn't expect was that at this moment, a small group of students was about to enter the main tent. Led by Feng Jing who came over to finally report to the military by asking his Sentinel's permission, Bai Yuyan, Lin Yven, and Feng Wu, came with him to support him as his aides.

They've also heard the declaration made by Xue Ying, this idiot. Dumbfounded, they are few people who knew about Lin Yven saving Lieutenant General Xue Ying of his mania and his secret admiration for the person. The words spouted by Xue Ying were like a rejection to Lin Yven knowing that the person he likes only likes girls.

When Lin Yven learned about his sexual preferences the only hope that Xue Ying might like him even a bit had burst at this moment. His face paled in shock and sadness that everyone could see that he was almost about to cry. This left even Xue Ying speechless.

Lin Yven's voice trembles as he says, "I... I also... don't... like you... at all!" as every word came out of Lin Yven's mouth his tone turned colder and indifferent. His eyes were at Lieutenant General Xue Ying's face glaring at him with teary red eyes.

Lieutenant General Xue Ying stood there like a frozen pole but his eyes never left the crying figure before him. The moment he saw Lin Yven avert his eyes from him left a pang in his heart. It was uncomfortable and much more painful than the torment he had suffered during his mania. Now he felt that something had gone missing inside him.

Lin Yven looked at his Young Lord and said, "My Lord I am not feeling well. Would you please excuse me for today?"

"Go ahead, Yven. I will tell the instructor that you aren't feeling well. You may go," said Feng Jing while Feng Wu gently pats Lin Yven's back in comfort and Bai Yuyan glared at his fiance, Feng Yang. Lin Yven took his leave right away after receiving permission. His eyes had never wandered back on Xue Ying again.

"I... W---!"

Xue Ying instinctively reached out to stop Lin Yven only to feel cold all over his body. He saw his feet covered in ice and looked at the culprit who caused it. Right now, the adorable face of his beloved cousin is tainted with a frown as he stares at Xue Ying with a warning in those crimson irises which look like garnet from the distance.

Feng Jing said, "Stay there, Ying-ge. Sisi, I'm going back to training." Then he also left the tent before the marshal could even speak.

Feng Wu follows without any second thoughts and even bumps into General Drake on his way out.

Drake Izar exchanged gazes with Feng Wu and flinched when he saw the latter's eyes narrowed at him. He knew that Feng Wu must be cursing him in his mind.

"S-Sorry..." said Drake Izar but Feng Wu just rolled his eyes on him and walked past ignoring the Major General who was starting to look like a kicked puppy.

Meanwhile, inside the tent, Bai Yuyan's eyes were telling Feng Yang that 'Solve that cousin of yours and make him stay away from our friend.'

Feng Yang said, "Honey~ it has nothing to do with me!"

But Bai Yuyan only hmped at him and ignored his lover himself, as he knew that Xue Ying was at fault then followed his young lord. On his way, he almost bumps into Major General Drake. The latter tries to move away only for the world's energy to restrict his movements. Feng Jing noticed that reaction from the vessel of Warden Lou and had to spread his qi to reflect the control of the world's influence on Drake Izar making the latter freely evade Bai Yuyan who almost hit him.

The special moment in the story plot of this world was avoided and Drake Izar broke the first love encounter flag he had with the Protagonist Shou. Bai Yuyan didn't even move his gaze on him, totally ignoring the latter's presence due to his bad mood.

Bai Yuyan yelled, "Xiao Jing, A'Wu wait for me!" as he ran after the two figures not far from them.

As for the atmosphere inside the main tent, it could only be called gloomy. With Feng Yang and Marshal Sirius glaring at Xue Ying and Xue Ying being in dazed. King Regulus Zenith, on the other hand, looks so out of place as he is the only one among the group of Sentinel who isn't in a bad mood.

Silence~

Major General Feng Yang picked a pile of paper which is supposed to be his workload for that day and put it in Lieutenant General Xue Ying's hands.

"I need to coax my future wife,"? said Feng Yang, and then he runs out to follow after his fiancée.

The Marshal asked the ignored Major General Drake, "Drake Izar, do you need something?" he asked.

"Hm, it doesn't seem like the right time to talk about work in this situation. But let me ask this instead: who is the one beside your wife. The one with fox-like eyes?" asked Drake Izar.

The Marshal asked, "My wife's aide, Feng Wu."

"Feng Wu... Wu'er? Nice name. Is he single?" asked Drake Izar with a happy expression on his face. This is rare to be seen on the original Drake Izar's face but the soul inside the vessel had been long replaced. Now the one occupying the body of this Major General is Warden Lou who is a subordinate of the Lord God.

To the eyes of the other three men inside the tent, Drake Izar might have fallen in love with Feng Wu at first sight which is normal for Sentinels who have unknown compatibility with a Guide. Sentinels would sometimes instinctively feel things about their guides. A sudden closeness, an affinity between them, and much more. This is why Drake Izar's sudden interest in an unpaired guide is normal in this world.

King Regulus Zenith answered, "Not one we know. But maybe as he is always beside our little brother, Xiao Jing,"

"That's also good. I'm going to ask him instead. See you later in the usual meetings." said Drake Izar planning to look for Feng Wu and so he took his leave.

The four of them watch the figure of Drake Izar walking away. It seems that this person had chosen not to talk about something serious for this moment after witnessing the whole scene of the younger group taking their leave in a not so good mood.

King Regulus Zenith mumbled at this sight, "Did he fell in love with Feng Wu at the first sight?"

novelusb.com

The Marshal also stood up from his seat and walked past Xue Ying after giving him a cold yet terrifying glance. He also left to check on his newly healed wife.

Xue Ying flinched when he saw such a murderous gaze from his own boss. King Regulus Zenith at this moment also stood up beside Xue Ying and patted his brother's shoulder.

"That was a wrong move, Ying, ~," said King Regulus Zenith. "You even made the young man cry. Based on his reaction he must have liked you quite a lot. Liked~"

This crowned king prolonged his voice for the last word and emphasized on it. Xue Ying was a bit ticked and glared at this brother-in-law of theirs.

"Don't say it in the past tense!" said Xue Ying

King Regulus Zenith said, "Hahaha, I'm just teasing you a bit~ Well thanks to you those two were no longer in the mood to work. Forget about A'Yang's side you had even accidentally involve Sirius's side. He and Xiao Jing's relationship haven't completely returned to normal. It is normal he is angry."

"I know. I don't even think Xiao Jing would come over with his friend just now. He... He was crying. Is it my fault?" said Xue Ying as he recalled the teary red eyes of Lin Yven glaring at him.

Putting his own pile of work on Xue Ying's hand like Feng Yang, "This King couldn't say it was completely your fault but... you are indeed not the lucky type as you ended this way. Of course, we know that you like girls but... how about that young man, Lin Yven. Why did you have to say that he is your type and then say you like girls? Are you comparing him to a young lady?" asked King Regulus Zenith.

Lieutenant General Xue Ying responded, "Of course not! It is pretty obvious that he isn't a female, why would I compare him to one!?"

"But your words just now are different to what you are saying right now? What you said before to our and Lin Yven's ears is that the latter is no better than a girl and you cannot like Student Lin Yven as he is a male," said King Regulus Zenith.

Xue Ying was dumbfounded as learning what King Zenith and the rest thought of the meaning of the things he had said just now. But I am still wondering how Lin Yven's reaction is that large when he said that he couldn't like him because he is not a lady.

"Based on your reaction, you do not seem to understand why Student Lin Yven reacted like that? Sigh~ Ying, I will give you a fastball. That child named Lin Yven most likely adores you. He was glaring at you before but he truly doesn't hate you. He only wanted a bit of your attention. He likes you a lot and most likely.... love you as a man," said King Regulus Zenith

Xue Ying said, "He likes me? Impossible! I mean I did not know him personally at all. Are you sure it is not normal like or admiration for an idol or something?!" He really couldn't believe that Lin Yven is in love with him.

Seeing his reaction, even a patient man like King Regulus Zenith feels like it is better to beat this moron than explain things in words. Obviously, that child's eyes glitter while looking at this idiot and only change into a glare when their eyes meet.

"Sigh~ you are dense aren't you, Ying? Anyway, take your time and think about things. You have been single for too long that you even notice when someone is in love with you. But a fair warning, now that

young man, Lin Yven, he would most likely avoid you after this." said King Zenith before walking out of the tent.

Chapter 345: 8.70 First Blue Star - Lin Yven in danger

After leaving the main tent in anger, Lin Yven walked away in large strides until he distanced away from the main tent where his superiors and the person he likes do their work. The words of Lieutenant General Xue Ying continue to echo in Lin Yven's ears.

'Lin Yven's face is my type but I only like girls'

'Face is my type but I only like girls'

'My type but I only like girls'

'But I only like girls.'

'Only like girls~'

Lin Yven continues walking and his speed is almost at the par of running away. His mind was full of things and the voice of that man who rejected him before he could even confess continues to linger in his head. His tears were falling on his face uncontrollably and Lin Yven didn't even notice it until he touched his wet cheeks.

"Huh? I'm crying?" Lin Yven dazedly looked in one direction as if he lost his soul. His face is full of tears because there is no expression on his face. "Do I even deserve to cry when I am just nothing in his life? I shouldn't have hope for his heart, something that isn't even within my reach. I was a bit full of myself. Just because I awakened as a guide doesn't mean I have the right to like him. After all, I am not a girl..."

The pain in his chest is excruciating. As if his heart was stabbed multiple times without him knowing why. The tingling pain makes his breathing erratic and could only gasp as he tried to hold back his voice preventing himself from crying out. Even after trying his best to hamper his cries in the end he couldn't go. A gut-wrenching cry can be heard echoing within the forest as Lin Yven curled himself under a tree.

It took a few hours before Lin Yven finally calmed down. His eyes were a bit swollen from constant crying. He was having a hard time keeping them open. When he looked around he was a bit startled and didn't expect to walk this far. Lin Yven didn't even notice that he had run out of the campsite safety circle and had arrived in the middle of the forest. He looked at the greenies and trees surrounding him. If it was a normal ordinary person he would not even know how to get out of this forest but thankfully Lin Yven had already awakened as a guide. Just by spreading his spiritual qi around him, he would be able to see which direction to go.

He saw a sight of the river not far from here and decided to wash his face as he felt that his face was a bit sticky. Busying himself with river water to cleanse his face, Lin Yven didn't forget to spread his spiritual qi in vigilance. This is something Feng Jing had taught him before. In the situation where he is alone, it is better to keep your qi unfurl around you as the center. This is to keep watch of the movements in his surroundings.

Lin Yven's potential as a guide is currently only B-ranked but his precise control over his spiritual qi is even above Si Shen and Wu Liu who had been a guide for a long time. He is someone who worked as an

assassin before, his techniques lead more in precision which is why when he awakened as a guide, his control over his own qi is quite magnificent.

Suddenly ripples appeared within the radius of 50 meters around him and Lin Yven abruptly turned serious. He instantly used his shadow techniques to hide his presence and the sound of his footsteps. Blending his figure within the darkness of the forest. Right now it is past beyond sunset, it is normally forbidden for someone to be outside of the campsite at this time. He used his communicator to activate the program Etoile.

Lin Yven whispered, "Etoile, activate the mapping mode. I need to know if there are people within the hundred radii around me."

[Ping! Affirmative, Host Lin Yven. Etoile activates Mapping mode. The holographic map had been upgraded by the creator. Identified personnel would now be labeled on the map.]

A few seconds after Etoile had responded to him, a holographic map appeared in front of him. Lin Yven navigates the map and looks at the presences detected in it.

There are at least 14 green dots on the holographic map. Their positioning is like meeting someone in the lead of their group. With one green dot in front of 13 green dots. Obviously, the separated sole green dot is most likely the leader. Lin Yven didn't hesitate to check the profile of that green dot.

As soon as the green dot was pressed, Lin Yven was stunned to see a familiar-looking name that labeled that dot.

Lin Yven murmured, "Major General Navi Itri. Navi Naja's father?"

In the beginning, Lin Yven was a bit confused as to why the General was outside the campsite after the curfew. The first idea that passes his mind is that the General might be doing a clearing mission with the others but after a short silence, the unease feeling in his heart didn't fade at all. Another concept had flashed in his mind, this one is opposite to the first one. A sinister idea that suddenly appeared in his head once he remembered that the Navi Clan had always hated the Feng Clan.

The bad blood between the Navi and Feng Clan is widely known within the Oberion Empire. As both clans were big ones, no one really wants to get involved with their conflict. But no one in the capital didn't know how much the Navis hated the Feng Family. Lin Yven followed his instinct and pressed all the other 13 green dots on the map. When the label says unknown, he knew that his bad feeling had gotten real.

Seeing this Lin Yven tried to contact his lord to inform him about this. He hesitated for a moment as he didn't know if the latter would believe him without any proof. Then he remembered Etoile,

"Etoile, are you able to make a video recording of these people?"

[I could but the possibility of the other side noticing Host Lin Yven's presence would be 30%. Right now, Host Lin Yven's presence is guarded by Etoile, to record those humans I will need to move more than half of my attention to that side. I suggest the host prepare an escape plan if you are willing to do this. Moreover, the whole forest was jammed by some kind of machine interference. Even for Etoile, unless we got out of their radius I couldn't send a message to my creator. If Host Lin Yven is going to do this. Your life would be placed in danger.]

Lin Yven fell into deep thoughts as he weighed his life over the discovery of Major General Navi Naja's betrayal. When he thought that the target happens to be his lord, it didn't even take a minute for him to finalize his decision.

"Do it Etoile."

[Are you sure, Host Lin Yven? This is a deadly mission that is beyond your capabilities.]

"I am sure. Between my life and the safety of one of the pillars that protect the Empire, there isn't much a choice," replied Lin Yven

[Understood. Host Lin Yven, I wish you good luck!]

Lin Yven smiled when the truth is that he is afraid of death but at the same time he is proud as a citizen of the Oberion Empire.

"Etoile I want to make a video for my parents and big brother. Can you give it to them if I ever... ended up dying in this mission," said Lin Yven.

[As you wish...]

"Thank you, Etoile."

After a few minutes of preparations, Lin Yven and Etoile did as they planned to do. Lin Yven found the shortest route back to the campsite and let Etoile capture the recording. While Etoile is doing that Lin Yven is talking to his Liger in his mind space, he was planning on summoning his quantum beast and dashing back to the camp. He was going to ride the back of his Liger and blocked everything for his summon just so he could return to the camp whether alive or not.

Within the forest in the middle of the night, right now the sun had fully set and the atmosphere within the forest had turned eerie. Within that darkness, Major General Navi is currently having a conversation with his clan's men whom he summoned from the Empire. As he plans to assassinate the youngest lord of the Phoenix Clan, Feng Jing, he couldn't use the subordinates that landed on the Planet with him. As everyone in the camp had submitted a list of names of every ship to the Marshal to tally the total number of official soldiers.

Major General Navi said, "You guys are finally here."

"We greet the Clan Leader!"

General Navi, "It is good that you have come."

"Clan Leader, is it true that the Youngest Phoenix Descendant is an awakened one?"

"Much less an SSS-ranked guide like those in the legend!"

General Navi answered, "Yes, he is. But this doesn't change our plan on assassinating Feng Jing. He must die before he completely grows up. Once he grows up, our Navi Clan would never be able to raise our heads in front of these bastard Phoenixes!!!"

"But isn't he an SSS-ranked guide? Moreover the partner of Marshal Altair, it is close to impossible to kill him."

General Navi, "Killing him directly, Yes it is impossible. So we are going to do it during the war. I want you guys to pretend to be my soldiers and I will make sure to place you near him. Amid the war, you should take his life for the glory of our clan."

"For the Glory of our clan!!!"

While everyone is cheering the sounds of fireworks and flares can be seen under the dark sky of the night. The insignia of the soaring fire phoenix can be seen above their heads. Seeing this, Major General Navi and the rest of the elders of his clan were stunned speechless. It took a few seconds before they understood that someone was near them and heard their conversation.

Major General Navi cursed, "Motherfucker! There's a spy!!! Find him he must be near. Kill him before he gets to report back to the camp." movelusb.com

"What should we do about the flares and fireworks!? This insignia must be someone working for the Fengs!!!"

"I'll think of an excuse. The soy must be killed! Spread your spiritual qi and attack randomly. I do not believe he would be able to block spiritual attacks from an A and S-rank Sentinels!!!" ordered Major General Navi Itri.

"Yes, Clan Leader!"

As soon as they received the order all 14 of them had sent random spiritual attacks all over the forest. Lin Yven who was riding on the back of his liger couldn't completely block all of the attacks and suffered fatal internal injuries that he couldn't stop coughing blood.

Cough. cough. COUGH!!!

[Host Lin Yven! Your internal injuries are fatal.]

[Master, are you okay!?] Asked Lin Yven's Liger.

With his lip tainted with deep crimson, Lin Yven could feel his whole body including his spiritual domain breaking. His body is trembling badly as he had a very hard time breathing. Only his strong willpower was able to help him keep his grip on the fire of his Liger.

With a bloodless face, while churning his immense pain all over his being, Lin Yven could only gasp lightly to keep oxygen entering his body.

Gasp. Haa~ hhhaa~

Cough!

"M-Move... R-Run faster... Back to ...the camp!" said Lin Yven to his quantum beast.

[Yes, Master!]

'It hurts... It really hurts... It hurts more than when I heal Xue Ying and purify his mania. I can't breathe every time I do. I feel that somewhere in my body is bursting... Argh~ I can't... I can't lose consciousness~~' Thought of Lin Yven.

Chapter 346: 8.71 First Blue Star - Commotion at the Campsite.

At the camp, a group of students was confronting some soldiers. They were blocking the way of the students who intended to enter the forest in the middle of the night to look for someone. The person leading the students was familiar. He is the elder brother of Lin Yven and the heir to the Lin Clan.

A few hours before Lin Tian started looking for his younger brother, Feng Jing followed by Bai Yuyan and Feng Wu had left the tent to follow out Lin Yven. They were able to stop the young man from leaving for a split second. It was Bai Yuyan who caught up to him and grabbed one of his wrists.

Bai Yuyan said, "Xiao Yven wait! Do you want to tell us something?" he asked.

"I am fine," said Lin Yven but his voice turned monotonous at this moment.

Lin Yven halted his movements but he didn't move his head to face his friends. Instead, as if he is dazed he looks at the far horizon beyond him. Seeing him like this Bai Yuyan and the rest could help but get worried.

"Please let go of me, A'Yan~," said Lin Yven.

He did as he was asked and let go of Lin Yven's wrist. Then they heard him say, "I want... to be alone for a bit, please."

Bai Yuyan didn't reply right away. Both Feng Wu and Bai Yuyan had looked at Feng Jing waiting for his response.

Feng Jing said, "Okay, don't go somewhere too far as there might still be some zergs lurking around the campsite. Make your safety your top priority, Yven."

"I will, my lord," replied Lin Yven before once again walking away but this time his pace was faster than before as he could hear the other people's voices behind him.

From the distance, Feng Yang is calling for his fiance's name and they could see Marshal Sirius and Major General Drake following after him. All three of them were coming over. Presently, even the ever calm Feng Wu now had a slight frown on his face when he saw Major General Drake approaching their group. Of course, he chooses to ignore them.

Feng Yang yells from the distance, "A'Yu~ Honey~ It was not my fault really~"

"Shut up! Hold your tongue!" replied Bai Yuyan in his bad mood. Feng Yang instantly hovers around his future wife like a loyal puppy.

Wordlessly, the Marshal had also approached his partner, staring at him with gentle eyes. Feng Jing, who was a bit tired from worrying over his friend, couldn't help but ask for comfort from his lover. He silently wraps his arms around the Marshal's hips and leans closer to the latter's chest silently listening to the other's heartbeat. Though Feng Jing hadn't said a word of forgiving the Marshal, this kind of intimate gesture between them was still normally done. But it can only be initiated by Feng Jing and not the Marshal, when the latter does he would receive a cold stare from Feng the former.

"I believe that you shouldn't attend training yet. You still need at least 3 more days before you can start working on your tasks," said Marshal Sirius.

Feng Jing didn't respond but the marshal knew that he agreed with him about this situation. Seeing the couple, Marshal Sirius and Young Lord Feng Jing, like this, Major General Drake is now sure that this couple is indeed his Lord God's soul fragment and Venerate Lord Hei especially when Feng Jing made a move against the Heavenly qi that tried to take control of his vessel to start an encounter with the protagonist shou, Bai Yuyan.

Once the love relationship flag his vessel has with? Bai Yuyan broke, Major General Drake Izar is finally free to do whatever he wants in this world. The vessel's restrictions as the Protagonist Gong no longer exist. Instead, he could see that the Protagonist gong flag had started to shift towards Feng Yang. The former cannon fodder brother of the villain, Feng Jing.

"A pleasure to meet everyone. I am one of the four Major Generals in the Interstellar Federation. The leader of Azure Drake's unit. Drake Izar."

Feng Wu chose to glance at him but didn't say a word. Bai Yuyan was a bit confused at this moment as he thought this man is an enemy according to the memories of the original Bai Yuyan before he transmigrated. Feng Jing is ignoring him as to him any man except for his husband is air. Only Feng Yang and Marshal Sirius who knew that Old Marshal Janus is not really their enemy gave some face to Major General Drake. movelusb.com

Feng Yang said, "The pleasure is all ours, Major General Drake. But we choose not to speak about work, at least for today."

"I know. I had mentioned the same thing just now. I am here for a different reason," replied Major General Drake as his eyes wandered over towards Feng Wu more than a few times.

Just a few glimpses of Feng Wu done by Drake Izar, made the other instantly understand why he is following him.

Bai Yuyan realized, "Ah~ are you here for A'Wu?" he asked.

A bright smile appeared on Major Drake's face and said, "Yes. It was love at first sight. Please allow me to court you, Sir Feng Wu."

"As long as you are not going to be annoying, do whatever you want," said Feng Wu. The smile of Major General Drake turned wider with that response. While the real thoughts of Feng Wu are the following: 'Love at first sight your ass.'

Feng Yang and Bai Yuyan's reaction to Major General Drake's sudden confession. "OOHHH~"

Only the immovable mountain called Marshal Sirius and forever cold Feng Jing didn't react much.

"For now, let us move into my office inside my unit's spaceship," said Marshal Sirius.

Everyone agreed to the Marshal's suggestion and all of them walked back to the battleship. Then a few hours later, Bai Yuyan and the rest got worried again about Lin Yven and decided to look for him in the Student's tents. His whole group plus his fiancée is with him as well.

Feng Jing who couldn't find Lin Yven all over the camp was a bit worried as well. With Feng Wu and Bai Yuyan at his side, they intended to go to the tent where Lin Yven is designated and ask Solaris Vega if Lin

Yven is with him. Sadly, Solaris Vega and the rest of their team members had said that they haven't seen Lin Yven since this morning after he had left with their leader.

At the Student Guide's Area. Multiple tents were built for students to live in. Feng Jing leads the group with him and looks for his members in their tent.

Bai Yuyan asked, "A'Shen, have you seen Xiao Yven?"

Bewildered Si Shen answered, "No, we haven't seen Xiao Yven since he left with you and A'Yan this morning."

"He even missed the training for the whole day," said Wu Liu.

Tang Si noticed that something must have gone wrong for the people who were supposed to be with Lin Yven to suddenly come over and ask where is.

"We haven't seen Xiao Yven all day. Did something happen?" asked Tang Si worriedly.

Bai Yuyan answered, "This is the fault of Brother Ying! They got in a fight and then walked away. We thought he would only be somewhere within the camp and left him to have some time alone."

"Did he leave the camp?" said Feng Wu.

Following behind the three were supposed to be superiors but at the same time, two of them were partners of Bai Yuyan and Feng Jing which are Feng Yang and Altair Sirius while the latter is a new face but Tang Si and the rest knew this man's identity. Major General Drake, the leader of the Azure Drake Unit and a famous person who answers directly to Marshal Janus's commands.

He is supposed to be an enemy that is against Marshal Sirius as his leader, the Old Marshal Janus is well-known for his dislike of the youngest marshal of the Federation.

Major General Drake responded, "That might be the only option left. Either that or should we find the Lin Family asked them where their youngest descendant is."

"It's better to split and work faster. I and Sisi are going to see Major General Lin Tang and his family. The rest of you look for Lin Yven within the camp. Check all corners he might be just hiding," said Feng Jing.

Bai Yuyan and Feng Wu agreed without question. Si Shen and the rest of their team members overheard their conversation and decide to help as well but first, they need to ask for help with their Sentinel's friends as well.

The Marshal said, "Meet at the Main Tent after 3 hours. If there is still no news about Student Lin Yven after this we will have to check outside the camp."

"Understood, Marshal!"

They had once again split the group and looked for Lin Yven as a larger group this time. After three hours those who were sent by Lin Tang to help look for his youngest grandson had said that some soldiers on guard duty noticed that Lin Yven had run out of the campsite and headed to the forest this morning. They've also reported that Lin Yven still hasn't returned yet even after the sun had set.

It was because of this that Lin Tian had run out of their family's tent and together with his members tried to leave the camp only to be blocked by the guards as it was already past the curfew.

Lin Tian said to the soldiers on guard duty, "Please let us leave the camp! My younger brother is missing and he is not in the camp."

"Please forgive me, Young Master Lin Tian. We are only following the protocol given to us by the higher-ups."

"If you really want to leave the camp, you will need the permission of the Marshal. Only then will we let you out of the camp."

Explained the soldiers on guard duty for today.

Getting blocked by the stern soldiers by the entrance made Lin Tian mad but still held back his temper when his girlfriend asked him to calm down and said that these soldiers were only following orders from their superior. She had also tried her best to convince her fiance to ask the help of his future-in-laws to talk with the Marshal and ask the latter's permission to leave.

Upon seeing that there is no other choice but to do this, Lin Tian walks back to the camp to look for his grandfather to ask for help. His teammates also apologize to the soldiers in guard duty for their leader's rudeness whose heart was overwhelmed with worry and fear that something might have happened to Lin Yven that made him unable to return before the allowed time one was able to stay outside the camp.

What they didn't all know is that Lin Yven's life is currently in danger and was hanging by a thread. Riding on the back of his Quantum beast Liger, this master and beast combo were on their way back to the camp while being pursued by enemies all at the rank of A and S Sentinels and Guides.

On the other hand, Xue Ying was at his own room in their battleship still doing the paperwork his boss and brothers left to him to do. He also did this so he wouldn't think of what happened this morning. Sadly, he wasn't informed that Lin Yven the young man who occupied his head all day had gone missing.

Chapter 347: 8.72 First Blue Star - Lin Yven's Feelings

In the middle of the night, at the forest in the middle region of Planet Citlali.

A fast-moving creature can be seen running along the forestry being chased by a few men wearing all black all over them. These men were hunting the human child riding the back of the huge liger. Based on the size of the Liger, obviously, this isn't a mutated animal or beast but instead someone's quantum beast.

They were moving faster within the trees but still couldn't outrun the escaping quantum beast carrying their target. Seeing this the leader of the pursuing team cursed the nine generations of that child. He is yelling his orders as if losing them.

Major General Navi Itri yells, "Kill the young man! That's Lin Yven from the Lin Clan! If he returned to the camp alive, our Navi Clan and everything we own would perish!!!"

"But Clan Leader, that quantum beast is a hybrid type, We could never outrun it. That's a Liger, a Lion-Tiger Hybrid. It possesses an above S-ranked physique!"

"I don't care what you do, the child must die! Lin Yven is the newly approved aide of Feng Jing. Even without proof, as long as Feng Jing believes him, our Navi Clan would be destroyed by the Feng Clan, Altair Family, and the Lin Clan. It would be destruction!!!" retorted Major General Navi Itri.

"He is connected to the Phoenix Clan. SHIT! Kill the boy!!!"

They keep missing their target with just their spiritual attacks and start throwing some weapons towards Lin Yven. Lin Yven in the midst of pain covered him and his quantum beast Liger with a barrier made of his spiritual qi. It was able to block both spirit and physical attacks.

But getting attacked from all sides would sometimes let a few attacks pass through his barrier especially when he was getting weakened by the immeasurable pain of his inside churning from the fatal attack that he got hit before. He once again pukes a mouthful of the body but this time there are some bits of flesh included in it. These are from the badly damaged internal organs.

COUGHS~!!!

[MASTER!] Calls the Liger.

But Lin Yven could only keep his grip on its fur tightened and reply only in their spiritual connection.

{Don't mind me! RUN FASTER!}

[But master your injuries as deadly!]

{The faster we return to the camp. The higher the probability of us living. I AM FINE! Just focus on running!!!}

ROOOAAAAAR~~~

Whining at his Master's decision the Liger could only let out a sad yet loud roar as if calling anyone that might be able to help them. Tears are flowing from the eyes of the Liger. As Lin Yven's quantum beast, it knew the best as to what his Master's current state is. movelusb.com

It is very bad, as their connections get weaker and weaker but for some reason, his master, Lin Yven, makes sure that he would be harmed by anything. His white stripper fur unknown to the Liger is now being dyed by crimson color. Now Lin Yven's life and death are hanging by a single line.

Back to the Camp.

Lin Tian had walked back to his family tent to meet his father and grandfather. He reported what the guards had said.

"Father! Grandfather! They aren't letting me out of the camp, Yve is missing! I need to find him!" said Lin Tian.

Lin Tang frowned and suddenly stood up.

"Come with me. This old man is going to look for the Marshal!" said Major General Lin Tang.

Walking off their tents this family of three had all come over to the Main Tent to look for Marshal Sirius. But there is no one at the Main tent. They could only ask around and learned that the Marshal had accompanied his partner to the students' tent area to meet his teammates.

Major General Lin Tang and the company had finally bumped on the marshal's group. They immediately asked for permission.

"Marshal Altair, we would like to find my youngest grandson, Lin Yven, outside of the camp. Please give us the permission to do so!" said Major General Lin Tang.

Hearing this Feng Jing instantly decided to come with them. He answered for his partner.

Feng Jing said, "Let's go! I will help look for Yven too!"

"Xiao Jing, you can't! Your body is not completely healed yet!" said Feng Yang to his younger brother.

But the former ignores his elder brother's words and stares at Marshal Sirius's face instead, only he could make the final decision in this camp.

Marshal Sirius sighed and said, "Sigh* I will go with you. Aside from us only Lin Tian and a few military doctors at S rank would go. The rest stay here at the camp!"

"Call Ying-gege, we are bringing him with us!" said Feng Jing.

After the decision was made, those who were included in the group had all gathered at the entrance of the camp. Feng Jing has changed his clothes to light armor while Marshal Sirius is wearing the same thing. Lin Tian and the other soldiers wear their own defensive armor while carrying first aid necessities requested by Young Lord Feng.

Within that group, only Xue Ying doesn't understand the situation. He was dragged out of his office by his cousin, Feng Yang, without any explanation after throwing some armor at him. All he knows is that they are going to the forest under the lead of his boss, Marshal Sirius.

There are few people sending off. Major General Lin Tang and his son, Lin Velvet were there to send off Lin Tian while Feng Yang was there to take over the authority while Marshal Sirius and Lieutenant General Xue Ying weren't around. Feng Wu and the rest were also there to send off their leader, Feng Jing.

Major General Lin Tang said, "A'Tian, my boy. Be vigilant at all times. The danger of the forest is at its peak during nighttime."

"A'Tian I'll leave Yve your younger brother with you. You must find him!" said Lin Velvet.

"I understand Grandfather, Father. Tian would definitely find Yve no matter what!" said Lin Tian.

Not far from them, Lieutenant General Xue Ying was stunned when he heard their conversation. He knew that Lin Yven is the Youngest descendant of Major General Lin Tang but he never expected to hear the name of the person he likes.

"Yve. YVE? You call Lin Yven, Yve!? Is that his nickname?" asked Xue Ying in surprise. Then he stared at Lin Tian's face with a frown. "Wait, you look familiar. Aren't you the one who picked up my little fairy that day? Is she living well? Ah, wait...something is wrong here."

Feng Yang who could no longer watch his cousin brother make a fool of himself said, "Lin Yven is that young lady whom you had saved before. He must be quite feminine looking when he is younger and you mistake him for a girl."

A'Ying I will no longer keep my mouth shut about this even the person himself asked us to hide it. You... You owe Student Lin Yven your life. The one who helps you cure your mania that night is Lin Yven."

Hearing all this Lieutenant general Xue Ying was astonished and could believe everything he was hearing right now.

"B-But... But isn't he a newly awakened Guide? How can he have precise control over his mana like that to enter my Spiritual Domain without me noticing!?" asked Xue Ying.

The straight-faced Feng Wu spoke, "Lin Yven is an assassin-type warrior. When it comes to precision he is even better at it than me. Moreover, Lord Jing taught Yven how to control his spirit qi the moment he and Xiao Vega awakened as a guide."

Xue Ying was left dumbfounded. He felt that everyone was playing with him about this but when he checked the expressions on Marshal Sirius and Feng Jing, he realized that everything they had said was true. As his marshal even gave him a nod to show that he agreed to what everyone had said.

Marshal Sirius said, "There were recordings in the prison room that time. I just removed it based on Jing'er's request. Ying, Lin Yven is the person you have been looking for all these years."

"Yven says that he doesn't want you to know it was him. After all, you had also saved him once before. Even though he likes you he never said a word because before he awakened as a guide, he is just an ordinary person. He doesn't feel that he deserves you."

And after awakening as a guide, he finally gathered a tiny bit of hope that maybe... Just maybe you'll come to like him as well. The reason he is glaring at you lately is because I told him that you had mistaken him as a little girl and called him my little fairy.

Lin Yven doesn't hate you but loves you a lot. Did you think there isn't any backlash for an unpaired guide in entering a Sentinel's Spirit domain? Especially for one suffering from Mania. Even if your compatibility is high the backlash is still there, after curing your mania he was in deep sleep for one week.

Did you not like Yven at all? To suddenly hear that you only like girls was like destroying his last hope that you might become his sentinel. Ying-gege, did no one tell you that even gentleness can hurt someone?" said Feng Jing.

Unlike Feng Yang and Marshal Sirius who mince their words a bit nicer to Xue Ying's ears, Feng Jing's words are nothing but the truth. Xue Ying's face turned white at first then red then purple. A Series of emotions paints his face from shock to disbelief, disbelief to happiness, happiness to sadness then sadness to worry.

Feng Jing said, "Yven had been missing since that morning. He is nowhere within this camp and the soldiers at guard duty say they saw him going to the forest in dazed. He hasn't returned home yet. Ying-gege, you..."

The words of Feng Jing were cut short as Xue Ying suddenly summoned his quantum beast. A huge ice fox appeared out of nowhere. This is Xue Ying's quantum beast. He jumps on its back and orders it to leave.

Xue Ying said, "Snow Fox, find me the place with the strongest scent of blood and lavenders!"

[Yes, Master Xue Ying!]

Then their figure bolted and entered the forest at their fastest speed. Xue Ying didn't wait for anyone as he made a move on his own, even forgetting his boss just now.

Lin Tian said, "I understand the scent of blood as Yve might be injured but why lavender?"

"Lavender aroma is the scent of Yven's pheromones after awakening as a guide," said Solaris Vega.

Before Lin Tian could even react, Marshal Sirius issued the order to depart. Summoning each of their quantum beasts they've all entered the forest and followed Lieutenant General Xue Ying. Feng Jing didn't summon his quantum beast and rode on the back of Altair Sirius's dragon king as they flew in the sky. Lin Tian and the rest follow on the ground.

A moment after the rescue team had left to look for the missing person, Lin Yven. Major General Lin Tang suddenly mumbled as he and everyone here heard the things Feng Jing had said to Xue Ying. They didn't expect that Xue Ying is someone their youngest likes.

Lin Velvet whispered, "Dad, doesn't this make Lieutenant General Xue Ying our future in law?" He received his father's glare and immediately shut up.

"We don't even know yet if your son is safe or not. Stop saying nonsensical things!" bellowed Major General Lin Tang.

Chapter 348: 8.73 First Blue Star - Am I dreaming again?

Xue Ying took off without waiting for someone. He needs to find Lin Yven first and hear from his mouth whether the things his adorable cousin told him are real. Though he knew that Feng Jing rarely lies, he still wanted to hear Lin Yven say it on his own. He wanted to hear his voice saying that he loves him. That he was the person who had to save him from his torment when he had fallen into a maniac state and tell him what his true feelings are.

No wonder he felt extremely uncomfortable when he saw Lin Yven's tears. Why he never gets angry despite the latter glaring at him most of the days. After learning the reason why Lin Yven is glaring at him, it made him think again how cute the little one is. Then Lin Yven's appearance flashes within his mind. His younger self and his current one.

The younger version of Lin Yven indeed looks more like a female as he is so slender that he could see that he is slightly malnourished. But his refined and gentle features made him relate to this little one as someone who fights like an assassin. No wonder his body is so flexible and his attacks were all fatal with minimal movements during the spring training.

There are so many more things Xue Ying has realized and remembered right now than before. He could even remember the usual cuisine Lin Yven likes to eat for meals. Like him, he likes meat dishes matched with soup and rice. He eats a lot despite his petite physique.

Lin Yven likes books but he loves storage devices the most.

He treats Solaris Vega and Bai Yuyan as his little brothers and Feng Jing as a big brother and leader. He is a reliable friend in their team and a steady person to rely on.

But in front of him, he is a little cutie who can't show his real emotions. He pouts when pissed and ignores you when he's angry. He rarely laughs but when he does there is no one more beautiful than he is and when he cries Xue Ying doesn't know what to do.

Now after noting the real face of Lin Yven behind his thick shell, Xue Ying regrets that he says that he only likes girls out of nowhere. He can only like a man only on the premise that this man is Lin Yven. Now that he has gone missing and no one knows Lin Yven's current state, Xue Ying's whole being is full of fearful thoughts. He is very afraid that he will lose Lin Yven. Xue Ying prayed to the Gods for the first time in his whole life.

'If there are Gods in there, I beg you. I will do anything and everything! Please don't take Yve from me!'

Xue Ying wished to the Gods above. He wanted to see his beloved and prayed to be with him until their last breath. Begging for a second chance. But would he receive it?

Riding on the back of his quantum beast, a snow fox, they've been running at full speed for hours but still haven't seen any figures of Lin Yven. It was until he heard a sad roar of a lion or a tiger coming from in front of him.

RRROOAAAARRR~

Xue Ying instantly ordered his quantum beast to head where the growls are coming from.

"Snow Fox, go to the place where that howl came from!" ordered Lieutenant General Xue Ying to his quantum beast.

Meanwhile at the POV of Lin Yven.

The Liger Quantum beast was roaring so loud and its pursuers knew that it was calling for help. Major General Navi Naja immediately issue another order of attack

Major General Navi Itri commanded, "Kill it now! It is calling for help!!"

"Tsk! This beast is annoying!"

"Kill it faster ba~"

"Like hell, someone could hear it! This whole place is jammed and no one stupid would enter the forest in the middle of the night."

"Enough! Talking attacked all at the same time. Kill the quantum beast first so we can kill the boy," said Major General Navi Itri.

All types of attacks were directed at the Liger quantum beast. Some throwing knives are flying over, invisible spiritual attacks and poisonous ones. Seeing this Lin Yven on the verge of his consciousness gathers the strong spiritual force and spreads it around him deflecting all attacks. With crimson blood gushing out from his mouth, this time the amount was beyond normal and Lin Yven finally lost consciousness.

[MASTER!?] called the Liger as he started to look faint after losing his connection with his alter ego.

Before he completely disappeared he ran and ran until he noticed someone coming over. Seeing the military uniform on that man the Liger jumped towards him and suddenly disappeared in thin air.

[Please save my master.] said the Liger before he got pulled back to his original world. The knocked-out Lin Yven safely fell within the arms of the man who carefully caught him.

The Snow wolf upon seeing the Liger covered in blood before disappearing let out an enraged howl. Obviously, it was uncomfortable seeing its future partner end up like that.

On top of him is his master carefully hugging the unconscious Lin Yven within his arms. Ignoring how the blood taints his clothes, he gently wiped off the blood on Lin Yven's face. During the process, his eyes were full of love and tenderness. Seeing his little one bloodless and his white skin feeling a bit cold all tenderness had disappeared.

Like the aura surrounding him, his eyes turned cold and sharp as he gritted his teeth together. Xue Ying's eyes were a bit red and his qi spread limitless around him. Affected by his aura, 100 radii around him were suddenly covered in thin ice. All the trees, grass, and even the land itself were frozen.

He then raised his head and glared at the few men wearing all black all over themselves. Xue Ying could still remember how they treated Lin Yven and mercilessly attacked him intending to kill him.

Xue Ying's overbearing peak SS-ranked aura as a Sentinel pressured those men in black and the weakest of them even puke blood in after directly getting hit by Xue Ying aura. That man finally experienced what Lin Yven had felt when his Spiritual domain had broken.

One of the men in black fell from the trees, grabbed his head, and started screaming. This man is one of the guides in his group and the only A-ranked guide that was called for the mission.

AAAHHHH!!!

"It hurts! My head! It fucking hurts a lot! Arrgh~" said the man who got hit directly by Xue Ying overbearing qi and immediately lost control of his spiritual domain.

Major General Navi Itri had hidden himself the moment he saw Lieutenant General Xue Ying. He was cursing in his mind at how fast those people from the camp appeared.

The military doctors had finally caught up with Lieutenant General Xue Ying on the ground and helped him check on Lin Yven.

"Lieutenant General Xue, please let us check on the boy," said one of the Military soldiers. Xue Ying only nods his head in agreement. move1usb.com

'They must have seen the flare. If not for that they wouldn't come over quickly!' Thoughts of Major General Navi Itri at this moment.

He wanted to escape and encircle this place to avoid the others from seeing him. He knew that he failed this plan and had to return to the camp even before the others. But before he could take his leave he saw a huge black dragon flying above their heads and a pair of garnet-like eyes staring down at him.

Once Major General Navi Itri sees this he can't help but scream madly in his head. Only the two words, 'It's over' continue to pop in his brain. To escape under the eye of an SSS-ranked Guide is almost close to impossible!

Marshal Sirius spoke, "Capture them all alive, Ying."

Lieutenant General Xue Ying nods his head and controls his special ability to control ice. Though his control over ice isn't as overwhelming as Feng Jing's, he could still control anyone within 100 radii around him.

"Ice Prison!" said Xue Ying as all the men in black were captured into ice, their limbs were frozen and they couldn't move at all. Like an ice statue, they all remained where they were after falling from trees. They are still alive after being frozen to ice.

Feng Jing whispered to Marshal Sirius, hugging him from behind. "Sisi, there's a traitor," he said.

Marshal Sirius followed his wife's eyes and looked in the same direction where Feng Jing was looking. He then saw an ugly-faced Major General Navi Itri hiding within the shadows.

Controlling his qi he instantly captured Major General Navi Itri and threw him in front of Xue Ying to be brought back and be a court-martial.

Xue Ying's face turned dark seeing someone familiar and called the name of the sinner. "Major General Navi Itri! Are you the one who did this to my Yve!?"

Seeing that he could no longer escape Major General Navi Itri snorted and said, "He heard something he is not supposed to. Of course, I had to kill the naughty boy~"

"You! BASTARD! Traitor!" Screamed Lieutenant General Xue Ying.

Major General Navi Itri suddenly laughs like a madman.

HAHAHAHAHA!!!

Glaring at the couple who was descending on the ground with the Black Dragon quantum beast named Roi, Major General suddenly glared at them, especially at Feng Jing. If not because he was restrained by Marshal Sirius's qi he would most likely jump on the couple.

"Why is it that someone like you even exists in that hateful Phoenix Family!? If not because you exist, my Navi Clan wouldn't have to stoop this low. If not because of your Feng Family would our Navi Clan be looked down upon like this!

Isn't Altair Sirius enough! It would have been better if he had chosen my son, Navi Naja as his spouse but why does it have to be you again!? Why do you even have to exist!? It was your father who killed my parents and relatives! How come God even allowed someone monstrous like you to be born!!!"

The Major General started screaming one-sided things at Feng Jing but the latter's expression remained unmoved and was even a bit entertained. With an aloof stare, Feng raised his head a bit and looked down on Major General Navi Itri who blamed the hatred of their clan on him alone just because he is the strongest to be born in the Phoenix Family.

Feng Jing spoke, his voice was icy yet playful and his tone was like an Emperor who gave out an irrefutable Royal Decree for a sinner like Navi Itri.

"Heh~ What could a mere God do to me?" said Feng Jing. His voice is full of arrogance but at the same time, and denied strength can be felt from him.

His crimson irises were staring down on Navi Itri but at the same time, Navi Itri feels like he doesn't even deserve to receive his stare. Like a lowly being stared at with contempt from the Gods, he felt so small and the gaze alone left him a pressure of being squashed.

Major General Navi Itri couldn't even stop himself from puking blood. He doesn't know if he is angered to death or the pressure had destroyed something inside him. He wanted to scream at Feng Jing for being preposterous but his body started trembling beyond his control. His body instinctively felt fear toward this young man who hasn't fully grown as a real adult yet.

"Who the hell are YOU!?" yelled Navi Itri as he tried so hard to control his trembling.

When he suddenly saw Feng Jing's eyes lightly glow silver under the moonlight paired with the mischievous smile on the corner of his lips Major General Navi Itri felt like his soul was being pulled away. It wasn't only him who felt this, anyone who saw Feng Jing's current expression fell in a trance as if they were bewitched by a devil.

"I am Feng Jing though~" he answered.

Silence descended in the area; only the sounds of wind blowing could be heard. Some people gasped and the quietness in the surroundings broke. Marshal Sirius felt uncomfortable with the conversation exchanged between Navi Itri and his future wife but it was not of fear. It was something else.

After a while, Lin Yven who was unconscious suddenly hissed when he tried to move. He blinks his eyes as his face retorts into pain.

Hiss! GASP!

Slowly opening his eyes the blurred figure of Xue Ying that he dreams a lot in the past appears before him.

With a hoarse voice, he whispered, "A'Ying? Am I... dreaming again?"

Lin Yven's voice was so sure that he was dreaming. After all, that person only held him like this in his dreams. Feeling as if he was the most important treasure in this for Xue Ying, Lin Yven was extremely happy in his dreams where he could openly call Lieutenant General Xue Ying as his A'Ying.

Chapter 349: 8.74 First Blue Star - A Chance of Rebirth

Lin Yven finally wakes up but for some reason, he feels like he is dreaming despite the extreme pain spreading all over his body and mind. Seeing the appearance of Xue Ying made him feel a bit relaxed even though he was almost on the brink of death.

'Am I dreaming? A'Ying is here to pick me up. This is quite nice for the last dream...' Thoughts of Lin Yven as he weakly reaches out his trembling slender arms and tries to hug Xue Ying.

Caught in surprise, Xue Ying stiffened as he lowered his head allowing Lin Yven to hug him. Lin Yven rubs his face on the other as if a spoiled child showing his affection. Xue Ying pampered him and treated him affectionately like he was heartfelt.

The others are watching silently but only the military doctors and Feng Jing know what kind of state Lin Yven is currently in. Now the military doctors wanted to explain things but were afraid of destroying such a beautiful and peaceful scene. Only Lin Tian frowned and asked the doctor in the corner.

Lin Tian asked, "Sirs, what is the result of my little brother's check-up?" movelusb.com

The doctors looked at one another and hesitated for a moment before they told the young man the current state of Lin Yven. Feng Jing and the Marshal's permission when they saw them nod, the military doctors solemnly explained the details to Lin Tian.

"About Student Lin Yven's state... I'm afraid it is beyond us."

"His internal injuries are fatal as most of his organs were smashed."

"His rib cage was mostly fractured and wounded a few of his lungs. We had let him drink a high-level healing concoction with 100% purity so his internal injuries were not that much of a problem."

"The real problem is the spiritual domain," said a military doctor who specialized in treating guides. "I'm afraid that he had suffered numerous spiritual attacks which broke his spirit domain. Student Lin Yven being awake now is a miracle but... it also won't last long."

Lin Tian's expression was mixed with that of shock and disbelief. His face started to pale as his fingers trembled. "W-What will happen if the spiritual domain is broken?" His voice was a bit raspy as if he was trying his best to calm down his heavy breathing and uncontrollable heartbeats.

"Either you fell into a deep coma or become an idiot." The doctor observes Lin Yven from a distance and notices his current state. "He must have retained his intelligence which means... he might have fallen into a deep coma once he fell asleep."

Lin Tian grabbed the doctor and asked, "Is there! Is there something that can be done!?"

"No one is able to treat a broken spiritual domain. It is something we are born with and it is the source of our qi and hosts our spirit. Once it is broken... Only God can save him. Though there are special people who could heal this through their special bloodline. The Phoenix Family is the only exception." said the doctor.

Lin Tian asked, "W-What do you mean?"

"The special bloodline skill of the Feng Clan is called 'Rebirth'. Once they die they should be able to come back to life after a few years. There's a special temple which they call the Phoenix Nest where the souls of the Feng Descendants return after death. In this place, they are able to reconstruct their bodies until they've reached their chosen age to rebirth."

"Rebirth of the phoenix?" mumbled Lin Tian.

"Yes, there are also outsiders who could experience such special privilege. Those who are paired permanently to a member of Feng would receive a chance of rebirth as long as the Feng Descendant allows it to. But... Only a married and mated pair can do this. The only unofficially mated Feng in this world is Young Lord Feng Jing but he is already the Marshal's future wife."

"We're sorry for our incompetence, Young Master Lin Tian."

Hearing this, Lin Tian's tears and anger couldn't help but appear on his face. His eyes were red in sadness and rage. His anger rose another level when he heard that it was Major General Navi Naja who caused the current state of his little brother.

After receiving the results of the doctors who checked his younger sibling. His eyes were tinted with tears and suddenly grabbed Major General Navi Itri at the corner and started beating the man up. No one says a word for Lin Tian to stop. When the Military doctors tried a cold glance from their marshal's wife stopped them.

Feng Jing's face is not good at the moment. As a doctor himself he knew how worse the state Lin Yven is. The current vessel he has was not a holy priest or possesses a light element. Without compatibility with light elements, he can't use it. His lineage was never compatible with light elements because of their bloodline's immortality.

The Marshal motioned the other soldiers to gather all the sinners in one area and just wait. They gave Lin Yven and Xue Ying private space to speak with one another and step back. At the corner, the military doctors try to comfort the elder brother of Lin Yven, Lin Tian is also breaking down with the news he heard about his younger brother's condition.

Only at this moment when Lin Yven's state is already at worse that his pain starts to feel numb for him. He pulls out from the hug and stares at Lin Yven's affectionate yet sad expression. He gently caresses Xue Ying's cheeks.

Lin Yven asked, "Why are you... Sad, A'Ying?"

Xue Ying didn't respond right away and moved to land a kiss on Lin Yven's palm. His expression turned sadder when he felt the coldness of his beloved's skin.

He slightly chokes as he answers Lin Yven's question. "I'm sad because I feel like you're going to leave me. Yve promise you will stay with me okay?" said Xue Ying his voice and tone were akin to pleading.

Lin Yven could see some tears in the corner of Xue Ying's eyes. He weakly reached out a hand and wiped it. Once he felt the warm temperature of the tears lingering at the tip of his fingers, which made him realize a few things. That maybe this situation he is in now is not merely a dream.

He wanted to check whether it was a dream or not. The A'Ying in his dream would give him anything he asked for. Even the most selfish request is fulfilled by him. Lin Yven's eyes were stuck at the face of Xue Ying.

Lin Yven said, "A'Ying, don't cry anymore."

"Um~" Xue Ying nodded his head in response.

"I have... a small... request... A'Ying... can you give me... a kiss?" asked Lin Yven but there's an obvious hint of reluctance when he asked this. As if he was afraid of being rejected like the one this morning.

This sudden request startled Xue Ying as he blinked his eyes a bit stunned. Lin Yven chuckled a bit when he saw the man's reaction. He felt that Xue Ying is a bit cute whenever he was left dazed.

"Haha~ I'm just joking~ No need to believe everything I hmp---!!!"

Before Lin Yven could even close his lip for the next words, Xue Ying suddenly kissed him as he wished for. It was gentle at first leaving Lin Yven a soothing feeling bubbling in his heart until both could no longer hold back and kissed each other aggressively. The taste of rust spread from both their entangled tongues but no one is willing to split up.

As they exchange a deep and aggressive kiss, the scent of the two pheromones spreads in the area. The aroma of Citrus and snow scent blended with the floral scent of lavender.? The others controlled themselves not to be involved with the two pheromones spreading in the area. Feng Jing raised a barrier to keep the couple's pheromones from spreading lest his husband ended up being jealous the moment he smelled some other sentinel's pheromones. If that happens his elder cousin brother, Xue Ying would definitely get the losing end of this vinegar jar called Marshal Sirius.

Feng Jing spoke and said to the two inside the barrier. "Ying-gege, give Yven a permanent mark and I will help you awaken the half phoenix bloodline in your veins. Once that wakened you should be able to give Lin Yven a chance of rebirth once which is supposed to be yours."

Everyone was stunned by the words Feng Jing had said. Even the couple who were kissing just now was stunned. Lin Tian who didn't expect this direction had suddenly run over to where Feng Jing is to ask about his younger brother's situation.

Lin Tian even forgot the Marshal's existence at this moment, "Young Lord Jing, are you telling the truth? My... Can my brother be revived?" he wanted to grab Feng Jing only to be blocked by the angry marshal.

"You can ask what you want to ask but... keep your hands to yourself," said Marshal Sirius as he hugs Feng Jing closer to himself. His dark expression is enough to say it all.

Feng Jing didn't struggle when he got hugged all of the sudden and instead replied to what Lin Tian had asked.

"The Xue family, especially the bloodline of my Xiao Yeye, Xue Xia, had been transformed the moment he married my Big Yeye. Once they've officially completed the Soul Bonds as official mates, the half Xiao Yeye's bloodline was turned to ours, the phoenix bloodline. Because of this, those who are connected to him can enjoy fast regeneration of healing than other people," explained Feng Jing.

The Marshal who had been working with Xue Ying since they were young could somewhat understand what his guide was telling them.

"No wonder, Ying's injuries would sometimes heal faster than mine," said Marshal Sirius. "but you said you can help him awaken his phoenix bloodline, once it was awakened what would happen?" he asked.

Feng Jing looked at his lover and said, "You know that the direct descendants of my clan can be reborn three times in every of our lifetime. Once we finished that only then we would enter reincarnation. Once a Feng is paired with someone outside the family, those three chances of life can be shared with their spouse. I have three. I also gave some to you after you had completely marked me. Once you die you have a chance to be reborn at the age you choose, I will not further explain that you would understand it once you die."

Marshal Sirius seriously nodded his head and asked, "How many chances of rebirth did you give me, Jing'er?"

Feng Jing suddenly paused his words and averted his eyes and said, "I gave you one."

Seeing his lover's reaction Marshal Sirius knew he was lying, he was upset in his heart but couldn't really blame his lover because of it. Just that one mistake from before is enough for Feng Jing to worry about him too much. There is no way he had only given him one rebirth chance. But at the same time, he didn't clarify things with Feng Jing as there are other people who are with them at this moment. He can ask when they got back to their room.

Feng Jing said, "Anyway, Ying-gege is someone from Xiao Yeye's bloodline. He has half of the phoenix bloodline but it was dormant. Only I who possess the purest bloodline of the phoenix can help him awaken it. But unlike a direct descendant like me, his chance can only be said to be minimal. To be exact it is only a single chance, I am helping him to give this chance to Lin Yven. But once he does this... he will no longer possess that fast regeneration he used to have."

Xue Ying, who had clearly heard his cousin's explanation, didn't think twice when he heard about it. This was the second chance he had been begging the Gods to give to him.

"Xiao Jing! I agree... I will give Yve my chance of rebirth!" said Xue Ying.

Chapter 350: 8.75 First Blue Star - Lin Yven's Choice and Zhi Yue's Thoughts.

"Xiao Jing! I agree... I will give Yve my chance of rebirth!" said Xue Ying.

Xue Ying who had been begging God for this wish was finally given this tiny bit of hope to keep Lin Yven alive. No matter what is needed to be exchanged for it, Xue Ying is willing to pay any price. But among everyone in this world, only System Yue understood the real plan of his host. This is a Godly action that can only be made by his host using his full capabilities.

[Host, please stop. Don't do this! These people are just original residents of this world. They don't have anything to do with you. You would be putting your life at risk if you use the Blood Element to the fullest. When you used it to torture that Zerg prince before your body almost collapse. Moreover, it is against the Heavenly Laws of this world to go against the life of death. The world laws of this star would not agree to it. You wouldn't be able to defend it while interchanging their bloodlines to be mixed!]

'Who said I would defend the attacks of the world laws on my own? My husband is strong enough to defy those useless things,' replied Feng Jing to System Yue through their thoughts.

[That's not the problem, Lord Hei! Why are you willing to take a risk for mortals that aren't connected to you directly? This is so not like you...]

'True. This is indeed something I would do but... the original Feng Jing's wish is to keep his family and loved ones happy. If I allowed Lin Yven to die, Xue Ying wouldn't be happy and the wish of the original would not be fulfilled. Yue, I never failed the missions I've accepted. One failure in life is enough for me.' said Feng Jing.

Feng Jing is talking about the only failure of his life which resulted in Ye Xiejia's current state.

System Yue cannot understand why his host is doing this. He would never risk his life for the lives of others. Does this mean his host is like Feng Clan and his current family right now? But this is impossible, the only person outside the Mo Family that he could love like this is his Lord God.

Ever since his memories had returned, his host is showing too many emotions I've never seen before. It's unbelievable but what he is seeing right now is the truth. His host's human-like actions made System Yue feel unease yet at the same time happy. Because of this, he no longer needs to worry that he will get killed on the spot yet it also makes him uncomfortable as if his host is now revealing a weakness he never had before.

Feng Jing sighed and walked towards the couple. He had entered his own barrier while pulling over the Marshal with him lest the latter gets angry from getting ignored. It is better to drag him in with him. They are already a pair anyway, other Guide's pheromones would no longer affect his husband. Seating in front of Xue Ying and Lin Yven, are Feng Jing and the Marshal who sat down together with his lover.

Feng Jing didn't look at his elder cousin as the decision to accept the rebirth is for Lin Yven to decide.

"Yven, I'm sure you already know about your state. I could mostly guess what happened. If you used the flare I gave you means that the traitor's target must have been me."

Lin Yven smiled and silently showed his agreement to Feng Jing's words. Feng Jing could only sigh when he saw his newly admitted aide's expression. He placed his hand above Lin Yven's chest and used the blood element to activate his genes. This would increase the speed of healing of his body. This one action of Feng Jing is a lot more effective than the healing concoctions. Lin Yven's complexion looks a bit rosy and the latter no longer feels the pain in his physical body but Lin Yven still feels weak because of his broken spiritual domain.

"Thank you, Lord Jing," said Lin Yven as he could feel his body getting better.

Feng Jing reprimands him, "I allowed you to be alone but I never ordered you to risk your life. Etoile, you didn't stop him?"

Suddenly Lin Yven's communicator vibrates and glows on its own. A star avatar A.I. appeared.

[C-Creator? Etoile is sorry... But Host Lin Yven made this choice and Etoile did his best to explain the consequence but... he still decided to take the risk as that human villain is targeting the creator so... So Etoile... agreed to Host Lin Yven's request...]

Everyone who didn't know about Etoile's existence was stunned by how human-like this AI is. It is supposed to be an Artificial Intelligence whose only advantage is the high intelligence of a machine but this one is not like that. It can speak on its own. Think on its own and make decisions on its own. It could even express emotions like happiness, fear, and more.

But no one asks what it is for now as the case of Lin Yven is urgent.

Feng Jing said, "Yven before we begin there is something you need to know. Every rebirth had its own disadvantages. Though it is indeed able to reconstruct your body, it will only seal your past memories. This means you will not remember your life as the current Lin Yven once you wake up. Not your former name, not your current family which is the Lin Clan, and not even us this includes me, Solaris Vega, and everyone in your current life. The only person you would remember is your paired mate. In short, the one who gave you the permanent mark."

Once Lin Yven heard this his eyes widened in shock and looked at his elder brother not far from him and then to Xue Ying who had a guilty face. He knew about this as he had experienced it first hand. His grandfather Xue Xia had accidentally died once with Old Master Feng Xuan in one of the wars in the past. When they got reborn except for those with direct bloodline who could retain their memories, his Granduncle Xia took years before the seals in his memories were unlocked by him.

Xue Ying said, "This is true. When my granduncle Xia was reborn once, he didn't remember anyone except for his husband. It took years before he started remembering us. It's a bit hard to be treated as a stranger but we were able to bear it because at the very least Granduncle is still alive."

"I will forget my own family. My grandfather, father, mother, and elder brother?" said Lin Yven.

"It is temporary but... Yes, you would forget about them," said Xue Ying. "But... I want you to accept rebirth. Yve, in this current era there is still no one who could cure someone's broken spiritual domain. The other case of this ended with those who suffer the same thing into madness. I want to be alive. Can you choose over everything?" asked Xue Ying as there's a forced smile on his face but his eyes were tinted with helplessness.

His cousin, Feng Jing is right. The decision to enter rebirth is always on the one who will be undergoing it. His granduncle did the same thing. At that time there is no one more important to his granduncle than his husband and accepted rebirth without a second thought. This is because they loved each other for a long time. It is understandable that his granduncle will pick his husband above anyone else.

But Lin Yven's case is different. They like each other. This is true but the time they have spent as lovers is very short. Not even a day had passed since he realized his feelings though Lin Yven did like him for years, there were too many misunderstandings between them. He is not confident enough that his beloved would choose him over his own family.

When Lin Yven saw the expression of insecurity on Xue Ying's face, he understood what his man was thinking right now. He then glanced at his elder brother who was smiling in the distance and suddenly gave him a nod. He knew that Lin Tian, this elder brother of his, would most likely accept his rebirth more than his death.

Lin Yven asked his lord, "My Lord, will my memories really return after a few years?"

"Yes. It would be uncomfortable for you when your memories start to return but... it would be unlocked fully afterward," said Feng Jing.

Lin Yven thinks about it for a while, making Xue Ying uneasy. His hands holding Lin Yven slightly tighten as if he is afraid that the one in front of him would suddenly take his last breath, Lin Yven noticed this small action of his and smiled at Xue Ying. move1usb.com

"Then... I will accept. A'Ying, mark me," said Lin Yven with a gentle smile on his face.

The words he had said were like words coming from an angel to Xue Ying's ears. His tears couldn't help but fall as he once again pulled Lin Yven for a kiss. This kiss lasted for a while that the Marshal felt envious of. He hugs Feng Jing's waist and suggestively says that he wants a kiss too. Feng Jing narrowed his eyes on his husband and pinched his waist which signifies that he doesn't agree.

Hmph! Feng Jing chooses to ignore his lover leaving the marshal to lower his head on Feng Jing's shoulder pouting silently. After all, it's been a while since they've shared a kiss after the Marshal had made his wife angry. Since he can't kiss, he can only back hug Feng Jing tightly in his embrace. After making his wife angry once, the marshal never did anything Feng Jing didn't want to.

Feng Jing also realized this and leaned on his lover to let him hug him more comfortably. He is still not willing to forgive this fool so easily lest he wouldn't learn at all.

Between Xue Ying and Lin Yven's marking, there weren't any hot scenes exchanged as they were running out of time. Xue Ying could only bite the nape of his beloved while allowing his pheromones to ease the pain his lover is suffering from. Once they were done, Feng Jing took each of their hands and made a cut that mirrors each other. He made a use of the wound on each other allowing their blood to mix.

Xue Ying frowned for a bit and said, "Xiao Jing, what are you planning to do?"

"Mixing bloodlines. That way the possibility of retaining Lin Yven's memories is higher because I will use you as the catalyst to awaken them. Or do you not agree about this?" said Feng Jing as he looked seriously at his elder cousin.

Xue Ying happily grinned after knowing what his cousin had in plan. "Hehe~ go ahead, Xiao Jing."

Feng Jing rolled his eyes at him and look at Lin Yven, "The process to mix your bloodlines will be a bit painful and just ahead up, this means your future son or daughter would be born will be possessing the highest purity bloodlines of your families like me..." an evil smile appeared on Feng Jing stunning the two couple speechless.

They wanted to say something to Feng Jing but an unbearable pain hit their bodies making them unable to hold back their voices to scream. Even the veteran soldier like Lieutenant General Xue Ying couldn't hold back his voice.

Feng Jing had transferred more pain to his elder cousin than to the injured Lin Yven, so he knew why his elder cousin could not stop his screaming.

"Bear with it, Ying-gege. I've passed most of Yven's pain to you as his vessel is too weak to bear it. I'm sorry~" said Feng Jing.

Amid his pain, Xue Ying still gave his cousin a thankful smile as the former knew that he wouldn't agree to let Lin Yven bear this much pain. He is willing to carry all the pain for both of them. As his mind slowly calms down, his pain tolerance increases as well. Now Xue Ying no longer screams but just grits his teeth in silence. Lin Yven on the other hand reaches out towards Xue Ying and hugs his neck. The pain in his body was tolerable but he couldn't stop himself from trembling.

The pain lasted for half an hour until a pair of small phoenix wings appeared behind Lin Yven's back and a feather insignia appeared on his forehead. It means that Feng Jing successfully mixed three bloodlines of Xue, Feng, and Lin.

Once the phoenix bloodline successfully awakened on Lin Yven, Feng Jing finally stopped what he was doing. By controlling the blood elements he made sure that Xue Ying and Lin Yven's bloodline mixed to share his cousin's dormant phoenix bloodline in him to his lover. Mixing bloodlines is usually considered forbidden in any world, as mixing bloodlines means creating something that should be existing. Someone, not the world, had created himself. It is a taboo that is not accepted by the heavenly laws.

The backlash Feng Jing received from going against heaven's law intentionally made the current vessel he had to decline. His current vessel is still after all an original object created by the world he is in right now. It is not his real body so he couldn't avoid the consequence of doing something forbidden.

The moment he fell into his husband's embrace, he pushed Xue Ying and Lin Yven away from them. The sky above Feng Jing and the Marshal suddenly turn dark and the sounds of thunder can be heard looming over the couple.

RUMBLES~

At this moment everyone's expression turned serious. They looked at the dark sky above and felt that things were not going to end well.

"What is happening!? Is that thunder?!"

"But why only in this area...!!!"

"Why does it feel that this thunder is targeting someone intentionally!?"

Panicked engulfs everyone's heart and among them only Feng Jing and the Marshal were calm. Feng Jing was looking at his lover with a smile and the marshal only needed to see this expression to understand who the target of those thunder was. The Marshal's heartbeats quicken with this realization and at the same time, he feels something bad is going to happen.

Marshal Sirius and System Yue yelled at the same time when they saw what Feng Jing did next. Everyone watched as Feng Jing's quantum beast suddenly appeared out of nowhere, took his master from Marshal Sirius, and flung the marshal away. This beast is too beautiful, a huge phoenix yet possesses scales and features of a dragon mixed within its bloodline. Just based on its overwhelming aura it wouldn't even lose to a battle against a Dragon King like the marshal's quantum beast. As soon as Feng Jing had his Reine pushed away from the marshal and System Yue he suddenly started coughing blood.

Cough! COUGHED! A mouthful of blood came out of his mouth which tainted his clothes and dyed them in crimson. He nonchalantly wipes the blood with his trembling hands and looks at his bloodied hand.

"Urk! Ha~ This vessel is much weaker than the former ones. Is it because it has undergone rebirth multiple times every time this world is a hard reset."

CAWS~~ [Master, your soul, and vessel are both unstable.]

"I'm fine, Reine. It would return to normal soon," murmured Feng Jing as he pats the head of his Phoenix-Dragon Hybrid quantum beast.

Beyond the barrier.

[Host, what are you doing!?!]

"JING'ER!!" Yelled Marshal Sirius as he tried to return to his lover's side only to be blocked where he is right now. When they tried to approach Feng Jing an invisible barrier blocked their path.

TSK!

He even summoned his quantum beast the Black Dragon King to help him break the barrier. "Roi, destroy the barrier!" commanded the marshal.

ROOAAR~ The dragon howls in the sky as he breathes out fire towards the barrier but it only shows ripples on it and not even a scratch can be seen. When the Marshal was flung out just now, System Yue was thrown out at the same time.

"No. no. Please don't do this, Lord Hei. Your vessel wouldn't be able to block the heavenly tribulation."

In his panic, System Yue materialized in his human form as Zhi Yue out of nowhere with fear and panic in his eyes. Seeing the current situation right now, he knew his host was letting his Lord God feel what Lord Hei had felt when he heard that his Lord God had gone to the enemies alone without telling him a thing. The panic and fear that filled his host's heart at that time, Lord Hei wanted his Lord God to feel it as well.

Everyone had no time to notice when Zhi Yue appeared as they were all trying to destroy the barrier to get Feng Jing out of there. After all, the center of that barrier was the target of the thunder converging above the sky.

But the Marshal heard what Zhi Yue had yelled just now. He grabbed Zhi Yue and asked, "What is happening? Yue! tell me what is happening right now?!" asked the Marshal.

Zhi Yue who was suddenly grabbed by his collar had a hard time breathing but thankfully his body is still of God. A mortal like the Marshal would not really be able to harm him at all.

"Isn't this your fault!?" bellowed Zhi Yue as he glared at him supposed to be boss and pushed away his hand. "If you had allowed me to inform my lord that night about what you had planned then you wouldn't have fallen in the brinks of death and Lord Hei wouldn't be untrusting towards me as well. You are the only reason why he exists in this world. But what is he supposed to do if you don't even treat your own life as important."

Zhi Yue had finally lost it when he saw his host's state. That paleness is caused by a lack of blood. Feebleness that he couldn't stand up on his own and that pool of blood that came out from his own mouth.

"What should I do? If the host's soul got exhausted in this world again like the one from last, his cultivation would not only get weaker. We also wouldn't be able to enter a high-ranked world to heal his soul. Should I tell Lord An Liang about this? But if I do I might alert some enemies... AH~ Lord God when are you going to wake up!!!" yelled Zhi Yue totally forgetting where he is right now as his gaze is only at his suicidal host inside the barrier.

Recollection of Zhi Yue's hidden thoughts.

Zhi Yue couldn't understand why his extremely intelligent host acted this unreasonable. For some so smart as Lord Hei, there is no way he would make this kind of action which is an embodiment of someone being foolish. Someone of this structure had never acted this way before. He is also the infamous God of Destruction, someone who is merciless and ruthless to both his enemies and those who try to harm him.

But unfortunately, the one who had made him like this is the only person he loves the most. The only man who was able to move his cold heart and melt so it could once again start beating. His host, Lord Hei, is someone feared yet revered by everyone from the world they came from. He is a top-tier God who possesses the immortality that every cultivator wants to have. He is like an untouchable being. Someone, they could only look up to, a person to only stare from a distance.

When Zhi Yue meets his host for the first time, he is like what he had imagined. Cold and aloof, his eyes were looking at you but you can feel that his sight was never on you. He is never interested in things that aren't fun. To this immortal which is almost known as an Evil God, no one would think there would be another person who can move his feelings.

At first, his care for his Lord God's soul fragments is only an obsession for that sudden warmth that was given to him by his Lord God's love for him. No one knew why and how they ended up like that. The attraction they feel for each other is sudden for Zhi Yue but as they spend more time in each world, a hidden secret that no one would expect to suddenly come out little by little.

When Zhi Yue witnessed his host, Lord Hei Anjing unsealed his full memories in exchange for his life, he felt fear for the first time. To Zhi Yue's eyes, Lord Hei Anjing's existence is close to permanent existence; no one is there that is able to harm him. He is one of the strongest beings that existed in Vearth.

A single stabbed in the heart, blood flowing continuously but this beautiful yet cold person only had his eyes closed as if he was sleeping. Zhi Yue had witnessed Lord Hei Anjing's breathing stop as his eyes turned dull before it closed completely. His heartbeat suddenly halted and his serene appearance made him look like in deep slumber. But he knew that at that moment he truly took his last breath and died.

But that Heavenly Willow Tree Deity told him that his lord, Hei Anjing, isn't dead. Except for his Lord God, Ye Xiajie, and the Mo Clan, no one else is able to kill someone from the Mo Bloodline. Even if the Heavenly Willow Tree Deity killed the vessel of Lord Hei Anjing many times, he would definitely come back to life.

At first, Zhi Yue is befuddled. He had never since been a God Cultivator reviving from death before. Even though there are rumors about the Mo bloodline's immortality, he himself has never seen it before. That was until now. His worldview was completely destroyed when he suddenly heard his host take a breath as if coming back to life. Followed by this silent gasp is the opening of his eyes revealing the rare color of the moonlight. A silvery light-tinted his irises, whiteness that can even rival the snow.

Then Zhi Yue watched as his host pulled the tree branch that pierced his heart revealing an empty deep hole. The vessel of his host at that time is truly dead. The heart had been squashed to nothing and it was weird that Lord Hei could still move. His purplish eyes met those silvery ones which left Zhi Yue dazed. He felt that his host finally looked a bit like a human yet at the same time not. The feeling of bewitching was what Zhi Yue had thought at that time. He was even rendered speechless when a gentle smile appeared at the corner of Lord Hei Anjing's eyes.

At that point, Zhi Yue knew that his host had changed as for how and which part was changed so he couldn't look through it at first sight. He was only able to understand it in the other worlds he accompanied his host. The feelings of joy, sadness, surprise, and more, everything that solely used to appear in the presence of his Lord God was suddenly experienced by Zhi Yue.

It was surprising in the beginning but Zhi Yue slowly got used to it. As more time in every world was spent together, Zhi Yue's loyalty, which is solely for the Lord God, started to lean more on his host. Even he noticed it, he is not stupid. Zhi Yue felt that this is a betrayal to his Lord God whom he revered and so in this world, he chose to accept all his Lord God's soul fragments orders. Including that night when he was ordered not to report to Lord Hei about their almost suicidal plan of attacking the zergs.

But as a result, not only did his Lord God's soul fragment almost die, his host almost lost control of his feelings, and this world was once again almost destroyed. When his host suddenly got angry at him and scolded him, Zhi Yue regretted it. The trust he had shared with his host was suddenly destroyed with one mistake and because of this Lord Hei started giving his task which would make System Yue be away from his host. Only then did Zhi Yue realize that his choice at that time was wrong. He should have just sided with his host, now his host's sudden suicidal move scared him to death.

These are the heavenly laws of this world. It might be weaker than the Divine Laws but Zhi Yue knew that his host's current cultivation is weaker than it used to be. The former Immortal God not only lost his vessel and his soul injuries never healed no matter what. Even if Zhi Yue wanted to turn a blind eye to this, he knew that Lord Hei Anjing's state is no longer normal but the latter is not willing to tell him anything.

After all, he is just a system to guide him through his world-hopping. A stranger who works for him under the orders of the Lord God.
